Roosevelt Pleads For Unity, Requests New Defense Levies

President, In Annual
Speech Says Se-
curity Not Armed
Defense Alone

Asks Extension Of
Reciprocal Trade

FDR Reveals Budget
To Call For Slash
In Most Items

WASHINGTON, Jan. 3.—(AP)—President Roosevelt today couched an emphatic plea for national unity in the face of war-born disintegration abroad with a recommendation that Congress vote new taxes to finance "emergency spending" for "common sense" national defense.

But, he said in his annual message, the "permanent security of America in the present crisis does not lie in armed force alone."

He said what we face is the set of interrelated forces of disintegration, "economic, ruthless, destructive of all moral, religious and political standards" that mankind has come to cherish.

Personally delivering the message before a joint session of Congress, which convened at noon, the President asked extension of the reciprocal trade

and a "modest" tax on the reification of a "durable peace." He disclosed that a budget message which will be submitted to Congress will call for "economically all other important items" except defense. He asked special taxes to meet that extra cost.

He declared an answer must be found to the unemployment problem because we have not yet found a way to employ surplus labor which industry's efficiency has created.

**Capone Condition
Still Serious Is
Doctor's Comment**

BALTIMORE, Jan. 3.—(UPI)—Capone's "three weeks" in Union Memorial hospital lengthened to almost seven today but the true condition of the former top man in Chicago's gangland remained no much a secret as the day he entered.

Dr. Joseph E. Moore, who has attended Capone since his return from Federal prison, Nov. 16, refused to say whether the fallen "big shot" had responded to treatment for a chronic brain disorder. Neither would he say whether there was any prospect for a complete recovery.

Capone entered the hospital a few hours after he completed a seven-year term for evasion of income tax payments. At the time, medical officials said they believed the patient there would require three months.

Since the outset, Dr. Moore, widely known syndicalist and Deputy Chamberlain at the Johns Hopkins Medical School, daily has visited Capone's condition "unfailingly and well" and said that he was physically but not mentally fit.

For his discharge from hospital, Dr. Moore said, "he must have been in a condition of complete recovery."

Finns Hear More Russian Troops Are Being Massed

Defense Line Holds
Despite Repeated
Soviet Assaults

Finland heard reports today that Russian troops are massing for a new major offensive after further Finnish successes while Germans and British dispute the outcome of a North Sea air battle and the Irish Parliament heard that United States money is financing the outlawed IRA.

Finnish reports said seven Soviet divisions—about 100,000 men—is being readied for a treacherous attack.

Snowstorms checked air operations in the northern warfare, but the Finns were holding the Mannerheim Line and were said to be inflicting enormous losses on the Russians.

The Germans said all three British planes attacking Helgoland Bight yesterday were downed without Nazi loss. Britain acknowledged losing two, but said the Germans lost one.

Aroused by the repeated raids of impeding trouble in Ireland, President De Valera said Parliament for the second consecutive night by intervening anyone whose liberty may interfere "public safety." During the session it was charged that large sums of American money were being sent to Ireland.

The program worked 100 percent in 1935, when there were 87 deaths, and even better the next year with a drop to 75. But autos slaughtered 71 persons in 1937 and 69 in 1938.

Then the safety council appealed to police, drivers, school children to walk or drive to co-operate.

The program worked 100 percent in 1938, when there were 87 deaths, and even better the next year with a drop to 75. But autos slaughtered 71 persons in 1937 and 69 in 1938.

Personal injury accidents were cut from 1,601 in 1938 to 1,182; property damage accidents from 8,973 to 2,136 and total accidents from 4,874 to 4,269 in this city of 400,000 population.

For the most successful campaign the multi-colored pin sticker charts—newspaper, radio, literature, personal correspondence, sales talk and other efficiency devices of big business were recruited. Photo electric cells and automatic speed checks pinned evidence on the fast driver. The drunkometer trapped the drinking driver. Modern devices to check broken lights kept police on the streets between dawn and dusk.

"Enforcement is a steady grind and will continue," said H. W. Johnson, superintendent of the police traffic and safety division. "Our investigations go to the bottom of every accident. We determine the reason. It's an impossible

task to make them preventable."

BIBLE VERSE FOR TODAY

LET EXPERIENCE OF OTHERS TEACH YOU: If they obey and serve him, they shall spend their days in pleasures, and their years in pleasures.—Job 31:11.

GN SKIS

From The Saturday Review of
Literature)

Not heavy footed with the white
clouds weighing me down
but lightly as Mercury or even
Zenith itself,

Follows the Valley of Samoth-

ra, shall all on two wind-borne ice
beats into the town;

Swift as thought which from hill
to hill can leap

shall not tangle my feet in the
tangles of prose

but glide smoothly as verse. On

the slope where the melted
snows froze

shall evade the valleys narrow
and deep;

You cannot reach me, however
you try, I have gone;

Leave as ever Diana, on the
chase keen,

You will hear the motif of hurry,

pull as the dawn,

Through the trees you may ask if

It's my face you have seen;

Think of me always as flying,

Flying through the air,

With my hair streaming backward

In motion, the wind in my

face. —Sara Koll Bumper.

The long diversions of my pen
To keep a blessed bestow
Than the style of Amy Lowell;
Would order my first poems done
By Ralph Waldo Emerson.

I try now to become a man
As a poet. What a began
In Boston, in the laurel trees
To end in Concord's winter freeze.—Winfield Townley Scott.

Congratulations, Mayor Colemen.

Be hum! We suppose 1940 will
sooner or later bring forth some
new kind of bubble dance.

After all, it is only natural
that the meeting of Congress
should drive the war news off the
front pages.

Pity the poor Russians! How
were they supposed to know
what meant it when they told
them they'd fight?

At about this time of year
we always begin to get dis-
cussed with ourself for continu-
ing to write it 1935.

We suppose Congress will be
getting quite a number of bills
during the next few weeks, but
as that won't have anything on
the old man.

The Times-Union, founded in
1866 when Lee was still battling
Gatling, has just celebrated its
74th birthday. That is a notable
record for any publication in as
small a state as Florida.

That the Moscow govern-
ment has decreed a wartime con-
fiscation against all foreign cur-
rency operating in Russia, we
will have less than
a month to learn what is going on.

Sanford Has A New Mayor

At the reorganization meeting of the City Commission last night, Walter S. Coleman was elected mayor of Sanford for the coming year. Mr. Coleman has had two years' experience as a commissioner, is a past president of the Kiwanis Club, has always taken an active part in the work of the Chamber of Commerce, and is well qualified for the post he now occupies.

With the election of Mayor Coleman, Ed Higgins lays down the gavel which he has held for the past three years. Throughout this period the City has made continuous progress and the administration of local government has been such as to warrant the public's appreciation of Mayor Higgins' active and energetic efforts in the City's behalf.

Particularly in the matter of City's finances has there been a marked improvement. The refunding program which was inaugurated during the administration of Mayor Shinholser, has been carried to a successful conclusion and the effort to round up the few remaining "hold-out" bondholders is progressing satisfactorily. Despite homestead exemption, the budget has been kept in balance and certain necessary improvements have been made.

Typical of the energy Mayor Higgins has displayed in working for the City is the "Trade At Home" campaign which he inaugurated last month and which has been so largely responsible for the increase in business which so many of our local merchants report. Mayor Higgins has been a progressive administration in every sense of the word and includes many successes to which he may justly point with pride.

And so while extending our congratulations to the new Mayor, we cannot let this occasion pass without expressing our appreciation for the services of the former Mayor. We are glad that he is to continue as a member of the Commission where his unusual abilities may still be of value to the City. To Mayor Coleman we offer our best wishes and pledge our unqualified support on all matters of public welfare throughout his administration.

Big Dumb Gorilla

Everyone thought that when Russia's 180,000,000 people attacked 3,000,000 Finns, the war would be a pushover. Finland's pigmy little army didn't seem to have half the chance the Poles had when the German juggernaut got started. For years we have been reading about the invincible prowess of Russia's mighty Red Army of 4,000,000 men with 18,000,000 trained reserves.

But after weeks of fighting the Russians are no farther along in their conquest of the scrappy Finns than they were on the first day. Everywhere the successes have all been on the side of Finland. If the Finns keep on winning victories, people are liable to begin being sorry for the poor Russians. And the significant fact is outstanding that if the Finns had a few more divisions they'd run the Russian army clear into the Pacific Ocean.

A few days ago the Communists called Gen. B. M. Shaposhnikoff back to Moscow and awarded him the Order of Lenin for his exceptional services rendered in the Finland campaign. We don't know what services he could have rendered unless he proved himself to be the fastest runner among the Russian generals.

Practically admitting that there isn't a brain in a carload east of the Vista, the Russians have appealed to Germany for 200,000 trained technicians to show them how to win victories and to reorganize their national economy so that when troops go to the front they will have something with which to fight. After twenty years of communism, the Russians have at last come face to face with the necessity of having something to think with.

At the time of the Red revolution, 5,000,000 Russians representing for the most part those who had demonstrated the highest mental capacities, were either killed outright or driven out of the country. Ever since periodic purges of one kind or another have kept the average intelligence at something little better than that of moron. During the past three years, more than 25,000 officers of the Red Army, have been executed.

Naturally if the Russians continue to do away with everyone who manages to develop the brain of an adult or rises above the rank of corporal, they cannot expect much by way of an intelligent general staff.

**HEAR MORE
GERMAN TROOPS
ARE BEING MASSED**

RECENTLY, over the Eastern Front, Finland was being watched closely by Russia's best-partner, Germany, came when authoritative Germany sources made it known that the Reich might actively support Russia in Finland if the British and French give scant aid to the Finns.

The experts estimated that Germany prepared to stand on the side of Russia in case it became a "pawn" in the war against Germany.

Thus American mail planned for

A British naval force in the Far East has taken the view that it is necessary to increase its presence for defense in case it might become involved.

In the Far East, the British closed busy Hongkong harbor as a "necessary defense measure" after an off-shore patrol gave alarm. The cause of the alarm, not made known, was under investigation.

HELSINKI, Jan. 3. — (P)—The Finnish high command last night announced the capture of the Aaro (Turku) and Ulisborg (Oulu), far north near the top of the Gulf of Bothnia, as their chief targets. The raid on Aaro by 31 planes which dropped nearly 200 bombs set fire to the city's ancient castle, one of Finland's art treasures, but the flames were extinguished yesterday with less damage than first was reported. Two persons were killed and four wounded.

When the Finns finally had the base—pushing the Russians toward the eastern frontier they seized two mountains, a field kitchen and 400 men armaments, along with other war materials, last night's communiqué said.

A daylong Russian attack with tanks around Lake Lava, about nine miles northeast of Pikkaranta on the southeastern border and just above Lake Ladoga, was said to have been repelled. The Finns consist of two sections—the "ala" or lower part and the upper "ala"—which are links in a chain of lakes.

Seven Russian bombing planes were said officially to have been shot down by Finnish planes and total of \$18,857. Sheepwood anti-aircraft batteries during the Russian air force's New Year's bombing raids which chose

WON, ONCE AGAIN, by President Roosevelt's nomination, Frank Murphy, associate justice of the Supreme Court, and Solicitor-General Robert H. Jackson to succeed him as attorney-general.

Murphy will fill the vacancy on the Supreme Court bench caused by the death Nov. 16 of Justice Pierce Butler and will become the fifth of the court's nine justices to be named by President Roosevelt. The others are Justices Hugo Black, Felix Frankfurter, William O. Douglas and Stanley Reed, who preceded Jackson as solicitor general.

Tired after being mayor of Memphis for five long seconds, Edward H. Crump, right leaves on a well-earned vacation, firing snowballs at spectators. The political overlord took the oath of office at the railroad station and then resigned to make way for Walter Chandler to take the job.

After facing the possibility of having to discontinue the WPA sewing room project, a plan has been devised by the Board of County Commissioners whereby the project can be continued for the next six months. County Clerk O. P. Herdman said today.

Since the budget of the county for the current year was adopted last October, the Works Progress Administration has repeatedly advised the county that the sewing room which provides employment to more than 70 women at present, must be disbanded unless its sponsor's share is increased to 25 percent.

Because of budget limitations, the increase could not be made until it was decided at the regular meeting of the Board yesterday to use the excess fees which have accumulated in the office of the County Clerk. These fees are ordinarily used for the payment of expenses of the office in which it is housed and not for the building itself, but was turned over to the County Treasury to make up the deficiency.

With the use of these fees, the operation of the sewing room for the next six months is assured and the commissioners are considering a plan which would provide for the recognition of future sewing rooms. Chairman Rollins of the Altimont Sewing Project said:

During the past month there were 71 women employed on the project whose salaries were \$2.50-\$3.00.

Finnish forces who routed the
Russian 163rd division in the
greatest single battle of the
north war were reported to-
day to have pushed for 10 miles
into Soviet territory in chasing
the scattered remnants of the
scattered Red forces.

The Finns were said to have
reached the western shores of
Lake Kokki in the fourth counter-
offensive which has carried them
into Russia.

After victory the Finns be-
lieve they had enough time to
build a bridge across the river
against the land defenses of
winter.

Trade At Home

This trade-at-home campaign
has certainly worked out fine for
us," M. V. Altman, manager of
the local Chevrolet Agency said

"We have subscribed to every-
thing asked for by the committee
and are thoroughly sold on the
idea that if local merchants keep
a stock of goods on hand, com-
mensurate with the demand, have
a corps of pleasant clerks to sell
it, and maintain the prices in line
with those elsewhere, our citizens
will gladly spend their money
here for their needs rather than
go to other cities," Mr. Altman

said.

Since opening the Chevrolet
agency here several months ago,
Mr. Altman said, that his sales
of both new and used cars "have
exceeded expectations" - and he

said he believed this is due largely
to the efforts of his firm to keep
the prices in line with those of
other dealers elsewhere."

"All of our force," Mr. Altman
said, "which includes a corps of
mechanics as well as the sales
force, is loud in its praise of San-
ford, the hospitality of its citizens
and the reasonable cost of resid-

ing here."

More than 40 Indiana Future
Farmers paid a visit to Sanford

last week and were overnight
guests of the members of the

Seminoles Future Farmer Chapter.

Sanford was included in their
sight-seeing itinerary of the state
and during their stay here they

were taken to the Big Tree Park
near Longwood. It is the second

phase of the plan of the Board

of County Commissioners to make

the Big Tree more accessible.

Legionnaires were requested

to make reservations in advance

by Saturday. Tickets will be on

sale at the Style Shop, Roumillet

and Anderson, H. R. Pope Co.,

and at Joseph Leinhardt's in

Oviedo.

The Weather Bureau reported

that the warm moist air from the

South Atlantic flowed over Flori-

da again today, dispelling the

cold wave which brought ice, frost

and chills to the state for several

days.

Temperatures last night and

this morning were not so low

as those of Tuesday

and yesterday morning, al-

though some sections of South

Florida had colder weather than

previously. North Florida had

a heavy frost but there were no

reports of crop damage.

The Federal-State Frost Warn-

er Bureau in Lakeland said there

would be no danger for fruit and

vegetable crops in the northern sec-

tions of the state.

Lowest thermometer readings

last night were considerably above

the 30s. Mr. and Mrs. recorded the

night before and early yesterday

morning in the coldest spots of

extreme North Florida.
