Start young.

Start small, if you want to, but start steady. The important thing is to have a regular program of setting something aside every payday.

What's most important: It's never too early to begin. You say that takes more will power than you can muster up on a regular basis? Then use the easy, automatic way: join the Payroll Savings Plan where you work. This way your employer saves your money for you-puts it toward the purchase of a U. S. Savings Bond.

Pretty soon you won't even miss the money. In fact, you'll probably forget how fast your savings are growing. Here's a for-instance: just \$4.33 a week adds up to the \$18.75 you need to buy a \$25 Bond every month. That's \$300, maturity value, a year. Not bad for a former spendthrift! What's more, those few dollars you're tucking away to grow will be working all the time to help keep our country strong and free.

So start now, start young, building up the sevings that count so much later on. Join the Payroll Savings Plan

IF YOU ARE OVER 65 "MEDICARE" WILL HELP-BUT YOU STILL NEED GOLD STAR

Why are smort non-drinkers, people over 65 as well as under 65, now hastening to protect themselves with The Gold Star Plan — and making sure they stay protected — repardless of what "Medicare" might do for them after it goes into effect on July 1st?

Other folks might be tempted to ask, "Why do I need Gold Star protection, when Medicare will be taking care of hospital expenses for me!" The fact is, of course, that while Medicare promises to cover only part of your needs, and for only legally limited periods of time. Suppose an accident or illness should put you into the hospital for a period that far exceeds Medicare's 90-day limit for any single hospitalization — the limitation set by Congress. You know, from the experience of your own family and friends, that prolonged hospital care can actually run into thousands of dollars. How would you pay such bills? The answer is to make sure, new, that you have THE GOLD STAR PLAN, which will pay you \$100.00 a week — even for LIFE if necessary!

You can see why it is so vitally necessary to earry this protection in addition to Medicare. Clearly and positively, you no. I MORE protection than Medicare will provide. And the way to make sure you have it is to send the application form at the bottom, feday.

The Added Protection You NEED! All benefits of this Gold Star \$100.00-A-Week Income Protec-

tion Plan are paid directly to you, in tax-free cash, in addition to whatever you may receive from your other insurance! Spend the money as you see fit - for hospital or doctors' bills, mortgage payments - or any necessary but costly extras not fully covered by usual hospital policies. Everything costs more these days (need we tell you?) and hospital care is certainly no exception! While 7 out of 8 Americans have some hospital insurance, they have found it does not cover all the bills that pile up when sickness or accident strikes. That's why Gold Star developed low-cost Income Protection that helps you pay either hospital costs or anything else you You getyour \$100.00 per week (\$14.28 per day) -TAX FREE -from your first day in the hospital, and as long as you are confined there, even for life, if necessary. Additional Gold Star benefits pay \$2,500.00 cash for complete accidental loss of one hand, or one foot, or sight of one eye; \$5,000.00 cash for com-plete accidental loss of both hands, or both feet, or sight of both eyes.

For Older Folks - Greater Protection Than You Ever Would Have Thought Possible! Right now, would advancing age prevent you from getting hospital insurance, or income protection with another company? Or if you could get a policy elsewhere, would you have to pay a big premium for it? Or perhaps you no longer have a regular income, and are living on Social Sccurity. What would happen to you then if you had to suddenly go to a hospital? Your "life saver" could be this wonderful Gold Star Income Protection Plan - because Gold Star welcomes folks of all age nto its Plan. You can even be OVER 100 and still be eligible

ealth and "stretching out your life" by not drinking! Compare This Plan With Any Other We are confident that it would open your eyes to compare Gold Star's low rates with what you would have to pay for the same health protection in ANY other company—your own policy, or anybody else's!

Can You Afford to Miss This Chance? Isn't this the kind of "preferred treatment" which you, as a non-drinker, are ENTITLED TO? Of course it is! It is all perfectly legal, and the junkies get their drugs free under Britain's socialized medicine program. In fact, the British pride themselves that their system dealing with drug addicts is more humane than the American, which regards them more as criminals than as sick people.

But Britain's humane system has now been knocked into a cocked hat by statistics which show that drug addiction here has nearly doubled in the past five years.
