

## GREAT REPORT SUBMITTED TO GOVERNMENT ENGINEERS REGARDING ST. JOHNS RIVER

Hearing Held Here Yesterday Was Most Successful

### FACTS AND FIGURES

ARE BOUND TO IMPRESS THE GOVERNMENT WITH THE JUSTICE OF OUR CLAIMS

A large number of prominent local and out-of-town merchants and shippers attended what was probably the most important meeting that has ever been held in the history of Sanford.

This meeting was called by the government engineers, and was for the purpose of permitting additional data being presented in connection with the preliminary survey, as authorized by congress June 5, 1920. It was in reality a continuation of the meeting at Titusville, at which time the Central Florida Water Traffic League, which has had the responsibility of preparing the data, requested an adjournment to Sanford at a later date, in order that the additional data be acquired to strengthen its contention for the improvement of water transportation on the St. Johns river.

The hearing was held in the court house before Major Lemen, Corps of Engineers, U. S. A. Before taking direct testimony, Major Lemen gave a brief resume of the canal situation since it was first agitated. He stated that the vast land concessions granted the East Coast Canal Company by the state, under special act of the legislature of 1881 was for the purpose of affording that section means of ingress and egress. In lieu of these concessions this company was to build and maintain a canal of five foot depth at mean low water mark with a width of 500 feet. Since the construction of railroads along the East Coast, however, the East Coast Canal has fallen into disuse and it was his opinion that the state should devise some method whereby it could become government property at a reasonable figure.

A survey of the St. Johns river route was made in 1913 and recommended by the local engineers, but after being referred to a higher board in Washington it was turned down, due to lack of available tonnage. In order to prevent a repetition of any such adverse action, those of the Central Florida Water Traffic League left nothing undone to procure statistics showing the present and future tonnage possibilities for this route. These figures were gathered and submitted in the form of a brief. It was intended that Judge Bland, of Orlando, present this brief, but on account of his absence the presentation was made by A. P. Connelly, president of the Sanford Chamber of Commerce, and one of the directors of the Central Florida Water Traffic League.

Included in this brief was a map of the waterways of Florida which showed of the present and proposed canals, the latter being those advocated by the League. The map also contained shaded areas showing roads, citrus fruit districts and melon acreage, vegetable and legends showing timber possibilities and reclamation projects that would be realized, if the improvements as recommended were effected.

Subsequent to the presentation of this brief, witnesses were called from different sections, all of whom supplemented, either orally or with written data, the statements previously assigned. A great deal of valuable information was brought out in this cross examination by representatives who had not submitted figures from their sections. Interesting testimony referred to that given by the Wilson Cypress Co., of Palatka, Fla., which showed an annual production of over ninety-four thousand tons, a great portion of which would be shipped by water if the proper facilities were provided.

S. J. Sligh, a large shipper of Orlando, gave Major Lemen comparative differentials as between Cuba, Porto Rico and New York and Florida and New York. These figures showed that a differential of 35c per box from the former points as against Florida. Mr. Sligh showed by his figures that the same holds true as regards shipments from South Ameri-

## NICHOL TO HANG IN DELAND JAIL ON JULY 21ST

White Rapist Will Suffer Penalty of His Crime

(By The Associated Press) JACKSONVILLE, June 28.—Aubrey Lee Nichols, the Greenwood, S. C. young man under death sentence for an attack on a woman resident of DeLand last December, will be hanged at DeLand July 21, between 10 a. m. and 2 p. m. Nichols' appeal to the pardon board for commutation to life imprisonment was recently refused. Governor Hardee issued the death warrant and the warrant was read to Nichols in the Duval jail here yesterday by Sheriff Morris, of Volusia county. Nichols has been in the Duval jail since his arrest except for a few hours in DeLand for trial.

## 600,000 CONVERTS FIXED AS GOAL OF THE BAPTISTS THIS YEAR

(By The Associated Press) NASHVILLE, June 28.—A goal of 600,000 converts during the present conventional year has been fixed as the evangelistic program by Southern Baptists at their meeting here today of the conservation committee and other church leaders.

## MRS. BEN HOOPER WILL BE WINNER

MILWAUKEE, June 28.—Mrs. Ben C. Hooper, of Oshkosh, president of the Wisconsin League of Women voters, as nominee for the U. S. Senate, will lead the democrats of Wisconsin November 17. The democratic convention last night unanimously endorsed her candidacy, and her nomination in the primary in September was accepted.

ca, Southern Europe and South African points on both vegetables and citrus shipments, and that those producing sections of the world can place shipments in domestic markets cheaper than can be done from Florida. Mr. Sligh said that in order to secure return cargo cabbage from Denmark and Holland was shipped to New York during the past season at cargo rates, and as a result Florida growers were the sufferers. It was firmly the opinion that the future surety of the citrus and trucking industry of Florida was contingent upon development of our waterways, which was the only means of affording relief to the growers in the form of cheaper transportation.

H. M. de Montmolin, of Palatka, submitted tonnage figures from his section. Mr. Connelly called upon the following men, all of whom were unanimous in declaring that development of the St. Johns, to enable ocean vessels to reach Sanford, was the only method to alleviate the high rate problem.

S. O. Chase, Chase & Co., Sanford.  
M. M. Dickson, Dickson-Ives Co., Orlando.

H. E. McCuller, lumber manufacturer, Orlando.

J. G. Dreka, Dreka Co., DeLand.

Chas. E. Rowton, Palatka.

P. J. Feltnor, Osceola Cypress Co., Osceola, Fla.

George B. Parkhill, special representative of the Jacksonville Chamber of Commerce, at the hearing stressed the importance of co-operation between advocates of the different projects under consideration, and declared that both were of special importance to the state. He assured the Central Florida Water Traffic League that it could count upon the support of Jacksonville, and the Jacksonville Chamber of Commerce in any movement made for the development of the St. Johns river.

The meeting adjourned at 12 o'clock and reconvened at 1:30, the afternoon session being adjourned at 3 o'clock. Those of the League who had been delegated to secure the statistics presented in the brief are confident that they have advanced irrefutable data in support of their contention that this route receive favorable recommendation by the government engineers for the preliminary and then final survey.

## EFFORT TO REDUCE RATES IN NEW TARIFF BILL MADE BY DEMOCRATS

Looks Like Well Organized Scheme to Hook the Consumer

(By The Associated Press) WASHINGTON, June 28.—The agricultural schedule in the administration tariff bill was attacked yesterday in the senate by Senator Walsh, of Massachusetts, a democratic member of the finance committee, and defended by Chairman McCumber of the committee, and Senator Gooding, republican, Idaho, chairman of the republican agricultural tariff bloc. The debate continued for several hours with a result that none of the committee amendments in the schedule were voted.

The paragraph dealing with duties on cattle and fresh beef and veal finally came under consideration, and without a record vote amendments by Senator Walsh, of Massachusetts, to reduce the committee rates, were rejected.

Asserting that he bill was "an attempt to make a raid on the consumers of the country such as never before has been dreamed of," Senator Walsh declared, the duties proposed on meats, cereals, potatoes and apples alone would increase the cost to the consumers by \$1,316,000,000 annually, or about \$80 for the average family of six. This did not take into account, he said, the increased costs that would follow from the duties on butter, eggs, poultry, fruit, fish and the many other foods in the schedule.

Discussing what he denominated as the influence of the republican-agricultural tariff bloc on the senate finance committee majority in the framing of the bill, Senator Walsh said that this "influence and pressure" was successful as shown by the

fact that the committee increased from 20 to 350 per cent. the duties on commodities in which the bloc was interested and, reduced the house rates on all other products in the agricultural schedule. He asserted also that the rates were lowered on agricultural products of the democratic states of the South and said it was "that a political party would carry partisanship to such an extent."

Replying for the committee, Senator McCumber declared he was willing to take his share of the responsibility for the increases over the house rate, adding that they would have to be made, bloc or no bloc. He said he was glad of the assistance that the bloc had rendered in "doing justice to the farmer."

The North Dakota senator argued that the farm laborers were as much entitled to a living wage as the workers in the city, whose wages and standard of living, he said, had advanced to a high plane, under a protective tariff system. He asked that a comparison of living standards in the cities and rural districts be made, and declared it was the duty of congress to increase the standard in the country to that obtaining in the city so as to give everyone a fair deal.

Senator McCumber expressed the opinion that not all of the proposed increases in tariffs on farm products would be passed on to the consumer, but asserted that even if they were the city man with a wage ranging "from \$5 to \$10 a day" should be willing to pay out a "few cents extra" each day for foodstuffs so as to "enable the farmer to earn a living."

## GIGANTIC STREET PARADE ELKS DAY IN SANFORD, GREATEST IN HISTORY

Over One Hundred Candidates Will be Initiated on That Eventful Day

Last night a committee representing the Sanford lodge of Elks motored to Daytona to meet with the Elks of that place to make the final arrangements for one of the biggest days seen in Sanford in a long time. This committee consisted of Dr. C. J. Marshall, exalted ruler; Judge E. F. Housholder, secretary, and C. L. Britt, H. B. Lewis, W. E. Walthall, Ed. Higgins, R. C. Bower, Jack Davison, Dick Maxwell and Arthur Yowell.

A committee of Daytona Elks empowered to help Sanford make this day the big day that it will be, met the Sanford committee and after all the arrangements were made, a program was mapped out that will give the people of Sanford and especially the candidates the time of their life.

Thursday, July 13th, was set as the day for the fire works and Daytona, in addition to bringing the team and the goat will bring over their forty-two piece band and twelve piece drum corps and over a hundred Elks.

At four o'clock prompt, the parade will take place, and will be served the Elks and their visitors on the club grounds. A band concert in the city park by this famous band at 7:30 and the big work, the work that over a hundred candidates are looking forward to, will start at the club house at seven sharp and last until each one is made into a real Elk.

The Daytona Club was not selected so much because they were close to Sanford as the fact that they have made a name for themselves around the state for the way they put these things on. In Jacksonville they have the distinction of being the best that ever attempted the work there and they keep getting better all the time which assures the Sanford candidates their full money's worth.

This same Daytona lodge has a forty-two piece band that won the first prize in the state contest at Jacksonville and were given free transportation to the Elks convention in Atlantic City. Much trouble was experienced in securing the band for the Sanford affair but they finally decided to give the day to Sanford and leave for Atlantic City from here. This band will

render a concert in the city park at 7:30 in the evening for the benefit of the ladies and the Sanford public in general, while the candidates are being entertained at the club house.

The big barbecue and chicken pilau will take place at five thirty and will be for the Elks, candidates and their visitors. This particular part of the program is in charge of men experienced along that line and Sanford will see to it that the Elks will be well fed that day.

The street parade which takes place at four in the afternoon is the real feature of the day. This parade will be headed by the Daytona band and will be at least a half mile long. There will be surprises and other things connected with this parade that will bring people for a good ways off to see it, especially Elks. The Sanford people are urged to stay at home that Thursday in order to witness this parade because it will be one that will not soon be forgotten.

The Elks meet again tonight at which time the final program will be drawn up and tomorrow's paper will give it in full.

Bear in mind the big day comes off on July 13th, and the parade and band concert will well pay you not to leave town that afternoon, and the Daytona lodge promises the candidates that they will be able to walk within a week after the initiation is over.

The dance that was to have taken place that night has been put off until the following night, at which time a real old time Elks ball will take place in the new club house. The setting of this dance back a day was decided on after the committee learned what was in store for the candidates as they knew it is hard to dance on crutches.

Watch the Daily Herald each day from now on for information regarding this big celebration and plan to take your part in it. Remember—Thursday, July 13th.

Mr. and Mrs. S. H. Buchanan will leave Saturday for a month's stay at Daytona Beach.

Let us do your Job Printing.

## PROVISIONAL GOVERNMENT TAKES HOLD OF AFFAIRS FIGHTING BATTLE TODAY

### NEW BANDIT ON HORIZON IN MEXICO

WASHINGTON IS STIRRED BY THE NEWS BUT DOES NO STIRRING

(By The Associated Press) WASHINGTON, June 28.—The seizure of 40 American employees of the Cortez Oil Company at Tampico, Mexico, reported to the state department yesterday, as security for a ransom of 15,000 pesos created a stir in official circles in Washington. Lacking further information as to what has happened behind what is apparently a rigid censorship at Tampico, however, there was little to indicate last night whether the incident would lead to any change of attitude here toward the Obregon government in Mexico.

In fact at the white house it was said that relations between the United States and Mexico were not likely to be affected in any way by the bandit outbreak and the recent kidnapping for ransom near Cuernavaca, some 60 miles from Mexico City, of Bruce Hleski, former chief of the Bureau of Investigation of the Department of Justice and more recently identified with American oil interests who have property in Mexico.

Until it is known that the incidents are not a matter of domestic politics in Mexico conceived by enemies of the Obregon government to embarrass its relations with the United States, or until that government has been proven unequal to accord such protection of Americans and their property as the occasion demands, there appears to be no disposition here to move in any other than a diplomatic way.

Beyond a brief report stating that in addition to the two-score American employees a quarter of a million dollars worth of destructible property of the Cortez Oil company was being held as security for the payment demanded, no other word had reached the state department last night concerning the bandit action in Tampico. Both the embassy in Mexico and the consul at Tampico were promptly instructed to report for immediate action by the Mexican federal authorities, adequate protection for American life and property and punishment of the perpetrators of the outrage.

The consul reported that the rebel general, Gorozaave, with 240 well armed men held the property and the 40 Americans had given 18 hours from Sunday morning, when the raid occurred, for payment as demanded. The time limit elapsed yesterday morning. It was expected that further word would come at any moment showing what finally had occurred.

Gorozaave is a new figure in the Mexican situation. Neither at the state department nor the Mexican embassy was his name recalled. Whether he is a new bandit starting out on a career of outlawry or one of the group in the Tampico region formerly headed by General Palenas, who controlled the oil territory for years, loving tribute on oil operators, was not known. Palenas abandoned the field some time ago, however, and is now understood to be in the United States.

### BOSTON IN CELLAR, CONNIE MACK OUT OF LAST PLACE

(By The Associated Press) NEW YORK, June 28.—Connie Mack's Athletics are out of last place today and Boston is holding down the American League cellar berth as the result of iron man performance of Connie's star twirler, Eddie Rommel in chalking up two victories over Boston yesterday. Rommel earned 4 to 2 decision in the first game of a double header and came back in the seventh inning of the second game with the score tied, stopped Boston's rally while team-mates pounded the Boston pitcher and won 6 to 4.

### ENGINEER KILLED ON CHICAGO FLYER AT ALVO, NEBRASKA

CHICAGO, June 28.—The engineer was killed today when the Chicago Flyer on the Rock Island railroad was derailed by a washout near Alvo, Nebraska.

### Will Either Run Irish Affairs or Let Britain Do It

## CRISES IN IRELAND

MEANS THAT IRELAND MUST CEASE FIGHTING OR GO BACK TO FORMER STATE

(By The Associated Press) DUBLIN, June 28.—The Irish provisional government took forceful action today against the insurgents of the Irish Republican army, investing four court buildings where the insurgents were entrenched and opening hot attack when the demand for their surrender was ignored. Fighting, which opened shortly after four o'clock this morning was still in progress late this afternoon, the crack of rifles and the rattle of machine guns resounding over Dublin above the noise of the city's traffic, which was being carried on as usual. Fowler Hall and Parnell Square, occupied by irregulars was also attacked by the Irish government troops. A number of casualties on either side but not definitely known but fourteen are reported up to mid-forenoon. Three irregulars were carried out of four courts building by rear exit. Thousands of shots had been fired.

### AD PROVISIONAL

DUBLIN, June 28.—Irregular Irish troops defending Fowler hall evacuated this afternoon and proceeded to a large hotel where they began erecting defenses.

There is a rumor that Roby O'Connor, Republican insurgent commander, was wounded.

DUBLIN, June 28.—About seven hundred men engaged on the government side and the rattle of rifle and machine gun fire punctuated by the explosion of bomb and occasional booming of artillery. The government forces are using two 18-pounder field pieces against four courts building, firing high explosive shells with delay action fuses. By 11:30 a breach was made in one wall of the building.

### ENTITLED TO SEAT.

WASHINGTON, June 27.—Democratic members of the house rules and elections committee declare in a minority report yesterday that Rep. Thos. W. Harrison, Democrat, of the Seventh Virginia district, had been duly elected, entitled to hold his seat and that John Paul, Republican contestant, had no claim thereto.

The election of Harrison was declared void by Republican members who recently submitted a report to the house holding that Paul had been duly elected. The case is not likely to be considered by the house prior to the recess expected to begin late this week.

### ASKS PROTECTION

KINSTON, N. C., June 27.—Elijah Dunn, negro driver of a West Construction Company material truck which left the roadway one mile from Deep Run, this county, Saturday, collided with a horse drawn vehicle parked in the yard of the home of Tom Hill, killing James Hill, 12, and perhaps fatally injuring Mrs. Julia Ann Smith, and a one-year-old infant, surrendered to the local police yesterday and asked to be kept in a safe place pending an inquiry into the accident.

### HOUSE ADJOURNMENT MAY BE BLOCKED BY NEW RESOLUTION

(By The Associated Press) WASHINGTON, June 28.—House plans for adjournment Saturday were upset temporarily in the senate today when attempts of Senator Curtis, assistant republican leader, to put through the senate a resolution giving the senate's consent to adjournment, were blocked pending a consultation between the democratic leaders of the two houses. The resolution which Senator Curtis put in provided for adjournment to August 8.

#### LOST

- LOST—Small shepherd dog. About 1 month old. Black, with white feet. Finder please return to L. H. Connelly and receive reward. 72-1tc
- LOST—One tool box with some tools in same.—Return to T. J. Miller for reward. 79-1tp

### PERSONALS

J. A. Erickson, of DeLand, well-known merchant of that city, was here today attending the waterways meeting.

Chester Goodrich, of Orlando, was among the visitors to the city today and his many friends were glad to see him again.

Ernest Rowland, of the firm of Cook & Rowland of DeLand, Buick agents and well known in the auto world, was in the city today attending the meeting of the waterways.

Mr. and Mrs. Benjamin R. Leigh flivvered to Jacksonville Saturday. Mr. Leigh returned Sunday, but Mrs. Leigh will remain in the big town until after the 4th of July celebration.

Mr. and Mrs. Ray Seldan and family of Daytona Beach were in the city today on business and calling on their Sanford friends. Mr. Seldan is a well known attorney of the peninsular cities.

Col. Montmoulin and F. E. Waymer of Palatka are in the city attending the waterways hearing. Both these gentlemen are representative business men of Palatka and are boosters for the St. Johns river waterway.

Earl Brown, the energetic and efficient secretary of the DeLand commercial club and city manager of DeLand, was in the city today attending the hearing on the inland waterways. DeLand and the Commercial club are great boosters for the St. Johns river.

One of the features of the army band practice last night was R. W. Pearson in his army suit. They say he is a regular Beau Brummell when he puts his O. D. shirt on over his regular togs and lets the white collar and red necktie show through the old wool shirt.

R. B. Brossiere, editor of the Orlando Reporter-Star, and Hon. H. H. Dickson, one of the most prominent business men of that city, and member of the firm of Dixon & Ives, were in the city today attending the waterways meeting, in which they were greatly interested.

Jeff Slight, president and W. M. Tarpley, secretary, of the Florida Water Traffic League of Orlando, were in the city today attending the meeting of the waterways committee at the court house. Both of these gentlemen are well known in this city and their friends are giving them a warm welcome.

Joe Brann, of Coronado Beach, was in the city today advertising the big time at Coronado on the Fourth of July at which time there will be races and a battle royal and a big feed and all the many good things you can always get at Coronado Beach. Joe is still operating the pavilion at the beach and says there are big crowds there and a fine season is anticipated.

Don't forget the big band concerts and the dances and the athletic contests and the bathing suit parade and all the rest of the stunts that will be pulled at Lake Mary Thursday all day and the greater part of the night. There will be something doing every minute and all the money will go toward the support of the Sanford Municipal Band. Go and get all your friends to go.

#### LOCAL

The many friends of Mr. and Mrs. James F. McGee are glad to have them back for a few days visit. They are now living in Tampa, where Mac is in the loan and investment business and while their Sanford friends hate to see them leave Sanford they are glad to know that they are prospering in their new home. Mac was one of the live wires while he was here and Tampa has gained a real live one in J. F.

J. A. Warneke, of Tavares, was in the city yesterday and brought the editor of The Herald some of his new cakes that are called the "Bounty of the Gods"—something new and choice; made of pure honey by the Florida Honey Products company of Tavares. Mr. Warneke says that his orders are so large that a new factory will have to be built at Tavares to keep up with the business. The Popular Market will sell these products in Sanford and anyone who wishes something nice should try the new "Bounty of the Gods."

LOST—One tire and rim between Silver Lake and Sanford or Osteen ferry and Sanford. Return to F. L. Miller for reward. 79-1tp

LOST, STRAYED OR STOLEN—Team of dark bay mules. Finder please notify J. B. Little, West Side, phone 133. Reward. 78-3tc

#### FOR TRADE WANTED

- WANTED—A light truck body for Ford car. P. O. Box 13, Osceola, Fla. 78-2tc
- WANTED—A few more boards. Rates \$8.25 per week. Apply 600 Laurel Ave. 78-2tp

### MILLER'S SLAYER HELD ON MURDER COUNT, MT. DORA

A coroner's jury at Mount Dora yesterday ordered James F. Perry, Mt. Dora farmer, held for investigation by the Lake county grand jury on a charge of first degree murder in connection with the killing of E. L. Miller, which occurred last Saturday afternoon.

The jury's verdict, as reported by State Attorney Joseph H. Jones, who assisted in conducting the investigation, was: "We find that F. L. Miller met his death when he was stabbed by a knife in the hands of James F. Perry."

Mr. Jones said that evidence laid before the jury tended to show that Miller was attempting to placate Perry who had approached the fertilizer plant where Miller and several other men were working, bent on discovering who had slapped his twelve year old son. According to witnesses, Miller was disclaiming any connection with the slapping episode when Perry became enraged and plunged the knife into his side. Miller died within fifteen minutes.

The grand jury will meet in October, Mr. Jones said, to investigate the Perry case along with several others.—Orlando Sentinel.

### JACKSONVILLE SCOUTS AT WEST PALM BEACH

WEST PALM BEACH, June 27.—Troop No. 22, of Jacksonville, Boy Scouts, 33 strong, arrived here at six o'clock last night on their tour of the state. The boys spent the night here and left this morning for Miami. Returning Wednesday on their way to the west coast, the scouts will go by way of Jupiter and Indiantown. The local scout organization is furnishing free entertainment during their stay.

### THE VICE-PRESIDENT OF ILLINOIS CENTRAL DIES IN CANADA

(By The Associated Press) WINDSOR, Ontario, June 27.—A. Stuart Baldwin, aged 61, of Chicago, vice-president of the Illinois Central railroad, died suddenly of heart trouble while enroute from New York to Chicago on a Michigan Central train last night, the crew reported on arrival here.

The Daily Herald Delivered to your door six days a week for 15 cents—Join the throngs of readers.

### SANFORD'S TEMPERATURE

It went up again yesterday while we were not looking and before we could take our pen in hand or our typewriter on our lap the maximum had reached the high water mark of 91 again. Still we would not say it is hot for this morning it was delightfully cool necessitating the pulling of the last strip of our pajamas over us—just like mountain air, it was, yes. And the oldest inhabitant says the hot wave is over but the hot flushes may come back.

5:40 A. M. JUNE 27, 1922

Maximum	91
Minimum	68
Range	70
Barometer	30.94

Office: HERALD BUILDING, Phone 148

Big day for all of Central Florida yesterday.

All honor to the men who are fighting the battles of the people through the Central Florida Water Traffic League.

And no honor to those who are standing back on the side lines without giving any cheering for the good work well done.

All our visitors to the city yesterday were impressed with the idea that Sanford is building as never before and building permanent structures.

Tomorrow is "play day" and if the stores close up and the business men want to play they should be allowed to have one day now and then to go out and have a good time and help the hand while they are taking a little rest and recreation. Let's go.

Again The Herald wants to call your attention to the fact that a publicity tax for the county and city must be made one of these days that will take care of every public institution. Every other progressive city and county is doing it. Investigate this publicity tax.

Every man, woman and child owes a membership in the Fernald-Laughton Hospital. Each year this membership drive is put on and it gives the hospital that difference between paying actual expenses and being that much in debt. It is one of those public institutions that we must help just like we help the hand and other propositions, for the public good. Get ready for the drive for memberships for the hospital. It is coming in July. If you are going away leave your dollar with the president, T. W. Lawton, or the secretary, Mrs. Ender Curlett.

KEEP UP THE BREEZE.

During these hot days a good many electric fans have been started. What for? To agitate the air and keep it from becoming stagnated.

A little boy is going down the street ringing a bell. What for? There is an auction out on a back lot.

The air is cool and pleasant while that fan keeps buzzing. But the moment the current is cut off the air takes on that tired feeling that people sometimes get. The little fans will keep going for a few moments after the power is shut off, but only for a few moments. Then the air soon becomes dead and oppressive again.

The little boy got tired. The sun was hot; so he sat down in the shade to rest. The crowd quit going in the direction of the auction when the bell ceased to ring and the boy's voice was hushed in an afternoon nap.

Here's a lesson in business: A merchant started the breeze by setting the wheels of trade in motion. Just when things are going along comfortably he thinks there is no need of wasting further energy so he shuts off the current. Business runs

Phones 497-494

WELAKA BLOCK

along smoothly for a time, and then it dies down and stops. The business atmosphere becomes murky and oppressive.

These may be termed the parables of the spasmodic advertiser. The man who stirs interest and builds up a trade by a spell of good advertising and then shuts off that current because he thinks it too expensive. Trade may go on all right for a time. But it surely will be as dull and spasmodic as his method of advertising. Most of the "going out of business" advertisements are written by the spasmodic advertiser. The consistent advertiser never has a "going out of business" sale. The man who keeps up the breeze and the advertising bell ringing always has something new to offer the public and the crowd will follow the sound of the bell to where the refreshing ideas are ever afloat.

Just as the bee hums when it is busy, so men must keep trade humming by keeping up the current and never letting interest lag.—Orlando Reporter-Star.

WHO MAKES THIS TOWN?

It isn't any one man or any half dozen, or dozen. It is every person in the town, as well as those who make a practice of coming to the town.

We have citizens who are so modest and retiring that they imagine that their influence is of no value, or has no weight—that it makes no difference to the town what they do or do not do.

They are mistaken. We have become so accustomed to the progressive citizen that we expect to hear from him on any subject of any importance. We would be more or less nonplussed if he did not come to the front.

But it is the action of the quiet and retiring element that adds impetus and puts real life into a movement for civic improvement. They may not assume to be leaders, but when they get behind and push the weight is so great there is no such thing as a premature halt.

Little wavelets lapping up on the seashore always precede the great tidal wave that sweeps everything before it.

It is so in community life.

In each community there are a few who are always promptly active in every good movement. They are the little waves that never rest, that are ever creeping up on the beach, advancing and receding, incessantly on the move until they create the great wave of public sentiment that moves irresistibly on to victory and achievement.

It is the mass of quiet citizens who constitute the bulk of the public sentiment. It is the citizen who possibly thinks that his own individual opinion has but little influence upon community life. It is the man who acts after others have talked.

You, therefore, are one of the number who make this town.

You are expected to aid in making it even a better town. You can do it, if you will.—Ocala Banner.

COLLEGE PREPARATION FOR BUSINESS

A college education is a good asset for a young man setting out on a business career if the result of a questionnaire sent out to the Princeton graduating class of 1912, is to be taken as a criterion.

This report shows that the average income of these graduates last year, which was the tenth following their graduation, was \$6,750. The highest yearly earning reported was \$50,000, and the lowest was \$3,525.

This is a good indication that these men were given an advantage by their education over the great mass of their fellows who did not have the same opportunity. It proves previous statements that a college education is worth \$25 a day to the average man.

But these figures do not prove anything as to the commercial value of an education or its real value. When it comes to the total contribution to the wealth and the happiness of mankind other things must be taken into consideration. And they are even more important.

The fact remains that in many instances the men of learning who are contributing the most real value in this respect are those whose efforts are poorly paid and the result of whose labors cannot be directly computed in money because they are evident only in the lives and acts of others.

While it is true that our colleges are graduating more men and women today into the commercial and industrial lines of work than ever before and fewer into the professional or intellectual, it is also true that even laborers in the former fields are often paid more in dollars than the leaders in the latter.

However, such a statement as that of the result of the Princeton questionnaire should be encouraging to

the young man or woman who hesitates whether to plunge into the work ahead without educational preparation and reach the goal by slow progress, or win it by a dash after a period of intensive training.—Tampa Times.

THE WATERWAY MEETING.

The meeting held in this city yesterday by the U. S. Corps of army engineers under Major Lemen was a wonderful gathering of the people of Central Florida. They were brought here chiefly through the efforts of the Central Florida Water Traffic League—an association of hard working, unselfish, public spirited citizens who have been working long and faithfully on the project of obtaining cheaper freight rates by the deepening of the channel of the St. Johns river, cutting the canal from the upper St. Johns river to the Indian river at Titusville and extending a good channel to Miami giving the people of this part of Florida a real water highway through Florida. It means so much for the people of this part of Florida that words describing the many advantages are useless.

The Herald has printed articles for the past fifteen years on the advantages of water transportation via the St. Johns river and everyone is more or less familiar with this great project. The army engineers have held hearings on the subject of the canal and the inland waterways through Florida before. But never before have the engineers had such a mass of documentary testimony supported by real facts as they have this time by the Central Florida Water Traffic League. It shows what concentrated effort will do toward getting something of real constructive nature accomplished.

We have been working on the inland waterways through Florida for many years. We will probably be working on this great project for many years to come. But real merit will win every time and the St. Johns river has real merit and is bound to be designated as the inland waterways of Florida in the next five years at the farthest and when it is so designated and receives the aid the government is bound to give it all this part of Florida will grow and expand as it should have grown and expanded twenty years ago if the waterways had been opened and ten feet of water obtained from Jacksonville to Sanford. It is bound to come and meantime the men working on the job should keep at the task. It is a big undertaking and much real tape must be cut and much that seems of no use must be undertaken and put over. And let every man who is interested in building up his state get behind this great movement and it may come before we know it. The main trouble in the years gone by is that the task was left to a few men to accomplish and it took too much time to make the effort count. Now that the thousands of people of South Central Florida are behind it the result will soon be apparent in the starting of operations by the government.

Let every business man in Sanford join the Central Florida Water Traffic League. Let him become not only a paying member but a working member and the results will follow as the night follows the day. It means so much to every business man, to every farmer, to every grocer, to every citizen who is interested in any part of this wonderful section of the state. And seventy-five per cent of the business of Florida lies adjacent to the great St. Johns river—don't forget that.

The work has only begun even after the army engineers decide upon the St. Johns river. It will then be carried to congress where the real fight will have to be made for a ten or twenty foot channel and sufficient appropriations to make such a channel possible.

It will take time and money and much hard work and we expect every man in Seminole county to do his part.

WILL DO YOUR PLOWING.

Among the new firms in Sanford is the T. M. Fox company that are now equipped to do heavy hauling with pneumatic tractor and trailer outfit for all kinds of hauling. They will also do your plowing, discing, and harrowing at rates beneficial to the farmer. They will have headquarters at the Ford Service Station on East First street. See their advertisement in this issue of The Herald. Meade Fox is the presiding genius at the head of the new company and he will give you all the particulars about it. Call him at 331.

Dr. E. H. Armstrong, of Jacksonville, is here today demonstrating the Crankless engine. He is well known in Sanford where he used to come with his yacht and spend several weeks each summer.

R. R. SHOPMEN WILL WALK OUT IF CUT MADE

BASED ON STRIKE VOTE UP TO DATE LOOKS LIKE A WALKOUT

(By The Associated Press) CHICAGO, June 28.—A strike of the 400,000 railway shopmen of the country will be called for July 1 unless the railroads agree to stay the \$60,000,000 wage cut due the shopworkers on that date and to destroy certain working conditions formerly in effect, it was made known last night through a telegram from B. M. Jewell, head of the shop crafts, to the Association of Railway Executives.

Decision to call a strike came late yesterday after a lengthy discussion by the executive committee of the six shop crafts unions, based on the strike vote of the men thus far tabulated.

Should the rail heads arrange an immediate conference, agreeing meanwhile to continue present wages, restore working rules modified by the railroad labor board, and discontinue farming out railroad work, however, a walkout can be halted, the telegram said. Otherwise "a sanction of withdrawal from employment on July 1, 1922, as voted by the employees, will be unavoidable."

The 2,500 telegrams, addressed to T. DeWitt Cuyler, chairman of the Association of Railway Executives, threw no light on the actual strike vote beyond saying it was an "overwhelming majority." Ballots were still coming in, it was said, as they were not returnable until June 20. A two-thirds majority is required by the union by-laws to call a strike.

Although the actual call for the walkout was made dependent on the railway executives' reply to President Jewell's ultimatum little expectations were expressed in railroad circles last night that the executives would agree to such sweeping demands as those made by the unions.

Six international union presidents, forming the executive council of the Mechanical Section, Railway Employees' Department of the American Federation of Labor, were responsible for the strike decision. Closed for two days in secret session, they remained silent on their actions until last night.

Declaring that the railroads have acted on a common program to reduce wages and obtain other advantages to the carriers, President Jewell's message pointed out one benefit which may come to the carriers and employees and to the general public and to the fact that there are national spokesmen of the conflicting interests who might be able to halt a nation wide withdrawal of men from employment in executive sincerely desired to the railway service, if the railway avoid this consequence of their previous course of action.

"For this reason," the telegram said "in behalf of and by the authority of the executive council of the railway employees department, I am informing you and through you informing the responsible heads of the various railway systems in the United States and also the Pullman Company, most of which are represented in the Association of Railway Executives, that unless an immediate arrangement can be made:

- (1) To continue the payment of the wages at present in force,
(2) To restore operation under rules 6, 10, 12, 14, 15, 16 and 177, as they existed prior to the amendments thereof proposed in decision 222; and
(3) To discontinue the contracting out of work and shops pending negotiations between the Association of Railway Executives and Railway Employees Department looking toward adjustment of the existing disputes upon these questions, a sanction of withdrawal from employment on July 1, 1922, will be unavoidable."

COAL MINERS TO ABANDON STRIKE PLAN AT PRESENT

WILKES BARRE, Pa., June 28.—Upon receipt of a telegram from John L. Lewis, president of the United Mine Workers, who conferred with President Harding at Washington yesterday, the general scale committee of the anthracite workers yesterday abandoned all plans for immediately calling an absolute strike and the contemplated withdrawal of pumpmen from the mines.

The committee adjourned indefinitely, leaving the anthracite situation as it was before it convened Monday morning, when it received the practically unanimous permission by referendum vote of the 150,000 idle miners to make the prevailing suspension an absolute strike.

Labor officials and members of the committee expressed great elation over the tone of Mr. Lewis' message, although they declined to make it public.

Illinois Massacre In Condemned by Senator Myers

Says Instance of 100 Per Cent Disloyal to U. S. and Constitution

(By The Associated Press) WASHINGTON, June 28.—Charging that the people of Williamson county, Illinois, apparently given approval to the massacre of non-union miners at Herrin, Senator Myers, a Democrat, of Montana, declared today in the senate here was an instance of one entire county "100 per cent disloyal to the United States and its constitution." Myers read into the record the verdict of the coroner's jury

and declared if the massacre went unpunished, as he predicted it would, the constitutional government of the United States could not endure. "There is little room to talk about the lynch law in the south as long as this sort of thing goes unpunished.

We'll Back the Farmer---

This bank stands squarely behind all those things which serve to ease the problems of rural life and promote the general welfare of the farmers.

We're vitally concerned about poor yields, inadequate market facilities, low prices, insufficient credits, lack of transportation and every such problem affecting the farmers.

We want each farmer in this section, whether a customer of this bank or not, to know that we accept his problem as our own and offer him our help to satisfactorily meet these conditions.

EVERY FARMER SHOULD KNOW CORN PERCENTAGE

(By The Associated Press) GAINESVILLE, June 28.—Every farmer should know the percentage of an ear of corn when he turns to matters of further propagation...

Seed for the next planting should be chosen from the growing stalk, the experts say. In this manner, the farmer can get the "low down" on the seed which he expects to fruit for his next crop.

In selecting the seed for the growing corn, the experts pass out a few pointers: No ear grown upon a stalk that enjoys the advantages of rich soil, plenty of room, and moisture, should be selected.

Attention should be paid to the location of the stalk, condition of the leaves, position of the ear upon the stalk, size of ear, the shuck, and length of shank.

WIFE WHO KILLED HUSBAND IN JAX. IS EXONERATED

(By The Associated Press) JACKSONVILLE, June 28.—Mrs. Effie Travis, 29, will today take the body of her husband, J. L. Travis, 39, whom she shot and killed last Thursday when he attacked her, to her home at Kissimmee for burial in the family plot.

Travis died Monday after a long fight had been made to revive him from a bullet wound in his head. At Kissimmee the woman and her burden will be met by the couple's two children. They were visiting Mrs. Travis' mother at the time of the tragedy.

FOUND WANTED MAN ALREADY IN JAIL

(By The Associated Press) MIAMI, June 28.—Deputy Sheriff Jack Gay, of Dade county, had little trouble following the trail of Jack Smith, wanted by the New Smyrna authorities, when he was put on the case here recently but as the sheriff's office said, the trial "petered out" every time Gay reached a certain stage in the man hunt.

While Gay was combing the city for Smith, to lock him up in jail, Smith was basking in the bastille. He and his wife had argued over something and she had him arrested on a peace warrant.

U. S. SHIPPING BOARD VESSELS AND OTHERS ARE RAIDED IN N. Y.

(By The Associated Press) NEW YORK, June 28.—Custom inspectors late yesterday raided three vessels in port, two flying the American flag and the other a Norwegian freighter, and confiscated 2,400 bottles of alleged liquor, all of which was declared to have been smuggled aboard. The ships searched were the United States Shipping Board steamer President Arthur, operated by the United States Lines;

the Ward liner Stoney and the Barford, a Norwegian cargo ship.

Reports that the raid aboard the President Arthur in Hoboken, was conducted as a test case, as a result of the recent ruling of Chairman Lasker of the shipping board that ships carrying the American flag may carry and sell liquor outside the three mile zone, were later denied by members of the searching squad.

"PEACOCK ALLEY" IS GORGEOUS PRODUCTION

Shows Mae Murray as Parisian Dancer and Misunderstood Wife It is not often that motion picture fans are given the opportunity to see the latest and most stylish costumes presented by one of the most attractive artists of the screen in a story vibrant with romance and adventure, but that is what Mae Murray's latest picture, "Peacock Alley" is.

In this Metro release for Tiffany Productions, Inc., presented by Robert Z. Leonard, Miss Murray portrays the part of a Parisian dancer, who, as the darling of the famous city of pleasure, is feted and adored for her daring and artistic creations. She falls in love with a youthful American, a small town boy, and goes back to his home only to find that the people of the little village are scandalized at his French wife. The rude awakening among the bright lights of Broadway gives this story a turn which makes it one of the most dramatic offerings of the screen.

"Peacock Alley" is typically a Mae Murray picture. Its gorgeous settings and the costly costumes of the stars are outstanding features in an offering which at its special showing in New York won the unstinted praise of the critics as being the most beautiful and gorgeous production of the screen. The cast supporting Miss Murray is a most notable one and includes Monte Blue in the leading male role, Edmund Lowe, W. J. Ferguson, Anders Randolph, William Tooker, Howard Lang, William Frederick, M. Durant and Jeffry Lewis.

COUNTY SOLICITOR GAINED 2 1/2 POUNDS IN TEN DAYS

Remarkable Gain in Weight Shown By Ferraline User

Mr. W. W. Lavender, County Solicitor, of Bibb County, Alabama, gained two and a half pounds in about ten days after starting to use Ferraline. This is a wonderful record but no more wonderful than that of many others who have written to the Ferraline Medicine Company, recounting their experiences with Ferraline in making his report. Mr. Lavender says: "I desire, without solicitation or hesitation to commend to those people who are overworked or are in a run down condition to try Ferraline as a tonic. I took two bottles and felt almost like a new person and gained two and a half pounds in about ten days."

NOTICE You can't make a mistake when you buy a Buick. It's economy, durability. It's quality and comfort.—N. H. Garner. 76-6tc:wlc

How did your neighbor's last bargain tire turn out? PROBABLY you know at least one car-owner who is always on the look-out for the cheapest tires he can find. He likes to get them by mail or at a sale or at some place where they have big red bargain signs over the door. It would be fine if he could get "the edge" in every tire trade. But the dealer can't afford to let him have it. Even if a man saw any slight percentage in tire shopping at all—it disappeared when the "Usco" brought the price down. A standard product—and the dealer sells it with pride. A good tire. The dealer has no desire to trade you into a larger profit for himself. United States Tires are Good Tires. Copyright 1921 U. S. **No Dead Ones There— All Alive in Kiwanis**  
Mrs. Marshall and Langley were called on to examine a few of the late comers at the Kiwanis luncheon today, and reported that all were very much alive, except Bart Herndon, and recommended that he be laid out for a while to see if mortification would set in. Frank Miller was called to take the measurements, but while Bart was on the cooler the thing broke down and Herndon showed at once that he was not dead. Then just to cap the climax he being speaker of the day) wherein he told of the organization of the tribe of Lloyd and how the members of such tribes were known internationally as secretaries. Visitors at Kiwanis today were Capt. Curly, of the Boy Scouts organization; Perry Byrd, of Titusville; Mr. O'Connor and Mr. Crosby, of Daytona. Mr. O'Connor addressed the club with reference to the competition of the west as against the south. Mr. Byrd announced that he had fallen in love with Sanford and its people and in all probability he would be a Sanford citizen shortly. Capt. Curly spoke for some minutes on the objects and aims of scouting. He stated that in the near future Sanford would have six troops of Scouts instead of three as now; that the Scout Camp on Silver Lake had been selected as the central camp for his district and that soon there would be an encampment of hundreds of Scouts at this camp. While the meeting was in progress a phone call from Daytona Kiwanis announced that Thursday, July 6th, was the day that Daytona Kiwanians would entertain Sanford Kiwanians with a bench dinner consisting of shrimp, pilau and accessories to match. The local club will attend in a body.

**ST. AGNES GUILD.**  
The members of the St. Agnes Guild had a most interesting meeting Monday afternoon at the home of Mrs. Al Zinser, with Mrs. Paul Biggers as hostess. The afternoon was spent with sewing, and a few matters of business were discussed and passed upon. After the business session the hostess served a delicious salad course with accessories and punch.

Among those present Monday afternoon were Mrs. Archie Betts, Mrs. Chris Matthews, Mrs. Clarke Leonard, Mrs. John Leonard, Mrs. Wm. Belding, Mrs. Al Zinser, Mrs. Bloom of Miami, and Mrs. J. N. Robson.

**GIRLS' FRIENDLY SOCIETY.**  
The Junior chapter, Girls' Friendly Society, will give a program and silver tea Friday afternoon at 5 o'clock at the home of Mrs. B. F. Whitner, on Oak avenue.

There will be fancy dances by Beatrice Howard, Mary Helen Morse and Mary Wight. Besides these features there will be readings and piano selections given by members of the society. A silver offering will be taken for the purpose of furthering the work of the society. The girls are now receiving instructions in sewing under the direction of Mrs. Allen H. Stone.

All friends and patrons of these girls are most cordially invited to attend this program.

**PICNIC PARTY**  
One of the most delightful picnics of the summer was the one enjoyed by the members of the Pipe Organ Club and a few invited friends on Monday afternoon at Palm Springs. This was the final meeting of the club for the fiscal year, and after a brief business meeting, the members and friends enjoyed out to beautiful Palm Springs, where swimming was enjoyed for an hour and later a most delectable picnic supper served. Those enjoying this delightful affair were: Mesdames A. M. Phillips, Volie Williams, Hall, Gatchel, Calder, Ray, Whittle, Fields, McAllister, A. C. Williams, McLeod, Huff, Merrinweather, Farrell and Ryan;

**JUNIOR EPWORTH LEAGUE.**  
The Junior Epworth League meets Friday at the Methodist church. There will be a missionary program. All are invited to attend at 7 o'clock.

**DEMONSTRATION HERE**  
SHOWING LEE TIRES  
DRIVING OVER SPIKES  
Harry Kent, of the Kent Vulcanizing Works, and N. B. Walker, representing the Lee Tire company, were giving a great demonstration on the streets this afternoon. They have planks filled with steel spikes and they placed the boards on the street and drive over them, stand on them with the car and do all kind of stunts.

**Rome's Attitude On Jewish Situation in the Holy Land**  
Would Grant Equal Rights But No Special Privileges  
The Associated Press.  
GENEVA, June 28.—The Holy See readily agrees that Jews in Palestine must have equal civil rights with other nationalities but it cannot consent to Jews enjoying privileges, pre-emptive position over other nationalities and to rights of Christians being insufficiently safeguarded. The Vatican declares in a letter to the League of Nations.

**GERMS KILLED BY SUNLIGHT**  
In That Way Water Is Kept Comparatively Free From Infection That Would Spread Disease.  
There are few more wonderful sights in the world than a winding river shining in the sunlight. But our interest in such a scene may be greatly heightened by the reflection that the sunbeams are not merely beautifying the water; they are engaged in a curious work of the utmost importance to man's welfare. Scientific investigation has proved that sunlight possesses a wonderful power to kill injurious germs in river water.

Where a river is polluted by sewage, millions and millions of dangerous bacteria flourish in its water and are carried along with it to spread disease and death around its banks unless their development is arrested. If the sun does not shine upon such a river it may become a peril to whole communities. But if the sunlight does shine, it freely, the germs are destroyed and the water is kept comparatively free from infection.

**Buick "Four" Breaks Record for Economy**  
Under official observation by Mr. J. Halle of the San Francisco Bulletin and Mr. H. T. Hays, superintendent of service stations for the Standard Oil Co., who sealed the gasoline tank, oil filler spout and radiator cap, a Buick "Four" started on a 1,000 mile economy run in San Francisco. No special equipment was installed nor were special adjustments made on the car. Day and night this car rolled on 30.4 miles on the amazing average of thirty and four-tenths miles to a gallon of gasoline and one thousand miles to a quart of oil. Needless to say the radiator required no additional water. When it was necessary to refill the gasoline tank it was arranged that the breaking of the gasoline seal and the resealing of the tank be done by an appointed official of the Standard Oil Co. The crank case contained the required five quarts of oil at the start and was sealed. This seal was not broken and no further oil was added. When it was proved the great economy of the Buick design and construction Buick engineers' choice of weight distribution, bearings, engine size, design and construction. 1,000 miles Gasoline mileage—30.4 miles to gallon Oil mileage—1,000 miles to quart. When better automobiles are built, Buick will build them.—N. H. Garner, will sell them. 78-lfc; w-lfc

**TO STOP COUGHING AT NIGHT**  
A summer bronchial cough keeps not only the sufferer but other members of the family awake. Alfred Barker, 1061 Avondale St., D. Liverpool, N. Y., writes: "I consider it my duty to write and tell the results of Foley's Honey and Tar, which I used for my boy who had been suffering from a bronchial cough for 7 or 8 weeks. Foley's Honey and Tar has done him wonderful good, and I shall always recommend it." It soothes and heals. Sold everywhere.—Adv.
