BIBLE VERSE FOR TODAY

JOY IN THE LORD—Praise ye the Lord, Praise ye him from the heights. Praise ye him, all his angels; praise ye him, all his hosts.—Psalm 148:1, 2.

PRAYER—Bless the Lord, O my soul, an all that is within me, bless His holy name.

Now I lay me down to sleep;
I pray the Lord my soul to keep.
If I should die before I wake,
I pray the Lord my soul to take.

Tired little feet have ceased to
tumble,
Restless little hands are cold
and still,
While a mother watches by her
daylight.

And her eyes with tears un-
bidden fill,
Lonely is the house without her
prattle,
Never more her footsteps on
the stair;

Mainly now the mother waits to
hear her
“Mamma come and hear my
goodnight prayer.”

Now I lay me down to sleep;
I pray the Lord my soul to keep.
If I should die before I wake,
I pray the Lord my soul to take.

The Business Of Rabbit Raising

A Vancouver man in Tampa has suggested to Hillsborough farmers that they go into the rabbit raising business and the thought has occurred to us that if too much celery is now being grown in this county to return a maximum price, it might be a good idea for some of our own farmers to give a thought to bunny.

Captain Babington, the great rabbit specialist from the wide open spaces of British Columbia, says that the cost of starting in this business is extremely slight. He says that sixty does and fourteen bucks are all that are necessary to begin with. Such an establishment costing only about fifteen hundred dollars would be sufficiently large to produce from six to seven hundred rabbits each year. They are very prolific.

The market, he says, will absorb around a hundred thousand skins annually, prices varying altogether according to the quality of the skins. "Girment's manufactured from choice chinchilla skins, however, frequently sell for large sums," according to Captain Babington.

The only drawback, so far as we can see, to the proposition is that it would probably cost something to feed them. Of course, some such stuff might be devised as worked so successfully for a time on a cat and rat ranch in Arizona. The cats were raised for their skins; the rats were raised to feed the cats; but it was finally discovered that it cost as much to buy food for the rats as it would for the cats, so the plan was abandoned.

Carrots and cabbages, we understand, make mighty good rabbit food, so it might be possible for some of our farmers to dispose of their excess cabbages and carrots in this manner. Captain Babington seems to think that there are several grasses which grow in profusion throughout the state which are rich in protein and which would make excellent rabbit fodder. If such is the case, the food problem is settled.

It only remains, then, for someone to start. Who will be the first one?

"Nothing But The Truth"

Ever since Don Quixote made the remark that "Honesty is the best policy," and doubtless for centuries before that, people have tried to believe themselves honest. There is no insult so quickly resented as being called dishonest. One man even goes so far as to say, "Honesty is the best policy" but he who acts on that principle is not an honest man.

And so we wonder how many who boast honesty are actually honest. Of course very few of us would steal our neighbor's silver, or permanently appropriate his lawnmower, but might we not be dishonest by being honest merely because that happened to be the best policy? Suppose honest were not the best policy. Suppose for some reason or other, policy might be more favored by dishonesty. Would we then be honest?

George Washington, who bears the reputation of never having told a lie, is known to have said, "I hope I shall always possess firmness and virtue enough to maintain what I consider the most enviable of all these character of an "Honest Man." Yet we wonder if I may not have told, at some time or other, lies bearing with that her hat was beautiful when in reality he thought it hideous.

We once had the pleasure of seeing an interesting little comedy called "Nothing But the Truth" in which a bet resulted in one of the contestants agreeing to tell nothing but the truth. Imagine his discomfiture when his unsuspecting wife insisted upon asking him very pertinent questions regarding her relations in their presence. It resulted in a complete and irreparable breach in the family ties.

If you do not believe it, try it some time. Go to a bridge party and tell everyone honest what you think. Do not make yourself purposefully dishonest, but merely be honest when pushed for an answer. If they insist upon knowing what you think of Mrs. So-and-So, now, do not tell them. Or if they want to know what you think of their own new hat, tell them that too. And see what happens!

THE HOME NEWSPAPER, an institution has survived many difficulties, the on-again off-again, the increase in cost of publication, the perils of unpaid subscriptions, the uncertainty of advertising patronage, the problems of competition, and the hazards of its own mistakes. Through all this the home newspaper still lives. The newspaper is a growth, a development made possible by the cooperative and receptive spirit of the people. It is the echo of the community's rights, and a direct avenue for contact between the different people of the community.

As Brisbane Sees It

Doubting Thomas—

Wall Street.

New Kind of Baby.

Not Jail, Europe.

By Arthur Brisbane.

Copyright 1928 by Star Co.

WALL STREET'S ROUGING

Thomas frightened yesterday,
ran away from stocks, let the prices fall. Later they came back and put prices up again.

Fear seized them when Chicago's federal reserve bank raisedrediscount rates to 4 percent "to curb speculation."

SPECULATION, POLITE name for stock gambling, should be curbed. But intelligent financiers might find better way than making money dear for those engaged in regular business and frightening legitimate investors.

HIGH FINANCE bitterly opposed the federal reserve system that has since proved its salvation, and does not know everything.

The dollar has dropped from 100 cents to 96 cents of real value.

Wages have gone up, the country's

wealth has increased enormously.

Regardless of discount rates, sound

values will rise, as water does,

until new values and the new dol-

lar find their level.

CYRUS H. K. CURTIS' eminently respectable newspaper says,

"Crowds gathered to stare at the

house of the eugenic laws."

The interesting little story is not new. A widow lady, unmarried, with no children, decided not to send a childless old age, and the *so-called* *eugenics* laws.

But Europe was not married, not Dame, mother of Persus, temporary bride of the golden ratio. The mother of William the Conqueror was unmarried at his birth. The mother of Leonardo never married.

IN EARLY PAGAN days, what Mrs. Curtis' editor calls "an eugenics law" would have said, "a god would be born" and would have put one accordingly.

Now she says more simply, "I have agreed to have a real infant life." Morally, religiously, immorally, it is wrong, for God could be entitled to the care and attention of a father and a mother.

CELESTINE PLACETTE, an ex-actress, decided to become a mother, at the age of forty, of marriage, and wrote to George Bernard Shaw, asking his advice. Shaw, who is a wise old man, said, "I have no objection for your mother. What a wonderful thing would be if a child could inherit my brain and your brain."

George Bernard Shaws, a man of infinite tact, replied, "Yes, but you must not distract your mother from beauty. What a sad life that could be."

George is getting from \$10 to \$12 a day, and he continues at that rate. The business man, getting from \$10 to \$12 a day, wants to continue at that rate.

Besides, prostitution is here, and is going to stay. And so is bad breeding.

A SON-IN-LAW OF a United States cabinet officer testified that after his father-in-law had sold government oil reserves to a big oil man, that gentleman gave the oil man in law \$26,000. Do you think anybody will go to jail in connection with this incident? I don't. You are innocent.

He who steals a suit of clothes goes to jail. Who steals a hundred million, goes to Europe.

A TORNADO has blown over a country school and killed four children, near Nashville, Tenn.

Such a wind would do no damage in a city with houses of steel, brick or concrete.

If some genius would concentrate on "quantity production" houses" as manufacturing genius has done with automobiles, houses would be safe and cheaper than they are now, from skyscrapers to country schoolhouses.

A FLIGHT BROOKS, WHO guided Mrs. Lindbergh through the air to Mexico city in a three-engine Ford plane, didn't quite make the flight in one day from Detroit to Miami. But he did fly 790 miles on 20 gallons of gasoline. On the last lap of the trip, going over the Blue Ridge mountains, ice formed on the tires, "flying flivver," compelled Brooks to turn back. He will start again and succeed.

Those figures, 790 miles flying on 20 gallons, on the last lap with flying in 15 minutes.

COLLEGE

BY DR. FRANK CRANE

Professor Lowell of Harvard said the other day: "A college cannot educate the student."

Teachers put knowledge before you, but you cannot cause your brain to incorporate it.

As Dr. Johnson said about a certain division in the dictionary which a young man said he could not understand, "I can supply the definition, but I cannot supply the understanding."

A man called "Humanizing Education" lies upon my desk, and it is a fierce attack upon all methods of education, some of it apparently well founded.

Doubtless there is much in the schools and colleges to be criticized.

A teacher who simply hears lessons and fits his pupils to the preconceived bed of preconceived ideas is a poor teacher.

But we must remember that the country is full of young, numberless innocents who are intelligently wrestling with the problem of education. They may know more about it as the people, who are easily built with them.

Many teachers realize that a pupil is to be taught to be a good citizen, not merely to memorize and to recite.

Schools are progressing in methods like everything else and are becoming better all the time.

TALKING FLORIDA

TIMES-UNION

SANFORD stepped its first mile of the year today. Tuesday, Feb. 2, was to be the first day of the year when the market is well stocked with the California product. It is announced that several cars will be loaded with oranges and shipped to the market in the middle of January, when a general increase will be noticed. Prices are forecast for the middle of February until the first of March. "If the growers do not get excited and try to overload the market we will have a fine season with excellent prices prevailing throughout the year," the Herald predicts.

SURPRISE SHOWER

An enjoyable social affair of the week was the surprise matinee shower tendered Mrs. W. H. Harkey, a recent bride, Tuesday evening at her home on Oak Avenue. The rooms were bright with bowls of pink radiance roses and

The home was attractively decorated in colors suggestive of the approaching Valentine season. Games were enjoyed by the little guests during the first part of the afternoon and later delicious refreshments were served. About 20 friends of Little Miss Evans enjoyed the occasion.

Southern Bulb Body Gets Charter From The State; Bender Heads New Concern

A charter authorizing the organization of the Southern Bulb Association has been granted by the secretary of state of Florida to a group of Sanford men, according to an announcement today by F. W. Bender, who heads the group. The company is capitalized for \$25,000 and the stock is divided into 500 shares of value of \$50 each.

At present the directorate of the organization is composed of Mr. Bender, R. W. Pearman and S. J. Nix. Under present plans the board will be enlarged at some time within the near future. The purpose of the association was explained today in a statement by Mr. Bender, who said:

"The Southern Bulb Association, Inc., has been organized for the reason that in the operation of the Easter Lily Bulb Association, Inc., we were constantly called upon to market various kinds of bulbs grown in small quantities throughout the State."

"When the Easter Lily Association was organized we at that time only saw one thing and that was the development of the Easter Lily growing program and our Easter Lily Organization was laid out to do one thing. We now feel that the marketing of bulbs other than Easter Lily bulbs could best be handled through an organization or organized for that purpose."

"During the past year it was time and again proven that if our bulb business in the State of Florida is to ever arrive upon a sound and substantial basis it must come about through careful propagation and a strong selling organization. To encourage the growing of bulbs without being able to furnish the seed and planting stock of a character suitable for our climate and soils and not the same time furnish a marketing vehicle would be an injustice to the grower."

"In the formation of the Southern Bulb Association we are trying to develop an organization of real service to bulb growers; for instance, this year we have gone out and searched Narcissus fields for bulbs with seed and so far we have picked up nearly a thousand, the bulbs and seeds we will plant in hope of developing some native grown variations. Many Narcissus growers maintain that our Florida grown narcissus do not seed, but our observation shows that they do in some localities."

"In an attempt to market the small quantities of the various kinds of bulbs grown in the state we appreciate that we are entering into a large under taking, but even so we feel that an honest and intelligent attempt to do will be fruitful of results."

Clerk's Negligence Deprives Runner Of New World Record

NEWARK, N. J., Jan. 26 (INS) — Negligence on the part of track officials continues to be the bane of Lloyd Hahn's life. The great Boston runner recently was deprived of a record in Brooklyn because the track was not equipped properly, and in the St. Joseph's Catholic Club games here last night an error by track officials cost him a chance to break his own world's indoor record for the 1,000-yard event.

Hahn won the race, but it was discovered later that the contestants had been made to run an extra lap, or 1.176 yards instead of 1,000. The clerk at the finish line was responsible for the error. As a result, Hahn conserved his speed for the last and extra lap. His time for 1,000 yards being 2:14.4-5 against the record of 2:12.4-5.

Observers expressed the opinion that Hahn could have broken his record had he started sprinting one lap earlier. As it was, he led Phil Edwards of New York University by twenty yards and was seventy yards ahead of Ray Dodge, of the Illinois. A. C. Hahn's time for the 1,176 yards was 2:13.2-5.

In the Waldron 600, Oliver Proudflock of Newark, A. C., defeated Johnny Gibson, conqueror of Lord Burghley, Leo Lorraine, of Boston, nosed out Eddie Kirby of Newark in the two-mile race.

Kidnapping Scare Comes To End With Dismissal Of Case

(Continued from page one) me another time to make some notation in a book. Finishing this, he said he observed a child running toward his machine and said he smiled at the youngster, then drove away.

The defendant disclaimed any attempt to kidnap the child and denied that he had acted in a suspicious manner. He was represented in court by Attorney D. M. Hale of Buell, who said he had known stout for some time, that his reputation was good, and that he was a man of means. The man said he had patented several improvements on phonographs and to have realized a small fortune on them.

In dismissing the action, Judge White said she should find no cause for disorderly charge and that the kidnapping story was more of a myth than anything else.

government spy. Lantz said his wife had been bound and gagged and beaten over the head, and that a letter referring to McMullen had been taken from them by the mysterious intruder. Police Captain Guy Burlingame, who interviewed Mrs. Lantz, said "We could find no evidence of an assault." The house physician treated Mrs. Lantz for shock but reported she had no serious injuries.

Three Men Will Die For The Murder Of Louisiana Sheriff

LAKE CHARLES, La., Jan. 27 (INS) — Sometime between noon and 3 P. M. today three men met die on the gallows for murder in Louisiana unless unforeseen developments result in a further stay of execution.

Joe Gemma and Molton Brasceaux, sentenced to die for the murder in Aug. 1926 of John Breville will be hanged at Deridder. Bryan Dunn will be hanged at the prison here for the murder of Deputy Sheriff Sam Dubon, Dunn's brother, Robert, who was convicted with him, is now serving a life sentence for the same murder.

Eleventh hour efforts to snatch the three men from the shadow of the gallows were futile today but attorneys have not given up hope.

Attorney To Probe Attack On Witness

WASHINGTON, Jan. 27 (INS) — Peyton Gordon, district attorney, indicated today he would not press an investigation into the alleged attack upon Mrs. William Lantz in her room here. Mrs. Lantz and her husband, a traffic officer in Milwaukee, Wis., were called as witnesses in the Burns-Sinclair contempt trial to attack the character of W. J. McMullen, a Burns agent who later turned
