

R. W. Ervin Plans To Run For State Office

PALATKA, Fla., July 17.—R. W. (Dick) Ervin, Resident Attorney for the State Road Department and former Assistant Attorney General, stated here today that he plans to run for Attorney General and will formally announce his candidacy shortly after the first of next year when he will resign from the Road Department to wage an active campaign.

Mr. Ervin was born at Carrabelle, on Jan. 26, 1905. He was educated in the public schools of Marion, Leon and DeSoto Counties and graduated from the University of Florida Law College in 1929.

He entered into private practice of law in Pinellas County in 1928, in Lee County in 1929, and from 1930 to 1935 in Palatka, Putnam County, of which County he is a legal resident.

Gulf-Pacific Shipping Said Undependable

NEW ORLEANS, July 15. (AP)—Dependability of existing steamship service between Gulf and Pacific coast ports was questioned here today at an Interstate Commerce Commission hearing on an application by the Arrow Line to inaugurate service on that route.

New "Parasite" Army Plane Is Announced

ST. LOUIS, July 17. (AP)—A new type of fighter plane, designed to be launched in midair from the bomb bay of the Army's giant B-36 bomber and to return to it, is being manufactured for the Army Air Forces by McDonnell Aircraft Corp., at Lambert-St. Louis field, it was announced today.

The parasite plane, designated the XP-85, is a small, jet-propelled craft which the Army said is expected to have a speed approaching the present world record, 623.8 miles per hour.

Electricity is being used now on 53 percent of the nation's farms.

Sailing Ships Still Used For World Commerce

By SAUL PETT AP Newfeatures Writer NEW ORLEANS, July 17. (AP)—Sailing ships still travel many of the world's trade routes as though their skippers had never heard of supersonic speeds.

In an age when the average boy grows up to believe that the only big square-riggers and schooners left are built on Hollywood movie lots, wind-driven vessels of oak and iron continue to find cargoes to haul at speeds frequently no faster than the Mayflower's.

At least 60 American sailing vessels of more than 500 tons each are still in commercial use, according to the Treasury Department's bureau of customs.

While the world fleet of sizable square riggers has been reduced to less than 10, fore and aft windjammers operate in more respectable numbers.

Abroad, windjammers are used in feeder operations in the West Indies between small ports and harbors suitable for steamers.

Today, there are only three big square riggers left in American waters—the sailing ship Pacific Queen and the bark Scottish Lady and Star of India.

Short Strike Ties Up Cincinnati Hotels

CINCINNATI, July 17. (AP)—Four of Cincinnati's six major hotels resumed normal operations today after a seven-hour strike by 1,700 AFL employees paralyzed services yesterday afternoon and early evening.

Officials of the Cincinnati Hotels Association and the AFL Hotel Employees council announced an agreement ending the strike shortly after 7:00 o'clock last night, and said a new contract would be signed today.

Under terms of the agreement, most of the strikers, including elevator operators, bellhops, maids, porters, bartenders, waiters, and all culinary workers, will work 40 instead of 48 hours a week, with additional wage increases.

The majority of the unionists, who left their jobs at noon yesterday at the Netherland Plaza, Gibson, Fountain Square and Sinton hotels, began working regular shifts at 11:00 o'clock last night.

Restaurants and bars in the four hotels were closed during the walk-out and room service was discontinued. No new guests were received and reservations were refused "for the immediate future."

The oldest large sailing vessel still used in this country is the Star of India, built in Scotland in 1862, grossing 1,318 tons.

The Scottish Lady, 79 years old and also of Scottish origin, hauls freight out of Seattle. The three-masted Pacific Queen, 61 years old and grossing 1,835 tons, used to make the India and Alaska runs.

The late war heavily reduced the number of all ships. No one was hit harder than 73-year-old Capt. Gustaf Erikson of Finland. Erikson had built up his fleet of square riggers to eleven, carrying nitrates from Chile, Swedish lumber from Australia, case oil for Fiji and guano from Juan de Nova.

Doctor Reveals New Way To Give Medicine

NEW YORK, July 17. (AP)—A new method of giving medicine, which he calls "aimed injections," where the drug goes mainly to one place or to one sick organ, was explained in the Third International Pediatrics Congress today by Dr. Rudolf Degkwitz, of Hamburg, Germany.

used for humans.

The Degkwitz method is like a game where balls of different sizes are rolled to stop in holes whose sizes also vary, and the size that fits stops a ball.

His medical balls are the tiny crystals that form many different kinds of drugs. These crystals are too small to be seen without a microscope.

chemical that does not dissolve in water. He has experimented with about 100 such, and shapes in the form of balls, needles, flakes and threads.

For tuberculosis he uses crystals made of one or another of the Azo dyes, which are used industrially for red, yellow or blue colors.

Forty Scottish kings are buried on the tiny Hebrides isle of Iona north of Ireland.

More Meat

(Continued from Page One) Egger's statement was submitted to the committee on the last day of a series of hearings to find out what can be done about stabilizing prices and the economy generally.

The institute official cited these principal reasons for the rise in meat prices since January:

- 1. A seasonal, 10 to 15 percent decline in supplies.
2. An increase in weekly wages in industry "to an all-time high."
3. A record peak of 69,000,000 persons employed, an increase of about four percent since the start of the year.

Contributing to the pressure on prices, Egger added, is the fact that storage stocks of meat are smaller than the prewar average.

"Another complicating factor," he said, "is that the current outlook for grains, as compared with a year ago, is unfavorable and there are prospects for large grain exports."

Assuming these deterring elements develop, they may prevent the expected 1948 increase in meat production and could even result in some decrease, Egger said.

Both Folsom and Burgess also urged that taxes be cut to encourage industrial expansion.

Fine Tobacco is what counts in a cigarette

LUCKY STRIKE presents THE MAN WHO KNOWS— THE TOBACCO AUCTIONEER!

"I'VE SOLD well over 350 million pounds of tobacco at the auctions down South, and year after year, I've seen the makers of Lucky Strike buy quality tobacco... fine, light, fragrant tobacco that makes a grand smoke."

J. H. Burnett, Independent tobacco auctioneer of Buffalo Springs, Va., has been a Lucky Strike smoker for 18 years

LUCKY STRIKE MEANS FINE TOBACCO

So Round, So Firm, So Fully Packed—So Free and Easy on the Draw

FORECAST: Continued Fair

SOMEHOW the sky seems bluer and the sun shines brighter when you and this Buick are enjoying the day together.

Somehow the sudden summer shower seems more of a lark, less of a bother, when it's pattering on the snug shelter this tidy number throws up automatically at your touch on a control.

Somehow autumn air is more winery, swirling winter snows more fun when your choice is a Buick—and a Convertible as tight and all-weather-ready as this one.

Maybe it's because your style sense tells you these sleek lines and this rich treatment are going to stay the fairest of the automotive fair.

Maybe it's because you find, in the big Fireball straight-eight under your treacle foot, an ever-aster, ever-lively companion-in-adventure that acknowledges no peer-for life and lift and velvet-smoothness.

It could be the rare and pleasurable steadiness given an open car by good, solid Buick construction. It could be, simply,

that here at last you find size and ability and smartness and finish to match your dreams of a perfect travel mate.

All we know is that this is one of the standout favorites in a line of cars that stands out as the most wanted in America.

So when good friends come to us asking, "How do I get one of those snappy Buick Convertibles?" our full and forthright answer is always the same—

Sign up for one, sir—soon as you can. The sooner we have your firm order for one, the sooner you start climbing up our customer list.

And we promise you: You'll mount that ladder equally fast whether or not you have a car to trade.

When better automobiles are built BUICK will build them

ONLY BUICK HAS ALL THESE

STAR FEATURES

- \* AIRFOIL FENDERS \* FIREBALL POWER
\* ACCURATE CYLINDER BORING \* FLUTEWEIGHT PISTONS
\* SILENT ZONE BODY MOUNTINGS \* BUICK'S SPRINGING
\* FULL-LENGTH TORQUE-TUBE DRIVE \* PERMANENT STEERING
\* BRACED WHEELS \* STEPCON PARKING BRAKE
\* DEEPLY SEAT CUSHIONS \* CIRCULAR-ROUND BUMPER
\* NINE SMART MODELS \* BODY BY FINER

#### BIBLE VERSE FOR TODAY

FAITH LOVE AND COURAGE ARE NEEDED AS A DEFENSE EVERY DAY. DO NOT ENTER LIFE'S BATTLE UNARMED AND UNDETERMINED. Therefore take up the whole armor of God, that ye may be able to withstand all to stand.—Ephesians 6:11.

Great Britain has decided to ask the United States to shoulder an additional \$250,000,000 of the occupation costs in Germany. Isn't it a good thing our Uncle Sam has got lots of money?

Secretary of the Treasury Snyder suggests that the President might sign the right kind of an income tax reduction bill. But isn't the right kind of a tax cut bill one that would cut taxes?

Dr. Robert M. Hutchins' Committee on the Freedom of the Press recommended that newspapers and newspapermen should indulge in more self-criticism. And Washburn, in his recent articles on Ed Sullivan seems to be taking the suggestion seriously to heart.

We see where the railroads are going to sell travel tickets on credit and provide for payment on the installment plan. However, the time has not yet arrived when you can take that trip to the Yellowstone Park for nothing. They'll probably look you up in Dunn & Bradstreet's.

A Chicago scientist tells a House committee that universal military training is a "political racket" and "will be totally useless in the next war." If it does nothing more than to teach boys to walk straight, to carry packs on their backs and to carry out instructions intelligently, it won't be "useless."

The love of a man for his dog is one of the strangest phenomena of human nature. In Louisville, Ky., a woman dies leaving \$1,000 to her dog, only \$300 to her mother, an aged woman in ill health. In Jacksonville, Fla., a man cuts a dog to death with a penknife "because his barking got on my nerves." It takes all kinds of people to make a world.

There are four ways of "spoiling" a child, says Gladys Bevans, in her article on "Children." They are (1) Allowing "perfect freedom" to children, (2) Over-indulgence, (3) Excess of attention, and (4) Lack of attention. Too many parents think that "spoiling" is something which couldn't possibly happen to their children; yet it is something which in this day and time is all too common.

The affair in Aoshkie, N. C. the other day in which a colored man won a \$3,200 Cadillac being raffled off by a civic organization, but was denied the car because he was a negro is the type of thing which might have happened in any civic organization in the South and is most to be deplored wherever it might have happened. There is no reason, no logic, no fair play, no justice, no Americanism in selling a man a ticket and then denying him the use of it solely because of his race, religion, or political beliefs. If he was good enough to buy the ticket, he was good enough to get the car if he had the lucky number. And the millions of dollars worth of bad publicity brought to the South as a result of this incident could not be offset by a thousand Cadillacs.

### The Freedom Train

Occasionally in the last few months bits of information about a proposed "Freedom Train" have been floating around. Now the plan emerges more clearly. It is sponsored by the Attorney General's office, but is being carried out by the American Heritage Foundation, Inc., 1501 Broadway, New York 18, N. Y.

The idea is to place some of the most precious documents owned by the United States of America on a train so arranged that they may be shown, with complete security, to Americans in the 48 states. These documents are being lent to the Department of Justice by the Library of Congress, National Archives, and other sources such as the A. S. W. Rosenbach collection, Commonwealth of Pennsylvania and New York State Library. The American Heritage Foundation says:

"They include a manuscript copy of the Declaration of Independence attested by Benjamin Franklin, the Treaty of Paris of 1783 recognizing the independence of the United States, a printed draft of the Constitution with annotations by George Washington, the official and original manuscript of the Bill of Rights, The Emancipation Proclamation, and others concluding, we anticipate, with the German surrender documents, the famous Hirohito Rescript, and the Declaration by the United Nations. Every conceivable measure is being taken to assure the complete security of these documents."

It is proposed that each community visited proclaim and organize a Community Rededication Week to be climaxed by the arrival of the train. School children are to be prepared by special study, and taken to see these great exhibits.

About a year will be needed to visit the 200 communities of the basic plan. The first showing of the contents of the train will be in Philadelphia on Constitution Day, Sept. 17, 1947. The complete itinerary has not yet been worked out but those in charge hope to get around most of the country sometime in 1948. They expect to be ready soon to announce the route. The opportunity to see these documents will be a splendid one, and should by no means be neglected.

### Ambitious Adults

Ten out of five adults the country over are interested in continuing their education. The man who goes around asking questions established this fact, and a very cheering one it is. About a third of the men polled were interested, nearly half the women.

1. People with some college training were more in favor of enrolling than those with none.  
2. The greatest demand for adult schooling is in the age group 21 to 29 years.  
3. In a similar poll taken four years ago, 34 per cent were interested; 41 per cent today; a gain of about one-fifth.

Courses in economics, government and psychology top those in demand, with engineering, journalism and languages following closely. Practical subjects like dressmaking and home economics have more followers than do art, radio and the sciences.

That so many citizens are eager to spend precious leisure hours in getting an insight into the workings of government and the laws of economics bodes well for the nation's future. An enlightened electorate makes for enlightened government. A greater knowledge of languages is an essential if our young people are to live in the enlarged world now coming. Practical techniques like sewing and home economics are useful in building sound homes and family life.

### Immigrants

The number of "displaced persons" now living abroad in many strange lands against their will is very large. Recent estimates in Germany, Austria and Italy alone are a million or more. Many of them would be glad to return to their former homes, but find it difficult or impossible.

So there is naturally a strong movement on their part to seek homes in the United States. And the question naturally arises, whether it is not a natural and even desirable procedure to admit unobjectionable foreigners to this country in considerable numbers again, somewhat as before the recent war which upset so many arrangements of long standing.

Any operation of this kind would have to be handled wisely and carefully, but the principle involved seems sound, especially in the case of aliens who literally have no homes and who can be well vouched for as desirable citizens.

One point should be made clear. These are not "extra" immigrants. They are, in numbers, the ones not admitted during the war. Their work is needed. In farming localities especially their assimilation might be readily accomplished if suitable housing can be provided for them.

### THE HISTORY OF SANFORD CELERY

By R. J. LEHMAN

The achievements of a bankrupt orange crate dealer they had on hand. In the Spring of '37 they shipped four cars under refrigeration by the advice and with the assistance of Mr. S. O. Chase, Sr. In February, 1899, they had a hard freeze, notwithstanding fine celery which was made which brought good prices. Having solved the problems of irrigation, and in a large measure those of plant raising and culture, the progress was more rapid and others joined the farmers.

In fact succession many more names were added to the celery industry among whom were H. H. Chappell, Joe Cameron, Archie Cameron, L. A. Brumley, B. R. Brisson, Tom Hawkins, C. F. Williams, Mrs. B. E. Takach, N. J. Slinstrom, R. J. King, A. Robbins and others whose names we could not obtain. Also I. H. Terwilliger (who had been growing tobacco) to whom more credit belongs than any other for the perfection of the sub-irrigation system.

While sub-irrigation, one of the vital factors in the production of large crops, was from necessity conceived and perfected within five years after celery production became a reality, irrigation was known as far back as 170 years ago. In early days vast plantations of indigo and cane were laid out with a fine system of open lined ditches providing irrigation. Deep wells, carefully walled, provided water for those plantations plotted too far away from the St. Johns River to obtain water from that source. It is needless to follow the experimental stages of

### Plane Challenged To Globe-Circling Race

CHICAGO, July 18. (AP)—The Reynolds Bombshell, groomed for a solo globe circling record about August 1, was challenged yesterday to make the flight a race.

Franklin Lamb, flight director for the Reynolds flight, said he received a challenge from William Hancock of Tulsa, Okla., who said he planned a round the world flight with his P-38 fighter plane and wanted to race the Reynolds A-26 bomber.

Lamb said the "reason for the Reynolds flight is to publicize Chicago as a world air center and to further the interest of aviation. If this could be accomplished by the accepting the challenge of Hancock then the decision of the Reynolds' pilot, William Odom, would be final."

Lamb said Odom will announce his decision tomorrow on whether to race.

The Reynolds bombshell will leave Chicago in an attempt to cut in half Wiley Post's 1931 record of 187 hours. Lamb said. The flight is sponsored by Milton J. Reynolds, Chicago pen manufacturer. Last April, the Bombshell, piloted by Odom, circled the globe.

### Florida Vets Take On-Farm Training

ATLANTA, July 18. (AP)—More than 45,000 veterans are engaged in on-the-farm training in five southeastern states, the Veterans Administration said recently.

The on-the-farm training program is combined with classroom instruction and is designed for veterans who own or operate farms. Farm operations are supervised by classroom instructors.

The number by states was reported: Tennessee—17,270; Alabama—10,712; Georgia—6,254; South Carolina—6,074; and Florida—3,518.

**Newsprint Prices**  
Continued from Page One  
Some dealers call this free market — as contrasted with the contract market at \$91 — a "gray market."  
One paper dealer is currently offering 500 tons of high-quality Swedish newsprint at \$240 a ton at Curacao, Netherlands West Indies. This is equivalent to about \$250 a ton delivered in New York.  
Another source of supply for the high-priced free market is the duration of Canadian paper consigned to New York for re-export.  
A typical transaction occurred several weeks ago, one paper dealer said, involving a shipment of newsprint to Shanghai from a Canadian mill through the port of New York. The exporter in New York learned that his Shanghai customer had gone bankrupt after the paper had arrived in New York. This dealer said the paper eventually filtered into the free market.  
Well-informed sources in the industry stated they knew of only one instance, involving about 25 tons of newsprint, in which a Canadian mill deliberately arranged with the New York agent to divert into the free market newsprint which was ultimately bound for re-export from New York.  
A fair quantity of off-claim newsprint also has found its way to the high-priced market. Normally a publisher would not bother with old news but one

**Tax Veto**  
(Continued from Page One)  
tax cutting bill with the assertion it is still the "wrong kind of tax reduction" — at the "wrong time."  
House leaders planned an immediate vote and confidently forecast the necessary two-thirds majority to override. But Republicans foresaw little hope of obtaining an overriding majority in the Senate. Failure of either House to override, they say, will kill any tax reduction for the current session of Congress.  
Mr. Truman's veto message went to the House which originated the income tax slashing measure to become effective January 1. The first bill he vetoed was identical, except that it would have taken effect last July 1.  
Since that veto, the President said, "there has been no lessening of the need to make substantial payments on the public debt."  
Mr. Truman said that when the time comes to lessen the wartime tax burden it should be reduced "on a basis that is fair to low income groups as well as to high income groups."  
Without specifying when he thought the time would be ripe for cutting taxes, the President asserted:  
"I am unequivocally committed to the right kind of tax reduction at the right time."  
The Republican bill trims taxes from 30 per cent in the lowest taxable incomes to 10.5 per cent on incomes over \$302,000. But Mr. Truman termed this measure "a premature and faulty tax reduction bill" which would inject into the tax system "inequities which would greatly increase the difficulty of making desirable revisions."  
He added that the legislation is "at complete variance with the fundamental requirements of a good tax bill," and said he is "compelled" to veto it.  
The President referred to international obligations as another reason for delaying the reduction of taxes. He said:  
"Our responsibilities for international rehabilitation have an important bearing on our efforts to secure lasting peace."  
The recent refusal of certain nations to join in common endeavors to establish conditions of stability increases the difficulty of our task."  
The President said the bill represents not only "unsound fiscal policy" but would contribute "to inflationary pressures which we have made progress in combating but have by no means overcome."  
He continued:  
"As I stated in the message on H. R. 1, (the first tax bill) there is no justification for tax reduction so long as price stability at world levels has not been secured and business employment and national income continue at peak levels."  
Since his original veto, Mr. Truman said income payments to individuals have continued to rise and the general level of business activity is establishing new high records, while the number of civilians employed has also increased.  
Asserting that total employment in June increased by 1,725,000 over May, bringing the total now employed to more than 60,000,000, the highest in history, the President declared:  
"There is still no convincing evidence that a recession is imminent."  
"Tax reduction now would delay the readjustments of prices and wages necessary to maintain this high prosperity. It would lead to an even higher level of prices for consumer goods, which would increase the danger of a recession."

**Peace Overture Made To Dutch By Indonesia**  
Offer To Raise Food Blockade Made By Premier Over Radio  
BATAVIA, Java, July 18. (AP)—Indonesian Premier Amir Sjarifoeddin said in a radio speech today the republic was prepared to halt all hostilities and unfriendly action provided the "Dutch show an eagerness to reach a peaceful solution too." The speech, broadcast over all Indonesian stations, offered also to lift the food blockade against cities occupied by the Dutch.  
It came at a moment when Dutch-Indonesian negotiations appeared to have broken down over a proposed cease-fire order and police powers in a projected interim government. The Dutch had predicted armed hostilities would start this weekend because Sjarifoeddin had rejected all Dutch demands.  
Reported clashes along the front lines emphasized the tension. The Indonesian Navy Agency asserted the Dutch had fired 210 shells into the village of Bandung, ten miles south of Bandung, inflicting heavy casualties over a three-hour period.  
Another Republican report said Dutch and Indonesian troops fought yesterday at Blodjong Malakka; near Bandung.  
A Dutch communique said the Indonesians had committed "far more than" 121 troops violations in the last two weeks and had violated the peace accord more than 1,000 times since the Republicans issued their first cease-fire order Feb. 27. The Republican army charged yesterday the Dutch had violated the truce 300 times in June.  
Deputy Premiers A. K. Gani and Setiadi of the Indonesian republic postponed their return from Batavia, the Dutch capital of Jogjakarta, while both sides anxiously awaited a decision from the Hague about whether the Netherlands would take up arms to solve the latest stalemate.  
A military spokesman in The Hague said yesterday the Dutch had 98,000 well equipped troops on Java and Sumatra and 10,000 more on other East Indies islands. The Indonesian Republican army was reported to have 200,000 troops, not including guerrillas.

**High Corn Prices Result In Smaller Supplies Of Meat**  
BY ALEXANDER R. GEORGE  
WASHINGTON — Smaller meat supplies are in prospect for next year as a result of the high price of corn.  
Government livestock experts also say that if consumer demand continues strong, meat prices are likely to be higher in 1943 because of the shortened supply.  
High prices for corn tend to reduce the future meat supplies because many corn growers figure they can make more money by selling their corn than by feeding it to hogs and cattle. Farmers, particularly those in the corn belt, keep a sharp eye on the hog-corn price ratio.  
The Technical Deadline  
This ratio means, generally speaking, that when the market price of 100 pounds of hogs is less than the price of 11.5 bushels of corn is the "signal" for less feeding of corn in normal times, when most hog-feeding farmers are efficient and experienced operators.  
However, the big increase in the demand for meat during the war and postwar period brought a large number of inexperienced hog producers into the business. Many of these newcomers figure it pays to swap or reduce corn-feeding when the price of 100 pounds of hogs is less than the price of 13 bushels of corn.  
A Department of Agriculture market observer recently estimated that 100 pounds of hogs were bringing in money equivalent to only 10.3 bushels of corn. Corn prices increased considerably after that computation was made.  
Fall and Winter Prospects  
While prospective reduction in livestock feeding indicates smaller meat supplies next year, butcher shops probably will be heavily stocked in the coming fall and winter months. There has been a record slaughter of cattle and calves this year, and an increased output of pork is indicated for this summer and fall.  
The Bureau of Agricultural Economics says this year's huge slaughter of cattle and calves will result in a sharp reduction in the number of these animals on farms. Cattle feeding in 1942 probably will be below the high rate of this year. As a result, says the bureau, beef and veal output is expected to be reduced next year.  
However, feed supply observers say that even if meat output is reduced as much as 15 pounds per person next year, it will not necessarily mean "a critical shortage" except possibly for those who do not have the money to buy meat.  
The average consumer per person for the years 1935-1938 was 125.4 pounds, almost 23 pounds less per person than this year's estimated average of 153 pounds. This year's consumption is said to be the largest in 66 years.

**Refugee Ship**  
(Continued from Page One)  
identified as the former American merchantman President Warfield — approached Haifa in custody of British destroyers.  
Seizure of the refugee ship was disclosed in an official announcement by British authorities, who said that the boarding party had "encountered strong resistance" and that tear gas had been used by both sides in the battle.  
The announcement said that damages had been suffered by both the intercepting naval vessels and by the refugee ship during the clash.  
The steamer President Warfield, once carried thousands of vacationists between Baltimore and Norfolk, as queen of the old Bay Line fleet.  
She participated in the Normandy invasion in 1944 and later turned up as a troopship plying the shallow Seine between Le Havre and Rouen.  
She was mustered into war service in 1942, made an Atlantic crossing under her own power, and participated in pre-invasion amphibious maneuvers off Barnstaple, England, and the North Devon coast of England.  
The Warfield came back to the States battered and destined for the scrap heap, but the Weston Trading Company of New York bid for her \$50,000 at a surplus sale.  
A later announcement said she had been bought by the Chinese-American Industrial Company of New York and would go into service as a Chinese river boat.  
But she started for China by way of Marseille, France. Most of her cargo when she set out was life preservers and mess kits. There wasn't much doubt she really was headed for a job of running Jewish immigrants into Palestine.

**Camp Winona**  
(Continued from Page One)  
tended by members from nearly every cabin and won by a moderate margin.  
Mr. Morris told the campers the legend of "Little Annie," "One-Eyed Pete" and "Long Knife Harry." The campers went to their cabins for lamps and lights-out anxiously looking forward to the hike to the Haunted Church and "One-Eyed Pete's" grave, planned for the morning.  
Boys and counselors attending the camp are as follows: Cabin I; Pete Brock, counselor, Dancy Calahan, Scouter, Bowen, Bobby Parks, John Fox, Wade Garner, Frank Cranston, Harold Granstein, Roberto Poy and Fredrick Poy from Havana, Cuba and Alliston Baker; Cabin II; Gene Levy, counselor, Mike Wheelch, Wesley Spencer, Walter Routh, Ronnie Garza, Scouter, Joseph McDaniel, Atlanta, Ga. (little chief), Billy Clark, Buddy Dunn, Robert Baker, Jimmy Fox and Joe Hutchinson.  
Cabin IV; Spencer Harden, counselor, Donald Kelly, C. R. Flowers, Melville Brinson, A. Phillips, James Stripling, J. Black, Bobby Mitchell, Monroe Pearce, Edward McCall, Robert Shoemaker, John Eberhardt, Jacksonville, (little chief); Cabin V; Al Brock, counselor, Larry Burney, Ellis Morris, (little chief), Morris Phillips, Jimmie Owen, Kenneth Ramsey, Rodger Garner, Edwin Madden, James McKee, Billy Park, George Putman, Robert Shaw; Cabin VI; James Lawton and Robert Cranston, counselors, Gene Ellsberry, Alfred Stanley, Nolly Dunn, Curtis Winkley, Deland, Sammy Dunn, Robert Wright, J. Moore, Richard Phagan, Kenneth Holla and James Boala.

**Left Hook To Bear's Nose Saves Child**  
CHICAGO, July 18. (AP)—A city fireman punched a bear in the nose at the suburban Brookfield Zoo and thereby saved the life of three-year-old Terry Lee Falk, of Juliet, Ill.  
Terry, visiting the zoo yesterday with his mother, Mrs. Amherst Falk, decided to feed the black bear, some of his surplus popcorn. He clambered over the guard rail and across the interlocking safety zone. The bear seized the child and pinned him to the cage with his huge, clawed paws.  
Fireman Walter Troy, attracted by the child's screams, leaped the rail and began punching the bear's nose. When the animal relaxed its grip, Troy snatched Terry free.  
At Berwyn Hospital, where the boy was treated for claw marks on his right arm and left thigh, Terry said, "I only tried to pet him."

ing Speaker Martin (R-Mass) in line to replace him in the event Mr. Truman is unable to complete his term.  
The legislation, which Mr. Truman requested immediately after he entered the White House and vacated the vice-presidency, was signed as part of the presidential routine.  
The House Appropriations Committee recommended an additional \$35,500,000 for construction of temporary housing for war veterans and their families.  
The committee estimated that 8,028 units can be provided with the new money, which supplements \$438,462,814 already provided for the program for construction of surplus military and veterans' housing. The National Housing Agency is in charge of the work.  
The House Commerce Committee approved legislation to give Italy 51 merchant ships as compensation for an equal number of vessels lost or seized in the war.  
The bill, already approved by Senate, also provides for return of \$60,000,000 in wartime seized Italian property after deductions of amounts necessary to reimburse U. S. citizens who suffered losses in Italy during the war.  
A renewed plan for United States leadership in reapplying and resettling the displaced persons of Europe went before Congress with legislation proposing \$71,024,900 as this country's share of the cost.

**Peace Overture Made To Dutch By Indonesia**  
Offer To Raise Food Blockade Made By Premier Over Radio  
BATAVIA, Java, July 18. (AP)—Indonesian Premier Amir Sjarifoeddin said in a radio speech today the republic was prepared to halt all hostilities and unfriendly action provided the "Dutch show an eagerness to reach a peaceful solution too." The speech, broadcast over all Indonesian stations, offered also to lift the food blockade against cities occupied by the Dutch.  
It came at a moment when Dutch-Indonesian negotiations appeared to have broken down over a proposed cease-fire order and police powers in a projected interim government. The Dutch had predicted armed hostilities would start this weekend because Sjarifoeddin had rejected all Dutch demands.  
Reported clashes along the front lines emphasized the tension. The Indonesian Navy Agency asserted the Dutch had fired 210 shells into the village of Bandung, ten miles south of Bandung, inflicting heavy casualties over a three-hour period.  
Another Republican report said Dutch and Indonesian troops fought yesterday at Blodjong Malakka; near Bandung.  
A Dutch communique said the Indonesians had committed "far more than" 121 troops violations in the last two weeks and had violated the peace accord more than 1,000 times since the Republicans issued their first cease-fire order Feb. 27. The Republican army charged yesterday the Dutch had violated the truce 300 times in June.  
Deputy Premiers A. K. Gani and Setiadi of the Indonesian republic postponed their return from Batavia, the Dutch capital of Jogjakarta, while both sides anxiously awaited a decision from the Hague about whether the Netherlands would take up arms to solve the latest stalemate.  
A military spokesman in The Hague said yesterday the Dutch had 98,000 well equipped troops on Java and Sumatra and 10,000 more on other East Indies islands. The Indonesian Republican army was reported to have 200,000 troops, not including guerrillas.

## Truman Calls For Stronger Defense Against Inflation

### "Unprecedented Prosperity" Cited But Inflationary Problems Outlined

WASHINGTON, July 21 (AP)—President Truman said today the nation has surged to a pinnacle of "unprecedented prosperity," but must strengthen its defense against inflation.

In a special mid-year economic report to Congress, the Chief Executive declared that production now is running at a rate of \$225,000,000 a year far surpassing anything in history, and added:

"We can place the high production and the high employment that we have today on a firm foundation of continuing prosperity and peace."

But through the 30,000 word document were four C's—Corn, Coal, Construction and Commerce overseas, named by Mr. Truman as developments which mean that "inflationary problems may become stronger."

Terminating price reductions still necessary in many areas, the President said they must not be swamped in a wave of speculation caused by the forecast of a short corn crop or by a wave of new wage and price boosts pegged to John L. Lewis' coal contract settlement.

Mr. Truman said there are as yet no grounds for real alarm or for general speculative increases in food prices arising

## Court Rules On Papers And Files Of F. D. Roosevelt

POUGHKEEPSIE, N. Y., July 21 (AP)—Dutchess County Surrogate Frederick S. Quintero ruled today that all papers and files of the late President Roosevelt are a valid and effective gift to the United States government to be placed, maintained and preserved in the Franklin D. Roosevelt Library at Hyde Park.

The ruling came as part of a judicial settlement of the account of proceedings of James Roosevelt, Basil O'Connor and Henry P. Hackett as executors of the last will and testament of Mr. Roosevelt.

Last Spring, when the Senate War Investigating Committee sought permission to go through the papers in search of information dealing with Navy purchases of Arabian oil, Fred W. Shipman, librarian, said at such time and if the Roosevelt papers are turned over to the government by court order, the United States archivist would face no insurmountable problem in making the papers available to a Senate committee or any other government body for official use.

But that time President Truman had rejected the request for the papers and wrote the executors asking for any papers relevant to the inquiry.

Shipman could not be reached immediately for comment on the surrogate's decision.

Yesterday the Senate War Investigating Committee subpoenaed papers of the late President for an inquiry aimed at determining who authorized a wartime contract to Howard Hughes for construction of an experimental flying boat.

Earl K. Koons, an attorney for the Roosevelt estate, referring to the subpoena, said today: "No one knows whether the documents sought are among Mr. Roosevelt's papers. If they are they will be supplied to the committee as soon as possible. Every effort will be made to comply with the subpoena."

## Motorcyclist Hurt In Highway Wreck

Condition of Roy Clyde Kitchens, 28 year old Ocoee mechanic, whose motorcycle was wrecked shortly after 2:00 o'clock Sunday afternoon when he attempted to take a short cut through a wooded area on the highway at "Death Valley," is today reported as serious at Fernald-Laughton-Memorial Hospital, and x-rays are being taken to determine possible concussion, according to State Highway Patrolman L. C. Bender, who investigated the accident.

Both Kitchens and his wife, Myrtle Kitchens were taken to the hospital by Charles Luke, manager of the Mather Furniture Store and a witness to the accident. Mr. Kitchens, who was treated for cuts and bruises, was released from the hospital last evening.

The accident took place about 150 feet south of the well which is south of the Big Tree road. The motorcycle, a Harley Davidson, 37 model, collided with the left rear fender of the 1941 Chrysler Sedan driven north on the highway by Josephine Mines, 36 year old Orlando negress. According to Patrolman Bender, the motorcycle was dragged about 150 feet.

## Two Pieces of Local Property Are Sold

The Gulf Oil Company is planning considerable increase in the size of its filling station at Frank Avenue and First Street, and have purchased the Lula Miller property adjoining the station on First Street for this purpose.

The old home on the property will be moved to another site, according to W. K. Williams, realtor, who handled the transaction.

Mr. Williams also announced that W. E. Swain had sold his home at 216 West Nineteenth Street to Mr. and Mrs. T. H. Dixon who came to Sanford several months ago from Waycross, Ga. Mr. Dixon is an employee of the Atlantic Coast Line Railroad.

## Six Man Jury In Papy Case Is Agreed On

### Judge Directs Jurors Be Kept Together And Cut Off From News Publications

TALLAHASSEE, Fla., July 21 (AP)—A six man trial jury was seated today after two and a half hours of examination to try former Representative Bernie C. Papy of Key West on charges of bribing fellow House members.

As soon as the jury was sworn in, the court recessed until 2:30 P. M.

Odham and Rep. Clarence M. Camp of Ocala accused Papy of offering bribes to help defeat a bill prohibiting telephone and telegraph companies from giving their service to race bet bookmakers. They are the State's principal witnesses.

During selection of the jury, Papy sat calmly at the defense table, surrounded by six lawyers.

Neither the State nor the defense used all of its allotted challenges of veniremen and only 15 of the 93 called as prospective jurors were questioned.

Pat Whitaker of Tampa quizzed everyone of them on whether they had any connections with newspapers.

He also asked them whether they would lean "to the slightest degree" toward the prosecution if Papy were not called to the stand to testify in his own defense. All replied they would not let that influence them.

Three state employees among the prospective jurors were excused, either by the prosecution or the defense. Judge W. May Walker excused two men when they said they had preconceived ideas about the charges.

Before court recessed for lunch, Judge Walker directed the 15 jurors be kept together through the trial and that they be cut off from access to magazines and newspapers until a verdict is reached.

The action was taken at the suggestion of the State.

Steele was the first of 14 witnesses scheduled as the committee began a week of public hearings on Communist activities. He testified as chairman of the National Security Committee of the American coalition of patriotic, civic and fraternal societies. The coalition is an organization of 84 societies promoting patriotism, Steele said. He gave this breakdown of Communists and their sympathizers in this country:

1. Upwards of 100,000 card-carrying members of the Communist Party.
2. Another 100,000 candidates for party membership.
3. Approximately 4,800 members of Communist front organizations. As for their political activity, Steele asserted:

"They are now pushing for a coalition of Leftists with the expectation of forming a major third party."

Steele called the front organizations "far more dangerous" than the party. He explained:

"The leaders are published as authors, professors, scientists and professional men. Ever increasing numbers are joining them. All are gradually veering to the party line through the pulling of the strings of the tireless workers among those forces who have party affiliations."

Steele said he submitted to the War Department two months ago a list of 2,000 Army officers or men who are members of the Communist Party or fronts.

Legislation to outlaw the poll tax as a requirement for voting

## Orlando Fined On Out-Of-Season Hunting Charge

Ray A. Hollenbeck of Orlando was arrested last Monday near Chuluota on a charge of hunting out of season after he had killed two turkeys on the preceding day. The arrests took place before County Judge R. W. Ware and fined \$100 and costs.

Joe Hickson, honorary game warden and rider for the Buck Point Hunting Club, identified Hollenbeck as having shot the turkeys. According to County Prosecuting Attorney George A. Speer, Hickson heard the two shots while in his home near where the turkeys were downed, ran down the road and saw Hollenbeck in his automobile, and was told by the latter that he had shot at a hawk.

The sound of turkeys in distress made Hickson suspicious and he noted the tag number of the car. Later he recovered the turkeys and notified a member of the hunting club who in turn telephoned Mr. Speer. Porter Lansing, president of the Seminole Sportsman's Association was contacted by Tanner, wild-life officer of Orange County, who was located with Seminole Game Warden Walter Courson of Sanford, made the arrest.

Prior to arresting Hollenbeck the officers traced the car number to Orlando. Joe Hickson was taken along to identify Hollenbeck. A companion who was with Hollenbeck at the time of the shooting has not been identified, said Mr. Speer. The turkeys, one large and one small, were put in the Central Florida Quack Frenzy Company plant and will probably be given to the County home.

## Motorcyclist Hurt In Highway Wreck

Condition of Roy Clyde Kitchens, 28 year old Ocoee mechanic, whose motorcycle was wrecked shortly after 2:00 o'clock Sunday afternoon when he attempted to take a short cut through a wooded area on the highway at "Death Valley," is today reported as serious at Fernald-Laughton-Memorial Hospital, and x-rays are being taken to determine possible concussion, according to State Highway Patrolman L. Both Kitchens and his wife, Myrtle Kitchens were taken to the hospital by Charles Luke, manager of the Mather Furniture Store and a witness to the accident. Mr. Kitchens, who was treated for cuts and bruises, was released from the hospital last evening.

The accident took place about 150 feet south of the well which is south of the Big Tree road. The motorcycle, a Harley Davidson, 37 model, collided with the left rear fender of the 1941 Chrysler Sedan driven north on the highway by Josephine Mines, 36 year old Orlando negress. According to Patrolman Bender, the motorcycle was dragged about 150 feet.

## B-29s In Germany To Test New U. S. Bombs

WIESBADEN, Germany, July 21 (AP)—An initial practice flight of three B-29 superfortresses which will test the penetration power of new American 25,000-pound bombs against a "bomb-proof" German submarine factory was postponed today by bad weather.

The huge planes, equipped with special bomb-bays, were scheduled to fly over the Farge underground submarine plant near Bremen this morning to familiarize pilots and bombardiers with the layout.

An Army Air Force spokesman said the tests would cover a three-month period. Thirty "Amazon" and "Bambon" bombs, with their high explosive extracted, will be loaded on the target from heights of around 20,000 feet.

## Gromyko Hits Balkan Inquiry

SOVIET DELEGATE Andrei A. Gromyko (left) is shown as he spoke on the Greek situation before the United Nations Council at Lake Success, N. Y. He said that the Soviet Union "cannot agree" to the U. S. proposal for the establishment of a semi-permanent frontier commission in the Balkans. He left members of the Council in the dark as to whether he would veto the American resolution or merely abstain. Seated at right is Sir Alexander Cadogan of Great Britain. (International)

## No Action Taken To Lower Auction Fee By City Body

The City Commission declined to act Friday evening on a measure proposed by Commissioner Andrew Caraway at the request of George Austin of the House Furniture Company that the license fee for auction sales be reduced from \$100 a day to \$20 a day. The motion died for lack of a second. City Manager H. N. Sayer said today.

Ned Smith, owner of the Sanford Furniture Company, and Jack Ratican, manager of the Seminole County Motors, Inc., appeared before the Commission and opposed reduction of the fee for auction.

Until Oct. 1, 1944, this fee was \$10 a day, said Mr. Sayer, and at that time was increased to the present \$100 rate. He declared that Mr. Austin had appeared at a meeting of the Commission on July 10, requested the reduction, and had pointed out that Orlando had reduced the rate from \$250 to \$50 a day. Mayor Gut, with the approval of the Commissioners, then directed City Attorney Fred Wilson to prepare an ordinance containing the proposed reduction to be submitted at the Friday meeting.

Commissioners Hishop and Leaver were absent from the Friday meeting. Tonight, the Commission will meet to consider the ordinance.

## Camp Winona Activities Highlighted By Treasure Hunt And Stunt Night

By BOBBY PARKS  
Camp Scribble

Wednesday and Thursday were busy days at Camp Winona with the many activities going full blast.

Rifling, off to a slow start, because of weather, is going full blast now with daily prizes being awarded to the boy who makes the highest score. "Squirrel" Bowen won a rifleman's hand-book for the highest score Thursday of a 43 out of a possible 50.

Many of the boys went with Mr. Morris for an interesting 2 1/2 mile trip around the lake. On the hike the boys visited many points of interest around Winona and the outing was a huge success.

Some of the boys tangled with a hornet's nest at an old slaughter house.

Thursday night was stunt night with each cabin entertaining the rest of the camp with an original stunt. The stunts were judged by the number of boys in it, its originality and the acting. Cabin I, under direction of Danny Callahan won first place with a skit of an operation.

Dr. Quibek portrayed by Wade Garner and the feminine lead by "Squirrel" Bowen drew a big cheer. Cabin II with Ronnie Garner as Daley-Mae and Walter Graham as the villain came in second place. Cabin III placed second with a take off of Little Annie, camp legend, and Buzie Dunn as little Annie was a scream. Bobby Morris voted to Long Knife Harry, George Harden as the Eyed Pete and Stanley Katz as the grandmother gave a big laugh to the campers.

Bobby Morris won the treasure hunt held Thursday afternoon by a close margin over Wesley Spencer. This gave five extra points to his cabin and an ice cold watermelon as the treasure.

Wednesday night Al Brock entertained the camp at council ring by relating his experiences in North China. The Dikwahwah quartet sang another highly enjoyable song.

Billy Park won his white swimming ribbon and Kenneth Ramsey his blue. Chum Stanley and Spencer Harden roared the beginning of the evening as all making fast progress.

Buddy Dunn caused envy when he caught a 6 1/2 pound bass while fishing with Gene Levy and Mr. Morris.

The boys enjoyed a western movie Saturday night in the recreation cabin. Mr. Morris has made every possible effort to furnish added entertainment and activities to this year's program.

Goal II, soft ball, horseshoes, and ping pong are all going strong.

## Senora Peron Will Not Visit Britain

LONDON, July 21 (AP)—A British Foreign Office spokesman told a news conference today that Senora Eva Peron, wife of the Argentine president, had definitely called her plans for a visit to England.

"The Argentine ministry of foreign affairs," the spokesman said, "has informed the British Embassy in Buenos Aires that Senora Peron will not be visiting England during her present European tour."

The spokesman's announcement came less than 10 days after he had disclosed that Queen Elizabeth had "initiated" she would be glad to receive Senora Peron if she came to Britain.

Trade unions here had signified their intention to demonstrate against Senora Peron if she visited Britain and had referred to her as "a fascist ambassador."

## Dutch Forces Attack Indonesian Republic By Land, Sea And Air

### Rebels Forced Into Yugoslavia By Greek Troops

### UN Commission Plans To Visit Area Of Initial Invasion

ATHENS, July 21 (AP)—Press dispatches reported today that guerrilla bands had attacked two points in northern Greece near the Yugoslav border, and that in each case they withdrew after a battle to the Yugoslav territory.

Greek troops pursued harassing action against Leftist forces in the mountains near the frontier of Albania, Yugoslavia's western neighbor, after repelling the offensive against Komita last week.

Dispatches today from Salonika said 400 guerrillas had attacked Moures, 25 miles north of Salonika, at dawn yesterday but were repelled by Greek commandos who killed 10 before the remaining guerrillas fled across the Yugoslav border two miles away.

Army casualties were two killed and two wounded.

Other dispatches said 300 guerrillas raided a police station at Mesohori, about two miles south of the Yugoslav border—and 41 miles northwest of Florina, where Greek authorities said they have feared a possible "invasion." Simultaneously a band armed with heavy machineguns and mortars was reported to have attacked the nearby village of Mesokambos, setting fire to nine houses, despite strong opposition by armed peasants.

One newspaper account declared the attack supported by machinegun fire from the 50th Yugoslav frontier post.

Meanwhile, the United Nations submission investigating Greek border disorders announced that it planned to visit Komita to inspect the area where guerrilla forces launched their first attack.

## Curfew Restrains 90,000 Additional Jews In Palestine

JERUSALEM, July 21 (AP)—A dusk-to-dawn curfew was ordered today for 90,000 Jerusalem Jews, bringing to 155,000 the number of Jews under curfew restrictions here, in Haifa and in the Natanya area. The action followed a new outbreak of violence which left three dead and 23 wounded in 48 hours.

The British Army was ordered to lock in the Jewish quarters here from 7:00 P. M. to 5:00 A. M. daily "until further notice."

Some 50,000 Jews in Haifa already were under a similar curfew. About 15,000 at Natanya have been under martial law for a week as a result of the kidnapping of two British army sergeants.

Fear of repercussions for the deportation from Haifa of 4,500 or more uncertified Jewish refugees of the Exodus of 1947 was reported to be the reason for the extended curfew.

In London, authoritative Whitehall informants said that the Jews without visas seized Friday aboard the refugee ship were being shipped back to France in a "new and tougher" approach to the handling of such blockade runners.

However, the British foreign and colonial office spokesmen refused to comment.

The informants said the Jews returned to France presumably would be accommodated in displaced persons' camps.

Britain has been in touch with "certain" European countries on the whole question of Jewish immigration to the Holy Land, they said, and arrangements have been made with at least Italy and France to halt the flow of European Jews without immigration certificates by returning them to their embarkation ports.

This course has been advocated by the Arab leadership of Palestine.

In recent months, Jews arriving in Palestine above the quota have

## John V. Martin, Former Deputy Sheriff, Dies

John Vivian Martin, 69, died Saturday morning at 8:00 o'clock at his home on South Sanford Avenue. He had made his home in Sanford for 23 years.

Formerly with the Sheriff's office, Mr. Martin was born June 17, 1878 in Decatur, Iowa.

In addition to the widow, Mrs. Anna Martin, other survivors include three sons, Warren W. Martin, Pelican Rapids, Minn.; John V. Martin, Jr., and William R. Martin, Sanford; one grandson, Carroll Martin, Pelican Rapids, Minn.; two brothers, Chris Martin of East Anglin and Lorn Martin of Pennsylvania.

Funeral services will be held at the Erickson Funeral Home at 4:00 P. M. Tuesday and interment will take place in Evergreen Cemetery. The Rev. Glenn E. Smith and Rev. J. W. Austin will officiate. Members of the Elk Club will have charge of the graveside services.

Pallbearers will be Jesse C. Lodge, Leo Hutter, A. W. Odham, J. D. McNeil, J. H. Truluck, Frank Rauger, H. M. Jameson and J. W. Stewart.

## Florida Pilots Club To Be Formed Here

Formation of a Central Florida Pilots Club was announced today by Roy Browning, airport manager, following the successful completion of the breakfast flight in Haifa and in the Natanya area. The purpose of the new organization is to encourage the use of the airplane in Central Florida and any flier with a student pilot's certificate is eligible to join.

Sunday's breakfast flight came off as scheduled, Mr. Browning stated, with 8 planes and 17 pilots leaving the Sanford airport at 8:15 A. M. They arrived at New Smyrna at 8:35 A. M. and were driven to the beach in cars furnished by Bill Wright and Windsor Rowley, operators of the New Smyrna Aero Service. Later breakfast was served at the Airport Grill.

Among those participating, besides Mr. Browning were Walter Krohne, Jr., C. B. Gunn, Howard Shroyck, Oliver Bjoblom, Merrill Tindale, Charles Baker, Julian Simmons, Roy Nixon, Ted Jackson, Gene Boyer and Jerry Hackett.

## CIO To Ask 2nd Raise From Rubber Firms

CLEVELAND, July 21 (AP)—The CIO-United Rubber Workers international policy committee has decided to ask the rubber industry's "big four"—Goodyear, Goodyear, U. S. Rubber and Firestone—for another 1947 pay raise.

The committee named rising living costs for its decision yesterday to more money from "Big Four," signers of the first wage contract this year among the nation's major producers.

## Republic's President Appeals For UN Security Council To Take Up Issue

BATAVIA, Java, July 21 (AP)—President Soekarno said by radio tonight the Dutch were attacking his Indonesian Republic by land, air and sea. He appealed to the world to force the United Nations Security Council to take up the issue.

A Dutch communique said Dutch warplanes had attacked Republican airfields in Java and Sumatra because Indonesian fighter planes were ready for action.

The Dutch, declaring they would not attack either the civil population or non-military objectives, were attempting to immobilize harassing anti-aircraft guns at the fields and the Republican air force, believed to number about 40 obsolete Japanese planes, many in poor repair.

The Republican radio, over which Soekarno appealed, said Dutch artillery had opened fire south of Bandung, 100 miles southeast of Batavia. The report said two Dutch planes using rockets attacked Malaya, in west Java, and that other Dutch aircraft had straddled a Soekarta-Staden railway line.

Indonesian broadcast and other sources said the finely equipped Dutch army of about 150,000 men, using mostly U. S. Lend Lease surplus military equipment, was striking simultaneously at numerous points.

Dr. H. J. Van Mook, acting Dutch governor general, called the Indonesian "police action" a "last resort" and said in an order of the day that "our enemies are those elements which try to sabotage the sincere implementation of the agreements reached."

## Company Honors Production Chief Upon Retirement

More than 100 employees of the Florida Power Corporation gathered Friday afternoon to honor retired production superintendent George E. Turner at the Benson Springs Power plant which was renamed the George E. Turner plant. A plaque in the hallway of the building inscribed with Mr. Turner's name, was unveiled by A. W. Higgins, president of the company.

Mr. Turner, who lives in Orlando, had charge of the construction of Benson plant on the shores of Lake Monroe in 1926, was in the service of the company for more than 22 years, and has 44 years of experience in the industry.

He was presented with a 32 degree Masonic ring in token of appreciation, and Mrs. Turner received a corsage of red roses. W. J. Clapp, new production superintendent, served as master of ceremonies. A talk was given by Pres. Higgins, who highly praised Mr. Turner, as well as R. J. Allen, chief engineer of the company.

Following the ceremony, a fish fry and picnic was held on the plant grounds. There were many visitors of the company, formerly known as The Florida Public Service Company, from Winter Park, Deland and St. Petersburg.

## Frank George Murphy Died Saturday A. M.

Frank George Murphy, a resident of Sanford for the last three years, died at the local Truitt Camp where he resided, at 1:30 A. M. Saturday after a brief illness.

Born Apr. 20, 1875 in Emory, Ill., he deceased was a retired Railroad Track Supervisor.

Survivors include the widow, Mrs. Nella M. Murphy, Sanford; three daughters, Mrs. W. L. Maughan, Bartow, Mrs. W. A. Knight, Charleston, S. C., and Mrs. Harvey Hale, Sanford; three sons, K. M. Maughan, Sanford, W. H. Knight, Los Angeles, Calif., and J. E. Knight, Bloomington, Ind.; also 11 grandchildren and six great grandchildren.

Funeral services will be conducted at the Erickson Funeral Home Tuesday at 11:00 A. M. with the Rev. Douglas Charles officiating. Burial will be made in Evergreen Cemetery.
