THURSDAY, FEB. 14, 1952 TODAY'S BIBLE VERSE Youth gets its ideas of life from us. Youth imitates those it admires. But take heed lest by any means this liberty of yours becomes a stumbling block to them that are weak.—1 cor. 8:9.

People are funny. Every city that doesn't have one wants a big fine new airport. And every city that does wishes it hadn't. like Newark.

We seem to have more "inagain-out-again" candidates for public office this year than ever before. What's the matter? Can't these fellows make up their minds what they are going to do?

Senator Holland, bless his heart, has come out for Senator Russell of Georgia for President. He may not be the best Democrat in the party, but he's better than a lot of them, and at least he's from Georgia. Personally we think Senone of the hest men the Democrats could pick.

President Truman is a real blic-spirited self-sacrificing individual all right, an-honest-tountry needs him. And we'll Fuller Warren would run for governor again if the State Con-atitution didn't keep him from it.

Forty-nine persons were killed. 600 injured in 1,223 automobile accidents last month, as compared with 45 killed, 559 injured in 963 accidents last year. But the Highway Patrol was on the job and made 3,625 arrests last month as compared with 2,947 a year ago. Arrests won't do it all when it comes to preventing accidents, but they help.

Senator Bridges paints a rather vivid picture of the Korean War which he calls the most helpless conflict in American history, "Our boys are fighting a barbarous enemy with one hand tied behind their backs", he said, "under restraints imposed by the Truman administration". Though it is not called a war, few wars in American history have lasted as long. or incurred as many casualties.

You can get anything you pay for nowadays in housing construc-tion. Conrad Schneider, a New Jersey Legionnaire, told a Congreesional subcommittee the other day hearing complaints on veterans' housing construction that his house had a cellar in it, but the contractor forgot to put a dogressy going down into it. He said he had to cut a hole in one of his closets and drop a ladder in order to get into his cellar.

When you clean up your car ith gasoline, give it plenty of me and ventilation to air out. or make suitable preparations with the undertaker. Herbert Larson of Fargo. N. It never found them, but when the found him he was several found the street.

Campaign Of 1840

On the basis of the possibility that Gen. Dwight D. Eisenhower might be nominated for the presidency, some commentators draw a parallel between the election year of 1840 and the present one. At that time the White were faced with a problem similar to the one faced by today's Republicans. Martin Van Buren was President and political faced with a problem similar to the one faced by today's Republicans. Martin Van Buren was President and political heir to the popularity and power of Andrew Jackson, just as President Truman has more or less followed along the path charted by the late Franklin Roosevelt. The Whig Party had a wealth of prominent leaders, among them Daniel Webster, Henry Clay, William Henry Seward, Thurlow Weed and Thaddeus Stevens. Today's Republicans have Taft, Eisenhower, Warren, Stassen and others.

In 1840 the Whigs decided to nominate William Henry Harrison, the hero of the Indian battle at Tippscanoe. Like Eisenhower, Harrison was uncommitted on many issues of the day. Most of the other Whig leaders had taken a stand on the National Bank question, and party guides felt that a man whose position was unknown might be a more popular candidate. Harrison defeated Van Buren in an election marked by sectionalism and bad feeling.

In fact, "We have to make atomic energy work" to produce useful harnessed power or civilization will suffer because of dwind-ling coal supplies, he said.

Dr. Weinberg gave the hopeful news and the warning during a tour when newsmen were shown the Called Scienc

Unlike Eisenhower, Harrison had made several ventures into politics before he sought the presidency. He had served in the House of Representatives and the Ohio Senate. Like Eisenhower, he enjoyed the esteem of his countryment long before his election to any office. The events of this year may determine whether there are to be other similarities between their careers.

A tour of Lake county segment was conducted by technicians of the Soil Conservation Service Tuesday, Feb. 12. Walter Shaffer, Soil Conservationist of Lake county, served as guide and introduced the group from Seminole County to Mr. Shirley, operator of the Double "S" Ranch.

Mr. Shirley showed the group one of his Love grass pastures, of approximately 180 acres, that is carrying 150 head of tattle with no supplementary feeding. This pasture was located on well drained, sandy soil, and very lew in fertility. Although the upper portion of the grass leaves were brown from the last front the lower part of the leaves and the new growth from the stems and roots remained green, Adjoining pastures of pangels and torpedo grasses showed no green material. The Love grass pasture was seeded at the rate of 2 lbs. per acre. The general opinion of the group was that if a liberal application of a complete fertilizer had been applied on the Love grass pasture 3 or 4 weeks ago its continued growth would have been uninterrupted by the cold weather.

Young plantings of fescus and harding grass were also observed on the Double "8" Ranch. Both these grasses were green and showed no effects of the cold. Mr. Shirley stated that these pastures were costing a good deal more to establish than the Love grass pastures. These pastures were being established on rich muck land.

On the Cox & Coleman Ranch the group observed a complete water control system in operation. On this ranch good pastures of White Dutch Clover, Fescus, and Roselawn St. Augustine were observed. All these pastures were on muck or mineral soils and showed no damage from the cold. The cattle were observed to Young plantings of fescue and

In the "B" still tilt of the "A" squad, "B" squad twin bill, the Sanford JV's convincingly defeated a larger and more experienced DeLand JV squad. The win marked the sixth 'Haby-Fed" triumph of their last seven outings.

The Varsity contest, which opened with a sudden Defand spurt for R points, developed into one of the most dramatic and most exciting games of the waning season. The Bulldogs continued to swish the cords to first guarter. Eddie Scott, sennational all-conference forward for the visitors, hit for a phenuminal 12 points to out-score the entire Celery Fed aggrega-

tion, who countered with only 8 tailles in the entire period. The Feds seemed to shake off the effects of the staggering first quarter and began to click as the second quarter opened. The Sanfordites racked up 14 markers in this period to cut the DeLand murgin to 7 points. The count as the half ended stood at 29 to 22. Cohen's argument in essence is that if the regulations are suspended so that fruit doesn't have to go through a packing house-and pay for washing, grading and sizing, truckers are ready to go right into the grove, pay the grower more than he gets now from the packing house, and still make a good profit from selling direct to

new Southern markets.

Both Seymour and Peterson ridiculed Cohen's assertion that the truckers would pay the grower \$1.-50 a box on tree for oranges and \$1 for grapefruit. That would be "absurd" for the trucker when he can buy oranges now for only 50 cents a box on tree Seymour said.

Cathy said he believed Cohen's plan would permit "unwashed packing house eliminations or cult

Probe Begun Into Cheating At University

More Than 200 Students, Some Football Players Are Reported Involved

GAINESVILLE UP — More than 200 University of Florida students are being investigated on charges of cheating on an examination, a reliable university source said to-

"There are a few more than 200 involved," said the source who would not permit use of his name "There are a few football players involved, but they are a minor part of the total group."

Dr. J. Hillis Miller, university president, indicated the investigation is being made but he did not say how many students are involved. Dr. Miller declined comment be-

yong a formal statement which said the students represented a cross section of the university Cases of this type are taken be-fore the Honor Court, a part of the Student Government at the Um versity.
"When the Honor Court investigates a case, it is done in secret."
Dr. Miller said. "The name of the

violator is never revealed."
While the suspected cheating happened last year, Dr. Miller im plied the case is now before the Honor Court.

In a statement, he said in part "It has been a difficult time consuming and serious case. The Honor Court has gone about this business in an orderly and careful way. It has had no instruction or distation as to what they should do for that would have violated our thonor system.
