

Bran Provides Daily Roughage

By Lawrence E. Lamb, M.D. DEAR DR. LAMB - I have

had troublesome bowels all my life and for the past few years have tried including some roughage in my daily diet. I very much like bran muffins but I wonder if the roughage effect of the bran is lost when it is in the form of muffins. Is it? DEAR READER - No. One important way of increasing the cereal fiber in your diet is to use real whole-wheat bread and baked products containing bran. Watch out for some of the commercial breads claiming to be whole-wheat. Read the label carefully as much whole-wheat bread is made with about half white flour and then artificially

colored.

ofpoliticalferment on the island and warning Communist Cuba to avoid involvement. In remarks prepared for his arrival in Puerto Rico, Ford said the United States is proud of its relationship with the

island commonwealth. He declared: "Those who might be inclined to interfere in our freely determined relations should know that such an act will be considered as intervention in the domestic affairs of Puerto Rico and the United States; it will be an unfriendly act which will be

resisted by appropriate means." Ford did not elaborate nor did other White House officials expand on what retaliatory measures might be contemplated. They acknowledged that the President's statement was directed at Cuba. Ford set up the Puerto Rican

trip to discuss global economic issues with the leaders of Great Britain, France, West Germany, Japan, Italy and Canada at a summit that formally begins today and winds up a day later. Noting that the talks continue a dialogue begun last November at Rambouillet, near Paris, CHORALE GOES

were present, Ford said: "I am confident that these discussions will help us to continue our current economic progress, and move us ever

closer to our goal of economic growth and stability throughout the world." His arrival text gave greater emphasis, however, to political unrest in Puerto Rico, which

was mirrored in heavy security measures adopted for the summit at the secluded Dorado Beach Hotel 17 miles west of San Juan. The President said that the history of the relationship with

Puerto Rico has rested on the principle that the peoples of the United States and Puerto Rico have a right to "freely determine the nature of their ties with one another." In an obvious reference to pro-independence sentiment

among some islanders, Ford said the relationship currently is "a subject of free discussion and debate" which he said was "the best promise that what we together choose to do in the future will be beneficial to people of this island."

The figure First, said Harris, the \$32.5- was likely to reduce many projected by the state for next million total is immediately vocational education programs year is \$42,982. Harris said he thought this was too high in education programs, which view of the vocational education cap.

> "At this point," said Harris 'considering the amount (School Supt. William P.) Layer is potentially considering giving the schools, coupled with county level demands, at this point there is a question made.

Harris added that he could not say for certain that squeeze on the budget affect educational service the county's students.

He said school officials were reserving the right to examine the state allotments carefully before any final figures would be available, or judgments

county officials that the federal grant award is for \$326,390. The funds are intended to carry the agency through Dec. 31, according to Seminole County Grant Condinator Shelley Cox

Meanwhile, Orlando Municipal Court Prosecutor Joel Spector is reviewing transcripts of the trials of John Lepore, Dennis Fitzgerald and Frank Torres, three task force agents who worked out of the Orlando office until they were transferred after a

March 23 incident at Rosie O'Grady's. The three federal agents, witnesses say, posed as gangster-like characters on the evening of March 23 in an effort to win favor from waitresses. All three agents denied allegations during two trials that

followed the incident. Lepore, the former chief of Central Florida operations, was acquitted of skipping out on a \$22.55 bar bill. Fitzgerald was acquitted of the same charge. In a separate trial Torres was convicted of public profanity and battery of a Rosie O'Grady

Spector says testimony was inconsistent and that "it became apparent that somebody was lying." He said it is an agent's job to testify under oath, and if they were lying, "It's a most serious maller." Spector is expected in a week to make a recommendation to Orange-Osceola State Attorney Bob Eagan.

Earlier, a separate request for a federal investigation into task force activities was made by the chief of police in Orlando.

The attorney general's office has confirmed such an investigation is under way. And a report of findings is scheduled to be released in the near future, Washington officials say.

In May, the Seminole County Commission assumed sponsorship of the task force after the Orange County Commission declined to continue as the go-between for federal dollars. Then Polk highly recommended task force

operations.

Now, Polk says the agents, as far as he's concerned, are going the job they're being paid to do. "I don't think coordination between agencies could be any better," the sheriff said.

Federal agents are sworn deputies, and as such can cross state lines in quest of criminal activities. The task force was created to combat the rising tide of drug sales. It is a cooperative effort between local, state and federal governments.

Newly appointed Agent in Charge of task force operations Don Harper said he thinks operations "are going as well as could be expected."

Since Harper arrived in Orlando from Miami before Lepore and the other agents were transferred, he declined to comment on any pending investigations, or on the Rosie O'Grady incident.

Harper's agents cover seven Central Florida counties. Lepore is working in the drug administration's New Orleans office and Fitzgerald and Torres were transferred to New York City.

Scientists Search Photos For Viking Landing Site

PASADENA, Calif. (AP) - There are knobs, windswept or water-etched ridges, craters and bright lines that look like highways or earthquake-fault cracks, but is there a landing strip on Mars for Viking 1?

With little more than a week left before the spacecraft sets down on the rocky, pockmarked Martian surface, scientists at Jet Propulsion Laboratory fitted together a jigsaw puzzle of closeup shots of Mars' surface and said Friday they remain confident a relatively smooth 144-by-60-mile landing zone exists. Photographs relayed by the orbiting spacecraft showed

myriad rocky knobs, craters and wind-or water-swept formations cut into the planet's surface. Dr. Harold Masursky, head of the landing site team,

added that long, bright lines on the surface - which he had earlier called "freeways" - may be faults, like the cracks on earth caused by fracturing of the crust.

Debs Regains Rights

WASHINGTON (AP) - The Senate Judiciary Committee has voted to restore the citizenship rights of Eugene Debs, the late Socialist leader who fought for unemployment insurance, old age pensions, and equal rights for women.

"From what I've heard about this man I'm not sure I want to go on record as voting for him," said Sen. Strom Thurmond, R-S.C., before he reluctantly withdrew an objection that would have killed the measure by preventing a vote Friday. Thurmond changed his mind only after he was asked

three times to do so and after he confirmed that although Debs ran for president five times as a Socialist, he never was a Communist.

Auto Sales Still Strong

NEW YORK (AP) - The economic news this past week brought glad tidings for Detroit's carmakers and Wall Street's stock traders, but consumers fighting inflation and city unions looking for better contracts had more to fret about.

The auto industry, continuing to ride what appeared to be a full-fledged boom this year, reported mid-June auto sales up 28 per cent over a year ago, although 12 per cent wer than the 1973 record for the period

As in previous weeks, car buyers expressed their strong preference for the big car, with Oldsmobile sales up 62.6 per cent, for instance, and LincolnMercury up 58.1 per

Harmony Among GOP

WASHINGTON (AP) - Listening to members of the Republican National Committee prepare for their August convention, it's hard to believe there is a frequently bitter and close race going on for the GOP presidential

With few exceptions, there was hardly a discordant note in three days of TNC meetings, which concluded Saturday. The committee even passed unanimously a resolution urging all Republicans "to join together and pledge to do all possible to avoid a divisive intraparty contest and to work together in harmony toward victory in November."

President Ford made a similar appeal in a meeting with committee members at the White House.

Ford Gains Ground

By The Associated Press President Ford edged his way over the 1,000-delegate mark today when he won all but one of the 18 at-large Minnesota delegates to the GOP national convention. Meanwhile, California Gov. Edmund G. Brown Jr., the only active Democratic candidate opposing Jimmy Carter, said he would support the former Georgia governor if Carter wins the nomination. Brown said Carter "appears certain" to win the nomination. Ford gained the support of 17 at-large national delegates elected in a marathon four-hour balloting process at the convention in St. Paul. The single remaining delegate went to challenger Ronald Reagan.

Panel Okays B-1 Bomber

WASHINGTON (AP) - A Senate-House conference committee has authorized production of the new B1 supersonic bomber. But the congressional battle over the controversial aircraft is not over.

Opponents say the issue will be raised again when the compromise \$32.5-billion weapons procurement bill comes back to the House and Senate for final votes.

The fight also is likely to be renewed in Senate consideration of a \$105-billion defense appropriation bill that includes \$960 million for the first three planes of a 24-plane fleet expected to cost \$22 billion.

Composer Mercer Dies

LOS ANGELES (AP) - Johnny Mercer, whose haunting jazz and blues lyrics thrilled miliions for half a century, won four Oscars and made him the highest-paid song writer in the world, has died at age 66. The mellow-voiced Mercer, who wrote lyrics for such

hit songs as "Laura," "That Old Black Magic," "Jeepers, Creepers" and "Moon River," died Friday at his Bel Air

A family spokesman said his death was caused by complications from brain surgery performed last Oct. 25 to remove a benign tumor.

Tampa Inmate Leaves Jail

After Posting Another's Bond

TAMPA (AP) - A man held in Hillsborough County Jail under \$103,000 bond was at large Saturday after posing as another inmate and posting that man's \$2,000 bond, officials said.

John D. Hurst, 38, of Tampa pulled the switch and walked out Thursday night, officials said. They said his absence was discovered Friday when jailers went to escort him to a court appearance on charges of check forgery and auto theft.

The other inmate, Clyde F. Batson of Pensacola, claims to have been an unwitting accomplice, the officials said. Hurst was jailed earlier this week on three bad-check charges and one charge of stealing two 1976 motor homes. The bad-check charges carry a standard bond of \$1,000 each. Jailers said auto-theft bond is usually double the value of the stolen vehicles.

Teacher Eligible For Parole

TAMPA (AP) - Former high school teacher Rudolph Burgess is immediately eligible for parole on the 15-year prison sentence he received for the shooting death of a school official at a football game last October. Burgess, a 43-year-old former science teacher at Tampa Bay Vocational-Technical High, was convicted in May of manslaughter in the shooting death of Hal Griffin, 47, assistant principal at Hillsborough High.

"You have not only ruined your family but you have completely ruined the family of Mr. Griffin," Circuit Judge Robert W. Rawlins told Burgess as he imposed the maximum sentence. "I can't understand why a man ... with your background would even be carrying a gun.'

Secret Rocket Launched

CAPE CANAVERAL (AP) - The unannounced launching of a rocket bearing a secret military payload surprised people along Central Florida's Atlantic Coast late Friday

Maj. James Craig, a spokesman for the Air Force Eastern Test Range, released a singleline statement after the rocket streaked into space. "A classified payload was launced on a Titan 3-C launch

vehicle by an Air Force-industry team at Complex 40, Cape Canaveral Air Force Station, Fla.," the statement said.

FP&L Rates To Rise

TALLAHASSEE (AP) - Florida Power & Light Co. will be the only major private electric company in the state with higher rates next month, the Public Service Commission says.

The commission announced Friday that fueladjustment charges will be lower in July for the state's other three major private electric utilities. Commissioners granted FP&L a hike of \$2.49 per 1,000 ilowatt hours, the average amount used by a family in a

More Cocaine Found

TAMPA (AP) - U. S. Customs agents have found more cocaine hidden aboard a seized banana boat near which 170 pounds of the drug was confiscated last week. Federal agents making a precision search of the vessel Friday said they found 1.2 pounds of the drug concealed in a ceiling over a companionway.

Agents said this brought the total amount of cocaine ound on or near the ship Ea to 181 pounds which has a street value of \$40 million.

U.S. Farmers Deserve Salute

Quietly, with no fanfare and little media coverage, a real revolution has been taking place down on the American farm. U.S. farmers, in the finest tradition of their forefathers, are once again acting like free men. It is a story that bears telling again and again; especially during this Bicentennial year.

In an article entitled "The Nation's Greatest Success Story" in U.S. News and World Report, the man who tills the soil is given credit for keeping the dollar as strong as it still is, for helping to pay the bill for foreign oil, for feeding not only the people of this country, but also untold millions all over the world. But more important still, the magazine article points out, in a dramatic departure from just a few years ago, the farmer of today has, for the most part, climbed down off the taxpayers' backs.

As recently as 1972, federal subsidies to farmers were running at around \$4 billion a year. This year, such payments are expected to total less than half a billion dollars and most of this, the magazine emphasized, will be under disaster-relief programs to those hit by drought, floods or other catastrophes.

Whereas the government once stored gluts of grain at taxpayer expense running to as high as \$1,000,000 a day, farmers now hold their own grain until they are ready to sell on the open market.

And, contrary to what one might expect if listening to advocates of governmental supports and controls, the result has not been chaos down on the farm, but unprecedented productivity and prosperity. As documented by USN&WR. American farmers this year will:

- Provide food for American families for about 17 per cent of their take-home pay; a record unmatched by any country elsewhere in the world. Export more than any other U.S. industry:

with exports expected to top last year's sales of \$22 billion abroad which equaled 20 per cent of total exports. - Top all other industries in productivity

growth; farm productivity up 65.2 per cent, for example, as compared with 14.6 per cent for fac-- Take in more money than any other

business; topping \$99.2 billion for 1975. - Spend more money than any other business:

with outlays for machinery, feed, fertilizer and other production expenses expected to exceed the \$75.5 billion spent last year.

And, on top of everything else, each American farmer will feed himself and 48 other Americans, plus other millions around the world. -from the Santa Ana Register

Meany As Czar

The United States has been prescuring the Soviet Union to give more than lip service to the Helsinki agreements which promised a freer flow of people and information through the Iron Curtain. We cannot hope for much success if we put ourselves in the position of violating the hoped-for new spirit of

Helsinki, and that seems to be exactly what has happened. Our State Department has refused to grant visas to four Soviet trade union officials who were invited to visit with some abor leaders in the San! Francisco area in return for trips the latter made to the Soviet Union in 1973 and 1975. There is no reason why the Russians shouldn't be allowed into this country except that President George Meany of the AFL-CIO objects. He has opposed all exchanges with Soviet trade unionists on grounds they represent a government rather than Soviet workers.

San Francisco labor leaders who invited the Russians are miffed, and they have a right to be. Mr. Meany is a powerful man in Washington, but he should not be powerful enough to cause the U.S. government to do something that is not in its best interests. Right now, it is in our interest to show the Communist world that we take the principle of open borders seriously and we expect them to do the same.

and you taking this revolving door justice' business a little too literally?"

Unrest

Brewing

In Mexico

Over at the county courthouse in Sanford, a showdown is scheduled for 10 a.m. Monday mor-

On one side are businessmen. On the other are Seminole County commissioners. The duel is over who foots the bill for a spraying program to combat the blind mosquito problem in Downtown Sanford. Downtown businessmen complain the 18-yearold mosquito problem has become unbearable. The most convincing argument comes from local Chamber of Commerce Executive Manager Jack Horner, who argues that Sanford is "losing face" because of the mosquitoes and that tourists seek accommodations outside city limits to escape the hordes of black beasties that seasonally swarm out of Lake Monroe into the city's streets.

City Manager Warren Knowles, who, in a memorandum, says the city is doing as much as can be done to control the mosquito problem in the Downtown area. One businessman says the city "fogs when mosquitoes aren't there and doesn't

The most unconvincing argument comes from

when they are. all of Seminole County.

But one look at the large number of dead mosquitoes clinging to courthouse windows is enough to convince anyone that the problem isn't logical. Sanford is the county seat, and all the taxpayers paid for the fine courthouse that is built closeby the lake which hatches the mosquitoes. It is inconceivable that a county as fine as Seminole

(Second of two parts) MONTEREY, Mexico — Is Donald Duck a bad influence on this side of the border? Anti-American nationalists here are spreading the word that the quacker, read by millions of semiliterate Mexicans, is a tool of capitalism and an enemy of the working man. He is forever trying to get Uncle Scrooge's millions, is he not? And what about Huey, Louie and Dewey - all they seem to want from life is another nickle for the ice cream store. Less publicly, the nationalists whisper about

Mr. Duck's personal life. Why doesn't he marry Daisy and make her an honest woman? Clearly the foul-mouthed little beast is only interested in the pursuit of material pleasures. He lies, he cheats, he plots, he blasphemes - and, by the way, does he ever do an honest day's work?

If the nationalists had their way, no doubt, D. Duck would never again corrupt the pious instincts of the Mexican peasantry. Lacking such censorship authority, however, critics use the comic character as an example of what America has become through capitalism and what Mexico must avoid through socialism. Better the people should read Marx than Mickey Mouse, except there are fewer pictures.

among Mexico's 56 million citizens. But the other fellow has had a growing and increasingly influential following - so much so, actually, that democrats on both sides of the border are once again asking an old, evasive, but decidedly Letters To The Editor

The evidence of recent years is inconclusive, but not to be ignored. At the least, Mexico is Reynolds Criticized going in the opposite direction from democracy. Gene Meadors of Meadors Marina says he has enough signatures to call a special election, but Horner Josen't feel a taving district stands a chance in light of a similar upcoming vote to improve Downtown Sanford.

If a pilot program, however, could eliminate mosquitoes, Horner believes that would show citizens mosquitoes can be licked and improve chances of voter approval of a taxing district. Horner's argument sounds good; it's worth a try because anything is preferable to swarms of blind nosquitoes occupying the Downtown area.

> JOHN D. LOFTON JR. Kraft's Charges Unfounded

WASHINGTON- As a conservative columnist, one of the amusing side-benefits of seeing Ronald Reagan on his way to capturing the GOP presidential nomination is watching some of my liberal colleagues being reduced the sputtering incoherence over the possibility that such a calamitous spector may well become a reality. Take Mr. Joseph Kraft, for example.

Normally an articulate, temperate analyst of current events, when it comes to Mr. Reagan the man Walter Lippman once called "the most promising commentator of his generation" has simply gone bananas. Particularly troublesome for Mr. Kraft is Mr.

Reagan's excellent eight-year record as chief. executive of the largest state in the union, a record which included: turning a \$700-million budget deficit into a \$400-million surplus; leaving the state of California with a triple-A bond rating for the first time in 31 years; reducing significantly the state's welfare roles while substantially increasing benefits to the truly needy, and holding the state government's bureaucracy to an almost zero growth rate. So, how does Mr. Kraft deal with these accomplishments? With ease. He simply asserts that Mr. Reagan had nothing to do with them. He

"Reagan proved only that the state - with its superb resources, energetic population and nlightened civil service and legislature - can be governed by practically anybody."

But some of what Mr. Kraft nas written about Mr. Reagan has not been amusing, it has been downright slanderous, yellow journalism of the worst sort. When Mr. Reagan went on national television several weeks ago and in a half-hour address criticized Helmut Sonnenfeldt, a top aide to Henry Kissinger, for having told a group of American ambassadors in Europe that the captive nations should, in Reagan's words' "give School up any claim of national sovereignty and simply become a part of the Soviet Union," Mr. Kraft got out his tar brush. He wrote that Reagan's charges brought to his "perhaps oversensitive nostrils" the "pungent whiff of anti-Semitism." Now, this is strong stuff indeed, conjuring up Adolf Hitler, the holocaust and genocide. So,"

Dr. Merle E. Parker,

An open letter to Seminole County

What is wrong with our school system,

Superintendent William P. Layer:

WORLD IN BRIEF

Heavy Fighting Rages

Around Beirut Camps

NICOSIA, Cyprus (AP) - The heaviest fighting of the 4-month-old Lebanese civil war raged Saturday around two strategic refugee camps in southeastern Beirut. The Christian-held radio said the battle was spreading to other

The broadcast monitored here said artillery shells were falling in some combat zones at the rate of 200 an hour. Fierce battles were reported early this morning in suburbs on the eastern edge of Beirut, in mountain towns east of Beirut, and in the area of Khaldeh, near the airport south of the capital, the broadcast said.

Kissinger Urges Competition

LONDON -- (AP) -- Secretary of State Henry A. Kissinger has urged Western Europe to continue ideological competition with the Soviet Union and renewed America's commitment to the independence of the Soviet-bloc countries of Eastern Europe.

Kissinger said in a major policy speech Friday to the Intenational Institute of Strategic Studies that "it is not healthy for the United States to be the only center of initiative and leadership in the democratic world. It is not healthy for Europe to be only a passive participant, however close the friendship and however intimate the consultation."

boys like him " The speaker was Paul Callahan. The boy he was pointing to was his 12-year-old son, Reid Callahan, and the question being answered was why was the sprawling facility of Sabal Palm Club so devoted to youth programs.

Paul Callahan and Sabal Palm Club have been the talk of Seminole County for its youth programs this summer. Public school coaches such as Lyman High School athletic director Dick Copeland and Teague Middle School golf coach Cindy Maloney have been so impressed with Callahan's dedication to Seminole County youth that they have pitched in and donated their summer season to return home and run Theoretically, he would be Milwaukee's property for time for the summer youth golf programs.

Callahan is totally and primarily involved with the game of golf, keep his home in the county and signed him illegally, was fined heavily, and recouped the money but there are other activities such as youth tennis, youth swimming, youth scubba diving and on the way to the practice greens you have to give way to bus loads of YMCA youth from three- a Falcons' contract yet, but Q. Did Ilie Nastase, the nasty Romanian tennis player, really years-old and up marching from one bus or another going to one they are very close to terms. say what Bud Collins reported him saying about Arthur Ashe at activity or another. Callahan is also on the board of directors of the Seminole YMCA and there is usually a bus or two in the Hartzog Track parking lot giving evidence of the gratis use of the facilities by one organization or another.

"I've been aroung golf all my life," the 45-year-old Callahan CARBONDALE, Ill. (AP) - audience. Ashe himself says that Nasty didn't mean anything by said. "I started caddying when I was 12 and I have not been away Southern Illinois University's it.

money. He remembers wanting to participate in a game he was track and field coach of the

"We could only play on Monday pionship in Amarillo, Tex. in morning and we had to be off the course by noon," he remem- May. His conference record in-

Every membership golf course has problems striking a balance three team titles since Southern between the legitimate desires of the members to enjoy the course Illinois joined the league. and the necessity of open play. At Sabal Palm Club, however, there is no problem. Monday belongs to the kids. It is their day and it is their facility. Members can play, but they are secondary to youth and their wishes must give way to the youth. "When a member joins, I tell him up front," Callahan explained. "I tell Air Attack him that the place belongs to the kids all day Monday." Callahan said that he has had prospective members get upset and not join and has had members get upset and quit. Overall, however, most members appreciate the things that are going on at Sabal Palm for the Army team. It could be

they would not happen to other kids like it did to me. Well, I have something to do with things and things are not that way."

Callahan loved the game of golf so much that he mastered the fifth best in Army history, last game just by watching and trying on his own. "I learned to play fall. However, the Cadets, in just by hanging around," Paul said. "Heck, if you didn't know Smith's second campaign at the how to play golf and you were a caddy-why, they'd just run you Point, won only two of down the road."

Paul Callahan has done everything there is to do around a golf club. He has wrapped clubs with the old winding, been caddy master, bus boy and bartender. Golf just captures some people's energy and imagination, and that's what happened in Callahan's cases. Golf became a way of life with him. He earned his money Fish Stocked and learned etiquette on and around the golf course. He played golf on the high school team at Adrian, such as it was. Although the season was long if it consisted of three matches, Callahan was Windsor, Ont., has been stocked Merritt of Cinicnnati was 10-3 at the same time. But Randy has five runs with a pair of towart. Coll club Friday for 136 size up there participating. Mat Eastern Michigan University Callahan majored in ac- Carner Gets An A counting and the two became his business weapons. Pushing the pencil could solve business problems and his golf game gave him social growth. He used to play golf with Jim Winston in In Golf Homework Sabal Palm Club when Barnett-Winston accepted a deed to the area in lieu of foreclosure some time back.

Callahan's attention to youth is wholesome and good. He respects youth and youth immediately respects him. Every youth program is well supervised and has competent instructors. People are attracted to him who love to do what they are doing. People such as Chuck Stolz, executive director of the Seminole to a second straight Ladies low 60 scorers and ties for the their own offices.

Golf may not mean as much to his son, Reid, as it did to Callahan, but that doesn't bother him. Reid has been playing golf survived a double bogey 7 on longer after Thursday's rain, since age three and the last three years he has gone to the Future her fourth hole and finished which washed out the scheduled golfers ages 10 to 16.

Youth golf programs are being enthusiastically received and enthusiastically offered — all over the county. Just about every golf course in the county is being swarmed by kids, and everybody Tied with the veteran were Close behind the leaders were THE CHAMPS

"That's the stupidest thing I have ever heard. In general, I couldn't care less for those screaming morons that come out to the fights, get drunk, and yell and scream for my blood. "I am in this for the glory and the money, not to please a bunch of inferior human beings. I have my supporters, who stick with me in the good times and the bad, and I don't have to put on an act for them. They know every time I fight, I will be giving it everything I have. They are my friends and I don't have to imters, were at even par 142 and press them.

"As for the rest, the ones that almost raised the roof off of the Sports Stadium when Madison stopped me. . . the ones that boo Mike Quarry in almost every one of his fights. . . The ones that even cheered when old Peedro (Taco) Perez was getting whipped up on by Madison - those people can all go where the sun never shines.

"I have never run into a fight crowd in my life like the group they have come out to the Sports Stadium. They don't care who is getting killed, just so someone is. "Me try to impress them? Try to get them to love me? You

have got to be kidding !!! "I know they are the ones that are paying their money to watch me fight and they have the right to cheer or boo anyone. But I'll be darned if I will ever take one punch that I don't have too, just to impress them." This corner takes a wait-and-see stand on if Vincent should

retire. The story about the inner-ear makes sense, and it might be the reason he is suddenly getting knocked down frequently. His next fight may tell.

As far as him trying to change his image, I'm afraid Hollywood, California couldn't do that. And anyone thinking that Joey Vincent cares if he is loved or not, has probably been taking

more head punches than Joey. Vincent is a villain. His flamboyant life style and all the knockdowns in the world will never change that.

Prelude To A Melee

New York Yankees' Lou Piniella (14) slides into Boston's Carlton Fisk, trying to score from second on a single. He was out, and in trying to dislodge the ball from Fisk's glove, collided with the Bosox catcher and touched off a melee in Yankee Stadium. Fisk came up swinging and both benches emptied. Pinlella and Fisk were ejected from the recent game.

Ali In On Drug Busts

ATLANTA (AP) - Thanks to Muhammad Ali, police in Atlanta have made about 170 drug arrests and confiscated more than \$500,000 in illegal drugs this year, according to Mayor Maynard Jackson. The world heavyweight boxing champion gave \$50,000

from his fight with Jerry Quarry in Atlanta four years ago to an anti-drug fund. Jackson said the city couldn't use the money until this year. Police have used more than \$10,000 of the money to pay

informants and another \$10,000 to buy illegal drugs from suspected pushers, Jackson said. Without the money, the arrests would not have been possible, Jackson said.

HUD Streamlines Four Suspended Provisions Real Estate Laws To Take Effect June 30

Four provisions of the Real Estate Settlement Procedures Act, temporarily suspended since January 1976, are being made effective again on June

30, 1976. The provisions, all designed for the protection of the realestate buying public, require: 1) The lender to make, at the time of the loan application, a "good faith estimate of the amount or rate of charges for specific settlement services which the borrower is likely to incur in connection with the settlement."

2) The lender to provide the borrower, at the time of the loan application, with an informational booklet to be prepared by HUD.

3) The person conducting the settlement to provide the borrower with a uniform settlement statement not later than at settlement - unless exempted by HUD regulations or waived by the borrower under HUD regulations.

4) The person conducting settlement to permit the borrower, upon request, during the business day prior to set- official publication of the final example of how a government filiate, had worked particularly Today, bleaching is still used settlement.

McDonald also pointed out that the new RESPA regulations are helpful in clarifying certain situations which would come under the Act's prohibition of kickbacks and referral fees.

"The title insurance industry fully in accord with eliminating gave no guidelines as to situations in which they might apply. Now, however, the HUD regualtions do cite instances which would or would not constitute violations and in sufficient detail to permit their application to other situations. This is most helpful."

McDonald added that the American Land Title Association, of which the could change the color of wood Florida Association is an af- with various natural agents.

While millions of Americans are looking forward to Fourth of July fireworks displays, the government is worrying about the safety of the sparklers. New regulations have been proposed to take some of the bang

out of some of the more common varieties of firecrackers, but they will not go into effect until next year. Note: Firecrackers are distinguishable from other types of

fireworks in that they are explosive devices whose primary purpose is to produce a loud noise rather than a visual display The Consumer Product Safety Commission reports that in 1974, the latest year for which statistics are available, there were 3,300 injuries related to fireworks on July 4 alone. More than 60 per cent of the injuries were caused by firecrackers.

The Office of Consumer Affairs of the Department of Healing, Education and Welfare has a few common-sense "Do's and Don't s" for fireworks use: -Don't hold fireworks in your hand unless the directions

specifically say so. -Do place the fireworks on hard, smooth, level surfaces.

-Use fireworks outdoors only. Children should use fireworks only under close adult supervision. -If the firework does not go off, wait at least 10 seconds after the fuse stops glowing before approaching it. -At public displays, stay in designated areas to avoid furnes

For further information, you can get a fireworks fact sheet. from the Product Safety Commission by calling the group's tollfree hotline at 800-638-2666. Ask for Fact Sheet No. 12.

For the future, the Product Safety Commission has issued rules limiting the amount of explosive powder that firecrackers can "That's true of anybody - Receipts on file in the calendar year to \$116,000, which requires the combination of attorneys with single-track Englert says he has projected contain.
