## JAPS RENEW AIR ATTACK ON CHINESE

### China Reported Con- centrating Large Army Upon Borders; Leaders Are Eager

By The Associated Press  
Renewed Japanese air  
bombings of Chinese military  
concentrations in the Kailu  
district in Northeast Jehol  
province and cavalry activities  
in Southeast Jehol were  
reported today from the Bin-  
Japanese fronts.

Meanwhile Chinese armies  
massed in Jehol and on the  
borders were reliably estimated  
at between 150 and 200 thousand.  
With indications that a major  
Japanese movement into Jehol  
will begin soon Chinese commanders  
seemed eager to fight. Foreign  
opinion was that the Japanese  
could disorganize the Chinese  
by occupying Tientsin but it  
is believed they will not risk  
arousing international feeling by  
pressing so far south of the  
Great Wall.

SHANGHAI, Jan. 22.—(AP)—Re-  
ports from far-flung areas of  
China indicate the nation is as-  
sembling a vast but loosely-  
bound machine in Jehol and north  
Chihli provinces, where the Chi-  
nese and Japanese are rubbing  
elbows following the occupation  
early in the month by the Japa-  
nese of Shanhaikwan.

From as far away as Kalgan  
(Changshakow) on the Mongolian  
frontier, China's northern legions  
were reported moving eastward  
into Jehol provinces, while ad-  
ditional thousands were taking up  
positions north of the Great Wall  
along the Tientsin-Shanhaikwan  
railway.

All of these forces presumably  
were moving preparatory to the  
anticipated Japanese thrust toward  
Jehol and also possibly into Tien-  
jin and Peking.

In addition central China forces  
allegedly were pouring northward  
into the "war area." Reports were  
that the national government was  
sending forces from Honan,  
South Chihli and Shantung pro-  
vinces, believed to number a quarter  
of a million, in the sector.

Although lacking verification, it  
was stated in reportedly informed  
quarters that the disposition of  
the Chinese forces in Jehol and  
north Chihli lies in eastern Jehol,  
50,000 troops of Chang Yu-lin,  
Jehol governor, and in central and  
western Jehol, 50,000 from Kalgan.  
South of the Great Wall, 10,000  
troops face Shanhaikwan from  
the southeast, while further to-  
ward Tientsin along the railway,  
25,000 are stationed between Chin-  
wangtao and Changli. Fifty thou-  
sand are on duty between Chengli  
and Luanchow, while 30,444 are  
engaged between Tientsin and  
the Luan river.

An additional 50,000 is re-  
ported to be in the vicinity of  
Tientsin, all supposedly under the  
command of Chiang Hsiang-Liang, war  
lord whom the Japanese admitted  
to seek to eliminate from North  
China affairs.

These forces were reported to  
consist primarily of poorly  
equipped infantry, with a small  
number of machine guns, ar-  
tillery and cavalry in support.

What the future will bring re-  
mains a mystery, but the pre-  
dominant opinion is that the Jap-  
anese will proceed to Tientsin.

in jail when he was brought be-

## 20th Amendment Is Law Of United States

WASHINGTON, Jan. 23.—(AP)—The Twentieth Amendment,  
eliminating defeated legisla-  
tors from participation in the  
government hereafter and hasten-  
ing the inauguration of the pre-  
sident and the meeting of the  
new Congress, today became part  
of the Constitution of the United  
States. Submitted to states by Congress  
last March it was ratified today  
by Missouri which was the 36th  
and last needed state to ap-  
prove this modernization of  
federal machinery. The amend-  
ment will become operative  
next Oct. 31. After that each  
regular session of Congress  
will begin Jan. 3 every year  
with no fixed time for adjourn-  
ment and each new president  
will be inaugurated Jan. 20.

## LABOR STATUS IN NATION SHOWING LITTLE CHANGE

### Automotive Industry Has Provided Some Increase In Jobs

WASHINGTON, Jan. 23.—(AP)—  
Little fluctuations in labor con-  
ditions were reported to the  
Bureau of Labor Statistics during  
the month of December.

The monthly report released  
yesterday by the federal employ-  
ment service said there were some  
exceptions, the automobile in-  
dustry stepping up production.

"Conditions prevailing through-  
out the country generally showed  
little fluctuation compared with  
the previous month, of either an  
upward or downward tendency,"  
the report said, adding:

"There were exceptions, how-  
ever, in several of the major in-  
dustries. Production schedules  
were stepped up in quite a number  
of the automobile factories, which  
resulted in a considerable increase  
in the forces engaged in these  
plants. This improvement was  
reflected to a somewhat lesser  
degree in some of the establish-  
ments manufacturing automobile  
accessories and in rubber tire  
plants in a few localities.

"While the expansion of op-  
erations in the automobile in-  
dustry resulted in increased demand  
for certain steel products, the  
iron and steel industry as a whole  
remained on a greatly curtailed  
basis.

"Activities in certain textile  
mills, more particularly in the  
woolen, hosiery and worsted and  
wool'en concerns, showed some ex-  
pansion in several states, but  
many of the establishments man-  
ufacturing textile goods worked  
part time.

"While fairly satisfactory sched-  
ules continued in the boot and  
shoe factories in many instances,  
some curtailment of activities was  
noted in quite a number of these  
plants.

"Coal mining in certain situa-  
tions and anthracite fields in-  
creased somewhat; however, short-  
week working schedules predom-  
inated in the mining areas and con-  
siderable idleness was apparent.

## Large U. S. Cities Have Big Budgets, Although Reduced

NEW YORK, Jan. 23.—(AP)—A  
billion dollar municipal govern-  
ment overhead will face Ameri-  
ca's 10 largest cities this year.

These cities, with an aggregate  
population of 19,107,490 in the  
last census, have 1933 budgets  
providing for expenditures of ap-  
proximately \$1,779,108,592 on  
their municipal establishments.

For those states which are  
like to stand grainbacks on end,  
this means every man, woman and  
child of these urban dwellers  
would contribute about \$57 in 1933,  
or \$11.30 a week, if the rate were  
to be spread evenly. Last year  
the bill was considerably higher,  
reaching a total of \$1,329,417,993.  
New York will spend about as  
much as other the ones combined,  
The New York budget, the city  
fathers have promised as a whole  
only \$68,500,000, after safety cuts  
and other economies have been  
subtracted from the tentative fig-  
ure of \$88,000,000.

Los Angeles, on the basis of the  
Associated Press survey, is the  
most expensive city in the na-  
tion, municipally speaking—its  
citizens pay only \$36.45 a head.

## BORAH SCORES HOOVER'S PLAN FOR SALES TAX

### Avers Budget Cannot Be Balanced Until Currency Question Receives Attention

WASHINGTON, Jan. 23.—(AP)—  
Once more slashing into the pol-  
itics of the man he helped put in  
the White House, Senator Borah  
yesterday assailed President Hoo-  
ver's advocacy of the sales tax as  
"a cruel proposal" and said the  
budget could be balanced  
except on paper "until we settle the  
currency question."

"It is going to be difficult—and I  
believe impossible—to balance  
the budget, certainly to keep it  
balanced," the Idahoan asserted  
"until you balance the budget of  
the taxpayers.

"Is there any way to bring  
about the latter until you devise  
a plan for increasing the price of  
commodities? Is there any way to  
do that except through inflation  
through adjustment of the money  
problem?"

"The question of balancing the  
budget is again being urged,"  
Borah said. "I venture the opinion  
that the budget will not, and can  
not, be balanced except on paper,  
and that, briefly, either now or  
under the incoming administration,  
until we settle the currency  
question. It cannot be done any  
more than you can build a house  
upon a reeling scaffold.

"With commodity prices near  
the bottom and still slowly falling,  
with the purchasing power of the  
dime near the minimum and still  
diminishing, with taxes increasing  
in amount but diminishing in re-  
turn, with the value of the dol-  
lar depreciating and mortgaging,  
and taxes responding accordingly.

## Pensacola Seeking To Win Contest By Curbing Accidents

PENSACOLA, Jan. 23.—A  
strenuous local campaign to con-  
trol traffic accidents in 1933 was  
assured Friday when Chief of  
Police Albert Anderson announced  
that Pensacola would compete with  
several hundred other American  
cities in the national traffic safety  
contest. Word that Pensacola's  
application for enrollment had  
been approved was received from  
the national safety council Friday  
morning.

Pensacola is officially in this  
contest to win the title of "Ameri-  
ca's Safest City," according to  
City Manager George J. Roark,  
who signed the application. He  
has designated Chief Anderson  
to handle all local details.

At least 400 cities are in the race  
which began Jan. 1, and there is  
a strong possibility that the final  
enrollment may go as high as  
600 municipalities. These are be-  
ing divided into seven population  
groups, and Pensacola has been  
placed in Group 5, cities having  
25,000 to 50,000. A trophy will be  
awarded the winner in each divi-  
sion.

## Three Die, Many Hurt In Riots In Germany

BERLIN, Jan. 23.—(AP)—Three  
persons died today and nearly 40  
others are recovering from in-  
juries after clashes between na-  
tional socialists and political op-  
ponents. Disorders occurred here  
and at Cologne and Leipzig.

DUBLIN, Jan. 23.—(AP)—More  
than 100 Irishmen were nursing  
cracked heads and other injuries  
suffered in lively political riots as  
Devalera and Cosgrave parties  
mustered forces for Sunday's fi-  
nal biggest campaign rallies. The  
Fris State tomorrow elects the  
new Dail Eanna.

## Far West Hit Again By Blizzard Blasts

SAN FRANCISCO, Jan. 23.—  
—(AP)—Winter whipped the  
Far West with new fury today  
as the toll of last week's bliz-  
zard's mounted to three dead  
and three missing. Searchers  
found the bodies of three men  
after they were frozen to  
death. The body of Charles  
Smith, 52 prospector was re-  
covered from the ruins of his  
snow-cumulated cabin in the  
Sierra Madre mountains. Rescu-  
ees were led to the cabin by  
Henry Mercer, Smith's partner  
who had in his underwear when  
he heard the avalanche coming  
down the mountain. James Ser-  
rell and Kent Wood, Texas  
miners, were found frozen to  
death on the Nevada desert.

## BEER BILL IS STEP NEARER ITS ADOPTION

### Senate Judiciary Com- mittee Puts Its Ap- proval On Measure For 3.05 Per Cent

WASHINGTON, Jan. 23.—(AP)—  
The Caffery beer bill to legalize  
3.05 percent beer and wine was  
approved today by the Senate  
Judiciary committee after an at-  
tempt to limit the alcoholic con-  
tent of the beverage was rejected.

The committee adopted an  
amendment to prohibit the sale of  
4.05 percent beverages to chil-  
dren. The Volstead Law modifica-  
tion proposal now rests in the Sen-  
ate but normally will be referred  
to the finance committee for con-  
sideration of its provision taxing  
a tax of five dollars a barrel.

"A new array of transportation  
measures across the country was de-  
scribed before the Senate commit-  
tee by Geo. Albert, chief of the  
Children's Bureau as a growing re-  
lated problem. She said the exact  
number of the needy transients  
was hard to determine.

The search for ways to economic  
betterment progressed on both  
sides of the aisle with Senate  
contemplating studies to aid the  
new administration and the House  
ways and means committee in  
getting suggestions from Senate  
Finance Bill, which will economic  
hamstringing should begin with a  
balanced budget and include vig-  
orous measures to conserve public  
finances. The Finance Bill will  
ward raising credit and leading  
American industry, to stabilizing  
of foreign exchange.

A possibly far-reaching new ele-  
ment was introduced into the con-  
gressional farm relief drama yes-  
terday as Senator Brookhart of  
Indiana declared in favor of a "war-  
emergency" plan which he said  
William G. McAduff, California's  
governor, was considering.

The Independent Union Republi-  
cans said he had given up hopes of  
adequate farm relief legislation  
during the Hoover administration.  
He declared the McAduff plan  
as calling for agricultural produc-  
tion by federal law and for  
governmental control of the sup-  
plies.

Because of a belief the scheme  
would be vetoed by President  
Hoover, Brookhart said it is in  
green which has passed the House  
agrees until the next Congress  
meets in the spring.

Tampa-Gulf Saturday, the resolu-  
tions in which the legislature will  
be asked to adopt provide for a  
judicial system, including two con-  
stitutional amendments, one for  
consolidation of county and mun-  
icipal governments in whole or  
part in certain counties.

Gary D. Landis and State Com-  
ptroller J. M. Lee are expected

The initial session will be held in  
the assembly room of the 11th

is offering Democratic headquarters.

The group of municipal special-  
ists includes Carl H. Chaffetz, ex-  
ecutive director of the Municipal  
Finance Officers Association; Charles  
E. Ridley, executive director  
of the International City Man-  
agers' Association; P. F. Sewall,  
engineer-executive of the city of  
Miami; William C. Lawrence, presi-  
dent of the American Road &  
Builders' Association; and Paul V.  
Hutton, Executive Secretary of  
the American Municipal Associa-  
tion.

In addition to approximately  
200 elective officials it is es-  
timated that a score of city man-  
agers and half a hundred city at-  
torneys will be in attendance.

Chief business of the two-day  
session will be the final drafting  
of a legislative relief program  
which the Florida League of Mu-  
nicipalities will ask the legisla-  
ture to enact for the best interests  
of business and taxpayers in  
every county of Florida. This  
program was introduced at the  
League's summer meeting in Holly-  
wood, was considered more care-  
fully in November, when the organ-  
ization's General Legislative Com-  
mittee met in Tampa, and has been  
finely worked up by a committee of  
eleven attorneys. Mayor R. B. Gault  
of Miami is chairman of this  
committee.

Meeting in the Merchant Ass-  
ociation's office, the executive  
committee and several heads of  
business firms have discussed  
thoroughly the proposed legisla-  
tion in the morning. It was the  
majority opinion of those  
present that the city should cur-  
tail its operating expenses at  
least 25 percent, and probably  
from 30 to 40 percent, before ask-  
ing the merchants to accept any  
new taxes. While some who were  
present at the meeting stated they  
wished to cooperate as much as possible,  
the consensus of opinion of the  
group was that they did not de-  
sire to accept the levy, believing  
that if they did work a hardship  
on those using it, and that definite  
assurance had not been given  
that the city would stand behind  
such an issue one hundred percent,  
guaranteeing that there would be  
no loss incurred.

## Commission Meeting Scheduled For Today

## Fort Pierce Calls Meeting To Talk Over Scrip Issue

FORT PIERCE, Jan. 23.—The  
executive committee of the Fort  
Pierce Merchants Association has  
called a meeting of all merchants  
and citizens for the purpose of  
presenting a resolution in regard  
to the issuance of scrip by the  
city of Fort Pierce. All business  
and professional men were re-  
quested by the committee to at-  
tend the meeting and the city of-  
ficials have also been invited. It  
is expected that some definite  
action will be taken concerning the  
acceptance of scrip by business  
establishments.

least 25 percent, and probably  
from 30 to 40 percent, before ask-  
ing the merchants to accept any  
new taxes. While some who were  
present at the meeting stated they  
wished to cooperate as much as possible,  
the consensus of opinion of the  
group was that they did not de-  
sire to accept the levy, believing  
that if they did work a hardship  
on those using it, and that definite  
assurance had not been given  
that the city would stand behind  
such an issue one hundred percent,  
guaranteeing that there would be  
no loss incurred.

## ROOSEVELT IS WORKING UPON CABINET POSTS

### President-elect Has Conferences With Party Men Framing Policies To Follow

WARM SPRINGS, Ga.,  
Jan. 23.—(AP)—President-elect  
Roosevelt yesterday began  
the private conferences in  
which he expects to select his  
cabinet, and formulate his  
policies, with two Republican  
independent senators—Cut-  
ting of New Mexico, and La-  
Follette of Wisconsin, as his  
first callers.

The meeting in the "little white  
house" atop Pine Mountain was  
believed to focus on a cabinet post  
for one of the two senators and  
on the unemployment relief in  
which each is interested.

There seems no doubt that  
Roosevelt wants a member of the  
Republican independent group  
which supported him in the cam-  
paign to be a member of his  
official family and the signs  
are pointing to Cutting as a secretary  
of interior.

While keeping the closest contact  
with the Republican liberals  
and this same group in his own  
party, the President-elect is also  
studying choices from other fac-  
tions for high places in his forth-  
coming administration.

Because of his intention to deal  
personally through his secretary  
of state on the complicated war  
debt issue to be revived early in  
March, there are indications  
Roosevelt is looking intently at  
Owen D. Young for secretary of  
state. Young is thoroughly ac-  
quainted with the European debts  
and related economic issues. He  
was chairman of the commission  
that once settled the German repa-  
rations problem.

This prospective appointment is  
known to have aroused the Demo-  
cratic and Republican liberals,  
some of whom have countered  
with the suggestion of Senator  
Wahler of Missouri, for the state  
department leadership. Signifi-  
cance is attached to the callers  
who arrive at this 10-day stopping  
point of Roosevelt—at the tract  
where he sought down an attack  
of infantile paralysis. Before  
coming here he announced only  
house guests "especially invited"  
would be received.

In a trip through the heart of  
Dixie Saturday Roosevelt visited  
\$160,000,000 Muscle Shoals power  
and nitrate plant. Speaking from  
the Alabama state capitol to a  
huge throng Saturday night he  
outlined his hopes for a vast de-  
velopment of the Tennessee River  
valley, encompassing not only the  
reopening of the Muscle Shoals  
project but related flood control  
and reforestation work. Detailed  
announcements of this tremendous  
program are expected after fur-  
ther conferences by Roosevelt with  
the congressional leaders and  
power experts who accompanied  
him on the Muscle Shoals inspection.

## Mrs. Curlett Speaks Before Deland Club

DELAND, Jan. 23.—Helpful suggestions for the gardener on what to plant and other problems were brought out at the January meeting of the Deland Garden Club Saturday by Mrs. Endor Curlett, of Geneva, director of the Central District of the Florida Federation of Garden clubs. The meeting was open to all garden lovers as well as club members and a number of visitors and new members enjoyed the opportunity of hearing the district leader at this time.

The speaker, who was introduced by Mrs. J. W. Smock, talked informally on her subject. She stressed the benefit of the tree planting program being carried on in the public schools, showing how these helped the entire family as well as the children, often converting the fathers into being "garden minded."

Mrs. Curlett also suggested "friendship gardens" in which neighbors exchanged plants and cuttings to their mutual benefit.

Discussing material to be planted at this season, Mrs. Curlett stressed the importance of wild flowers and shrubs which will be secured from the woods.

She mentioned in particular holly, cherry laurel, Christmas berries, viburnum, wax myrtle, rosemary and holly, when permission was secured to transplant it. She advocated the advantage of living Christmas trees and urged each member of the Garden Club to plant at least one in her yard since such trees added to the beauty of the garden all year as well as at the holiday season.

The speaker pointed to the wisdom of planning now for the summer garden and planting seeds of shrubs and other material. With her she brought a number of specimens of shrubs suitable for planting in a rock garden. Scirpus soethia, cyrtomondel, wedelia and many other plants were suggested. At the conclusion of Mrs. Curlett's talks, a question box was featured. The speaker gave excellent advice on many subjects pertaining to gardens which were asked by club members.

## JAPS RENEW AIR ATTACK ON CHINESE

(Continued from Page One)  
These are planning to enter Jehol soon, but not the Chaiwangtao, Tientsin and Peiping areas soon.

The intentions of the Chinese commanders also have not been revealed, although they and their commands seem eager to fight, but it is believed likely their animosities, as well as those of the Japanese, will cool before the freezing winds now sweeping north Asia.

If the situation drags on and the present phase of the Sino-Japanese dispute may be buried in the snowbanks at least temporarily.

The national government at Nanking continues to move behind the scenes, supposedly steadily increasing China's defenses and building up offensive powers, all aimed at meeting Japan when they are sufficiently strong and when the opportunity arrives.

Many believe war immines. The Japanese have established a separate puppet government in Manchuria and were considering placing Japanese military censors in the Chinese postoffice, foreign dispatches said, adding that the Japanese were considering incorporation of Shanghai into Manchukuo.
