

FEDERAL AUTHORITIES WILL COMBINE FORCES WITH MUNICIPALITIES

On the Unemployment Question of the Country

CENTRAL AGENCY

WILL BRING WORK AND EACH LOCALITY WILL RELIEVE OWN SITUATION

WASHINGTON, Oct. 5.—Col. Arthur Woods, former police commissioner of New York, will head the central agency to be established here by the National Conference on Unemployment, to co-ordinate emergency relief of the workless wage earners throughout the country.

The conference desires, Secretary of Commerce said in making the announcement yesterday, to see the whole country organized on a community basis to effect the quick distribution of jobs to the involuntary idle through efficient operation of the emergency program adopted last week. Informal machinery, voluntary in its nature, is being set up in the form of one of the conference committees, which under the direction of Colonel Woods can receive reports from various communities of the progress being made and transmit to the different localities successful methods tried out in others.

Hope was expressed in high administration circles yesterday that President Harding's suggestion for a review by community authorities of the employment situation and steps taken to alleviate it in local areas, would produce a picture from which it would be possible to determine where there is evidence of "slackerism" in any community.

The municipal and other authorities were said to have shown great interest in steps being planned in Washington to deal with unemployment and where any community has failed to proffer aid to its own unemployed, it is felt that it would be brought to such undesirable notoriety through publication of the facts that emergency measures in that community would follow.

Reports of local organizations are coming into the conference steadily, Mr. Hoover said, adding that telegrams had been received from the mayors of Memphis, Chattanooga and Nashville, Tenn., and Youngstown, O., stating that they were organizing to meet their unemployment situations along the lines suggested by the conference.

In connection with means of emergency relief the full report of the committee on municipal organization for unemployment, made public last night said: "The methods of accomplishing results must vary with each locality and no methods capable of universal adoption can with safety be recommended. Therefore, specific recommendations to communities are confined to the very urgent one that following the leadership of their mayors with united local committees they accept this primary obligation to the full."

POSSES SEARCHING FOR NEGRO BANDIT WHO ROBBED EIGHT.

(By The Associated Press) FORT WORTH, Texas, Oct. 5.—A posse today is searching along the shores of Lake Worth, near here, for a negro who last night forced eight men and women he found in a house by the lake, to tie up one another and then robbed them of eighteen hundred dollars worth of jewelry and a small amount of cash. The robber also attempted to attack a seventeen year old girl in the party, but ran when her mother untied herself and ran, screaming for aid, the victims said.

EXPRESS RATES ON FISH AND OYSTERS IS CUT 10 PER CENT.

ATLANTA, Oct. 5.—Express rates on fish and oysters and other sea food will be reduced 10 per cent by the Southern Express Co., effective today, it was announced in tariffs voluntarily filed with the Interstate Commerce Commission, George H. Kerr, traffic manager, today announced.

UNITED MINE OWNERS ADJOURNED MEETING IN FAVOR OF NEW PARTY.

(By The Associated Press) INDIANAPOLIS, Oct. 5.—The convention of the United Mine Workers of America adjourned today after the adoption of the declaration favoring the creation of a new political party of organized labor and organized farmers.

ARBUCKLE NOT IN COURT CASE CALLED

BUT FAT COMEDIAN WAS NOT NECESSARY FOR ARRAIGNMENT.

SAN FRANCISCO, Oct. 5.—The manslaughter charge against Arbuttle is on the calendar of the Superior Court today, but the defendant was at his home in Los Angeles. It was learned last night from attorneys of the defense, that Arbuttle's presence in court today was not deemed necessary, as the case will come up only for instruction and arraignment. District Attorney Brady, however, intimated that he opposed Arbuttle's absence and probably would ask continuance until next Friday to enable Arbuttle to come to San Francisco and appear.

GENERAL WOOD RETIRED TODAY ACTIVE SERVICE

TO ACCEPT APPOINTMENT AS GOVERNOR OF THE PHILIPPINES.

(By The Associated Press) WASHINGTON, Oct. 5.—Major General Wood retired today from active service in the army to accept the appointment as Governor General of the Philippines, thus ending voluntarily more than thirty-six years of military life.

FAIR AND COOL IS WEATHER REPORT FROM NEW YORK

NEW YORK, Oct. 5.—(By The Associated Press).—Fair and cool weather this morning with the first game of the world series scheduled this afternoon. Hours before the Giants and Yankees went to battle at the Polo grounds crowds of fans from four corners of the earth were hurrying toward the park hoping to gain admittance. At midnight several fans gathered at the entrance. Fifty were in line by one o'clock. Cold night with raw wind and frequent showers brought out overcoats, blankets and even old newspapers to keep enthusiasts warm. Automobiles appeared shortly after midnight. Drawn curtains indicated occupants were asleep awaiting daybreak and a chance to buy tickets. Toward daylight the crowd grew larger and the line longer. The police had some arguments to settle but it wasn't strenuous labor. If opinion of bleacherites is any indication of the outcome of the game the Giants will win. All along the line the National Leaguers are favored over the Yankees, yet those who supported the latter club made up in noise what they lacked in number.

The handsome new hospital which was built at a cost of \$50,000 in DeLand, has been finished and ready to move into. —Get your Scratch Pads from The Herald office.

Two "Louise Brides" in Potsdam

This photograph shows two married couples just after the conclusion of the one hundred and tenth wedding of "Louise brides" in Potsdam, Prussia. Each year on July 10 persons are married in the garrison church at Potsdam, on the very hour that Queen Louise of Prussia died, an hour sacred to Germans. Especial favors and assistance are granted by the government to these couples.

YANKS TAKE FIRST GAME WORLD'S SERIES; SCORE 3 to 0

ONLY THREE CANDIDATES FOR TAMPA COMMISSION

(By The Associated Press) NEW YORK, Oct. 5.—"I am confident, not cocky" declared Miller Huggins, Yankee manager. "I am relying on the courage of my players and their general ability" said McGraw. Asked how his hurlers proposed to treat Babe Ruth at bat McGraw said he would not cross bridges until he comes to them. "But I can say," he added, "that we shall take no liberties with a slugger like Ruth." The batteries for today's game will be: For the Giants, Douglass and Snyder, and for the Yankees, Mays and Schang.

First Inning First half, Yanks 1 run. Second half first: Giants made no runs, one hit, no errors. Second Inning First half second, Yanks nothing. Last half second, Giants nothing. Third Inning First half third, Yanks nothing. Last half third, Giants nothing. Fourth Inning First half of the fourth: Yanks nothing. Last half fourth: Giants, nothing. Fifth Inning First half fifth: Yanks one run. Last half fifth: Giants nothing. Sixth Inning First half sixth: Yanks, one run. Last half sixth: Giants nothing. Seventh Inning First half seventh: Yanks nothing. Last half seventh: Giants nothing. Eighth Inning First half eighth: Yanks nothing. Last half eighth: Giants nothing. Ninth Inning First half ninth: Barnes went in to pitch for Giants. Yanks nothing. Last half ninth: Giants nothing. Final: Yanks 3 runs, seven hits, no errors. Giants no runs, 5 hits no errors.

TWO WONDERFUL TEAMS PLAYING IN NEW YORK, HOW THEY STACK UP

It is generally conceded among the wagging fraternity that the Giants and the Yankees are about evenly matched, advantage at a certain point for one team being offset by greater power or strength in another section of attack or defense of the rival combination. As a result, what betting is being done is at even money or the very slightest of odds. One enthusiastic admirer of the Giants may offer 10 to 9 on the chances of the Nationals winning, while a few blocks away some Yankee rooster may think that the bludgeon of Babe Ruth warrants odd of six to five on the American chances. Attempts by the experts to analyze the chances of the two teams generally result in about the same situation of uncertainty and doubt. Not in recent years have two teams entered the final and most important baseball battle of the season with less apparent advantage one way or the other. Of

THE CROSS EXAMINATION COMPLETED WITH RAWLINGS DEFENSE UNABLE TO SHAKE

WOMAN GOLF CHAMPION MET HER WATERLOO DEFEATED BY AMERICAN.

(By The Associated Press) NEW YORK, Oct. 5.—Miss Cecil Leitch, woman golf champion of Great Britain, France and Canada, has failed in her quest of the United States championship. She was defeated today by Mrs. F. C. Leets, Jr., of Chicago, one up a home green, and thus eliminated from the tournament.

HUDSON GUILTY MURDERED TWO STEP CHILDREN

SENTENCED TO HANG ON FRIDAY, NOVEMBER 18TH

(By The Associated Press) ALBANY, Ga., Oct. 5.—Glenn M. Hudson was today found guilty of the murder of his two stepchildren and sentenced to hang November eighteen. The jury was out all night and returned a verdict at 11 o'clock. Mrs. Hudson, mother of the murdered boys, jointly indicted with her husband, will be placed on trial Monday. The two boys, Robert and Isiah Temple, sons of a deceased oversea veteran, aged ten and four, were shot to death on the porch of their home while eating watermelon.

FOUR NON-PERMANENT MEMBERS OF LEAGUE ELECTED TODAY.

(By The Associated Press) GENEVA, Oct. 5.—Four non-permanent members of the council of the league of nations, China, Belgium, Brail and Spain, were re-elected today by the assembly.

NEW SUBDIVISION WILL BE STARTED SOUTH SANFORD

MEANS MORE LOTS SALES AND MORE BUILDINGS IN A FINE SECTION OF SANFORD

Sanford is growing so rapidly that the home builders are pushing out from the more congested parts of the city and getting out in the suburbs which means a bigger and better Sanford. Among the many new sub-divisions contemplated and that will be thrown on the market in a few days is Lane's Sub-division in the Southern part of the city and the subdivision extends from Sanford avenue to Oak avenue comprising some forty fine building lots at prices that will range from \$150 to \$750 on very easy terms and the success of the sub-division is already assured on account of the location and the very reasonable prices of the lots.

PLANT CITY STARTS TO MOVE GRAPEFRUIT

PLANT CITY, Oct. 5.—Seven cars of grapefruit, all shipped here from territory to the south, with the exception of some early local fruit, have been shipped to the northern markets from Plant City. The movement began Thursday and has been regular through today, when one car was shipped. The vegetable movement is assuming importance. There have been 240 packages shipped in two days, not including today's movement. A quantity of eggplants are moving, and a good proportion of both white and yellow squash is being bought and shipped. Shipments of cucumbers, okra and pepper so far are insignificant. Only new pepper is being bought. Prices are considered fairly good. Eggplants are bringing from \$1.25 to \$1.50 per crate. There is a strong demand for yellow squash. Yellows are worth from \$1.75 to \$2.00 on the local platform, and whites run from \$1.50 to \$1.75 per crate. Pepper is worth around \$2 per crate. Okra is demanding from \$1 to \$1.25 per hamper. Howard Lyman, of Altamonte, was in the city today calling on his many friends and transacting business. Mr. Lyman is an orange grower and a fertilizer salesman and knows something whereof he speaks when he says that the orange growers and the vegetable growers of Florida should make good money this season.

Testimony of Rawlins Who Stated Pope Was Head

OF ROBBER GANG

RAWLINGS SAYS POPE WAS THE MASTER MIND IN THE CONSPIRACY

(By The Associated Press) JACKSONVILLE, Oct. 5.—The defense in the trial of Pope completed the cross examination of Rawlins this morning without having shaken his story to the effect that Pope instigated the attempted robbery of the Palace Theatre September four during which Rawlins shot and killed George Hickman. Rawlins held steadily to the story that Pope was the master mind in the conspiracy to rob the Palace and put across other jobs in Jacksonville. The defense was able to bring out, however, that Rawlins had been arrested in Kansas City and Chicago before his first arrest in Jacksonville on larceny charges. He admitted he was arrested in Kansas City for vagrancy and Chicago for fighting. The defense sought to implicate him in Kansas City murder but he denied connection with any other homicide. Rawlins said Atlanta was his home and that he had a sister living there. After cross examination the state began redirect examination but this was expected to be brief.

Light Frost Tonight in South Appalachian is The Forecast Today

(By The Associated Press) WASHINGTON, Oct. 5.—The probability of a light frost tonight in the Southern Appalachian region was forecast today by the Weather Bureau in announcing continued cool weather tonight in the Atlantic states. Slightly warmer in North and Central Florida tonight.

OIL COMPANY HEAD IS ARRESTED; ALLEGE A FRAUDULENT OIL DEAL.

TULSA, Okla., Oct. 5.—Charles E. Starr, president of the Starr-Kane Oil Co., of Tulsa, was arrested today on a federal warrant from Philadelphia, charging him with obtaining \$225,000 fraudulently in an oil stock deal. Starr was arraigned and released under \$5,000 bond. His attorneys declared the arrest was the result of a "frameup" by certain Philadelphians to force him to complete a transaction, their part of which they failed to uphold.

SANFORD ROTARY CLUB MEETING
J. TURNER HERE

JUDGE HOUSHOLDER TAKEN INTO CLUB AS BABY ROTE

Sanford Rotarians had a big time at their luncheon today having as their guest District Deputy John Turner, of Tampa, a man well beloved by every Rotarian in the United States and Europe, who has met the smiling John at various times. Mr. Turner has just returned from the Rotary trip to Scotland, England, France and Spain and in the latter country had the honor to install Rotary for the first time.

John having lived in Tampa ever since Ponce DeLeon discovered cigars in that city knows the Spanish language and was chosen for the task of placing Rotary in Spain which he did to the entire satisfaction of International Rotary and the Spanish Dons. John today gave a very interesting talk on the trip to foreign lands in which 1,500 Rotarians from the U. S. A., and Orlando met the Rotarians from other countries and it was an international affair in every sense of the word. Mr. Turner had but little time today but he made it count and aside from his very interesting talk on the trip to Europe gave the Sanford Rotarians a fine talk on Rotary and all that it means. There are few Rotarians in the country better versed in the subject or that have Rotary in their hearts as largely as District Governor John Turner and his election to this important post was a great stride ahead for Rotary in the Southeast and his Florida friends are very proud of him and his visits to the various clubs over the state are looked forward to with much pleasure.

One of the features of the meeting today was the advent of Judge Housholder, the baby Rotarian and only the press of business kept the Rotarians from giving the Judge a real initiation. He was welcomed by President Stevens and by J. G. Ball and responded in a neat speech that John Turner said was the finest he ever heard from a Baby Rote—but then of course he never heard the genial Judge before.

D. L. Thrasher also made a two minute talk on Rotary that was filled with good cheer and good things for the members.

District Governor Turner paid Sanford Rotary club a fine compliment and said they were doing things and were gaining a fine reputation among the clubs of the state receiving a fine compliment from the Orlando club that was sponsor for the Sanford club.

Mr. Turner also called attention to the fact that on October 28th Orlando will be the meeting place for the Rotarians of the state at which time there will be at least 500 Rotarians in that city and Orlando wants Sanford to help them in entertaining the guests. It will be an all day affair and promises to eclipse anything ever held in the state before.

Eight American Ministers for Latin America Appointed Today

(By The Associated Press)
 WASHINGTON, Oct. 4.—Announcement of the selection of eight American ministers to Latin-American and old world countries made today at the white house, virtually completing the diplomatic roster of the new administration. To Panama, Dr. John Glover South, of Kentucky; Nicaragua, John E. Ramer, Colorado; Venezuela, Willis C. Cook, South Dakota; Guatemala, Roy Davis, Missouri; Czechoslovakia, Lewis Einstein, New York; Bulgaria, Charles S. Wilson, Maine; Finland, Charles L. Kagey, Kansas; Siam, Edward E. Brodie, Oregon.

HAYNES PUTS CLAMP ON VARIOUS STATE PROHIBITORS.

WASHINGTON, Oct. 4.—Prohibition Commissioner Haynes today clamped down the muzzle on state directors and other officials of the dry enforcement organization who have spoken in a manner that might be considered disrespectful of prohibition enforcement in the United States. A sharp letter was sent by the commissioner to every official and employee on the prohibition payroll against indiscreet statements. This is the only action expected to be taken as a result of the protest of dry organizations against utterances of state directors which were interpreted as a reflection upon enforcement policy.

Haynes has just received in collated form reports on the progress of prohibition enforcement in each of the states and the public attitude on the Volstead law, requested from each of the statedirectors. Such reports, defining public sentiment are to be received each month.

Here are the results as officially stated by the commissioner:

Large newspapers that were "wet" are now carrying strong editorials urging enforcement of the law.

Smaller dailies and weeklies "team" with editorials for support for the commissioner.

A number of newspapers refuse to print illustrations and cartoons depicting drinking.

Hotels are establishing iron clad rules against use of liquor in-rooms and discharging employes engaged in the liquor traffic.

CHARGE GOVERNOR LIBELED.

BATON ROUGE, La., Oct. 4.—Hucy P. Long, member of the public service commission from Louisiana, was arrested in Shreveport, La., today on a warrant issued by the district court of East Baton Rouge, charging him with criminally libelling Gov. John M. Parker.

The plant of the Whitehouse Barrel Co., at Hastings, which has been shut down for some time, has resumed operation again.

It looks as if independence will not Hiberniate this year.—Norfolk Virginian Pilot.

Stopping the Klan Raised Cain in Texas, Question About It

As to Whether Law Can Stop Parades or Not

WACO, Tex., Oct. 4.—Announcement was expected here today of the date of the 54th district grand jury would be called to investigate the fight at Lorena, 14 miles south of here Saturday night, following an attempt by Sheriff Bob Buchanan, of McLennan county to halt a Ku Klux Klan parade.

The fight resulted in probable fatal wounds to three men and serious injuries to seven others. Judge R. I. Munroe, of the fifty-fourth district court, announced yesterday that the grand jury would be called to investigate the affair without delay.

Those undergoing treatment at local hospitals were reported as "resting well" today, with Sheriff Buchanan, Louis Crow and Ed. Howard still in a critical condition, however. The latter two, who were reported to have been bystanders, were stabbed by an unidentified assailant. The sheriff was shot twice, one of the bullets penetrating his right lung.

Appearing before the county attorney, a delegation of Lorena citizens declared they believed a serious offense has been committed and that they were anxious for justice to be done. A resolution signed by more than three hundred citizens of the village and published in a local newspaper yesterday exonerated the Ku Klux Klan, saying that it was not believed the Klan violated any law or intended to violate the law by staging a parade and asserted:

"We unequivocally place the blame for the shedding of blood on the sheriff."

In support of the charge the resolution said:

"We induced the leaders of the parade to accede to the sheriff's demand that two of the paraders should be unmasked. Sheriff Buchanan previously had declared that he intended to prevent the parade only after the Klan leaders had refused to grant his request that some of the Klansmen be unmasked in order to establish their identity. Spectators of a crowd of more than 3,000 people, who had gathered from surrounding towns and villages to witness the parade, told of seeing the sheriff step up to the leader of the advancing white clad marchers and attempt to snatch the mask from his face. A fight then ensued in which several shots were fired and knife thrusts were made. Eight men bearing knife wounds were included in the wounded brought here.

ELIGIBLES FOR WORLD'S SERIES.

NEW YORK, Oct. 4.—The lists of eligible players for the world's series were announced this afternoon.

Manager McGraw's List.

Pitcher Arthur Nehf, Fred Toney, Phil Douglas, Jess Barnes, Pat Shea, Harry Saltee, Bill Ryan, and Cecil Causey.

Catchers Frank Snyder, Earl Smith, Alex Gaston and Mike Gonzalez.

Infielders: Geo. Kelly, John Rawlings, Dave Bancroft, Frank Frisch, Walter Kopf.

Outfielders Ross Young, Geo. Burns Emil Meusel, Bill Cunningham, Eddie Brown, Casey Stengel.

Coaches Cozey Dolan, Hughey Jennings, Manager McGraw.

New York American League.

Catchers: Walter H. Schang, Fred Hoffman, Alfred Devormer.

Pitchers: Carl Mays, Robert Shawkey, Harry Harper, Warren Collins, Waite Hoyt, Alexander Ferguson, William Piercey, Thomas Rogers, Jack Quinn.

Infielders: Walter Pipp, Aarn Warl, Roger Peckinpaugh, Mike J. McNally, J. F. Baker, John Mitchell.

Outfielders: G. H. Ruth, E. Miller, R. Meusel, R. Roth, Nelson, L. Hawks, Wilson Fenster, Manager Miller Hug-gins.

RIOT CASE DELAYED.

MARIANNA, Ark., Oct. 4.—The cases of six negroes who were sentenced to electrocution following conviction for murder in connection with the Elaine riots of two years ago, were not for Monday, Oct. 20. The cases recently were remanded for retrial for the third time.

DENTIST IS SUICIDE.

NORFOLK, Va., Oct. 4.—Despondent because of ill health, Dr. J. D. Ennis, one of the best known dentists in Tidewater, Va., ended his life by taking gas some time last night. The dentist had been dead probably 12 hours when his body was found in his office today, his head on a rug and a tube from a gas jet in his mouth.

The new building of J. S. Simpson at Brooksville is nearing completion. It is a very creditable building for the town.

Sales Tax Gains Favor Smoot Thinks Will Pass—Republicans Favor It

WASHINGTON, Oct. 4.—The sales tax is gaining favor so rapidly in the senate that Senator Smoot (R.) of Utah, its chief proponent, is of the opinion that as the tax situation stands today it has a first class chance of winning out.

Senator Smoot has received definite assurance from more than half of the 59 Republican senators that they are strongly inclined to vote for his proposal of a manufacturers sales tax of three per cent.

He is confident that even more of them will support it before the pending revenue revision bill is disposed of.

It is acknowledged that the Democratic side now holds the "ace in the hole" in the taxation game being played in the senate. With the Republican side split, the 36 Democratic senators are in a position to dictate the course of tax legislation, and if they were to swing behind the sales tax, in a combination with more than half of the Republican side, even Republican leaders do not question but that it would be adopted.

In their prediction that the pending measure they are supporting will be passed eventually, with "some modifications," Senator Penrose (R.) of Pennsylvania, and his Republican associates admit that they are banking upon their opponents, Republicans and Democrats, failing to agree on a substitute that would command a majority vote.

But Senator Smoot and his adherents are driving hard to force the adoption of his sales tax plan as an amendment to the pending bill, even though the other provisions of his substitute bill which he has also offered as amendments are not accepted by a majority of the senate.

It is believed that if a compromise can be effected on the proposed repeal of the higher surtax brackets, and other controversial provisions of the pending bill, that the sales tax may prevail. It is suggested that a surtax minimum of 42 per cent, which, with the 8 per cent normal tax, would bring the income tax rate on large incomes up to 50 per cent, may be the basis of such a compromise.

CAR SWEET POTATOES FROM SANTA ROSA COUNTY BRING DOLLAR BUSHEL.

MILTON, Oct. 4.—The second carload of sweet potatoes which were shipped by the co-operation of Santa Rosa county farmers netted better than one dollar per bushel, and this was seven higher than had been expected, considering the fact that the season was so late and the longer growing time served to flood the market in South Florida, to which point the potatoes went. The first car of potatoes sold for about \$2.20, so there was really comparatively little decrease.

Farmers in the Allentown district were the ones responsible for the cooperative spirit thus shown, and County Agent Hudson was the man who found the market for the product. Since the average yield is from 60 to 75 bushels per acre, and the demand makes it reasonably certain that a ready market is available, it is believed that in the future the sweet potato will become one of the many early marketable crops from various sections of Santa Rosa county. The early yield of potatoes was one of great average in size and very little damage was suffered in getting the yield to market.

CROPS NEED RAIN ALL OVER THE STATE OF FLORIDA

(By The Associated Press)

GAINESVILLE, Oct. 4.—The need of rain in some parts of the state is becoming acute, according to the weekly review of crop conditions in this state issued by the Federal Bureau of Crop Estimates for the week ended Saturday. Good harvesting weather prevails, however, the review added, and the harvesting of corn is well advanced.

Lack of rain is holding up the fall planting of oats. Picking of cotton is well advanced. There is very little tendency on the part of the farmer to hold his cotton this year, the bureau's correspondents report.

Generally low yields seem certain, according to the bureau, for sweet potatoes because of the dry weather. The harvesting of hay continues with yields and quality good. Pasture is reported as not good except locally where rain has fallen.

The review says the condition of oranges and grapefruit is deteriorating, and the fruit is under-size for this time of the year.

Condition of livestock, generally is good.

Fall farming operations, as a whole are being delayed by dry weather. Truck crop prospects are poor except where rains have fallen or irrigation is possible.

COUNTY FAIRS STARTING IN GREAT STATE OF FLORIDA

(By The Associated Press)

JACKSONVILLE, Oct. 4.—The latter part of October and the month of November will be the open season for county fairs when the countryside will get together for the annual exhibition of agricultural accomplishments, live stock progress and other things. The billy-hoo man will hold forth from his greatest show in the world, while many a young Romeo will wish there was a law against operators of "fish-ponds," candy wheels and the like.

Many of the fairs will have running and trotting races as features, and the officials will in some cases have their hands full in curbing the inclination to back one's favorite in terms of finance. Automobile races will have a place on some of the programs while the professional aviator has also come to the front of late. For a cash consideration those of the more venturesome make-up can visit the clouds for their first hair thriller. If the law is enforced the "Wild Man from Borneo" will be conspicuous this year by his absence, the recent legislature having soundly his death knell in this state, as well as outlawing the exhibition of other freaks, either human or animal. There is no reason, however, why the

"flying jenny" or the ferris wheel should not continue to turn, the former to the tune of weird music. Maybe, too, the circus will be in town during many of the meetings and then young America will become belligerent.

With the passing of November the county fairs will have gone until next year. Amateur fairs and circuses will remain with the youngsters, however, for quite a while, as they attempt to emulate the daredevil feats they have witnessed.

Twenty-four county fairs are scheduled and then, too, there will be the state fair at Jacksonville.

AUTO ACCIDENT.

A touring car owned by Mr. John Vaughn of Sanford turned over on its side last night in front of Deansburg Dairy on the DeLand-Daytona road. It is thought the wheels of the car got caught when after turning out for some pedestrians, the driver attempted to get back on the brick road. The pavement was wet which helped the car to skid to the position on its side. A number of the occupants were badly shaken up but no one was severely injured. The car was brought to a garage this morning for treatment.—DeLand News.

Member of The Associated Press

The Tampa Tribune in an editorial says: "The eyes of the world is on Tampa." You bet; and all of south Florida is proud of Tampa.

The organization of the Florida Water League shows what concerted action will do backed by the various Chambers of Commerce and the trade bodies. That is real team work.

The cool weather is bringing out the people to trade and the merchants of Sanford are taking advantage of the cold spell to put on big sales and do business by stimulating trade. Advertising is the early bird that gets the worm.

Sanford schools have opened, and the prospects are bright for a fine record to be made this year. It behooves all the parents of the pupils and the patrons of the schools, to uphold the hands of the teachers in making our schools the best in the state.

Reports this morning say that western meats have taken a big drop and yet many state papers are claiming that Florida beef is a drag on the market. It seems that at present Florida beef is higher than western beef. Who is suffering now? Florida cattlemen or western cattlemen?

The Sanford Daily Herald will give the results of the World's Series every day until the series is finished. It costs more money but nothing is too good for our readers and the Daily Herald will give you the news all the time. If you are not subscribing for the Daily Herald, get it now.

Sanford has the brightest prospects of her history and Sanford is going ahead. All it takes is special sales and cheaper prices and more advertising to get the people to come here and trade. Sanford is the natural trading center for this part of Florida and should be made the center by special inducements.

Reports from Washington say that the nation's debt continues to increase and it will probably increase right along. We became such spendthrifts in government channels during and after the war that it is hard to get back to safe and sane lines again. But those of us who had no chance to make a million learned to economize during the war and we are trying to economize now but we have to give all that we save to the government to spend.

The Tampa Times is keeping up the fight against the commission form of government. Few newspapers want the commission form of government for it certainly cuts the advertising that formerly went into the papers but the Herald still believes the commission form of government is the most business-like, the most systematic, the most efficient form of city government in the country. It is so good that the counties and states should have the same kind of system. We liked it from the first, we advocated it and we have no reason to feel that it has not been a good thing for Sanford. Until we are convinced that it is not good and only figures will convince one, we will favor the present form with a few changes that would save the city money and we will take up these changes before the legislature meets again.

LUNCH TONGUE

Morris' Supreme Lunch Tongue which has been chilled and sliced makes a tempting dish when garnished with stuffed olives.

A LARGE ASSORTMENT OF CANDY—INCLUDING AFTER DINNER MINTS—has just been received.

TOO BUSY TO TALK.

You never see the real busy business man standing around discussing the affairs of state or county or city and bemoaning the fact that Mr. So and So has an office and should be ousted because he put the talker's son in jail or hit his friend or soaked this fellow for something and that the country is going to the demitition bow wows. No indeed. You see the fellow who has some kind of a job to which he pays but little attention and spends his time on the street discussing the fellows who are making the town. The man who has his own business to attend to and give his spare time to the building up of the city and to the Chamber of Commerce and the various trade bodies of the city never stands around the street corners to discuss the little picaresque things that amount to nothing. It is always the fellow who has nothing to do, never has done anything and never expects to do anything who does all the talking about his betters. It is the man who is doing something here in Sanford who gets all the censure and the censure comes from the people who are doing nothing themselves. If the people of this city who spend their time talking would get right into the thick of things and become town builders instead of talkers this city would become the city of our dreams—a city of twenty-five thousand people. But from the time that Sanford was started until the present time there has been too much valuable time lost on the street corners discussing the trivial affairs that mean nothing to anyone and the big ones are allowed to go by.

There are just about twenty-five too many street corner gossipers here and if they would take a tumble to themselves and get into the working class they would get a big grouch off their systems and help to do something here instead of standing in the way of progress. And usually they are against everything good and wholesome and pure and decent. Dr. Walker said something about this class in his sermon last Sunday and he intends to say something about them for some time to come and if he will just come out and tell some of the names this paper will take great pleasure in publishing them where everybody can see why they are camouflaging the main issue here in order to cover up their own muddy tracks.

WHY PICK ON FLORIDA BEEF?

There is so much said in the various state papers now about the Florida beef having no markets and being of no value and about the ticks, etc., that a stranger in the state would imagine that the Florida cattlemen were on the road to the poor house. Like every other crop in Florida cattle in a measure depended upon the outside markets for a sale but like all other crops, cattle can be sold at home and keep the cattle owners from starving to death and the outside world can wag along without them. The best markets for Florida beef are right in Florida if the people would get that notion in their heads. We are always trying to buy something outside of the state and the same holds true of our beef and pork and other meats. If a hotel wants chickens or turkeys or ducks they usually get cold storage stuff when they could just as well use the home grown. The cattle men of Florida are not worrying about the cattle business half as much as some other people. The cattle men are not asking for any aid from any outside parties and they seem to be doing very well and if the specimens of Florida beef brought into the markets here in Sanford are an example the cattle seem to be doing very well. And if there is no market for Florida beef at present neither is there any market for the beef of the great West and Southwest and the cattlemen of those great beef countries are having just as hard a time as the cattlemen of Florida and much worse. They are calling for money and asking for help and wailing and gnashing their teeth over the cattle question and the ticks do not seem to enter into the argument at all. We do not see where this knocking of the Florida beef will get us anywhere and this newspaper that has always been an advocate of fence laws and tick laws thinks that a more systematic campaign could be made for the sale of Florida meats than such a campaign of knocks to be made against the Florida beef.

We note the following dispatch from western points in the papers of yesterday that shows the cattlemen of other states are in a quandry and are going out of business:

A serious cattle shortage will confront the United States within a year unless livestock raisers stop the flood of immature cattle to the slaughter houses, Eugene Meyer, Jr., head of the war finance corporation, declares.

Meyer returned from a tour of the cattle-raising country in the west and middle west.

Meyer said that he warned bankers that they must extend adequate financing in their respective territories to avoid a breakdown in the cattle industry which, in turn, would seriously

affect farmers and the general public. Assurances were given the bankers that the war finance corporation is anxious to see the cattle industry in a healthy condition and stands ready to assist in every way possible.

Conditions in the middle west and west are far from satisfactory, Meyer said. States which are neglecting their cattle industries are liable to lose them, he said.

Hundreds of millions of dollars worth of feed will go to waste if immature cattle continue to be sold for slaughter, he said, because there will be insufficient cattle to absorb the vast amount of corn, alfalfa, sugar pulp and like crops, which will be harvested.

JOKE OR NEWS.

Dear Town Clough—I see by Sunday's paper you give a list of things considered news. Now I heard something last Thursday and I can't decide if it's news or if it's a joke and I'd like your opinion.

On last Thursday we took a trip over the Indian river and of course crossed the ferry at Sanford. This of course is free except on legal holidays or after sundown. The individual who runs it came up while we were being ferried across and remarked, "Cap, I'll have to charge you this morning—it's a holiday." After paying the fare asked, I inquired as to what holiday it was, being unable to think of any on September 29. He studied a while and as we landed and started the car, he said, "armistice day."

Now I puzzled over that all day. I felt certain that if congress had decided to change armistice day from November 11 to September 29, they could not accomplish it before 1938—say about the time the Fourth Liberty Loan is due.

Having come to the conclusion the man must have made a slight mistake, I resolved to again ask on the return trip what holiday he said it was. This I did, and the answer this time was, "Why, its Burchest's (?) day—they're a-havin' a big barbecue in Sanford."

Now I'm more in the dark than before—do they have so many legal holidays in Sanford they haven't enough plain common or garden variety of days to go around, and so have to slit 'em up—sort o' knock off at noon on one holiday to make way for the one commencing immediately after lunch?

As I said in the beginning, if this isn't news, and I ain't a joke, or if you really don't know some one in Sanford you might be able to explain it. They at least have the edge on us when it comes to holidays.—Mrs. C. R. L.

C. R. L.—Thanks for your letter. We think it was a joke on you, but clever (like everything in Sanford!) and consequently worth what it cost you. What do you think?—T. S.

Orlando Sentinel.
 All of which reminds us of the Irish saloon keeper, Casey, when his bartender yelled back to him and asked him if Kelley was good for two drinks and he yelled, "Hns he thom?" and the bartender said, "Yes," and right back Casey yelled, "He is." He had the drinks and was good for them whether he was or not. The ferryman had the money, and the joke evidently, was on Mrs. C. R. L., but Seminole county does not care for this kind of joke. September 29th, was not a holiday, and the ferryman had no right to charge toll. The Gain Day was put on by Sanford merchants and everything was absolutely free, and for the ferry to charge that day was simply a fly in the otherwise good ointment.

However, some day there will be a free bridge there and at the Lake Monroe crossing, and then such "jokes" will not be possible. Upon behalf of the merchants and people of Sanford, the Herald begs the pardon of Mrs. C. R. L., for the oversight of the ferryman.

GRAB THE HOME MARKET

Oranges are quoted at a price now which, with the cost of packing and shipping deducted, leaves a very small profit for the grower. That being true, why not make a special effort to capture the home market first, and sell every box of oranges and grapefruit possible right here in the state?

Florida has a population of a million, supplemented by a large and increasing number of visitors. They all like citrus fruits. Every hotel, restaurant and boarding house in Florida could double or triple the amount of fruit used by cutting down the price and pushing them just a little. Just figure on the number of boxes that might be disposed of, without ever crossing the state line.

Growers might as well sell at home at a moderate price as to lose money by shipping north. Would it not be good sound business sense to fix a tempting price on the first pickings, sell them at home, and let the northern market get mellow for the later crop?—Lake and Telegram.

PROVINCE OF A NEWSPAPER.

It would be comical, were it not somewhat pathetic, the way newspaper offices are besieged every day by their friends, urging them to "roast" this and that; to "see to it" that this and that done in the city or county; to start this and that kind of movement to correct evils in the state government. These friends actually appear to believe that it is the newspaper's business to handle all these affairs.

But a self-respecting newspaper, though ready and willing to carry all reasonable responsibility, must remind its readers that they—the people—are the authority upon whom rests the responsibility for the present state of affairs local, state and national.

A self-respecting newspaper tries to report the news of what actually happens, not what it might wish had happened. The relation of a self-respecting newspaper to the general public is not always understood. It is the duty of a newspaper to be in a position to support any good act and criticize any bad act of public policy.

This relationship cannot exist where favors are asked and granted. Honesty is the only policy for a news paper.

If objectors don't like the way things are going, they should qualify as voters, and then raise Cain about it.—Fort Worth (Tex.) Star-Telegraph.

\$2,500,000 ORANGE COUNTY HIGHWAY BOND ISSUE IS VALIDATED.

The huge \$2,500,000 Orange county highway bond issue was validated yesterday by Hon. Charles O. Andrews, judge of the seventeenth judicial circuit, State of Florida, at a hearing between C. B. Johnson, attorney for the Board of Commissioners for Orange county and Hon. Jon. H. Jones, state's attorney for the seventeenth judicial circuit. After the hearing, Judge Andrews issued his decree, which will give the county commissioners the power to advertise the bonds, in whole or in part, for sale. After a sale is effected contracts will be awarded and the work of constructing the various highways will commence. The highway from Orlando to the east coast will be the first to be constructed. It will be sixteen feet wide. Of the issue \$150,000 is for an enlarged court house in keeping with the continued growth of Orange county.

Mr. Robinson, attorney for the board, stated yesterday that it had not been definitely decided how the bonds would be disposed of but he considered it likely that only \$1,000,000 of the bonds would be advertised for sale now. The regular monthly meeting of the board of county commissioners will be held this week.—Orlando Sentinel.

Considering the east coast was discovered in 1497, and the west coast was not known until 1517, we hold that this part of Florida compares favorably with the rest of the state.—Tampa Times. We thought D. B. McKay and Wallace Stovall discovered the west coast in 1880.

The Miami Traction Co., has renewed its offer to sell its tracks to the municipality for \$75,000. The cars and most of the cars burned two years ago, and since that time the city has been without street car service. It is estimated that the system could be rehabilitated and a seven-minute schedule be maintained at a cost not to exceed \$195,000.

ARE THE RELATIONS BETWEEN A BANK AND ITS PATRONS INTIMATE AND RECIPROCAL?

To be sure they are. The principal of sound banking requires that for every dollar a bank loans, one dollar must be placed on deposit in the bank? Thus, the bank becomes a distributing point for the liquid wealth of the community. You help yourself and you further the progress of your city and section every time you deposit a dollar in the bank.

SOCIAL CALENDAR

FRIDAY—Mesdames R. E. Tolar and John T. Brady will entertain at a miscellaneous "shower" in compliment to Mrs. Dan U. Wilder, of Jacksonville, a recent bride, at four o'clock, at the home of the former.

Friday—Miss Carolyn Spencer will entertain complimenting Misses La-Claire Jones and Lillie Ruth Spencer.

Saturday—Children's Story Hour will be held at Central Park at five o'clock.

Friday—N. de V. Howard Chapter U. D. C. will hold their fall meeting at 4 p. m. at the Parish House.

Monday—Westminster club will meet with Mrs. Joe Chittenden, 702 Palmetto ave., at 3:30 p. m.

Mrs. C. J. Wolfe and two children, Clarence and Ralph, have returned from a visit to Wilmington, N. C.

Mrs. A. K. Powers and children, Mariah Ann and Kinchen, have returned home from North Carolina where they spent the summer.

Mrs. W. D. Gillen and son Billie have returned home from Black Mountain and Asheville, N. C., where they spent the summer. They were joined by Mr. Gillen who returned home with them.

Miss Nita Moore was the guest yesterday of her sister, Mrs. K. R. Murrell enroute to Orlando where she will again teach at the Cathedral School.

Mrs. T. W. Getzen and son, Jack, of Lakeland, are in the city the guests of Mrs. Getzer's mother, Mrs. H. B. Connelly.

THE TEMPLE PIPE ORGAN.

The Temple Pipe Organ Club had its regular weekly meeting Monday afternoon at the home of Mrs. Forest McAlister, 516 West First street, and twenty-two members were present, it being the first meeting with Mrs. Ryan, as president, several new plans were adopted. Next came the handing out of material for different articles to be made for the Christmas Bazaar. A rummage sale was then proposed, moved and seconded but no definite time as to just where or when this is to be, so all members keep your eyes open for next week's item and bring your part of the rummage. The hour

"Foot of First St."

HOF-MAC BATTERY CO.

RENTAL BATTERIES FOR ALL CARS

New Filling Station

of meeting was changed to 3:30. Announcement for next meeting to be with Mrs. G. M. McGahagin, 613 Magnolia. Social hour was much enjoyed by all while delicious refreshments of pineapple sherbet and cake was served by the hostess with Mrs. Pitts as her assistant.

WOMEN'S GUILD

The first fall meeting of the Women's Guild, Holy Cross Parish, was held at the rectory Monday afternoon with a splendid attendance. Many enthusiastic plans were laid in regard to the coming Bazaar, December 1st and 2nd. The Guild is making this the banner year, working along new ideas that will give the public more than value received in the largest bazaar ever held in Sanford.

WHAT'S YOUR HURRY CHARACTERS IN NEW FILM.

Dusty Rhoades, Virginia McMurrin and Pat McMurrin, the three principal characters in "What's Your Hurry?" the fine automobile story in which Wallace Reid was starred some months ago, are revived in Mr. Reid's newest picture, "Too Much Speed," which will be featured at the Star theatre Thursday night.

The picture opens with Dusty Rhoades' withdrawal from the racing game and heplans for his wedding to Virginia McMurrin. While Dusty and Pat McMurrin are on their way home in a limousine, a rival dealer, whom Dusty had formerly represented in racing events, passes them in a car. Dusty's sporting blood is aroused and he speeds up the limousine and passes the rival, but ends in the ditch. McMurrin is angry and calls off the wedding, whereupon Dusty takes the waiting bride, jumps in a roadster and speeds away. Old Pat follows and at the first small town, both are sent to prison for speeding.

Having served his term, Dusty leaves jail determined to enter the race. With Virginia's help, he secretly buys Pat's Pakro racing car, which has not been on the track for two years, and on the day of the big event, enters. Dusty wins the race and Pat willingly consents to the marriage.

Byron Morgan wrote the story and scenario and Frank Urson directed. Mr. eed is supported by Agnes Ayres, Theodore Roberts and other favorites.

KNIGHT TEMPLAR ATTENTION!

Taylor Commandery will confer the order of the Red Cross on a large class of Royal Arch Masons on Friday evening, October 7th, beginning at 7 o'clock. Visiting Sir Knights welcome. H. E. TOLAR, Eminent Commander, 166-2t

CARD OF THANKS.

To the many friends who were so kind and in many ways expressed their friendship and sympathy in the recent illness and death of Mrs. Frank L. Woodruff, Jr., we wish to express our heartfelt thanks. FRANK L. WOODRUFF JR. Mr. and Mrs. Frank L. Woodruff, and Family.

MEMBERS SEMINOLE CHAPT., O. E. S., TAKE NOTICE.

The regular business meeting of Seminole Chapter No. 2, O. E. S., will be held Thursday evening at 7:30. Members are requested to attend promptly. Remember vacation time is over. Let's get busy. SARAH E. PARKER, Secretary, 4-3t.

Some people have homes, and some have houses and buy their oats at a delicatessen store.

TWO WONDERFUL TEAMS PLAYING IN NEW YORK HOW THEY STACK UP

(Continued from Page One) their team players. Much will depend upon the ability of the pitchers to hold the opposing batters in check. This is practically true in the case of such a clean-up hitters as Ruth, Kelly, the Meusel brothers, and other extra base hitters in the rival clans. In base stealing and strategy on the base lines, which may or may not have an important bearing upon the final outcome, the Giants are generally thought to have a slight edge.

So far as the physical condition of the players is concerned both teams will enter the fray one hundred per cent strong. In the final workout today both clubs had their full force on the field and reported, after the practice, that each and every man was ready. The Yankees had the Polo Grounds exclusively for their work during the forenoon and put in a two hour session under the watchful eye of Manager Huggins. After luncheon the Giants indulged in a similar limbering up, in which the assistant manager, Hugh Jennings, directed operations. In both cases the practice was secret and only top players were permitted inside the locked gates. The managers of neither team would give the slightest indication as to their selections for pitching assignments. Although the forecast for the opening day of play called for fair weather, there was a hint of autumn in the air last night and the early arrivals who took their places in line before the bleacher gates for the usual all night vigil went prepared to pass as comfortably a night as possible with the aid of blankets, stools, lunch boxes, and the regular accessories which go to make up the camping equipment of the rabid world series fan. Long before midnight, the sandwich and hot coffee vendors were doing a profitable business and the lines of men and boys were growing in length.

The probable line-up of the teams is as follows:

- New York Nationals. Burns, cf. Bancroft, ss. Frisch, 3b. Young, rf. Kelly, 1b. E. Meusel, lf. Rawlings, 2b. Snyder, c. Nehf or Tonoy, p.
- New York Americans. Miller, cf. Peckinpaugh, ss. Ruth, lf. R. Meusel, rf. Pipp, 1b. Ward, 2b. McNally, 3b. Schang, c. Mays or Shawkey, p.

Umpires Charles Rigler and Ernest Quigley for the National League and Moriarty and Ollie Chill for the American League.

WATER TRAFFIC LEAGUE WILL MEET IN SANFORD FRIDAY NIGHT, OCT. 8.

The Florida Water Traffic League will meet at the Hotel Valdez, Friday night, October 8th at 7:30 p. m. The purpose of the meeting is to act on the by-laws for the organization, which will be presented by the By-Laws Committee, and to select officers and a board of directors, and transact any and all business to come before the meeting.

This is one of the most important meetings of this most important movement started to ship by water and reduce the rates, and it is hoped that everyone interested will be present at this meeting.

Secretary Cox, of the Orlando Board of Trade, has sent out the call for this meeting and his letter reads Saturday, October 7th, which is probably a mistake, as the meeting would not be held on Saturday night, and the real date is no doubt, Friday, and the Herald is making it Friday, October 8th, which is no doubt the correct date.

RETURNS WERE SLOW

On account of not having a leased wire and getting the special ball news through Jacksonville the returns of the games will be slow but the game by innings will be in the Daily Herald each day, although it will be late.

The Kissimmee Valley Gazette says that advices from the county engineer are to the effect that carloads of brick for the Osceola county roads are rolling from Birmingham and work may be started in this important project very soon. The contract under discussion is to include nine and a half miles of road, and the brick for this work will soon be on the ground. Several carloads have already arrived at Ashton. Road building is a serious proposition, but Florida is at it in earnest and hopes to be able to tell of many additional miles of fine roads before another year rolls around.

Daily Fashion Hint

A SEASONABLE SUGGESTION

An instance of the fascinating crêpe de Chine frock is this model in copper color. The front of the long-waisted blouse is slashed at the center and finished for a closing. Collar and cuffs of self-material are embroidered at the edges in self-color silk. The gathered side panels may be extended below the hem, or arrested above it. Medium size requires 5 yards 3 1/2-inch material. Pictorial Review Dress No. 9481. Sizes, 34 to 44 inches bust and 16 to 26 years. Price, 35 c.uts.

MRS. JOHN A. LOGAN AT 83

Mrs. John A. Logan, widow of the Civil War general, who recently celebrated her eighty-third birthday, is still active and takes an interest in the affairs of the world. She is here shown in the garden of her beautiful old home in Washington.

Lilies Used for Food.

Growing water lilies for food is a new idea in America, though it has been practiced on a large scale for centuries in the Orient. Scientists lately have been making a study of the food value of the lotus lily, the big yellow water lily found in many lakes, ponds and rivers in the eastern and middle western United States. This lily was highly prized as a food by the American Indians. Just as its pink cousin, the lotus of China, India and Egypt, is a favorite food there.

Peeled and boiled, the American water lily is as farinaceous and wholesome as a potato and delicious to the taste.

Propagation of the American lotus is not difficult, declare scientists, and there are numerous ponds and lakes in nearly every state, remarks an exchange, whose waters are suited to the profitable culture of the lotus lily.

Divisions of Earth's Interior.

From the evidence available, R. D. Oldham traces three divisions in the earth's interior. The solid outer crust, with a thickness of 1/4 to 1 per cent of the radius (or 20 to 40 miles), has high permanent rigidity, but from unknown causes has been subject to deformations, with displacements of as much as ten miles vertically and 100 horizontally. The next section, about half the radius in thickness, has high rigidity for such streams as tidal action, with low rigidity for long-continued stress. The conclusions relating to the two inner divisions are drawn from records of earthquake waves.

Harnessing Volcano.

Tentative plans for the harnessing of Hawaii's mighty volcano, Kilauea, have been prepared by a committee of manufacturers on the island, according to news reports. The volcano continuously is giving off vast quantities of heat ranging as high as 2,000 degrees Fahrenheit. It is planned to harness the heat and develop it into electricity for the unlimited development of industries on the island. It is proposed to make the heat available by borings made in safe territory, to depths where the heat is constant and high enough for the development of a continuous steam pressure.

Do You Know?

in the march of American business out of the past into activity two giant forces are at work. ONE IS COURAGE; THE OTHER IS ENTERPRISE. Courage has cleared the right-of-way; Enterprise is directing the advance. Watch Sanford grow!

"Howdy, Gap!" saluted an acquaintance, halting his team in the big road. "Hop in and go to Tumlinville with me. I hear tell that the women of the Civility league, or whatever they call it, have norted that they are going to begin cleaning up the town today. Mought as well see what comes off." "Much obleeged, Zeke, but I reckon not," replied Gap Johnson of Rumpus Ridge. "Some fellers from Possum Flat rid in one day when I was there a couple of weeks ago and started to clean up the town. I'm sorter getting along in years and ain't as soople as I once was, and in the course of the anecdote I got my back sprained and my nose skinned right sharply. If the women start any trouble the Lord only knows what would happen to me. Nope!—If I was to go any place today I'd go to Mount Pilzky, whur nuth'n never comes off."—Kansas City Star.

"A filtration plant that cost \$150,000 having been installed last season, the West Palm Beach Water Co., has under way this season a program of improvement that calls for the expenditure of fully as much money for the distribution of the water," says the West Palm Beach Post. "The water is declared by chemists and sanitary engineers to be the equal of any in the country and superior to many."

NOTICE
Bids will be received at the office of the Board of Public Instruction at the Court House, at Sanford, Florida, for the transportation of the pupils from Lake Mary to the Sanford schools for the present school year. Bids must state specifications of equipment to be furnished, and route to be traveled. For further information, call on the superintendent of public instruction at the court house. 166-1tc

Sell it with a Herald Want-Ad.

**SANFORD'S
TEMPERATURE**

Dawgone, it has come at last. We were afraid we would not live long enough to see it getting cooler and here we are this morning with it not only cooler but it is actually colder — COLDER — yes. That nice cold wind blew in from the lake last night and sent the old bulb shivering down to 88. Oh, boy, that's the stuff. And now just as soon as it warms up a little bit we will get those rains that we have been needing. All things come to those who wait and we have been waiting in this little two by six office for some time.

**New Mallory-Clyde
Service to the North**

Of great value to Tampa wholesale merchants and other local shippers doubtless will be the inauguration of semi-weekly freight service by the Clyde Steamship Company between Baltimore and New York, handling freight in connection with the Mallory Line from New York to Tampa, just announced. This schedule will be effective Wednesday, October 12, from New York, and Saturday, October 15, from Baltimore, and thereafter on Wednesdays and Saturdays. The steamer will sail from Pier 38, North River, New York, and from the pier at Hughes and Henry street, Baltimore, arriving the second morning thereafter at Baltimore and New York, respectively.

Freight will be received at those two cities daily, commencing Monday, October 10. Further information, rates, etc., can be secured from G. W. Bartlett, Tampa agent of the Mallory Line; from W. P. Levis, freight traffic manager, New York, or H. E. Maynard, assistant freight traffic manager. Bulletins just received here by Mr. Bartlett announcing the new service are signed by Mr. Levis and Mr. Maynard and approved by H. H. Raymond, president and general manager of the Clyde Line.

Tariffs are being amended now to provide through rates by this all-water route from Baltimore to New York and thence to Tampa and Mobile. The announcement of the new service is being received with pleasure on the part of the local shipping men.—Tampa Tribune.

**RETAIL FOOD PRICES
COMING DOWN AGAIN
SAY SEPT. 15 FIGURES.**

WASHINGTON, Oct. 4.—Retail food prices in ten cities show a tendency to decrease during September, according to a report made public by the labor department. In the cities where figures were obtained Sept. 15, only one, Richmond, Va., had an increase over August prices and this amounted to only 2 per cent. In Chicago and Baltimore, the department reported the prices as 3 per cent below those of the previous month; in Manchester, N. H., 2 per cent; in New York, Butte, Bridgeport and Providence, 1 per cent; while in Washington and Peoria, Ill. the drop was nearly one half of one per cent.

Retail food prices are still much above those of 1913, however, the bureau stated, fixing those in Washington at 65 per cent, New York 67 per cent and Chicago 55 per cent above the pre war level.

ENGLISH GOLFER IS VICTOR.

DEAL, N. J., Oct. 5.—Miss Edith Leitch, of England, yesterday eliminated Miss Glenna Collett from the woman's national golf championship tournament by 4 to 3. Miss Leitch's victory was due to superior putting. Although out driven by the 18-year-old Providence star, who had been a favorite to the last hole in the tournament, the sister of the British champion was steady on the greens and Miss Collett was erratic. Mrs. Latham Hall, of England, defeated Mrs. M. A. Gavin, New York's Metropolitan champion, at the 20th hole, where Mrs. Gavin was in a hoodoo bunker. Miss Stirling had no difficulty in her match with Miss Shepherd. The latter won on holes and halved six.

**American Legion
Will Celebrate
Armistice Day**

Expect to Stage Big Parade, Dances and Carnival

Campbell-Lossing Post of the American Legion is one of the liveliest posts of World War veterans in the state and they are up and doing all the time. They have virtually secured a lot on the lake front from the city upon which they expect to erect a fine building in the near future—one that will be a credit to the city and county and to the local post.

The boys are planning a big day here for November 11th—Armistice Day—and with big parades, carnival features, dances and a good time generally the day will be another milestone in the history of the local post.

They have not settled on the entire program as yet but they are working on it with the help of the Auxiliary ladies and Armistice Day will be one of the big events of the month of November in Sanford.

The county commissioners at their last meeting granted the boys the use of the court house for the dance at night and the overflow crowd will be accommodated at a good dance platform near the court house on the bulkhead where there will be all kinds of new features to entertain a big crowd.

**SHIPPED FRUIT TO ENGLAND
IN THE YEAR OF 1893.**

The following letter from Chase & Co., written by the Sanford office to the Jacksonville office is interesting just at this time when there is so much discussion on the subject of "ship by water" and shipping fruit by steamship to the eastern markets: Chase & Company, Jacksonville, Fla.

Gentlemen:—Today the writer ran across an old number of "The Florida Farmer and Fruit Grower," of Nov. 25, 1893.

Looking over the paper we notice an advertisement of E. L. Goodsell, New York, in regard to shipment of fruit to England. We quote a sentence from the advertisement concerning transportation expenses:

"The expense of exporting via New York will be so far as freights from Jacksonville to Liverpool, including cartage in New York, is concerned, 75 cents per box."

In the same issue there is an article on "Movement of Oranges," reading:

"The shipments are running very heavy. On Sunday, November 19, the enormous aggregate of over 65,000 boxes went out of the State. For the past week the total shipments out of the State are computed at 275,000 boxes, of which 101,314 were carried out by sea routes. One steam r's load was 21,314 boxes. The Brixham sailed on her second trip November 22, having on board 8,000 boxes. The Fruit Exchange handled about 25,000 boxes for the week, not over 500 going to Liverpool. Even the St. Johns river is clogged with oranges. Three steamer loads were brought down to Jacksonville on Sunday, yet some were left along the shores, for which a barge had to be brought into requisition."

Yours truly,
CHASE & COMPANY.

**MOST POWERFUL
NAVAL GUN TO BE
TESTED ON FRIDAY.**

WASHINGTON, Oct. 5.—A new 16-inch, fifty-caliber rifle, said to be more powerful than an anyal gun now in use and other new developments in ordnance will be tested at the army ordnance proving grounds at Aberdeen, Md., Friday, when "ordnance day" will be celebrated before members of the army ordnance association, ordnance and artillery experts and prominent guests from all over the country. New types of artillery shells, tanks, and bombs also will be tried out. Among the special features of the day will be the firing of a 14-inch rifle mounted on a railroad carriage, the dropping of 4,000 pound aerial bombs, and the testing of all sizes of recently perfected rifles and machine guns, including armor-piercing projectiles.

**UNKNOWN YANKEE
IN STATELY GRAVE.**

WASHINGTON, Oct. 5.—When the body of the American soldier brought back from France for burial at Arlington cemetery November 11, in memory of the nation's unknown dead in the war is placed in the rotunda of the capitol on the night of November 9, it will lie in state on the same catafalque that was used for Presidents Lincoln, Garfield and McKinley. An announcement issued by the war department said the drapings about the catafalque would be a careful reproduction of those used at the funerals of the martyred presidents.

**Organize Building
Ass'n at Lakeland,
Big Membership**

LAKELAND, Oct. 5.—That Lakeland people are interested in a building and loan association was shown Saturday night at the forming of a temporary organization when Benjamin Getzoff was selected as temporary chairman and an organization committee named to formulate suggested and permanent plans. Mr. Getzoff is manager of the bond department of the Polk County Trust Co., and is very enthusiastic over the prospects of the Lakeland association, and along with E. L. Mack and C. D. Judson will have charge of the financial interests of the organization. Mr. Mack briefly outlined the purpose and plans of a building and loan association as he had learned them in other places, taking the Orlando organization as an example. Mr. Mack stated that the classes of memberships are in A, B, C, and D, and each member pays a certain amount per month ranging from fifty cents to \$2 per share. He stated that a member's money is always available and that ten directors make up the board which also has an appraisal committee which passes on loans to members; that the organization is subject to the same rules and laws under the bank examiner as the banks of the state; that stock is transferable and that the best thing about it is that the money draws 8 per cent interest and is to be used for the building of homes in Lakeland.

Without an solicitation whatever, when the meeting closed, 295 shares had been signed for and it is expected that when the general solicitation for membership begins that the \$250,000 stock capitalization stock will have been subscribed. The stock now pledged has all been voluntary and there were some fifty men and women at the meeting who showed much interest in the organization.

**GIRDER WEAKENS CAUSED
LOSS OF GIANT AIRSHIP.**

HULL, Eng., Oct. 5.—Weakness in the transverse girders of the dirigible ZR-2 had been revealed long before the fatal flight when two score British and American air sailors were killed, the coroner declared today, in summarizing testimony given at the inquest.

Weakness in the transverse girders had been shown in tests in May, said the coroner. He based his declarations upon evidence introduced from experts.

On July 17 there was a long flight. There was buckling of the main longitudinal girder and also a girder on the port side. But the safety of the dirigible was not affected at that time for the ship landed safely at Howden.

On the first day of October the resignation of K. E. Bragdon, the agricultural agent for Brevard county, took effect, and H. R. Tribble, county agent of Putnam county, took his place. Mr. Tribble, who will make his headquarters at Cocoa, is a graduate of the Agricultural Department of the University of Florida, and has had several years' experience in county agent work.

MAKE IT EASIER TO AMEND COVENANT LEAGUE NATIONS

GENEVA, Oct. 5.—The Assembly of the League of Nations made amendments of the covenant easier by adopting under the old unanimity rule, a change in Article 26, which requiring unanimity for amendments, and immediately began consideration of the proposed alterations in the covenant under the new rule.

Article 20 now reads: "Amendments to the present covenant, the text of which shall have been voted by the assembly on a three-fourths majority in which there shall be included the votes of all the members of the council represented at the meeting will take effect when ratified by the members of the league whose representatives composed the council when the vote was taken and by a majority of those whose representatives formed the assembly."

The first amendment debated under the new rule was modification of Article 16 proposed by the Greek delegation, providing that no state shall proceed to blockade a country breaking the covenant before the date fixed by the council. The smaller states, including Holland and Poland, however, opposed any action in fixing the blockade regulations. They pointed out that countries moved either by interest of animosity might anticipate the action of the council and blockade on their own account before the question had been sufficiently studied.

M. R. Domarecs Van Swinderen of The Netherlands raised a parliamentary question entirely new to the assembly by moving suspension of all action on article 16 until the next assembly. Lord Robert Cecil, said that something must remain in full vigor and that the effect of the motion would be to tear up article 16 leaving the league without any economical arm whatever.

The Albanian-Greco-Jugo-Slav problem broke out again unexpectedly but finally was disposed of so far as this assembly is concerned by the decision of the ambassadors' council.

Lord Robert Cecil took occasion to score the ambassadors for their delays, saying:

"We have heard that the ambassadors are about to give their decision. Hope and trust it is so, because, if I may venture very respectfully to say so to such an august body, delays in such matters are criminal to the peace of the world."

GIANTS HAVE ONLY TWO PLAYERS WHO ARE VETS OF PAST WORLD SERIES

NEW YORK, Oct. 4.—Only two of the New York Giants of 1921 who are eligible to play in the world's series have played with the team in previous postseason intermajor league championships. These are George Burns, one of the capable outfielders of the McGraw organization and H. F. (Slim) Sallee, pitcher.

George Burns was purchased by the Giants in 1912 and though he played in a number of games was not seen in the world's series. The following year, however, when the Giants were defeated in the postseason classic by the Athletics, Burns played and performed well. In the 1917 series against the Cubs he fielded perfectly and his batting average was .227.

Utica, N. Y., is Burns' birthplace. He was born on Nov. 24, 1890. He played amateur ball for St. Johnsville N. Y., from 1905 to 1907, as third baseman and catcher. He started pro-

Flight of Time in Indianapolis

"The Flight of Time," the sundial shown above, has just been placed in Starfield park, Indianapolis. The "gnomon," which casts the time-telling shadow, is a human figure, the bronze statue of a kneeling Indian drawing a bow. It was designed by Mrs. Myra Reynolds Richards.

ITEMS OF INTEREST

Since the South African government began reforestation work it has planted 70,781 acres of trees, most of them in the last 16 years.

Humming birds differ in different parts of the world, but those in Arizona are perhaps the most brilliant.

Professionally with the Utica club of the New York State League, playing as catcher and later in the outfield, from 1908 to 1911. After joining the Giants in 1912 his playing became more and more proficient. He throws and bats righthanded.

Harry Sallee was born in Higginsport, O., Feb. 3, 1885. He first played professionally for the Birmingham Ala., club of the Southern League in 1905 and in 1906 came to the New York Americans. He played with the Williamsport, Pa., club of the Tri-State League in 1907 and was drafted by the St. Louis Nationals in 1908. He remained with the Cardinals until 1916 when he was procured by the Giants. He got the name of Slim because of his height and weight. Slim is six feet three inches in height and weighs only 160 pounds. He is a left-handed pitcher and bats righthanded.

Sallee had a great year with the Giants in 1917. He won 18 games and lost only seven. He pitched and lost two games in the world's series that year. In midseason 1918 Sallee decided to quit the game. During the winter he was persuaded to play again and was obtained by the Cincinnati team. He had another good pitching year, helping the Red win the pennant. He played in the series against the White Sox. He came back to the Giants last year by the waiver route and has worked hard at all this season. It is doubtful if he will pitch in the coming series.

WHISKEY IMPORTS DOUBLES 1920 RATE.

WASHINGTON, Oct. 5.—Whiskey imports are now coming from abroad at double the rate in 1920.

During the first eight months this year, whiskey entering American ports under government permits, amounted to 179,753 gallons, according to figures of the commerce department today.

This marked up an increase of 100,000 gallons as compared with the same period last year. Whiskey imported in August, the last month with completed figures, amounted to 68,000 gallons as compared with 32,000 gallons the same month last year.

Post cards—local views—1c each at the Herald office.

For manicuring, four emery sticks of no many degrees of fineness are enclosed in a handle like a pocket knife.

Moorish society knows no class distinctions, except that a man is rich or poor, official or non-official, saintly or ordinary.

AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.—Adv.

"JOAN" VICTIM OF INTRIGUE

French Bishop Said to Have Been the Tool in the Hands of the Duke of Bedford.

Pierre Cauchon, bishop of Beauvais, who was ambitious to become archbishop of Rouen, "framed" Joan of Arc and caused her to be burned at the stake, according to Henry W. Harris, Jr., writing in the Boston Globe.

The untutored maid who had spurred the French on to victory, just as England's hordes appeared to have overrun the country, was captured by the duke of Burgundy, a rebel against the king of France, and he sold her to the duke of Bedford, regent for Henry VI, the boy king of England, for \$110,000.

Bedford sought to discredit Joan of Arc to her people, hoping in this way to upset the coronation of King Charles VII of France, and gain the throne for the British king. Bishop Cauchon, who was seeking Britain's aid at Rome, was chosen as the tool. He it was who formed the court which tried the maid and convicted her of heresy. She was ordered to be burned, but the sentence was commuted to life imprisonment on condition that she quit wearing a page's costume, wear women's garb instead, and sign a paper, or rather put a cross to it, as she couldn't read or write. She did so. The paper was a "confession" of all the framed-up charges. Later she was tricked into breaking her vow and was practically forced to wear the page's clothes again. Then she was "discovered" in this garb, accused of breaking her vow and ordered burned at the stake.

TREASURE LOST TO WORLD

Book of Gospels, Belonging to the Cathedral of Reims, Supposed Part of Hun Loot.

Conspicuous among the great literary works that disappeared during the late war was the famous Book of Gospels, not only the greatest treasure of the cathedral of Reims but an object of veneration to the French people and the Slav race as well, which vanished with the German army after the battle of the Marne. Princess Anna of Russia, the Slav consort of Henry I, brought it into France in the eleventh century, and thereafter every ruler of France used it at Reims when he made his vow to safeguard the rights and privileges of the Roman Catholic church. King Charles X, the last French king crowned at Reims, kissed the sacred volume in sealing his coronation oath in 1825. Peter the Great of Russia journeyed to Reims to see it, and received it while kneeling and pressed it to his lips and breast. It survived the French wars of 1,000 years; it was hidden away during the French revolution; it reappeared with the Bourbon restoration in 1815.

The book was written in the Bulgarian language and was magnificently bound with golden coverings set with precious stones. Throughout eastern Europe it was held in the greatest veneration, for it was the most ancient Slav copy of the gospels.

Fire for Business.

The struck's alarming siren brought Irvington's drowsy populace to its doors and windows, and the screaming of its brakes as it slammed up against the curb next the hydrant brought the people, now thoroughly aroused, running to the spot, says the Indianapolis News. The fire was then looked for and found. The flames were lapping up the grass in the back yard of an East Washington street house. The lady of the house was confused and excited. She was running from the front porch through the house, out the back door and around to the front again. "Fire," was her cry, mingled with "insurance" and the combination of these words seemed all at once to dawn on her as a brilliant inspiration. On her next trip through the house she seized a water bucket in one hand and evidently the telephone in the other and above the shouts of the fire fighters outside could be heard her voice ringing true: "John, the insurance, fire insurance, the policy, where is it?"

London Domestic Club.

London has a new club whose membership is confined to women employed in domestic capacities. The membership of the club one month after its inauguration exceeded 3,000, and contributions to the treasury have made it possible for the organization to purchase a plot of ground for a clubhouse on the same street as some of London's most exclusive clubs. Plans for a large building have been approved and paid for within the year. The purpose of the club is to afford the many thousand cooks, maids, servants and other domestic workers of London a suitable place to meet their friends and spend their days off.

No Bluffing Required.

"Golf is a great game!" exclaimed Cactus Joe. "Like it better than poker?" "In some respects. When the luck's against you, you can relieve your feelings with profanity without giving your opponents any additional advantage."

Cleaner for Golf Balls.

A vest-pocket cleaner for golf balls has been invented. It consists of a little box with a sponge in one side and a rubber mat in the other. When the ball gets dirty it is sponged off and then rubbed with a turning motion on the mat.

Come in and Let Us Talk it Over

If I knew you and you knew me, better co-operators we would be.
If I knew you and you knew me, 'tis seldom we would disagree;
But never having yet clasped hands, both often fail to understand
That each intends to do what's right, and treat each other "honor bright,"
How little to complain there'd be, if I knew you and you knew me.
Whenever we ship you by mistake, or in your bill some error make,
From irritation you'd be free, if I knew you and you knew me,
Or when the checks don't come on time, and customers send us nary a line,
We'd wait without anxiety, if I knew you and you knew me.
Or when some goods you "fire back," or make a "kick" on this or that,
We'd take in good part, you see, if I knew you and you knew me.
With customers two thousand strong, occasionally things go wrong—
Sometimes our fault, sometimes theirs, forbearance would decrease all cares;
Kind friend, how pleasant things would be, if I knew you and you knew me.
Then let no doubting thoughts abide of firm good faith on either side;
Confidence to each other give, living ourselves, let others live;
But any time you come this way, that you will call we hope and pray,
Then face to face we shall see, and I'll know you and you'll know me.

Hit the Nail on the Head

It's getting up courage to drive the first nail that's the hard part about building. You can trump up dozens of reasons for postponing the job—but did you ever know anybody to be sorry he built?

Most building materials are low priced now. Not every thing is as cheap as lumber but by the time the other things have dropped probably lumber will rise. So all in all this is a good time for building. Hit the nail on the head!

SERVICE QUALITY PRICE

850 DISASTER DEATH TOLL FOR ONE YEAR

Red Cross Gives \$1,871,000 Relief When 65,000 Families Are Made Homeless.

Forty-three disasters, resulting in the death in the United States of 850 persons and the injury of 2,500 called for emergency relief measures and the expenditure of \$1,871,000 by the American Red Cross during the fiscal year ending June 30, 1921, says an announcement based upon the forthcoming annual report of the Red Cross. These disasters caused property damage estimated at \$30,000,000, affected thirty-seven communities and rendered 65,000 families homeless.

The year's disasters were of varying types, including several which previously had never been thought of as falling within that classification. The Red Cross furnished relief in seventeen fires of magnitude, five floods, seven tornadoes or cyclones, one devastating storm, three explosions, including the one in Wall street; one building accident, two typhoid epidemics, the most serious being that at Salem, Ohio, which affected 9 per cent of the population; one smallpox epidemic, in the republic of Haiti; one train wreck, the race riot at Tulsa, Okla.; the famine in China, emergency relief in famine among the Indians of Alaska, the grasshopper plague in North Dakota and an earthquake in Italy.

Pueblo Most Serious

By far the most severe of the disasters in the United States during the period covered by the Red Cross report was the Pueblo flood early in June, 1921. The rehabilitation problem confronting the Red Cross in Pueblo was one of the most difficult in recent years. When the first news of the horror was flashed throughout the country, the American Red Cross National Headquarters responded with a grant of \$105,000 for relief work. Governor Shoup of Colorado, appreciating the long and successful experience of the Red Cross in organizing disaster relief work, placed the entire responsibility for the administration of relief in its hands.

In response to appeals from President Harding, Governor Shoup and other governors of western states and through local chapters of the Red Cross and other community organizations, public-spirited citizens brought the total contributed for Pueblo's rehabilitation to more than \$325,000.

The terrible havoc wrought by the flood waters is a matter of record. More than 2,300 homes were affected and 7,351 persons were left homeless. Estimates of \$500,000 as an absolute minimum for rehabilitation were made by Red Cross officials in charge of the relief work.

Fast Work in Wall Street

The Wall street explosion was notable in that relief workers of the Red Cross were on the scene twenty minutes after the disaster occurred. The race riot at Tulsa also was unique in disaster relief annals in that outside of a small emergency relief fund contributed by the Red Cross, the only relief measures outside the city consisted of the service of social workers, nurses and a trained executive whose object was to assist local forces in directing their own efforts.

In decided contrast with the previous year, only one tornado assumed the proportions of a major disaster. This occurred on April 15, in the border sections of Texas and Arkansas with the city of Texarkana as the center. The significant feature of this disaster relief work was the fact that it covered so much rural territory as to make necessary a large number of relief workers.

The famine in China, necessitating relief expenditures totalling more than \$1,000,000 by the American Red Cross was by far the most serious of the foreign disasters in which the Red Cross gave aid.

Builds Up Its Machinery

In connection with the administration of disaster relief measures, an increasing effectiveness on the part of the Red Cross to deal with emergencies was manifested during the past year. In 328 chapters of the American Red Cross there have been formed special committees to survey the resources of their respective communities and to be prepared in case of disaster. In others of the 3,402 active chapters, a network of communication has been formed through which instantaneous relief may be dispatched to any part of the United States.

That its work in this field may be continued with ever greater effectiveness, the American Red Cross is appealing for widespread renewal of membership during its Annual Roll Call, to be conducted this year from November 11 to 24.

LIFE SAVING CORPS ENROLLMENT 10,000

Growth of Red Cross Life Saving Corps throughout the country continued unabated during the last fiscal year, a summary of the year's achievements by that Red Cross Service shows. There are now 100 Corps with a total membership of more than 10,000 members, of which 1,270 are sufficiently skilled in the work to act as examiners. Among the outstanding achievements of the Red Cross in this field during the last year was the organization at the United States Naval Academy, Annapolis, of what is perhaps the largest life saving corps in the world.

The army of the disabled keeps growing

In Hospitals, under Government care

The Red Cross is spending Ten Million Dollars a Year to help the ex-service man and his family — Annual Roll Call Nov. 11-24, 1921

To bring before the country in visual form the vast problem it is helping to solve, the American Red Cross has prepared for its Annual Roll Call, Nov. 11 to 24, a poster showing how rather than diminishing the total of World War veterans entitled to Federal aid continues to grow. Red Cross Services to these men is costing \$10,000,000 a year.

PORTABLE HOUSES TO FRANCE

American Lumber Company's Practical Aid to the People of War-Devastated Districts.

Thirty-one hundred portable houses are being sent to northern France and Belgium by one American lumber company; the first shipment left Baltimore on the New Britain recently, says the Christian Science Monitor.

The size of the contract is better understood when one realizes that the cost of transporting the \$15,000,000 worth of houses, each weighing from forty to sixty tons, will be \$4,000,000. Together with the other contracts which preceded and which will follow, this means the transformation of many square miles of landscape, a second transformation since the summer of 1914. Among the ruins of stone cottages many centuries old, wherever a stretch of level ground has been cleared between cellar and shell holes, new, brightly painted frame houses are springing up overnight.

The effect on the peasant of this great change in housing, a leap from the middle ages to the latest development in the quick and cheap, will doubtless be varied. Many doors and many windows will make a difference, and so will walls which are anything but soundproof. But most important will be the question which will come to him as he gazes on his American-made dwelling: "My house has traveled. Why not I?"

Doughty Pickax Passes

In the hands of lazy laborers the pickax becomes the irritant, despair or agent of humor of the average observant man. Symbol of toll, properly speaking, shirkers have turned it into mockery of labor because of the carefully calculated leisure with which they swung it. By their methods these cunning clock watchers changed the pickax into a visible sign of leisure.

But without knowing it these leisurely pickax wielders were working a change of great importance. They were attracting the attention of men whose business it is in life to see that work is done promptly, efficiently and economically. From these men has come the air hammer or air pick. In its street work a New York company has used one of these new implements with a gasoline engine and air compressors mounted on a large motor truck behind it. Where 15 men were hired to do the street job three are enough to do the work with this instrument.—New York Herald.

To Preserve Famous Trees

The National Geographic society recently presented the United States government with the title to the last 640 acres of land which complete the "big tree" stands forming Sequoia national park. The park, established to preserve the most massive trees in the world from being converted into lumber, totals 1,916 acres. It was purchased in three sections, during 1910, 1920 and 1921, for a total of \$140,890, only \$60,000 of which was contributed by the government. The remainder was contributed by the members of the National Geographic society, their friends, and by a tax levy of Tulare county, California.—Popular Mechanics Magazine.

His Camping Trip

"I suppose you enjoyed some wonderfully quiet nights while on your camping trip?" "Quite nothing!" cried the tired business man. "Be on the chirping of the chickens and the ukulele songs of a party of college boys in the next camp I never closed an eye!"

FORD LOSES IGNITION CASE.

CHICAGO, Oct. 5.—The United States court of appeals today reversed a decision of Judge A. B. Anderson, at Indianapolis, giving the K. W. Ignition Co., a verdict of approximately \$2,000,000 against the Ford Motor Co. The ignition company charged the Ford factory had manufactured for its use ignition coils on which the K. W. Co., hold a patent. The appellate court held the defendant had not been notified of any infringement of patent rights.

Notice of Application for Tax Deed Under Section 575 of the General Statutes.

Notice is hereby given that V. G. Jones, purchaser of 1-3 Interest in Tax Certificate No. 841, dated the 2nd day of July, A. D., 1900, has filed said Certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: E 1-2 of SE 1-4 Sec. 26, Twp. 20 S., Range 29 E. 20 acres. The said land being assessed at the date of the issuance of such Certificate in the name of J. E. Phipps, Admr.

Also Tax Certificate No. 883, dated the 3rd day of June, A. D., 1901, has filed said Certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: 1-3 Int. in E 1-2 of SE 1-4 of SE 1-4 Sec. 26 Twp. 20 S., Range 29 East. The said land being assessed at the date of the issuance of such certificate in the name of T. A. Phipps.

Also Tax Certificate No. 836 dated the 2nd day of June, A. D., 1902, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: 1-3 Int. in E 1-2 of SE 1-4 of SE 1-4 Sec. 26, Twp. 20 S., Range 29 East, 20 acres. The said land being assessed at the date of the issuance of such certificate in the name of T. A. Phillip.

Also Tax Certificate No. 261, dated the 3rd day of July, A. D., 1916, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Beg. 481 ft. N. and 1114 ft. E. of SW. Cor., Sec. 31, Twp. 20 S., Range 30 E. Run N. 1 deg. E. 106 ft. N. 89 deg. W. 200 ft. S. 1 deg. W. 100 ft. Ely. 200 ft. more or less 5.10 acres. The said land being assessed at the date of the issuance of such certificate in the name of S. C. Jones.

Unless said Certificates shall be redeemed according to law tax deed will issue thereon on the 19th day of October, A. D., 1921.

Witness my official signature and seal this the 14th day of September, A. D., 1921. E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Florida. By A. M. WEEKS, D. C.

Notice of Application for Tax Deeds Under Section 575 of the General Statutes Laws of Florida

Notice is hereby given that Charles D. Cary, purchaser of Tax Certificate No. 10, dated the 2nd day of June, A. D. 1919, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property in Seminole County, Florida, to-wit: W 1/2 of SE 1-4 of SW 1-4 of SW 1-4 and SW 1-4 of SE 1-4 of SW 1-4 and NW 1-4 of SW 1-4 lying E of W line of Sanford Grant (less 825 ft. N and S by 660 ft. E and W in SE corner and less N 7 1-2 ch.) Sec. 29, Twp 19 S., Range 30 E., containing 25 acres. CITATION

In the Circuit Court of the Seventh Judicial Circuit of Florida, in and for Seminole County, Florida, to-wit: The State of Florida, ex rel Geo. A. DeCotton, State Attorney for the Seventh Judicial Circuit of the State of Florida; To the Citizens and Tax Payers of said Special Road and Bridge District No. 2, of Seminole County, Florida, on the 17th day of May, A. D. 1921, to determine whether or not there should be issued by said Special Road and Bridge District bonds in the sum of \$25,000.00, to bear interest at the rate of six per cent, principal of said bonds to mature thirty years after the date of the issuance thereof, the proceeds of said bonds to be used for the purpose of building and constructing certain proposed roads and bridges in said Special Road and Bridge District and that a census of the returns of said election shows prima facie that the result of said election was in favor of the issuance of bonds aforesaid by the said Special Road and Bridge District. NOW, THEREFORE, pursuant to an order

of the Court herein made, notice is hereby given that the citizens and tax payers of said Special Road and Bridge District No. 2, of Seminole County, Florida, are by the said order required to be and appear before the Circuit Court of the Seventh Judicial Circuit of the State of Florida, on the 14th day of October, A. D. 1921, at 10:00 o'clock a. m. at Titusville, County of Brevard, and State of Florida, then and there to show cause, if any they have, why said bonds should not be validated and confirmed.

WITNESS my hand and the seal of the Circuit Court of the Seventh Judicial Circuit of Seminole County, State of Florida, this 21st day of September, A. D. 1921. E. A. DOUGLASS, Clerk of the Circuit Court, Seventh Judicial Circuit of Seminole County, Florida. SCHELLER MAINZER, Attorney for Petitioners. 9-21-4th
