Vote For Faircloth

The attorney general, chief legal efficer of the State of Florida, is requested to provide legal advice for the governor and to all state agencies, county officials and municipal Cabinet and must participate in decision on many matters effecting all

qualifications, experience, integrity and intellectual honesty. We believe the man for this job is Earl Faircloth, who already is fort-ified by the experience of a year and half as attorney general for the State of Florida. We recommend his

re-election on May 3.

Earl Faircloth was elected to the Florida House of Representatives in 1962 where he won the respect of not only his legislative colleagues but of all the citizens of Florida. He was selected by his fellow House members as the outstanding freshman of Earl Faircloth.

In 1964, Mr. Faircloth was selected by the people of Florida to serve them as the attorney general. In the momentous months he has been in office he has had to deal with complex problems in education, apportionment, taxes, law enforcement and conservation of natural resources. He has proven he is very capable of representing the people and their state in a court of law.

Faireloth brought to the office of attorney general more than 14 years of private practice and experience in all fields of law. In addition, he is a former member of the Florida Bar

Knowledge; No Savvy

The director of educational research for the U.S. government sees the day — and possibly within 10 or 15 years—when classrooms will be completely computerized, with each pupil sitting in front of an individual computer, soaking up knowledge.

The teacher, this gentleman believes, should never have to actually present information to the student, since the machine can do it better. Before we start trading in teachers for computers, it might be well to listen to what else Dr. Richard Louis Bright has to say. He concedes that a machine could never teach a pupil "to speak confi-

dently to other people, to express ideas lucidly, to handle the criticism

that is, to add the touch that would make it possible to tell a student from Please stick around, teachers. 1 looks as though we are going to need you more than ever if this isn't going to become a weird, weird
