## Seamen Resent Action Taken By Commission

### Claim Of Interference In Rights Of Collective Bargaining Is Charged

## Strike Spreads To Fifteen Ships

### Gulf And Atlantic Ports Affected By Walkout Last Week

NEW YORK, Sept. 20—(AP)—Two seamen's unions today telegraphed a protest to President Roosevelt against what they described as the "interference of the Maritime Commission with the unions' collective bargaining rights" while their strike spread to the 15th ship and the government prepared to operate two of the strike-bound vessels.

Seafarers International Union of North America (A. F. L.) which launched a walkout last Saturday affecting ships in Atlantic Coast and Gulf ports and the Sailors' Union of the Pacific, a west coast affiliate, demanded an investigation of the Maritime Commission's actions. The strike was called in a dispute over war-bonus demands.

## Local Townsend Supporters Meet To Discuss Bill

Townsendites gathered in meetings all over the country to celebrate Founder's Day and to plan for a concentrated drive to support the Townsend Bill. In the House of Representatives, it was reported at the meeting of the local Townsend Club Thursday evening at the Court House. Speakers at the gathering informed the people that "public opinion behind the principals of the Townsend Bill has become so strong that Congress was being urged to pass it, and that the ways and means committee is debating the advisability of holding a hearing on pension proposals to relieve this pressure." It was recorded in the "Townsend National Weekly" which was distributed as a test at Thursday's meeting.

In the United States Senate, members of that body from every part of the country and from both major parties brought up the bill and the House of Representatives set up in response to public demand, and Sen. John H. Bankhead from Alabama demanded that the House Ways and Means committee bring up the bill the week of next Monday. Mr. Bankhead, the magazine reported, asked the members to re-examine the Social Security law and whether the two plans could be successfully combined in every respect, and if they could not what changes must be made. In the same article, Sen. W. Barkley from Kentucky was quoted as saying, "I believe in a greater uniformity in benefits conferred under Social Security than are now given."

## Residence Of German Ambassador Bombed

BUENOS AIRES, Argentina, Sept. 20—(AP)—A crowd of Argentine anti-Nazi set off two small bombs near the residence of the German ambassador early Friday morning. A few hours later the secretary of the German embassy contacted his much-liked guest, Capt. Fritz Wiedemann, to a boat en route to the Far East.

Van Therman, whose expulsion had been demanded by Argentine congressmen, laughingly described the demonstration as "a farewell to Captain Wiedemann by our old friends." Both he and Wiedemann said the bombs didn't disturb their slumber.

Police dispersed about 20 men in the demonstration group and arrested one. Nobody was hurt and the damage was trivial.

## Nazis Shoot 12 More Men As Reprisal

### German Commandant Warns More Will Be Shot If Further Attacks Made

PARIS, German occupied France, Sept. 20—(AP)—The Germans announced today the shooting of 12 more hostages as reprisals for an attack in which a German non-commissioned officer was killed on Sept. 16.

Col. Gen. Heinrich von Stulpnagel, commandant of the occupying forces in France, warned that in case of further attacks "many more hostages will be shot."

The new executions raised to 25 the number of hostages brought before Nazi firing squads, and to 35 the number of persons executed as hostages and on charges. The 12 were the most that have been executed at any one time.

LONDON, Sept. 20—(AP)—The Dutch News Agency today said sabotage and Anti-Nazi demonstrations on the increase throughout Holland and that resistance has reached a point where the Nazi-controlled press has had to appeal against the slogan "the more chaos the better." The Russian situation, it reached the point where "great issues tremble in the balance," and Britain is watching it with grave anxiety. First Lord of the Admiralty Alexander said Friday as German armies swept through the eastern Ukraine toward the Caucasus, threatening the whole vital Black Sea area.

Unimpeachable sources here said that the amount of war materials Britain and the United States would be able to put on the Russian firing line in the next six months might mean the difference between victory and defeat in the general war.

Turkey's attitude regarding the Dardanelles, the fate of Leningrad, of Russia's Krasnodar naval base and her Baltic fleet, and the ability of the southern Russian army to stem the German drive before it reaches the Caucasus oil areas were among the serious questions.

Alexander, addressing the Institute of Mechanical Engineers, said: "We are watching with profound admiration but with deep anxiety also the swiftness of the progress of the German drive in the Ukraine and the heroic resistance our Russian allies are offering."

All that can be done is being done and will be done. We are with Russia to the end of this war.

He paid tribute to American aid and said Secretary of the Navy Knox's recent statement on protecting Atlantic shipments meant that the United States has undertaken duties which "will greatly help us." He said the material support of this force cannot be overestimated.

Germany's drive toward the Caucasus, after having overrun Poland, has turned the meeting Moscow conference on British and American supplies into an affair of vital urgency, an informant said.

A thoroughly informed source in London said Russia will continue the fight wherever it leads, to the Caucasus, Ural, or anywhere else, because it would be suicidal for the present Russian regime to surrender, and also because the Russian army is not yet completely beaten. It is explained, however, that Germans already have overrun certain territory to make certain that Russian industry cannot supply all the tools for war.

## Stetson To Have Formal Opening Program Monday

DELAND, Sept. 20—(Special)—With regularity and general opening activities concluded here at noon today, officials reported that Stetson University's formal opening exercises for the 1941-42 term will be staged on Monday morning. Students will attend classes for the first time on that day, beginning into a fall daily routine.

Attending the formal opening program at 10 o'clock will be a group of officials of the city of DeLand. Mayor Lee Peck will represent the city while others invited include City Manager William Deegan, W. W. Wolf, president, and Walter Johnson, secretary, of the Chamber of Commerce.

Local representatives of Stetson will include Dr. Frank H. Peck, who has been named as the first president of the new school. The 1941-42 term will be the school's third year.

## Radio To Appeal To German People

BOSTON, Sept. 20—(AP)—Plan to "try to break the German people away from the yoke of Nazism" by means of "intensified" radio broadcasts from an American short wave station designed to be the most powerful in the world, was disclosed Friday by Walter S. Lemon, president of the World Wide Broadcasting Foundation.

Founder of station WRUL, which now is the strongest short wave unit in the western hemisphere, Lemon said the federal communications commission had just authorized the establishment of new transmission facilities that would eventually add another 100,000 watts of power to the foundation's radio arm.

## WPA To Finish Deland Stadium

JACKSONVILLE, Sept. 20—(AP)—Funds totaling \$3198 were raised by State WPA Administrator Harrison Friday for completion of Deland's new \$300,000 municipal stadium.

The allocation will be supplemented by a \$5000 sponsor's contribution by the city of Deland.

The stadium started some time ago, will seat 5000 people. It will be lighted for night events.

## 3 1-2 Billion Dollar Tax Bill Signed

### Appropriation Is Designed To Help Defray Expenses Of National Defense

HYDE PARK, Sept. 20—(AP)—President Roosevelt today signed the \$3,552,500,000 tax bill, the largest enacted. Designed to help defray multiplying costs of the national defense and lease-lend program the legislation is expected to lift federal revenue above the \$13,000,000,000 mark next year.

Even that total, however, would be only slightly more than half of the estimated expenditures for the current fiscal year and would fail to carry out Secretary Morgenthau's recommendation that government spending be financed two-thirds from taxes and one-third from borrowing.

The measure will require about 22,000,000 persons to file income tax returns, of whom about 4,900,000 will be making returns for the first time.

Bernard M. Baruch appealed urgently to Congress Friday to pass the "business as usual" theory out the window for the duration of the emergency, urged universal price curbs under one-man rule and in passing, criticized the British conduct of the war.

The New York financier, who, as chairman of the war industries board ran the nation's industrial mobilization, said the world war with what he said were unquote price controls, urged the House banking committee to revamp the administration's price control act drastically.

Criticizing the measure as piecemeal, he said it should provide for establishment of a ceiling over the entire price structure—commodity prices, wages and rents.

His mild criticism of the British war set-up came when Representative Smith (R., Ohio) asked whether it would not be better in providing for administration of the price law, to take a cue from the British, who put it in the hands of the board of trade, rather than to give it to one man to handle.

"I don't think much of the British system of handling the war," Baruch replied, adding quickly he did not want to seem "unpleasant." "But they have a lot of trouble—a lot of distress—a lot of suffering. I wouldn't want to follow them."

In advocating a one-man administration of the law, Baruch turned to Leon Hoover, chief of price control in the office of price administration, and said "here is the best qualified man for this job."

Baruch repeatedly told the legislators that he and his associates had made many "gross errors" during the World War and reiterated that in the light of those experiences, he had decided that the "greatest single necessity of our present situation was a strong price-control law."

### Teds Claim Destruction Of 150,000 Nazis In Defense Of Important City

## Soviets Pledge Fight To Go On

By Associated Press  
The house to house mop up today has completed the capture of Kiev to conclude what German war dispatches called a perfect blitzkrieg with all the elements of surprise, speed and irresistible might of manpower and weapons, according to Berlin reports.

Although in restricted language, the war bulletin from Adolf Hitler's headquarters indicated the high command counts the Ukraine capital as a captured city. The Moscow radio, however, asserted a "savage life and death struggle" is still raging in Kiev's suburbs.

By Associated Press  
Although clearly in a desperate position in the Ukraine, the Red Army reported today it is still fighting heavily at Kiev and that the Germans had lost ten divisions—up to 150,000 men—in assaulting the city where they claim the Nazi flag already floats.

A high source in London expressed doubt that the Nazis had passed the city in the Ukraine.

Russians in London admitted that Kiev, Leningrad and Moscow itself might be lost, but said the Soviet Union would not even think of defeat unless Hitler's legions are able to drive to the easternmost depths of Siberia.

Moscow reported the heaviest fighting still is in progress at Kiev, with the Russians fighting until death.

Red Star, the Soviet army publication, asserted the "Germans shall pay dearly for the city," and indicated the "greatest possible losses" were being inflicted on the Nazis.

Meanwhile, W. Averell Harriman, head of the United States mission in Russia, disclosed in London a British-American agreement has already been reached on the fundamentals of immediate material aid for the Soviets.

The Russian armies of the south appear last night to be facing imminent and perhaps general disaster.

Kiev, the capital of the Ukraine, and third city of the Soviet Union, has been held since the outbreak of the war by official Nazi accounts in Hitler's hands. Even Moscow admitted that the evacuation of the city had begun.

## Miss Gordnier Dies Friday In Orlando

Miss Aileen Gordnier, daughter of Mr. and Mrs. A. M. Gordnier who reside at 1920 Park Avenue, died at the Orange General Hospital at 1:15 o'clock. She was born in Cleveland, Ohio on June 9, 1919 and moved to Sanford with her parents 11 years ago. Her father is employed at the Sanford Post Office.

Survivors of Miss Gordnier in addition to her parents are: Mr. and Mrs. C. W. Eldridge of Goldenrod, and Mr. and Mrs. Charles Eldridge of Orlando.

Funeral services will be conducted Sunday afternoon at the Erickson Funeral Home with Dr. E. D. Brown officiating. Interment will be in Evergreen Cemetery. Pallbearers will be M. L. Wright, R. F. Greenhaw, Harold Appleby, Victor McLaughlin, L. P. Peyton and O. M. Harrison.

## Outboard Races On Lake Monroe Held Up Week Due To Bad Weather

Postponement of the outboard races scheduled to be held tomorrow afternoon on Lake Monroe was decided by officials of the Sanford Outboard Association due to the danger incurred by high wind and waves for the past few days.

Howard DeLand, president of the association, announced today the races will be held next Sunday afternoon at the same time.

Rules of the "Blackburn Regatta" to be held on Lake Monroe, in front of the Municipal Pier, have been published by the racing committee and more entries from DeLand have been received.

Yesterday afternoon Lincoln Jacobs of DeLand called Dwight Smith, president of the Sanford Outboard Association, to indicate the entry of his own boat and stated that four or five other DeLand entries would be ready for the five racing events.

The rules of the contest are as follows:

In all races a clock start is to be used. Five minutes before the start of a race or heat a preliminary, or five minute gun is fired and a red flag raised. Exactly sixty seconds before the start of the race the dropping of the white flag indicates the official start. A starting gun may be fired to call attention to the start.

Boats whose bows cross the starting line before the official signal will be disqualified unless a re-start is ordered. The boat may not turn and make a re-start. No notice of any disqualification at the start will be given until the finish of the heat. Flags will be displayed by the starter just as though there had been no disqualification.

When more than one-half of the eligible starters cross the line before the official start the referee has the power to annul the start and to recall the whole field for another start to be made immediately or as soon after as the program will permit. In case a re-start be ordered the field will be recalled by the rapid dipping of the red flag.

A boat which approaches the starting line at other than an approximately right angle, while within 200 feet of the line, may be disqualified.

Both ends of the starting line shall be plainly marked and the starting line is of sufficient length to permit all starters to start abreast without interference.

A green flag is used to indicate to each boat the beginning of the last lap. As each boat finishes a checkered flag indicates finish, red flag (except at start) withdrawn from course. A gun will be fired for first boat to finish.

Tire manufacturers are supplying lines to conserve crude rubber, according to the Department of Commerce.

## Italians Wave At RAF Bombing Planes

LONDON, Sept. 20—(AP)—The air ministry news service today reported that Italian villagers in Belgium, French and Dutch, are waving encouragement to RAF bombers when they go raiding.

Describing a raid on munitions plants at Licata, Sicily, two days ago, a South African squadron leader said:

"About 10 miles off shore we flew over a fleet of fishing vessels. Nearly all the crews stood up and waved cheerfully. We were only a few feet above them. It was the same over the fields of southern Sicily."

## Michigan To Return Civil War Trophy

TALLAHASSEE, Sept. 20—(AP)—The state of Michigan today will return to the state of Florida a Civil War trophy that was captured at the battle of Olustee in 1861.

THE HERALD NEEDS HUNTING

The Herald needs hunting and fishing pictures for the special edition to be issued to some 5,000 readers throughout the state next month. If you have any such pictures, please send them to the office.

THE HERALD NEEDS HUNTING

President Roosevelt's severest personal critics in this section were called in approval of his recent speech, turning an outburst into a masterpiece of statesmanship. They are Americans who are not afraid of the word.

THE HERALD NEEDS HUNTING

Work on the new E. W. Jones home is now under way and proceeding rapidly. Mr. and Mrs. J. E. Jones, Jr. and son, who have spent the past few months in Miami, Fla., as the result of the recent fire, returned to Sanford last week.

Attracting Tourists

All present indications point to an unusually profitable tourist season for Florida this coming winter. The State Tourist Commission after a careful survey has just released the prediction that new tourist records are about to be made.

All this leads to the conclusion that Sanford should be getting ready to increase its share in this remarkably profitable tourist business. Last year considerable progress was made in this direction.

Undoubtedly one of the greatest contributing factors in the improvement of Sanford's tourist business has been the better development of parks and playgrounds and the increased interest in beautification.

Of hardly less importance were the little personal beautification campaigns carried on by hundreds of private citizens throughout Sanford. They have done monumental work not only in improving the looks of their own premises, but in cleaning off the vacant lots next door and in encouraging the neighbors down the street to plant a few flowers and shrubs.

Sanford is by no means the outstanding beauty spot in the state, but endowed as it is with unusual natural beauty and readily adapted to the cultivation of the most precious plants and flowers, it could easily be converted into a veritable Garden of Eden in a few short years.

As this is the middle of September and one which seems to offer lower temperatures and frequent showers, there is no better occupation for leisure hours during the coming weeks than the preparation of a garden for the coming season.

Visitor In Eustis Will Frame His First Check For Defense Work

EUSTIS, Sept. 20.—(Special)—John A. Martin has just received a check for \$5,000 from a man named Henry Morgan, but he's not going to cash it. Instead, the 50-year-old executive plans to frame it as a memento of his first seven months work as a dollar-a-year man for the United States.

Martin, who is vacationing in Eustis with his wife and 11-year-old daughter, was vice president of the American Red Cross and general manager of the Western Food Corp. of Chicago one of the largest distributing houses in America, before he tackled the job of purchasing all fruits, vegetables and perishable foods for the United States Army—at a salary of \$1 a year. Before he accepted the defense work, he was in the upper 3 percent of all salaried men in the nation.

He has found his job to be a tremendous one, since it is his responsibility to see that the Army is supplied with the bulk of its food. And he has learned, during his seven months as purchasing agent, that soldiers can be pretty hungry fellows. Already recognized as one of the nation's foremost food experts, Martin should be doubly qualified as an Army purchasing agent for food, for he is also an ex-soldier.

During the first World War he served overseas as a major in the famed South Carolina 50th or Wildcat division. It was at Dijon, France, that he met the girl he was later to marry. She was then a member of the American Red Cross nursing corps and quail fields of Lake County. Eight now, however, there's work to be done for the United States government, and the Martins left this week for Washington to complete some unfinished business before they return in November for a two or three-month vacation.

Precautions based on Weather Bureau Department of Commerce, frost warnings may affect large savings in fruits.

Snead Blisters Par With 46 In Hurst Tournament

PHILADELPHIA, Sept. 20.—(AP)—A blistering six-under-par 64 gave "Blamin' Sammy" Snead of Hot Springs, Va., a one-stroke lead on a field of more than 40 of the nation's leading professional and amateur golfers for the first round of the 72-hole \$7500 Henry Hurst Invitation Tournament over the Tottentown Links course Friday.

Stewart Says: THAT President Roosevelt seems to have Henry A. Wallace in mind to succeed him at the end of his current term in the White House

had been common talk in Washington ever since he forced the latter's vice presidential nomination at the last national convention. His recent selection of Henry for the chairmanship of the board's special committee on the Supply Priorities and Allocation board is regarded as leaving absolutely no doubt about it.

Coal dumps burn after British, Canadian and Free-Norwegian forces raided the Spitzbergen Islands to prevent rich coal and oil deposits from being used by the Nazis. Some 400,000 tons of coal and 125,000 gallons of fuel oil were destroyed. Many Norwegians returned to England with the invaders to take up arms against the Germans.

Mrs. Ferdinand Stanley, sister-in-law of the Earl of Derby, arrives in New York aboard the British ship *Modara*, one of a convoy of 68 vessels. Mrs. Stanley will live in Arizona with the Countess of Suffolk.

Warren Atherton, head of the American Legion's national defense committee, urged the U. S. to "carry the war to the enemy, when unavoidable, and thus prevent him from bringing the war to us." The Legion national convention in Milwaukee, Wis., then unanimously reversed its stand against a second A. E. F. and demanded repeal of the Neutrality Act.

Peggy Parker, a Chicago girl, is seen in the box of the 1941 parade in Milwaukee, Wis., in support of the 20th annual convention of the American Legion.

John L. Lewis (right), president of the United Mine Workers, gives his side of the story as a National Defense Mediation Board panel in Washington seeks to settle the three-state strike involving 43,000 soft coal miners. With him are William H. Davis (left), chairman of the Mediation Board, and Hugh Lyons, labor member of the panel.

Constance Joannes, selected from among thousands of contestants as the "ideal brunette," Constance Joannes will wed Emerson Dickman, pitcher for the Boston Red Sox. Announcement of the engagement was made by her parents, Mr. and Mrs. R. L. Joannes, of Wood Ridge, N. J.

Mrs. Anna Lou Boettcher, 37, Denver socialite, shot and killed herself with the revolver she kept as protection against possible return of kidnapers. Her husband, Charles Boettcher II, was victim of a sensational kidnaping in 1933. He was away from home when the shooting occurred.

Ted Williams, Boston Red Sox slugger who is leading the American League in batting, assumes a romantic pose with Beverly Soubel as they leave Boston for New York by plane. The Red Sox publicity man described the girl as Ted's fiancée, but the slugger would neither confirm nor deny.

One of the British raiders who recently landed on the island of Spitzbergen north of Norway is shown as he blew up one of the coal mines there to prevent the fuel from falling into German hands. The concussion was so great that it knocked him off his feet. Seven hundred inhabitants were taken back to England.

Henry Morgenthau, Jr., Secretary of the Treasury, is shown at the graduation exercises of the Midshipmen Training School aboard the *Prairie State* at New York. Secretary of the Treasury Henry Morgenthau, Jr., (left) is seen as his son, Robert, one of the newly-commissioned ensigns, is congratulated by Henry, Sr., former ambassador to Turkey.

Appointment of Lend-Lease Administrator Edward R. Stettinius, Jr., as a Presidential assistant is seen as a move to slash red tape in speeding war-aid deliveries. Stettinius will now have power to sign the President's name to allocations not exceeding \$300,000,000 each.

Having his ship torpedoed and sunk is an old story to Niels G. Aarre, second mate aboard the American-owned *Melano*, sunk off Greenland. A year ago his ship was torpedoed off Scotland and he drifted in a lifeboat for a week before rescue came. Aarre recently married a British dancer in New York City.

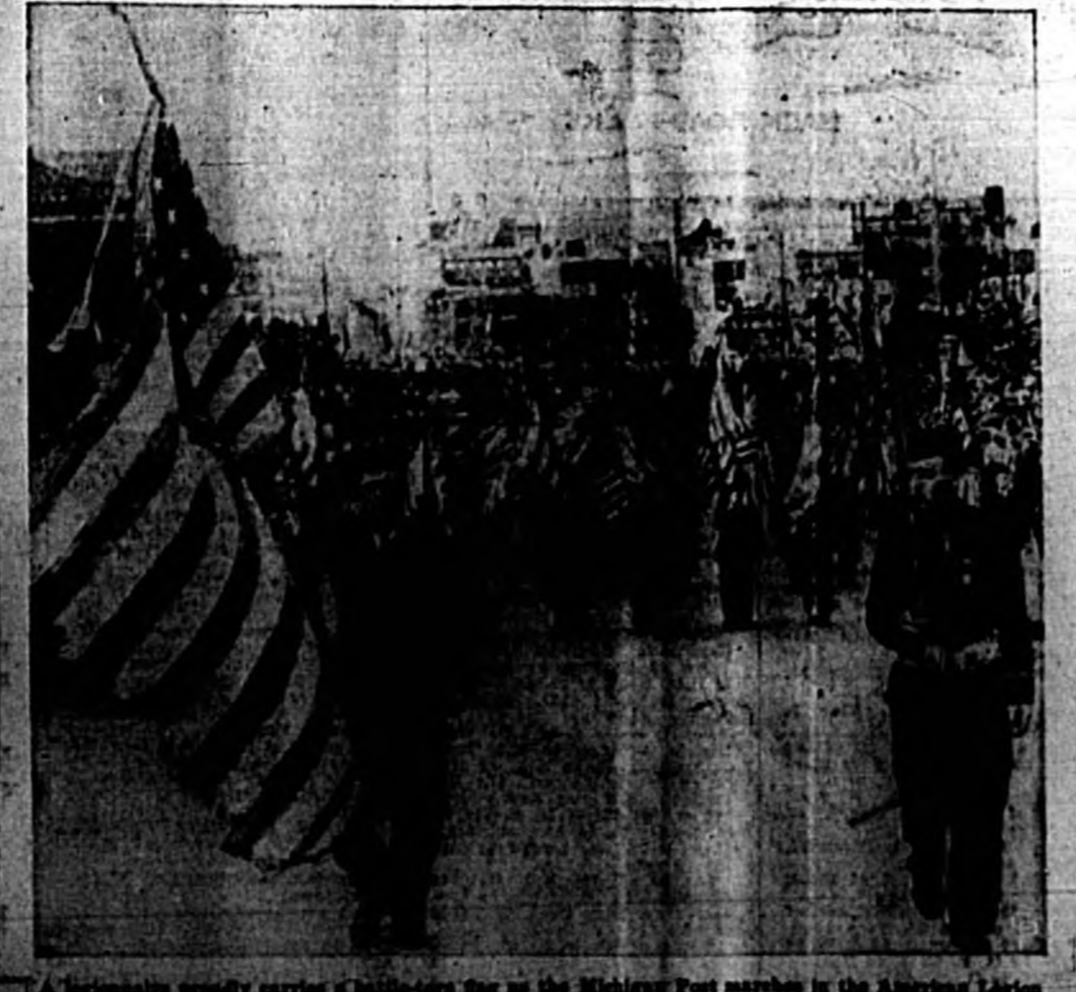

Charles Davis, Rumanian minister to the U. S. from 1929 to 1932, arrives at Jersey City aboard the *Exeter* from Lisbon. He explained that "I wanted to get back to a free country."

Here is President Roosevelt making his world-wide radio address from the White House in Washington in which he answered the Axis challenge to freedom of the seas and warned German and Italian warcraft to keep out of all waters related to American defense. Note black band on the President's sleeve. His mother died last Sunday and was buried Tuesday.

### Booklet On Florida Hotels Distributed

TALLAHASSEE, Sept. 20.—(Special)—The Florida State Hotel Commission's new illustrated booklet, suggesting that those about to retire from business should arrange to spend their declining years in the Sunshine State, is being widely distributed throughout the United States. Every travel agency from Boston to the Missouri River is being given supplies to be passed over their counters to inquirers with a view toward spreading the gospel of Florida where it will do the most good.

It likewise is to know that the little booklet is being so well received by the managers of travel bureaus who, from their experiences, are qualified to judge, said Hotel Commissioner Johnson.

The Church Committee for China Relief spent more than \$1,000,000 on relief work in China in the last three years.

## More Defense Items Delay New Aid Bill

### House Leader Says Need Of Price Control Measure Is Seen By Congress

## Appropriation Is Held Up 2 Weeks

## McCormack Favors 10% Over Parity On Farm Prices

WASHINGTON, Sept. 22.—(AP)—Roosevelt returned today after a Hyde Park weekend and found that the new \$5,985,000,000 lend-lease appropriation would probably not reach the House for two weeks because of a decision to add defense items.

House Majority Leader McCormack of Massachusetts said a congressional conference with the President recognized also a need for the early passage of a price control measure. Before the banking committee, McCormack said he favored a provision placing a ceiling on farm prices about ten percent above parity.

The justice department, it was learned Sunday, has been asked to take action under the anti-trust laws against "priority profiteers" who have raised prices of some chemicals from 100 to 400 percent.

Officials of the price administration raised the offending concerns, numbering more than two scores, were mainly brokers, many in business less than a year. Officials are charging exorbitant prices, officials said, for commonly used chemicals essential to the manufacture of drugs, paints, textiles, dyes and plastics. A large part of the increase is believed to be with small users who fear more drastic priority restrictions and shortages and who feel compelled to buy at any price asked.

Officials said they had received hundreds of complaints of excessive prices charged by such brokers and were receiving protests now at the rate of about 20 a day.

The justice department was asked to act under the Sherman anti-trust law, officials said, because many brokers were buying chemicals and storing them in the warehouses. They contended that this amounted to an attempt to "corner" a market and was a monopolistic practice under the Sherman Act.

Speakers from the CIO Textile Workers' union said that "hoarding" of chemicals at high prices had appeared in the textile industry.

Twenty minutes after Private Howard Bortz landed with 127 others of the 602nd parachute battalion, he took as "captives" Lt. Col. Edward J. Renih and Lt. Col. Austin F. Anderson (right), both of the Second Army. The parachute maneuvers, part of the war games at Clarence, La., were a complete success.

## War Situation Is Discussed By Rotary Speaker

## Teaching Youth Of Democracy Is Advised By Gurney

Declaring that the present situation is unparalleled and unprecedented in the history of the country because never before have we been "engaged in war" and "not engaged in war" at the same time, J. Thomas Gurney, Orlando attorney, spoke to the Rotary Club today on "The Psychology Underlying War and Peace."

Mr. Gurney emphasized that Democracy is the best form of government yet devised by man but he insisted that it must be protected to be preserved and that the best way to preserve it is to teach to the boys and girls in the nation's schools the advantages of being an American citizen.

Mr. Gurney was introduced by George A. Speer who had charge of the program. Dr. R. W. Reppert who presided over the meeting announced that the annual bar-nice will be held on Thursday afternoon, Oct. 2, and that this will take the place of the usual meeting on Oct. 6.

Declaring that the people are slowly making up their minds as to the alternative of war or peace, Mr. Gurney pointed out a Democracy necessarily moves slowly. The people must make up their own minds and then express their desire through their duly chosen representatives.

"No nation," he declared, "ever went to war without first being prepared psychologically for war. To us here in this country that is the lesson to be learned from the recently enacted tax bill which has brought it closer to home to some of us. But the nation as a whole is not yet psychologically prepared for the things that are in store for us.

"One fundamental principle in any democracy is the right of free discussion," he continued. "And this is something the people are willing to fight for—the right to talk about what their government intends to do. So it happens that a nation may be well along on the road to war before the people are fully prepared for it.

"No nation can engage in war without curbing some of the rights and liberties of its citizens. Any all out effort to win the war must cut from the rights which the people have previously enjoyed. But in a Democracy a person must be prepared to surrender these rights voluntarily for the time being so that they may be preserved for him permanently.

"Declaring that there are some advantages in war, Mr. Gurney pointed out that out of the present crisis may come unity and cohesion in the nation. He said that during the past five years we have been engaged in dividing the spoils of this country's vast accumulation of wealth and that when the war is over, the spoils will be divided rather than destroyed. He said that the country that give up any more of their wealth while others were left as determined to live by pillaging the rich than by the great majority of the poor.

Visitors at today's luncheon included J. S. Boulevard and Cecil Clark of Orlando.

## British Subs Sink 2 Axis Convoy Ships

## Italian Liners Are Hit While Trans- porting Reinforce- ments To Africa

LONDON, Sept. 22.—(AP)—The Admiralty reported today that British submarines, attacking a Mediterranean convoy carrying Axis reinforcements to North Africa, sank two large Italian liners and damaged a third, all believed to be nearly 25,000 ton vessels.

The R. A. F. in Cairo attacked Axis shipping off Tripoli. One ship blew up with such force it destroyed the attacking plane.

German machine guns, troops and armaments were all moved in against any organized attempt to foment revolution in occupied France, authorized sources from Paris said Sunday night after Marshal Petain had begged Frenchmen to quit attack on Germans to save all conquered France from reprisals.

The Paris sources said the reprisals, hunting and executions of hostages which up to now have claimed 15 lives, could be a mere dress in the jacket of what may happen if capturing and returning continued.

In a radio broadcast condemning the assaults on German troops, Marshal Petain said today: "These attacks are crimes. They may lead to new crimes. They must be blamed on foreign agents because we do not in France tradition attack our neighbors in the dark while they are doing their duty."

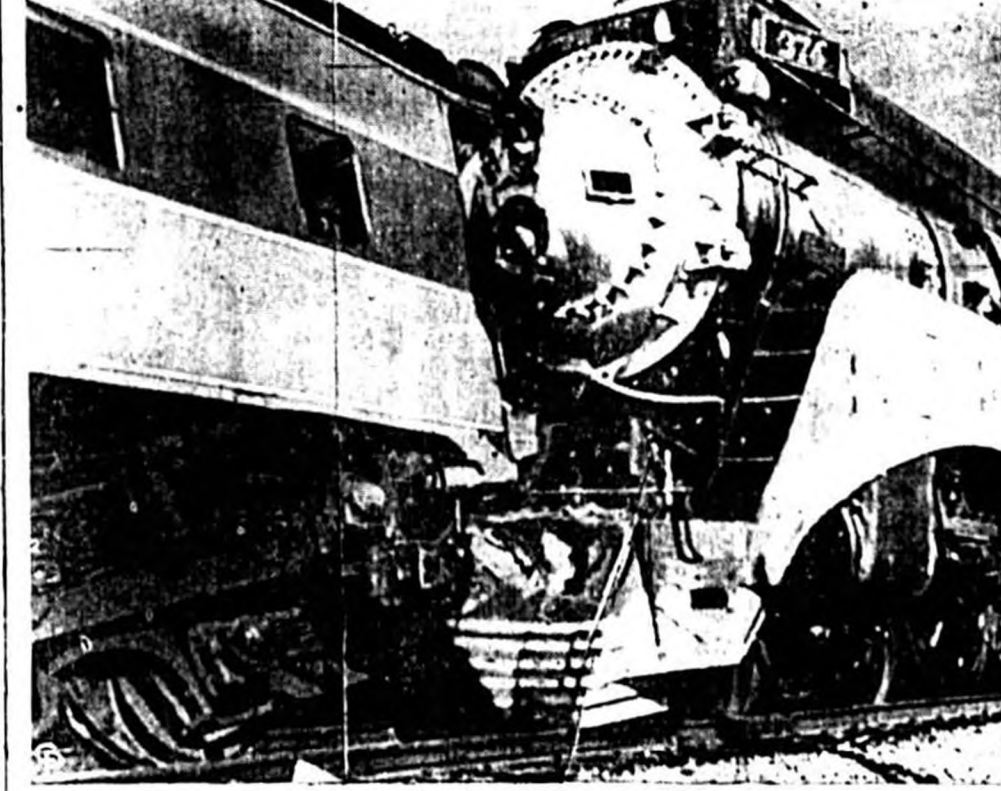

The authoritative sources from Paris said that despite demand of the eastern front, the war still enough French soldiers to enforce peace in occupied France, even if the French did want to keep it themselves.

The source said that the situation as seen by officials in Paris.

There are three groups of the occupied zone—the French, the Germans and the Communist. A small group of Communist leading Frenchmen is moving to the other side of the Atlantic to join the American army. They are not fighting in the matter what country, in most cases some principle stands that they will follow that of their own.

The sources asserted that the view was that there would be no order in Paris with German troops. That France would be fighting in the street because French political parties can not get along together.

## Trains Crash As Auto Hits Signal Switch

Seven cars of the Southern Pacific's crack "Night Hawk" were derailed when a freight truck, uncontrolled by the driver, crashed into the rear of the train and struck a signal switch. The freight truck was near Palm Bay, Fla., on Sunday morning.

## Only One NYA Worker On Job In Sanford Now

## Appropriation For This Area Being Used For Defense

There is only one NYA worker employed in Sanford, Miss. M. J. Wright, who is the secretary of the local committee, said today. He said that the only worker employed in Sanford is a young girl who works in the school cafeteria and lunch room. It was reported today from the NYA office in the County Court House.

The situation arose out of the fact that the appropriation for this area is being used for national defense, and must be divided among 12 counties, the officials explained.

Since Seminole County has nothing but agriculture as a national defense industry, the County Department at Sanford, High School and the National Defense Council, Orlando and other towns have been left out of the money for employment several clerical workers.

## Italians Sink British Ships At Gibraltar

## Invaders Use Uniden- tified Type Of Warships Called "Assault Units"

## Bulgarian King To Meet Hitler

## Reports Say Turkey, Dardanelles Keeper, Facing Showdown

WASHINGTON, Sept. 22.—(AP)—The ranking members of the Senate foreign relations committee said the outcome of the drive for a decision in Russia would decide whether the Nazis must seek peace in six months or be able to wage a long war. They said the Germans were "throwing away men like paper dolls" in an effort to conquer Russia before winter.

Italians today reported four of their warships sank four merchant ships in the port of Gibraltar after entering under the big rock's guns. Apparently they took the British by surprise since the harbor is protected by moles, nets and minefields and huge guns high on the rock.

Italians with unidentified types of warships called them "Assault units" which "entered the bay and inner port" of Gibraltar. No comment was made from London.

Warlike preparations in Bulgaria aimed at Turkey or Russia were emphasized by reports that King Boris III of Bulgaria is to meet Hitler. These reports said Turkey, guardian of the Dardanelles, faced a showdown.

The Germans said Russian warships were beaten back by German shore guns in an attempt to force British waters off Leningrad. A British bulletin also said the Luftwaffe scored two bomb hits on a Russian battleship, six on two destroyers and damaged a third.

The British said the evacuation of the Soviet base near Leningrad. Made from an Italian torpedo attack last year this Gibraltar assault is the first naval attack.

French and Spanish ships successfully shelled the British coast in the winter of 1932.

The crushing power of Germany's drive into Russia was acknowledged today by the Russian armies who admitted the evacuation of Kiev and said terrific Nazi assaults were being directed against Leningrad and Odessa.

The Russian admission came as German armies claimed new and shattering victories at both ends of the 200-mile front.

The fall of Kiev was first announced by the "Tribune" Friday, but as late as midday Sunday the Russians had continued their troops were still hanging on in the suburbs. German reports of retreat to Sunday fighting.

The retreat from Kiev was carried out in accordance with the Soviet plan of yielding ground if

## Herald To Give Information On Navy Careers

At the suggestion of Secretary of Navy Knox, Robert Smith of The Sanford Herald has been named Navy Editor to help the Navy in giving ambitious local young men information about the opportunities available in the Navy.

Mr. Smith offers them for technical training and advancement as they serve their country in its emergency.

According to an announcement made today in Washington, a limited number of additional men between the ages of 17 and 50 will be given a chance, by enrollment in the Navy or Naval Reserve, to get to the top, with big pay, in jobs which by their aptitude and as a result of examination they show themselves fitted, from among nearly 50 different trades and vocations.

These include such callings as: Aviation, machine tool, dental technician, photographer, electrical, radio technician, electrician, welder, stenciler, and baker. Excluded men may also qualify for commissions as officers.

Beginning this week, the Navy plans to accept a limited class of new qualified men for training. These men will be sent to one of four Naval Training Centers and may have a change in location to a Ship Repair School or to a Reserve Command if necessary before assignment to the fleet. During this period they will be given training in the use of the Navy's food of sailors.

The training centers are: The Naval Training Center at Great Lakes, Mich.; The Naval Training Center at San Diego, Calif.; The Naval Training Center at Alameda, Calif.; and the Naval Training Center at Parris Island, S. C.

## Organization Meeting To Be Held By Chamber

## Plans To Be Made, Officers Elected For Ensuing Year

An organization meeting of the Seminole Chamber of Commerce has been called by President W. A. Laffler for the purpose of electing officers and making plans for the ensuing year.

All present directors of the Chamber and those who have recently been elected, are urged to attend the meeting to be held Thursday evening at the Chamber room in the City Hall at 8:00 o'clock, Mr. Laffler said.

Officers who will complete their one year terms on Oct. 1 are: W. A. Laffler, president; George D. Bishop, vice-president; H. H. Coleman, treasurer; and district vice-presidents J. L. Ingley, John Meisch, Sr., C. E. Bradshaw of Altamonte, F. W. Tallott of Orlando, and W. G. Kilbee of Geneva.

At present the Chamber of Commerce is mailing about 6,500 pieces of literature advertising Sanford and Seminole County to travel agencies, railroad offices, steamship lines, hotels and chambers of commerce, Edward Higgins, secretary, said this morning.

The Chamber of Commerce would like to have apartment houses, and rooming houses to keep a list of visitors, with their home addresses, to add to the present list of 1,200 names now on file at this office," Mr. Higgins declared. "The visitors will then be mailed a letter of invitation and literature about Seminole County, and also a copy of the Tourist Edition of The Sanford Herald, to be published Oct. 27."

"We wish to emphasize that anyone sending in names should have not only the town of the visitor, but also the street address if it is a large city."

The Chamber of Commerce will pay the postage on the literature and will also pay for the copy of the newspaper, Mr. Higgins said.

"We would like to get many names as possible and as quickly as possible as the deadline for this list is Sept. 30"

## Reporter Visits Niagara Falls; Impressed With Tourist Trade

By FRANK COWLES  
NIAGARA FALLS, N. Y., Sept. 22.—(Special)—For over 50 years Niagara Falls has been one of the famous American tourist attractions, and this popularity, far from dimming, is on the increase. Though not as popular with honeymoon couples as it has been in the past, Niagara Falls is still packing 'em in during its entire summer season.

At many points along Lake Erie, industrial cities have arisen to take advantage of the water transportation. We have passed two aircraft plants, and at both new additions were being built.

On either side of the road, great vineyards stretch to the lake on one side or to the hills on the other side. This part of Pennsylvania and New York State is noted for fine grapes, and one town we passed through laid claim to the title of "Grape Juice Capital of the World." The grapes, big blue ones, are ripening on the vines and look very tempting to the passing motorist.

This is good farm land, and in addition to grapes it produces melons, peaches, apples, pears, plums and prunes. With such abundance of farm products and factory products as we have seen so far, it is hard to believe that there should not be enough to go around in this country.

From 35,000 to 45,000 years for the water to cut away the stone and bring the fall from Lewis and Clark to their present location.

There are numerous Indian legends concerning the Falls, one of which is called the Legend of the White Canoe. According to the legend, a man and a woman would send a maiden of the tribe over the Falls, in a canoe loaded with fruits and other goods, believing that this would please the spirit of the Falls and bring good fortune.

We arrived in Niagara Falls Wednesday, after riding within sight of Lake Erie much of the way from Cleveland. This is an enormous lake, a pale blue in color when we saw it, and it has beaches for swimming at a number of places.

From Cleveland to Buffalo, N. Y., and Niagara Falls, the country is fairly heavily populated. We passed through many pretty small towns, and one of these Mentor, O., was the home of James A. Garfield, twentieth president of the United States.

## Loaf Of Bread To 11 Cents In Miami

MIAMI, Sept. 22.—(AP)—Housewives buying bread from independent merchants in this area will pay 11 cents a loaf today instead of the usual 10.

The merchants said their increase would be caused by a boost in the wholesale price from eight to nine cents a loaf, and wholesaler attributed the rise to the higher cost of materials—wheat, shortening, wrapping paper and others.

Charles Fuchs, head of a large bakery, said the Administrator Leon Henderson had ruled the price could be increased to 11 cents.
