Japanese Announce "Victory Parade" Thru Settlement

Prospects Of Hostile Incident Foreseen As Jap Troops Prepare Demonstration

1,000 Civilians Killed In Airtaid

Chinese Are Said To Be Concentrating Huge New Air Force

SHANGHAI, Dec. 2.—(AP)—Municipal authorities received notice today that six battalions of Japanese troops will march through the Shanghai International Settlement tomorrow in a victory parade.

Police planned to guard the line of march of the conquering invaders. Foreign observers feared a possible "hostile incident" and in London British authorities regarded the march as a "possible violation" of international agreements.

Chinese dispatches from Hangchow today said that more than 1,000 civilians were killed and wounded in a Japanese air raid on Hsiao-shan about 12 miles southeast of Hangchow.

Five hundred dead and wounded non-combatants were reported found in ruins of buildings destroyed by Japanese incendiary bombs. Those buried in the wreckage were not immediately extricated.

Scenes were made homeless by the destruction of 1,100 houses in Hsiao-shan.

Two Chinese airplanes raised Japanese positions as they approached today in the first attack on Hangchow.

China was said to be massing a fleet of 300 Russian-built war planes for a renewal of the aerial attacks on Japan's advancing armies.

Foreign naval officers said Chinese bombers had raided the Japanese airfield at Woosung, down the Whang-poo river from Shanghai.

Twenty new twin-engine bombers arrived at Hankow 300 miles up Yangtze from Nanking and were being loaded up by Chinese pilots, well-informed and reliable foreigners reported.

Jinkins Reports Good Collection On Auto Licenses

More Than \$1300 Is Realized 1st Day Tags Are On Sale

The people of Sanford and Seminole County are exhibiting a fine spirit of co-operation with the State Board of Education in purchasing their auto licenses for 1938 early.

On the opening day of the sales 66 tags were sold and a sum of \$1,325.75 was collected.

This unusual opening sale, Mr. Jinkins said he believed was the result of the pleas of the local school officials, Governor Conn and State Superintendent Colin English urging prompt payment which is expected to produce enough money by mid-December to take care of the deficit in State School Fund.

The school treasury was shy by one-third of the \$1,235,287 needed to pay the Dec. 1 allotment of State money to the counties for payment of teachers salaries.

Unless the Governor changes his mind, all autos in operation in Florida will have to be equipped with the 1938 plates not later than Jan. 15 and after this date drivers will be liable to arrest and penalties.

The price this year is identical to that of last year. It was pointed out that passenger vehicles over 2000 pounds will be charged a license fee of \$5, between 2000 and 3000 pounds, \$10, 3000 to 4000 pounds will be charged \$15 while all over 4000 pounds get a flat assessment of \$20.

Trucks fall in a classification by themselves. Fifty cents per hundred is charged for vehicles up to 2000 pounds; from 2,000 to 5,000 the price is 75 cents per hundred and all over 5,000 the assessment is \$1 per hundred.

Mr. Jinkins particularly emphasized the fact that all individuals purchasing licenses must bring their title certificate and registration cards.

The News Of The Day

The newspaper is a mirror in which the people of a nation get a good look at themselves.

We see where Gov. Cone put his foot down on a time-honored practice of issuing pardons to state convicts by the wholesale.

The Reconstruction Finance Corporation has filed suit to foreclose on some \$1,500 acres of rich muck land in South Florida.

In Rhode Island a court of justice, always the last refuge for the "freedom of the press," issues an injunction suspending the publication of a newspaper containing an attack on the political enemies of the paper's editor.

Secretary of Commerce Roper admits there is a crying need for "a general revision of our entire tax structure."

Philadelphia's Federal judge rules that no child can be expelled from school for failure to salute the American flag.

Well, the wages and hours bill is back on the front pages. It is announced that almost enough names have been secured to bring it out of committee and on to the floor of the House.

But the latest reports from Tallahassee indicate that the speed, noise, and repeated insults of this stream-lined jugs, climbed upon the hood of an automobile which had just rammed him from the rear, and actually kicked out the windshield.

From Chester, Ill. comes the news that John Ketchmark, an escaped convict with seven more years to serve, walked back into the jail from which he escaped 17 years ago.

NATURE'S RIGHTS come ahead of human rights; and until this is recognized, there can't be any permanent progress.—William Feather.

EXCLUSIVE ATTENTION to the person who is speaking to you is very important. Nothing else is so flattering as that.—Charles W. Elliot.

MAN ABOUT MANHATTAN

By GEORGE TYCKER

NEW YORK, Nov. 29.—John Golden is one producer who likes to give table rehearsals of his plays. In other words, he takes his friends to cafe and lets out the play on the tablecloth.

After one such demonstration of "Sunset and God" before it opened in New York Mr. Golden showed the sugar bowls and cream pitchers aside.

"Now bring me my slush," he instructed the waiter.

"You've already had it," the waiter replied without so much as lifting one half on his very correct eyebrows.

"There is an author in our town who is noted for his languorous tales of the tropics. But he has never been to the tropics and can never go there.

The doctor, however, has never to live in a tropical climate. It would be certain to kill him. So now he winters in New York, because this place is polar-touched anyway, and in the summer he lives in a camp in the mountains of western Canada.

The other night I walked up Fifth Avenue with an artist who was just back in New York. He had been in the South Seas for three years. Suddenly he stopped and pointed to what he termed the harsh cradles of our Western culture—brass skyscrapers, hurrying buses, screaming taxi snarls, people straining to get to various places which they wouldn't matter after they go there.

"This is what I mean," he said, "all this insane plunging and lunging! There is no sanctuary here. In the islands there is poetry and beauty and a profound simplicity that goes deeper than all the ancient honesty of Asia. Every tree is a temple and every man is a god."

I remembered another traveler who spoke almost the same thoughts on a night several years ago. He too was an artist and he too had returned to New York. He was troubled and hurt by what he saw. He said: "I am not a man of letters. I am a man of letters."

"No," he said, "the difference is the same difference between the man who is a man of letters and the man who is a man of letters."

"You must be off to your hills," said Santa to the fox.

"Just where I was going, Sir," said the fox, but under his whiskers he whispered to Helga, "I'll be back at midnight."

Tomorrow: Midnight Visitor.

Shirley Temple Stars In New Ritz Picture

One of the most unusual sets ever built for a Darryl F. Zanuck production at Twentieth Century-Fox studios was created for "Heidi," Shirley Temple's new starring picture opening Sunday at the Ritz Theatre, when a quarter-acre pond was filled with oil for a novel scenic effect. The picturization of the famous story by Johanna Spyri, and loved the world over, includes a specially written dream dance sequence featuring Shirley and twenty-six other young dancers in a colorful picture-dance Dutch scene.

The oil serves as the surface of the Zayder Zoo on a set reproducing the dykes, islands, windmills and canals about this famous Netherland harbor, acting as a perfect reflecting medium.

Mrs. Charlotte B. Perry, worthy grand matron Order of Eastern Star, of Jacksonville, will make her official visit to Seminole Chapter Number Two Wednesday, December 2, at 7:30 o'clock.

At 8:00 o'clock a banquet will be held at the Woman's Club in honor of Mrs. Perry. For reservations call Mrs. H. W. Turner, 282-N, before Monday. Visiting Eastern Stars in the city are cordially invited to attend.

Mrs. Charlotte Perry Will Visit Chapter

chairman and will announce the date later.

Mrs. George Turner, chairman, reports that the P. T. A. membership drive was completed this week and that the West Side had one hundred per cent.

Double Suicides In Japan

TOKYO, Dec. 1.—(AP)—Statistics compiled by the metropolitan police bureau show that the number of double suicides in Japan this year is less than half of last year's total for the same period.

The practice is comparatively common in Japan. It is the traditional escape of frustrated lovers, and lately it has become common among poverty-stricken married couples. But since the war in China began, it has dropped sharply.

RENG FOUND TWICE

PARADENA, Calif.—(AP)—A ruby-diamond ring, lost nine years ago by Mrs. Kennedy Hamill, was found in a sewer a mile from her home. She said she missed the ring again, had the same section of sewer searched. Then it was found.

BAMBOO

IS USED FOR HUNDREDS OF PURPOSES BY THE JAPANESE. IT HAS BEEN KNOWN TO GROW 16 INCHES IN ONE DAY.

A WARM SHOWER MAKES A PERSON FEEL COOLER THAN A COLD SHOWER!

There are no tongs in China! Buckets, bird cages, furniture, ships' masts, are a few of the hundreds of uses for bamboo in Japan. The seeds are considered a food delicacy by the Chinese. Bamboo is a native of Ceylon. Tongs are benevolent, protective associations. They were organized by Chinese in the United States as a means of self-protection against white communities during the years 1848 to 1875. There are about 15 tongs in the United States; there are none in China. A cold bath takes energy, brings the blood to the surface, makes one feel warmer. A quick, moderately hot bath is cooling and refreshing. Once a luxury, hot water automatically is now commonplace with the new and economical automatic gas water heaters.

Petition Signed To Force Vote Upon Wage, Hour Bill

Continued From Page One
Rep. Fish of New York, Republican, asked for the inquiry because, he said, of statements attributed to Rep. Dies, Texas Democrat, leading opponent of the measure and Rep. Robertson, Virginia Democrat.

In the Senate meanwhile Sen. McNary of Oregon, Republican leader, sought to send back to the agriculture committee the farm bill now being debated. He asked its revision in the light of a letter from Secretary Wallace's criticizing the bill's present form, and of statements made by President Roosevelt.

The bill, McNary contended, would cost more than President Roosevelt had indicated he would approve and also, he asserted, Mr. Roosevelt had called for voluntary control with "no coercion."

Threats to sabotage cotton selections of the administration's vital farm program last night apparently broke the Southern blockade against consideration of the controversial wage-hour bill which was bogged down in the House rules committee.

After a dramatic high-pressure cloakroom drive in which wage-hour advocates a need for "support of the President," House leaders had obtained 210 signatures, by last night on a petition to discharge the rule 2 committee from further consideration and bring the bill to the floor.

The apparent break came after irate industrial and urban representatives threatened to wreck the farm bill, particularly the cotton section, if Southern congressmen persisted in opposing the measure.

House Majority Leader Sam Rayburn (D Texas), said the "fight is won and we will have the required signatures by 1 P. M. tomorrow." Minority Leader Bertrand H. Russell (R N. Y.) agreed that the bill was headed for the floor and said that "we might as well have a showdown now."

Rep. Martin Dies (D Texas), member of the rules committee, charged the administration with trading to get the petition filed. "They have traded and proved their members are willing to get them on that petition," he said. "They even told the Florida delegation they would get the bill on the floor. I heard, if they failed, they promised to say there won't be anything left."

Boy Transients Found Incurable Wanderers

LOS ANGELES, Dec. 2.—(AP)—Seventy percent of the revolving youths now receiving aid at this county's transient camps are "incurable wanderers," says a report by M. E. Lewis, camp director.

"About 33 percent seem anxious to go home but the rest will keep on roving," he reports. "Many of them brag about the number of transient camps they have attended."

The boys in question range in age from 17 to 19 and some have been on the road as long as eight years, Lewis says. MEMORIAL TO MINERS FAIRMONT, W. Va. — (AP) — Funds will be raised by public subscription to erect a monument to the 352 men who died 30 years ago in the Monongah mine disaster, the greatest in American mining history. The memorial will be placed on the Clarksburg Fairmont highway.

President's Plan To Slash Highway Grants Attacked

Senate Committee Prepares For Action On Housing Act Change

WASHINGTON, Dec. 2.—(AP)—President Roosevelt's plans to spur trade revival through a multi-billion dollar housing boom and to slash federal highway grants \$214,000,000 as a step toward balancing the budget, have been attacked sharply by western legislators and skeptical republicans in a new burst of congressional "independence."

Despite republican shell-fire and criticism from some conservative democrats, however, the senate steering committee prepared to rush action at the special session on amendments to the housing act which Roosevelt proposed Monday to encourage the construction of 4,000,000 units over the next five years.

An attempt also will be made to enact a government reorganization bill, which is on the president's legislative program, before the extraordinary session is adjourned probably on Dec. 22, Senate Majority Leader Barkley, democrat, Kentucky, said.

Democrats in both houses roared their opposition to Roosevelt's proposed cut in federal highway grants soon after he suggested them in a special message prepared before his departure on a Florida fishing trip. The president specifically asked that congress abandon a scheduled authorization of \$214,000,000 in highway grants to states for the 1938 fiscal year and that \$216,500,000 which the government has contracted to provide this fiscal year, be spread over the 1938-39-40 fiscal years.

Roosevelt pointed out that the annual average of federal highway grants over the past five years has been \$298,000,000 as compared with \$100,000,000 annually over the previous five years. The message urged congress to limit to not more than \$125,000,000 per annum all public road authorizations for the fiscal year 1940 and for "each of the next few succeeding years."

He said that the suggested reductions were necessary because of the large amounts which the government has contributed during the past five years and "because of the necessity for taking definite steps to reduce expenditures for the purpose of securing a balanced budget."

The president voiced emphatic opposition to a provision inserted in the highway act which will force the secretary of agriculture to apportion \$214,000,000 to various states, regardless of the condition of the federal treasury. Unlike most congressional authorizations which are permissive when funds are available, the highway provision is mandatory and the president complained that it "completely ties the hands of the executive." He demanded repeal of the provision.

"I do most strenuously object to the mandatory incurrence of obligations by the federal government under such apportionments without regard to its ability to finance them from its revenues,"

Blackcats Ready For Leesburg Go On Sanford Field

will cause the Leesburg lads a great deal of worry tonight.

The Sanford line is seen as stronger than many college teams. Elwin Squires who was voted the most valuable player on the Seminoles High School team in 1936, has exhibited his usual ability at center, and Russell Odham has been termed one of the best guards ever to don a uniform.

The entire line is made up of hefty Sanford lads who play a good brand of football.

The four horses in the backfield are all speedy and hard-driving carriers. However, Harnage, playing left halfback and Vincent at the right halfback position are expected to bear a large portion of the ball carrying duties in the game tonight.

Probable starting line-up for Central Florida's second semi-pro game of the year:

Sanford: John Stanley, lg; Jim Stapler, lt; Russ Odham, lg; Squires, center; Bob Williams, rg; Baby Riser, rt; Angus Harnage, rb; Billy Odham, qb; Harnage, th; Vincent, th; Harold Doker, fb.

Leesburg: Smith, lc; Cole, lt; rg; Senz, rt; Cox, re; Miller, rh; Davis, lb; Drefus, pb; Rambert, fb; Karl Nordgren, recently elected president of the Sanford Semi-Pro Association reported that the following officials would serve at the game tonight; referee, R. Walton; of Carlisle, W. R. McCracken, coach at the Seminole High School, umpire; Joseph Meisch, head linesman, and P. V. Tillis, field judge.

Senators Hayden, democrat, Arizona, and McCarran, democrat, Nevada, assailed the president's recommendations as "constituting a violation of contract with the states which have enacted legislation to match federal highway grants to come from the \$214,000,000 authorization." Hayden demanded that states be "given a year's notice. Insisting that those who are using the roads are paying for them," he said the government spent \$1,490,000,000 on roads during the last five years and collected \$1,337,000,000 in federal taxes from motorists.

Senator Ashurst, democrat, Arizona, snapped that "congress knows more than the secretary of agriculture about how and where roads should be built." In the house, Chairman Cartwright, democrat, Oklahoma, of the roads committee, warned that he would "lay down." He indicated his willingness to cooperate in an economy drive if it hit all federal expenditures but to "take it out of roads alone is something else."

Alarm was felt here today for the safety of 13 Americans, mostly women and children, marooned in an isolated region in the center of Chinese Japanese fighting.

Mission headquarters and the United States consulate general expressed anxiety after more than a week had passed without word from the Americans.

They were last known to be in a missionary rendezvous at Mokanzhan, near the Zhechilang-Anwei province border, Chinese

Japanese army units, meanwhile, spread west and south across the Yangtze delta toward Nanking, Wuhu and Hangchow against feeble opposition. Chinese reports from Nanking said the Capital's defenders had sunk new booms across the Yangtze

The Florida industrial commission, making a survey of 2,880 employers with eight or more workers, found wholesale and retail stores lead all other classifications in number of workers. Next came industry; then railroads; citrus, lumber, sawmills, allied businesses, contractors and

hotels and restaurants.

The statistics are not complete, commissioner W. C. Heston said, but "they show definitely the upward trend of industry in the state" the figures cover 150,000 workers who receive \$116,000,000 annually in wages.

When the state is considered as a unit, Heston said, there is no such thing as the so-called "seasonal" employment period. "Employment reaches its peak in January and its lowest ebb in July but the difference in these two months is negligible when we consider the state as a whole."

U. S.-British Trade Agreement Called Economic Strangle For The 'Have Nots'

Franco-English Up War Strength

French Consider Program To Fortify Her Swiss Frontier

The Italian press attack on the "big three" democracies—Britain, France and the United States—and British and French moves toward increased military strength, were new factors today in the troubled search for European security.

A bitter editorial in Il Popolo D'Italia, Premier Mussolini's Milan newspaper, accused the three democracies of planning "economic strangulation" of the "have not" nations—presumably including Italy, Germany, and Japan.

The attack, apparently the work of Mussolini himself, seemed directed primarily at the pending negotiations between Britain and the United States for a reciprocal trade agreement.

Britain is drastically streamlining her army organization, placing younger men at the top to keep step with "modern developments of warfare."

In Paris Defense Minister Edouard Daladier disclosed France was seeking to nullify that section of the Versailles Treaty which forbids France to fortify her Swiss frontier.

He said conversations with the Swiss government had been "going on for a year."

Daladier's disclosure came in answer to Deputy Rene Burtin who declared there was danger Germany might attack France through Switzerland.

Burtin said there "is a grave menace" that the German armies might attempt to swing around the Maginot line and thrust at the French-Rain flank across the

County Clerk Is Swamped By Bids For Certificates

Next Auction Will Be Held On Dec. 14 Or 15, Herndon Says

Since the decision of the State Supreme Court, upholding the validity of the "Low Dollar" Tax Certificate law, the Seminole County Clerk's Office has been swamped with applications for the sale of tax certificates at public auction for property on which the taxes are delinquent and the title to the land is held by the State, Clerk O. P. Herndon said today.

The first auction since the decision of the Supreme Court will be held in front of the Court House Dec. 14 and 15, Mr. Herndon stated and indicated that there would probably be another shortly after Christmas.

As a further incentive to the holders of property in Sanford for adjustment of delinquent taxes, the City Commissioners have resolved into a Delinquent Tax Adjustment Board and have adopted a formula for the adjustment of delinquent taxes and special assessments for 1933 and prior as provided in a special act passed in the last session of the Florida Legislature.

However, those who wish adjustments on their delinquent City taxes must act quickly since the City Commissioners have agreed to set only until April 1, after which time the full assessment must be paid, it was said.

The law which provides for the sale of County and State Tax Certificates will be effective for approximately another 1 1/2 years, but upon its expiration the title to property on which the taxes are delinquent for more than two years and the certificates unsold while the law is in effect, will be vested solely in the State and the purchase of the land must be made directly from the State, it was pointed out.

During the past few days Mr. Herndon reported that he has been awarding certificates sold at a public auction prior to the restraining order of the State Supreme Court forbidding delivery of the certificates until final action by the Court.

EDITOR?

Il Popolo D'Italia, Mussolini's own newspaper, today served notice on the Big Three democracies, in an editorial presumably written by Il Duce himself, that Italy could not be "intimidated" by economic agreement's hostile to Fascism.

State Attorney Declines To Prosecute Unless Forced

TAMPA, Dec. 3.—(AP)—State Attorney J. Rex Farrow said today he would not continue the prosecution of persons accused in the Tampa flogging case unless he is "specially directed" by Governor Clegg to do so.

"I do not believe the State can get a fair trial under the present situation," he said.

He added he wanted a new judge assigned and clarification of the Supreme Court opinion reversing the conviction of five former Tampa policemen in connection with the kidnapping of E. F. Paulson, one of the flogging victims. Farrow urged Attorney General Cary D. Lanier to file a petition for hearing in the Paulson case.

South Side P. T. A. Gives Lunch Room To School Board

Members of the South Side Parent Teachers voted to transfer the management of the South Side Primary School lunchroom to the Seminole County School Board at their meeting in the School yesterday afternoon, South Side P. T. A. officials reported today.

The matter was brought up for consideration at a meeting of officials prior to the regular meeting and was unanimously approved. The P. T. A. however, retain control of the lunchroom until after the first of the coming year.

Mrs. Roy F. Mann was the guest speaker at the meeting and pointed out to the group seven essentials in providing a real Christmas for the children.

"This season our gifts should build for true values," Mrs. Mann stated, adding, "put these in stockings and they will remain long after toys have been put away for ever."

It was decided at the meeting to dispense with the regular January meeting and to meet in February following the issuance of the report cards.

A letter from Marcus Pegg of the Children's Home in Jacksonville, acknowledging receipt of \$30 recently sent by the Association, was also read.

Congress Is Bugged Down Under Weight

End Of 3rd Week Of Special Session Is At Hand With Nothing Accomplished

WASHINGTON, Dec. 3.—(AP)—Congress neared the end of the third week of its special session today without completing any part of President Roosevelt's program.

The debate on the farm bill continued at a leisurely pace in both chambers causing House leaders to abandon hope of a final vote there this weekend. Nor was any conclusion of talk by Senators in sight.

Senator Borah, Idaho republican, unopposed his oratory against the bill at today's session.

Packers of the wage-hour bill, the second item on the President's special session program, began a new fight to save the measure from revision. Critics were plotting to modify or defeat it.

Some of the biggest names in the House, both Democrats and Republicans, were missing from the petition signed yesterday by 126 Democrats; nine Republicans; eight Progressives and five Farmer-Laborites.

Among the names missing were Speaker William B. Bankhead (D Ala.), Chairman John J. O'Connor (D N. Y.), of the rules committee; Minority Leader Bertrand H. Snell (R N. Y.), and Assistant Minority Leader Joseph W. Martin Jr., (R Mass.).

Key figures in the fight who did sign included Majority Leader Sam Rayburn (D Texas), Democratic Whip Patrick J. Boland, (Pa.), Chairman Mary Norton (D N. J.), of the labor committee; Chairman Marvin Jones (D Texas), of the House agriculture committee, and Rep. Arthur D. Healey (D Mass.), head of the wage-hour bloc.

Completion of the petition elicited a drive backed by a determined bloc of wage-hour advocates who threatened to eliminate certain sections of the crop control bill unless the Southern opposition fell into line.

Representative Green (D Fla.), said his signature on the wage-hour petition represented a "transaction" for support of the proposed cross-State canal, but the assertion was promptly denied by two other Florida signers.

Green declined to state the terms of his trade, but he said, "The canal has 50 per cent more strength today than it had day before yesterday."

Representatives Peterson and Hendricks, who signed with Green yesterday, said no trading was done, either on the canal or on any other legislation. Hendricks and Green are canal supporters, Peterson an opponent.

Representatives Dies (D Texas), an opponent of the wage-hour bill, was the first to assert publicly the canal had been involved in trades on the petition.

"Martin Dies is just a die-hard," Hendricks declared. "He's been kicked out of the Demagogue Club, and he can't take it."

Mansfield's signature came while the House was voting on a resolution by Rep. Hamilton Fish Jr., (R N. Y.), who represents President Roosevelt's own district, for a five-man House committee to investigate charges of "log rolling" and trades by leaders to get petition signatures.

Rayburn quickly forced a roll call vote and Fish was defeated.

The House bill, differing somewhat from the Senate-approved measure, would permit a five-man national labor standards board to fix minimum wages of labor at not more than 40 cents per hour and maximum hours of not more than 30 per week under powers of the Federal Government to regulate interstate commerce. Child labor products would be barred from interstate commerce.

President William Green of the American Federation of Labor is opposed to the five man board, believing there would be better enforcement by a single administrator under the Department of Labor.

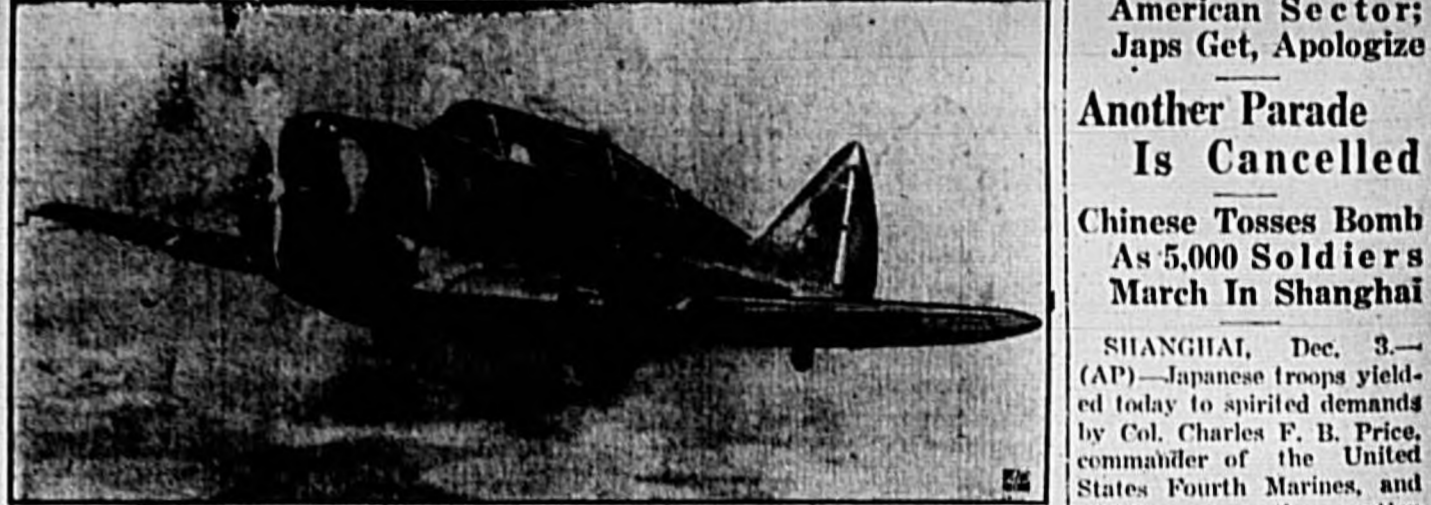

He has summoned a meeting of the Federation Executive Council for tomorrow, ostensibly to discuss substitute legislation.

Chairman Norton said she would offer as a single administrator change as an amendment.

Speaker Bankhead was uncertain whether the legislation could pass.

Leesburg Wins By 13 To 7 In Game With Blackcats

After a slow start in the first part of the game, the Sanford Semi-Pro Blackcats returned to their old form to completely outplay a more experienced and heavier Leesburg aggregation in the last half of the game on the local high school field last night, but lost the tilt by a one touchdown margin.

The stone wall defense of the Blackcats in the last half completely stopped the line plunges of Lambert, Lions fullback, and Duce Davis, crack halfback, and time after time Sanford linemen tore through to throw the Leesburg ball-carriers for losses.

The rally of the Sanford team, however, came too late, after the Lions had scored twice in the first half of the game and made one conversion, which gave them a lead of 13 to 0 until H. B. Odham plowed over the marker, in the first minutes of play in the fourth period on a quarter back sneak. A short pass from Harnage to Altman was good for the Sanford conversion, making the score 13 to 7 in favor of the Lions. Neither of the teams was able to get in a scoring position before the final whistle.

Marentette Finds Hunting Is Good On Mexican Trip

J. L. Marentette, manager of the Sparks Theatre interests in Sanford, returned last night looking hale and hearty after a 10-day hunting expedition into the wilds of Mexico where he and 13 other managers of Sparks Theatres from various cities in Florida, were the guests of E. J. Sparks.

The hunters, made their headquarters at the hacienda of Don Martin, about 125 miles from Monterey and located on a beautiful lake in the Sierra mountains which border the western shores of Mexico.

The hunters did not go after any of the large game to be found in the mountains but confined their hunting to the shooting of ducks and quail, which Mr. Marentette stated were found in abundance in that region.

The scenery in the mountains of Mexico is most beautiful, Mr. Marentette said, and also described Monterey as a quaint, typical Spanish town which lies lazily in the foothills of the mountains.

In Monterey, the local theatre manager stated, the business men close their shops from noon until 3:00 o'clock for their afternoon siesta during which time nearly every one naps.

Enroute to Mexico the party traveled in a private pullman and were entertained at a breakfast in New Orleans by E. B. Richards, president and general manager of the Sparker Theatre interests in Louisiana, Texas and Mississippi.

The party left the train in Laredo, Tex. and motored to a campsite in the interior of Mexico, where Mr. Marentette said, there had not been any rain for 15 months.

Fourteen theatre managers from the following Florida cities were members of the party: Palm Beach, Fort Lauderdale, Tampa, St. Petersburg, Orlando, Deland, Sanford, Daytona Beach and Jacksonville.

Telegraph Office On Wheels Visits City This Morning

Sanford was visited this morning by a Western Union mobile telegraph office, one of a fleet of six operating in the United States, used primarily as emergency units when floods, hurricanes, or other disasters interrupt regular communication service.

The telegraph office on wheels can be driven to any affected area on short notice and, by stringing a connection to the nearest intact wire, can begin the sending and receiving of messages both by the standard teleprinter and Morse instruments.

All of the mobile units were used during the Ohio flood disaster last winter and the one in Sanford today was in operation at Paducah, Ky., where the water rose eleven feet in the telegraph office there.

After leaving Sanford, the telegraph office will visit DeLand, Daytona Beach and Miami, it will then be sent to Ft. Lauderdale where it will be used as a branch office at the beach.

E. D. Raby was in charge of the unit here today and he was greeted by the manager of the local Western Union branch, T. L. Tharp, who introduced him to members of interested Sanford persons.

State Welfare Board Shows Aid To County

Statistics, compiled by the State Welfare Board for October, show that Seminole county had 107 persons receiving old age assistance grants totalling \$1,777.00 for the month; that it had 69 enrolled in the CCC camps, all enrollees being required to remit \$25 per month to dependents; that surplus commodities were distributed to 475 residents of the county; that WPA employment, distributed among 273 persons totalled \$7,985.00 for the month.

"While the State Welfare Board is a direct administrative agency for old age assistance, aid to the blind and aid to dependent children, it is also charged with the certification of persons seeking WPA employment, CCC and NYA enrollment, and with the distribution of surplus commodities," Clayton C. Coddington, state welfare commissioner, commented at Jacksonville. "It is the agency through which the federal government clears the majority of its welfare activities. The value of the program can be computed by adding up the practical benefits, such as those enumerated above."

Stocks Experience Temporary Revival

NEW YORK, Dec. 3.—(AP)—A brief but speedy rally gave leading stocks another upward whirl in today's market for as much as four points or more at best.

The buying rush appeared after a desultory first hour. Extreme gains were substantially reduced near the fourth period. Declines also showed appreciably.

Chinese Tosses Bomb As 5,000 Soldiers March In Shanghai

SHANGHAI, Dec. 3.—(AP)—Japanese troops yielded today to spirited demands by Col. Charles F. B. Price, commander of the United States Fourth Marines, and withdrew from the portion of American defended sector of the International Settlement.

The Japanese had encroached upon the American defended streets when they took over a part of the International Settlement after an explosion of a small bomb, or hand grenade tossed at the victory parade of 5,000 Japanese troops.

Observers expressed the belief that prompt action by Col. Price prevented the development of a dangerous situation. The Japanese held the parade despite the protests of American and other foreign officials and after the explosion they took over a 30-block area.

They erected barbed wire entanglements, blocked all traffic and prevented Americans and other foreigners from reaching their hotels and homes. Col. Price reminded the Japanese command that the Japanese troops had advanced three blocks into the American defended sector which could not be tolerated.

In a spirited interview Col. Price said that he had been unaware his forces had marched within the American sector. He expressed regret and ordered his troops to withdraw.

Five persons were wounded in the parade explosion in the Nanking road. Three were Japanese, one was a Chinese constable and a fifth was a British sub-inspector.

A Japanese spokesman disclosed that the Japanese had decided as a result of today's incident to cancel a second parade planned for tomorrow. A Chinaman who was shot by the constable immediately after the explosion was said to have thrown the bomb.
