Americans See Selves As 'The Good Guys'

BY DOROTHY AUSTIN

"Americans, conditioned by years of Western movies and hero stories, think of themselves as 'the good guys,'" Dr. Luis Perez, a Cuban, who now is an American citizen, told members of the Lions Club Tuesday.

"Americans are ready to fight the 'bad guys' if they have to, but they believe in letting him draw first, not kicking him when he's down, not shooting in the back, and fair play," he said.

"But the Communists don't look like bad guys," he warned "they look just like the good guys."

"And they do believe in drawing first, kicking you when you're down, and shooting you in the back."

"The Communists are not going to risk an out and out fight," Dr. Perez said. "Witness what happened in the Cuban blockade. The U. S. called their bluff, set up lines and said, 'Go through here and we shoot,' and the Communists backed down."

"Propaganda is their weapon and it is a most effective one," he stated.

"They work by making you lose faith in your country, in your fellow Americans, in your Constitution and in God. They'll convince you that the government is no good, American policies are all wrong. They take half-truths and give them a different meaning, or take the truth and twist it into something ugly, not telling the whole story, and they use the rights of democracy of stand up and speak to you against your own country. They are so convincing that you believe them and get to thinking that way, too, and that's when you become a fellow-traveler," Dr. Perez warned.

"They use you and you help them, and you would be horrified to know that you are going right along with the Communist propaganda," he said.

"You say, 'How can the Communists come in and take over a country like they did Cuba?'" Dr. Perez said and answered the question by saying:

"They've been at it for 90 years. It didn't just happen overnight. They talk to the children, feed them perverted half-truths, sow discord and mistrust, undermine the children's faith in their parents, their country, their government, and they grow up, never knowing the truth."

Losing Loot

CHICAGO (NEA) — Despite two setbacks, Candy Spots in less than a month earned more than \$250,000.

From the Preckness May 18 to The Chicagoan June 15 with in-between stops for the Jersey Derby and Belmont Stakes, Candy Spots banked \$251,215. In less than six months in 1963, the Mosh Tenney-trained three-year-old earned \$442,215, which is more than any thoroughbred earned all last year when the financial champion was Never Bend with \$402,900.

In less than 11 months, Candy Spots picked up more than \$600,000.

With his defeats, owner Rex Ellsworth felt badly all the way to the bank.

Dr. Perez charged that women are the fiercest and most dedicated Communists.

"Women are deeply emotional, they either love you or they hate you," he said.

"Once a woman comes to believe the Communist propaganda line, she pursues it ardently, converting her husband and teaching her children, influencing her neighbors, and friends," he stated.

"Communists are eager to convert women, because they have so much control of children, who are most fertile ground because they accept what they are told without question."

"When speaking at public meetings, presenting subtle Communist propaganda, the Communists work and others planted in the audience, who watch the faces of the listeners, observing their reactions," Dr. Perez pointed out.

"Often most people will be unmoved, disbelieving or angered. But among the group there may be one or two whose facial expressions reveal that they agree and believe the propaganda. These are marked for further contact by the observers," he said.

"These people are not Communists and don't even know they are being used. They are what we call 'fellow-travelers,' whose 'anti-attitudes make them work against their own country and their own people without even realizing they are dupes for the Communists."

"Americans scoff at Communist infiltration, saying 'There are 18 million Americans and only 6 million members of the Communist Party in this country. How can they win?'"

"In the first place, this is not an election party like the Democratic Party or the Republican Party," Dr. Perez explained.

"They are not out to win elections. The first thing they do when they take over is to abolish elections. They've never won an election yet. Read the Communist Manifesto. They do not intend to fight us, but to surround us and undermine us, until we cave in and our economy caves in," he said.

"American business men are the greatest advertisers in the world. Advertisers can sell you anything. But why advertise Democracy? Why can't we sell Democracy? Can you sell it to your children? Do you know what Democracy is?" he asked.

"Only 40 percent of the people in Sanford voted in the last election. Do you realize that 60 percent of the people in this community voluntarily gave up what people in Cuba, in Hungary, in Poland, Germany, China would die for. The right to vote in a free election?" Dr. Perez asked.

He urged the audience to read Masters of Deceit by Hoover, The Ugly American and the Communist Manifesto.

Country Club Buy For UF Approved

TALLAHASSEE (UPI) — The State Cabinet authorized pay hikes for hundreds of state employees Tuesday and put its stamp of approval on purchase of a country club and golf course for the University of Florida.

The salary raises were for employees of several cabinet offices, including the superintendent of schools, commissioner of agriculture, secretary of state and attorney general, plus top positions in several of the major state institutions.

In general, the cabinet went along with requests from the agencies, providing money that had been made available by the 1963 legislature. In several instances recommended salaries were cut by the board.

Sitting as the State Board of Education, the cabinet denied a \$100,000 bond financing plan to purchase the old Gainesville Country Club for use by the University of Florida. The bonds will be floated by the University of Florida Athletic Association, which will turn the 117-acre facility over to the university for athletic purposes.

Harold Crosby, dean of university relations, said cabinet recognition of the bonds would not obligate the state but would have the effect of cutting the interest rate on the issue from about five per cent to about 3.5 per cent.

Atty. Gen. Richard Ervin agreed with Crosby that the action in no way obligated the State to pay off the bonds in the event of failure to do so by the semi-public association.

The cabinet authorized increases for school teachers at state child training institutions and in some of the prisons. The salaries will go up to the same level as comparable teachers in the counties in which the institutions are located. School head Thomas D. Halley said the raises would become effective next year.

In other actions, the cabinet:

Released \$10,000 as final payment on a \$20,000 memorial to Florida Civil War soldiers at Gettysburg.

Released \$10,000 to drill a well at the Supreme Court building for the air conditioning system.

Contracted with J. O. Carlisle, Tallahassee, for construction of a \$14,515 sewage treatment plant at the State Patrol headquarters building in Tallahassee.

Approved a new payment schedule for travel allowances for employees of the department of conservation. Employees will be paid \$12 a day for in-state travel and \$18 a day for out of state travel.

Girls have been cherishing dolls, and boys toy soldiers, since 3000 B.C.

State Hikes Standards For Public Schools

TALLAHASSEE (UPI) — The Cabinet School Board adopted higher standards for accrediting public schools Tuesday which could be used some day as a means of withholding state support money for sub-standard schools.

Under present procedures non-accredited schools continue to get full support funds under the Minimum Foundation program. But Secretary of State Tom Adams said he would like to see eventual use of accreditation as a means of withholding monies to force schools to bring themselves up to date.

State school chief Thomas D. Bailey said it was "conceivable" such a program could be put to use in the future.

In the main, the new accreditation standards are an updating of past standards. They have been in the making for the past three years and were used in pilot programs in a few schools during the 1962-63 year.

Schools may be accredited, accredited on a limited basis, accredited but warned and non-accredited. In the second and third categories, schools would have three years to make up deficiencies before they were taken off the accredited list.

In past years, borderline schools were all placed in the accredited category because there was no other list on which to report them.

South's Forest Improvement Group Meets

TALLAHASSEE—Some 150 land managers, industrial executives, and foresters attended the 17th general conference of the Southern Forest Improvement Committee at Gulfport, Miss. June 29-31.

The two-day program, attended by delegates from all southeastern states, showed the progress which research in tree genetics is bringing to the already prospering southern commercial forests.

Paul J. Otterbach of International Paper Company reported that more than 2,500 acres of seed orchards have already been established by forest industry and State Forestry agencies in 10 southeastern states. These are the orchards which will yield improved seed for genetically superior pine trees.

At the Gulfport meeting, the U. S. Forest Service Institute of Forest Genetics' program was also reviewed. Its principal laboratory for southeastern research is at Gulfport, where projects in southern tree improvement have been effected. A tour of the Institute was made by the delegates.

S.F.T.C. officers were named: chairman, Dr. Berch Henry, I. F. G., Gulfport; vice chairman, R. A. Bonnigsen, Forest Management Chief, Florida Forest Service, Tallahassee; and secretary, Don Cole, research forester with Continental Can Corporation, Savannah.

The committee's next annual meeting will be in Tallahassee next June, with a tour of the Southland Experimental Forest at Bainbridge, Ga., also planned. The next biennial general conference has been scheduled for Savannah, Georgia.

Havana Reports Pilot Defected

MIAMI (UPI) — Havana Radio reported Tuesday night that a Cuban-born U. S. airman, reported missing on a flight from Miami to Pensacola, has defected to the Communist island.

The news broadcast identified the pilot as Roberto Ramos Micheliens.

Ramos, 26, an airman stationed at Tyndall Air Force Base near Pensacola, was reported missing Monday after he vanished on the scheduled flight.

In Washington the Defense Department confirmed that Ramos was "missing."

"The pilot, Roberto Ramos Micheliens, has deserted the United States Air Force and has returned to our country," the Havana radio broadcast said.

Slavia Church Plans \$24,000 In Additions

By Service Kelsey

SLAVIA — The Board of Christian Education of St. Luke's Lutheran Church in Slavia has signed a contract for \$24,000 for additional classrooms for its Christian Day School.

The general contractor is Allen Trovillion, Inc., of Winter Park, and the architect is F. E. DeLue, of Orlando.

The two rooms and kitchen should be completed by Aug. 19. One of the rooms will be used for the kindergarten taught by Mrs. Virginia Bellhorn. This room will have fixtures suitable for the tiny pupils. The new addition will be air conditioned.

Seated from the left: Ferdinand Duda Sr., Andrew Duda Jr., James D. Culbert and E. L. Bellhorn, principal and chairman of the building committee and the board; standing: Steven R. Sidlik, teacher and secretary of the board; Andrew Stanko, Pastor Stephen M. Tuhy and Milan Jakubcin, school treasurer.

Radioactives Shipped Safely

ALBUQUERQUE, N. M. (UPI)—When radioactive materials are shipped from place to place in the nation, a lone duty officer in the Atomic Energy Commission's Albuquerque Operation office is the American public's guardian angel.

If an accident happens in handling or storage of radioactive material, police fire, and transportation officials call by telephone—Albuquerque, 258-4411, ext. 3-8267.

Donald P. Dickason, director of the AEC's storage division at Albuquerque, has transportation responsibility for all the nation's classified radioactive material and all "hazardous material" He directs and coordinates all classified shipments in the United States.

Either Dickason or one of his duty officers is available at the Albuquerque telephone number 24 hours a day. Because of advance route planning, the man on duty can locate every bit of moving radioactive material geographically at any given time.

According to Dickason, there never has been an accidental nuclear explosion. He said the Atomic Energy Commission has never had an accident of any sort which resulted in danger to the public.

When a vehicle carrying radioactive material is involved in an accident, a team of experts is rushed to the scene.

Utah's Freedom Academy For High Schoolers 3 Years Old

SALT LAKE CITY, Utah, (UPI)—Utah's thriving "Freedom Academy" ranks as one of the nation's top cram-courses for high school boys on the threat of communism.

The program will be three years old this summer. It is a project in which military men teach civilians about national survival. The money to carry it out comes from private sources, but the Utah National Guard handles the classes.

Maj. Gen. Maxwell E. Rich who set up the Freedom Academy program in 1961, believes the first two years have brought "excellent" response with a minimum of criticism.

High school juniors from every school in the state are invited to the Academy at Camp Williams, the National Guard's main training site near Salt Lake City. The instruction lasts five days in August.

Life at the camp is divided between courses in appreciation of American ideals and traditions, the history of the rise and spread of communism, plus time out for swimming and sports.

"There is no hard-core Prussian-type military training at the Academy," says Rich. The students do stand a formation in the morning and evening to watch the

Health Expert Retires After Forty Years

JACKSONVILLE (UPI) — Mrs. May McCormick Pynchon, 64, has retired from the State Board of Health after 40 years in health work.

Mrs. Pynchon became executive secretary of the Duval County Tuberculosis Association in 1923 after recovering from tuberculosis herself. Ten years later she became executive secretary of the Florida Tuberculosis and Health Association. She joined the state board in 1938.

Mrs. Pynchon is a native of Washington, D. C., who moved to Bartow, Fla., in 1912. She was graduated from Memorial Institute in Bartow and attended Florida State College for Women and the University of North Carolina School of Public Health. She was the first woman to become a pilot in Jacksonville, the third in Florida and the 136th in the nation.

ARC Election Slated Monday

The postponed annual meeting of Seminole County Chapter, American Red Cross, will be held at 7:30 p.m. Monday in the assembly room of the Seminole County Health Department on French Ave.

On the agenda is the election of officers for the coming year, consideration in brief of committee and executive board reports and such other business as may properly come before the meeting.

Since the Seminole County Chapter is a participating member of the United Fund, all donors of \$1 or more to United Fund, applicable to the Red Cross, are considered to be members of the American Red Cross, and as such are entitled to a vote in the voting.

All contributing members are urged to attend.

Musical Couple In Divorce Suit

LOS ANGELES (UPI) — The breakup of one of the most successful recording teams in entertainment history was disclosed Tuesday when singer Mary Ford filed a suit for separate maintenance against Les Paul.

Several of their records, including "How High the Moon" and "Vaya Con Dios" sold more than a million copies.

Miss Ford charged cruelty and asserted her husband refused to support her.

He Won One

INGLEWOOD, Calif. (NEA) — Someone said that Johnny Longden must hold the record for number of races lost as well as won.

The characterization was based strictly on volume, of course, Longden having ridden in more races than anyone else.

But a reminder from Puerto Rico is proof that on a percentage basis no other jockey comes near Pedro Juan Vinales. During an 11-year career, Vinales rode one winner out of 391 mounts for a winning average of one-fourth of one per cent.

World Golf

NEW YORK (UPI) — Thirty-four countries have been invited to participate in the 11th Canada Cup and International Golf Championship in France Oct. 24-27. The U. S. team of Arnold Palmer and Sam Snead won the cup in Argentina last year.

Recreation In Full Swing At Oviedo

By Bernice Kelsey
Up to the present date, 161 students have registered for the annual summer recreation program, according to director Paul Mikler. He is assisted by Coach Jim Palmer and student leaders Suzanne Partin and Jimmy Courier. Mikler announced the following schedule:
Monday and Thursday—arts and crafts—8:30-11:30—home economic building; leaders, Bob Iseli and Suzanne Partin; playground, Paul Mikler, Jim Palmer and Jimmy Courier.
Tuesday, Wednesday and Friday—swimming, Sweetwater Park; leaders, Paul Mikler, Jim Palmer, Suzanne Partin and Jimmy Courier.
Afternoon schedule: Junior and senior high—1:30-4:30—
Monday, Wednesday and Friday—golf, tennis, cheerleading, twirling and tumbling, led by Jim Palmer and Suzanne Partin.
Tuesday and Thursday—2-4—band, directed by Pete Baker.
Tuesday and Thursday—Little League baseball, coached by Jim Palmer, 4-6.
Night schedule—Monday, Tuesday, Thursday and Friday, 7-10, basketball, coached by Paul Mikler.
The next special event, a pet show will be held Thursday at the gymnasium at 9 a. m. Everyone is urged to bring his favorite pet.

Babe Ruth Club Entertained

By Bernice Kelsey
The Oviedo Babe Ruth Baseball Club members were entertained by their parents with a swimming party and supper at Sweetwater Park. Tim Colbert, on behalf of the club, presented Coach Paul Mikler with a gift in appreciation of the time and interest in coaching the players. Mikler, in acceptance of the gift, thanked the parents for excellent cooperation in arranging transportation and financing the team. He also expressed his appreciation for good cooperation of the boys in their enthusiasm, as shown in practice and in their sportsmanship. He stated that even though it was not a winning season, the boys played well and gained much experience and with the experience gained, by hard practice and determination should have a winning team next year.

Injured Pigeon Gets Boy's Loving Care

Robert B. Thomas Jr., FA 2-5756
Lou Charles Harold, II, who resides at 1114 Pine Avenue found a pigeon while playing in his back yard with a friend. The bird had a broken leg and this boy put a splint on it. After two weeks, the fowl has mended considerably. There is an identification tag on one of its legs. The number is W4283.
Lou Charles is a member of Cub Scout Troop No. 90, Den 1. He warrants a special commendation for his effort in treating and taking care of the bird. His act of kindness exemplifies those things for which he stands. He is the son of Mrs. Juanita G. Harold.
Mrs. Willie Mae Ruth of East Williamson, N. Y., and her granddaughter, Valerie Lynette Ruth, were recent guests of Mr. and Mrs. Raleigh L. Sutton. Mrs. Lorraine Sutton is the daughter of Mrs. Ruth.
Mrs. Julia Davis spent her vacation in Jacksonville, recently.
Larry and Sandra Campbell son and daughter of Mr. and Mrs. Allen Campbell of this city are visiting their grandparents in Carrabelle. Mrs.

Doll, Hobby Show Set For Friday

The doll and hobby show for Pinecrest, Southside and Grammar Playgrounds will be held Friday.
The children are requested to bring their entries to the Recreation Youth Wing before 9:30 Friday morning. Judging will begin at 10 a.m. and awards made on the spot.
Please label each entry with owner's name, and wait until after judging to take the entries home.
Children must be registered members of either Southside, Pinecrest or Grammar Playground to participate in this event.

Holidays

WASHINGTON (UPI)—An estimated 90 million Americans will take 164 million trips this vacation or pleasure trips this summer, according to the American Automobile Association.

MISS MICHIGAN — Miss Michigan for 1963, Kathleen McLaughlin, of Ishpeming, Mich., poses with current "Miss America," Jacqueline Jeanne Mayer, of Sandusky, Ohio. "Miss Michigan" will compete for "Miss America" title this fall. (NEA Telephoto)

Yank Ingenuity Sparks New Patent Ideas

By Dick West
WASHINGTON (UPI)—According to a magazine article, the United States is experiencing an invention explosion of even greater magnitude than the population explosion. Our old Yankee ingenuity is sparking new ideas so fast that the U. S. Patent Office can't keep up with them. At last count, it was almost 200,000 applications behind.

To realize how really big the backlog is, one must consider a statement made by Patent Commissioner David L. Ladd in an interview with U. S. News & World Report. Ladd said the problem could not be solved by hiring more employees.

I never thought I'd live to see the day when a bureaucrat would make a statement like that.

It shook me up so much that I stopped by the Patent Office and picked up a copy of its weekly list of new inventions. I could immediately understand why Ladd was feeling desperate.

During that one week alone, his office issued more than 900 patents, the scope and variety of which would make your head spin except for a few inventions that apparently were designed to make your head stop spinning.

Here are just a few of the devices that were awarded patents in that period:

A disposable paint brush; a machine for skinning fish; an apparatus for measuring the length of trousers; a retractable awning that you can run out over your auto's windshield when it starts to rain.

A self-cleaning ash tray; a hair brush that is grounded so that it removes static electricity from hair; a serving spoon that you can eat when you have finished serving.

There was even a new, though not necessarily better, mousetrap. If my understanding of the way it works is correct, it lures a mouse into a container where he eats so much cheese he becomes too fat to get back out again.

I assume the mouse stays there until the fatty diet and lack of exercise raises his cholesterol content to the point where he suffers a fatal heart attack.

To my mind, however, nothing points up the complexity of modern life quite so much as a new type of brassiere invented by a lady of Bridgeport, Conn.

This device is described as having seven segments, one being "a pair of shoulder straps, each connected at its forward end to said upwardly directed apex of a respective transition member and connected at its rearward end to the upper edge of said band at a point adapted to be disposed at the back of the wearer."

All of that just so some doll can look good in a sweater. No wonder the patent office is swamped.

Iron works at Saugus, Mass., was the first successful and sustained producer of cast and wrought iron in the U. S.

'Substance' Seen In Nikita's New Test Ban Offer

WASHINGTON (UPI) — Sen. Hubert H. Humphrey said Tuesday there is a feeling in U.S. government agencies that Soviet Premier Nikita Khrushchev's new nuclear test ban offer is a proposal of "substance" rather than propaganda.

The Minnesota Democrat, chairman of the Senate Disarmament subcommittee, made the statement as President Kennedy expanded a policy meeting on the question into a full-blown National Security Council session.

The entire council was called in for a session with W. Averell Harriman, who will be chief negotiator at the test ban talks opening in Moscow July 15.

Humphrey, told reporters "I think there is a possibility of agreement on a limited nuclear test ban."

He added that there seemed to be "no evidence" that Khrushchev's parallel suggestion of a non-aggression pact was intended to be linked with his test ban proposal.

"There is a feeling in government agencies that Khrushchev's test ban suggestion is more than just a propaganda move—that there is substance in it," Humphrey said.

Kennedy scheduled the Security Council meeting earlier.

Prehistoric Dad OK'd Child's Art

JOHANNESBURG, South Africa (UPI) — Prehistoric man instructed his children in more realistic art forms than do contemporary parents. But that's not all.

Prehistoric children positively were encouraged to draw on walls!

Unlike today's children, who draw a circle for the face and lines for limbs, the prehistoric toddlers painted natural shapes.

The points about prehistoric child psychology were made in an interview with Dr. Revell Mason, a local archaeologist asked to comment on an exhibition of fossils dating back more than three million years.

The "man in Africa" exhibition was organized by Prof. Raymond Dart, of Witwatersrand University here.

It ranges from fossils of skulls and weapons to rock paintings a mere 2,000 years old.

Dr. Mason said he's convinced paintings found in the caves were the work of children. They were found close to the floor.

Besides, they were far simpler than the work of more experienced artists found higher up on the walls.

Many of the prehistoric artifacts on show were discovered at the Makapansgat caves.

Makapansgat itself is a mute history book which contains man's history, layer by layer — from three million years ago to the present.

Space Fund Cut \$489 Million

WASHINGTON (UPI) — The House Space Committee today chopped 1449 million from President Kennedy's new \$5.7 billion civilian space budget, bringing it below what the space agency called a minimum figure.

The National Aeronautics and Space Administration (NASA) has indicated that it could not "live with" any cut beyond \$400 million.

The committee reduction amounted to 8 per cent of the NASA request for the fiscal year that started July 1. Administration officials are hopeful the Senate will restore some of the cuts.

CUSHIONING

NEW YORK (UPI) — Latex foam rubber is used for cushioning in 51 per cent of all upholstered furniture produced in the United States, according to the Latex Foam Rubber Council. Foam rubber is especially popular in pieces that feature slim, tailored lines such as Danish modern, the council says.

State Outdoor Council Meets

TALLAHASSEE (UPI) — The Outdoor Recreational Development Council, headed by Gov. Farris Bryant, held its organizational meeting Tuesday.
 The council, composed of the entire cabinet, was created by the last Legislature to supervise a recreational development program that might amount to \$50 million.
 In its only action, the council named Agriculture Commissioner Boyle Conner to serve as the cabinet member on the Outdoor Recreational Planning Committee.
 Conner was named vice chairman of the council with Bryant as chairman.
AUTO DEATHS
 NEW YORK (UPI) — Deaths from motor vehicle accidents are highest in the west and southwest, according to a study by statisticians of the Metropolitan Life Insurance Company.
 As an example, the annual death rate from such accidents for Nevada residents was 30.1 per 100,000 population, or nearly 2 1/2 times the national average of 11.4.

Gene Taffer, Mrs. Fedderson Head FR Groups

Annual installation of newly elected officers of the Fleet Reserve Assn., Branch 147, and the Ladies Auxiliary was held with impressive ceremonies at the Fleet Reserve Home on Seminole Boulevard.

Melton Stokes, First Branch president, officiated at the swearing-in oaths for both groups.

Re-elected to the presidency of the FRA was President Gene Taffer. Also taking office were vice president Don Pierce, second vice president Bob Meyers and secretary Mike Thomas.

President of the Ladies Auxiliary is Mrs. Vernon Fedderson, with Mrs. Don Pierce as vice president, Mrs. Leroy Nopper as secretary and Mrs. William Holcomb as treasurer.

Guest speaker for the occasion was Lt. Col. Robert Deal, USNAS' Chaplain who gave a thought-provoking talk on the lethargic attitude toward our duties as American citizens in worthwhile community organizations, government, church and home.

He stressed the importance of "each individual taking an active part in the keeping our country wholesome."

Guests of the LAFRA included Mrs. Bruce Wauters, Mrs. Robert Herbert, Mrs. Nicholas Rice, Mrs. Lowell Lorbeer, Mrs. Jim Talmadge, Mrs. Robert Peters, Mrs. Bob Meyers, Mrs. Jane Williams and Mrs. Mike Thomas.

Ladies Auxiliary members present included Mrs. Robert Hawkins, Mrs. Eugene Williams, Mrs. Wenneta Chesser, Mrs. C. E. Fleetmeyer, Mrs. Nopper, Mrs. Holcomb and Mrs. Fedderson.

Following installation ceremonies, a cold buffet was served and the two groups enjoyed a social evening of dancing to recorded music.

GENE TAFFER was re-elected to serve as president of the Fleet Reserve Assn. Branch 147. Officers from left are Bob Meyers, second vice president; Taffer, Don Pierce, first vice president, and Mike Thomas, secretary.

LADIES AUXILIARY of the Fleet Reserve Assn. were installed along with officers of the men's organization. From left are the new president, Mrs. Vernon Fedderson; Mrs. William Holcomb, treasurer, and Mrs. Leroy Nopper, secretary. New vice president is Mrs. Don Pierce.

Boy Faces Death In Sex Slaying

RENO, Nev. (UPI) — Thomas Lee Bean, 18-year-old Reno High School student, today faced death for the sex slaying of Olympic skier Sojka McCaskie.

A jury of eight men and four women took only 70 minutes Monday to convict the gangling, dark-haired killer of first-degree murder and set the death penalty.

He will be formally sentenced by Dist. Judge Grant Bowen next Monday, at which time an execution date will be set.

Road Work

BAKERSFIELD, Calif. (NEA)—Frank Gifford of the professional football team in New York Giants is working out at his home in Bakersfield.

The veteran is doing road work and playing handball.

"You've got to be in top shape to play flanker," says Giff. "It keeps you on the run all the time. I figure that a flanker logs from 30 to 50 yards on every pass pattern. That's a lot of running when you consider that we average from 35 to 45 pass patterns a game. Sometimes it's pretty tough just to hustle out of the huddle."

The United States consumes about 16 pounds of coffee per capita annually.

'Bubble' Ship Rides Above Water

PHILADELPHIA (UPI) — Naval and commercial ships of the future may "bubble" above the water at jet-propelled speeds of 100 knots if a principle being tested here is successful.

A nine-ton, 52-foot research test vehicle resembling an elongated speed boat has been built here. It rides on a "captured" air principle developed by Allen Ford, a physicist at the Naval Air Development center (NADC) at nearby Johnsville, Pa.

Developers said the day may come when the same theory can be applied to many types of larger vessels, including the largest troop transports, ocean liners and aircraft carriers.

The theory of the Captured Air Bubble (CAB) Vessel involves air trapped beneath the hull of the vessel which is powered by a jet engine on the stern.

The current research test vehicle has sideboards and movable back and front flippers extending into the water which permits the hull to ride two or three feet above the water—pushed up by the

"captured" air.

The jet engine is located above deck on the stern between two fins. Auxiliary power for docking and maneuvering in basin areas is provided by a conventional 110 horsepower marine engine.

The test vehicle, known as the XR-1, was built under the direction of Walter Simmons, a project engineer at the Naval Air Engineering Center at the Philadelphia Naval base.

Electoral College At Dead End

By Lyle C. Wilson

The Southern segregationist effort to prevent President Kennedy's re-election by offering Southern voters states of unpledged presidential electors in the one-time Solid South has huffed and puffed itself into a dead end.

Alabama and Mississippi will have states of unpledged electors. Georgia may have an unpledged slate at the will of the state Democratic organization. But the project was voted down last week in Louisiana and seems to have run out of gas in Florida, Alabama, Georgia and Mississippi have 10, 12 and seven electors, respectively.

The device of the unpledged states of presidential electors is designed to prevent the Electoral College from casting a majority vote for President. That could happen if the total electoral vote were split three ways. There are 538 votes in the Electoral College. The bare majority sufficient to elect is 270 votes.

The U. S. Constitution provides that the President shall be elected by the House of Representatives when the Electoral College is unable to elect. The Constitution also provides that if the question should reach the House, each state shall cast only one vote. Southerners have been dreaming and hoping for such a presidential election in which their states would possess a balance of power.

If all of the Mississippi, Alabama and Georgia electors were unpledged next year, they could be withheld from or cast for the candidate of either major party. If the major candidates split the remaining 518 electoral votes about evenly, it is obvious that the major candidate who could attract most or all of the 23 unpledged votes would be elected President.

That was a pretty dream while it lasted. Some of the supporters of Sen. Barry Goldwater (R-Ariz.) had been enjoying that dream. Their dream was that the unpledged elector device would enable Southern conservatives to cast a vote for Goldwater without actually voting for a state of Republican presidential electors. And it did seem reasonable to believe that Southerners who went to a lot of trouble to elect unpledged electors would not thereafter permit those electors to assure Kennedy's re-election.

Whatever merit there may have been in the theory that a conservative Republican would be the ultimate beneficiary of the unpledged elector strategy, the thing remains wholly theoretical. If the Republican nominee for President hopes next year to obtain major support in the South, he will have to go in to the Southern states and campaign for their support.

If Goldwater finally decides to seek the Republican nomination he will be expected to make a pre-convention campaign in the South. As a

Female Egghead Gets Ahead

HOLYOKE, Mass. (UPI) — Dr. Marcelle E. Kelly, of Holyoke, Mass., does not believe that the variable called sex has anything to do with progress of a woman in an educational career.

Dr. Kelly is the first woman superintendent of schools in the paper manufacturing city.

The newly appointed administrator of the Holyoke school system says ability, training and effort are the invariables which determine the success climb of man and woman—in education and other fields.

Miss Kelly has nearly 20 years of teaching, and another 15 of administrative experience supplementing her formal training.

Illia To Start Negotiations

BUENOS AIRES, Argentina (UPI) — Dr. Arturo Illia, the moderate candidate who out-pulled his nearest rival by nearly a million votes, today charted his next moves toward the Argentine presidency.

Illia, candidate of the Peoples Radical party, had 169 electoral votes on the basis of Sunday's peaceful nationwide balloting, but he lacked 70 for an absolute majority in the 470-member Electoral College meeting July 31.

He planned to start negotiations with candidates of other parties within a few days.

Military Spending Cut Billion

Savings Of \$4 Billions Predicted

WASHINGTON (UPI)—Defense Secretary Robert S. McNamara reported to President Kennedy today that \$1 billion was chopped from military spending for supplies and maintenance during the year ended July 1.

Raising his sights, McNamara said he expected economies totaling \$4 billion annually in purchases of military supplies and spare parts and in operating costs within the next five years.

The actual and prospective savings were one-third greater than the Pentagon chief estimated would be possible at the start of a cost reduction program in 1962.

But they only partly offset increased combat outlays which have pushed the defense budget up from \$15 to \$51 billion a year since McNamara took office.

McNamara, in a long memorandum addressed to the President, said \$700 million was saved in purchases alone during the last 12 months.

"The largest part of this reduction occurred in spare parts for aircraft and missiles," he said. "The Air Force has been able to reduce repair cycle time on high cost items from 30 to 45 days. The Navy reduced stocks of high demand spare parts on aircraft carriers by 50 per cent."

McNamara cited a 100 per cent increase in nuclear warheads in the strategic alert forces and a 60 per cent increase in U. S. nuclear forces in Europe as evidence that economies had not affected combat strength.

Russian Armed Might In Cuba 'Growing', Say Refugees

MIAMI (UPI)—Russian troops and rocket installations in Cuba are "steadily growing," particularly along the northern coast closest to the United States, newly arrived Cuban underground members said today.

Members of the Cuban Freedom Fighters Organization gave details on Russian activity in the area around Calbarren, a key port on the northern Las Villas coast.

They were among a group of 31 persons, including eight women and seven children, who escaped the island in a 33-foot sailing boat last week and reached the Florida Keys after a four-day journey.

There are approximately 10,000 Soviet troops in the Calbarren zone alone, the refugees said.

Lawmakers Shy At Enacting Rail Controls

WASHINGTON (UPI)—Congress, which has never legislated a solution to a national railroad labor dispute, was uneasy today over the prospect of having to do so now.

Republicans and Democrats alike shuddered at the thought of imposing compulsory arbitration to settle the current labor management clash over rail work rules. Federal seizure of the carriers likewise was viewed with alarm.

Key legislators predicted a long debate, possibly extending beyond the week President Kennedy has given Congress after he submits his legislative recommendations on July 22.

Railway management and unions have agreed to do nothing until July 29 that would cause a nationwide strike.

There was no indication what the President would propose, but some congressional leaders said they believed it would seek only to settle the dispute at hand.

Senate Republican leader Everett M. Dirksen, Ill., said: "I can see no other course than legislation—dealing with the dispute, but we should understand that this will be putting a president on the statute books, and it may rise up to haunt us."

Sen. Hubert H. Humphrey, Minn., assistant Senate Democratic leader, said Congress could "open up a Pandora's box of troubles" if it had to pass legislation to deal with the situation.

Humphrey said a law requiring compulsory arbitration could seriously harm collective bargaining, and railroad seizures could lead to nationalization of the rail industry.

Way Cleared For Execution Of 2

DENVER (UPI)—The state of Kansas was given a go-ahead to reset an execution date for two convicted killers Wednesday when a 10th U. S. Circuit Court of Appeals affirmed their conviction.

The admitted killers of seven persons, James Douglas Latham and George Ronald York, escaped the Kansas gallows 12 hours before their scheduled hanging June 19. The Circuit Court stayed the execution in order to allow defense attorney Roy Cook of Kansas City, Kan., time to file a petition of habeas corpus with the court.

The petition was filed and the court heard arguments Monday.

Cook, who was expected to take the case to the U. S. Supreme Court, claimed the jurors were prejudiced by a television interview with the two young soldiers made shortly after their capture in 1961.

York, 20, of Mauriceville, Tex., and Latham, 21, of Jacksonville, were convicted at Russell, Kan., of the murder of Otto Zeigler, a railroad employee.

In confessions, they admitted killing six other persons in five other states after escaping from the Ft. Hood, Tex., stockade.

Stymied Again, Red Talks Halt

MOSCOW (UPI)—Russia and Red China, apparently stymied in the attempt to lead their rift, recessed their ideological talks again today to allow deliberation of their respective positions.

Informed Communist sources said the secret discussions probably will be resumed Friday. It was believed the Chinese negotiators were asking for fresh instructions from Peking.

Midwest Areas Hit By Drought

By United Press International

A widespread drought threatened to reach disaster proportions throughout parts of the Midwest today, cutting the wheat yield and posing a threat to the fall crops.

A U. S. Department of agriculture disaster committee was to meet in Washington today to consider Gov. John Reynolds' request to declare 20 Wisconsin counties drought disaster areas.

In the Oklahoma Panhandle a request was made for a drought designation, but Gov. Henry Bellmon rejected it, saying dry weather was one of the hazards of farming.

Some areas of southwest Kansas have been declared drought stricken. The wheat crop suffered considerable damage in western Kansas, although farmers said they got a better yield than they expected.

In southwest Iowa and northwest Missouri farmers decided to reactivate a cloud-seeding program they said was highly successful in 1957. They said they were eight inches deficient in rainfall for the season.

Violence Flares In Two Towns

United Press International

The nation's integration struggle took a violent turn today. New racial upheavals in Cambridge, Md., and Savannah, Ga., resulted in arson, threats, gunfire, rock hurling and tear gas.

In Cambridge two empty Negro houses went up in flames and white men drove through a Negro section hurling bricks at pedestrians. State and local police were hard put to break up an angry crowd of Negroes who threatened to march into the white neighborhood.

In Savannah, police broke up a demonstration by an estimated 2,000 Negroes early today and used tear gas and high pressure water hoses.

The demonstrators, shouting for the release from jail of their leader, slashed police car tires, pulled open the door of a police station and were arrested, and lay down in front of the police vehicles when they began to move.

Recover Radium

JACKSONVILLE (UPI)—A \$7,000 capsule of radium was recovered Wednesday after being traced through the drain pipes of St. Luke's Hospital here with a geiger counter.

Held On Efts

TAMPA (UPI)—William Burton Poage Jr., 12, of Tampa, was charged by postal authorities Wednesday with the theft of \$200 from mail addressed to Tampa bank.

Strike Ends

MIAMI (UPI)—Transport Workers Union mechanics returned to their jobs at the Pan American World Airways overhaul base here today after settling a dispute over location of time clocks.

Regain Control

TALLAHASSEE (UPI)—The Cabinet Budget Commission has regained its control over spending by the state's universities—a power it nearly lost during the last legislature.

No Release

MIAMI (UPI)—Marcel Perez Jimenez remained in the county jail today because a federal judge quashed the former Venezuelan strongman's latest bid to be freed on bond.

Raises Urged

WASHINGTON (UPI)—Defense Secretary Robert S. McNamara appealed Wednesday to the Senate to restore pay raises for junior military officers to induce more of them to stay in the service.

Appointment Announced By Herlong

Congressman A. S. Herlong Jr. this morning from Washington notified The Sanford Herald of the appointment of Miss Cecile Heard as postmaster of the Sanford post office. She will assume office Aug. 2.

MISS CECELE HEARD

Capt. Mayo Assumes Air Command Friday

Capt. Joseph M. Tully Jr., Friday will pass command of Sanford's Heavy Attack Wing One to Capt. James O. Mayo, ending an association with a community and a Naval program that began eight years ago.

The far-reaching aviation command will be changed at 11 a. m. in formal ceremonies in the Sanford Naval Air Station.

For Capt. Tully the ceremony will be his last official contact with three of the six squadrons he has guided since June 27, 1961. The Wing's other three squadrons are currently deployed with the U. S. Second and Sixth Fleets.

For the relieving officer Capt. Mayo, it will be an introduction to the post he will lead for the next two years as commander of the Navy's long-range, carrier-based air strike arm.

Many of the estimated 200 civilians who will attend the ceremony have already paid homage to Capt. Tully in an "Appreciation Day" banquet staged by the Sanford-Seminole County Chamber of Commerce June 27.

But the ceremony will mark the end of a personal relationship which began in 1953 when Tully first came to Sanford as executive officer of Heavy Attack Squadron Five (VAH-5).

The widely-known Naval leader is now slated for instruction at the National War College in Washington, D. C., the traditional grooming school for high-ranking officers scheduled for top-level decision-making.

The strike, which followed the breakdown Wednesday of contract negotiations between the company and Local 824 of the International Brotherhood of Electrical Workers, caught the telephone company by surprise.

(R. F. Shadden, Sanford manager of Southern Bell, said today the West Coast strike will not in any way affect local telephone service.)

Healthy Gains For Seminole Banks Reported

Seminole County's four banking institutions are included in a report "indicating continued healthy increases in loans and deposits of the state's 302 commercial banks" released today by Floyd Call, executive vice president of the Florida Bankers Association at Orlando.

Central Florida banks show a 12.7 per cent increase in loans and an 11.1 per cent increase in deposits as compared with totals of a year ago.

Seminole County banking figures, as reported by Call in comparison between the years ending June 29, 1963, and June 29, 1962, are:

Sanford Atlantic National Bank — 16.3 per cent increase in loans and discounts, \$5,288,000, up from \$4,528,000, and 12.9 per cent increase in total deposits, \$11,061,000, up from \$10,833,000.

Florida State Bank — 2.9 per cent decrease in loans and discounts, \$3,103,000, down from \$3,258,000, and 13.6 per cent increase in total deposits, \$11,795,000, up from \$10,327,000.

Oviedo Citizens Bank — 28.2 per cent increase in loans and discounts, \$1,017,000, up from \$792,000, and 3.1 per cent increase in total deposits, \$2,814,000, down from \$2,726,000.

South Seminole Bank at Fern Park — 41.8 per cent increase in loans and discounts, \$2,106,000, up from \$1,485,000, and 21.7 per cent increase in total deposits, \$1,541,000, up from \$1,264,000.

Phone Strike In Tampa Bay Area

TAMPA (UPI)—The Electrical Workers Union went on strike today against General Telephone Company of Florida, which serves six Tampa Bay area counties.

The strike, which followed the breakdown Wednesday of contract negotiations between the company and Local 824 of the International Brotherhood of Electrical Workers, caught the telephone company by surprise.

(R. F. Shadden, Sanford manager of Southern Bell, said today the West Coast strike will not in any way affect local telephone service.)

3 Killed, 7 Hurt As Cars Crash

GAINESVILLE (UPI)—A northbound car swerved into the southbound lane on U.S. 41 last night, sideswiped one car and smashed head-on into another killing three persons and injuring seven, the Highway Patrol reported.

The dead were Mrs. Elizabeth Sanders Bowron, 57, of Umalla, Shirley Diane Smith, 11, and Harry Smith, 19, both of Lake Wales.

The Highway Patrol said the accident occurred when a car driven by Ross Frederick Bowron, 72, husband of Mrs. Bowron, swerved into the opposing lane.

He sideswiped a car that tried to get out of his way, then crashed into a car driven by Chester Alis Smith, 41, of Lake Wales, the Patrol said.

Smith's son, Harry, and cousin, Shirley, were killed and two other sons were hospitalized. His wife, Alta, was hospitalized in "very critical" condition.

Also hospitalized were Bowron, 2-year-old Barry Bowron, and another passenger in the Bowron car, Gary Frey, 13, of Umalla.

The Highway Patrol said Bowron would be charged with driving on the wrong side of the road.

POSTMAN ED DREBERT has had a companion on his mail rounds every day but one for the last five months. He is joined every morning by this dog at Fourth and Myrtle and the canine accompanies him as Drebert delivers the mail. Herald photographer Bill Vincent Jr. was on the job Wednesday morning to "shoot" Drebert and his companion but for the first time in five months the dog failed to appear. This picture was snapped this morning.

Memo to the city street maintenance people. Those centerline markers on downtown First Street are becoming quite worn and faded. How about some new paint? And some arrows at the beginning of the lanes where you run west bound traffic in a single lane?

Memo to the "working girls of Sanford and Seminole County." The 22nd annual Miss Southland beauty contest "for working girls" will be held Aug. 30 at Daytona Beach. Only qualifications needed are to be beautiful and generally employed.
