

Orlando Rallies In Eighth Frame to Down Lookouts 6-4

Holland Gets Three Hits To Again Lead Lookouts

Charles Atwater Nicked For Nine Hits; Locals Collect Same Number Off Harold Conn Of Senators

TINKER FIELD, Orlando, June 15.—The Orlando Senators claimed another win over the Lookouts as they came from behind in a late inning rally to down the Bill "Raw Meat" Rodgers outfit by a score of 6 to 4. Rodgers sent Charlie Atwater to the hill for the local delegation and the righthander was nicked for nine hits by the Senators while the Lookouts collected the same number off Hal Conn, Orlando skipper, who won the entire route for his aggregation.

Freddie Holland, catcher and outfielder, set the pace at the plate again last night when he lined out three hits in four trips to the plate.

The Senators scored first in the second stanza when Whitey Walker, new Lookout shortstop, misued Pete Schiro's ground ball. Woody Davis singled to left and Spider Favre singled to short center to produce the lone run.

In the third, the Lookouts came back to record a pair of markers when Win Brown, Mayo Langton and Joe Ruggiero recorded singles and scored on an intentional pass and an error by Bob Keller.

The Senators forced ahead in their portion of the fourth inning when catchers' interference, a sacrifice by Davis and one base hit by Overstreet, Conn and Hershberger produced two more runs.

In the sixth inning, the Lookouts regained the lead when they tallied twice more. They blended a walk, singles by Eddie Davis and Fred Holland, and an error by Woody Davis.

The late inning rally Orlando started in the eighth inning. Pete Schiro dumped one to Atwater who miscued the ball. Woody Davis sacrificed him to second base, Overstreet singled to send Schiro to third and scored when Manager Conn called for the old squeeze play. Favre laid down a roller in front of the plate allowing Schiro to cross the pan.

Favre was safe on first on Atwater's second error of the inning, and Overstreet went to second. A passed ball by Holland allowed both men to advance and Conn's short bingle over short scored Overstreet. Favre scored on another squeeze play by Hal Hershberger.

McCall Is Sentenced To Die In Chair For Kidnapping Cash Boy

Judge Atkinson Pronounces Sentence; Youth Hears Doom Without Flinching

Governor To Set Execution Date

Defense Attorney Declares Fair Trial Of Case Was Given

MIAMI, June 16.—(AP)—Franklin Pierce McCall, 21, was sentenced today to die for his \$10,000 ransom kidnapping of Jimmy Cash.

Day-long in the crowded courtroom to keep quiet, Circuit Judge H. F. Atkinson called the minister's son to the bench.

"You plead guilty to the offense as charged of kidnapping and holding James Bailey Cash Jr., for ransom. What have you to say for yourself?" he demanded. McCall merely shook his head.

"I find you guilty as charged in the indictment," the elderly judge continued. "The same being a capital offense under the laws of Florida, and I sentence you to be held until such a time as you shall be delivered to the superintendent of the State prison at Raiford, there to be held safely until a death sentence shall be carried out."

The judge said the Governor has the date for the execution specified and the prisoner was to be put to death by electricity and concluded with the customary, "My God have mercy on your soul."

He made no comment on the \$10,000 abduction. McCall confessed to having perpetrated at Raiford on May 22 but remarked privately that "it was the most cold-blooded thing I ever heard of, there were no mitigating circumstances in this case."

McCall heard his doom without flinching. His face was impulsive and he looked straight ahead. Afterward, under heavy guard he was taken to the elevator and returned to his cell on the third floor. Jack Kehoe, defense attorney appointed by the court, said he thought McCall had received a fair trial yesterday and there would be no appeal.

He said he had followed McCall's instructions in representing him and that he had confided with the defendant this morning and McCall declared he was nothing more to say.

Princeton James Bailey Cash Jr., received word of McCall's sentence calmly and said his mother was trying to calm the whole thing off her son, said he had heard nothing would be done but for the sake of his belief.

Oak Tobacco Mart Is Expanded

NEW YORK, June 16.—(AP)—Tobacco marketing facilities here have been expanded to care for total sales totaling 10,000,000 pounds this season.

More than 5,000,000 pounds were sold last year in this central Florida city.

With these new warehouses have been erected and modernized for operation of

Walter L. Fry, who staged the country's first "boss sit-down strike" to combat a strike of his employees last year, has decided to move most of his \$1,000,000 manufacturing plant from Detroit to Columbus, Ga., to escape "the high wage rate." Fry is shown at his desk deep in plans for the transfer. His company manufactures automobile seat covers.

Support Of CIO Randall Chase Is Spurned By Hague Made Director Of New Citrus Board

Mayor Of Jersey City Amplifies Opposition To Communism

NEWARK, N. J., June 16.—(AP)—Support of the Democratic party by CIO unions and the American Labor party was repudiated yesterday by Mayor Hague of Jersey City, a vice-chairman of the Democratic national committee. Explaining continually in federal court that he spoke only for himself, he said he would spurn campaign contributions from both groups because they fell in the class he has labeled "undesirables" and communistic.

Previously he said candidates who sought ALP support should be defeated.

Hague amplified his opposition to the CIO and ALP as he spent a hectic third day on the witness stand defending himself against charges he has suppressed free speech and assembly in the

(Continued on Page Two)

Flag Day Exercises To Be Given By Elks

The public has been invited to attend the Flag Day exercises of the Elks Club to be held in the Lodge Hall Friday night at 7:30 o'clock. A free dance will be given at the lodge following the exercises.

According to S. Brange, secretary and chairman of the committee in charge of the affair, a patriotic program will be presented by officials of the lodge in observance of Flag Day. The guest speaker will be T. Walter Hawling, district deputy and past exalted ruler of the Deland Lodge. H. J. Lehman, local lodge trustee, assisted by Roy Smith, will outline the history of the flag. Vocal solo will be rendered by Mrs. F. A. Ute, accompanied by Miss Maxine Holden.

The dance will begin at the conclusion of the program and refreshments will be served.

The dance will begin at the conclusion of the program and refreshments will be served.

Congress May Close Shop By Nightfall

Adjournment Blocked By Last Minute Appropriations Put In Deficiency Bill

WASHINGTON, June 16.—(AP)—Congressmen fumed and fretted today over the \$10,000,000 barrier that stopped their rush to adjourn. The conference committee struggled to level the obstacle in time for a final windup tonight.

The barrier consisted of a handful of last minute appropriations written into a third deficiency bill, which as passed by the House carried allotments totaling \$275,000,000. The Senate added \$10,000,000 to that.

Virtually all major legislation was out of the way. The bill to continue low interest rates on certain farm loans was passed over the President's veto by a 57 to 54 Senate vote. The House previously had overridden the veto.

For a while yesterday it appeared there would be a prolonged Senate filibuster on the question of states' rights, but this argument subsided as quickly as it began.

The Senate now centered upon a provision in the \$275,000,000 flood control bill authorizing the federal government to condemn land for flood-control projects, without the consent of the state in which the land is situated. Secondly a clause excusing the states from contributing to the cost of such projects was also in dispute.

Any question involving states' rights is always an invitation to

(Continued on Page Two)

Model Sailboat Race To Be Held Here On July 7

The area-scouts will hold a model sailboat race on the St. Johns River July 7. It was announced today. Deadline for entries is July 5.

The course will be triangular and not less than a quarter of a mile and not more than a mile in length.

The sailboats cannot be less than 12 inches nor more than 38 inches long. All persons entering boats are required to do some work on the boats such as painting or rigging. Stores entering boats will be excluded from this qualification.

Officials for the race will be composed of one person from every civic organization.

The course will be marked with buoys. If a boat leaves the course the owner will be allowed to put it back on, but in the event a boat turns over it will be automatically disqualified.

Two dollars and fifty cents and a loving cup will be awarded the person or firms owning the best finishing first. A loving cup will be the prize for second place and a blue ribbon the prize for third place.

Entrance fees are 25 cents. Anyone is eligible to enter a boat.

Rev. Martin J. Bram Speaks In Leesburg

Speaking at the quarterly meeting of the city-wide brotherhood in Leesburg Tuesday night, the Rev. Martin Bram of the Holy Cross Episcopal Church of this city declared that most people got their religion second hand: They hear what religious men do for others, then hope "with all the enthusiasm of a good gambler," that it will do the same for them.

He said that religion is not a code of ethics—it is not "doing unto others as you would have them do unto you." It was his idea that church unity does not come from seeking it, rather, "unity comes people because they have common interests."

He urged men to remember their military training when they enter into the church, and to keep the ideals of the church with the thoughts they would give to their own.

Members voted to hold their annual meeting at the First Baptist Church.

LIVE, SERVE AND DIE, WEST POINT, FOR THEE

With the majestic Hudson river and the foothills of the Catskills as a background, 301 West Point cadets are shown listening to an address by Secretary of War Harry Woodring just before they received their diplomas and commissions at graduating ceremonies. And in this beautiful setting the cadets raised their voices in their Alma Mater song which concludes—Ever may that line of gray increase from day to day, live, serve, and die, we pray, West Point, for thee.

Citrus Shipments For Season Over 30,000,000 Boxes

Production For Year Sets New Records; Low Prices Prevail

Nearly 30,000,000 boxes of oranges and grapefruit had been shipped from Florida since the beginning of the season in September to June 1, the Citrus Inspection Bureau reported today.

Of the total, there were 7,788,816 boxes of grapefruit and 29,524,947 boxes of oranges. In addition, there were shipments of tangerines totaling 1,909,047 boxes.

Grapefruit shipments averaged 28,000 boxes a day, orange shipments 75,000 boxes daily and 8500 boxes of tangerines a day.

The 1936-37 orange crop to

date 22,500,000 boxes and the 1937-38 crop exceeds 3,750,000 boxes, the largest production in the history of the industry. A freeze which caused serious damage to California citrus fruit together with generally improved economic conditions resulted in an improvement in prices for the 1937-38 Florida orange despite its large size. With record production of oranges in the 1937-38 season in both California and Florida prices of Florida oranges have been relatively high during this season.

United States production of grapefruit in the 1937-38 season is estimated to exceed 28,500,000 boxes, of which more than one-third is accredited to Florida.

The 1936-37 grapefruit crop for the 1937-38 season is around 11,000,000 boxes, breaking all previous records for that state.

Tangerine production in Florida has increased gradually from 1935 through the 1937-38 season, the crop has averaged 2,450,000 boxes annually.

Home Demonstration Clubs Hold Picnics

PENSACOLA, June 16.—(AP)—Two perennial issues—four-year terms for themselves and abolition of the remaining state ad valorem taxes—are expected to be discussed by Florida county commissioners at their state convention here June 20-22.

Clerk Langley Bell, who is making arrangements for the meeting of the Florida Association of County Commissioners, said these and other recommendations probably would be taken up during discussion of next year's legislative program.

Gasoline tax diversion, removal of livestock from highways, elimination of toll bridges, highway beautification, regulation of truck transportation, billboards of highways, a drivers' license law and WPA cooperation with State and County officials are among other matters listed for debate.

Officers will be elected during the final morning session. They will take office during the final afternoon session.

MEMPHIS.—(AP)—Spanish-American War veterans of Tennessee at their annual convention here yesterday adopted resolutions urging military training in public schools and advocating Presidential power to take profit

out of war.

Memphis, June 16.—(AP)—The Rev.

Israel H. Noe, deposed Dean of

St. Mary's Episcopal Cathedral,

Memphis, will hold their regular monthly meeting tomorrow at the home of Mrs. Amy Whidbee.

Nazis Disown Austrian Debt Owed To U.S.

Minister Of Hitler Says Nation Not Obligated To Acknowledge Debts

"Lost" Division Flees To France

Insurgent Airmen Continue Bombing Of Foreign Vessels

Mr. Neville Chamberlain today told the British House of Commons the United States had indicated it was preparing to make definite proposals for world disarmament, but in Washington the State Department said nothing had been done beyond a recent speech by Secretary Hull saying the United States was willing to join such a move.

Chinese today said their air force had shot down six Japanese planes attempting to raid Canton.

Germany today denied her responsibility for Austria's state debts. The rampant Yellow River was altering the map of the Chinese-Japanese conflict, while in Spain Generalissimo Franco's offensive forced the "lost" government division to flee into France.

Adolf Hitler's economics minister, Walter Funk, in an address at Berlin, declared Germany was not obligated to acknowledge the debts of pre-annexation Austria either from the viewpoint of international law or on an economic or moral grounds. He said, however, Germany was seeking a compromise agreement.

Although this country is not one of the protesting guarantors of the defaulted Austrian bonds, Funk pointed to the United States as "virtually the center of disturbances" in world economy. The direct opposite of Germany in economic stability.

Secretary Jones H. Gil stated that the board planned to appear before the City Commission in the early part of the next regular meeting of the board in the Chamber of Commerce building yesterday.

The regular weekly meeting of the Sanford Townsend Club No. 1 will be held tonight at 8:00 o'clock at the Wauka Building.

Secretary Arthur Krichhoff said yesterday.

A permit has been granted to H. B. McCalley to make additions and repairs to a frame house facing French Avenue between Seventh and Eighth Streets at an estimated cost of \$200. A permit has also been granted to J. V. Brown to make repairs to a frame house facing Fourth Street between Palmetto and Magnolia Avenues at an estimated cost of \$200.

Members Of County Boards To Discuss Problems At Meet

PENSACOLA, June 16.—(AP)—Two perennial issues—four-year terms for themselves and abolition of the remaining state ad valorem taxes—are expected to be discussed by Florida county commissioners at their state convention here June 20-22.

The board also passed a resolution yesterday approving the resolution adopted by the Florida Association of Real Estate Boards requesting that FLOIDA always be spelled out in order to derive the full advertising value from the word. The matter was requested.

T. Bayard Smith, president of the Board, appointed J. H. Colclough as a representative of the local board on the taxation committee of the National Association of Real Estate Boards. H. C. DuBose was also appointed to the vigilante committee of the Florida association by president Harry J. Wood. Mr. DuBose is chairman of the vigilante committee of the local board.

Those attending the meeting were: Mr. Smith, Mrs. Gut, E. F. Lane, C. H. Ellis, A. P. Connally, H. C. DuBose, F. E. Cormac and H. J. Gut.

MEMPHIS.—(AP)—The Rev.

Israel H. Noe, deposed Dean of

St. Mary's Episcopal Cathedral,

Memphis, returned to Memphis yesterday.

The Altamont Springs and Forest City Home Demonstration Clubs will hold their regular monthly meeting tomorrow at the home of Mrs. Amy Whidbee.

BIBLE VERSE FOR TODAY

GOD WANTS US TO CON-
FORM TO THE LAW OF LIFE
The Lord is not slack concerning
his promise, as some men count
slackness; but is long-suffering to
usward, not willing that any
should perish.—2 Peter 3:9.

MARY AT THE CROSS
And Mary stood beside the cross,
her soul Pierced with the selfsame
wound that rent His side
Who hung thereon. She watched
Him, as He died.

Her son! Saw Him paying the
cruel toll
Kneaded by the law, and unfeeling
her,

Since He their evil will had dared
defy,

There stood the mother helpless
in her grief,

Beside the cross, and saw her
first-born die!

How many mothers in how many
lands

Have bowed with Mary in her
agony,
In silence borne the wrath of
war's commands.

When every hill is made a Cal-

vary!

O pig, Lord, these mothers of
the slain,

And grant their dead shall not
have died in vain.

Clyde Mclay

Several business men, whose
opinions and judgement we re-
spect, have told us there are
greater opportunities than ever
before to make money in San-
ford, if a person has a capacity
for vision and a willingness for
work.

Calvin Teague, at one time a
local up-and-coming business
man, who left for broader fields
elsewhere, came to town the
other day after an absence of
ten years. High in his praise of
Sanford's progress, he pointed
out many advancements and im-
provements, which we, as con-
tinuous residents, are inclined to
pass over unnoticed and un-
appreciated.

An elderly man, a farmer, who
has made a lot of money and lost
a lot of money during his
life, came into our office a few
days ago and told us with pride
and enthusiasm about the splen-
did crop of carrots he had just
planted. Although misfortune had
dealt him kindly, he had
not despaired and sought as-
sistance from outside sources.
Instead he had rolled up his
sleeves, went to work, and took
care of himself. He told us, that anyone
who wanted to, could make a
living in this country.

When the kidnapper of the
Cade baby was apprehended,
public sentiment was so strong
that we heard all manner of hor-
rible means suggested as proper
punishment, now the public is al-
ready becoming soft and if Mc-
Call was not put away where
he belongs in a short time, there
would be movements started to
get him his freedom, and, per-
haps to erect a monument to
him. That this idea isn't fantas-
tic, we quote a line published
in the Tampa Tribune by one of
readers: "I trust you will
return to your impartial
newspaper to expose my opinion
of the kidnapping case and
McCall is not a murderer."

Mrs. Henry Wight, Mrs. Bou-
chelle and son J. P. Bou-
chelle and son R. J. Holly left
for Daytona Beach this morning
in a dark room against
will. The same happened to
him, he merely removed
one piece to another. I
expect him free but don't
know his relatives un-
der impression that he is a

cooper's position.

Mrs. W. H. Morris was home

The New Ships

Although several gigantic express liners have come from the shipbuilders ways in the last few years, the tendency among marine architects and their clients is towards more moderate size vessels with a capacity for economical operation, safety, and good solid comfort.

The Queen Mary and the Normandie set a standard for speed which will be hard to exceed and these two ships have garnered for their respective lines a large amount of prestige which may result in sufficient benefits to offset the direct loss incident to their operation.

Among the liners which have been put in service recently and which are designed primarily to assure a good return on the investment, and to provide adequate luxuries and safety at the same time are the New Amsterdam and the Oslofjord, of the Holland American Line and the Norwegian Line respectively.

Both of these vessels are modest in size, as big ships go today, the New Amsterdam weighing about 34,000 tons and the Oslofjord 18,675. They are not speedy craft, having instead broad beams, assuring a minimum roll in heavy seas, and fuel-conserving engines which push the vessels through the water with little or no vibration.

The New Amsterdam boasts a fleet of life-boats sufficient in number to carry every single passenger and crew member. Many of the life-boats have engines and by means of tow-lines all of them can seek safety under power. The latest in fire-fighting equipment has been installed and fire prevention has been a key-note throughout the construction work and in the decorative scheme.

When we see a ship plowing through the "blue" we always envisage a boatswain standing at the wheel in the pilot house. But the most modern ships don't have wheels. The steering device on the Oslofjord is operated by two barcons, one for port and one for starboard. Traditions of the sea have been hard to crack, but the thought of a huge liner being steered by a couple of buttons is evident proof that ship building and seafaring technique has kept pace with an ever changing world.

Freedom Of The Press

Westbrook Pegler, daily columnist, comes to the defense of American journalism with his gloves off, tells about the problems confronting every publisher, reveals how the columns are always open to public expression and explains how every crack-pot, be he conservative or radical, usually ends up by lambasting the editor for printing an article that doesn't agree with the critic's point of view.

"The cost of publishing a standard paper, even in a small city, is enormous, and the enterprise calls for specialized ability in a number of departments—news, editorial, advertising, circulation, purchasing and so forth—which should work together

"I have found those who complain most bitterly about supervision and over-or-under emphasis in our papers usually are slightly screwy on some 'hot' or hatred and claim a right not only to publish violent communications but to spot them outside, as we say, preferably with a banner head. They want to edit the existing papers, and often when some scurrilous and libelous contribution has been garbaged there will follow a squawk of suppression and a demand for censorship or state regulation, as though that would provide a square deal for all opinion."

"A few days' mail of a metropolitan editor would illustrate the point. Letters come in containing the most fantastic general accusations against whole sections of the publication, and the editors are always being accused of selling out to various groups and interests for sordid reasons. A single day's mail will charge that the editor is a tool of Wall Street and Moscow, Hitler and Spain, the Pope, the Jews, the New Deal and the Liberty League. He is an enemy of labor if he prints a piece plainly reporting some skulduggery by some politician or racketeer who is exploiting an union, and the same mail will accuse him of encouraging the reds when he argues for free speech in some troubled center."

What might be added to Mr. Pegler's words is the tendency of persons to specify not only the location of a story they wish published, but also the type and kind of head they want on it, a tendency which is somewhat akin to a belief that anyone can run a newspaper better than the editor.

SANFORD TWENTY YEARS AGO

Mr. and Mrs. William Gillen, yesterday from the beach at Mrs. Blackman and Miss Ruth Sherouse spent a pleasant day at Daytona Beach Monday.

Caroline Staples of Valdosta, Ga., is visiting her uncle, A. T. Bassett at 310 Magnolia Ave.

Mrs. C. E. Walker and family left this week for Washington where they will spend the summer.

Miss Marian Phillips returned this week from Winter Park, where she has been a student at Rollins College.

O. P. Swope of Oviedo was a Sanford visitor yesterday.

Mrs. A. D. Hill, Mrs. Robert Newman and Mrs. William Hill left Saturday for Daytona Beach where they will spend several months. Mr. Newman and Mr. Hill will join them for the week-ends.

Mrs. B. L. Perkins and little son returned to their home in Daytona Beach yesterday after enjoying a brief visit with her mother, Mrs. W. N. Leffler.

Mrs. Henry Wight, Mrs. Bou- chelle and son J. P. Bou- chelle and Mrs. R. J. Holly left for Daytona Beach this morning in a dark room against

will. The same happened to

him, he merely removed

one piece to another. I

expect him free but don't

Continental Steamships Com-

STRANGE AS IT SEEMS—By JOHN HIX

For those good address the author, enclosing a stamped envelope for reply. Reg. U. S. Pat. Off.

A FRIEND IN NEED . . .

W. E. LOOKABILL, Roanoke, Va.,

VISITED A SICK FRIEND TO MAINTAIN A DAY FOR 1915 SUCCESSIVE DAYS—

THEN WAS A PALIBEARER AT HIS FUNERAL.

ZOOBU—A 2-year-old elephant, Atlantic City, N.J.,

HAD TO WEAR BRACES ON ITS FOREHEAD AFTER BLISTERING THEM IN A TAIL.

32 HOME RUNS IN A SINGLE DAY—WERE BATTED IN BY MAJOR LEAGUE PLAYERS JUNE 19, 1937

Lookabill paid a final tribute to his friend by serving as pallbearer at his funeral.

COMET OF 1843 . . .

Appearing suddenly in the northern skies about the middle of March, 1843, a comet was observed by astronomers to pass within 22,000 miles of the sun's

surface, smallest perihelion distance ever recorded.

Comets are by far the most numerous objects of the solar system. The total number of planets or asteroids, is about 50,000, while it is estimated that there are at least 120,000 comets regularly visiting the sun.

Contrary to popular belief, comets' tails do not invariably point away from the sun. While matter driven from the comet's head by solar action would show this effect, it is quite common for the tail to consist of several streamers radiating from the head like a fan, proving that there are other forces at work driving out the tail.

Lookabill paid a final tribute to his friend by serving as pallbearer at his funeral.

It is not real evidence that a filibuster had to be dealt with.

O'Mahoney began a second speech. But this time his remarks were brief. After five minutes he sat down and the flood control bill was rushed to a vote. It was approved 51 to 22 and the Senate went on with the deficiency bill, passing in short order.

Arcadia Cattle Mart Will Be Started Soon

ARCADIA, June 16.—(P)—The State Marketing Board announced today construction of a cattle market here will start this month.

A building occupying nearly 5,000 square feet will be erected on a 10-acre tract deeded to the State by the City of Arcadia.

Both cattle and hog sales will be handled by the market which will be operated under the State board's supervision.

INITIALS AND ALL

MARTIC FORCE, Pa., June 16—(P)—Forty-one years ago Blair

Funk carved "B. F. 1897" on the back of a turtle. Yesterday

you, you guessed it—he said he picked up the same turtle as he walked across a field on his farm, initials and date still plain.

ministration and an anti-administrative candidate present themselves to will hear the same charge gravely made and circulated by all the heir organizations to the Liberty League that a flood of relief money is being spilled in order to accomplish the defeat of a man who voted against some of the administration measures.

Polyce Is Demonstrated

The idea that the expenditure of relief funds aways the people this way or that is patently silly.

No man or woman is asked about his political views when he gets his needed relief. The distributor does not know how the voter is going to cast his ballot, or if he is going to cast any ballot at all. The fallacy of the "money" theory was certainly demonstrated in Iowa, assuming that every Democrat worthy of the name was under the influence of the White House.

That the White House influence was enough to give Franklin Roosevelt a landslide victory in 1936 is well known.

But the White House influence was not enough to give Franklin Roosevelt a landslide victory in 1932.

It is the fallacy of the "money" theory that is demonstrated in the election of 1936.

Legislators Will Gather In Capital To Discuss Roads

JACKSONVILLE, June 16—Ten legislators will gather here this month to begin with Chairman Arthur B. Hale a comprehensive study of the State Highway system and its future requirements.

Their operations will be financed from a \$10,000 appropriation voted by the 1937 Legislature. Statistical information and engineering records on existing roads and construction ideas for the future will be supplied by the road department.

Hale, as chairman of the road department, will serve as the 11th member and as chairman of the special survey committee. Other members are Senators Kelly of Clearwater, McArthur of Callahan, Sharit of Port St. Joe, Beacham of West Palm Beach and Westbrook of Clermont, and Representatives Burks of Pasco, Tros of Columbia, Wood of Liberty, Rogers of Blount and Leedy of Orange.

Senator McArthur and Representatives Ivens and Rogers will not be members of the 1938 legislature, but Chairman Hale said this fact would not affect their participation in the highway system study.

Rep. Burks chairman of the House Public Roads and Highways Committee, sponsored the legislative resolution for the special committee. The com-

HOUSE SEATS ROY, GUSTS JENKS—The house of representatives in Washington terminated a lengthy and complicated contest when it deprived a New Hampshire Republican of his seat and turned it over to a Democrat from the same state. Above, newly-seated Rep. Alphonse Roy (left) and newly-unseated Rep. Arthur Jenks (right). They're scheduled to tilt at the polls again for the seat next fall.

mittee's purpose will be to assemble data about existing State highways and needed links; to tie together the main road; a policy for future highway construction and financing; types of construction determined to be most suitable for Florida; traffic and the road construction re-

quirements for future traffic, weight limits and other matters. Chairman Hale said the first meeting will be devoted to preliminary discussions and organization. "I expect to call it some time later this month, but a definite date hasn't been decided," he said.

Epidemic In India Spreads Over Vast Area

16,500 Die In United Provinces As Cholera Extends Into Nearby Afghanistan

Flood Unabated In Yellow River

Japs Attack Along Yangtze River In Drive On Hankow

LUCKNOW, India, June 17.—(AP)—India's cholera epidemic, already having taken an estimated 16,500 lives in United Provinces, was reported today to be spreading over the vast area of northwestern India.

The epidemic is said to have reached into Afghanistan, beyond the northwest frontier, and into India's central provinces. Anti-cholera inoculations have been administered to 600,000 persons in the affected provinces during the past seven weeks.

SHANGHAI, June 17.—(AP)—A hundred-mile long blanket of muddy water spread rapidly southward through Honan province as half-naked Japanese engineers, aided by thousands of Chinese peasants, labored desperately in the rushing currents to mend broken dikes of the yellow river.

Continuing rain appeared to have effects on the yellow river, which had been held back and virtually halted all fighting in the area.

Japanese officers said the task of trying to halt the flood seemed hopeless. Five hundred thousand homeless Chinese fled for their lives.

The floodstream of the yellow river was between 10 and 20 miles wide. An estimated 60,000 lives already have been lost. Approximately 300,000 Chinese have been driven from farms and homes in 2000 villages.

Seeking the most natural course to the sea, the waters apparently were about to sweep into the Tashi river, rising in Honan province and flowing southeastward through Anhwei province.

Chowkiakow is on the Tashi and vast areas of Anhwei province thus were threatened with flood devastation, although for the moment the flood waters were swirling around Chowkiakow directly westward toward Yenan, on the important Peking-Hankow railway.

This means an impassable water barrier from two to eight feet deep and more than 10 miles wide was spread out between the Japanese invaders and the railway, preventing their advance against the line south from Chongchow.

With fighting seemingly stale-mate by mud in the Chengdu sector around the junction of the railway and the yellow river, the Japanese were concentrating their offensive through sections of Honan and Anhwei provinces, where they reached points beyond the flood waters.

Denton, far to the south, started a joyous celebration after the local government announced 18 Japanese pursuit planes had bombed and shot down one by one, while Japanese bombing planes which had attacked a railway north of the city. After nearly two weeks of virtually continuous attacks on Canton by Japanese planes, this was the first raid by Chinese craft.

Local Sailboat Race Set For July 14

Prizes for the model sailboat race will be \$1000 for first place, \$500 for second, \$300 for third, and the trophy will be awarded to the boat which has the best design.

KIDNAPER'S WIFE

McCall Taken To Raiford By Dade Deputies

Kidnaper's Family To Seek Commutation Of Death Penalty; Wife Affirms Love

MIAMI, June 17.—(AP)—Sheriff's deputies removed Franklin Pierce McCall from the county jail today and took him in an automobile to the State prison at Raiford while his family began fight to save the confessed kidnaper of Jimmy Cash from the electric chair.

The twenty-one year old farm laborer was visited by his wife who reaffirmed her love for him before he was taken to prison to await execution.

Although the defense attorney said he would ask for clemency from the State Parole Board, State Attorney G. A. Worley and such a plea would result in McCall's immediate trial on a murder charge.

Back in Washington after directing the investigation of federal agents here, Director J. Edgar Hoover said the Cash kidnapping case was the "toughest" in his career. He said he used 60 agents and special assistants in the Miami area, more than he assigned to the Lindbergh case.

McCall began a belated fight for his life after testifying without a flicker of emotion while Judge Atkinson sentenced him to die in the electric chair.

C. A. Avrill, attorney of James McCall, announced several hours after McCall heard the death sentence that his family would appeal to Florida's pardon board for commutation.

"The family feels that the capital penalty of death ought not to be imposed under the circumstances in this case," Avrill said, adding that the state's kidnapping statute was designed to "reach a class of predatory and organized criminals."

"The facts as detailed by McCall showed a very amateurish plan from beginning to end," the attorney said.

Avrill conferred with McCall in the latter's solitary cell after the death sentence was pronounced. He quoted the kidnaper as saying he did not want to die unless necessary.

"He wants a psychiatrist to examine him," Avrill said. "He says he wouldn't have committed the crime before and wouldn't do it again. But he is ready to die if necessary."

The attorney indicated he would file a petition with the pardon board within a few days in an effort to delay signing of the death warrant by Governor Cone. If that fails, he said, he will appeal to the Supreme Court.

The shell, which will cost \$103 per cubic yard delivered, will cost the City \$1,638.

Eight hundred and forty cubic yards of Delton Springs shell will be delivered here for use in Fort Mellon Park beginning with the first of next week. City Engineer Fred T. Williams announced today.

The shell, which will cost \$103 per cubic yard delivered, will cost the City \$1,638.

The City Commission authorized City Clerk Frank Laramon Monday night to make arrangements for the purchase of the shell. Previously the Commission had considered using sand for walkways to be laid in the new park. Cement walks had also been discussed but shell was advised as the best material for the walks at the cheapest price.

Under Florida law, there are only two possible sentences for kidnapping for ransom—electrocution, unless the jury recommends mercy, and then the penalty is life imprisonment. There was no jury at McCall's trial because he had pleaded guilty.

Plans for the park call for laying shell on 40,000 square feet of walkways and 20,000 square feet on an area where it is anticipated an outdoor auditorium will be constructed later.

It was first decided, Mr. Williams said, to lay the ground where benches would be placed for the outside auditorium but it was later decided to use shell so the sand would be torn up easily.

Delivery of shell to the park is practically complete, Mr. Williams stated. He added that 100 shells bordering Sanford Avenue near First Street have been acquired by the City through enabling workers to begin work on that part.

Mr. Williams declared that as soon as the walks are completed that work will begin on 10 other Delton courts and a small court. Planning in the park will also begin after the shells are laid.

The convention, which has drawn 700 students from schools, will finally start.

Approximately 300 bottles of ammonia solution made for the whitewashing will follow the shells. The whitewashing will be done Saturday, and the whitewash will be applied to the shells.

The whitewash will be applied to the shells.

LAWYER 'GETS IN HAGUE'S HAIR'

15 Are Killed And 35 Hurt In Rebel Air Raid

Over 50 Bombs Dropped By Big Planes; Valencia Attacked In Late Afternoon

MADRID, June 17.—(UPI)—Fifteen persons were killed and 35 injured in a pro-clerkist Insurgent air raid on Valencia. Valencia also was shelled in the late afternoon and reported several causalities.

Anti-aircraft batteries held Valencia's attackers back from the center of the Mediterranean port city but six trimotor bombers dropped about 50 bombs on the outskirts.

Planes appeared over Valencia at 4:00 P.M. and dropped explosives on the waterfront side of the city causing a number of deaths.

Insurgent land forces met stiff government resistance along Spain's eastern coast. The government moved all available men and munitions to prevent the continued march on Valencia but this weakened government defenses in south where Generalissimo Franco's men were reported to be gaining ground steadily.

In the south, some 150 miles southwest of Madrid, the insurgents were reported progressing steadily but slowly through a mountainous region of Cordoba. These troops, pushing east from Badajoz Province, had covered 10 miles in two days.

In the north, the retreat of the long troublesome Civil government division into France eliminated the last pocket behind the insurgent upper lines, consolidating the Noguera River front.

Operations against the government's resistance apparently was preliminary to frontal attack through Catalonia against Barcelona which would proceed as the Valencia and Cordoba offensives were carried out.

Operations against the government's resistance apparently was preliminary to frontal attack through Catalonia against Barcelona which would proceed as the Valencia and Cordoba offensives were carried out.

French Parliament Adjourns But Will Meet In November

PARIS, June 17.—(UPI)—The French government today adjourned Parliament until November, giving a free hand to the republic until then by decree without interference from chambers.

President Signs Resolution For Anti-Trust Probe

Investigation To Result In Drastic Anti-Trust Laws

WASHINGTON, June 17.—(UPI)—President Roosevelt yesterday signed the O'Mahoney resolution for the most sweeping investigation of monopoly and business practices in the nation's history, designed ultimately to result in the framing of drastic anti-trust legislation.

Requied by the President in a special message to Congress, the inquiry will be conducted during the summer and fall by a 12 man economic committee comprising three senators, three representatives and one representative each from the Departments of Labor, Commerce, Justice and Treasury, the Securities and Exchange and Federal Trade Commissions.

Immediately after Roosevelt had signed the bill, Vice President Garner named Senator O'Mahoney, Democrat, Nevada, of the Senate Foreign Relations Committee, as a compromise between the extreme stands of King of the chamber's neutrality bloc led by Senator Clark, Democrat, Missouri.

Adoption of the resolution, introduced by Chairman Pittman, Democrat, Nevada, of the Senate Foreign Relations Committee, was a compromise between the extreme stands of King of the chamber's neutrality bloc led by Senator Clark, Democrat, Missouri.

Many problems confronting agriculture can be solved only through collective efforts of a large group," he told the young farmer's organization at its tenth annual banquet. "There can be no ultimate security for agriculture if the industry continually swings from boom to depression."

Adoption of the resolution, introduced by Chairman Pittman, Democrat, Nevada, of the Senate Foreign Relations Committee, was a compromise between the extreme stands of King of the chamber's neutrality bloc led by Senator Clark, Democrat, Missouri.

Clark charged it would be "gross hypocrisy" for Congress to deplore the use of bombs while we go on selling the products from which the bombs are made, and the machines with which they are used."

Clark charged it would be "gross hypocrisy" for Congress to deplore the use of bombs while we go on selling the products from which the bombs are made, and the machines with which they are used."

As finally adopted, the resolution was a substitute for one introduced earlier by Pittman in which the Senate would have gone on record as approving directly the policy of Secretary of State Hull in depicting the bombardment of non-combatants.

Navy ORDERS

WASHINGTON, June 17.—(UPI)—The Navy awards a \$118,500 contract yesterday to the Smith Engineering and Construction Company, Pensacola, Fla., for the construction of two estimated runways at Corry Station, Naval Air Station, Philadelphia.

WASHINGTON, June 17.—(UPI)—The Navy awards a \$118,500 contract yesterday to the Smith Engineering and Construction Company, Pensacola, Fla., for the construction of two estimated runways at Corry Station, Naval Air Station, Philadelphia.

WASHINGTON, June 17.—(UPI)—The Commerce Department estimated yesterday that the nation produced \$69,817,000,000 of income in 1937, the highest since 1929, in spite of the recession in the last few months of last year.

The total was about \$6,400,000,000 larger than 1936, \$29,500,000,000

larger than the depression low

year of 1932, and was about \$1,100,000,000 below 1929.

INCOME HIGHEST

WASHINGTON, June 17.—(UPI)—

The Commerce Department estimated yesterday that the nation produced \$69,817,000,000 of income in 1937, the highest since 1929, in spite of the recession in the last few months of last year.

The total was about \$6,400,000,000 larger than 1936, \$29,500,000,000

larger than the depression low

year of 1932, and was about \$1,100,000,000 below 1929.

LOCAL WEATHER

Florida: Partly cloudy, scattered showers in south and east central portions Saturday and possibly in extreme south portions tonight.
