Mussolini Mobilizes Legions; Prepares Them For Voyage

ROME, Mar. 27.—(AP)—Informed Italian sources said Count Dino Grandi, Rome's ambassador to London, assured Great Britain that Italy does not intend to send more volunteers to the Spanish civil war.

The authoritative statement was qualified in Government circles to embrace this statement: "Unless other nations start to send volunteers again."

However, in Rome last night Premier Benito Mussolini was reported to have concentrated new divisions of his troops for immediate dispatch to Spain if the rebel generalissimo, Francisco Franco, suffers another major setback.

Security Act Ruling Seen Before June

Federal Government Joins Alabama Company In Seeking Hurried Action

WASHINGTON, Mar. 27.—(AP)—A Supreme Court ruling before June on the constitutionality of the Federal Social Security Act became possible today when the Government joined an Alabama corporation in asking for a quick ruling on the validity of the law.

Solicitor General Stanley Reed, speaking for the Government, asked the court to pass on the litigation filed by Charles C. Steward Machine Company of Alabama in an effort to recover from the Alabama collector of internal revenue \$16 paid as a tax under the Social Security Act.

Both the Northern Alabama Federal District Court and the Fifth Circuit Court of Appeals ruled against the company.

Rainfall In City Hits 2.25 Inches

Rainfall in Sanford through last night totaled 2.25 inches, according to an official report made at 8 A. M. today by G. P. Paxton, City weather observer.

Mr. Paxton thumbed through his records to uncover the fact the recording was the greatest since June 8, 1936, when a plentiful amount fell.

However, the weatherman pointed out last night's and this morning's deluge came within a period of eight hours and consequently is more unusual.

Fifteen Millions Could Be Fed From State Soil

Florida Has 60,000 Farms Comprising An Acreage Total Of 6,000,000; Produce Highly Valued

Florida has more than 60,000 farms with a combined acreage of almost 6,000,000 acres. The State is divided into 67 counties.

The total value of Florida agricultural products in 1936 was more than \$170,000,000 of which fruits and vegetables contributed \$47,000,000.

More than 1,500,000 acres of potential land for cultivation only some 500,000 have been subdivided and approximately only 1,150,000 are in actual cultivation in Florida.

"Florida's agricultural products jumped in value from slightly more than \$150,000,000 in 1935," (Continued on Page Three)

WPA Is Expected To Start More County Projects

New WPA projects for Seminole County are looked for within a few weeks, W. S. Earle, work director and engineer, said today in explaining that agricultural labor is beginning to be released and returning to Government work.

No definite reports on opening approved jobs have been received by the local WPA office, Mr. Earle announced, but he indicated that the release of labor on the farms in this section has had an influence on beginning new endeavors.

The work director said he and his employees on the High School Athletic Field project at present. They are occupied chiefly with leveling off a football field, removing the sand from higher places of the gridiron and dumping it into a sink hole to build up the terrain for a diamondball field.

At the Farmers' Market, Mr. Earle reported completion of the assembly shed where growers may place their wares to accumulate a carload lot of produce. One more (Continued on Page Two)

A Dangerous Precedent

One of the outstanding characteristics of the social struggle which is taking place throughout the world is the difference between the mental attitude of the participants in this country and those of certain other countries. Particularly when the contrast is applied to the "sit down" strikers and the Loyalist forces of Spain does one thank Heaven for America.

Photographs of the Spanish revolution published in the newspapers during the past few months have been uniform in at least one respect. Whether the picture happened to be taken behind the rebel lines at Guadalajara or among the ragged and battle-worn ranks of the Loyalist army, one significant feature has stood out. The expression on the face of every soldier and every civilian, plain and unadorned, was a mixture of viciousness and vengeance which defies comparison.

At the same time many pictures have been published of "sit-down" strikers who have taken this country by storm during the past few weeks. Workers in one place or another from the Atlantic to the Pacific have revolted against the established order, have seized possession of property which they did not own, and have conducted an epidemic of "sit-down" strikes in this country without comparison.

But in almost every instance that we have seen, the pictures show the "sit-downers" in a good humor. They are laughing, dancing, singing songs, apparently, having the time of their lives. Customers at stores, and guests in hotels who have been inconvenienced by the strikes, have taken it all in good spirits and have been pictured grinning sheepishly as they have been ushered out. Photographs of five and ten cent stores "sit-downers" look more like the pictures of a college prom or a church picnic.

So far it has all been good clean fun, and a relief from the loss to the nation of two or three billion dollars through the decline of production, no harm has been done. Let us hope they can keep it that way. As long as the "sit-down" in these strikes can laugh, and to some extent at least see the other fellow's point of view, even when taking it "on the chin," there is some hope for the country. If they can only keep it this way until the troubles are finally settled without bitterness and bloodshed!

CANDLELIGHT
 By NINA OLIVER BURT

"Knowest thou the land where
 the lemon-trees flourish,
 where under the shadowed
 leaves the golden oranges
 gleam?"

Fifty years ago a group of men met at the old Ocala House in Spain. Florida history was made that day, for they organized the Florida Horticultural Society, a society that was destined to play a significant role in the development of the state's citrus industry.

On the afternoon of August 1st, 1887, the Florida Horticultural Society held its first meeting at the Ocala House. The meeting was held in the parlor of the house, which was then owned by the late Mr. J. H. Burt.

The meeting was attended by a number of prominent citizens of Ocala, and it was during this meeting that the Florida Horticultural Society was organized. The society's first objective was to promote the citrus industry in Florida, and to this end it has since that time been actively engaged in various projects.

The society's first meeting was held in the parlor of the Ocala House, which was then owned by the late Mr. J. H. Burt. The meeting was attended by a number of prominent citizens of Ocala, and it was during this meeting that the Florida Horticultural Society was organized.

EASTER—THEN AND NOW
 By REV. J. R. BURT

BE DEAD!
 And with him perished all
 that was held dear;
 Hope lay beside him in the
 sepulchre,
 Love grew more cold, and all
 things beautiful beside
 Died when He died.

BE BORN!
 And with Him came
 life and light;
 Men said, "Nay, 'tis but
 death and darkness;
 And joy and truth and all
 things fair
 Died when He rose."
 (Author Unknown)

It may be not by chance that Easter falls in our Northern hemisphere at a time when much of our land has lain through weary months shrouded in despair; that nature's hopes mute and leafless; that the mystery took place long ago beneath a Syrian sky. The beams of the rising sun fell upon a naked rock, smothered with luscious blood, impregnated with life, and then came the dawn of a new day.

On the afternoon of August 1st, 1887, the Florida Horticultural Society held its first meeting at the Ocala House. The meeting was held in the parlor of the house, which was then owned by the late Mr. J. H. Burt.

WPA Is Expected To Start More County Projects

Construction work from next week on will be marked off the list as finished.

Workers will be assigned to paint the roof of the large Market shed within a few weeks, the director disclosed.

Activities at the Municipal Athletic Field are confined principally to repair work on the grandstand which should be done within one week.

Mr. Earle said the County WPA is waiting for a shipment of paint to apply to the stand.

Disasters Claim 888 Lives Through First Quarter Of Year

Estimated from 1932-1937 for a landing at San Francisco, swung out over the bay on Feb. 11 and plunged into the water. All 11 aboard were killed.

Thirteen persons lost their lives in Thursday's plane crash near Pittsburgh.

A huge bus loaded with passengers was traveling through the Florida Everglades along the picturesque Tamiami Trail on the morning of Jan. 25. Something went wrong and the bus plunged into the canal alongside the road, drowning 17 passengers.

A "freaking" party of entrants in a roller skating derby, traveling by bus on an Illinois highway Wednesday, came to a tragic end when the machine hit an abutment, caught fire and cremated 10 of the passengers.

You hear a great deal about the so-called 5 to 4 decisions of the Supreme Court. As if most Supreme Court decisions were by a majority of 5 to 4. But the fact is that throughout its entire history only eleven sets of decisions have been invalidated by this narrow margin. Of twelve sets held unconstitutional in the last four years, six were unanimous decisions, two by a vote of 5 to 1, one by 5 to 3, and in only two cases was a law invalidated by a 5 to 4 decision.

Early appearances indicate that the state administration and the Legislature will engage in a knock-down drag-out fight over the enactment of a sales tax. The Legislature as a group appears to favor such a tax as the easiest way of raising all the money which various well-organized groups in Florida are demanding. Gov. Cone insists he will have no sales tax, will veto it if the Legislature persists. The real question is whether it can be passed over the Governor's veto. We doubt it if we can, and believe most people hope it can't.

With Floridians at the Capital

By BEN GRANT
 WASHINGTON, Mar. 27.—(AP)—Florida has a good chance, apparently, to get a \$270,000 federal job, despite the unsuccess which delegates members felt after the house appropriations committee called the item from the justice department supply bill.

Representative Millard Caldwell of Milton, a member of the subcommittee which prepared the bill, lastly demanded an explanation when the original bill appeared without provision for the Tallahassee installation.

The omission, he was told, resulted from insufficient information from the justice department on the need of adding \$270,000 to the \$200,000 already allotted for the Florida jail.

Accordingly Representative Mr. Milton (D-R. C.) chairman of the subcommittee, asked the house a few days later to insert in the bill appropriations totaling \$1,100,000 for the jail at Tallahassee, Sanderson, Miami, and Lee Annex. Without debate, the amendment passed.

Members of the delegation said they were confident the senate would approve the bill appropriations.

Some surprise was expressed here that the subcommittee recommended appropriation of the full \$270,000. Sanford Times, private bureau director, suggested that the amount to be provided next year, half the following year.

Floridians here said they would be interested in the activities of the Florida delegation in Washington. Without West 1937, the Florida delegation's court case against President Roosevelt's court reorganization plan.

A campaigner for the bill, he has been "wanted" by friends. But he "denounced" Roosevelt's court reorganization plan as soon as it appeared as an attempt to "steal" the supreme court.

The Accident Prevention Conference indicated today it was ready to urge enactment of a driver's license law by the legislative session which opens next month. When Governor E. D. Sivert signed a driver's license bill this week the conference issued a statement which called for "another important forward step" in its nationwide campaign.

THE SANFORD FORUM

Editor Sanford Herald:

There are many foolish and absurd expressions at this time in regard to the Supreme Court. Mr. Roosevelt is being accused and criticized unjustly.

Because he wants new blood and younger men on the Supreme Court, he is trying to pack the Court.

Under the number of judges of the Supreme Court was determined by Act of Congress in 1789, and that would have been the number of judges of the Supreme Court.

Mr. Roosevelt is not trying to pack the Court. He is trying to get rid of the old judges and get in new ones.

Several of the Justices are deaf, a few with bad eyesight, one has a special chair made to hold his back and neck in position.

Western Cowboys Ponder Whether To Court Girls

Puncher Made For Work, Declares One Faction; Give Gals Romance, Says Other Group

By ROBERT GIGER AP Feature Service Writer CHENEY, Wyo., Mar. 27.—(AP)—If the mean old man bright should be courted by a lass in a quiet mood, by a larking brook, should he whisper: "I love you?" If an actress there, should he turn cold? The wild and sometimes wily way in choosing up sides over whether dude ranch cowboys, after wrestling steers all day, should spend their nights courting, forming friendships from the offshoot.

Charming eastern girl came to the ranch and now she is Mrs. Wilver. Today she is one of the best dude ranch hostesses in the business. Belden, who has one of the largest dude ranches in the west, says Wyoming and not cowboys should provide the "atmosphere" for a dude ranch vacation. "Good cowboys are needed. In the summer they have the duties in spring and fall branding, dehorning and weaning of calves. A 'dude store' cowboy can't do it. "The atmosphere idea is all right maybe, but it runs up all overhand, decreases general efficiency and is just an out of place as a uniformed groom would be on a western ranch. "A cowboy should be honest and weather beaten." Paul Holmes of Encampment, who herds dudes and white-faced cattle in the Saratoga valley, said he has no place on his ranch for a couple who "can't punch cows."

Interior Madrid Feels Shrapnel In Rebel Air Raids

MADRID, Mar. 27.—(AP)—Shell shrapnel hurt among crowds in Madrid's streets and insurgent air bombs showered on important Alcaldia de Henares today in reply to smashing Spanish government drives on three sides of the capital. Several persons were reported wounded at the noon hour when an insurgent cannonade sent showers of debris into the main thoroughfare. Twenty miles to the east at Alcala, as insurgents, insurgent bombers caused unestimated damage. A new Government offensive on the northwest and new victories in the important mercury mining lands to the south followed swiftly, however, upon the Government's Guadalajara successes northeast of Madrid.

The King And The Chorus Girl Shows Here Tuesday Only

A new star, with a genius for quiet comedy and high voltage romance, flashes on the cinema horizon!

He is Fernand Gravet, screen boy of the Continent, whose first American picture, "The King and the Chorus Girl," shows Tuesday at the Ritz Theater.

His fame abroad is understandable after seeing this picture. M. Gravet is handsome in a tall dark haired, broad-shouldered and thoroughly masculine way. Add to that masterful acting, a warm and friendly personality, an excellent speaking and singing voice and you'll understand the elation of Mervyn LeRoy when he signed him to a contract last year.

In "The King and the Chorus Girl," Mervyn LeRoy's first picture as a producer for Warner Bros., M. Gravet plays the role of wealthy, spendthrift ex-King Alfred VII who tumbles madly in love with an independent little American chorus girl, portrayed by Joan Blondell. The king loves the chorus girl, she turns up her nose at him, and the merry, merry fun is on.

Edward Everett Horton is magnificently humorous as the worried uncle of the profligate king.

"Her Husband's Secretary" To Show On Friday

With Jean Muir, Beverly Roberts and Warren Hull as the three points of a new sort of movie triangle, "Her Husband's Secretary," a First National melodrama, shows Friday at the Ritz Theater.

Unlike the usual triangle story which is entirely of the "intellectual" type—wherein the characters solve the situation by conversation, this one is solved by a novel and thrilling climax.

Such physical things as a man riding a steel glider 150 feet in the air, and an inferno of a forest fire threatening all the leading characters, were brought into the story by its author, Crane Wilbur, the veteran hero of many a movie picture in the old days of silent pictures.

"LAST OF MRS. CHEYNEY"

Ultra-smart comedy in which three of Hollywood's top-flight stars participate, is the attractive fare at the Ritz Theater where Metro-Goldwyn-Mayer's "The Last of Mrs. Cheyney" shows Sunday and Monday.

The film, of course, is based on the famous play by Frederic Londale. Miss Crawford appears in the title role as the lovely American widow who creates a flurry in exclusive London society. Her butler, portrayed by Powell, is the height of butler perfection and the gentlemen of London fall in love with her, as the ladies glance admiringly at her servant.

Meanwhile, an older lady has written his love letter in a letter which she has destroyed, but the old gentleman doesn't know that. Inasmuch as he has roundly scolded his fellow socialites in the letter he is considerably agitated. The whole matter is cleared up when the butler is discovered to be the cook. As Miss Crawford becomes "The Last of Mrs. Cheyney."

James Dunn Heads Uproarious Comedy Showing Saturday

"Come closer, folks! That's right—just a little closer—fine! Let me tell you into my confidence. Let's pretend that you and I are alone somewhere over a warming cup of coffee, and we're talking like old friends. I want you to take a look at one of the funniest, fastest pictures that have been around these parts for months!"

So would the Broadway "pitchman" or anybody else, when he tells you about Columbia's "Come Closer, Folks!" the film dealing in comic fashion with the expected of those, old-time pictures, which show Saturday at the Ritz Theater and this time he would be exaggerating. For it is really a chunk of valuable comedy.

James Dunn, in the starring role, does one of the best jobs of his career. As a fast-talking pitchman he catches some of the most hilarious lines in a month. Alfred March performs excellently as a poor, small-time girl who tangles with the slick pitchman. Wynne Gibson performs, too, in good to the first laugh. And George McKay, Herman King and Gene Lockhart also contribute generously to the merriment.

IN "ESPIONAGE" HIT

"Espionage," a story with the flavor of today's headlines, filmed at the Metro-Goldwyn-Mayer studios with Edmund Lowe and Madge Evans in the leading roles, shows Wednesday and Thursday at the Ritz Theater.

This is a narrative that describes the studied movements of a millionaire munitions maker who suddenly vanishes. A star reporter is promptly assigned by an American newspaper to trace him and an opposition sheet gives the same job to a girl reporter, a star worker herself.

Gambling With Souls At Princess Two Days, Thursday And Friday

A truly sensational film, as timely as today's news, is "Gambling With Souls" showing Thursday and Friday at the Princess Theater. The startling expose of an amazing vice and crime ring in one of the nation's biggest cities which recently held the front page attention of the country, forms the basis and background of this unusual picture which features a brilliant cast including Martha Chavin, Bryan Washburn, Wheeler Oakman, Gaston Glass, Ed Crane, Florence Dedley, Robert Frazer, and Vera Steadman.

For the first time on the screen the great vice industry that flourishes in our modern big cities, claiming as its victims innocent women powerless to escape from the clutches of these vicious schemers. An amazing story told with a bold frankness.

Defies '13' As Jinx, Bad Luck Follows

Death Valley was so named in 1849 when 15 of 36 gold seekers perished there.

Irene Dunne Here In Return Showing Of Hit On Friday

"Theodora Goes Wild," starring Irene Dunne in her first major role as a comedienne, will be an attraction at the Ritz Theater Friday in a return engagement.

For the first time in a career streaked with such dramatic gems as "Cimarron," "Back Street," "Magnificent Obsession" and "Showboat," Miss Dunne turns to the gay, light side of life with gratifying results.

Playing opposite the thin-haired star in the role of a happy-go-lucky illustrator is Melvyn Douglas, one of Hollywood's most popular actors. Others in the large cast are Thomas Mitchell, Thurston Hall, Rosalind Keith, Brian Wynne and Margaret McWade, one of the "pixilated" sisters in "Mr. Deeds Goes To Town."

Labor Secretary Hopes To Finish Chrysler Strike

WASHINGTON, Mar. 27.—Secretary Perkins said today reported to President Roosevelt the Chrysler sit-down strike and expressed a hope it would be definitely settled "within a few hours."

The labor secretary added that with a settlement of Chrysler strike, the sit-down movement "at least will be on the wane."

Mediators and all interested parties, she said, will have time to work out a satisfactory approach to the question.

Miss Perkins conferred with the President for an hour after he returned to Washington from a Warm Springs, Ga., vacation.

The renowned prima donna, Lily Pons, discovers that love is far more valuable to happiness than the fame of fame as a singing star in "That Girl From Paris," her new sparkling film starring Gene Raymond and Jack Oakie. Showing at the Ritz Theater Wednesday and Thursday. "That Girl From Paris" is a ray of music offering one of the widest varieties of mobile entertainment ever recorded for a playhouse. Miss Pons sings those "hot" numbers by Arthur Schwartz, a modern interpretation of "The Blue Danube Waltz," "Taramella" and "Una Voce Poco Fa" from "The Barber of Seville." The film is an original and a "Swing band" place and time.
