**Alert Activities Of United States Postal Inspectors Protest Citizens**

By Associated Press  
By FRANK I. WELLER  
WASHINGTON—This outfit's a phony," said the money order clerk in a small eastern post office. The ex-WAC, trying to send \$25 to a "school" which promised a sure-fire job when she had finished its course, took back her money. Now a money order clerk is not usually supposed to butt into this business, but the one who did happened to be a close friend of the Fifth of Six stories girl's family, and he had just heard from a visiting U. S. postal inspector that this particular racket was about to be busted under federal mail-fraud laws.

Roscoe E. Mague, general superintendent of the Post Office Inspection Service, tells the story to illustrate what he considers one of the most vicious "gypsies" practiced against ex-service men and women.

He hastens to add there are plenty of reliable, honest and authenticated correspondence schools extending themselves to aid veter-

**Cooled Memory Leads To Heated Activity**

BALTIMORE—A.P.—Mr. and Mrs. Howard J. Kirby were attending a wedding in Harve de Grace when Mrs. Kirby remembered she had forgotten to turn off their hot water heater. Fearing an explosion, she notified Harve de Grace police, who told Baltimore police. Officers helped a neighbor, Miss Blanche Taylor, through a basement window, but she couldn't reach the heater because a door was locked. So police called firemen, who broke a window and discovered the heater wasn't lit.

"Why, that's right, I turned it off myself before we left," said Kirby, abashed.

ans. He's after the frauds patterned after the old "diploma mills." They promise a veteran a high-pay job at the end of a course calculated to take just about all of his separation and mustering-out pay and then tell him he flunked the examinations.

Full figures are not available, but in just 89 of the 3,455 mail-fraud cases handled last year more than \$1,800,000 was filched from the public in all types of sharp practices.

Mague says there has been a gradual—but so far not alarming—increase in mail-truck and mail-train holdups, another responsibility of his service. A registered mail sack is snatched here and there.

The incidents are growing in number, Mague says, as unemployment grows and prices rise. He has alerted the inspectors against repetition of the bold forays which followed World War I, such as Gerald Chapman's stickup of a mail truck for a million dollars in New York.

Mague says post office burglaries are starting up again but that so far most of them are by small fry hoodlums—nothing like in the early '20s, when burglars got the biggest haul in all postal history, \$250,000 in stamps from the Pawtucket, R. I., post office. They were captured and sentenced to 10 years in jail.

"Sniping" of government checks from mailboxes is giving postal inspectors their biggest headache. Thefts have risen from 909 in 1944 and 1,546 in 1945 to what looks like something near 2,000 in 1946.

At first it was carried on principally by black-beep boys and girls who seemed satisfied with just enough to finance a night in a dive. Now, Mague says, there is evidence that older and wiser heads are directing organized depredations.

## British Send Immigrants To Cyprus Island

### Jews Riot In Haifa As Illegal Immigrants Put Aboard British Transports

HAIFA, Aug. 13 (AP)—An uneasy calm has returned to the ancient port city of Haifa in Palestine, but the trouble there may not yet be over. Order was finally restored by British troops after crowds of angry Jews rioted in the streets for several hours.

HAIFA, Aug. 13 (AP)—Crowds of angry Jews rioted in the ancient streets of Haifa in Palestine today as British authorities began the deportation of illegal immigrants to a Mediterranean island. One thousand Jewish immigrants, many of whom had just arrived in Haifa harbor from Europe, were loaded aboard two British transports and removed to Cyprus island. In the midst of the confusion another refugee vessel dropped anchor outside the heavily guarded port with 650 more would-be immigrants aboard.

As the deportation continued, rioting Jews on shore filled the streets of the half-Jewish, half-Arab city and battled with British troops. They stoned troops of the British First Infantry Division and attacked Palestinian police. The Jews, most of them young men, had responded to an appeal broadcast by clandestine radio of the Hagana underground.

The Hagana radio had called on Haifa residents to storm the streets and break the curfew, which the British clamped down when the refugees were being loaded for deportation.

The disorders were concentrated in the dock area and they continued well into morning. British authorities declared, however, that the disorders were confined to effect until the city had quieted down.

The first deportations sent to barred wire prison pens on Cyprus island were taken aboard the transport Empire Royal and Empire Heywood. The refugees appeared sullen as armed Tommie soldiers boarded the deportation vessels, but there was no violence. The immigrants were searched and British officers said some of them had explosives on their persons, but that no other weapons were found.

Later the Palestine government announced that illegal Jewish immigrants who reached Palestine before Aug. 11 would not be sent to Cyprus. Instead, the government announced, they would be sent to the Athlit clearance camp south of Jerusalem.

The early arrivals thus appear to have been exempted from the new British deportation order.

Except for the rioting in Haifa, the rest of Palestine was described as quiet but tense. In Jerusalem, all government buildings in the Jewish area were heavily guarded.

## Harry Robson Is Theft Victim For 2nd Time In Week

For the second time in two weeks Harry Robson, local sporting goods dealer, found he had been robbed, when on Saturday he looked into the back of his automobile, and found that a Remington noiseless typewriter which he had left there, had been stolen. The car was parked in front of his home at 488 Orange Avenue.

Last week the Robson Sporting Goods Store on First Street was entered by a high window adjoining the alley and two air rifles and a shotgun were reported by Robson to have been stolen. The air rifles were returned to police headquarters by the father of one of two boys who had been connected with the stealing.

Prior to serving overseas, Mr. Robson operated a bowling alley on East First Street. This was broken into at one time and the cash register was stolen.

THE ARMY AIR FORCE'S HEAVY SIX-ENGINE BOMBER plane, the Convair X-99 is shown parked alongside a battle-tested B-29, just before it took to the air for the first time at Fort Worth, Tex. The mighty plane, capable of flying from San Francisco to Tokyo and back again nonstop, flew for 84 minutes in its first test hop and observers said it "exceeded all expectations." The new craft, which dwarfs completely the B-29 Superfortress, is 160 feet long and has a 130-foot wingspan. (International)

## Action Taken To Stop Flooding On West Side

### Farm Bureau Raises Money To Match Funds Of County

Definite action to prevent further flooding of West Side farms such as has been causing increasing and costly damage during the past two summers, was taken last evening at the Court House when a group of growers, meeting with the Flood and Drainage Committee of the Seminole County Farm Bureau and with County Agent C. E. Dawson presiding, raised the sum of \$1,915 as a start toward matching County funds for drainage purposes.

The Smith Canal starts north of the County Club road west of Grapeville and empties into the St. Johns River west of Monroe Corner. At the recent meeting of the County Commission, a delegation of West Side growers were assured that the County would match funds that the growers raised for drainage purposes, dollar for dollar.

The growers committee will contact other property owners on the West Side in order to gain their interest and co-operation, said Mr. Dawson.

"This was absolutely the best farmers' meeting I have ever attended," Mr. Dawson declared this morning. "Everybody there was of one voice on the matter of flood control."

J. C. Hartzel, representing American Fruit Growers, Inc., headed the donations by contributing \$500. Victor Green, gave \$200. Leo Hutner, Herbert Behrens, Henry Wille Sr., Henry Wille Jr., Henry Nickel, W. E. Chapman and son, Phil Back, Otto Rehmeh, M. S. Wiggins and J. W. Beal each contributed \$100. Benner Carter, Henry Tharator and L. B. Mays contributed \$50 each. C. E. Brannon gave \$30, E. T. Chapman, \$25 and Paul Marra \$10.

## British Isles Being Swept By High Winds

LONDON, Aug. 13 (AP)—Strong gales and driving rain are sweeping over the British Isles today, disrupting shipping and damaging Britain's badly needed crops. Shipping in the English Channel and in the Liverpool area has been halted by winds reaching 80 miles per hour.

A steamer has been abandoned in the Channel and her crew taken off in a rescue boat. Suffolk farmers say that half of their wheat harvest and 75 percent of their oats may be lost.

ROCHESTER, Minn.—Aug. 13 (AP)—Congressman William J. Gallagher of Minnesota died in Rochester early today. He had been seriously ill since Sunday when he was taken to the Mayo Clinic. Gallagher was a Democratic-farmer laborite coalition congressman.

## Russia Proposes Black Sea Powers Draft New Treaty For Dardanelles

### Stowaway Jailed

MOSCOW, Aug. 13 (AP)—The Russian note to Turkey concerning the Dardanelles was made public today by the Soviet Foreign Office. The note proposed that the Black Sea powers take full authority in drawing up a new treaty governing the straits and that the USSR and Turkey should jointly organize the defense.

The note condemned the ten-year-old Montreux convention which gave Turkey the right to militarize the straits. Russia claims the provisions of that convention do not correspond to the interests of security of the Black Sea states and do not guarantee conditions preventing the use of the straits by those inimical to the Black Sea powers.

The Soviet government news paper Izvestia said the note was presented to the Turkish government in Ankara last Thursday and at the same time its contents were disclosed in Britain and the United States.

Russia proposes that the straits be kept open to the passage of commercial vessels of all nations but only war vessels of the Black Sea power would be permitted entry. However, exceptions would be made in cases where special arrangements had been made in advance.

Foreign observers in Moscow interpret the note as a strong forward statement of the Soviet position that the straits are to be under the control of the Black Sea powers, Russia, Turkey, Bulgaria and Rumania. The Soviet note recalled the armistice tests made by Russia to Ankara during the war about Axis warships and merchantmen using the Dardanelles.

The original signatories of the 1936 Montreux Convention were the four Black Sea powers, Britain, France, Greece, Yugoslavia and Rumania. The Soviet note recalled the armistice tests made by Russia to Ankara during the war about Axis warships and merchantmen using the Dardanelles.

Mr. Boradorf explained that according to certain sizes of tables which he had the Sanford store had achieved the best sales quota of these stores during the month of July. He made the trip by plane, and said that he had found much enjoyment in slight seeing in Havana.

## Students At Tech Want Better Seats

ATLANTA, Aug. 13 (AP)—Rebellious students at Georgia Tech have threatened a mass sit-down strike on the football field to prevent the biggest game of the year from being played—the Tech-Navy game set for Nov. 9.

The students dissatisfied with seats allotted them in the football stadium, also threatened to establish a picket line and urge the public to boycott Georgia Tech football games.

A student leader who declined to be quoted revealed the plan for 4,000 students to sit down on the football field at the time for the heavy game. He said there would be no contact unless better seats are provided for students in the stadium.

## GI Escapes After Sentence Suspended

MISSOULA, Mont., Aug. 13 (AP)—A prisoner at the Army Disciplinary Barracks at Fort Missoula, 34-year-old amon Barr of Dover, Del., escaped yesterday. Army officials are certain he wishes now that he hadn't done it. Just after Barr got away, word came from the War Department that he had been given clemency from his six-year sentence, and could go free.

Now, if and when he is caught, Barr will have to serve more time.

## Enclosed City Garbage Truck Body Purchased

### Plans Are Discussed For Improvement Of Sewerage System

City Commissioners, met last evening and after reviewing bids of various manufacturers of enclosed bodies for garbage trucks, including a packing device, accepted the bid of the Gannon Iron Works for a nine cubic yard load packer. The City plans to purchase another one at a later date, according to H. N. Sayer, City Manager.

The Commission authorized the payment of all interest due Sept. 1 on all outstanding bonds.

A letter from the Federal Works Agency together with an agreement was read which pertains to payment to the City of \$10,000 for the purpose of getting up plans and specifications for improvement and extension of the city sewerage system.

The Commission stipulated that when the agreement was signed and received in part of the funds would be forthcoming and that the balance would be paid following completion of the improvement by engineers.

Due to the fact that only three contractors were present, action was deferred on several requests. One of these was a letter from the Sanford Zoning Board, asking that the south and north-east corners of Twelfth Street and French Avenue be zoned as residential business property.

The other request was that trucks be routed from Park to French Avenue due to already heavy traffic on the road. A city ordinance on Park Avenue due to parking of automobiles by churches during services, weddings and funerals. The request was signed by four local citizens.

Milk from local dairies was reported to have met Grade A requirements during the past month.

## GI's Using Tricks To Marry German Girls

BERLIN, Aug. 13 (AP)—American soldiers are resorting to all sorts of tricks and dodges in an effort to evade the Army ban on GI's marrying to German girls.

Some GI's are trying to get around the ban by joining the British Army. The British Army allows its men to marry females.

One of the favorite tricks is for an American soldier to request permission to join the British Army long enough to get married and then return to the American army after the knot is tied.

That's not the only way of doing it. Other GI's have their own man sweatshirt, learn a foreign language and then try to pass them off as Czechs or Poles.

## SIX SOLDIERS DIE

## Ethiopian Delegate Recalls Fascist Hisses At Monarch At League Meeting

PARIS, Aug. 13 (AP)—Soviet Foreign Minister V. M. Molotov spoke his mind at the Paris Peace Conference today on Italy's recent plea for more lenient peace terms.

Molotov declared that the Italy of the Fascists bears a tremendous responsibility for the war. But that the Russian delegate contended, does not mean that Italy should lose her influence as a power in the Mediterranean.

Molotov then paid tribute to what he called the historic services rendered by Italy. He said the Soviet people were confident for the future of Italy as a great nation.

The Russian Foreign Minister added the fundamental problems of Italy's Democratic resurgence were settled in the recent conference. He said Italian Premier Alcide De Gasperi Molotov asserted that the Italian people's attitude toward the war was a single remark at the League meeting.

Molotov was particularly critical of De Gasperi's plea for more lenient peace terms. He described the request for postwar settlement as an attempt to divide the Major Allies.

Molotov went on to say that Yugoslavia's claims to the disputed Trieste area are more valid than those of Italy. The Italian claims, he said, are quite common with international justice.

Molotov also commented on international politics in present-day Italy. He said that if it is to avoid serious social changes, Italy must carry out radical changes.

He charged that the peace claims of the old imperialist Italy and out of the so-called new democratic Italy. He said De Gasperi's claims are not in the interest of the Italian people.

The Russian delegate also criticized De Gasperi's request that the Italian peace settlement be held over until a peace with Germany is concluded.

He said the Ethiopian delegates, who were greeted with a burst of applause, which caused him to remark, "This touching moment I can't help remembering another scene in which Hitler, Fascist leader of the 'League of Nations'." He was referring to the time when Hitler's speech appeared before the League to protest against the Italian invasion of Abyssinia.

The Ethiopian delegate today spoke briefly, concentrating on the Greek case. He said that the Greek case is a matter of international justice.

BIBLE VERSE FOR TODAY

SOME MOULDS ARE KILLED
BY THE LIGHT. ESPECIALLY
MORAL MOULDS: Be
lieve in the light that ye may
become sons of light.—John
12:35.

In a newspaper down town it
is easier to keep a secret than

bune. Or a pencil, or a postpot,
or a pair of shorts.

Over nine million dollars has
been lent to veterans since enact-
ment of the GI Bill of Rights for
the purchase of homes in
Florida, but that's nothing to what
it would have been if there had
been enough homes for sale.

The Navy protests it's only a
short time until travel to the
moon will be feasible. Then all
hopes of ending wars must end.
For once we work out a United
Nations program for ending wars
on a "One World" basis, the
inter-planetary conflicts will be
gone.

James Branch Cabell, who with
Fred Hanna once wrote a book
about the St. Johns River, is
now writing another book about
Florida. It has to do with Jose
Gasparilla, famous Gulf coast
pirate, and concludes its action in
St. Augustine.

The public which is very partic-
ular about its own hours of work
is not so generous toward its
own employees. Policemen, over
in Leesburg, who have been asked
to maintain order at baseball
games complain that they have
been working 17 hours a day.

General Marshall is apparently
fed up trying to bring peace to
China. Neither Nationalist nor
communist will give in or make
the slightest concession and so
the great Chinese nation which
has suffered the horrors of war
for a longer period of time than
any other country on earth must
go on bleeding and suffering.

Even the barnyard rooster
seems to have caught the tem-
peramental bug which is inflicting
so many people these days. In
Eneeshville, Tenn., a big and
blustery rooster attacked a two
year old girl playing in her father's
yard and so badly lacerated
her with its spurs that she bled
to death before help could be
obtained.

The success of the CIO at the
polls is illustrated by the Tampa
Tribune as follows: Of the 258
members of the House who voted
for the Case bill and who were
threatened with purging by the
CIO, 167 have been renominated
and only nine defeated. In the Sen-
ate of 13 who voted for the Case
bill, eight have been renominated,
one has withdrawn and none de-
feated.

The age old superstition that
mental diseases are a product
of the devil is still found at
the bottom of many practices
in our hospitals, and mental insti-
tutions. In Indianapolis investiga-
tion discloses that elderly people
suffering from nothing more rep-
resentable than apoplexy were
shamed by their beds and their
beds placed not four inches ap-
part. A prosecuting attorney de-
scribed the place as "a house of
horror."

We may not be heading for
another real estate boom but real
estate sales are already higher
than they have been any time
since the boom, at least in some
communities. Miami reports 62,863
real estate sales in the first seven
months of this year as compared
with 48,393 during the same peri-
od last year when 82,768 sales for
the entire year provided a
new peak for any time since
1925.

What strikes have cost this
country in the last 30 years are
indicated by the Tampa Tribune
which reveals that since 1916
more than 31-million men have
been on strike for varying periods
of time. Though the average is
about a million a year, the num-
ber climbed steadily until 1945
when over 3,400,000 men walked
out. That it will probably be
even higher this year is shown
by the fact that in the first four
months alone 2,238,000 men were
out on strike.

Chief Justice Stone

Americans do read and buy good books, even those
which are not easy reading. This is shown by the success
of Samuel J. Konefsky's "Chief Justice Stone and the
Supreme Court," which has just gone into its second
printing. This is no volume of picturesque biographical
detail, but a careful analysis of the important cases de-
cided by the late chief justice and an interpretation of
his judicial standpoint.

Chief Justice Stone, according to Mr. Konefsky, was
in the great liberal tradition of Holmes, Brandeis and
Cardozo. He believed in the freedom of legislative bodies
to experiment, and thought that the wisdom of statutes
was something with which courts had no concern.

Special interest attaches to Mr. Konefsky's book
because the author is blind. He is an example of success
in spite of obstacles even more than the great chief
justice.

Don't Be Afraid To Live

"Too acute a fear of death can be a fear of life,"
observes Channing Pollock in an article in Your Life. "I'm
not sure that my original dread of flying came under
that head, since I've always had an irrational horror of
height. Anyway, I insisted that no one was ever going to
get me where I couldn't keep at least one foot on the
ground."

"To afford us more time, Fulton Oursler, the editor
and author, was equally insistent that I should share
with him a private plane from Cape Cod to New York.
'You'll have to fly sometime,' he urged, 'so why not now?
At any rate, you don't want to die without having had
the experience.'"

"The period," I said, "belongs after the word die."
"Before we left the earth, I was so interested and
excited that I'd forgotten my terror and, since then, I've
flown as much as 40,000 miles a year. At 2 o'clock
one Monday afternoon I lectured in San Francisco, Tues-
day at 3 p. m. in New York, I rehearsed for an 8 o'clock
broadcast, and Wednesday at noon I spoke in Houston,
Texas. All of it was pulse quickening—dipping myself
in the waters of life instead of merely skimming over
them."

"Charles Hanson Towne once told me a grand story
of a woman who met with an accident and had to get a
glass eye. To the salesman, she said, 'Be sure there's a
twinkle in it.'"

"You can twinkle your way through the world, or
you can go through blindly. My advice would be: Do
whatever you want to do, so long as it doesn't harm
anyone else. Don't be afraid to die, if you can't help
that, at least don't be afraid to live."

TOO LATE TO CLASSIFY

that a guy just never knows.

I never was very rugged when
it comes to resisting tetaphathic

days with him at Suffolk and
Virginia Beach, I just turned my
business over to the states and
told 'em to go on ahead and
operate the old plantation and I
see 'em when I get back.

This is a beautiful country at
this time of year and I've thor-
oughly enjoyed motoring around
Virginia and North Carolina. Was
interested to learn from a local
Chamber of Commerce secretary
that the summer tourist business
here has been most disappointing.
About half as much as had been
expected and no know what to
account for it.

I landed here just three days
before the election and while I
couldn't participate in it, I was
keenly interested as 30% name
calling and carrying of which is
just about the same here as in
Florida or any other state for that
matter. I was mighty gratified
when United States Senator Har-
ry E. Byrd was reelected by a
large majority for I have always
considered him one of the sound-
est and ablest men in the Senate
and one the nation needs today
more than ever before.

their crates, baskets and hampers.
For the past couple of days we
have been driving through the
country visiting crates and basket
mills and I got a thrill out of
watching them manufacture con-
tainers that later on will be used
to transport Florida fruit and
vegetables to the national mar-
kets.

I had the crazy idea that the
only folks who had any trouble
were printers and publishers, but
in talking with these manufac-

urers of crates and baskets I
found that they have been trou-
bled in order for the last year
or so with labor trouble, the
OPA, material shortages and a
hundred other problems that have
left all of them either half or
practically headed.

From all I've been able to learn
the situation is still critical and
growers and shippers who don't
make arrangements for their
containers well in advance may
wake up to find that they are out
of luck with crates up in the field
and nothing to pack them in. The
wire situation is particularly acute
and is holding up production of
certain types of containers. Labor
is also affecting some mills.

Folks have forgotten how to
work up here just as they have
in Florida and would rather be
taken care of on the front
porch than think about working,
as long as they can depend on
Uncle Sam to pay 'em for not
doing so. It's a healthy situa-
tion and is doing more than any-
thing else I know to keep pro-
duction down, and as long as
we don't produce we can't expect
much immigration from either
the standpoint of wages or living
costs.

Was interested in checking on
the new car situation up here and
found that dealers are no better
off than in Florida. Everybody
wants a new car, but only a few
deliveries are being made, and
this is true just as office equip-
ment such as typewriters, multi-
graphs and the like.

In the meantime a lot of folks
who had saved up money to buy
a car or invest in a new home
have gotten tired of waiting and
have started spending their nest
egg on wine, women and song on
which there is no ceiling and no
shortage. To morning-after prob-
lems that is terrific and a lot of
poor saps are going to wake up
and find they can't even borrow
enough to buy a package of
Aspirin. But we are asking for it,
and it will serve us right. A lot
of nitwits with sludgers, horn-
rimmed glasses and brief cases
"Planned it that way."

Peace Treaties to Sow Seeds of Disagreement? Tri-Lingual Pacts May Prove Stumbling Blocks

Special to Central Press

WASHINGTON. Some cynical diplomats believe that many doors
may be thrown open for future international disagreement by the
peace treaties drafted for Italy, Hungary, Romania, Bulgaria and
Finland.

These diplomats argue that the wording of the treaty drafts is
not precise enough to give any assurance of a generally accepted
definition of the terms agreed upon by the Allies.

In addition, it is pointed out that there are num-
erous issues which the "Big Four" foreign min-
isters have yet to settle before work on the
treaties is completed. These issues could affect in-
ternational litigation for years to come.

However, the treaties, even in their unfinished
form, are viewed by some diplomats as setting
the stage for a world of trouble. They say that it
will take international courts forever to interpret
the treaties.

The fact that the treaties are drafted in three
official languages—French, English and Russian—
merely complicates matters. Before World War
II, French was accepted as the official language
of international documents.

Some international lawyers feel that it would be more logical
to write the present treaties in French and thus eliminate the prospect
of disagreement in the translation of the various languages.

AMERICAN DIPLOMATIC and military officials are seeing eye-
to-eye on Spain and the influence of Soviet Foreign Minister
Vyacheslav Molotov that Franco's regime is a menace to world peace.

To a group of United States State and War Department officials dis-
cussing with Molotov in fact, Army brass is privately comparing
Spain's military power to the bellicose powers of the legendary
Ferdinand the Bull. Ferdinand was the tough-looking bull who
preferred to mullle dattaz and sleep the living-day.

On paper, Spain has a good army, trained by Franco and tough-
ened by the Spanish Civil war. But the Spanish army, the Spanish
people and even Franco, diplomats say, want no war.

Actually, Spain's fighting forces scarcely could do more than
defend the homeland in event of an attack against the Iberian
peninsula. The nation's industrial potential is low. Her air force is
small and she is not a scientific country.

Newsprint A Danger Signal

DAYTONA BEACH NEWS

In December, 1945, the OPA
permitted paper manufacturers to
raise the price of newsprint—the
kind newspapers are printed on—
from \$61 a ton to \$67 a ton.

Recently, with OPA gone with
the wind, manufacturers raised
the price another \$6.80, to \$73-
80. Imagine what this means
even to a small newspaper like
The News-Journal, which con-
sumes nearly two tons of news-
print every day!

This would be news strictly
of interest to publishers if it
were not for the fact that the
price rise and what may follow
provides a classic example of
what happens when price con-
trols are discarded suddenly. It
shows graphically that Pres.
Truman in his veto message
warning what would happen if
price controls were abandoned
wasn't talking through his hat.

Therefore, it is of wide public
interest, an interest which tran-
scends the fact that newspapers
may be forced to increase sub-
scription and advertising rates
to meet higher costs of labor
and material.

(Incidentally, during the past
two years The News-Journal
payroll has increased 11 percent
and the cost of other operations
advanced 52 percent. The daily
cost of operating and taxes has
come up in those two years from
\$780 daily to \$1,100 daily dur-
ing the past six months. Of
this, \$1,100 daily—or about
\$400,000 annually—is distributed
in Daytona Beach and vicinity.)

But we were speaking on a
broad and more important
theme—the danger evidenced to
the public interest in the news-
print jump. This danger lies in
the pattern set by the newsprint

gundy, England, but actually it's handier

quotes one of Canada's largest
producers as saying that another
10 percent rise may be expected
soon "to cover increased labor
costs."

On the other hand, the A. P.
reports from Montreal, capital
of the newsprint industry, that
the "industry" says it is deter-
mined to avoid such a price sky-
rocketing as occurred in the early
1920s. Can the line be held so
easily? Economists are pointing
out that the quicker and more
inflated the boom, the faster and
deeper will be the bust. Some
say there will be readjustment
as early as mid-1947. The re-
fusal of Congress to recognize
that the power of Government
can be used effectively to pro-
duce stabilization is one of the
saddest spectacles of this con-
fused period. Newsprint is only
a sample, but it points a clear
cut danger signal. How far do
we ride and when do we stop?
And then what? And in the
meanwhile, how does the man-in-
the-street go on eating, and how
do veterans and others get buses
to live in?

Negro Cook Admits Slaying Of Sailor Prisoner of War Finds Ice Age Relics

WASHINGTON, Aug. 13. (AP)—
The intensive, highly secret two-
week manhunt aboard a United
States destroyer for the slayer of
a 10-year old sailor yesterday
came to a sudden end after an
oral confession by a negro cook
who had been in custody for 12
days.

A joint announcement from the
Office of Naval Intelligence and
the Federal Bureau of Investi-
gation said that Benjamin Leroy
Hubbs was attacked and killed
by Joseph Watson, a negro cook,
Joseph E. Thornton, chief of
the Miami FBI office, said Wat-
son described the crime in full.
The FBI chief said the negro is
being held in the navy brig at
Key West without charge pending
a decision by the Navy on whether
to release him to civilian authori-
ties.

Thornton said this morning
that he would speed charges
against Watson. He said he would
present the case before the United
States attorney in Miami as quick-
ly as possible.

**GERMANS DIG UP PRECISION DINNER**  
**ESSEN**—A.P.—The German penchant for precision instruments is giving each Rhr coal miner a fair share of the meals served each day at the mines.

Since a ladle dipped into a kettle might give one man more meat than another, no meat is served in soups or stews. It is doled out separately. Each portion is weighed. Although bread for sandwiches is cut by a mechanical slicer, loaves may be of irregular shape so each slice of bread is weighed. Sometimes an extra piece, only an inch square, makes up the difference.

The night of the big broadcast arrives with the studio packed with stars of the stage and screen.

WHAT A SPOT TO INTRODUCE MY NEW SONG! WE'RE ON THE AIR IN TWO MINUTES.

I'M SIMPLY SO EXCITED I CAN'T THINK.

ISN'T IT THRILLING?

ONE MINUTE!! IT'S A COAST-TO-COAST HOOK-UP. MILLIONS OF CARS TUNED IN EVEN IN ETTA'S HOME TOWN.

LADIES AND GENTLEMEN!—THE SKINOLA HOUR IS ON THE AIR—

FEATURING THAT ACE OF THE DRUMS—MEL AND HIS BAND—

as the last note of MAL'S song hits goes out over the air, the studio audience breaks into an ovation of applause.

IT'S A KNOCKOUT, MAL!

—THANK YOU—THANK YOU—

JUST LISTEN TO THEM CHEER!

AND NOW, LADIES AND GENTLEMEN—LET ME INTRODUCE MY GUEST STAR OF THE EVENING.

MY INSPIRATION—LOVELY ETTA KETT—TO WHOM MY SONG IS DEDICATED.

HI MOM—HELLO DAD—N' EVERYBODY BACK HOME.

—AS ABOUT ME PICKIN' ETTA UP AT THE PLANE?—

OKAY!

THANKS CREEPY! I'M ALL READY TO GO!

YOU WERE YOUNG ONCE—LOOK AT THAT MOON—ETTA WOULD MUCH RATHER HAVE ONE OF THE BOYS MEET HER!

JUMPIN' CREEPS! I CAN'T GET MY JALOP STARTED.

.. BUT YOURS WON'T RUN, EITHER! I WAS AFRAID YOU'D GET ETTA—SO I GUMMED IT!

MORTIMER! YOUR BLOOD PRESSURE!

BYE! THANKS FOR EVERYTHING!

HI-YA!

GEE MUSCLES—SORRY I'M LATE, BUT I SIMPLY HAD TO FLY HOME ON THE SAME PLANE WITH THAT CUTE STEWARD.

HERES MY JALOP!

WHAT/NO BAND? WHERE'S THE REST OF THE WOLF PACK?

JEEPERS, MOM!—YOU WAITED UP! HI, DAD! GET MY CARDS? DID YOU HEAR ME ON THE RADIO?

I GUMMED UP THEIR CARDS—AND OF BRAIN AND GRANNY TOAST ME!

ISN'T THAT YOUR SIGNAL CALL? YEAH, I'LL—

WHAT'S THE MATTER? IT'S FROM STONE BLUFF. LISTEN—SEND HELP QUICK STATION SURROUNDED BY APACHES. SERGEANT PRESCOTT ILL AND—

WELL GO ON WHAT LINES GONE DEAD?

MEANWHILE—

I SAW YOU THROUGH THE WINDOW, DOCTOR MASON, GO I STOPPED. HELLO, STEVE.

THIS MAN ISN'T AN OUTLAW! A SICK MAN WE NEED YOUR HELP, DOCTOR. I KNOW WE'VE GOT A MESSAGE THEN THE LINE WENT DEAD.

YOU'LL HAVE TO RIDE DOUBLE WITH ME, DOCTOR.

WE'VE GOT TO GET THERE BEFORE SUNRISE!

### Fifteen New Faculty Members Are Named At University Of Florida

GAINESVILLE, Aug. 13.—With an unprecedented number of freshmen and sophomore applications already on file at the University of Florida, Dr. John J. Tigert, president of the University, announced today with Board of Control approval the appointment of 15 new faculty members to the University College, lower division, in which freshmen and sophomores matriculate.

Four of the new faculty members were appointed to the expanded humanities department under former Rhodes scholar, Dr. Robert F. Davidson, himself a newcomer to the University, Dean W. W. Little of the University College said.

The humanities course, stresses the cultural heritage of the past and the influences shaping the present day world as they find expression in literature, philosophy and the arts.

The newly appointed members of the humanities department include:

Dr. William Ruff, for 11 years a member of the English department at Yale.

Dr. John Henry Groth, for ten years head of the Department of German at the University of Washington.

Dr. Robert E. Carson, painter and musician, who for 7 years taught social studies at Stephens College.

Dr. Stephen F. Fogle, associate professor of English, former member of English faculty, University of Illinois for 6 years.

Dr. Arthur L. Funk, associate professor, American institutions, former history professor, St. Elizabeth's Junior College, recently discharged from U. S. Navy.

Dr. Eugene Ashby Hammond, associate professor, social sciences, former instructor, social sciences, University of North Carolina.

Dr. Malcolm McLeod, assistant professor of English, formerly at the University of Florida, in 1942.

Dr. Franklin G. Ostry, assistant

### Milk Mixture for Stomach Ulcers

A recent medical discovery now used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcers caused from excess acid. It is a harmless preparation yet so effective, in many cases the pain of stomach ulcers disappears almost immediately. Also recommended for gastritis, indigestion, heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of LURIN from their druggist. LURIN contains this new discovery in its purest form. Easy to take. Just mix two teaspoons in a half glass of milk. Costs but little. Must satisfy or money refunded.

### Health-Board Warns Vacationers And Beach-Goers Of Sun And Poison Ivy

JACKSONVILLE, Aug. 13.—(P)—Vacationers and beach-goers were warned by the State Board of Health today to guard against the well known "summer enemies"—too much sun and poison ivy.

During vacation time the average person who has been cooped up in an office most of the year has a strong desire to get out to open as much as possible. However, little do they realize that the average "winter" skin can stand about 15 to 20 minutes exposure to sunlight the first day. The next day, if the skin has not been burned it would be safe to extend the time to 30 or 40 minutes and continue increasing the dosage each day until the danger of sunburn no longer exists.

Contact with poison ivy causes symptoms ranging from slight redness and itching of the skin to exaggerated swelling and blisters and severe burning sensations. The family physician should be called in such cases. Until he comes, washing the affected area with mild soap and rinsing well will afford some relief.

Despite its ability to create suffering, poison ivy gives fair warning of its presence to all who will use caution. It is an easy-to-spot plant made up of resembling the oak leaf. The poison comes from both the leaves and the bark.

Abraham Lincoln was the first bearded president.

## Two Detention Ships Sent To Cyprus Island

### Decrees Issued To Give Jews One Year In Prison For Any Attempt To Escape

NICOSIA, Cyprus, Aug. 14. (AP)—Two detention ships escorted by the British cruiser Ajax have anchored in Famagusta harbor. They are carrying Jews arrested in recent roundups in Palestine. The ships were in custody of the Ajax and were described as detention vessels under strict discipline.

So far there has been no evidence of the arrival of the 1,000 illegal Jewish immigrants who were deported from Palestine yesterday on two troopships. The first of these immigrants are expected to disembark at Cyprus tomorrow. The government of Cyprus has issued a decree formally authorizing their detention and providing a penalty of one year in prison for any who try to escape. A similar penalty is provided for persons convicted of aiding any of the refugees to escape.

British Tommies were working under a blistering sun to complete work on the detention camps. All roads leading to the barbed wire enclosures were jammed with convoys of military trucks loaded with equipment and supplies for the refugees.

Meanwhile, the British Army Navy and Air Force have agreed to stick to their present course in dealing with the tense situation in Palestine. Leaders of the three armed services have agreed to take whatever measures are necessary to implement the government's decision to end the illegal entry of Jewish refugees into the Holy Land.

## Man Lands In Jail After Being Free Only Four Hours

Hilton L. Boucher, who was released from County Jail Monday after serving three months' sentence for stealing clothes, spent but four hours of liberty before he found himself right back in jail, this time for attempted larceny of an automobile.

Employees of the State Welfare office noted the peculiar action of Boucher as he peered into cars parked back of the Meisch Building. When Boucher got into and started Mr. Coleman's car one of the women telephoned him.

Mr. Coleman rushed back, grabbed the man by the arm and forced him to stop the automobile and detained him until Police Chief Roy G. Williams arrived.

## Lawton's Condition Reported Improved

The condition of Supt. T. W. Lawton, now in Riverside hospital, Jacksonville, is reported to be much improved.

## George T. Ray, Jr., Discharged By Navy

George Troy Ray, Jr., has received his honorable discharge from the U. S. Naval Reserve and is at home with his family at 805 Palmetto Avenue.

He enlisted in May, 1945, and was called to active duty immediately after he graduated from Seminole High School the same year. He was assigned to the destroyer Hugh Purvis and served aboard the ship for 11 months, eight of which were served in the Pacific Theater of Operations.

Mr. Ray plans to enter college this fall.

**COFFEE PRICE HIKED**  
WASHINGTON, Aug. 14. (AP)—The O.P.A. has just ordered retail price increases on coffee. They range from 10 to 15 cents a pound, effective as once. The increase results from the cancellation of an import subsidy which was cut about the ship for 11 months, eight of which were served in the Pacific Theater of Operations.

## Named Kingpins Of Global Black Market

The four Warner Brothers and their father, named by the Criminal Investigation Division of the U. S. Army as the kingpins of a global black market network in this recent exclusive photo of 1-D men said that two of them were arrested a few days ago in Berlin and one in Paris. The New York and Shanghai terminals of the network are still at large but are being taken care of by the CID.

Standing in the center are Robert Warner, former Navy lieutenant and now USMAA traffic manager in Shanghai; Lewis Warner, former air force lieutenant and now import-export business in Berlin who was arrested; Oscar Warner, 29, former navy lieutenant now operating an import-export business in Paris, where he was arrested; and Alfred Warner, New York exporter and David Warner, father of the quartet. ## School Workshop Adm. Davison To Turn Air Station Over To City Tomorrow Morning

### Here On Aug. 19

More than 100 teachers of Seminole, Orange and Volusia counties are expected to attend the County Workshop instruction program starting on August 19 at Seminole High School. Miss Ruth A. Hand, county supervisor of instruction, will be in charge of arrangements.

Dr. Carroll F. Cumbee, professor at the school of education at the University of Florida, will head the staff of instruction. He will be assisted by Dr. A. V. Puckham of Rollins College, elementary school consultant, Sam H. Moore of the state department of education, a Junior High school consultant and Dr. Paul J. H. of the Alabama polytechnic institute at Auburn, Ala., and a senior high school consultant.

The course designed to instruct teachers in various problems of their work, will stress the guidance of the individual student. The teachers will be divided into groups depending upon the school of their interest, high, junior high, or elementary, where they will concentrate upon their own problems. In this course, the teachers work in committee groups and informally discuss the problems confronting them in guiding the students.

## Bargaining Rights Won By C.I.O. In 71 Southern Firms

ATLANTA, Aug. 14. (AP)—The C.I.O. announces today it has won collective bargaining rights in 71 Southern firms since the beginning of the \$1,000,000 campaign in the South. Southern District Vice President says the units have a total of 19,000 or 11,000 workers.

Itiner said in Atlanta that the C.I.O. has lost one election since the drive began in May, which makes the score slightly better than 7 to 1.

The veteran labor leader pointed out, however, that the biggest and most important elections are still in the future. He specifically mentioned the bargaining election at Oak Ridge, Tenn., next week, where about 11,000 atomic workers are expected to cast ballots.

## Don't Look-But--

REALLY, it's more than anyone can bear—I imagine the embarrassment of Patsy Lou, aged 1. There she was, about to pass as "one of the prettiest babies" at the Rosella Pounding and Maternity Home, Pittsburgh, Pa., when the policeman fell out of her plans—or something slipped. (International)

## Wall Street Workers Holding Strike Vote

NEW YORK, Aug. 14. (AP)—Organized Wall Street workers are holding an emergency meeting today for the announced purpose of taking a strike vote.

The meeting threatened to delay New York Stock Exchange quotations, and extra police details were brought into the Wall Street district.

The exchange quotations finally were begun on schedule. The financial ticks carried a warning that there might be delays and omissions and that transactions might not be published in sequence. The Wall Street workers are members of the CIO United Financial Employees Union.

**COLONEL RE-ENTERS ARMY**  
NEW HAVEN, Conn., Aug. 14. (AP)—A bemused veteran of two World Wars and 31 years service, whose terminal leave as a colonel expired Sunday, August 1, Bianco of Torrington, re-entered the Army yesterday as a master sergeant, saying he wanted to "retire and live in California."

## Remember How It Was— On The Day Of Victory

By Arlene Wolf  
AP Newfeatures writer  
College girls were wearing old-fashioned nightgowns instead of pajamas. Chicago was leading the National League. Detroit the American. A Wisconsin farmer said he'd discovered how to grow pre-salted celery. You hummed "On the Atchafalaya, Topeka and the Santa Fe," and heard the S. O. S. (Slaves of Sinatra) squeal when Frankie crooned "Dream" on the hit parade.

That was the state of the Union one year ago, when nuclear fission conveniently provided the U. S. with a worthy adjective to describe the V-J Day celebrations. The word, of course, was atomic, and before the month was out everything that had been colossal was atomic too.

Last August, to escape from the summer heat, you paid your admission-plus-tax at the movies and saw "Rhapsody in Blue," "Fried of the Marines" or "The Story of GI Joe."

The food situation was tight—not much beef or poultry—and a self-styled "Mad Hatter" in Chicago made some hats out of carrots and other edibles. Meanwhile, Tokyo announced the Japanese were going to eat tea instead of drinking it, because it had quantities of vitamin C.

A 12-year-old New Jersey lad won a needlework contest—his competitors, 250 girls. A Children's Bureau statistician confirmed the theory that more boys are born in wartime than girls, but couldn't supply any better reason than anyone else. A three-to-one shot named Hiltan won the Mohawk Handicap.

The new platform shoes made her taller than him. She looked forward to the nylon-around-the-corner, and everybody thought push-button housekeeping was just a production line away.

## Mayor H. J. Gut Is Main Speaker At Kiwanis Meet

### Plans For Operation Of Air Station Presented By Official

More than 60 buildings covering more than 10 acres were destroyed by the Navy at a cost of over \$2,000,000 will be taken over by the City of Sanford on a revocable permit when Admiral Ralph Davison turns the Sanford Naval Air Station over to the City tomorrow morning at 10:00 o'clock.

Mayor James Gut told Kiwanis at their luncheon today at the Community House.

Principal Herman E. Morris of Seminole High School, who conducted the Camp Wagon for the past year, will be in charge of the school's operation.

Admiral Davison, the chief Naval Air Advisor, is leaving for Jacksonville, will be accompanied by several of his staff officers; Comdr. W. R. Nelson, head of Administration; Lt. Comdr. R. E. Parkes, Lt. Comdr. H. S. Staley, Staff Officer for the station in his capacity as commander of Naval Air Station, and Lt. Comdr. J. H. Saver and Manager Edward Higgins of the Seminole Club.

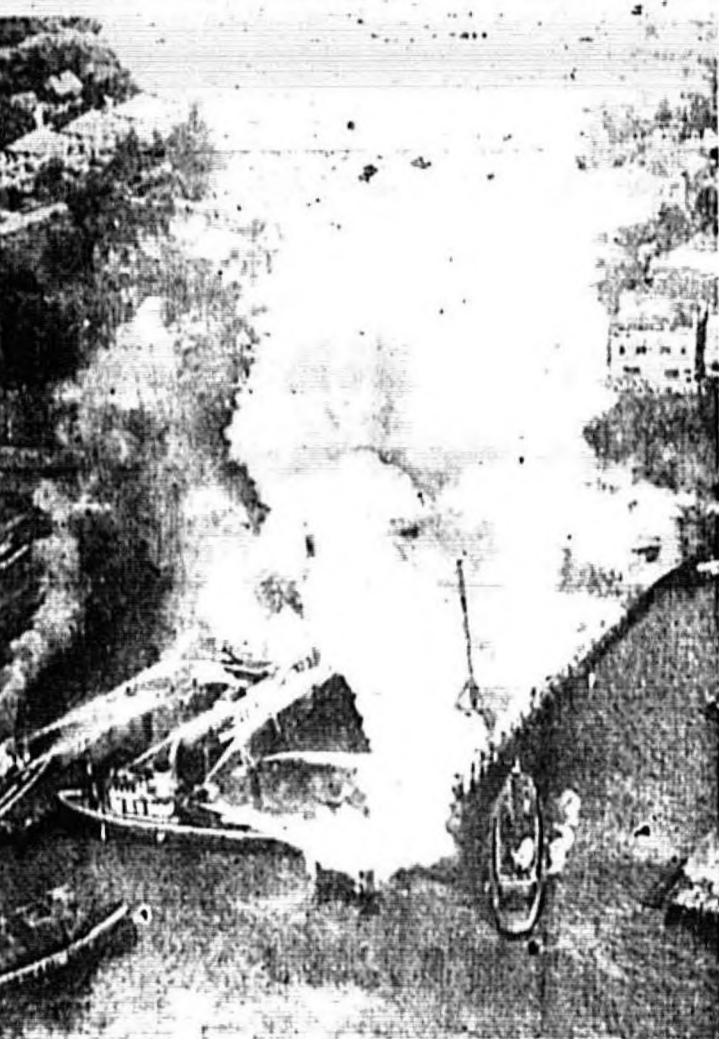

After the introductions, the group will proceed to the hangar where Comdr. J. A. Wheeler, commanding officer of the station, will summarize the text of the terms under which the City will take over the station.

Following Comdr. Wheeler's remarks, Admiral Davison will present a key to Mayor Gut, symbolizing the transfer of the station over his command to the City.

During the war the Air Station, where runways and buildings were developed by the Navy, was the site of training given to a total of 4,700 naval men, of whom

Chicago, Aug. 14. (AP)—The swiftly racing news publisher James Hagen, died early today of a heart attack, following a stroke which occurred on June 24.

His 65-year-old publisher had been in declining health since he was diagnosed with a heart condition in 1944. He had been in the hospital for several weeks before his death.

Hagen was a prominent figure in the publishing industry and had been a member of the Chicago Board of Trade.

He was also a member of the Chicago Athletic Club and the Chicago Country Club. He was a devoted family man and was survived by his wife and several children.

His death was a significant loss to the publishing industry and the city of Chicago. He had been a prominent figure in the city's cultural and social life.

The funeral will be held in Chicago on Friday, August 16, at 10:00 a.m. at the St. Ignace Church. He will be buried in Holy Sepulchre Cemetery.

## Surplus U. S. Craft Will Be Auctioned

PARIS, Aug. 14. (AP)—A representative of the United States Office of Foreign Liquidation announced today that all surplus American vessels and harbor craft at Antwerp will be auctioned.

Craft to go on the block, all used to support the Allied invasion forces in June, 1944 include 115 "Seamules" (Marine Tractor tugs), 41 barges and 43 landing craft convertible to vessels carrying 50,000 pounds of cargo each. The equipment originally cost the United States \$17,000,000.

The auction will be held at the Antwerp harbor and will be open to all interested parties. The proceeds from the sale will be used to support the Allied forces in Europe.

## Turkey Said To Have Turned Down Soviet Plan For Defense Of Dardanelle Straits

By Associated Press  
Bulgaria today made a formal claim for the Greek territory of Western Thrace at today's meeting of the Paris Peace Conference. Bulgarian Foreign Minister Georgi Koyulshiev frankly admitted a shameful alliance with Germany during the war, but nevertheless maintained that the Bulgarian Army had not fought against the Allies on any front.

The Bulgarian claim was supported by the Soviet Ukraine delegation. The Ukrainian speaker charged that Greek policy had been instigated from abroad and protested Greek demands for Bulgaria to give up the Thracian territory. Bulgaria's western frontiers will be on the border with an outlet on the Aegean Sea.

The Bulgarian claim was supported by the Soviet Ukraine delegation. The Ukrainian speaker charged that Greek policy had been instigated from abroad and protested Greek demands for Bulgaria to give up the Thracian territory. Bulgaria's western frontiers will be on the border with an outlet on the Aegean Sea.

## French High Court Gives 3 Admirals Prison Sentences

PARIS, Aug. 14. (AP)—The French High Court today sentenced three admirals to prison terms for treason and collaboration with Germany. They were Admiral Jean Abrial, Admiral Andreu Marquis and Gabriel Anpian.

Abrial and Marquis were accused of complicity in the scuttling of the French fleet at Toulon in Nov. 1942, shortly after the allied invasion of North Africa. Both were accused of leaving orders to fire on Allied ships approaching France.

At the end of the three-day trial, Abrial, former commander of Naval forces and governor of Algeria, was sentenced to ten years hard labor and national degradation for life. Marquis, the ex-military governor at Toulouse, received a five-year sentence and national degradation for life.
