Officials here said that U. S. in tellisence made two major miscalculations in Cuba. They said it badly misjudged Premier Fidel Cestro's military power and the degree of his police-state control over the Cuban people.

On the military side, these sources said, one of the big failures was in not knowing the number of planes Castro had in operation. There has been no verifieation of reports that he had Soviet Migs in operation, but he did have far more propeller-driven planes than U. S. intelligence esti-

A DARING NEW OIL COMPANY—A BOLD NEW GASOLINE

The "Total Service" you've been waiting for...

Tenneco. New name, new service, new gasoline. El Gasoline with guts, determination, enthusiasm. Gasoline that comes alive on wheels. Gasoline that looks at the road and says "go".
We've been developing our products and programs over many years, consolidating them into a powerful, competitive oil company. And now we're ready. Full-grown. Staffed with youth, vigor and flexibility. We've got backing and background, some of the keenest men in the industry and some outrageously bold ideas about products and service. For instance: We're going back to essentials. Just two pumps - no more. Just Regular and Premium - no more. Just two grades of gasoline with the same premium ingredients. Everything that can be put into a gasoline is in both our Regular and our Premium . . . all the multi-purpose additives, our Regutar's got them. The difference is in the octane rating. Your car has an octane sense. It will tell you which grade of Tanneco makes it happy. In We've got something else: "Quality Twins". Gasolines and oils that work together in your car to keep it

clean, to keep it right... to keep it out of the shop and on the road. I Any gasoline can lose its best qualities between the refinery and the gas pump. Not so with Tenneco. We've got a detective service, a crew of experts that hounds our gasoline all the way down the line. They check it in pipes, trucks, at the station and, if you want, in your car. We call it "Performance Control System". High-sounding but it works like a charm. I We've got something also that's high-sounding. "Total Service". But we don't just say it, we give it. We've got a dealer who is half beaver, half mother hen. He's got a feel for cars, a talent for getting you on the road quickly and a flendish devotion to his spanking new red-white-and-blue Tenneco station. He's courteous and guick and he knows what he's doing. If Tenneco's the muscle, he's the hustle, it's a tough team to beat. We're new but we're complete. And we're competitive. We've got strong ideas about how petroleum products should be made, delivered and sold. Try us-you'll get what you pay for. Try us and see if your car doesn't have a new lust for the highway. See if the going lan't better when you take to the road from Tenneco. See If our sign isn't really a signpost, a beacon, something new to guide by.

This move was directed as part of an effort to "avoid the decaying procedure spreading through the downtown area.'

The commission also told City Manager W. E. Knowles to write the owner of the Palms Hotel on First St. to bring it up to standard within 30 days or the building would be condemned.

Fire Chief Mack Cleveland Sr. and Building Inspector M. H. (Foots) Yelvington inspected the hotel recently and found it a "fire and health menace." Commissioner Tom McDonald urged the board to

have the inspectors look over all the buildings in the business section of the city. McDonald made special note of the Woodruff Build-

ing on First St. and Park Ave. Commissioner Earl Higginbotham called for a "vigorous effort" on the part of the merchants to improve their buildings and stores.

"Let's get them all fired up," Higginbotham said.

First Shots Fired In Algerian Crisis; DeGaulle Backed

PARIS (UPI)-A French light eruiser was reported to have fired warning shots today to stop insurgent paratroopers from taking over the big Algerian naval base at Mes-el-Kebir.

Reports circulating in French government quarters said the paratroopers withdrew. There was one report that marines at the base helped repulse them.

There was no official confirmation of either of the reports and no indication how many troops were involved. If true, the incident would mark the first shots known to have been fired since four generals seized key areas of Algeria in a military revolt last Saturday.

The report came after French troops and tanks started rumbling back into France from NATO command in Germany. They were recalled by President Charles de Gaulle to help cope with the Algerian rebellion and the threat to France itself.

Law Day Coming

Law Day, a time for recognizing the part which law plays in protecting our basic freedoms will again be cele-brated May I.

Lawyers and judges are the traditional guardians of the safeguards provided by our laws. In keeping with this tradition is the following excerpt from the Canons of Professional Ethics adopted by the Supreme Court of Florida as governing the conduct of all members of

"It is the right of the lawyer to undertake the defense of a person accused of crime, regardless of his personal opinion as to the guilt of the accused; otherwise innocent persons, victims only of suspicious circumstances, might be denied proper defense. Having undertaken such defense, the lawyer is bound, by all fair and honorable means, to present every defense that the law of the land permits, to the end that no person may be de-

prived of life or liberty, but by due process of law."

Local bar associations in Florida are among 1,400 roups in the legal profession throughout the United tates planning local observances for Law Day. The Seminole County Bar Association is encouraging other organizations, schools and colleges to plan public programs, and has offered the assistance of its members in arranging for speakers, providing information and other

IF YOU'RE CONCERNED ABOUT RISING FAMILY EXPENSES CONSIDER THESE FACTS ABOUT COMMON STOCK

company. You share in its ups and downs. If it doesn't make a profit, it probably won't pay dividends. But if it prospers you can share in its profits through dividends-and share in any growth through the possible increase of both the size of your dividends and the value of your stock.

2. Most of America's 12½ million shareowners have modest incomes. More than half earn less than \$10,000 a year. Many get started for as little as \$40 every three months with a Monthly Investment Plan. In this way they can systematically build both income and investments to help take care of family needs.

3. It's easy to get help with your first investment. Call on a Member Firm of the New York Stock Exchange. A Partner or Registered Representative there will be happy to talk over your objectives with you. It's part of his job to help new investors. Every Registered Representative at a Member Firm has had to meet the Exchange's requirements for knowledge of investing.

4. Ask for facts. There's always some risk when you invest. You can reduce the risk, however, if you check up on a company before buying stock in it. Never rely on a tip. Ask for facts from your Member Firm broker. He can also explain the advantages of owning bonds or preferred stocks.

5. Send for "INVESTMENT FACTS," a helpful guide for the new investor. It lists some 375 stocks that have paid dividends every three months for 20 years of more. It also explains how you can acquire stock through the convenient Monthly Investment Plan.

Before investing provide for regular expenses and emergencies. Then if you have some money you'd like to put to work, you owe it to yourself to consider owning your share of American business. Investing can help you meet rising family expenses.

First Shots Fired In Algerian Crisis; **DeGaulle Backed**

PARIS (UPI)-A French light eruiser was reported to have fired warning shots today to stop insurgent paratroopers from taking over the big Algerian naval base at Mes-el-Kebir.

Reports circulating in French government quarters said the paratroopers withdrew. There was one report that marines at the base helped repulse them.

There was no official confirmation of either of the reports and no indication how many troops were involved. If true, the incident would mark the first shots known to have been fired since four generals seized key areas of Algeria in a military revolt last

The report came after French troops and tanks started rumbling back into France from NATO command in Germany. They were recalled by President Charles de Gaulle to help cope with the Algerian rebellion and the threat to France Itself.

Priest Defends Castro Regime; **Asks Repentance**

MIAMI (UPI) - Havana television panelists spent nearly an hour early today interrogating a purported priest who said Fidel Castro's revolution "Fulfills the social dectrine of Jesus Christ."

The prisoner, who identified himself as Roman Catholic Father Segundo Las Heras Cabo, said on a radio-TV broadcast he parachuted into Cuba with last week's invaders only because American instructors deceived him. He said he was kept a virtual prisoner in an American-run training camp in .Guatemala. "I repent and beg the people

of Cuba to accept my repent-ance," he said, "All I ask is that they give me an opportunity to mend my ways." The prisoner appeared on the

third night of grilling of prisoners on the Cuba-wide radio TV net-

The pretense that the prisoners were being questioned by a press panel was virtually abandoned, and the program took on more and more of the atmosphere of a Communist "show trial."

Panelists pumped questions at cuting attorneys and even called "witnesses." They regularly embarked on long speeches extelling Castro and Russia and lambasting the United States.

The program, with the participants including a hysterical woman, a ranting man, and another man who threatened to stab a prisoner before the cameras, contributed to the eminous atmosphere in Cuba. Castro himself, in a speech

day punctuated by eries of "al paredon" to the wall, mocked leas for mercy for the 634 prisoners Havana claims to have Ecaptured in last week's invasion. Despite pleas made by five Latin American presidents, Havana Ra-dio has carried repeated hints of a coming bloodbath.

Law Day Coming

Law Day, a time for recognizing the part which law plays in protecting our basic freedoms will again be cele-brated May L.

Lawyers and judges are the traditional guardians of the safeguards provided by our laws. In keeping with this tradition is the following excerpt from the Canons of Professional Ethics adopted by the Supreme Court of Florida as governing the conduct of all members of The Florida Bar:

"It is the right of the lawyer to undertake the de-

Tense of a person accused of crime, regardless of his personal opinion as to the guilt of the accused; otherwise innocent persons, victims only of suspicious circumstances, might be denied proper defense. Having undertaken such defense, the lawyer is bound, by all fair and honorable means, to present every defense that the law of the land permits, to the end that no person may be de-prived of life or liberty, but by due process of law."

Local bar associations in Florida are among 1,400

groups in the legal profession throughout the United States planning local observances for Law Day. The Seminole County Bar Association is encouraging other organizations, schools and colleges to plan public programs, and has offered the assistance of its members in arranging for speakers, providing information and other materials.

DEAR ABBY: I am ten years old and my Daddy said that when I saved enough money I could buy anything I wanted with

All my life I have wanted a monkey. I have saved \$14. I asked my Daddy if I could buy a pet monkey and he said no, because I wouldn't know how to take care of it. My Mom is the fussy type. You know, everything has to be just so. Do vou know anyone who has had a pet monkey, and can give me some advice? WANTS A MONKEY

DEAR WANTS: I have had TWO pet monkeys (David and Bathsheba) and, although I love monkeys, your father is right. To quote my son the was 4 at the time), "Monkeys should live with monkeys, and people should live with people."

DEAR ABBY: I have been engaged to Roy for two years. I am 19 and he is 23. He already has everything bought for our home. Electric range, washer and dryer, refrigerator and TV.

Here is my problem. I am no longer sure of my love for him. I believe I have merely gotten used to him. I used to feel a light zingy feeling in my head when he would kiss me. Now I don't feel anything at all. When we are together I don't know what to talk about. He is hard-working. considerate and has no bad habits, so when I try to put my finger on what is missing in my feeling for him, I can't do it. We The Women:

By Abigail Van Buren

DEAR BRIDE: Your mother doesn't have to live with Roy-you do. If you feel that "something is missing," depend on it-something is. Don't marry any man unless you KNOW you want to spend the rest of your life with him.

DEAR ABBY: If you use my letter, please do not use my name. Put me down "BRAINLESS."

What can I do about a neighbor who asked me if she could use my telephone and, out of the kindness of my heart, I let her, and now I am stuck. She made 58 outside calls and my telephone bill was so high I couldn't pay it, so they came and disconnected my telephone, I am legally separated, have seven children, and I need my telephone, but I can't pay that bill. When this neighbor sees me, she hides. If I catch her, she says she is broke. She seems to have plenty of money for everything else. Can you help me?

BRAINLESS

DEAR BRAINLESS: You could take her to court, but that would cost money for legal fees. I am afraid you will have to chalk this one up to experience. But don't let her turn you sour on the human race. Most people have hearts.

Yes, Abby will answer your letter personally if you write to ABBY, Box 3865, Beverly Hills, Calif., and enclose a stamped. self-addressed envelope.

But if it prospers you can share in its profits through dividends-and share in any growth through the possible increase of both the size of your dividends and the value of your stock.

2. Most of America's 12½ million shareowners have modest incomes. More than half earn less than \$10,000 a year. Many get started for as little as \$40 every three months with a Monthly Investment Plan. In this way they can systematically build both income and investments to help take care of family needs.

3. It's easy to get help with your first investment, Call on a Member Firm of the New York Stock Exchange. Commission District Proposal Shifts Population

Preliminary sketches of a proposed new County Commission redistricting plan revealed today that Sanford would be rearranged in three districts and that Casselberry and Longwood would be split into two.

The plan also reveals that the five districts will be more evenly populated with District 1 having a total of 10,319 residents; District 2, 12,965; District 3, 9,- 694; District 4, 9,768 and District

the budget hearings in July. The proposed plan was soundly rapped by . City Manager W.E. Knowles today who called it "dirty polities."

Knowles said that the county commission appears to be gerrymandering so that the city will not be propertly represented on the board.
