River Project Funds Okayed By Committee

\$200,000 Appropriation Would Give 12-foot Channel To Trenton, N. J.

The number one project of the Seminole County Chamber of Commerce, securing of a 12-foot navigation channel from Palatka to Sanford on the St. Johns River, has received further impetus by announcement from Washington that the House Appropriations Committee has recommended an appropriation of \$200,000 to add to the \$300,000 previously appropriated for a 10 foot channel, according to Edward Higgins, chamber manager.

Contracts already have been awarded to deepen the channel to 12-feet from Palatka south to Astor, said Mr. Higgins. At present the channel is eight feet deep. This work is due to start in August.

By combination of the two projects and doing the work at the same time, also in view of the low bid already received for the work, the total of the two appropriations, \$500,000, is considered sufficient to dig the 12-foot channel. Originally this cost was estimated at \$763,000, which would have required a \$473,000 additional appropriation, declared Mr. Higgins.

Army engineers, however, recently amended that the \$473,000 appropriation be reduced to \$200,000 and stated that the latter amount (Continued on Page Three)

Inquiries About Florida Answered With New Booklet

More than 7,100 inquiries a month, received from persons interested in Florida, in response to its advertising campaign, are sent by the Florida State Advertising Commission to various chambers of commerce, among them the Seminole County Chamber of Commerce, Edward Higgins, secretary, revealed today.

These inquiries ask about locations in Florida, its climate, homes and possibilities of employment, investment opportunities, industry, agriculture, advantages for retirement and other phases of Florida life.

"Further what interest in the state's recreational, home and business and farming opportunities, the State Advertising Commission sends to the inquirers an attractive booklet of 48 pages containing many illustrations in color and supplying much statistical information.

The forefront of the booklet describes "fun in the sun," fun on the water, "fun in the water," fun on the beach, on the fairways and courts, fishing fun, etc. Economical and health advantages of Florida are portrayed, and attractive pictures of homes, schools and churches are shown. A folding map shows highway routes and scenic points including San Lando Springs and the Big Tree are pointed out in small illustrations, with lines indicating their location on the map. A smaller map points out main rail, highway, air and water routes to Florida.

The citrus industry and vegetable growing sections are shown, and an attractive view of a Sanford celery field at harvesting time is shown. Other views show livestock with statistical information, views of the fishing industry, of mining, lumber and the booklet gives much practical business and industrial information. Florida is pointed out as America's fastest growing state with a population increase of 29.2 percent between 1930 and 1940.

In reply to the inquiries received here the Chamber of Commerce sends a card asking the inquirer to write for detailed information. When further inquiry is received, an advertising kit is sent to the inquirer. This kit includes a booklet with color illustrations, a map of Seminole County, a St. Johns River trail map and special pamphlets relating to agricultural, fishing, recreational advantages of this section, together with statistical information.

RAINFALL

Total rainfall to date for June is 12.71 inches, an excess of 5.33 inches above the normal of 7.38 inches for the month, according to E. F. Whitner, weatherman. Another hard rain today would bring the total up to that of June, 1946, when more than 13 inches of rain were recorded.

China Faces Paradox Of Waging War In Order To Forge Peace

Chiang Kai-Shek Orders All-Out Fight With Reds

Complete Mobilization Of Manpower, Resources Directed

By HAROLD MILKS
NANKING, June 30. (AP)—Chiang Kai-Shek and leaders of his Kuomintang party agreed today on complete mobilization of the nation's manpower and resources to battle Chinese Communists in China's civil war, an informed source said. The decision was reached at a five-hour closed session.

One government leader said the action "means simply we are taking off our gloves and really fighting the Communists hereafter with no holds barred."

Chiang appeared before the high policy-making bodies at large-scale Nationalist reinforcements in Manchuria entered still-smoking Szepeikang, battered by a 17-day siege of now-retreating Communist troops.

However, a Mukden dispatch from Associated Press Correspondent John Roderick reported government capture of Szepeikang, a rail city between Mukden and Changchun, said the Communists still appeared to retain the offensive in southern Manchuria with a new thrust reported developing from Jehol province to the North.

The Kuomintang decision to turn the government's full power on the Communists followed by two days the U. S. agreement to sell 130,000,000 rounds of rifle ammunition to Chiang Kai-Shek's government.

The decision must be approved by the multi-party State Council, an informed source reported. "Information" from minority party members.

The mobilization order, it was learned, will include provisions to try to revive national spirit of Chiang's fighting men by educating them on why they must defeat the Communists.

YMCA Camp Leaders, Advisors Selected

Leaders and advisors for the YMCA sponsored Camp Winona, opening July 14-26, have been selected for the Seminole County group of some 60 boys who will attend, it was announced today by Herman E. Morris, who is directing activities for the 22nd time.

Chum Stanley, graduate of the University of Florida, will direct first-aid and life saving activity; Ray Fox, Jr., a student of Auburn University, will aid at the water front; H. F. Ganna, former Navy officer, will handle the rifle range; Robert Cranston, also of the Navy, will have charge of the camp fire program.

Spencer Harden, high school graduate, will help with the athletic program; Bill Herndon (Army veteran) will have charge of the Junior camp. He will be assisted by James Lawton of Bob Jones College.

Plans have been completed for securing groceries and serving meals to the boys at the camp, said Mr. Morris.

Bobo Mero Receives Navy Commission

Bobo Mero, son of Sheriff and Mrs. Percy Mero, recently received his commission as Midshipman at Ottumwa, Iowa, and was flown to Pensacola Friday to begin his Naval flight training.

He joined the Navy two years ago in October on his 17th birthday, and attended the University of South Carolina where he got a V-5 rating. He was then released from active duty to attend Stetson University, and was recalled back to active duty during the middle of this month.

Liner Queen Elizabeth Breaks Crossing Time

NEW YORK, June 30. (AP)—The liner Queen Elizabeth arrived today, clipping one hour and 18 minutes from her previous westward transatlantic crossing time.

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
This column drew attention Friday to the crisis in China's life and death struggle, and concluded with the observation that "doctors don't abandon a patient without giving him the benefit of every possible treatment."

Well, the doctors in Washington once more have devised an emergency treatment for the sick man of Asia.

The United States has agreed to sell Generalissimo Chiang Kai-Shek 130,000,000 pounds of surplus rifle ammunition for his hard pressed troops in their fierce war with the Chinese Communists. Chiang's government also has been authorized to purchase other military supplies from private American manufacturers. And the Export-Import Bank has announced that it will consider lending money to China for specific projects.

That seems like the logical remedy to try at this juncture. It's logical because, while China's needs are many and diversified, she considers her essential requirement right now to be the willingness to defeat the Chinese Communists.

I realize that this assertion is strong mustard and gives rise to the question of why defeat of the Communists should be placed ahead of, say, further reforms in the national government with the idea of winning over the Reds peacefully. Must the Chinese political quarrel be settled on the battle-field?

We discussed a partial answer to this briefly in Friday's column. It is that there is no possible compromise between Communism and any other political belief on the face of the earth. No country could be past something and part something else. It's that cardinal fact which rapidly is dividing the globe into two camps which are at world point politically, economically and religiously.

However, that isn't the whole story by a long shot. There's another highly important angle to which Catholic Archbishop Paul Yu-Pin drew attention yesterday at Nanking in a statement calling for American aid. He declared that China's civil war actually is a "foreign war."

He added that unless the United States gave assistance, "she herself may be the next victim," and China may become the birthplace of World War III.

The significance of the Archbishop's remark about a "foreign war" is that it is a "foreign war" (Continued on Page Two)

Britain Will Slash Imports During Year

LONDON, June 30. (AP)—The Chancellor of the Exchequer, Hugh Dalton, announced today that Britain would cut imports of tobacco, gasoline and newspaper during the year beginning tomorrow to conserve her shrinking dollar supply.

In addition, Dalton told the House of Commons, he would ask Parliament for authority to put an import duty on motion pictures, if necessary, to economize in foreign exchange.

Mr. Dalton said a severe shortage of dollars was developing "in almost all parts of the world."

"In particular," he added, "our own line of credit under the Anglo-American loan agreement is being drawn upon much more rapidly than we expected. It is our clear duty to take further steps to close the gap between our necessary imports and our exports."

Transport, Freighter Collide Off Nantucket

BOSTON, June 30. (AP)—The 7,500 ton Army Transport St. Albans Victory and the Danish Freighter Bolivia, collided in fog-bound waters off Nantucket today and the transport's crew of 70 and 10 troops and a woman were taken to lifeboats in modern seas, the Coast Guard reported.

Loaded lifeboats from the fast sinking transport were sighted by a fishing boat as fog began to lift at the crash scene 60 miles off Nantucket.

The St. Albans Victory master reported pressure from water in the hold was threatening to break up her bulkheads. The ship crashed about 17 miles southwest of the Nantucket Lightship and both suffered "extensive damage" with a seven foot tear in the bow of the Bolivia.

Britains Fear New Violence In Palestine

JERUSALEM, June 30. (AP)—A highly placed informant said all British troops in Palestine were ordered back to their barracks today, apparently in fear of new violence following the slaying of four soldiers over the weekend.

French Plot For Revolt Is Thwarted

Plan Of Right-wing Group To Throw Country In Civil War Is Disclosed

By LOUIS NEVIN
PARIS, June 30. (AP)—France announced today that her secret police had thwarted a sensational plot by a Right-Wing underground organization calling itself the "Black Maquis" to overthrow the Fourth Republic in a civil war next month and establish a military dictatorship.

Existence of the Black Maquis was disclosed by Interior Minister Edouard Deprieux, who unfolded a tale of conspiracy and intrigue which would do credit to a dime novel.

The ministers described the organization as "very widespread" and said that widespread resistance leaders and "possibly part of the French Army" were implicated.

At least six persons have been arrested, he said, including General Guillaud, inspector-general of the national gendarmes.

Deprieux declared at a news conference that the Black Maquis was made up of Right-Wing resistance leaders, monarchists and Vichy collaborators who had drawn up a "blue plan" of military action which called for a march of Paris by armored units. The maquis was the term commonly applied to the French underground fighters against the Nazis.

Political observers immediately recalled the "Cagoulaire" (thunder) plot against the Third Republic in 1946 and 1947, which also occurred when the government was plagued with social unrest.

One of the final arrests, that of the final arrests, those implicated in the Black Maquis plot, Deprieux said, were Major Jean-Germain Lestienne and Major, well-known resistance leader who admittedly belonged to the "Cagoulaire," an anti-Leftist organization.

Globe Circling Plane Nears End Of Flight

SAN FRANCISCO, June 30. (AP)—Fifteen of the nation's leading editors and publishers were on the last leg of their flight around the world today, agreed to today by what they have seen in this 21-day journey that this is not yet "one world."

That thought was expressed by Edwin D. Canham, editor of the Christian Science Monitor, as the group arrived here yesterday from Honolulu.

"The rapidity with which we interviewed national leaders in war-torn countries made this journey clear," Canham said. "I am convinced that we are sure that the enterprise of democracy is just as vital an export item as necessity of life."

The round-the-world plane, the Pan American clipper America, was greeted by a large crowd as it landed at the San Francisco airport. The editors and publishers were rushed to a reviewing stand where some of them spoke briefly before they hurried to San Francisco for a round of official entertainment before being started on their cross-country hop back to the starting place in New York.

D. C. Morgan Died In Jacksonville Saturday

FUNERAL SERVICES for D. C. Morgan, former resident of Sanford, who died Saturday evening at a Jacksonville hospital after a brief illness, will be held Tuesday afternoon at 2:00 o'clock in Jacksonville.

For a number of years Mr. Morgan was a mechanic at the Atlantic Coast Line Railroad Shop here. He later worked for the Ocala Lumber Company there with the Seaboard Railway in Jacksonville until several months ago.

He is survived by the wife, Mrs. Hilda Morgan of Jacksonville and three daughters, Mrs. Fonda Marzetti and Mrs. E. Bales of Sanford and Mrs. Joyce Gilhouse of Jacksonville.

PENSIONERS

WASHINGTON, June 30. (AP)—The House today voted \$39.0 for a 20 percent increase in pensions payable to Spanish-American Civil War, Boxer Rebellion and Philippine Insurrection veterans and their widows and children. The senate has not yet acted. Present rates range from \$40 to \$100 monthly.

Cites U. S.-Canada Joint Plan

ARMY CHIEF OF STAFF Gen. Dwight D. Eisenhower (right) chats with Fleet Admiral Chester W. Nimitz (left) and Rep. Chas. A. Eaton, chairman of the House Foreign Affairs Committee, in Washington, after Eisenhower had testified the U. S. and Canada are making joint plans for defense against possible air attacks "in the vicinity of the Great Lakes." The general appeared in behalf of the proposed inter-American military cooperation act to furnish arms to American countries (International)

Reds Decline To Disagreement Is Give UN Estimate Keynote At Paris On World Police Ministers' Meet

U. S., Britain, France Suggest 1,000,000 To 3,000,000 Men

LAKE SUCCESS, June 30. (AP)—The United States recommended to the United Nations Security Council today that the proposed world police force include 20 divisions of ground troops, 3,000 combat planes, three battleships and six carriers.

Political observers immediately recalled the "Cagoulaire" (thunder) plot against the Third Republic in 1946 and 1947, which also occurred when the government was plagued with social unrest.

One of the final arrests, that of the final arrests, those implicated in the Black Maquis plot, Deprieux said, were Major Jean-Germain Lestienne and Major, well-known resistance leader who admittedly belonged to the "Cagoulaire," an anti-Leftist organization.

The round-the-world plane, the Pan American clipper America, was greeted by a large crowd as it landed at the San Francisco airport. The editors and publishers were rushed to a reviewing stand where some of them spoke briefly before they hurried to San Francisco for a round of official entertainment before being started on their cross-country hop back to the starting place in New York.

Walt Harrington Is Bought From Tampa By Local Combine

Walter Harrington, Tampa Smoker outfielder, has been purchased outright by the Sanford Celery Feds for an undisclosed sum of cash, it was announced today by John Krieger, vice president of the Sanford Baseball Association.

Harrington is hitting at a .356 clip in the Florida International League for the Smokers according to a report from league headquarters over the week-end. Harrington has blasted three home runs and has credit for punching 39 runners across the plate.

Harrington was recently named as the outstanding first year player in the Florida International League and was chosen on the all-star team.

The hard hitting fielder is well known in Florida State League circles, having played with the DeLand Red Hots for two years. Harrington is slated to report to the locals in time to be in uniform for tomorrow's contest with the Leeburg Pirates at the Municipal Park.

ROTARY MEET

No regular meeting of the Sanford Rotary Club was held today. Instead, members will meet Wednesday afternoon at 2:30 o'clock at the Tourist Center from where they will go to Laffler's Camp at Banana Lake for a picnic.

Truman Signs Bill Extending Federal Control On Rents

Battle Against Flood Continues In Critical Stage

Earthquake Near St. Louis Brings Threat Of Barrier Breaks

ST. LOUIS, June 30. (AP)—The Mississippi River climbed to a new 103-year record here today and U. S. Army Engineers warned that the battle for top remaining "critical" levees in this area was far from over with another crest pausing down from the mouth of the Missouri River.

A brief earthquake at 11:25 P. M. (EST) yesterday brought the threat of breaks in water-soaked barriers holding back the river from thousands of acres of rich farmland on the Illinois side.

The Chouteau Island Levee, guarding 2,000 acres across from North St. Louis, broke at two points today but engineers said other barriers would keep water out of the nearby Venice and Grant City industrial areas.

Fresh appeals for volunteers were made by the engineers at the East St. Louis and ten miles south at Chester, Ill. while hundreds of persons were evacuated from their homes ahead of the flood.

The river reached 29.9 feet here and Harry E. Wallgren, chief meteorologist, predicted the stage would be 3.5 feet later today. A brief fall was reported by a spokesman for the engineers earlier but the Weather Bureau gauge showed the rise was continuing. All-time high here was 41.3 in 1844.

At least 1,000 persons were homeless in St. Louis and 500 in Grant City with the Red Cross setting up four temporary shelters to house the victims.

The earthquake added to the tenseness of the situation although it apparently had no connection with the flood. No serious damage was reported. Police said they lost one report of a chimney collapsing from the shock. Downtown buildings, hotels and hospitals were shaken by the quake as well as smaller homes.

Railroad yards, warehouses, small factories and homes along the north and south St. Louis waterfront were under water or threatened by the rising river but the main business, industrial and residential areas were on higher ground from any effects of high water.

Farms in low-lying areas around St. Louis and nearby communities suffered the greatest damage from inundation. The chain of Rock Island levees following the Chouteau Island break, the second bridge across the Mississippi to be closed by flood water. The Clark Bridge at Alton was blocked by water over the road at the Missouri approach.

Inquiry Into Reported Oil Shortages Set

WASHINGTON, June 30. (AP)—Chairman Malone (R-Nev.) announced today that a Senate Public Lands subcommittee will open a two-day hearing July 14 to "ascertain the facts" in connection with reported shortages of oil.

Declaring that "many rumors and statements concerning petroleum supply could easily lead to a panicky state of public mind," Malone said in a statement, the subcommittee intends to "lift fact from rumors as fully and rapidly as possible."

Representatives of the industry and government officials will be invited to testify.

French Coal Strike Is 90 Per Cent Over

PARIS, June 30. (AP)—About 90 per cent of France's striking coal miners went back to work today, ending a strike of one week.

The government accepted a compromise proposal on demands for increased pay Saturday. Most of the men who did not report at the pits this morning were mine railwaymen and administrative employees who receive no benefit under the compromise strike settlement.

Provisions Are Described Inadequate: 6 Housing Aims Outlined To Congress

WASHINGTON, June 30. (AP)—President Truman today signed into law an extension of federal rent controls but said its provisions "are plainly inadequate."

In a message to Congress, Mr. Truman said he was confronted with the choice of "this bill or no rent control at all."

The new law extends federal controls eight months and permits landlords to negotiate rent increases up to 15 per cent in exchange for leases running through December 1948.

For millions of families it will result in substantial increases in rents which until now have been held at reasonable levels," the President declared. The cost of living is already too high without this additional burden.

"Without any rent control millions of American families would be rapidly soaring rents and wholesale evictions. We are still suffering from a critical housing shortage. Even this inadequate law represents lower dangers than with the complete lack of rent control."

"The permitting 'voluntary' increases of 15 percent where landlord and tenant agree on a lease through Dec. 31, 1948 the President said, "is voluntary only so far as the landlord is concerned."

"The tenant will naturally fear that unless he enters into (Continued on Page Six)

U. S. Officials Ask Power To Dismiss Disloyal Persons

WASHINGTON, June 30. (AP)—The State, War and Navy Departments and the Atomic Energy Commission asked Congress today for permanent authority to summarily fire any employee "in the interest of national security."

A letter to the House signed by Secretary of State Marshall, Secretary of War Patterson, acting Navy Secretary John L. Sullivan and Commission Chairman David L. Blandford said:

"The national security demands that the greatest care must be exercised in retaining only tried and tested persons."

"Subversive action, warlike from within, can seriously jeopardize this security at a time when every means and association must be employed to steer the course of government through its many intricate national and international activities."

The letter noted that President Truman's temporary consent to an extended loyalty requirement last fall that the three departments be given permanent power to remove civilian officers or employees promptly whenever loyalty is in doubt.

"The passage of the bill, the letter explained, "is the most absolute discretionary authority" in the secretaries and chairman. Dismissal would not, however, preclude an employee from seeking employment elsewhere in the government.

U. S. Restores Coal Mines To Operators

WASHINGTON, June 30. (AP)—The government restored the American River over more than 2,500 acre coal mines today and formally restored the pits to the private owners after 13 months of federal operation.

The contract disputes which prompted federal seizure of the mines May 22, 1946 still was unsettled, however, and another strike at conclusion of the current 10-day vacation July 8 is a definite prospect.

With the government stepping aside as operator, it will be up to the owners themselves to make terms with the miners. If they don't succeed by July 8, the mines are expected to stay home.

The government gives back the mines in the same condition it found them 13 months ago—empty of workers.

HOUSING NOTICE

The regional office of the Housing Expediter announces that the Atlanta office and all district non-residential construction and locality expediter offices in this region will be closed on or before July 25.

BIBLE VERSE FOR TODAY

GOD CREATED ALL WEALTH,
MATERIAL AND SPIRITUAL.
WE ARE WELCOME TO IT,
BUT HE WANTS US TO DIG
FOR IT: The silver is mine and
the gold is mine.—Haggai 2:8.

Don't worry about the rainy
weather. Comfort yourself that it
remains cool. We can't have
everything.

Congress begins considering
legislation to restrict on exports
to Russia... after the end of the
oil of Indiana begins rationing gasoline
to its dealers to conserve supplies.
If they have to ration gasoline
in peace times, what will they
do when the next war comes?

The Senate has voted to make
the Speaker of the House next in
line of succession to the Presidency
after the Vice President, after re-
jecting a motion proposing the
president of the Senate. They
wouldn't play a dirty trick like
that on one of their own members.

The Florida State Advertising
Commission has issued a beautiful
new booklet proclaiming the
virtues of this state, both scenic and
industrial. It's a four color job,
magnificently printed and covers
everything from bathing beauties
to strawberries. It also
contains a large official map of the
state showing highways, rivers and
harbors, and various points of
interest including the Big Tree and
Sanlando Springs.

President Truman was fully
justified in vetoing the wool price
bill, passage of which was a
"tragic mistake." Anyone who has
to buy anything made of wool
these days knows that a little
competition from foreign produc-
ers would help American consum-
ers more than it would hurt
American producers. In fact, it
would probably take a lot more
wool imports than we are likely
to get before American wool produc-
ers would feel it very much.

While the Big Three foreign
ministers meet in Paris to iron out
the economic problems of Europe
and decide whether they will accept
American aid, 350,000 coal miners
go out on strike as if to
show how futile our efforts to
help people who will not help
themselves, can be. And while the
French coal miners strike, intensify-
ing Europe's difficulties in
taking care of herself, America's
coal miners add to world confusion
and scarcity by cutting produc-
tion over here. It's a wonder
what the delegates from Russia,
where strikes are not tolerated at
all, think as they meet in Paris
amidst such abuse of democratic
principles.

Eric Johnston, chairman of
of the movie industry, does not
think much of Wallace's
recent grand tour of Europe. "It
would be tragic," he says, "if
Europe and the rest of the world
were to be misled by these false
preachings that America is going
to misuse its political and
economic power in the world today.

The three great misconceptions
which Wallace has spread about
America, Mr. Johnston points out
as follows: (1) That the foreign
policy of the U. S. is imperialist,
(2) That the U. S. is the
most miser of the world, (3) That
the U. S. is heading into a
downfall. None of these things,
he insists, is true.

One Universe

Our own, and the millions of other "island universes"
that astronomers tell us are suspended in space, show
evidence of surprising uniformity in chemical composition.
Also they all came into being as a result of a single super-
tremendous atomic explosion some 3,000,000,000 years ago.
This is the view of the Indian astro-physicist, Dr. S.
Chandrasekhar of Yerkes Observatory.

The more that is learned about the various heavenly
bodies, the more impressive is the recurring similarity in
their ingredients, Dr. Chandrasekhar points out. He believes
that the "star mother of the universe" was a vast mass
some thousands of billions of miles in diameter. Apparently
it was so dense that a cubic inch weighed tons. Its contrac-
tion produced a temperature of several billions of degrees
and the resulting explosion created the universe as we know
it. All heavenly bodies since that day of their creation
have been disintegrating. The condition of substance in
them now indicates their age. For example, a study of
uranium on the earth indicates that this sphere is between
one and a half and two and a half billion years old.

Here is startling argument for the oneness of creation,
scientific witness of the One Mind, or One God of theology.
To many people it will be more impressive evidence of the
existence of a single Creator than any Scriptural quotation.
If there is this underlying unity in the universe, certainly
man is on the right track in trying to attain one-world
harmony.

German Tax Problem

From Berlin where she has been helping to revise
the German tax system, Dr. Mabel Newcomer, Vassar
College professor and national tax expert, writes concerning
the problems involved.
"The tax plan, like all aspects of the evolving govern-
ment, is based on the idea that Germany must some day
govern herself. Yet administration through the four present
zones is difficult. Taxes, which must be uniform, require
four-way agreement. Since the four members of the tax
committee come from four countries with different ideolo-
gies and complex national interests, this is not easy. But
compromises are gradually being achieved.

Dr. Newcomer feels now that re-education of Germans
is the most important occupational job confronting the
allies. She admits that it is easy to become discouraged
with the lack of progress during the more than two years
since VE-day. But her own "extra-official" work with
groups of Berlin women has been rewarding. Large numbers
have attended the meetings which she arranged, and have
shown themselves eager to learn of other countries. She
believes firmly that money spent in a long-range education-
al program might prevent future war.

As an experienced educator who is herself an inspiring
teacher, her views are worth consideration.

Education or Training

Speaking at the University of Illinois, Robert M. Chan-
cellor of the University of Chicago, advocated a tightening
up of the qualifications for college entrance and at the same
time, an expansion of programs for adult education.

He urged that university students, instead of being
given practical training, be made to place their emphasis on
history, philosophy, and theology, thus acquiring a back-
ground to give them understanding of modern problems.
And, for adults, Dr. Hutchins discussed in particular the
"Great Books" program which has proven so successful in
many communities, saying that more must be done along
those lines to educate the people at large, if they are to
survive in an atomic age.

The Chancellor, always a stimulating thinker, has
brought to the fore again the old question of whether education
should be for the purpose of learning how to live or on
the more mundane plane of how to make a living. Some
people refused to dignify the latter phase by the name of
education, claiming that training is a better word. Perhaps
the solution lies in a compromise whereby education and
training proceed along parallel lines.

French Revolt

(Continued from page one)
Moglis began last year, when
police informers in central France
tipped off police to a clandestine
Rightist organization in Brittany.
The "secret police of the realm"
went into action, and their in-
vestigation resulted in the arrest
six days ago of an obscure coun-
try editor of a weekly newspaper,
the Count De Vulpien.
A search of the count's chateau
at Lamballe, in Brittany, led to
the discovery of numerous com-
promising documents - including
the "blue plan" and a list of
persons who were to form the
dictatorial military directorate -
and an "important" arms cache.
Vulpien confessed everything,
the minister declared, and his in-
formation led to the arrest of
Louis-Auguste-Lacaux, Gen. Guil-
laudot, Abbe Marc Jacquet, des-
cribed as a Paris wine merchant,
and Mrs. Maurice De Walaffe, 70,
Paris widow who subsequently
was released in provisional liber-
ty because of her advanced age.

Medical Research

And you
By W. V. BITTING
Touchton Drug Co.
Popular articles on medical
research usually affect us in
one of two ways... either
they make us apprehensively
about our own health - or they
deal with a drug or discovery
which strikes us as being mir-
aculous, but very remote from
our own needs.
But the physician whose pro-
fession makes it necessary for
him to keep abreast of medical
research has the training and
knowledge to evaluate new
methods and medicines prop-
erly. He will be glad to relieve
you of any apprehension you
may have regarding your
health. He can be relied upon
to employ any new drug that
will be effective in sickness.
The conscientious pharmacist
too, keeps abreast of new drug
discoveries.

Guatemala is being attributed by
its business men to propaganda in
the United States that the country
is filled with communists although
many have been driven out and
only a few are left, according to
the observations of President
Luis M. Spivey of Florida South-
ern College who is directing a
summer school program in the
Latin-American country.
"The average citizen of Guate-
mala cannot understand that few-
er tourists may mean that they
have less money in the States,"
Dr. Spivey says. "They have a no-
tion that all of us are rolling in
dollars."

Living conditions in Guatemala
are better this summer than last
year when the college began its
Guatemala summer program, the
college president reports. Food
is plentiful but about 15 percent
higher. Hotel rates have gone up
and rents for private houses, par-
ticularly in Guatemala, are exor-
bitant.
"Despite the increase, very at-
tractive hotel rooms are available
for seven dollars a day with meals
so abundant that the guest is in
danger of overeating," Dr. Spivey
says.

President Juan Jose Arevalo of
Guatemala is stronger than he was
a year ago, in the opinion of the

SANFORD FORUM

Editor
Sanford Herald
Sanford, Fla.

The handwriting on the wall.
As we live in hope of a better
day, we constantly turn on the
radio to hear of progress toward
peace, but like trying to travel
uphill on the lee, one step for-
ward and slip back two. We are
trying to adhere to our form of
government, only to find our own
backyard littered. Which is the
thing that causes Stalin to rub
his hands in glee. As we contin-
ue to rob ourselves to give
Russia what it takes (as we did

American educator. Then Arevalo
was threatened with revolution.
We must always keep in mind,
however, that the president of
any of the Central and South
American republics lives danger-
ously," he said.

The Guatemalan president's popu-
larity is lowest with the so-called
"rich" people, Dr. Spivey feels.
He is insisting that Indian work-
ers be paid higher wages with a
minimum of 25 cents a day. His
opponents advocate a minimum of
about 15 cents a day.
Southern's summer school par-
ty, President Spivey says, received
a very cordial welcome to Guate-
mala from President Arevalo who
personally lectured to the group
last Saturday and during last
week entertained the students at
his summer home.

Japan to wage war on ourselves

we cannot help believing that our
leaders are a victim of fate even
as was Judas. As we see Soviet
consolidation, see the confusion
caused by radicals here, Jesus
said, when ye see those things,
lift up your heads and look up
for your redemption draweth nigh.
Our leaders today advocate
training men for the next conflict,
but never a word to encourage
them to repent that this conflict
may not take place. Multiplied
millions of dollars are spent to de-
vise more horrible ways to destroy
one another, but not one thin
dime is advanced for the further-
ance of the Gospel of Christ.

The only way we can be op-
timistic in our day is to get right
with Him, who gave his blood for
us and warned of this day.
Again let me urge men every-
where to forget church prejudice
and pray without ceasing.
Yours in Christ,
Rev. B. W. Miller
R. 2, Sanford, Fla.

War In China

(Continued from Page One)
sign war" is of course that it
echoes Chinese Nationalist gov-
ernment charges that Russia is
aiding the Chinese Communists
in their effort to overthrow the
Nationalist government and estab-
lish Communism in China. As a
matter of fact this charge isn't
new, but has been maintained
by Chiang's government for a
long time. The Russians are ac-
cused not only of furnishing the
Chinese rebels with war supplies,
but with having turned important
military positions over to them
when the Soviet forces were with-
drawing from Manchuria.

Anyway, the vital point is that
if the Chinese Communists should
be successful in their rebellion,
Moscow ultimately would add Chi-
na with its 500,000,000 to the So-
viet sphere of influence. That
would make Russia the dominant
power in the Orient. Small won-
der then that Archbishop Paul
Yu-Pin should think of China as
the possible birthplace of a third
World War.

So China would seem to be con-
fronted with a very terrible para-
dox: that she must forge peace
in the flames of war.

Social And Personal Activities

Social Calender

TUESDAY
The Daughters of Wesley Church of the First Methodist Church will hold their business and social meeting at 8:00 P. M. at the home of Mrs. C. P. Herndon, 603 Magnolia Avenue. Mrs. Herndon's group will be the hostesses. The Friendship League of the Congregational Church will meet at the Parish House at 8:00 P. M. A practice meeting for installation of officers of the Seminola Rebekah Lodge No. 43 will be held at the hall at 7:30 P. M.

THURSDAY
The T. E. L. class of the First Baptist Church will meet at the church at 7:30 P. M. for a week dish supper.

Hollywood

By BOB THOMAS

HOLLYWOOD, June 28, (AP)—A warm summer day and through the town, a young man was stirring from the stars of renown. A couple was voicing or discovering each other. No announcement came forth from a Crosby brother. Marilyn Maxwell was dateless, as was Peter Lawford. There was no new boyfriend dining out with Joan Crawford. Oscar Levant brought forth no clever quip. No player was planning a South American trip. Warners threw no one on "Friday" suspension. Sam Goldwyn viewed nothing with dire apprehension. Not Johnson, nor Taylor, nor Bogart, nor Peck. Barely avoided a bad "traffic" ticket. No one discovered a new Valentino. Gene Autry fell off no rough Palomino. Al Jolson was off the air for a night. Sunset strip night clubs had nary a fight. "Outlaw" and "Duel" weren't banned anywhere. Retirement's end wasn't nullified by Astaire. Sinatra failed to warble a ditty. Larry Turner was out of the city. Not a star from NBC vice-president. No shot was heard from Beverly Hills residents. No new film was named to feature Clark Gable. No starlet was graced with a million smiles. Dress agents changed no starlet sniffs to flu. Orson Welles was idle and Chaplin, too. Lane and Tyrone spent the evening apart. Boris Karloff gave no one a start. Ringo Crosby's golf game was well over par. All was quiet with Vidor and Coburn. And Atravert Kent was dining alone. 'Twas a clear day, too, but this was the end. A reporter couldn't even sight a trend. One headline remained for the editors work. "If Movie Columnists go Berserk."

Florence Marie Parr Weds C. R. Barclift

The marriage of Miss Florence Marie Parr, daughter of Mr. William B. Parr and the late Mrs. Parr of Atlanta, Ga., to Clifford Robert Barclift, son of Mr. Barclift of Sanford, was solemnized in an impressive ceremony on June 29 in Daytona Beach. The ceremony was performed at 1:00 o'clock at the First Presbyterian Church by the Rev. Paul M. Edris. Ferns and gladioluses decorated the church and formed a background for the wedding.

A program of nuptial music was rendered by Dr. R. D. Higgins and Miss Elsa Barclift sang "Because" and "I Love You Truly." Mendelssohn wedding march was used.

The bride, given in marriage by her father, chose a street-length dress of white crepe with navy blue accessories. Sweetheart roses formed her corsage.

The maid of honor, Miss Mary Hill of Sanford, a niece of the groom, wore an aqua crepe gown which featured a fitted bodice and a peplum effect. Her corsage was of yellow carnations. Miss Elizabeth Aderhold of Athens, Ga., niece of the bride, served as junior bridesmaid. She wore a white dress and flowers were pasted asters.

Frank Pell of Orlando acted as best man for the groom.

Mrs. D. C. Barclift, the mother of the groom, chose for the wedding a gown with white accessories, which she wore white accessories. Her corsage was of pink roses.

Immediately following the wedding the couple left for a short wedding trip and upon their return they plan to make their home in Daytona Beach. Mrs. Barclift attended Atlanta schools and since her graduation from West Georgia Junior College has been employed by various government agencies. At present she is working with the Bureau of Internal Revenue in Atlanta.

Mr. Barclift attended Sanford schools and graduated from Seminole High School with the class of 1935. He served for three and a half years in the United States Navy and received his discharge in Jacksonville in the Fall of 1946. At the present time he is employed in Orlando.

Out-of-town guests for the wedding included Mrs. H. C. Parr, Mr. and Mrs. Thomas M. Hill, Miss Mary Hill and Mr. and Mrs. William Pell all of Sanford; W. B. Parr, Mrs. Lucille Simmons of Atlanta; Miss Elizabeth Aderhold of Athens, Ga. and Mrs. W. B. Parr, Jr. and son, Eugene, of Tampa; Mr. and Mrs. L. J. Parr and Miss Betty Parr of Miami and Mr. and Mrs. Frank Pell of Orlando.

Personals

Mrs. U. E. Little left last week for Nashville, Tenn., where she will join Mr. Little.

Jack Evans, who has been the guest of Mr. and Mrs. E. F. Lundquist, has returned to his home in Chicago.

Mr. and Mrs. Harry Kudell spent the weekend with Mr. and Mrs. Thomas H. Trent of Vero Beach.

Friends of Mickey Durak will regret to learn that he is confined to his home on Beadall Avenue with a broken arm.

Mr. and Mrs. George D. Bishop have as their guests their daughter, Mrs. Nicholas Ashby, and her children, Niki and Betty.

Mr. and Mrs. J. L. Hurt have left for a visit with their son and daughter-in-law, Mr. and Mrs. Clyde Hurt in Biloxi, Miss.

Mr. and Mrs. H. C. VanDusick and son of Tusculoussa, Ala., are visiting their sister and brother-in-law, Mr. and Mrs. J. T. Bradley, at 306 East Twentieth Street.

Mr. and Mrs. Manuel Jacobson and children, Sherwood and Arlene, left today for a trip through the Eastern states. They plan to be gone about six weeks.

Miss Joanne Henderson of Hatterville, N. C. is spending some time with her uncle and aunt, Mr. and Mrs. K. W. Eite, at their home on Celery Avenue.

Mr. K. W. Eite and son John, Mrs. G. H. Brown and Mrs. Mabel Brown were the guests of Mrs. Mabel Brown's son and daughter-in-law, Mr. and Mrs. David Brown, in Daytona Beach over the weekend.

Mr. and Mrs. M. L. Riffell and daughter Elaine left for Detroit, New York and Pennsylvania to spend about a month. While in New York they plan to visit Mr. Riffell's parents.

Miss Oleda Dyson has returned to the University of Virginia Law School after spending about two weeks with her parents, Mr. and Mrs. W. B. Dyson. En route to Virginia she attended the Ponta Vedra dance and yacht club dance.

Mrs. Larry Broome and son, John, have left for their home in Washington, D. C. after visiting Mrs. Broome's sister and brother-in-law, Mr. and Mrs. John Ivey. They plan to visit in Orlando before returning to Washington.

Word was received here today of the death of Clarence R. Brodin of Manning, S. C. Mr. Manning was a brother of Mrs. James N. Robson who recently visited in Sanford and had gone on to visit in Columbia, S. C. She was recalled to Manning because of his death.

Mrs. C. F. Proctor and Mrs. R. M. Burns left for New Albany, Ind. to visit friends. Mrs. Proctor will undergo examination at Mayo Brothers. They will be accompanied by Mrs. R. J. Proctor as far as Louisville, Ky. She plans to visit her parents at Loup City, Neb.

BIRTH ANNOUNCEMENT

Mr. and Mrs. William E. Holleyhead, Jr. of Atlanta, Ga., announced today the birth of a son, Ronald Edward, on June 28 in Atlanta. Mrs. Holleyhead is the former Cleo Hancock of Savannah.

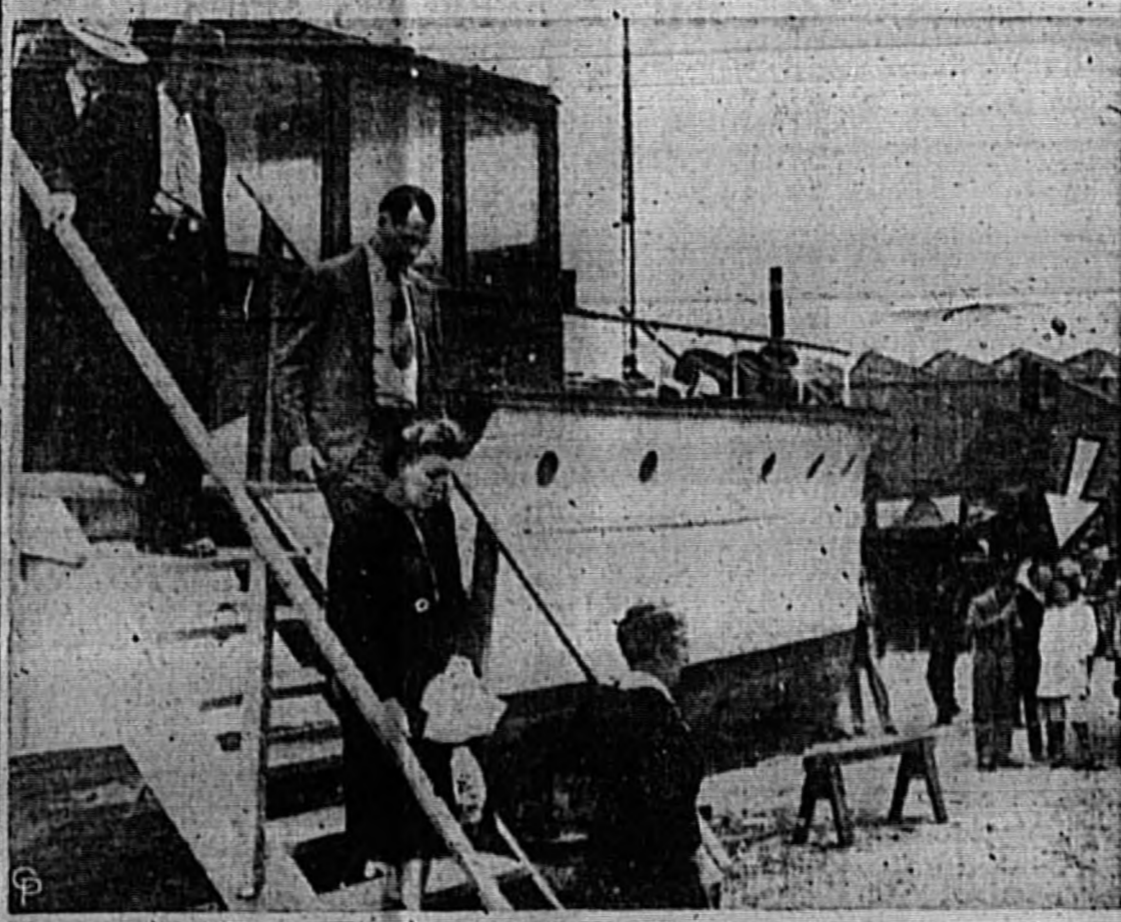

Mr. and Mrs. R. P. Goodspeed announced today the birth of a son, Phillip Allison Goodspeed, on June 28 at the Fernald-Laughton Memorial Hospital. Mrs. Goodspeed will be remembered as the former Helen Marjorie Young.

and he in the Fernald-Laughton Memorial Hospital in Sanford.

Mrs. M. E. Doolley had as guests Thursday her son and daughter-in-law, Mr. and Mrs. Paul Doolley, and their daughter, Miss Eleanor Doolley of Winter Garden.

GENEVA NEWS

The Women's Society of Christian Service met at the Community Hall, Thursday afternoon, with Mrs. Emma Yost as hostess. Those present were Mrs. J. D. Hixson, president, Mrs. J. D. Brown, Mrs. Henry Harrison, Mrs. M. E. Hill, Mrs. E. W. Jones, Mrs. A. Logan, Mrs. Alex. McCulloch, Mrs. Nellie Thomas, Mrs. Bertha Lindsey, Mrs. Henry Krivder, Mrs. Walter Scarborough, Mrs. Mollie Doolley, Mrs. A. E. Moran and Mrs. Emma Yost.

Overell were found dead. At far right (arrow) are defendants Beulah Louise Overell, 18, and George (Bud) Gollum, 21, who witnessed the inspection. They are being tried for the murder of Beulah's parents. (International)

Mrs. Corley Praises Canadian Hospitality

High praise for Canadian hospitality was expressed by Mrs. Joe Corley in her report to the members of the Seminole Chapter of the Saksatchewan Grand Chapter, O. E. S. She displayed many lovely gifts presented her during her visit and said that one of the highlights of her trip was traveling from Chicago to Regina with Mrs. Hamilton. Most worthy grand matrons. As a memento of the plane trip together, she gave Mrs. Corley a China flower lapel pin.

They were met in Winnipeg by Mr. and Mrs. Cooper, East Grand Matron and Patron, Mr. and Mrs. George Pascoe, Past Grand Matron and Patron, and Leona Morrison, Worthy Grand Matron of Manitoba. They were taken to the Cooper home for dinner and for a tour of the city after which they boarded their plane with Mrs. Morrison traveling with them.

They arrived in Saksatchewan in time for the opening reception. The Chamber of Commerce extended many courtesies to the guests. Many courtesies were extended and banquets were given for the Grand and Past Grand Matrons. The main function was the Florida Luncheon where all arrangements and decorations were carried out in Florida fashion and where Mrs. Corley presided over the proceedings. The Grand Secretary read greetings from the Florida Grand Chapter with a special message for Mrs. Corley. A corsage of yellow roses was presented to her from her Seminole Chapter No. 2.

Following the Grand Chapter meeting, Mrs. Corley visited Annie Will in McCord, the Florida Representative, and during her visit a special meeting was held for Mrs. Corley. The banquet tended to Mrs. Corley and she reported that her trip will leave a friendly feeling between the chapters of Canada and the local one.

Rev. Milton Sackett Is Attending Stetson

DELAND, June 29 (Special)—Bert Sackett of Sanford, a Stetson freshman, has just received word that his third novel, "Everglades Gold," has been chosen as a Junior Literary Guild book of the month. This gives Sackett a belling average of 1,000, as each of his novels has been a Junior Literary Guild selection.

All three novels have a Florida locale, the latest being the story of the discovery of oil in Florida. Random House has scheduled this book for publication in April, 1948.

Sackett, aged 55, is a native of Ohio, was reared in New York City, and his formal education ended with high school. Though his non-formal education has been quite extensive, he is now regarded as a cherished friend—that of studying in college. "After all, says his 55-year-old friend, "I'm not age more or less relative? I'm sure that my comparative 'oldness' is a positive benefit. I find it far easier to grasp and apply the knowledge spread before me in by college classes than I did the knowledge I was exposed to in high school."

Among Sackett's fellow freshmen is his daughter, Ruth Emily. "And we both made the honor roll," said Ruth Emily's father with a smile.

Otherwise known as Rev. Milton S. Sackett, the author will leave this week for Cahlers, N. C., where he will be in charge of the Episcopal Church, as he has been for several summers. He plans to resume his studies in English, journalism, and history at Stetson in September.

Rev. Mrs. McKinley Given Reception

Rev. and Mrs. J. E. McKinley were honored on Thursday evening with an informal reception at the home of Mr. and Mrs. E. L. Wright by the Women's Society of Christian Services. The occasion marked Rev. McKinley's third year with the Methodist Church.

Large arrangements of roses, gladioluses and lilies were used in decorating the rooms of the Wright home. The dining table was covered with a white fluted cloth and centered with a low bowl holding deep pink and white hibiscus. White tapers in silver candleholders flanked the centerpiece. A crystal punch bowl was placed at one end of the table and crystal and silver trays and complete hot refreshments.

Miss Martha Wright and Mrs. L. P. Hagan presided over the guest book throughout the evening and Mrs. C. L. Powell and Mrs. Fred Whitton served as refreshment chairmen. Mrs. John Clark presided at the punch bowl. Assisting in serving were Mrs. Ernest Campbell, Mrs. Orville Tolubton, Mrs. Rosebriek Agnus, Mrs. Dorothy McDaniel, Mrs. Beulah Higgins, Mrs. H. B. Odum, and Miss Betty Thummond. Hostesses were Mrs. Wright, Mrs. Roy Tillis, Mrs. Walter Raines, Mrs. J. B. Crawford and Mrs. Cyril Butler.

About 125 guests called between 11 o'clock and 10:30 o'clock.

Rebekahs Honor Mrs. Norene Maassen

The Seminole Rebekah Lodge No. 43 entertained with a banquet on Thursday evening in honor of Mrs. Norene Maassen of Arcadia. She is the president of the State Rebekah Assembly. The banquet was held at Lormann's restaurant on the Orlando highway.

Yellow roses and ferns were used in lovely arrangements on the tables and yellow tapers lighted the room. The guest's places were marked with placards in the form of miniature autograph books.

Mrs. H. L. Moore served as mistress of ceremonies and readings were given by Mrs. George Ewan and Mrs. E. R. Rubow. Corals were presented to Mrs. Maassen, Mrs. Fannie Spive of Orlando, vice president of the State Assembly, and Mrs. Fred Myers, district deputy president of District No. 10.

Following the banquet a business meeting was held with Mrs. Dan Thorton presiding. Mrs. Maassen made an educational talk and told of her plans for the I. O. O. F. Home in Gainesville. Mrs. Myers announced that her installing staff would take part in the installing of officers of the Klansmen's Lodge No. 42 and "Lancers Lodge No. 33 in Orlando on July 3.

At the close of the meeting refreshments were served to members and guests.

Orlando Newsman Announces Candidacy For Governor's Office

DELAND, June 30, (AP)—Richard H. (Dick) Cooper, Orlando newspaperman and State University law student, announced yesterday he would be a candidate for Florida Governor next year but said "I have no expectations of getting elected."

Launching a "Run yourself for Governor" campaign, Cooper said, "I believe we have a handful of candidates for Governor out of the hundreds of thousands of qualified men and women. These candidates may all be good men but the public choice should not be so limited."

"It is my hope that when people read of my candidacy, they will say 'Why I'd make a better Governor than that young whippersnapper,' Cooper said in his announcement. "They are perfectly right—and I hope they'll all say it."

Mrs. Roscoe C. O'Byrne, President General, Daughters of the American Revolution.

River Project

(Continued from Page One)

would be sufficient to complete the 12-foot channel if added to the 10-foot appropriation.

Mr. Higgins expressed optimism that the House of Representatives soon will approve the \$200,000 as part of \$575,000 for Florida flood control and navigation as contained in the Army Engineers Civil Function bill. Prospects of its passage by the Senate are even stronger than in the House, he asserted.

Passage of the bill will give a 12-foot channel via inland water from Sanford to Trenton, New Jersey, and will afford inland water transportation to centers of population on the Eastern seaboard. Refrigerated barges, loaded with citrus and other Florida products can ply this route.

Action in securing a 12-foot channel dates back to 1942 when the Chamber of Commerce secured a resolution from the House

ram would be one which embodies the hopes of all Floridians for increased prosperity, health and happiness of all our people."

A veteran of World War II, Cooper is a graduate of Florida Southern College at Lakeland. He began newspaper work at Fort Pierce and has worked on newspapers at Lakeland, Clearwater, Sarasota and now writes agricultural news for the Orlando Sentinel-Star. He is married and has one child.

During the war, Cooper rose from private to major in the Corps of Engineers. He served both in the European and Asiatic theaters.

of Representatives to get Army engineers to make preliminary surveys to change the proposed 10-foot channel to 12-foot depth. The Chamber group employed Brig. Gen. Youngblood to secure data to submit at a hearing before Col. Jones who then was the district engineer.

The result of the hearing, which was held at the City Hall in 1944, resulted in resolutions recommending a 12-foot channel from both the district engineering division in Atlanta and from the chief of engineers in Washington, D. C.

This proposal was presented to Congress, and authorized at its late session at an estimated cost of \$467,000 to be added to the \$300,000 already appropriated for the 10-foot channel. This was reduced from \$167,000 to \$200,000 at the session upon recommendation of engineers to combine the two projects.

As sponsors of the project, the Seminole County Chamber of Commerce expects to spend \$10,000 to secure right of ways and spoil areas along the channel. These have been secured from Palatka to Astor, and engineers and surveyors are completing the work from Astor to Sanford. To date this work has cost \$8,300, Mr. Higgins revealed.

In anticipation of construction of water terminals the City has purchased 50 acres of land west of French Avenue which is accessible to rail and highway. It has been actively working on the details. The Chamber of Commerce prospect of building up this terminal and now that money appears certain for the 12-foot channel they are in position to carry some of these negotiations to completion.

Reliable barge transportation companies have indicated their intention of using the Sanford to Jacksonville route also from Sanford to Trenton, N. J. as soon as facilities are available,

said Mr. Higgins. Central Florida within an area of 50 to 75 miles should benefit from the lower freight rates and it should develop a distribution point for this area in Sanford. He pointed out. He expressed indebtedness to Senators Pepper and Holland, to Rep. Hendricks and other Florida Congressmen for assistance in getting the project through.

Over a period of five years the Chamber of Commerce accumulated \$10,000 for post-war work, and directors authorized its expenditures on these projects to get deeper water for Sanford, Mr. Higgins revealed.

In the manufacture of glass, soda is used primarily as a flux to aid in melting.

GENEVA NEWS
By MRS. A. E. MORAN

The Women's Society of Christian Service met at the Community Hall, Thursday afternoon, with Mrs. Emma Yost as hostess. Those present were Mrs. J. D. Hixson, president, Mrs. J. D. Brown, Mrs. Henry Harrison, Mrs. M. E. Hill, Mrs. E. W. Jones, Mrs. A. Logan, Mrs. Alex. McCulloch, Mrs. Nellie Thomas, Mrs. Bertha Lindsey, Mrs. Henry Krivder, Mrs. Walter Scarborough, Mrs. Mollie Doolley, Mrs. A. E. Moran and Mrs. Emma Yost.

CELERY FEDS TO ENTERTAIN BUCS HERE TOMORROW

The Sanford Celery Feds capped a pair of wins and dropped two contests over the weekend as they took both ends of a twin bill from the Palatka Azules at the Municipal Park of Friday evening and dropped the series to the Daytona Beach Leafs on Saturday night and Sunday afternoon.

Friday night, Earl "Goose" Kettles limited the Azules to three well scattered bingles in the opening tilt of the twin bill to chalk up a 4 to 1 victory over a seven inning route. Lefty Johnny Tomat worked the night cap and turned in a sparkling 9 to 2 victory over the slipping Palatka nine.

Saturday night in Daytona Beach the Leafs pounced upon three Sanford hurlers to blast an 11 to 3 decision from the Feds.

Yesterday afternoon the Leafs invaded the Municipal Park to return home with a 4 to 3 verdict as Wally Gaddis went the route for the visitors and scattered effectively nine Fed bingles.

In yesterday's game, Manager Don Murray "blew a fuse" in the bottom of the eighth frame as he protested Umpire Hank Winston's decision on a strike. Murray unleashed such a bovy of fireworks that Winston thumped the jovial Fed skipper from the park.

The Sanford aggregation travels to Leesburg to play a scheduled twin bill tonight and will return to the Municipal Park for a single tilt Tuesday evening.

Locals Sign Pitcher And Release Garrett

Ed Davis, a right handed hurler recently released from the Army, was signed by the Sanford Celery Feds over the past weekend. It was announced today by George Touhy, business manager.

Davis pitched while attending high school in Blackshear, Ga. before going into service. While in the Army, Davis hurled for Camp Jennings, Ga. nine. While at Camp Campbell, Ky. and with the Ft. Benning, he won four and lost one.

The Sanford aggregation also announced the release of Glenn Garrett, lanky righthander who was picked up from Daytona Beach earlier this year.

FSL Attendance Is Ahead Of 1946 Record At Half Way Point

SILVER SPRINGS, June 30. (Special)—Attendance around the Class D Florida State League was 16 percent ahead of 1946's record-breaking total, it was revealed at league headquarters here today with release of figures thru Monday night, June 29, when the season reached the half-way point.

Through that night, 238,222 fans had paid their way into the eight parks, as compared with 195,993 for the same period in 1946.

Saint Augustine was leading with 40,401 paid admissions, or 22% more than the 33,153 who paid to see the first half season games in 1946.

However, Gainesville showed the greatest increase, reporting in second place with 37,200 paid as compared with 24,392 in 1946—a gain of 53 percent.

The last-place Daytona Beach Islanders were drawing a 40 percent better gate this year than last, while Leesburg reported a 30 percent gain, and Palatka had 20 percent more than last year.

Sanford, Deland, and Orlando were under their 1946 records, with Orlando's 26 percent deficit due largely to the fact that eight of its games were rained out, and five others were affected by rain.

Deland had drawn 1,147 less customers than in 1946 while Sanford was only 282 cash customers behind.

Here are comparisons for the two years, as reported to league headquarters by club managers:

Club	1946	1947
St. Augustine	38,168	40,401
Gainesville	24,392	37,200
Leesburg	20,819	29,283
Deland	28,475	37,323
Daytona Beach	19,149	26,838
Palatka	19,183	22,950
Sanford	22,771	22,489
Orlando	28,236	21,734
Totals	195,993	238,222

Largest regular and unimproved 54 game crowd of the season was reported from St. Augustine when 2,165 saw Deland whip the Saints, 13 to 9, in the fourth Saint home game of the season.

Largest paid attendance of the season to date was Gainesville's 44 game crowd of 24,392, which was sold by Gainesville Bks. House, Inc. The crowd was reported to have been 2,111 for a recent loss to St. Augustine, for second best turnout of the season.

Top attendances in each city, compared with the top for 1946's first half: Daytona, 1,851 compared with 1,777; Deland, 1,115 compared with 1,235; Gainesville, 2,111 compared with 2,130; Leesburg, 1,450 compared with 1,010; Orlando, 1,237 compared with 1,067; Palatka, 1,244 compared with 1,151; Sanford, 1,410 compared with 1,805; St. Augustine, 2,165 compared with 2,122.

HAPPY APPROVES SPINK BOOK ON CAREER OF JUDGE LANDIS

By FRANK ECK
AP-Newsfeatures Sports Editor
NEW YORK—J. G. Taylor Spink, the little man who puts out baseball's bible, the Sporting News, an sit back and take a rest. He certainly deserves one after doing such a grand job on his book, "Judge Landis and Twenty-five Years of Baseball."

The book is a biography of the late Kenesaw Mountain Landis and tells how tough the old Judge could get. A. J. (Happy) Chandler, who was named baseball commissioner five months after Landis died in 1944, says the book "represents a noteworthy contribution to the history of baseball."

It is nice to know that Happy Chandler has read and approves the book, for Landis and Chandler are in many ways the exact opposites, as Spink points out in some of his 300 pages.

One in Chicago federal court Landis sentenced a young prisoner to two years, writes Spink. "Please Judge; I can't do it! I can't do it!" exclaimed the culprit. In his most velvety tones, Landis replied: "Well, that's all right, Sonny. Just go along with the man and do the best you can."

On another occasion, Landis sentenced an old offender to five years before that—the felon protested: "I'm a sick man, and I can't do five years."

Landis scowled and shot back: "Well, you can try; can't you?"

MIAMI BEACH and Miami will be without a big league team when the next spring training season rolls around. Like the New York Giants and Philadelphia Phillies, who trapped on Florida's southeast coast in 1946, the Pittsburgh Pirates and St. Louis Browns who were there this spring have pulled stakes.

These major league clubs say that the Miami territory has too much night life and that living expenses are off. Charley DeWitt, general secretary of the St. Louis Browns, says the Browns never, Gainesville reported, 2,111 for a recent loss to St. Augustine, for second best turnout of the season.

"Miami was the most expensive camp we ever had," says DeWitt. "And we did well to draw 2,000 fans to a game. On the Pacific Coast, last spring they drew 30,000 in Los Angeles when Bob Feller pitched against the Cubs, 2-1, compared with 1,235; Leesburg, 1,450 compared with 1,010; Orlando, 1,237 compared with 1,067; Palatka, 1,244 compared with 1,151; Sanford, 1,410 compared with 1,805; St. Augustine, 2,165 compared with 2,122."

Fishing "Lazy Man's Way" Results In Dip In River For Youth

AP-Newsfeatures
COLUMBIA, S. C.—It was a tough garfish that grabbed Bobby Neely's bait. It pulled the 174-pound youth into Broad river and then tried to chew off his hand.

Neely, 15, was fishing the lazy man's way. He had tied the line to his foot and was half asleep on a rock.

"Just when I wasn't expecting it, something hooked my line and pulled me into the water," the youngster said. "I was sure scared, and all I could think of was how to get out of there."

"Every time I started to climb out, something would jerk at the line and drag me back into the river. I finally got back and started to pull in the line."

"But I pulled too fast, for as soon as I saw the darned thing it grabbed my hand and started to chew it," Neely related. "It was a three and one-half foot garfish with plenty of teeth in 'at long jaw."

Gainesville Moves Into Second Place In League Standings

The Gainesville G-Men climbed into second place in the league standings as they trimmed the Deland Red Hats by a 5 to 2 score in Deland yesterday afternoon.

The G-Men handed diminutive Juan Perez his eighth defeat of the season.

The Palatka A's were forced to go into extra innings to down the Leesburg Pirates in a thrilling 3 to 2 eleven inning contest which was the second extra inning tilt in two days for the A's.

Dick Hallman, lanky St. Augustine righthander, limited the Orlando Senators to three safeties in turning a 7 to 0 shutout for the Saints.

Line scores:
Gainesville 003 200 003—5 9 2
Deland 110 000 000—2 5 2
Coker and Dulaney; J. Perez, R. Perez and Steinecke.
Leesburg 100 010 000—3 8 1
Palatka 100 000 001 01—1 5 1
Amorillo, Mihalik and Hall; Driggars, Loveys, McGahagan and Paulick.
Orlando 000 000 000—0 3 1
St. Aug. 002 030 118—7 11 1
Zedalis and Batts; Hallman and Stillwell.

Ball Park Baptized With Circuit Clout

PORT CHESTER, N. Y. (AP)—Empire Stadium, newly-built home of the Port Chester Clippers of the Class B Colonial Baseball League, has an unusual distinction: the first hit ever made in the park was a home run.

Rene (Buck) DeSorcy, Clipper first baseman, cleared the fence with none aboard and two out in the first inning against Bridgeport the night the park opened. A. And he turned the trick on Friday the 10th.

Arthritis Special Boon To Tired Golf Addicts

NEW YORK (AP)—Lou Little, Columbia football coach, turned sports editor when he took over the revision of the Richards Topical Encyclopedia's sports section. The new edition of the fifteen volume encyclopedia is expected to be published this summer and will include tennis, track and field, football, fencing, snowshoeing, lacrosse, golf and baseball.

R. J. (Dick) Johnson invented this links, scooter, a three-wheeled job that weighs less than 500 lbs., leaves no tire depression on dry courses; can attain a speed of 10 miles an hour or run as slow as five.

Johnson is from Houston and he says he'll have his scooter here in October for the State senior golf tournament. Anyone who wants to use it will be welcome.

Explaining that the "Special" usually was held to five miles an hour, he declares that there is no need to hurry. It is comfortable to just sit in it, and watch those in front while waiting your turn to play.

But at that, the scooter really isn't slow. A foursome riding the vehicle can easily make an 18-hole round in two hours, while the average time for walking round is from three and a half to four hours.

Johnson, an automobile distributor, has turned out two such vehicles for use at the Houston Country Club. They are furnished with upholstered seats and racks for four golf bags.

AP-Newsfeatures
CHARLOTTESVILLE, Va. — For a former high school shortstop with only three fingers on his hurling hand, David H. (Bud) Charles, Jr., is doing right as a pitcher for the University of Virginia baseball team.

Physicians amputated Charles' forefinger during the war, and it appeared then that Dave's baseball playing days were over.

But Charles took advantage of "his own brand of therapy"—receiving a rubber ball—and restored the hand to full use.

The former shortstop at Germantown High School in Philadelphia won his first six starts before meeting defeat at the hands of the University of Richmond.

In those seven games, he hurled 40 1/3 innings, gave up 25 hits, walked 26 and struck out 52. Against William and Marr, he failed to get a no-hitter by following in the ninth inning.

"Maybe a three-fingered pitcher has something ordinary pitched," Jack, chirps Gus Tobell, Cavalier coach.

Charles admits he has lost some of the power he used to have in his right hand, but he thinks most of his throwing speed is still there.

NEW YORK (AP)—The New York Giants were the last National League team to be shut out this year. It wasn't until June 4 at the Polo Grounds that Mal

Plastic Golf Club Impresses In Debut

YONKERS, N. Y. (AP)—new type all-plastic golf club made its debut at the Danvers Golf Club recently.

The club had been subjected to 5,000 shots in an automatic drive machine. Then the plastic's resistance to changes in atmospheric conditions was tested by a "weatherometer" machine in which the club went through "showers" every 20 minutes, heat of 200 degrees and then dropped to temperatures 20 degrees below zero. The clubhouse retained its original appearance.

Old's team was blanked, being held to four hits by Hank Boyer, of the Chicago Cubs.

AMERICAN HOUSEWIVES ARE THRIFTY

The buying procedure of the American housewife could well be an example of intelligent purchasing to the country over. They are out to get the most for their money and "shop around" until they find the best buy—in quality and price. Does your family "shop around" when buying insurance? If you can buy the same article for less, wouldn't you consider you had saved just that much money? That is exactly what we offer you fire, wind, storm, automobile and other kinds of property insurance equal in quality and dependability as you can buy anywhere but at a saving in the price. Think of all the useful things you could buy if you got back 1/5 of all the money you pay for insurance. How can we do this? Send for booklet. How to save money on insurance and learn how many American families have been saving on the cost of their insurance for the past 195 years.
