 heavy movement, the committee declared that if the provisions of the pact work hardships on any section, the facts should be presented at a hearing and adjustments made.

Declaring that any marketing agreement is a co-operative enterprise and is only successful in so far as its members willingly live up to its provisions, the committee asserted that if the necessary reports and information were issued, and if each grower will realize that the agreement is his method of protecting himself against disastrous price collapses, the pact can be counted on to do what it has set out to do.

Regarding opposition to the agreement, the committee pointed out that the program is designed to benefit growers. Growers vote for or against it. "Every program can expect honest opposition from those whose interests are contrary to the interests of those who favor the program. If most growers believe this program benefits them, then this opposition can be taken as a matter of course," the report said.

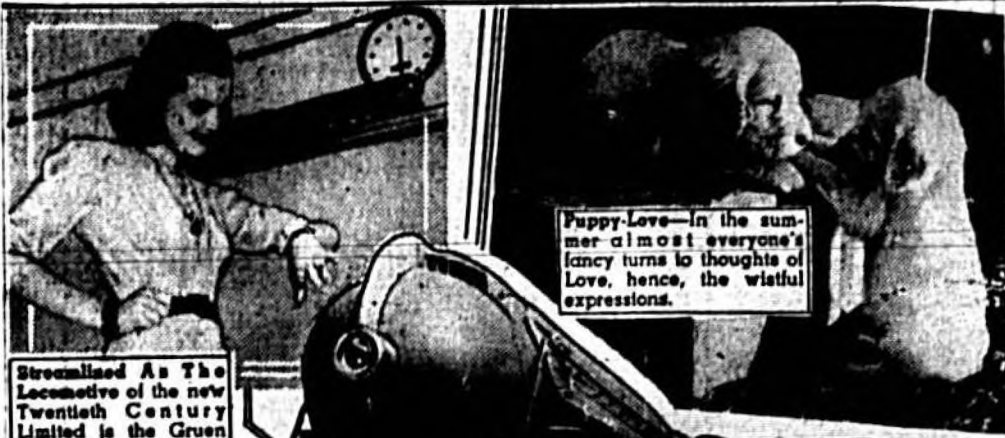

The following methods were given for handling of surplus celery; intrastate sales, elimination by heavy stripping, elimination by discarding undesirable sizes, relief purposes, leaving in the field, or destroying by rows in the field. The committee pointed out that there were no legal ways to compel elimination by the last two methods and also that if celery is left standing in the field or destroyed by rows, that the quality of celery shipped is considerably lower.

The committee also recommended that instead of the 2 percent allowance for over shipments, that over shipments up to 20 percent be permitted, provided the shipper pay the committee a fixed amount per crate for each crate over shipped. This amount could be determined at a hearing but would be large enough to take the profits out of over shipments.

Sam Byrd Returns To City For Short Visit

 of the season by most critics and George Jena Nathan, long recognized dean of American dramatic critics, declared that it was one of the finest plays to appear on the American stage for some years.

Not content with being an actor, Sam has taken a couple of flings at the production end, having put on "White Man" and "Journeyman." The first was a play dealing with miscegenation and while not exactly a flop, it simply didn't "go." When asked why it wasn't a howling success, Sam merely shrugged his shoulders and his head. "They simply won't have it," he said, meaning that plays dealing with such themes didn't meet with the approval of the public. The failure of the latter play he attributed to the fact that "Tobacco Road" had been so praised that anything that Erskine Caldwell might do for some time would suffer.

When the Fall season for the theater begins, Sam expects to resume his role in "Of Mice and Men." For his part in that he gives thanks to a bellboy at the Lambs, a noted club of writers, artists, and members of the theatrical world. One night as he entered the Lambs, he stated, a bellboy asked him if he had heard that the producers of the play "Of Mice and Men" needed a character juvenile to fill one of the main roles. Sam replied that he had not, but immediately he investigated. He got the role.

The bellboy sells Christmas cards. "From now on I'm going to buy all my Christmas cards from him," Sam declared.

POLICE DOG FLIES
 OSHKOSH, Wis. — (AP) — The first passenger of Dr. R. O. Ebert after he received his private flying license was his German police dog, "Bello." The dog ran up, barking, when Dr. Ebert offered to take someone for a ride. "There's your passenger," suggested a bystander. "Bello" was still yipping with excitement when Dr. Ebert landed.

Military Motives Seen In Spanish Peace Proposals

 Blearies and ease the tension in the Mediterranean.

Then, too, the British and French are well aware of the fact that Mussolini and Hitler haven't got any too much money to throw Franco's way, even on a credit basis. They must feel that both Mussolini and Hitler would be willing to call it quits in Spain, if they could only get out in a blaze of glory.

The latest Franco-British scheme for a truce, and failing that, a new plan for withdrawal of volunteers, would seem to be all set up for an eventual Franco-Mussolini-Hitler victory in Spain.

The disinterested expert will tell you this is true because of a single little clause in the withdrawal scheme, under which Franco would be recognized as a "belligerent," with all the rights of a fighting government that are now extended to Republican (Loyalist) Spain.

That might sound to you and me like a purely technical point, but it is really very clever and practical from the diplomatic point of view. Here's why: England, France, and most other countries except Italy and Germany, technically classify Franco as an insurgent attempter to unseat the regular government of his country. To most nations, the republican govern-

ment of Spain is the legal government. But if Franco had established a legal blockade against Loyalist Spain along the coast, and thereby completely surround and besiege the republicans until they submitted, any ship that attempted to pierce the blockade would be nothing more than a smuggling vessel operating outside the law and entitled to no protection whatever.

Great Britain's decision to take no action against air raiders who sink her ships in Loyalist waters in effect is recognition of Franco's rights as a belligerent, without admitting the fact to the world at large.

So, the horse-trading is a scheme to assure a Franco victory in time but, at the same time, to get Italy and Germany off the Spanish stage.

Whether it works, or not, remains to be seen.

Chinese, Japs Deadlocked On Yangtze Front

Forces Engaged Near Hukow In What May Be Decisive Battle In Year Old War

Insurgent Advance Halted At Teruel

Germany Wants Evac- uation Of 40,000 Persons By Aug. 1

A year of war in the Orient ended today with China and Japan in what may be death grips for one or the other. In Europe, while Spain's warring brothers approached their third year of fighting, conferees of democratic nations met to ease the suffering of the oppressed.

Armies of China and Japan were deadlocked along the Yangtze River about Hukow and Kiang, 450 miles inland from Shanghai and 150 miles from Hankow, Chinese provisional capital.

Japan holds about one third of China's soil after a year of victories in which the Chinese forces have been persistently pushed into the interior. But

County Commission Passes Resolution

A resolution was passed at the regular monthly meeting of the Seminole County Commission yesterday to purchase certain Seminole County bonds.

The bond of Justice of the Peace Roy Burkholder was approved. The Wright Company was awarded the contract for furnishing supplies for the convict camp and county home for the next month.

H. B. Pope Company was given the contract for furnishing the necessary oil and grease or county owned vehicles for the coming year.

Mrs. Esther Ridge gave a monthly report on the Seminole County Welfare Board which was accepted and ordered filed.

At the request of County Judge R. W. Ware, the commissioners authorized the purchase of a filing cabinet for his office.

Permission was also granted to Francis McDougall to purchase a typewriter for her office not to exceed \$55.

Building Permits During June More Than Year Ago

Fines Collected By Same Month In 1937

Building permits issued by the City during June numbered 13 and amounted to \$3360 while permits issued during the same month a year ago amounted to \$2838, a difference of \$522.

Police fines during June amounted to \$472 while fines collected during the same month of last year amounted to \$475.78. Fines collected this June were \$3.78 short of that collected last June.

Electric permits issued numbered five and amounted to \$8.00. Plumbing permits issued numbered four and amounted to \$12.50. There were no plumbing or electric permits issued during June of last year.

The record of arrests by the Police Department shows one arrested for petit larceny, 11 for drunkenness, 22 for disorderly conduct, two for drunkenness and disorderly conduct, one for keeping a disorderly house.

Eight were arrested for being inmates of a disorderly house, five were held for investigation, five were arrested for reckless driving, four for gambling, two for exceeding the speed limit, one for assault, one for selling liquor without a license.

Two were arrested for operating a motor vehicle while under the influence of intoxicating liquor, six were arrested for doing business without a license, three for breaking and entering, four for pilfering and loitering, one for shop lifting, three for running a red light.

The total number arrested came to 92 but 24 were dismissed and 10 cases were transferred to other courts or counties.

Warship Sent By Britain To Scene Of Riots

28 Are Killed, Over 100 Hurt In Blood- iest Of Arab-Jew Holy Land Clashes

The British government ordered the 7550-ton cruiser Emerald to Haifa. It was scheduled to arrive today. Official sources said the two days of rioting had resulted in deaths of 22 Arabs and six Jews and that 92 Arabs and 11 Jews had been wounded.

All Palestine was tense. Shops were closed as Arabs attempted to demonstrate.

The outbreak was one of the bloodiest in the long history of Arab-Jewish clashes in the Holy Land which each group considers its national and spiritual homeland.

Race rioting broke out during the evening rush hour when crowds were hurrying home. Witnesses said after the comb exploded police constables opened fire on the crowds, causing a majority of the casualties.

British authorities of the troubled Palestine mandate considered a new imposition of martial law as the violence, which broke out a week ago with the execution of the first Jew to be hung in Jerusalem since 1916, began to spread into other cities and rural areas.

Jerusalem, Haifa and Tel Aviv already are under strict curfew (Continued on page five)

NLRB Told Ford Should Bargain With CIO Union

Dudley Proposes En- forcing Re-Em- ployment Of 192 Workers

WASHINGTON, July 7.—(AP)—An examiner for the Labor Relations Board told the Ford Motor Company to bargain collectively with the United Automobile Workers Union (CIO) at the St. Louis assembly plant.

The examiner, T. E. Dudley, also proposed an order to enforce re-employment to 192 workers discharged or refused jobs because of participation in union activities and a strike last November.

The board ruled last night that the Muskin Shoe Company, Westminster, Md., violated the Wagner act when it permitted an employee to distribute a pamphlet containing an attack upon the Committee for Industrial Organization by Representative Clarence Hoffman, Republican, Michigan.

The NLRB said Hoffman's "address contained a trade against the CIO, and, as repeated, was embellished by news pictures with anti-CIO captions." It was included in a pamphlet entitled "Communism's iron grip on the CIO" which the board said was published by the Constitutional Educational League, Inc., New Haven, Conn.

"It is evident from the pamphlet itself that it was prepared as anti-union literature and any distribution thereof by an em-

ployee of the Muskin Shoe Company would be a violation of the act.

France Puts on Bolder Front After Daladier Takes Reins

PARIS, July 7.—(AP)—When said in effect, "and France has quick tempered Edouard Daladier was named premier of France on April 10, his country faced an other financial crisis, there was another outbreak of strikes and the foreign situation was reaching the crisis stage again because of the Austrian trouble.

"No one cherishes democracy more than I who come from the working classes," declared Daladier in one of his speeches. "But," he warned Frenchmen in another, "unless the nation goes to work, France may expect a dictator to take it over."

Three days after he took office he was voted power to rule by decree. That meant that the blue-eyed, stocky Daladier, although he had little power in comparison with a Hitler or a Mussolini, was "temporary dictator" of France.

The premier went to work to restore the Frenchman's confidence in his country's ability to hold its place in the sun. He appealed to French patriotism in a way that Frenchmen could not ignore.

"War threatens Europe," he said.

Lions Start Campaign For C Of C Members

A committee from the Sanford Lions Club today began a membership clean-up campaign for the Chamber of Commerce, Chamber President T. E. Simpson announced this morning.

The Chamber of Commerce drive was this year made a continuous one, he declared, and during the next few days the Lions Club committee will contact many firms and individuals in Sanford inviting them to join the local trade organization.

There were 22,502 highway-railroad grade crossings on January 1, 1937 compared with 240,302 at the beginning of 1930.

Kidnaper Is Denied Plea For Clemency; Cone Will Now Sign Warrant For Death

Decision Reached After Short Meet

Mrs. J. B. Cash Refuses Mrs. McCall's Re- quest To Aid Son

TALLAHASSEE, July 7.—(AP)—The Florida Pardon Board refused today to commute the death sentence of Franklin Pierce McCall for the \$10,000 ransom kidnapping of James Bailey, 6 1/2, Jr., at Princeton, Fla., on May 29.

Its decision was announced after a brief executive session following a plea by McCall's attorney for commutation, and by his prosecutor that the death sentence be carried out. The board's decision was announced without comment and came after a 15 minute deliberation.

The next step will be for Gov. Fred P. Cone to sign the death warrant unless this is delayed by some court action.

McCall pleaded guilty to kidnaping the child, who also was killed. He did not appeal to the supreme court after he was sentenced but his attorney indicated there might be an appeal.

McCall's wife and mother, and parents of the Cash child, attended the pardon board hearing.

Mrs. McCall and Mrs. Cash talked briefly before the board's session started, and Mrs. McCall said she had sought unsuccessfully to have Mrs. Cash join her in seeking to have her son from the electric chair. She said Mrs. Cash refused.

She said Mrs. Cash told her "Your son not only killed my son, but he figuratively killed my husband and me. No penny can pay for the crime or relieve us of our misery."

The plea for McCall was made by Attorney C. A. Arvlett of Jasper, Fla., the 21-year-old kidnaping's former home.

Arvlett contended McCall could not be sentenced to death because he did not have a treaty jury. When McCall pleaded guilty, the trial judge heard the testimony without a jury.

State Attorney G. A. Worley of Miami who acted as prosecutor of McCall's trial opposed the clemency, saying there was not a single extenuating circumstance in McCall's favor.

Morgan Files Suit To Retain Position As TVA Chairman

KNOXVILLE, Tenn., July 7.—(AP)—Dr. Arthur E. Morgan filed suit in Knox county chancery court yesterday challenging the right of President Roosevelt to remove him as chief of the New TVA and asking that he be recognized as a member and chairman of the board of directors of the federal agency.

The former president of Antioch College, asserted in the bill he had never recognized the President's right and power to remove him as chief of the New Deal's great experiment in social and economic planning.

He asked payment of back salary since his removal by the President Mar. 22, 1938, and a declaratory judgment voiding the President's removal order and forcing Directors H. A. Morgan and David E. Lillenthal to recognize him "as a member and chairman of the board of directors of the defendant, Tennessee Valley Authority."

The bill named the TVA and Directors H. A. Morgan and Lillenthal as defendants.

Helps For Housewives

To keep sliced peaches from darkening after they are peeled, sprinkle a little lemon juice over them. Then cover and store them in the refrigerator until time for serving.

Keep your electric light bulbs and lamp shades clean if you want to get the most light from them. A film of dust on a bulb will reduce the intensity of light, just as dirt on a shade will dim it.

Spicy Ideas: Sprinkle a little cinnamon over the top of cooked fruit or berry sauce. Add a touch of nutmeg to sliced bananas, apple sauce or sliced peaches. Mix a dash of ginger with baked peaches, pears or cherries.

Wash "washable" wall papers carefully. Make a heavy suds, using warm water and a mild soap. Apply the suds to the paper with a soft cloth. Quickly remove with a soft cloth. Do not let the suds remain on the paper too long—it may loosen it.

Make "frosted" grapes for garnishing summer salads and desserts. Select firm grapes, dip them into slightly beaten egg whites, dust them with granulated sugar and then dry them on waxed paper. Use them, for example, as a filling for peach or cantaloupe halves.

Sprinkle fritters with confectioner's sugar—to give them a rich taste. As soon as they are fried, apply the sugar generously. Then hold the fritters under a low heat—or bake them until the sugar melts into the desired coating. Waffles and pancakes may be glazed this way, too.

Do your meringues fail? Add a fourth of teaspoonful of cream of tartar for each two egg whites used. Combine the cream of tartar with the sugar called for in the recipe. The meringues may be added to the mixture when it is stiff enough to form in peaks.

Summer's warm tea stains. To remove such stains from linens, mix water with cold water and cover them with borax. Let the linen stand twenty minutes or so, then pour a kettle of boiling water through the stain holding the fabric about two feet above the stain. Continue until the stain disappears. This process may be used to remove fruit stains.

Japan's conquest has been at the cost of an almost back-breaking financial burden and China's armies are still unconquered.

In Spain, where the civil war will be two years old on July 18, the stiffened resistance of the Government troops south of Teruel stalled the insurgent drive eastward toward Valencia and the Mediterranean coast. On the seaboard end of the 50-mile front in eastern Spain, however, the insurgent drive southward put government defenses under heavy artillery fire.

Representatives of 32 nations at a conference of an inter-governmental committee on refugees at Evian les Bains, France, heard from Dr. Heinrich Neumann, famed Vienna specialist, that German authorities want evacuation of 40,000 Austrian political undesirables by Aug. 1.

The world's three greatest democracies—the United States, Great Britain and France—look for lead in seeking havens for unwanted Jews and other political refugees from greater Germany.

The three nations combined their efforts at the opening of a 32-nation conference on refugees called as a result of President Roosevelt's invitation for inter-governmental discussion of the problem.

Members of the official committee approved a suggestion by the French delegate, Henry Beneguer, to send an essay to Mr. Roosevelt emphasizing the solidarity of the delegates in working toward a solution.

Myron C. Taylor, head of the United States delegation, in a strongly worded speech said the plight of thousands of persons deprived of their nationality by Germany's absorption of Austria was "no longer of purely private concern; it is one of inter-governmental action."

Although Taylor referred only to one country—Germany—he outlined the scope of the conference as "taking in problems of 'reluctant' migrants from this as well as any other nations."

Forced migration of political and racial groups can bring "catastrophe suffering upon the world," the former head of the United States Steel corporation declared.

play to his employees. Would have the necessary effect of coercion and intimidation within the meaning of the act," the board said.

"By permitting the distribution of the pamphlets on its time and property, the respondent (Musk) indicated to its employees that it had adopted, as its own, the anti-union contents thereof and that they should be guided accordingly."

The Musk Company was ordered to reinstate two employees discharged July 30, 1937, and to reimburse them for wages lost during unemployment. The workers, Kenneth Leaf and Jack Hodges, were dismissed for their activity in the United Shoe Workers of America, a CIO affiliate, the board said.

For every dollar in cash dividends paid by the railroads to their owners in the five-year period 1933-1937, federal, state and local governments received \$198 in taxes from the railroads.

Mob Burns Negro Who Killed White Planter

ROLLING FORK, Miss., July 7.—(AP)—A Sharkey county posse of 30 men yesterday shot and killed Tom Kreen, 48-year-old negro blacksmith, dragged his body several miles, then burned it on the spot where earlier in the day the negro had killed R. Purdy Flanagan, prominent white planter.

E. R. WAKEFIELD (left), an official of the Western Union Telegraph Company in Denver, Colo., and A. S. Hunt, Denver and Rio Grande Railroad executive, are shown planning their trip shortly before they set out to navigate the dangerous Rio Grande River through unconquered Black Canyon. The expedition ended in tragedy when their small boat upset. Wakefield was swept away. Hunt was injured but reached shore and wandered all night in a rattlesnake-infested wilderness.

Reports were that the negro and Flanagan fought when Green refused to do work the plantation manager ordered. Flanagan fired him and began using tools. Flanagan came to a rifle among the tools and the negro claimed it. The planter refused to give it to him and the negro drew a pistol and fired, wounding Flanagan in the jaw. The white man returned the fire, hitting the negro in the side. Again the negro shot, the bullets striking Flanagan in the heart and killing him.

RIMS SMASH WINDOW

OKLAHOMA CITY, Okla., (AP)—When the rear tire of a city truck blew out on a downtown street it hurled the two remaining rims 20 feet across the sidewalk, through a show window and against the back wall of a store, 60 feet from the door. Nobody was injured, because the accident occurred at midnight.

Hughes Will Begin Flight On Saturday

NEW YORK, July 7.—(AP)—Associates of Howard Hughes, millionaire flier and one-time Hollywood movie producer, said last night he and a crew of four would take off from Floyd Bennett airport probably on Saturday for a flight to Paris. The trip may be the start of a round-the-world flight, long planned by the inheritor of a fortune established in the oil well tool business in Texas.

20 MILES FOR \$15

NEWLAND, N. C.—(AP)—Frank Jones, 68-year-old Beech Mountain farmer, arose at 5 A. M. and walked 20 miles to get his \$15 agricultural adjustment program check from the county farm agent's office here. He planned to return home afoot the same day, but the county agent gave him a lift.

YIELDS NO OIL

LAMAR, Colo.—(AP)—The dust bowl has another disappointment. An oil company drilling 70 miles southeast of here in the hope a producer could be brought in on the barren lands of the "bowl" announced it is abandoning its test at a depth of 5,502 feet because there has been no showing of oil.

HOW TO GET IN JAIL

GALLUP, N. M.—(AP)—An itinerant, passing through Gallup, visited the sheriff's office and asked to sleep in the jail over the week-end and "rest up a bit." The sheriff told him there were no accommodations except for prisoners. So the itinerant threw a door-stop through the door glass. He got 90 days.

The first contract for subways was awarded in 1900 in New York City.

Forces Engaged Near Hukow In What May Be Decisive Battle In Year Old War

Insurgent Advance Halted At Teruel

Germany Wants Evacuation Of 40,000 Persons By Aug. 1

A year of war in the Orient ended today with China and Japan in what may be death grips for one or the other. In Europe, while Spain's warring brothers approached their third year of fighting, conferees of democratic nations met to ease the suffering of the oppressed.

Armies of China and Japan were deadlocked along the Yangtze River about Hukow and Kiang, 450 miles inland from Shanghai and 150 miles from Hankow, Chinese provincial capital.

Japan holds about one third of China's soil after a year of victories in which the Chinese forces have been persistently pushed into the interior. But

County Commission Passes Resolution For Bond Purchase

A resolution was passed at the regular monthly meeting of the Seminole County Commission yesterday to purchase certain Seminole County bonds.

The bond of Justice of the Peace Roy Burkholder was approved.

The Wright Company was awarded the contract for furnishing supplies for the convict camp and county home for the next month.

H. B. Pope Company was given the contract for furnishing the necessary oil and grease or cutting oil owned vehicles for the coming year.

Mrs. Esther Ridge gave a monthly report on the Seminole County Welfare Board which was accepted and ordered filed.

At the request of County Judge R. W. Warr, the Commissioners authorized the purchase of a filing cabinet for his office.

Permission was also granted to Frances McDougall to purchase a typewriter for her office not to exceed \$55.

Building Permits During June More Than Year Ago

Fines Collected By Police Drop Under Same Month In 1937

Building permits issued by the City during June numbered 17 and amounted to \$3360 while permits issued during the same month a year ago amounted to \$2838, a difference of \$522.

Police fines during June amounted to \$472 while fines collected during the same month of last year amounted to \$175.78. Fines collected this June were \$3.78 short of that collected last June.

Electric permits issued numbered five and amounted to \$9.00. Plumbing permits issued numbered four and amounted to \$12.50. There were no plumbing or electric permits issued during June of last year.

The record of arrests by the Police Department shows one arrested for petit larceny, 11 for drunkenness, 25 for disorderly conduct, two for drunkenness and disorderly conduct, one for keeping a disorderly house.

Eight were arrested for being inmates of a disorderly house, five were held for investigation, five were arrested for reckless driving, four for gambling, two or exceeding the speed limit, one for assault, one for selling liquor without a license.

Two were arrested for operating a motor vehicle while under the influence of intoxicating liquor, six were arrested for doing business without a license, three for breaking and entering, four for pilfering and loitering, one for shop lifting, three for running a red light.

The total number arrested came to 93 but 24 were dismissed and 10 cases were transferred to other courts or counties.

Warship Sent By Britain To Scene Of Riots

28 Are Killed, Over 100 Hurt In Blood-Jew Holy Land Clashes

By Associated Press
The British government ordered the 7500-ton cruiser *Emerald* to Haifa today. Official sources said the two days of rioting had resulted in deaths of 22 Arabs and 22 Jews and that 92 Arabs and 11 Jews had been wounded.

All Palestine was tense. Shops were closed as Arabs attempted to burn the British consulate.

The outbreak was one of the bloodiest in the long history of Arab-Jewish clashes in the Holy Land which each group considers its national and spiritual homeland.

Rioting broke out during the evening rush hour when crowds were hurrying home. Witnesses said after the bomb exploded police constables opened fire on the crowds, causing a majority of the casualties.

British authorities of the troubled Palestine mandate considered a new imposition of martial law as the violence, which broke out a week ago with the execution of the first Jew to be hung in Jerusalem since 1916, began to spread into other cities and rural areas.

Jerusalem, Haifa and Tel Aviv already are under strict curfew (Continued on page five)

Trial Coach Rate Hike Is Granted To Eastern Railroads

WASHINGTON, July 7.—(AP)—The Interstate Commerce Commission yesterday reversed an earlier decision and authorized eastern railroads to increase passenger coach rates from 2 to 2 1/2 cents a mile for an 18-month trial period.

The carriers, which had been agitating for the increase for some time, estimated it will increase their sagging revenues \$40,000,000 annually. The commission turned down their plea by a one-vote margin on March 6, but today's action was forecast two weeks ago when a 5 percent general increase in pullman fares was granted.

The action came a few hours after President Whitney of the Brotherhood of Railway Trainmen said after a conference with President Roosevelt that if the national railroads would violate nothing but self transportation they could save \$700,000,000 to \$800,000,000 a year.

The new rates will go into effect 10 days after the new tariff schedule is filed. It was expected the roads would draw up the schedule soon, possibly within a week.

The decision does not affect suburban, or commutation, traffic where there is no interstate business. However, the ICC hopes that state commissions will see their way clear to grant the same increase for intrastate traffic.

Stating that while results from the present fare battle in the east and the recent increase in southern coach fares are not conclusive, the commission said, however, that further hearings were not necessary to prove that "in this time of business stagnation the eastern increase will result in higher revenues."

Landon Declares Depression Is Purely Political

COUNCIL BLUFFS, Iowa, July 7.—(AP)—Alf W. Landon charged last night the present depression is "purely political" and was brought on by methods and policies of the Roosevelt administration.

Replying to President Roosevelt's recent fireside address, the 1936 Republican presidential nominee charged "the President's speech as 'the new deal version of why we have 12,000,000 people unemployed.'"

Presenting the first of a series of talks he is expected to deliver during the coming congressional campaign, Landon spoke over a nation-wide radio network and in a crowd, estimated by Republicans to be of 500, of about 1000 people at a

NLRB Told Ford Should Bargain With CIO Union

Dudley Proposes Enforcing Re-Employment Of 192 Workers

WASHINGTON, July 7.—(AP)—An examiner for the Labor Relations Board told the board today it should order the Ford Motor Company to bargain collectively with the United Automobile Workers Union (CIO) at the St. Louis assembly plant.

The board ruled last night that the Muskin Shoe Company, Westminister, Md., violated the Wagner act when it permitted an employee to distribute a pamphlet containing an attack upon the Committee for Industrial Organization by Representative Clare Hoffman, Republican, Michigan.

The NLRB said Hoffman's "address contained a tirade against the CIO, and, as reprinted, was embellished by news pictures with anti-CIO captions." It was included in a pamphlet entitled "Communism's Iron Grip on the CIO" which the board said was published by the Constitutional Educational League, Inc., New Haven, Conn.

"It is evident from the pamphlet itself that it was prepared as anti-union literature and any distribution thereof by an employer is prohibited by the act," (Continued on page three)

France Puts On Bolder Front After Daladier Takes Reins

PARIS, July 7.—(AP)—When quick-tempered Edouard Daladier was named premier of France on April 10, his country faced another financial crisis, there was another outbreak of strikes and the foreign situation was reaching the crisis stage again because of the Austrian trouble.

"No one cherishes democracy more than I who come from the working classes," declared Daladier in one of his speeches. "But," he warned Frenchmen in another, "unless the nation goes to work, France may expect a dictator to take it over."

Three days after he took office he voted power to rule by decree. That meant that the blue-eyed, stocky Daladier, although he had little power in comparison with a Hitler or a Mussolini, was "temporary dictator" of France.

The premier went to work to restore the Frenchman's confidence in his country's ability to hold its place in the sun. He appealed to French patriotism in a way that Frenchmen could not ignore.

"War threatens Europe," he said in effect, "and France has been weakened. We must work to make a strong France, or France is lost."

He strengthened the nation's armed forces, solidified an alliance with Britain as an offset to the Berlin-Rome axis, laid the base for a three-year economic program and brought about at least temporary peace between capital and labor.

He also devalued the franc nine percent and raised all taxes eight percent. Both actions were unpopular with Frenchmen, but he seems to have convinced the nation that both were necessary. And he has cut tourists' costs to help bring money into the country.

Daladier played no favorites. He increased tax decrees hit capital hard, but he hit labor too when he told it the 40-hour week law could not be carried out to the letter.

On May 14 a defense loan of \$140,000,000 was announced. The next day the government reported that the French people had oversubscribed the loan. On May 24 the government came through (Continued on page three)

Kidnaper Is Denied Plea For Clemency; One Will Now Sign Warrant For Death

Decision Reached After Short Meet

Mrs. J.B. Cash Refuses Mrs. McCall's Request To Aid Son

TALLAHASSEE, July 7.—(AP)—The Florida Pardon Board refused today to commute the death sentence of Franklin Pierce McCall for the \$10,000 ransom kidnaping of James Bailey Cash, Jr., at Princeton, Fla., on May 29.

Its decision was announced after a four-hour executive session following a plea by McCall's attorney for commutation, and by his prosecutor that the death sentence be carried out. The board's decision was announced without comment and came after a 15-minute deliberation.

The next step will be for Gov. Fred P. Cone to sign the death warrant unless this is delayed by some court action.

McCall pleaded guilty to kidnaping the child, who also was killed. He did not appeal to the supreme court after he was sentenced but his attorney indicated there might be an appeal.

McCall's wife and mother, and parents of the Cash child attended the pardon board hearing but did not make personal statements to the board.

Mrs. McCall and Mrs. Cash talked briefly before the board's session started, and Mrs. McCall said she had sought unsuccessfully to have Mrs. Cash join her in seeking to have her son from the electric chair. She said Mrs. Cash refused.

She said Mrs. Cash told her "Your son not only killed my son, but he figuratively killed my husband and me. No penalty can pay for the crime or relieve us of our misery."

The plea for McCall was made by Attorney C. A. Avriett of Jasper, Fla., the 21-year-old kidnaping's former home.

Avriett contended McCall could not be sentenced to death because he did not have a trial by jury. When McCall pleaded guilty, the trial judge heard the testimony without a jury.

State Attorney G. A. Worley of Miami who acted as prosecutor at McCall's trial opposed the clemency, saying there was not a single extenuating circumstance in McCall's favor.

Morgan Files Suit To Retain Position As TVA Chairman

KNOXVILLE, Tenn., July 7.—(AP)—Dr. Arthur E. Morgan filed suit in Knox county chancery court yesterday challenging the right of President Roosevelt to remove him as chief of the New TVA and asking that he be recognized as a member and chairman of the board of directors of the federal agency.

The former president of Antioch College, asserted in the bill he had never recognized the President's right and power to remove him as chief of the New TVA's great experiment in social and economic planning.

He asked payment of back salary since his removal by the President Mar. 22, 1938, and a declaratory judgment voiding the President's removal order and forcing Directors H. A. Morgan and David E. Lillenthal to recognize him "as a member and chairman of the board of directors of the defendant, Tennessee Valley Authority."

The bill named the TVA and Directors H. A. Morgan and Lillenthal as defendants.

Yowell Store Begins Its Air-Conditioning

Operation of Sanford's first air-conditioning system was commenced yesterday in the Yowell Co. store on First Street. Installation of the extensive and intricate system was effected by the Carrier Corporation, pioneers in the air-conditioning field.

The new cooling service is part of an expansion program instituted by the store which will include a new store front, a new lighting system and new fixtures. The temperature inside can be regulated to any desired degree, but it is expected that the temperature will be kept at a fairly constant point between 75 and 80 degrees.

The machinery department of the store is now in the process of installing a new...
