

## Seminole Experts Raise The Issue

# Drug Cause: The Doctor Or The Patient?

By MARYLIN SHEDDAN  
Herald Writer

There are a lot of adults in Seminole County — just like in the rest of the nation — who are becoming addicted to the commonly prescribed drugs, according to Thomas W. Hodges, Seminole County Drug Action Committee (SCDAC) director.

And the problem is worsening, Hodges asserts. Why? Mostly because there are a lot of unhappy and dissatisfied adults, according to Hodges and other professionals who are close to the problem. And there seems to be no panacea for the problem which may lead to socio-

economic disaster in the United States, according to one of those professionals.

"Last year there were 65,000 prescriptions filled in Seminole County for Valium, Librium and Darvon alone," said Hodges. That represents 72 per cent of the adult population of the county. People with pill-popping habits come from all walks of life," Hodges added.

"Perhaps it just comes from the fact that people are never satisfied, that they always want something better than what they have," he said. "It is the same problem that has plagued mankind since it began to think,"

according to Hodges. "People want to know 'what am I doing here?' and 'what is going to happen to me?'"

Hodges sees drug abusers of all ages at the SCDAC clinic, 1309 SE Lake St. (SR 427) Longwood.

"Any citizen of the county may come to us for help," he said. "Priority always is given to the resident with a drug problem, though we also treat other problems," said Hodges.

What does the SCDAC provide for people with drug problems? "Counseling," said Hodges. "We provide them with goals,

each set so they can expect to help themselves a little at a time."

"We had one family come in where all three members, the husband, wife and child, were on drugs. The parents were taking close to 16 tranquilizers a day," said Hodges.

"The father was hassled about his job, and he never wanted to get out of the house at all. Besides that the child, who was in trouble with both the school and the law, was driving him up a wall," Hodges said.

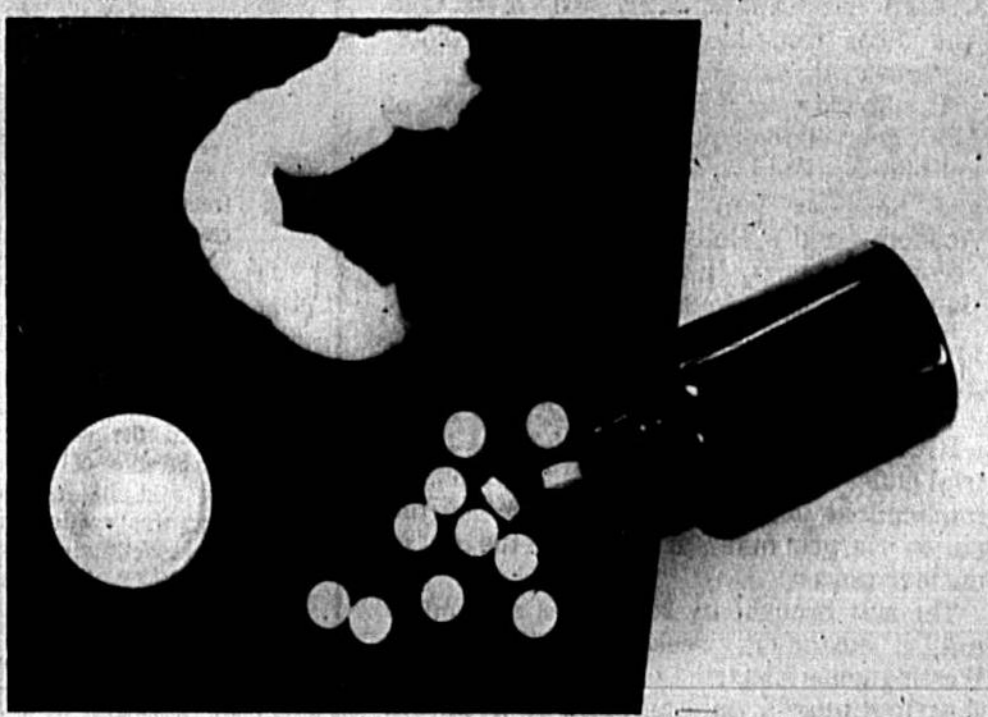

"The wife was upset because the husband never wanted to go anywhere,

because she could not get any money from him, and because of the child," Hodges said.

"Our initial goal for them was just to decrease their intake of tranquilizers. Obviously you could not expect to go from 16 to zero. We attempted to help each parent reduce intake by one pill a week," Hodges said.

While the pill-taking was being reduced Hodges and his staff also counseled the family on coping with their other problems — the stress situations that made them pop pills in the first place.

"We encouraged the See DRUGS, Page 2A

## POT AMONG THE PALMETTO

Sheriff's deputy C.B. Littleton displays one of nearly 200 cultivated marijuana plants seized Sunday in a fenced patch amid palmetto scrub off Osceola Road in the Geneva area east of Sanford. "There were no weeds, and the plants had been fertilized," said Littleton, who left a sheriff's department calling card with a note to the pot plants' owner that they can be claimed at the sheriff's office.

## POP GOES POP WARNER

A contingent of 1,100 youths paraded on the Lake Brantley High field in jamboree ceremonies at the Pop Warner League football season for youngsters ages nine through 13 got underway over the

weekend. About 2,500 spectators watched the exhibitions. Regular season opens Saturday. More photos, details, Page 6A.

## 'Sex' Charge Ends In Trimming

TALLAHASSEE (AP) — The Barbers Sanitary Commission today suspended the license of a Jacksonville barber school operator who has accused panel members of trading examination grades for sexual favors.

The commission suspended the license of William O. Aldrige, owner of the Florida Barber College in Jacksonville, and one of his employees, Aldrige last week turned over sworn affidavits against several commissioners to state legislators.

The commission accused Aldrige of allowing drug use at his barber school, openly displaying pornography, and letting students have credit for hours they did not work. Neither Aldrige nor his employee, Melvin Rutman, appeared before the commission, but another Jacksonville apprentice

barber told it he had sworn affidavits accusing several commissioners of wrongdoing. But Peter Pietron of Jacksonville would not tell reporters who the allegations were against, details of the charges or who had made the allegations in the affidavits.

# Sanford's Dr. Starke: Park Now Bears Name

DR. JORGE GOMEZ (LEFT) AND DR. GEORGE STARKE

Sanford Mayor Lee P. Moore Sunday named the park and picnic area on Fifth Street at the end of Lake Monroe Terrace "Dr. George H. Starke Memorial Park."

The proclamation was the highlight of an Appreciation Day program at the Sanford Civic Center for Dr. Starke, who has been a Sanford physician for 50 years.

More than 500 friends and family members attended the event at which Dr. Starke said he was overwhelmed by the praise, flowers, gifts and awards showered upon him.

Plaques were presented to the doctor, humanitarian and community leader by Dr. Thomas L. Largent and Dr. Luis Peres on behalf of the Seminole County Medical Association and Dr. Jorge Gomez, president of the Seminole Memorial Hospital Medical Staff, for his service to the hospital and community.

The doctor first opened his practice in Sanford, Sept. 15, 1927. He was the first black doctor to gain membership in the Seminole County Medical Association and the Florida Medical Association and the second in the American Medical Association.

The local chapter of the Florida A&M University Alumni also renamed their chapter the "Dr. George H. Starke Alumni Chapter of Sanford" in honor of the Florida A&M graduate.

Congratulatory telegrams from Senators Lawton Chiles and Richard Stone were read.

Other plaques and awards were presented to the guest of honor by many churches, organizations and agencies, such as Seminole Community Action, Inc., the Eastern Star, Alpha Phi Alpha Fraternity, Just Us Club, and the Winter Park District of the African Methodist Episcopal Church.

A parchment scroll containing a list of more than 200 names of well-wishers who had presented love offerings was presented to Starke, who will celebrate his 79th birthday Oct. 12. More than 50 members of Dr. Starke's family were present for the occasion.

"ANOTHER THING YOU'VE WONNING A RUSTY AND GENERALLY INCOMPETENT AS A VOLT RESISTANT"

# NATION IN BRIEF

## 'Roots' Dominates Longest Emmy Show

LOS ANGELES (AP) — "Roots," the most watched TV show in history, swept nine Emmys from the Television Academy. The 12-hour mini-series seen on ABC last January won Emmys for best limited series, directing and writing, with acting awards going to Louis Gossett Jr., Edward Asner and Olivia Cole. The three remaining Emmys for "Roots" were in craft categories.

The Sunday night Emmy Awards Show on NBC, delayed four months by a squabble that split the National Academy of Television Arts and Sciences into an Eastern National Academy and a Hollywood Academy, ran a record 3 1/2 hours. It was 40 minutes longer than the previous longest show last year.

## Suit Imperils Westinghouse

RICHMOND, Va. (AP) — A federal court trial under way here could have far-reaching implications on the future of one of the nation's largest manufacturers and the cost of nuclear power.

The suit brought by 20 utilities serving 33 million customers, seeks \$2.5 billion from Westinghouse Electric Co. The suit centers on Westinghouse's cancellation of uranium supply contracts, which the firm says was caused by the Arab oil embargo.

If Westinghouse is forced to pay the \$2.5 billion asked by the utilities, it could have a serious impact on the giant firm. If Westinghouse wins, it could mean higher bills for consumers.

## Anti-Gas Guzzler Action

WASHINGTON (AP) — The Senate is scheduled to take action today on a bill which would keep automakers from selling any more "gas guzzlers." The legislation puts a ban on cars that get less than 16 miles a gallon, beginning in 1980.

The Senate will spend most of the week on President Carter's energy package. The House passed its version of the energy proposal early last month.

Meanwhile, the financial troubles of Budget Director Bert Lance will again command attention as Lance goes before the Senate Governmental Affairs Committee Thursday to defend his transactions while a banker in Georgia.

# Latin Regimes On Canal Pact: Ole'

MEXICO CITY, (AP) — Latin American governments approve of the new Panama Canal treaty, but a few countries, notably Mexico and Brazil, are less enthusiastic than others, an Associated Press survey shows.

There is general agreement, however, that the treaty will lead to better relations between the United States and Latin America.

The AP survey indicates most Latin American governments agree with the Costa Rican foreign minister, Gonzalo Facho. He said the treaty signing in Washington last week "erased the last vestige of colonialism remaining in America, and a new era arrived in which the relations of the United States with Latin American nations will be better."

# Did Lance Family Use Bank Planes?

WASHINGTON (AP) — The Justice Department's criminal fraud division is studying the results of a new government investigation that reportedly delves into Bert Lance's personal use of bank-owned aircraft.

A spokesman for the Justice Department confirmed Sunday that the fraud division had received the report from the controller of the currency, but said the referral of the study was "routine" and did not necessarily indicate there would be any prosecution.

While confirming the existence and the routing of the controller of the currency's report, the Justice Department spokesman refused to discuss the contents.

# Man, 24, Drowns In St. Johns River

RICHMOND, Va. (AP) — A 24-year-old man drowned Sunday afternoon in the St. Johns River at 33-44 near Sanford after jumping into the river from a fishing boat to cool off.

Deputies said Lawrence Deon Evans, of Old Osceola Road, apparently was drawn into debris in the dredged channel by a strong undercurrent.

His body was recovered by Seminole County Fire Department diver Roger A. Shea after a 25-minute search of the murky water near the treatment plant.

## Action Reports

- ★ Fires
- ★ Courts
- ★ Police Beat

Sheriff's deputy Elton Grantham said plant manager Charles Butterworth said the sludge can become highly combustible if moisture content gets too high.

Deputies said Lawrence Deon Evans, of Old Osceola Road, apparently was drawn into debris in the dredged channel by a strong undercurrent.

His body was recovered by Seminole County Fire Department diver Roger A. Shea after a 25-minute search of the murky water near the treatment plant.

## CAR HITS TREE

Altamonte Springs police reported Charles Edward Staats of Box 672, Longwood, was treated and released from Florida Hospital North, Altamonte Springs, after receiving facial injuries when the car he was driving slammed into a tree on Lake Mary Boulevard in Lake Mary during a high-speed chase on I-4 from Altamonte Springs. Police said Staats posted \$325 bond and was released from jail following his arrest on charges of driving under the influence of alcoholic beverages, fleeing and attempting to elude police, reckless driving, and no valid driver's license or inspection stickers.

Florida Highway Patrol Trooper Phil Dixon said the 1967 metal station wagon almost collided with several autos on I-4 and was clocked by radar at 107 miles an hour before turning off the interstate onto Lake Mary Boulevard.

Trooper Dixon said at one point during the chase the station wagon crossed along in the I-4 median, and 100 miles an hour as it attempts to elude officers.

## CREASE ON PRIS

Sheriff's deputies reported a five-day motor detention early today at the Chain and Co. building, U.S. 17-80 and 85-419, south of Sanford. County Sheriff's deputies said the five-day detention was the result of a motorist's refusal to pay a \$100 fine for a traffic violation.

County fire department diver Roger Shea Jones search for drowned swimmer.

# FLORIDA IN BRIEF

## News Coverage In Florida Executions Is Unchallenged

TALLAHASSEE (AP) — There have been no challenges to a rule setting news-coverage restrictions for any Florida executions, so that rule will soon become law, prison officials say.

The Florida Department of Offender Rehabilitation imposed the 90-day emergency rule in July, readying for the time when the state, for the first time since 1964, sends someone to the electric chair in the Florida State Prison at Starke.

Six inmates have exhausted their appeals, but Gov. Reubin Askew hasn't yet signed any death warrants.

The news-coverage rule bans television cameras and tape recordings and limits to 10 the number of reporters who can witness an execution.

## Clara Loses Her Status

MIAMI (AP) — What was once Hurricane Clara has wound itself down into a low-pressure system of harmless, squally weather sweeping into the open Atlantic Ocean south-east of Newfoundland, the National Hurricane Center says.

Clara, which was downgraded to a tropical storm early during the weekend, had posed a mild threat to Bermuda early Sunday.

## Salvation Army: A New Task

CLEARWATER (AP) — The Salvation Army, known for helping the needy, has another job in Florida — supervising the probation of those convicted of misdemeanors.

The Salvation Army has always been involved with people who are destitute and people on the fringes of the law, says Salvation Army Capt. David Waite.

Waite says the Salvation Army's Correctional Services division has taken over the probation job for adults who commit misdemeanors in many areas of Florida.

## Where Is The Leadership?

TALLAHASSEE (AP) — Some members of the Florida House are about as anxious as Speaker Don Tucker to see what the U.S. Senate finally does with his nomination to the Civil Aeronautics Board.

Because until Tucker is either confirmed, rejected or resigns, they don't know where to look for leadership.

Adding to the anxiousness was last week's decision by the Senate Commerce Committee to cancel a long-awaited Tuesday hearing on Tucker's fitness for the \$50,000-a-year job that President Carter named him to last June. The hearing may not be held until October.

## Foreign Business Sought

TALLAHASSEE (AP) — Gov. Reubin Askew goes back to Europe later this month for another try at attracting foreign businesses to Florida.

Askew leaves Sept. 23 with nine top business leaders for the Netherlands and in Switzerland in hopes of luring foreign banks with an international banking bill passed by the 1977 legislature.

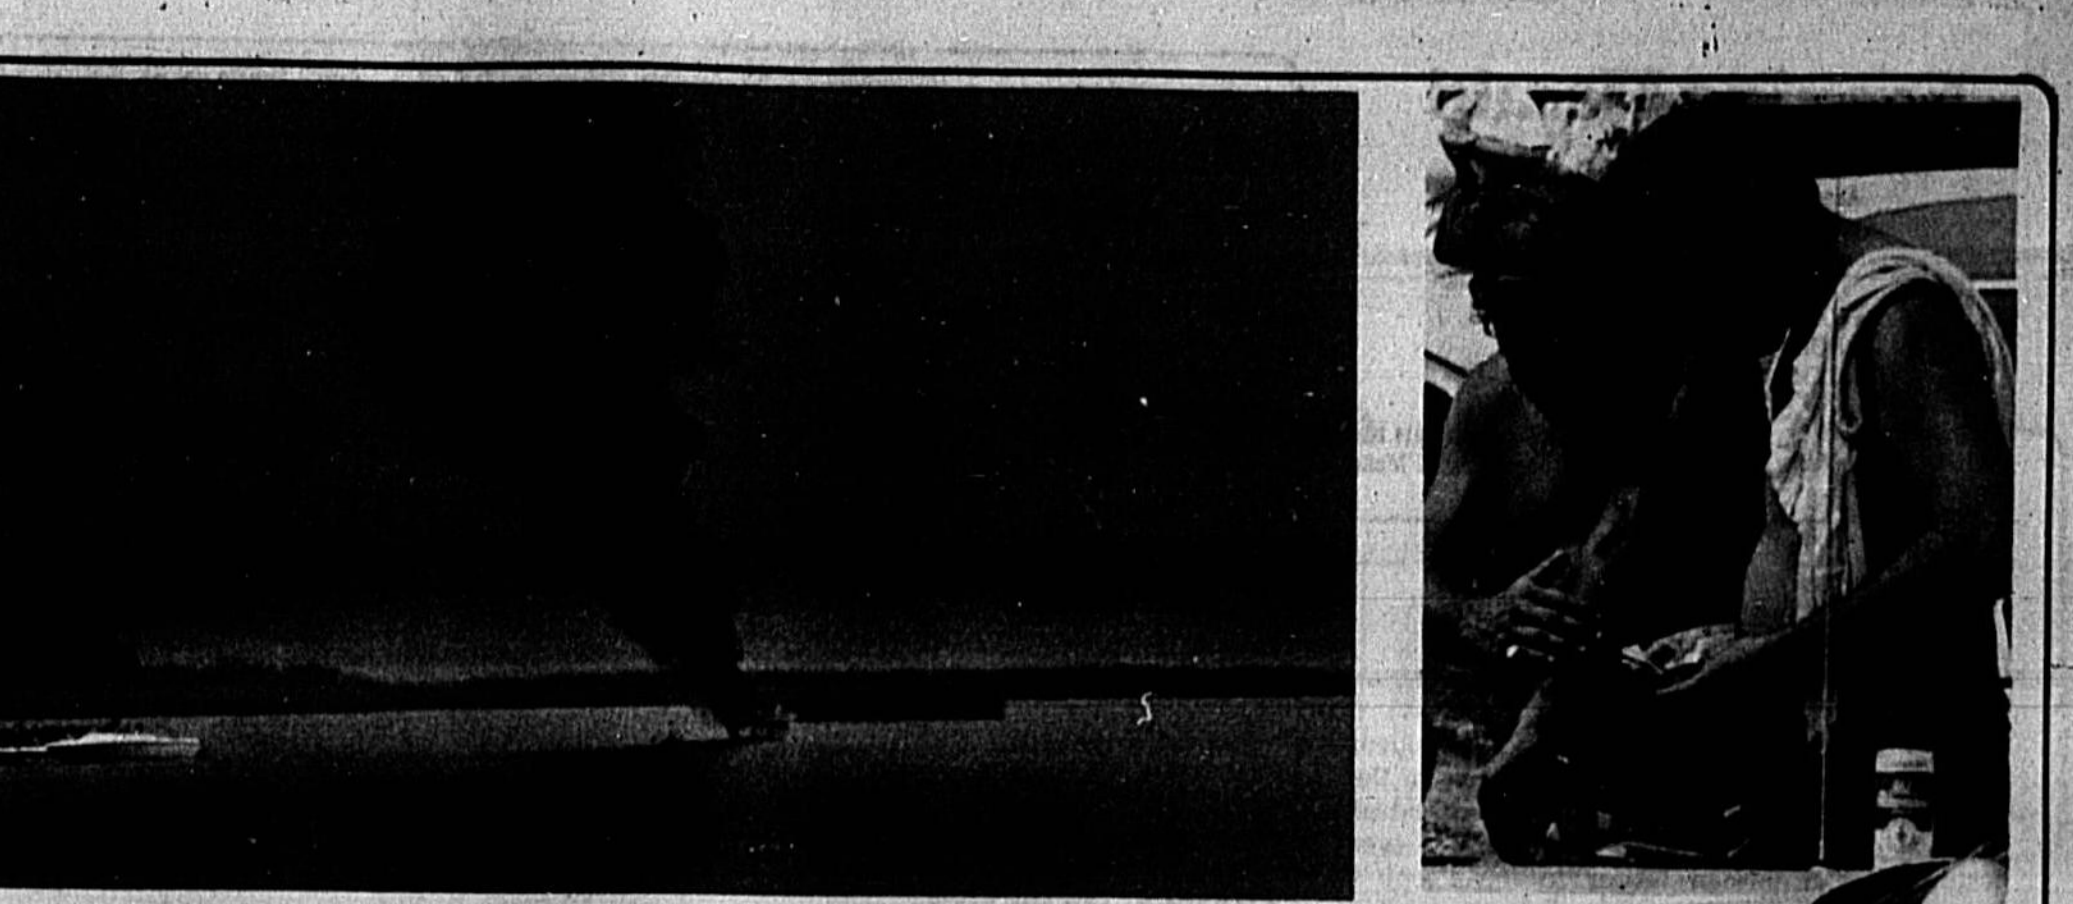

He will speak in Zurich and Amsterdam to various European financial leaders in addition to several other planned speeches to all types of business leaders.

## Oil Buy A Deal: Purchaser

MIAMI (AP) — The Texas firm that bought Becher Oil in February says it got a good deal even though the Miami-based company is losing its largest customer and faces a federal probe for alleged overcharging.

"It's a good, soundly based company," says Bob Wells, a vice president for Coastal States of Houston. "There is nothing that has transpired that would have changed our investment procedure."

Coastal States paid \$90 million for Becher, getting the company's 340-million gallon storage capacity, 20 terminals, and office facilities worth \$22.4 million; more than 100 delivery trucks valued at \$3.4 million; 23 tugboats and 18 barges worth \$8.9 million and land worth \$2.1 million.

## RECALLING A CLOSE CALL

Orlando fireman Donald Lawrence, Slover, 34, (right) and Orville Criss, 37 (right photo) of Ocoee, relate how they escaped without injury when Slover's 21-foot boat exploded and burned Saturday afternoon (left photo) in Lake Monroe near Sanford. Slover told sheriff's deputies the twin engines sputtered

minutes after the boat was launched from public ramp at U.S. 17-92 and the engine compartment exploded, knocking the men into the cabin. Efforts to combat the roaring blaze with fire extinguishers were futile. The men jumped overboard and were picked up by a nearby boat. Slover said his boat was valued at \$5,000.

## Hearing Tuesday Night At 7

# The Public And The County Plan

By MARK WEINBERG Herald Staff Writer

Members of the public will have a chance to tell the Seminole County Commissioners what they think of the county's proposed comprehensive plan at a public hearing on the plan Tuesday night at 7 at the courthouse in Sanford.

A final hearing on the plan will take place Sept. 27, and following the hearing commissioners will vote on the plan.

The commissioners already have adopted the plan "development framework," which contains the policies on which short-range development plans for unincorporated areas of the county and an inter-governmental cooperation statement are based.

Tuesday night's public hearing follows dozens of meetings by the county's planning office with officials of Kercher, county planner.

The short-range plan will provide a policy guide for future zoning action by the county commissioners, and the short-range plan states that plan identifies a "small number" of parcels the planning staff recommends for rezoning, according to Bill Kercher, county planner.

The rezoning action by the county commissioners, and the short-range plan states that plan identifies a "small number" of parcels the planning staff recommends for rezoning, according to Bill Kercher, county planner.

June 21 approved the policies portion of the plan by a 4-1 vote, with Commissioners Dick Williams, John Kimbrough, Bob French and Bill Kercher voting in favor and Harry Kwiatkowski voting against.

Kwiatkowski denounced the development framework as an "infringement" on personal and private rights.

One of the principles of the 200-page, three-volume development framework is a "user pays philosophy" under which some governmental

services would be financed in designated "unincorporated urban areas" through special taxing districts.

Some city officials had opposed portions of the development framework which they considered to be infringements on city prerogatives in transportation and drainage planning. The proposals were softened in subsequent drafts of the plan and city opposition to the plan diminished.

## Welcome Tito, All's Forgiven

Just a few years ago, Yugoslavia's President Tito was denounced in Peking as a traitor to the Communist cause. On Aug. 30, he was guest of honor at one of the most lavish receptions ever bestowed on a foreign visitor to the People's Republic of China.

Undoubtedly, one reason for the fancy party is Tito's independence from Russian communism. Another may have been that the Chinese are genuinely interested in the Yugoslavian form of communism-capitalism, about which they quizzed Tito at length.

Whatever the cause, Western observers are assessing Tito's warm reception as another signal that the Chinese Communist party has reached a turning point in its domestic evolution.

Previous signals have been ample. The recent 11th party congress elected a leadership that doesn't include a single member from the factions piped by Mao Tse-tung during the cultural revolution. Teng Hsiao-ping, the fiery pragmatist, has been reinstated, and the new constitution orders the Communist party to ensure that China is a "powerful Socialist country with modern agriculture, industry, national defense and science and technology by the turn of the century."

How much things have changed and how rapidly is yet to be seen. But there is no doubt about the direction. China has closed the book on the cultural revolution and is toying with Yugoslavian capitalism-communism.

This transition may account for the correct and coolly polite reception accorded U.S. Secretary of State Cyrus Vance in Peking recently. So far as is known he is not badgered publicly about the continuing U.S. relations with Taiwan. And the Chinese leadership waited until Mr. Vance returned to Washington before raising the issue of Taiwan or suggesting an ultimate U.S. Soviet confrontation.

By Chinese standards that's moderation. It suggests China may indeed be ready to try an experiment with Westway-style economics.

If so, the Taiwan issue, which has long been a complex obstacle in U.S.-Chinese relations, will continue to simmer on the back burner for some time.

In the meantime, if China really intends to become a modern agricultural, industrial, scientific and technological nation in less than a quarter of a century, the United States should find plenty of opportunity to broaden relations with Peking. We have, after all, had several hundred years of experience with capitalism.

## Blessing Or Ripoff?

Book Adams almost certainly views his decision as a blessing to the American motorist community, citing again and again the annual saving of 9,000 lives.

But the sponsor of a move in Congress to kill the secretary of transportation's order to ordering drivers to install air bags beginning in 1981 calls the Adams resolution a "330 billion consumer rip-off."

Rep. Don Stutzler, a Pennsylvania Republican, charged that Adams' ruling is premature and unsupported by hard evidence.

And most of the affected motorists in auto air bags beginning in 1981 calls the Adams resolution a "330 billion consumer rip-off."

Rep. Don Stutzler, a Pennsylvania Republican, charged that Adams' ruling is premature and unsupported by hard evidence.

And most of the affected motorists in auto air bags beginning in 1981 calls the Adams resolution a "330 billion consumer rip-off."

## BERRY'S WORLD

## Around

The time and place has been scheduled for a caucus to select the delegates who will represent Seminole County at the Democratic Party's State Convention in November. This was done at a meeting of the Seminole County Democratic Executive Committee last Thursday at the Quality Inn, Longwood.

By NANCY BOOTH

## ANGLE-WALTERS The CIA On The Campus

WASHINGTON — The presidents of approximately 50 colleges and universities, including many of the nation's largest and most prestigious institutions of higher learning, are about to be confronted by an especially sensitive political problem.

Those academic leaders will soon be asked by two national organizations to determine whether faculty members, graduate students or administrative officials on their campuses are serving as clandestine recruiters and "most scouts" for the Central Intelligence Agency.

The schools will be asked to draft new institutional regulations prohibiting not only that practice but also the covert use of academics to aid the CIA in intelligence operations and propaganda activities.

The notion that the CIA still maintains a network of secret operatives on college campuses throughout the country ought to provoke dismay — if not outrage — on the part of those who thought such intrusions were terminated long ago.

But only last year, after a lengthy study of CIA domestic activities, a Senate committee chaired by Sen. Frank Church, D-Idaho, reached this disconcerting conclusion:

"The CIA is now using several hundred American academics who, in addition to providing leads and, on occasion, making introductions for intelligence purposes, occasionally write books and other material to be used for propaganda purposes abroad."

The committee said it was "disturbed" to find those practices "in over 100 American colleges, universities and related institutes" but recommended no remedial federal legislation because "it is the responsibility of... the American academic community to set the professional and ethical standards of its members."

The committee's public report was tightly edited to meet CIA security restrictions. But at Harvard University, one of the few schools to accept the challenge to clean house, a study committee faced no such constraints — and its report included a chilling description of CIA-inspired invasions of privacy on campuses.

Selected faculty, students and staff members "have an ongoing confidential relationship with the CIA as recruiters," the Harvard committee found. Their job is to covertly identify to the CIA other members of the academic community "who may be likely candidates for an espionage or other relationship with the CIA."

That action triggers "a secret background investigation" in which the candidate's past activities and present activities are covertly probed without his or her knowledge.

The American Civil Liberties Union and the Committee to Stop Government Spying, a Washington organization headed by Morton Halperin, are quietly organizing a campaign to call on college and university presidents to follow Harvard's lead.

## JACK ANDERSON-LES WHITTEN

WASHINGTON — A sordid little sex offense involving Jack Anderson, Miss. police lieutenant, could have led off a major political scandal in Mississippi.

The anonymous officer, Lt. John Moulder, allegedly threatened to arrest a young woman unless she submitted to his sexual demands. The case would deserve no special attention, except that some powerful politicians have tried hard to cover it up.

Even the formidable Sen. James Eastland, D-Miss., intervened in the case. An FBI official told me that Eastland made inquiries that led to a "distraction of justice."

This attempt to hush up a small incident may prove a far bigger story about how politics is practiced in Mississippi. The scenario has a familiar ring: It is beginning to sound like a Mississippi Watergate.

Moulder is a former vice squad chief who is befriended with the backbones of Jackson, he has been confirmed to jailhouse, indeed, that he has knowledge of the after-hours activities of certain powerful political and business leaders.

Members of the FBI now been accused of smothering some of the FBI's own reports in previous. The allegedly concealed with the arrest of a young woman on drug charges and threatened to serve time unless she "submitted to him for sexual relations, both natural and unnatural," according to a confidential police report.

The charges were thoroughly investigated by

the internal affairs office of the Jackson Police Dept. The FBI was also called in to determine whether the woman's civil rights had been violated.

They took sworn statements from witnesses and found circumstantial evidence supporting the woman's story. Finally, she passed and Moulder failed a lie detector test.

But before he took the test, Moulder complained privately to the operator that he suffered from "hyper-tension" and asked him to rig the results. The embattled polygraph operator, Sgt. Larry Robinson, happened to be a close friend of Moulder. Nevertheless, Robinson reported the incident and added in a signed statement:

"At the time I was asked to alter the charts, I at that time through strong friendship, believed that I could almost help (Moulder). After a long, sleepless night, I cannot in all good conscience help anyone and live with myself."

The desperate Moulder, unable to rig the lie detector test, agreed the word that he would expose some important people if he were prosecuted. Our source quotes him as saying: "If I go down, I'm not going down alone."

Suddenly, the investigation began to go Moulder's way. Kenneth Fairley, director of the Mississippi Parole Board, complained to FBI sources that the woman was "bitchy" and that they were trying to bang "a bun charge" on Moulder, according to confidential police reports. He added fervently that he held three warrants against her for "singing" drugs from a

Susan Morris led the discussion regarding low income housing. She said low income housing is not available in Seminole County. The majority of the committee agreed with Ms. Morris and urged emphasis be given to this particular issue.

Both Dr. J.C. Ringling and Newman Brock commented on Florida's cabinet form of government. Dr. Ringling stated that more attention be paid to the pros and cons of this issue. Brock said he felt cabinet members were using their elected position "as stepping stones to the governorship."

He cited Insurance Commissioner Bill Gunter and Atty. Gen. Robert Shubin as two examples.

Kay Westfield stated she felt more of an effort should be made to help people, particularly the elderly, to get out to register. Tom Pratt said people seem able to get to the polls, and they can use the same means to register. Mrs. Mary Daniels responded by informing the committee of the voter's registration drive in Winter Springs. This drive will bring the registration desk to the people in all areas of the city by using a motorized van.

Clark Westfield commented at length about the need for consumer protection. He said, "Consumer

laws in the State of Florida aren't worth the paper they are printed on." He related a personal experience to make his point. He advocated the creation of a Consumer Advocacy Agency, boards in Florida. He claimed it provides undue hardships for small business, especially in the food service industry.

In other business, the committee ratified the appointments of new precinct members. Dan Davis was appointed to P. 10, Susan Morris, P. 23, Marjorie and B.L. Salmis, P. 31, Hoyt Coleman, P. 41 and John and Mary Daniels, P. 50.

The membership ratified the appointment of Myrtle Graddick as chairman of the bylaws committee, Betty Eastham as chairman of the Associate members committee, and Jon Sancho as a member of the patronage committee.

Don Jackson and Dave Gunter submitted resumes to the patronage committee. They are seeking the District 2 county commission seat. It was moved by the membership that a letter of endorsement be forwarded to Governor Askew for each of these gentlemen.

Pratt spoke of duplication in regulatory boards in Florida. He claimed it provides undue hardships for small business, especially in the food service industry.

Pratt spoke of duplication in regulatory boards in Florida. He claimed it provides undue hardships for small business, especially in the food service industry.

Pratt spoke of duplication in regulatory boards in Florida. He claimed it provides undue hardships for small business, especially in the food service industry.

## DON OAKLEY Should Congress Think?

We suspected as much before and now it's been confirmed: The nation's lawmakers are so busy, busy that they have no time for quiet reflection on the laws they are making.

A study by the House Commission on Administrative Review, headed by Rep. David R. Obey, D-Wis., found that the average congressman puts in an 11-hour day but only has 11 minutes just to sit and think.

With similar precision, three minutes are spent with the House leadership, 20 minutes with constituents, 46 minutes answering mail and 53 minutes conferring with staff.

Four hours and 25 minutes of a House member's working day are taken up on the House floor or in committee and subcommittee meetings, the number of which has more than doubled in the past 20 years. In the same period, the length of sessions has almost doubled (from 387 hours to 1,788 hours).

"Rarely do members have sufficient blocks of time when they are free from the frenetic pace of the Washington treadmill," says the report.

The same problem, presumably, exists in the Senate.

It seems worth pointing out that the report was released just about the time Congress was evacuating Washington for its fifth recess this year. These recesses, which have ranged from three days to a month, as in the present case, certainly constitute blocks of time off the treadmill.

Political fences are in constant need of repair back home, of course, and this is what occupies most congressmen during a recess. But we hope some of them will be able to hang out the "Gone With the Wind" sign at least for a few days.

Only congressmen didn't have to pass laws, satisfy constituents and run for re-election, they could probably develop into some of the finest thinkers anywhere.

Henry Kissinger was not the first secretary of state to think in terms of grand, global-strategy and forget about people.

In 1946, Secretary of State James F. Byrnes made an offer to the Danish foreign minister to buy Greenland, telling him the island was nothing but a lump of ice and a burden to Denmark but was of great strategic importance to the United States.

It happens that this "lump of ice" is home to some 50,000 people who in recent years have become increasingly restive under Danish rule. As if the United States hasn't had enough troubles in the past 30 years, can you picture us trying to defend itself against charges of "colonialism" in Greenland?

His Senate Judiciary chairman, he commented that while the FBI investigation of Moulder, two top FBI inspectors were quickly dispatched to Jackson to review the case. Without consulting the local FBI office, they began questioning the witnesses over again.

This infuriated the special agent in charge, Roy Moore, when he found out about it. He angrily warned the two inspectors that they might be guilty of obstructing justice. He also promised to FBI chief Clarence Kelley about their intervention.

The two inspectors told FBI agents in Jackson that they had been sent to review the case at Eastland's request. Justice Dept. sources report they also heard that Eastland was responsible for a "highly unusual," they added, for the FBI to send inspectors from Washington to review a routine civil rights investigation.

Moulder also acknowledged to us that he was aware of Eastland's intervention. The senator himself said he didn't "remember anything about it."

## McKay: Hedberg Can Sign Lease

TAMPA, Fla. (AP) — Coach John McKay says rookie quarterback Hedberg can take out a year's lease on his Tampa apartment.

He nailed down the job as the Tampa Bay Buccaneers' starting quarterback with his performance against the Baltimore Colts.

"Hedberg is our No. 1 quarterback unless somebody else plays better," McKay said at a press conference Sunday. He said "we will go with Hedberg even if Gary Huff is ready" for the Buc's National Football League season opener against Philadelphia next week.

McKay was surprised at his first good look at the 22-year-old athlete from Minot State, North Dakota on Saturday night as Tampa stunned the Baltimore Colts in a 14-0 shutout.

"We knew Hedberg was an accurate passer, but we'd never seen him practice how he could scramble," said McKay. "We never knew how he'd do when protection broke down. He scrambled much better than we thought he would."

Hedberg, fourth in line for the job, got his big chance after veteran Buc quarterback Mike Boryla and Huff suffered knee injuries. Boryla is out for the year; Huff is expected to be back by the end of the month.

A few weeks ago, Hedberg thought his job was so precarious he was only signing month-to-month leases on his apartment.

McKay told him to sign a year's lease after he spurned the Buc's to victory. He connected on a 7-yard pass play with rookie running back Rickie Bell for the first touchdown.

## Preps: One Week Down, Nine To Go

By now, area high school football fans have worked the pop corn trails from between their teeth, survived the fervor and frenzy of Friday night's shenanigans and gotten over the shocker that Seminole High lost to Spruce Creek.

I was most impressed by Oviedo's poise, Lake Howell's potential and Trinity Prep's guts.

Seminole fell the 30-0 loss to Spruce Creek deeply, but coach Jerry Posey gave his players some good advice when he told them it wasn't the end of the world, they had nine more games.

In reality, the only thing that ended was a 15-game win streak. Seminole gets a chance to start the string again Thursday night in Daytona Beach when it visits Maitland. Friday's games pair Lake Brantley at Lyman, Lake Howell at Spruce Creek, Oviedo at West Orange and Trinity Prep at Heritage Prep in Orlando.

Howell coach Curtis Keen, whose team is notably improved over last season, must have grinned when he heard the Spruce Creek-Seminole score. This is expected to be a rough season for the Hawks, and Spruce Creek is an opponent that on paper figured as a 'maybe' win. After beating Seminole, Spruce Creek's stock went up about 20 points on the prep market.

Lake Brantley can feel happy about playing "So-so" and still come out a winner. Lyman will be a tougher opponent Friday, and after that competition gets considerably crisper — Gainesville, DeLand and Seminole waiting to test that Patriotic feeling. Trinity Prep got a toughie out of the way Saturday, beating Shorecrest, the heat and the adversity of waystation.

Trinity had a field goal blocked from the 20 with about two minutes to go, ending the last scoring threat of the day. The Saints had dominated the first quarter, taking a 6-0 lead on a 12-yard run by Matthews. It was the running of Matthews and fullback Chan Maelier which brought the early dominance by the Saints.

Shorecrest tied the game late in the opening period on a "big-play" punt return by Carle Lyle.

Lyle's gallop was good for 60 yards, and set up the visitors at the Trinity 13— from where they Shorecrest just before half-time— at a time when the momentum of the game was in the balance.

With Snyder at the helm, the Saints moved down the field after taking the second half kickoff, driving to inside Shorecrest 20, where it in fumbled on downs.

The big play in a 30-yard pass to Kirachstein right end Jayvir Bell, red. The victory on Sept. 11, the bean-splitters: are thews and Vernon Hardin, Sayid Helen and Paul Pratt, the 'y and Alice and Maudrey, Sept. 11.

At couples celebrating '90's are Dave and Jack '90's are Dottie and Bob '90's.

Also Happy Birthday to Jane Crowe, Sept. 11; Sandra Orwig and Katherine Crowe, Sept. 12; Kevin Kelly, Lee Swartz and Larry Blair, Sept. 13.

And Happy Birthday to Susan Orwig, Sept. 14; Mary

## Three Cheers For Nice Kid

FOREST HILLS, N.Y. (AP) — The nice kid did it.

The nasty kid got a shattering, picked up his armful of racquets and lammed, not even waiting for his \$18,500 check.

"You can take this crowd and stuff it. I am going to Monte Carlo to live," said brasher Jimmy Connors, the Bad Boy from Belleville, Ill., rushing to a waiting limousine outside the West Side Tennis Club.

Connors was gone—without a "Thank you" or a courteous bow to his opponent, the officials and the crowd—less than 10 minutes after bowing to Argentina's Guillermo Vilas 4-6, 4-3, 7-4, 6-0 in the men's singles final of the U.S. Open tennis championships.

This was akin to the old concrete stadium at Forest Hills, scene of the U.S. nationals for 52 of the tournament's 89 years, and the fiery Connors left the scene, amidst all the jubilation over Vilas' victory, because Connors, despite his bad court manners, had proved himself one of the greatest and most formidable players in the game.

The final center court match was 3 hours, 18 minutes of high drama played before a full crowd of more than 12,000 and a national television audience of millions.

From the beginning, the place crackled with the kind of tension that precedes one of Muhammad Ali's heavyweight championship fights.

Argentine, the defending champion, was the first to arrive, accompanied by his mother, Gloria, two tennis pros, Pancho Segura and Lorne Kuble, and Doug Henderson, who serves as a body guard.

Mr. Connors, who had taken Jimmy from his Belleville home to male and nervous.

"Excuse, I can't talk now," she kept saying to those who approached her. "I must look after Jimmy's lunch."

Segura is the copper-skinned Ecuadorian who is credited with fashioning Connors' powerful game. The bearded Kuble, of Las Vegas, is remembered for his work with Bobby Riggs before the Billie Jean King match.

Vilas appeared with nine racquets under his arm, watched over by Ion Tiriac, an awesome, mustachioed man who serves as both coach and manager.

Mr. Connors, in a white suit, sat at court-side alongside Segura and Kuble. Some 1200 fans, Tiriac, glowering, snarling, kept grinding half-smoked cigarettes into the ground.

It was a furious match, one tennis buff never will forget. The Argentine and the feisty American champion went at each other like a pair of ring sluggers—Connors his flat forehead and wicked two-fisted backhand shot streaking over the net like bullets, Vilas unleashing fusillades of spinning backhands and looping forehands of a racquet strung tight as a board.

"He was hitting rockets at me," Vilas said of Connors.

The crowd quickly established its preference. The demonstrative fans behind their nationalism and began pouring out their lungs for the 25-year-old South American gauchito who composes sensitive poems in his spare time.

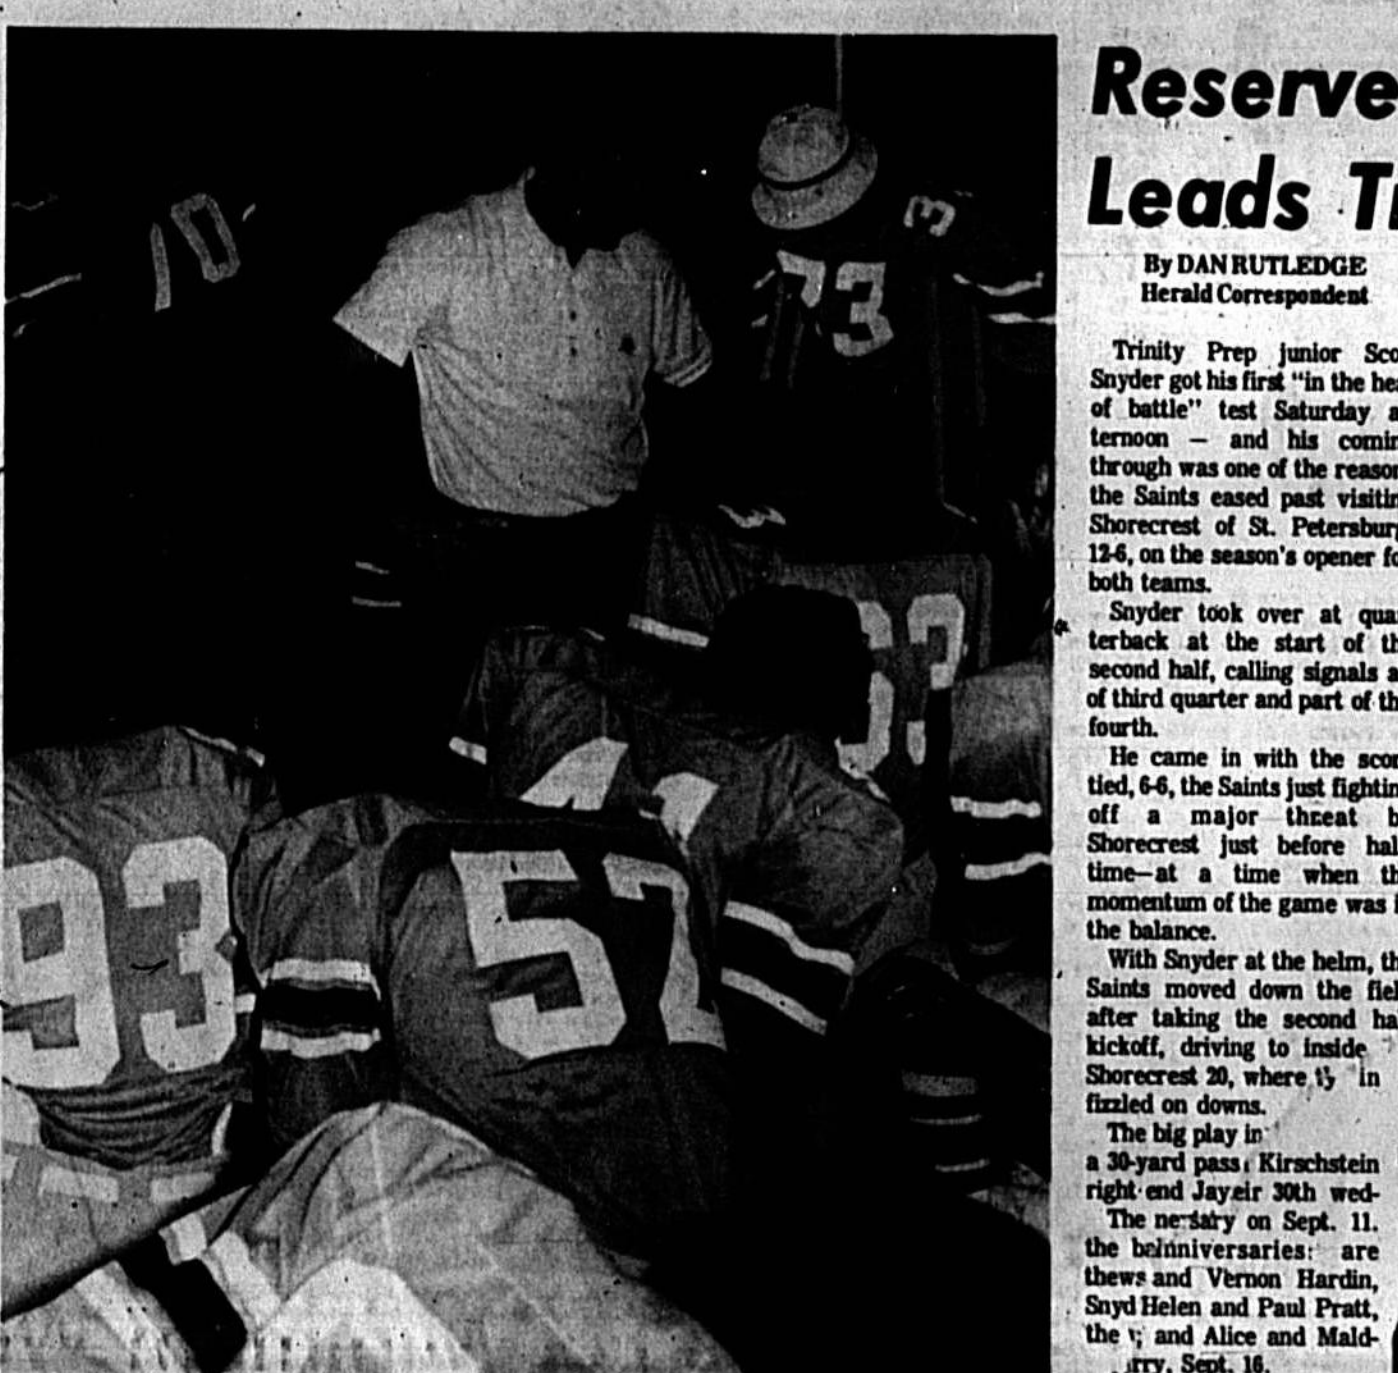

Connors, notorious as a court villain given to bickering with his umpires, profanity and obscene gestures to the crowd, kept his volatile temperament under a tight leash on this particular occasion.

But the people's memories were too long.

When Connors missed a desperate forehand, losing the decisive set at love, the crowd surged onto the center court, hauled Vilas to their shoulders as they might some conquering matador and spared the restraints of the private police.

Tennis had moved into the 20th century. The day of stuffy restraints and fan decorum were gone. This was a footstomping, tugging, tearing pro sports crowd.

"I wanted to speak to Jimmy," Vilas apologized afterward. "But somebody grabbed my headband. I did not want them to grab my head, too."

## 'NOT END OF WORLD': POSEY TELLS SEMINOLES

JERRY POSEY, coach of Seminole High School football, said that his team's 30-0 loss to Spruce Creek last Saturday night was not the end of the world for his players.

"It's not the end of the world," Posey said. "The boys are still young and they have a lot to learn. We'll be back on the field next week with nine more games to play."

Connors was in a white suit, sat at court-side alongside Segura and Kuble. Some 1200 fans, Tiriac, glowering, snarling, kept grinding half-smoked cigarettes into the ground.

## Reserve Scott Snyder Leads Trinity To Win

By DAN RUTLEDGE  
Herald Correspondent

Trinity Prep junior Scott Snyder got his first "in the heat of battle" test Saturday afternoon — and his coming through was one of the reasons the Saints eased past visiting Shorecrest 21-3 in Peking. It was the running of Matthews and fullback Chan Maelier which brought the early dominance by the Saints.

Shorecrest tied the game late in the opening period on a "big-play" punt return by Carle Lyle.

Lyle's gallop was good for 60 yards, and set up the visitors at the Trinity 13— from where they Shorecrest just before half-time— at a time when the momentum of the game was in the balance.

With Snyder at the helm, the Saints moved down the field after taking the second half kickoff, driving to inside Shorecrest 20, where it in fumbled on downs.

## SACKCESS STORY

by Alan Mauer

IF THE KANSAS CITY ROYALS REPEAT AS ALL-STAR CHAMPS, A LARGE SHARE OF THE CREDIT MUST GO TO A SMALL FELLOW (34-1/2 HOURS), WHO DOES HIS BEST TO BE AS GOOD AT PROTECTING THE BASE AS HE IS AT PULVERING IT.

Freddie Patek, smallest player in the majors, is only the third to lead in double plays four years in a row (1971-74) and he may repeat with his first all-stolen base title.

POP WARNER SET FOR OPENERS

Bud Winnett, coach of the Milwaukee Peewees in the Pop Warner Football League, gives his team the pregame word. It wasn't quite enough as Milwaukee lost the above game to South Seminole, 6-0, and came back to the Teague, 6-0, in Saturday's jamboree which drew a crowd of 2,500 spectators at Lake Branley High field. Pop Warner teams open the season Saturday at sites across Central Florida.

MILITARY WIVES INVITED

Orlando Naval Training Center Officers Wives Club will hold a Fall Fashion and Hairstyling show on Sept. 22, at the Officers Club aboard the Naval Training Center. The event will begin with a luncheon at 11:30 a.m. All active duty and retired officer wives and their guests are invited. For more information, contact Sally Jurkowsky, 855-4946.

**Organ Recital Scheduled**

The Bollins College School of Creative Arts will host Miss Nancy Bock in an organ recital on Sept. 18, at 3:30 p.m. in the Knowles Memorial Chapel. Admission is free and the public is invited to attend.

Ms. Bock will perform such works as Lubbeck's Prelude and Fugue in E Major and Bach's Prelude and Fugue in E Flat.

# OURSELVES

## Briefly

### 'Designer Carousel' Aimed Toward Art Education

The Art Center at Maitland Women's Auxiliary is preparing for "Designer Carousel" at the Art Center, 231 W. Packwood Ave. Oct. 8 through Oct. 22. The show this year is styled for Indoor and Outdoor Living, the studios and gardens will provide ideas for daily living. Admission tickets are \$2.50 each and are available at the Art Center, phone 645-2181. Proceeds will be used at the Art Center for the ongoing education of art.

### Ohio Club Sets Supper

The Ohio Club will meet Sept. 14 at 6 p.m. at the Deltona Community Center for a potluck supper. Members are asked to bring a covered dish and a place setting.

### Military Wives Invited

Orlando Naval Training Center Officers Wives Club will hold a Fall Fashion and Hairstyling show on Sept. 22, at the Officers Club aboard the Naval Training Center. The event will begin with a luncheon at 11:30 a.m. All active duty and retired officer wives and their guests are invited. For more information, contact Sally Jurkowsky, 855-4946.

### Organ Recital Scheduled

The Bollins College School of Creative Arts will host Miss Nancy Bock in an organ recital on Sept. 18, at 3:30 p.m. in the Knowles Memorial Chapel. Admission is free and the public is invited to attend.

### Nunley-White Nuptials Spoken

Catherine F. Nunley and Waldron Carter White Jr. were married Sept. 9 at 7:30 p.m. at the First United Methodist Church of Sanford. Rev. Scott Harris performed the double ring ceremony.

The bride is the daughter of Walker and Norma Siracuse of Sanford. The bridegroom is the son of the late Mr. and Mrs. W.C. White Sr. of Manchester, N.H.

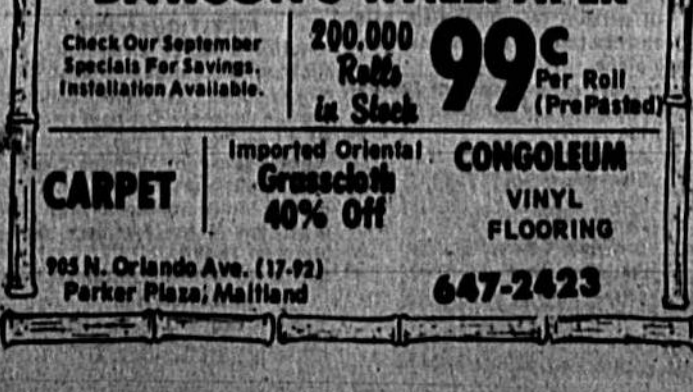

Given in marriage by Floyd Q. Freer, the bride chose for her vows a blue floor-length gown enhanced with blue and white lace trim. A headpiece of white daisies secured her elbow-length veil of illusion.

Gay McCollum Simon attended the bride as maid of honor. She wore a candlelight gown trimmed with matching lace and blue flowers.

Bridesmaids were Joyce M. Ferson, Carol Ann Dixon and Patty D. Peterson.

Phillip R. Wells served the bridegroom as best man. Ushers were the bride's father, Salvatore P. Simon and Perry Dixon; Walker James Nunley, son of the bride, was the ring bearer.

Following the ceremony the newlyweds entertained at a reception in their home, 1623 Henry, Balch Drive, Orlando.

MRS. WALDRON C. WHITE JR.

## Getting To Know Miss Lillian Daughter Feels So Proud Of Mother Now

By ELLIE GROSSMAN  
Herald Services

NEW YORK—Ooee, that Miss Lillian Like a ton-alloy, she's apt to cut you up before she cuddles you with her cream.

"I call her voodoo and sugar and never the twin do meet," says her daughter, Gloria Carter Spann, laughing heartily if somewhat humorlessly, and vaguely resembling her brother, the President.

Actually, just the other day, she says, "Jimmy said, you know, Gloria, we were looking at pictures of Mother when she was 52 and you look so much like her. And I said, Jimmy, if you had told me that before I wrote the book, I would have said, I don't want to LOOK like her or BE like her," she whoops.

That was before she came across the box marked "letters from India" in her closet last year. Then she reread the hundreds of letters Miss Lillian wrote when she was a Peace Corps nurse near Bombay in '47-48 when she was 67, and suddenly Miss Lillian wasn't just her sharp-tongued mother anymore.

"I did not know my mother as a person until I edited this book," she says.

Schuster, Now I'm just so proud of her."

The letters made her laugh and cry and hurry up the road in Plains a mile to Miss Lillian's house.

Everyone loves the book, Mrs. Spann says. Miss Lillian, Jimmy. Even her second husband, Walter Spann, the soybean and peanut farmer who gets up at seven every day, puts the three rat terriers outside and makes breakfast, washes clothes, cleans, watches some TV game shows. "And I there on the book cover. In fact, in Plains, she's 'Gogo.'" "Jimmy called me that when I was born. He was two and couldn't say Gloria."

She's just a dirt farmer's wife who gets up at seven every day, puts the three rat terriers outside and makes breakfast, washes clothes, cleans, watches some TV game shows. "And I there on the book cover. In fact, in Plains, she's 'Gogo.'" "Jimmy called me that when I was born. He was two and couldn't say Gloria."

And she visits with Miss Lillian and late in the afternoon she and Walter get on their motorcycles and zoom around the back roads, communing with nature and feeling part of things.

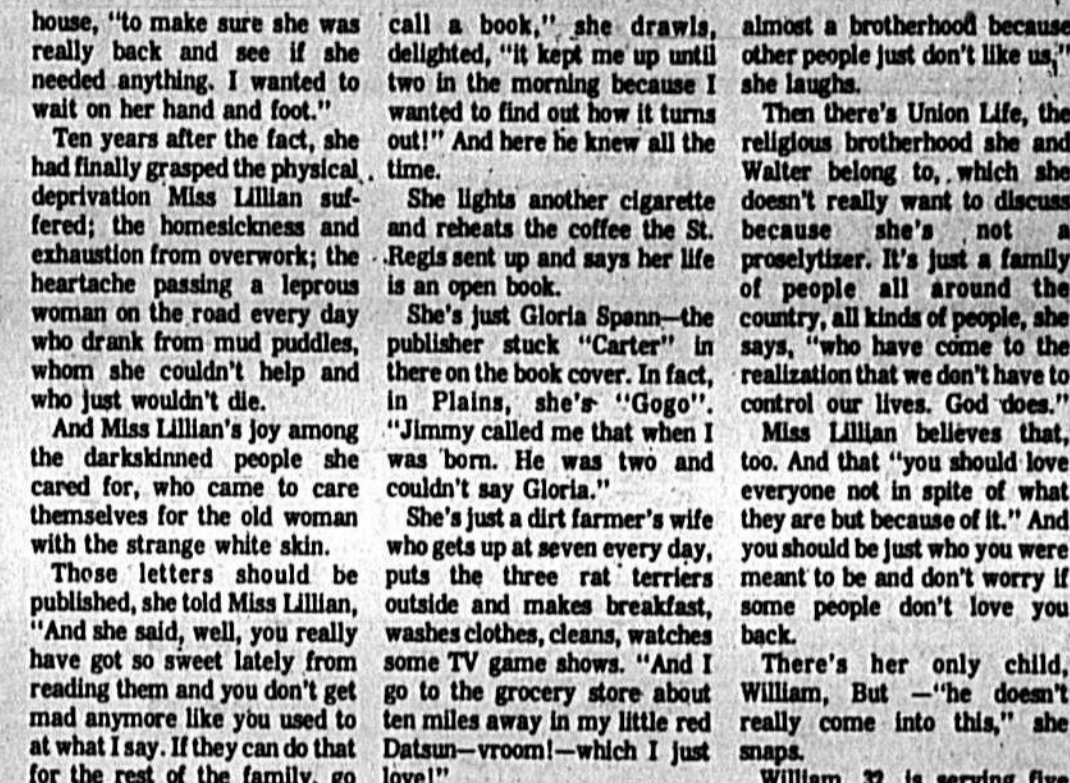

"We love motorcycles and the people that ride them. We go all around the country. Motorcycle people are so friendly, it's almost a brotherhood because other people just don't like us," she laughs.

Then there's the Union Life, the religious brotherhood she and Walter belong to, which she doesn't really want to discuss because she's not a proselytizer. It's just a family of people all around the country, all kinds of people, she says, "who have come to the realization that we don't have to control our lives. God does."

Miss Lillian believes that, too. And that "you should love everyone not in spite of what they are but because of it." And you should be and don't worry if some people don't love you back because of it.

There's her only child, William. But — "he doesn't really come into this," she snaps.

William, 32, is serving five years in life for armed robbery in California, but she told all about him in a magazine once and that was enough.

GLORIA CARTER SPANN: "I did not know my mother as a person until I edited this book."

## Hollywood Touch Comes To Town

Sanford resident, actor Lita de Cordoba, is pleased with the progress of his latest motion picture involvement on the other side of the camera for a change.

de Cordoba, co-producer with area businessman R. John Floren and R. John Hugh, on the film "The Very, Very Last Hijack," is in Sanford briefly between preproduction negotiations in Hollywood, Calif.

He reports that funding for the full length feature film will be shot on location primarily in Central Florida. He has been secured and that details on selection of director, cast, distribution and shooting schedule will soon be announced.

In his movie and television career, de Cordoba has appeared in Spanish and American films, and in major television series. He and his wife Greta have been Sanford residents for a year.

Dr. and Mrs. Kenneth (Annette) Wing mixed business with pleasure on a trip in and around Paris, France. Annette joins all mothers who are involved in scuttling their children to schools in all directions.

Cheryl Sprague, daughter of Mr. and Mrs. R.E. Sprague and a graduate of Seminole High School, is a recent graduate of Southeastern Academy in Kissimmee. She completed a specialized course in Airline Travel Industry Training.

Martha Yancey said she and husband Ned always wanted a daughter, Nancy Yancey. Her year was fulfilled when Edward A. Yancey Jr. married

Nancy Hewatt recently in Atlanta.

Irma and Alfred Kirschstein will celebrate their 90th wedding anniversary on Sept. 11. Frank Mebane III, Sept. 10; and Anna Mae Wells, Sept. 4.

## 'Lousy' May Be Roommate Risk

DEAR ABBY: I am a 22-year-old woman living alone in an apartment and I need a roommate to share expenses.

A 18-year-old boy wants to be my roommate. He says he's just had his parents kicked him out of the house because he did lousy in school, and he needs a place to live.

What worries me is this: If he moves in with me, will I get in trouble because he is a minor and I am an adult? And even if I don't get in trouble with the law, do apartment owners have the right to know whether a couple is married or not?

I'm having my doubts because of this kid's age. Please help.

SECOND THOUGHTS

DEAR SECOND: At the risk of sounding like a broken record, if you are concerned about your "rights" and "the law," consult a lawyer. (The laws differ from state to state.) You are wise to have second thoughts. A 18-year-old boy who was kicked out by his parents because he did "lousy" in

school would probably make a lousy roommate.

DEAR ABBY: My sister-in-law (I'll call her "Nancy") has just had her second miscarriage in two years. Of course we feel very sorry for her because she has no children and she wants a child very much.

The problem, however, is Nancy's mother (my mother-in-law). She has asked everyone in the family not to talk about their children or even mention "babies" in front of Nancy because it might upset her.

Two of us in the family are pregnant right now, and the conversation is Nancy's presence, but you also shouldn't

DEAR ABBY: I would like your opinion on this.

BABY BLUES

DEAR BLUES: Nancy's mother may mean well, but she's protective of Nancy to the point of being unrealistic. Of course you shouldn't allow the subject of babies to dominate the conversation in Nancy's presence, but you also shouldn't

Garlic Pills Aid Blood Pressure?

DEAR DR. LAMB—I have high blood pressure. I am taking medicine for it. If you take garlic pills or eat fresh garlic will your blood pressure go down? I've had so many people tell me this. When I go to the hospital my blood pressure is normal. My blood pressure is 162 over 98 and I am 56. Is that too high?

Why? Because the bed rest results in flushing out salt (sodium) and water from the body tissues. These people often get similar results from taking one of the diuretics commonly used in the treatment of mildly elevated blood pressure.
