Gossip Has It That Jack Sharkey Is Making Bid For Place Among Social Elite

Pugilist Of Boston May Join Ranks Of Smart Set In Chestnut Hill Where Field Trials In Swank Are Held

By Davis J. Walsh
International News Service
Sports Editor

NEW YORK, Nov. 21.—The Tumey influence, committed to betterment and uplift among vegetating ears, has claimed a prominent convert, according to audible gossip that filtered up the backstairs from the servants quarters today. The Jack Sharkeys of Boston have joined the young married set, of and contiguous to Chestnut Hill, where field trials in suburban swank are held daily. They are preparing to exchange neighborly calls.

Mr. Sharkey, whose name attained considerable prominence in the newspaper several years ago in a professional way, has purchased a \$50,000 home in this exclusive domain of the idle rich, and having been sponsored by the son of established millions, is in a position to bow formally whenever he may. Meanwhile, his managing director, Mr. John Buckley, has been most conspicuous at Boston's "first nights" of the theatre. Mr. Buckley is a man of very commanding presence. His white shirt front alone has been the cynosure of many envious eyes. Mr. Buckley is apt to neglect the amenities of his position as associate of Mr. Sharkey of the Chestnut Hill Sharkeys.

Work upon the latter's estate is going forward space, I am informed, and soon his imposing residence will be furnished in taste also in some opulence. It is said that Mr. Sharkey has taken it "on the nut" to the amount of \$20,000 in order to give his new home just the proper background. The expression in question was used by a young society man from Revere Beach. It isn't likely that Mr. Sharkey would know him.

In the rear of the estate is a four-car garage and, of course, the servants' quarters must be kept up because the help nowadays are so independent. It's a problem really.

Another problem, for all I know, will revolve around the question of whether the butler should wear livery or just plain black. The latter is more dignified. The chauffeur, of course, can have the third car on nights off and the cook and the scullery maid will be allowed Tuesday and Thursday evenings off. The housekeeper will be held to strict accountability for the enforcement of discipline within the manse.

Mr. Sharkey will be at home often but not always. He has his duty to his public—this, he will perform from time to time throughout a busy winter season, democratically stripping to the waist like any commoner. He thus will have his moments when he will mix freely with the men in the street; also with the men in the ring. Always well to see how the other half lives you know.

In closing, I wish to state that I am against the further conversion of vegetating ears, I make this protest from motives purely selfish. Who am I to demand heavyweight press seat at the next heavyweight championship fight with all the society editors to be taken care of?

French And German Flying Aces Greet Onetime Enemies

PARIS, Nov. 20.—(INS)—Another Franco-German rancor was effected when Captain René Foucault, with 75 German planes to his credit, shook hands with Captain Ernest Udet, who brought down 62 Allied craft.

The meeting took place at the Berlin Aeronautical Exhibition, and the conversation between the two "aces" was revealed by a friend of Foucault on his return here.

"It was rather dramatic to see them face to face, shaking hands, for the first time since they last met, blinding away at each other machine guns a thousand feet over the earth," said the friend.

The two "aces" had not been seen since their days of combat.

Foucault recounted his victory summer, when martial aces were few.

He explained the manoeuvre which enabled him to down four Germans the day after Udet's exploit, recalled his tales by rote, and his mutual respect remained unshaken. He paid his respects to the 62 German planes which had given him trouble, and the two old foes chatted over the latest news of the war.

Udet, who had been a prisoner of

the French, was released in 1918.

He was released in 1918.

THURSDAY, NOVEMBER 22

BIBLE VERSE FOR TODAY

John XI. 25. I am the resurrection and the life: he that believeth on Me, though he die, yet shall he live.

THE CHURCH

As tired children when the dusk falls sadly,
Turn weary feet toward the shining lights of home.
So to thy tenderness our hearts turn gladly.
As to thy arms we come.

Outside thy doors is tumult and confusion,
Within thy walls alone is peace and rest,
As in the silence of thy still abode.
We seek thy breast.

MARY ATWATER TAYLOR.

When it is cold here, think of how much colder it is in the North.

They also have floods in Kansas; ten persons were drowned there just the other day.

Robert W. Stewart has been acquitted, which also goes to show what it goes to show.

Mr Hoover is said to be much interested in Agriculture, he could find no better place to study it than in Seminole County.

In Texas there is a campaign for municipal ownership of electric power plants. We offer the campaign slogan: "Own your own ohm." — Eds.

Rakob says he is going to stick for another four years, and Southern Democrats are of the opinion, he will get stuck again in 1932 if he does.

Jack Dempsey has not announced whether he will succeed to Goro Tunney's throne but he has announced that he will announce in January whether or not he will.

Al Smith says he hasn't "anything to say about anything," in which he is unconsciously adopting Mr. Hoover's campaign tactics. — Tampa Tribune. May be he should have adopted them sooner.

The husband of Mrs. Earle F. Devore, Vestris survivor, died in the disaster, but her dog, a wire-haired terrier was saved. There are things it would seem, worse than living a dog's life.

The Department of Game and Freshwater Fish at Tallahassee is warning hunters to beware of snakes this year. High waters have resulted in the breeding of many snakes, as well as mosquitoes, and the former are more dangerous than the latter.

Al Jolson, the jazz singer, got right the other night in a San Antonio night club when the chair in which he was sitting slipped from the chair of another person who seemed to have the idea. Well, the best scrapper, Jolson, turned him down and the other fellow went out, which is an A. P. writer's way of saying that the hands that built "Mammy" also pack.

Another home myth of the Veasey family has been destroyed. McLaughlin, the radio operator, who was at the station, had left the radio station, but his wife, or at least a woman, was holding the radio station. In the testimony of the man who was the witness, he admitted that he was not of this date.

We need not here recite the terms in which Chairman Hines spoke his disrespect to Colonel Knight. Suffice it to say he上升到了 the level of what in a political campaign would be called "good slinging." He imposes the honest name upon Mr. Roosevelt's professional integrity and charges him with party disloyalty. His attack is rather broad and sweeping. We suspect with confidence and political knowledge that he is not far from the truth.

Hunters And Fires

With the beginning of the hunting season scores of Seminole County sportsmen will take to the woods in quest of birds, squirrel and deer. For the next two months the woods will resound with the crack of rifles and the roar of shotguns as modern men with a strain of Daniel Boone in their veins try their sights and press their triggers.

All this is great stuff. America was founded by hardy pioneers whose very existence depended upon the sureness of their aim and their ability to feed and clothe themselves on what they shot. It is one of the noblest traditions of this country that rugged men went into the wilderness with scarcely a cracker in their larder boxes, and there lived, fought, built their homes, and left behind them, as they again pushed farther westward, towns and cities.

It is the inheritance of this love of the wilderness which leads men today to leave the comfort of their warm beds at three o'clock in the morning, drive in their cars for miles, work laboriously over rebellious kickers, wade through icy waters, stumble around through swamps and hammocks cutting their hands and faces on bramble bushes and getting stung by bugs and scorpions and bitten by snakes.

But there is something about the sight of a squirrel running around a tree, about the whirr of a covey of quail taking off like an airplane, or a flock of ducks unexpectedly flying overhead, which makes all the hell of hunting worthwhile. It is not the appetizing smell of roasting duck or quail broiling over red hot coals, or the luscious taste of the tender breasts, it is the immense thrill of stalking and the capture.

For this thrill sportsmen are not only willing, but actually eager, to live up to the rules of the game to hunt as the law prescribes, and to give every chance to their prey. Without this there is no sport in it. And it is as much a part of the game not to throw lighted cigarettes into dead brush and to carefully put out campfires, as not to shoot quail on the ground.

According to the state forester at Tallahassee, more game are killed each year by forest fires than by all the hunters put together. Furthermore, fires destroy the feed of birds and animals and leave them without homes during the cold winter months. Frequently even though they escape the fire itself, they die from the exposure which results afterward. The state forester seeks the co-operation of Florida hunters through the following suggestions:

"Be sure cigarettes, cigars, pipe, tobacco and matches are extinguished before throwing them away."

"Build the campfire or warming fire in a safe place. Never leave the campfire unguarded and, when leaving for the day, make sure it is out—dead out."

"Do not try to smoke out squirrels or other game. Too often trees or logs catch on fire on the inside and smolder until they break into flame, and finally ignite the woods."

Florida's Beatitudes

Moses Folsom who contributes an interesting column to the Florida Times-Union's Sunday edition, brings forth a new set of beatitudes prepared by Professor W. L. Floyd of the Florida Agricultural College, which are a wonderful old series of truths and are worthy of being committed to memory by every loyal citizen of Florida. They are:

"Blessed are they who plant trees and shrubs along our highways; future generations will enjoy their thoughtfulness."

"Blessed are they whose homes show exterior culture to the passerby."

"Blessed are they who appreciate God's gift of birds and flowers and encourage their growth and increase."

"Blessed are they who scatter flower seed and keep friends and neighbors from destroying wild flowers along the roadside."

"Blessed are they who banish billboards from their property, for they are protectors of roadside beauty."

"Blessed are they who keep open grassy lawns, well-mowed, and green shrubbery, blending them with well-painted houses."

"Blessed are the citizens of Florida for their civic clubs; if they will function along civic lines, then health, beauty and happiness will be theirs."

"WHY BE AN EDITOR," from L. R. Franklin, of Appleton, Mo., is so good that we are passing it along.

"Running a newspaper is just like running a hotel, only different. When a man goes into a hotel and finds something on the table which does not suit him, he does not get up and raise hedges with the landlord and tell him to stop his darned old hotel. Well, hardly. He sets that dish on one side and wades into some of the many dishes that do suit him. It is different with some newspaper readers. They find an article occasionally that does not suit them exactly and without stopping to think it may please hundreds of other readers, make a grandstand play of their supreme asinity and hasten to stop their paper."

HARDEE ATTACKS KNIGHT

SARASOTA HERALD

C. J. Hardee is the chairman of Peter O. Knight invites disaster. Chairman Hardee has started something which may lead to serious results.

We submit that the democratic party of the future is not to be led to victory by the methods resorted to by the chairman of the Hillsborough county democratic executive committee.

The denunciation of members of the standing of Peter O. Knight will never lead to party unity.

If the democratic organization of the state pursues this course and drives men of the type of the distinguished Tampans into the ranks of the republicans, we see little prospect of continued democratic ascendancy in Florida.

The revolt against Alfred E. Smith in this state was not constituted of underlings. In Jacksonville,

Tampa, Miami, Palm Beach, St. Petersburg, Sarasota and other cities, the revolt embraced men and women of the highest standing both socially and in the business world.

If the attitude of Chairman Hardee is the attitude of other county chairmen, there is little hope for the Florida democracy.

Colonel Knight, made reference to his professional integrity and charged him with party disloyalty. His attack is rather broad and sweeping. We suspect with confidence and political knowledge that he is not far from the truth.

President-elect Hoover, it is thought, will pick his cabinet while he is in Florida next month. Florida's hospitality does not stop there, however. We can offer him not only the picking place but some of the men to be picked.

The crew of the dredge lying alongside the Palm City bridge has been notified to be ready to change on ten hours' notice from the present work to filling in under the bridge. At present the dredge is making new land and filling in land below on the farm of John Wilson who lives at the mouth of

"It was not that I loved Caesar less
But that I loved Rome more."

George T. Harding, father of the late President Harding, died last Monday at eighty-four years. He was the father of a president and such an opportunity as he had to view the history of that presidency both in foreground and in retrospect. What he thought and felt about his son's career will probably never be known.

Warren G. Harding's favorite word in public address and private speech was somehow. It rolled from his tongue with all the eloquence and strange intonations which he was capable. It was the key to the man. With every desire to have things right but little or no capacity for making them right honestly and ineffectually hoped that somehow they would be right. That they were not came of his inability to love Rome more than Caesar and to put the presidency of the United States above the personal friendship circle under which he lived. Like many other men whom fate entrusts with obligations too great for them, he never learned that public trust involves the subordination of private

interests to the public welfare.

Ex-Colonel Herbert Kellogg of the St. Augustine Record says that married men are the best automobile drivers but that their wives won't believe it. Well, we hold no brief for married men as drivers but we think they are certainly better than their wives. The best driver probably is a single man who is a woman hater.

Stampeding and charming the books stalls of Florida just now is a recently published volume of verse by Editor Lew Brown of the St. Petersburg Independent.

The volume is entitled "A Bit of Love and Other Poems." Without waiting for King-maker Phil Barry's official nod from Tampa we shall Editor Brown for the poem he is—a journalist whose profession has not yet been able to stamp his poetic style and stamp in poetry it is too often and bitterly true that real estate men rush in where newspapermen fear to tread.

If the Florida Times-Union,

against all reason, rhyme, economy and euphony, still objects to the word "Jaxon" as a designation for a resident of Jacksonville, what will it think of Phil Barry's recent reference to its own sedate self as the "Jaxaville Times Union?"

The Democratic party will have

no easy time now raising money to pay off its \$1,000,000 deficit.

It will have a much harder time than the Republican party did with its own deficit in 1920 because (1) it lost the election and (2) it has no Sinclair. But be this as it may, the practice of going into debt in campaign financing is a highly questionable one and should be stopped by law. Deficits are not accidental by any means.

Thanks to Warren G. Harding and Herbert Hoover, Florida is becoming authoritatively established as the place where presidents elect spend the witching hours between election day and inauguration day. Which means, we can hope, that presidents hereafter will go into office with a Florida complexion.

We submit that the democratic party of the future is not to be led to victory by the methods resorted to by the chairman of the Hillsborough county democratic executive committee.

The denunciation of members of the standing of Peter O.

Knight will never lead to party unity.

If the democratic organization of the state pursues this course and drives men of the type of the distinguished Tampans into the ranks of the republicans, we see little prospect of continued democratic ascendancy in Florida.

POLICE SAY THEY ARE HOT ON TRAIL IN MURDER CASE

Mrs. Keyes Offers New Clues In Slaying Of Gambler Rothstein

NEW YORK, Nov. 22.—(INS)—With new and definite clues in their possession, police declared today that they were hot on the trail of the man who killed Arnold Rothstein here on Nov. 4 in Room 349 of the Park Central Hotel.

The new leads in the mysterious murder of the notorious gambler were furnished by Mrs. Ruth Keyes, petite blonde model, who was entertained by three men at a party in Room 349 a few hours before Rothstein was shot at a \$300,000 gambling debt. Brought here from her home in Chicago to view rogues gallery photographs of suspects, Mrs. Keyes identified the photographs of three men who were in the room.

The names of two of the men were not revealed, but police said they are gunmen with police records and widely known in the underworld of many Eastern cities.

Each has been employed as a bodyguard for gamblers, bootleggers and "racketeers," and each has vanished from his usual haunts since the murder.

Mrs. Keyes was quite positive in her identification of one of the two gunmen. He has a long criminal record, was shot in a gang fight recently and once was arrested for murder, police revealed.

His favorite haunts are in Chicago, Detroit, Cleveland, St. Louis and New York, and police of all these cities today inaugurated a widespread search for him.

Police have the beretion measurements and photographs of the two gunmen and circulars with their description are being prepared.

One of the men is a member of the diamond gang in New York, and former bodyguard of Rothstein, it was reported. The other was said to be a gunman from Chicago.

The third man in the room a few hours before the murder was George McManus, Mrs. Keyes told police after examining his photograph.

McManus, a bookmaker, former associate of Rothstein and brother of a New York police lieutenant, has been sought ever since the shooting of the "key man" in his mystery. His whereabouts was unknown.

Police are convinced that one of the three men killed Rothstein.

District Attorney Banton an

HOOVER WORKS ON TALK TO BE MADE SUNDAY

(Continued From Page One)

Hoover. The President Elect beamed. "It took me 15 minutes to land that big fellow," he said. He pointed to a monster.

George Akerson, secretary to Mr. Hoover, hooked 20 pounds of bonitos and three newspaper correspondents added 60 additional pounds to the fine frying pan goods.

The Maryland has passed the line of Mexico and Guadalajara and should reach the northern line of Guatemala Friday evening, the fifth day out from San Pedro.

The new leads in the mysterious murder of the notorious gambler were furnished by Mrs. Ruth Keyes, petite blonde model, who was entertained by three men at a party in Room 349 a few hours before Rothstein was shot at a \$300,000 gambling debt. Brought here from her home in Chicago to view rogues gallery photographs of suspects, Mrs. Keyes identified the photographs of three men who were in the room.

went out of commission. At 8:30 A. M. firemen in the stockhold were chained to stanchions so they could stand to fire the last boiler.

Boxill testified he went on deck about 5 feet from the water and grave, and got in lifeboat Number 4, containing mostly women and children. It was lowered to above five from the water and stayed there for over half an hour. Then the Vestris hurried, went over on its starboard side, and the lifeboat was hurled into the sea.

When he struck the water Boxill said he swam toward a piece of wreckage and clung to it with another man named "Slim."

"I saw dead women and children floating around and I decided not to stay near them any more."

I swam to a raft," the witness testified. "I climbed on it and was exhausted. I fell asleep and knew nothing until I was picked up by the S. S. Wyoming Tuesday noon."

Q.—(By Captain E. P. Jessen, American nautical adviser at the hearing.) Did any officer of the Vestris, after it was found in full times, Mr. Hoover sponsored this project which has already been approved by engineering societies?

Mr. Hoover was much interested in the ship's newspaper, "The Evening Hurricane," which printed a radio dispatch from New Orleans saying that Gov. Brewer, of Maine, had presented to the Governor's conference a program for \$3,000,000 for public works construction to give employment in dull times. Mr. Hoover sponsored this project which has already been approved by engineering societies.

It was outlined in his acceptance speech in August.

There has not been a single case of sea-sickness so far.

STOKER PAINTS GRAPHIC STORY OF SHIP WRECK

(Continued From Page One)

Howard in making the school a success were a number of local merchants and several out-of-town firms and manufacturers. The cooperation extended by these concerns was whole-hearted and complete. Among the Sanford firms assisting were the Randall Electric Co., Waggoner Furniture Co., Sanford Furniture Co., Longwood Dairy, Piggly Wiggly Stores, Blitch Red Front Store, A & P Tea Stores, Red Star Grocery and Feed Co., Tyree Peanut Co., H. J. Clause, McLain's, R. W. Lawton McCuller's Grocery, Masaka's Piggy Wiggly Market, Stokes Red Front Market, Blue Bonnet Market, Florida Power and Light Co., and the Milane Theater.

Out of town concerns participating in the event were: The Camel Baking Powder Company, The Southern Cotton Oil, manufacturers of Snowdrift and Western Oil, the Orlando Plant of the American Bakers Co., makers of Merita bread and cakes, and Kinney and Co., which supplied Miss Howard with oleomargarine.

"Things were bad Sunday night," he testified. "The trimmers couldn't trim. We couldn't use wheelbarrows. We had to carry the coal in bags and buckets the last was so heavy."

"At 4 A. M. Monday the steam was falling off. Later two boilers

were out. The third was burning in the ash dump. Some of the crew "went to work on the leak."

The storm was at its height at this stage. The aft stockhold was flooded. The firemen had to stand in water.
