

C, E, (Bud) Merrill Jr. and A. J. Thomas, co-owners of Holiday Inn on Holiday Isle, are really roughing it. Both of them are out in "God's Country" for hunters. They are in where Ernest Hemmingway

loved to hunt and is buried. The amusing thing about all of this is that the two hostelry men live a life of push buttons and service all year round . . . now they are in grizzly weather sleeping on the ground in those almost primitive bags; they are cooking over outdoor fires and generally living a natural uncivilized life. They are in an area that is at the head of Fourth of July creek and out of communication, save the forest

ranger who is miles away. They got into this land on mule pack and by foot. Just goes to show what a couple of hunters will do just to catch or shoot an elk. They are due back next week and if they do well with the rifles we'll ask them if they also did any shooting with their cameras . . . which are an integral part of such a hunt. Sanford Moose will hold the

annual Halloween Dance Saturday evening at the Lodge Home located at 2660 S. Palmetto Avenue. Prizes, in addition to doorprize, will be awarded for the best woman's costume, the best man's costume, and the best couple's costume. The event will be open to all members and their invited guests.

in Seminole County. This move was made at a meeting in the House of Beef on Holiday Isle with Kenneth W. McIntosh, president of the Seminole County Chamber of Com- sioners-W. Lawrence Swofford-pointed out that merce, president and county commissioners, mayors and civic leaders in attendance.

Viewed from any section of our growing area, the influx of people, the arrival of new and important industrial enterprises and the impact of such momentous forces as the start of the Florida Technological University near Oviedo makes such a study not only timely but essential.

But it must be realized that, once again, time is not on the side of such enterprises in our city or coun-. Thus the decision to meet shortly after the Nov. 5th elections with the legislative representatives who will be representing Orange-Seminole Counties is fine so far as objective is concerned but must not be al-

Congratulations are in order for the representa- lowed to drag along if it is not to be a case of locking based on solid facts.

Make no mistake about it-the horse may even seek a responsible study of the problems which are now be on the way out. The duplications of govern- Jacksonville. The Seminole County Chamber of Comfrustrating and delaying up-dating such machinery mental agencies or, at least, the overlapping is a matter which can be determined without much research. The need for urban facilities in growing rural

areas is obvious. In fact one of the county commis some real estate developers put on their publicity-"City facilities, NO city taxes"-adding that, of course, this was impossible. A minor point, perhaps, but it was evident that

the conferees were in agreement with this vewpoint. It also signified a basic situation in Seminole County where rural areas are becoming urbanized and where the local governments had been setup when the needs of a rural population were paramount. There are, to be sure, large sections where agri-

culture is still kind and intend to remain that way.

But the spots where urban growth is so obvious are

multiplying and present challenges to the local gov-

These Kids Need Help Hey, I thought that the property known as Cooper Field down in Casselberry was for the future baseball heroes, known presently as the Seminole Little League.

I had a telephone call from Al Jennings and he says, "Due to the expiration of the five year lease, we'll have to find another place for all of the kids." Did you know that there are approximately 706 boys

involved in that little league program? And further, that this includes right around 40 different teams? They need this new field before February 1, and to prove that they're not just waiting around for something to happen, here's what they're planning on doing. There'll be a variety show at the Orlando Sports Stadium

on Sunday, Dec. 8 at which time they hope to have somewheres in the neighborhood of 12 to 15 thousand people on With the proceeds from this event, the planning committee wants to purchase 20 acres, in the south end of the county, on which they can build three baseball fields, one football field,

a swimming pool, recreation building and basketball and It's a huge and healthy project and we wish them every success. For more information, contact Jennings at 831-1060,

Been Out Hunting Yet?

Gee, but that time surely does fly? I was certain that I'd be able to report about some dove shooting success . but, it seems I'm preoccupied somewhere else. Previously, I have spoken about forming gun clubs for the proper instruction for both youngsters and adults alike. Well, this past week, via another phone call a Mr. Ricketson informed me of his interest in this project and I would sup-

pose he comes well prepared. Mr. Ricketson tells me that he's a 'Master' gun instructor and would like to get active, providing there's enough interest for his services. Give him a call at 322-0788. Now while we're on this subject of guns, a couple of

gents brought me up-to-date on the latest happenings in New Jersey. And this, they tell me, might not be the very latest But anyhow, before anyone may buy a hunting license

there, they first have to go to the local police department and pay \$2.75 for a buyer's permit . . . AND THEN THEY MAY GO OUT AND PURCHASE A HUNTING LICENSE. Now you tell me what that \$2.75 per person is going to do other than pay that person's salary who has to type out the buyer's permit for you in the first place!

Incidentally, no hand guns are permitted anywhere in the state. So, if you're planning on hunting, say in New York State and you have to cross New Jersey . . and you happen to have a pistol . . . LOOK OUT BUDDY, CAUSE YOU'RE IN DEEP TROUBLE.

slumber and says, "Hey, John . . . I'd like for you to thank all of those football coaches who promised to have their players on hand to meet Lamarr Richardson and Don Jonas at All Souls Social Hall this past Monday night."

O.K., so I'll thank 'em, Mr. Filegar, "Now what seems to be the problem?" "Well, if they're so concerned about building interest in football and don't fullfill their promises to bring their squads out to see these stars and some filmed highlights on Orlando Panther games, then why should I break my back trying to stimulate local football interes; either?"

Evidentally, there was supposed to be a large turnout with representation from all of the schools . . . and only two gridders from Crooms showed up at all. If all of the facts are correct, that would be more than a little discouraging - not to mention embarrassing also.

ALONG THE SAME LINES and purely personal to my Seminole High School gridiron heroes, check the name of the spelling of my last name. S-P-O-L-S-K-I . . . is not Alexander, now is it? I'm not the guy who predicted that you'd lose to Auburndale by one point . . . that was Terrible Tommy (you know,

the tall guy.) I've been 'had' on that prediction stuff a couple of years ago. (Would you believe I still get cards reminding me of my sterling prediction that Nebraska would knock off Bear Bryant's Crimson Tide?????)

So you see, when I make a prediction IT IS A STINK-EROOO, But let's be honest with one another . . . Wasn't this enough of a stimulant to make you all come out and play like your potential would indicate?

* * * * Denny's O.K. You've probably read as much about the Tiger's pitching ace Denny McLain being a showboat, loudmouth, etc. I think

the guy, either.

Ira Berkow's column provided me with the true character of McLain . . . and it makes me feel proud, too. "Do you know what I'm

really like? This is what I'm like: I let Mickey Mantle hit that ball in Detroit, O. K. I've admitted it to you I wanted him to hit a homer. It was going to be his last time up in Tiger Stadium. I wanted him to bow out in glory. Why? Because he's been my idol all my life. Because he's an All-American here type. And because he's done so much for baseball. I'd like to be like That's my kind of talk. Denny. And he's not afraid to

take a pot-shot at the brass,

Denny McLain "And talk about stupid things, what about that fourth game in Detroit on Sunday in the rain? That was the worst decision I've ever seen. It was done for the money, for all that television loot. But if McAullife or Kaline or Cash would have slipped and got hurt, who would have paid us enough to make it up? No one." And you know, the guy's right there, too.

NOTEBOOK SCRIBBLINGS I means to get something or this into the column following look at the game films and ran the Crooms-Lyman game, but jus' ran out of space. Golden Cascade...

Payoffs Rumored In Olympic Tests

Associated Press Sports Writer MEXICO CITY (AP) - A breath of scandal, a hint of under-the-counter payoffs around the world, threw another darkening cloud over the 19th Olympic Games today, while the United States continued to gather a golden cascade of medals. The Americans picked up six niore gold medals Wednesday, including their first two in sports other than track and swimming, and the Russians began to make their move in gymrastics, in which 36 gold medals are awarded.

In all, the Americans now have 81 medals, including 35 gold, and the Russians have 49, with 15 gold. Dan Ferris, 79, white-haired secretary emeritus of the U.S. Amateur Athletic Union and a newly elected member of the

Council of the International Athletic Federation, ruling body for track and field around the world, dropped the bombshell about commercial firms paying athletes to used their products.

"ladications are that payoffs have been made to athletes of virtually all countries," he said, and added that an "investigation centers around these att: letes who did not see fit to notify their superiors of the pay-He said the payoffs range

from five hundred dollars to six thousand dollars. Everett Barnes, acting director of the U.S. Olympic Comittee, said in a prepared statement that "at this time we have nothing to substantiate the rumors with respect to athletes subject to our jurisdiction. "If anyone has any concrete evidence to offer about U.S. ath-

World's Best Lefty Visits Sanford

be pleased to follow up the in-And Avery Brundage, president of the International Olymnic Committee, said:

"I have not yet received any concrete evidence that any athlete has received any money. Any investigation of this kind must be undertaken by the National Federation concerned. "Then the National Federatior reports to the International Federation, and if it is proved beyond any doubt that any Olympic athlete has received money, the international federa-

tion must suspend him. "If that happens, then any athlete who won any medal in the Mexican games automatically would forfeit it." The controversy is only one of many that has plagued these troubled Games, but, like all the
