Market Report

(Continued from Page One) damage to tomatoes and about 25 per cent damage to cucumbers. Market Manager Frank E. Conner reported that prices have been good and quality excellent, with volume of offerings on the daily auctions expected to rise during the coming week.

"Snap beans, red bliss potatoes, iceberg lettuce, squash, English peas, cucumbers, strawberries, celery and cabbage were being sold by Seminole County farmers and those of adjacent territory through the Sanford State Farmers' Market during the week.

Legal Notice

NOTICE AN ACT TO Create and Establish a Municipality to be known as the Town of Midway in Seminole County, Florida, and to provide for the government, powers, and privileges of said town, and to amend the Constitution of the State of Florida in this behalf.

NOTICE TO APPEAR TO ARCHIE WILLIAMS, who residence in Kistock, Long Island, New York, and whose mailing address is P. O. Box 646, Wantagh, Long Island, New York.

Season began to get under way at Plant City during the last week. Manager R. E. Johnson of the State Farmers' Market in that city reporting the handling of 6,457 units for a gross cash total of \$21,163.55.

"Importance of the gladioli business in the Fort Myers section was shown clearly by this week's report from John C. McEwen, manager of the Fort Myers State Farmers' Market. Buyers operating on that market had shipped 5,500,000 of these flowers through April 15.

Truman's Speech

(Continued from Page One) clear. One cloud is shadowing our economic future. That cloud is the sharp and rapid rise in prices. Some say, "he continued, "this cloud is certain to burst, they are sure of a recession or a depression. I do not share their belief that either of these is inevitable."

Priest's Condition Fair After Stabbing

NEW ORLEANS, Apr. 21—A Catholic priest, the Rev. James Courtney, was said to be in fair condition today in Mercy Hospital where he is being treated for knife wounds suffered at the altar of the Church of the Immaculate Conception.

"The priest's attacker was identified by Police Sergeant Clarence Molinero as Don Laurentz. He is being held on a charge of aggravated battery."

Voters In Germany Reject Communism

ESSEN, Germany, Apr. 21—German voters in the British occupation zone rejected Communism as a cure for their economic ills in yesterday's parliamentary elections in the states of Niedersachsen and Schleswig-Holstein.

Cigarette Price In London Halts Buying

TELEPHONE WAGES ARE GOOD

Wage rates for Southern Bell employees have been increased by 75 percent since January, 1941. Only last year and in 1945, our employees received wage rate increases totalling \$26,000,000 annually.

Since wages are the big issue in the strike, let's take a look at the pay operators and plant craftsmen are now getting in Sanford. Most of our people are in these groups.

The basic work period is a five-day, 40-hour week. Non-supervisory employees are paid overtime for time worked over 8 hours a day, premium time for Sunday and holiday work, and higher than basic rates for evening and night duty.

What Does An Operator Make?

A girl just out of high school, with no previous experience, starts as an operator at the basic rate of \$25.00 per week, but if she works after 9 P. M., she gets \$26.50, and if the work includes Sunday work, she gets \$29.00.

The beginning operator gets three raises in pay the first year and two raises the second year. She receives other periodic increases until she reaches a basic wage of \$34.00 per week at the end of 8 years.

If she shows aptitude and ability, she has many channels of advancement open to her—more responsible jobs at higher pay. In our organization, hundreds of such promotions are made every year.

What Does An Installer-Repairman Make?

A youngster just out of school, with no specific training, starts with Southern Bell as an installer-repairman at \$27.00 for a basic 8-day week. In just two years, he is earning

\$38.00 a week, and periodic increases raise his weekly rate of pay to \$58.00 in 8 years. He gets overtime pay, of course, for work beyond the basic work week. And he has many opportunities for promotions to jobs carrying greater responsibility, with higher pay.

Good wages are only part of the telephone job. There are many other advantages... six holidays a year with pay, paid vacations of one, two or three weeks, depending on length of service; steady, all-year round employment, good working conditions, sickness benefits, at Company's expense, and pensions, with full cost paid by the Company.

We believe most people will agree that the wages of telephone employees are good and that the pay practices and benefits of the Company are fair and reasonable.

The Union, However, Says They Aren't And Wants A Lot More.

They are asking a blanket increase of about \$18. per week in basic wages. But when all of their other demands are added, the total averages about \$27. per week.

Here's what the Union demands would cost - an annual increase of \$69,000,000 in the cost of providing telephone service in the nine southeastern states in which we operate. This is more than 6 times our net income for 1946. It would make our payroll alone over \$2,000,000 more than all the money we took IN LAST year. In terms of the average telephone bill, it amounts to about \$3.30 per month for every one of our 1,731,000 subscribers.

What's this? ANOTHER HIT FOR INGRID BERGMAN!

I AM mighty glad to be able to announce that, starting TUESDAY, in this theatre, Florida State Theatres will re-present as a SPRING FESTIVAL attraction

When the jealous husband deliberately tempts his bride into the arms of his best friend (GEORGE SANDERS) and plots everything from murder to suicide—it's psychological drama at its best!

Add "Rage in Heaven" to the gallery of great Bergman performances!

Nine Persons Are Killed In Plane Wreck

Army Trainer Crashes Into Delta Airliner; Officials On Survey Trip Are Victims

COLUMBUS, Ga., Apr. 22—Nine persons perished in a plane accident at the municipal airport in Columbus today.

A Delta Airlines special plane collided with a reconverted Army basic trainer in landing at the Columbus airport. Both craft burst into flames.

The Delta plane was carrying eight officials of the air lines on an inspection trip through Georgia and Alabama, surveying facilities for new stops on the scheduled routes.

The manager of Eastern Airlines at the Columbus airport said he was informed the training plane crashed into the tail of the Delta ship, as the latter approached the end of the landing strip.

He said none of the occupants of either plane escaped and that both planes burned. The training plane fell underneath the tail of the Delta plane.

Delta headquarters in Atlanta said those aboard the outline plane included the following:

George R. Cushing of Philadelphia, vice president of operations and a veteran pilot who was flying the ship.

Lindley W. Camp of Atlanta, solicitor of the Fulton municipal court, and attorney for Delta. Camp was Georgia adjutant general during the administration of the late Governor Eugene Talbot.

H. B. Bolander, San Francisco and Memphis, Georgia properties; J. V. Little, Cartersville, Ga., district traffic manager; L. T. (Continued on Page 11)

Postmasters To Be Entertained By Glee Club

The Seminole High School Glee Club, under the direction of Miss Ollie Reese Whittle, will entertain delegates of the Florida Chapter of the National Association of Postmasters at the Mayfair Inn on Friday evening at 8:00 o'clock. It was announced today by Postmaster Joe Field.

"There will be plenty of seats for local music lovers who are very cordially invited to attend," said Mr. Field. "There will be no admission charge."

The program, which will be announced later in detail, will include a solo by Huston Babcock, who won first place as a bass singer at the state contest in Tampa recently, and Miss Lillian Moran, piano soloist and accompanist, who won a second division prize.

Delegates to the convention will start registration on Thursday at the Mayfair Inn, said Mr. Field.

At 9:00 o'clock Saturday evening there will be a ball in the Mayfair ballroom with music by Stuart Martin's Orchestra. The public is invited to attend, and tickets may be secured at local drug stores.

Dr. James F. Hosic Talks To Men's Club

Speaking on the subject, "Propaganda and Prejudice," Dr. James F. Hosic of Winter Park and formerly of Columbia University, told members of the Episcopal Church Men's Club last evening of the way propaganda is built up through advertisements and radio.

Dr. Hosic advised his listeners to think for themselves and not to leave everything to legislators in Tallahassee and Washington to do. The supper was served by St. Anne's Chapter.

R. D. Hunter Kills Five Foot Rattler

A five foot, 15 pound rattlesnake was killed recently on the northwest shore of Silver Lake by Ross D. Hunter.

The snake was the second large rattler killed in the area in the past two weeks, Mr. Hunter reported. Both snakes were killed with a HFA.

8 Killed When Terrorists Wreck Palestine Train

JERUSALEM, Apr. 22—Terrorists blew up a British troop train southeast of Jaffa today, killing eight persons, and then machine-gunned the wreckage.

The attack occurred two hours after a pair of condemned Jews committed suicide with explosives just before they were to be hanged.

British Army sources said the train, the Egypt Express, was bringing soldiers from Egypt. The informants said they believe the express was attacked by members of the Jewish underground group, Irgun Svai Leumi.

Four coaches were demolished, apparently by electrically detonated mines under the rails. Explosives and guards are said to have exchanged fire with the attackers, but no one was captured.

One of the dead was a child, while the other victims included one civilian and five soldiers. Those at the scene said they saw arms, legs and other parts of bodies in the wreckage.

It is probable that two dozen other persons were trapped in the debris. First accounts said two soldiers and seven civilians were injured seriously, and 21 other persons were hurt less seriously.

The two Jews committed suicide by clapping explosives, secreted in hollowed oranges, to their chests. They died in Jerusalem prison shortly before they were to have mounted the 13 steps leading to the hangman's noose. Both were underground members and had been condemned for anti-British violence.

An official announcement disclosed, meanwhile, that a ship carrying some 730 uncertified Jewish immigrants has been spotted by British naval craft near the Palestine coast. The announcement said the naval vessels are in touch with the refugee ship, but indicated she has not yet actually been boarded.

Von Papen Reported To Be Hospitalized

NUERNBERG, Germany, Apr. 22—Ex-diplomat Franz Von Papen has been moved from Muenster to new quarters at the Bavarian mountain resort of Garlsbach-pernknirchen. It was announced today. Von Papen was transferred along with other patients in a Muenster hospital for internment when the whole installation was moved to the resort.

The former diplomat had been convicted by a German denazification court. He is said to have been in the hospital for several weeks, but there is no explanation of what the matter was with him.

Quizmaster Kills One Burglar And Wounds Another

CHICAGO, Apr. 22—Police are searching today for the second of two burglars who broke into the Chicago home of radio quizmaster Joe Kelly last night.

Kelly shot and killed one of the burglars, identified as ex-convict Harold C. Franzen, and it is believed the other intruder was wounded.

The master of the Quiz Kids Program was sitting in his living room with his wife and their son, Joe Kelly, Jr., discussing the younger Kelly's impending marriage.

They heard a glass fall in the kitchen. Young Joe got his father's two pistols, gave one to his dad and they both headed for the kitchen. There they saw two men, one in the pantry and another entering the kitchen door. Kelly fired four shots.

Franzen and his companion ran out through the back of the lot into the darkness. A few minutes later he was found dead. However, there were two trails of blood from the house and police think the second bandit was wounded.

Fred L. Priestler Of Lake Monroe Is Dead

Fred L. Priestler, resident of Lake Monroe, died at 4:00 P. M. Monday at his home.

Formerly of Fairfax County, S. C. he had resided in Sanford for 22 years. He was born in Hampton Court, S. C. and at the time of his death was 83 years old.

Free Speech Clause Overlooked By State

BOSTON, Apr. 22—The Massachusetts Legislature is finally getting around to adopting a constitutional amendment guaranteeing the right of free speech. When the state constitution was adopted 133 years ago the free speech clause was overlooked. The omission was discovered two years ago.

Now a legislative committee has recommended that a free speech amendment be written into the constitution. It must be adopted by the current legislature before getting on the ballot as a referendum in the 1948 state election.

Snyder Says Tax Cut Is Unnecessary

High National Income And Employment Given As Reasons To Collect Surplus

WASHINGTON, Apr. 22—Secretary of the Treasury John Snyder testified today before the Senate Finance Committee urging the Senate to kill the income-tax reduction bill already passed by the House.

Snyder argued that a general income tax cut now is not necessary. He said the national income is high, employment is high and taxes do not impose any great hardship on the people. Furthermore, said Snyder, there is still pressure toward inflation, and making people pay high taxes is a good way to raise the pressure. Snyder also said that it would be smart to collect a large budget surplus at this time, to help pay off the national debt, which is now \$29,000,000,000.

The secretary presented similar arguments to the House before the tax-cutting bill was passed, but he was disregarded. The House bill would reduce taxes on high incomes by as much as 10 1/2 percent, and taxes on low incomes by 30 percent. Snyder told the Senate Committee today that even this arrangement is not fair to the lower income groups.

Meanwhile, a suggestion for getting prices down came today from former OPA administrator Chester Bowles.

After a brief conference with President Truman, Bowles called for the appointment of a voluntary price board which would be established on May 1st.

Further Delinquent Tax Penalties Will Be Effective May 1

Taxpayers were today warned by John L. Galloway, county tax collector, that unpaid 1946 taxes are now delinquent and new delinquent penalties will become effective May 1. Unless paid before July 1, tax certificates against delinquent real estate taxes, he said, he stated.

Ten percentage of those who have not paid their 1946 taxes, he pointed out, and those who have not paid their 1947 taxes, will be the largest tax bill in the history last year, they have not the obligation promptly and are to be congratulated.

Complete records and descriptions of all unpaid real estate taxes are now being prepared by well as other levies, and the penalties will begin next month, Mr. Galloway said.

Citrus Committees Reject Holiday Plan

LAKELAND, Apr. 22—The Federal marketing agreement committee today voted against sponsoring a plan for citrus shipping holidays any time during the season.

Members of the committees voted to authorize no new holidays. A ban on shipments can be called off only during the Christmas season.

United States Returns \$25,000,000 Worth Of Treasure To Hungary

FRANKFURT, Germany, Apr. 22—The United States has shipped back to Budapest Nazi-looted Hungarian silver and art objects worth \$25,000,000 in a new gesture of friendship.

The silver and art objects, were returned to the former enemy country under an agreement between the State Department and a Hungarian economic mission. The haul included 120 tons of silver, needed by Hungary to keep her economy on a sound basis, and 370 priceless cultural pieces.

Dancer Breaks Down After Re-Enacting Shooting

TEARS ARE WIPED from the face of dancer Patricia Schmidt by a prison warden as the former breaks down and cries during a re-enactment of the fatal shooting of John Lester Mee aboard his yacht in Havana harbor. At right, the dancer demonstrates for Cuban police officials how the shooting happened inside the yacht's cabin. Medical examiner called her story of Mee's death "impossible." (International Soundphoto)

No. 1 Communist, Gerhard Eisler, Pleads Innocent

Contempt Trial To Be Held On May 26—2nd Hearings In June

WASHINGTON, Apr. 22—The man who has been described as the No. 1 Communist agent in the United States, Gerhard Eisler, pleaded innocent today to charges growing out of a congressional investigation. Eisler is charged with contempt of Congress and making false statements to monetary authorities. Federal justice Harold L. Lee set May 26 as the date for the contempt trial, and June 16 for trial on the false statement charge.

Meanwhile, the House voted a contempt action against a man whose name has been linked with Communism. He is Leon Josephson of New York, described as a key Communist.

Earlier the anti-American Activities Committee called on the House to vote contempt charges against Eugene Dennis, Communist Party secretary and Leon Josephson.

The contempt charges were requested by Rep. J. Parnell Thomas, the chairman of the committee. Both Dennis and Josephson refused to testify before the committee, and the group held them in contempt. If the House backs up this action, the case could be held before a grand jury. Conviction carries a maximum punishment of one year in jail plus a fine of \$1,000.

Along with his request to the House, Thomas joined a blast in the Justice Department, which he said has failed to prosecute certain known Communists. Thomas said these Communists could be prosecuted under laws requiring agents of a foreign government to register.

British Plane Makes New Speed Record

LONDON, Apr. 22—A new world speed record was claimed today by the Gloster Aircraft Company of London. The company said one of its jet-propelled planes had averaged 430 miles an hour.

Gloster said the world's air speed record was smashed by its jet plane, "Meteor IV," on a hop from Brussels to Copenhagen. The speed was 14 miles an hour faster than the official world record set by the RAF last September.

W. O. W. MEET TONIGHT The Woodmen of the World organization will hold their evening at 8:00 o'clock at the W. O. W. Hall and not on Wednesday evening as listed in the Social Calendar last evening.

Local Strikers Urged To Seek Offer From Bell

WASHINGTON, Apr. 22—The National Federation of Telephone Workers today urged local negotiators to seek more offers from Bell System company.

These instructions were sent out after the Policy Committee of the Federation had announced that the New York City Telephone Company had offered an increase of 2 1/2 cents an hour. The company denied that any such had been made.

A spokesman for the Telephone Workers' Federation pointed out that the offer definitely had been made. He added that the company might be expected to offer more when the company denied that it had.

Further, the American Telephone and Telegraph Company, a parent corporation of the Bell System, has declined to discuss its plans on a national scale, he demanded by the union.

The Police Committee of the Workers' Federation directed the 39 striking members unions to get money offers wherever possible. The money offers are sought on the theory that a national telephone wage pattern might be developed.

Thus far, the American Telephone and Telegraph Company, a parent corporation of the Bell System, has declined to discuss its plans on a national scale, he demanded by the union.

Two hundred and twenty-five persons still are missing in the ruins, and of the 420 known dead, 132 had not yet been identified this morning.

Korean Government Issue Is Resumed

MOSCOW, Apr. 22—Russia has responded to a suggestion by the United States that the joint Russian-American commission on Korea meet in Seoul on May 20 to resume its work. The commission is empowered to start Korea on the road to independence, but its work was interrupted by basic disagreements between the Americans and Russians 11 months ago.

Foreign Minister Molotov blames American members of the commission for the breakdown last May in negotiations. Molotov again raised the issue that caused the last breakdown in talks, a failure to agree on what constituted "democratic" parties in Korea. Molotov has proposed the establishment of a provisional Korean government on the basis of broad participation by Korean democratic parties and social organizations.

There has been no immediate reaction from American sources in response to Russian proposals in Marshall.

Talk Against Greek Aid Said Inflammable

Vandenberg Deplores Arguments Stating Program Leads To War On Russia

WASHINGTON, Apr. 22—Senator Arthur Vandenberg used the word "inflammable" today to describe statements concerning President Truman's program to bolster Greece and Turkey against Communism. The Michigan Republican described as inflammable arguments that the program is a declaration of war on Russia.

Vandenberg made his remarks in the Senate after a vote on the \$400,000,000 aid bill. The legislation was scheduled to be acted upon at 4:00 P. M. today.

There is little doubt about the outcome, a thumping vote in favor of aid to Greece and Turkey is predicted. But it will not be unanimous. Twenty senators, more or less, have declared themselves against the proposal.

Those objections are based on these main arguments, that the program will cause essential war with Russia, that it will bankrupt Greece and that it will wreck the United Nations.

The Senate action before the vote this morning was an indication that the Greek Aid bill, an amendment proposed by Colorado Senator Edwin Johnson, who has been leading the fight against the Truman doctrine, went largely left out of the program. Others who are expected to vote "No" include new deal senators Claude Pepper and Clarence Cannon, Texas.

State Building Program Halted Pending Inquiry

LEGISLATIVE COMMITTEE TO STUDY CONSTITUTION PROJECT

TALLAHASSEE, Apr. 22—The large building program planned by Governor Campbell and other State officials was held in abeyance today when the state legislature adjourned to convene with a state request to hold no construction pending an investigation.

The cabinet will ask appointment of Senate and House committees to confer with State officials on the building program. Governor Campbell said he will discuss the matter with the cabinet members in a cabinet session of the state cabinet.

Reports of Joel Field and Post-Commander Henry Wolcott concerning possible work on the Alton construction toward returning to the Legislature had been made. The reports said that there were no funds available for the construction of the building.

Plans for a beer smoker and supper to be held May 5 were made. At this time the Sanford Legion Grand of Honor will be organized to perform on all occasions when needed and which will include a home spread. Also, at the meeting plans will be made for the Legion Junior baseball team. The season of which will be completed in 1947 by a contest with W. O. W.

Report Made To Legion Post On Miami Meeting

Reports of Joel Field and Post-Commander Henry Wolcott concerning possible work on the Alton construction toward returning to the Legislature had been made. The reports said that there were no funds available for the construction of the building.

John L. Sauer was appointed to serve as chairman of the committee which will make full arrangements for the May 5 meeting. Attendance prices will be awarded by the post and one of the largest attendances in the history of the post is expected.

15 Persons Hurt In Railroad Collision

BOONEVILLE, Ark., Apr. 22—The collision of two Rock Island passenger trains today brought injury to about 15 persons. There were no fatalities.

The accident occurred at a switch at Echo, Ark. The trains involved were the eastbound and westbound diesel streamliners, each called the Rocket. Railroad spokesmen said the westbound train was waiting for the eastbound train to take the siding, but the eastbound Rocket's brakes failed. The westbound engineer tried to avert the collision by backing up his train, but it was too late. Both locomotives were damaged slightly.

Inland Newspaper Representatives, Inc., represents The Herald in the national field of advertising. Offices are maintained in the largest cities in the country with principal headquarters in Chicago and New York. The Herald is a member of The Associated Press which is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein. All rights of republication of special dispatches herein are also reserved. TUESDAY, APRIL 22, 1947. **BIBLE VERSE FOR TODAY**

HIS REDEEMER STOOD IN THE FLESH UPON THE EARTH A GREAT MANY CENTURIES LATER, JOB HAD TO LOOK FORWARD, WE CAN LOOK BACK. HE HAD MORE FAITH THAN WE: For I know that my redeemer liveth, and that he shall stand at the latter day upon the earth.—Job 19:25.

We see where it is snowing throughout a large part of the North. We warned some of our winter visitors not to go back too soon.

People who wonder why The Herald doesn't do this, and why it doesn't do that, perhaps deserve an answer. We can't get the paper.

Winston Churchill denies that he called Henry Wallace a Communist. All he said was that America's former vice president is "forgetting with crypto-Communists"—those who believe in Communism, but lack the courage to admit it.

Governor Dewey of New York has signed a law designed to prevent strikes by public employees. "Every weak government is game for the Communists," he said. "One of their most useful devices is the strike which paralyzes government when government steps functioning, then their small, well disciplined minority can take it over."

Some 318,000 motorists lost their driver's licenses in this country last year for one reason or another. If a bill now before the Legislature in Florida providing for the taking up of a driver's license in the event of an accident, wherein one of the parties involved does not have liability insurance or the equivalent thereof, is passed, there will be a lot more motorists next year who lose their driver's licenses. Yet, it would be a good thing for every motorist to be in a position to pay for any damages which he may cause as a result of his driving an automobile.

President Truman made a remarkable statement the other day which we believe deserves rather careful analysis. He said that any tax cut at this time would further promote inflation. In other words, if we understand him correctly, he means that if one of the largest costs of doing business—taxes—is reduced, prices will go up. That is a very interesting phenomenon, it seems to us, and is comparable to that other gag about reducing prices by raising wages. It is a nice trick if you can do it. Just keep on raising taxes, raising wages, raising prices, increasing the cost of materials and supplies, and then lower your prices, if you can.

Anyone with eyes to see, or ears to hear, knows that the lid has been clamped down tight on illegal gambling in Seminole County. But the boys who make hundreds of thousands of dollars fleecing the gullible public every year are not taking their depression lying down. They are moving heaven and earth to bring back the slots, the punchboards, the billia racket again and open up the gambling clubs. Tremendous pressure is being brought to bear upon the sheriff, and other public officials, to induce them to let gambling return. People who want honest public officials and a law-abiding community—and we believe they are in the majority—would do well to support those who are trying to enforce the law.

Old-Age Pension Plan

A "plausible and tricky fiction" has so far enabled the federal government to "get away with" an essentially dishonest administration of old-age pension funds. So charges John T. Flynn in an exclusive article in The Reader's Digest for May.

Of \$9 billion collected to date in social security taxes, the government has paid \$1 1/2 billion in pensions. It has borrowed, and spent on other things, \$7 1/2 billion. After ten years of social security the families of retired workers have received an average of \$6.40 a week.

The old-age pension plan was "thought up by untrained minds and opposed by all experts," Flynn says. Even the proposed maximum social security tax of 6 per cent will not be enough to pay all pensions when the number of 65-year-olds eligible for benefits is much greater than it is now. The difference will have to be supplied by interest on the government bonds purchased by the Old Age Reserve Fund. But the "fiction," Flynn charges, is implicit in the fact that the interest on these bonds must be paid by taxpayers' money, and these taxpayers are the workers and employers, the same people who pay the old-age taxes.

The author contends that the federal old-age pensions should be paid as private life insurance companies pay death benefits—not out of reserves but of current receipts. In the case of the government's old-age plan, these current receipts are the social security taxes collected "in the year when the benefits fall due The plan must be on a pay-as-you-go basis."

Private corporations, sensing the inadequacy of the government's old-age pensions, Flynn says, have so far established over 10,000 plans for retirement benefits.

Is Congress Weaker?

This is not the first time that Congress has debated aid for Greece. In 1923 Daniel Webster proposed sending an American commission to help the Greeks win their fight for independence from the Turks, but the proposal was beaten in Congress.

The discussion, in the opinion of James Reston, writing in the New York Times, showed that Congress has dropped far below the 1923 standard in eloquence and debating ability. Reston made only one exception, the speech of Senator Claude Pepper of Florida, which he called the most eloquent of those delivered on President Truman's proposal to aid Greece.

It is only fair to say, however, that eloquence alone does not make a legislative body competent. Sometimes it becomes merely a drag on getting necessary work done. Nowadays there is so much work laid before Congress, so many bills requiring study and sorting out and discharging, that most of the work is done quietly in committees, with only the results brought before the whole body.

But is Congressional ability really less than in the days of the Fathers? Such 20th century senators as Norris, Borah, Glass, Root, Knox and Theodore E. Burton would have honored any Congress. Yet historians have generally thought that the ablest Senate in our history was that of 1849-51, which includes such members as Webster, Clay, Calhoun, Seward, Chase, Douglas, Cass, Jefferson Davis and Benton. No senate since then has had nine stars of any such magnitude.

It is one of the strange facts of human life that fire, which is one of man's greatest blessings, is also one of his great dangers. It has been brought home to us all as poignantly and alarmingly as any peril in our history. We have known that beneficent flame can become a devouring fiend, but few have realized its full peril, and it is all too easy, in many a dangerous situation, to "take a chance."

From now on, every man, woman and child should realize more clearly what fire can do when unleashed in a situation permitting it to do its worst. It is a creature that rules by whim and avarice, and must be kept in leash, lest it burst its flaming bonds again and sweep like a red tornado over man and all his works. From now on, the "fireman" comes into greater honor than ever, but there should be millions watching and helping him in his task, lest the demon burst out again to destroy our homes and cities.

Fire

Very truly yours, Claude Pepper.

Dear Friends: When you read this, I assume the Senate will have adopted the Bill providing military missions for Turkey and Greece, financial support for the armies of Turkey and Greece, and economic relief for Greece, most of it a gift. I voted for the Bill on final passage. It was a difficult decision for me to make because I believe very deeply that by passing the United Nations in this matter is a tragic mistake. For us to begin for the first time to send military missions to foreign countries outside this hemisphere and to finance foreign armies with American money and equip them with American equipment is a mistake from which we will not soon recover. Instead of giving greater assurance of peace as many Senators are publicly admitting, it endangers war—the worst war of all time.

I have been among those Senators who have fought to the very utmost of our strength to provide aid to Greece, to repair her war damage and to rebuild her broken economy and to protect the security of Greece and Turkey and all other countries, through the United Nations. That was the one great gain we got out of the war, the destruction of the military power of our enemies. The United Nations was established as and is the only hope on earth to keep world peace. We are not strong enough as an individual nation to resist aggression, to prevent all war and to keep the peace of this earth. But, as the leader of the United Nations and with that organization functioning as its Charter contemplates and requires, I believe we can keep the peace of the world.

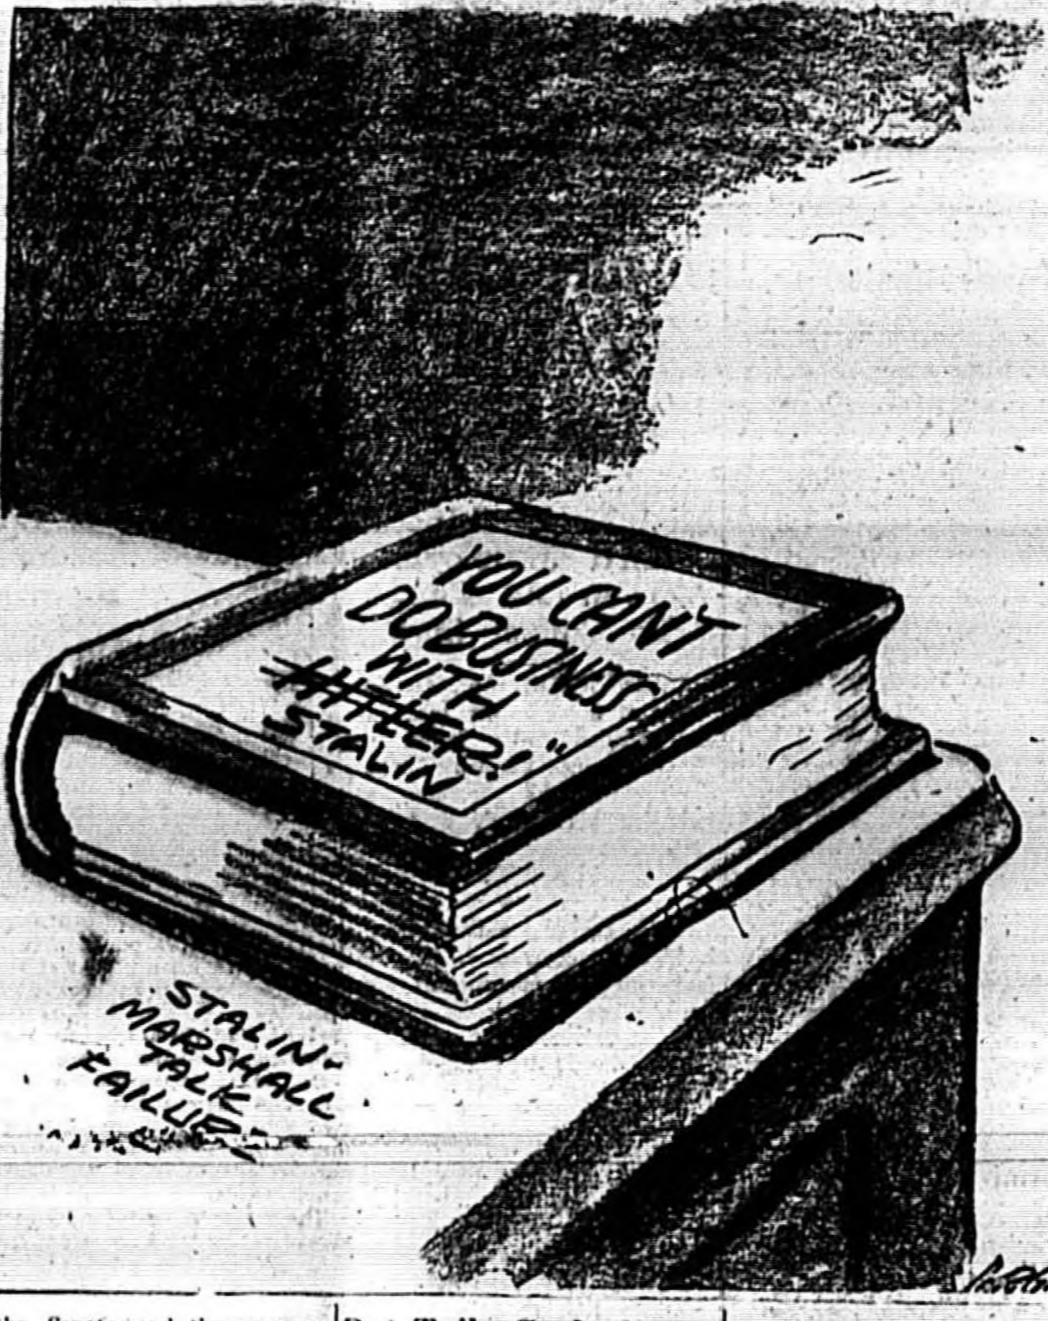

But the test of an organization's strength is whether it functions in a crisis or not. If, when the first crisis comes, those who make it up abandon it and declare that it can do nothing, of course, it has no strength. That is what the big nations did to the League of Nations. And that policy killed the League of Nations and made inevitable World War II.

We stayed out of the League of Nations after World War I and thereby helped to weaken that organization so it could not keep world peace. That failure may have cost us all our sacrifices in blood and treasure in World War II. But we learned our lesson. We saw our mistake. We were converted to collaboration by baptism in the sacrifice of this war to the new function of working with other nations toward keeping world peace. Hence, through President Roosevelt, we took the lead in setting up the United Nations.

The United Nations today has a membership of over fifty nations. It has been established here in the United States. It is a functioning organization. A great building is about to be constructed honorably to house it. It got British and French troops out of Syria and Lebanon. It has set up the World Bank, the World Food Organization and the World Health Organization. It established UNRRA to relieve the distress of the war-milled peoples of the world. It has done a remarkable job in its less than two years of existence. Now when there is a border disturbance in northern Greece and when Russia has made some demands upon the Dardanelles to Turkey, we risk into unilateral action. We start to send military missions to Turkey and to Greece to support Turkish and Greek armies to protect the security of those nations. We did not do that in World War II. The United Nations Organization until 16 days after the President addressed the Joint Session of the Congress.

Now, what some of us have done

OLD BOOK, NEW PRINTING

STALIN MARSHALL FALLS

In the Senate and the pressure that has come from the country have been responsible for a considerable modification of the original proposal. We now have agreed that the United Nations, we and all other nations agreed to act collectively to preserve the peace of the world and to root aggression. Going through the United Nations is like settling a dispute in court. You either do or you don't.

Yet I am not an isolationist. I believe in collaboration. I earnestly want to help Greece. I want to protect the security of the people in their country. I want to resist the spread of communism in every proper way. Hence, after doing everything I could to put this matter in the jurisdiction of the United Nations, along with other Senators, and failing, I felt I had no choice save to vote for the measure. But I warned the President, I warned the State Department and I have warned my colleagues that they shall regret the method they have employed in achieving their worthy objective.

I earnestly hope and pray that we shall turn back again to the United Nations and pledge to it as did the founding fathers "our lives, our hopes and our sacred honor."

Very truly yours, CLAUDE PEPPER

Dental Care Comes High In Germany

BERLIN—A new set of uppers costs a German 1,000 marks or against the prewar price of 100 to 150 marks \$40 to \$60 at the \$4.40 per mark rate.

The reason is that materials must be obtained on the black market, mainly in the agriculture, the Berlin press reported. Cyprian, for example, which used to cost 5 marks a hundred-weight, now is worth 180 marks. Instruments also must be purchased by dentists on the black market.

As a result, the press said, Berlin dentists, whose numbers have been reduced by the war from 4,201 to 2,148, are turning away sick-fund subscribers under Germany's socialized medicine scheme for private patients who can afford to pay high prices.

Australian Sheep Show Best In World

SYDNEY, Australia—Although Sydney's Royal Easter Show is called the largest agricultural show in the world and Australia has by far the greatest number of sheep (98,000,000) of any country in the world, no sheep are exhibited at the show.

The Royal Easter Show disregards sheep because the annual sheep show held in Sydney in June demands a concentration of organizing energy and effort to make it the greatest sheep show in the world.

PUBLICITY-MINDED POLES

LODZ, Poland—To popularize Polish textiles abroad, the central administration of the textile industry has instructed all manufacturers to stamp "MADE IN POLAND" on all shipments to foreign countries.

SOUTHERN FREEZOUT

RICHMOND, Va.—The state highway department of Virginia in the Sunny South—says snow removal from state highways last winter cost \$1,004,860. The average depth of snow over the winter was 17.35 inches with 38.17 inches in the Bristol, or southwest district.

A box of oranges weighs 30 pounds. Boxes of grapefruit and lemons weigh slightly more.

Rat Tails Cashed By Tennessee Bank

MASON, Tenn.—The Mason bank gives away seeds and cashes rat tails.

The bank cashier, John M. Jackson, is also mayor of this Tipton County town of 600. He pays five cents for each rat tail as part of the community's eradication campaign. He shelled out last year for 2,000.

As an additional service, each person who brings in a rat tail is given a package of garden seeds—lettuce, okra, tomatoes, and watermelon.

Poland Plans Double-Track Railway Line

WARSAW, Poland—The ministry of transport plans to have a double-track railway line in operation between Warsaw, Gdynia and Gdansk by 1949.

Reconstruction of the longest railway bridge in Poland over the Vistula at Tczew and the construction of a second railway track on the Malbork-Prabuty-Warsaw line is to be started shortly. These projects, along with a new bridge over the Vistula at Opalenie, will make possible double trackage from Warsaw to the coastal cities of Gdynia and Gdansk.

Bed In Hospital Is Endowed For Dog

SYDNEY, Australia—Probably the only dog in Australia—if not in the world—to have a hospital bed endowed in his name was a cattle dog called "Bluey" who died in Sydney.

"Bluey" was master was critically injured in a road accident, and admitted to St. George's District Hospital at Kogarah (Sydney suburb). "Bluey" travelled in the ambulance with his master. After his master was admitted, "Bluey" waited at the entrance gates. His master died, but "Bluey" wouldn't leave the gates. He waited for his master for some years during which time hospital employees and local residents fed him daily. When "Bluey" died recently, Kogarah residents, touched by his devotion to his master, collected enough to endow a hospital bed in the St. George's District Hospital in his name.

German Women Face Retribution Sentence

FLENSBURG, Germany—Two German women were sentenced by a British control commission court to spend four weeks in a refugee camp so that they could experience at first hand the conditions to which they condemned German refugees whom they refused to take in.

The pair were summoned before the court after they repeatedly refused to give accommodations to refugees.

The alternative sentence was three months imprisonment.

EPIDEMIC IN TURKEY

ISTANBUL, Apr. 22—The Turkish Cabinet today decided that the equivalent of nearly \$180,000 will be needed to fight an epidemic of bubonic plague which has broken out in a southern province of Turkey. Twenty persons are said to have died of the plague during the past few days.

One lava field in Iceland covers 1,700 square miles.

YOU'RE TELLING ME!

By WILLIAM RITT Central Press Writer

PICTURED in Federal Court, New York City, is author Conrad Bergqvist as he faces \$5,000 suit opened against comedian Charlie Chaplin. The writer charges piracy of the script of "The Great Dictator"—Chaplin's burlesque of Adolf Hitler. He said in his complaint that he and Chaplin agreed orally to collaborate on a series of films in 1937 from which he would receive 15% of the gross profits. Although he had supplied the satire on Hitler, Bergqvist added, he received neither compensation nor credit. (International)

Germans Use Mails To Pay Off Grudges

MUNICH—Germans with a grudge against a neighbor have found a new way to pay it off—through their own mails. U. S. censorship employees stumbled across this subtle type of denunciation recently.

A German writes to a "friend" and sends the letter through the Reichpost. The letter is addressed to the recipient's name and address, but it is certainly no good to hear from you," the letter declares. "I haven't heard a word since we were in the SS together."

The name signed to the letter is, of course, a phony and so is the address. But the person to whom it is addressed is automatically in trouble because the civilian censors see that crack about the SS and turn it over to the police.

Col. Ray Burgess, provost marshal of Munich, commented that there is little to do about it except run down every clue. The only one that would be ignored, he asserted, might be legitimate.

Grandmother Stays Young Taking Hikes

ROANOKE, Va.—For 25 years "Grandma Cora" Clemmer, now 76, has scaled Tinker mountain on Easter Monday, and she expects to make a lot more trips.

Young people of her church who now accompany her are children of those with whom she started the traditional hike.

To the question, "How do you keep so young?" Mrs. Clemmer's answer is: "I don't. It is the young people I associate with who keep me young."

SMOKES DEMANDED

DECATUR, Ill.—L. C. Scott claims the cigar hand collecting championship of the world. In 21 years he has gathered 4,500 plain and fancy bands printed during the last century in the U. S., Mexico, South America, Cuba, England, France, Belgium, Russia and Germany.

YOUTH IS WONDERFUL

ANADARKO, Okla.—Dan Jones, who is 85 years old, is looking forward to a long life. He says his mother lived to be 106, his father 108 and his grandmother 114.

YOUTH IN SPRING!

HAMILTON, Mont.—Folks here figured spring had come when 101-year-old Mrs. John Hayden accompanied her 85-year-old husband on a motor trip in their pickup truck to nearby Stevensville.

15 Month Old Baby Claims Travel Record

GREAT FALLS, Mont.—Friends and family believe 22,000 miles may have made Paul Huston the champion traveler in the 15-month-old class.

He has gone from San Francisco to Australia by ship, from Brisbane to the Philippines by plane and back across the Pacific by steamer—plus a few thousand odd miles by train.

Paul made the multiple journeys with his parents, Mr. and Mrs. E. S. Huston of Great Falls.

Groups Letters May Be Sent To Germany

BERLIN—German and American youth now are authorized to exchange letters, a practice which boomed before the war.

Group letters from school classes as well as from individuals may be exchanged through the Division of International Education Relations of the American Office of Education in Washington, D. C.

In 1908 an automobile tire cost about \$35 and would run about 2,000 miles while in 1936 a tire cost about \$3 and would run about 20,000 miles.

Inside WASHINGTON

Army Air Forces Chief Has Tight Grip on Senate Latest Demo VP Rumor

Special to Central Press

WASHINGTON—Latest speculative possibility as a vice presidential nominee, to be run by the Democrats on their Truman ticket in 1948, is Gen. Carl Spaatz, chief of the Army Air Forces.

The rumor got started at the annual Jefferson Day dinner at Washington's Mayflower hotel where 2,000 loyal and well-heeled Democrats paid \$100 apiece to dine and hear the president speak. Spaatz and Mr. Truman did not sit far apart, and during the course of the evening they frequently conversed. This led to the behind-the-scenes speculation among correspondents and amateur politicians that the Democrats could do a lot worse than name Spaatz as Truman's running mate if they want to carry Pennsylvania next year.

The general is the first military man to be discussed as a vice presidential nominee in a wide-open race, which probably will not be decided until the Chicago convention.

Others are Navy Secretary James Forrestal, War Secretary Robert Patterson, Commerce Secretary W. Averil Harriman and Interior Secretary J. A. Krug—the latter before he was raked by the big verbal guns of John L. Lewis in the GOP leadership.

Gen. Carl Spaatz' connection with the Centralia, Ill., mine disaster.

POLITICAL OBSERVERS ARE WONDERING JUST HOW SECURE THE REPORTEDLY HIGH-POWERED POLITICAL ORGANIZATION OF SENATOR ROBERT TAFT (R), OHIO, REALLY IS, AND WHETHER IT WILL BE ABLE TO DELIVER THE GOODS WHEN THE GOP NATIONAL CONVENTION MEETS NEXT YEAR.

Capitol Hill observers, keeping a chart on the Ohioan's activities since Jan. 3, have come up with some facts indicating that his grip on the Senate already appears to be loosening.

They say he got the worst of a compromise on national debt reduction with Senator William F. Knowland (R), California, a Senate freshman. On the reciprocal trade agreements, Senators Arthur Vandenberg of Michigan and Eugene D. Miikin of Colorado took the GOP leadership.

ONE MUST BE ACQUAINTED WITH Senate tradition to understand why atomic committee senators allowed a non-committee member, Senator Kenneth McKellar (D), Tennessee, to force them to listen, week after week, to his prolonged battle against David B. Lilienthal.

Chairman Burke Hickenlooper (R), Iowa, frequently displayed his annoyance over McKellar's tactics. Other members were also irked.

However, it was not until hearings on Lilienthal's appointment went into its sixth week that the atomic senators agreed to silence McKellar's inquiry. Here is the explanation:

1.—A committee, as Hickenlooper explained, is a "convenient arm of the Senate." It merely facilitates getting information for the Senate as a whole. Thus, a non-committee senator may participate in any hearing in which he is interested.

2.—The Senate is zealous about maintaining full freedom of debate and expression, and that goes also to the freedom of producing evidence on which to debate. Senators' boasts that their body is "the world's only remaining legislative forum for untrammelled debate."

So, had the committee cut McKellar's question—To Senators' hearing, it would have been accused on the Senate floor of breaking Senate tradition of gagging a colleague of breaching senatorial etiquette and courtesy.

Above all, the committee wanted to be as Hickenlooper put it to witnesses, "uncriticizable" on that point.

3.—The Senate is taking off from the United States for the Geneva conference to establish an international world trade organization and it was "touch and go" on whether anything would come out of the important meeting.

Top officials pretended to have every confidence that some sort of agreement would be reached, but privately they were less optimistic.

In their efforts to impress the importance of the conference on Congress and the people they encountered strong competition for public attention in the debate on the Greek-Turkish aid bill. Russia's failure so far to indicate a willingness to share in world trade agreements adds to the problem.

PLANETARY STRIPES

PLANETARY STRIPES, a new feature in the Washington Post, will be a daily feature in the Post.

Sanford Celery Feds Down Palatka Azaleas In 5 To 4 Tilt

Locals Will Meet Azaleas Here Tonight At Municipal Baseball Park

PALATKA, Apr. 22. (Special) —The Sanford Celery Feds chalked up another victory as they topped the Azaleas in a hard fought contest by a 5 to 4 margin. The visitors tallied three runs in the second and added a pair in the fifth for the margin of victory. Palatka opened the contest with a single marker in the first frame and scored two in the sixth and one in the last of the ninth.

The Palatka rally in the ninth fell shy of knotting the count. Three singles by Dulaney, Tonoff and Pittle scored Dulaney. Tonoff was thrown out at third in an attempt to advance two sacks. Jerry Silverman paced the Fed attacks on the Azalea hurlers with two hits in four trips.

Table with 3 columns: Player Name, At bats, Runs, Hits, Errors. Sanford team listed.

BASEBALL FANS TO PAY TRIBUTE TO BABE RUTH

By HUGH FULLERTON, JR. AP Newsfeatures Sports Writer —Of the millions of baseball fans who will pay tribute to the greatest home run hitter of all time on Babe Ruth Day, April 27, probably 99 percent never saw Babe Ruth play baseball.

COMMENTS from the SIDELINES

Seminole High Feds —The Seminole High School baseball team will enter the East Central conference tourney in New Smyrna on Thursday.

Palatka drew a bye as led Leesburg. Palatka will meet the winner of St. Augustine contest on Friday afternoon. Leesburg will play the victor in the Sanford Eustis tilt.

Two fields will be used in the Lake County City for the tourney. The high school diamond will be used and the Venetian Gardens on May 3 at 10:30 A. M.

The winner of the Sanford-Clermont tilt will meet Melbourne at 10:30 A. M. May 4.

Fourteen teams are slated to participate in the meet. Those teams signifying intentions to participate include Sanford, Orlando, Groveland, New Smyrna Beach, St. Cloud, Clermont, Kissimmee, Cocoa, Leesburg, Winter Garden, Eustis, Melbourne, Oviedo, and Winter Park.

State League —The Florida State League Pentant race is now a week old, and it looks as though the general mess under which the league operated last year does not seem to be changed.

Before the league play opened the hot words flew in St. Augustine over some of the incidents from last year. At the meeting of the league directors in the Ancient City the umpires were charged by President Al Combs to bear down, be tough and really run the game.

The league play had hardly begun when the age old Kase case began brewing again.

The Smith-Crucilla slapping event was brought out for a round of 'chin wags' and the Steipecke incident in Deland was aired up again.

We wonder if the 1947 season is really going to be any better than was the 1946 spectacle?

We like to remain a neutral corner on this umpire question, and we expect to make no comment.

Miller May Make Experts Regret Early Predictions

CINCINNATI, Apr. 22.—Although the Cincinnati Reds were assigned to the National League cellar in most of the pre-season forecasts, Eddie Miller may make the experts regret their predictions.

Bridges Could Aid Weak Pitching Staff

PORTLAND, Apr. 22.—Any big league club needing pitching help might consider the former star of the Detroit Tigers, Tommy Bridges.

Unpublished Material of Mark Twain Soon Will Be Released

NEW YORK—Mark Twain, it is becoming increasingly clear, was the most prolific writer of his day—probably of any day.

A new whack at his literary remains, literally thousands of items, is currently being undertaken by Dixon Weaver, chairman of the Research Group at the Huntington Library at San Marino, Calif. Weaver has been appointed literary editor of the Mark Twain estate by its trustees, Thomas G. Chamberlain and the Central Hanover Bank and Trust Company of New York.

Much of the new material, which will be published from time to time, will be of an intimate nature.

Mark Twain's only living daughter, Clara Clemens Samsmond of Hollywood, has released to the estate more than six hundred letters written by her father to her mother, in addition to other important family papers.

They will join the mass of unpublished literary manuscripts, notebooks and correspondence, representing nearly sixty years of Mark Twain's life, which recently were transferred from Harvard to the Huntington Library on a long-term loan by the estate. This collection is considered one of the most extensive and valuable literary treasuries in the United States and probably the richest mine of manuscript material left by an American writer of the first rank.

The first book to appear under the new program will be a group of hitherto unknown sketches written by Mark Twain about his Mississippi River and small town life which furnished the scene for "Tom Sawyer" and "Huckleberry Finn."

A manuscript which he labeled "Villagers of 1946-47," describes

NOTICE TO OWNERS OF DOGS

As required by law, all dogs in the City of Sanford, Florida, must be vaccinated against rabies by a licensed veterinarian before the first day of May of each year and the vaccination tag continually worn by dogs on a collar or harness for the following year.

In order to accommodate dog owners, Dr. Raymond L. Bass, veterinarian, will be at the rear of the City Hall from 2:00 until 5:00 o'clock P. M. on Wednesdays, April 9, 16, 23 and 30, to vaccinate dogs. After May 1, all dogs found without a tag certifying that they have been vaccinated for rabies for year 1947, will be subject to being picked up by the Police and killed.

Railroads Forfeit Claims To 55,992 Acres In Land Grants

WASHINGTON—"Land-grant" railroads which charged the government full freight rates during the war are paying for the privilege in part by forfeiting their claim to thousands of acres in public lands.

This amount remained from an original apportionment of 282,780 acres. Eight of the 19 railroads had patented claims to a total of 226,788 acres before the war and thus retain title to them.

Largest Excluded The tabulation did not include a 20th line, the largest land-grant railroad of them all, the Northern Pacific. Interior Department officials said they could not even guess at the amount of land originally claimed by this company.

The railroad and the department's Bureau of Land Management must check over huge volumes of records to determine this acreage. An earlier proposed study of Northern Pacific land-grant claims was cancelled as not worth the cost and tremendous amount of research involved.

ment must check over huge volumes of records to determine this acreage.

Three-quarters of a century ago the government set out to encourage settlement of the vast, newly-acquired areas of the West and South.

It did this by granting to railroad companies which would build lines into the area acreage estimated by some authorities at 134,303,668 acres—the equivalent of Pennsylvania, New York and the New England States combined.

When the railroads got around to claiming the land that had been given them, they found large portions of it already occupied by newly-arrived settlers.

The original acts required the land-grant railroads to carry government goods and personnel free. Through judicial interpretations, the land-grant lines for half a century before 1940 carried government goods and personnel at half the standard commercial rates.

In the depression years, earnings declined and steps were taken to help the carriers. The Transportation Act of 1940 permitted land-grant roads to charge the government full commercial rates except on Army and Navy freight and personnel, on condition that they release any land claims they might have against the government.

Suit Pushed

After the war the Santa Fe Pacific Railroad sued to assert its rights to public lands in New Mexico and Arizona, on the ground that these were "lieu lands" not involved in the rate-increase release of claims.

The District of Columbia District Court dismissed the suit, but the Circuit Court of Appeals reversed the lower courts decision.

The Supreme Court upset the Circuit Court decision, sustaining an appeal by the secretary of the interior. The Supreme Court ruled that the 1940 transportation act defined an intent of Congress to wipe the slate clean of all such claims by any railroad which availed itself of the rate concessions.

The Bureau of Land Management says the forfeited land will remain in the public domain. Much of it is unfit for homesteading and some of it is claimed by Indian tribes.

The eight railroads which patented claims before 1940: Florida Central and Peninsular Railroad, patented 92,525 acres; Central Pacific, 88,994; Union Pacific, 35,594; Santa Fe Pacific, 6,246 (lands other than those involved in Supreme Court case); Oregon Central Military Road, 2,428; Chicago, Milwaukee and St. Paul, 800; Sioux City and Pacific, 162; Wisconsin Central, 40.

Boy Is Veteran Air Traveller At Three

By HERB ALTSCHULL AP Newswriters PHILADELPHIA—At the ripe old age of three, little Eric Dolleberg is one of this country's veteran airplane travelers.

His father, Col. Fred P. Dolleberg, an Army air ace in World War I, is the president of Winged Cargo, Inc., which operates out of Philadelphia, and he takes his three-year-old son along on many trips to Nassau, San Juan, Jamaica and all over the United States.

"I'm daddy's co-pilot," Eric chirped. "I sit up with the men."

"Yes," explained Col. Dolleberg, "he sits up in the cockpit with us until he gets tired. Then he goes back and goes to sleep. He is a lot of fun and never gives me any trouble."

The stewardess gets him something to eat when he's hungry. He loves flying. The colonel said he started taking Eric along when the boy was one, "and now whenever we are taking a trip, and there is room, the little man goes with me."

Coal was used in the United States shortly after the Revolutionary war, but it was not marketed widely until development of the railroads about 100 years ago.

Airplane Wreck

(Continued from Page One) Campbell, Hapeville, Ga., superintendent of communications; E. A. Rainouard, New York, chief flight superintendent; John L. Schneider, Natchez, Miss., superintendent of stations; Clayton Berry, Atlanta, superintendent of airport construction.

The Delta plane was a twin-engine D-C type. It was obtained from the Army and had been converted for pilot training and survey flights.

George R. Cushing and E. A. Rainouard, killed in the crash of a Delta plane in Columbus, Ga., today, attended the Southeastern States Glider Contest in Sanford last month and visited Volie Williams, a Sanford friend of over 20 years.

State Building Plan

(Continued from Page One) a halt in construction, urged full compliance.

The fate of a new Supreme Court building is especially in doubt. A contract was signed a few hours before the Senate adopted its request to stop construction.

Meanwhile, two bills were introduced in the legislature to expand the authority and immunity of the Florida Highway Patrol.

The Cabinet agreed to ask the Legislature to permit physicians to practice in State institutions without submitting to the State examination on basic science.

The Senate Committee on Pensions and Claims voted to compensate Mr. and Mrs. H. W. Barlett for the death of their son, Howard, who died in the University of Florida infirmary. Senator King of Winter Haven introduced the measure, calling for \$10,000 compensation, but the committee reduced the amount to 7,500.

The oldest legislative employee in point of service resigned today. Mrs. Annie F. Bond of Lloyd stepped down as House enrolling clerk after 30 years service. She was succeeded by Mrs. Osa Gardner of Jacksonville.

A new bill in the House would establish incurable insanity and confinement in an asylum for seven years as grounds for divorce.

A constitutional amendment proposed in both chambers would turn the power to make hunting and fishing regulations back to the legislature. The bill in effect would repeal authority of the Game and Fresh Water Fish Commission to set the rules.

Most Eskimos live near the coast where they draw much of their subsistence from mammals of the sea.

There are about 12 million Eskimos in the United States.

Income Tax Bill

(Continued from Page One) function within the Department of Commerce or within the Economic Advisory Committee. The voluntary price board would be made up of business men, and its job would be to make suggestions to business for cutting prices of industrial goods.

Bowles said he dropped in on the President today to congratulate him on his speech yesterday at the annual luncheon of the Associated Press in New York City.

"The speech was an excellent job," he said. "I hope it will be taken to heart. It was a thoughtful and complete statement of the problem."

Psychologist Likens To Rats In Labyrinth Leaders In Politics

By RENNIE TAYLOR AP Science Reporter BERKELEY, Calif.—The behavior of hungry rats running through mazes of trick passageways in search of food may hold a lesson for statesmen seeking territory or security for their respective countries in the labyrinth of power politics.

When an extremely hungry rat is put into a maze through which he must find the way to food, he doesn't learn much about its zigzag tunnels and blind alleys, but if not too hungry at the outset he gets a broader picture of his surroundings, says Dr. Edward C. Tolman, University of California psychologist.

"Then if the original route to food is blocked and a new one is made, the rat with the broader learning has little trouble in learning the new path to his goal," Tolman said.

Similarly, Dr. Tolman suggested, a nation or its leaders should be able to reach their goals by rational, roundabout methods rather than by force or aggression if at the outset they are not too hurried from within by some sort of hunger or fear.

Dr. Tolman, who specializes in animal behavior experiments for whatever value they may have in helping to form an understanding of human conduct, told of the rat tests in a special all-university lecture.

The rat which is forced to learn the route while experiencing the pangs of extreme hunger, receives a vivid impression of the food path fixed in his brain. If the path is changed it is difficult for him to re-learn.

A well-fed rat, placed in a maze which has food at the end of one route and water at the end of another, apparently learns nothing because he is neither hungry nor thirsty.

But if he is kept out of the maze until hungry or thirsty and then returned to it, he quickly finds his way to food or drink, because, says Dr. Tolman, while not under too great pressure to reach his goal, his brain during the previous experiences formed a broad "cognitive map" of the maze.

A hard-pressed human being, like a hungry rat, may become frustrated from over-insistence striving along one narrow route toward a goal, and may "take it easy" on some other person or group by becoming aggressive, Tolman added.

In the last 8 years, production of both crops and livestock increased nearly 30 percent, almost as much as during the preceding 25 years.

New Aircraft Carrier Launched By Britain

BELFAST, Northern Ireland, Apr. 22—A new addition to Britain's fleet was launched today by the Duchess of Kent, sister-in-law of King George VI. The vessel is a light aircraft carrier named the Centaur. It hit the waves in view of thousands of spectators but the details of the warship itself were withheld under strict security regulations. Broadside photographs of the vessel were prohibited and her displacement was not disclosed.

In London, the Admiralty said that construction on the Centaur was begun during the war and that she was built along the lines of the Colossus, launched in 1945, is listed in Jane's Fighting Ships as having a displacement of 14,000 tons.

Jap War Criminal Is Sentenced To Death

HONGKONG, Apr. 22—A Japanese war criminal known to other allied prisoners as "Blasphemy" was sentenced to death today for the second time. The Japanese, whose real name is Kanao Inouye, was convicted of treason and given a death sentence by an allied war crimes jury.

Last May, the Japanese was convicted and sentenced to death for mistreating prisoners of war. He won a retrial on the grounds that he was a Canadian citizen.

Communists Welcome Wallace In France

PARIS, Apr. 22—A French welcoming committee rolled out the red carpet for Henry Wallace today. The former vice president arrived in Paris by plane from Copenhagen on the next stop of his European tour. Several communist leaders were on hand to greet Wallace, who appeared tired but who shook hands and talked earnestly with Marcel Cachin, dean of the French Communists in the National Assembly.

During the next three days Wallace will make a series of speeches, including an appearance before Cachin's foreign affairs committee and one at famous Sorbonne University.

SANFORD Paint & Glass Co. 117 So. Park Ave. Sanford, Fla.

LAY THAT LUGGAGE DOWN, FOLKS . . .

The Best is Yet to Come!

You are due for a thrilling adventure if you have never enjoyed the magic month of May in Florida. Florida's fish go on their greatest tackle-testing spree. Swimming is perfect. Nature produces a riot of color. And the golden sunshine of Florida stays on the job all month.

Hold up that packing for awhile. Enjoy "winter season" pleasures and accommodations in uncrowded comfort — there's plenty of room! Stay thru Florida's finest month!

Stay thru May!

AND THE SANFORD AREA SUGGESTS: "JUST PUT IT AWAY FOR GOOD" Think of May as a "sample" of year 'round Florida. Use it to check this area's fine qualifications as a place to live, play and work. Consider staying "for keeps". You'll be as welcome as the flowers in May.

Wallace Hits Doctrines Of U.S. - Russia

Change In Capitalism, Communism Is Urged For Preservation Of Peace

PARIS, Apr. 23—Henry Wallace today charged that the United States and Russia have undermined the cause for which their young men died...

Wallace's latest speech abroad was described as a restatement of his fundamental convictions and it was the most definite on Communism since his arrival in Europe two weeks ago.

He declared today Russia should have declared today Russia should get \$10,000,000,000 to \$17,000,000,000 worth of goods and services under a \$50,000,000,000 world reconstruction program.

Sanford Rotarians To Attend Inter-City Meet At Winter Park

WINTER PARK, Apr. 23, (Special)—Members of the Sanford Rotary Club, headed by President George A. Speer, will attend an inter-city meeting at Rollins College Thursday at 7:15 P. M.

Rotary clubs from Leesburg, Eustis, Winter Garden, Apopka, and Orlando will send delegations to the meeting.

High officials of Rotary, including S. Kendrick Guernsey, Jacksonville, president-elect of International Rotary, will be on the program.

The Winter Park club was organized by Orlando Rotary earlier this year.

FINANCIER SENTENCED New York City, Apr. 23—International financier...

International financier, Sergio Riccobelli, was sentenced today to 2 1/2 years in prison and fined \$80,000.

County Agent C. R. Dawson, who has fully recovered from a recent operation, was yesterday able to resume his duties at his office in the Court House basement.

X-rays were today taken at the Clinic of the latest of Nalley Dunn, seven-year-old son of Mr. and Mrs. Donald Dunn, who broke his left wrist when he fell backward out of a swing at the South Side School grounds yesterday.

Good Deed Pays Off

THAT SMILE worn by officer Harry Zabotinsky, of Pamales, N. J., tells the happy end of a story that began two years ago when he was kind enough to help a motorist change a flat.

Two Policemen Shot To Death In Street Battle

Officers Are Killed In Philadelphia By Son Of Professor

PHILADELPHIA, Apr. 23—Two policemen were shot to death early today in a street corner gun battle and Sgt. John Creelion said the officers were victims of bullets fired by 23 year old William Halliwell.

Police said Halliwell identified himself as the son of Dr. Alfred Halliwell, former professor of anthropology at the University of Pennsylvania and now at Northwestern University in Evanston, Ill.

Creelion said the officers were slain while attempting to pick up Halliwell after a wild chase through north Philadelphia streets between police patrol cars and an automobile allegedly stolen by Halliwell.

In Chicago, Professor Halliwell said he is "too shocked" to discuss the fatal gun battle in which young Halliwell was involved.

Hospital Gets Splint From Grocery Firm

A "tru-aligning reduction splint" for fracture setup has been donated to Fernald-Laughton Memorial Hospital by the Winn Lovett Grocery Company, according to a letter received today by A. B. Peterson, campaign chairman.

This equipment, said Mr. Peterson, will set any major fracture and cost \$700. It was purchased from the Surgical Supply Company of Jacksonville.

Mr. Peterson has written a letter of thanks to Mr. Avery both in his own behalf as campaign chairman and in behalf of the hospital.

Repaired Garage To Be Used For Storage

Bridges and Williams, contractors, are repairing the garage building which, formerly the property of Edward F. Lane, was ruined by fire and which is located opposite the Mayfair Inn. W. A. Patrick, who purchased the 60 by 100 foot building from Mr. Lane, intends to use it for garage storage purposes.

Steel trusses have been replaced and concrete block facing is being used in the front and in sections of the walls which will be stacked on the exterior.

Florida House Gives School Bill Priority

Action On Measure Must Be Taken At 11:00 O'Clock Thursday Morning

TALLAHASSEE, Apr. 23—The Florida House of Representatives today cleared the way for immediate consideration of the important school reorganization bill.

With but little discussion, members of the House approved a motion to place the school bill on the special order calendar, to be taken up at 11:00 o'clock tomorrow morning.

This means that the measure will take priority over any other business in the House and that it must be acted on unless unanimous consent is granted to postpone it.

The school bill yesterday received unanimous endorsement by the powerful House Appropriations Committee.

The measure still is not ready for action in the Senate. The Senate Education Committee has scheduled a meeting for tonight to continue its study of the bill.

By its action, the House decided to consider the reorganization of the school system, and the financing provisions, as one measure.

The House adopted a memorial resolution in tribute to the late Jeff Hendley of Dade City, Hendley was the last surviving signer of the 1885 Florida Constitution, and was the oldest member of the House.

Vegetable Group Proposes Plan For Merchandising

ORLANDO, Apr. 23, (Special)—Directors of the Florida Vegetable Committee, representing growers of a majority of the fresh vegetables shipped from Florida, today asked the Florida legislature to set up machinery enabling commodity growers to set up and finance their own merchandising, advertising and sales promotion programs.

The action was announced by LaMonte Graw, manager of the Florida Vegetable Committee, who said the resolution adopted by the directors will be forwarded at once to the president of the state senate, to the speaker of the house of representatives, and to Governor Caldwell.

The legislation sought by the vegetable producers, Graw said, calls for establishment of a nine-man state vegetable commission, which would supervise merchandising, advertising, sales promotion, and research activities of the growers of various vegetable commodities, upon petition of the growers.

Administration of the merchandising activity would be in the control of the commodity growers. "Our fresh vegetable producers must adopt some such scheme to meet low-price competition from other sections and from foreign countries," Graw said, "and sentiment among them, as voiced by the directors of the Florida Vegetable Committee, which speaks for them, is in favor of sensible merchandising for each commodity, properly supervised by a state commission, but at no cost to the state or to anyone but the growers themselves."

Bills to establish the vegetable commission will be introduced in both houses of the Florida legislature at an early date, Graw said.

"The movement comes from the growers themselves, large and small alike," the manager continued, "and calls for no state expenditure, it would appear, for such as aid to the vegetable industry at a time when it is agreed sound merchandising principles must be set up as a life-saver, would meet with the hearty cooperation of all legislative interests and of all commercial interests except those of the most selfish nature."

Violence Erupts in Detroit Phone Strike

Outside the Bell Telephone Company main building in Detroit, members of the police riot squad battle pickets to quell a riot which erupted when strikers attempted to stop an employee from entering the building.

2 Believed Dead In Explosion At Plant In Tampa

Score Injured When Tanks Of Creosote Are Swept By Fire

TAMPA, Apr. 23—Two persons were believed dead, and at least a dozen injured, in a series of explosions and fire at a plant owned by the Florida East Coast Products Company plant at Seminole Creek near Tampa.

The first explosion occurred in an empty tank, where a welding crew was working. In quick succession other tanks exploded.

Pepper Votes Against Greek Aid Measure

WASHINGTON, Apr. 23—Florida's two senators were split in their vote on the Greek-Turkish Aid Bill, and on an amendment to the bill.

On the amendment, which would have struck out military aid, Senator Pepper voted for the proposal and Senator Holland opposed it.

In the vote by which the Senate passed the bill, Senator Holland voted for, while Senator Pepper voted against.

BLOOD BANK CLINIC

A blood bank clinic will be held Friday at noon until 4:00 P. M. at the office of Mrs. Mary Rawlings of the Sanford Clinic, and will be conducted under direction of Dr. W. J. Smith, chairman of the Central Florida Blood Bank.

The clinic was announced today by Mrs. Rawlings. She advised prospective donors to eat a light breakfast.

Local Red Cross Appeals For More Contributions To Meet \$10,000 Goal

An appeal for more contributions for the Red Cross drive in Seminole County was today made by Herman E. Morris, fund chairman, who revealed that the present amount raised, \$5,500, is only a little more than midway to the goal of \$10,000.

Radio Station WTRR Will Begin Operations Soon

All equipment has been received in Radio station WTRR at the Myrtle Inn, and work is proceeding toward the completion of studio facilities including the soundproofing of two rooms. It is hoped to open the station about May 1, James S. Rivera, owner, announced today.

Material is here for the 210 foot vertical tower which will be located on the tract east of the hotel. The erection crew is expected to arrive shortly to put this up. A small lot for housing certain equipment will be built on the lot.

Operating equipment in the studio has already been installed and tested. This includes a console with two tone tables and 250 watt Collins transmitters of the very latest type. The frequency of the station is 1400 kilocycles.

The broadcasting facilities will occupy four rooms and there will be four offices, all located on the main floor and east wing of the hotel. Stairs are being built to the front of the hallway where the fire escape entrance is located in order to permit an outdoor entrance to the station.

Glenn Weber who for two years has been associated with the WDRB in Orlando, has been named program director of WTRR. Bruce Smith of Colesco, Ga., will be chief announcer. Joe Parize, Colesco, will serve as director of advertising. Emerson Brown of Colesco is chief radio engineer and Richard Batchelor of Winter Park is assisting engineer.

MASONIC MEETING

Sanford Lodge No. 62 F and AM will meet Friday at the Masonic Lodge at which time the Master Degree will be conferred.

Contract Signed Between CIO And Steel Company

AUTO WORKERS UNION Demands Straight 15 Cent Increase

PITTSBURGH, Apr. 23—Representatives of the United States Steel Corporation and the CIO District 15 Auto Workers Union today signed a contract calling for a 15 cent wage increase for 140,000 employees of U. S. Steel.

After the contract was signed in Pittsburgh, the head of Carnegie-Illinois Steel Corporation said that it was a big step taken because of the company's faith in union president Philip Murray.

From Bethlehem, Pa., word came that the Bethlehem Steel Corporation will remain neutral negotiations between the union and the steel industry will continue with the \$300,000,000 pact reached between the steel workers' union and the United States Steel Corporation.

Plans for the Spring convention of District Four, Pilot International, comprising 21 clubs in the state, which will be held this weekend in Oklawaha were completed. Mrs. Sarah Hughes, Oklawaha Pilot was nominated by the local club as candidate for district secretary at the National convention to be held in Columbus, Ohio this summer. Miss Margaret Washburn of Gainesville was chosen to represent District No. 4 on the nominating committee.

Memo Commended In Church Board Letter

A letter of appreciation and commendation for efforts to curb illegal gambling in Sanford and Seminole County was today received by Sheriff Percy Meers from the Official Board of the First Methodist Church of Sanford. The letter was signed by M. R. Strickland, chairman of the Board, and by Miss Mabel Chapman, secretary.

"We, the Official Board of the Methodist Church of Sanford, Florida," the letter read, "meet in regular session, and after deliberation voted unanimously to send you this word of commendation. We appreciate and commend you most heartily for your efforts to curb illegal gambling in our city and county. We wish further to assure you of our hearty cooperation to enforce law and order in our county."

Board Will Meet To Re-Appoint Teachers

The Seminole County Board of Public Instruction will meet Thursday morning at 10:00 o'clock at the office of Supt. T. W. Lawton and will consider recommendations for re-appointment of teachers. It was announced today by Supt. Lawton.

Examinations concerning the Constitution of the United States were taken, Saturday, Apr. 12, by 14 teachers at Supt. Lawton's office, he said. None of the teachers was from Seminole County; 10 were from Orange County, and one each from Apopka, Titusville, Gotha and Winter Park.

Government Asks Key Units Of Bell System To Meeting

Kiwanis Meeting Is Entertained By Glee Club

Telegram Of Thanks For Donation To Texas City Is Read

Kiwanians were today entertained by the entire Seminole High School Glee Club, with Miss Olive Rose, Whittle directing and Miss Eileen Moran accompanying.

The club gave a telegram of thanks for a donation to Texas City, Tex., by the club.

The club also gave a telegram to the National Telephone Workers' Union, expressing sympathy for the strike of telephone workers.

President Lester Tharp at the National Telephone Workers' Union convention in New York City.

After the contract was signed in Pittsburgh, the head of Carnegie-Illinois Steel Corporation said that it was a big step taken because of the company's faith in union president Philip Murray.

From Bethlehem, Pa., word came that the Bethlehem Steel Corporation will remain neutral negotiations between the union and the steel industry will continue with the \$300,000,000 pact reached between the steel workers' union and the United States Steel Corporation.

Plans for the Spring convention of District Four, Pilot International, comprising 21 clubs in the state, which will be held this weekend in Oklawaha were completed.

Pilot Club Holds Last Meeting Of Year In Tourist Center

An auditing committee composed of Mrs. Frank R. McNeil, Mrs. H. A. Swanson and Mrs. L. B. Randall, Jr. was organized by Mrs. Mary Rawlings, president of the Pilot Club of Oklawaha, at the last meeting of the year held in the Tourist Center last night.

Plans for the Spring convention of District Four, Pilot International, comprising 21 clubs in the state, which will be held this weekend in Oklawaha were completed. Mrs. Sarah Hughes, Oklawaha Pilot was nominated by the local club as candidate for district secretary at the National convention to be held in Columbus, Ohio this summer.

Hope Abandoned For Settlement Of Austrian Pact

MOSCOW, Apr. 23—American officials today appear to have given up hope for the completion of an Austrian peace treaty with Germany. The treaty, which was expected to be signed in Moscow, was abandoned yesterday.

The autumn still grant the chance of a miracle to break up the stalemate over key issues. But they said the best opinion now, based on results of three secret sessions held Monday and Tuesday, is that the Austrian pact is out of the window for the present.

Delegations were packing meanwhile and most all departures for the spring convention and their staffs expect to be gone from the Russian capital within three or four days after the conference ends.

The French are slated to leave aboard a special train as soon as possible after the final session. It was said that luggage from the French Embassy was put on the train today. Secretary of State George Marshall and most of the Americans will fly to the United States in special planes. Marshall was said to have ordered his plane to Moscow from Berlin.

It was believed the Russians will remain unyielding to the end in their stand on the Austrian situation against the other three powers. If that estimate is correct, then the only work remaining for the foreign diplomats is to turn back to their deputies and the four-power control council at Berlin the German problems on which the Big Four were unable to agree.

Invitation To Re Open Negotiations Is Accepted By Head Of Telephone Union

WASHINGTON, Apr. 23—Federal Conciliation Director Edgar Warren today asked three key units of the Bell Telephone System and the unions to meet with government conciliators. The invitations to reopen negotiations were extended to the long lines division of the American Telephone and Telegraph Company, the Southwestern Bell Company and Western Electric's installation and manufacturing divisions.

Warren said the meetings will be arranged as soon as possible, he hoped tomorrow. Then he added optimistically: "We certainly hope we will be able to get something out of this conference."

The deadlock dispute between the Bell System and the striking National Federation of Telephone Workers in its 17th day. Conciliation efforts with the A. T. & T. long lines and the Southwestern Bell Company were held before the weekend recess on Apr. 7 but they ended without a settlement.

Warren made his announcement at the latest negotiation invitation after Labor Secretary Schwelb had conferred with the chairman of the communications commission, Charles Denny, and with three top union officials.

The president of the National Federation of Telephone Workers, Joseph Beane, promptly accepted Warren's invitation for discussions. Warren said that he had received no word from the three company units involved.

Ship Sinks Following Collision Off Miami

MIAMI, Apr. 23—A British motorship and freighter collided about ten miles southeast of Miami last night. Eight crew members of the British vessel, the Mary Read, were taken to Miami after their ship sank.

The Coast Guard reported that the ships apparently got their signal lights confused and collided on a calm sea on a clear night. The 115-foot Mary Read sank within five minutes after the collision. The steamship continued on its way.
