

# SPORTING GOSSIP

## Twelve Innings Tie Game

Carl Ray, the Collegian's port sider, hooked up with Tom Vaiden in the first extra inning game of the season. It was a pitchers' battle from start to finish, Ray having a shade the better of his rival. The game reeked with brilliant catches and stops, and several miserable bobbles of the Collegians outshone their opponents in the latter department. Bundy was the candy kid, securing two hits out of three trips to the plate, one for two bases, which later developed into Sanford's run. Jonas Swink played first in a style particularly of the Hal Chase variety. Buck Roberts and Boyer made spectacular catches on left. Boyer's catch saved the game for Orlando.

Sanford scored in the fifth. Bundy first up, poled one for two bases, went to third on a passed ball and scored when Carl Ray hit a long sacrifice fly to right.

Orlando scored in the seventh. Brewster reached first on an overthrow by Brittain. Howatt sacrificed him to second. From there he scored a second later on Bowen's single to right. In the last inning after Ray had fanned Brewster, Howatt singled to right, Bowen was hit by a pitched ball. Howatt looked bad for Sanford. But the big southpaw arose to the occasion, fanning Boyer and Wilson, the latter batting for Lee, leaving Howatt and Bowen gasping for breath on first and second.

Vaiden, p	4	0	0	2	5	0
*Wilson	1	0	0			
Total	37	1	3	36	14	2

\*Wilson batted for Lee in 12th.

Summary: Two base hits, Bundy. Base hits on balls of Vaiden 2. Struck out by Ray 13, Vaiden 5. Hit by pitch ball Bowen (by Ray). Stolen bases Brewster, Wofford. Sacrifice hits, Howatt, Ray and Bundy. Passed balls, White. Double plays, Boyer to Howatt.

## As Orlando Saw It

Only a fair sized crowd was out yesterday to see the best game of the season. It went twelve innings with the score tied in a hard knot, one to one. The game then had to be called off on account of darkness.

It was a twelve innings pitchers' battle from start to finish, between Ray, the celeryites' big southpaw, and Vaiden, our utility man. Pitching honors were about even and Vaiden's box work yesterday proves that he is a good man and should be worked oftener. Ray is a strike out pitcher and mowed down a dozen yesterday in as many innings, while Vaiden only fanned three, but he kept the Sanford bunch repeatedly knocking easy chances to him, and the game was marked throughout by fast fielding and sensational work by both teams. Our boys shaded the Sanford bunch a little in fielding honors for they made only two errors while the bunch of celery made a total of four. They got five hits to our three, but Vaiden kept them scattered and only one run was scored against him, that coming in the 5th, when Bundy, the first man up, doubled to deep center, and took third on a passed ball, and later scored on the throw in from Ray's fly to deep right. We got ours in the 7th, when Brewster was safe on a bad throw by Brittain, Howatt sacrificed him to third and he scored on Bowen's line hit to right.

We had a good chance to untie the knot in the 12th when Howatt hit over second and Bowen got hit, but it was so dark by that time that the batsmen could not see the ball and Ray easily fanned the next two men.—Reporter-Star.

# My Worst Blunder

## FAMOUS 'BONEHEAD' PLAYS ON MAJOR LEAGUE DIAMONDS

Explained by Leading Baseball Players to

HUGH S. FULLERTON

BY JOHN KLING,

Manager Boston Nationals, Who is Considered the Greatest Catcher the Game Ever Has Known, and Who Promises Success as a Manager.

Do you believe that a fellow's brain can think two things at once? That is, can one idea get so strong that it beats another idea to it and makes a fellow go through with something he knows, and sees, is wrong?

I ask that because it seems to me that some of the worst mistakes I ever have made playing baseball have come from just such a situation. I figure a play, get my mind all made up as to just how the other man will act, and then sometimes that idea gets so strong it can't be changed, no matter what happens.

The worst mistake I think I ever made was one against Pittsburg when I was with the Cubs, and it lost a game that I thought also had lost the season, although we won it afterwards in a tough finish. And it all came because I thought I knew exactly how the other man would make his play. It was late in the season and we were fighting with Pittsburg and New York for the lead in the race. You know Pittsburg always has been a tough proposition for the Cubs, especially in Pittsburg, and the teams had played against each other so long, and with so few changes in lineups, that we got to know each other inside out. Leach always has been a great base runner, but in one

John Kling.

thing our catchers had it on him, that was when he was on third, another man on first, and a double steal was to be tried. Leach usually was over-anxious to start home, and all a catcher had to do was to make a bluff at throwing to second, hold the ball and snap it to third and Leach would be on the jump for home. We had caught him so often that he knew what we would try, and two or three times he had made the jump, then jumped back to third and laughed at us. The situation came up late in the game with the score tied. Leach was on third, Abbaticchio I believe on first and two out. I felt certain they would attempt a double steal, so I decided that I knew exactly what Leach would do. He would think that I would certainly try to grab him off third, and would not try to score at all. He would figure that I wouldn't dare throw to second and give the winning run a chance to score, as two runs would not hurt us any more than one would. So I made up my mind to do exactly what I thought he thought I wouldn't do—throw to second and try to nail Abby going down and end the game right there.

I signalled for a high fast ball, and the moment it struck my hands I jumped forward to throw to second. As I caught the ball I saw Leach tearing for the plate just as hard as he could come. I knew all I had to do was to hold the ball and wait for him, but the previous plan was too strong in my mind and I cut loose as hard as I could for second. Leach came across the plate standing up, and was in with the winning run before Abby could be touched.

Leach had figured to double cross me just as I had planned to cross him. He calculated correctly just what I would do, and I had him figured all wrong. Pittsburg came near grabbing the pennant on that one play, but we nosed them out and in a game a couple of weeks later I outfigured Leach on the same play, held the ball and caught him, so we were quits.

Fresh From the Wires by Our Special Service

### SHORT SQUIBS RECORDED FOR BUSY READERS

News From Every Corner of the Earth  
 tersely Told in Telegraphic Ticks

A powerful wireless station at Sayville, L. I., practically commanding New York harbor and controlled by a corporation reputed to be under the influence of the German government is being observed by the Navy Department and the Department of Labor and Commerce. Officials here have been quietly watching its progress and trying to determine if it comes within the provisions of the Lodge resolution recently adopted by the senate declaring that the United States cannot see without grave concern the actual or potential possession of any harbor or other place on the American continent by any government, not American, when possession would give to such a government practical power of control for naval or military purposes.

For one week Colonel Roosevelt is going to forget politics, if he can and take a rest. When that week is over he will take up the fight again, to carry it on unremittingly until election day. The Colonel told his secretary yesterday he wished to see no one at Sagamore Hill. He wished to spend the morning with Sirdah, his riding horse, and the afternoons at tennis and boating, occasionally helping the farming hands in the field.

The Panama canal administration bill providing for passage of American ships, prohibiting railroad owned vessels from using the waterway and authorizing the establishment of American government when the canal is completed, was passed by the senate to night by a vote of 47 to 15. The provision for free tolls which was fought in the senate Wednesday was endorsed again just before the passage of the measure.

#### Cost of Brick Roads

While the county commissioners and people of Osceola county are looking into the cost of road construction, it is timely to give ear to what is being done by other counties in the same direction.

The commissioners of Brevard county called upon City Engineer Spencer of St. Petersburg recently to give an estimate for the building of brick roads. His estimates on a brick road built of No. 1 brick were: Ten feet wide, \$13,543 per mile, twelve feet wide, \$15,581 per mile, fifteen feet wide, \$18,680 per mile. He said, however, that No. 2 brick would do just as well for a county road, and with these the road could be built for about \$2,000 per mile less. These estimates included grading, hauling, laying, curbing, etc.

In answer to questions from Chairman Cochman and the other commissioners, Mr. Spencer said that out of his twenty years of experience with roads and his study of the subject, he would say that where macadam roads took about ten per cent of the initial cost to keep in repair, the brick roads cost practically nothing. He thought a brick road, properly built, would stand twenty years without any appreciable repair cost. He said, too, that automobiles would tear up a marl or macadam road by suction of the wheels, while the auto would not injure the brick road.

"According to your estimate, then, we would have to build macadam roads over about three times within the life of a brick road?" remarked Chairman Cochman.

"Yes," said Mr. Spencer. "It is not a question at all of which is the best road or which is the most economical road, but only one of how much money you have to spend and whether you can afford to build a brick road."—Kissimmee Gazette.

#### Meeting of Woodman Circle

The regular meeting of the Woodman Circle will be held at Eagles' Hall Wednesday, Aug. 14th, 1912, at 3:30 p. m. Business of importance. Sovereigns are urged to attend promptly.

GUARDIAN.

**Sanford-Kissimmee Electric Ry.**  
The Sanford-Orlando-Kissimmee proposed electric railroad seems to have been laid on the shelf for the time being. Whether this is the case or not the public hears nothing encouraging as to the building of said railroad, although faint whispers are heard at intervals that the projectors are still quietly planning for the construction of the road, and at no very distant day the work will be started and pushed to a finish as rapidly as possible.

That this proposed railway would be a great benefit to the people living along the route is a foregone conclusion. It will benefit in many ways, one of which will be the building up of the country along the line. It can hardly be estimated how fast the country along and contiguous to this line would advance in improvements and realty values.

A large proportion of the people living in this section, through which the line would pass have been accustomed to this mode of travel, and would had with delight the building of the road.

It must be admitted that transportation facilities is one of Florida's greatest hindrances to permanent and rapid development.

When the line is built to Kissimmee it will only be a question of a short time before the southern terminus will be Tampa. This electric line is coming and with it better passenger and freight rates to the people who are fortunate enough to live along the route.

The electric line affords almost every city advantage to those living along the route, and for this reason there would be many prosperous villages that would spring up. Not many years would pass before it would be hard to tell where Orlando began and where it ended, because it would be so blended with the villages along the way. For example, Winter Park, Maitland and other towns to the north, while Fine Creek and Laft would be taken in on the south, all more or less closely connected with the greater Orlando.

Just think of it, travel by boat to Sanford and then take a nice clean electric car for southern Florida, free from heat and dust that now besets the traveler, who must of a necessity navigate by the old method.

The people of Orlando should extend every encouragement to the promoters of this railway and aid them in every way possible for its early completion, for it will mean the beginning of greater things for the city and its people. Reporter-Star.

#### Changes Among the Medicoes

Dr. O. W. King will give up his practice here on Sept. 1st and expects to leave for New York, where he will take a two years' post graduate course at one of the large medical colleges. Dr. Oliver Miller will succeed Dr. King as medical examiner of the A. C. L. Ry., and will also take his office in the Peoples' Bank Building.

During the residence of Dr. King in this city he has made many friends and built up a fine practice and he and his most estimable wife will be missed by their large circle of friends. Dr. King is a young man in years and feels that in taking the fine position offered him in the college that he is gaining in knowledge and position and experience and at the completion of his course he may return to Florida and maybe to Sanford. We congratulate both young medicoes.

#### Seven Men Electrocuted

Osining, N. Y., Aug. 13.—Seven murderers were electrocuted in Sing Sing prison yesterday morning. This is the largest number of criminals to suffer the death penalty by electricity on any one day since the electric chair was adopted as a method of capital punishment. The six Italians and one negro executed went to their deaths quietly. The warden's work was accomplished within an hour and sixteen minutes.

## WILL HAVE BELT LINE

Sanford Traction Company To Increase Trackage

### CONNECT NEW COAST LINE DEPOT

Sanford Heights And Suburbs Will Have Fine Service With City

The news has leaked from unofficial channels that the Sanford Traction Co. has on foot plans for a most comprehensive and far reaching traction service for this city and suburbs.

Sanford has some of the finest suburban property within one mile from the business centers that any city can boast of and the only drawback to this property has been the lack of transportation to and from the city. Every red blooded citizen is anxious to live just outside the city, where he can spank the baby without waking his next door neighbor and where he can have a small garden and chicken and cows to reduce the high cost of living and where the air is purer and the children thrive.

Now that the new depot gives promise of being a feeder for a belt line the project bids fair to go through with a rush and it is rumored that several capitalists are willing to come in on the enterprise and put in a service that will belt the city and give the people a car every thirty minutes and will touch every part of the city and suburbs.

The effect of such a belt line in building up Sanford can hardly be estimated and in conjunction with the miles of brick roads that will soon be built will make Sanford the ideal tourist resort of the south.

In the past few weeks there have been many strangers in our midst who have quietly looked over the situation and have concluded that all Sanford needs to become the greatest resort in the entire south was a good tourist hotel and street car service and whether they will begin at once on this project or join hands with the local people remains to be seen.

Along the line of traction companies is the authentic report that capitalists have already started a road at Daytona with the ultimate object of coming to Sanford and having the Sanford Traction join them at the depot, so as to be giving the people of Florida and the tourists a chance to visit interior points and the east coast at will.

The finest and best mode of travel in the world is the traction lines and whenever Florida and her possibilities are appreciated sufficiently by the northern capitalists to have them visit the state the day of slow railroads and high prices will vanish.

Sanford was the first city in the south to take up the gasoline type of motor street car and it remains for Sanford to install the first car for interstate commerce and travel and the day is not far distant when these roads will form a net work over the whole state.

The installation of the city service with half a dozen good cars and quick service to all parts of the city and the glory delta will mean that this season will be a busy one and real estate that has lain dormant for years will awaken to life and begin working over time for the owners. It means the success of the new hotel and business of every description, an added impetus to every line and a city of ten thousand people in one year's time.

#### WATCH SANFORD GROW

#### Clubbed and Robbed

Gainesville, Aug. 13. J. J. Call, a well known farmer of the La Crosse section, was waylaid, clubbed and robbed in the Gordon section, about nine miles north of this city, late Saturday afternoon, and about 7:30 o'clock Sheriff Ramsey received a telephone message to that effect, the man having been found in the road unconscious.

#### Sale of DeLeon Springs

There are all kinds of rumors about the sale of the DeLeon Springs property, the erection of a big hotel, and the placing of the fine lands around this spring on the market can be learned. It is hoped that the property will soon go into the hands of developers, as it is the finest development proposition in Florida.—DeLand News.

## ALL AROUND THE STATE

Nosegay of Blossoms Cut in The Garden Spot of Florida, the Beautiful Land of Flowers

### STATE HAPPENINGS BOILED DOWN FOR THE BUSY

A Brief Resume of Florida Happenings That Will Interest The Hurried Reader

#### Funeral of W. D. Holden

The funeral of W. D. Holden took place last Saturday afternoon at three o'clock. The remains were taken from the Sanford House escorted by the Elks to the Episcopal church and the edifice was inadequate to seat the large crowd that had congregated to pay tribute to this well known citizen.

Although it was the busiest part of a busy day the gates all closed for one hour, which attested the respect and esteem in which the deceased was held by the people of this city.

Dean Spencer of Orlando, although sick in bed at the time and against the advice of his physicians officiated at the services of his friend and one time neighbor.

Quite a number of Mr. Holden's friends from Orlando were present. The choir sang "Lead, Kindly Light" before Dean Spencer began the services. Later they sang "In the Hour of Trial." At the conclusion of the beautiful service and while the Elks were leaving the church to form the escort for the body of one of the Past Exalted Rulers of their order, the choir sang very tenderly and sweetly, "Nearer, My God, to Thee." The pall bearers were Ernest Lake, C. O. McLaughlin, A. E. Yowell, Walter Wescott, W. J. Thappen, J. N. Whitner, W. F. Martin and Harry Bowman.

After the conclusion of the church service at the grave, the Elks took charge and with their solemnly beautiful and impressive burial service, they tenderly committed the body of their member to its mother earth.

#### A Hack Drivers' Ordinance

At the present time the hack drivers of this city are prone to hold up the people when it comes to driving beyond Tenth street or taking a trunk two blocks from the depot. Before the new depot is finished the city council should take up this matter and pass an ordinance to charge all hack drivers with fines. Every other city in the state protects the traveling public and, for high time the hack drivers here were forced to make a charge of 25 cents to any part of the city. The first kick the stranger makes on Sanford is the hold up game practiced by some of these drivers. Many of them have already made a charge of 25 cents to get to the new depot from the city and start a swarm of worthless negroes to driving hacks and robbing the public right and left.

#### Change in Business

E. N. Morrow has disposed of his business in the Sanford Machine & Garage Co. to Ben Bardin. The future plans of Mr. Morrow are not known but it is more than likely that he will engage in business in this section of the state. Mr. Bardin is a former resident of Sanford and was engaged in the machine shops for a number of years. He brings to the Sanford Foundry & Machine Co. a thorough knowledge of the practical machinist and should prove a valuable addition to this firm. Mr. Mr. Higgins expects to handle the well known Everett car this season as well as several other well known makes and will make a strong bid for the automobile business of this section of Orange county.

#### Baby Guarded Dead's Clothes

New York, Aug. 13.—The sight of a 3-year-old boy sitting on the bank of the Hudson river, weeping over some clothes which he seemed to be guarding, led to the discovery last night that two men had been drowned while swimming. The bodies were later recovered. The victims were William Loboehitz and his nephew, Harry Lorrelley. It was the latter's baby brother that was guarding the clothes. The child was unable to tell the police anything of how the drowning occurred.

Holmes county has one hundred and ten boys who are contestants in the corn club race. The boys' corn club contest will be a feature of the county fair and each boy will have on display at the ensacola fair ten ears of corn.

H. Harold Hume, secretary of Glen St. Mary's Nursery Company, who went to a resort in New Jersey recently for his summer vacation, will today take a from New York for a visit to Spain. Mr. Hume's mission across the ocean is professional one in the service of a firm in New York with large interests in growing citrus fruits and pecans in different parts of this country, in Mexico and in Spain. His knowledge and advice is to be employed in developing the enterprises of that company in the country he now goes to visit.

Most folks here just voted that the cows are privileged to run at large on the streets of the town, which streets will furnish abundant pasture for a good many cows, judging by the appearance of them some time ago.

Jackson county is to have another bank located at Marianna. Hon. C. L. Wilson is to be president of the new institution and it will be capitalized at \$50,000. It will be ready for business in a short time.

The ladies of the Civic League at Orlando have been doing fine work for that city and now they are enlisting the help of the children in making Orlando the city beautiful. The children's branch of the work will be an especial one, aimed at picking up all nails and tacks found on the streets. This will certainly be a boon to the automobile folk and will save a great many dollars and hours of valuable time. Another thing that the youngsters are expected to do is to give attention to the backyards at home.

#### Wilson on Prohibition

Gov. Wilson, N. J., Aug. 13. Gov. Wilson has just received a hand in the gubernatorial election in September is expected to reveal the trend of strength of the three presidential nominees.

In response to numerous letters from Democratic leaders in Maine asking Gov. Wilson for his attitude on the liquor question, which is a prominent issue in the gubernatorial campaign, the Democratic gubernatorial nominee has declared in support of a local option and against having the question made an issue between political parties.

The governor's views were originally communicated to the Rev. Thomas B. Shannon of Newark, N. J., as bearing on the issue in New Jersey but Gov. Wilson now is sending throughout Maine a copy of the same letter which says:

"I am in favor of local option. I am a thorough believer in local self government and believed that every self governed community which constitutes a social unit should have the right to control the matter of regulating or of withholding licenses.

But the questions involved are social and moral and are not susceptible of being made a part of party program. Whenever they have been made the subject matter of party contests they have cut machine lines of party organization and party action athwart to the utter confusion of political action in every other field. They have thrown every other question, however important, into the background and have made constructive party action impossible for long years together.

#### Stabbed by Cobb

Ty Cobb was attacked and stabbed in the back by three unidentified men in Detroit early today while on his way to the train which was to bring him and the Detroit team to Syracuse for an exhibition game this afternoon. Cobb's agility saved him from serious injuries and possible death. His injuries are slight.

**A Budget of Opinion "Just Between You and Me"**

**EVEN THE GATE POST NOT IN IT**

**A Chief Is Among Ye Taking Notes and Faith, He'll Prent 'Em'—So Says Saunterer.**

¶ The alley back of the Clark building has been cleaned up at last and I was actually able to get through it the other day without the aid of a flying machine. Whether this is a private alley or belongs to the city it has never been kept in a sanitary condition and the smells that emanated from it last season were enough to put a fertilizer factory to blush. Whoever is responsible for this late clean up has my thanks and no doubt that of the rest of the long suffering public.

¶ I hope that the railroad will build their new depot upon a broader scale and make a car shed that will protect the passengers getting on and off the trains on a rainy day. At the present depot no provision has ever been made along this line and now in the rainy season the passengers are forced to take the driving rains every time the rain falls. It would not cost much more to make a larger shed and let all the trains run under it the full length and give the passengers a better shelter. Since there is but little comfort on the trains the poor passengers ought to have a little while the train is standing still. I respectfully refer this matter to the proper authorities and know that they will have it done at once.

¶ I never care to place flowers on the grave of a man when he is dead. I much prefer to give him a bouquet while he is living and have never been chary about handing them out when they were deserved. I only wish to drop a tear on the grave of Mr. Holden who was snatched from the living so quickly last week and to pay my humble respects to his memory. He filled a niche in the public life of this city that will be empty for many a day now that he is gone, and in his case I wish to say that the usual order of things will be reversed and that his place will never be filled. He created his own place in our business life and by his virility and force and person-

ality won a place in the hearts and minds of the people that will never be duplicated, because the original has gone from us. His life was cut short when he was upon the eve of realizing the fruits of his labors and he passed away before the victory was won. Despite the opinion of other people who may differ on the subject I contend that W. D. Holden has left a lasting impression upon the community an impression that time cannot efface and one that will linger long after memory has ceased to serve.

¶ I noticed a new fruit stand next to Charlie Dingee's plumbing establishment, and the reason I noticed the stand in particular was because every bit of the fruit was under a good wire screen, absolutely protected from the flies and insects and dust and dirt. Whether Dingee was responsible for this innovation or not made me inquire the names of the firm and I find it is an Italian named Angelo, who has a farm on the Orlando road near Spring Hammock. No matter who he is or where he came from he has the right idea about keeping fruits and has set an example that can be emulated by the rest of the fruit dealers—not because they want to do this but because they should be made to do it according to an ordinance passed by the city council.

¶ It seems strange that so many people in Sanford will allow the grass and weeds to grow whiskers on the parkway fronting the main streets of the city and right where the passersby can see them so plainly. Just because it is summer time is no valid excuse for allowing the streets and sidewalks and yards to grow up in idleness and luxury respecting weeds and grass. Some of the main streets of this city are a disgrace to civilization and if the property owners will not do this the city council should do it for them and charge same up to the property owners. There is a vacant lot on Magnolia avenue a stone's throw from the main street, that is so badly overgrown with weeds that a stranger to the city called my attention to it the other day and wanted to know why such conditions were allowed to exist in Sanford, where the people were supposed to be alive and doing business. I would politely yet firmly lead the street committee to this lot which abuts on the Imperial Theatre and is said to be owned by a non resident, which probably accounts for the appearance of it.

¶ While walking out Sanford Heights way last Sunday I noticed that the ditches on either side of the road are being cleaned out and made deeper. Why make deeper? Why not do the work right and put in a sewer pipe? This same deep ditch will be the death of some one later on in case a horse becomes frightened or an automobile skids a little. Some of these deep ditches may be all right out in the country where there is not much travel, but in the city limits, where there is considerable travel the deep ditch is positively dangerous. I noted another bad place on the railroad crossing where the Oviedo branch crosses Park avenue and where the railroad company has never put in a board crossing or any other kind of crossing. A heavy wagon or a car cannot cross this track now that the rains have washed away the dirt filling and left the track about a foot above the ground. If I was the inhabitants of Sanford Heights I would kick good and strong about the road and about the ice and about one hundred other things where they are given the rough end all the way round. If Sanford does not intend to take care of the people on Sanford Heights then Sanford should not collect taxes out there. It looks like a preconcerted plan of some of the people in Sanford to put this part of the city on the blink.

¶ At the coming November election the people of Florida will have an opportunity to say whether they are willing to trust themselves with their own government.

The fact had almost been lost sight of that at the last session of the legislature Mr. West of Santa Rosa county got a resolution through the body providing for a constitutional amendment giving Florida the right to enact legislation by what is commonly called the initiative and referendum plan. There was some doubt as to the regularity of Mr. West's resolution and Attorney General Trammell was asked for his opinion of the matter. Mr. Trammell says that the West resolution was legally adopted by the legislature and that the people will vote on the amendment.

If the question is generally discussed throughout the state to the extent that the voters understand it, there is little doubt of its adoption. The trend of the times is to bring the government closer to the people and there are few people in Florida who would deny the people the right to initiate a movement to enact

such laws as they desire and to have the final say on such enactment.

The right of the people to recall unfit officials is usually regarded as companion legislation with the initiative and referendum and the adoption of the recall-measures will no doubt follow.

In the near future it is to be hoped that Florida will have a modern constitution and it will surely give to the voters the right to enact any legislation they desire as well as to relegate to private life such public servants as have proven unworthy of the trust reposed in them.

¶ My old friend, Thorndyke, in the Palm Beach County gets off the following one on Florida:

"Florida is a vast expanse of water, sand and climate, which sticks out about four hundred miles into the ocean at the southeast corner of the nation, and is as hard to dodge as a sore thumb.

For many years it was the vermiform appendix of the United States. No particular use for it was known, and the Seminole Indians kept it in a constant state of inflammation. It is now being extensively cultivated, however, and is growing faster than any other southern state, though goodness knows it needs to, having only 750,000 souls and a few thousand hotel keepers.

"Florida was discovered by Ponce de Leon almost 400 years ago and immediately became famous for its wonderful climate. Ever since then people have been going to Florida to enjoy the climate and coming back to enjoy society. This shows Florida's simplicity. In California the man who arrives to enjoy the climate is treated so hospitably that he never saves money enough to come

"However, in the past few years a few great hotels have been built in Florida, and it is now possible to go down there swelled all out of shape with money and be successfully treated with the affliction in a very few weeks.

"Florida is divided equally into timber, swamps and orange groves. It contains the Everglades, the greatest swamp in America. It is so large that the agricultural department almost got mired in it recently. It also contains the only sea railroad in the world, running to Key West, over 100 miles of water and keys. The Florida key is a peculiar one, made out of coral, and is almost as big as an old fashioned New England house key.

Florida ships oranges, grapefruit, alligators and cigars to the world. If it

were not for Florida, mankind would be able to swear off smoking. In fact this would be almost necessary. Florida also contains the oldest city in the United States—St. Augustine which is one of the celebrated sleeping beauties. The metropolis of the state is Jacksonville, which has grown out of general stores into skyscrapers in the last ten years. The capital is Tallahassee of which no more is known.

"Florida is now very prosperous.

THE SANFORD HERALD

Published Every Tuesday and Friday Morning By THE HERALD PRINTING COMPANY R. J. HOLLY, Editor W. M. HAYNES, Business Manager

Subscription Price, \$2.00 a Year in Advance

Delivered in the City by carrier \$2.00 per year in advance or 20c per month. Payments in advance must be made at office

Entered as second-class mail matter August 22nd 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148

WE WIN WITH WILSON

A bill board may board Bill but a good newspaper advertisement will settle the whole family in a swell hotel for a week.

Sanford's voting for a brick road all the way to the celery farms is a step worth noting by all interested in that wonderful little town. Times-Union.

It's the same old story that we hear every day in the summer months—'Yes, I've had a most delightful vacation, but I'm now going home and to work and to get rested.'

The pure food department of the government has decided that as there is but very little actual nutriment in the holes found in Swiss cheese either the people must stop eating the holes or they must be cut out by the grocer before weighing.

In the death of W. D. Holden Sanford loses one of her most progressive citizens, besides being a large property owner in and around the Celery City. Mr. Holden was always found among the leaders for the upbuilding of his home town. Gainesville Sun

The untimely death of the young man in Miami was directly due to the fact that the speed laws of that city were not enforced. There will surely come a day in Gainesville when some family will mourn the loss of some of their loved ones unless the laws regulating the speed of vehicles are more rigidly enforced. Gainesville Sun.

Who weeps with you when you are sad, and laughs when you are glad and smiles at you when you are mad the editor. Who has to be both kind and wise and never (hardly ever) lies, and when he does creates surprise—the editor. Who owns a heart as well as cheek, possessed of spirit proud yet meek, and lives on forty cents a week—the editor.

If the printer is paid promptly, and his pocket book keeps phthonic by prompt paying patrons, he puts his pen to the paper in peace, his paragraphs are more pointed; he paints his pictures of passing events in more pleasing colors, and the perusal of his paper is a pleasure to his patrons. Paste this piece of of proverbial philosophy in some place where all persons can perceive.

Bob Holly is coming to his senses on his Sanford Herald. He has ordered the "Mr." as a prefix to all names omitted where the initials of the man are known. The County did that a year ago. It's all foolishness this "Mr. William Blank" business. If it is written William Blank readers are supposed to know the item refers to a male of the species. And in any paper it is a waste of time to place periods after initials, or Dr. or Rev. or Hon. To omit periods except at the end of a sentence is a help to the compositor and improves the appearance of the publication. I worked the same thing for over fifteen years—and with hand set type it was a great saving.—Palm Beach County.

EXIT OF THE REGISTER

Chris. O. Codrington has evidently purchased the DeLand Register and combined it and his paper, the DeLand News, and tells about it in the following short story:

The Prodigal has returned. Kill the fatted calf.

In June, 1878, Col. Christopher Codrington came to DeLand from Jacksonville, bringing with him the Florida Agriculturist, which he had been publishing in Jacksonville and Tallahassee. Col. Codrington was induced to move to DeLand by Henry A. DeLand, who

had big things in view for the proposed town which he had given his name. The Florida Agriculturist was, as its name indicated, an agricultural paper. Col. Codrington paid little attention to state or local news—and made a strong newspaper by the power of his personality and the cleanliness of his writings.

Soon there appeared in the Agriculturist office, first as barefoot "devil," later as printer, later as foreman, later as half owner, and still later as sole owner, Edward O. Painter. Mr. Painter made an effort to build up a local newspaper and succeeded well in his effort. He established the DeLand Supplement, this being a "supplement" to the Agriculturist, and devoted entirely to local news matter. In the course of many years, and in due development, the Agriculturist was sold to Jacksonville parties, and the DeLand Supplement ceased to be a supplement, except unto itself, but retained the name long after it had ceased to retain anything else but the friendship of many DeLand people. In due course of time, the Supplement tried out, and tired out many would-be editors and publishers, and became the DeLand Register.

As the Register I have come back home. Not being able, or worthy of joining my able progenitor in the realms to which I know he has ascended, I have done the next best thing and have come to his son. As the Register, I have merged my destinies with my big brother, The DeLand News, and will continue to visit the many kind friends who have stuck to me through my tribulation for the past twenty years, when I know I was worse than nothing, bore little news and cut little lee in the community in which I was allowed to live. I hope that the many friends who have borne with me week after week for the past odd twenty years, will now find me improved in every way, and will welcome me after I have cast off my maiden name and adopted the name of a good brother, as all maidens should.

THE REGISTER

THE FAKE ADVERTISING

The itinerant, with his little advertising graft, will soon be with us, and people who have to "cut down expenses for awhile," when they are asked to place an advertisement in a paper which works for them and the community every day in the year will fall over themselves in an effort to force their coin on the promoter of a railway time card, a directory, or some other fake scheme that is worse than valueless. Let any one come in here and attempt to sell any kind of merchandise, or do almost any other kind of business, and see how quick and how loud the merchants will howl. They will state, and justly, that they are paying a license and taxes, and incurring other expenses for the privilege of doing business here, besides carrying a heavy investment, and that the itinerant, who adds nothing to the wealth of the community, but on the contrary, carries the money away from the city, should not be allowed to compete with them. But these same merchants will pay their good money to some fellow they never saw before and will never see again, for some advertising scheme, the sole purpose of which is to pour money into a stranger's pocket, and then they will complain that advertising does not pay. They forget that these people are selling the stock in trade of the local publisher and printer, just the same as the peddler of groceries, or dry goods, or real estate, would be competing with the legitimate dealers in such things. They forget that the home newspaper pays for the privilege of doing business here; that it contributes heavily to the tax revenues; to the churches; to every public enterprise; and that it has thousands of dollars invested in an expensive plant, and pays out other thousands yearly for labor and supplies, which goes directly back to the local merchants. It is unfair to give to those traveling gentry for their doubtful schemes the money to which the local publisher is entitled for legitimate advertising. Think of these things the next time the smooth citizen with a great scheme comes along and turn him down. You owe it to yourself and to your home institutions to do so.—Lakeland Telegram.

SANFORD THE CITY

Never in the history of Sanford has there been brighter prospects in store than at the present time. In the midst of what might be termed our dull season there is more building than the average man would concede without first hand knowledge.

The new tourist hotel is an assured fact and the promoters will call a meeting of the stockholders at an early date to perfect plans for the permanent organization.

The city will have a belt line to the new depot and to all points in the suburbs and the celery delta. This line will also be extended to Orlando and will join

a new line to connect Sanford with the east coast.

The lake front will be bulk headed. The present city council is not asleep and are alive to the great possibilities of a better lake front and have instructed the city engineer to make surveys and give estimates of the cost of one-half mile of bulk heading.

A new steamship line will soon be in operation on the St. Johns river, making a daylight trip from Sanford to Jacksonville and return, said to be one of the finest river trips in the world. The Clyde Line is building an elegant new steamer to be placed on this run this winter to take care of the constantly increasing trade.

Several new manufacturing plants are contemplated and the promoters are looking up suitable sights this week.

Land is being made ready for the crops that mean so much to Sanford and the whole community, crops that are at once the richest and greatest grown in the vegetable kingdom.

New people are arriving and at the present time houses are scarce and the investor who will come here now and build comfortable cottages can rent dozens of them. Present facilities are inadequate to hold the regular population and the new comers will be obliged to sleep in tents or build new homes.

No time to mourn. No time to cry hard times. No time for the pessimist to use his hammer. No time for the fossil to emerge from his mossgrown retreat and come to life. No time to talk about Presidential year and attendant disasters. No time to do anything except to get together and grab the opportunity to add four thousand inhabitants to the town and bring up the grand total to TEN THOUSAND HUSTLING PEOPLE. Sanford at the present time is the most talked about city in the south and deserves to be. Keep up the good work and with the goal in sight strive to reach it this season.

JOHN THE TEN THOUSAND CLUB

Watering Trough Must Go

New York, Aug. 13. Now it is the "common drinking cup" for horses that must be done away with. An investigation by the bureau of municipal research here shows that of the 9,000 horses that died in Manhattan last year from glanders and other communicable diseases, a large proportion imbibed the germs from the watering trough.

It is the opinion of those interested in the problem that all troughs should be abolished. It is believed that the New York Health Department will forbid the further erection of watering troughs of any description, and that their place will be supplied by draw hydrants.

Parcels Post Adopted

Washington, Aug. 13. The senate today adopted the Bourne-Bristow parcels post plan as a substitute for the house parcels post provision in the post office appropriation bill.

The Bourne-Bristow plan would divide the country into eight zones.

Within a fifty-mile radius, the rate would be fixed at five cents for the first pound and three cents for each additional pound of fourth class matter. A graduated rate to cover the other zones would increase to 12 cents a pound in the eighth zone, covering points more than 1,800 miles apart.

The house provision outlined a straight 12-cent rate on parcels weighing up to 11 pounds.

Sore on Roosevelt

Tampa, Aug. 13. Sore to the core, C. H. Alston, the negro delegate who was thrown out of the Bull Moose gathering at Chicago, has returned to the city, and says that he will induce the people of his race to come out for Wilson. Alston does not like the Moose herdsmen's way of treating him and makes no bones of saying so in strong terms.

Purchased the Brady Store

C. C. Cobb, who recently purchased the Brady store on Gertrude avenue, has improved the same and expects to carry a larger stock of goods and not only cater to the country trade, but the city trade as well. Mr. Cobb recently had a store at Monroe, but saw greater possibilities nearer the city and recently made the change.

"Dissolving" a Trust

Those who have been rejoicing that the government had at last arisen in its might and smashed the big Standard Oil Trust are thinking differently now, with the increase of six cents a gallon for gasoline which has taken place the past few days.

Evidently, "dissolving" the trust isn't bringing about the expected reduction in the high cost of living. Of course, not all of us use gasoline, but the gasoline item is typical of the practical result of the smashing of the big corporations so gloriously accomplished by our great and good national administration.

THE HOUSE OF CUNNINGHAM

Due to its individuality of service; its individuality of methods; its increasing efforts in behalf of home-owners, this house-furnishing store has made itself known from one end of Florida to the other. Its prestige is by no means limited to Jacksonville—it is an institution for the State in general.

THIS store is the depot and market for the output of the finest furniture made in America, handling such products as are manufactured by Berkey & Gay; Chas. P. Limbert; Luce Furniture Company, and, in fact, all the very best concerns of Grand Rapids are fully represented. And upon the merits of such creations has this business attained the remarkable success that it is at present enjoying.

OUR PIANO DEPARTMENT

One of the finest appointed Piano Stores in the South is located on the first floor of our building. The display embraces only the finest makes—the kinds that are dependable and worthy. In the list are the "Steinway," the "Kohler & Campbell" and "Autopiano," all of which we, being State agents, are ably competent to handle throughout the State.

FOR the benefit of your home, your purse, your peace and contentment—

GET ACQUAINTED WITH CUNNINGHAM

D. L. THRASHER

OFFICE IN HERALD BLDG. SANFORD, FLORIDA

Dissolution and the fight that caused it cost the trusts a good deal of money and, now that they are doing business in the same old way, regardless of dissolution, they are naturally recouping their slightly depleted treasuries by increasing the price of commodities required by the people. We do not all use gasoline, but all of us eat meat and the same process which has put oil up six cents a gallon has been applied to the product of the humble, but necessary cow. Tampa Tribune.

Uncle Pennywise Says: When you ask a woman if she loves her second husband as well as she did her first she always answers: "Yes—differently."—Washington Herald.

# PERSONAL PARAGRAPHS

Mrs. O. W. Brady has returned from a pleasant trip to Saluda, N. C.

B. W. Herndon spent Saturday and Sunday with his family at Daytona Beach.

Mrs. J. B. Willis and J. B. Jr., left yesterday for Daytona Beach where they will sojourn for a few weeks.

A bunch of new Carter cars arrived in the city yesterday and were taken to Kissimmee, where there is an agency.

E. P. Thagard and C. H. Whitfield, state bank examiners, were in the city on Wednesday looking after bank affairs.

Mrs. R. J. Holly and the children left yesterday for Coronado Beach, where they will rubicate for several weeks.

Ben Bardin has returned to Sanford after an absence of several years and has decided to stay awhile and engage in business.

Mrs. A. E. Housholder of Plant City arrived Saturday evening and is the guest of her son, Dr. W. E. Housholder and family.

Rev. J. F. McKinnon was in the city over Sunday and preached at morning and evening services at the Presbyterian church.

The many friends of Louis James were glad to see him in the city again. He has been living in Jacksonville for several years.

A glance around the depot shows that the homeseekers are beginning to arrive in Florida and many of them are looking around Sanford.

Mrs. J. M. Lord has gone to Cedar-town, Ga., where her daughter resides and where Mrs. Lord expects to greet a new grandchild.

Harry Ward came in from Daytona Beach last Saturday to attend the funeral of Mr. Holden. Mrs. Ward and the girls returned yesterday.

J. H. Hayes of Nashville, Tenn., arrived in the city on Saturday to attend the funeral of W. D. Holden. Mr. Hayes is a brother of Mrs. Holden.

R. H. Muirhead and family returned last week from Fort Myers, where they had been spending the summer visiting and looking after business interests.

Out of respect to the memory of W. D. Holden, the managers of the Sanford and Orlando ball teams called off the game that was to have been played last Friday.

J. L. Gorusch is recovering from the effects of the accident in which he sustained a broken collar bone and will remain at the Sanford House until he is able to travel.

Saturdays will soon assume their accustomed air of prosperity and the workers in the fields will be filling up the streets and stores and Sanford will be Sanford again.

J. H. Overman is placing more new machinery in the Progress Laundry and in the early fall will start an automobile delivery to take care of his constantly increasing business.

Hon. Forrest Lake was called home Saturday by the sudden death of W. D. Holden. Mr. Lake is engaged in making a canvass of the state in the interest of his candidacy for Speaker.

Sanford seems to be very much in evidence at the beach these days and a visitor over there this week stated that about every other person you meet at Daytona Beach is from Sanford.

Every one who has taken advantage of The Herald's offer to give the paper one year and the kitchen set both for \$2.25 have been more than pleased with the offer and the kitchen sets will soon be exhausted.

Benjamin Drew arrived in the city Saturday to attend the funeral of the late W. D. Holden. Mr. Drew was in Kentucky preparing to start to California when the telegram announcing the sad news reached him.

Mrs. W. M. Igou of Eustis and Mrs. R. L. Jones and Miss Hoskins Jones left last Saturday for points in the north, intending to stop at Baltimore where Hoskins will take a course in the Nurses' School of Johns Hopkins College.

Mr. and Mrs. C. H. Hilton left today for their home in Chicago. We hate to lose these good people from the celery delta and hope that Mr. Hilton will be able to get away from his northern in-

terests long enough to come to Sanford again next season.

Mrs. Roberts left Friday for a visit to her old home at Mt. Olive, N. C.

Miss Alice Whitner will leave this week for Jacksonville, for a stay of several weeks.

R. R. Deas, the popular teller of the Peoples Bank is enjoying a few days at the beach.

Mr. and Mrs. Frank Johnson have returned from a pleasant visit with Mr. and Mrs. L. J. Hartley of Longwood.

Dr. Mason has returned from a three days' stay at the beach. He visited Coronado and Daytona and reports good fishing.

K. R. Murrell, Dan McKinnon and J. R. Walker made a merry party to the beach last week. They returned yesterday and Capt. Murrell wants to make affidavit about a jewfish that he caught weighing 400 pounds.

Mr. and Mrs. E. B. Brown have returned from their wedding itinerary which included Baltimore, Washington and New York, and they expect to be at home to their many friends at the residence of Mr. and Mrs. Chas. Hand for several months.

Mrs. C. H. Lefler, Mrs. Smith and daughter, Miss Lillie Fair, Misses Linda and Peachie Lefler, Frank Miltner and J. H. Roberts were a pleasant party who left for the beach Thursday to spend a few days enjoying the ocean breezes, returning yesterday.

The Sanford Herald has installed a new Smith Premier typewriter and it is a marvel of typewriting art. The keyboard was changed to conform to the keyboard of the typesetting machine and all the office force can now become proficient on both machines.

Mrs. James Jackson stopped off in the city for a few hours with her sister, Mrs. R. J. Holly on Sunday, being enroute home to Tampa after a vacation spent in the north. Mrs. Jackson is the able assistant to Prof. Bucholtz, Hillsboro's superintendent of public instruction.

Tracy McCuller and Will Stringfellow have returned from a two weeks' trip in which they visited every part of the United States and Georgia. Some folks here thought they attended the Bull Moose convention at Chicago and were led out by Teddy, but the boys deny the allegation.

Benjamin Whitner, son of B. F. Whitner, Jr., is enjoying the automobile trip to Virginia with Mr. and Mrs. S. O. Chase and the boys. Ben joined the party at Madison, and will spend the summer with them at Warm Springs and other points of interest at Virginia. Mrs. Harry Ward and daughters, Misses Madge and Fern, have returned from a pleasant visit to Coronado and Daytona beaches.

### Crime Wave in Jacksonville

Jacksonville, Aug. 13.—After weeks of unusual quietude for the Jacksonville police department, as far as petty thieving and robberies have been concerned, things seem to have broken loose again quite suddenly, and today the detectives and all members of the force are endeavoring to find the criminals who are now somewhere within the city portals.

This morning the detectives got busy on a robbery at the store of Paul Jones, a burglary at the store of C. D. Marrzio, the cracking of a safe at the Jacksonville Distilling Company's warehouse, a burglary at the home of L. B. Bryan and another burglary along the water front.

Whether all the thefts have been committed by one individual or not the detectives do not know, but it is hardly probable that one lone man is responsible for all these cases, which were this morning brought to the attention of the police.

### Notice

To Whom it May Concern: I have this, the 12th day of August, 1912, checked up my accounts and made final settlement with Miss Mary C. Halre, whose monies were invested in my fruit business. This morning hereafter she will be responsible for her own bills. Yours very truly, GEO. B. IVEY, Her Attorney.

Florida Game Laws

It is said that local sportsmen have been killing doves in the vicinity of Gainesville, they being under the impression that this species of birds is not protected by law; but doves can be legally killed only between October 1st and March 1st.

Following is a synopsis of the Florida game laws as embodied in the general statutes, acts of 1901:

What is always unlawful:

To kill capture, have in possession, living or dead, buy, sell or offer for sale any wild non-game bird.

To take or have in possession the nest of eggs of any wild non-game bird. Penalties: Fine of \$5 for each offense and \$5 for each bird or part thereof, nest or eggs possessed, or imprisonment ten days or both.

To have wild turkeys, quail or partridge between March 1st and November 1st. Fine, \$25 to \$100.

To kill in one day more than twenty-five quail or partridges and four wild turkeys. Fine \$25 to \$100.

To sell, offer for sale any wild turkey, quail or partridge. Fine \$25 to \$100.

To slip beyond the limits of the county where killed any wild turkey, quail or partridge. Fine \$25 to \$100.

To hunt on Sunday. Fine \$25.

For non-residents to hunt without a license. Fine not exceeding \$100.

To enter upon the enclosed lands of another that are posted, to hunt or fish. Fine, \$20.

Game Birds:

The following are the game birds of the state: Swans, geese, brant, ducks, rails, coots, mudheads, gallinules, plovers, snipe, woodcock, sandpipers, tattlers, curlews, wild turkeys, partridges or quail, turtle doves and robins.

Not Protected:

English sparrows, big and little blue darters (Coopers and sharp shinned hawks), the great horned owl, crow, rice bird, meadow lark. Hunters may take their game home with them in the state, but not for sale.

Open Season for Game Birds

Quail for partridges and wild turkeys, November to February, both inclusive.

Ducks, October to March, both inclusive.

Doves, October to March. Gainesville Sun.

A State Immigration Bureau

It is actual residents who put value into land. The wide stretches of fertile Florida acres need only settlers to make them the most valuable in the United States. How to get the people should be one of the serious questions before every board of trade, every commercial body, and every organization which wishes to see the state grow and prosper as it should. The Pensacola Journal takes up and discusses the question of a state immigration bureau, a proposition the Metropolis has urged for some time. It states that there should be some official source of information about Florida other than the real estate agent and the land company. Then continues:

Florida needs an immigration bureau. The state needs a man or set of men, it matters not what the aggregate is called, to tell the world the whole truth about this state. Florida needs to be advertised wisely, judiciously and systematically.

Intelligent farmers will not flock to the Canadian northwest to purchase farms in that bleak and barren clime, where they can work only six months in the year, when they can find out they can get good, fertile Florida lands in this equable clime for \$5 and \$10 an acre, and even cheaper. They will come here instead.

There is no doubt the present agricultural department of the state could do some good work along this line, if the legislature would appropriate a liberal sum of money and authorize the work done. The next legislature should economize in some other way and appropriate enough money to at least make an intelligent beginning.

Whatever is done must be done intelligently, thoroughly and systematically.

It will cost considerable money, but it will pay a hundredfold.—Miami Metropolis.

The Insurance Graft

The question of fire insurance rates is just now agitating the people in various sections of the state, and many papers are taking up the subject and through statistics are easily able to demonstrate that the people of Florida are being fleeced by the foreign companies which control the business. Frank R. Osborn of DeLand, writing from Cassopolis, Mich., the DeLand Record, says: "In this state are a number of mutual companies operating in a small territory, covering some three or four counties each. I have my dwelling house and farm buildings insured for \$6,000 in one of these companies and pay for this amount of insurance \$15 yearly.

The DeLand dwelling house is insured for \$2,000 and for this amount was \$30 per year in advance for one year or \$60 for three years. Adding to the \$60 the interest at 7 per cent for three years makes the cost on \$2,000 \$72.60. The cost of an equal amount of insurance here is \$15.00. That indicates a pretty fair margin of profit for the line companies. I have given the cost on exactly similar properties, for our DeLand dwelling house is in the country and neither there nor here have we any fire protection." A mutual company has already been organized at Tampa, and others will follow.—Palatka News.

Lyman Twins Orange Growers

Herbert Lyman was in the city yesterday from Forest City, where the Twins have a fine farm and orange grove called Lymandale, and where they have rusticated all spring after finishing up the theatrical season. The Twins have made as big a success in their grove proposition as they have in the theatrical business and now have a beautiful place that will yield them about 6000 boxes of fruit this year. Mr. Lyman stated that they will probably remain down on the farm until after the holidays as the season is a very dull one in the show business and they could enjoy life and make more money by giving their time and attention to the grove and also enjoy the simple life.

Florida for Hay Growing

A year or two ago a visitor at a county fair in a West Florida town showed twenty-nine varieties of hay.

A decade ago a newspaper published in the middle west, probably in Iowa, in an article on Florida, said it was folly for farmers to settle where neither hay nor grain could be grown and that Florida could produce neither.

It is good to print these two articles in juxtaposition. Ten years ago nearly everybody in the north and west believed that corn and hay could not be grown in Florida. Undoubtedly a great many people who have not yet been down this way, still believe this.

Yet so far as individual yields per acre is concerned, Florida is producing more corn than Iowa. The corn belt is slipping to the southward and after awhile it will include Florida.

And men on small Florida farms can and do produce twenty-nine varieties of hay.

Corn can be grown in Florida cheaper than in Missouri, Illinois, Indiana or Iowa.

Hay can be produced more cheaply in Florida than in Ohio, Pennsylvania, Michigan or Wisconsin.

That means a great deal in the raising of cattle, sheep and hogs in Florida. It means a great deal to a man who wants to make a good living on a small, low priced farm and in the most favored clime the world has known.—Pensacola Journal.

New Bridge for Daytona

The News is informed that contract has been let for the new concrete bridge over the Halifax connecting Daytona with Daytona Beach. Work will start at once. The bridge will be wide enough to provide tracks for autos, carriages, bicyclists, pedestrians, and for a street car line connecting Daytona with the beach. It is the intention of the parties behind the move to eventually extend the car line to DeLand and the St. Johns river.—DeLand News.

Woman and Baseball.

One reason a woman never really enjoys watching a baseball game is because she never can tell when the umpire ought to be killed.—Galveston News.

For Special Road And Bridge District The returns of the election held on July 15th, 1912, for the Board for the establishment of a special road and bridge district, and the payment for the construction thereof by issuing bonds to the amount of \$200,000.00, having been made to the Board by the inspectors of said election, the same were opened and canvassed by the Board and the canvass showed two hundred and nineteen votes for and thirty-nine votes against, establishing the special road and bridge district, the same to be paid by issuing bonds for the sum of \$200,000.00 as tax upon taxable property in said district, the majority being 180 votes in favor of establishing such district and issuing said bonds.

It is therefore ordered that the following territory shall be and constitute a special road and bridge district:

Beginning at a point on the Wekiwa river on the east side, on the Township line between Townships 19 and 20 South Range 29 East, and running thence east along said Township line to the section post at the northeast corner of Section 5, Township 20 South, Range 30 East, thence running south on said section line to the section post at the southeast corner of Section 29 (on south boundary of Section 28), in Township 20 South, Range 30 East, thence running east to the waters of Lake Jessup, thence following the north line of the waters of said Lake Jessup to the St. Johns river, thence following the waters of the St. Johns river on the south side of said river to the waters of Lake Monroe, thence following the waters of said Lake Monroe on the south side thereof, to the waters of the St. Johns river west of Lake Monroe, thence following the south line of said St. Johns river to its junction with the Wekiwa river, thence following the east side of the waters of the Wekiwa river to the point of beginning.

That said district shall be and the same is hereby designated as "Special Road and Bridge District Number One."

It is further ordered that this order be published in Sanford Herald for thirty consecutive days.

Done and ordered in open Board this 15th day of July, 1912.

B. M. ROBINSON, Clerk of Board.

"THE STRAIGHT ROAD"

"Well old Humpty Dumpty" said the Arab to his camel, as they were starting on a long journey, had you rather travel uphill or downhill?" "Fray Master" said the camel with significant wink, "In the straight way across the desert closed."

When you spend your money for Fertilizer, you are aiming to get results, and why choose a crooked, roundabout course to accomplish that aim, when the straight way lies invitingly open before you. In our Simon Pure and Gem Brands, the science of fertilization has reached its tidalwater mark. They are perfect as they stand, at the price we ask. Nothing could be added to make them better, nothing could be taken away without impairing their value. A quarter of a century ago, the Painter "way" was a tiny trail which rarely echoed to the tread of passing footsteps, but today it is a broad and beaten highway, the "Straight road" which thousands of growers are traveling yearly to success. YOU can take that road as well as not. There is every possible reason why you should, and absolutely no reason why you shouldn't. Write for free literature on whatever crop you are interested in. Get in touch with us before your next order is Placed.

## Winter Ball in Tampa

Tampa may be selected as a base ball college and winter quarters by Detroit, according to a dispatch received today, which states that Detroit is preparing to establish a base ball college in the south next fall with the idea of eliminating a large portion of the expense of training trips, and at the same time furnish training material for the major league managers to take to spring camps. At the college new players may be sent from league teams to be taught the science of base ball by former stars. The matter of offering inducements to the big leagues to establish their training camps at Tampa, and to send their teams here for spring training was brought to the attention of the board of trade this morning by a representative of the Times, and the board of governors in session this afternoon will consider the matter. Secretary Powell will be instructed to investigate the matter, and if there seems a probability that the big leagues may be induced to establish their training camps here without excessive demands on Tampa, the board of trade will very likely invite the establishment here of training camps and the base ball college.

President Bower's board of trade stated this morning that if training camps could be established here without the city having to stand too much expense, and if the leagues would play "real ball" here, it would prove an attraction to visitors. He does not, advocate, however, any decided steps in the matter of invitation until the proposition has been thoroughly investigated. President Bower agreed to bring the matter to the attention of the board of governors this afternoon, and request Secretary Powell to investigate further. — Tampa Times.

## Brick Roads for St. Johns

The St. Johns board of County Commissioners will, if present plans are carried out, give the voters of St. Johns county an opportunity to vote on the bond question for good roads. The proposed amount of \$200,000, which the members of the board advocated is sufficient to carry forward the work, so say those in a position to know, and will meet with considerable opposition. They claim that the \$200,000 will simply do a few miles on the Jacksonville road and the same on the Hastings road. The good roads boosters want the county to bond for half a million dollars, and a committee will appear before the board of county commissioners at its next meeting and urge it to make the issue \$500,000, and to build a brick road to connect up with Duval, Volusia and Putnam counties. What they want is a first class road that will go somewhere.

## An Entertaining Firm

About four and one-half years ago the well known firm of D. A. Caldwell & Sons opened up a department store here on a very small scale. They are now carrying large stocks of clothing, ladies' and gents' furnishings, shoes, furniture and a thousand and one other articles incidentally sold in a department store. Ever since this firm opened up their chief aim has been to see how much they could sell of the highest grades and quality of merchandise for the least amount of money.

Following their usual custom, one or two members of the firm will go to the eastern markets for their large fall stocks, and beginning Friday, Aug. 16th, D. A. Caldwell & Sons will put on one of the most mammoth saving selling events ever held in Sanford. See their large double page advertisement in this issue.

## Thieves Visit Colbert

Some thief visited the farm of W. M. Colbert on the west side last Sunday night and stole some seed bed cloth and several galvanized tubs. Mr. Colbert has determined to protect his property and has offered a reward for the arrest and conviction of the guilty parties. Mr. Colbert has also given his foreman orders to arrest all trespassers on his farm in the future and this rule will be enforced at all hazards.

## Will Publish Sanford Directory

Dr. Miller, who by the way is the busiest man in Sanford these days with his medical practice and medical directories, states that as soon as he can issue the directories that he now contemplates that he will issue one for the city of Sanford and one that will be the most comprehensive and complete that has ever been printed for this city.

## TO LOWER EXPRESS RATES

### Florida Railroad Commission Will Cut Express Tariffs

Jacksonville, Fla., Aug. 9.—Following the rules of the Interstate Commerce Commission that express rates must be reduced, the Florida Railroad Commission has issued a notice to the Southern Express Company in regard to a reduction within the state. A meeting is called of the commission to be held at Tallahassee Sept. 3 to consider whether or not certain schedules or rates and classifications shall be put in operation. This refers principally to fruits and vegetables and strawberries between points in the state. The Southern Express for years has gouged the growers in the state, not only in intra-state shipments, but also in interstate shipments, and it now looks as though there will be some relief.

The classification to be considered at this meeting is known as traffics A and B. The commissioners have notified the Southern's officers that they will give them a fair hearing. Tariff A is rates on fruit and tariff B on vegetables. Some comparisons of the rates now in and those which are proposed to be in effect are interesting. The express rate now for a 25 mile haul of oranges is 25c box, and it is proposed to make this distance is 25c crate and it is proposed to reduce this to 15c. Oranges on a 100 mile haul pay 35c box; proposed reduced rate, 27c. Vegetables for a like haul are now 35c; to be made 20c. For a 200 mile haul the present orange rate is 45c; proposed rate, 27c. On vegetables for the same haul it is 35c crate; proposed rate, 25c. With such reductions as these within the State and others proposed by the Interstate Commerce Commission out of the State, Florida growers will have a better showing to make money on vegetables than ever before. There is little doubt that the Railroad Commission will put these reduced rates into effect and the only way the Southern can maintain the present rate is to make a fight. Even if this is done the present tariffs cannot eventually be maintained. — Produce News.

### STATE HAPPENINGS BOILED DOWN FOR THE BUSY

**A Brief Resume of Florida Happenings That Will Interest The Hurried Reader**

The State Bank of Palatka formally opened its doors for business last Saturday and the first day's transactions were exceedingly gratifying to the officials of this, the third banking institution for Palatka.

It is possible that the Moisant international school of aviation will be established at Tampa during the coming winter.

Marion county citrus growers and truckers have formed a mutual protective association.

Twenty-three mills is the tax levy decided upon for Pinellas county for the coming year by the commissioners.

Lakeland will have more visits from the long haired itinerant preacher. An ordinance has been passed placing the license for such performance at \$5 per day, and we guess they will seek greener pastures. Other towns should emulate Lakeland's example and do away with all fakirs. Lakeland Telegram.

Gov. Gilchrist has issued warrants directing the execution of the death sentence upon Cain and Fortune Perry on Friday, Aug. 14th. The two men were convicted in May, 1912, by the circuit court at Gainesville, of murder in the first degree.

John C. Knight was arrested in Ocala on a telegram from Tampa and held for the arrival of Sheriff Jackson, who came after his prisoner, taking him back to Tampa yesterday. Knight lived in Ocala until a few months ago, when he went to Tampa to enter the employ of the Southern Express Company. He was in the employ of the express company at Tampa for a time, but later has been working for the Walker Construction Company of Tampa.

On account of the \$150,000 bond issue at Lakeland being sold some time ago at private sale, it was decided that the issue be re-advertised. The last sale took place yesterday afternoon, the bonds going to the Southern Asphalt and Construction Company of Birmingham, Ala., they paying par for the same, less 3 per cent expenses, but the city of Lakeland to receive the accrued interest since March 1st. As money saved is money made, this will practically give Lakeland a premium of over a thousand dollars on the issue. As soon as they are approved by the New York attorneys work will be commenced on public improvements.

County commissioners of Santa Rosa county will consider petitions for a sub-tax district to be established for the purpose of obtaining funds with which to build a system of good roads in this county and the county's half of the expense of the bridge across Escambia river, connecting Santa Rosa and Escambia counties. The present board of commissioners pledged the building of this bridge and a hard road across the county. Fourteen thousand dollars is the amount Santa Rosa is spending on the road building this year. Milton Star.

#### Meat Will Be Higher

The highest price ever paid for cattle in the United States was given yesterday at the Chicago stock yards, when beef on the hoof brought \$10.40 per hundred pounds. The nearest approach to this price occurred last week when \$10.25 was paid. A Tuskola, Ill., dealer, got the highest price for an entire lot of corn-fed cattle.

#### Will Move to Sanford

F. J. Brusie, who was here several weeks ago with his little girls and made such a hit at the Imperial, will come back to his first love and make Sanford his home.

Mr. Brusie lived here about twenty years ago and was employed at the railroad shops at the time. He afterward drifted north and gave up the trade to engage in other lines, and had never

seen Sanford until he was here a few weeks ago when the old longing to don the overalls took possession of him and he applied for the old job and received it.

He will bring the rest of the Brusies, the bright, breezy Brusies and settle down in the land of flowers for all time. We welcome them all back to Sanford. Once they get the Florida sand in their shoes it is only a question of time when they will wander back. It may take them twenty years to make up their minds but Florida will finally get them.

#### Presented With Watch

As a testimonial of their regard and well wished the employees of the Jacksonville division, A. C. Terry, presented D. G. Wagner, the retiring trainmaster with a beautiful gold watch, fob and chain Wednesday afternoon.

All the boys that were off duty congregated in the trainmaster's office and Supt. Higgins, who was on to the racket, kept Mr. Wagner upstairs until the crowd had gathered, and when he did arrive at his office he was unaware of what was going to happen until C. O. Taylor stepped forth holding the present in his hand, and in a few well chosen words presented the gift.

Mr. Wagner was so overcome with emotion at this token of regard from the boys that he could not speak for several moments, but finally rallied and thanked them all for their appreciation and regard. He also asked for their hearty cooperation and aid in the work of his successor and said that though he was leaving the service he hoped to see all the boys from time to time and wanted to hear good reports from them and know that they were succeeding and making good all the time.

The watch was a Howard, the watch so dear to the railroad man's heart, and was inscribed as follows:

To Trainmaster D. G. Wagner from the boys of the Jacksonville District, A. C. T. R.

The chain is of solid gold, twisted, and the charm contains a diamond setting and is embossed with the Knights of Pythias emblem on one side and the Masonic emblem on the other.

The gift and the spirit in which it was given demonstrates the high esteem in which Mr. Wagner was held by the associates and employees during his seven years' service with the Atlantic Coast Line Railway.

Mr. Wagner resigns to engage in other business and will probably leave Sanford much to the regret of his many friends.

#### New Hotel Progressing

W. T. Fields reports that the work of getting subscribers for the new tourist hotel is almost finished and this week will settle the preliminary subscription. In the midst of the summer season and in the face of many difficulties Mr. Field has performed yeoman service in inaugurating this great movement and deserves the thanks of every citizen of Sanford for going out singlehanded in the byways and hedges and getting up these subscriptions from the people. In a few days he will call the first meeting of the local stock holders and definite plans will then be formulated for the launching of the enterprise. If all the citizens of Sanford could realize the importance of the hotel proposition on our business life there would be more boosting and more money forthcoming from the people who are well able to give liberally.

#### Postal Clerks Not Slaves

An attempt to amend the postoffice appropriation bill to prohibit postal employes from joining secret organizations outside the department was defeated in the senate today by eleven votes after a sharp fight in which a possibility of a strike against the government was freely discussed. LaFollette refused to go further in his charge that officials had rifled his mail.

## STATE BOARD OF TRADE

**Formed in Kissimmee Yesterday at Good Meeting**

### WHITNER PRESIDED AT MEETING

**Officers for Year Chosen and Next Meeting of Organization Will be at Ocala**

Sanford's representatives to the meeting for the purpose of organizing a State Chamber of Commerce at Kissimmee yesterday have returned home and report the formation of a permanent organization. Hon. J. N. Whitner was elected as chairman of the meeting and presided with vigor and dignity. The annual meeting will be held in Ocala, H. Clay Standford of Kissimmee was elected president and H. H. Richardson of Jacksonville was elected secretary. Hon. J. N. Whitner was made third vice president.

The organization of this civic body has for its purpose the promotion of such laws and measures as will give the most publicity to all of Florida, work for good roads and also attempt to get the next legislature to make an appropriation to get out advertising matter descriptive of the possibilities and resources of the various portions of the state.

It is thought by some that the location of the secretary in Jacksonville will not be for the best interests of the organization but time will only tell whether this assumption is correct or not.

The chairman selected the following committees:

Credentials: J. J. Edwards of Lakeland, W. R. Royster of Palatka and E. Warner of St. Petersburg.

Resolutions: T. K. Bates of Sanford, C. H. Ward of Miami and John T. Cox of Lakeland.

Constitution and By-Laws: H. H. Richardson of Jacksonville, J. H. Humphries of Bradentown and E. M. Taylor of Titusville.

#### UNCLE SAM A BAD MAN

##### More Cigarettes Smoked and Rum Drank Than Ever Before

Washington, Aug. 11.—The people of the United States produce more whiskey and rum and smoked more cigarettes during the fiscal year 1912 than ever before in the history of the country, according to the preliminary report of Royal E. Cabell, Commissioner of Internal Revenue, submitted to Secretary McVeigh today.

The consumption of whiskey was exceeded only by the year 1907, but beer drinking fell off by a considerable percentage.

The unprecedented smoking of 11,221,624,084 cigarettes exceeded the records of 1911 by nearly 2,000,000,000 amazed treasury officials.

Stored in warehouses the country over are 263,786,070 gallons of whiskey and rum, the greatest on record.

The record production of these intoxicants for 1912 was 188,000,000 gallons, or 13,000,000 gallons greater than 1911. The consumption of whiskey and rum for 1912 was 133,377,458 gallons, the nearest approach to the record of 134,031,000 gallons in 1907.

#### Development in Florida

"Travel where you will in Florida, and it is the same story everywhere—developments, building, expansion," said Percy P. Vyle, the general manager of Vyle's Advertising Agency of Jacksonville, who passed through Sanford this week and stopped off between trains to chat with The Herald.

"The present developments are necessarily requiring large sums of money to carry on, and the fact that many large projects are being carried to a successful completion points to the one important fact that northern capital, so long shy of anything Floridian, is at last recognizing the possibilities of safe investment at higher percentage than hitherto they believed possible.

"The purchase of large tracts of land for colonization purposes has now reached the stage where the majority of absolutely clear title land has been taken up and the now available lands have various strings of timber, turpentine and

other bases attached to them—strings which are holding up many would be purchasers, and which prevent the selling of the land with absolutely clear, cloudless titles to settlers.

Mr. Vyle spent the first days of the week in Eustis, where he went in response to invitation of the Eustis Board of Trade to take charge of Eustis' new descriptive booklet, advertising our picturesque situated neighbor.

The signature of Vyle on Florida Board of Trade booklets is now a familiar one, being a credit to the Board of Trade for employing professional help, and to the man who has made a study of municipal advertising.

#### Limes Have Good Market

Only a few years ago limes were a drug on the market. Nobody wanted them. At the present time they sell readily. Chase & Co. are now shipping about eight barrels daily from Miami. Hooks & Hughes shipped 30 barrels last week and receive about a car a day at present although last week they received five cars on one day. These limes are from the keys and are of a very good quality. Homer Hughes, of Hooks & Hughes says that the key limes stand shipment better and also bring better prices than do the mainland limes. He reports that they are not troubled with the stem rot as they were last year. Boats are a necessity in hauling the limes from the keys and quite a number of boat owners are making this a regular business. Miami is consuming at present quantities of watermelons. DeLand News.

#### Improves Dental Parlors

Dr. Cecil Butt has recently made extensive improvements in his dental parlors in the Yowell building. A new chair, one of the finest and latest improved models, two motors, new drills and other instruments of torture, all with electrical appliances, and the general doctor is now equipped to do all your dental work in record time. He was formerly handicapped in having but one chair, but this has been overcome, and with two well fitted offices and all the very latest machinery Dr. Butt undoubtedly has one of the finest dental parlors in the state. The public is cordially invited to inspect the office and see the wonderful mechanism of modern dentistry.

#### Chalker is Succeeding

Several months ago Chalker & Co. took over the Keely Garage on Oak avenue and though handicapped from the start by the run down condition of the place have forged steadily ahead and gained a reputation in Sanford for doing good work and giving the customer a square deal.

In a few weeks Chalker & Co. will have some new cars for the inspection of the purchasing public. They have deals on with several well known manufacturers of cars and have not yet decided upon the car that will be their leader, but they purpose to handle one high grade car and one light weight car for light and heavy pocket books. They are also equipping with new machinery for their repair shop and will later in the season put on a good livery service.

#### Though Blind Makes Hammocks

Among the many scenes of interest to the tourist in Orange county is the colony of negroes at Eatonville, where they have their own municipal government and live in peace and contentment.

Among their number is a blind negro man named Livermore, who has the touch and genius of Blind Tom, though not in the musical line. Livermore makes hammocks and his specialty is the brilliant red, white and blue hammock that is attractive wherever seen. He was in the city yesterday and had election tickets printed for the city election at Eatonville, in which he is a candidate for alderman.

In the hunt for evidence to convict the murderers of the gambler Herman Rosenthal, the state's attorney and the grand jury have unearthed a wealth of information showing that the gamblers and keepers of disorderly houses paid sums aggregating hundreds of thousands of dollars yearly for police protection. With the cooperation of all the banks in the city, District Attorney Whitman has been able to secure the names of four police inspectors whose bank accounts ran into several hundred thousands.

Within three hours after President Taft had sent back the steel tariff bill to Congress with a message of disapproval, the House today passed it over his veto. The vote was 173 to pass it, 83 against it, and one present and not voting. It is not expected to pass the Senate. In a message to Congress, the President said he disapproved the measure, because it provided for revenues only, and took no account of protection for American industries. He condemned the ways and means committee for refusing public hearings on the bill. His veto was expected.

William Bruce McMaster, American vice consul at Cartagena, Colombia, has been shot and killed. Dispatches to the State Department today reporting his death do not say whether it was an accident or a murderous assault. An investigation is being made. Mr. McMaster was killed last Sunday "while hunting," according to the report of the State Department. An attack upon his life two years ago and the strain imposed upon his relations with the Colombian judicial authorities because of his efforts to punish the would-be assassins excited the suspicion of officials there as to the cause of his death.

Governor Wilson will open his speaking campaign in Pennsylvania, according to present plans. The Governor today accepted an invitation to speak at the state granger picnic within two weeks. The location and date will probably be announced later.

The pension bureau today faces the greatest financial crisis in its history as the result of lack of funds to pay pensions. The San Francisco agency has a balance of exactly seven cents, and Detroit only four cents. Reports from all agencies received at the bureau tell the same story, of no money for the veterans and their dependents on the nation's pension lists. This condition is due to the delay of Congress in passing the pension appropriation bill. The extension of the old appropriation bill for a 15-day period so that one twenty-fourth of last year's appropriation might be used to pay less than one-half of the \$15,000,000 due on August 1, has left 200,000 pensioners unpaid at Indianapolis, Knoxville, Louisville, New York, Philadelphia, and Topeka. There is no hope for them until Congress acts.

President Taft has been presented with a fine basket of East Indian mangoes raised in the United States. The bureau of plant industry, which is experimenting with hundreds of foreign fruits in the effort to find new varieties which will grow here, raised the mangoes in Florida. They came from a tree presented to David Fairchild, chief of the bureau of plant industry, when he was in India some years ago, by one of the princes. Mr. Fairchild says mango growing in the United States can be made a commercial success.

"We regard our enemy in this campaign as the 'ancient enemy'—the Democratic party," declared Chairman Hilles of the Republican national committee. "And we regard Mr. Wilson as the man we will have to defeat to re-elect President Taft." "Our friends," said he, "think the tariff will be the issue in this campaign. Mr. Wilson has emphasized the tariff question, and I am inclined to think that the fight for the Presidency will center about that issue."
