FLORIDA HAD RECORD SHIPMENT OF ORANGES IN THE PAST 24 HOURS

Shipments of oranges from out of Florida for the twenty-four hours ending at noon on Thursday, December 14, according to data compiled by the American Fruit Growers, Inc., broke all records when three hundred eighty-seven cars were credited with passing through the various railroad junctions on the exit from the state

On the basis of three hundred and sixty boxes to the carload, as an average load, this means an aggregate of 139,320 boxes of oranges for a single day's shipment

Nor was this the total of citrus shipments. There was a fair movement of grapefruit also, 81 cars passing out of the state during the same twenty-four hours

ARE NEWSPAPERS READ?

The following question and editorial from the Bartow Record may be unanswerable in that city, but is easily answered for Sanford

There are times when newspaper publishers and editors feel impelled to answer the question in the caption above, in the negative

During the past ten days or two weeks, the Record has had occasion to chronicle a number of events of vital importance to every citizen of Bartow—the change in the reduction of the tax rate for the city by more than 50 per cent, the lowering of rates for electric light and power furnished Bartow users of electric current, the appropriation of \$2,500,000 by the city commission for publicity

The Record, in common with other newspapers in the county, the state and the world, is published for the purpose of keeping its readers informed regarding the current happenings of importance, and with the hope that it will be read and read intelligently

It has been said that "a drop of ink makes millions think" and it is true, but the drop of ink must be seen and those who, for any reason fail to see will find themselves classed with the unthinking and the careless

EAST COAST ROAD TO START NEW LINE OKEECHOBEE TO MIAMI

Reports from Miami are that all necessary preliminaries have been completed for the carrying out of the contract between the Florida East Coast railroad and the state of Florida on the construction of the new line from New Smyrna to Miami by way of Okeechobee and over which it is planned to handle many of the freight trains during the heavy winter season

The railway company's contract with the state calls for the beginning of work on the railway line, at the north end, by January 1, and the company is ready to put construction forces at work at that time, working down toward Miami

in the Everglades the last few weeks the surveying on the lower end of the canal was interrupted, and consequently the line has been permanently surveyed and located only to within 30 miles of Biscayne bay

The line will be about 125 miles long. Surveys have been completed and the actual locations decided upon for 95 miles of this distance beginning at Okeechobee City, along the east coast of the lake, through Canal Point and Pahokee, past Belle Glade and Okeelanta and over to the south banks, then southeast toward Miami and as far as the South New River canal

The 30 miles from South New River canal to the bay will be surveyed and located as soon as conditions in the Everglades permit the men to work without too great difficulty

Speed with which the railway line will be pushed will necessarily depend upon the speed of the state excavation of rock from the Miami canal, this rock being necessary as the base of the railway grade

Increasing stock market activity and Christmas buying have worked together to bring business up to a normal level. The index of the Pabsonchart shows general activity exactly at the normal line

BONDS A BARGAIN—SAYS BABSON

Statistician Sees a Long Swing Toward Lower Commodity Prices

"AN ECONOMIC NECESSITY"

The World League against Alcohol, world-wide prohibition is destined to come, "not as a matter of sentiment but as a matter of economic necessity"

WELLESLEY HILLS, Mass., Dec. 16.—There has been much discussion of late as to whether bonds have reached the top

Most of us, judging from our own experience, think of 1920 commodity prices as the "high-for-all" time. What we do not realize is that prices have been as high three times before, at intervals of about fifty years and that between the peaks, each time, they have touched levels as low as in 1890

is not news. It is merely putting the fact into permanent form

The average consumption of alcoholic liquors in the United States rose in the decade 1911-21 to the highest level in American history, 22.68 gallons per person and in 1913 and then descended to the lowest 3.01 in 1920—a little below what it was in 1890 or 1850

All talk of prohibition not prohibiting is brainless twaddle. It does prohibit—the violators to the contrary

There is so much loose talk against prohibition, as it now exists, that any concrete fact shedding light on the situation is worth regarding. Such a fact is the statement of the Washington Home in Chicago, regarding its loss of business. That home is what is commonly known as a "jag cure" institution. In more polite parlance, it handles chronic inebriation cases

Here is a decrease of more than 90 per cent in the number of acute alcoholic cases coming to the institution; and apparently it takes all who come. No less interesting is the further statement of Dr. Goodsmith that nearly all of the patients it used to get, in its crowded ante-prohibition days, had "commenced with the use of intoxicants of a low alcoholic content" and that if the Volstead Act were amended so as to permit light wines and beer, the institution, now simply fitted to care for all applicants, would have to be enlarged

The "Liberty Parties" and the more openly organized booze forces do not have to state their purpose in fighting for a return of light wines and beers. They are frank to say it is only the first step toward the return of the saloon. It was one of the crimes of the saloon that the dispenser across the bar was instructed to start the young fellows on beer—they would soon make profitable customers on whiskey

The moral aspect of prohibition entirely aside, it is here to stay because it is economically sound.—Jacksonville Journal

# KELLER FAILS TO IMPEACH DAUGHERTY

## DECIDEDLY NOT TO RESPOND TO SUBPOENA

(By The Associated Press) WASHINGTON, Dec. 16.—Representative Keller failed to appear before the house judiciary committee in response to formal summons. At his office afterward it was said he decided definitely not to respond to the subpoena served on him late yesterday after he had announced his withdrawal from further participation in the hearing of his impeachment charges against Attorney General Daugherty. Whether the committee will undertake to compel his appearance or hale him before the bar of the house for contempt will be decided tomorrow.

WASHINGTON, Dec. 16.—Representative Keller, of Minnesota, refused late yesterday to participate further in the hearings before the house judiciary committee on the impeachment charges brought by him against Attorney General Daugherty. Characterizing the hearings as a "comical opera performance" he declared he would be untrue to his responsibility as a member of the house if he assisted further in "a bare-faced attempt to whitewash Harry Daugherty."

Immediately after he announced his withdrawal the committee in an open session and without leaving its place voted to go on with the hearings; to subpoena Mr. Keller as a witness, put him under oath and question him as to the basis for his charges of high crimes and misdemeanors against the attorney general. Later he was summoned formally by the House sergeant-at-arms to appear before the committee at 10:30 a. m. today.

### KIND WORDS ABOUT THE OLD TOWN

Mr. R. J. Holly: Dear Mr. Holly: Your good paper has been a welcome visitor to me for a long time now.

It brings me the news from my old home town, the fine little town that I claim to have named. We were the first settlers, never dreaming that we were founding a town! So to speak, General Sanford and my father were associated together for a while in business, if I remember correctly.

We told him we were calling the settlement "Sanford." He protested and said "Why don't you call it 'Tuckerton' or 'Tuckerville' after your father?" or that is what he meant, but Sanford it was named and may Sanford continue to grow and prosper with grand Christian policies and noble ideals!

With best wishes,  
Mrs. A. E. Phillips, Jacksonville, Florida.

### ORGANIZE TO STOP SWEARING

Verona, Italy, Society Uses Many Means to Suppress the Use of Profanity.

Some Idealists in Verona, Italy, organized some time ago a society for the suppression of bad language. They assert that swearing already has been reduced 75 per cent and that in 15 years it will have entirely disappeared. Every means of propaganda is used, including posters and notices on public buildings, railway stations, schools, barracks, etc., and showers of leaflets from airplanes and imitation bombs in fireworks exhibitions.

The notices are varied, picturesque and adapted to circumstances. Here are some of them:

"Dante orders you not to offend the soul of song by oaths."

"Be careful! If you swear, your children will despise you and civilized society will cast you out!"

"Profanity is a short circuit."

At a football club huge printed notices urge the players to "Give a kick to swearing" and to "Make many goals, but not one oath."

The committee wants guards and policemen empowered to take the names and addresses of individuals who are overheard using bad language in the streets, names and addresses to be posted up to public scorn in the great central square of Verona.

### Roughing It

It was a quiet portion of the day in the hair-dressing establishment. The Woman Who Saw was rather glad the dryers weren't going full force, for it gave her time to rest and catch the snatches of conversation. Close beside her two Jaded women, eternally pursuing beauty with cold cream jars and facials, were discussing what was wrong with their complexions.

"Mame, I can't understand it—I use the best creams and yet Harry tells me it's a waste of money—and when a woman's husband doesn't see any improvement I guess the cream isn't any good."

Mame just nodded her head—the Woman felt that she was too bored to offer her friend any suggestion. She was about to give the beauty-seeking woman up when Harry's wife turned sharply and said: "Mame, I love it—I just know I am too rough with my wash cloth."—Chicago Journal.

## OVIEDO

Mr. Frank Page, 25 years old, died in Oviedo Monday, morning at six o'clock after a few days illness. Mr. Page was formerly from North Carolina, having lived in Oviedo only one year. He is survived by his wife and one little son, and by his mother and two brothers. One brother arrived on Monday night and will take Mrs. Page and little son back with him to North Carolina.

Mrs. Blair, and Mrs. Taylor of Chicago arrived Tuesday and are stopping for a few days at the Cushing house. Mrs. Blair came down to look over some grove property bought by Mr. Blair last year.

On last Friday night at the club house a box supper was given by the Woman's Club of Oviedo. About twenty five dollars was raised and a most delightful evening spent. One of the boxes contained a gold pencil as a prize. The pencil was donated by Mr. O. P. Swope and T. L. Mead was the lucky "boy" who purchased the "prize box." The club also held their annual bazaar on Friday and Saturday during which time they cleared about seventy-five dollars on fancy work and cooked food.

Two truck loads of convicts with their camping outfits arrived Monday morning to begin work on the county roads. Work began immediately upon the road from the Seaboard Air Line station to Lake Rosa. This road was in very bad condition and work on it was heralded with joy by every one and especially those who live on this road and are constant users of it. They are putting clay on the road which will make it very much better when it is completed and the drain ditches opened up on either side.

The stores of Lawton Brothers Co. and Sistrunk & Co. were entered Monday night by some very bold robbers. At Lawton's about three hundred dollars worth of goods was stolen, most of it in clothing, and shoes, while at Sistrunk's, canned goods, candies, and groceries were taken. An attempt was made the same night to steal Max Linhart's car, but this failed, because the car could not start without the key. The car was pushed out of the garage and down the road quite a distance. A few nights before this a store at Chulnota and a store and residence at Geneva were visited by thieves.

Rev. L. E. Wright left Tuesday for Tampa where he will attend the Florida Methodist conference this week.

Theodore Aulin has been quite ill for the past three days, but it is hoped he will be greatly improved within the next twenty four hours.

The Seminole Orchestra under the direction of Prof. Shuler, of Rollins College meets at the club house each Monday night and is doing splendid work. There are fourteen members enrolled at present and others are expected to join later.

Mrs. A. J. McCulley entertained the Ladies Bible Class of the Methodist church Tuesday afternoon. Mrs. Hollingsworth of Chicago joined her husband in Oviedo Wednesday. For the present Mr. and Mrs. Hollingsworth are at the Chulnota Inn.

Mrs. S. McBride has been ill for several days but is better.

Rev. R. J. Alderman, pastor of the Baptist church at New Port Richey spent the night with Rev. J. N. Thompson Tuesday.

Mrs. Bell, of Golden Rod is visiting her daughter Mrs. Mundy this week.

Mr. and Mrs. Garrett and children of Georgia have taken rooms at the Argo house for the present. Mr. Garrett has bought property at Oviedo and expects to make this his home.

## Cat Tangled in Radio Machine Was Thrown Across Room

### Badly Injured But Has Seven Lives Left

(By The Associated Press) TAMPA, Dec. 16.—Boots, Tampa's radio cat, is short two of his nine lives but with seven remaining his friends and admirers expect to see him amble along for several months, and perhaps years, to come. Boots is as black as tar but has white feet and his job is to keep the radio operators at the Gulf Radio Service Station on the Tampa Bay Hotel roof from becoming lonesome.

Operator Warner recently closed his circuit to talk to a ship several hundred miles at sea and Boots got tangled up in the apparatus. He was thrown across the room by twenty amperes and about 140,000 volts of electricity and landed with the usual dull thud. Warner picked up the cat and its body balanced across his hand as if it were carved in wood. The operator laid Boots out on the tin roof and poured cold water over him. The corpse sat up and yowled.

The following day, Boots, still stiff and weak from his experience, essayed to enter the radio room by the usual route, through a window five stories from the ground. He slipped but managed to land on a small concrete ledge at the fourth floor. Warner climbed down and rescued the bleeding remains of the cat and was preparing to give him a decent funeral when he revived.

In spite of his harrowing experiences Boots continues to stick to his job as official entertainer and rat catcher.

# Don't be Fooled---

"Fool me once," says the proverb, "and it's shame on you. Fool me twice and it's shame on me."

Don't be fooled when it comes to spending your money. Patronize the merchants who have a reputation for fair dealing and honesty. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his patrons.

The consistent advertiser pays money to tell you about his goods. He KNOWS they are good—he backs them with his money because he believes they will satisfy. Only merchandise which is consistently good can be consistently advertised.

So advertising PROTECTS you against fraud and inferiority. It tells you what is new and good, making you a wise buyer. It saves you money by pointing out for your consideration ONLY THE BEST products and the best places to buy them.

Thrifty men and women read the advertisements. To them it is a plain every-day business proposition—a DUTY they owe to themselves and to their pocketbooks.

Don't be fooled!

## AND WHERE DO YOU BUY?

Towns and cities are very convenient institutions. It's mighty nice to be able to go a few miles and get groceries, medicine, lumber, clothing and many other commodities. However, if everybody bought outside the county—from the mail-order houses—there would be no towns like ours. There would be no businesses like ours to help pay taxes. The mail-order man contributes nothing to the upkeep of our town and county! He is not prepared to render services comparable to those we give you. Generally, we can meet and beat his prices. Why buy from him?
