Communist Plans

Any period of hard times always provides ample dis-satisfaction upon which agitators and political opportun-ists can capitalize with telling effect. It is perhaps inconsistent to expect any group so opposed to capital as Communists to capitalize on anything, but gathering in Washington recently in their "continental congress," they roundly applauded a "declaration of war" in which one of their leaders cried, "We are sick and tired of conversa-tions and promises and are going to take things into our own hands."

Initiating a movement looking toward a coalition of the Socialist and Communist parties in America, the con-vention adopted the following program which is expected

A direct Federal relief appropriation of \$3,-000,000,000 to be paid in cash to the unemployed.

A \$6,000,000,000 public works program.

A five-day week and six-hour day.

Government old-age, sickness and unemploy-

Immediate cash payment of the bonus. Mortgage moratorium and interest reduction. Public ownership and operation of transportation and communication systems, public utilities, natural resources and basic industries. Confiscation of all incomes in excess of \$25,-

High inheritance taxes and a capital levy. A new national banking system, with a stop-gap system to be created out of the postal savings

This is supposed to be an extremely radical program designed to consolidate all malcontents into one great organization in a last stand effort to wipe out the rich and through wood risk if necessary, we presume, of the people, at the we can see nothing in most of the which are not

already in the process of That a gigantic public we will soon be under way goes almost with ying. Whether it will aggregate six billion dollars, is, of course, debatable at this time but there is a bill before Congress already providing for an expenditure of exactly this size. The five kins labor bill.

Government old age, sickness and unemployment insurance is on the way, and it only remains for the government to get its own finances in shape before these benefits will be accomplished facts. In the meantime the same purposes are being served by other measures. There is, for instance, the 500 million dollar direct grant to states Fork they are about for relief of all kinds, and this follows. 300 hundred-ther milk strike. Hard million dollar loan to states last year.

Mortgage moratoriums have already been declared by most large insurance companies and federal agencies having to do with agricultural loans. Laws have already been has about reached the point passed and others are in the process of enactment, refithere any plan to raise money nancing farm mortgages, home loans, and other obligations,

Murrays of the front pages any-escape such confiscation of incomes as a result of the de-way. escape such confiscation of incomes as a result of the de-pression, are subjected to taxes which run as high as sixty New York has is new sales tax percent on incomes alone, and when gasoline, real estate, law which it is said applies even to the sale of blood used for isn't much left for any further confiscation.

to the sale of blood used for transfusions in hospitals where patients are dying. Up to a late hour this afternoon no tax has yet been devised which could be levied against the air we breathe.

A girl witness testifying in her A girl witness testifying in her father's defense following one of the downth the immediate cash payment of the bonus. There the recent farm riots in Iowa said, appears to be no possibility of this at present.

"Pop's not guilty. All he done was to hammer a few folks on the head with a hickory atick." Now we suppose if he had been guilty, ha would have used a lead pipe.

The possibility of this at present.

It seems to us to be perfectly evident that President Roosevelt is trying everything in which there is the slightest chance of benefitting the more depressed people of the country. If the Communists and Socialists really want to make a hit, they will have to think up something new.

which amount of the December installment on wer debts, which amount to \$19,000.

This relatively petty sum may wreck the London Economic Comference, the success of which means the economic welfare of the whole world.

"Music Hath Charms"

Secretary Woodin of the Treasury is almost as well known for his love of music and his compositions as he is for his financial astuteness. He believes that there is a deep-seated desire in everyone to express something in music which is of real practical value, and he illustrates music which is of real practical value, and he illustrates by recalling the story of the young boy whistling in the given foreign isvestors, party is committed to the prin-

But Mr. Woodin's feeling about music goes much pie of a weak central government. That is why President deeper than this, for he thinks that there are vibrations Rossevelt is not empowered to from classical melodies which have a mysterious effect in stain the ocean, reverse the law of atimulating one's initiative, of making the bright side of travitation, and stop the stars in life seem more important, and of energizing an individual United States. As a matter of fact their courses.—Detroit News. Give as long as he has even the slightest hold on life and hope. practical protection of American

Florida's Senate passes a bill days. There are some tunes which may bring up and thoughts but they are in a minority, for most of the music thoughts but they are in a minority, for most of the music we hear is on happy occasions.

At all events Mr. Woodin believes that the playing of music in these times of adversity will help us to endure them better and will ald our leaders in arriving at the road out of the wilderness. He points to Lord Balfour of England, Premier Musicial of Italy, Edouard Herriot of France, Premier Musicial of Italy, Edouard Herriot of France, Premier Painters, Albert Einstein, and Dr. Charles Mayo as some of our great men who lead much of their attention to music and who believe among other things that it "hath charms to soothe a savere breast."

AND THE STORY OF TWO MEN WHO BOUGHT THEM

2. CURTIS ELLIOTT, 11 LOCUST AVE., NEW ROCHELLE, N. Y.

OURTIS ELLIOTT had been looking at cars for months. He has to drive about 75 miles day, so economy is important. "Then along came Plymouth's adio announcement. A 4-door lix-Cylinder Sedan for \$510 ounded good to me. Today I'm riving a Standard Plymouth."

hanks, Mr. Elliott. We think here are a lot of people who are poking for this kind of a car. The Standard has all the feaures that made Plymouth fanous. It's a 70 horse powered iz on a 108 inch wheelbase. With ntested Floating Power engine sountings...hydraulic brakes

...safety-sterlindics...Rigid-X, double-drop frame. And what a thrill these new

Standard Plymouth Six prices are. People used to think that Plymouth was higher than the very lowest priced cars. Today ... Plymouth prices are as low as the lowest. And the

W. W. MAJOR, 2281 W. GRAND AVE., DETROIT, MICHIGAN

L latest facts about cars . . . even before they happen. So when Mr. Major heard that Plymouth was going to bring out a new long wheelbase car ... it

soundedlike just what he wanted. "I'd been driving one of the other low-priced curs," said Mr. Major, "But I decided to look at the new De Luxe.

"When Mrs. Major saw that car ... it was all over. It's bigger and smarter-looking than others ...and that's why we bought it." . . .

That's a real compliment ... coming from a Detroit sutomobile buyer. The De Luxe is longer

DE LUXE I-DOOR SEBAR, 1976 P. O. B. IN DETROIT people get the a 112 inch wheelbase. It's the world's biggest low-priced six... in inches and in value. With Free Wheeling . . . all-slient transmission... automatic clutch

at slight extra cost. You'll like the new smart radiator. You'll like the beautifully styled interior ... its deep wide sents and handsome paneling. Won't you see the De Luis Plymouth before you buy any car?
