Prune Broken Pecan Limbs At Harvest's End, Blackmon Says

GAINESVILLE, (Special) — Pecan branches broken by the weight of nuts, high winds, or by other causes should be pruned from trees soon after the harvest and hauled out of the orchard and hauled out of the orchard and hauled out of the orchard, G. H. Blackmon, Florida Experiment Station horticulturist, advised growers today.

"Many branches have broken under a heavy load of nuts this year," he explained, "and these should be removed from the trees and orchard as soon as the harvest is over to prevent destructive organisms entering at the breaks and attacking the trees."

In pruning broken branches, the horticulturist explained, cuts should be made where they join others so the wound on the tree will heal satisfactorily. Pruning wounds of more than three inches in diameter should be covered with a good wound dressing or a good paint to prevent entrance of rotting organisms and to allow new tissue to grow satisfactorily.

Mr. Blackmon also offered these suggestions to growers:

State 4-H Donation
Outfits Five German
Youth Center Teams

GAINESVILLE.—(Special)—The contribution made by Florida 4-H club boys last summer in helping the youth of Germany to participate in and enjoy sports, even though it did mean innumerable difficulties for an Army WAC officer in obtaining equipment which the donation made it possible to purchase.

The boys rounded up \$200 during their annual short course at the University of Florida in June. R. W. Blacklock, state boys' club agent with the Extension Service, lent the money, together with basketball which had been autographed by each member of the State Boys' 4-H Council, to Lt. Rosa E. Cunningham, German Youth Administration officer at Wuerzburg.

In a letter to the state 4-H leader, Lt. Cunningham details the "misadventures and difficulties" which attended the purchase of the equipment. Since the Army could not purchase for her, she brought her friends going to France and other countries. German production was scant and excessively high in price, and many of the GYA camps were cancelled on account of polo.

A friend finally obtained the equipment in Switzerland, and the German youth are now using the shirts, shorts and athletic shoes at five GYA centers and on trips to other places throughout the military district. Lt. Cunningham says the clothing is a definite morale builder among the youth.

She adds that her bookshelves, which cover the military district and find avid readers at each stop, are in need of books, particularly German volumes.

During World War II, the U. S. Navy for the first time had more installed diesel power than steam power.

Homemade stews made with meat or fish stock should be simmered rather than boiled. Italy, rice, and noodles, if used, should be added toward the end of the cooking. Use the tops of celery, only a few springs of parsley for good flavor.

President Truman

(Continued From Page One)
velt. Latest returns indicated this congressional lineup:

Senate—64 Democrats, 42 Republicans (the 80th Congress makeup is 51 Republicans, 45 Democrats). When FDR died in 1945 the Senate was made up of 60 Democrats, 38 Republicans and 1 minor party with one vacancy.

House—280 Democrats, 174 Republicans, 1 American-Labor (the GOP in the present Congress has 245 House seats, the Democrats 185 and the American Labor Party 2). In 1945 the division was Democrats 242, Republicans 100, two minor parties and one vacancy.

Not until late last night was the final Senate contest decided. In one of them, Senator Ham-Ferguson, the Republican's No. 1 investigator, won reelection from Michigan. Senator Henry Dworak, a Republican, bowed to Bert H. Miller in Idaho. Russell B. Long, son of the late fiery Senator Huey P. Long, gained a short term seat in Louisiana, filling a vacancy caused by the death of John Overton. From almost every campaign utterance, and from his victory address, Mr. Truman seems bound to dust off his old 21-point domestic program, revise it, supplement it and take it back to Capitol Hill. The revised program probably will call for:

- 1. Repeal of the Taft-Hartley Labor Act.
2. Enactment of Dixie hated Civil Rights legislation—including a Federal Fair Employment Practices Commission with power to prevent job discrimination against negroes and other minority groups.
3. An expanded Social Security program to blanket under old age benefits about 20,000,000 workers not now covered and to hike present benefit rates by at least 50 per cent.
4. A far reaching federal housing program, with government-sponsored low-rent housing and slum clearance projects.
5. Renewal and strengthening of rent control before the current act expires early next year.
6. Boosting the 40-cent minimum wage to 75 cents an hour.
7. A national health insurance program.
8. Federal financial aid to schools.
9. Expanded river development and soil conservation programs.
When these and perhaps other proposals go to Congress the question will be: Is there to be another coalition of Northern Republicans and Southern Democrats? Such a combination often took control of legislation in the 1930s.

Crowds Greet

(Continued From Page One)
home. The train bringing Mr. and Mrs. Truman and their daughter Margaret from Independence, Mo., is due in Washington's Union Station at 11:00 A. M.

Constitution and Pennsylvania Avenues are being decked with flags for a triumphal procession from the station to the White House.

The welcoming celebration is being arranged by the District of Columbia Commissioners. At their request government department heads have agreed to release federal employees at 11:30 A. M. Children will be evacuated from school if they bring notes from their parents.

PHILADELPHIA, Nov. 4.—(Special)—The chairman of the Republican national committee hinted today there may be a clash of GOP operations as the result of the unexpected presidential defeat of Governor Thomas F. Dewey.

Rep. Hugh D. Scott Jr., R-Pa., said he's going on a vacation tomorrow but "it's not going to be a permanent vacation."

He added that this was a wide spread sentiment among the nation's Republican leaders. "We are full of fight, vigor and determination," he said. "I know we have a very successful future. The defeat of Dewey is a mortal setback to the Republican Party." Scott pointed out that the margin in popular vote was the most in the last 20 years. NORTH AFIELD, Mass., Nov. 4.—(Special)—Joseph W. Martin Jr. (R-Mass.) today called the election result a "total surprise" and promised cooperation with President Truman. Martin said he had received no signs of the coming storm. "I was anxious for the election of Governor Dewey," he added, "because I believed it could unite the country and build the world."

8 Florida 4-H Girls Selected To Attend National Gathering

TALLAHASSEE.—(Special)—Eight Florida 4-H club girls from as many counties have been chosen to attend the National Club Congress in Chicago November 27 to December 4. Each has an outstanding record in 4-H work for several years and will get a free trip given by an interested business firm.

Miss Marc E. Keown, state home demonstration agent with the Agricultural Extension Service, announces the following winners: Alene Davis, Atmore, Ala., Escambia County, Florida, best all-around record; trip given by Montgomery Ward, home demonstration agent.

Sallie Lou Wilson, Madison, best garden record; trip by Albia Chalmers Manufacturing Company agent, Miss Benne F. Wilcox. Eloise Christian, Lake Worth, Palm Beach County, best in canning; trip by Kerr Glass Manufacturing Corporation, agents, Miss Sara Horton and Mrs. Mildred J. Michael. Dillie Webster, Grand Ridge, Jackson County, best in food preparation; trip by Serval, Inc., agent, Mrs. Alvin C. Heath. Agnes Jara, Malabar, Brevard County, best in clothing; trip by The Spool Cotton Company, agent, Mrs. Louise F. Cox. Paula Carson, Quincy, Galien County, best in dress review; trip by Simplicity Pattern Company; agent, Mrs. Elsie Laffite. Emily Wheeler, Taft, Orange

Are You One of Those Wives?
A Deepfreeze HOME FREEZER IS THE ANSWER TO YOUR PROBLEM
Illustration of a man and woman fishing.
Are you one of those wives whose husband is a perennial sportsman... one of those wives whose husband comes back from a hunting or fishing trip loaded down with game or fish that you either give away, or throw away, after you have eaten as much as you can stand?
If so, a simple solution to your problem is to have him get you a DEEPFREEZE home freezer.
With a DEEPFREEZE home freezer you freeze and store all excess game and fish and preserve it in its fresh, natural state for good year-around eating.
A DEEPFREEZE home freezer saves time, work, food, and money in many other ways, too. In it you can freeze and store all varieties of foods—home-grown or purchased, fresh or cooked.
A DEEPFREEZE home freezer actually pays for itself, too. Let us prove it with your own food budget figures! Come in today. See the famous DEEPFREEZE home freezers. Get yours today—Be prepared!

THURSDAY NOV. 4, 1948 BIBLE VERSE TODAY

IT HAS LOOKED AT TIMES AS THOUGH THE LABORS AND SACRIFICES OF GENERATIONS HAS BEEN THROWN AWAY

Pole Charges Dulles Using Nazi Tactics—headline. Not the Gallop Pole surely?

At a late hour this afternoon Governor Dewey was still trying to figure out what hit him.

One good thing about an American election: it sure puts the quietus on the news from Europe.

In their vote on the gas tax amendment Tuesday, the people of Florida showed again that they would rather have schools than roads.

Governor Dewey took a bad enough beating in Tuesday's election, but the man who went down to irrefutable defeat was Henry Wallace and his so-called Progressive Party.

Governor Thurmond polled enough votes in the South to make even President Truman think twice before pushing for Civil Rights legislation. He may need some of these southern votes next time.

Now that Dr. Gallop has been dethroned and President Truman named Man of the Hour, our choice for Minute Man of 1948 is Senator Pepper, who almost alone among all those who owned their fortunes to the Democratic Party got out and stumped the country for President Truman.

As a result of their miscalculations on the election results, some of our greatest poll takers may have to go out of business. If so, it would not be the first time that a failure to gauge public opinion accurately has brought bankruptcy, as the fate of the Literary Digest recalls.

If it is true, as we said the other day, that northern agitators are responsible for the revival of Ku Klux Klan demonstrations, it is equally true that such demonstrations may serve only to stimulate further northern agitation.

As a result of their miscalculations on the election results, some of our greatest poll takers may have to go out of business. If so, it would not be the first time that a failure to gauge public opinion accurately has brought bankruptcy, as the fate of the Literary Digest recalls.

"Captain Courageous"

Millions of words will be written and thousands of tons of paper wasted, explaining to the people who did it what happened in Tuesday's election, but when the chips are all in, one outstanding fact will remain indisputably proven

When President Truman made up his mind to take to the road and "give 'em hell", he made a historic decision. He was at that time a beaten man, though he may not have known it.

He came back, not because he denounced the 80th Congress as the worst in American history, not because he condemned the South for racial discrimination, not because he blamed the Wall Street reactionaries for the current wave of high prices.

The American people love a scrapper and they are inherently sympathetic toward the under-dog. They saw in Mr. Truman a man of their own kind who had the whole world against him and was willing to get down in the mud and slug it out.

You do not have to win many people in an election of this kind. Nearly half of them are with you already and can't be changed. Nearly half of them are against you and nothing you say will affect them.

It was this narrow margin of voters that Mr. Truman worked on and the results of the election Tuesday prove that he convinced the undecided voters, most of the Wallace supporters and some of the Thurmond followers.

We do not think that Mr. Truman will make a great President, but as a courageous scrapper who waged one of the greatest political fights in history, and won, he commands our utmost respect and admiration.

Death In The Air

The deadly smog which caused a score of deaths in Donora, Pa., was a local condition, the rarity of which is attested by the wide attention attracted by the series of deaths.

Smog is a term lately added to the American language, denoting a mixture of smoke and fog. The feeling of depression which accompanies it is not altogether mental, for smog reduces the supply of oxygen available for the lungs.

Doctors recalled that in 1930 a mysterious fog, later found to have contained sulphuric acid fumes, caused 70 deaths in the Meuse Valley in Belgium.

Such a combination of circumstances might not occur again for many years. But the possibilities of it are being increased. Industrial plants, formerly concentrated in a few areas, are being scattered over the country.

For future protection, especially in industrial areas, we may have to learn to control smog, and how to forecast its thickness and duration so that discharge of poisonous fumes into long-lasting fog blankets can be avoided.

YOU'RE TELLING ME!

BY WILLIAM RITT, Central Press Writer

A LONDON PAINTER, we read, does landscapes on bald heads. As far as we know, this is the first time grass was ever used as a substitute for hair.

The skull "scenes" should be changeable, else a customer is liable to find his scalp out of season.

Many men have their offices "under their hats." Now they can also include a picture gallery.

Grandpappy Jenkins, whose noggin is as smooth as a European diplomat's promise, hasn't quite cottoned to the idea. He's afraid that if it's autumn

candidate, had 1,030,781 votes and J. Strom Thurmond, the State's Rights candidate 864,303.

On the basis of incomplete returns Thurmond, the governor of South Carolina, carried four states — Alabama, Louisiana, Mississippi and South Carolina, with a total of 86 electoral votes.

Sapphires and rubies are basically the same stone, the difference being only in the color.

CIVIC DRAMA GUILD OF N.Y. 1948-49... THREE BROADWAY STAGE PLAYS... ALL MY SONS - BUT NOT GOODBYE

THE WORLD TODAY

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

When the result of the U.S. presidential election reached United Nations circles in Paris, A.A. Arutinian, a Russian delegate who also is member of the Soviet foreign affairs department, told American newsmen the outcome "really makes little difference (abroad) because of your bi-partisan policy."

That seems to be a shrewd appraisal of the position from the standpoint of international affairs. It is recognition of the vital fact that the rival political parties stand together when faced with a foreign crisis.

It is well that this truth be emphasized abroad lest there be misunderstanding among those who are on the alert to take advantage of any seeming weakness in America's armor.

When there is global conflict, oppressed countries try to hitch their wagons to the American star. Sometimes that is from sincere faith and more often it is because of desperate need and because of recognition that the United States is the world's paramount power.

During the darkest days of World War I was on the British front in France and she met French soldiers and again officers came to me as an American and begged to know: "What is the latest news from Washington? What does President Wilson say today?" They wanted to hear from America's head of state, and not from anyone else.

That same thing is true today as the anti-Communist forces combine in defense against the Red aggression. Of course the situation is simplified by the fact that Washington's policy regarding the Bolshevik aggression already has been defined under the Truman Administration and that this regime is being continued.

Naturally one would expect developments of policy to meet the latest heresies. The defense against Communism is the greatest international problem with which the new American government will have to deal, and it hardly can be expected that this will be solved without resorting to new measures.

These things are out in the open for all to see. So the whole world knows what President Truman's fundamental policies are and what trend he is likely to pursue in his new term. The world knows too (or should know for its own good) that Americans stand together in emergencies, irrespective of politics.

Military Group Convicts Japan Of Waging Wars

By FRANK L. WHITE

TOJO AND 24 CO-DEFENDANTS CHARGED WITH MANY CRIMES

Today was convicted of waging aggressive wars against China, Russia, Britain, the United States and other Western Powers.

The conviction by the International Military Tribunal for the Far East came in the long trial of former Premier Hideki Tojo and 24 co-defendants on war crimes charges. They looked sleepy as reading of the judgment began.

The court narrowed down the issue to these questions: Was Japan guilty of waging aggressive war in violation of international treaties? Were the 25 defendants responsible for making and carrying out these policies? Were the defendants responsible for crimes against humanity and violations of the laws of war?

Militarists and their supporters, the court held, seized control of Japan's government. They, the tribunal found, provoked war through the Manchurian conquest of 1931 and the full scale war against China that began on July 7, 1937.

Earlier the tribunal cleared the 25 defendants of 38 of the 85 counts in their war crimes indictment. This, however, was only a means of expediting the trial and eliminating duplications of the charges, the court said.

The court found Japan began preparations for war against China, Russia, Britain, the United States and other Western Powers in the early 1930s.

The Japanese Army was blamed for fomenting the Mukden incident in 1931. The war with China, it said, was direct result of the foreign policy adopted in 1936 when the defendant Koki Hirota was premier.

Hour after hour Sir William Webb of Australia, president of the tribunal, read the judgment, which runs 1,875 pages. It may be 10 days before the last defendant knows his fate.

The demeanor of the defendants was a study in contrast. Chi Tojo drummed his fingers on the bench in front of him, doodled on a scratch pad and gazed occasionally at the ceiling.

Bomber Crashes

(Continued From Page 1) of miles flown since it was re-activated two years ago.

Another plane of the group was said to have landed because of mechanical trouble in Bermuda without injury to anyone. Twelve have arrived at their Tampa base.

Seminole High School Feds Meet F.M.A. In St. Petersburg Tonight

The Seminole High School Colby Fed football aggregation left this morning to go to St. Petersburg to meet the Florida Military Academy aggregation in an out-of-conference affair tonight.

Steaming from a 27 to 7 defeat unleashed last week by the St. Augustine Yellow Jackets in an East Florida Conference encounter, the Seminoles are hepped up and ready to play the Cadets.

Sanford is in top condition for the game. Coach Carl Kettles has been sending his charges through

lengthy offensive drills this week in an attempt to polish off the Fed attack.

Charles Anderson and Don Deal are expected to be ready to enter the game at the starting gun. The two youths have been nursing bad knees for the past three weeks.

"We will play a good game against the F.M.A. group tonight. The boys are in good condition and they are out to turn in a victory after their defeat last week," Kettles said.

Two Of Nation's Best Backs Play In Jax Saturday

GAINESVILLE, Nov. 4. (AP)—Two of the nation's ground-gaining leaders will parade before some 35,000 people in Jacksonville's Gator Bowl Stadium Saturday when Florida's Gators try to halt the victory surge of Georgia's once-defeated Bulldogs.

All-American candidate Johnny Rauch, clever Georgia T-formation quarterback, stands ninth among the passers of this year's collegiate football and Florida's Charlie Hunsinger is in 13th place nationally as a ball carrier.

Hunsinger's 544 yards net from scrimmage places him second by a yard to Tulane's Eddie Price in the Southeastern Conference.

The speedy Gator back has picked up every one of his yards on running plays, while Rauch's total offense—which has established him in 11th place nationally in this category, shows all but two of his 772 yards by the air lanes.

Florida raced through an intensive offensive dummy scrimmage yesterday with the freshman supplying the half-speed defense. Coach Ray Wolf, who has this year built one of the most productive football games in the conference, alternated three backfields in the drill.

Doug Helden quarterbacked one group with Hunsinger and Half Griffin at the halfbacks; Joe Mitchell, recently converted from halfback, did the ball handling for the second group with halfbacks Loren Broadus and John Cox and fullback Alex Gardiner.

On the basis of this week's workout, it seems possible that Marcelino Hurtia, stumpy 195-pound junior guard from Tampa, may move into the first-string left guard position, teaming with Fletcher Groves on either side of center Jimmy Kynes.

A careful look at Georgia's offense as offered by the yearlings, and for the pushings of the Florida running game was in store for the Gators this afternoon, with a still hotter final session Friday afternoon.

Georgia Tech Engineers Rated Top Defensive College Eleven

NEW YORK, Nov. 4. (AP)—Georgia Tech's Engineers, past masters at designing football razzle dazzle, are concentrating this season on nice simple stone walls, also of the gridiron variety.

The latest statistics, released today by the National Collegiate Athletic Bureau, show they're doing the best job in the country.

The Tech Line, which came along 10 years too late to be known as the seven blocks of granite, has given ground at the rate of a little better than one yard per try.

The team's overall defensive ability has held its six opponents to 795 yards in 321 plays, about 2 1/2 yards per play. The Engineers also have given up the lowest number of points this season—21.

Florida, Tulane and Duke each scored seven points.

For the season Georgia Tech has allowed its rivals 132 1/2 yards per game. It's also the best team against ground plays, giving up an average of 48 yards per game.

The best defensive performances of last weekend, however, were turned in by the Pennsylvania and Minnesota lines. Penn held Washington and Lee to a net total of minus 34 yards on the ground. Minnesota tossed Indiana for a minus 23 yards.

These efforts landed Penn in second place and Minnesota in

The Clubhouse

By JIM BECKER
AP Newsfeatures Sports Writer

NEW YORK—The New York Yankees haven't any indispensable man—they have two of them.

So important are these two men to the Yankee cause that without them the Bombers bear a startling resemblance to the Chicago White Sox. With them in the lineup—Joe DiMaggio in center field and Tommy Henrich wherever he is needed—the Yanks are of winning caliber.

A quick frisk of the statistics reveals some of the value DiMaggio and Henrich have to the Yankees. Both have driven in over 100 runs. DiMaggio has topped 150 to lead the league. They are the two leading Yankee hitters, with marks over 300. They are the top home run hitters on the club, with DiMaggio again striking more often for the distance than any one in the league.

DiMaggio has missed only one game this season the Yankees lost it—and Henrich just a very few. And the terrific duo have compiled these tremendous feats under adverse conditions. The greatest of the ballplaying San Francisco DiMaggios has been plagued by one injury after another, any of them serious enough to bench another player.

Limping on the worst charley-horse of his career and suffering from assorted ailments, Joe finished the season swathed in bandages like a mummy. There was a story that he wasn't wearing a baseball uniform while trotting center field—just tape with "NY" painted on the front.

In this condition, DiMaggio was the spark that drove the Yankees from the rock to the top in the final month. He lifted his batting average above .310, smashed home runs when they counted and continued to come up with "DiMaggio catches" and throws in the garden.

Only slightly less valuable was "Old Reliable" Henrich. When ancient George McQuinn felt his age and couldn't hit as first basemen should, Henrich was flung in from right field where he is about the best in the business. He was assigned the infield post. He's no Hal Chase around the station but he did a big league job without letting his hitting suffer, as so often happens when a ball player is switched to a strange job.

This is the first major league season in which Henrich has driven home better than 100 runs and he picked the year when the Yanks needed the runs most. He also blasted four of his home runs with the bases full to tie a major league record for clutch hitting extraordinary.

Last year Ralph Hunter Joe was the toast of the Yankee fans. This season Yankee fans would get plastered if they drank the toast that DiMaggio and Henrich have earned.

An automatic bottle-making machine was invented in 1903.

Chandler Preps For Annual Diamond Meet

CINCINNATI, Nov. 4. (AP)—Baseball's bigwigs—members of the major and minor league executive councils—called on Commissioner A. J. Chandler today to complete plans for the annual meeting of baseball clubs in Chicago next month. The meeting will continue through tomorrow.

Representing the Major League are Ford Frick, president of the National League; Will Harridge, president of the American League; Warren Giles, president of the Cincinnati Reds; and Leslie O'Connor, retiring vice-president and general manager of the Chicago White Sox.

Here to look after the interests of the minors are George M. Trautman, president of the National Association of Professional Baseball Clubs; Herman D. White, president of the Eau Claire (Wis.) club of the Northern League; Charles Hurth, president of the

SOME BLOW

IRON MOUNTAIN, Mich. (AP)—Mrs. Katharine Cruise was hit in the face by a batted baseball—and liked it.

The incident occurred, she relates, in the early 1920s when Babe Ruth visited Iron Mountain and gave one of his slugging exhibitions at the stadium here.

"I was standing in the outfield," Mrs. Cruise recalls, "and had just turned to speak to another woman when the lights went out. When I came to at General Hospital I learned I'd been hit by one of the Babe's drives."

"I carried a file old shiner for some time after that, but I finally came to be proud of it—and I still am."

New Orleans of the Southern Association, and Frank Shaughnessy, president of the International League.

"Got Your Ballot In Early"

GOOD AND BAD EAST LANSING, Mich. (AP)—The most lopsided victory ever scored by a Michigan State College football team was the 104 to 0 conquest of Hillsdale college in 1904. The worst beating the Spartans ever took was 119 to 0 by

OLYMPIC FORGET-ME-NOT NEW YORK (AP)—Eduardo Flexas, a hurdler on the Peruvian Olympic team, was so mad when he kicked over the fourth hurdle in the London meet that he returned to the course and walked off with it. He bearded a Peruvian International Airways plane here en route to his home in Lima, Peru, with the hurdle still in his possession, strapped to his luggage. He wanted to be reminded of his error always, he said.

NEW HAZARD JOHANNESBURG, South Africa (AP)—When two North Rhodesian golfers arrived at the seventh green they found a leopard-deer playing on it with her two cubs. They made straight for the nineteenth hole.

HOWLING ALONG EAST LANSING, Mich. (AP)—Four teams that performed in "Howl" games last New Year's Day are on Michigan State College's 1949 football schedule. They are Michigan, Penn State, Maryland and William and Mary.

Reds Reject

(Continued From Page One)
 Indian delegate and ambassador to Moscow, told the delegates after Vishinsky spoke that India could not agree to international control of atomic materials while oil and similar materials remained in private hands.

Mrs. Farrell proposed an amendment to the Western proposal. The majority of the 58 nations in committee has favored approving the Western plan as drawn up by the majority of the 11-nation atomic commission.

Her amendment proposed that

the assembly "approve in substance" the majority report. India has fought consistently in this assembly to tone down the differences between the East and West on the atomic problem.

Vishinsky fought against a majority provision that the Atomic Commission resume its work where it was suspended last spring when the East-West impasse showed no signs of breaking.

New covered bridges are still being built in the United States. It is estimated there are still at least 2,000 covered bridges in the United States.

Election Comments

(Continued From Page One)
 of battle as unbecoming and unworthy. Evidently, however, it got results and his jubilant followers probably consider that "the end justifies the means."

Chicago Tribune: "For the third time, a Republican convention fell under vicious influences and nominated a 'me-too' candidate who conducted a 'me-too' campaign. For the third time, the strategy failed. After this experience, we may hope, the Republicans have learned their lesson. If the same forces control the next Republican convention, the Party is finished and the millions of patriotic men and women who have looked to it for leadership will have to look elsewhere. Mr. Truman is entitled to congratulations for having made a valiant fight against what were thought to be overwhelming odds. May his administration justify the confidence that the people have expressed in him."

New York Star: "Mr. Truman trusted the American people farther than the political experts, farther than most of the nation's newspapers, farther than all but four states in this state and all but one—the New York Star—in this city. We pledge him our continued support of the Rooseveltian brand of Democracy he so ably took to the people."

Arkansas Gazette: "In turning away from the angry mob who played in the name of States Rights, the south has offered Mr. Truman grounds for reasonable compromise in the complex area of federal civil rights legislation. We do not believe that offer will be rejected."

Nashville Tennessean: "There is no doubt the Taft-Hartley Law took many votes from the Republican candidate. It is certain that the record of the 80th Congress also drove many into the Democratic fold. But more than these, we believe was Governor Dewey's refusal to recognize their existence. Dewey found himself out of tune with democracy."

LONDON, Nov. 4.—(AP)—Britain's joy over the results of the American election was reflected today in banner headlines in London newspapers. Some samples: "The States Go Wild About H.A.R.R.Y." (Mirror), "Harry's Secret Weapon Was People" (News Chronicle), "Truman Did It All Single-Handed" (Mail), "He Ain't No Churchill But What The Heck" (Express), "Now Truman Has It All His Own Way" (Graphic).

County Drainage

(Continued From Page One)
 Jr. and Charles Lee, protested to the Commission about the flooding of their lands by water from the emergency ditch.

After considerable discussion, in which Commission Chairman Pope pointed out that the digging of the ditch was a private and not a County affair, it was agreed to request Mr. Wheeler to continue digging the canal-ditch as far north as the Curryville Road, and

the County will take care of the drainage from there northward. Water will drain into Mills Creek which will be widened and straightened by the County to permit exit of the water into Leonlockhatchee Creek.

Engineer Hagen was requested to make a survey to determine the levels needed for the work. Much of the flooding of Lake Pickett, said Mr. Hagen, was due to the fact that Orange county had dug ditches draining into the lake in connection with Cheney Highway improvements.

On Oct. 5, B. F. Wheeler, Jr. informed the Board of the digging of the emergency canal and requested that a bridge be placed over the cut in the Ft. Christmas Road.

Another problem faced by the Commission was the request by Mrs. Prudence Bruno to have a ditch deepened to drain her land in the Casselberry section, comprising 17 acres. The Commission said that they would make a personal survey of the land today. The Commission also promised personal attention today to the need of clogging roads in the Prairie Lake section where more than 25 homes have been recently erected. The request for these improvements was made by S. F. Simpson, W. J. Wells, Jr. and Richard Van Camp.

The Ross goose was named for Bernard R. Ross, a correspondent of the Smithsonian Institute and a factor of the Hudson Bay Co., who sent out the first specimens from the Great Slave Lake region. It is the smallest of all geese.

European Aid

(Continued From Page One)
 countries attached great importance to labor's part in the Democratic victory. Berlin's papers said this "may well make possible a clearer political line in the interests of the working population."

The phrase "victory of the common man" cropped up often. Government leaders hastened to send their congratulations to Mr. Truman.

In Eastern Europe, there was a different tone. The anti-vote for Wallace created consternation among people who had been told the Progressive Party would make a strong showing. Citizens of Moscow asked, "Why wasn't Wallace elected?"

Budapest newspapers, forestalling similar questions, explained that "tens of millions" abstained from voting, because they were "uninterested, being aware that in consequence of terror and fraud, Wallace had no chance this time."

In Canada, acting Prime Minister Louis St. Laurent pointed to President Truman's victory as a good reason why his own Liberal government should be returned for a fourth consecutive time.

Blue geese are gluttonous feeders. The young gorge so steadily they develop more rapidly than the young of other geese.

Good rubies or emeralds of four carats or more are usually more valuable than diamonds of the same size.

Supt. Knox Conducts Services At Shiloh

Services for Sunday at the First Shiloh M. B. Church were conducted by Supt. A. Knox. Due to the illness of the pastor the lesson was reviewed by Sallye L. Fields. During the afternoon funeral services were conducted for Frank Cook, brother of Cora Haynes, at 3:30 P.M.

The night service was under the direction of Rev. J. M. Boston of Atlanta, Ga., pastor of the Woods Monumental Baptist Church in Savannah. Rev. Boston's subject for the sermon was "What Can You Do When You Can't Do Nothing." He urged the congregation to "Place his trust in God, pray and wait." The Young Matrons Club will have its regular meeting at the home of Marie Jackson on Roosevelt Avenue at 7:00 P.M. on Wednesday night.

STOMACH AILMENTS, WEAK KIDNEYS, RHEUMATIC PAINS, ARTHRITIS, NEURITIS
 and such complaints as Headaches, Nervousness, Acids, Toxins, Bloating, Lack of Vitality, Energy, Poor Appetite, Underweight, Dizzy Spells.

Drugless Health!
NO MATTER how long you have been suffering from stomach, kidney and rheumatic distress, and what drugs you have tried before, you can, now, have relief if you take **Geo-Mineral**. With your eyes **SEE** the results seven days after you start taking it.

DRUGGISTS cannot make **Geo-Mineral**. It comes from the earth—Nature's laboratory. Contains **NO** dope, **NO** alcohol, **NO** oil. Only Nature's minerals—the oldest, most reliable remedy for rheumatism, arthritis, kidney and stomach ailments.

Wonder Minerals
FOR THOUSANDS of years sufferers, on advice of doctors, go to mineral springs to get cure, or relief. The late President Roosevelt used to go to Warm Springs in Georgia. He was helped and would not have gone there regularly twice a year.

WE HAVEN'T heard of the miraculous springs of Lourdes, France, and famous Thronion in ancient Greece, where, according to legend Hercules, the god of eternal strength and youth, drank its waters and bathed in it for ever young.

IF YOU ARE a sufferer, and can not go to the mineral springs, try **Geo-Mineral**, which contains a blend of the same minerals that can be found at the world's best springs. The minerals in it may work miracles.

Amazing Results
WATCH your elimination from your bowels two or three days after you start using **Geo-Mineral**. The waste, black as coal, will break away and you will **SEE** it! Also examine your urine. You may see impurities—poisonous waste—coming out of your kidneys, and feel the relief. Be sure to watch for all this to realize the precious value of **Geo-Mineral**.

Geo-Mineral is not a physic, and does not interfere with the food in the intestine. It goes down to the root, cleaning and purifying, throwing away poisons—gas, toxins and bacteria. Not the physic, and cathartic do not in a Natural, harmless, way.

100% Guaranteed!
IF YOU do not see the results after **7** days, we will refund your money. **Geo-Mineral** is **100%** guaranteed. **See now and get one bottle. If it does not work, you can get a refund of your money in full.**

Truman Asks Cooperation Of Americans

President Returns To White House Amid Exciting Welcome; 500,000 Turn Out

WASHINGTON, Nov. 5, (AP)—President Truman, speaking from the front porch of the White House, asked today for cooperation of all the people in dealing with the nation's problems.

For himself, he pledged "to do the job to the best of my ability."

Mr. Truman spoke to thousands massed about the Executive Mansion. They and others like them had just given him a tumultuous welcome back to Washington and cheered him widely on a triumphal ride up Pennsylvania Avenue from Union Station. The happy President was ed and beamed.

The President Is Still The President

LEAVING HIS HOTEL in Kansas City after his victory had been conceded by the Republicans, President Truman jubilantly returns the greetings of crowds that gathered to cheer him. (International)

Americans In Nanking Area Being Removed

Remaining Civilians Will Be Protected By Military Personnel, Gen. Barr Says

By HAROLD K. MILKS
NANKING, Nov. 5, (AP)—All American dependents in the Nanking-Shanghai area are being evacuated as rapidly as ships become available. Maj. General David G. Barr, director of US joint military advisory groups announced today.

About 1,000 wives and children of Americans will leave the two great Chinese cities, which may be attacked by Communists before long.

At the same time, General Barr said US military personnel will remain at their posts.

Vice Admiral Oscar Badger, commander of US Western Pacific Forces, said the Navy has the intention of abandoning its China base at Shanghai on Shanghai peninsula. He said the Navy was prepared to evacuate Americans and other foreigners of friendly nations.

Admiral Badger said the fleet was in China to protect Americans and to support the aviation departments of the US government. He said Marines may be landed at Shanghai as a precaution for the 3,500 Americans there.

Earlier Americans were urged to leave the two cities.

A notice was circulated among Americans here signed by Minister Lewis Clark, while a similar notice was put out by Consul General John M. Cabot in Shanghai.

"Military developments in North China," Clark's note read, "make it appear possible hostilities may spread further south with the result that normal transportation facilities between Nanking and its environs and the sea may be disrupted."

"Also, with the approach of winter and the increasing shortage of food, supplies, and other necessities, it is suggested that you consider the desirability of evacuation to some neutral territory."

The notices went out at a time pointed to a coming showdown in North China.

An estimated 400,000 government troops, most of them equipped as fighting divisions, were massed in the general area of Nanking. East China military headquarters 170 miles northwest of Nanking.

There they face the tough new force of General Chen, which is ready to strike at any moment in an unrelenting drive and isolate Nanking.
