Candidates Are Parading Same Major Issues

Few New Issues Have Been Added To List With Adjustment Of Taxes In Spotlight

Slot Machines Are Lambasted

Opposition To Sales Tax Expressed By Many A Candidate

TALLAHASSEE, Apr. 25.—(AP)—The same major issues that have identified political campaigns in past elections are being paraded before voters this year by a record field of candidates. A few new issues have been added.

First place in the spotlight goes to taxes—a subject not of which comes just about every other issue, such as public schools, operation of government, reduction of automobile license, old age pensions, and homeowning tax exemption.

Alongside these, some candidates are placing platform planks for repeal of the slot machine law, enactment of a law prohibiting employment of members of the Legislature in other state departments, and laws to encourage and promote industry and agriculture.

Nearly every candidate for governor has expressed opposition to a sales tax. Such a tax caused a bitter struggle in the 1932 Legislature until the so-called chain store law was enacted.

One new point in the campaign discourse this year is the Florida Tax Revision League, which has carried on a campaign against two-job legislators and against excess of governmental branches. It has been attacked as a sales tax advocate.

Another new point is announced opposition to the duPonts, also identified by one candidate as advancing some form of sales tax and as seeking control of the Legislature.

Reduction of taxes is being advocated by various candidates who call for abolition and consolidation of governmental departments such the same as candidates in the past elections.

Various proposals are being made for reducing automobile license tag prices, including one to have a license tag costing \$1 and good for the operating life of the automobile. Others want \$5 tags.

Old age pensions come prominently into the campaign because in the November general election the voters will ballot on a proposed constitutional amendment which would authorize the Legislature to appropriate funds for such a purpose.

The present Constitution places upon the respective counties the responsibility of caring for persons who are in need. The constitutional amendment would authorize the Legislature to "provide for a uniform state-wide system of such benefits, and appropriate money therefor."

There were estimates in the 1935 Legislature when the proposed amendment was under discussion that about \$4,000,000 a year would be required to pay such pensions, which would be limited to persons "who by reason of age, infirmity (Continued On Page Two)

Association Wants Quarantine Lifted On Tick Free Area

Lifting of the quarantine on cattle in tick-free areas in this section is asked of the State Livestock Board in a resolution passed by the Seminole County Agricultural Association. In the resolution which was passed Thursday evening, various areas were set forth as being immune to tick ticks, and these should be freed from quarantine regulations, in the opinion of the association. Complete eradication of ticks in every section of Seminole County was discussed at the meeting.

Inspector Warns County Stockmen Of Screw Worms

Getting Much Worse, Says McClelland; Farmers Must Act

Screw worm infestation is becoming much worse in this section of the state, it is reported by Inspector M. E. McClelland, and he therefore issues a warning to all stockmen to act promptly.

"Tell every owner of even one cow," Mr. McClelland said today, "to be on his toes and watch for this infestation, and give prompt treatment, or we will have the worst summer with the screw worm pests we have ever had. There are so many cases I can't treat them; all I can do is tell the stockmen how to treat their cattle, and they can do it as well as anyone."

Mr. McClelland urges every owner of cattle, irrespective of how many head he may have to obtain immediately supply of benzol and pine tar and be prepared to use them as they are needed.

Another new point in the campaign discourse this year is the Florida Tax Revision League, which has carried on a campaign against two-job legislators and against excess of governmental branches. It has been attacked as a sales tax advocate.

Another new point is announced opposition to the duPonts, also identified by one candidate as advancing some form of sales tax and as seeking control of the Legislature.

Sanford Man Is Chosen Treasurer Of Church Group

Elected by unanimous vote, S. G. Gray of Sanford was chosen at the diocesan convention of the Episcopal Church in South Florida as treasurer of the diocese and member of the executive council which carries with it the chairmanship of the department of finance. The Rev. Martin Bram, rector of Holy Cross Episcopal Church in Sanford, was elected to the standing committee, the court of array and the board of the Cathedral School for Girls. The convention was held in St. Petersburg.

During the convention itself, the delegates took an active part on various committees. Mrs. W. E. Watson was chairman of the important committee on disbursements. Mr. Gray presented and explained the 1937 budget. The Rev. Mr. Bram was chairman of three committees gave the report for the committee on the state of the church, the committee on the bishop's address, and the committee to prepare a synopsis of the auditor's report.

Two encouraging figures were presented in the bishop's address; first, in the last 10 years this diocese has had a 46 percent increase in membership, an 80 percent increase in church school pupils, and in the recent appeal from the national council for the anticipated deficit, this diocese over-subscribed its portion by 200 percent.

Those attending the convention from Sanford were the Rev. and Mrs. M. J. Bram, Ralph A. Smith, Mrs. W. E. Watson, Mrs. W. H. Stewart, Mrs. R. F. Whitner, Miss Margaret Young, and S. G. Gray.

PETER F. DUNNIE BEARS

NEW YORK, Apr. 25.—(AP)—Peter F. Dunnie, 60, author of the famous "Dunnie" stories, died here last night after an illness of several weeks.

Lights To Be Installed At Airport Soon

Work Begins Monday With Crew Of 20 Men; Be Finished In About A Month

Installation of boundary and obstruction lights at Sanford Municipal Airport will begin next Monday, W. S. Kark, WPA engineer, announced today. Most of the necessary material has arrived, and a crew of 20 men will be sent to the field. It is expected that the work will occupy at least a month's time.

The lighting of the Sanford Airport was ordered because it is on the main air route between the Atlantic and Gulf coasts, and might be needed as an emergency field. The airport is on Sanford Avenue, about three miles south of the City.

Comprising 160 acres, the airport will be outlined with clear and green lights around the 2,000-foot boundary. These lights will be stationed at 200-foot intervals. There will be 20 obstruction lights, red, placed on 20-foot poles to mark power wires or other hazards in places.

The appropriation for the lights is \$3,500. While the Municipal Airport comprises a full quarter-section, the City is negotiating for the purchase of an additional seven acres so it can remove the hazard of trees on that tract.

University Honor Society Chooses Two Sanford Men

Milton Ware and Franklin Bennett of Sanford are among the 34 most outstanding students at the State University at Gainesville elected this week to Blue Key, the honorary leadership society. Only those students with notable qualifications are eligible for election, and therefore no honor on the Gate campus is more coveted than election to Blue Key.

Graduating seniors, Class of 1936, elected were Bill Boring, Lakeland; Stansmore Corbin, Tallahassee; Jimmy Bryant, Pensacola; Billy Collier, Tampa; Phil Graham, Miami; Bob Gardner, Quincy; Jesse Jones, Ft. Myers; Charles Matheny, Sarasota; Victor Nettles, Palm Beach; Robert Rickert, Jacksonville; Bob Specht, Miami; Pete Tully, Tallahassee; Melton Ware, Sanford.

Members elected, who expect to return to school next year were Walter Barker, Williston; Guy Botta, Jay; Jack Bush, Daytona Beach; Bill Chambers, Jacksonville; Harry Duder, Ocala; Kenneth Eppert, Jacksonville; Wesley Fly, Zellwood; John Paul Jones, Gainesville; Sherman Jones, Jacksonville; Ben Krentz, Milton; Julian Lane, Tampa; John and Brian McCarty, Ft. Pierce; Bill O'Bryan, Miami; M. M. Parrish, Gainesville; Charles Root, Plant City; Godfrey Smith, Tallahassee; David Sost, Arcadia; Selken Walsh, Gainesville; Franklin Bennett, Sanford.

Sanctions Augment Disorder, Declares Premier Mussolini

ROME, Apr. 25.—(AP)—Premier Mussolini declared today at the inauguration of the new issue of April that sanctions "augment the disorder and misery of the world" but that "Italy will remain always methodical, transactional and indomitable."

It does mean the declaration after getting a plough in circulation of "Bismarck's" outlining of Rome to mark the bicentennial of the community of April which will rise on the included Pontine marshes.

Jaycees Want Law To Clear Highways

PORT PIERSCE, Apr. 25.—(AP)—The Florida State Jaycee Chapter of Commerce in the state convention here called the Legislature to enact a law providing for the removal of brush from the state's highways.

Delegates voted to take the action after a report by Walter Hays of Orlando for the safety committee showing that on the state's highways there are 100,000 bushels of brush.

JOBLESS SEIZE NEW JERSEY LEGISLATIVE CHAMBER

After the New Jersey legislature adjourned for a week without providing relief funds, these unemployed comfortably coked their feet on the desks of the legislative chamber at Trenton and prepared to remain in "work session" until the lawmakers find money to feed them. The shabby clad but orderly men and women brought one "Bread and Ale" sign on the floor. (AP Photo)

Selection Of Proper Site For Sanitarium Halted By State Supreme Court Rule

Three sites offered in Seminole County But Board Can't Act

Three sites for the proposed state tuberculosis sanitarium have been offered in Seminole County, but there is no need of selecting them, the secretary of the State Tuberculosis Board telegraphed the Seminole County Chamber of Commerce this afternoon until there has been a final determination of the case in the State Supreme Court.

The high tribunal yesterday held an unconstitutional a plan of the State Tuberculosis Board to borrow money from the federal government for constructing a sanitarium and then mortgage the building and its site as a guarantee of repayment.

Property claimed by the bank the court said is state property, and mortgages cannot be placed against it.

The court also said the board could not pledge to the government any part of a \$200,000 appropriation voted to it by the Legislature in 1935, and still unspent.

A decision of the Federal circuit court denying application for an injunction against the board's negotiations with the Public Works Administration was reversed by the unanimous decision.

San Beach appealed when he lost his injunction effort in the lower court. He contended the tuberculosis board planned to borrow \$200,000 from the government to acquire a site and build a sanitarium. Revenue from operation of the hospital was to be pledged for repaying the loan, but there also was to be a mortgage on the site and the building.

The loan negotiations also provided that if the mortgage was accepted and then held invalid, the tuberculosis board would pledge its unexpended \$200,000 appropriation to supplement spending money in sufficient amount to repay the loan over a 25-year period.

Leader In Legion Dies In Sarasota

SARASOTA, Apr. 25.—Capt. William Hoffman Young, 52, retired army officer, died at a Sarasota hospital Thursday night following a stroke of apoplexy a week ago.

Captain Young was prominent in American Legion affairs and had work was elected grand commander of the Post and Eight at the order's annual state convention here. He was also commander of the Sarasota Legion post.

He was a graduate of Kentucky Military Institute and Pacific University, and a native of Louisville, Ky. He came here to live four years ago. Mrs. Young and a daughter survive.

Powell Convicted Of First Degree Murder Of Wife

No Recommendation Of Mercy Made By Jacksonville Jury

JACKSONVILLE, Apr. 25.—(AP)—Marcus C. Powell today was convicted of first degree murder without recommendation of mercy for the hammer slaying of his wife here Mar. 1. The jury's verdict, reached after only 30 minutes' deliberation, makes the death sentence mandatory. As a result Powell, who twice before has been convicted on slaying charges but was pardoned each time after serving short prison sentences, will be sentenced to the electric chair.

He also was indicted for killing his mother-in-law, Mrs. Lou E. Spear, whose body and that of her daughter, Mrs. Katie Powell, was found in a Nassau county creek six days after Powell reported the women missing from home here.

The state, through circumstantial evidence, sought to show that Powell killed the women with a hammer, placed their bodies in an automobile and dumped them to a creek where he carried them after slashing open their abdomens in an effort to keep the bodies from coming to the surface.

Powell took the stand in own defense and swept as he denied the charges. He said he believed the women were robbed and slain while on the way to an afternoon movie.

After conviction today Powell wrote a statement from his cell saying the slaying of W. C. Coulter, Sr., for which he was convicted and given a life sentence here in 1936 was done by Mrs. Powell and that he took the rap because he loved her. Powell was employed for the Coulter slaying.

Roosevelt To Speak In New York Tonight

WASHINGTON, Apr. 25.—(AP)—Heading into a politically active week-end, Democratic party leaders converged on Philadelphia today to lay the groundwork for the Democratic National Convention and prepared for a New York speech by President Roosevelt tonight.

Considerable speculation was stirred here as to the subject matter of the President's address. To be delivered before a gathering of the National Democratic Club, it will be one of Mr. Roosevelt's last speeches before opening of the party convention in June.

Barkley To Deliver Democratic Key Note

PHILADELPHIA, Apr. 25.—(AP)—The committee on arrangements of the Democratic National Convention decided today to recommend United States Senator A. W. Barkley of Kentucky as temporary chairman and key note of the convention which opens here in June.

Flood Control Bill Approved By The Senate

Chairman Says It Is First In The World Having No Pork, States Share Cost

WASHINGTON, Apr. 25.—(AP)—The \$200,000,000 omnibus flood control bill was approved today by the Senate commerce committee. Chairman Copeland told reporters the committee voted ten to six that local political subdivisions should pay a portion of the cost of the bill's projects. He said states and municipalities will be required to pay for land and damage costs, and estimated this would cut charges to federal government by "about one hundred million."

"This is the first bill in the history of the world that has no pork in it," said Senator Copeland, contending that every project had received approval of the board of army engineers. Senator Fletcher was among those who voted that the burden be divided between national and local government.

Republicans recruited their first Democratic ally in opposition to the \$200,000,000 tax bill yesterday at the House listened with apparent indifference to another burst of debate on that measure.

Representative Lamneck, Ohio Democrat, stormed into the well of the chamber to argue that the measure would wipe out thousands of business concerns, tend to create monopoly, and prevent the accumulation of corporate surpluses for "rainy days."

The Democratic majority sent Representative Cooper, Tennessee Democrat to the firing line to reply that attacks on the bill have "consisted of meaningless generalities," Representative Ford, California Republican, added that the bill would "strike at the root of economic evil."

In the Senate, too, some Democrats were joining in the criticism, with talk of finding other ways to pay for the federal income. Just how far they might go in attempting to re-vamp the bill, when it reaches the Senate, was uncertain.

Simpson Warns Of 'Pan-Handling' By Out-Of-Town Men

President T. E. Simpson of the Seminole Chamber of Commerce, reporting the receipt of numerous complaints against out-of-town solicitors, issued a warning against such "pan-handlers."

Two men were apprehended this week one falsely soliciting funds in behalf of the Longwood library and the other misrepresenting two out-of-town newspapers.

"We would like to ask that the next time you are approached," said Mr. Simpson, "that you tell the solicitor in no uncertain terms you are not interested, further, we would like to have you notify the Chamber of Commerce. It is time that this type of pan-handling of business and professional men and women of Sanford ended. If you turn the solicitor down, he will look for someone else; whereas, if we know about it in time we may be able to investigate the merits of the proposition and stop a merely promotional scheme before someone suffers."

Six Boy Scouts In New Baptist Troop Win First Badges

Six Boy Scouts of Troop 11, sponsored by the First Baptist Church, received their tenderfoot badges and certificates at an impressive investiture service Thursday evening at the church annex.

Sixty-five men of the church gathered for a fish fry and had the scouts as their guests. The main speaker of the evening was H. L. Lattimer, secretary of the Baptist Brotherhood for the state, who gave an interesting address on "The Layman and his Church."

The committee on Sunday School transportation reported that more than 300 children had been carried to and from various Sunday Schools in the City since last January in a bus donated by H. C. Chaske.

Good Neighbor League Enters National Stage

Leader Says It May Fight The Liberty League, Critic Of New Deal Policies

WASHINGTON, Apr. 25.—(AP)—Bearing the endorsement of President Roosevelt, the newly formed "Good Neighbor League" entered the national picture today. One leader said it would fight for ideals "opposite" those of the American Liberty League, bitter New Deal critic. The new league listed leaders in church, educational, peace, and social welfare groups among its directors.

Dr. Stanley High, Protestant clergyman recently engaged by the Democratic National Committee to do organization work, is on the three member executive committee, the announcement said, and will have actual direction. The other members of this committee are Col. Patrick Henry Callahan, Louisville, Catholic layman who gained national prominence as a prohibitionist, and Mrs. Estelle Sternberger, prominent in the peace movement and Jewish charities.

Dr. High said "We just intend to go ahead with our own program, and if in advancing our ideals, which are opposite to those of the American Liberty League, we should seem to combat the Liberty League, we would, nevertheless, go right ahead."

Future Farmers Will Compete In Public Speaking

Future Farmers of America will engage in their first public speaking contest of the year next Tuesday evening, the winner to represent Seminole Chapter in a district contest to be staged here on May 9. The winner of that contest will compete with district champions in a state contest, and that winner will go into the national contest.

Seminole boys will engage in next Tuesday evening's public speaking contest which will be held in the agricultural room of the Seminole High School at 7:30 o'clock. Principal G. E. McKay, Rev. J. B. Root and J. L. Ingley will be the judges.

William Barnett, Herbert Thurston and Robert Kauler will discuss the Florida Cross-State Canal as a public problem. Chris Bucher will orally on the value of home beautifying, Robert Mauer will tell of the value of vocational agriculture to the community. John R. Jones, Jr., will discuss forestry, and Boyd Coleman will declaim on co-operation as a national need.

VANDEMBERG IN RACE

DETROIT, Apr. 25.—(AP)—The Republican state convention adopted a resolution instructing delegates to the national convention to offer the name of Senator Arthur H. Vandenberg for the presidential nomination.

Selection Of Site For Sanitarium Is Halted By Court

(Continued From Page One)
plans for opening bids Apr. 30 for constructing a tuberculosis hospital.

Frank Evans, of Lake Mary, chairman of the Chamber of Commerce committee, reports that three sites for the proposed sanitarium have been offered in this County. All the sites have paid up taxes and clear title and will be donated by the owners, and it is believed that each will meet the requirements of the state board in regard to drinking water, rail and highway transportation facilities. Each tract consists of from sixty to one hundred acres and one is offered by the Florida East Coast Railway at Chuluota, through its representative A. G. Wagner, another is offered in the Markham vicinity by L. P. Hagan, while the third is a tract belonging to Mr. Evans at Lake Mary.

Members of the local committee which is exerting all effort in promoting Seminole County's bid are: Frank Evans, chairman, Lake Mary, Mrs. A. W. Knox, Mrs. Dorothy De-Lamb, John Meisch, Sr., R. A. Newman, and W. H. Tunncliffe.

Stetson University Planning Group Of Commons Buildings

DELAND, Apr. 25.—(P)—Dr. W. S. Allen, president, announced the Stetson University board of trustees had approved plans for construction of a one-story red brick commons group at an estimated cost of \$40,000.

University officials said the group would be completed by next fall, and will house a kitchen, cafeteria, dining hall and at least two assembly rooms.

The present dining room in Chaudoin Hall will be remodeled into living quarters for girl students.

No Hope Held For Recovery Of Egypt King

Monarch Lapses Into Coma As Members Of His Family Are Called To Bedside

Fuad Is 9th Of Present Dynasty

Illness Is Regarded With Deep Concern In National Crisis

CAIRO, Apr. 27.—(AP)—The condition of King Fuad, 66-year-old Egyptian monarch, became worse today. He is gravely ill with a throat and mouth infection. He has taken no food in four days. The royal family was called to his bedside.

The king was at his Koubbeh Palace, near Cairo. He was attended by a group of eminent physicians from many countries, headed by Prof. Cesare Franguli, noted Italian specialist, who was summoned here by airplane.

The king has been in poor health since an attack of pleurisy in January, 1934, which weakened his heart. He had another illness in September of the same year and specialists were called in.

His present illness was regarded with grave concern because of the king's position as a stabilizing factor in the political situation, in which the nationalists are demanding virtual complete independence from Great Britain.

Their demands have caused grave rioting in recent months, with hundreds killed or wounded. The king has been attempting to negotiate a compromise with Britain which would in a measure satisfy the nationalists but at the same time satisfy Britain's insistence on a special position in Egypt, especially as regards the Suez Canal.

King Fuad is the ninth ruler of the present Egyptian dynasty. He succeeded to the throne in 1917 on the death of his brother, Sultan Hussein Kamil. He was proclaimed king in 1922, when Britain ended its protectorate and granted Egypt a measure of independence.

In 1934, the king suspended the constitution and dismissed parliament because of the unrest in the country, ruling for a time thereafter as virtual dictator.

His heir, Prince Farouk, is 14, and is being educated in England.

Mrs. Mary Schroeder Dies In 85th Year

Sandberg's legs and feet are showing improved condition, they said.

Orlando Pastors Instigate Fight On Slot Machines

Clergy Association Wants Them Taken Out Of The County

Acting in accordance with a resolution passed at a recent meeting of the Orlando Ministerial Association, pastors of various churches in Orlando began a concerted move yesterday against slot machines, making fervent appeals to their parishioners to rise against the "unclean banishment" and drive them all out of Orange county.

Those preaching Sunday against the slot machines included the Rev. David B. Russell, pastor of the Reformed Presbyterian Church; the Rev. P. Monroe Smock, pastor of the College Park Baptist Church; and Dr. Ludl Spivy of Southern College, occupying the pulpit of the First Methodist Church.

"Slot machines and the Devil's Work" was the subject chosen by the Rev. Mr. Russell who stated he chose that for his subject "because the victims who play these machines are maniacs—however, intelligent and rational they may be along other lines, when confronted by one of these machines, they go stark, raving crazy. They know they can't win and knowing this any man in his right mind would leave the machine alone, they know they can't win but they can't resist the thought that they might hit the jack pot and stand up and shove coins down the insatiable maw of this modern one-armed bandit.

"The owner of a big gambling establishment in Nassau was here recently and in commenting upon slot machines he declared that only a fool would play them since the odds were at least 70 percent against the player. And really they are more than that here in Orlando for I understand that Frank Sharp only guarantees a 14 percent return, let us say a 15 percent return. In other words if you give the machines 85 cents out of a dollar it will give you back 15 cents."

The Rev. Mr. Smock told his audience in the College Park Baptist Church that the slot machine is not honest. "It is a racket pure and simple," he declared, "depending upon the desire of the player to get something for nothing. The player is a bigger sucker than he is a sinner. Society is here justified in stepping in to protect the simple sucker.

"Good citizens will do all in their power, both by example and precept, to abolish this idea of getting something for nothing. It can't be done. The law of God still exists—whatever we sow, we'll reap—only much more."

Construction Of Armory Is To Be Pushed

Lumber Received And More Men Added To The Payroll On Big Local Project

With the receipt of all material needed for the National Guard Armory in Sanford with the exception of one car of lumber, work on the big building is to be pushed to completion at the earliest possible date.

W. S. Earle, WPA engineer in charge of projects in this area, has added several skilled carpenters to the armory work, and more will be put on if carpenters can be located who are now doing work of another kind on WPA projects. It is expected that the armory will be completed within the next 60 days.

There has been considerable delay in the construction of the big building caused by the non-arrival of needed materials, and by having to wait for the installation of plumbing and lighting fixtures. The latter were paid for by local sponsors, assisted by the Guard itself.

Installation of boundary and obstruction lights at the Sanford Municipal Airport was also begun by the WPA today. It is expected that it will take the crew of 20 men about 30 days to complete that work.

Beauty Parade Will Be Led By 30-Piece Band

The Orlando band of 30 pieces will lead the beauty parade in Sanford at 4:30 o'clock Wednesday afternoon, preliminary to the functions to be given that evening in honor of Miss Louise Johnston of Sanford, chosen as "Miss Florida, 1936."

The band will march on foot, three abreast, and will be followed by 30 decorated cars carrying Miss Florida's Court of Honor, with Miss Johnston in the leading car. The band will also play a 30 minute concert at 8 o'clock at City Hall where the ball honoring Miss Florida is to be given. The parade is expected to be one of the largest and most colorful ever seen in Sanford.

The queen's ball which will take place at the City Hall is informal. Two hours of continuous entertainment will precede the ball. The Florida Rhythm Kings will be on the stage from 8 until 2 o'clock. The general public is invited to participate in this event of great honor to one of Sanford's girls.

Woodmen Of World Planning Big Meeting

Arrangements are being made by Celery Camp of the Woodmen of the World for a big meeting on Thursday night of this week when it is expected that delegates will be present from all camps in Central Florida. Candidates for elective offices in County and district are invited, though none of the politicians will be permitted to make speeches. It will be an excellent opportunity, however, for them to meet the voters. Consul Commander O. P. Herndon said.

The Beasley Orchestra of Orlando has been engaged to play for a dance after the meeting and refreshments will be served. There will be no charge for admission.

Local Merchants Receiving Checks For Refunded Tax

Checks for varying amounts representing a refund of one-half of one percent on sales taxes paid between July 1 of last year and Feb. 25 of this year were in today's mail for a number of local merchants. The total that would be received by Sanford business men was estimated at several thousand dollars. The refund received by one restaurant was \$41, and this was stated to be one of the smallest checks. The total amount to be returned by the State of Florida to business men is \$27,500,000.

Feb. 25 was fixed as the effective date of the gross receipts tax of one-half percent, because of litigation which required judicial interpretation of which sections of the law would be constitutional and effective.

It is said to be the first thing in history of Florida taxation that the real taxpayer has received refunds without real time or waiting for the legislature to pass relief bills.

Mrs. Susan C. Raburn Died Sunday Morning

Mrs. Susan Catherine Raburn, 83, died Sunday morning in her home at 819 West First Street, following an illness of several months. She had been a resident of Sanford for 13 years. Mrs. Raburn was born in Temple, Ga., on Apr. 16, 1853.

Surviving relatives are a son, A. E. Raburn of Sanford; one sister, Mrs. Leah Powell of Buchanan, Ga.; and the following grandchildren: Mrs. Harvey Lodge, Mrs. William M. Benson, Sallie Raburn, Jamie Raburn, Monna Raburn, J. A. Raburn, Albert Raburn and E. E. Raburn, Jr., of Sanford and Paul Raburn of Atlanta, Ga., and several great grandchildren.

Funeral services were conducted at 11 o'clock this morning from the Erickson Funeral Home to Lakewood Cemetery with the Rev. W. P. Bayko, Jr., officiating and the following acting as pallbearers: James Knight, George W. Turner, St. H. Fubanks, L. C. Kinard, George Rowland and A. H. R. Lewis.

Taxes Talked In Each House Of Congress

Republicans Are To Caucus To Decide Stand To Take On Roosevelt Measure

WASHINGTON, Apr. 27.—(AP)—Taxes became the general topic of capital conversation today as Republicans in both House and Senate decided to hold meetings to determine what stand they would take on the Administration bill.

The debate on the \$400,000,000 measure was resumed in the House, while the Senate finance committee continued to hear tax experts in executive session.

Senator LaFollette, Wisconsin progressive, announced he would press amendments to boost individual income and surtaxes. The Rivers and Fibbers Congress hear Secretary Wallace plead for a co-ordinated water system to check the rapid runoff of moisture and Senator Robinson, Arkansas Democrat, urged the creation of a national agency to formulate a flood control program.

The constitutionality of one phase of the \$400,000,000 tax bill was questioned in the Senate finance committee as Administration proposals sought to avoid clashes with the House that might delay adjournment of Congress until late in June.

Senator Bailey, North Carolina Democrat, injected the constitutional issue into the finance committee's tax studies in connection with provisions in the House bill for special treatment for delinquent corporations. Chairman Harrison, Mississippi Democrat, immediately jumped to their defense.

"My own opinion," Harrison told reporters, "is that it is merely a question of classification, and Congress certainly has the right to classify these rates of taxes and give certain credits to delinquent corporations."

Aid Of Liners Not Needed By Crippled Ships

NEW YORK, Apr. 27.—(AP)—Two freighters, crippled in the mid-Atlantic during a heavy gale, proceeded without assistance today after three liners swung from their courses to give aid.

The Invanoh, owned by the Nor-Asiatic line, broke a rudder yesterday, but when the Polish liner (Pilsudski) reached her side today she said she needed no immediate help and would await a salvage tug. A few hours later a British freighter, the St. Quentin, toward which the luxury liners Bremen and Washington were plowing through heavy seas, sent word she would continue unaided.

There was no word from the third ship, the British freighter Rushpool, which yesterday reported difficulties. Shipping officials here believe she made repairs and went on her way.

Cotton Road Fund Nearly Exhausted

NEW YORK, Apr. 27.—(AP)—The \$13,000,000 fund allotted by the Department of Agriculture to supply state with cotton reinforcing fabric for roads may be exhausted before some states apply, the Cotton Textile Institute announces.

The deadline for applications is May 15 and contracts must be let by June 30. The department has not announced the amount of fabric requested so far, but New Jersey plans to build 80 miles of cotton-reinforced bituminous roads this year, Michigan 34, Indiana 20 to 25 miles, North Carolina 100, Alabama 100, Texas 50 miles, and Minnesota and New Hampshire an amount not yet determined, the institute said it had been advised.

2 Elderly People Burn To Death In Home In Brooklyn

Three Critically Injured In Fire From An Unknown Cause

NEW YORK, Apr. 27.—(AP)—Four elderly men and a woman were trapped in upper stories of a Brooklyn home today by a fire which swept up from the basement, killing two and leaving the other three in a critical condition.

Paul Schultz, 89, retired fireman who owned the four-story house, was suffocated. Selma McDonald, 70, was burned to death. Her body was found in the arms of her husband, Harry McDonald, 73, who was taken to a hospital in a critical condition. Others who were badly burned were Julius Schultz, 76, and Bernard Schultz, 71.

Mary Hickey, 21, a neighbor, tried to warn the endangered persons by knocking on a door and finally by breaking out a window with her bare hands. She was threatened for cuts and bruises.

Cause of the fire was not determined.

Plans In Making To Further Aid Horticulturists

A larger number of horticulturists in this area will be eligible to participate in AAA benefits if plans now being formulated materialize, County Agent C. R. Spence, vice director of the agricultural station in Gainesville, is writing Mr. Dawson that H. G. Clayton, district agent, is now in Washington working with the Agricultural Adjustment Administration. Mr. Spence says:

"I simply make this statement that you may advise those who inquire, that plans are being perfected just as rapidly as they can to provide for benefits to South Florida growers and it is our hope and plan to have a more definite program available just as soon as it can be worked out.

"The present program will permit a large number of people in South Florida to participate although the benefits may be relatively small as compared to their average returns. You understand, however, that this is not final and will probably take three or four months to settle some of the questions that are very important to the growers in Central and South Florida."

Half Block Of Town Tumbles Into River

SMITHLAND, Ky., Apr. 27.—(AP)—A half block section of the Ohio River bank caved in here Sunday, widening the channel about 60 feet, and carrying away part of a furniture store. The earth cracked in a quarter mile long line 25 to 50 feet from the edge of the cave-in, menacing more of the town of 800.

State policemen warned residents out of the apparent danger region. Miss Ruth Riley of Washington, American Red Cross representative, prepared to direct relief activities awaiting a report from United States engineers summoned from Paducah.

Poll Tax Repeal Is Favored By Jaycees

Returning yesterday from the annual convention of the Florida Junior Chamber of Commerce in Fort Pierce, Gordon Barnett, delegate from the Sanford Junior Chamber of Commerce, told of changes in the state election laws recommended by the Jaycees to improve election conditions:

Besides favoring uniform laws to cover all Florida counties, abolition of the poll-tax as a prerequisite to voting is urged. "Honest people are kept from voting by it, while the dishonest ones get their poll-taxes paid for them. There are counties in Florida where the election officials make no effort to see whether or not a voter's poll-taxes are paid," Mr. Barnett said.

"Powerful interests are seeking to control our Legislature, and to see that their favored ones are sent, and the present poll-tax law helps them. Let's get rid of it," he urged, "and start to clean up the mess that our state government has gotten into."

Flier Killed When Stunt Plane Falls

DETROIT, Apr. 27.—(AP)—A stunting airplane crashed in a vacant lot in Northeast Detroit last night, killing Leo Hickey, Detroit, a passenger, and injuring the pilot, William Modrak, 18, also of Detroit.

Cavalcade Following Imperial Highway; No Opposition Has Been Offered Army

Destruction Of City Threatened Residents Of Addis Ababa Are Advised To Desert Selassie

(AP)—The assembled French motorized column of 15,000 troops from Marshal Pietro Badoglio's northern army drove down the Imperial Ethiopian highway today enroute from Dessaye to Addis Ababa. The Fascist commander sent out a column of white Italian soldiers to augment the advance guard of native Askari warriors already advanced far up the road to the Ethiopian capital.

More than 1,000 trucks bearing supplies and supplies formed the cavalcade on the way to Addis Ababa. No opposition has been encountered by the main army on its drive since the capture of Lake Ashangi.

Marshal Badoglio reported that the southern army under General Rodolfo Graziani is menacing Sassenah, strategic outpost of Haar, second city of Ethiopia lying near the only railway line in Ethiopia. Three columns of Fascist troops were menacing the southern city from three sides, after the battle last Friday in which Italian sources reported 1,900 Ethiopians killed.

An Italian airplane circled over Addis Ababa and dropped a warning leaflet to the population saying the city would be destroyed, if any resistance would be offered to Fascist occupation. The leaflet called upon the people to desert Emperor Haile Selassie and pledge allegiance to Italy, who was occupying Ethiopia for "civilization."

Italy has suffered her heaviest losses on the southern front. Fuscini's sixth battalion, in its assault on the Ethiopian defenses at Sassenah Baneh, lost 48 per cent of its effectives, including two white officers killed.

At Guma (Ethiopia) the Ethiopians lost 800 killed and wounded. Italians reported the Ethiopians fought to the death. Not a man surrendered. When the Italians "mopped up" they killed many Ethiopians hidden in caves, trees and trenches, who refused to surrender.
