# High school football player admits murder

By Russ White HERALD STAFF WRITER

SANFORD · Maurice Williams, a 17-year-old safety on the Winter Springs High School football team, stepped into the wild side late Saturday night and his life will not be the same again.

Instead of defending against Lake Brantley in the big game tonight at Winter Springs, Williams is being held at the Juvenile Assessment Center in Sanford on murder charges.

Never in trouble, never a problem, Williams has admitted that he shot a man to death Saturday. He was arrested at the high school Thursday.

"This is a pretty good kid," Sanford Police Investigator Ron Daugherty said Thursday. "His record was clean - totally clean - until he had to go show off to the crowd on Saturday night."

Williams is in custody, having confessed that he killed Paul Kafka at the corner of Sterling Avenue and McKay Boulevard in the Washington Oaks area. Daugherty said that Kafka, 23, and two acquaintances may have driven to the area to look for drugs - but this is denied by a cousin of the shooting victim.

"This person (Williams) put a gun through the window and shot Paul - and then ran off. It may have been an attempt at carjacking and robbery. He told Paul, 'Give me what you've got,' "said the relative who lives in Sanford but asked to remain anonymous. "He shot Paul when he didn't comply."

Williams told police that the gun went off when Kafka tried to push on the gas peddle.

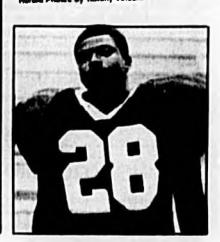

Assistant Principal W. Gene Orace said today that the teachers and students at Winter Springs High School are baffled at what has happened to one of the most popular students at the school. "Maurice has been an ideal citizen," Grace said. "He's a very talented football player and a star on our track team."

Grace said that he and Williams talked on Monday about last Friday night's varsily football game. "Maurice knocked down three passes, if he held on, he would have three interceptions. I kidded him that when opportunity knocks, you have to take advantage of it."

## District to adopt budget for water protection, management

From Staff Reports

PALATKA--The St. Johns River Water Management District's Governing Board on Wednesday will decide whether to increase its property tax levy at the final public meeting on its budget for the 1998-99 fiscal year.

The budge' that district staff members will present includes a property tax levy of \$62,658,122. Last year's property tax levy was \$59,428,963. The miliage rate of 0.482 milis is the same rate that has been in place since 1994.

At the board's direction, district staff members have reworked the budget to allow for the 0.482 miliage to be maintained, while also ensuring that adequate funds will be available from property taxes and other sources to support

land acquisition and management initiatives, and projects such as: the Orange Creek Basin in Alachua County; Northern Coastal Basin in Flagler, St. Johns and Volusia counties; Lake Apopka in Orange and Lake counties; and the Indian River Lagoon in Volusia, Brevard and Indian River counties.

Since the July budget meet-

ing, staff members have reallocated funds, modified existing project budgets, received notification of additional federal funds to be received and identified additional dollars to be carried over from the current fiscal year to the new fiscal

year that begins October 1.

Under a 0.482 miliage rate-48.2 cents for every \$1,000 of assessed property value-the owner of a \$75,000 house who

claims the standard \$25,000 homestead exemption would pay \$24.10 per year in property tax for water management. Under the 0.5 millage rate, the same homeowner would pay \$25.

The final budget hearing will be held at the district's head-quarters in Palatka. Wednesday's hearing will begin at 5:05 p.m. The public is invited to attend.

The district is responsible for protecting wetlands, waterways and underground drinking water supplies, and regulating water use in all or part of the following counties: Alachua, Baker, Bradford, Brevard, Clay, Duval, Flagler, Indian River, Lake, Marion, Nassau, Okeechobee, Orange, Oaccola, Polk, Putnam, St. Johns, Seminole and Volusia.

## Sudden burst of rain diverts traffic

By Maria Orem HERALD STAFF WRITER

SANFORD - City crews barricaded several roads Thursday when a sudden burst of rain caused up to two inches of standing water and minor flooding in several parts of town:

Any time there is a large amount of rain in such a short period, there is bound to be slow draining water in the first few hours, said Charles Hargrove, support services coordinator for the Sanford Department of Public Works.

We got a lot of rain in a short time."

Hargrove said. "A lot of the flooding is because of the fast rain. That's nothing out of the ordinary for Florida."

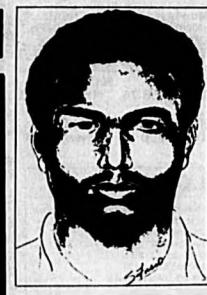

Hargrove said his office received about a dozen calls from residents, however no major incidents were reported. Sanford Police officers helped direct traffic from roads that had been temporarily closed off, he said.

The storm maintenance crew was sent out to make sure that water basins are clear. They also check the drainage grates to make sure leaves or other objects are not blocking the path of the water, Hargrove said.

The basins catch the water allowing it to go to the storm lines. Crews always check the grates after a heavy rain, he said.

The roads most affected were: First Street and Park Avenue, Second Street and Sanford Avenue, the 400 block of West 12th Street, 900 block of West 11th Street, Country Club Road and Lake Mary Boulevard, 20th and Oak Avenue, Hidden Lake Drive and Lake Mary Boulevard.

The city currently has several projects under way to improve drainage. The Second Street Project, which is scheduled for Please See Eals, Page SA

### SCHOOL NOTES

### Goings-on at Sanford Middle

By Carter Gilmartin HERALD CORRESPONDENTS

Sanford Middle School is bustling with math science and technology projects as one would expect at a math. science and technology magnet. But PTSA, school dances and campus clubs are going strong as always.

Each faculty team planned interdisciplinary projects for the magnet curriculum Teachers on Team Milky Way combined math social studies, science language arts with a recent archaeological field exercise. Students researched the function of hats through the ages in social studies. In language arts, they wrote about what they had learned. In science, they discussed what palcontologists and archaeologists could find. Students were hats they had made themselves while digging for fossils in science

PTSA will hold catalogue sales as a fund raiser starting Monday. and will host a dance in October. Admission to the dance will be a PISA membership card. Door prizes at the dance will include a boombox, according to PTSA President Sally Moore

Moore is also recruiting volunteers for a Math Superstars program to start in October. Interested persons can call her at home: 322-1504.

Staff member Elaine Lowery will coach a girls basketball team starting in October. This will be for SMS students only. Lowery played basketball at Lake Mary High School when SMS Principal Bill Moore was the girls' basketball coach there.

Media Specialist Shirley Muse reports the new media center is open. "We have been buying heavily in the seience and math areas for the past couple of years in support of our new curriculum. Everything is new and sparkling for the new school year. We know that parents and students alike will enjoy the improvements that have been made to our facility.

The annual Scholastic Book Fair will be Nov. 9 through 16. Jumor BETA Club sponsor Marcia Borden conducted the first meeting of the year this past week. Officers will be elected at the next meeting. Students are already planning for the statewide Junior BETA convention in Orlando in November.

Hill (Healthfully Involved Peers) meets Wednesday afternoons in Chris Gollman's room. She and School Resource Officer Jimmy L. Betts both work with these students.

New to SMS this year is HOSTS (Help One Student To Succeed). It is a school based mentor/tutorial program using volunteers. This 7-year-old national organization is not in place at any other middle school in Florida, according to Dolly McCrumb program coordinator. Adults interested in volunteering can call her at

## Irene Lommerse a true friend for All Souls

For more than a quarter of a century. Irene Lommerse has been beautifying All Souls Catholic Church with her presence and with floral arrangements from Dutch Mill Nursery.

Now, Lommerse has gone a step huther.

She bought a property at 301 7th Street in Sanford that was refurbished this year and is now the All Souls office build ing It was dedicated Saturday in her name and the memory of her late husband, John Lommerse. The building was purchased for \$127,000 and underwent \$60,000 of improvements.

We're thrilled about this contribution to All Souls," said the Rev. John Trout, pastor for the congregation of 1,600. Space had become a problem for the church's elementary school. The school has moved into what was the old church offices -adjacent to the classroom building.

Father Trout said the next acquisition and move he hopes All Souls can make is to buy the current Sanford Police Department building on French Avenue. The city is considering going to the Orlando-Sanford Airport area facility being vacated by the Seminole County Sheriff's Office.

"If we can come to a fair purchase price - fair for them - we will build a new church on that property," Trout said.

It was the night after the football game that Williams and perhaps some others from the school were in the Wash-Ington Oaks area of Sanford where Paul Kafka was shot and Williams lived. There is this code of honor that no one rats on a friend but I suspect some of Maurice's friends knew he was in trouble," Grace said.

Although Williams had no office referrals this school year the was tardy once and missed Saturday class a year ago), at least one of his teachers was concerned that something was wrong and told Grace earlier this week. History teacher Octavious (Ocky) Clark said that Williams didn't seem to be himself.

We all believe that Maurice had a great future," Orace said, "I was pleased that he came to us from Sanford Instead of going to Seminole High School. We had ourselves a very fine kid. Now, his life could be totally ruined. He should be playing football tonight against Lake Brantley. But he's far away from that ."

Maurice Williams - handcuffed - was quietly escorted out of the Sanford Police Station at 2:20 Thursday afternoon by Daugherty. Williams had his head down and said nothing. He wore a windowpane plaid shirt, cords and a new pair of athletic shoes. He's a lean but sturdy 5-foot-10, 150-pounder.

A week ago, the youngster's record included pass interceptions, tackles, sacks and blocked kicks. Today it included a charge of murder and use of a ffrearm in the commission of a felony. Williams goes to arraignment in two weeks. His clean record will help, perhaps. He probably will be sentenced for second degree murder, one law enforcement official said.

The victim's family gathered from many areas to bury him on Wednesday at Evergreen Cemetery.

Followed was discussion on the benefits of Volusia County getting into light rail.

in a survey of Volusta County residents, 71 percent of the respondents said that they would support light rail. This correlates to some 1,200 households surveyed by Lynx which covers Orange, Seminole and Osceola Counties earlier. The results were that 81 percent of the people said that light rail would help Central Florida.

## Dealing with emotions of preteens

Dear Mary,

Our daughter just turned 11 and started the fifth grade this year She's showing every symptom of going into puberty. She's moody and often irritable, but what really has us concerned is that she complains of being sick -- stomach aches, headaches - several times a week and seems to want to stay home from school nearly every Monday. We take her temperature and do all the other "home remedy" kinds of things, but she never has a fever and she seems to feel find on the weekends, and has even been known to experience a miraculous recovery if one of her friends calls and wants her to do something on a day when she has been complaining of not feeling well. If I point out to her what I've noticed about

her not feeling well, she gets really upset, cries and says I don't believe her. Please help me determine what is normal for preadolescent girls and how to tell the difference between a legitimate problem and her imagination.

Concerned and Confused

Concerned and Confused,

I'm no doctor, but it sounds like you have joined the legions of concerned and confused parents trying to smooth out the roller coaster ride of preadolescence. Of course, you must first rule out a physical cause for her complaints. Take her to her physician and you may want to take your letter with you, since you've done such a good job of sleuthing her symptoms. If, as we both suspect, no physical cause for her complaints are found, it's time for a mother-daughter conversation about what's happening to her and how her bodily changes affect her

Next, you must deal with her "Monday morning flu" symptoms. Rather than suggest that

moods and emotions.

she may be faking her symptoms, suggest that while she may very well not be feeling well, it may not be from physical causes. Insist firmly but gently that she goes to school, even if she doesn't feel well funless, of course, she has a fever or some other physical ailment). Then have a discussion with her about things that might be bothering her such as kids teasing her, bullying her, or fear of fathure in her schoolwork. Be supportive and let her know you want to help her deal with whatever is bothering her. but it will be done while she is maintaining her school responsibilities.

## Manage those pesky pests with these principles

The best way for homeowners to approach interior pest control, may be to use fewer chemicals (Integrated Pest Management (IPM). IPM is a series of principles to prevent. suppress or manage pests without damage to our health. environment or non-targeted animals. Chemical pesticides are applied only as a last resort, when and where necessary, using the least toxic ones available to do the Job.

There are 3 basic IPM steps-Prevention, Identification, and Control. Of these, prevention is the step most overlooked.

1. Preventative steps target pests as they enter a home in search of either food, water or shelter (or all three). Denying them these will prevent them from taking up residence. One of the best methods of prevention is sanitation when it comes to food:

\* Keep indoor areas free of exposed foods Wips\_down counters with

disinfectants labeled for kitchen use going to bed each Mop kitchen floors

(especially around sink(s) frequently to remove crumbs that might be there. \* Wipe up spills immediately

and completely. Keep powdered foods,

grains, and cereals in storage containers with tight lids. If this is too costly, leave the food in the original container—tightly after each use.

\* Change shelf paper regu-

\* Remove uneaten pet food, then wash the bowl immediately. Never allow uncleaned food bowls to stay overnight.

 During the preparation of meals, have a small disposal bag for food scraps that can be scaled and placed in the kitchen garbage at the end of the day. Reuse plastic grocery bags or old bread wrappers. Solled paper should also be placed in a sealed plastic bag. Rinse beverage and food cans before recycling.

\* When not in use, keep the garbage disposal covered with a rubber sink cover to deny pests access to food residues.

 Line kitchen garbage cans and outside cans lif stored in the garage) and disinfect them

2. Denying shelter to pests means denying entry to the home. This is the second thing to reducing pests.

Caulk cracks and crevices which allow pests inside entry. Keep garage doors closed during the evening hours as

much as possible during daylight hours. Make sure pet doors close securely. Consider the types with magnets which close more

 Make sure weatherstripping beneath entry doors is replaced when needed.

 Check window screens and frames to insure a tight fit.

 Trim bushes back so they do not touch the side of the house and keep limbs from overhanging on the roof. Many pests reach the roof (where they have easier access to the home) by dropping from overhead branches. Cover vent pipes on roof and other entries with screen caps.

3. Finally, the third basic IPM prevention approach to home pest control is to reduce moisture. Keep cets/plumbing repaired, gutters cleaned and working, and a good roof over your home to discourage pests from moving into your home. Also check your soffit vents to be sure they do not allow entry.

## You're no sports fan if you miss...

By Jeff Berlinicke ASSISTANT SPORTS EDITOR Kellie Werner HERALD STAFF WRITER

#### Game of the Week Tonight: Lake Howell at Seminole, 7:30 p.m.

SANFORD - This is going to be a big one. Seminole is entering its first home and intraconference game after a huge win last week against Pine Ridge, 48-7. The 'Noles are now 2-0 and getting stronger every week.

Lake Howell (1-1) is also coming to the Sanford high school after a big win, taking down Oyledo 24-10. Though the Silver Hawks were picked by some to be a pre-season favorite, they will definitely have their hands full tonight.

Both teams are pretty evenly matched. Both rely heavily on an experienced and/or talented back field to move the ball but both also have talented quarterbacks who can throw the ball when needed. Lake Howell and Seminole have young receivers, however, so count on this one to go fast as a running game burns the clock.

If Seminole can stop Silver Hawk running back Christian DeJesus, it will be able to pretty much shut down Lake Howell's offense. Lake Howell, on the other hand will have to contain the tandem of Deon Howard. Clarence Lattimer and Mario Frederick.

in all, this should be a slugfest.

#### Tonight: Pine Ridge at Lake Mary, 7:30 p.m.

LAKE MARY - The Rams were brought back to Earth last week, losing to Lyman just a week after recording their first win in nearly two years.

Pine Ridge was rocked last week by Seminole, 48-7 and also struggled last season.

The Rams got two straight strong p formances from tailback Lawrence Rudolph, but the offense is still struggling. It hasn't clicked and benefited from special teams play in the first week. The defense has been strong, but may have to completely shut down the opposing offense to get a win. The game is a non-conference game, but could still give Lake Mary a 2-1 start.

#### Tonight: Oviedo at Winter Park, 7:30 p.m.

WINTER PARK \_ It's early, but this is a must-win for Oviedo, the only team in Seminole County without a win.

The Lions lost their second straight last week, 24-10 to arch-rival Lake Howell. The Lions moved the ball all night but weren't able to score when they got close. Three times in the second half, the Lions advanced inside the Lake Howell 30 but came away empty.

Turnovers have also crushed Oviedo this scason.

Kenny Starling is still at the helm for the Lions at quarterback and Kevin Quintero has handled much of the rushing load.

On defense, the Lions might be as strong as any unit in the county.

#### Tonight: Lake Brantley at Winter Springs, 7:30 p.m.

WINTER SPRINGS Tonight marks the Bears' first chance to host a county opponent at home. Unfortunately, they have to take on what might be the county's hottest

Lake Brantley won its biggest game in years last week, knocking off eighth-ranked Deland on the road. The Patriots didn't play extremely well; they just made the plays when they needed to.

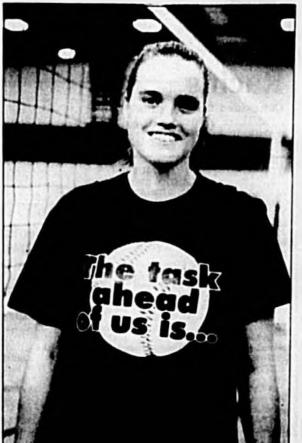

Regan Russell has adapted to the tripleoption offense and he has a stable of running backs to carry the load.

The Lake Brantley defense has been just as tough, keeping Lake Brantley in the game last week until the offense stopped making mistakes.

Winter Springs came crashing back to reality last week in a 9-0 loss to Berkeley. The Bears routed Bayside 54-0 in their first-ever varsity game and Johnnie Blake ran wild for five touchdowns. Brandon Blake is a topnotch quarterback that people are already comparing to former Seminole standout Jeff Blake, his brother.

Kelly Harbour was a main weapon for Lake Mary as it bounced Oviedo from the ranks of the unbeaten in SAC and 6A-District 3 girls volleyball action Thursday night.

## Lake Mary humbles undefeated Oviedo in SAC girls volleyball

By Kellie Werner HERALD STAFF WRITER

LAKE MARY \_ They came out with confidence. And it paid off.

Last night. Lake Mary's girls' volleyball team put a harsh end to Oviedo's undefeated season. beating the Lions in straight sets, 15-8, 15-1. "We came out comfortable and didn't panic if

they made points," Lake Mary coach Cindy Henry said. "We felt like we were in control the entire evening and played really well."

In fact, Lake Mary was in such control that Henry stated she couldn't ever remembering not having to call a time out against an Oviedo team, which has been the power of the district and SAC for years and the Rams' main nemesis.

Each player stepped up in last night's game, lead by setter Jackie Van Looven, strong hitter Lindsay Manz and powerhouse Kelly Harbour. Good serving coupled with good passing shots made the much anticipated match up with the Lions go even smoother than expected.

We had a complete team effort tonight, even though that sounds like a cliche," Henry said. When we made errors, we fixed them. We dug hits and passed well. The stats were so spread out tonight that they really, aren't worth mentioning. Some nights you feel like 'who stood up? Tonight it was who didn't.

Oviedo must have been having an off night. The Lions are a very good team that is very well coached and is always strong. Or maybe lake Mary is just that good.

That will be put to the test Tuesday, when Lake Mary travels to Winter Springs to take on the other undefeated Seminole Athletic Conference team. That game starts at 7 p.m.

Oviedo gets an immediate chance to avenge

MONTVERDE \_ Hiawassee Christian Academy defeated Montverde Academy in a Mid-Florida Christian Conference girls volleyball match. 17-15, 10-15, 15-8, Thursday night.

In the win, Hiawassee's Couriney Tatum had 10 kills and scored six service points, Sheri Faynick scored 12 service points, including six aces, and Jacinta Mathis added 10 service points and 20 assists.

Hlawassee coach Dave Hogan was pleased that his team won, brining their record to 5-6, but felt that they could have performed better against a Montverde team that was playing in their first game of the season. Too many missed service points pushed Hiawassee to a third game in a match Hogan felt his team should have won in two.

Still, Hogan said, "I was happy to win." Hiawascee will next meet Heartland Prep at home on Friday.

## Lyman girls on a streak

By Jeff Berlinicke ASSISTANT SPORTS EDITOR

CASSELBERRY \_ Just two weeks ago, the Lyman girls' volleyball team took the floor against powerful Lake Mary. It was never close.

New coach Dong Wohlstein had just moved over to Lyman after seven years as junior varsity coach at Lake Brantley and knew he had some work on his hands. His new team won just two games last season and a pounding in the season opener did little for morale. "I think after the first match,

they wondered it they could be a good team," Wohlstein said. "But now they believe they can win."

The Greyhounds have to believe now. They won their second straight match last night, downing Lake Howell in an intense match, 14-16, 15-13, 15-13.

Sanford's Silver Hawks held 9-1 lead in the third and deciding game before letting it slip away.

They played so hard to-night, Sanford said as her record fell to 0-5. We are starting to work well together and the play tonight showed it. "I can't complain."

The final score of the game came on Seminole's next possession with a 32-yard dash by Lively. Andre Green ran in the two point conversion, and Seminole ended the game 28-0.

The Patriots got solid efforts from Ramsaur and running back Chris Evenson, but the Fighting Seminoles defense, led by Calvin Thompkins and Donnell Peterson, befuddled Lake Brantley all night.

Lively, who finished the evening with three touchdowns and a whopping 197 yards rushing, was the star of the game. After the game, Lively re-

The Hawks raced out to a 3-0 lead in the second game, but Vannya Gutterrez served seven straight points to put Lyman ahead. Lake Howell tied it at 7, but

first game.

Lyman ran off four straight on a run that included three aces from Brandl Acey. The Greyhounds led 14-10. but Lake Howell wouldn't give up until a carry call gave Ly-

man the second game to even

the match. Lyman couldn't have staved in the match without Rosheena Davis's domination at the net. She blocked and slammed

away at Lake Howell all night. "All I can say is number 10 (Davis) was awesome," Wohlstein sald.

Especially in game 3. Lake Howell raced out leads of 4-1 and 9-1 before Lyman closed the gap. Shannon Robinson served three straight points. The teams traded back and forth and, down 13-6, Lyman ran out the game as Davis ruled the net.

With Lyman ahead, 14-13, Tanya Simpson slammed home. a winner to give Lyman the match and its first conference and district win. The Greyhounds will return

home for a pair of nonconference matches on Monday against Bishop Moore (5 p.m.) and Tuesday against Class 6A-District 3 foe DeLand [7 p.m.]. The Silver Hawks will be in

action against today, traveling

down the road to take on Trin-

ity Prep at 6 p.m.

#### New Salem to celebrate anniversary this weekend

By Marva Hawkins HERALD CORRESPONDENT

SANFORD - The congregation of New Sa-lem Primitive Baptist Church of Jenus Christ, Inc. is observing its 128th anniversary this weekend.

The church was founded in 1870. The land for the building was donated by Gen. John II. Sanford for which this city was named. Gen. and Mrs. Sanford donated a bell to the church. New Salem's first site was on Eighth Street and Palmetto Avenue. The wooden structure had lanterns for light. The services lasted until late evening hours with everyone making a joyful noise unto the Lord.

Members went to service by horse and buggy or mule and wagon. After years of complains from whites about the noise, the church burned, the members gathered for worship service at each others homes.

The church was called "the feet washing church" or the Holy Ghost Headquarters. Rebuilding the church at Eleventh Street

and Locust Avenue, the name was changed to Mount Mariah Primitive Baptist Church. The bell donated by Sanford remains in the church yard.

After many years the New Salem Primitive Baptist Church was rebuilt on Twelfth Street and Cedar Avenue. The original warriors of the foundation have been laid to rest. These ministers have pastored the church and led the yearly success of the congregation throughout the years.

Pastors are: the Rev. Simeon Austin Rev. P.H. Frison, Minister Bertis Herring, the Rev. O.W. Williams, Elder Eli Simpson and the Elder Warren K. Little serve as pas-

in observance service will be held Friday, and Saturday at 6 p.m. at Rivers of Life Church, Orlando with Pastor Jackson. On Sunday, 8 a.m. the Macedonia Primitive Baptist Church, Elder Imporate, Pastor, 11 a.m. New Mt. Calvary M.B. Church associate minister Jack Jackson, 3:30 p.m. Clearwater Missionary Baptist Church, Pastor Matthew Jackson will close out the 128th anniversary celebration.

## Nativity prepares for the new millennium

By Dee Brophy SPECIAL TO THE HERALD

LONGWOOD . It has been said that there is no such thing as a coincidence, and in the case of Renew 2000 at Nativity Catholic Church, the original core group was made up of twelve individuals. Hmmmm. Rather brings to mind the disciples, doesn't it? Just as the disciples were joyfully facing what looked like rather insurmountable obstacles at the time, the core Renew group at Nativity is looking forward to the year 2000 with faith and hope rather than the dread which seems to permeate our secular society.

The very word "Catholic" means universal, and this is the beautiful message which Renew 2000 carries to each and every one of us not only at Nativity, and not only within the Catholic Church, but to all those who believe in the healing power of our risen Lord. We can once again return to the very roots which fed our faith and openly share the joy and faith with one another which has sustained us as a people for 2,000 years.

Just as the beauty of a tree is admired for what is seen above the ground, it is the roots which first grow and support the tree. The core Renew group has been operating beneath the surface waiting to support the new life which is set to burst forth.

The sharing within our faith community begins in Sept. 20 through 27, with a Parish Renew Mission slated for 7 to 8:30 p.m. nightly. The entire Renew 2000 process takes place over a three-year period, encompassing five seasons, each consisting of six weeks. It is not so much a particular event, but is a journey during which we are invited to participate. During this time, adults can more deeply share their faith with one another. Oroup sessions will also be available for our youth to fully participate in this renewal and growth

So you may be asking yourself, "What's in it for me? If this is a touchy-feeley type of experience or a Bible study, that's I'm outta here."

Well, it is neither, or could be both, actually, as it is a different experience for each individual. In this spiritually starved world Renew offers a chance to deepen faith in a relaxed. more personalized, informal, small group setting in people's homes. It's neither radical nor threatening. Perhaps one might view it as a gathering similar to that of the early Christians. Our spirituality grows and is strength-ened by participation in Mass and in different activities in the parish. This is an additional way of sharing faith.

Thad Seymour, one of the co-leaders of the Renew core group is involved with Renew for the second time. Fifteen years ago, he and his wife were involved in Renew in Chicago and to this day, even though many of the people with whom they were involved in the Renew proccas there have gone their various ways, a sense of friendship and family with these people still exists.

Lucy Paskoski is the other co-leader of the Renew group and she, too, is a second timer in the Renew process. She was involved in the Renew group back in the early 1980s here at Nativity, when the parish was still quite small. The group was so enthused by the process that they continued to meet for several years after the initial meeting cycle, exhausting the then available resources. When asked to participate once again, Paskoski enthusiastically threw herself into the project.

When asked how to explain. What's in it for me?" about Renew, Seymour simply smiles and says, "Come and see." There is a sense of peace and tranquillity and genuine Christian love in him that seems to transcend the secular values with which we are surrounded. It's something that certainly seems to warrant further investigation.

Renew 2000 celebrates the coming of the new millennium and prepares us to face the challenges of the 21st Century. Christians are told to "be not afraid," and Renew provides a vehicle for them to experience the richness and the beautiful heritage present in our Catholic faith.
