## FDR Believes Training Bill Is Essential

Declares He Favors Selective Service Bill For Adequate National Defense

## Says Profits Tax Should Be Enacted

Reports That U. S. Beginning To Get More Equipment

WASHINGTON, Aug. 2.—President Roosevelt today declared he was "distinctly in favor of a selective service training bill and I consider it essential to adequate national defense."

The President made his statement at a press conference after a reporter had asked his opinions. The report said there was a report going around that the chief executive was "not so hot about conscription."

The President also announced that he and the Democratic tax leaders in Congress agree that the excess profits tax should be enacted without delay. In a lengthy conscription discussion, he said that lessons of the present war show that defense means total defense. Under modern circumstances that means a lot of new machinery, equipment which the nation hasn't got but is beginning to get.

Problems which would be posed for the United States if conscription were to be enacted (Continued on page three)

## Paint Factory Fire Yields Two Bodies

CAMDEN, N. J., Aug. 2.—(AP)—The twisted wreckage of a vast paint factory destroyed in Camden's worst fire yielded the charred remains of two workers who perished yesterday, and searchers expected to find the bodies of six other workers today.

Discovery of the two unidentified bodies, as falling plant walls were blasted to prevent their collapse on searching parties, brought the known death toll in Tuesday's \$3,000,000 explosion and blaze to four.

No hope remained that any of the five still-missing employees of the E. M. Hollingshead company paint factory survives. A worker said a fireman and the other firefighter of the disaster, Fire Chief John H. Lennox said it was caused by a spark from a repairman's wrench that ignited a tank of naphtha.

## Boardman To Seek Special Dental Units

Major Frank C. Boardman, third ranking officer of the 31st Division Dental Corps who is retiring at his own request after 18 years as a commissioned officer in the National Guard, will go to Washington, D. C., next week to confer with officials regarding formation of special dental units for both the Army and Navy dental corps. Major Boardman served four years in the Navy as dental surgeon during World War one and was commissioned in the Medical Detachment, Florida National Guard, with headquarters in Sanford, in 1922.

## New Unit Of FSA Takes In Seminole

Creation of a new district of the Farm Security Administration which will take in 23 counties in the Central Florida area has been announced by George D. Livingston county supervisor at Orlando.

The new district to be administered by the Farm Security Administration will include Seminole, Orange, Lake, Bradford, Ocala and Volusia counties.

The Board of Farm Security Administration will be organized by Livingston, who will be in charge of the new district.

With only 48 days before school opens, it may be necessary to have the first contingent of students in the city by the first of the month.

## STAMANS LEFT LONDON

LONDON, Aug. 2.—(AP)—The British and French governments today announced that they had decided to send the Stams to the United States.

The Stams is a British battleship which was damaged during the attack on the British fleet in the North Sea in May 1940.

The ship was damaged by a German submarine and was forced to return to the United States for repairs.

The ship is expected to be ready for service by the end of the year.

The ship is being repaired at the Naval Yard in Philadelphia.

The ship is being repaired at the Naval Yard in Philadelphia.

## JAILED ARTISTS READ BIBLE

Held in jail at Adel, Ga., the Rev. A. T. Lipham of the Happy Hill Holiness church (right) and Albert Rowan seek comfort in reading passages from the Bible. Both are members of a religious sect in which faith is demonstrated by the handling of venomous reptiles. Authorities are seeking to locate Rowan's 10-year-old daughter, Leitha Ann, who was bitten by a copperhead moccasin during a Holiness meeting. Neighbors said Lipham was not present at the gathering. Medical attention for the child assertedly was refused, such aid being contrary to the sect's beliefs, and the county sheriff has expressed fear the child

## Miss Hutchison Takes Spotlight At First Shoot Of Seminole Gun Club

Placing a .45 calibre slug through a bull's eye seven times in ten shots for a score of 98, Miss Hutchison took the spotlight at the inaugural pistol shoot of the Sanford Gun Club at the temporary range east of the Mayfair Hotel yesterday evening when approximately 50 shooters stepped up to the firing line to try their skill.

The shoot was held despite inclement rains and byrd J. Goode, president of the recently organized Seminole Gun Club, said that some "very creditable scores were made" by those participating.

In the pistol group, Chief of Police Roy G. Williams, Police Officers C. H. Shaffer, and J. A. Howard and Col. Hutchison tied with 98 each out of a possible 100 on the first shoot and in the elimination that followed, Col. Hutchison and Officer Howard again tied with a perfect score each. Col. Hutchison went on to win in

the next elimination with a score of 96.

Pleased by yesterday's turnout, President Goode said he hoped the club will be able to hold weekly shoots in the future. He also expressed appreciation to those who had assisted in making the inaugural shoot yesterday a success. He particularly expressed appreciation on behalf of the club to Chief Williams, Neil Smith, C. H. Shaffer, Carl Williams, Joel Field and George A. Spreer, Jr., for their individual contributions.

Several of those present practiced rifle shooting but the pistol range took the spotlight.

Some of the high scores during the evening are as follows:

Hutchison	98 x 100
Howard	95 x 100
Williams	95 x 100
Shaffer	95 x 100
Matthews	91 x 100
Henshaw	48 x 50
Hofmann	48 x 50

## Lakeland Building Of Air School Starts

LAKELAND, Aug. 2.—(AP)—Work has started on Lakeland's air corps cadet training school which is scheduled to start operation Sept. 15.

Paul W. King, engineer in charge for Hal S. Darr, Chicago, president of Florida Aero Tech, Inc., announced that the contract for construction of three large buildings to house the school has been awarded to the J. L. Ewell company, Lakeland. Other bidders, King said, were the John E. Ballenger Construction company, W. E. Herron and John Tompkins Lumber company, all of Lakeland.

While figures were not released, it was said the general contract calls for expenditures of more than \$100,000 for building and heating plant. Furnishings and equipment are not included in this amount.

The buildings include two three-foot dormitories two storerooms and a large cadet hall which will house the dining room, kitchen and recreation rooms. There will be facilities for a student body of 800 college men who come here as second lieutenants and take primary training before going to Randolph or Kelly field for advanced training.

The school campus is located just southeast of the present airport boundaries.

The army air corps is to send 80 or more planes here for use of students, it is understood. The city is to provide hangars and also is furnishing the site for the school.

With only 48 days before school opens, it may be necessary to have the first contingent of students in the city by the first of the month.

## Knott Given Salary Boost By Tribunal

Supreme Court rules 3-2 In Favor Of Increasing Salary As Provided In Bill

TALLAHASSEE, Aug. 2.—(AP)—State Treasurer W. V. Knott won a Supreme Court order today for \$1,000 annual salary increase, effective as of Oct. 1, 1939.

The court divided 3-2, with Justice Rufus S. Battle, in ordering Comptroller Lee to pay the increased amount on the basis of the 1939 Legislature's appropriation, 20% over the 1938 level of \$10,000 a year. The Governor's salary may be increased from \$7,500 to \$9,500, the state attorney general's salary from \$6,000 to \$7,500, and the secretary of state's salary from \$5,000 to \$6,500.

Knott plans to return when his term expires and he will receive \$1,000 a year retirement pay, or half of his salary at retirement.

Knott's annual report, published yesterday, showed that receipts in the 1939 fiscal year on Treasury orders passed \$78,000,000 for the first time in the state's history.

The total of receipts was \$78,000,000, and the total paid out was \$73,000,000. In the fiscal year which ended June 30, 1939, the total of receipts was \$75,000,000 and the total paid out was \$70,000,000.

Comparative figures for the preceding year were \$71,874,411 received and \$66,222,170 paid out. Receipts in the 1938 fiscal year ended June 30 totaled \$72,121,147, compared with \$6,811,144 the preceding year.

The Treasury statement does not include the state's share of the federal income tax, which was not cleared through the Treasury ledger on June 30. Figures were not immediately available on the total of such tax receipts.

## International Law Expert Is Guest Of A. B. Stevens

Dr. James Brown Scott, author of "International Law," was the guest on Monday and Tuesday of Mr. and Mrs. A. B. Stevens of this city. He was accompanied by his wife, Mrs. Scott, a former Miss Stevens, Jr., a cousin of Mr. Stevens.

All reports of the family for many years were that Dr. Scott and his wife had been in Washington from the Pan American conference held in Havana, Cuba, last week.

Connected with the Carnegie Institute for more than 20 years, Dr. Scott formed the Carnegie Institute for International Peace and served as its secretary for many years. He attended school with the late King George V of England in Germany.

An accepted authority on international law, he has written numerous books on the subject. Dr. Scott and his companion were favorably impressed with Sanford and vicinity after a slight-seeing tour and said they hoped to return to Florida this winter and stay in Sanford.

## House To Act On Med Fly Bill Soon

WASHINGTON, Aug. 2.—(AP)—The long awaited House vote on a Florida resolution to set up a committee to adjudicate claims of Florida growers arising from the fruit fly eradication in 1938-39 was expected to be reached next week, possibly Wednesday or Thursday, Congressman Peterson said yesterday.

The resolution was placed on the House calendar by Majority Leader Raborn under terms of a special rule granted several weeks ago. Peterson said he obtained Raborn's definite pledge of House action.

The resolution already has been passed by the Senate. It would set up a joint House-Senate committee to adjudicate claims of the growers and the joint committee would classify them and recommend the payment of valid claims to Congress next year. Additional legislation would be required in appropriate funds for payment of the claims.

A special survey board estimated the damage claims at \$7,171,800 last year, but Congress recommended to accept the board's recommendation as final because of conflicting majority and minority reports.

## WAR AN APPETIZER

ARCADIA, Calif., Aug. 2.—(AP)—The menus at George Young's lunch counter have the bill of fare on one side and the latest war news on the other. Young says it attracts trade and "the customers eat more."

The recent naval battle between British and French fleets was the first since 1805 when Nelson defeated Napoleon's fleet off Trafalgar.

## Game Saturday To Begin At 9:00 P. M.

"Realizing that Sanford merchants do their best business on Saturday nights and desiring to interfere with their business as little as possible, the officials of the Sanford Baseball Club today decided to postpone tomorrow night's game with the Gadsden Club at 9:00 P. M."

Frank S. Lamson, secretary, announced today. The game will be over before 11:00 P. M., under ordinary circumstances.

The game will be over before 11:00 P. M., under ordinary circumstances.

## Widened Breach Caused By New Order In Japan

Aggravated Expansion Foreign Policy Announced In Tokyo

TOKYO, Aug. 2.—(AP)—The Japanese government today announced a new policy of expansion in the Far East, which it said would be a "wider breach" than the one caused by the new order in Japan.

The new policy, announced in a statement by the Japanese government, is a "wider breach" than the one caused by the new order in Japan.

THE FEAR OF SUNSPOTS (From The Chicago Daily News)

Long have I carried the wool from the forest, broken my back to feed a slow fire,

But the hard weeks hold to freeze the spring water; Winter is strung high, tight as a lyre.

Cherry are fingers untangling my boot lace, Rheumatic and rude to the hen's fragile eggs;

Only the chickens and cows in the stable Have borne the hard cold on their proud, patient legs.

The butter is frozen like tallow these mornings; The well-bucket mocking, with water of loss;

Victuals unwarmed, and tasteless as snowballs. Fit only for hounds and long-suffering mice.

The brown-frozen wheat shaft hung high on the barn's pole, Faded fully clean by the beggarly birds;

And as my eyes are devoid of all living, Just as my heart is swept bare of all words.

This is the year of the treacherous sunspots; When rhythms that flash in the northern spheres

Are hounded airless before they are spoken, And layers of seasons weigh down on my years.

Wild are the rumors the mallard is spreading; About the red flowers he saw in the South;

Lying he flies through the skylight mountain, With boasting and promise of Spring in his mouth.

Let the arbutus early and thimble come and be greeted by Chanicleer's call;

But I am the beetle now, dead in his hiding, I am the fox who died in the fall.

Now is my shell remembering nothing; Have there been summers, and rappings to do?

Quietly now I wait in thin sun light, Glad that my letterly days will be few.

—ELEANOR SANDS

When is a naval escort not a naval escort? Evidently when it's escorting a duck or duckess.

A philanthropic Scotchman had offered free trips to Europe to anyone who wants to go. So far, hasn't had to buy a single ticket.

The wheat field at the World's Fair which cost \$1,000 to plant, maintain and yield \$1.32 per bushel, ought to be arrested for overcharging.

If the Rock of Gibraltar falls, certain business concerns will have to get a new book for its advertisement.

That 30 years ago yesterday between Rutherford and... providing for the abolition of the military service...

A Fighting Chance

There is no one so optimistic as to believe that England has little more than a fighting chance to survive the military pressure which Germany is capable of applying as the result of its many new conquests.

Of course, the immediate danger is the reported imminence of a blitzkrieg invasion before the far-flung resources of the empire can be brought to bear against the enemy.

It is unlikely that a blockade of England could be decisive inside of a year, and before that time arrives, the productive capacities of the colonies, plus the help of the United States, will have reached the point where Great Britain should have sufficient planes, tanks, and guns to take the offensive.

Canada is reported to be pushing its industries to the limit to produce the essentials of war, and it must be remembered that the interruptions and damage caused by air raids in England are absent on this side of the Atlantic.

It is reported that Canada expects to turn out 360 war planes a month by the end of this year, and 30,000,000 naval ordnance shells.

It looks as though the chances for ultimate British success are directly proportionate to the period of time allowed her to perfect her military establishment.

Cities' Batting Order Shifts

Preliminary census figures, which are not likely to be much changed, while they show that the country as a whole has passed the 181,000,000 mark, contain surprising facts as to rise and fall of cities.

Of those listed in 1930 as "the twenty-five biggest," nearly all remain within that class, but thirteen have stepped either up or down in number of inhabitants.

New York has gained about 6 percent in ten years, which, to our optimistic Mayor, is proof that stories of an exodus of business are circulated by punks and others on the LaGuardia list of undesirable.

While there are special reasons in many cases for city population declines, with high taxation the most pressing, there is a steady drift to the suburbs.

Otherwise could not the same authority that filled the seats at the Galento-Baer fight order former residents to return to their allegiance, so that Jersey City may regain her proper place in the census columns?

Britain Claims Destruction Of Hamburg Port

(Continued on Page Three) turn from the continent and re-organization of the British expeditionary force.

Beaches and other coastal landing points still bristle with defenses.

Further tightening of the defense campaign which already had brought mass transfer of thousands of civilians from strategic areas—the ministry of home security ordered withdrawal of civilians from areas in East Angles, East of London, and on the southeastern coast.

These withdrawals in advance rather than the clogging of roads with refugees which would come with an enemy landing would clear the way for Britain's own swift "offensive defense" movement of armies.

Dubious of almost too frank statements from both ends of the Home-Berlin axis that Hitler intended to invade Britain, the British thought their fortifications, destroyed their troops and cleared the way for a "total defense."

Dispatches from Berlin quoting military observers as indicating Germany for the present will rely upon increased pressure from the air and submarine and torpedo boat action, rather than an "all out" assault by these

they know that the United States at this time is not prepared to fight a major war in case we are called upon to do so.

we had the army, the navy and the air force that we propose to have by 1940. I am sure there would be no difficulty in getting Argentina and all the Republics in the South of us to join us in enforcing the Monroe Doctrine.

Oliver Inaugurates Service For Indies

MIAMI, Aug. 2.—A 20-ton strato-clipper blazed another trail across the West Indies yesterday on a schedule that will extend new fast passenger and mail service to countries along the east coast of South America.

The same trip on Pan American's present schedule requires the better part of two days, including an over-night stop in Havana.

The Comet, piloted by Capt. Robert H. Pitt, Jr., and a crew of seven and carrying several dispatches, was staged at San Juan at 1:55 o'clock and landed 20 minutes later.

Today, the Comet will make a 651-mile hop to Port of Spain, Trinidad, important plane junction for the northeast coast of South America.

From Trinidad it will fly 1681 miles back to Miami tomorrow. When the service over this air route is inaugurated, the United States will be separated from Europe by only 2,000 miles.

Goering's New Post Merits Super Baton

BERLIN, Aug. 2.—(AP)—In elevating Heiman Wilhelm Goering to the distinctive post of reichsmarschal, Adolf Hitler created a problem in uniforming and insignia to set off the No. 2 Nazi from the ordinary field marshals of the Reich.

The essence of Goering's admiralty over the form of his new regalia was broken yesterday when it was disclosed that on the golden knotted epaulet of his field marshal's uniform will be a heraldic swastika, emblem of the crossed gold batons of his former rank of air marshal.

In place of the ordinary field marshal's baton now carried by a dozen other men, the reichsmarschal will have a super baton tipped with the reichsapfel (imperial orb).

While the Hitler pamphlets still flutters in the British air raid wardens, policemen and constables hustled out with flashlights and torches to gather them.

As soon as daylight came larger forces turned out to make sure that not one was left.

Prisoners Of War Can Get American Bundles

WASHINGTON, Aug. 2.—(AP)—The American Red Cross yesterday announced a plan whereby individual packages may be sent to prisoners of war in any foreign nation by their American relatives or friends.

These packages will be carried postage free by the U. S. post office department in an arrangement worked out under the Treaty of Geneva.

Americans may send packages only if they have detailed knowledge of the location of the prisoners. The packages must not exceed 10 pounds and may contain only food, clothing, games, musical instruments, books, soap, towels and tooth brushes.

Girl Guides of Switzerland are active in aiding prisoners.

Are the many good, clean, thoroughly re-conditioned used cars on our lot.

AND THE ODDS ARE

that you will be happy over the whole thing if you select one of these beautiful Buicks from this wonderful Buick plant, with fair treatment in all dealings and no high pressure salesmanship.

### Seminole Whip Ocala In 3 To 1 Victory There

#### Rick Gillespie Sets Pace For Batters As Hayes Pitches

OCALA—Red-haired Rick Gillespie set the batting pace as the Sanford Seminoles took the Yearlings at Ocala last night for a 3 to 1 win. Rick, who recently came back from the Florida East Coast League, chased the first Sanford run across the plate with the first of three hits.

Hayes pitched under the Seminoles colors for the first time last night, and let Ocala's Yearlings down with four hits, while his teammates collected eight off the slants of Bill Letts.

With Bill Letts of the Yearlings keeping pace with Hayes except for the three Sanford errors in the game turned into a pitching duel that kept spectators interested.

### Hunting Of Fowl Predicted Good By Wildlife Service

WASHINGTON, D. C., Aug. 2—Pre-season alarms hallelaloo to the contrary, ducks and other migratory waterfowl are now enjoying better-than-average nesting conditions in Canada, according to reports of the U. S. Fish and Wildlife Service and the American Wildlife Institute.

These good conditions for raising young and the fact that the birds returned to the breeding grounds in larger numbers and in somewhat better condition than last year, point to a banner duck hunting season this fall, in the opinion of expert observers.

The early lack of water in Canada which prompted dire prophecies of greatly depleted supplies of waterfowl may prove a left-handed blessing, according to information from competent biologists.

If there had been heavy rain-fall during early Spring, in all probability ducks would have nested in shallow sloughs and potholes which would have dried up during the drought conditions that prevailed in the Prairie provinces during May and early June, biologists point out. "As it was, the birds nested in deeper water areas which did not dry up and, as a result, are 'sitting pretty'."

Rain, and plenty of it, came after the first week in June. Part of a report submitted to Frederick C. Lincoln, of the Fish and Wildlife Service, reads: "Rain has finally hit the drought area in the Canadian Prairie provinces. One newspaper stated that more rain fell at one time than at any time during the past ten years. Little run-off is expected and it appears few broods will be lost."

A later report from another province optimistically states that increases in the duck population are expected and that predators are not bad. The report confidently predicts that, because of late heavy rains, the nesting areas will hold up satisfactorily and give the fledglings ample time to reach flying age. Paradoxically enough, too much rain has caused the loss of some young ducks in regions where the late downfall has been particularly heavy.

Favorable conditions now prevailing in the Alberta and Saskatchewan areas are expected to result in noticeable increases in mallards, pintails, shovellers, gadwells and bluewing teal. Canvasback, redheads and several other species of ducks will remain the same, Government reports indicate.

The Delta, Manitoba, Duck Station of the American Wildlife Institute reports a small increase in the canvasback, redhead, ruddy, gadwell and shoveller, with pintails and bluewing teal about the same as last year. Mallards, wigwags, greening teal and lesser scaups are reported down in this section of Canada.

Observers at the Delta Duck Station also report that nesting conditions are better than last year, but that the water level is still below normal.

With the aid of a crutch and pitching from a sitting position, 17-year-old Emory Moyer plays exhibitions with his own team in Germantown, O. Now a student of Miami University of Oxford, O., the brave youth outgamed infantile paralysis to average eight strikeouts and win 17 of 19 games in high school.

WITH BOTH Glenn Russell and Phil Cavaretta in the hospital, the Cubs paid the Washington Senators \$10,000 for Zeke Bonura, above. That the big first baseman returns to the city where in 1937, as a member of the White Sox, he was voted the most popular player on either Chicago major league club.

George E. Copeland, supervising inspector for the state citrus bureau here, reported yesterday one car of late bloom grapefruit rolled from the Wabasso district on the lower east coast Tuesday, raising to four the number of cars shipped from that locality during the past 10 days. The Wabasso district is the only one where fruit is still being shipped by rail.

### Last Year's Citrus Still Leaving State

WINTER HAVEN, Aug. 2—Florida citrus fruit still is leaving the state in car and truck loads although the beginning of the 1946-47 season is not more than 30 days away.

George E. Copeland, supervising inspector for the state citrus bureau here, reported yesterday one car of late bloom grapefruit rolled from the Wabasso district on the lower east coast Tuesday, raising to four the number of cars shipped from that locality during the past 10 days. The Wabasso district is the only one where fruit is still being shipped by rail.

Considered having the inside track for Secretary of Agriculture Wallace's portfolio, "if, as and when" it is available, Representative Marvin Jones, above, of Amarillo, Texas. At chairman of the House Agricultural Committee he has steered most New Deal farm bills through the House.

### England's Interest In Races Continues

LONDON, Aug. 2—The daily expression of Nazi invasion hasn't dampened the Englishman's interest in horse racing.

A notice published in the Racing Calendar yesterday held out hope for a "moderate amount" of racing during the autumn and winter seasons under both National Hunt committee and Jockey club auspices.

### Night Life Is Long Up At Anchorage

ANCHORAGE, Alaska, Aug. 2—Even the minister stayed up all night at a party at Otter lake. In fact, it was the minister, Rev. Boyd Cabbage and his wife, who planned the party for 18 young people. It was a dusk to dawn observance on the longest day of the year.

Summer days are long and nights are short in Alaska. The party only lasted from 11 P. M. to 2 A. M.

A weekly soda water bath helps keep the coffee pot clean. Fill the pot with boiling water, add 2 teaspoons of soda and simmer half an hour. Drain, rinse in boiling water and drain.

## British-Japanese Friction Reaches New High Point

### England Arrests Two High Japanese As Tension Increases Between Countries

### Japan Protests Arrest Of Two

### London Hears Rumors Of Big Spy Ring Centering There

By Associated Press  
Friction between Japan and Great Britain reached a new high point today in the arrest of the two most prominent Japanese business men in London. Reports that others were held throughout the Empire and rumors of the existence of a big spy ring centered in London. Significantly, the arrests, which "flagged" high Japanese in London, came just two days after British sources had expressed fear that rapidly worsening Japanese-British relations might eventually provoke Japan to military action.

Japan made a "strong protest" against the arrests. One British ministerial spokesman said they were "very provocative" and that the Japanese press in London was "very hostile."

The Japanese embassy said Secretary of State Cordell Hull had received a note from the Japanese government protesting the arrests.

### Investigation Is Ordered Into Flow Of Aliens To U. S.

DETROIT, Aug. 3.—(AP)—Immigration officers received orders yesterday to find out whether an "underground railway" has been operating across the Detroit river for aliens fleeing to the United States from the European war zone.

John L. Barbock, district immigration inspector, said he ordered the investigation, which was prompted by the apprehension of a woman, which three Polish sailors, charged with deserting a ship carrying German prisoners to Quebec, crossed from Ontario to Toronto, Michigan, the night of July 28.

The woman, Michael Sochul, Alexander Turkovitch and Karol Plinski, are being held under \$50,000 bond each on charges of illegal entry.

## 18 Have Passed Physical Tests For Scholarships

### Openings Exist For Several More In Pre-flight Course

Physical examinations have weeded out the class of students attending the Civil Aeronautics Authority pre-flight school being held four nights weekly at the Grammar School, leaving openings for several more boys to enroll if they act immediately, R. E. Kipp, instructor, said today.

To date only 18 boys of the large original class have passed the physical requirements to compete for the free flight scholarships. Mr. Kipp said, however, there are about 10 more who have not been examined and those who join next week can take the course free of charge if they pass the physical examination.

At the end of next week, however, the class will definitely be closed to new enrollments, Mr. Kipp said, adding that he expects to have at least 25 eligible to compete for the flight scholarships being offered.

There are considerably more than the 18 boys who have passed the examination attending the classes, however, since many of those enrolled are not in the competition for the flight scholarships. There are about 40 enrolled in the classes.

The school, which is sponsored by the Campbell-Lanning American Legion Post, is progressing according to schedule, Mr. Kipp said. The students are now studying flight theory and mechanics and will be given practical training in the next few weeks.

Two girls, Iris Sebree and Emma Temple, have passed the necessary requirements for the one flight scholarship offered to the girls.

Others who have passed the physical requirements for flight scholarships are as follows: Daniel Deneff, A. F. Myers, Henry Tamm, Jr., Clifford Bell, Jr., John Jones, Edwin Wilkin, Charles Williams, Walter Hayes, Jr., John P. Robinson, Ralph Ray, Malcolm Yelverton, Edward Kimball, Malcolm Higgins, Robert Marlowe, James Trawick and Walter Ward.

## Randolph R. Richard Dies At Home Of Son

Randolph R. Richard, 79, died at 1:35 P. M. yesterday at the home of his son, S. M. Richard, 1108 French Avenue, in the heart of Alachua, west of his life. Mr. Richard was visiting his son when he became ill.

He was born in Providence, R. I., on Sept. 15, 1861.

Survivors are the widow, who is residing in Tampa; four daughters, Mrs. Honorie Roberts of Tampa; Mrs. Belle Brooks of Tampa; Mrs. W. O. Cook of Sanford and Mrs. Anita Grandstaff of Brooksville; Mrs. Y. F. Simpson of Brooksville; Mrs. F. R. Alderman of Live Oak; and Mrs. Alma J. Spence of Miami.

Funeral services will be held at 10 o'clock tomorrow at the home of the widow, Mrs. Roberts, in Tampa.

## Mrs. James Dies After Long Illness

Mrs. Blanche E. James died at her home near Wilson Corner, west of Sanford, yesterday evening at 7:00 o'clock, following an illness of nearly two months.

Survivors are her husband, E. T. James, five sons, Fred, Frank, all of Wilson Corner; James, near Sanford; and Miss Ann, near Sanford.

Funeral services will be held at 10 o'clock tomorrow at the home of the widow, Mrs. Roberts, in Tampa.

## INSPECTS GUN

## Tonight's Ball Game Scheduled For 9:00 O'clock

Jeter and Hudson To Face Saints In Twin Bill Set For Sunday

With two new hurlers and a utility player to give them strength for the drive toward the end of the season on Labor Day, the Sanford Seminoles will face the Gainesville G-Men at the Municipal Park tonight and will tangle with the St. Augustine club tomorrow afternoon in a double bill scheduled to begin at 8:00 o'clock. The officials of the ball association changed the time for the Saturday night game in order to prevent interference with the Saturday night business for local merchants. Club officials pointed out that the Saturday evening rush is over by 9:00 o'clock and that under ordinary circumstances fans can see the ball game and be home shortly after 11:00 o'clock.

Starting assignments for tomorrow's double bill with the Saints will probably go to Jeter and Lefty Hudson, whose task it will be to keep Sanford's narrow margin of lead over other loop teams, since Daytona Beach has its guns trained on the Seminoles' number one spot by Aug. 15 in order that the All-Star tilt might be held in that city.

Before the deadline for acquiring new players to finish the season, Col. Charles Bradshaw again turned to the fertile fields of Georgia to acquire Fletcher Miller Hayes, a class man who turned in a creditable four-hit performance against Ocala earlier in the week, and Leslie McWilliams, also a former Peachtree, who has been given the short-stop assignment and also has played in the outfield since arriving here, was acquired as a utility man.

The addition of the three players is expected by club officials to bolster the Seminoles for the approaching series of double headers to make up the games that have been rained out.

## Mrs. James Dies After Long Illness

Mrs. Blanche E. James died at her home near Wilson Corner, west of Sanford, yesterday evening at 7:00 o'clock, following an illness of nearly two months.

Survivors are her husband, E. T. James, five sons, Fred, Frank, all of Wilson Corner; James, near Sanford; and Miss Ann, near Sanford.

Funeral services will be held at 10 o'clock tomorrow at the home of the widow, Mrs. Roberts, in Tampa.

## Mrs. Rebecca Hagerty Dies After Sickness

Mrs. Rebecca J. Hagerty, 77, died at the local hospital early this morning following a long illness.

Survivors are her husband, E. T. Hagerty, five sons, Fred, Frank, all of Wilson Corner; James, near Sanford; and Miss Ann, near Sanford.

Funeral services will be held at 10 o'clock tomorrow at the home of the widow, Mrs. Roberts, in Tampa.

## Creditors Of Soviet Press City Appeal To High Tribunal

### Holders Of Unrefunded Bonds Ask Supreme Court To Review Last Ruling

The City's creditors who held \$173,000 of the City's unrefunded bonds have appealed to the United States Supreme Court for a writ of certiorari in the decision of the United States Circuit Court of Appeals upholding the validity of the Pepper amendment to the Municipal Bankruptcy Act, which the City of Sanford is invoking to force these bondholders to exchange their bonds for refunding series bearing a lower rate of interest.

Thus far, the City, whose legal affairs have been handled by City Attorney Fred R. Wilson, have won every round in the court battle to force these creditors to exchange their bonds on the same basis as the 90 percent who have already refunded. The bonds held by this group bear 6 and 6 percent interest while the refunding bonds bear only 1-1/2 to 2 percent interest.

The City of Sanford is the first municipality in the nation to invoke the amendment to the Municipal Bankruptcy Act and the question of the Constitutionality of the act will soon be decided in the nation's highest tribunal once and for all.

The Supreme Court declines the writ to call the case from the lower court for review. The ruling in New Orleans which was favorable to the City, will stand but if the writ is granted and the case is reviewed by the Supreme Court its decision in the matter will be final.

That the amendment was intended to reach and provide a remedy for the precise situation in which the City of Sanford finds itself, the lower court said in its decision.

Quoting part of the amendment to the act, the decision states that the City of Sanford is in violation of any plan of composition executed before the filing of the petition, shall not be permitted to file a plan of composition, shall not be permitted to file a plan of composition, shall not be permitted to file a plan of composition.

Incorporation of the Baltic states and Rumanian territory occupied by the Red army will give the Soviet union the "potential voice" of more than 193,000,000 people, Molotov told the supreme Soviet.

In less than a year, Russia has added more than 23,000,000 people and considerable territory, beginning with the joint German-Russian partition of Poland, the Finnish-Russian war, the occupation of Bessarabia and northern Bukovina, ceded by Rumania in June, and the Baltic States of Estonia, Latvia and Lithuania, whose new Communist governments voted for the Soviet union of the people in those areas once belonged to Russia, but had been forcibly torn from the U. S. S. R. by western imperialist powers when the U. S. S. R. was militarily weak," Molotov said.

With her acquisitions of territory Russia now has access to important ice-free Baltic ports and to the Danube river, transport gateway to southeastern Europe.

When only 16 David sailed out for Greenland on the first of his expeditions, each trip has been made with Capt. Bob Byrd.

Object of the Arctic journey has been to obtain wildlife specimens for American museums and zoos.

In last year's trip north in two four-man expeditions, David was curator and navigator.

His greatest problem, said the officer, "will be to cram his 6 feet 3 inches into a destroyer berth. Quarters are really cramped on those wagons."

"Roosevelt may have a room of his own, or he may have to share his quarters with another ensign."

"Roosevelt will receive no special privileges," continued the officer. "He'll eat in the regular mess, stand deck watches, and receive instructions and perform special duties at the discretion of the commanding officer."

The President's son is classified in the "volunteer general" group of naval reservists—because he is assigned to sea duty, rather than to a specified task ashore.

It was 14-year-old Miss Helen Hutchison who took the spotlight at the first shoot of the Seminole Rifle Club Thursday instead of her older sister, Elsie, who, incidentally, is also an excellent shot. The Herald regrets this mistake.

The National Gallery for Art, of Washington, D. C., now nearing completion, cost \$18,000,000.

## Soviet Press Scores Finns For Attacks

### Moscow Newspapers Allege Brutalities Are Committed On Pro-Russian Labor

Soviet press charged that Finnish workers across the border as the formal incorporation of the U. S. S. R. of three Baltic states and two provinces obtained from Rumania.

The supreme council (parliament) with Joseph Stalin in attendance, unanimously adopted a resolution creating the Moldavian Union republic the U. S. S. R., thirteenth member out of the larger part of Bessarabia, seized from Rumania, and most of the old autonomous Moldavian republic.

The council gave the remainder of Moldavia and Bessarabia, plus the territory of northern Bessarabia, to the Ukrainian republic of the U. S. S. R.

The official news agency declared Finnish police used bayonets on women and men to break up a meeting in Helsinki where demonstrators carried slogans reading "Long Live the Soviet-Finnish Friendship."

That attack followed Monday's warning by Premier A. A. Reunanen that Finland must abandon anti-Soviet trends if she expects good relations with Russia.

## Italians Lose Hundreds In Libya Fight

### British Air Raid On Base At Sardinia Kills One, Wounds Three, Italy Says

### Italian Raids In Africa Reported

### Petain Government Bans Free Masons And Other Orders

LONDON, Aug. 3.—(AP)—The Exchange Telegraph (British News Agency) reported today that "hundreds" of Italians had been killed and much war material captured in fighting in Libya.

The Italian command acknowledged one killed and three injured in a British raid on the Sardinia naval base, declared that Haifa, in the Holy Land, burned for three days after an Italian bombardment July 25, and told of further extensive strafing of the British in Africa and Egypt. Britain, but holding its defenses against Adolf Hitler's threatened blitzkrieg, received another contingent of Australian troops today.

A dispatch from Tangier, Morocco, to Genoa, France, said the British fleet at Gibraltar had sailed to join in the defense of the United Kingdom.

The Petain government got on with its task of reorganizing France today by banning Freemasonry and all other secret societies and further restricted sale of foodstuffs.

In the turbulent Far East it was reported that Japan had been extending her war still further. The Japanese reported that the French Indo-China expeditionary force had been ordered to leave Indo-China.

The French island colony of New Caledonia, said a dispatch to Saigon, was ordered to leave Indo-China.

On the war front, Nazi Aviators shot down a German plane in a position now to blanket attack a paralyzing German raid, described by the German press as "massive pin pricks."

## Tribunal Overrules Claim Of Daytona City Commissioner

Daytona Beach city commissioner, on charges of accepting unauthorized payment of \$10,000 to vote for Frank V. B. Couch for mayor, was affirmed today by the 3rd U. S. Circuit Court.

Richard was fined \$1,000 and ordered to serve one year in prison if the fine was not paid.

The Supreme Court overruled Richard's claim that the jury which convicted him was prejudiced because the members belonged to a political faction opposed to him. The court also overruled a claim that Richard had contributed more than \$10,000 into the campaign fund and that payment to him was merely a refund.

## Windsors To Leave Liner At Bermuda

WASHINGTON, Aug. 3.—(AP)—Diplomatic circles heard yesterday the Duke of Windsor, en route to his hemisphere aboard the United States liner Excelsior, definitely would not come to the United States but would disembark at Bermuda.

The Maritime Commission said it has granted permission to the Excelsior to stop at the British island on its voyage from Lisbon. The duke is enroute to take over his duties as governor of the Bahamas islands.

Diplomatic sources assumed that the duke, the former Wallis Warfield Simpson of Baltimore, also would disembark at Bermuda, from where the duke and the princess could go by either sea or air.

Secretary Hull said the state department had no information establishing that a British warship was following the Excelsior.

More residents averse to bath in 18 months. Parasites and four months, and Japanese every day.

### LOCAL WEATHER

Florida—Considerable amount of local showers tonight and Sunday.
