WATERWAY ADVOCATES MEET ORLANDO WELL ATTENDED MANY MEMBERS PRESENT

CAMPAIGN IS ON FOR MEMBERSHIP IN THE GREATEST FLORIDA PROJECT

WAYS AND MEANS

Planned for the Fullest Co-Operation Between All the Central Counties

ORLANDO, Feb. 16.—Widely known men from many Florida cities gathered here yesterday to discuss the proposed waterways system of the Florida Waterways Traffic League and to plan ways and means, in cooperation with the league, of obtaining a federal appropriation to deepening the channel of the St. Johns river and build a series of canals in South Florida.

At the same time the league launched its membership campaign in Orange and Seminole counties and reports indicated the first day of the drive had been a success. The league wants 10,000 new members, counting on the support of all the business men in South Florida.

Discussion of waterways plans was led at the meeting by Hon. Forrest Lake of Sanford, S. J. Sligh, Senator M. O. Overstreet, Judge W. T. Bland and others. Serious consideration was given to a proposal to create a special tax district embracing the counties through which the waterways system will be extended. It was pointed out that the government will appropriate money to improve the navigable streams if the people are willing to provide terminals and facilities for rapid transfer of cargoes.

Judge Bland told of the improvements made at government expense in the Mississippi and Missouri rivers and declared that millions have been saved in transportation charges. He said the St. Johns channel could be deepened from Jacksonville to Sanford easier and at less expense than any other river in the country. Assured of enough tonnage to be moved by water routes to make development of the system possible, Congress would be inclined to extend the aid. The present congress is a great believer in improving waterways, he declared, calling attention to the fact that the recently passed rivers and harbors bill carried appropriations of \$7,500,000.

Only \$3,145,000, according to engineers' statements, would be required to deepen the St. Johns channel so that ocean going steamships could come to Sanford, it was said.

Mr. Sligh and Mr. Lake discussed the proposal from a standpoint of taxing, declaring that even if a tax were necessary the taxpayers' money would be returned many times over. P. A. Vans Agnew of Winter Park presented a draft of a bill which, if ratified by the voters, would provide for a tax.

Mr. Lake said he knew nothing that would increase the value of land in South Florida more than development of the waterways. Mr. Sligh declared supplementing railroad transportation will soon be necessary as the roads now have a steadily expanding volume of business. He illustrated the cheapness of shipping by water by showing that it costs only fifty-four cents to ship a box of apples from California to Europe.

The meeting, held in the Chamber of Commerce headquarters was one of the most enthusiastic the league has ever had and if the membership campaign now in progress is successful it is believed developing the waterways will be only a matter of a few months.

While a delegation of Sanford citizens were in Orlando attending the meeting of the Florida Waterways Traffic League yesterday afternoon a force of workers representing the organization was busy soliciting membership here. The league launched its drive for 10,000 new members yesterday morning and the response which the workers met on every hand indicates that the campaign will be an unqualified success.

The meeting in Orlando was called by S. J. Sligh and Judge W. T. Bland, president and treasurer, respectively, of the organization. Preparations for the hearing before Col. Youngberg, a district government engineer, in Sanford March 15, will be made and the plans in connection with collecting the

Polish Troops and Lithuanians Clash at Warsaw

Occupation Zone is Scene of Bloody Encounters

(By The Associated Press) WARSAW, Feb. 16.—Clashes between Polish troops and Lithuanian irregulars have occurred at several places during the occupation of the neutral zone allotted to Poland by the council of ambassadors. Twelve Polish soldiers were wounded while the Lithuanians left several wounded on the field before they were forced to retreat. No loss of life was reported.

"FEMALE BILLY SUNDAY"

(By The Associated Press) NEW YORK, Feb. 16.—Capt. Rheba Crawford, of the Salvation Army, who recently resigned after she had been arrested for blocking traffic with a meeting in the White Light district, where she was known as the "Angel of Broadway," has announced her plan to take the road as a "female Billy Sunday." She will conduct evangelistic meetings throughout the country, cause of her beauty and work, will say good bye Sunday to the stage folks at the Selwyn theatre.

data for the brief which is to be filed at the hearing will be formulated.

The league's new map illustrates forcefully what the achievement of its purpose will mean to Sanford and all of the Central and South Florida. The map shows the channel down the St. Johns from Jacksonville to Sanford and the auxiliary canal system which is planned. The foregoing program can be carried out, officers of the league assert, if the membership campaign is accorded the full support of the people who will be benefited to the extent of a saving of thousands of dollars annually, beside the enormous commercial development which will naturally follow completion of the waterways system.

Officers of the organization declare that enthusiasm for the project is running high in Orlando and all over Orange county. The Sanford directors have assured them that the same spirit will be shown in Seminole county, that the people here are ready and willing to give the league wholehearted support, morally and financially. From a business standpoint alone Sanford and Seminole business men are deeply interested, but there is also a very noticeable feeling of just pride in the showing which Seminole will make in the membership drive, it is reported.

The solicitors sent out by the league will not, of course, be able to see everybody personally, and for this reason, persons wishing to give their support by becoming members of the league are requested to send their membership fee of ten dollars to R. W. Pearman, secretary.

Just as the campaign was opened Mr. Sligh issued a statement which was quoted in the Orlando newspapers. It said in part:

"The Florida Waterways Traffic League is beginning its membership campaign today. Now is the time to strike for a greater and more prosperous Florida and to save thousands of dollars to the people of the state. It is everybody's campaign for there is not a business man in the Central and South portions of the state who will not share in the benefits, receiving many times the amount he invests in membership dues back in reduced transportation rates which will keep more money in Florida and make business better in every line.

"Congress is, seemingly, anxious to be convinced that deepening the St. Johns channel and building a canal system in the state is desired by the people of Florida and that it will be a good investment from a standpoint of saving the people money. The league can do this if it is given the united support of the citizens. It's your drive. Demonstrate your public-spiritedness by sending in your membership fee and urging your friends and business associates to do the same."

The statement continued to say that the league hopes to have its drive over the top by March 15, the date set for the hearing before Col. Youngberg.

40 Hour Fire in Armour's Omaha Packing Plant and Loss May Reach 12 Million

New Subdivision To Be Opened Up on Sanford Avenue

Three Miles South of City—Big Lots Facing the East and High and Dry

Mr. R. J. Holly, Sanford, Fla. MI Dear Mr. Holly:

Herewith enclosed please find copy of advertisement for sale of my subdivision of about forty-five acres which I have named "Flora Heights." This beautiful tract is located on the Dixie Highway, about 3 miles south of the court house. In fact the 3-mile post from the Seminole hotel is almost midway of my property so that part is less and some more than three miles from the heart of Sanford, and as you know most is well drained naturally and the other few lots can easily be ditched to the north or west. Then I have laid out good large lots—more than a quarter of an acre to the lot—60x200 feet, some larger. From two to four times the size of down town lots. The streets also are of generous widths—I have widened Sanford avenue so that it will eventually be 80 feet. This is also the width of "Palm Way" which parallels the above, then there are four streets or drives running east and west and six feet wide. I call them "Hibiscus Drive," "Poinsettia Drive," "Rose Drive," and "Fern Drive." It is my purpose to decorate each "drive" appropriately. It might be well to call to your attention also that just two-thirds or 62 of these lots face the east. One can drive from any lot to either of our three splendid banks by the time the doors are open to receive deposits in less than ten minutes, by driving only twenty miles per hour. I presume you know Habson, the great statistician, says the automobile has revolutionized the home life of our city folks so that the great movement for the next several years is going to be rural homes and country estates. Our where one can relax from the strain of business and enjoy the benefits only to be had by such surroundings.

There is another thing or two to which I desire to call your attention. I am going to eliminate all needless expense, use home people and institutions, and reflect the savings to the purchaser. By the way the only restriction placed on these lots will be to the Caucasian race only, believing that a white man who is industrious and desiring to own a home of his own should be encouraged to do so.

The price will be from one hundred and fifty to three hundred dollars per lot and only four lots at the three hundred figure. At these prices I should say within three years values should double or treble.

The terms are going to be in reach of everyone who desires a home site.—Ten per cent down, balance in ten equal monthly installments bearing 8 per cent interest per annum, interest to be paid with last installment.

For cash I will discount the price 10 per cent. For half cash the payment will be discounted 10 per cent, provided it is one hundred dollars or more, but no discount on less than one hundred dollars will be given. The purchaser is in full possession of his lot when first payment is made and may build, clear, plow or decorate the same as desired. For this sale we will use the Seminole County Bank where a deed and certified copy of abstract for each purchaser will be placed to be delivered upon completion of contract. For convenience we have secured pass books to be used the same as bank books—the bank entering each payment as made. Home folks will be used in selling to the advantage of purchasers and everything will be conducted in a business like way.

Just to make it interesting and focus attention on what we are doing—to have folks look over these dandy lots I have secured part of a bushel basket of new crisp bills—the real long green—yes, mostly one dollar bills, but you will find a sprinkling of ten dollar gold coins, a few twenty and fifty dollar bills, yes, sir. It's going to be interesting that in if Mrs. Victor Check can make it that way by the aid of these bills and coins of which she has charge. She will tell those present at the opening of the sale on the ground just how interesting it is.

Tallahassee Chief Of Police in a Duel With Dave Allegood

(By The Associated Press) TALLAHASSEE, Feb. 16.—Physicians planned to make an X-ray examination of Chief of Police Banks this morning to determine the extent of the injuries received in a pistol duel with Dave Allegood last night. Allegood was wounded and finally arrested in the basement of the capitol after a chase. Banks was wounded when Allegood opened fire as Banks attempted to arrest him on a charge of being drunk.

Chief of Police Banks was shot three times and Dave Allegood, a local butcher, sustained a wound in the thigh. Allegood is said to have been driving an automobile while intoxicated, and to have crashed into three other cars. Banks and a member of his force essayed to arrest him. Allegood surrendered to Chief Banks. As the chief was unlocking the jail Allegood is said to have whipped out a revolver and fired five times at close range and fled. Banks was struck twice in the back and once in the arm. According to the police version, Allegood then sought safety between two women pedestrians. Banks got a clear shot at him, however, from a distance of two blocks and hit him in the thigh. Allegood continued his flight and was later found crouching in the basement of the capitol.

He was later arraigned and released on \$2,000 bail. Banks was taken to his home and his injuries dressed. His wounds were said to be mostly of a flesh nature.

INCREASING FRICTION NOTE ALARMING IN GERMANY WATCHED BY THE FRENCH

VETERAN'S DIRECTOR RESIGNS JOB

VETERANS' BUREAU TO HAVE OVERSEAS MAN AT ITS HEAD

WASHINGTON, Feb. 16.—Resignation of Col. C. R. Forbes as director of the veterans bureau has been placed in the hands of President Harding, it was announced at the White House yesterday, but the director may resume his duties for a while upon returning from Europe, it was added.

In view of the criticism of his administration which had been voiced by officials of the American Legion, members of congress and others, it was said that Colonel Forbes and others might desire to postpone his resignation for a time in order not to be in a position of quitting his post under fire. Such a delay, however, will not interfere with plans now going forward to select a new director.

Col. Thomas W. A. Miller, now alien property custodian, though President Harding's first choice for the place, has informed the white house he would prefer to remain in his present position. The names of the three men now under consideration were not divulged. The affairs of the bureau are under investigation by a special senate committee, whose members have indicated they would ask for broader powers which will enable them to go fully into the subject during the coming recess of congress.

Several resolutions proposing investigation also have been introduced in the house and it has been predicted that house members would be added to the senate committee before the congressional sessions end March 4th.

WASHINGTON, Feb. 16.—The resignation of Colonel Forbes, director of the Veterans' Bureau, has been accepted by President Harding, effective February 28, it was announced at the White House today.

MILITARY AND CIVILIANS CLASH AND TROUBLE IS EXPECTED

ARREST OFFICIALS

And They Will Be Tried for Interfering With the French Troops at Essen

(By The Associated Press) DUSSELDORF, Feb. 16.—French headquarters are keeping a watchful eye on Gelsenkirchen where there is evidence of increasing friction between the military and the civilians. Several arrests have been made consequent to an attack upon a French officer. The Burgomaster, chief of police, director of the Reichsbank and other city officials are already in custody. Five Germans, among whom are Burgomaster Anstrom and vice lord mayor Schaefer of Essen are scheduled to go on trial at Bredonay today before court martial, charged variously with obstructing occupation. The protest strike yesterday at Essen brought out the French infantry and machine gun company to the city hall which will be occupied. The boycott at that city has resulted in an announcement that soldiers will be permitted to appropriate necessities where such act withheld by proprietors of the shops.

DUSSELDORF, Feb. 16.—Rapid strides toward realization of France's aims in the Ruhr, are being made daily, according to announcements from the occupational headquarters which point out that from eight to nine trains of coal or coke, or approximately 5,000 tons, are leaving the occupied area every twenty-four hours for Belgium and France. These trains are entirely manned by French civilian railway workers imported for the purpose. In addition there are some 12,000 railway workers familiarizing themselves with the operation of the German lines.

The French maintain that the Rhine traffic also shows marked improvement, coal and coke being sent out quite regularly in barges by way of Strasbourg. Twenty-five steamships in all have been requisitioned and manned by French and Belgian sailors.

The river fleet includes hundreds of barges, also, many of which are loaded with fuel.

The French pin great hopes upon this movement of fuel by water, but admit that the system is not yet working as smoothly as it should within a short time.

In addition the French are maintaining five daily passenger trains from Mayence to Dusseldorf, some of which carry Germans having special permits granted by the French.

Even within the newly occupied territory freight trains are running. These are mostly composed of coal and coke cars, but when the occasion arises, the French also transport intra-Ruhr freight for the Germans, and shift cars of food wherever they are needed by population.

ESSEN, Feb. 16.—General Fourmeyer, French commander, notified Lord Mayor Luther yesterday that the occupation forces had been authorized to help themselves in public houses if the proprietors refused to serve them, and that any establishments where service is refused will be closed.

Dr. Luther replied that it was contrary to German law for anyone to serve himself in a German shop or public house.

Five cases dealing with virtually all the new forms of German resistance, are scheduled for trial before a French court martial today.

It is expected that the first of these cases will be that against Lord Mayor Arnstein of Oberhausen, who refused to permit Oberhausen's main railway station to be supplied with electricity or gas after it had been occupied by the Belgians.

Other persons accused include Director Buzzman, of the Thinsch Westphalian electricity works and Vice Lord Mayor Schaefer, of Essen, both of whom were arrested in connection with cutting off of electricity from the Kaiserhof hotel here. Charges as to non-delivery of coal also are pending against Herr Schaefer.

BLOW AFFECTS THE NERVES

Sudden Shock to Brain Causes Sensation Known to Many of Us as "Seeing Stars."

Each of the five senses has its special set of nerves through which sensations are recorded in the brain.

With the exception of the nerves of touch, which extend to all parts of the body, these perform special functions for certain individual organs, the nerves of sight being connected with the eyes, those of smell with the nose, those of taste with the mouth, and those of hearing with the ears.

Whenever the brain receives a sudden shock, such as would follow a blow on the head, the vision nerves are disturbed in such a way as to produce the effect of seeing flashes of light, or "stars."

The sensitive eye-nerves cannot be jarred without producing this effect of light, while a severe blow will often result in a similar manner on the nerves of hearing, thus leading the person who is struck to imagine that he is listening to unusual noises.

Fresh Water in the Sea.

A spring of fresh water, which wells up through the sea off Elbury cove, Churston Ferrers, in Torbay, off the British coast, is attracting a large number of visitors.

This is the best time of the year to locate the spring, and yachts are being anchored at the spot, so that visitors may taste the water.

The real source has never been found. It is surmised that the waters from the rainfall near Elbury and the northern hills finds a course in the same valley, and then forces itself up through the sea at a distance of 90 to 100 yards off the beach.

The circular space of the fresh water is plainly visible from the rocks and the white pebbly beach at all stages of the tide.

Preparedness.

In one of the Southern states the negroes are great patrons of a matrimonial agency. One darky, anxious to find a wife for his son, went to this agency, who handed him a list of lady clients. Running through this the man came upon his own wife's name, entered as desirous of obtaining a husband between the ages of twenty-eight and thirty.

Forgetting about his son the darky hurried home to announce his discovery to his wife. She was not at all disturbed.

"Yes," she said. "I done give him my name. I puts it down when you was so sick in de winter and de doctor he says we must prepare for de worst."—Saturday Evening Post.

Cumulative Effect.

Some years ago there sat as a member of the state legislature in Colorado a quiet character known as Uncle Boggs. In a speech delivered by one of the members a gentleman of the other party was hotly assailed, the latter, however, disdaining to reply to the castigation. The speaker concluded his remarks by pointing to the object of his attack:

"There he sits, Mr. Speaker—there he sits, mute, silent and dumb!" "Yes Mr. Speaker," interrupted Uncle Boggs, "and he isn't saying a word."—Pittsburg Leader.

LOCALS

And our visitors left today at noon.

Leaving us all feel we have enjoyed their stay and we miss them from our midst.

That cold spell that hit the north-west never touched us, just a nice cool morning to help the celery crop.

Thos. Jarrell, D. Dineen and G. H. Mulvaney are in the city representing the Waterways Association membership committee.

L. L. Sample, district manager of the Pure Silk Hosiery Co., with state headquarters in Melbourne was in the city today visiting old friends. Mr. Sample was in Sanford some ten year ago and sees many changes here since his last visit.

Mike Stoneff sent us in some excellent celery this morning that he is cutting on his Celery Avenue farm. It is the Pearly White and is the best we have seen. J. P. Hall of the Hall-Wright Co., is buying some of it and brought us some nice samples.

Mr. and Mrs. William E. Lewis returned to Accomac, Va., after a pleasant six weeks sojourn in the City Substantial. Mr. and Mrs. Lewis are regular yearly visitors and their many friends will regret to learn that they have left Sanford earlier than they expected.

E. B. Brown of Jacksonville, sales manager of the Virginia-Carolina Chemical Co., is in the city for a short stay and mixing business with pleasure. "Brownie" seems to get here every time the Chamber of Commerce pulls off a big banquet and remarked that Sanford always has the band out upon his arrival at the Valdez.

FINDS RE-CU-MA GOOD MEDICINE FOR BAD STOMACH

William Parsley Suffered From Chronic Indigestion—Now Entirely Relieved

RE-CU-MA is mild, quick and sure in its action on the liver, stomach and bowels, and will put these organs in fine condition.

Mr. William Parsley, a contractor, who lives at 211 Platt Street, relates his experience with RE-CU-MA and tells what it did for him:

"I suffered for months from liver trouble, which resulted in chronic sour stomach and indigestion, headaches, rheumatic pains in my shoulder and in the back of my neck.

"One day in glancing over the paper I noticed where someone who seemed to have had troubles I did, used RE-CU-MA and got well, so I went to my druggist and bought a bottle.

"When I had finished the first bottle I was relieved of my indigestion and my liver acted much better. I gladly recommend RE-CU-MA to anyone suffering from stomach trouble and torpid liver."

Is your liver doing its important part in keeping your system healthy? If not, you are probably suffering from indigestion, malaria, biliousness, sleep poorly, and have frequent dull headaches, and you feel miserable. RE-CU-MA will put you in good condition and help you to recover your health and ward off sickness.

LAKE MARY

A. D. Parish, section foreman here, spent Sunday afternoon in Kissimmee. Mr. and Mrs. George Wilson and two boys came back Saturday from Orange City where they spent the last two weeks improving their place there.

Joe Davis, of Zaring & Co., made his usual Tuesday afternoon call here.

Tracy Evans and family arrived here some time ago to make an extended visit with home folks.

R. C. Button, of Hudson, N. Y., inventor of the Keep Klean Bath Tub, was here Wednesday and sold a number of bath tubs while here.

Mrs. J. E. Singletary and Mrs. Brown made a trip to Dr. Mason's office Saturday and Monday.

Dr. Fellows returned last week from making a visit down the east coast to Key West, Tampa, St. Petersburg and other places.

Mrs. C. H. Ellis is spending a few days in Jacksonville.

Mr. and Mrs. J. E. Braddock and Mrs. L. H. Wilson, of Pierson, spent a few days here the guest of their parents, Mr. and Mrs. J. A. Braddock.

Mrs. Black and son and Mr. and Mrs. Dewey returned last of the week spending a few days at Palm Beach and Miami.

Mr. Dewey has recently purchased the Sundell place on Lake Mary and has commenced improving the same.

Mr. and Mrs. N. H. Braddock are expected here from Delray the last of the week to visit a few days.

Mrs. H. A. Phillips has had considerable work done at the Casino this winter. They will open up for business in a few weeks. It will be under the management of Mr. Sewell and he will give the public all he promises to.

Mr. and Mrs. Burns expect to commence building in a few weeks. They anticipate putting up a two story building near the depot. There will be two store rooms on the first floor and rooms for light housekeeping on the second floor.

Mr. White has purchased a tract of land here that he is improving and has also purchased several nice cows

and is supply the people with plenty of good milk.

J. E. Singletary, A. C. L. extra gang foreman, is expected home in a few days to take charge of this section. A. D. Parish will take charge of the Maitland section.

On Friday, the 9th, the citizens and winter visitors of this village got together and worked from 7 a. m. till 12 noon in cleaning up the cemetery, and the work accomplished would be a credit to 100 darkies on the job for the same length of time. At 12:30 the ladies gave a luncheon to the workers and after lunch the assemblage indulged in athletic events, but the day was not long enough to decide on the winners in all events, and challenges of supremacy in a number of cases will be decided on next Friday, when work on the cemetery will again be taken up.

LONGWOOD

J. E. Phipps returned Wednesday from Ft. Meade and other southern points.

Among those taking in the fair at Orlando Tuesday were: C. H. Corn, Miss Ruth Corn, Miss Olive Dinkel, G. U. Stuart, Miss Margaret Stuart and Miss Cora Shade.

Mr. Satcher, of Albany, is the guest of his brother and sister-in-law, Mr. and Mrs. Bill Satcher.

Miss Olive Dinkel returned Monday from Winter Haven where she was the guest of Mr. and Mrs. Sam Page.

Miss Aubrey, of Winter Park, was the guest of Mr. and Mrs. Fred Ranger.

There will be services at Christ church Sunday afternoon at 3:00. Father Peck officiating.

Mr. Ridgely, Miss Hoakin Jones, Miss Galeger were the guests of J. E. Phipps at the St. George Hotel Sunday.

John Ranger has commenced work on his home in South Longwood. C. W. Entzinger was a visitor in Sanford Tuesday.

The Barred Plymouth Rocks, of the Keystone poultry yards of Longwood, big winners in the Southern Zone Meet at the great South Florida Fair at Tampa. The judge, a prominent Barred Rock breeder and judge of a national reputation, said that the display of the Keystone Poultry yards

the best that he had ever judged. The fact that this was the Southern meet of the Barred Rock breeders makes the Keystone strain the champions of the South. The following were the awards they received:

- Exhibition cocks: 1st, 2nd, 3th.
- Exhibition cockerels: 1st, 2nd, 3rd, 4th and 5th.
- Exhibition pullets: 4th.
- Exhibition pens: 2nd and 3rd.
- Light cocks, first.
- Light cockerels, 2nd.
- Dark hens, 4th and 5th.
- Dark pullets, 1st.
- Dark pen, 1st.

They were also winners with their White Wyandottes, entering only three birds they won first cock, first pullet, fourth hen.

LAKE MONROE

The Seminole Athletic Club organized at Lake Monroe Monday evening in conjunction with the Community Club which was established several months ago. Plans had been made at a prior meeting for a baseball league and further plans were set forth Monday evening. Provision was also made for tennis and basket ball teams and a tract of land east of the school to be put in readiness for the games. A large park with all necessary equipment as a play ground where physical and parties may be enjoyed by the young men is one of the important questions discussed. The young men in their enthusiasm promised themselves a few "financial" standings within the year and hope to construct a regular club house. The Seminole Athletic club is composed of the Lake Monroe and West Side boys. Most of these fine young men really do things. Put their shoulders to the wheel and push. Following the plans of the Community Club, only the very best of behavior is to be tolerated and side everyone is expected to have a great time, only the finer and better things are upheld.

An unfortunate accident occurred at Lake Monroe Sunday evening shortly after dark when Mrs. James Gledley, who was going after her groceries, was knocked down and run over by a passing machine. The auto passed over the abdomen and it was feared that the child would be born dead. Mrs. Gledley is now recovering rapidly and is expected to be up on her feet in a few days. She is a good woman and has many friends who are hoping for a complete recovery.

There seems to be some impressions that when a PIGGLY WIGGLY Store is opened in certain localities, it is opened for the sole purpose of putting some one out of business. We want to correct this impression to begin with. We have our own set ways of operating PIGGLY WIGGLY STORES. That is this, to offer to the public the highest class of Nationally known goods, at the smallest margin of profit. We can make money, only through volume, and we would like to say to you good people of Sanford and Seminole County, that our volume has far exceeded our expectations. We make this statement in justice to ourselves. Watch this store.

Today's paper is full of bargains. Friday is market day in which the merchants tell you about their Saturday bargains. Read it.

The Sub-Tropical Fair will finish another good season closing the gates tomorrow afternoon. Fairs were not as popular with the exhibitors this year as they should have been but the gate receipts were just as heavy.

Another year the Seminole county people should go in for a general display of everything that is manufactured and grown in this county and take a real display to the Subtropical Fair. We have so much in the way of fruits and vegetables that could be taken to the fair every year.

Carleton writing from Lakeland in the Manufacturers' Record says we should not treat prohibition as a joke. Well, what would you? A joke is something that brings a laugh and every time you talk about prohibition it brings a laugh so how in the world are you going to control the laugh any more than you control the liquor. We all want to enforce the law and would enforce it if it was left to the states, especially in Florida. But the way it is handled nationally makes it ludicrous and the laugh is the natural thing.

SHOULD BEWARE OF THE SUBSCRIPTION AGENT

EVERY person in Florida should refrain from advancing any sum of money to any subscription agent passing through the state. It makes no difference what may be the argument used or the liberality of the terms offered. The greater the liberality the more liable is the project to be fraudulent. There are many cases where the plea is made that the solicitor is working his or her way "through college." Occasionally there is a bit of truth to some of these pleas; more often there is not. In every city of any size there are establishments which will place the subscription to any desired magazine for any patron; and it is better always to patronize these people. They have a reliability not possessed by the traveling solicitor who is nine times out of ten a fakir. People should either keep their money or place it with those whom are known.—Palatka News.

ADVERTISE LOCAL BILLS SAYS GOVERNOR HARDEE

No local bill introduced in the coming legislature will be considered by Governor Hardee unless it shall have been properly and legally advertised. This has been emphatically stated on a letter written by the governor to Senator M. O. Overstreet, of Orange and Osceola counties, and made public by the recipient. That is an excellent stand for the head executive to take. The private

bill is ubiquitous and unfair, for were there not some unpleasant features about it which required secrecy there would be no necessity for railroading it through.

Providing for publicity for a proposed local bill is a piece of legislation which was most wisely incorporated as a law; yet it has been so often violated that when a proposition happens to be advertised it is more the exception than the rule. Heretofore there has been no question by a governor when the passed bill comes before him for signature as to this publicity, the official acting upon the same presumption as the supreme court when it takes up the validity of any certain action, to-wit: had it not been properly published the member of the legislature would not have introduced it. Consequently many surreptitious bills become laws, greatly to the surprise and discomfort and disgust of the majority of those concerned.

If Governor Hardee will stick to his declaration and refuse to sign any bill under any circumstances which has not received its proper publicity a certain length of time before the legislature went into session, there will be many astonished members of both houses at the next session of the legislature, and the statute books will be less congested.

FLORIDA EVENTUALLY—WHY NOT NOW?

With so many occasions for self-congratulation on living in Florida, we are very likely to overlook some of them, but we are forcibly reminded of our neglect when one of these cold winds sweeps down direct from Medicine Hat, supposed to be a fountain-head of bad weather. Then, indeed, it strikes us with double force that we have great cause to be thankful; first that it is no worse, that we are exempt from the awful blizzard that is sweeping over the rest of the United States, that the discomfort which it brings us is only temporary, that in a day or two at most the glorious sun will shine again with all its vigor, bringing joy and gladness to all living creatures; that these occasional "cold spells" are really for our good, they put pep and energy in our walk, and prevent us from giving way to the dolce far niente which without them might overcome us; they make us more appreciative of the glorious sunny days which follow; they fill the oranges with delicious juices, and force the truck gardens into luxuriant growth.

If we need any additional incentive for thankfulness we can find it in reading dispatches that come down from the north. We read of "the worst blizzard in years sweeping across Michigan," and having had some experience in Michigan blizzards in the years now happily passed, we know what that means. We read of trains snow-bound and annulled, of telegraphs and telephones put out of commission, of business suspended or account of the bitter weather, of below-zero temperatures, of biting winter gales, snow filled, which the people cannot face and live, of deaths in Chicago from cold, of 20,000 men employed in clearing the streets of New York of snow, and other similar tales while here in Florida we have not even had a frost up to date. We are luxuriating with strawberries, oranges and grapefruit and other tropical products ad libitum. Surely we have great cause to be thankful, while we sympathize deeply with those unfortunate who are compelled to shiver and freeze in the arctic north. Why do they stay there, while Florida is wide open with its genial climate, its ever shining sun, its winter blooming flowers and ripening fruits, and its millions of idle, unoccupied acres awaiting the toil of the energetic and intelligent husbandman to blossom as the rose, its unparalleled opportunities for every phase of industry and business. Why?—Tampa Times.

FLORIDA CITIES ARE INTERESTED IN ZONING

One of the best developments of the commission-manager form of civic government is the thought given to phases of civic betterment other than those involved in the mere consideration of dollars and cents. One of the most important phases of activity is that of proper zoning. This thing called the zone system is nothing more than a recognition of property rights. It is intended as a protection for those who have civic pride and want to see their city made attractive. Our environment has much to do with our happiness and contentment and those who live in large cities know what it means to be open to the advance of commercialism of the kind that is without conscience. This form often takes shape in the erection of garages or stores adjoining residences on which much time and money have been spent in making the premises attractive. All this money and effort are thrown away over night by the sudden appearance of some undesirable private enterprise that is entirely out of place and bears no relation to the general progress of the community. It is for the purpose of correcting and regulating matters of this kind

that zoning laws have been established in many parts of the country. This is provided for in most of the new charters in many States but here in Florida there is no general state law. However, it is understood an effort will be made to secure the enactment of needed legislation at the forthcoming session of the Florida legislature. In the meantime, certain cities are preparing special legislation, a notable instance being that of Sanford, which city has made a start in the right direction. A newspaper report from that city says:

"The legislative committee (of the Chamber of Commerce), under the chairmanship of Judge Lewis O'Bryan, submitted a zoning bill, local in nature, which will be presented by Forrest Lake, representative for Seminole county, at the next session of the legislature. The bill briefly empowers the city commissioners of Sanford to appoint a city planning commission, with full power to study resources, possibilities and needs of the city and then devise plans for a systematic future development. The scope of the work of the proposed city planning commission will include zoning the city into residential, business, wholesale, manufacturing and colored sections. It will also pass on propositions for new subdivisions, extensions of streets and make arrangement for improving the city's thoroughfares. In addition it will be authorized to further develop existing parks and locate new parks, and recommend the acquiring of same by the city commissioners. The bill will permit the city planning commission to have under its jurisdiction a playground development program. The passage of this bill at the next session of the legislature will give Sanford the distinction of being the first city in Florida to secure the legal authority to permit the city zoning, and thereby develop along modern and well designed lines."

That which is sought by Sanford would be good for every other city in the state and might profitably form the substance of a general measure giving needed authority to carry out civic improvements.—Lakeland Telegram.

FROM OTHER SANCTUMS

ALL DEPENDS ON REFRIGERATION

The Miami Metropolis calls attention to the recent shipment of a large quantity of oranges by steamer from Brazil to New York, and the important fact that "they arrived in good condition." They were shipped under refrigeration.

In that last sentence lies the secret of success in shipping citrus fruits and perishables from one continent to another, or even to different places on the same continent. Maintaining an equable temperature is needed to hold the process of ripening at the same point, and to prevent decay from starting.

The article, which the Metropolis credits to "The Skinner Packing House News" says that "the Water route to New York from the Brazilian port was One Dollar per box." Water transportation plus cheap refrigeration will solve the problem of distribution for the products of the tropical and semi-tropical world.

The South solved the problem of artificial refrigeration when Dr. John Gorrie of Apalachicola, Fla., invented and perfected his ice-making machine. That invention, sought by him as an alleviative remedy for his fever stricken patients proved to be a far bigger than his dream of it was. It has put the abundant, cheap meats of Australia on the tables of the rest of the world. It has carried safely though often at a high price, the perishables of the tropics to all parts of the world, giving many places a change and a variety in diet they could not otherwise have enjoyed.

But ice is costly because it melts quickly and must be replaced in the cars or vessels refrigerated by it; and unless the supply is kept up the damage to perishable stuff once on ice is far more quick and positive than if it had never been used. So the world is looking for some refrigeratory method to take the place of the one now in use, something that is automatic, or at least not dependent on congealed water exposed to the air.

In the exhibits at the Tampa fair this season were shown methods of refrigeration wherein the compression of a gas which cools upon expansion is applied to household cooling plants, and perhaps larger ones. This machine

is undoubtedly a step toward the ultimate perfection of one which will use nothing but common air, and will by an automatic, entirely mechanical system of compression and expansion of air and the proper use of thermostat control produce and maintain the required degree of cold, which is needed for the proper safeguarding of any particular product.

If something like that was available now, with the shipping facilities which the United States has, a combination of the two would put the fruits and vegetables, the berries and the dressed poultry and meats of Florida on the tables of the world's citizens at a price the consumer could afford to pay, and at a profit the producer and shipper could make a decent living on.

The experiment of a shipment of oranges by refrigerated steamer from Brazil, on the equator, to New York, on this side of the equator, opens a wonderful vista of possibilities to the inventor of mechanical and all other kinds of artificial refrigeration. A dollar a box, refrigerated from Brazil to New York; and two and a half a box from Manatee to Michigan in this same country, with extra for icing, tells the story of why there is not more Florida fruit and winter produce consumed by those who are hungry for it.—Tampa Tribune.

SUIT FOR HALF MILLION FILED AGAINST CANDLER, SR.

(By The Associated Press) ATLANTA, Feb. 16.—Suit against Aaa G. Candler, Sr., Atlanta capitalist, will be filed here tomorrow on behalf of Mrs. Onezina DeBouchelle, his former fiance, according to a story appearing in the Atlanta Journal. The Journal gives as authority for the story, dispatches from New Orleans this morning which it was said,

Peoples Bank of Sanford. A Sanford Institution under the direct management of the following BOARD OF DIRECTORS: J. R. Anthony, W. H. Tunncliffe, Dr. S. Pulcston, E. H. Hawkins, W. E. Scoggan, G. F. Williams. ALL DEPOSITS INSURED. PEOPLES BANK OF SANFORD Sanford, Florida

stated the suit would be filed by Albert Howell, Atlanta attorney, who will represent Harry Gamble, of New Orleans, the personal attorney for Mrs. DeBouchelle. Howell declined to discuss the matter. It is understood, however, that the amount to be asked for in the suit would be a half million dollars. Mrs. DeBouchelle, who is a resident of New Orleans, said in a statement some months ago, that Candler broke off their engagement to be married.

Rotary and Merchants Game Close But Legion-Chase Game Never in Doubt

Wednesday night, in a regular match, the American Legion team had little trouble in defeating Chase & Co. The Lions giving them a majority of 216 pins. George Pezold bowled high score with Leslie Hill right after him with a difference of only four pins.

Tommy Jones, with an average less than the "dead" man, rolled high score for the orange packers. The box score was as follows:

LAST NIGHT'S GAME

The Rotary Club and the Merchants played a nice friendly match last night, the game being very close and exciting, intermingled with fun and merry making along with the bowling. The Merchants and the Rotes are old rivals, the two teams being pretty evenly matched. Just once more this season will these two teams play each other and the Merchants to get revenge at that time will have to hustle. Charley Henry, bowling just snip snip; than Col. Knight rolled high score of the evening. The box score follows:

Notice the Rotes in first place. They will be there for a day or so any way.

And don't forget the big basket ball game with Euatis at the Parish house Saturday night.

Everything all set and a good game expected. Coach Wilkinson and his crew say no more losses this season.

Have you taken any lessons in golf yet? If not—do it. Let Otis George make some golfers for the Sanford Club. We need 'em.

And the price of the 10 lessons has never been heard of before and perhaps never again. This is your chance, see him now.

Dutch Reuther shows up Uncle Charlie Ebbets. Says he gets less the better he plays. And his contract says he will get so much for "good behavior." That Brooklyn bunch must be an underpaid aggregation from all reports.

And speaking of base ball we note where the Sally League is being bombarded by requests from other Georgia cities for a berth in their league. Let 'em in. Make it ten clubs if necessary. Only don't count on Jax any more—she has done quit.

CAN'T SHAKE TESTIMONY

(By The Associated Press) CHICAGO, Feb. 16—Efforts to shake the testimony of Albert Bailin, alias Albert Ealanow, confessed spy and agent provocateur, was unsuccessful yesterday when, under a cross-examination by O. L. Smith, assistant attorney-general of Michigan, the witness reiterated charges made in a deposition taken earlier by Frank P. Walsh, attorney for the defendants in the Michigan communist case.

Allan O. Meyers, of the Burns agency, arrived from New York yesterday morning and presented himself to Mr. Walsh for testimony. Mr. Meyers has been accused by Balanow of instigating bomb plots, planning to poison Russian leaders and officials.

FOR THE MOVIE FAN

Oh you "Clarence" tonight.

It's the best bill of the week and the Princess is bound to be crowded to the doors.

It will not be often that you will get to see the late Wallace Reid in action—so see him tonight.

And he has some cast as a support, too, such as Agnes Ayres and May McAvoy. There is little that can be said of this picture other than it is one darned good picture and you shouldn't miss it.

But, of course, we mustn't forget the invitation that some family gets every day and the honors go to Lennie McMullen and his family tonight. Bring the family and see "Clarence" Lennie!

The program for next week is out. Every week the program gets better and better in every way. Just look it over and see for yourself.

Make Your Own Soap for One Cent a Cake

MAKING your own soap is no more trouble than cooking a meal. Results are certain and the soap of better quality than much you buy. You use up the waste fats from the kitchen which are usually thrown away. One can of Giant Lye makes 12 cakes of hard soap at a cost of one cent a cake; or 12 gallons of soft soap at a cost of one cent a gallon. Full directions on the can. For 80 years the best home-made soap has been made with Giant Lye, and will be, as long as soap is made at home.

Every Housewife Should Know These Facts About Baking Powder

- that a big can at a low cost many times results in bakings that are unfit for food.
- that lack of proper leavening strength means failure and disappointment on bake-day.
- that one cent's worth of inferior Baking Powder many times ruins one dollar's worth of other ingredients.
- that millions depend on

CALUMET

The Economy BAKING POWDER

not because of quantity but on account of quality—not because of price but by reason of results. That is why the sale of Calumet is 2 1/2 times as much as that of any other baking powder. Buy it—try it—never fail to use it. A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

HERE'S SEASON FOR EXHAUSTION

After Constant Study Noted Authority on Health States Cause

It is positively alarming to see the many people nowadays who just haven't got strength and endurance enough to do hardly anything which requires exertion. It naturally worries you when you feel that you are not strong as you used to be, and you are not going to be satisfied until you find out the reason for it, and correct the fault.

If you feel uncomfortable after eating, or wake up in the morning feeling just as tired as when you went to bed, you are a victim of this modern condition. If you are nervous, irritable, despondent, with apparently no aim in life, these are the surest signs that you are not feeding your nerves, muscles, tissue and brains with the nourishment they require to give you health, strength and endurance and power to stand strenuous work and play.

According to authorities on health, when you no longer have the iron and vitamins your blood needs to carry health, strength and energy to every muscle and nerve in your body, you should put your stomach in a healthy condition immediately so it can digest and assimilate them from the food in your blood. And to prove these theories, the phenomenal new treatment known as RE-CU-MA is making robust, healthy and strong people out of weaklings every day by the hundreds.

RE-CU-MA quickly vitalizes the gastric juices so they digest your food and pass it on to the intestines, so they can assimilate the iron and vitamins from it into your blood. With rich blood, full of health, coursing your veins carrying nourishment to your tissue, nerves, muscles, brain and every part of your body, you will quickly regain your former strength and endurance.

RE-CU-MA is sold in Sanford by the Union Pharmacy and the leading dealers in every city.—Adv.

Mrs. H. H. Chappell will entertain the members of the Social Service Department of the Methodist Missionary Society of the Methodist church Monday afternoon at 3 o'clock.
Mrs. Chappell will be assisted by Mrs. Camp, Mrs. R. G. Hickson and Mrs. Raynor.

ENTERTAINMENT AT THE H. S.
The audience which enjoyed the program of Florence Gilbert Hanscom at the High School auditorium last evening was most responsive to the lovely work of the speaker in monologue and song. Mrs. Hanscom has a rich and brilliant contralto voice which was wonderfully in her costume songs "By My Strawberries" and "Down Vauxhall Way," and her grace of manner was very winning.

VALENTINE PARTY
Last evening Misses Juanita Allen and Carrie Darsey entertained most delightfully at a Valentine party at the home of the former on West Second street.
Festoons of hearts, and other Valentine suggestions together with baskets of red roses and ferns, adorned the various rooms.
The evening was merrily spent with games and music, and at a late hour refreshments of hot chocolate and cakes were served.
About twenty members of the young set enjoyed this lovely event.

BON TON BRIDGE CLUB
Mrs. Ben Caswell was the charming hostess yesterday afternoon when she entertained at bridge at her home on Magnolia avenue, the guests being the members of the Bon Ton Bridge Club.
Yellow and green, the color motif, was artistically carried out in the decorations and other details. Baskets of calendars being effectively used.
The hours passed quickly in the absorbing game of bridge and when scores were counted, it was found that high score was held by Mrs. Jack Goebel, who was awarded a set of table markers and pencils.
At the conclusion of the card game, the hostess served pressed chicken salad, sandwiches, pickles, coffee and stuffed dates. The hostess was assisted in serving and entertaining by Mrs. Bryan Sturman and Mrs. D. D. Caldwell.
The guests were: Mrs. J. D. Woodruff, Miss Esther Miller, Mrs. Ed. Betts, Mrs. C. R. Kirtley and guest Mrs. Jack Goebel, of Daytona Beach; Mrs. Fred Wight, Mrs. Joe Chittendon and Miss Fern Ward.

ROBIN HOOD

Of May Valentine's production of "Robin Hood," which played to a fair house at the Arcade last night, the least complimentary thing that can be said is that hardly a detail of DeKoven's masterpiece is found wanting. Presented as it was by a company of all American, each and every one of whom, from the principals down to the last one in the chorus, is an artist and a singer, as well, with the scenery beautiful to look at, the music grand and the costuming effective and handsome, and voices all of which tend to hold one spellbound, the evening was quite a revelation.

To commensurate comment on all the good qualities of the Valentine revival of "Robin Hood" would call for unlimited space and a superfluity of adjectives. Suffice it to say therefore that it was latter perfect to the person who for a change desires an evening devoted to a display of art rather than anatomy and who knows good music and loves good singing.

An opera of such merit as "Robin Hood" demands a singing cast of the highest order, and the company last night fully met this requirement. It can't be said that the members were the handsomest in the world; in fact some of them were very plain, but different from the musical shows where there was beauty of face and form but no tinger at all, every one in last night's entertainment had a voice and a wonderful voice at that, and some had looks as well.

For Robin himself, DeKoven demands a tenor of ample and beautiful voice and with youthful vigor and irrepressible temperament. For Robin is an ardent lover as well as a hero. Glen Lay in this role last night was all that. He is big and splendid of form and attractive of face. And he possesses a voice of the mellowest, most fibre. His duets with Maid Marian and his solo work as well were nothing short of marvelous.

Opposite him played Helen Russell as Maid Marian, no great beauty, it must be admitted, but possessing a voice that for quality of tone, range and clearness left no room for criticism.

The entire performance was a continuous outpour of wonderfully beautiful music, the kind that never will die, but on the contrary is remembered and sung. In addition to those already mentioned there is the armourer's song, perhaps the best loved of bravura pieces and sung as it was last night by Hoffman beside a flaming forge with sparks flying from an anvil, it made a great impression. The absence of the chorus in this number was the only item missing.

There is a lot to be said for May Valentine's revival of "Robin Hood," though to call any presentation of the masterpiece a revival is almost a privilege, for it never has been dead, and it never will die because of the fact that its many charming melodies will keep it always alive.

"Robin Hood is more than an opera; it's an institution and a part of a liberal education, and as long as Americans are Americans, a worthy presentation of it, such as Miss Valentine is presenting, always will attract a host of music lovers to enjoy it.—From Lake Charles (La.) American-Press, January 23.

"Robin Hood" will be at the Princess Tuesday night, February 20th.

NEGRO RUNS AMUCK

(By The Associated Press)
LITTLE ROCK, Ark., Feb. 15.—Ed Reason, negro, ran amuck here yesterday and before he was felled by a bullet from a policeman's pistol, killed Will Houston, another negro, and stabbed four white men and four white women. Mrs. Margaret Bennett, one of the women, is believed to be fatally injured. Others stabbed by the negro are Mrs. C. W. Davis and her son; Mrs. Louis Ambort, Steve Evans, a deputy sheriff, A. E. Johnson and C. O. Williams.

Reason was taken to a hospital with bullet wounds in his head and stomach. He is not expected to live. Houston, according to witnesses, was stabbed to death when he interfered in a quarrel between Reason and his mother-in-law.
