HONOLULU—The Navy's Pacific Island trading posts have made a half million dollars in its first five months—enough to pay back what the company borrowed to go into business. Jan. 1. Officially the corporation, the Island Trading Co., credit the record high price of copra. They deal with the Trust Territory of the Pacific, an area of 2,000,000 square miles including the Marshall, Caroline and Marianas.

"Actually, the Island Trading Co. is a non-profit organization for rehabilitating island economy," explains its treasurer Comdr. Kenneth White. "But to operate successfully, we have had to put the company on a sound financial basis. About half of the \$500,000 made by the company can be considered a Navy subsidy in free shipping, salaries for Navy men operating the business and assistance in financing."

The nature of this suit is to obtain a divorce. You are hereby notified to file your written appearance of answer to this suit on or before July 18, 1945, or a default judgment will be entered against you. Witness my hand and seal of the Circuit Court of Seminole County, State of Florida, in the City of Sanford, this 2nd day of June, 1945.

General Craigie Of Air Force Believes In Showing Might

WASHINGTON June 3 (AP)—An air force general believes that in a cold war, as in poker, it sometimes pays to advertise your hand. Let a potential enemy know you can call his bluff, he advised congress in published hearings, but make sure you have plenty to call it with. Without naming names but obviously referring to Russia, Maj. General L. C. Craigie said one of this country's possible enemies will be able before long to bomb U. S. cities. Craigie, director of Air Force Research and Development recalled that he once had said "a nation could endanger this country simply by concentrating on development of new weapons. He added: "Intelligence flowing in since that statement was made has indicated that new weapons are being exploited to the utmost in other parts of the world, and the efforts have borne fruit which places considerable doubt on any contention that we are substantially ahead in the race." Craigie testified before the House Appropriations Committee on the Air Force money bill for the year beginning July 2. The hearings were made public as the committee approved the bill, including \$831,736,000 for the Air Force. "The most important single problem for research and development of war's end," Craigie continued. "The Germans were also well advanced in radar, and therefore we must assume that he is well equipped with efficient warning devices. Thus, he is moving rapidly into a position where he can reach our cities with his bombers and then retire behind an adequate defensive system. "Our task is plain. We must be able to retaliate so swiftly and so devastatingly that he cannot dare to strike." Craigie said other nations are certain to develop atomic bombs "or another weapon equally as absolute." "Our course," he said, "must be to maintain such progress on new developments that we are known to be superior."

Watson Says Large Faction Threatens His Defeat Friday

By ASSOCIATED PRESS Attorney General Tom Watson last night charged that "certain organized factions are threatening to turn out in large numbers to defeat me Friday" in the runoff race for the Supreme Court with Justice T. Frank Hobson. Justice Hobson also is filling the vacancy created by retirement of Justice Rivers Buford but the appointment is not until January. Watson said the factions' opposition was not because of personal animosity but due to political maneuvering. It is not that they consider me unimpeachable, but because they have been unable to control me and to dominate my official actions during the eight years I have served Florida as attorney general. He said during the Friday night news conference, however, there is only one way to win: the political principle of cooperation with the support and opposition of each candidate presents a picture of the efforts of his staff. Hobson, retired Baptist minister, and Robert J. Pleas, executive vice president of the Florida State Bar association in Columbus, Ga., formed the "Watson-Hobson" ticket. Hobson said he had a meeting yesterday and today with various Florida legislators. They made one statewide broadcast in favor of the Judge Tuesday night. Meanwhile in St. Petersburg, Justice Hobson continued his telephonic campaign from his home in the Florida coast. Hobson said he has been a court judge for 20 years, an intensive effort was being made to bring out a big vote. The Florida Supreme Court has broadened interpretations of the responsibilities yesterday. The court expects race track operators to exercise "the highest degree of diligence" for the safety of their customers than regular places of business. And it considers an adequate public school program "is not limited to exploiting the three R's."

Governor Caldwell Is Inclined To Check State Building Plans

WASHINGTON June 3 (AP)—Governor Caldwell is inclined to put the brakes on the multi-million dollar state building program. He said the subject Tuesday he "was not inclined" there is immediate need of a new state institution that will cost which money has been released. He mentioned some during a session at which numerous requests were made for new buildings. They included a new \$2,160,000 state tuberculosis sanatorium in the Black Mountain section of a hospital in Florida and M. College for women, and \$6,773,000 worth of buildings at various other higher education institutions. Caldwell's release for a pilot plan in the state's general financial affairs of the state developed. Comptroller C. M. Gay produced an estimate that the state general fund will have a balance of \$100,000,000 when Governor Caldwell takes office in January. However, budget director Homer D. L. Hays reported the state is \$10,000,000 behind in its contribution to the teachers' retirement fund. The governor said he never had had of that before. Later in the day he returned to the subject. "That arrangement came as some surprise to me when I heard about it," he commented. Caldwell said the state school Supt. Colin Englekamp said the retirement fund obligation, wasn't really as serious as it might appear. He explained that although he and the state's teachers would like to see the retirement fund filled it would be a matter of investing money in bonds when the state needs many things worse. English said there is some doubt that the state's contribution of seven percent of each teacher's salary to the retirement fund is too high. That is the figure on which Graham based his report of a \$9,800,000 unpaid obligation running back to 1939, he said.

British Military Report Says Reds Dominate Zone Ruthlessly

BERLIN June 3 (AP)—An official report of the British military government said yesterday the Russian occupation zone is a police state where "Soviet ruthlessness" has eliminated virtually all political opposition. The report said so hopeless has become the position of Germans opposing Russian policies there is "apprehension that nothing short of force will improve conditions." This report, issued to the allied and German press, was the most devastating ever made here by one occupying power in criticism of another. It followed by less than a week a British attack in Berlin on so-called "Kommunisten" on economic conditions in the Soviet zone. The British exposé apparently were designed to take the steam out of Communist efforts to extend their influence through such means as a currency "plebiscite" for German unification. The British said that after eliminating the Social Democratic Party in their zone the Russians had reduced the two remaining non-Communist parties (Liberal Democrats and Christian Democrats) to stooges. "Organized opposition to the Soviet plans has been virtually eliminated and opposition by individuals has become increasingly dangerous," the report said. "Any isolated cases of resistance which now occur are almost invariably followed by the arrest or flight of the persons responsible for them." The British said some oppositionists who escape to Berlin or Western Germany have given no real proof of secret-police torture. The memorandum listed these Russian pressure methods to get subservience: (1) Open interference by Soviet officers to enforce Russian policies, on the lowest levels of German governmental machinery. (2) Pressure through the Soviet-sponsored, Communist-dominated Socialist Unity Party (SED) and its block committees, which defame and intimidate opponents. (3) Soviet control of newspapers with heavy censorship of the eastern-zone press and seizure of publications from the United States and British zones. (4) Dismissal of political opponents as "unacceptable" to the Soviet military administration. (5) Economic pressure, including withholding raw materials from non-Communist manufac-

Smoot-Hawley Law, Reciprocal Trade Act Are Explained

By ROBERT F. GEIGER WASHINGTON—The term "reciprocal trade" will be in the headlines for the next few weeks. That's because the Reciprocal Trade Act passed by a Democratic Congress in 1934 and renewed by later Congresses will expire June 12 unless the present Republican Congress extends it. This act has an important bearing on United States business, manufacturing and farming. If it is not extended the "platform" upon which the U. S. has been conducting much of its international trade collapses. Here's the background: In 1930 a Smoot-Hawley law passed the United States Congress set up some of the highest tariffs in U. S. history. This law said to foreign nations: You will have to pay this government a certain price to bring certain products into the United States for sale. The effect of this was to increase the price the U. S. public paid for some imported goods. This protected United States citizens who had the same kind of goods to sell but wanted higher prices than foreigners asked in this country. After we did this other nations wanted to sell them. This increased the prices the public in foreign countries had to pay for American goods. Thus, fewer American goods were exported. The 1934 Democratic Congress changed our system. This was during the depression when the government wanted to start world trade going again. The Democrats set up reciprocal trade agreements. Under this plan, we

State Lists Duties Of Race Tracks, Schools

TALLAHASSEE June 3 (AP)—The Florida Supreme Court handed public schools and race tracks broadened interpretations of their responsibilities yesterday. The court expects race track operators to exercise "the highest degree of diligence" for the safety of their customers than regular places of business. And it considers an adequate public school program "is not limited to exploiting the three R's."

State Lists Duties Of Race Tracks, Schools

The opinions, one directed to the State Beach Kennel Club and the other to the Alachua County School Board, were written by Justice Glenn Terrell. The Alachua board was authorized to purchase a campus site in the fall of 1947 until March 1948. They signed an agreement to set up the ITO. But this organization won't exist until Congress and the other nations ratify the agreement and Congress can't act on it until 1949.

6-Nation Conclave On West Germany's Reaches Agreement

LONDON June 3 (AP)—A six-nation conference on Western Germany's political and economic future reported officially yesterday it has reached agreement on recommendations covering the whole field. That was the heart of an 80-word communique summing up the results of six weeks of talks which brought together high-ranking diplomats, financial and industrial experts from the United States, Britain, France, Belgium, The Netherlands and Luxembourg. It mentioned directly none of the major accomplishments of the talks—among them the recommendation to establish a separate Western Germany early next year, plans for creating an international control board over the Ruhr's key minerals, or long-range methods for preventing re-birth of German aggression. But it did say that a report on its recommendations will shortly be made public. Diplomatic officials here said this probably would not come before another two weeks—after the recommendations have been reviewed in detail by the governments concerned. The text of the communique: "The informal discussions on Germany between representatives of the United States, the United Kingdom, France and the three Benelux countries, which began in London on 22nd February and which, after a recess beginning on 6th March, were resumed on 20th April, have resulted in agreed recommendations over the whole field."

Solon Demands Probe Of Marshall Subsidy

WASHINGTON June 3 (AP)—Rep. Rankin (D-Miss.) called yesterday for a congressional investigation of reports that certain newspapers, magazine publishers and movie producers will split \$15,000,000 in subsidies under the Marshall Plan. Rankin waved a copy of the Washington Times-Herald bearing the headline "The Marshall Plan, press, films to get 15 million," and shouted on the House floor: "If this is true, it is certainly an outrage and should be investigated at once." The newspaper story said the \$15,000,000 will be used to "subsidize and boost" the foreign circulation of the publications and films. It described the publications as "a selected few which shouted the loudest" for the Marshall Plan.

U. S. Posts

WASHINGTON June 3 (AP)—President Truman yesterday nominated Robert A. Bergson of Massachusetts to be an assistant attorney general. The President also nominated to the Senate the nomination of R. R. Huddle, to be United States representative on the 17th Security Council's Kashmir Commission. Huddle is American ambassador to Burma. He will serve in the UN post while continuing his assignment as ambassador.

SHANGHAI ACCIDENT

SHANGHAI June 3 (AP)—The toll of dead and maiming in Friday's train accident on the Yangtze River has mounted to 147, Central News Agency said yesterday. Cause of the accident has not been announced officially. Central news reported originally it was an explosion of a lamp or flare. It is a dispatch, however, quoted physicians as saying burns suffered by passengers were inflicted by explosives.

Louisiana Senate Studies Sales, Gas, Severance Taxes

BATON ROUGE, La. June 3 (AP)—The Senate Finance Committee, which already has sheared the nickel beer tax, yesterday took up Governor Earl K. Long's sales, gas gathering and severance taxes.

In the House, final passage is expected on an appropriation of \$25,000,000 to start the old gas assistance program.

Yesterday the Senate Finance Committee trimmed the proposed nickel-a-bottle beer levy to 2 1/2 cents, before voting approval.

The group accepted an amendment offered by Senator Louis A. Mahoney of New Orleans. His amendment called for changing the tax from five cents a bottle to 3 1/2 cents.

He said this makes it about 2 1/2 cents a bottle. The Rev. A. C. Lawton, director of the Louisiana Moral and Civic Foundation, offered support for the beer tax bill.

He quoted from the brewers' trade publication to show that wartime sales of beer were a "sales honeymoon."

"Seems like a man ought to pay for his honeymoon," he said. "If they enjoyed the party, let them pay the fiddler."

However, state CIO Director Fred Pieper paced the fight against the beer tax.

He told the finance committee the tax has "no justification from any point of view."

"But if, in your judgment," he added, "this commodity must be taxed then it should be a reasonable tax, not one that is to be passed on to the working people who consume 95 per cent of the beer in Louisiana."

Leading an attack against the gasoline tax bill, J. V. Koch, of the American Automobile Association, and Highway Users Conference.

He said the measure is not necessary, that the state will have available \$175,000,000 for a roads program from present revenues for the next two fiscal years.

U. S. Occupied Korea Proceeds With Plans

SEOUL, June 3 (AP)—American-occupied South Korea and Russian-occupied North Korea are going ahead with plans for independent governments.

Both probably will purport to represent the entire nation.

South Korea installed its new assembly four days ago.

The Soviet puppet government of North Korea is busy felling about a proposed constitution for the "Korean Democratic People's Republic."

The U. S. army today released the transcript of a broadcast from the Pyongyang, North Korea, radio. The broadcast said article three provides all residents over 20 except pro-Japanese can vote or run for office. It added:

"Such a Democratic election can never be carried out in South Korea where American imperialists and reactionary elements exclusively control all political power."

The United States sponsored the May 10 assembly election in its zone—Russia boycotted it—under United Nations supervision. Nevertheless, Chairman Stephen Rhee said the members don't like the idea of getting suggestions from the U. S. military command.

How to get back the tiny gold waste that stuck to the shoes of workmen? There wasn't enough to make it worth while burning everybody's shoes each night. And

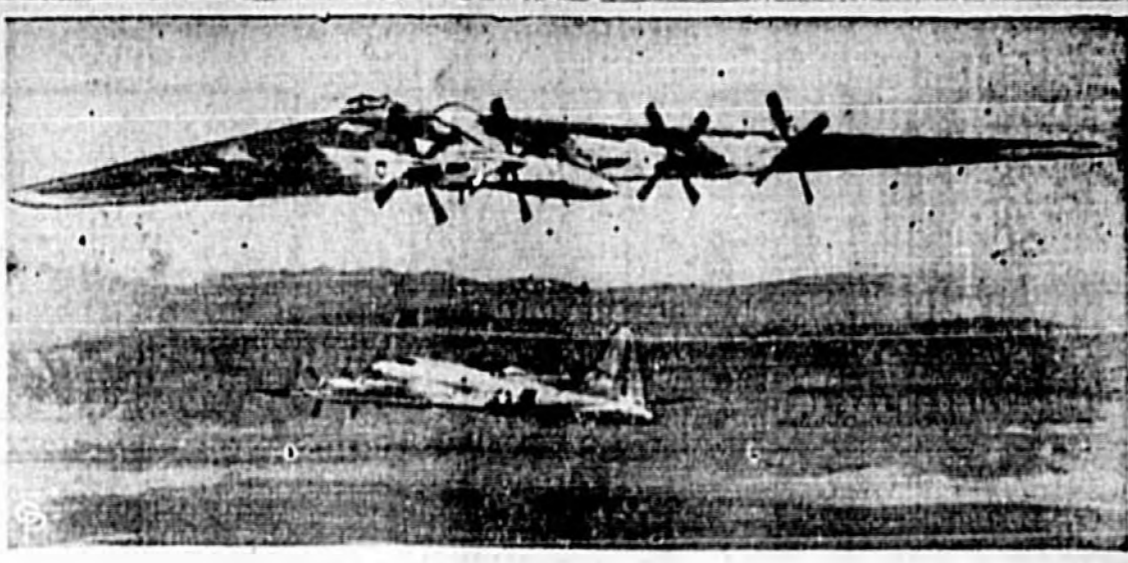

yet it didn't seem quite cricket to suggest they work barefooted.

The problem was solved by putting down a floor covering softer than leather shoes. Then the gold stuck to the floor instead of becoming imbedded in the workers' shoes and carried out of the building. When the floor covering becomes worn, it is taken up and burned to salvage the yellow metal.

For a time a number of plants recovered considerable gold dust—and perhaps dandruff, too—by vacuuming the hair of women employees. This practice is now obsolete.

"The ladies stood on their dignity and objected," Schwab laughed. "They insisted they wash their own hair or be taken to a first class beauty parlor—free."

So beauty and industry came to a compromise. The management put away the vacuum cleaners—and the ladies agreed to stomp with their hair tightly bound in kerchiefs.

THIS PICTURE GIVES YOU AN IDEA of the enormous size of the four-engine Flying Wing B-35 long range bomber. In comparison to the B-17 Flying Fortress, considered the top in big bombers only three years ago. The new aerial heavyweight, now undergoing tests at the U. S. Air Force experimental base at Muroc, California, weighs 10 tons. It measures 172 feet from wingtip to wingtip and can fly 10,000 miles non-stop at speeds far in excess of those prevailing during World War II. (International Soundphoto)

More Gold Is Found In Manhattan Than In Fabulous West

By HAL HOVLY

NEW YORK (AP)—More gold diggers have struck it rich in Manhattan than all the mining prospectors in the fabulous West.

But there is also a quiet and unglamorous quest for gold that goes on for constantly—and nets about \$500,000 a year.

These prosaic treasure seekers are the men who have the job of recovering the fragmentary particles of gold lost by 600 New York City firms in the manufacture of precious metal jewelry.

There is an old saying that gold is where you find it. This is particularly true of these indoor prospectors. They have found it in the air, in wash water, and by putting a vacuum cleaner to the hair of women jewelry workers.

These minute specks of gold also lodge in the clothing of workmen, in shoes, tools, work benches, chairs and floor cracks.

It's worth the cost of the treasure hunt to regain them. They add up to big money.

"We recover about \$50,000 annually in gold from such sources," said W. Waters Schwab, president of J. H. Wood & Sons, the nation's largest wedding ring manufacturing firm.

In its 34-year history this firm has introduced many methods of gold recovery now typical in the precious metal jewelry industry, which centers here.

The largest amount is probably recovered simply by burning floor sweepings and refining the bits of gold that have fallen from work benches.

Many firms now also supply aprons to their expert workmen and require them to be worn. The company launders the aprons itself. The water goes through a settling tank as does the water from special basins in which the workmen must also wash their hands each night before leaving the plant.

This prevents the waste of gold which accidentally stuck to the workmen's clothing and hands.

Jewelry manufacturers long suspected their workmen had hidden karat air. Introduction of a special type filter to trap microscopic particles of gold floating in the air confirmed this to an amazing degree.

In a single department where gold is worked as much as \$10,000 can be salvaged in a single year," Schwab said.

How to get back the tiny gold waste that stuck to the shoes of workmen? There wasn't enough to make it worth while burning everybody's shoes each night. And

U. S. PAVING AMBASSADOR for the European Recovery Program, W. Averell Harriman (left) talks things over with Chairman Styles Bridges (right), following testimony before the Senate Appropriations Committee in Washington on ERP aid to Russia. "It is my strong personal view," Harriman told the committee, "that we should give no aid to any country behind the iron curtain." (International Soundphoto)

Boy Accidentally Is Hung In Experiment

JOINTOWN, Pa. June 3 (AP)—A comic book "Lesson in Murder" cost 14-year-old Richard "Dick" Watkins his life Tuesday night. Cambria county coroner Joseph Goveckar said.

Goveckar said Dick remained name at his home while his parents attended Junior High School exercises for his sister, Betty, 15.

Dick had told his parents he would rather stay home and read his new comic book.

When the family came home, the father, Elvis Watkins, went to Dick's room to tell him good-night. He found Dick dead, hanging from a clothes line over a hot water heating pipe on the ceiling.

A comic book on the boy's bed lay open to a page showing the hanging of a bandit, with the caption, "A Lesson in Murder."

Governors Folsom, Gibson Are Hit For Using Military Craft

WASHINGTON June 3 (AP)—Use of National Guard planes by Governors Ernest W. Gibson of Vermont and James E. Folsom of Alabama was criticized yesterday by the House Appropriations Committee.

In a report to the House, the committee questioned a flight by Folsom from Alabama to the West coast and one by Gibson from Vermont to Salt Lake City, Utah, and return.

The report showed that during hearings on the Military Functions Appropriations Bill for the year beginning July 1, Chairman Scrivener (R-Kan.) of a subcommittee questioned Maj. General Kenneth F. Cramer, chief of the National Guard Bureau, about the legality of the use of the planes by governors except on National Guard business.

Replying to a set of questions Scrivener had sent him in advance, Cramer explained that plans are assigned to the states for use of the National Guard; that governors are commanded in chief of the air units assigned their states and are authorized to use equipment.

"Is there any language in the law which authorizes any state official to utilize such planes for his own convenience or for the transportation of himself on any official business or for any purpose not directly connected with the business, or connected with the National Guard?" Scrivener asked.

"Governors, adjutants general, and state officials may not utilize National Guard aircraft for their own convenience," Cramer replied, but added "governors, adjutants general, and state officials may utilize National Guard aircraft on national or state business under certain conditions."

Cramer said the Guard Bureau was not aware that planes have been used by governors for their own use except in the cases of Folsom and Gibson.

"It is to be noted," Cramer said, "that Governor Gibson was authorized a flight from Vermont to Salt Lake City, Utah, and return." Cramer did not explain the purpose of the flight or under what regulation it was authorized.

GI And French Girl Are Aided By Cupid

NEW YORK June 3 (AP)—Cupid in heavy-tinted glasses, carrying \$500, made life happy yesterday for a French bride-to-be and GI fiance.

The blonde French girl, Gergette Bertrand, 21, arrived on the liner Queen Elizabeth last Thursday.

Her fiance, Pfc Graydon Morfit, of Houston, Tex., and stationed at Fort Jackson, S. C., did not arrive in time to meet her, and she was sent to Ellis Island.

Morfit arrived Sunday, but didn't have the \$500 bond for Gergette's release. Then James Moot, interior decorator, read about the case and did four things: Put up the \$500 to release the bride-to-be today. Arranged to buy the wedding ring. Vacated his Manhattan apartment so the couple can honeymoon there. And issued this brief instruction: "Just be happy."

FARM RECEIPTS

ORLANDO, June 3 (AP)—Farm marketing receipts in Florida for the first three months of 1948 have been estimated by the U. S. Bureau of Agricultural Economics at \$143,000,000, an increase of \$4 million over 1947's first quarter.

Now She Shops "Cash and Carry"

Without Painful Backache

Many sufferers relieve nagging backache quickly, ease their distress and the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep

and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passage with burning and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

House Republicans Join Democrats In Fighting ERP Cut

Marshall Says Slash Would Turn Foreign Aid Program Into Mere Relief Project

WASHINGTON, June 4, (AP)—A group of House Republicans decided informally today to join Democrats in fighting cuts in the foreign aid bill.

The House Appropriations Committee has recommended a slash of \$533,000,000 in the multi-billion dollar aid measure.

Secretary of State Marshall declared such a cut would turn the European Recovery Program into a "mere relief" project.

Rep. Dirksen (R-Ill.) told newsmen he will offer amendments to restore the committee's cuts. Dirksen said a "substantial bloc" of Republicans has agreed to support him. He did not say how many.

House Democratic Leader Rayburn of Texas previously had announced that Democrats would oppose the cuts.

Dirksen made his announcement as the House prepared to take up the bill. Leaders aimed for final action by midnight.

Marshall authorized this direct quotation at a news conference: "The reduction proposed would, I consider, alter the European program from one of reconstruction to one of mere relief."

Marshall spoke as the House headed into a bitter fight over the proposed slash in funds.

The Secretary said in response to a question that if the cut which was recommended yesterday by the House Appropriations Committee is confirmed by Congress, it will have a most serious effect on the political situation in Europe.

He was reminded that a year ago...

CIO Official Says Taft-Hartley Act Repeal Is Needed

CIO Council Claims Employers Use Law To Hinder Unions

WASHINGTON, June 4, (AP)—A CIO official said today the Taft-Hartley Law "is bad for business, for labor and for the public" — it should be repealed.

Arthur J. Goldberg, general CIO counsel, testified before the joint congressional Labor-Management Committee. He said the law "has turned the clock back on progress in the field of industrial relations."

Goldberg was the final witness in a week of hearings on proposals to amend the act governing labor relations. Chairman Ball (R-Minn.) has said no changes in the law are expected this session.

"The law's passage was a tremendous mistake," Goldberg said, "and its repeal will enormously benefit not only the 60,000,000 wage earners of this country but our entire people."

Goldberg said employers are using the law to hamper union activities, although they are not "exploiting to the full the act's anti-union potentialities."

T. A. Johnston, assistant director of the UAW-CIO's General Motors department, said the Taft-Hartley law has kept workers from getting wage increases they need to meet rising living costs. He said employers are interfering with collective bargaining elections.

Senate Deletes UMT Bill From Draft Measure

Action Leaves Section Allowing Enrollment Men 19 Through 25 Could Be Drafted

WASHINGTON, June 4, (AP)—The Senate struck today the two-year draft bill today a provision for compulsory military training for 18 year olds.

The action, taken without opposition, left intact a section allowing such youths to volunteer for a year of training.

Under the bill men 19 through 25 would be subject to military draft.

A Senate Republican leader said "there is a good chance" that any military manpower bill passed by Congress will leave the actual draft call up to President Truman.

Meanwhile, the Senate Judiciary Committee put off action until Monday on the House-approved anti-Communism bill but decided against further public hearings.

Chairman Wiley (R-Wis.) said the committee will meet again Monday to consider legal questions involved in the Mundt-Nixon measure. It would require registration of Communist political and front groups.

Wiley said he could not guess when the committee will finally act on the bill or if it ever will be voted out to the Senate.

He said the committee in closed session also failed to act on the anti-lynching or tideland bills.

Truman's Tour Will Present Him To Voters Of 18 Or More States

By ASSOCIATED PRESS

President Truman swung into the Middle West today on a cross country tour that will take him before the voters of 18 states, maybe more. Plans for the return from the West coast are yet indefinite.

Officially, it is a non-political trip. But it already is drawing political comment from the Republicans contending for the chance to oppose Mr. Truman in November's presidential election.

Harold Stassen said in a speech in Cheyenne, Wyo., last night that the trip is an admission from Mr. Truman that he is weak in the West.

Stassen, Governor Thomas E. Dewey of New York and Senator Robert A. Taft of Ohio, leading contenders for the G.O.P. nomination, have campaigned vigorously in the West, covering much of the ground Mr. Truman now will cover.

The President will speak in Chicago tonight—the first of many addresses planned. He also expects to make numerous short talks from his special train's rear platform.

His train passed briefly at Pittsburgh early this morning. Mayor David L. Lawrence, National Democratic Committeeman, and other officials greeted him. Mr. Truman did not address the crowd.

The Republican candidates were seating the political buses for delegate votes in the G.O.P. National Democratic Convention and disputing about who will have the most when the party convenes in Philadelphia June 21. Little more than two weeks from now.

From Wyoming, Stassen left for Nevada and California. He will lunch tomorrow with Governor Warren of California. Warren, as a "favorite son," will get the vote of California's big delegation on June 21.

Judge Orders Lewis To Deal With Coalmen

Goldsborough States Mine Chief Seeks To Destroy Southern Coal Faction

WASHINGTON, June 4, (AP)—John L. Lewis today bowed to a federal court order directing him to bargain over a contract with the Southern Coal Producers Association.

The United Mine Workers chief announced through his attorneys that he would be ready to resume contract talks with coal operators, including the Southern group, tomorrow afternoon.

Washington Federal Judge T. Alan Goldsborough today ordered John L. Lewis to bargain with the Southern Coal Producers Association, headed by Joseph E. Moody.

Goldsborough granted a court order asked by attorneys representing Robert N. Denham, general counsel of the National Labor Relations Board.

The judge said that it was apparent from the record that Lewis did not want to bargain with the Southern Association because he wanted to "destroy" it.

He suggested that the United Mine Workers chief might desire to bring about the destruction of the Southern Association "because it is harder to deal with" a single unit than with representatives of the 14 smaller associations through the South which make up the association.

"Certainly it's unreasonable in the present case for the union to say 'we're entitled to one representative for 99 units and the Southern Producers Association is not entitled to one representative for 14 associations,'" he continued.

"That is not only not logical, but it is not reasonable," the judge said.

Bernadotte Hopeful Of Settling Issues In Palestine War

Telephone Strike Is Averted In 42 States' Long-Lines

Says Main Task Is To Get Truce Before Discussing Major Points Of Dispute

TEL AVIV, Israel June 4, (AP)—A naval engagement was fought in Tel Aviv bay today between a Jewish corvette and airplanes and a ship believed to be an Egyptian destroyer.

CAIRO, June 4, (AP)—Count Folke Bernadotte said today he hopes to clarify within a day or two conflicting Arab and Jewish interpretations of the four-week truce in Palestine ordered by the United Nations. The time of the cease-fire can be fixed only when the conflicts are worked out.

A Trans-Jordan foreign office source said the Arabs already accepted a date for a cease fire.

While the U.N.'s mediator labored for peace, the war went on. Jews and Arabs reported heavy fighting in the Arab triangle of Northern Palestine and on the southern coastal route to Tel Aviv, where the Jews and Egyptians were engaged.

Arabs and Jews indicated battles were continuing in the strong Arab triangle east of Tel Aviv, where the Jews penetrated Jenin, and at Idud, three miles south of the Israeli border on the coast. Both sides claimed victories.

Planes of both sides were active. The Jews said their aircraft bombed Arab strongpoints both in the north and the south, and said they shot two bombers in an Egyptian raid on Tel Aviv last night.

Bernadotte told newsmen here "the military situation in Palestine will not change from the start."

NEW YORK, June 4, (AP)—A threatened strike of 25,000 long-lines telephone workers in 42 states was averted today when negotiators signed a 21-month contract.

The agreement, reached before a federal mediator here, ended a dispute between the long lines department of the American Telephone and Telegraph Company and the CIO American Union of Telephone Workers. It is subject to ratification by union members.

A company spokesman said the contract does not provide an immediate wage increase but allows the wage question to be reopened by either party once during the 21-month period.

The spokesman added that the contract does provide for increases in maximum wage rates to meet local conditions at a number of scattered locations.

If the wage question is reopened and no agreement is reached on new rates, the contract may be cancelled any time after June 2, 1949, upon 60 days' notice to either party.

The company also granted union demands on a number of fringe issues including an increase in overtime pay for holiday work and compensation for certain plant jobs.

The Bell System during the past month has signed similar contracts with 13 other unions, representing 64,000 of its employees. The other contracts run for three years, however, and allow the wage question to be reopened twice.

The American Union of Telephone Workers, originally asked a 20-cent hourly increase over present rates which they said averaged \$1.21. In the latter stages of direct negotiations, however, discussion centered upon terms of renewal of the old contract.

Mediation meetings in recent weeks were conducted by Bernard J. Foran of the regional office of the Federal Mediation and Conciliation Service. Howard E. Burham, regional director of the service, also attended today's session.

Settlement of the dispute precludes the need for a fact-finding board appointed recently by President Truman. The board called off the scheduled sessions to permit the further mediation efforts which ended the strike threat.

Tharp Leads Group Planning Memorial To Late Rev. Yesley

The official board of the First Christian Church of Sanford has appointed Lester Tharp to head a special committee to complete plans and raise funds for a Memorial Parsonage honoring the late William Perry Yesley, who at the time of his death a month ago today was pastor of the First Christian Church.

Other members of the committee are O. D. Alex, Mrs. Ida Lou Fox and Alex H. Johnson of the First Christian Church; Rev. Paul Carpenter of the Central Christian Church, Orlando, and Rev. J. Ed McKinley of the First Methodist Church of Sanford.

"A parsonage for his church was one of Dr. Yesley's projects on which he was working at the time of his death," Mr. Tharp stated today. "It is the aim of this committee to complete the work which Dr. Yesley had begun, and to dedicate the building as a memorial to him in Sanford."

"Many friends of Dr. Yesley have expressed a desire to see this project completed in honor of one of Sanford's most beloved men. Further details of the memorial will be made public as the work progresses," Mr. Tharp said.

Some Mississippi Delegates Are Cool To Bolting Party

JACKSON, Miss. June 4, (AP)—Some delegates to Mississippi's Democratic Convention here June 22 are cool to withdrawal from the national session, in event of disagreement.

Judge Herbert Holmes, chairman of the state Democratic Executive Committee, yesterday predicted a harmonious state convention. He declared the convention will "live up to" resolutions adopted at the Dixie Conference of States' Rights Democrats.

One of those proposals was that Southern delegates withdraw from the Philadelphia convention if it supports President Truman or his Civil Rights Program.

But Phillip E. Mullen of Oxford, a convention delegate and state representative, said "all of us are for States' Rights and are opposed to Truman. We are for further sessions will be held, but not on date."

Smith said he hoped it will be possible to call Alberto Gander, a former National Broadcasting Company employee, who supervised the Bolting Party.

Forest Fires Rage On 72-Mile Front In Canada's Forest

TORONTO, Ont. June 4, (AP)—Two roaring forest fires merged last night in the Mississauga and Cheneau areas of northern Ontario and are burning on a giant, 72-mile front.

The fire, regarded by many as the largest and most expensive in Ontario's history, is traveling toward rich timberlands on the Bark Lake area.

Smoke and flame are sweeping over 150,000 acres of green timber north of Blind River, Algoma district lumbering town midway between Sault Ste. Marie and Sudbury.

The big fire is one of some 15 which cover about 150,000 acres, or more than 200 square miles of the region. Millions of dollars of damage already have been done, forest officials said.

Hundreds of firefighters are battling the maelstrom blaze, but forestry men say only a drenching, three-day rain, can stop it. A west wind is pushing the flames ahead. Scattered thundershowers are forecast today but the forestry men say they probably will be of little help.

Guarantee Is Not Given Against New Smears In Voice

Official Says Plan Is Being Made To Have Supervision

WASHINGTON, June 4, (AP)—A State Department official said today there is no guarantee now that foreign broadcast programs, such as aroused congressional anger, will not be repeated.

William T. Stone, the department's director of international information, appeared before a combined Senate Foreign Relations and Expenditures Subcommittee.

The senators are investigating a "Know North America" series of broadcasts beamed to Latin America. Senate and House members have complained the programs misled individual states.

Stone testified that "at the present, I would say we do not have adequate assurance that this thing will not be repeated."

He said the State Department is working on a plan to assure good supervision of all programs broadcast under government auspices by private networks.

The subcommittee wound up four days of hearings. Senator H. Alexander Smith (R-N.J.) said further sessions will be held, but not on date.

Smith said he hoped it will be possible to call Alberto Gander, a former National Broadcasting Company employee, who supervised the Bolting Party.

14 Italians Hurt As Farm Strikes Continue Increase

Togliatti Says Leftists Fight Would Maintain Attacks

ROME, June 4, (AP)—Fourteen persons, five of them police, have been wounded by gunfire in spreading farm strikes in northern Italy, the Italian news agency Ansa said today. The bloodshed was the most serious since the Apr. 18-19 election.

After the Communist-led Popular Front lost that election, Communist leader Palmiro Togliatti told his party's directorate the left's fight would continue both in parliament and in the field.

The Ansa dispatch was from northern Cremona province.

A one-day general strike was in progress in Bologna province. There were reports of other strikes and threats of strikes of miners on the island of Sardinia and of dock workers in Sicily.

Milk was dumped in northern Italy.

About 100,000 cows in Cremona province were not being milked. Police were assigned to protect milkmen who worked. Ansa said the major shooting developed when strikers attempted to halt a milk truck near Spino d'Adda. The news agency said the prefecture reported police arrested six demonstrators, most of them Communists.

The Bologna strike was called by the Communist-led provincial chamber of labor to protect police action against rioters Tuesday at San Giovanni-in-Persiceto. The riot arose from a demand for a 10 per cent raise in wages for field workers for better pay and other benefits.

Tanks and armored cars rolled through the streets of strike-bound Bologna. Despite rain, thousands of strikers gathered in front of the chamber of labor.

MotORIZED police circulated constantly in an effort to enforce an order by the prefecture against public meetings. Police arrested 10.

The city was without newspapers, banks, restaurants and most stores were closed. Public buildings were closed.

State Forest Board Urges Caution In Preventing Fires

TALLAHASSEE, June 4, (AP)—With Florida's woodland timber, the State Forest Service today urged a high degree of caution against forest fires.

Fire Control Chief Owen H. Douglas said many blazes have been reported in the last few weeks "and even more can be expected unless there is a heavy general rainfall soon."

He added the state's forest fire prevention record for 1947-48, so far one of the best in many years, may be "shot to pieces" if the present drought continues.

Major fires during the past few weeks burned 1,200 acres in north-east Hamilton county, 500 acres in Orange county, 2,000 acres in Bay and 10 acres in Okaloosa.

Some 1,800 acres have been burned in Duval county in about 900 small fires. Other blazes have occurred in Volusia, Marion, Columbia, Escambia and Hillsborough counties, Douglas said.

The forest service reported all rangers have been alerted and additional fire fighting tools have been made available in case volunteer firemen are needed. Trucks are placed usually out in the field and being held in readiness to fight fire at a moment's notice.

Robert Thompson Is Released By Judge

Rev. Charles To Give High School Sermon

Rev. Douglas Charles of the First Presbyterian Church will preach the baccalaureate sermon for the graduating class of Seminole High School at the High School auditorium at 8:00 o'clock Sunday night.

Rev. Mr. P. Brooks will render the invocation and the scripture will be read by Rev. L. R. Rush-ton. The benediction will be pronounced by Rev. Glenn E. Smith.

The Seminole High School Band will play the processional and the recessional. The ninth grade choir will sing two special numbers to complete the program.

Over 100 stray dogs have been taken to the City pound and nearly 50 unclaimed dogs have been disposed of in the past two weeks, City Manager H. N. Sayer said this morning. Clarence Davis is catching an average of 32 dogs each day and taking them to the City pound, Mr. Sayer declared.

Dr. R. W. Ruprecht Is Made Head Of Polio Foundation

Dr. R. W. Ruprecht was re-elected president of the National Foundation for Infantile Paralysis for Seminole County at the annual meeting held at the Tourist Center yesterday afternoon.

Other officers elected were Roland Dean, vice president; Mrs. Geo. A. Speer, Jr., secretary; and R. W. Deane, treasurer.

The local foundation finished the year with a cash balance in the bank of \$1,102, according to the Treasurer's report. A total of \$380 was spent on four cases during the year, one old case, and three new ones.

Total receipts for the year were \$1858 out of which campaign expenses of \$123 had to be paid. One half of the balance was sent to national headquarters, and the rest was kept here for local cases of paralysis.

There is now one case at the Harry Anna Home for Crippled Children for whom the local chapter is providing medical treatment.

200-Inch Telescope Opens Scientific Era

PALOMAR MOUNTAIN, Calif. June 4, (AP)—Astronomers ushered in a new scientific era today as they prepared to tackle the mysteries of the universe with the 200-inch Hale telescope — mankind's "window to the stars."

The giant telescope camera, atop Palomar Mountain in Southern California was dedicated formally yesterday by some of the nation's top-ranking scientists. It will afford them twice the space-penetrating power of any instrument previously at their disposal.

Newsman who took their first peek through the "big eye" last night labelled the show something of a disappointment.

They gazed at the planet Saturn but said they couldn't see much. Saturn, 71,500 miles across, appeared as a globe about two inches wide.

Astronomers patiently explained however, that looking through the telescope is meaningless. It wasn't designed for that.

Services Wednesday For Pfc. J. A. Partin

The body of PFC. James Arthur Partin, U. S. Marine Corps, will arrive Saturday for services to be held at the Chuluota Cemetery next Wednesday at 3:30 P. M. with Rev. Lionel Nelson officiating. The American Legion will conduct a military service for Pfc. Partin and members of the Masonic Order of Oviedo will also conduct a service.

Born July 8, 1909 in Chuluota, Pfc. Partin was wounded in the battle of Saipan June 22, 1944 and died on July 6 at the age of 35.

He enlisted in the U. S. Marine Corps on Nov. 11, 1942.

Borned in Oviedo, Pfc. Partin was a member of the Oviedo Methodist Church, a Past Master of the Oviedo Masonic Lodge and a graduate of Seminole High School with the class of 1929.

He is survived by his mother, Mrs. Evelyn E. Partin; one brother, T. E. Partin; one niece, Shirley Ann Partin; and one nephew, Tommy Partin, all of Oviedo.

Water Churns Thru New Breaks As Raging Flood Front Expands

By WILLIAM PHIPPS
PORTLAND, Ore. June 4 (AP)—Unbridled waters churned today through newly punched-out dikes on the Pacific Northwest's far-flung flood front. More strained levees were crumbling. A new crest was rolling down.

The Fraser River in Canada crushed the barriers—At Barnston and Hatzic Islands in British Columbia. Some 360 persons raced for their lives ahead of a wall of water 20 feet high that broke through on Barnston.

Reinforcements rushed to soggy dikes along the lower Columbia River's shores in Oregon and Washington as the massive flow of the big river threatened to widen its most destructive 1,200-mile surge to the Pacific.

The fresh flood crest was mounting in the Columbia, far up into the mountains where the blast is running so quickly changed the deep snorepack into runoff water. The Snake River, main Columbia tributary, also was rising.

The collapse of Barnston and Hatzic dikes last night flooded more fertile farmland, making the tremendous but not untold millions of dollars damage in the Northwest region.

Before the new rampages of the Fraser, estimates from qualified sources soared to \$110,000,000 for the Columbia in Idaho

Emergency Clause Of Taft Law Is Invoked In Maritime Dispute

By MAX HALL
WASHINGTON June 4 (AP)—The "national emergency" provision of the Taft-Hartley Law got a new workout today as President Truman invoked it in the maritime dispute.

This makes five times Mr. Truman has used this special machinery in an effort to end management-labor deadlocks. He invoked it previously in these industries: atomic energy, coal, heat, meat, and telephones.

The President took the first step of the emergency procedure in the maritime case yesterday when he appointed a five man board of inquiry headed by Harry Shuman, of the Yale law school.

Other members are Andrew Jackson, New York attorney; Arthur P. Allen, University of California Institute of Industrial Relations; James F. Sullivan, New York attorney; and George Cheney, Sea Dog's labor relations consultant.

This board will report on the issues in the dispute, which involves six unions of seamen and longshoremen whose contract expires June 15. After the board can seek an 80-day court order to delay any strikes or lockouts. The unions are threatening to strike June 15 unless they get a higher wage contract, plus the right to use hiring halls to supply sailors and stevedores to shipowners. The hiring hall issue is the main obstacle to an agreement.

The ship owners contend it is a form of closed shop outlawed by the Taft-Hartley Act.

Despite the presidential action, union radio operators on East and Gulf coast ships have voted to strike on or after June 15; the CIO American Radio Association (Continued on Page Eight)

Sanford Special Vote For Justice Is Light

Voting was light in Sanford today in the special primary to determine the Democratic candidate for the Justice of the Supreme Court of Florida.

At 2:00 o'clock today 347 votes had been cast. 154 votes were cast at precinct No. 1 and 193 had been marked at precinct No. 3.

It was estimated that nearly 500 votes would be cast in the city, and that returns will be complete by 8:00 o'clock tonight for city precincts. County voting was also reported to be very light.
