RUNNING MATE OF HOOVER TO BE FROM WEST

Tentative Decision Is Reached To Pick Dry From Some State Beyond Alleghanies

Sudden Boom Is Begun For Fess

Opposition Is Strong Against Dawes For His Coolidge Dislike

KANSAS CITY, June 14.—(INS)—

A tentative decision by Herbert Hoover's high command to name a "dry from west of the Alleghanies" as his running mate, and a sudden boom for Senator Simon D. Fess of Ohio, were the outstanding developments today in the race for the Republican vice presidential nomination.

The limited news service by a member of the "high command," virtually narrowed the field to Vice President Charles G. Dawes, Senator Charles S. Deneen of Illinois and Fess, Senator Charles Curtis, of Kansas, however, would have been the most formidable candidate for the honor had he not indicated a refusal to become Hoover's running mate.

Reports of opposition to Dawes in both the Hoover and allied camps meanwhile seemed to reduce the field even further—to one containing the names of Deneen and Fess. A final decision though will be left to Hoover himself and he may select a candidate from some other part of the West.

This ultimatum appeared to have punctured the boom for Senator Walter F. Edge of New Jersey, leader of the senatorial "West." Edge had the unanimous endorsement of his own state and the support of Senators-elect William S. Vare of Pennsylvania, now known as the "man who nominated Hoover."

The fact that Edge destroyed Dawes' chances, it was said, because the Hoover leaders desired a man who could help the ticket in the dry West.

The Edge candidacy may develop a row in the convention, should Ware swing him the Pennsylvania delegation. If the New York Senator also carried New York, together with scattered states in the South, he might overturn the Hoover band wagon.

The Hoover leaders, however, laughed at the possibility of such an upset.

The Dawes boom died slowly. He had scattered support in the East and South. His Western friends seemed to have deserted him because of his failure to help in the battle to put a McNary-Haugen plank in the platform. The allied generals dropped their fight on Hoover. The Hoover leaders were lukewarm because of his known coolness toward President Coolidge.

The Rev. Max Cook of Ovidio reported on the program given at a joint meeting in Orlando and C. D. Wolfe announced the completion of the first half of the schedule of the junior boys' baseball league. Arrangements for the second half have been perfected, he said.

Robert C. Pittman Goes To Death For L. P. Hilton Murder

RAIFORD, Fla., June 14.—(INS)—Robert Pittman, negro, 26 years old, calmly went to his death in the electric chair at 11:40 P. M. Wednesday, maintaining his innocence in connection with the death of L. P. Hilton, barber for whose murder he was electrocuted.

The verdict, which sent Pittman into eternity, was thrown by Sheriff C. M. Hoad and the negro was pronounced dead three minutes and two seconds later.

Just before Pittman was bound in the chair he asked for a cigarette. A few moments later, after declaring that he made his first plea of guilty through fear of being beaten to death by a mob composed of friends of the slain man, he sat down in the chair with a smile.

The negro was exceptionally well educated and was said to have studied two years at Harvard. Following the execution his father claimed the body and will return it to Valdosta, Ga., for burial.

Louisiana Farmer Shoots Employer

PARISH, La., June 14. (INS)—Henry Prudhomme, 42, farmer, shot to death his employer, Phillip Lalean, 55, early today near here and in turn was slain himself by Marion Lalean, son of the man killed. The double slaying climaxed a feud of several days over the nonpayment of a debt. Prudhomme is said to have owed Lalean, Young Lalean is held in jail on a murder charge, pending a complete investigation. A widow and five children survive Lalean and a widow and four children survive Prudhomme.

MERCHANTS PLAN FOR BIG DOLLAR DAY WEDNESDAY

Leading Business Men Of City Are Making Arrangements For Biggest Bargain Day In History Of Sanford

Plans for Sanford's Greatest Dollar Day next Wednesday were being carried forward today by a score of the city's leading merchants. Department stores, shoe stores, drug stores, specialty shops and the Milane Theater are all making arrangements for the biggest single day of shopping Sanford has ever seen.

At least 10 more stores and shops are expected to enter the list of merchants taking part within the next two days. Between 25 and 30 establishments will be included in the final arrangements.

Thousands of dollars are being spent by the larger merchants in preparing special offerings for the day. Almost every conceivable type of bargain will be offered. The sales will not be strictly confined to dollar purchases.

Plans for carrying the message of Sanford's Greatest Dollar Day to surrounding communities are being made by the merchants in conjunction with The Herald. Circulars carrying the names of all the participants will be distributed at least two days before the sale opens. Advertisements announcing the day are being published in several newspapers in towns within shopping distance of Sanford.

Bird Conservation Urged By E. D. Ball In Kiwanis Speech

A plea for bird conservation as a means of protecting local crops was made by E. D. Ball at the weekly luncheon Wednesday of the Kiwanis club. Mr. Ball pointed out that birds are destroyers of bugs and other insects that feed upon plant life, and described them as the farmers' best friends.

Mr. Ball was announced as the principal speaker for the meeting on June 27 when each Kiwanian will have a local grower as his guest.

Plans for a ladies' night entertainment were announced by Ray Fox and Edward F. Lane, who stated that the affair will be staged next Monday night at the Hotel Forrest Lake. Reservations for guests are to be sent to E. J. Trotter, secretary.

POST FAVOR HOOVER

LONDON, June 14.—(INS)—The Morning Post, commenting editorially today upon the probable nomination of Herbert Hoover for president at Kansas City, said that the whole world would be interested in his campaign.

The paper pointed out that Secretary Hoover's knowledge of European and Asiatic conditions "gives him a great qualification."

RECOUNT MOVE IS STARTED BY SHERIFF HAND

Judge Wright Issues Alternative Writ of Mandamus Ordering Inspectors To Proceed With Recheck Of Votes

Canvass May Get Under Way Monday

Irregularities And Inaccuracies Alleged While Other Errors Are Cited In Paper

Legal steps to bring about a recount of votes cast for sheriff in last Tuesday's primary were taken today with the filing of a petition by Sheriff C. M. Hand with Judge Wallace W. Wright of the circuit court.

Judge Wright issued an alternative writ of mandamus, ordering members of the county canvassing board and the clerk and inspectors of six precincts to proceed at once with a recount of the returns. If the order is not carried out, it provides that the precinct officials and board members shall appear before the court on June 28 to show why they should not do so.

Because the Sheriff and members of his staff are disqualified to act in the case, Judge Wright named T. W. Baxter to serve the papers on each of those mentioned in the writ. There are 27 to be served.

There was no indication today that there will be any fight in the case and in view of this it was believed that the recount may proceed early next Monday in the court house. The votes of precinct three of Sanford and of Paola, Ovidio, Geneva, Chahuta and Gabriella are to be recounted.

The Sheriff's petition sets forth that irregularities and inaccuracies in the tabulation in several precincts, while in others errors were alleged in the throwing out of several ballots, said to have been incorrect. The petition also alleges that second choice votes were not tabulated in other places.

The recount movement has been under consideration since last Friday when the canvassing board checked the returns and declared J. F. McClelland the nominee by 10 votes. At that time friends of Sheriff Hand suggested that a recount be sought because of the alleged irregularities.

The final count as announced by the board gave Mr. McClelland 982 first choice votes and Sheriff Hand 1,095, or 113 in the lead. Second choice votes received by Mr. McClelland numbered 291 and 108 for the Sheriff. The total for each candidate with second choice included was as follows: Hand 1,293 and McClelland, 1,273.

Public Utilities Of South West Played Up To Professors

WASHINGTON, June 14.—(INS)—Twenty-six college professors of south-western states, were guests at a convention in New Orleans last January financed by the National Electric Light Association to tighten the bonds between the so-called "power trust" and the educational system of Louisiana, Texas, Oklahoma, Arkansas and Mississippi. It was revealed before the Federal Trade Commission today.

This group of economic, engineering and business instructors was brought together by Q. M. Blain, director of the south west committee on public utilities in Baltimore, who was on the stand before the commission.

Blain's success in obtaining publicity for the convention was shown in a letter sent to him by Charles W. Person, of the American Gas Association, which said: "Congratulations on your publication of this material. I wouldn't dare to attempt such a thing in the East. I don't know how you get away with it."

The material referred to was a series of articles in New Orleans newspapers favorable to the public utilities point of view toward Muscle Shoals, Boulder Dam and other projects.

Assistance Promised Clyde Line In Making Potential Business Survey

The third of a series of conferences, arranged by representatives of the several cities between Jacksonville and Orlando for the purpose of discussing the proposal of the Clyde Steamship Line to abandon its river service, was held in the City Hall yesterday morning with 34 delegates present.

Representatives of the boat line were present and announced that after a limited survey of the field considerable encouragement in the way of increased business had been received. The outcome of the meeting was an agreement by the Clyde Line heads to send representatives to each city on the line for the purpose of signing business men who will agree to use the boat freight service. Assistance was promised the representatives in every city.

Sanford will be visited by the boat men Monday and Tuesday when the heads of all business firms will be interviewed on the matter. Another conference will be held next week in Jacksonville, where a final report of the matter will be made.

Hoover Awaits Action Of Convention Before Giving Out Plans To U.S. Public

WASHINGTON, June 14.—(INS)—Herbert Hoover today awaited formal action of the Kansas City convention before broadcasting his plans to the United States.

As soon as the convention names him the Republican "hope" for 1928 he is expected to call in the newspaper correspondents to express appreciation of the nomination and to pledge himself and the party to carry out the platform and the policies of the Coolidge administration.

Experts early today "tuned up" Hoover's radio receiver in the Commerce Department that the Secretary might hear the final words of debate over the platform in the closing laps of the convention.

Hoover was more interested in the attitude of the speakers than in the halting now, since his nomination is assured. Particularly he will lend an attentive ear to the demands for farm relief, one of the aims of his campaign that will be stressed in the Middle West.

Hoover's generals and aides do not expect any action today. Immediately after the convention for general conference and to lay out their combat plans for the campaign. No announcement of specific policies, other than support of the platform, is anticipated until after this hour.

With the conference completed, Hoover, intending to go to Palo Alto, California, his home, for a complete rest before the "grand drive" and to receive the formal notification of his nomination, Hoover's swing across the United States to the Far West probably will be marked by a formal speaking. The speaking campaign will come later.

The Secretary of Commerce will be something new to the country in the way of a campaigner and something decidedly new to the politicians. He is not the old-fashioned type of stump speaker that once made the city parks and town halls resound with oratorical fireworks.

Hoover is a matter-of-fact talker and most accustomed to speaking on economic and industrial subjects, although occasionally he departs from the prosaic to exhibit keen knowledge of a wide range of facts, and human emotions.

There was little routine on the Secretary's desk today—there were no engagements on the "date" books. He was secretly guarded by secretaries. Hoover planned to "clean up" his work by 10 o'clock, when the convention is scheduled to open and spend the rest of the day in front of a huge loud speaker.

NOBILE SUFFERED MABEL BOLL HAS HURTS AS AIRSHIP PLANE REFUELED WRECKED ON ICE FOR OCEAN TRIP

Right Leg And Arm Off Italian Commander, Wounded In Diving Into Crash Declared Advice Received From Rome

LONDON, June 14.—(INS)—General Umberto Nobile suffered injuries to the right leg and arm when the gondola of the Italia crashed to the ground on May 25, as divers from Rome stated today.

Copenhagen dispatches stated that Captain Risber-Larsen and Lieutenant Lutzow Holm had started on flights on the steamer Hoby by sea search for the Italia's crew.

KING'S BAY, Spitzbergen, June 14.—(INS)—Increased anxiety was felt here today for the safety of the Swedish professor Malgren and the Italian navy commanders Zappi and Mariani, the three daring members of the Italia's crew who started a trek across the ice to seek aid after the dirigible crashed on the morning of May 25.

Openings in the ice are becoming more numerous and wider due to the approach of warmer weather. This, it is feared, has added further hazards to an otherwise dangerous venture. The men have not heard from now for 20 days.

The commander of the steamer Braganza today stated that he believed it would be impossible for planes to land anywhere in the region where General Umberto Nobile and his crew are stranded. He said that on his recent attempt to search the northern regions, he met ice 10 meters thick.

Meanwhile, Nobile and his men are believed to be drifting westward with the ice-floes at a rate of about two miles a day. However, it is believed that wind will soon blow them and their progress will be slower toward the open sea.

Chairman Announces Candidates Will Be Nominated Tonight

G. O. P. PLATFORM COOLIDGE SPEEDS INCLUDES RELIEF ON 'SPECIAL' FOR PLAN OF FARMER SUMMER OUTING

Adequate Protection Promised For Agricultural Products As Substitute Offered For McNary-Haugen Bill

CONVENTION HALL, KANSAS CITY, June 14.—(INS)—Securely in the saddle, the Hoover forces in the Republican National convention rode to an easy victory in the platform fight today by a vote of 817 to 287.

They easily overrode the efforts of a militant minority from the corn and wheat belt to write into the platform an endorsement of the McNary-Haugen Bill principle of farm relief, and rivet into the party declaration of principles instead a substitute plank which was dictated by them. It pledges the party to agricultural relief hinging about the old administration prescription of cooperative marketing.

KANSAS CITY, June 14.—(INS)—In a Republican Convention smothering over the farm issue, the resolutions committee today dropped the Hoover dictated platform which rejects the McNary-Haugen plan for agricultural relief.

By informed the platform upheld President Coolidge's veto of the McNary-Haugen Relief Bill, and offered the farmers as a substitute the Jardine administration plan for federal aid to cooperative marketing. Further relief was promised in "adequate tariff protection for agricultural products."

The platform, on which the party will make its bid before the country for continuance in power, was adopted by the resolutions committee only after a 40-hour fight waged against the farm plank by the administration, and Hoover forces.

For the first time since publication became effective the platform contained a specific reference to the eighteenth amendment to the "observance and vigorous enforcement of this provision."

The farm and prohibition planks were the heart of the platform of nearly 60 typewritten pages. There were 36 planks in all.

The platform mentioned President Coolidge as perhaps no other Republican president has been (Continued on page 3.)

Trammell's majority 42,769. Out of 67 counties in the state Trammell led in 48 counties. The two candidates will about break even on votes unreported.

Fourth Session Of Convention Opens At 10 With Delegates Attending Stabbornly

Hoover Success Looks Inevitable

Senator Smoot Reads Platform Amid Big Racket Of Audience

CONVENTION HALL, KANSAS CITY, June 14.—(INS)—With the platform finally adopted, the Republican convention this afternoon cleared the decks for the nomination tonight of candidates for president. Announcement to this effect was made by Chairman Moses after the delegates had assembled in the large auditorium at 10 o'clock for the fourth session of the convention.

The delegates and visitors appeared to come reluctantly to the feast. When Senator George H. Moses, the permanent chairman, began his appeal for order at 10 A. M. the delegate sections were yawning caverns of emptiness in the galleries and reserved sections.

The inevitability of the Hoover victory contributed perhaps to the tardiness of the delegates and visitors. A fight draws a crowd, but a ratification meeting requires the draft.

Senator Reed Smoot, the ranking chairman of the platform committee, at the very opening of the platform with a bulky sheet of papers in his hand, awaiting the call to the rostrum to enlighten the delegates on the 1928 brand of Republican principles. He looked tired from the long hours of arguing in committee with the embittered champions of McNary-Haugenism, and the insistent veto who demanded that the Republican Party take a liberal view of the prohibition problem in its platform.

The Weta and the farmers were foredoomed to defeat, but they were intent anyway of having their say in this convention.

Dr. Nicholas Murray Butler, president of Columbia University, notified chairman Moses just before the session that "if the platform mentions the eighteenth amendment by name, I must be allowed some time." He was assured he could have it.

The invocation was pronounced by Rabbi Hermann M. Cohen of Kansas City. Whereas his predecessors, a Protestant and Catholic, have contended themselves to merely make a divine blessing on the assembly, Rabbi Cohen went further—he asked the Deity to make this convention "receptive to new ideas."

The session got off to a patriotic start when Senator Moses called the convention's attention to the fact that this date, June 14, is Flag Day, and said it was fitting that this Republican gathering should take cognizance of it. As he spoke, he shook out the folds of the great silver flag that was stanchioned by his side and there was applause.

"Now, let's have the Star-Spangled Banner," he directed, with a nod to the band.

Kansas City Bank Bandits Flee With Booty After Holdup

KANSAS CITY, Mo., June 14.—(INS)—While "victors" and delegates were on their way to convention hall today, bandits staged a hold-up at the Home Trust Company in the downtown section, shot and seriously wounded a traffic officer, a girl and two other persons.

"Happy Smith," the traffic policeman, was dangerously wounded when he attempted to disperse the bandits and Lillian Roland, 17, was shot as she stepped from a curb to cross the street in front of the bank building. One of the others wounded was a policeman and the fourth a passerby.

The bandits were repulsed by tear gas hurled by employees of the bank. The bank was vacated immediately by employees and officers and some of the gas penetrated to the street, affecting pedestrians on the sidewalk. The amount of loot taken was estimated at between \$20,000 and \$30,000.

victory while the others had only scattered supporters and were not being considered seriously by Hoover leaders, who control the convention.
The New York delegation itself, killed four booms when it rejected a resolution, by an overwhelming vote, that would have pledged the state to a "native son." This action automatically ended the hopes of Ogden Mills, Theodore Roosevelt, Alanson B. Houghton and Hamilton Fish, all New Yorkers. Only an expressed command from Hoover, himself, it was said, could revive any New Yorker's boom.

Similar to an expression from Hoover could carry the nomination to Senator Arthur Capper or former Governor Henry Allen, of Kansas, both of whom are "dry" and strong among the farmers. The Hoover leaders meanwhile were sounding out sentiment on Fess, Denen and Dawes.

The names of the nominee may not be known for another day. This morning it appeared to be Fess or Denen but the final word will be said by Herbert Hoover after his nomination for the Presidency.

SHORT-SLEEVED FROCKS

The child's frock shown at the left is decidedly youthful, yet it has the same smart simplicity that marks more mature modes this season. It is easily made because of its simple cut which is ornamented only by the deep point made by the applied front. This frock may be made of flannel, linen, rayon or linen-finished cotton, with contrasting shades used for the trimming-bands.

The scalloped skirt tiers of the model at the right are an attractive decorative feature which is very modish. Softness is attained at the low waistline by the use of shirring. For summer afternoons this frock is fresh and dainty in figured celanese voile or crepe de Chine.

First Model: Pictorial Printed Pattern No. 4366. Sizes 4 to 12 years.

praised since Lincoln.

It promised further tax reduction and lauded the financial accomplishments of the administration, particularly economy and debt reduction.

It urged upward revision to meet world competition.
It opposed debt cancellation.
It endorsed Secretary of State Kellogg's multi-lateral treaty—outlaw war.

It pledged regular publicity to campaign funds as a means to curb excessive expenditures in elections.

It promised adequate relief for disabled veterans.

It denounced dishonesty in government and deplored the fact that certain citizens of both parties have trafficked in national interests for private gain.

It promised to cut out the navy to a 5-5-3 of the Washington Conference.

It urged greater participation by women in politics.

It renewed the recommendation for enactment of anti-lynching legislation.

It criticized the abuse "in some instances" of injunctions in labor disputes.

It opposed joining the League of Nations.

The farm plank which Senator Borah of Idaho characterized as "offering the farmers no more in the way of relief than the 1924 platform, caused a group of 15 Southern and Western members of the committee to submit a minority report embracing the principles of the equalization fee in the McNary-Haugen Bill.

This is the farm relief plank. "We promise every assistance in the reorganization of the marketing system on sounder and more economical lines, and where diversification is needed, government financial assistance during the period of transition.

The Republican Party pledges itself to the enactment of legislation creating a federal farm board clothed with the farm marketing system or farmer owned and controlled stabilization corporations or associations to prevent and control surpluses through orderly distribution.

"We favor adequate tariff protection to such of our agricultural products as are affected by foreign competition.

"We favor, without putting the government into business, the establishment of a federal system of organization for cooperative and orderly marketing of farm products.

"Never has the soundness of Republican policies been more amply demonstrated than during the last five years under the leadership of President Coolidge."

"The record of the United States Treasury under Secretary Mellon stands unrivaled and unsurpassed."

"We pledge our party to such further reduction of the tax burden as the condition of the Treasury may from time to time permit."

"A protective tariff is as vital to American agriculture as it is to American manufacturing."

"The Republican Party maintains the traditional American policy of non-interference in the political affairs of other nations."

"We favor, without putting the government into business, the establishment of a federal system of organization for cooperative and orderly marketing of farm products."

There appeared to be a good deal of conferring and huddling over the vice presidential situation in progress on the floor as Smoot continued his dry intonation of the party Bible. Here and there were observed scouts and lieutenants working in behalf of various candidates, and this contributed to the confusion on the floor.

The New Hampshire friends of Chairman Moses were active in his behalf, and reports drifted into the press stands that "the Moses candidacy is on the uprise."

The Connecticut friends of John Q. Tilson were doing some button-holing, too. It was hardly three minutes before Smoot's voice got too low again, and the cry of "louder" came pettily from the floor.

Moses again came to his colleagues' aid. "The chair," he said, "is reluctant to use harsh measures, but he will say he will turn loose the vast army of sergeant-at-arms to keep order if the delegates themselves are unable to do so."

There was little applauding, even while the tall Senate leader was extolling the record of the Coolidge administration. Perhaps it was because they couldn't hear. Certainly some in the rear of the hall were not getting it, and neither were those in the boxes and galleries in either wing of the building. From these sections came an insistent buzz of conversation.

In the midst of the other confusion, a huge box of flowers, four feet long and two feet wide, were brought in on the floor and deposited in front of Mabel Walker-Willie Brandt, who had a prominent front row seat with the California delegation close to the platform from which Smoot was speaking. It blocked three-fourths of the aisle.

For the sixteenth time, Senator Moses was forced to suspend the proceedings while he tried to obtain order. However, there was no denying that a lot of the confusion was due to the inability of even those close to the speaker's stand to hear the husky voice of the Utah Senator.

A grey-bearded Oregon delegate who was sitting within 20 feet of the platform from which Smoot spoke, complained he couldn't hear, and demanded that the convention be suspended "until there is complete silence."

Moses chased a couple of photographers from the floor, and

Every Chic Parisienne

Has At Least 1 Robe

By Alice Langille
International News Service
Staff Correspondent
PARIS, June 14.—Every chic
Parisienne has at least one of the
newest fashions—the "robe dinner."
It is a simple, but well-
made, robe of simple fabric which
follows the lines of the body in
the most graceful fashion.

Monochrome in color and crepe
material is the favorite. The
sleeves are short and the
length is just below the knee.
The collar is a simple, straight
band. The fastenings are small
and discreet. The overall effect
is one of simplicity and grace.

Extensive Forestry Program Is Assured

CHICAGO, June 14.—(INS)—
The most far reaching forestry
program and wild-life protection
campaign ever undertaken by the
United States has been assured, in
the opinion of officials of the
Isaac Walton League of America,
at national headquarters here.
The Woodruff-McNary and the
Sweeney-McNary bills, relating
to forestry, and the Bear River
Marsh bill, for flooding alkaline
marshes in Utah, were cited by
Seth E. Gordon, conservation di-
rector of the league, as examples
of legislation recently passed by
congress for conservation.
"Congress, in authorizing a defi-
nite program of forest purchases
wild life research, has abandoned
the hit-or-miss methods and placed
a tremendously important under-
taking of forest growth on a
basis compatible with the nature
of the project," Gordon said.

Riot Occurs During Marathon Contest

CHICAGO, June 14.—(INS)—
Rioting that for a time threatened
serious consequences early today
broke the monotony of the national
marathon dance contest. The
trouble started when one of the
six surviving couples was ruled off
the floor. The pair, Harry Free-
man and Ida Posen, had danced
208 hours. They were accused of
stalling.
Their trainer stalked to the
floor and smashed the field judge
on the jaw. A mob of spectators,
jeering and cheering, swarmed on-
to the floor and engaged in a bat-
tle royal. Police subdued the riot-
ers, the leaders going to jail. It
was learned the disqualified couple
was a favorite with the gambling
fraternity.

Remains Of Ancient Hittite Race Found

CHICAGO, June 14.—(INS)—
The first bodies ever discovered
of the ancient Hittite race of the
pre-Kretan strata have been un-
covered by a party working in the
far east under Professor Henry
Breasted, famous historian and
orientalist of the University of
Chicago, who recently returned to
Chicago from an intensive explora-
tion tour.
"The discovery is of extreme im-
portance," Professor Breasted de-
clared, "because little is known of
the physical race of the Hittites.
The skeletons date from 13th or
14th century before Christ. We
have obtained 31 of these skele-
tons."
The Hittite skeletons were dis-
covered in excavations in Asia Mi-
nor near Luxor and Armageddon.
