

Patriotism Of French Proves Block To Reds

By J. M. ROBERTS, JR.
AP Foreign Affairs Analyst

France may turn out to be one of the first imperial powers in history to let events internally through unrest and rebellion in her colonies.

With metropolitan France just barely staggering along, natives of Indo-China, Malagascar and North Africa have availed themselves of the opportunity to rise. Paris has taken stern restraining measures, promising reforms but backing her administrators with increasing numbers of bayonets.

Taking the side of the underdog (as usual, pending their ability to regiment him to their own purposes), the Communists have sought to appear liberal by trying to hamstring this colonial policy. By doing so, they have run up against something in the French National character which has definitely weakened the Communist position. A whole few months ago, the Communists seemed about to take over France. Today, even with their purported control of the Labor unions, they have been unable to sway the government from an increasingly rightist program for financial reorganization.

The French colonial situation would have seemed ready-made for the Communists. New impartial observers have ever had anything good to say about it.

When the late President Roosevelt met the Sultan of Morocco at his Casablanca, trip he appeared to take slight delight in discussing Winston Churchill, who was present, with references to French oppression of the natives, to Anglo-French syndicates which drained the riches of colonies and to the possibility of self-development of Morocco's resources with American help merely hired for the purpose. The Sultan, says Elliott Roosevelt, assured the President that something would be done after the war. That something has developed into an independence movement.

That's why the French are so nervous over the presence of the old ruff leader, Abd-El-Krim, in Egypt. Krim, at the head of the wildest, most atrocious bunch of bandits in modern history, practically threw the Spaniards out of North Africa, in 1921, and the French had to stage a pretty good four-year war to subdue him. If Krim goes back to Morocco, as some observers fully expect, the French are in for real trouble.

So what possible good can France get out of such trouble abroad?

Just this. That French National trait over which the Communists have stumbled is patriotism. The average Frenchman in France before he is anything else. With a Communist, the Moscow line comes first. A lot of Frenchmen lean to Socialism, and a lot of frustrated European Socialists have been willing to team up with the Communists who are better trained for direct action.

But French Communists, by putting the policies of Russia ahead of those of France, and by giving comfort to the rebels within the empire, which they are doing merely to serve the Communist aim, may find that they have overreached themselves in the

U. S. Protest

(Continued from Page One)

Investigation Commission's report holding Yugoslavia primarily to blame for support of guerrilla warfare inside Greece was made public today.

The commission's findings and recommendations, already made known in dispatches from Geneva, were expected to precipitate a showdown between Russian and the Western powers in the Security Council on the perennial Balkan problem.

Covering a three-months inquiry into the Balkan situation, the 230,000-word document was formally submitted to members of the Security Council last Saturday.

The council was expected to begin a discussion of the report either Friday or early next week. There was speculation that the United States might inject into the debate the Communist assumption of power in Hungary and Communist moves in Bulgaria.

With Russia and Poland dissenting and France abstaining, the Balkan Commission fixed upon Yugoslavia the primary blame for support of Greek guerrilla warfare, and held Albania and Bulgaria blame-worthy to a lesser degree.

Disturbed political and economic conditions and the persecution of minorities inside Greece were cited in the commission's report as contributing factors to the turbulent Balkan situation.

As a means toward alleviating this situation, the commission recommended that the Security Council establish a commission of investigation on the troubled frontier area of Greece for at least two years to observe incidents and settle disputes.

Such a commission or commissioner should, if established, report to the council every three months, and should have access to Albania, Greece, Yugoslavia and Bulgaria, the report said.

With Russia and Poland also that support of frontier-violating bands should be considered a menace to world peace and subject to U. N. action.

To the majority report, that Yugoslavia was the chief offender, the Russian and Polish delegations affixed a minority report asserting that the Greek government was primarily to blame.

The majority held that exploitation of the Macedonian question by venturing claims to this territory outside the United Nations is "a positive threat to the tranquility of the Balkans and can only add to existing tension and suspicion and increase national passions."

A Greek representative appearing before the commission during the on-the-spot inquiry charged that Bulgarian and Yugoslav interference in Greek internal affairs was aimed at incorporating Greek Macedonia into the federal Yugoslav state of Macedonia. Both Yugoslavia and Bulgaria denied this charge.

France, which abstained from voting the blame for Greek guerrilla warfare, said in a statement contained in the report that "it is to be feared that in reaching conclusions with insufficient legal foundation we might only aggravate an already critical situation and do unnecessary harm to perfectly natural sympathies."

"Moreover," the French statement added, "the United Nations are faced not only with a critical but with a chronic situation, not with a flagrant aggression which requires a prompt and immediate intervention, but with a tension which, owing to a multiplicity of

Pan-American Pact

(Continued from Page One)

can continent," Eisenhower said.

He said the major requirements of a comprehensive military collaboration must be three-fold, listing them as:

1. "We must continue to send military missions to other American countries when requested by them to assist in reorganizing and training their military establishments."
2. "We must provide quotas for attendance at our service schools and institutions by military personnel from these countries in order to afford them the opportunity of studying at first-hand our methods of reorganization and training."
3. "We must be able to make available to them the equipment necessary for their peacetime establishments, since all the training and indoctrination of personnel will be largely ineffective unless all of the armed forces of the hemisphere are identical in terms of organization and equipment."

Eisenhower expressed conviction that the legislation is in accord with "our national interest," will "assist materially the maintenance of peace and security throughout the American continent," and will be "a distinct contribution to world security."

He emphasized that the War Department has "no intention of initiating or encouraging an armament race among the other American countries."

He said that the United States would conclude with each participating country "a definite agreement" as to the size of the armed forces for which this country will make available arms and equipment.

He said, too, that it is not intended to increase the quantity of arms possessed by any other American country, but rather to better the quality of their defensive armament.

LOSERS IN THE FIGHT against the Taft-Hartley labor bill, leaders in the historic filibusters are shown in a sort of "see-saw-a-tough-battle" attitude. Left to right are: Glen H. Taylor (D-Idaho); Claude Pepper, Florida; James E. Murray of Montana and Sen. Wayne Morse (R-Oregon). (International)

FOLLOWING SWEARING-IN CEREMONIES at the State Department in Washington, former governor of Nebraska Dwight Griswold (left) and Richard F. Allen are shown discussing their new posts. Griswold heads the \$300,000,000 Greek relief mission and Allen is in charge of the \$350,000,000 foreign relief program. (International Soundphoto)

CALLING UPON CONGRESS to override President Truman's veto of the tax reduction bill, ranking G.O.P. leaders are shown giving vent to explosive criticism as they go over the veto message. "Cold blooded politics" and "flagrant abuse of power" were among the expressions voiced by Rep. Harold Knutson (R-Minn.), who championed the measure; Rep. Charles A. Halleck (R-Ind.), House majority leader, and House Speaker Joseph Martin Jr. (R-Mass.). (International)

Kiwanis Meet

(Continued from Page One)

was in command, had an area 200 miles wide and 300 miles long to patrol, and except on the beaches there were no roads in repair, he said. Due to the lack of communication, Jap prisoners were late in coming in, and it was Oct. 21 when a Japanese officer and 600 men who at first thought the Jap Navy had come to rescue them, appeared and surrendered.

The first intimation that hostilities had ceased came on Aug. 14, in the evening. On the following day definite news to this effect was received. On Aug. 1 the American troops celebrated a "victory program" over a radio hookup, he said. He told of the praise of Japanese medical officers for American facilities for treating the wounded during the time our forces aided in finding and treating some 2,000 enemy wounded in the hills.

Kiwanians stood in silent prayer in memory of the late Sherman M. Lloyd, former club president (1928) and the first secretary the club ever had.

Palestine Report

(Continued from Page One)

tion by them of their mutual responsibility and interdependence and by a willingness of each to contribute according to his means and the need of the other, not only in material things but morally, that the well being of the people of Palestine as a whole can be ensured and a national home established.

"Courage, imagination and the will to compromise required to achieve these ends cannot be imposed, but must be sought from the two peoples primarily concerned."

Earlier, Irgun Zvai Leumi, unfurled banners in the all-Jewish city of Tel Aviv proclaiming to the visiting United Nations investigators that "this is our homeland; without the British invaders, we will not compromise required to achieve these ends cannot be imposed, but must be sought from the two peoples primarily concerned."

Crowds lining the streets awaiting sight of the touring committee cheered when the Irgunists draped the banners hastily over electric wires just before the committee arrived. Police tore down those they could reach and burned others.

The Irgunists, who have claimed responsibility for numerous killings, bombings, kidnappings and the wholesale prison delivery at Acre in May, apparently were in Tel Aviv in force.

Masked youths lined the route of the committee to the municipal building and tried to interfere with reporters and photographers.

Taft-Hartley law will push for speedy enactment of a 50 percent minimum wage boost.

Hearings on bills to raise the current pay floor from 40 cents an hour will be started Friday by a House labor subcommittee, with indications that a 60-cent minimum will be recommended.

The tip-off that such a bill would be put on the "must" list for this session was given by House Republican Leader Halleck of Indiana at a GOP political rally in Wisconsin last week when he said:

"We are turning our attention to legislation dealing with protection of our workers in the minimum wage brackets."

"I understand the leadership will accept 60 cents," Rep. Landis (R-Ind) told reporters today as the labor committee announced its hearings. "We are going to pass a bill this year."

Landis, author of one of the many pending bills dealing with minimum wages, is second man on the labor committee.

"We will put this thing through within the next few weeks," one of Halleck's aides said.

Housing Seen

(Continued from Page One)

party colleagues are going to do everything they can to defeat the measure which would make House Speaker Martin (R-Mass) next in line for the presidency.

The Senate has agreed to vote on the bill at 1:00 P. M., tomorrow and Senator Wherry (R-Neb.), its author, conceded that if reports he hears are true, the Democrats might sink the proposal, with some Republican help.

Rep. Cooley (D-NC) called at the White House today to recommend a veto of the wool price support bill and reported afterward that President Truman did not "frown" at this advice. Cooley told reporters he urged a veto "because of the bill's import duty provisions."

The measure, which Congress sent to the White House last week, continues present government supports for wool prices and authorizes tariff boosts, or restrictions on imports, in event imports of foreign wool tend to depress prices.

Presidential Press Secretary Charles G. Ross told reporters Mr. Truman will act on the bill tomorrow or Friday.

Richard W. Hubbell, New York engineer, suggested to Congress today that radio stations be licensed for 17 years and predicted there will be a "mushrooming" of television service if this is done.

Hubbell testified before a Senate Commerce Subcommittee which is considering legislation to revise the broadcasting laws. He is head of a consulting company for television, radio and motion picture construction and operation.

WASHINGTON, June 25, (AP)—Senator Taft disclosed the possibility that Congress may take further action on tax-cutting legislation before it adjourns next month.

Taft told reporters he has not changed his opinion, the tax measure is dead for this session, despite the fact Rep. Knutson (R-Minn) has re-introduced his bill to slice \$4,000,000,000 from personal income taxes.

W. A. HARRIMAN
Secretary of Commerce Says

Keep Turning In Your Used Fats

Used cooking fats have represented a substantial part of our total industrial fat supply. The more than 600 million pounds of used fats that American home-makers have saved and turned in since 1942 has been of vital importance. It is a record of which every woman who contributed may well be very proud.

The United States still lacks adequate supplies of fats and oils. And we are particularly short of industrial fats. Many, if not most, of the things we all use and wear require industrial fats, or the products of industrial fats, such as soaps and glycerine, in their manufacture.

So won't you keep up your good work and continue to save and turn in every possible pound of used fat?

W. A. Harriman
Secretary U. S. Department of Commerce

SAVE USED FATS

Economy Plan

(Continued from Page One)

Hoffman said "another collapse of that magnitude might cost us our free economy."

Hoffman is chairman of the board of the Committee for Economic Development, a group of businessmen organized to study the problem of maintaining a high level of productive employment.

He expressed his views in a statement prepared for the joint congressional committee on the economic report. This group is considering ways and means of preventing depression so that substantially full employment may be continuously maintained.

Hoffman, in laying down a blueprint for government and business to follow toward this objective, told the committee:

"If through wise action we can make our economy operate more effectively, the real income of most of our people can be doubled within 25 years. We can largely realize the age old dream of abolishing poverty."

The key to achieving this goal, Hoffman said, is the creation and maintenance of what he called an economic program of "dynamic stability" which rejects the notion that "violent booms or busts" are inevitable.

Hoffman said that for the immediate future in the fight against inflation, there should be restraint on the part of all "in raising prices, wages and salaries, in recognition of the common interest in avoiding a further wage-cost-price spiral."

The "most vital function" of the government in the long-range economy Hoffman envisioned "is to establish conditions under which private enterprise can operate most effectively." To this end, Hoffman said, the government should:

1. Stop wast practices that create inflation.
2. Break down barriers to creation and growth of small business, particularly by removing the bias in the tax structure against risk taking.
3. Repudiate federal spending

U. S. Warned

been watching Soviet expansion with suspicion and dismay.

"I believe we must arrive at the conclusion that the forthcoming conference of the three European powers in Paris will have to do more than put on paper the ways and means of implementing General Marshall's program for setting Europe on its feet economically. The three disunited statesmen will be faced with the monumental task of establishing a far greater degree of confidence between East and West than now exists. Unless that is achieved, the Marshall idea cannot be carried out in its fullness."

China Hits Reds On Control Of Seaports

(Continued from Page One)

NANKING, June 25, (AP)—The Chinese foreign office, in a lengthy "white paper" covering relations with Russia, today accused the Soviet Union of obstructing the Chinese control of Dairen and Port Arthur.

The statement called "serious attention" to Moscow to Soviet failure to observe terms of the 1945 Sino-Soviet Treaty providing for Chinese administration of the two Russian-held Manchurian seaports.

Meanwhile, Nanking newspapers carried reports that the foreign office had sent a second protest to the Russians over the recent border clash between Chinese and pro-Soviet Outer Manchurian in Sinkiang province. There was no immediate confirmation. Russia rejected the first protest.

Beer Garden Front Damaged By Auto

The window pane and front of the Victory Beer Garden on Sanford Avenue, one door from Third Street, was demolished late yesterday afternoon when a Chrysler sedan over the driver, Mary Leonis, 17, of 214 West Fourth Street, had apparently lost control, jumped the curb, knocked over a parking meter and smashed into the beer garden.

Mrs. Leonis, who was not reported as injured, was charged with reckless driving and driving without a driver's license, according to police. The front fenders of the automobile were bent and the front bumpers were damaged. It was reported that Mrs. Leonis, driving east on Third Street, had unsuccessfully attempted the turn south on Sanford Avenue.

ROBSON'S WINS

The Robson Sporting Goods Store in the City Softball League tripped the Mather aggregation by a 15 to 11 margin last night. It was announced today by Harry Robson.

A pro-war Japanese government monopoly controlled the growing of tobacco.

Come in! Come in!

See the amazing new **Thor AUTOMAGIC WASHER** "In the Flesh"

5 Big Powers See Hard Job Ahead For UN

Pledges Renewed On 2nd Anniversary; Ultimate Success For Body Forecast

LAKE SUCCESS, June 26, (AP)—The world's top-flight political leaders joined today in sounding grim warnings that the United Nations still faced a difficult and uncertain road ahead on this second anniversary of the world charter signing at San Francisco.

The warnings were voiced in recorded charter day messages broadcast to the world by President Truman, Prime Minister Attlee of Britain, Premier Ramadiah of France, President Chiang Kai-Shek of China and Deputy Foreign Minister Andrei A. Gromyko of the Soviet Union.

At the same time each of the representatives of the five big powers expressed conviction that the United Nations would succeed and pledged the world organization the full support of their governments.

President Truman, declaring that the U. N. so far "has gone forward in an atmosphere of disturbance and uncertainty," said the government and people of the United States were aware that realization of the organization's objectives "is not easy."

"They know that it is a continuing task," he said. "They will not be discouraged by temporary setbacks."

(Continued on Page Eight)

Schedules For School Term Are Discussed At Meet

Suggestions relating to schedules for the coming school year were made yesterday at a meeting of principals with Supt. T. W. Lawton, and it was recommended that schools in Seminole County open on Monday, Sept. 8, and that pupils register on Wednesday, Sept. 3. June 4 was the date suggested for closing of schools, said Mr. Lawton.

It was unanimously agreed that dress and other recommendations relating to school schedules be submitted for approval to the County Board of Public Instruction at the next meeting, said Mr. Lawton.

The State law requires 180 days of actual teaching exclusive of holidays. Mr. Lawton pointed out that holidays include Armistice Day, Thanksgiving and the Friday following the Christmas holidays from Friday Dec. 19 to Jan. 6. Good Friday and Easter and one day in the Spring, when teachers attend the meeting of the Florida Education Association, are also included.

The new law, said Mr. Lawton, requires teachers to be paid monthly for 12 months, but it also requires them to be on duty for 10 months. They therefore remain on duty until June 25, assisting the principals in work connected with closing of schools, unless ordered to attend summer sessions.

Teachers will then report for duty on Aug. 25 and will devote the two weeks prior to school opening to sessions with principals and supervisors in general preparation for the opening. A program is now being prepared for submission to the school board outlining duties of the teachers during the period, Mr. Lawton declared.

Benjamin Beach, 68, Died At Home Tuesday

Funeral services for Benjamin Beach, 68, who died Tuesday evening at his home in Sanford after an illness of five weeks, will be held Friday afternoon at 4:00 o'clock at the Erickson Funeral Home with Dr. E. D. Brown as officiating and the Rev. D. E. Thurston assisting. Burial will be in Lake View Cemetery.

Mr. Beach came to Sanford two years ago from Marietta, Ga., and purchased the home of the Rev. Clark. He was born May 26, 1879, in Sussex County, Va. He was a member of the First Presbyterian Church here and had membership in the Lake View Lodge, No. 100, of the I. O. O. F., and the W. F. Valentine.

Operating Costs Of Sanford Up 42 Percent In Five Years

"Work Or Fight" Law Advised For US Preparedness

Baruch Recommends Military Training, Brains, Brawn Pool

WASHINGTON, June 26, (AP)—Bernard M. Baruch called today for a "work or fight" law applicable to men and women alike as one of the "minimum" essentials to mobilizing America's "full might" in the event of a future war.

The white haired adviser to presidents in two world conflicts declared, however, that while this country faces a future that is "uncertain" it is "not alarming."

"I see no war with Russia as an immediate threat," he asserted in an address prepared for the first graduating class of the Armed Forces Industrial College.

But Baruch cautioned that "with the new instrumentalities of mass destruction, we will not have time to improvise" should war come again. Accordingly, he said, this country must be ready to mobilize its full might, "militarily, economically and spiritually."

To accomplish that, he said, (A) There must be universal military training, (B) "All men and women (must be) subject to mobilization with a work-or-fight clause" and (C) "Surveys must be made of underground industrial establishments, refuge for civilians and dispersal of populations."

"Until some effective international guarantee of security has been established or resort to war becomes a real possibility, we cannot disregard the dangers inherent in developing mass housing in cities," he said.

As for the "work-or-fight" clause, he said, "the same applies to business, industry and agriculture, including labor of all kinds. In other words, there should be a pool of all our manpower, brains and brawn, ready to be mobilized."

(Continued on Page Three)

Sanfordites Report On Montreal Weather

Extreme variations in temperature recently in Montreal, Quebec, were reported by Marcel Fallo and Mr. Fallo who have returned to Sanford after a two-month visit to Montreal, their former home.

"One day the temperature was up to 100 degrees in the shade," said Mr. Fallo. "The next day I had to wear a topcoat when it went down to 50 degrees." He stated that summer was late in Montreal, and that there had been much rain and unreasonable sort of weather.

Red Youths Diverted From Military Service

MOSCOW, June 26, (AP)—A decree published today directed that huge groups of Russian youths, previously subject to a military call up, be diverted to industrial training and service in the U.S.S.R.

The decree, dated June 19, was from the presidium of the Supreme Soviet and appeared in the journal of the Supreme Soviet. It stipulated that in the future boys 14 to 17 years old and girls 15 to 16 be mobilized for training in craft and railway schools.

Boys and girls 18 to 19 years old were mobilized in factory schools. Boys 19 were made subject to work underground in coal mines, in steel welding and other divisions of the metal and oil industries.

RAIN
Slightly more than two inches of rain fell between 8:00 and 7:00 o'clock last evening, according to B. F. Whitner, weatherman. The brought the June precipitation total up to 11.05 inches. Normal rainfall for June is 7.50 inches in the Sanford area.

DRY COUNTY LIQUOR
TALLAHASSEE, June 25, (AP)—The Tallahassee Elk club today obtained a temporary injunction preventing revocation of the liquor license under a recent Supreme Court decision holding illegal serving of liquor by clubs in dry counties. The suit was brought by Leo Foster, Tallahassee attorney and exalted ruler of the local Elk Lodge. No hearing has been set.

Wool Support Bill Is Vetoed By President

Measure Described As Blow To Campaign To Reduce Trade Barriers

WASHINGTON, June 26, (AP)—President Truman's veto today of the wool import restriction bill was his 76th veto since he entered the White House Apr. 12, 1945. It was his fifth this year. He vetoed 49 bills in 1946 and 22 in the 8 1/2 months of his 1945 incumbency.

WASHINGTON, June 26, (AP)—President Truman today vetoed the wool price support bill because he said it would have "an adverse effect on our international relations."

The measure would have continued government price on wool at present levels and authorized the President to boost tariff, or restrict imports if foreign wool or wool products pushed down domestic prices.

The enactment of a law providing for additional barriers to the importation of wool at the very moment when this government is taking the leading part in a United Nations conference at Geneva to reduce trade barriers "would be a tragic mistake," Mr. Truman said.

He added in a message to Congress: "It would be a blow to our leadership in world affairs. It would be interpreted around the world as a first step on that same road to economic isolationism down which we and other countries traveled after the first world war with such disastrous consequences."

"I cannot approve such an action," he said. "The CIO asked Congress today to act at once to prevent 'collapse of our economy.'"

Asserting that up to now "there has not been a single step" to halt rising living costs, the Labor organization contended that Congress has "worked in the opposite direction."

"I urge immediate creation of a federal investigation board to shed light upon the unwarranted levels of many prices," it said that "by the use of public pressure."

E. F. Housholder Talks To Jaycees On Unselfish Life

"Let's give more of ourselves than we are required to give in obtaining our livelihood. This giving should be to the community in which we live so that our city and country will be a better place in which to live," E. F. Housholder declared at the noon luncheon of the Junior Chamber of Commerce at the Mayfair Inn today.

"The man whose interest in his work is solely for a monetary purpose has completely failed to realize the purpose of his life," he asserted.

An example of working for community good was cited by Mr. Housholder. He stated that Sanford and the surrounding area is the outstanding truck farming center of the nation, and we are allowing the good earth to be covered with weeds. "Clean up those vacant lots and unused streets. This is one way of giving a little more for the community," he added.

Virginia Bennis was presented with a \$100 check on behalf of the Jaycees in order to sponsor her entry in the National Boring Meet which will be held shortly in Wichita Falls, Tex. Mrs. Bennis expressed her appreciation to the Jaycees for having confidence in her ability as a pilot and stated that she has complete confidence that she would return with several national records.

Brailley Odham, president of the Jaycees, expressed his appreciation on behalf of the organization to Raymond Beavers, local photographer, for his cooperation with the Jaycees during the past year.

Mystery Of Missing Chickens Nears End

Arrest last evening of William Palmer, 64 year old negro helper for the past eight years at the Cecil Flowers poultry farm on East Celery Avenue, is expected to clear up the mystery of many chickens reported by Mr. Flowers to have been missing from time to time from his farm, according to Sheriff Percy Mero.

Palmer is in County Jail pending his arraignment before Judge Warrs.

Mr. Flowers had previously reported to Sheriff Mero that from day to day, chickens were missing from his farm. Every day the aged negro was allowed to take chicken feed and gizards home in a bag, said Mero.

Wool Support Bill Is Vetoed By President

Measure Described As Blow To Campaign To Reduce Trade Barriers

WASHINGTON, June 26, (AP)—President Truman's veto today of the wool import restriction bill was his 76th veto since he entered the White House Apr. 12, 1945. It was his fifth this year. He vetoed 49 bills in 1946 and 22 in the 8 1/2 months of his 1945 incumbency.

Court Rules Curley Must Serve Sentence

WASHINGTON, June 26, (AP)—Mayor James M. Curley of Boston lost today his appeal for suspension of a six to 18 months jail sentence on small fraud charges, and must serve it.

Denying the appeal, Justice James M. Proctor said "I regard the case as ended as far as the (Curley) is concerned." He thinks he (Curley) should be committed to jail.

Curley's attorneys had asked for suspension of the sentence on grounds that he is in a "most serious and precarious physical condition." He left a Massachusetts hospital to come here and appear in court.

Proctor said that he had read the plea and affidavits attesting to Curley's ill health but made no comment in the court room upon them.

Doyle Said Physically Fit Prior To Fight

CLEVELAND, June 26, (AP)—The Cleveland Boxing Commission reported today that Jimmy Doyle was physically fit and ready when he entered the ring against Ray Robinson in the welterweight Championship bout that resulted in Doyle's defeat.

The report was prepared at the request of Mayor Thomas Burke at a special meeting called by Commission Chairman Andrew Putka.

Dr. A. F. Hagedorn, commission physician, gave his own testimony and that of other physicians that the 22-year-old Californian showed no injury of any kind before he entered the ring with Robinson.

SPORTSMEN TO MEET
All sportsmen of Seminole County have been requested to meet at the Tourist Center tonight at 8:00 o'clock for the third annual membership meeting of the Seminole County Sportsmen Association. Election of officers and a report of the accomplishments of the past year will be given.

Wool Support Bill Is Vetoed By President

Measure Described As Blow To Campaign To Reduce Trade Barriers

WASHINGTON, June 26, (AP)—President Truman's veto today of the wool import restriction bill was his 76th veto since he entered the White House Apr. 12, 1945. It was his fifth this year. He vetoed 49 bills in 1946 and 22 in the 8 1/2 months of his 1945 incumbency.

Asserting that up to now "there has not been a single step" to halt rising living costs, the Labor organization contended that Congress has "worked in the opposite direction."

"I urge immediate creation of a federal investigation board to shed light upon the unwarranted levels of many prices," it said that "by the use of public pressure."

FBI Is Requested To Investigate Shipyard Sale

WASHINGTON, June 26, (AP)—Rep. Risley (R-Ola), chairman of a House subcommittee on surplus property, declared today that he will insist that the Federal Bureau of Investigation investigate to the fullest extent the sale of the St. Johns Shipyard at Jacksonville, Fla.

Risley's declaration came during a verbal outburst aimed at Fred Weber, of Jacksonville, who was testifying in the subcommittee's own investigation of the sale to the Tampa Shipbuilding Co. for \$1,928,500 in February, 1946.

Weber testified that the late David B. Knapp, the Maritime Commission's resident engineer at the St. Johns Shipyard, was paid \$25,000 by him for Knapp's interest in a partnership they formed to promote establishment of a steel mill on the Jacksonville yards.

Weber now is an employee of the Florida Pipe and Supply Co., which is partially owned by L. E. Wolfson, a majority stockholder in the Tampa Shipbuilding Co.

"I want to tell you, Mr. Weber, that we are sometimes pretty glibly," Risley said, "but I'm not glibly enough to think that \$25,000 was paid to Mr. Knapp, who was an official of the Maritime Commission, because he was in on some promotional scheme."

"You ought to tell this committee the truth and tell the commission that you paid him that in connection with the purchase of this yard. It's as plain as the nose on your face."

Globe Circling Flight Stops Over In Japan

TOKYO, June 26, (AP)—American newspaper executives on a Pan American Airways' round-the-world flight talked over some of Japan's problems with Premier Tetsu Katayama and Foreign Minister Hiroshi Ashida today.

The globe-circling party landed at Hameda airport at 12:48 P. M. from Shanghai. Top American officials were on hand to greet them.

AFL Chief Rejects Strike Proposal To Protest Labor Law

1800 Evacuated In Des Moines As Level Is Broken

Record Flood Crest Reached By Two Converging Rivers

DES MOINES, June 26, (AP)—At least two persons were missing and 1,800 evacuated from their homes today as the raging Des Moines River smashed a two-block breach in a levee to flood about 30 square blocks in one area, poured into several other areas totaling another 30 blocks, then started receding slowly.

This capital city of 170,000 went through the unique experience of having its two major rivers reach flood crest simultaneously and set an all time record high stage at their Scott Street confluence a few blocks from the business district.

The rivers, the Des Moines and the Raccoon, had become swollen north of here after torrential rains of last week-end.

After the Raccoon poured its swirling, dirty waters into the abnormally large channel of the Des Moines, the crest moved menacingly south toward Red Rock, Eddyville, Ottumwa and Keosauqua - four communities already battered twice this month by record floods.

There was no immediate estimate of the damage caused by Des Moines' first big flood since 1944, but the U. S. Soil Conservation Service issued a report saying that soil erosion during the state's earlier June floods cost an estimated \$107,000,000.

The service said a survey showed 102,000,000 tons of topsoil had been washed from 5,000,000 acres of sloping land and that 600,000 acres of bottomland used for corn and soybeans had been flooded.

Volunteers, policemen, firemen, sailors, Coast Guardsmen and others elimated several days of work preparing for the flood by toiling all of last night - laying sandbags atop levees, plugging holes in dikes, removing lowland residents and their property.

The crowd of sightseers became so large early last evening that a curfew was placed in effect at 9:30 P. M., requiring all non-flood workers to get off the streets so that the job of pre-arranged cleanup could be started.

Molotov Arrives In Paris For Conference

PARIS, June 26, (AP)—Russia's V. M. Molotov arrived today for the three-power conference on American aid to Europe, while British and U. S. representatives reached "board and general" consultations over how European recovery can best be tackled.

An authoritative source in London reported that results from British-American talks which have been going on there for several days, with Under Secretary of State William L. Clayton and Ambassador Lewis W. Douglas representing the Washington viewpoint.

Prime Minister Attlee, reporting to the British Cabinet on these talks.

The cabinet met for the second day to hammer out a decision on Dutch demands for information of an interim government to rule the Indies until the United States of Indonesia becomes independent on Jan. 1, 1949. Announcement of the decision was expected late today or tomorrow.

Globe Circling Flight Stops Over In Japan

TOKYO, June 26, (AP)—American newspaper executives on a Pan American Airways' round-the-world flight talked over some of Japan's problems with Premier Tetsu Katayama and Foreign Minister Hiroshi Ashida today.

The globe-circling party landed at Hameda airport at 12:48 P. M. from Shanghai. Top American officials were on hand to greet them.

Mrs. Oveta Culp Hobby, vice-president of the Houston Post and former commander of the Women's Auxiliary Corps, got a special welcome from a WAC band directed by Capt. Eleanor Crawford of Baltimore.

The publishers and editors attended a cocktail party given by George Atcheson, Jr., American diplomatic representative here. They will see General MacArthur tomorrow.

Exams For State Scholarships Are Scheduled Soon

High school graduates who are interested in taking examinations for State offered scholarships are advised by Supt. T. W. Lawton to report to his office in the Court House within the next 60 days.

Examinations for State representative and Senatorial scholarships will be held at 9:00 A. M. July 11 at Seminole High School. House of Representative scholarships, valued at \$200 a year, require two years of teaching after graduation. Senatorial scholarships, however, carry no restrictions in regard to teaching, said Mr. Lawton, and have the same yearly value.

Due to a revision of the law governing the operation of ships, restrictions limiting attendance to state supported institutions have been removed, and the scholarship students may attend any accredited college in Florida, Mr. Lawton pointed out.

There are four houses of Representative scholarships available to white candidates in Seminole County, one for a freshman girl, another for a sophomore or junior college girl. There are also vacancies for one sophomore boy and one senior boy.

In Senatorial scholarships there is an opening for one freshman girl, one freshman boy and one upper class boy.

Four Seminole County students, Walter Schnabel, Jr., Don Warren Shaffer, Edith Chastnut and Marie Floyd, are now studying under House scholarships. Ruth Largent, George James Cox, Mary Olive Totten and Emma Jewel Rumbly, Jr. are students under the \$400 a year Lewis Scholarships.

Colored pupils working under Lewis Scholarships are Gertrude Collins, Juanita Graham, Mildred Patterson and Elmer Jenkins.

C O F C SUGGESTION

TAMPA, Fla., June 25, (AP)—A plea for the Florida State Chamber of Commerce to abandon its "propaganda" tactics and plan a constructive program recognizing the financial needs of the State was made at the quarterly meeting of the chamber's board of directors here today by A. Y. Milam of Jacksonville, its president.

GAME CALLED
The softball tilt scheduled to be played between Homer's Grill and Robson Sporting Goods has been called because of wet grounds.

FEDS RELEASE MOTTLE
Ernie Mottler, Sanford Colery Fed catcher, has been released by the Sanford Baseball Association, George Touhy, business manager, announced this afternoon.

Agreement Is Signed For UN Capital Site

LAKE SUCCESS, June 26. (AP)—Secretary of State George Marshall today signed an agreement with the United Nations to grant the irrevocable status for the site of the permanent world capital site along the East River in midtown New York.

The agreement, which was signed by Marshall, is a preliminary step in the process of securing the site for the United Nations. The agreement provides that the U.N. should decide to undertake the project.

The site, which is about 100 acres in size, is one of the most beautiful and centrally located in the city. It is situated on the East River, and is bounded by the city of New York to the east and the city of New Jersey to the west.

The agreement also provides that the U.N. should have the right to purchase the site at a price to be determined by the U.N. and the city of New York. The agreement also provides that the U.N. should have the right to build the permanent world capital on the site.

"Work Or Fight" Strike Proposed

(Continued from Page One)

On the political front, Green said the AFL and CIO probably will have parallel objectives, but that does not mean the AFL plans to create a separate political action committee like the CIO's.

Previously the AFL, through its general counsel, Joseph A. Paddy, had served notice that some provisions of the law will be challenged promptly in the courts.

The AFL, through its general counsel, Joseph A. Paddy, had served notice that some provisions of the law will be challenged promptly in the courts.

The July 5 conference of AFL presidents will consider a program to deal with the Taft-Hartley Bill and the international of officers and attorneys will explain to the various union heads how the new Labor relations act will affect them.

"If they refuse," he said, "we will not overcome an enemy who has designed a War against us."

Bundy's preparatory program, which he said "should be placed upon the statute books, ready to be used," includes these additional recommendations:

1. An industrial plan ready to go into effect with full control of production, distribution and sale.

2. An organization to report on the status of the economy and to make recommendations to the public.

3. An organization to report on the status of the economy and to make recommendations to the public.

5. Retention of war plants, particularly synthetic rubber, and other war material in demand by other nations and to buy the things our military needs or desires to keep from getting into the hands of our enemies.

6. Information and propaganda organized, coordinated and continually improved to be ready when action demands.

Fire Damages Large Georgia Crate Mill

BAINBRIDGE, Ga., June 26. (AP)—Fire destroyed three main buildings of the Georgia Crate Company, largest fruit crate manufacturer in the nation, today and a fourth warehouse was burning.

The flames broke out at 10:09 A. M. and quickly raised buildings housing most of the firm's machinery.

The plant, owned by J. M. Simpson, is reported to employ 500 persons. Only one person was injured, Allison H. Miller, who was overcome by heat.

Fire departments from Bainbridge and Cairo reported difficulties in reaching the plant's water supply, located in the center of the blaze, and reported "pumping water from the nearby Flynn River.

Deputy Sheriff Huey L. Leubber reported that firemen were overcome by heat in fighting the fire which attracted thousands of persons.

The factory is located on the outskirts of Bainbridge. Officials from the Great Falls Paper Co. are expected to buy the plant.

Approximately 40,000 members of the Industrial Union of Marine and Shipbuilding Workers (IUMSW) went on strike today at 10:30 A. M. at the yard of the Bethlehem Steel Corp. in Baltimore, Md.

The work stoppage came after negotiations between the union and Bethlehem collapsed yesterday.

The yard, which was struck by the union's contract expired at midnight, are owned by the Bethlehem Steel Corp. at Baltimore, Md.

Beauty Notes

AP News features Beauty Editor Betty Clarke's advice on how to stay in the country during the summer. She says that women should wear light-colored, short-sleeved dresses that are water resistant, odor proof, and easy to wash. She also says that women should wear hats and sunglasses to protect themselves from the sun.

Clarke also says that women should wear light-colored, short-sleeved dresses that are water resistant, odor proof, and easy to wash. She also says that women should wear hats and sunglasses to protect themselves from the sun.

BEACH FLORIDA John Foley, 48, ran half a mile through the streets of the city early today to a hospital, his clothing aflame after an assault on a woman.

Police said Foley told them his assailant, a big man, became infuriated when Foley tried to resist robbery and dashed him with lightning fluid, then ignited his clothing with a match.

CURRENCY SLUMPS China's national currency, the dollar, fell to a new low of 50,000 to one American dollar today, while another report circulated in Shanghai financial circles that the government would revise this week its unworkable official rate of 12,000 to one.

BIBLE VERSE FOR TODAY

LET THEM THAT DO BEWARE. THEY ARE PRECIOUS TO GOD: With thou also destroy the righteous?—Gen., 18:23.

It is a rather significant fact that while Sanford's municipal operating expenses have gone up, its tax millage has gone down.

There may be some difference of opinion as to the ban on the closed shop, but there is no argument whatever that the people of Florida, when they voted the ban into their State Constitution, started something which has spread over the entire country. Five other states have since enacted similar laws of their own, and now the Taft-Hartley labor bill contains a nation-wide prohibition against the closed shop. It remains to be seen what the Supreme Court will do about it.

People of the South are frequently condemned throughout the North for their Bourbon attitude toward the colored race, but it has remained for a New England couple, a Mr. and Mrs. Alfred Ingalls, to be charged in court with re-instituting slavery. Not since the Civil War has a more flagrant case of holding a person in involuntary servitude come to light than the subjection of this 57 year old woman to more than 30 years of household labor which she sought to avoid.

Senator Holland and all of Florida's six representatives voted to override the President's veto of the Taft-Hartley labor bill. Senator Pepper took an outstanding, if not the leading, part in the fight to prevent the bill from becoming law. According to Washington Merry-Go-Round, it was Florida's Pepper who called a meeting in his office with various labor leaders to put the heat on the President to get him to make another last minute appeal to Congress to uphold his veto. They convinced him that if the Democratic party didn't uphold the veto, a Third Party would be formed.

General Everett Hughes, the Army's chief of ordinance, said the next world war is coming fast, will occur much sooner than anyone thinks, and when it comes, he adds, it will be fought in America. How soon it comes, General Hughes should know, depends on how well prepared America remains to fight back. You don't pick a fight with Joe Louis, neither do aggressor nations wage wars deliberately against those that can whip them. The next world war will occur, and will occur only when the people of America go back to sleep placing their trust and faith in something other than their own strength, courage, and resourcefulness.

General Eisenhower has accepted a position as president of Columbia University, following the tradition of General Robert E. Lee who became president of Washington and Lee University after he laid down his sword at the close of the War between the States. It is a mighty good tradition to follow. General Grant went into politics and was thoroughly discredited and smeared, a fate which is feared by all our great military leaders. Others have turned to big business and have been similarly tarnished in the eyes of the public. But in the halls of our institutions of higher learning, there should be a place for competent administrators of the Army and Navy where they can keep their reputations intact.

The Pilots Speak

Pilots, the men ultimately responsible for aviation achievement and failure, have spoken publicly about the recent fatal crashes of commercial planes. Through President David L. Behncke of the Air Line Pilots Association, they have challenged the Civil Aeronautics Board's findings of pilot error in two of three recent major disasters. They state that:

"The pilot is holding the bag at all times for mistakes made by everyone in connection with a flight, such as careless loading, mechanical and instrument unreliability, inaccurate weather forecasts and ground navigational failures."

Certain technical improvements in plane construction and landing field facilities as well as in flight instruments are included in the association's official recommendations. The president added that the pilots already had submitted all such suggestions to Congress, many of them to the C.A.B. and to manufacturers.

The pilots are well within their rights in pointing out to the traveling public that progress cannot be made by "inscribing pilot error on tombstones." The tragic accidents of the last few weeks show a need for intensive study by government and private agencies entrusted with all phases of commercial air travel. Safety in the air must be the goal of all such efforts. And the pilots who fly the planes should be listened to.

How To Get Housing

Speaking at the American Lumber Congress in Chicago, Ira Mosher, an executive of the National Association of Manufacturers, came out with the statement that people want housing, not excuses, and if they don't get them from private industry, they will get them from government.

He blamed industry and labor alike for pricing the building industry out of the market, and condemned feather-bedding, unfair zoning laws and discrimination against pre-fabricated houses. Veterans are well acquainted with the facts, Mosher said, that the war was won by mass-production methods, and are unable to see why the same ideas are not applied to building.

It is a well-known fact that nothing so inspires people to whole-hearted co-operative effort as do war-time conditions. There is no reason why all the human elements in the housing shortage cannot be fused in a clean flame of enthusiasm for decent homes for all the people of this country.

Shocking The Japanese

The "Mikado," Gilbert and Sullivan's popular operetta, is to be performed in Japan under Japanese sponsorship. Before the war it was banned there because of its satire on the emperor, which struck Japanese officials as being in poor taste and even blasphemous.

Lately American players produced it in Japan for Allied groups. The few Japanese who saw it were shocked at its irreverent treatment of a ruler whom they were taught to consider sacred.

That Japanese themselves are now undertaking to sponsor the "Mikado," indicates a surprising change of attitude. And if the emperor's former subjects come to enjoy the fun poked at themselves, they will indeed be well on the way to a healthy democracy.

Ice Skater Starts World-Wide Congress

By MEL MOST

PARIS—A petite, blonde professional ice-skater from New York is spearheading a drive for a worldwide congress in 1950 to adopt an international constitution.

Blue-eyed, Viennese-born Trudy Schneider was graduated from New York's Hunter College and interrupted her American ice-skating career to become a traveling missionary for world federation. Calmly announcing plans for the world congress, she said:

"If the governments won't do it, we'll conduct plebiscites in each country to elect the delegates."

Miss Schneider, 24, an American-born former figure skater, is skating at the age of five. She kept it up in New York with the "Ice Vanities" of 1940-41, at the Center Theater at Rockefeller Center from '41 to '44, at Cincinnati's Hotel Netherlands-Plaza from the next season and then in the St. Regis Hotel back in New York. Meanwhile she was majoring in philosophy and psychology.

Last year, she said, she decided "the world is skating on thin ice." With her skates in her baggage she set out on the eighth month of a university speaking tour of Western Europe for the student section of the newly born United World Federalist headquarters in New York.

The plan for a world constitutional convention, she explained, originated privately with Henry Osborne, Labor member of Parliament, who expected to lead off with a campaign book to be published jointly with two dozen other MPs of every party, in a few weeks. They hoped to line up 10,000,000 signatures behind the British delegate to the world constitutional congress.

After it's held, Miss Schneider said, "our job will then be to go back and work to get the constitution ratified by each government."

Russia, she said, "will be kept informed" of everything the movement is doing and invited to come in. She thought the Soviet might accept if it saw there was no thought of directing the federation against anybody, but if it doesn't, "we'll go ahead without Russia."

Winston Churchill's would-be United States of Europe could be "a member country but not a substitute."

A preliminary first congress of the World Movement of World Federal Government, formed in Luxembourg last Fall, will be held the week of August 17 at Montreux, Switzerland, where Miss Schneider expects to end up her tour.

She said there would be delegates of the new movement from "at least 20 countries" of Europe and the Americas, including Germany, and observers would be invited "from every country in the world."

Miss Schneider has been drum-

Newsprint Shortage Is Felt By Congress

WASHINGTON, June 26, (AP)—If the paper shortage doesn't ease up soon, Congress members may find it advisable to cut down on their speech-making. The Appropriations Committee informed the House of this dire prospect today.

It said the government printing office reports it is getting just barely enough newsprint paper to print the Congressional Record and has no chance for increased supplies. The record prints the speeches and proceedings in Congress.

A special session of Congress, printing officials said, might lead to a "great difficulty" in printing the record. Fewer speeches would save money. The officials told the committee it costs an average of \$71 a page to print the record.

Bumper Grain Crop Reported In Russia

MOSCOW, June 25, (AP)—Glowing reports of the prospects for a bumper crop continued today to pour in from the great grain growing areas of the Soviet Union.

Newspaper dispatches indicated that the weather has been favorable everywhere since the beginning of June, and reports from some districts declared that local quotas for the harvest of winter grain already had been exceeded.

There has been no suggestion anywhere of drought nor of any serious dislocation in harvesting arrangements.

Among interest for the Montreux congress, she has toured Britain, France, Belgium and Holland and conferred with student leaders from Norway, Sweden, Denmark, Switzerland, Luxembourg and Italy.

The new movement, she said, "has mushroomed up" everywhere. In France, where it was organized last fall, she said "more than 1,000 French students are now actively participating," most of them University of Paris graduate students who have "carried the cause" to student centers throughout France and to North Africa.

In England, she said, "almost every university center" has organized branches. In Holland, from which she just returned, after speaking at the universities of Leyden, Utrecht and Amsterdam, it had attracted "ardent backing from Dutch youth who fought in the underground."

"Almost every tendency is represented, except out-and-out Communists," she said.

Miss Schneider, who has not been back to Vienna, said she found that the peoples who had suffered most from the war "realize most strongly something must be done to stop another one." But she added with a sigh, "they're also the most cynical."

Violations Of Game, Fish Laws Increase

TALLAHASSEE, June 26, (AP)—Florida arrests for violation of game and fish laws increased more than 35 percent last month, the State Game and Fresh Water fish commission reported today.

State wildlife officers made 320 arrests during May, compared with 237 in April.

Nearly half the arrests were for fishing without licenses, 13 percent were for taking under sized bass, 9 percent for fishing during closed season and 6 percent with netting and trapping fish.

Chinese General Hold War Council

PEIPING, June 26, (AP)—With gunfire clearly audible, 40-ranking Nationalist generals in north China and Manchuria began gathering here today for an emergency war council with Generalissimo Chiang Kai-Shek.

Residents were awakened by heavy early morning gunfire from a Communist Nationalist clash along the Peiping-Pootung rail line just south of the city. Military sources said the Reds were attempting to destroy the railroad.

During World War II about 50 billion eggs a year were produced in the United States.

Social And Personal Activities

Social Calender

THURSDAY
The Seminola Rebekah Lodge No. 43 will entertain with a dinner at Lormann's at 6:30 P. M. honoring Mrs. Norma Maason of Arcadia, president of the Florida Rebekah Assembly. Following the dinner a business meeting will be held at the I. O. O. F. hall at 8:00 P. M.

The Fannie R. Munson Piano School presents Miss Nancy Aline Williams in a certificate piano recital at 8:15 P. M. The recital will be given in the studio at 903 Myrtle Avenue. All members of the Cecilia Music Club and friends are cordially invited to attend.

Open house will be held in honor of Rev. and Mrs. J. E. McKinley from 7:00 until 10:00 P. M. at the home of Mrs. M. L. Wright, 718 Magnolia Avenue. The public is cordially invited to attend.

A party will be held at the Legion Home Altamonte Springs Community House at 8:00 P. M. All members, friends and the public are invited to attend.

FRIDAY
The Townsend Club will meet in the Tourist Center at 8:00 P. M. Members and visitors are invited. Refreshments will be served. Cards and checkers will be enjoyed during the social hour.

TUESDAY
The Daughters of Wesley Class of the First Methodist Church will hold their business and social meeting at 8:00 P. M. at the home of Mrs. C. P. Herndon, 903 Magnolia Avenue. Mrs. Herndon's group will be the hostesses.

Russell Young Weds In Wichita, Kan.

Friends of Russell Young, son of Mr. and Mrs. Russell L. Young of Wichita, Kan., will be interested to learn of his marriage to Miss Dorothy Steele, daughter of Mr. and Mrs. W. J. Steele of Wichita. The marriage took place on June 12 at the home of the bride's parents and was performed by Dr. J. Henry Hornum, pastor of the Plymouth Congregational Church.

The bride wore a dress of imported white eyelet embroidered linen with a shoulder bowtie of white and blue. Her veil was American Beauty rosebud. She was attended by Mrs. W. H. Huber who was groomed in a toast-colored linen dress with a corsage of white carnations.

Dennis R. Young served his brother as best man. An informal reception followed the ceremony.

Mrs. Young was graduated from North High School this Spring and is assistant editor of the student publication, "North Star" and associate editor of the school annual. Mr. Young is associated with the Valley Seed and Feed Company in Wichita. He attended school in Sanford and Lake Wales, Fla. and has lived in Sanford at intervals during the past several years. He took radio and radar training at Oklahoma A. and M. College and advanced training at Navy Pier in Chicago. He served 16 months in the South Pacific on the Carrier Yorktown.

Personals

Mr. and Mrs. John Irey and Mr. and Mrs. Harry Tooka have returned from spending about ten days in Havana, Cuba.

Mr. and Mrs. Theo Stiles and daughter, Hazel and Betty, have returned from Hancock, Mich. where they visited Mr. and Mrs. Douglas Fenske. Mrs. Fenske is the former Evelyn Stiles.

Mr. and Mrs. Ernest Galloway who were recently married, have returned from a wedding trip in North Carolina and New York and are making their home at 2442 Mellonville Avenue.

Mrs. George McCall and Mr. and Mrs. John L. Ragan returned on Sunday from spending a week in Georgia. Mr. and Mrs. Ragan expect to arrive to spend the weekend with Mr. and Mrs. McCall.

Frederick Rosseter left yesterday for Boston to visit his sister and brother-in-law, Mr. and Mrs. William Norman. Before returning to Sanford he will visit with his brother and family, Mr. and Mrs. A. K. Rosseter, Jr., in New York City.

Mr. and Mrs. Joe Saunders and children, Barbara and Joan, have returned from spending a vacation at various points of interest in Florida. Mr. Saunders, who is the manager of the Margaret Ann Grocery Store in Sanford, visited Margaret Ann Stores throughout the state.

Jean Alberla Whigham Becomes Bride Of Donald Randall Jones On June 25

Jean Alberla Whigham, daughter of Mr. and Mrs. Porter Franklin Whigham, became the bride of Donald Randall Jones, son of Mr. and Mrs. Thomas William Jones, in one of the most beautiful weddings of this season in the First Baptist Church on June 25 at 8:30 o'clock.

Dr. W. P. Brooks, Jr. officiated while the couple exchanged their marriage vows in front of a large assemblage of friends and relatives. White carnations, alstroemerias and white burning-tapers were used in decorating throughout the church. The ceremony was performed in front of a background of asparagus fern, Cocco Plumosa palms and the white gladioluses. At each end of the altar were banks of the gladioluses and greenery. White candles were placed in all the stained glass windows. The family pews were marked with white gladioluses tied with white satin ribbons.

Miss Margaret Davis, organist, rendered a program of nuptial music and softly played "The Lord's Prayer" and "Benedicamus." The traditional wedding marches were used.

The bride, who entered the church on the arm of her father, wore a gown of white allover satin which featured a lace yoke outlined with a bias band. The gown was trimmed with long pointed sleeves and a full skirt which extended into a long train. She wore a full-length veil of illusion which fell from a tiara of orange blossoms and her bouquet was of white roses and white carnations. Her only jewelry was a strand of pearls, a gift of the groom.

Her attendants were her sister, Miss Elizabeth Whigham, maid of honor, Miss Kathryn Wiggins, Miss Helen Robinson, Miss Margaret Davis, Miss Catherine Sawyer, Miss Margaret Dingfelder, and Miss Martha Perkins.

Late in the evening the couple left for their wedding trip. For traveling Mrs. Jones wore a light blue gabardine suit with a white blouse and hat and white accessories. Her corsage was a white orchid. After a honeymoon spent in North Carolina and Kentucky, the couple will make their home at 2001 S.W. 2nd Avenue.

Florida Girl Featured

Diene Van Dusen, 16 year old Cypress Gardens Aqua-Maid, is featured in five pages of Life magazine. This week in a swim suit story made at Daytona Beach, Martha Mitchell, Jane Strickland, Nancy and Sammie Stillee are the other Gardens girls used in the seven page story.

Beauty Notes

AP Newsfeatures Beauty Editor Betty Clarke writes: You may be one of those lucky creatures who brown easily in the sun. But even if you do, necessary precautions should be taken to prevent coarsened skin texture, a peeling nose, sun-parched lips and little aquit lines that show white beneath your opening tan. Equip yourself with a little beauty beach bag. Throw in your sun lotion, a softening lanolin cream and a protective lip pomade.

It is always wise to use a sun lotion before exposing yourself to the sun's rays. You can usually gauge the amount of time you can safely spend in the sun by your complexion tone. The darker the skin, the more pigmented it contains to help prevent burning. Fifteen minutes in the beginning should be about right for brunettes. Fair-skinned lassies should limit their exposure. Five minutes at a time is the best way to start if you don't want to look like a boiled lobster. Try to get the backs of your legs in the act without setting those behind-the-knees blisters.

Even after you've acquired a nice golden tan, don't stay as long in the glare that you begin to feel headachy.

Make it an inflexible rule to ward off the aging effects of exposure to the sun and wind by lubricating your skin religiously. The more about your eyes and mouth will need a rich drying cream. When you come out from the sun wipe your face with a tissue and apply a homogenized cream. It should make your skin feel soft and pliable. Save a bit of it to use on your lips before applying your lipstick. During the summer months it is well to apply a thin film of cream to your face before going to bed. This habit will help prevent your skin from looking parched and dry.

The maximum duration of an eclipse of the sun during the 20th century, is 7.3 minutes.

Dependable Class Met With Mrs. Herron

Mrs. R. W. Herron entertained members of the Dependable Class of the First Methodist Church for their regular monthly meeting at her home on the Country Club road. The meeting was held on Monday evening at 8:00 P. M. Mrs. R. F. Cole led the opening services after which routine business was transacted.

Following adjournment of the meeting refreshments were served by the hostess assisted by Mrs. R. Wallis to the following: Mrs. Cole, Mrs. W. M. Kirby, Mrs. H. A. Appleby, Mrs. Porter Lansing, Mrs. Burke Steele, Mrs. J. M. Leonard, Miss Nell Williams, Mrs. Nancy Brock, Mrs. F. M. Hoven, Mrs. Wallis, Mrs. O. K. Gaff, Mrs. Roscoe Taylor and Mrs. Herron.

Correct Luggage Is At Last Available

AP Newsfeatures: Happy days are here again—Mr. and Mrs. America can once more take to the open road or the busy deep, and when the correct luggage for their trip at last is available, after a wartime disappearance.

Prices which have made good luggage practically prohibitive for the last five years, are on the way down, and a little penny shopping around should bring you good values in vacation baggage this year.

Since wartime shortages curtailed luggage manufacture drastically, most styles now available are strictly new in design, with a number of improved features, according to the Luggage and Leather Goods Manufacturers of America. The train box is the latest addition to the luggage field, being a square case with space for cosmetics and overnight necessities. The combination hat-and-shoe case also is newly popular, providing space and protection for a complete hat-and-shoe wardrobe, the problem items of most packing.

In the men's field, handbags, rucksack, saddle leather, hand stitched and fitted with brass hardware, is by far the favorite for luggage, and the pet style of the traveling man is the two-suitcase case, with hangers for two suits and space for a week's supply of shirts and socks. For longer trips there is the fortnighter, which holds about twice as much, and for short trips there is the overnighter, with space for pajamas, shaving supplies and an extra shirt.

High style in women's luggage is white rawhide, tough and handsome, which may be bought in concealing color. Also popular is airplane luggage in colorful lacquered canvas with leather bandings and brass hardware.

Luggage produced by reliable manufacturers usually is plainly marked as to the type of leather used—top-grain cowhide, saddle leather, genuine rawhide and so on. It is important to read these labels carefully, to see if coverings are real or simulated leather.

Among new items on the post-war market are aluminum cases, and a wide range of plastic and coated fabric cases. Some plastics look amazingly like leather, and are said to wear well.

But good leather still is the choice of most travelers, and it is back on the market once more in handbags arrays still higher in price than before the war, but within reach of average budgets.

Rev. Mrs. McKinley Will Be Honored

Members of the First Methodist Church will entertain on Thursday in honor of their pastor and his wife, Rev. and Mrs. J. E. McKinley, who are celebrating their third year with the Sanford church. The open-house will be held at the home of Mrs. M. L. Wright, 718 Magnolia Avenue. All members of the church, friends and the public are invited to attend. Hours are from 7:00 until 10:00 o'clock.

Mrs. McKee Honors Mrs. S. J. Davis, Jr.

Mrs. C. E. McKee honored Mrs. S. J. Davis, Jr., a recent bride, with a miscellaneous shower at her home recently. The room at the McKee home was decorated with colorful summer flowers.

Games were enjoyed by the guests and prizes won by Mrs. J. P. Thurmond. Dainty sandwiches, coffee, Coca Cola and salted nuts were served following the games.

Those invited to be with Mrs. Davis were Mrs. O. D. Landress, Mrs. LeRoy Estridge, Mrs. R. T. Johnson, Mrs. Sunson Kinlaw, Mrs. M. J. Jones, Mrs. W. E. Vance, Mrs. J. P. Thurmond, Mrs. S. J. Davis, Sr., Mrs. Raymond Kader, Mrs. H. E. Morris, Mrs. C. H. Winn, Mrs. J. L. Lee, Mrs. Naomi Hester, Mrs. Pearl Hegler, Mrs. W. E. Kader, Mrs. John Kader, Mrs. R. G. Hickson, and Mrs. D. G. Holland of Titusville.

Also the Misses Vera Woodcock, Geraldine Hurd, Mary Edna Landress, and Betty Thurmond.

Truth Seekers Meet At Church Annex

The Truth Seekers Class of the First Methodist Church held its monthly meeting on Monday at 3:30 P. M. in the church annex with Mrs. J. B. Crawford presiding. Mrs. W. S. Thornton presided over the opening ceremonies.

Members all brought gifts to make up a box to send to their past president, Mrs. Nellie Vaughan, and each wrote a get well wish to enclose in the package. Resolutions were read for Mrs. Abbie Ware. Following adjournment of the business meeting a social hour was enjoyed with Mrs. T. W. Williams, Mrs. Emma Abrams and Mrs. R. T. Cronshaw serving as hostesses. Refreshments were served by Mrs. C. L. Goodhue, Mrs. C. F. Ellis, Mrs. J. F. Risser, Mrs. A. D. Shoemaker, Mrs. R. M. Mason, Mrs. Williams, Mrs. L. I. Shigohler, Miss June Waddell, Mrs. Olive Wells, Mrs. C. C. Priest, Mrs. W. P. Chapman, Mrs. Ella Irick, Mrs. J. P. Bolton, Mrs. Zada Lewis, Mrs. Nettie Ellis, Mrs. Emma Abrams, Mrs. Crawford, Mrs. G. H. Harber, Mrs. T. E. Wilson, Mrs. Cronshaw, Mrs. W. B. Thornton and Mrs. Martha Moffitt.

Mother's Should Urge Early Beauty Routine

AP Newsfeatures Beauty Editor Betty Clarke writes: Little girls enjoy acting like their big sisters. You will find youngsters of three or four making off with Mom's lipstick, or powder puff at any opportunity. And a better treat than a lollipop is pink stuff applied to their nails.

A young mother will encourage her youngster with guidance of course, in her desire to look pretty. Habits formed as a child often last through a lifetime, so when a child is young, the good habits will be developed.

Dr. child objects to bathing frequently, she should explain to her that is the time to imitate her mother's attractive little girl as she becomes a glamorous beauty.

Get her some fancy bath brush, hair brush and hair cream. Show her how to rub herself dry with a towel to prevent chapping. Try to encourage her to have her hands clean and encourage her from biting her nails by giving her a simple manicure occasionally. If she insists on polish, apply a coat of colorless liquid to her nails, explaining that when she gets older she will have plenty of time for the colored polishes.

Ruby Peters Lindsey Weds Frederick Bauer

Announcement is being made today of the marriage of Mrs. Ruby Peters Lindsey, daughter of Mrs. V. T. Peters and the late Victor Peters of Geneva, to Frederick Bauer, son of Mr. and Mrs. Frank Bauer, Sr. of Sanford. The ceremony was performed by Rev. W. P. Brooks, Jr. at the First Baptist Church of Sanford at 8:00 o'clock on June 21. Attending the couple were Mr. and Mrs. Philip Morris of Winter Park, Mr. and Mrs. Bauer plan to make their home in Geneva.

The amount of nicotine in tobacco ranges from two to five per cent.

Fire Ball

NEW YORK, June 26. (AP)—John Foley, 48, ran half a mile through the streets of this city early today to a hospital, his clothing aflame after an assailant ignited it.

Police said Foley told them his assailant, a big man, became infuriated when Foley tried to resist robbery. Foley was with lighting fluid, then ignited his clothing with a match.

Currency Sleams

SHANGHAI, June 26. (AP)—China's national currency slid widely to a new low of 53,000 to one American dollar today, while unconfirmed reports circulated in Shanghai financial circles that the government would revise this weekend its unrealistic official rate of 12,000 to one.

Feds In Palatka Tonight; Twin Bill Here Tomorrow

Feds Drop 5 To 2 Contest To Cs Last Night; Lake Gives Up 2 Hits

GAINESVILLE, June 26 (AP)—The Gainesville G-Men capitalized on five Sanford Celery Fed errors to cop a 5 to 2 tilt from the visitors despite Buddy Lake's masterful two-hit hurling performance here last night.

The G's did not score an earned run. The four run uprising in the fourth was a result of the two Gainesville hits and three Fed boots.

Tonight the Sanford aggregation invades the Azalea Bowl in Palatka to play the A's in a single tilt. Tomorrow the Feds return to their own Municipal Park for a twin bill with the Palatka aggregation, and is scheduled to get under way at 6:45 o'clock.

Big Bill Stanton is slated for mound duties against the A's in Palatka tonight with Carl Kettles and Johnny Tomant getting the nod for the hill assignment tomorrow evening.

Stewart Trips A's For DeLand, 6 To 1

Hal Stewart, former Celery Fed righthander, hurled three hit ball for the Palatka A's back by a 6 to 1 count.

In Orlando the Senators drubbed the Leesburg Pirates in a lopsided 12 to 2 tilt.

The St. Augustine-Daytona Beach contest, scheduled to be played in St. Augustine, was washed away.

The line scores: 000 000 011 2-3-4
 Orlando 003 210 20 6-9-4
 St. Augustine 000 000 001 1-3-2
 DeLand 110 010 12 6 10 0
 McGahagan and Toneyoff; Stewart and Steineke.

COMMENTS from the SIDELINES

"D" LEAGUE PAY
 We recently read a report that girl softball players, if they are good enough, and pretty enough, are being paid \$100 a week in leagues in Chicago, whereas a Class D baseball player is lucky if he comes out of a complete season with as much as \$1,000.

In simple words, if those girls play 20 weeks of softball, they can pick up twice as much as the better paid Class D Florida State League players.

This doesn't seem exactly right to me.

SELLERS AT AUBURN
 Clarence Sellers, outstanding Ketterlinus High School athlete, has enrolled at Auburn for the summer session, it has been reported.

Sellers has been awarded an athletic scholarship at the Alabama school, and by attending the summer classes will be eligible to participate in grid antics this fall.

The St. Augustine athlete, who graduated this month, was an outstanding player in football, basketball and baseball.

HERE 'N THERE
 We see that Don Ricketson has signed to play with the DeLand Red Hats. We wish him well with the University City aggregation. . . . DeLand is now claiming that even though Ross is considered a veteran player, they have never carried more than three players of that type on the roster at any one time this season. . . . Masou Leeper, Gainesville southpaw, must have set some sort of record, the other night when he chucked a one-hit performance and allowed 18 free ducks in getting trounced by an 8-to-3 margin by the Daytona Beach lalets. . . . Myrl Hoag is really "shaping up" as one of the league's best hurlers. He has registered several victories thus far in the 1947 Florida State League campaign. . . . Benny Kahn, sports editor of the Daytona Beach News Journal says that Bill Stanton is one of the best righthanders in the FSL.

UNIVERSITY OF FLORIDA GYMNASIUM

THE UNIVERSITY OF FLORIDA'S GYMNASIUM is fast becoming a reality as construction continues at a rapid pace. Top aerial view shows general area where gymnasium will be located (arrow) while bottom picture shows construction in progress. When completed the gymnasium will be one of the most modern plants of its kind and will house offices and classrooms of the College of Physical Education, Health and Athletics, as well as provide complete recreational and training facilities for the student body.

Joe DiMaggio Leads Poll For All-Star Contest On July 8

CHICAGO, June 26 (AP)—Joe DiMaggio of the league-leading New York Yankees was still leading today as the All-Star baseball poll conducted by 193 newspapers, magazines and radio stations neared its end at midnight tonight.

Final returns, which will decide the fans' starting lineups for the 14th annual all-star game in Chicago's Wrigley Field July 8 will be announced Sunday.

DiMaggio, the Yankee's center-fielder who has tallied 608,454 votes, was followed by Enos Slaughter of the St. Louis Cardinals with 593,924 for the left field position. Ted Williams of the Boston Red Sox was in third position with 581,227 while Lou Boudreau, manager-shortstop of the Cleveland Indians, was fourth with 569,456. Johnny Mize, New York Giants first baseman, trailed Boudreau with 554,12.

Paraguay is about the size of California.

Victory National Tourney To Open Today In Chicago

CHICAGO, June 26 (AP)—The professional golfing phalanx today wades into the \$15,900 Chicago Victory National Championships at the Westward Ho Club.

The 72-hole stroke play tourney, won the past two years by the now retired Byron Nelson, will afford an opportunity for such performers as leading money-winner Jimmy Demaret, Ben Frank Shea, Yankees, blanked the Indians 3-0 with three hits for his third shutout and his ninth win against two defeats.

Walker Cooper, Giants, slammed his fifth home run in four days and singled twice to drive in four runs as the Giants licked the Cubs 9-3.

Hindu custom forbids a wife to utter her husband's name.

National Soaring Contest To Attract Many Record Holders

WICHITA FALLS, Tex., June 26 (AP)—Robert F. Blaine, director of the 14th annual National Soaring Contest, checked the entries today and found that every holder of an American record except one would be here July 4 through 20.

Also competing will be last year's National Champion and at least three National Champions for years prior to 1946. Also, the British Champion, Charlie Wingfield, and the French Champion, Eric Nessler, will accompany teams from their countries.

Blaine declared that there would be more high-performance, airplane pilots than ever before assembled in the United States, for the meet here.

John Robinson of Millport, N. Y., is the defending U. S. champion; he also holds the U. S. distance record, 290 miles, for cross-plane planes. J. Shelly Charles of Atlanta, Ga., owns the one-place altitude title, 19,434 feet; Paul Tuntland of Los Angeles holds the two-place altitude mark of 18,770 feet; Richard Johnson of Burlingame, Calif., holds the two-place distance record of 314 miles, and Mrs. Virginia Bennis of Sanford, Fla., is woman's distance champ with 37 miles. Robinson also won the U. S. Championship, which is earned on total points in 1940 and 1941.

World Trade Figures For 1946 Disclosed

ATLANTA, June 26 (AP)—Southeastern ports cleared 19,535,416,260 pounds of cargo valued at \$672,019,915 in world trade last year, Regional Director C. Parker Persons of the U. S. Department of Commerce said today.

Although the 1946 figures included imports and exports by air for the first time, Persons said, the total value was \$34,666,515 under the 1945 record.

Miami, Fla., exported by air last year 12,170,054 pounds of cargo worth \$59,023,179 and imported 4,383,812 pounds valued at \$18,342,373, the regional director said.

CARD OF THANKS

We take pleasure in thanking our many friends of Sanford for the co-operation in behalf of our pastor, Bishop George A. Wallace of the Church of God, observing his 6th anniversary which was held June 15-22. We wish to thank every participant on the night of June 19 for the beautiful songs, both choir and solo. I am sure they will be long remembered in the Church of God.

Unknown Italian Net Star Makes His Bid For Wimbledon Crown

WIMBLEDON, June 26 (AP)—Gianni Cuculli, a smiling, stocky net star unknown before the Wimbledon championships, seeded Jack Kramer's bid to win the men's single crown.

In a third round match Cuculli, who himself doesn't give a hill of beans, gave his chances of upsetting the California ace, sets his first match on one of the show courts, No. 1.

Until this tournament began very little was known of the standard of Italian tennis, which was blacked out in international competition until this year. But Cuculli has, in singles and doubles, played well enough, to suggest he will give the American star a game.

As the men's singles took the spotlight again, eighth-seeded Bob Alkenburg of Los Angeles was slated to meet C. F. O. Lister of Great Britain; Torsten Johansson of Sweden, who has not yet lost a game, tangles with J. Asboth of Hungary; second-seeded John Bromwich of Australia is scheduled to meet Bernard Parmetram of France, and Jasoslav Drohny of Czechoslovakia is pitted against Poland's W. Skonecki.

The Argentine champion, Enrique Morea, suffering from an injured right shoulder, is scheduled to meet Jacques Peden of Belgium.

The defending team of America's Margaret Osborne and Louise Brough touched off the women's doubles event.

Today's play included Murray Delorand and Mrs. T. Kenyon of Britain vs Lennart Bergelin of Sweden, and Doris Hart of Miami, Fla.

Kovacs Begins Quest For Title Today

PHILADELPHIA, June 26 (AP)—Top seeded Frank Kovacs, the so-called "Tennis Clown," today is expected to begin his quest for the Middle State Professional Grass Court Tennis Title, two days after the journey began.

Meanwhile, two players, fourth-seeded Wayne Sabin of Mt. Washington, N. H., and Elwood Cooke, New York, smashed their way into the quarter-finals.

Sabin eliminated Henry Quinn, New York, 6-0, 6-1, and Robert (Junior) Ritchey, Miami, Fla., 6-2, 6-2, yesterday. Cooke defeated Vincent Richards, commissioner of the newly formed World's Professional Tennis League, 6-3, 6-2.

Kovacs is scheduled to play Ed Mentana, New York, in singles and the team with Fred Perry, Miami, Fla., in doubles competition.

All opening doubles play, Cooke and John Faunce, Hollywood, Calif., eliminated Harold Dunsmuir, Boca Raton, Fla., and Robert Koolin, New York, 6-2, 9-7.

A Chinese coffin made of planks now holds three may weigh as much as 700 pounds.

setbacks or delays. The enterprise which was launched in San Francisco two years ago is the hope of the world for lasting peace.

The CIO, added that if "increased foreign demands for food, clothing and machinery and crop failure continue this will require that we re-establish price control and a rationing program."

Emil Rieve, a CIO vice president, presented the organization's economic program in a statement prepared for the joint congressional

will find itself sufficiently strong to overcome defects in its operation so as to become a real and effective weapon in the struggle for peace and security of all the peoples of the world."

Chiang Kai-Shek recalled that at the San Francisco conference China had declared the nations of the world must not hesitate to delegate a part of their sovereignty to the U. N. He said China still held this view and actually had become the only nation in the world to write into its constitution a pledge to uphold the charter.

Attlee urged his listeners not to pay too much attention to the controversial discussions in the Security Council, and thereby overlook the constructive work with which the United Nations is performing in the economic and social fields.

"Nor must we expect immediate results from this great experiment," he continued. "The world has still to recover from the wounds of six years of total war, but, if we can all unite in peace as we did in war and put our faith in the United Nations and determine to make it work, I am confident that it is our best hope for ensuring peace for ourselves and our children, and for increasing the general welfare of mankind."

Ramadier said the U. N. had grown "despite the difficulties which divide the nations in their exceptions and immediate interests, despite the multiple difficulties which delay, postpone and modify the work."

Nearly all budgets call for greatly increased expenditures for next year than were approved for the current fiscal year.

The board approved a budget of \$739,000 for the State Judiciary although the legislature had appropriated only \$585,300 for the next year. Budget Director Homer G. Graham explained the Constitution requires expenses of the courts to be met, even if there is no appropriation, and said a deficit would result at the figure set by the legislature.

Other major budgets acted on today included: Game and Fresh Water Fish Commission -- estimated available from fees and federal funds \$1,393,000. Budget commission released \$1,078,000 -- which is \$377,000 above its recommendation to the legislature.

Governor Caldwell commented the game board "has not done a good job up to this point. It may be because they have been handicapped for lack of money and personnel. They are making a earnest effort."

Secretary of State -- released \$106,086 and reserved \$14,440. State Comptroller Operations -- released \$1,290,036 and reserved \$102,265.

State Board of Health -- released \$1,551,469 and reserved \$193,500 of exclusively State funds, released \$1,591,500 in federal money and \$1,934,000 in county health unit funds without setting up reserves.

Crippled Children's Commission -- released \$322,916 and reserved \$70,600, including a \$45,000 special legislative appropriation for care of spastic paralyses.

Florida State Hospital -- released \$3,956,578 and reserved \$98,830.

Florida Farm Colony -- released \$218,750 and reserved \$12,500 contingent fund set up by the legislature.

Florida State Prison at Raiford -- released \$63,700 and reserved \$372,163.

It was left to Eisenhower to make the disquieting disclosure that other countries already are trying to sell arms to Latin America. He declined to amplify. Of course the point of wholesale standardization is that the United States would be the arsenal for the entire Western Hemisphere in event of an attack directed against both continents. No other nation is equipped industrially to cope with such an emergency. Any nation which isn't a party to the standardization program would be unable to defend itself, and therefore would be a weak link in the chain.

Eisenhower said that complete cooperation between the United States and Canada is imperative. This is true because in the event of another war one of the first moves of the enemy would be an air attack on the industrial centers near the Great Lakes.

Military experts learned invaluable lessons regarding standardization during both World Wars. There were times when lack of coordination between the allies like England and France was damaging. The same was true among some of the German allies, but in both conflicts Germany had a considerable degree of standardization among its followers.

Hitler achieved this through the simple expedient of forcing small countries to accept outmoded German armament in barter trade for the foodstuffs which the fatherland needed. Once a country was equipped with German arms, it had to secure ammunition and replacements from the Fuehrer's arsenals.

Of course it takes more than standardization to turn the trick. You must have resources and that's what America still has. Apropos of resources and Ger-

paring for the high water could continue.

The hardest-hit single area in the city was a north-central section known as the Franklin Area. There the Des Moines River punched a hole two blocks long in a levee spreading four feet of water over a 30-block section of homes and small businesses. As far as could be learned by Coast Guardsmen who toured the area, all inhabitants of the section had moved to safety before the break.

New Layoffs Threatened In Key Industries

Steel Mills Curtail Operations As Ten-Day Vacation Begins For Coal Miners

By ASSOCIATED PRESS
 New layoffs in key industries were threatened today in the wake of this week's work stoppages in the nation's soft coal mines which have made idle more than 250,000 workers.

Stockpiles of coal have dwindled since mines started closing Monday as miners walked off their jobs in protest of the Taft-Hartley law. With all mines to close for 10-day vacation starting tomorrow, there was no hope of adding to the stockpiles.

Steel mills have curtailed operations and there were layoffs of some railroad crews. In Detroit, Chrysler Corp. and the Briggs Manufacturing Co. announced plans to lay off 28,500 workers because of a shortage of steel.

As the coal miners not already away from their jobs prepared to start their vacation there was no indication that they would be ready to return to work on July 6. The government relinquishes control of the 2,500 mines in 22 states on June 30 but the operators and the AFL-United Mine Workers have not signed a wage contract. The union follows the policy of "no contract, no work."

Officials of the CIO Marine and Shipbuilding Workers Union predicted a slump of all Atlantic and Gulf shippings next week, making idle 150,000 workers. More than 80,000 members of the union went on strike yesterday against 10 East Coast shippings, nine of them operated by the Bethlehem Steel Co. The walkout followed a contract dispute.

America Faces Dilemma Over Disastrous Civil War In China

China Fails To Qualify In Time For U.S. Loan

By DEWITT MACKENZIE
 AP Foreign Affairs Analyst
 When I was in China four and a half years ago this column recorded that impartial observers generally believed the "terrible" civil war between the Communists and the Generalissimo Chiang Kai-Shek's Nationalist government must run its bloody course, until one side or the other was knocked out.

It seemed clear that the divergence between Communism and any other form, political, economic or religious, was too great to be bridged by negotiation. It was the old story that oil and water don't mix.

That was during the war. The United States then was giving the Chinese government material help in the struggle against Japan. Later General George Marshall, aided by other American officials, spent long months trying ineffectually to compose the internal differences which rapidly were wrecking the world's most populous nation, one of the Big Five.

Since then things have raced madly from bad to worse. And now, having explored every visible avenue in an effort to aid our friend, Washington today is feeling a dilemma. Trying to move either side in the civil war with advice or argument is like hollering down an empty rain-barrel. Loans of money are now on a hot stove.

What more can America do to save a nation which not only is her friend but whose welfare is vital to world peace and prosperity? Bestowal of further credits and loans apparently would do little but would only add to the debt which the nation has accumulated since the war.

The position in China is truly catastrophic. Fierce fighting continues between great Communist and Nationalist armies in Manchuria, and the government forces are hanging on by their teeth to this richest section of the empire. The conflict is flaming.

French Cabinet Attempts To End Strike Crisis

PARIS, June 27 (AP)—Premier Paul Ramadier's non-Communist cabinet meets today to try to end strikes of 350,000 coal miners and bank employees, two in a series sapping the authority of Ramadier's government.

Striking Paris department store employees, meanwhile, were reported ready to return to their counters unless management balked at paying them for lost time during their walkout. They were scheduled to vote today on whether to accept a government-union accord giving them a wage bonus.

10 Found Disloyal In State Department

WASHINGTON, June 27 (AP)—The State Department announced today that "at least ten" of its employees have been "fired" recently because of suspected disloyalty to the United States government.

Press officer Lincoln White described it as "a very recent declassification." White told reporters he was unable to furnish additional details but it was understood the employees were dismissed under congressional authority granted to the State Department in its 1947 appropriations.

A clause introduced by Senator McCarran (D-Nev.) gave the Secretary of State "absolute discretion" to discharge any workman "whenever he shall deem such termination necessary or advisable in the interest of the United States."

Final Distribution Of Racing Tax Made

TALLAHASSEE, June 27 (AP)—Comptroller Clarence M. Gay today announced distribution of \$5,500 to each of Florida's 67 counties as their final allotments from the State racing tax during the 1946-47 season.

The checks brought the total each county received for the year to \$90,800. That is far above the \$23,000 guaranteed them by the State law, but below the record \$98,000 each received last year.

Receipts from the 8 percent basic tax on all bets, placed at dog and horse tracks and pari mutuel frontons is divided equally among the counties. Receipts from the extra 5 percent tax on horse bets and 5 percent on dog bets goes to the Old Age Assistance program in the counties. \$32,000,000 guarantee is met.

Transportation In St. Louis Is Resumed

ST. LOUIS, June 27 (AP)—Streetcars and buses resumed service today, ending a 14-day strike that had paralyzed public transportation facilities in the area of more than 1,000,000 people.

An agreement settling the strike was signed early today by officers of the public service company and the Transit Workers Union. The first buses and streetcars began their runs at 5:00 A. M., Eastern Standard Time.

Change Considered In Communications Act

WASHINGTON, June 27 (AP)—Cotton Lewis, Jr., radio news commentator, suggested today that a bill be introduced in Congress to amend the Communications Act.

Lewis offered this as a substitute for a provision of pending legislation which calls for the identification of the source of information used to serve broadcast news. He gave his views to a Senate subcommittee subcommittee considering a bill by Senator White (R-Mo.) to amend the Communications Act.

Lewis said the source identification section represents "a very commendable intention to try to correct certain weaknesses, and unfairness and inequities which have crept into the law."

Sudden Death

Mrs. Harry Kudell was informed yesterday afternoon of the sudden death of her brother, Henry Curtis of Newport, Ky. Mr. Curtis had been ill only two weeks ago.

Britain-U.S. Want Aid Plan Outside UN

2 Nations Agree Germany's Potential Industry Should Be Pillar Of Scheme

PARIS, June 27 (AP)—Foreign ministers of Russia, Great Britain and France started consideration today of an European economic recovery program linked with American aid. There was no official indication of the Russian attitude toward the "Marshall Plan" but the British and French have welcomed the proposal of U. S. Secretary of State Marshall.

Installation Of Officers Is Held At Lions Meeting

W. O. Livingston, chief clerk of the Sanford district Lions Club, was installed as president (King Lion) of the Sanford Lions Club by District Governor-elect Hoke Johnson of Daytona Beach at the barbecue held last evening at the Seminole Country Club.

Richard Deas, Dick Elsberty and Cliff Ables were installed as first, second and third vice-presidents respectively; J. Hamilton Bihee as secretary; J. N. Robson, Jr. as treasurer and Jack Morrison and Doyle Swann as directors; A. L. Skinner was named present to receive the title of "Lion Tamer."

Judge Owen Roberts Urges Training Law

WASHINGTON, June 27 (AP)—Former Supreme Court Justice Owen J. Roberts, urging prompt enactment of a universal military training law, told Congress today that the United Nations "never will be a security organization."

Roberts expressed belief, before the House Armed Services Committee that the UN has opportunities to serve as a center for the nations of the world to discuss their problems.

But, he said the UN was "doomed" to failure from the start as a security organization because it was not a security organization, the United States, Great Britain and Russia can prevent it from functioning effectively.

For this reason and because of the necessity for the United States to look to its own security, Roberts told the committee that Congress must lose no time in enacting necessary defense legislation.

Gate At Airport Is Damaged By Wreck

The main gate at the Sanford Airport was knocked loose and thrown for some distance shortly before 10:00 o'clock last evening by the impact of a new 1947 Chevrolet sedan, driven by Leon Hardwick of West Palm Beach, according to Police Chief Roy G. Williams, who said that Hardwick had been arrested charged with drunk driving and had been released on \$201 bond, pending trial in City Court.

The Chevrolet, damaged in front and side, was carried to Ratcliffe's place.

Appropriation Bill Is Passed By House

WASHINGTON, June 27 (AP)—A compromise \$12,402,485,071 appropriation bill for the Treasury and Post Office Departments for the fiscal year starting next Tuesday was passed today by the House and sent to the Senate.

The total is \$14,455,700 more than originally voted by the House and \$26,520,734 less than the Senate had approved. The bulk of the money is for the Treasury Department and includes such fixed charges as interest on the national debt.

The House accepted at the last minute a Senate provision for a study of tax enforcement by the joint committee on internal revenue taxation, with a report to be made to Congress not later than next Jan. 1.

Line Of Succession To Presidency Okeyed

WASHINGTON, June 27 (AP)—The Senate today passed, 60 to 35, legislation suggested by President Truman to place the Speaker of the House next in line for the Presidency in the absence of a Vice-President.

The present speaker is Joseph Martin (R-Mass). The bill now goes to the House which approved similar legislation in the last Congress. Under its terms, the president will be in line after the House Speaker with Cabinet members following in order after the Secretary of State.

HALF HOLIDAY

Beginning on Saturday, the First Federal Savings and Loan Company will close Saturday afternoons at 1:00 o'clock during the summer months, company officials announced today.

Tragedy In Boxing Ring

Challenger Jimmy Doyle lies flat on his back after a left to the jaw by welterweight champion Ray (Sugar) Robinson just before the end of the eighth round in championship fight in Cleveland. Doyle is unable to answer the bell for the ninth round and died in Cleveland's Charity Hospital Wednesday.

Installation Of City Receives Airport Property Deed From WAA

Deed of conveyance to the 425 acres of land, runways, buildings and improvements on the portion of the Sanford Naval Air Station property classified as a public airport was received from the War Assets Administration and approved by the City Commission at a special meeting held yesterday afternoon, H. N. Sayer, city manager, revealed today.

The deed of conveyance, dated June 24, 1947, was received from Lyle T. Prichard, deputy regional director. The property, said Mr. Sayer, is conveyed subject to reservations, restrictions and conditions that it will be used only for operation as a "public airport."

However, until, in the opinion of the Civil Aeronautics Administration, the property is needed for public airport purposes, any particular structure transferred under

Gerhart Eisler, No. 1 Communist, Gets Jail Term

WASHINGTON, June 27 (AP)—Gerhart Eisler, Communist, today drew the maximum federal court penalty of a year in prison and \$1,000 fine for contempt of Congress.

Federal District Court Justice Alexander Holtzoff passed the sentence after denying a motion for a new trial and a dramatic plea for mercy from Eisler, who has been described in Congress as the "No. 1 Soviet Communist" in this country.

Eisler was convicted June 10 of contempt in refusing to take an oath for testimony before the House Committee on Un-American Activities last Feb. 6.

In his plea for leniency, Eisler said he was a European anti-fascist political refugee. He loudly protested that he was "a victim of a witch-hunting hysteria in this country, instigated and encouraged by the Un-American Activities Committee."

Justice Holtzoff said he was imposing the maximum sentence because Eisler during the trial "showed an attitude of defiance and no disposition to cooperate with the congressional committee."

"It is apparent that this defendant does not respect the institutions of this country," the court declared.

MacArthur Urges Jap Supervision For Generation

TOKYO, June 27 (AP)—General MacArthur told visiting American newspaper executives today that Japan should be "supervised" for a generation, perhaps with the aid of American bombs and fighter planes.

The Allied supreme commander mentioned possible supervision by the United Nations, but at the same time, he was quoted as indicating that a "great sweep of our airpower" from Okinawa bases could protect—or supervise—Japan.

That MacArthur meant American airpower was suggested by another statement which hinted he favored United States retention of Okinawa and the Ryukyus, formerly part of the Japanese empire.

The group of publishers and editors here on the Pan American Airways' inaugural world flight spent three hours with the five-star commander. A member of the party—J. Loy Maloney, managing editor of the Chicago Tribune—gave the Associated Press a report on MacArthur's views on various phases of the occupation.

While advocating generation-long supervision, MacArthur said he did not believe the military occupation of any country should last fewer than three years, more than five years. Little good could be accomplished in less than three years, he said, but he feared effects of an occupation beyond five years.

As in March, 1947, statement to correspondents, MacArthur urged a quick peace treaty and abolition of what he called the "old order."

Porter H. Lansing Is Re-Elected As Sportsmen Head

Porter H. Lansing was elected for the fourth time as president of the Seminole Country Sportsmen Association at its annual membership meeting held last evening at the Tourist Center.

John Melch was elected as vice-president, Elmer Knight, Jr. as secretary and George Stine as treasurer. W. E. Jamison was re-elected as custodian. Four directors were chosen, R. A. Frank and Jack Russell for the first time, and Charles Brown and R. Lanning were re-elected.

In appreciation for his aid and legal counsel during the past three years the Association awarded a life membership to George A. Speer, said Mr. Lansing.

A resolution concerning activities of local commercial fishermen, offered by J. A. Howard, was deferred to the next meeting.

More than 20,000 fingerling bass, and 7,500 blue gill sun fish have been secured and placed in county lakes, and applications are in for additional fish which are expected shortly, Mr. Lansing told the group in his report of current year activities of the Association. Four hundred quails were secured and released.

He also informed the group that considerable work had been made to improve the game warden situation. Other projects include past and present efforts to clear the Welkiva River of logs and hydrachina.

Improvements at Mullet Lake Park include the opening of the park, placing an outdoor eating shack and table therein, erection of signs showing the location of the park, and the construction of rest rooms, he reported.

The cooperation of the Game and Fresh Water Fish Commission has been secured in seeking the site for a fish hatchery in the county, he declared.

Other actions reported by Mr. Lansing were: approving a legislative program and sending delegates to nearly all meetings of the Game Commission and Florida Wildlife Federation in the interest of better hunting and fishing. Considerable assistance was given the Federation in its program of organizing at least one sportsman's club in each county.

Drivers' Licenses

State highway drivers' license examiner, W. W. Evans will not be in Sanford tomorrow as previously announced. He was at the Court House today and will return next Tuesday from 2:00 P. M. to 5:00 P. M.

National Guard Chief Submits Resignation

WASHINGTON, June 27 (AP)—Maj. Gen. Butler B. Miltonberger of Nebraska will retire as head of the War Department's National Guard Bureau soon because of ill health.

Secretary Patterson, reporting this today, said Miltonberger will be succeeded by Maj. Gen. Kenneth P. Cramer of Wethersfield, Conn.

Patterson told reporters during a White House call that Miltonberger has been ill for several months. Asserting he has been a "very valuable man," the secretary said he regretted the guard chief must retire.

Gate At Airport Is Damaged By Wreck

The main gate at the Sanford Airport was knocked loose and thrown for some distance shortly before 10:00 o'clock last evening by the impact of a new 1947 Chevrolet sedan, driven by Leon Hardwick of West Palm Beach, according to Police Chief Roy G. Williams, who said that Hardwick had been arrested charged with drunk driving and had been released on \$201 bond, pending trial in City Court.

The Chevrolet, damaged in front and side, was carried to Ratcliffe's place.
