Veto Upheld

(Continued from Page One) American Labor member, Marcantonio of New York.

Applause broke out on the Democratic side as the vote was announced. The House action means the Senate will not even vote on the issue of overriding the veto. It means, too, that Republicans have an issue which already has made clear will figure prominently in the 1948 presidential campaign.

Before the vote, Speaker Martin had declared that if the Senate or House upheld the veto it would mean no new attempt this year to reduce taxes.

The Massachusetts legislator made the statement to reporters as the House began a vote on the question of sustaining the veto.

"This is the last say on taxes this year," he said. "Apparently the Democrats have little interest in cutting expenditures and reducing taxes. We may have to wait until we get a Republican President before we get tax reduction."

House Republican Leader Halleck of Indiana issued a statement, saying the Republicans flatly reject "the argument of President Truman in his tax bill veto message that the government must continue to impose back-breaking, war-time taxes."

SZEGED, Hungary, June 17. (AP)—Dezso Sulyok, anti-Communist Szabadsag (Freedom) Party leader, promised today to speak "very soon" in a new freedom-of-speech test at Miskolc despite the fact that a rally of the party here last night was interrupted by stick-swinging intruders who cheered Communist leaders.

Sulyok, who charged in the National Assembly last Thursday that "political terror reigns in Hungary," had been expected to address the rally here, heralded as a test of the right of assembly, but did not appear.

The meeting last night in this city, 100 miles southeast of the capital and near the Yugoslav border, was adjourned by police after the intruders, numbering almost 150, had a fight with an audience of some 700 men and women.

Unaccounted casualties resulted from the brawl, which started in the Tizza Hotel's second-floor ballroom, and in fighting in the square outside between some 500 policemen and about 15,000 persons waiting to hear the political speeches through loudspeakers. The ballroom interlopers heck-

led speakers with cheers for Soviet Prime Minister Stalin and Hungarian Communist and Social Democratic leaders and then charged the audience with brass knuckles, rubber hoses and other weapons.

Training Bill

(Continued from Page One) the most democratic, the most economical, and the most effective method of maintaining the military strength we need.

"It is the only way that such strength can be achieved without imposing a ruinous burden on our economy through the maintenance of a large standing armed force."

A report by a presidential commission recommending a universal training law has been forwarded to Congress, but no action is expected at this session.

The President also took occasion to cite what he long has contended is the need for higher salaries in the government service to attract the kind of executives required to manage its vital activities.

And he suggested a program for the systematic training of civilian employees once they have entered the public service, both "on the job and on the campus."

First Globe-Circling Air Service Started By Pan American

NEW YORK, June 17. (AP)—Pan-American Airways' giant clipper plane, The America, was ready today at La Guardia Field for its 1,000 P. M. (EST) takeoff on the first leg of a globe-girdling flight which will inaugurate the airline's world passenger service.

Juan T. Trippe, president of the airline, and a party of American newspaper publishers and editors will make the first trip, which is expected to cover 21,426 miles and require 93 flying hours. The flight in the new type four-engine Lockheed Constellation is East-bound and includes stops at Gander, Nfld.; Shannon, Eire; London, Istanbul, Karachi and Calcutta in India; Bangkok; Manila; Shanghai; Tokyo; Guam; Wake; Honolulu and San Francisco.

The regular service will include once weekly an East-bound round-the-world flight from New York and a West-bound flight from San Francisco. It marks the beginning of the first globe-girdling air service in history. Flights which follow the first "all blazing" trip will require a longer time, about 120 hours.

Curley Asks For Last Church Rites

COHASSET, Mass., June 17. (AP)—At his own request, Mayor James M. Curley of Boston today was given the last rites of the Catholic Church. The 72-year-old former governor of Massachusetts, received rites from the Rev. Thomas Devlin, pastor of St. Anthony's Church in Cohasset.

In a relief bulletin, his attending physician, Dr. Edward Schott said: "He was very restless and nervous and much concerned over his condition. He requested the priest and received the last rites of the Catholic Church."

Curley faces a jail term of from six to 18 months and a fine of \$1,000 on federal charges of mail fraud. Authorities on court procedure have reported that only a presidential pardon or leniency by the judge who imposed sentence can now alter the conviction and sentence. Curley was told last night the Supreme Court had refused to reconsider his conviction.

Miss Jean Whigham Honored With Tea

Mrs. Barney Beck honored her niece Miss Jean Whigham, whose marriage to Donald Jones will be an event of June, with a tea on Friday afternoon between the hours of 4:00 and 6:00 o'clock at her home on Laurel Avenue. The occasion was the predominant flower used in the rooms of the Beck home which were thrown open en suite. Roses, asters, gerbera daisies and greenery were also used in attractive arrangements around the rooms.

The guests were greeted at the door by Mrs. A. W. Lee and Mrs. Herman Morris, and shown to the receiving line by Mrs. H. Wayne Rucker. Forming the receiving line were Mrs. Beck, Miss Whigham, Mrs. Porter P. Whigham and Mrs. T. W. Jones.

Mrs. Beck was gowned in light blue crepe of Grecian design. Miss Whigham chose to wear a powder blue gown, fashioned of taffeta with a full skirt. Mrs. Whigham wore a flower print gown of bemberg sheer and lace and Mrs. Jones' dress was of blue lace. They all wore white gardenia corsages.

A green and white color scheme was used in decorating the dining room. The bride's table was covered with an Italian cut-work cloth and centered with a low arrangement of white gladioli flanked with silver candlesticks holding white burning tapers. Silver compotes held green and white mints and at one end of the table were a miniature bride and groom. The punch bowl placed at the other end of the table was presided over by Mrs. B. L. Perkins, Jr. Fruit punch was served with dainty green and white sandwiches and other refreshments carrying out the color scheme. Assisting in serving were Mrs. John Hughes, Miss Kathryn Wiggins, Mrs. Gene Harrison, Miss Jean Harper, Miss Martha Wight, Miss Elizabeth Fite, Mrs. C. E. Benton, Mrs. Emmet Clark and Mrs. Williams Neville of Euflala, Ala. About 150 guests called during the appointed hours.

SAVING THE BABY

Each year 3000 infants under 5 years old die from accidents in the United States. A very high percentage of these accidents occur in homes and might easily be prevented. This is one of the facts which the National Conference on Home Safety is calling to the attention of parents this year. To save babies from common home accidents, they offer these simple suggestions:

Safety in the Crib. See that blankets do not cover the baby's face. Secure them to mattresses or sides of crib with safety pins or clips. Use sleeping bags or patented crib blankets only on the doctor's recommendation. Never use a pillow.

Safety in the Kitchen. Keep the baby in a high chair as far possible from the stove and sink to avoid scalds and burns. Keep hot pans well out of reach. Small babies can reach surprisingly fast and far for shiny pots and pans.

Safety from Falls. See that carpeting on stairs is tacked down firmly and all small rugs are anchored. Use non-skid finish on floors. Have bars on top and bottom of stairs until the baby is old enough to climb with safety. Keep stairs well lighted and free from litter. Keep toys off the floor except when the baby is playing with them. When carrying the baby up and down stairs, always hold the rail with one strap attached to bottom of seat and inside edge of tray.

Safe Toys. Toys should be too large to swallow; with no points or sharp edges; washable, preferably of plastic or wood; they do not come apart, and if any paint is used it should be non-poisonous.

TODAY'S WEATHER FORECAST FOR FLORIDA INDUSTRIES

Continued Fair, Warm and Inviting. Business Barometer... High, and Going Higher. Market Temperatures... "Hot" and Rising!

FUTURE OUTLOOK: EXCELLENT

AN "INDUSTRIAL CLIMATE" AS HEALTHFUL AS OUR WORLD-FAMOUS NATURAL CLIMATE . . .

Florida's excellent "industrial climate" is man-made—by vigorous far-sighted representatives in state, county and municipal government—backed by citizens, cooperative chambers of commerce, and other civic groups—who are well aware of the importance of industry in the pattern of our great and growing state.

- Additional industrial advantages in Florida include:
- CONTENTED EMPLOYEES**—Laps of outdoor recreation, happy families, healthy children, good schools, healthful foods—people like to live in Florida.
 - INCREASED EFFICIENCY**—Contented, happy workers produce better—high morale keeps production high. And ideal health conditions keep lost time to a minimum.
 - THE DOMESTIC MARKET**—Florida, fastest growing state in the nation; adds buying power to the great and growing Southeastern market—all just hours away by train.
 - VAST FOREIGN POTENTIAL**—Florida is just next door to booming Latin America, the ideal point for selling and servicing this vast market.
 - PLENTY OF POWER**—Florida Power & Light Company is now in the midst of a huge expansion program. You will be assured of plenty of dependable power from our interconnected system.

We will be glad to send you the following brochures prepared from information supplied by the Florida Chamber of Commerce and other authorities. They shed new light on industries particularly adaptable to Florida. Write today.

Gainesville G-Men Score 10 To 7 Victory Over Sanford

Mason Leeper Taken From Tilt After Walking Eight Men; Tomat Hurls Tonite

By ARTHUR BECKWITH, JR., Herald Sports Editor
The Gainesville G-Men toppled the Sanford Celery Feds in a hotly contested game from the opening until the last man was out.

Big Goose Kettes opened on the hill for the Feds but was removed in the fourth canto. Glenn Garrett assumed mound duties and completed the contest.

Mason Leeper, star southpaw of the Gainesville aggregation, was removed in the second frame and Manager Myril Hoag tossed the final seven and one-third innings.

One Gainesville player was removed from the contest by Manager Hoag for the use of obscene language.

Tonight the Feds invade Harris Field in Gainesville for a contest. Tomorrow the locals play in Leesburg. The game is scheduled to get underway at 3:00 o'clock and will be part of the feature program during the Watermelon Festival to be held in Leesburg tomorrow.

Thursday night the locals will entertain the up coming Pirates at the Municipal Park. Johnny Tomat will likely get the mound assignment from Manager Don Murray for the tilt with the G's tonight.

Slaughter, Boudreau Batting Leaders Of Major Ball Leagues

NEW YORK, June 17. (AP)—Outfielder Enos Slaughter of the St. Louis Cardinals and playing Manager Lou Boudreau of the Cleveland Indians were the respective batting leaders of the National and American Leagues today.

Slaughter, undisturbed by the second division playing of the St. Louis Cardinals, through games of Sunday, June 15, topped both leagues with a mark of .59. Boudreau's average was .350.

Sidelined for a few days as a result of a home plate collision with Walker Cooper of the New York Giants, Slaughter resumed his heavy slugging to overtake Harry Walker of the Philadelphia Phillies, who dropped to second place with .56. Carl Furillo, part-time Brooklyn outfielder, got into enough games during the past week to take over third place in the National League with .540.

Bert Haas of Cincinnati fell from third to fourth with .333 nine points above fifth place Bob Elliott of Boston.

Boudreau actually backed into the American League lead, dropping six points from his .356 of last week. However, Joe DiMaggio of the New York Yankees, who shared the lead with him last week, skidded 23 points to a fifth place .333. George McQuinn of the Yankees boosted his mark 14 points to claim second place with a .348 average. Stan Spence of Washington was third with .341 and George Kell of Detroit fourth with .337.

Patrons receiving the ballots will be asked to fill out the slips with their selections of two teams of 14 players each, and return the ballots to the members by the time the game is over.

COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

ALL-STAR TEAM
We want to take this opportunity to remind all the baseball fans of the area to keep a watchful eye on the players of the Florida State League for the next few weeks, since the fans will be asked to select two all star teams by ballot for the first annual Rookie-veteran All-Star game to be played on Sunday July 13.

The classic is slated to be played in the city whose team is leading the league on midnight, July 4.

Balloting will be held in all league parks on July 2 and 3. To insure each town has an equal vote, only the first 800 adult admissions will receive ballots to cast for the teams.

On July 4, the first 800 fans buying tickets at the Municipal Park to witness the contest between the Sanford Celery Feds and the St. Augustine Saints will receive a ballot.

Patrons receiving the ballots will be asked to fill out the slips with their selections of two teams of 14 players each, and return the ballots to the members by the time the game is over.

Peter Schial has recently taken a poll of the eight sportswriters in the circuit and included the names in the straw vote. The results of the early ballot should be forthcoming shortly, and it will be interesting to check their teams against the ones selected by the fans.

Last year sportswriters picked an all-star team, but no contest was played. This year the fans are going to select the rookies and the veterans they think are the best in the league and these teams will play the tilt.

MISSIONS
We were quite interested to note that the San Antonio Missions have released Jimmie Adair, jovial manager of the Texas League entry.

Adair, a former Chicago Cub keystone sacker, was one of the most cooperative and well liked skippers in minor league baseball and it is with deep concern that we read the account of Adair's release.

The St. Louis Browns really jumped into the fire, so far as the people of San Antonio are concerned, the Sporting News reports.

It is reported that the action aroused the ire of the players, fans, sportswriters and sportscasters of the area alike, and it is no wonder that the announcement did rather surprise them.

Last year Adair took a gang of bush league players and piloted them into third place in the Texas League, and the team set an all-time attendance record, playing before 295,000 fans.

Mark Carrola, Mission backstop, has been named skipper of the aggregation since Adair was released.

Many Sanfordites will remember the likeable Jimmy Adair, since he was here with the San Antonio Missions during their spring training activity at the Municipal Baseball Park.

NEWS NOTES
We note that 6,000 bass have been poured into Lake Joanna under the direction of the Florida Game and Conservation Department in Tallahassee. Lake Joanna is in Lake County near Eustis, so remember this for about two years and there will be some good fishing over there. We noted with interest our headline on the game with Gainesville last night. We had Sanford playing Daytona Beach. Tch, tch. Rookies now on the Fed roster include Don Rickston, Mickey McMannus, Bill Stanton, Glenn Garrett, Johnny Tomat, Tim Tyler, Jim Black and Ernie Motter as rookies. All other Feds are rated as veterans so far as the all star ballot will be concerned.

Royal Ascot Opened Today With English Notables Present

ASCOT, Eng., June 17. (AP)—The Royal Ascot, the world's most fashionable racing meet, opened today with almost greater splendor and with the British Royal Family in attendance.

King George, Queen Elizabeth and Princess Elizabeth drove from nearby Windsor Castle in open landaus drawn by the Windsor grooms. Postillions in blue and gold, grooms in blue and black velvet caps rode ahead of the Royal carriages.

Men in morning dress and women in the brightest display of fashions seen in England since before the war filled the Royal enclosure. In other enclosures, dress was less formal.

National League All Star Third Base Job Still Open Chase

By Jack Sords

CHICAGO, June 17. (AP)—Bob Elliott of Boston today went back into the lead in the poll for third baseman on the National League all-star team. George "Whitey" Kuroski, of St. Louis, had passed Elliott Sunday, but was unable to maintain his slim margin.

Elliott had 9,418 votes in the latest tabulation, to 36,672 for Kuroski. Frankie Gustine of Pittsburgh was in third place with 27,143 and Stanley Hack of Chicago fourth with 23,807.

Ted Williams, Boston Red Sox left fielder, was the top vote-getter in either league, with 74,854 votes.

Baseball officials meeting yesterday to set up rules for the game, to be played in Wrigley Field on July 8, decided that the players selected in the poll should remain in the game for at least three innings. After three innings, the manager for each league may substitute at his discretion.

Old John King, one of the most colorful players and umpires that ever lived, still expresses an aversion to left-handers. But this aversion was because he just couldn't hit them.

Old John was attributed with saying that "50,000 left-handers went off to war and every blankety-blank one of them came back." Today he admits he said something like that but not with such specific figures.

He also admits that he once put a quarter into a blind man's cup but noting that the man played his fiddle left-handed, matched the money back.

He's still made because folks got out a report that his son was a left-hander.

Mitchell would remove the doubts in people's minds about left-handers. He wants it understood that they are human beings and do the same things as other nice people—except that they tie their neckties left-handed.

And they know right from left!

The Clubhouse

By HAROLD V. RATLIFF

AP Newsfeatures
DALLAS—The Texas Association of Left-Handed Golfers is attempting to show that southpaws are much-maligned athletes.

Somewhat plaintively, Allan E. Mitchell, secretary of the association, says:

"They (the left-handers) usually get undesired publicity (and puns) and are the forgotten men of golf."

Thus the association whose members dig the divots from the port side is busy as a hive of bees getting the names of all southpaw linksmen in Texas. The idea is to show there are enough of them to insure attendance and financial aid so that the National Left-Handed tournament may be brought to this state in 1948 and 1949.

Mitchell sent us a membership card with the note: "I do hope you play golf and left-handed!"

We do not play left-handed; in fact, our golf score indicates we must be playing without hands—merely kicking the ball around. However, we hastened to assure the association secretary that our sympathies were with the southpaws. Always helping the underdogs, that's us.

Anyway, the association already has more than 700 names on the list and expects others to come in.

Left-handers have been the butt of jokes and angry outbursts from time immemorial. A southpaw in baseball usually is considered wild in two ways—throwing the ball and in the head. Thus the portersiders down through the years have gained a reputation for being screwballs.

Eddie Dyer, now manager of the St. Louis Cardinals, was presented a trophy once while skipper of the Houston Buffs of the Texas League. On it was inscribed: "A left-hander who thinks right."

No Car Designed Before the War Can Even Compete with the Ride You Get in a KAISER or a FRAZER

You be the judge! You have driven and ridden in a lot of cars. You know how they ride. Now, get in a KAISER or a FRAZER and compare the ride! You're in for a pleasant surprise. For all your present standards of riding quality will become obsolete before you have gone a mile! You will agree that no car designed before the war can even compete with the KAISER or the FRAZER—for there never was a ride like this! You drift over rough roads. You glide along the pavement. It's a horizontal ride—with the up and down travel removed.

It's not just a matter of spring design and shock absorbers. Power, brakes, and ease of steering, all play a part. So do superior roominess, extraordinary visibility and extra-low center of gravity—with all the weight of passengers between the wheels! But what's the use of telling you how it's done! You are interested in the ride. That can't be described. It must be experienced. So, before you buy any car, learn for yourself—compare the ride!

Nagy Plans Fight To Make Hungary Free

WASHINGTON, June 17 (AP)—Hungary's self-exiled former prime minister said today he will stay in the United States to lead a fight to restore the freedom of his homeland which he asserted was lost by "direct intervention of the Soviet Union."

The former prime minister, Ferenc Nagy, told a news conference for the cause of Hungary. He said he has not yet decided whether he deems himself "a trustee" to set up a government in exile.

The events in Hungary as well as in many other countries in Southeastern Europe, make it definitely clear that the Soviets and Communists do not seek fair and genuine cooperation, but dominance," he said. "To them, the coalition is only a means to save the appearance of representative government, and nothing short of unconditional surrender is considered by Russia as a final gesture."

Delicate Operation Performed On Youth

MIAMI, June 17 (AP)—Richard Kneer, 10-year-old Fort Lauderdale boy, was recovering in a hospital for removal of a foot-long rubber tube from his stomach.

His mother, Mrs. Fay Kneer, brought the child to the hospital Thursday after he swallowed the tube which he had been wearing in his esophagus for a year.

A Miami specialist cut an incision in the stomach to extract the heavy tube which had coiled and threatened to puncture the stomach wall.

The physician called the operation "the most delicate and difficult" in his two years of stomach and intestinal surgery. The tube was inserted in Richard's esophagus a year ago after he accidentally swallowed it.

Meanwhile, an embargo on loading of freight consigned to foreign ports in American ships "probably" will be put into effect at 3:00 P. M. (EST) today because of the CIO seamen's stoppage which has tied up hundreds of vessels.

George C. Randall, manager of port traffic here for the Association of American Railroads announced.

Randall said he had recommended the embargo to the association's national office in Washington to prevent clogging of port facilities. He said the embargo he recommended would provide no exceptions in freight destined to be loaded on American flag vessels.

At the same time, W. R. Godber, Interstate Commerce Commission agent here, announced restrictions have been placed on shipments of coal for export into the ports of New York, Philadelphia and Baltimore.

NMU seamen aboard the America, largest American flag passenger ship, meanwhile postponed plans to walk off the vessel at noon in the first scheduled demonstration during the work stoppage.

The 250 crewmen voted to defer action pending a meeting of the men with Capt. Harry Manning, master of the ship. Longshoremen continued to load luggage of almost 1,000 passengers booked to sail on the America tomorrow.

The stoppage, which has tied up a union-estimated 400 ships since yesterday, was ordered at the expiration of contracts at midnight Sunday. The union has charged it was "locked out" and operators have had the unions were striking.

Streetfighting Takes Place In Manchuria

NANKING, June 17, (AP)—Streetfighting between Chinese Reds and government defenders was underway today in battered Szepeingka, Manchuria, Chinese dispatches said, after government gunners used artillery to repulse four Red regiments which smashed into the city from the southwest.

The independent newspaper Hsin Min Pao said half of the Communists in the four regiments were destroyed and the other half retired. Members of a fifth regiment gained a foothold within the city's walls and engaged the garrison in battle, the newspaper reported.

Pravda Says Consul Of U. S. Had Unusual Interest In Mongolia

MOSCOW, June 17, (AP)—A Pravda dispatch from Shanghai said today travelers from Sinkiang reported that J. Hall Paxton, U. S. consul in Tihwa, visited the frontier between Russia, the Mongolian People's Republic and China in April at the instruction of Gen. Dwight Eisenhower and photographed the area.

"They (the travelers) say," the Pravda correspondent wrote, "that Paxton has exhibited a special interest in recent months in the frontier districts. They say that in April he made a trip to these districts along with his driver, at the instruction of the Chief of Staff of the U. S. Army, Gen. Eisenhower. He photographed the frontier districts, was interested in the peculiarities of the local situation and other intelligence of an informative character."

"In newspaper circles in Shanghai, a statement of the (U. S.) State Department representative on a provocative report of the Chinese Central News Agency in connection with the violation of the frontier of the Mongolian People's Republic by an armed Chinese squad causes great interest."

Meanwhile, a Tass dispatch from Kiev today quoted V. V. Khomyak, Soviet chief of the UNRRA supplies department there, as saying much of the aid dispersed by the Ukrainians "did not come up to the established standard because of the unfair attitude of some American firms."

The same dispatch quoted Paul White, Chief of the UNRRA mission ending its job June 30, as saying that 400,000 tons of goods, worth \$170,000,000, had been received in the Ukraine.

Khomyak expressed gratitude to the mission and to White for deliveries to the Ukraine. But he added:

"Many tractors from the 'International' company had cylinders, blocks, engines and radiators damaged. Army surplus equipment such as cranes and excavators were not complete. Most of them were damaged, requiring capital repairs."

Officials of the Southern Conference for Human Welfare, which sponsored the rally, said \$5,000 was collected from the audience in donations ranging from \$1 to \$500.

St. Louis Strike Starts To Hurt City's Retailers

ST. LOUIS, June 17, (AP)—Downtown retailers today estimated their trade 30 to 40 per cent below normal as the strike of streetcar and bus operators which has paralyzed public transportation entered its fifth day.

While most workers managed to get to their jobs by ride sharing and hitchhiking, thus holding absenteeism to about normal, spokesmen for many downtown stores described business as poor.

The usual Monday night swarm of shoppers was missing. A large furniture center advertised that its salesmen would call for customers at their homes, bring them to the store and then return the shoppers to their front doors.

Mass turnouts of automobiles continued to congest traffic along main thoroughfares.

Mayor Aloys P. Kaufmann scheduled another conference today with representatives of the public service company and the striking operators, members of Local 788 of the AFL Amalgamated Association of Street, Electric Railway and Motor Coach Employees.

The union was due to reply to a company proposal to let the courts determine the validity of an arbitration award rejected by the operators.

The workers contend that a 17 1/2-cent-an-hour basic wage increase agreed upon by two members of a three-man arbitration panel was illegal and that the board actually was dissolved four days prior to the award. The arbitration award boosted the basic wage to \$7.22 1/2 cents an hour. The union sought \$140.

Glades Park

uled to be delivered to the federal agency this week as a further step in setting up the huge wildlife area in southeast Florida.

Governor Caldwell, who is in Washington conducting final negotiations on the long-sought park, could not say what effect the court action would have on the park proposal.

Watson refused last Saturday to join other cabinet members of the Board of Internal Improvement fund trustees in turning over to the federal agencies 7,680 acres of school lands and mineral rights to the federal government as part of the park area.

The 1947 Legislature appropriated \$2,000,000 for purchase of the private lands around an 800,000-acre area already donated to the federal government for the park. Watson contended the appropriation is an illegal and premature gift of State funds to the federal government.

He alleged the U. S. Secretary of the Interior has not determined the official boundaries of the proposed park and that the amount of money necessary to acquire all the needed property has not been fixed.

He also contended development of the park would stop widespread oil explorations in the Everglades area and "the possibility of finding oil, gas and other minerals in Florida will be greatly and permanently hampered and retarded and large revenues possibly lost to the people" of Florida.

The crowd applauded Wallace's call for the Berlin conference and cheered when he remarked that an election is coming up in 1948.

An argument over a trout line in Lake Howell between a party of men who were visiting Richards and Bamberg and his 14-year-old brother, during which the visitors shot away bottles on the boys' trout line, was described by Sheriff Mero as the cause of the disturbance. The younger boy trying to get away on a scooter to warn authorities, was blocked on the road by the automobiles of the visitors, he said. Two women residents notified the Sheriff.

Richards was said to have entered the premises of the Bamberg Sunday afternoon at 5:00 o'clock and attacked the youth. The mother was home but the father of the family was away at the time, said Mero. At noon today Richards had not been released on bond from County Jail.

William Ireland and William B. WASHINGTON, June 17, (AP)—Rep. Jensen (R-Iowa) said today a General Accounting Office report may show net losses of \$9,000,000,000 by the Reconstruction Finance Corporation.

Jensen told reporters that T. Coleman Andrews, director of the GAO corporation audits division, has said the losses were largely on the financing of war plants, strategic war supplies, rubber development and metals reserves, on which Congress expected to lose money.

Letters On Labor Bill Flood Truman; Majority Seek Veto

President Will Send Congress Message Friday Regardless Of Action Taken

WASHINGTON, June 18, (AP)—The House Veterans Committee recommended today that all veteran benefits be denied to Communists, Communist sympathizers and those owing allegiance to any government "subversive to the Soviet Union."

The committee also voted to send to the House floor a bill granting the government's subsistence allowance for veterans going to college under the G. I. Bill of Rights.

WASHINGTON, June 18, (AP)—President Truman decided today to forego his weekly news conference to work on a message to Congress on the labor union control bill. Mr. Truman will send a message Friday, regardless of whether he signs or vetoes the bill.

Eben Ayers, assistant press secretary, said a heavy volume of mail continued to pour into the White House concerning the legislation with "a heavy majority favoring a veto." Ayers said the volume of communications about the measure is by far the greatest ever received by Mr. Truman on any single legislative issue or other controversy.

Top Democratic and Republican leaders have predicted that the House will vote to override in veto the legislation. But they were uncertain of the outcome in the Senate.

Ayers estimated that 157,000 to 188,000 letters, more than 500,000 cards and 25,000 telegrams had been received through Monday. Ayers said one pile of letters in the White House mail room "larger than a cord of wood," measuring 14 feet long, 5 feet high and 4 feet wide.

He said about 10,000 letters a day still are coming from individual groups and organizations. He did not estimate the percentage favoring a veto other than to say the majority was "heavy."

Caldwell Predicts Everglades Park Will Be Saved

WASHINGTON, June 18, (AP)—Governor Millard Caldwell of Florida said today an agreement has been reached with the War Assets Administration for the State to acquire the historic Lake Okechobee area at Town Point, near Pensacola, for park purposes. Caldwell said the State will pay \$100,000 for the 1,200-acre tract. He described this amount as "only a fraction of the property's true value."

TALLAHASSEE, June 18, (AP)—A hearing on a motion to dissolve Attorney General Tom Watson's temporary injunction preventing payment of \$2,000,000 to the federal government for purchase of Everglades National Park land was set today for tomorrow afternoon.

However, Assistant Attorney General Sumner Lethbrun, representing Watson, immediately sought to have the hearing postponed for a week or more. Circuit Judge W. May Walker of Leon county is expected to decide today whether the postponement will be granted.

Attorney Leroy Collins, representing State Treasurer Ed Larson, against whom the injunction was brought, said he would contest the delay because it may impede formal federal acquisition of the park property, set for Friday.

Meanwhile in Washington Governor Millard Caldwell predicted the courts will dissolve a temporary order restraining Florida from cashing a \$500,000 warrant for the purchase of lands for the proposed Everglades National Park.

Caldwell said he had the \$2,000,000 warrant with him to turn over to the Interior Department, which has pledged itself to create the park soon as the money is paid. The money will be used to purchase privately owned land around an 800,000-acre already donated to the government for a park.

Jan Nico, French ambassador to Portugal, sent tobacco seeds to Queen Catherine de Medici, and the word "nicotine" was coined in his honor.

Ban On Cheap Imports Urged By Convention

Vegetable Committee Asks Congress For Protection Against Fruits And Truck

ORLANDO, June 18, (AP)—Congressional aid to prevent "patriated Americans operating in foreign countries with peon labor, cheap materials and low production costs" from flooding American markets with fresh vegetable crops at prices lower than the cost of local production was sought in a resolution adopted unanimously today by the Florida Vegetable Committee Convention.

The resolution was presented by a resolutions committee, and asked enactment by Congress of a tariff of sufficient size to protect American growers of fresh vegetables and tropical fruits, such as avocados and limes.

Another resolution adopted in the closing day of the convention asked Congress for legislation permitting the U. S. Department of Agriculture to assist vegetable growers in recruiting and routing of seasonal farm labor to prevent labor shortages at critical harvesting periods.

Committee officials expressed belief the USDA is more completely informed as to periodic labor needs than the U. S. Employment Service, which in the past has handled labor situations.

A second portion of the labor resolution, called on Congress to maintain for the time being the federally owned and operated labor camps in the vegetable centers of the country so that winter crop labor may be given housing conditions sufficiently comfortable to meet needs.

Election of directors was delayed and a directors meeting set for later today to elect officers promised to be postponed on this account.

7 Cars Of Sanford Squash To Be Used Making Baby Food

Seven cars of Boston Marrow squash, a variety relatively new to this section, were today being loaded into a freight car at the Sanford State Farmers' Market for shipment to a maker of baby foods at Canajoharie, New York.

The squash, which are of bright orange color and which weigh up to 40 pounds each, were grown on the west side by Bill Ludwig on his 15-acre tract. The deal is being handled by John E. local shipper. A representative of the firm is here to direct loadings and the weighing.

William Wilson, director of state markets, yesterday stopped at the market to visit H. J. Lehman, manager of the market. They had been attending the fourth annual meeting of the Florida Vegetable committee in Orlando.

The market yearly report is now being made up. Mr. Lehman said he reported that he had received eight applications for stall rentals.

Posse Hunts Negro Murder Suspects

COMMERCIAL, Ga., June 18, (AP)—State police, federal agents and deputized local citizens converged on a wooded area about three miles south of Commercial today in armed search for three negroes suspected of slaying a U. S. revenue agent.

The posse was estimated by local police officers "more than a hundred," and most of the men were armed with shotguns, rifles and pistols.

The revenue agent, Moll Clark, was fatally wounded in a fusillade of bullets yesterday when he and other agents cased in on an illicit distillery in Banks county, about nine miles north of here.

France Forms Plan To Balance Budget

PARIS, June 18, (AP)—The French cabinet put the finishing touches today on a new financial plan for 1947, which will balance the budget. A cabinet spokesman said a general agreement had been reached on Finance Minister Robert Schuman's plan.

They Sought To Avert National Ship Tie-Up

THIS PARLEY ON THE MARITIME CRISIS, held in the U. S. Conciliation Service offices in New York, failed and as a result some 200,000 members of the CIO maritime unions refused to unload or sail vessels until the ship owners offered new and satisfactory contracts. Present at the meeting are (l. to r.): Joseph Curran, president of the National Maritime Union; William Margolis of the U. S. Conciliation Service; Frederick Livingston; Frank Taylor of Atlantic and Gulf Coast ship operators and E. A. Jimison, for the others. (International)

Wealthy Potentates Of India Are Headed For Eventual Extinction

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

India's turbulent progress toward independence, sadly divided as she is religiously, racially, politically and socially, is producing exactly the problem that class buffers anticipated in connection with the disposition of the more than 500 princely states which are governed by autocrats of great wealth who broadly speaking have the power of life and death over their subjects.

Father Kills Two Children, Wounds Neighbor Couple

MIAMI, Fla., June 18, (AP)—Police today held a 59-year-old father in the slaying of his two children and the shooting of a couple who lived next door to his small cottage.

Detective Sergeant John I. Deas said the father, Chas. Russell, 59, operator of a cafe, was being held after the blood stained and battered bodies of Peggy Russell, 11, and John Russell, 6, were found in a bedroom of their little home in the northwest section this morning.

A few minutes before Deas and Mr. and Mrs. Walter L. Wolfe were found on the floor of the first floor office, next door to Russell's cottage, suffering from bullet wounds.

Deas said as detectives entered into Russell's cafe, the man pointed a revolver at his own head but the plunger snapped on an empty cartridge.

Deas said another business neighbor of Russell's, Mrs. R. P. Peltner, told him Russell had entered her store and shot at the "point blank" but had missed.

Russell was taken to police headquarters where Deas said he broke down and admitted that he had killed his two children. He was returned to the home where the bodies were found in a little bedroom.

Russell, hurrying into sofa, told (Continued on Page 2)

End Of Freight Car Shortage Seen Near

WASHINGTON, June 18, (AP)—The Association of American Railroads said today the end of the freight car shortage is in sight.

W. C. Kendall, chairman of the association's car service division, said the railroads have "assurances" that materials "will shortly be available for building as many as 10,000 new cars per month."

This would compare with an average of 2,000 per month built for the last 20 months, Kendall said in a statement prepared for the House Commerce Committee. He added the railroads already have orders on the books for 100,000 new cars and are ready to order 25,000 more.

"With the acquisition of an additional supply of cars," Kendall said, "we may look forward to the end of car shortage difficulties."

Secret Court Martial Acquits Navy Officer

WASHINGTON, June 18, (AP)—A secret court martial which lasted 97 days acquitted Lt. Cmdr. Edward N. Little of accusations that he maltreated fellow Americans in a Japanese prisoner-of-war camp. The court martial, which was closed to the public at Little's request, heard 80 witnesses.

The Navy had identified the main charges against the defendant as maltreatment of a person subject to his orders, conduct to the prejudice of good order and discipline, and conduct unbecoming an officer and a gentleman. The Navy did not elaborate on its verdict last night.

Brailey Odham Tells Kiwanians Of Legislation

Representative Says Receipts Will Meet State Expenditures

J. Brailey Odham, state representative of Seminole County, was today warmly congratulated by his fellow Kiwanians at the meeting today at the Kiwanis Center following a talk in which he outlined some of his problems in the House of Representatives, after told of his accomplishments.

He described his intensive weekly study of state financial problems while a member of the subcommittee of the House Finance Committee, and said that he was satisfied that appropriations would meet all expenses authorized by the Legislature. He pointed out that State receipts from revenue from June 1, 1946 through May of this year were 14 percent over the 1945-46 year.

He pointed out that \$72,000,000 had been recommended for schools by the education committee; that a \$2,000,000 ceiling had been proposed in the House and that finally a \$7,000,000 ceiling was passed in a House vote.

The Seminole delegation headed by Odham and Rep. Odham and he described the passage of "Nothing Legislative" and pointed out some of the bills passed. Among these were resolutions for the University of Florida and the Florida State College for (Continued on Page 2)

Visiting Reator Stresses Beauty Of City Lakelands

The favorable impression made by Sanford's beautiful waterfront was stressed by Norman G. Hapilton of Daytona Beach, second vice president of the Florida Association of Realtors, in a talk to members of the Sanford Board of Realtors at a dinner meeting Monday evening at the Mayfair Inn, according to Raymond M. Ball, secretary. Edward F. Lutz, president of the association, stressed the importance of cooperation among realtors and of benefits derived by the property owners through the National Association of Realtors.

The committee representing the Association of Realtors for the interest of property owners and the general public in the adjustment of rents and fair property values, he declared. He stressed to realtors the value of conventions.

Mrs. Violet Dunham, executive secretary of the Florida Association of Realtors, also pointed the value of co-operation among members. She pointed out that there are in excess of 1,400 real estate operators in Florida bearing the title, realtor.

"The term, realtor," Mr. Ball today pointed out, "is a copyrighted word and can be used only by real estate brokers who qualify as members of the National Association of Real Estate Boards."

To become a realtor it is necessary to qualify with both the State and National Associations. Local realtors present included Pres. Lane R. M. Ball, Fred W. Bender, John W. D. Moore, H. James Gut, Robert A. Williams and Fred Black of Longwood. Salesmen present were J. L. Perkins, Raymond Lundquist, Charles Vodopich and Mrs. H. M. Hoffman of Longwood.

W. J. Krohne Enters Texas Soaring Meet

WICHITA FALLS, Tex., June 18.—Walter J. (Pop) Krohne of Sanford and Maitland, Fla., will be a contestant in the National Soaring Contest to be held in Wichita Falls July 4-20, contest officials have announced.

Although Krohne holds a power plane pilot certificate, he has been a "motorist" enthusiast for only six months. He was equipment manager at the Sanford soaring meet Mar. 1 & 2, 1947, and does all of his soaring at the Sanford Airport. Krohne has not announced what type ship he will fly at the Texas contest next month. His flight instructor, Stephen and Virginia Banks of Sanford, believe him to be the oldest man to receive the "C" rating of the Soaring Society of America.

Correction

The Herald regrets an error in yesterday's edition in which it was stated that Clarence Richards of the Lane Howell section was charged in a warrant with "assault with intent to commit murder" against Billy Bamberg, 17. Actually he was charged of "aggravated assault." County Judge R. W. Ware stated this morning. Richards was released on bond of \$250 yesterday afternoon pending trial of the case in County Court.

France And Britain Form Plan To Use Marshall Project

Senate Approves \$15,000,000 Flood Relief Measure

150,000 Acres Under Water And 200,000 More Threatened

WASHINGTON, June 18, (AP)—The Senate took less than a minute today to approve an emergency \$15,000,000 bill to aid Midwestern and other areas damaged by recent floods. Approved last week by the House, the measure now goes to the President for signature.

Senator Revercomb (R-W.Va.) asked the Senate to put aside all other business temporarily in order to pass the authorization measure. He told his colleagues that "thousands are homeless and over a million acres are inundated."

At least 150,000 acres (R.Va.) are being flooded. The bill provides for a pool price support measure, amended, but Senator Henderson (R-Iowa) from rain-drenched Iowa insisted there would be no objection.

Aides agreed to a try for unanimous consent. But Senator Vandenberg (R-Mich.) presiding officer, vetoed delay by simply announcing:

"Without objection the bill is passed."

"The legislation authorizes Army engineers to use \$15,000,000 of available funds for repair of levees, dikes and other protective works in the flooded areas."

Henderson told the Senate that the Army engineers had no money for the emergency work. He said that all construction funds had been flooded, much of it three times in recent weeks. "The money is evaporated" and many farms flooded for the first time in history of the state.

"This is a matter of life and death," literally, Henderson said.

The Senate delegation headed by Odham and Rep. Odham and he described the passage of "Nothing Legislative" and pointed out some of the bills passed. Among these were resolutions for the University of Florida and the Florida State College for (Continued on Page 2)

Greece Outlines Recovery Plan In Note Of Thanks

WASHINGTON, June 18, (AP)—Greece promised the United States today that it will undertake "great and continuous efforts to restore and improve economic well-being in its country."

The pledge was made in a note expressing thanks for the United States interest in Greek welfare as evidenced by the \$400,000,000 Greek-Turkish aid program. The State Department made public the exchange of communications between Washington and Athens.

The Greek government outlined its own recovery plans and accepted responsibility for carrying them through but asked American expert assistance such as has already been arranged to aid the work.

The notes, covered formal notes (Continued on Page 2)

China Denies Starting Mongolian Incident

NANKING, June 18, (AP)—A government spokesman denied today an "absolutely false" charge in an "Outer Mongolian" communication broadcast by Moscow that Chinese raiders started the recent Suiyuan border dispute.

Hollington Tong, minister of information, said no Chinese troops have entered Outer Mongolia either before or after the clash at Peitaihuang, Suiyuan, 50 miles inside Chinese territory. He said a small police detachment has been maintained there since 1945.

The Mongolian Republic, in denying Chinese assertions that its troops attacked Chinese forces on June 6, declared the Mongolian government "compelled to take measures for driving out raiders from territory of their country."

W. J. Krohne Enters Texas Soaring Meet

WICHITA FALLS, Tex., June 18.—Walter J. (Pop) Krohne of Sanford and Maitland, Fla., will be a contestant in the National Soaring Contest to be held in Wichita Falls July 4-20, contest officials have announced.

Russia To Be Invited To Participate Economic Treaty Formally Okayed

LONDON, June 18, (AP)—Britain's overseas trade chief, Harold J. Wilson, will fly to Moscow with 18 advisers Friday to carry forward Anglo-Soviet talks for the conclusion of a full-scale trade pact, a board of trade spokesman said today.

A highly-placed government informant said Britain wanted a trade agreement with Russia whether or not the Soviet Union came in on the Marshall aid-Europe plan.

By JOSEPH E. DYMAN, PARIS, June 18, (AP)—France and Britain agreed today to create a European economic commission "within the framework" of the United Nations Economic Commission for Europe to implement Secretary of State Marshall's offer of U. S. aid.

The French Cabinet then voted formal approval of the French-British Alliance signed this Spring in Dunkerque. The Alliance provides for the closest possible economic cooperation.

A cabinet spokesman said France and Britain would jointly invite Russia today to participate in the new commission's work. Foreign Minister Georges Bidault and British Foreign Secretary Ernest Bevin reached the agreement in conversations here and the French cabinet immediately approved.

The cabinet spokesman said the creation of the European Commission had been determined on the basis of French proposals to place reconstruction plans in the hands of several technical committees, dealing with such problems as transportation, food, power, steel, iron and machinery.

Benjamin W. Cohen, U. S. State Department counselor, said in an address last week that \$240,000,000 assistance would be needed to reconstruct Europe during the next four years.

The cabinet spokesman said the European Economic Commission would work "within the framework" of the U. N. Economic Commission for Europe, established earlier at Geneva. He explained that the E. N. Commission is largely (Continued on Page 2)

James Wilson Of Lake City Named VFW Commander

SARASOTA, June 18, (AP)—James V. Wilson of Lake City, state representative and an attorney, was today elected state commander of the Veterans of Foreign Wars at Sarasota.

Marshall O. Mitchell of Vero Beach was selected as senior vice-commander and Chester Whittle of Orlando, junior vice-commander.

Capt. Linden of Lakeland was re-elected postmaster and lieutenant of the group which ended its 17th annual encampment here. Other officials chosen included Hugh McArthur of Tampa, Judge advocate; W. E. Atkins, Jr., of Jacksonville Beach, department chairman; and Dr. John Black of Gainesville, department surgeon.

Among new resolutions adopted by the veterans group was one asking Congress to designate Dec. 7 as Preparedness Day. Another resolution asked the veterans administration not to eliminate 700 extra beds at Pratt General Hospital in Miami.

Cab Company Moves To New Location

The Silver Fleet Cab Company has moved from its former location at First Street and Oak Avenue to the new Greyhound Bus terminal at Commercial Avenue and West Street. The company operates five taxicabs.

Work is progressing in the interior of the terminal building where much of the plastering has been completed. Plumbing and fittings are now being installed and fluorescent lighting fixtures are already in place. Erected for a portion west of the building, all concrete runways have been laid. The station is expected to open on July 8.
