## ANNOUNCES-

A great National Educational Campaign from April 13 to May 29. Read about it in the April 13 issue of The Saturday Evening Post.

Three years experience in studying and selling vacuum cleaners has taught me the strong and the weak points of every forty different makes and kinds of vacuum cleaners. I have interviewed the owners of thousands of vacuum cleaners so that now I know the amount of service and the amount of trouble that any woman may expect when purchasing any one of these forty different makes.

Out of the firty different make Cand they take in all the more prominant ones) there are less than six in which I would knowingly invest my money. Leading the list are the Eureka electric and the Vacutte automatic machines.

Over 25% of all electric vacuum cleaners sold last year were Eurekas. A remarkable record,

As an automatic machine the VACUETTE is becoming increasingly popular with Housekeepers and Housewives everywhere.

I have found some owners who either wash or briskly brush the dust bag of their machines. This should not be done. These bags are chemically treated to retain the germ lader dust and should never be washed for that washes out the chemical, nor should they be brushed hard for that enlargens the very fine mesh so that the dust has a chance to get through.

We are putting on a sales campaign of the EUREKA and the VAC-UETTE. Ask me to give you a comparative demonstration of these two machines or competitive demonstration with any other vacuum cleaner you may select.

When our Satesman calls ask him to show you how and why these machines are the most practical.

See these machines on display in the window of our headquarters. SANFORD ELECTRIC CO., INC.

JUST IN PASSING

It seems that the question of public ownership of the electric light plant is getting hot again and the city conmissioners will be asked to get action on this question at once. To my mind the city commissioners have been procceding slowly because there are so many phases about this matter that require attention. Just whether to own the plant or buy the current and this proceeding slowly means saving the tax payers money,

## Rowing For Woman St. Petersburge **Finds Enthusiastic** Support in London

LONDON, Apr. 17.—News that the faculty of the University Col-lege of North Wales had barred boat racing among its fair stu-dents on the ground that the exercise is highly injurious to them has aroused the varsity girls in St. Louis other parts of England, who contend that the action is not justified by past experiences.

"If properly trained, there is no danger of straining the heart." Cleveland said Miss Evelyn Cunliffe, presi- Philadelphia dent of the London University Women's Rowing Club, recently. "If Chicago one takes a proper care to avoid Detroit all sweets and chocolates, new Boston bread, pastries and other choice New York bits so often served at afternoon | St. Louis teas, for a long time in advance. there is no risk at all for rowing aspirants," Miss Cunliffe continued, "We are the oldest London women's crew and practiced intervarisity racing before any other each of the balconies facing each London university.

"I do not advocate mixed boat out a trumpet strain, reminding States and she doubted whether a racing. As yet we are not able the sleeping city that "all is well," third would find enough business, to compete with men, and I don't think we ever shall be, as there is no sport in the world in which strength tells so much as rowing. I have never seen a case of iil effects from racing, as all our candidates must have strong hearts to be allowed to take up training Rowing as a sport for women is on its way to enjoy greater popularity here than hockey, judging by the strides it has made during the last two years."
