Poll Watchers Warned By GOP At DeBary

DeBary poll watchers have been urged to be on guard this election day, reports from the DeBary Republican Club re-

Louis Parker, Volusia County campaign manager for Claude Kirk for governor, in an address before the club, advised poll watchers to "study the rules, be informed as to the duties of a watcher, and ask for volunteers to go into other districts to as-

"The smear campaign has started." Parker stated, "I've received one of their brochures at my home. I feel the opposition is ready to use this smear to try and win the election. You registered Republicans will no doubt receive some of the same type literature in your mails," he warned. A question and answer period

was conducted following his In business of the club meeting, a dessert card party was announced for 1 p.m., Nov. 2, at the home of Mrs. Marie Accardi, Hibiscus Drive, DeBary. with proceeds to go for the local campaign fund. Total membership of 625 to

date was reported by John Kiswas given by Rev. Paul Shultz who also conducted a brief service in memory of deceased Mrs. Theodore Cully, Angel Diaz, William Ferguson, John Lumy, M. Robinson, Joseph Kreis, Reginald Meeker, and Mrs. Herman Sturn. Flag salute was led by Virginia Smith and Mrs. Bestrice Muller sung The National Anthem, accompanied at the piano by Mrs. John Park. Rrefreshments were served during the social hour by the committee, Mrs. P. E. Little, Mrs. Herman Burger, Mrs. Ruth Hamilton, and Mrs. John Leone.

An Accident **Hunting Place** To Happen

LEXINGTON, Ky. (AP)-Are there people who are accident prone? Sure there are. According to an expert in the field, you are one of them. Dr. Orswell Fine, assistant professor of psychiatry at the University of Kentucky, explains that everybody can be accident prone under certain For example: Just before

ody of President John F. Kennedy will be moved about 40 night within five weeks, after darkness has settled on the hills of Arlington National Cemetery Army officials say the reburial will take place by Nov. 22, the third anniversary of the young president's assassination. The date will not be made public in advance. The nighttime reburial, after the cemetery has closed, will insure pri-

Kennedy's body and those of his two children who died in infancy, Patrick Bouvier Kennedy and "baby girl Kennedy," will be moved to a permanent grave site now nearing completion. The prime consideration in relocating the late president's grave was to place it in a direct axis line with the Lincoln Memorial and the Washington Monument across the Potomac River in the nation's capital. Work on the \$2-million grave site began about a year ago in an area adjacent to the three grass-covered graves which are surrounded by a low, white

picket fence. Millions have visited Kennedy's temporary grave, where an eternal flame has flickered day and night since his burial. The flame will be included in the permanent grave site, a with a circular walkway 210 feet

No Cosmonauts Lost In Space

NEW YORK (AP) - James E. Webb, head of the National Aeronautics and Space Administration, has dismissed conjecture that Soviet cosmonauts have been lost in space. "As far as I know, they have not lost a single man in flight They have lost them on the ground, they have lost them in airplanes just like we have." Webb said. In an interview in the current issue of Look magazine, Webb said, "Every bit of information we have shows that they have

PHOENIX, Ariz. (AP) - Secretary of the Interior Stewart Udall rejects the idea that he run for the U.S. Senate in 1968, the year Barry Goldwater expects to try a comeback. Udall, a former Democratic congressman from Arizona, said Monday night that he hopes ailing Sen. Carl Hayden, D-Ariz., will run again in 1968. Udall told the Phoenix Press Club "Under no circumstances - and I want to underline the word 'no' - will I be a candidate for the Senate in 1968."

NORMAN, Okla. (AP)-Stopping tornadoes by electrocution is proposed by a scientist who does it with laboratory models. The theory - untested yet on real tornado — calls for a cannon to fire many wire-wound projectiles into the tornado cloud, stretching a thin wire two miles or more between positive

and negative clouds. A resulting lightning bolt theoretically would short out and neutralize the electric field in the clouds which created the tornado, explained Dr. Vernon J. Rossow of the National Aeronautics and Space Administra tion's Ames Research Center. Moffett Field, Calif., in a paper today at the 12th Weather Radar Conference at the Universi-

ty of Oklahoma. After four years of study of storm-cloud forces, Rossow concludes that tornadoes are produced by two large cloud masses of positive and negative charge parallel to each other and about a mile apart.

If a flow of positively charged water droplets begins moving from the positive mass into the egative mass, he said, this usually forces a counterflow of egative droplets as the two The counterflowing streams may begin to whiel faster and faster, building rotational speeds as high as 500 miles an hour, according to Rossow's theory. The tornado whirls its destructive path until the

Driver Education students will soon be on the driving range. When the long-awaited 1967 model cars arrive students will be able to practice their driving skills before venturing into the "rat race" of highway traffic. Earlier this week, two guest speakers discussed topics of interest to the students. Gordon Meyer from the State Farm Insurance Company gave an interesting talk on the different kinds of insurance. Tom Deppen from the Sanford Police Department warned students of the dangers of intersection accidents. He explained why most accidents happen and what students can do to prevent them.

The diller, the dollar, the ten o'clock scholar. Remember how the rhyme ended? Tardiness leads from bad to worse. The boy ended by sleeping until noon. Often parents ask, "WHEN IS IT TIME TO BEGIN THE RELIGIOUS TRAINING OF OUR CHILD?" Here's a straight-forward answer: "THE MOMENT YOU BEGIN TO LOVE

You see, God is love. And, in a home where God is loved, a child quickly begins to associate the love of his parents for him with this Other Love which is felt by those he loves. Then come Bible stories and pictures and a simple prayer to help him experience and express his growing faith. Soon he'll be starting Sunday School - but his religious training has already begun.

Our churches are helping tomorrow's parents equip themselves spiritually today. The couple planning marriage needs a mature religious faith. For when God has given us a little son or daughter . . . THERE GOES THE BELL!

THE CHURCH FOR ALL...

ALL FOR THE CHURCH

The Church is the greatest factor

on earth for the building of charac-ter and good citisenship. It is a store-house of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There

are four sound reasons why every

person should attend services regu-larly and support the Church. They are: (1) For his own sake, (2) For

his children's sake, (8) For the sake

of his community and nation. (4)
For the sake of the Church fiself,
which needs his moral and material

support. Plan to go to church regu-larly and read your Bible daily.

Buses at Seminole High were as crowded as at Lyman and Sanford Junior High. While school officials have maintained that Cathy Merritt, who tumbled out of a bus recently when she was standing in a stairwell against orders on one bus at Seminole High School, Friday, students were standing in the stairwell when the bus left the school. No one was heard ordering them In addition, more than 50 cars were counted, which were

riven by students and carrying two to four passengers each. Several mothers have insisted that bussing condition are vorse in the morning than in the afternoon, So-(Tomorrow - Oviedo Junior-Senior High School - observations will be made in the morning when the buses unload.)
