New Bag Keeps Sugar Moist

The age-old and annoying problem of "hard" brown sugar—due to temperature and humidity changes in the home kitchen—has at last been solved.

The solution is a new re-closable polyethylene bag recently introduced in the Southeast by the makers of Dixie Crystals Light Brown Sugar, a favorite of Dixie housewives for fifty years. It is the first such package to be introduced by any manufacturer in the Southeast.

The new "Ever-Soft-Pak" recloses easily, keeping natural moisture and softness in, and keeping dry air out. Air tight, moisture-proof and break-resistant, the package offers all the protection brown sugar requires in any kind of climate or weather.

The new package holds two pounds of light-golden Dixie Crystals Light Brown Pure Cane Sugar. The handy plastic bag stands upright on table or pantry shelf, just as a carton does. It opens and closes with a quick twist of a plastic band. If closed tightly after use, it will keep the contents in perfect condition for use—moist, fresh and flavorful.

The success of so many brown sugar recipes—and especially in baking cakes and cookies—depends upon the sugar remaining in its original condition, with all the moist flavor and goodness of brown sugar intact. The new twist-top package thus insures a higher degree of consistency in baking, with uniformly good results time after time.

Next time you crave some wonderful home-made cookies, here's a good recipe to follow—keep in your recipe file:

Legal Notice

SEMINOLE COUNTY BOARD OF ADJUSTMENT Notice of Public Hearing

The Seminole County Board of Adjustments will hold a public hearing to consider the possibility of amending a special exception in a A-1 Agriculture Zone to establish a special exception as requested by Samuel H. Brown, 2300 W. W. of S. E. 1st Ave. No. 22-51 for road widening.

The public hearing will be held in the County Board of Adjustment Court House, Sanford, Florida, on June 14, 1967, at 10:00 P.M. or as soon thereafter as possible.

AROUND THE CLOCK

By LARRY VIRSHUP

Here's how we take care of the poor in Seminole County... Community Action (Anti-Poverty Group) gave its assistant director a \$1,200 pay raise and if that wasn't enough authorized another \$600 per year raise if it meets OK guidelines... and that my friends is how we take care of the poor in dear old Seminole County.

AND MEANWHILE thousands of kids here walk around with rotting teeth and no shoes.

AND MEANWHILE we wait for Head Start... we wait for all the promised training programs... for the good life... enough of all this.

Observed at a local barber-shop, Policeman had stopped a youthful, long-haired driver in front of the shop... they talked. Policeman drove off. Youth came into the shop. Barber: "Wanta hair cut?" "No... but I guess so." Youth has his long tresses shorn... and departs. Little later enters the police man: "Did a boy come in and have his long hair cut off?" Told that he had, the policeman smiled, tore up a slip of paper and said: "I caught him speeding... and told him I'd tear up the ticket if he'd get a haircut." A bouquet to that policeman!

One of the reasons that city and county commissioners have difficulty in getting men to serve on committees is that the studied fact-finding decisions that these fellows make are not frequently nullified by commission actions dictated by politics. It's not easy to devote time to study, hearings, inspections, discussions and well-considered decisions only to see them upset by political expediency.

Attrition has been started at Sanford Naval Air Station, preparatory to closing next year. Lt. (jg) Mike Claytor, the Wing's genial PIO, completes his tour of duty next week... and will go back to California for his master's in English. But Mike's public relation job at the base here will be left vacant. (Claytor probably means pretty Lt. (jg) Joe Ward, the base's PIO, who will inherit Mike's work.)

The way the legislature is looking out for Seminole County (race track distributions and gas tax) we're sure going to get a lot of ad valorem tax relief (e?)

Does adoption of the law calling for a weakened version of the party loyalty oath meant that Altamonte Councilman Robert Newell will be able to change his party affiliation to Republican and give him a better chance to run against Commissioner W. Lawrence Swafford for the district three post on the County Commission next year? The new law allows a person to switch parties and seek election one year later. Formerly a two year lapse was required.

There is a rumor going around that one of the causes of the race track in Casselberry closing was the falling off of attendance at the track because of the number of "pinches" made by the police department in Casselberry to persons attending the races. It is interesting to note, fines and forfeitures in April were over \$5,000 and fines and forfeitures there in May were \$2,365.

We see Longwood poured the foundation for its new police station adjacent to the city hall on Warren the other day. The citizens of the city might be interested to know a four cell jail is included in the facility. Do you remember when two of the cell last year, promised to build a civic center? Oh, well, it is much more important that all the criminals in town be housed than that the civic organizations have a nice meeting place.

Supt. of Schools R. T. Miller will file a whipping civil suit against William Leffer within the next few days.

'A Weed In A Rose Garden ...'

Avery Pledges Zoning Fight

James Avery, pledging, "In my lifetime I will never come before this board again," gave notice last night he will appeal denial of a change in zoning from residential to commercial of his property just outside the Altamonte Springs city limits.

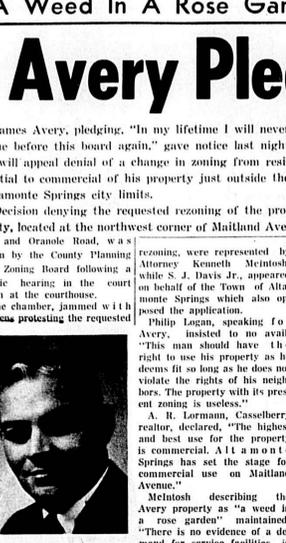

Decision denying the requested rezoning of the property, located at the northwest corner of Maitland Avenue and Orange Road, was given by the County Planning and Zoning Board following a public hearing in the courtroom at the courthouse.

The chamber, jammed with citizens protesting the requested rezoning, were represented by Attorney Keumeli Metelosh, while S. J. Davis Jr., appeared on behalf of the Town of Altamonte Springs which also opposed the application.

Philip Logan, speaking for Avery, insisted to no avail, "This man should have the right to use his property as he deems fit so long as he does not violate the rights of his neighbors. The property with its present zoning is useless."

A. R. Lorman, Casselberry realtor, declared, "The highest and best use for the property is commercial. All a month Springs has set the stage for commercial use on Maitland Avenue."

Metelosh describing the Avery property as "a weed in a rose garden" maintained, "There is no evidence of a demand for service facilities in

JAMES P. AVERY

A Busy Night For Zoning Board

The County Planning and Zoning Board tabled a request for a change in zoning from residential to agriculture of a tract of property south of SR 46 in Geneva, Wednesday evening, to permit attorneys to attempt to settle the matter.

The zoning requested by Mrs. Isabelle Frank for her mother, Mrs. G. C. LeFils was, according to Mrs. Frank, for the purpose of permitting the temporary parking of her mobile home while she nurses her mother who is ill.

S. J. Davis Jr., appearing on behalf of four adjoining property owners, opposing the proposed change in zoning, stated that the zoning change would be a "pinch" to the adjoining property owners and suggested he and William Hutcheson, zoning attorney, discuss the problem with the view toward coming up with an amicable agreement.

The Board and Hutcheson agreed to Davis's request and the matter was tabled with Mrs. Frank's approval.

In other action, the Board: APPROVED rezoning of a tract owned by Jack Owens, which is located seven miles east of Sanford, east of Lake Jessup and south of SR 46 from A-1 to M-1, light industry, property re. of Seaboard Airline Railroad and SR 436 near Slavic Gardens. John Allen, applicant, stated he plans to construct a packing house and offices at the site; APPROVED a change from C-1 to M-2, multiple family dwellings on six acres north of SR 436, west of Altamonte Springs and east of I-4 to permit construction of multiple family units named Chateau DeVille. Realtor requesting the change on behalf of Prime Meridian Corporation of Tallahassee, reported investment of more than \$1 million is planned for the units; (Continued on Page 2)

AFTERMATH OF PLANE CRASH AT NAS (Navy Photo)

Port Sets Bid Opening On Financing

Bids designed at financing the Port of Sanford construction will be opened at 8 p.m. July 5 by the Seminole County Port Authority.

One invitation to bid seeks a loan of \$500,000 for 20 years, secured by a note and mortgage, plus a portion of the annual distribution of race track and jai-alai fronton funds distributed annually to Seminole County.

In another invitation, the Authority offers for sale \$900,000 in revenue bonds.

A plan for more white children here as out of line. In other action, the board here expected to participate in the proposed "Head Start" program was voted by the Seminole Community Action Executive Board last night.

Executive Director E. D. Kirchhoff told members that out of the 200 proposed youngsters expected to start in the program July 1 only about 20 are white.

Community Action is still waiting word from Atlanta on "Head Start" funds. Atlanta had complained that the ratio of Negro and White youngsters expected to participate here was out of line.

Police Hunt Motorist Who Slammed Into Bldg.

Police today are hunting a man who while trying to elude law enforcement officers, slammed his vehicle into the Sanford Boat Works building on Celery Ave., Chief Ben Butler reported.

Butler said police officer Larry Payton was chasing a motorist running a red light early this morning. While trying to get away from Payton the driver of the car apparently lost control and slammed into the building. Police could find no trace of the car. Damage to the building was estimated at \$1,000. The car was declared a total loss.

In another accident, a car operated by Irene Faddgett, Rt. 1, Sanford, went into a ditch last night on Lake Moore Road. Mrs. Faddgett was taken to Seminole Memorial Hospital and reported in "fairly good condition" today. No charges were filed.

Plane Explodes In Base Disaster

A Navy pilot was killed and his navigator-bombardier was slightly injured shortly before midnight last night when their RA5C Vigilante aircraft blew a tire and overturned at Sanford Naval Air Station.

Killed was Lt. Cdr. Charles T. Butler, 38, of 108 Crystal View South, Loch Arbor.

Slightly injured was 2nd Lt. John Barry Smith, 32, of 404 East 14th Street.

A Navy spokesman said today that Butler and Smith, assigned to Reconnaissance Attack Squadron 3 at the local base, were practicing simulated aircraft carrier landings on the air station runway.

Eye witnesses said the twin engine jet aircraft came in to the west end of the base and, as it touched down, blew a tire. The plane left the runway after about 200 feet, overturned and exploded.

The witnesses also reported that Smith ejected from the craft but Butler was trapped in the wreckage.

Mr. and Mrs. Scott Burns, of the Hayfair section, said that shortly after retiring Mrs. Burns heard a sound as an airplane skidding and saw a lightning-like flash through her bedroom window and then heard an explosion.

Mr. and Mrs. Burns reported they saw only small grass fires along the runway but not the airplane. Most of the fires were after about 200 feet, overturned and exploded.

The Butler family attended Pioneer Baptist Church, which is in charge of arrangements.

Mr. and Mrs. Burns, who are his wife, Barbara, and five children, Sharon Kay, Mary Lee, Richard, John and Robert, Gramkow Funeral Home is in charge of arrangements.

LT. CDR. BUTLER

Elrod, City Board Touring Slum Areas

State Sen. Robert Elrod is touring blighted areas of Sanford this afternoon with members of the City Commission.

The purpose of the tour is to determine if an "emergency exists" for Sanford to get urban renewal legislation before the end of the Legislative session.

The City Commission approved an urban renewal bill with a referendum to implement it. However, Legislature

For 'Head Start' Plea For More Whites

A plan for more white children here as out of line. In other action, the board here expected to participate in the proposed "Head Start" program was voted by the Seminole Community Action Executive Board last night.

Executive Director E. D. Kirchhoff told members that out of the 200 proposed youngsters expected to start in the program July 1 only about 20 are white.

Community Action is still waiting word from Atlanta on "Head Start" funds. Atlanta had complained that the ratio of Negro and White youngsters expected to participate here was out of line.

Public Hearing Sheriff Plans Budget Hike For New Year

The Longwood City Council will hold a public hearing at 8 p.m. today on the proposed assessment rate for Redder Avenue. The hearing will take place at council chambers at city hall.

However, the Herald contacted Elrod and urged the Legislative leader on the need for urban renewal here. Elrod said Tuesday if they, (the City Commission) invite us to tour the area, we'll come."

City Attorney William Hutchison sent a telegram to the delegation yesterday urging the need for legislative action.

Budget of the St. Johns Indian River Canal District for the 1967-68 year will be adopted at a meeting at 11 a.m. June 22, in the Seminole County Chamber of Commerce conference room, John Krider, chairman, announced today.

Sheriff J. L. Hobby reported his proposed budget will be \$251,000. Hobby said he is asking an additional \$10,000 for new radio equipment and an increase of \$18,000 for salaries over the current year. The proposed figure is \$154,000. Current figure for salaries is \$136,000.

The county plans to hold budget hearings the first week in July.

UN General Meet On Israel Seen

UNITED NATIONS, N.Y. (AP)—The U.N. General Assembly probably will begin an emergency session this week to debate a Soviet demand that Israel withdraw from the Arab territory it conquered.

Secretary-General U. Thant is polling the 122 U.N. members on the Soviet request for the session after the Security Council refused Wednesday to approve a Soviet resolution condemning Israel's "continued occupation" of Egyptian, Jordanian and Syrian territory taken in the last war week.

The Russian wanted the council also to demand that Israel troops pull back to the lines they held before fighting began June 5.

Thant must call the assembly receiving affirmative responses from a majority of the members—42 nations. Diplomats generally believed that a majority would agree by Friday and that the session would begin Saturday.

Speculation continued that Soviet Premier Alexei N. Kosygin would attend the session. Foreign Minister Andrei A. Gromyko in his letter requesting the meeting said the Soviet delegation would include "leading statesmen of the Soviet Union," and AP correspondent Henry S. Bradsher reported from Moscow that Gromyko was likely to be among them.

The Soviet Union based its call for the emergency session on the "Uniting for Peace" resolution which the United States pushed through the assembly in 1950 to circumvent the Security Council.

The procedure permits assembly action on the subject of peace when the Security Council is paralyzed by lack of unanimity among the big powers. The Russians in the past called the procedure illegal.

The U.S. Ambassador Arthur J. Goldberg told the Security Council during its debate Wednesday that his government was not interested in matters "such as the Soviet move to the assembly but rather in the work in the council for real peace in the Middle East."

He said "the council has far from been a success in contributing" to that end.

Goldberg went to Washington Wednesday afternoon to consult with the State Department.

The provision in the Soviet received the votes of only four non-communist states—Yugoslavia, India, Bulgaria, and Mali. The 11 other council members abstained.

THEY ARE OFF and swimming at the third annual Sanford Swim Association invitational meet. The three-day meet started today at the Naval Academy Pool. Several of the state's top swimmers are at the AAU sanctioned meet.

GI Increase In Viet Due

WASHINGTON (AP)—Secretary of Defense Robert S. McNamara's ninth trip to South Vietnam next week is expected to bring a further increase in U.S. forces in Vietnam.

The question of boosting U.S. forces in the war has been under study for months but no final decisions have been made, Pentagon sources said.

The U.S. commander in Vietnam now stands at better than 462,000 men. This is close to the 470,000 which officials have indicated as the currently planned build-up level.

Gen. William C. Westmoreland, the U.S. commander in Vietnam, reportedly has submitted proposals for varying numbers of additional troops.

These variations, it is understood, are based on different levels of military campaigning in the months ahead and different time periods in which to seek certain military objectives.

Possible U.S. troop reinforcements under alternative proposals range from two to four divisions.

Some Pentagon sources believe the most likely outcome may be an authorization for one more division force for Vietnam, or 250,000 to 300,000 men.

There has been a relative lull in recent ground fighting in Vietnam but top Pentagon authorities forecast hard fighting ahead. They also reported a continuing buildup of Communist forces.

The Joint Chiefs of Staff since have completed their analysis of the need for more American fighting men in Southeast Asia. One told a reporter he looks for a level of U.S. forces "to be adjusted upward somewhat." He declined to be more specific.

The announcement of McNamara's impending journey said it is "one of his periodic visits to Vietnam to review all aspects of the war."

He was last in Vietnam in October. He likes to visit there about once every six months, more casually.

Should he try for a quick military decision with many more U.S. troops—and probably many more casualties?

The U.S. party will return here Sunday night and will return in a week, officials said.

Traveling with McNamara will be Undersecretary of State Nicholas Katzenbach, Gen. Earle G. Wheeler, chairman of the Joint Chiefs, and several top civilian Pentagon officials.

Taylor County Aides Facing Suspension

TALLAHASSEE (AP)—A grand jury presentation which recommended the suspension of the entire Taylor County Commission Wednesday alleged that two commissioners, a county judge and circuit court clerk directly benefited from the misuse of funds.

The presentation called on Gov. Claude Kirk to suspend commissioners William H. King, W. H. Wood, E. J. Tedder, R. L. Edwards and Johnnie Livingston on grounds of "misfeasance and malfeasance" in office.

It claimed that King, Wood, County Judge Ben Lindsey and Circuit Court Clerk C. Ralph Carlton were among landowners who received fill dirt and lime-rock at cost to the county.

Hours of investigation, said the document, turned up evidence that the county had "spent large sums of county money, used county equipment and furnished county labor" for hauling in widespread areas of the timber-church area.

While the evidence warranted suspension of the commissioners, "there was not sufficient information in an indictment charging anyone with a crime."

Among other landowners alleged to have received the fill dirt were Glen McCall, Barney O'Quinn and Edward C. Steinhilber. David Lindsey of Cedar Key; F. Douglas Powers, Aubrey Ward, Martin Kelly, Byron Butler and Lemmy Grace of Perry.

The presentation also said Tidewater Cypress Division of Turner Corp., a local lumber mill, benefited from the hauling operations.

Kirk OKs Gas Tax Revision

TALLAHASSEE (AP)—Gov. Claude Kirk has signed into law a bill which raises the 35-year-old seven-cent gasoline tax formula and gives a larger share of the pie to the big counties.

It was the first piece of legislation introduced in the Legislature Wednesday, signed a resolution to that effect several hours after a legislator charged him with timidity.

Gubernatorial Press Secretary Jim Wolf said that the House-Senate resolution asking for the proclamation was not received until late Wednesday afternoon, sometimes after Rep. Carey Matthews, D-Miami Beach, criticized the governor for not signing it.

"At a time when our state and our country definitely need strong and courageous leadership, I am sorry that the governor chose to be timid," Matthews said.

Kirk also signed a bill removing the requirement that school teachers take the national board examination as a basis for being hired or promoted and immediately was praised for the action by State School Superintendent Floyd Christian.

He said that the old law requiring the test had been a handicap to Florida in recruiting experienced teachers from other states.

Becoming law without the governor's signature was the "Volkswagen Bill" which redefines the weight classifications for motor vehicles with "D" license plates and clears up a statutory provision which Volkswagen owners have used to say they may not have to pay license tag fees.

July 4 Holiday Warning Boat Registrations Due

Troy Ray, county tax collector, is warning boat owners that those persons planning to take a long July 4 weekend that current boat registrations expire June 30.

Boat registrations will be charged the flat rate of \$12.50.

"Plates formerly had cost \$11.25 and \$14.00 depending on weight. New registration tag for D-tags is as follows: 13 month \$18.50; seven month \$12.50; four months \$5.50. 25% cents service fee must be added.

All services have been notified that affects of this new law on other aspects of the weight classification will be given when a study in process is completed.

ATLANTIC CITY, N.J. (AP)—Twenty-five kindergarten pupils graduated from the West Side Elementary School today with hearty cheers.

Their first teacher, Mrs. M. J. Hickey, brought to the classroom a number of black and white photographs of the children, crawling along their arms and sometimes onto their foreheads.

"The children loved it," Mrs. Hickey said. "They all drew pictures of him. Even the children from the other classes visited Hippy."

But then during a heat spell this week a door was left ajar and apparently Hippy hopped out.

Zoning Board Kept Busy During Meet

Avery Warns Of Fight On Zoning

(Continued From Page 1)

the area," that the commercial zoning would create a traffic hazard, unsafe conditions would develop and the health and general welfare of the area would not be promoted by the rezoning.

"We have petitions of 306 firm objectors, representing 331 owners," McIntosh stated recalling the history of the parcel of property where rezoning to a lower class zoning is a consistently been opposed since 1961.

McIntosh's remark, "We are unified again opposed and will come before this board every time rezoning of this property comes before it," were greeted with a loud burst of applause. On asking for those in the chamber opposing the rezoning to rise, virtually all who were present stood.

County Planner Jack Godwin stated he could "not recommend changing the zoning to commercial."

Following denial of Avery's request, Avery remarked, "I will appeal it," and admonished the protestors, "Keep your powder dry."

AREA DEATHS

C. W. CALE Charles William Cale, 61, of 307 Satsuma Drive, Sanford, died Wednesday morning at Seminole Memorial Hospital.

Born in 1906 in Lore City, Ohio, he came to Sanford two years ago from Columbus, Ohio. He was police chief at Lebanon for five years and was with the Ohio Highway Patrol for 25 years. He was a member of Mahanfield Lodge, F. & A. M. 35, of Shrine in Toledo, Ohio; Elks Lodge; of the Ohio Fraternal Order of Police, and of the Ohio Association of Chiefs of Police. He attended First Methodist Church of Sanford.

Survivors are his wife, Mrs. Martha Cale of Sanford; a sister, Mrs. Bernice Boyd of Shady Side, Ohio, and two brothers, Robert, of Cambridge, Ohio, and John, of Shady Side.

Funeral and burial arrangements are under direction of Gramkow Funeral Home, Sanford.

Mallards are the most abundant and most hunted waterfowl in North America.

State Solons Enjoying 'Long Weekend'

TALLAHASSEE (AP)—Florida legislators have begun their "long weekend" recess and are adjourned certain they'll have a gubernatorial veto of the general appropriations bill waiting for them when they return Monday.

The proposed 1967-68 budget was expected to reach Gov. Claude Kirk's desk today, Friday after Democratic leaders in both House and Senate announced tax proposals which they said would help finance the bill's additional program for education.

"I think that's the terrible," said Republican Sen. John Fisher of Jacksonville in reaction to Senate President Verne Poye's proposal to increase the beverage tax.

Poye said an additional tax on beer and whisky could produce some \$12 million and would nearly cover the amount the proposed budget is out of balance—\$20 million.

Other Republicans responded more cautiously in the Senate. Minority Whip Sen. Tom Slade of Jacksonville said the proposal sounded "appealing" on the surface.

"Without a question of doubt, the Legislature has responsibly performed the task of facing our education program squarely in the face, squarely in proper perspective, and squarely for the future of the children of our state," Farrington said.

In a four-hour session before the recess, the Senate approved a bill creating a powerful five-member commission to inquire into the cause of the government's responsibility to the citizens of our state. Slade said.

House Speaker Ralph Turington proposed a two-cent increase in the cigarette tax. He said this could raise \$35 million and save property taxes.

Turington said this proposal is being closely studied and might see action when lawmakers return Monday after the recess.

He praised House members for meeting "head-on" on the state's problems.

"Without a question of doubt, the Legislature has responsibly performed the task of facing our education program squarely in the face, squarely in proper perspective, and squarely for the future of the children of our state," Farrington said.

In a four-hour session before the recess, the Senate approved a bill creating a powerful five-member commission to inquire into the cause of the government's responsibility to the citizens of our state. Slade said.

House Speaker Ralph Turington proposed a two-cent increase in the cigarette tax. He said this could raise \$35 million and save property taxes.

Turington said this proposal is being closely studied and might see action when lawmakers return Monday after the recess.

BEATING THE HEAT WAVE

Hippy-Hoppity Lost - Saddens 25 'Graduates'

ATLANTIC CITY, N.J. (AP)—Twenty-five kindergarten pupils graduated from the West Side Elementary School today with hearty cheers.

Their first teacher, Mrs. M. J. Hickey, brought to the classroom a number of black and white photographs of the children, crawling along their arms and sometimes onto their foreheads.

"The children loved it," Mrs. Hickey said. "They all drew pictures of him. Even the children from the other classes visited Hippy."

But then during a heat spell this week a door was left ajar and apparently Hippy hopped out.

Cami Bruce, Lobbyist, Back Home

Working for good bills and against bad bills was the chore taken up by Seminole's representative of elections, Camille Bruce, during a two-week stay in Tallahassee where she lobbied as representative of the State Association of Supervisors of Elections.

Mrs. Bruce, from her office in the courthouse today, reports the state association has 1760 representatives on hand during the whole session.

"We apparently have been effective," Mrs. Bruce declared, explaining bills which the association opposed, to call for use of automatic machines throughout the state, were defeated in both houses. "Votomatic leaves too much room for fraud," she said.

The state group supported bills to make mandatory the use of voting machines in all 67 counties of the state, opposed one calling for only two-week intervals between primaries and supported some 16 other housekeeping bills.

Tanglewood To Hear Fireman

Vol Klidder, of the Goldenrod Volunteer Fire Department, will be guest speaker at a meeting of the Tanglewood Area Civic Association at 7:30 p.m. Monday at St. Richard's Episcopal Church on Lake Howell Road.

He will detail services which may have to be discontinued if more support is not given.

A container grown camellia plant will be given as a door prize.

HELP STAMP OUT STRANGERS

None are quite so alone as the stranger in town, or the newcomer to his neighborhood.

Remember your last move—how you felt as the moving van pulled away, how you more than half wished you'd never come!

Share your new neighbors feelings such as these. Let the rotation of automatic machines throughout the state, were defeated in both houses. "Votomatic leaves too much room for fraud," she said.

The state group supported bills to make mandatory the use of voting machines in all 67 counties of the state, opposed one calling for only two-week intervals between primaries and supported some 16 other housekeeping bills.

Flag Burned ... But Legally

POMPANO BEACH (AP)—An American flag was burned Wednesday in a Play Day ceremony designed as a counter measure to flag burnings staged by anti-war demonstrators.

Burning is prescribed by statute for disposal of banners worn out in service. Ellis Lodge 246 destroyed such a flag before 120 spectators in the lodge building.

Social Security Office 'One Of A Kind'

Sanford has the only Social Security "contact office" of its kind in the country, so far as is known, according to Jack T. Bickles, field representative for the Orlando district.

The booming business in Sanford brought about by new legislation which broadened Social Security benefits and provided Medicare coverage for the first time in July, 1965, made it imperative that space be found to accommodate the increased traffic in claims.

The heavy work load pressures made it necessary to open a full time, five-day a week office.

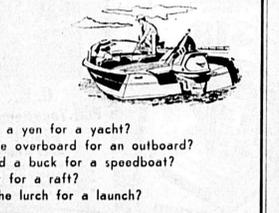

The present facilities opened in rented space at 1309 East Second Street June 10, 1966. Previous to that time the Sanford area was serviced by representatives from Orlando on a two to three day a week basis with the worker using the City Hall for a space where he could conduct claims "with a briefcase on his hip," as one worker commented.

The parent office is still Orlando and Peter Hirsch, the field manager, has primary responsibility for the Sanford operation. The local office offers the same service as that obtainable at the Orlando office and assures Seminole Counties of excellent service from 9 a.m. to 4 p.m. daily.

Manned by a staff of four full time persons, the office is under the direct supervision of Bickles, who is the Seminole representative. He handles any calls out in the county for which a person is unable to come in to Sanford.

Much of the local office work load and interviewing is done by Mrs. Dorothy Peterson, head of Forest Peterson, head of the Leebing Social Security office. They reside in Mount Dora. Mrs. Peterson has worked with the administration for six years in the Orlando, Lakeland, Tampa, and Spauldingburg, S.C. offices.

Mrs. Frank (Betty) Akers, of

Got a yen for a yacht? Gone overboard for an outboard? Need a buck for a speedboat? Daft for a raft? In the lurch for a launch?

Complaint Filed By Civic Group

By Maryann Miles

Complaint based upon "gross traffic hazards, unimproved parking and general failure to uphold the premises" of the Flora Market on SR 458 across from Weatherfield will be referred to the Seminole County sheriff's department and Florida Highway Patrol by the Forest City Community Association.

The Flora Market is an open, unroofed merchandising area, operated by part-time vendors. Complaint was lodged by a member of the association and was discussed by general membership at the June meeting Tuesday at the Bear Lake School.

The organization, after discussion, felt that "it did not wish to interfere with a legitimate enterprise but that the traffic problem should be referred to the proper authorities."

Complaint also was filed that site of the association's community center is being used as a dump. A sign will be erected to notify the public that the site is "private property and not to be used in lieu of the county dump."

In other matters, the group became the first in the South Seminole area to take advantage of new state laws allowing the legal playing of bingo as a fund raising venture. It was opinion of the membership that "a strictly controlled game, complying with state laws, would not be offensive to the area and plans are being developed to begin immediate arrangements to hold bingo once each week in the Forest City Shopping Center. Dates and times will be announced upon completion of scheduling.

The sale of fine sets of the 50 states in the United States and of the 100 or more nations of the United Nations also are announced as a fund raising project and proposal was considered in the past.

Israel's Shapely Girl Soldiers Termed 'Chen'

TEL AVIV, Israel (AP) — Trying to look as chic as war in the desert will allow, Israel's shapely girl soldiers have been right behind the front-line troops in the Middle East war.

"They call them 'chen' for 'charm,'" said Col. Stella Levi, commander of the women's corps. The girls made an invaluable contribution to the military in Sinai and the conquest of the Jordanian bulge west of the Jordan River — as secretaries, field nurses and radio and telephone operators. They also belong to fighting units, but serve only in auxiliary capacities.

The Israeli girls were in the conquered areas of Sharm el Sheikh, Egypt, and Jericho, Jordan, today. Most are 18 to 20 year olds doing their 26 months compulsory military service, although several thousand women reservists up to age 34 have been on active duty this week. "Look at that, they're our secret weapon in this war," said one air force sergeant pointing to three girls speeding along the runway at El Arish, Egypt, in an Egyptian jeep.

Col. Levi said in an interview that her officers did nothing to discourage the girls from showing feminine charm. "It raises morale," Col. Levi said. The "Amazon in uniform" image of the Chen Corps is definitely out. In the age of the miniskirt, Col. Levi admitted she was lenient to girls who raised their skirts a little above the knee length required by regulations. "But we will not accept all the dictates of Carnaby Street," she added.

"The Israeli girl is brought up from kindergarten age with a sense of equality. She attended coeducational schools. At the age of 18 the girls have reached the age of searching, and we give them guidance and perhaps a more mature outlook on life," said the Chen Corps commander.

The watermelon has been cultivated for more than 4,000 years, according to the Encyclopedia Britannica.

MOD MODE — Beneath the checkered psychedelic makeup is the face of dancer Kathy Gale. She's all made up for a Hollywood tap, of a summer television show.

BRENDA Lee Hanscom, five-year-old daughter of Mr. and Mrs. Kenneth A. Hanscom, 513 Granada Court, is a patient at St. Jude's Children's Research Hospital in Tennessee, where she is undergoing treatment for leukemia. The first Seminole County child to be treated at St. Jude since the local chapter of ALSAC (Aiding Leukemia Stricken American Children) was chartered last November, Brenda is accompanied by her father who will remain with her during her stay in the hospital.

Social Security Answers

Q. My mother is 60 years old. My father drew social security until his death two years ago. At that time she received a burial allowance and was told to come back at age 62. She is not able to work and has never paid social security tax of her own. I read that she may be able to draw a disability on my father. Is this true?

A. No. A widow cannot draw disability benefits on her husband's record. However, a widow may now draw a reduced monthly payment at age 60 instead of waiting until age 62. She should contact her nearest social security office for details.

Q. I am 66 years old and I signed up for medicare 1 a 1 July. I received a card showing I had hospital and medical insurance coverage. I had only \$40 in doctor bills last year. Can I use any of these bills toward 1967?

A. Since you did not use the \$40 to meet the \$50 deductible in 1966, any bills for October through December can be used for this year's \$50 deductible.

Q. I will soon be age 62. I wrote back to South Georgia for a birth certificate but it was not recorded. What can I do now?

A. Take any record of your age you have to the social security office. This may be an old family Bible or old insurance policy. They will advise you if more evidence is needed and help you get it.

Q. I need help in filing my medicare claim. Where should I go for help?

A. Your nearest social security office at 1202 E. 2nd St. in Sanford.

Rummage Sale

The Men's Club of Calistoga Methodist Church, Sunland Estates will sponsor a rummage sale from 9:30 a.m. until 6 p.m. Friday and Saturday, in the old Western Auto Building on First Street in downtown Sanford. On Friday, members of the Woman's Society of Christian Service of the church, in conjunction with the sale, will offer baked goods as an added attraction.

Kirk's Road Bond Program

Two days before Hayden Burns was inaugurated as Governor of Florida, he defeated the foe told to make a case as a result. "Hayden is not a man who makes small mistakes. Sometime in the two years he's up there, he will make one big one."

Robert King High was right. Burns' mistake was his attempt to get a \$300 million road bond issue approved by the voters.

Miami Mayor High stumped the state against it. The road bond issue lost. From that day until High beat him in the 1966 Democratic runoff, Burns was a lame duck governor.

Recounting this ancient history serves the purpose of pointing up the difference between then and now.

Gov. Claude Kirk wants to put a \$375 million road issue before Florida voters as quickly as possible.

There is no capital improvement fund which would enable us to pay cash or pay as we go.

The five year plan for 11,000 miles to be added to our primary system will be so far along by the time another Governor might take office in January, 1971, he wouldn't stop it if he wanted to.

Whether Burns was right or wrong is of no moment now.

Kirk has sold the voters on his fiscal program and if he suggests the road bond issue is best, there seems little chance the people will knock him down in a test vote.

James Marlow

Analysis Of The News

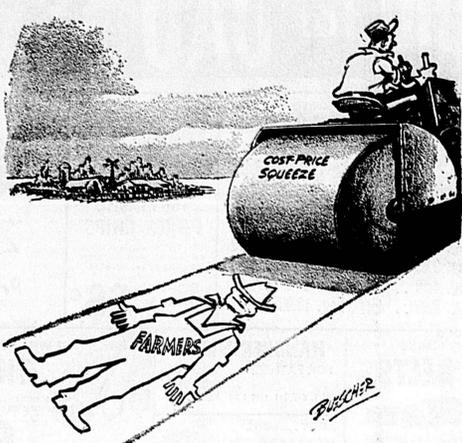

WASHINGTON (AP) — Some critics of the Supreme Court get their idealism and realism mixed up. It happened this week when it tightened the screws even further against police "bugging"—electronic eavesdropping—in criminal investigations.

The court threw out the brief conviction of Ralph Berger, a Chicago police relations man. The decision was a light fl. 5 to 4. It was a good example of how nine justices can look at the same problem and draw opposite conclusions.

The key in this case is how the Constitution's Fourth Amendment was interpreted.

That amendment says "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall be issued, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the persons or things to be seized."

With these constitutional requirements in mind, New York State passed a law which says

FLAT COUNTRY

Dr. Crane's

Worry Clinic

CASE C-570: Harry J., aged 36, is a salesman.

"The Queen" his attractive wife began, "Harry is a very talented man and I love him. But I am afraid we are heading for a divorce unless he can learn to face up to his problems."

"Instead of doing that, he always tries to run away by means of the whiskey bottle!"

"In the last 10 years, he has lost 6 excellent positions just due to his being drunk."

"For he will set the world on fire and be top man on the sales force for maybe a year."

Letters

Editor, Herald:

Would like to reply to your remark about the Welcome Wagon club holding their meetings in Orange County, and that is only because of a lack of place in Seminole County that can accommodate 30 to 50 people serving them a lunch.

Kirk has sold the voters on his fiscal program and if he suggests the road bond issue is best, there seems little chance the people will knock him down in a test vote.

Bruce Bissat — Ray Cromley

Political Notebook

WASHINGTON (NEA) — late 1966 proclaimed the strait to be an international waterway based on a World Court decision on the Straits of Corfu; U.N. troops blocked Egypt from enforcing the blockade.

No real attempt was made to find a permanent solution.

In the last 10 years, a determined effort should have been made to secure some sort of agreement on Tiran and Suez or some permanent international means of guaranteeing free passage through Tiran.

4. More could have been done to reconcile Arab-Israeli differences on the use of water from the Jordan River. If the Arabs are angry over the amount of water Israel is withholding, part of the water the Israelis are taking, the Arabs say, rightfully belongs to them.

This reporter was born in a western state which for years has been contesting for Colorado River water. Water rights arouse deep emotions.

There are some administrative men who say these issues are not crucial in this crisis. They hold Nasser's actions re-ferred from his burning ambition to create and lead an Arab coalition and to recoup the status he lost in his quick defeat by the Israeli armies in 1966. They say he has fomented trouble with Israel to achieve his ends.

Be that as it may. If the above problems had been solved, Nasser would have found it more difficult to whip up his people and other Arabs to war pitch.

Hal Boyle Says:

NEW YORK (AP) — Jumping to conclusions.

The average man today says he'd like to live to be 100. But few who reach that goal yearn to make it to 150. Most centenarians would rather be 80 again.

It is easier to reform an alcoholic than an inveterate gambler. The alcoholic can substitute coffee or candy for liquor, but the reformed gambler finds it harder to discover another outlet for his betting vice.

A good enemy is far more helpful than a bad friend. At least the enemy will keep you on your toes.

Isn't it surprising how few young men lately have proposed marriage in a canoe or a hammock? They used to be very popular places for sealing a romance and plighting a troth.

Nothing gives you more of a feeling of the continuity of life than to plant a tree in your childhood and come back in your old age and find it flourishing.

The guy in this civilization who always pays his bills in cash has the most trouble when hard times come—because he hasn't built up the reputation of being a good credit risk.

If it weren't for hypochondria, half of the doctors in the United States would be driving smaller cars.

A marriage is headed for the rocks if a wife feels she has to buy a two-seated power lawnmower in order to spend more time with her husband.

Few great pickpockets have been left-handed.

No man ever helped a grown, healthy woman sit down at a formal dinner without maddy wondering at the back of his brain, what would happen if he suddenly jerked the chair from beneath her and let her take a pratfall. It is perhaps the civilized man's most recurrent day dream.

Whenever I see an elderly man talking along the street, with his cane—but still jaunty wearing a fresh flower in his lapel like a flag of courage—I feel like throwing him a salute.

The girls are wearing their miniskirts so short this summer that it seems rather like a waste of time to go to the beach to see how little they wear there.

No matter how well a man builds a picnic fire, you can bet your bottom dollar that some woman in the crowd will sneak up and take a poke at it, certain that she can make it burn better.

Inside every assy, misdeed teenager, there's a really nice human being struggling to get out.

Barbs

By WALTER C. PARKES

They're making it so hard to confess a crime these days that a lazy crook must be tempted to take the easy way out and go free.

Why does a presidential candidate knock himself out to get into the White House and then try even harder to get out of it every minute he possibly can?

Little old ladies are supposed to drive their cars only on Sunday afternoons. (Source: used car dealers.) Then who are all these LOL poking along in front of us every day, including Sunday?

ix2

means 1 column by 2 inches. Too small for an ad to be noticed or effective? You're reading this one!

Homemaker's Corner

with a plate and allow to steam 3 to 6 minutes. Then toss let to 6 and serve on warm plates. Makes 4 servings.

Pennsylvania Dutch Cake
1 1/2 cups sifted flour
1 1/2 cups sugar
1/2 cup shortening
2 to 3 tsp. cold water
Combine flour and salt. Cut in shortening until mixture is consistency of corn meal. Stir in cold water. Put dough on wax paper. Press and knead gently into ball and let stand for 15-20 minutes at room temperature while sauce is being made.

SAUCE
1/2 cup margarine
1 cup firmly packed brown sugar
2 tsp. light corn syrup
1 tsp. instant coffee
1/2 cup hot water
Combine margarine, brown sugar, light corn syrup and instant coffee in saucepan. Place over low heat and slowly stir in hot water and set aside. Roll pastry on lightly floured board to fit a 9 or 10 inch pie plate. Line plate with pastry, letting it extend 1 inch beyond edge of the plate. Turn edge of pastry and make a high fluted rim.

CAKE
1/2 cup sifted cake flour
1/2 cup baking powder
1/2 cup sugar
1/2 cup sugar
1/2 cup shortening
1/2 cup milk
1 egg, unbeaten
1/2 cup chopped nuts or flaked coconut
Measure flour, baking powder, salt and sugar into sifter. Place sifter in mixing bowl. Add sift in dry ingredients. Add milk and vanilla and mix until all flour is dampened. Then beat 2 minutes or 300 strokes. Add egg and beat 1 minute longer. Pour batter into pastry-lined pie shell. Sprinkle with chopped nuts or coconut. Bake in 350 degree oven about 30 minutes. Cake is best served warm. If desired top with whipped cream.

MRS. H. L. JOHNSON
BROWNIE KISSES
2 pkgs. (2oz. each) sweet chocolate (cooking)
1 tsp. butter
2 eggs
1/2 cup sugar
1/2 cup unsifted flour
1/4 teas. salt
1/4 teas. cinnamon
1/4 cup finely chopped pecans
1/2 teas. vanilla
Melt chocolate and butter in top of double boiler over hot water, stirring occasionally. Remove from heat and cool slightly. Beat eggs until fluffy. Gradually add sugar, about 2 tsp. at a time, beating constantly until thickened and light in color. Blend in chocolate mixture. Then add flour, baking powder, salt and cinnamon. Stir in pecans and vanilla. Drop by teaspoonful onto greased baking sheets. Bake in 350 degree oven about 10 minutes or until cookies feel set when lightly touched. Makes about 3 dozen.

Chewy Peanut Butter Bars
1/2 cup granulated sugar
1/2 cup firmly packed brown sugar
1/2 cup peanut butter
1/2 cup shortening
2 eggs, unbeaten
1 teas. vanilla
1 cup unsifted flour
1 teas. baking powder
1 teas. cinnamon
1/2 cups flaked coconut
Cream sugars, peanut butter and shortening together until light and fluffy. Add eggs and vanilla; beat well. Add flour, baking powder and salt; mix until thoroughly blended. Then stir in coconut. Spread dough evenly in a greased 13 by 9 inch pan. Bake in 350 degree oven about 25 minutes or until golden brown. Cool. Cut into bars. Makes about 3 dozen.

FROZEN AMBROSIA
2 oranges
1 pkg. (3-oz.) lemon flavor gelatin
1/2 cup sugar
1/2 teas. salt
1/2 cup boiling water
1/2 cup heavy cream
1/2 cup coconut
Grate rind from oranges to make 1 teas. grated rind. Peel and section oranges, set aside. Dissolve gelatin, sugar and salt in boiling water. Then drain orange sections, measuring juice and boiling water to make 1 cup; add juice mixture to gelatin mixture. Chill until slightly thickened. Whip 1 he cream. Fold coconut, orange sections and rind, and whipped cream into the slightly thickened gelatin. Pour into freezing tray or shallow pan. Freeze until firm—3-4 hours. Makes 6-8 servings.

WILTED LETTUCE
1 medium heads, leaf lettuce
1/2 bacon slices, diced
1/4 French salad dressing
1/2 teas. celery salt
2 tsp. chopped chives
2 tbsps. vinegar
1 tsp. sugar
Tear or cut lettuce into bite sized pieces and place in a bowl. Saute bacon in skillet until brown and crisp. Add remaining ingredients; bring to a boil. Pour over the lettuce, cover

Luncheon Fetes Kay Sergent

MISS KAY SERGENT was honor guest at a recent graduation luncheon given by Mrs. Irving Pryor. Shown at the luncheon table are from left, Mrs. Harold Sergent, mother of the honoree, Miss Sergent and Mrs. Pryor.

MAYFAIR COUNTRY CLUB was the site Saturday for a gala cocktail party preceding the Sanford-Seminole Jayces installation banquet at the Civic Center. Guests included all past presidents and directors. Host and hostess, Mr. and Mrs. James Rowe, couple at left, greet Mr. and Mrs. Wayne Albert. Albert was installed president.

Dear Abby:

By Abigail Van Buren

DEAR ABBY: I must write you while I am still in a state of near hysteria. My husband eats so fast, he's practically wasted because he's finished with his meal in five minutes. It's not due to boredom, either. We always have plenty to talk about, but he races thru his meal and rushes me so that he can have his coffee. I finally got my point so I asked him what his problem was and he said to ask Abby. So I'm asking you.

MRS. T.

DEAR MRS. T.: It's probably due to habit. At one time your husband acquired the habit of holding his food, and he continues to do so even though there's no need for it. You can subtly remind him to start eating when you start a civil war, do so. (It will be better for his digestion.) And for Father's day, get Old Speedy and electric coffee maker, set it in the table and let him help himself to coffee while you're still cooling your soup.

DEAR ABBY: Since most

of the younger set are pre-occupied with sex, here's an old timer's rating of the facts of life after 27 years of marriage and a slew of kids:

Sex . . . 0
Comfort and companionship . . . 100

Guy, find a girl you enjoy talking to. One who likes to cook and keep house, and if she looks like a gummy sack full of pumpkins, so what? Life with a beautiful woman is sheer purgatory, they tell me. I wouldn't know, and I'm afraid of it.

HARRY (VALLEY CITY, N. D.)

DEAR ABBY: I have a very nice electric clock, it's a small one in an attractive wooden case and I keep it on a drum top table in the living room, but my wife says that according to Emily Post, it is not permissible to put a clock in the living room. I enjoy it for my own pleasure, and it's so handy so I don't have to go elsewhere for the time. I am 78 and my wife is 74. May I have your opinion? I thank you.

F. A. W.

DEAR F. A. W.: A clock belongs where it affords the most convenience. Leave it in the living room and tell your wife that Abby says it's all right.

DEAR ABBY: People who complain about television commercials give me a royal pain in the neck.

Don't they realize that it's the commercials that make it possible for us to get all that entertainment on television for free?

Those complainers who tell me that if they had to put a quarter in every time they wanted a few hours of television, they don't like it. So what? They don't like it, but they don't stop it. They don't stop it, but they don't stop it. They don't stop it, but they don't stop it.

Troubled? Write to Abby, Box 69700, Los Angeles, Cal., 90069. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 69700, Los Angeles, Cal., 90069.

F. A. W.

Jacoby On Bridge

Jacoby and Son

Preoccupation with match point scoring has made American match play bidding very ineffective. Our match point experts have found by experience that we can get reasonably good scores by making overcalls at no-trump or a major suit game. This is done to avoid the danger of getting a minor suit slam.

Boris Raymond and Jimmy Caine of New York are matching point players who are willing to get to minor suit slams. They reason that the slam bonus is worth-while even at a match point. Their bidding of today's hand brought them a well-deserved good score when most of the field settled for bidding three-no-trump and making three.

Note that Jimmy's return North did respond one heart to start. He wanted to explore

Polly's Pointers

By Polly Cramer

DEAR POLLY: My Pointer has to do with the little name and address tags so generously used today. My daughter is in college and she writes to each other very often. She gave me a supply of her stickers and I gave her a supply of mine and now it is easy to address the letter by using these tags.

BETTE

Polly's note—Also it is easier for the postman than deciphering some of our handwriting.

POLLY'S PROBLEM

DEAR POLLY: The palms of my hands are always moist with perspiration. Is there anything I can do to stop this unpleasant condition?—WINIFRED

DEAR POLLY:—When I have a plain and average face, I use a wooden salad bowl for a pin tray. The bowl does not tip over and the pins will slide to the center where they are more easily picked up.

Place a lazy Susan by the bedside of an invalid. Each section can hold pills, spoons, pencils, tissues, note pads and other small articles. Just a little whir will bring the needed article to the patient's finger tips.

To open an overworked kitchen drawer, insert a spatula through the crack at the top and hold down the protruding object until the drawer can be pulled out.

DEAR POLLY:—Mrs. W. J. I complained about an unpleasant odor in her foundation. I suggest that she write directly to the manufacturer (the name should be on a label somewhere on the foundation) and tell them that her local dealer refused to help and ask what they recommended. Brand names have become very important in our present-day living and most manufacturers cooperate fully with their consumers. I had a similar experience and obtained perfect satisfaction and an exchange from the factory.—MRS. H. C.

DEAR READERS:—I agree with Mrs. E. C. E. No one has a right to fuss and complain if they have not given the manufacturer a chance to get it wrong. I am surprised that a reputable store would do nothing. It is a very simple matter for them to take it up with the company manufacturer. Prove you are an A-1 citizen. Do not take any chances where your credit is concerned.

CAMPHORN (Dec. 20 to Jan. 20) It may be necessary to do some angling in your work or civic duties. Make the right impression on higher-ups that prove you are an A-1 citizen. Do not take any chances where your credit is concerned.

ADVALENS (Jan. 20 to Feb. 19) It would be wise to study some new system thoroughly before you invest in a fine in your own business affairs. Be very familiar with it. High-er-up can be very irritated, but don't take harsh remarks personally.

PINGS (Feb. 20 to March 20) Some intuitive urge could certainly take you into the realm of real trouble if you follow through on it. Follow good judgment. Consult with trusted friend before you come to any serious decisions.

IF YOUR CHILD IS BORN TODAY:—he or she will have such a wonderful present that others will want to spoil your progeny early in life. Teach early that whatever is personally earned is most appreciated and bring lasting health to keep progressing meticulously, and be as efficient as possible at all times. Profession requires persistence.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Beauty after Forty

By Edyth Thornton McLeod

A famous designer told me the other day that dresses were going back to normal length, just where they were before the great expanse of knees. So, if you have outfits which you will wear in the fall, do not shorten them. This man knows his designing.

Suits in black and white look smart. One of the new suits is shown with a deep green blouse. A "sharp" little green hat to match made the outfit the hit of a recent fashion show.

A hat frame is used to make a scarf turban in a very smart. Also, you can change hats so easily; perfect for travel, too, as scarves need a bath. And you can match or harmonize any outfit. Look into it.

Another new idea for scarves is to drape one carefully around simple sheath into a real creation. Pin at the shoulder with one of these enormous pins in

colored enamel, such as a daisy or a rose.

Bella is making a big splash in the world of women who want to be in fashion. Metal belts of links are very attractive but only for the slim waistline. Belts or belts with links to match the costume can give a new look to long gowns. The belt, also, taking in the waistline will, perhaps, make a straight sheath just the right length for now.

Beautiful long pins with bows at the ends are perfect if you wear your hair in a French roll, as do. A friend brought me a pair from California. They're just right; they're an answer to a prayer. I also tend to wear them through the crown of a lacy black straw hat which has no trimming.

And I'll wear the pins to hold my "turban" of false hair. Look for these pins in the shops.

Tomorrow: So Do the Usual

Horoscope Forecast

FRIDAY, JUNE 16, 1967

GENERAL TENDENCIES: A day and evening to make sure that you are completely cooperative in your relations with all others, so make a special point to listen to what they have to say and then try to put into effect some course that can bring you in a greater accord with them. A smile easily dissolves what could be harsh opposition.

ARIES (March 21 to April 19) Everyone seems to be in an odd mood today, so be sure you control your temper otherwise there could be many arguments, much trouble. Soothe them as well. Give support to those who are in need.

TALIS (April 20 to May 20) Add the brick-bat, etc., that will make your abode, office, more inviting as well as efficient, comfortable. Be sure you finish dull duties quickly. Then you have time for the social and recreational that please you in need.

GEMINI (May 21 to June 21) Assist those who are your good friends in whatever is important to them and you gain their cooperation for your own progress. A helping hand to some worthy young person could be greatly appreciated. Be wise.

MOON CHILDREN (June 22 to July 21) Make your home more comfortable and beautiful than it has been in the days past and improve harmony there. You need good allies to assist you with problematical affairs. Ask for their advice.

LEO (July 22 to Aug. 21) Concentrate on how to be really operative in your daily work; get some measure of what could be most helpful. Take all factors into consideration. You are probably doing just about one-half of what you are capable of.

VIRGO (Aug. 22 to Sept. 21) Now that your home and office are in the order, plan how to increase your income intelligently. First get rid of unnecessary expenses. Then give you some wonderful new ideas with complete confidence. They are and be sure of details there.

LIBRA (Sept. 22 to Oct. 21) Endeavor to be diplomatic with others in furthering your ideas instead of being overly dramatic with them. Some delay is also necessary. Use that special charm you have and delight others.

SCORPIO (Oct. 22 to Nov. 21) There are certain perplexities that seem to have now been solved, but earnest study clarifies them. The evening is not so good for romantic love. Stay in a somewhat nervous atmosphere.

SAGITTARIUS (Nov. 22 to Dec. 21) If you are in a dilemma with your goals, you can turn them away from you so use diplomacy, kindness, and a better day to ask for favors. Avoid the social. This could really disappoint now.

CAPRICORN (Dec. 22 to Jan. 20) It may be necessary to do some angling in your work or civic duties. Make the right impression on higher-ups that prove you are an A-1 citizen. Do not take any chances where your credit is concerned.

ADVALENS (Jan. 20 to Feb. 19) It would be wise to study some new system thoroughly before you invest in a fine in your own business affairs. Be very familiar with it. High-er-up can be very irritated, but don't take harsh remarks personally.

PINGS (Feb. 20 to March 20) Some intuitive urge could certainly take you into the realm of real trouble if you follow through on it. Follow good judgment. Consult with trusted friend before you come to any serious decisions.

IF YOUR CHILD IS BORN TODAY:—he or she will have such a wonderful present that others will want to spoil your progeny early in life. Teach early that whatever is personally earned is most appreciated and bring lasting health to keep progressing meticulously, and be as efficient as possible at all times. Profession requires persistence.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

THE BORN LOSER

DEAR ABBY: I have a very nice electric clock, it's a small one in an attractive wooden case and I keep it on a drum top table in the living room, but my wife says that according to Emily Post, it is not permissible to put a clock in the living room. I enjoy it for my own pleasure, and it's so handy so I don't have to go elsewhere for the time. I am 78 and my wife is 74. May I have your opinion? I thank you.

F. A. W.

League Of Women Voters Celebrates Birthday

By DONNA ESTES
 "Only as each citizen believes in self-government so strongly that he is willing to make a personal effort to use political power can self-government become a reality. To spread this faith the League of Women Voters was born. For this it lives."
 These remarks made by Mrs. Walter T. Fisher, former national board member, summed up one of the motivating influences of the Provisional

League of Women Voters of Seminole County since it was recognized as a provisional league June 27, 1966.
 Report of progress made by the League since its recognition were made at the recent annual meeting. Sixty women have joined the local group whose purpose is to promote informed and active participation of citizens in government. The League is a nonpartisan

organization open to all women citizens of voting age who believe in representative government.
 Present officers of the League, elected to serve through the provisional period are Mrs. James Bilderbeck, president; Mrs. Charles Tetenbaum, first vice president; Mrs. James Murphy, second vice president; Mrs. John Wilson, secretary and Mrs. Philip Perry, treasurer. The directors,

five of whom are elected and five appointed, are Mrs. John Bowers, Mrs. Carson Blue, Mrs. L. E. Britton, Mrs. A. P. Hule, Mrs. James Knoblock, Mrs. Gregory Paulk, Mrs. Wayne Smith, Mrs. James Walter, Mrs. F. D. McCollum and Mrs. Leonard Munson.
 The local League is a part of the League of Women Voters of Florida and the League of Women Voters of the United States. A provisional period is

required as a learning period for new groups to learn politics and procedures and reach certain standards. There are 1,227 local Leagues in the 50 states.
 During the past year an analysis of the community was made by the local government study committee of the League. The analysis included a history of the county, geographical and population, political analysis, economic

characteristics, social characteristics, civic organizations, education, publicly media and structure of local government. Programs covering the background of county government, popular control of government, education and structure and functions of county government and staff service were presented either in unit meetings or in general meetings. At least one observer at

tended the meetings of the Board of City Commissioners and the School Board each time they met.
 The League also has studied proposed revisions of the Florida Constitution and federal legislation applicable in Seminole County. The People's Republic of China has been an area of study also.
 Prior to the March elections the League sponsored an "Anti-Mated Ballot" program, a presentation of state legislative

candidates and distributed over 2,000 sample ballots and amendment brochures.

By LARRY VERSHEL

Our Man Claude is expected to pick a public defender for Seminole and Brevard by July 1... Plenty of in-fighting for the job... Al Pitts, Tommy Speer, E. Pope Bassett and Wallace Hall interested... Mr. Bassett got slumped down in Brevard by the GOP and Mr. Speer... well, he switched his allegiance from Democratic to Republican a few days ago... so...

County Commission Chairman John Alexander refused to show us the road department's proposed new budget.
 Consenting the news? "No, I just think the County Commission should see it before the public does," he answers. Okay, Alexander, that's one I owe you.

BULLETIN — The word is out that all county department heads can't give the press any budget information... everything has to be checked first by Mr. Alexander.
 Okay, Johnny, that's two I owe you!

State Sen. Bob Elrod had his eyes opened yesterday as he toured Georgetown and Goldboro for a look-see on whether urban renewal was justified for the area.
 Riding along with three city commissioners and City Manager W. E. Knowles he saw the horror of homes (?) without windows, running water. He saw the filth and squalor and the poverty... He saw it all...

Out of 600 homes in the Georgetown area 150 are dilapidated and 180 on the borderline.
 Have buddy do yuh think there's an emergency here?
 He saw the substantial homes where the alibi lords get fat and collect their \$50 a month rent checks for one month stacks.

Aw come on buddy, yuh say there's no emergency here.
 In the Goldboro area of 780 homes (?) 210 are dilapidated and 315 are on the borderline.
 Please, buddy, you gotta see there's an emergency...

Sen. Elrod... Remember Pine St... the dirt... remember when you get to Tallahassee and say Sanford doesn't need urban renewal... Isn't it too bad the commission didn't take a tour in December before they killed Vince Roberts' motion on urban legislation.

Good old Pine St... that's where Community Action meets and talks about the poor... Oh, pity the poor and let's give the assistant director a \$1,200 a year raise... No, let's make it \$1,800... What the heck, Lyndon has plenty of money... and the executive board goes home in their new cars, puts on the air conditioners and feel pleased with themselves that they are doing something good for the community.

A CONVERSATION WITH STATE SEN. ROBERT ELROD
REPORTER—Okay, Bob you saw Sanford... You got the \$5 tour... what do yuh think of our chances for urban renewal now?
ELROD — Very good... Of course I can't speak for the delegation but with these referendum safeguards... I think...
REPORTER—Do yuh think there's an emergency?
ELROD — Oh yes.

How come provision in Alameda's new charter to permit the pursuit by the police department into Orange County was stricken from the charter on motion by Rep. E. Pope Bassett and provision allowed to remain in Matland's charter giving it the right to pursue into Seminole County? Isn't turnaround fair play? We are sure that the fact Bassett is city attorney in Matland wouldn't have anything to do with it.

REALTORS TO MEET
 Seminole County Board of Realtors will meet at 7:30 p.m. Monday at the Florida State Bank Lounge.

DYNATRONICS TO OPEN TEXIZE PLANT IN SEPT.
 The new Dynatronics plant on W. 20th St. to employ from 300 to 400 engineers is expected to be in operation by September, The Herald learned today.
 Dynatronics officials have indicated it will employ close to 400 engineers with annual individual salaries up to \$25,000, increasing its 1967 payroll of \$2.5 million to \$3.5 million for the fiscal year 1967-68.

FAST ACTION BY THE SANFORD PORT AUTHORITY TO COMPLETE FINANCING BEFORE PENDING BILLS IN THE STATE SENATE SET DIFFICULT DEADLINES IS URGED BY SEN. BILL GUNTER—Orange-Seminole Counties—in a "first report" to his Sanford constituents. Speaking at a meeting of the Sanford-Seminole Jaycees yesterday, the Democratic senator who survived the Republican onslaught in the state legislature, said the bills are the "most dramatic and most important" legislative actions in terms of Central Florida interests.

In doing so he explained the difficulties which the small and medium sized counties have in Tallahassee with the vote preponderance resting in the urban counties. Around the rural corridors he noted with a

Engineer Seeking \$\$\$ Increase

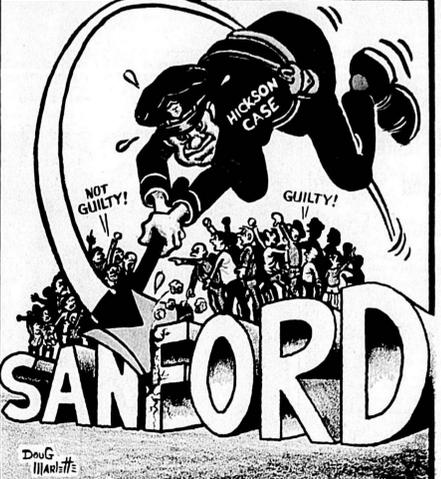

The office of the county engineer William Bush, will ask an increase of \$6,000 over last year's approved budget of \$32,000, the Herald learned today.
 The budget to be submitted of \$38,000, will include funds to hire an additional man to take on all inspections of subdivision road work, Bush said. The \$38,000 figure also includes social security and overhead of the engineering department.
 Budget of the road department was not available to the press. County Commission Chairman John Alexander promised, however, the budget would be available following review by the commission.
 In explaining his need for an additional man in his department, Bush stated more and more inspections are being demanded of his department. There are five times as many subdivisions being constructed this year than last year.

Reider Ave. Assessment Approved

The paving assessment roll for Reider Avenue was accepted by the Longwood City Council following public hearing Thursday evening. Paving of the street was completed recently by Orange Paving Company of Altamonte Springs. Engineers on the project was A. E. O'Neill and Associates of Orlando.
 Total cost of the paving was \$3,500 including \$918 engineering fees. Paving assessment is \$232 per front foot.
 Following the public hearing, the council held a discussion with Walter J. Krohn to discuss the possibility of the city annexing property west of Longdale with the view toward placing a manufacturing facility there.

Acquittal Verdict Asked

A directed verdict of acquittal was asked for Joe Hickson as the Civil Service Board/affidavit to the final four hours of the money last night.
 Hickson's attorney Gordon T. Hickson, asked for the verdict.
 There were no allegations by the dismissing authority on jurisdictional grounds on the charges.
 "All allegations on jurisdictional grounds to support the grounds," said the attorney, "are not supported by competent, substantial proof and do not meet the legal requirements for dismissal."
 The board reserved ruling on Frederick's motion and agreed to meet next Tuesday at 7 p.m. to hear final arguments in the case. At that time each attorney will be given 30 minutes to wrap up the case.
 Afterwards, the board will go into executive session and probably hand down its decision. Last night was the seventh session of the prolonged hearing on Hickson's dismissal from the police force.
 Frederick continued to ham-

City To Argue Merits Of Urban Renewal Cause

Members of the Sanford City Commission are expected to go to Tallahassee early next week and argue the merits of urban renewal before the legislative delegation.
 State Sen. Bob Elrod turned the Georgetown and Goldboro area yesterday and said he was impressed that there was a definite emergency here for urban renewal legislation.
 Last week, upon hearing that urban renewal was dead, The Herald contacted Elrod and urged him to reconsider. He agreed to come down to the City Commission invited him.
 Elrod told Commissioners during the brief one hour tour that as long as there were referendum safeguards it was a good chance the legislative delegation would okay the bill.
 City Attorney William C. Hutchinson told Elrod that without urban renewal, Sanford's chance of being eligible for a "Model City" grant is out the window.

STATE SEN. ROBERT ELROD, (left) and Mayor Joe Baker discuss proposed urban renewal legislation in one of the rundown Georgetown streets yesterday.

Fast Port Financing Urged By Gunter

very smile that "we talk about three parties—the Democratic, the Republican and Dade County." And it was the necessity of arguing, conferring and compromising that took time and caused some criticism on the Orange-Seminole delegation as "dragging our feet."
 The creation of the port itself would make Sanford the "center of a wheel of transportation facilities second to none." But the young legislator pointed out that there are before the Senate two bills, Senate 216 and 218, which have to do with race-track funds and could set upper limits as to amounts counties would receive. Each, however, has a date on which it would become effective and it was to urge the Port Authority to get its financing completed before

such action that Gunter spoke forcefully.
 The senator told the Jaycees that he was backing the move to have a feasibility study made of the proposed moving of the state capitol to a more central location. And while this proposal is being discussed, Gunter urged Sanford voters, organizations and clubs to urge consideration of this city as a "prime spot for such relocation. What's wrong with the Naval Air Station?" he asked.
 He also tackled the tax situation, especially in light of the changes in the gasoline tax formula which resulted in loss to Seminole of an estimated \$1,000. Gunter pointed out that the previous tax had been formulated in 1931, that the change in the formula was "ine-

evitable after re-apportionment." The urban block with its minorities in both the House and Senate had driven for a formula which would have provided for tax return to counties on basis of population alone. It was the job of the smaller counties to again resort to debate, argument and compromise with the result that a formula of 75 per cent on population and 25 per cent on land area was adopted. "We put back \$10,000 which had been taken under the other formula," said Gunter.
 In a question-and-answer period he deplored the vetoing of the senators' know more about what their fellow senators were doing than the representatives. He believes there may be some value in primary tax relief if the Governor will agree to "tax exchange" proposals — dropping one tax and picking up another.

New School Bonds OK'd

Issuance of \$12.4 million in school construction bonds, including \$1,225,000 for three Seminole County schools, has been validated in a decree by the Leon County Circuit Court.
 Schools in Seminole to be constructed with matching funds from the state are Sanford Junior High School, Oviedo and Lyman High. Taxes collected from motor vehicles will pay the 4 1/2 per cent bonds.
 Architects on the three schools are John Barton, Sanford Junior High; Sweitzer and Sweitzer of Winter Park, Oviedo and Watson and Company of Orlando, Lyman.
 According to the State Education Survey team report needed for the school \$2,270,454 for Lyman; \$1,890,250 for Oviedo and \$1,722,888 for Sanford Junior High.
 However, with only \$2.5 million available, the schools will be constructed in two phases. Schematics for SJH and Oviedo are expected to be submitted by the architects at the next school board meeting. First phase at both schools will cost \$600,000 each.
 Appointment is expected before June 20, when the resignation of Supt. R. T. Milwee is on terminal leave.
 Several names have been suggested for the appointment but it is expected the GOP advisory committee will recommend one of two Republicans: William Gorench of Winter Park, math teacher at Seminole Junior College or William Proctor, former Lyman High School coach now working for his master's at Florida State University.
 Seminole County School Board has recommended Democrat, John Angel, principal of South Seminole Junior High School, and also favors another Democrat, W. L. Teague, administrative aide to Milwee for the last 14 years.
 Governor Kirk's press secretary, James Wolf, informed The Herald the Chief Executive expects to make an appointment before June 20.

SJC Funds Are Termed 'Inadequate'

Wholly inadequate was the term used today to describe allocation in the appropriations bill of the House of Representatives for Seminole Junior College by informed sources.
 The appropriations bill, which Gov. Claude Kirk is expected to veto, calls for allocation of \$1,307,319 for the Junior College's construction account. The school board and the college had been hoping for at least \$2.5 million and had felt \$4 million would be more in line with the needs of the school.
 The expected veto and resulting further pining in the allocation, sources say will result in "utter disaster." The School Board held a meeting with Leo Henderson of the State Education Department late last summer. At that time they discussed \$2.5 million for the college's construction fund and were convinced by Henderson, \$4 million was a more realistic figure for the county growing as it is.
 Sources agreed allocation for the vocational-technical construction fund is more realistic with allocation totaling \$328,360, very near what the local board had requested. Estimates by the local board had been approximately \$500,000 plus study funds.
 Allocation of \$12,000 is listed in the bill for the Junior College in the event further funds become available.
 School officials were not impressed that there was a definite emergency here for urban renewal legislation.
 Last week, upon hearing that urban renewal was dead, The Herald contacted Elrod and urged him to reconsider. He agreed to come down to the City Commission invited him.
 Elrod told Commissioners during the brief one hour tour that as long as there were referendum safeguards it was a good chance the legislative delegation would okay the bill.
 City Attorney William C. Hutchinson told Elrod that without urban renewal, Sanford's chance of being eligible for a "Model City" grant is out the window.

Elks Program

Annual Elks Club and Father's Day program for Elks and their guests will be held at 3 p.m. Sunday at the Elks Club, Capt. Herbert N. Houck, Sanford Naval Air Station commanding officer, will be the speaker. Winners will be named in the Americanism essay contest.

Grocery Store Burglarized

Deputies today are hunting for a pair of thieves who did their grocery shopping at the Little General Store in Altamonte Springs Wednesday when the store was closed.
 Sheriff J. L. Hobbs reported a sum of \$150 worth of merchandise taken from the premises.
