The combined treasury-postoffice bill, providing \$733,000,000 for the two departments...

An agreement for a vote Thursday on Muscle Shoals...

Meanwhile senate committees have speeded their gait to match that of the parent body...

The principal additions to the treasury postoffice bill were increases of \$18,000 for the public health service...

Will Vote Thursday. WASHINGTON, Jan. 7.—A decision in the long drawn out fight over present disposition of the hydro-electric power plant at Muscle Shoals...

WASHINGTON, Jan. 8.—The house approved appropriations fixing the size of the army at 119,000 men.

WASHINGTON, Jan. 8.—The senate passed the treasury-postoffice bill carrying \$733,000,000 and the agricultural bill carrying \$125,000,000.

WASHINGTON, Jan. 8.—The senate naval appropriations committee reported that the country need not be alarmed about reports that the American navy has fallen below the 5-5-3 ratio.

WASHINGTON, Jan. 8.—The senate passed the treasury-postoffice bill carrying \$733,000,000 and the agricultural bill carrying \$125,000,000.

War Damages Dispute Settled By Conference

FORBES' DEFENSE CLAIMS EVIDENCE OF U. S. REFUTED

SAY DOCUMENTS INTRODUCED BY PROSECUTION HAVE NO BEARING ON CHARGE OF CONSPIRACY TO DEFROND GOVERNMENT

CHICAGO, Jan. 8.—Documentary evidence interpreted by the prosecution in the veterans' bureau conspiracy trial as having an important bearing upon the alleged conspiracy to defraud the government through hospital contracts was identified Wednesday by a reference to secure favorable mention to the president elect of the republic of Colombia.

The name of Cardinal Dougherty of Philadelphia, was mentioned in a letter introduced by the defense as one from whom the promoters of the Colombian syndicate hoped to secure favorable mention to the president elect of the republic of Colombia.

W. D. Pratt, wealthy Kansas City contractor and a member of the syndicate which sought certain railroad, mining and oil concessions from the Colombian government in 1922...

The main body of the letter reported the sale of one-third of Pratt's interest in the project to Elias H. Murriner...

PIRATES MONEY FOR FAMILY

Go One Better On Hood When They Steamer and Forced to Life of Ship's Officer

CHOW, China, Jan. 7.—With a reputation for their victims' blood, the pirates of the Chinese steamer Ningahin, ran her into the harbor near Amoy and proceeded to loot her most systematically, according to a report received here by William Overton, an American missionary and witness of the capture. The quartermaster refused to turn over his money, but the pirates made up a party of 300 and entrusted it to the captain of the ship's officers to be taken to the family of the murderer.

The pirates boarded the ship in the guise of passengers, and when the officers and crew, acting in a peaceful and practical manner, they violently warned the Chinese-speaking passengers to get excited, informing them that their object was primarily the taking of 90,000 pounds of silver assigned to the American bank at Foochow. Nevertheless, it was explained some of the clothing and would be accepted some from the passengers. Only the passengers in the private cabins were robbed, the fortunate ones in the main compartments being unmolested, and the foreign travelers the most extremely hostile, when they took nothing, even under orders from their captors.

Under compulsion the crew piled the Ningahin into a harbor in a concealed location, and a fort suggestive of medieval days. Boats put out from the great numbers to take off the treasure. Many of the wild-looking boatmen attempted to board the pirate chief stood on the deck with a revolver in his hand, and his followers brought the boat to the ship's side. He explained to the passengers: "If these fellows get on board I can't control them, and they certainly will rob of everything you have."

California University Adopts New Test Form

BERKELEY, Cal., Jan. 7.—A new system of examinations has been adopted by Professor Warner of the psychology department of the University of California. This department had used the old form, requiring the student to write at length on several questions. Dr. Brown did not deem this a fair test, and so he formed a combination of tests. One of the new methods requires a pupil to supply one word to make a sentence complete. In another he must choose among several alternatives. A third consists in giving him a number of statements, and asking him to tell of whether it is true or false. According to Dr. Brown, this method of test gives the student a choice of questions, because the ground is covered in less time. He says it exposes knowledge of a subject, rather than the ability to state things.

Seat In Exchange Of San Francisco Is Sold At \$25,000

SAN FRANCISCO, Jan. 7.—The highest price on record for a seat on the San Francisco Stock and Bond Exchange, \$25,000, was paid here recently by Carl W. Stever. This is said to be the highest figure for such a sale outside of the New York Stock Exchange, where a seat was sold recently for \$101,000.

The bond market in the Stock and Bond Exchange of San Francisco is second only to that of New York, while the volume of business in stocks is reported to exceed that of Boston, Philadelphia and other large exchanges.

Since the hectic gold days of more than 70 years ago, San Franciscans always have been speculators. There now are two exchanges here, the Stock and Bond and the San Francisco Stock Exchange. The latter is really the city's old mining exchange, which still handles many mining stocks reminiscent of the colorful early days.

County Commission Is Organized For Work During Coming Year

Committee of the Board of county commissioners of Seminole County that will care for certain phases of that body's work during 1925, were appointed Tuesday afternoon when the re-organization meeting for this year was held. The commission, at the end of the meeting, adjourned until Saturday, Jan. 10.

House Committee Cuts Rivers - Harbors Bill

WASHINGTON, Jan. 7.—The House committee Wednesday reduced by \$13,214,000 the \$52,000,000 river and harbors bill. Under the redrafted measure the inter-coastal canal will be extended as far as Galveston and Houston. Although the waterway starts above New Orleans that city will be linked with the canal system by a route previously constructed. The measure provides for a 25 foot channel depth for Miami.

German Note on Allied Action Is Made Public

PARIS, Jan. 7.—The German note replying to the allied communication of the continued occupation of the Cologne area received in Paris Wednesday declares the allies is a reprisal and violates clauses of the treaty of Versailles. French official circles regard it merely as a note of protest which does not call for a response.

MARTIN BECOMES GOVERNOR WHILE CROWD APPLAUDS

(Continued from Page 1)
Hardie Leaves Fine Record
In surrendering the high office of governor of Florida, Mr. Hardie stated that he was able to surmount the difficulties of his successor with every department of the state government smoothly running and truly performing its wonted functions.

Mutual respect and confidence between the cabinet members, the heads of state institutions and sundry officials, agents and employees have given the state an administration of good will, of peace and happiness, the retiring governor declared. "No scandals have marred the work of any institution or shocked the sensibilities of a refined people," he added, and continued: "No defects in any department will be found and no charge of graft is even whispered. Those institutions lending their forces toward the material development of the state are organized and performing in a satisfactory manner."

Many Visitors Are Stopping At New Local Tourist Camp

Though only in operation a comparatively short time the tourist camp at French Avenue and Thirteenth Street, which is being developed by A. W. French has already become a drawing card for Sanford. It is shown in the fact that 41 automobiles, each containing two or more persons, stopped there Tuesday night. The camp already is declared to be one of the best in the state and will when developed, be in a class of its own, it is said.

The camp as it now stands provides sanitary facilities, including water, sewage and drainage, and space for tennis. A community house that will consist of refreshment stand, sitting room and a stage for entertainment, is now under construction and will soon be completed. An open fire place, bungalow windows, and other distinctive features will mark the completed building.

Bath houses, open air kitchens, electric lights and gas connections are among the improvements to be installed in the future. It is planned to subdivide the tract into lots of 25 feet frontage by 35 feet deep. Along the front and west side of the camp Mr. French plans eventually to erect a number of small houses of one or two rooms each, equipping them with all modern conveniences. The camp is being operated upon a basis of self-sufficiency. Moderate charges are made to campers desiring to spend a night there and this policy Mr. French declares will continue in effect after the camp is completed.

Illinois Business Man Marvels at Growth Of City In Past 8 Years

After eight years absence from Sanford, George D. Williams, business man and real estate dealer of Mt. Vernon, Ill., and a brother of City Manager W. B. Williams, is in this city for a few days' visit. While here, Mr. Williams took occasion to heap praise upon Sanford during the last few years and characterized progress of the city as being marvelous. "When I was here eight years ago, I never dreamed that Sanford would become such a live, wide-awake city as it is today. There was no paved streets to speak of at that time and now you have more paved streets than any city of its size that I have ever seen," Mr. Williams declared. After taking a drive through the celery fields near the city, Mr.

Solving Puzzles Is Aid To Efficiency Of Stenographers

CHICAGO, Jan. 7.—Crossword puzzles "are a blessing in disguise to those employers who feared their distracting influence when they appeared," according to Albert M. Johnson, president of the National Life Insurance Company of the United States, who said that so far as his organization was concerned the puzzles were responsible for increasing the efficiency of his stenographers 25 per cent.

Rather than being a distraction to the office girl, the mental labor in solving them has made her faster and more accurate in her work, Mr. Johnson found. "Noticing a marked improvement in the speed with which our several hundred stenographers were handling the correspondence to 100,000 policyholders, I inquired the reason and found that we had the cross-word puzzle to thank," Mr. Johnson said. "I discovered our stenographers were cross-word enthusiasts and that their idle hours spent over the dictionary had improved their spelling and recognition of words to a startling extent."

"All our executives reported that the stenographers were taking dictation far more readily; that they were recognizing and handling correctly words that they used to stumble over. We have encouraged our employees to play the game as it widens their minds and improves their speech, as well as increasing their office efficiency."

French Women Heed Woolen Hose Dictum

PARIS, Jan. 7.—The fear of a red nose is alleged to have caused silk stockings practically to disappear from Paris street during the past week. Bitter cold weather was responsible. It was not a question of style, but one of comfort, which brought out neat gaiters over well cut shoes and heavy woolen stockings to replace the flimsy silk creations as ankle protectors.

The following paragraph, printed in one of the leading styles periodicals at the beginning of the cold wave over the signature of one of the most renowned doctors of Paris, is said by the trade to have been responsible for the unprecedented run on gaiters and woolen stockings: "It is really wise to dress warmly, for it keeps the circulation right and helps save one from a red nose and that pinched, blue look about the mouth which is so very unbecoming."

Heavy Quake Shock Is Felt In Massachusetts

BOSTON, Jan. 7.—A heavy tremor believed to be an earthquake, was felt shortly after 8 o'clock Wednesday morning, throughout the eastern portion of the state. Houses were shaken and dishes jarred from shelves. In Marblehead where the shock was unusually heavy, scores of persons sought safety in cellars. The tremor was distinctly felt along the north and south shores and southern New Hampshire. Because of some storm or disturbance off shore at the time it was not possible to estimate the distance of the tremor at the Harvard Seismographical station.

Williams was delighted with them and declared that in the rich farming section which forms the backbone of the city, Sanford has

an asset which few cities can boast. Praise for the plans of bulldozing Monroe and for the construction of the lake front boulevard was

also given by Mr. Williams. Mr. Williams is making a flying trip over the state, planning to return to his home within two

weeks. He plans to visit St. Petersburg, Port Myrtle and other points on the coast before his return to Mt. Vernon.

WALKER DECISIVELY OUTPOINTS McTIGUE IN TWELVE ROUND BOUT IN NEW YORK ON TUESDAY NIGHT

Champion Welterweight Boxer Is Master of Situation Throughout Affair With Light-Heavyweight Champ Ion of The World

Walker Is Aggressor During Entire Bout

McTigue Kept on Defensive and Confines Efforts to a Few Jabs to The Body

NEWARK, N. J., Jan. 8.—Mick Walker, world's welterweight champion, outpointed Mike McTigue, holder of the light-heavyweight crown here Wednesday night. Walker was the aggressor throughout and earned his victory points in the opinion of the newspaper men at the ringside.

Round One

Walker started to mix it furiously with the light heavyweight champion. He pummelled him with blows to the body and head. McTigue was fighting his usual defensive fight. Walker missed a right and landed his left to the head, but did not follow up. They mixed it at a fast pace. Walker being the aggressor, they were in a clinch at the bell.

Round Two

Walker drove McTigue to a vital corner with a furious rush. He hit him right to the head and left to the body. McTigue was used for using his elbows. They hanged blows furiously at short range. Walker had the better of the barrage. Walker landed to head and body continually, using a McTigue with panther-like swiftness. The fans in protest of McTigue's alleged use of his hands began to throw things into the ring, cigars and cigarettes and some coming from the floor. They were sparing for an opening at the

Round Three

Walker rocked McTigue with a right to the head. Walker was fighting at a long range and McTigue avowed to box his way out of the corner's rushes. McTigue bounced his head backward with a right. Walker almost floored McTigue with a series of rights to the head and body. McTigue held on to save himself. The welterweight champion, putting all his strength into punches.

Round Four

Walker stood in the center of the ring and exchanged blows to the head and body, both swinging wild. Walker rushed McTigue to a vital corner and showered him with powerful blows to the jaw. McTigue staggered Walker with a right to the head. Walker scored with a left to the head and right to the body. The fight was fast until the bell stopped it.

Round Five

Walker left spun Walker but the welterweight champion countered with a right which knocked McTigue from his feet. Both were missing freely. Walker landing often. McTigue continued to bore in, chastising McTigue about the ring as the fight proceeded.

Round Six

The boxer was marked. McTigue boxed his way out of several places. Walker rushed

Syracuse Football Mentor To Be Coach Of N. Y. University

NEW YORK, Jan. 8.—John F. ("Chick") Mehan, who resigned this week as head football coach at Syracuse University, Wednesday, accepted a three year contract to take charge of the gridiron game at New York University. Joe Schwartz, who was first assistant to Mehan during the latter's regime at Syracuse, will join his chief at N. Y. U. in a similar capacity. Mehan wired his acceptance of an offer which was understood to include a much larger salary than the coach received at Syracuse.

McTigue to the ropes, scoring heavily to the head and body. The fight slowed a little as Walker tired of rushing McTigue.

Round Seven

Walker continued to punch away furiously at his heavier target, but McTigue took it all and came back for more. McTigue was presenting a good defense and was hard for Walker to break through. Walker was scoring two punches to McTigue's one. They were running around at the bell.

Round Eight

Walker scored to the head and body with a one-two punch. The crowd began to shout for action. Walker rushed McTigue, pounding the head and body with lefts and rights in a furious barrage and McTigue dove into a clinch. Walker missed a right and fell to his knees, but was up immediately. The fight was slowing up as the bell rang and the crowd booed its displeasure.

Round Nine

Walker stepped in with his right, but McTigue blocked the blow and backed away. The welter king was trying hard but McTigue's long arms handicapped him. McTigue staggered Walker with a solid right to the head and Walker backed up for the first time. McTigue opened up and drove Walker to a neutral corner with a wild assortment of blows, but the bell halted the rally.

Round Ten

Walker leaped in at the start of the round in a vicious manner, driving away at McTigue's head, but McTigue cleverly boxed his way out. McTigue landed his right twice to Walker's head. Five times Walker landed on McTigue's jaw. McTigue's right eye was cut in the rally. McTigue staggered Walker with a right to the jaw just before the bell.

Round Eleven

McTigue started an offensive in this round which netted him three beautiful blows to Walker's head, but Walker countered with rights no damage was done. McTigue to the body and head which chased McTigue back. McTigue drove his right to the body. Walker missed

Round Twelve

Walker rushed McTigue, landing his right and left to the body and head. McTigue countering with a right to the head. Walker continued to drive in furiously but McTigue cleverly sparred away the blows. Walker was short with a left head and took McTigue's right. McTigue jabbed Walker with his left and crossed with his right but a right.

When Penn Met Its Match

The University of Pennsylvania team went through the entire season without having its goal line crossed on straight football plays. But its line was crossed twice from line backs in the New Year Day game with the University of California at Berkeley. And California won, 14-0. Here Young, California fullback, is seen going over for the touchdown in the first ten minutes of play. Captain McGraw of Penn State is making a desperate effort to stop him from behind.

NURMI PLANNING TO RACE IN EAST AND IN THE WEST

Phantom Finn Begins Tour Seen Which Will Take Him To Principal Cities of Country in Exhibition Races

NEW YORK, Jan. 8.—Not content with reaching heights of fame and brilliancy such as no other star in track history has ever reached, Paavo Nurmi, erstwhile paper hanger of Helsinki, who raced to world's record glory Tuesday night in his American debut, has mapped out a campaign which will carry his flying feet through a good portion of the east and midwest during the next few months.

The Phantom Finn will make his next appearance a week from Wednesday night, when he competes in a special race at the Madison Square Garden track which he will race Tuesday night in competing his foremost rivals, Joe Ray and Willie Ritola, and smashing three world's marks in two races. Then Nurmi will shift his course to Chicago, the following night, Jan. 16, when he has agreed to race at the Illinois A. C. meet and again match strides with Ray, doughty little American who ran the greatest mile of his career Tuesday night in a gallant but vain attempt to catch the Finn.

Nurmi will complete this month's program by running on successive nights at the Melrose A. A. carnival here, Jan. 27 and Jan. 28 and three days later is expected to appear at the Boston A. A. games. His program for next month already includes races at the Wilkes A. A. meet here, Feb. 7, and the John's Hopkins' Fifth Regiment meet at Baltimore, Feb. 23, for which he was signed Wednesday.

Triumph and acclamation were heaped in unprecedented measure today by cities upon the sandy-nosed Nordic marvel, but Nurmi took it all modestly and with the calmness characteristic of his personality.

Carl Fisher Secures Eddie Hearne To Pilot A Speed Boat In Miami Races

MIAMI BEACH, Jan. 8.—Eddie Hearne, known in auto racing circles as "Grandpa" and the last of the millionaire drivers of two decades ago, will pilot one of the runabouts in the \$10,000 power boat classic here on Mar. 20 and 21. Hearne's acceptance of the invitation of Carl G. Fisher to compete at the helm of one of the boats, followed closely on that of Bennett Hill, winner of the initial race on the New Los Angeles Speedway at Culver City, where he established now world's records.

Hearne started his career in a race in the days when speedsters were unknown in this country and when the highway, the horse track and the hills were the only courses for competition, outside of the ocean beaches. In those days being a man of means, Eddie drove only the best of the imported racing cars. He was partial to the German Benz and the Italian Fiat.

"Grandpa" was a star in the days when the names of Barney Oldfield, Louis Chevrolet, Louis Strang "Wild Bob" Burman and "Smiling" George Robertson were written boldly into auto race history. He was a consistent winner in the early races on the Indianapolis, Los Angeles (Playa del Rey) and Atlanta speedways. He has participated in practically all the Indianapolis Speedway 500-mile classics. In 1919 he was second to Howard Wilcox at the wheel of a Durant Speedster, the nearest he ever came to victory on the Hoosier course.

Means Under Arrest On Way to New York

CHARLOTTE, N. C., Jan. 7.—Gaston B. Means, former assistant of justice agent and outstanding figure in the senate Daugherty investigation last spring was Wednesday on his way to New York under arrest. He was taken into custody after a physician pronounced him in condition to travel although ill with gall stones. This was the reason he did not appear Monday for trial of charges of conspiracy to obstruct justice, the physician reported.

When Notre Dame Frowned Stanford

Dame's famed gridgers became the undisputed champions of the world when they romped over Stanford University New Year Day at Pasadena, Calif., 27-10. Here Layden is seen starting on his 69-yard run for the second touchdown of the day. Ernie Nevers, fullback for the Cardinals, passes from the 21-yard line. But Crowley, Irish halfback, knocked it out of his arms into the reach den, who grabbed it and started his dash down the field. Crowley, after blocking the pass, proceeded to two Stanford men. He can be seen on the ground, his feet toward the camera.
