President Johnson Appeals To Few Americans To Fulfill Heritage Of 'Justice, Liberty, Union'

WASHINGTON (UPI) — Lyndon Baines Johnson was sworn in today as president in his own right with an appeal to his fellow Americans to fulfill their heritage of "justice . . . liberty . . . union."

In his inaugural address, Johnson forecast that "before this generation of Americans is finished" it will conquer waste of its human resources.

Johnson said that Americans "must work now to provide the knowledge and the surrounding which can enlarge the possibilities of every citizen."

"Let us reject any amount of who seek to open old wounds and rekindle old hatreds," Johnson declared. "They stand in the way of a soaking nation."

The 56-year old Chief Executive summoned his countrymen to "join reason to faith and action to experience to transform our unity of interest into a new unity of purpose."

"For the time has come when we must choose between a narrow, selfish, and shortsighted nationalism and a broader, more inclusive vision of our country's future," Johnson said.

"Under this covenant of justice, liberty, and union — we have become a nation, prosperous, great and mighty. And we have kept our freedom — that we have no previous experience to transform our unity of interest into a new unity of purpose."

"We have been allowed by Him to seek greatness with the sweat of our hands and the strength of our spirit. We do not believe the great Society is the ordered, changed and sterile battalions of the gods."

"It is the excitement of becoming — always becoming — young, pushing, finding, growing, and trying again — but always gaining."

Johnson delivered his inaugural address from a wind swept platform on the steps of the Capitol immediately after Chief Justice Earl Warren had administered the 35th oath prescribed by Article II of the constitution.

With his right hand resting on a Bible his mother gave him, Johnson uttered the oath.

"I do solemnly swear that I will faithfully execute the office of president of the United States and will, to the best of my ability, preserve, protect and defend the Constitution of the United States," he said.

A reception scheduled to follow an example set by George Washington, he still this country's goal.

"Thus if as a nation there is much outside our control, as a people, no stranger is outside our hope."

"Change has brought new gray hairs and instead of seeking to that old mission, the traditional mission of God, we can never again stand apart and isolate them."

Earlier, in his inaugural address, Johnson said that he would "take the oath of office as the nation's first vice president."

Thousands gathered on the Capitol grounds and millions more on television saw Speaker John W. McCormack (D-Mass.) swear the president's son from Houston, S. D., into office as the United States accompanying official.

Humphrey is the first vice president the nation has had since Nov. 22, 1963.

Johnson's inaugural ceremony was the first since the assassination of President John F. Kennedy.

Citizens Bank Deposits Up 19 Per Cent

Gross operating income of Citizens Bank of Ocala totaled \$164,416.28 in 1964, an increase of \$27,864.46 or 20.4 per cent over 1963. It was revealed by C. E. Cloutier, chairman of the board and president, at the annual stockholders meeting.

Net operating earnings were \$10,000, or \$10 per share. Dividends amounting to \$2,000,000 were paid to stockholders during the year.

Deposits at the end of 1964 totaled \$2,912,232.22, an increase of 19 per cent over 1963. Total investment of all U. S. government securities was \$2,124,036.46 and of municipal bonds \$81,733.00 on Dec. 31.

Bank officers reported that conditions showed total resources and liabilities at \$4,420,818.

Ownership of the bank's 1,000 shares of capital stock was held by 81 shareholders.

Bank officers elected for the year are Cloutier, L. H. Webb, executive vice president; Harold A. Ward Jr. and H. F. Wheeler Jr., vice presidents; James W. Abell, cashiers; Mrs. Marie S. Birch and Mrs. Fannie M. Gillif, assistant cashiers.

Webb reported the bank now employs 22 persons and has commenced during the last year.

Stewart Gatchel, personnel director, and William Whit 18, in-charge coordinator who have been studying ways of complying with the federal law presented the following proposal which was accepted by the board.

Option I. Each pupil eligible to attend the public schools of Seminole County shall have the right to enroll in the schools which he attended during the 1964-65 school year, or the school which he would have attended by promotion or original entrance during the 1964-65 school year.

Option II. Each pupil eligible to attend the public schools of Seminole County, who does not exercise the option provided in the preceding paragraph, shall be assigned to the school nearest his residence.

Option III. A pupil may be assigned or transferred from one school to another provided such assignment or transfer is based on racial considerations.

In discussing the legal aspects of the situation, school attorney Douglas Stinson pointed out:

"The situation is brand new and it is different in each county. We have notified the federal authorities that we would comply with the federal law and this plan is evidence of our good faith. We hope that it will meet with their approval."

If approved, the plan would permit pupil applications to be filed some time this spring, with resulting assignments effective at the beginning of the fall semester, Mason Whitson, board chairman.

School Board OKs Plan Of Desegregation

The Seminole County School Board today approved a tentative plan of school desegregation based on optional choices Tuesday, and subject to the approval of state and federal authorities.

The board voted to qualify for some \$300,000 of federal funds, most of which already have been budgeted for the year.

The desegregation plan is on file with federal authorities by March 2, in compliance with the Civil Rights Act of 1964. Failure to do so would place the local board liable for court orders.

Junior College Plan Presented

By Harry I. Johnson

GAINEVILLE, (UPI) — A delegation of Seminole County citizens here this afternoon for a critical hearing with the State Junior College Board.

Indications are that it will head the delegation are Sen. Mack N. Cleveland Jr. and Rep. Joe Davis. Also attending are County Commissioner Chairman John Alexander and other commission members.

Mason Whitson, chairman of the Seminole Board of Public Instruction, Stewart Gatchel, director of instruction and personnel and the principal representative of the Seminole County Chamber of Commerce's long range planning committee, and John Knicker, executive manager of the Chamber.

The delegation had a two-hour hearing with the Junior College Board in the Administration Building of the University of Florida.

A 10-page brief with appropriate maps and charts was given the board members — a brief which was completed in December by the Seminole Board of Public Instruction.

It was a "Priority No. 1" for the project — a step which can be taken today by the state board.

The brief was prepared to substantiate the intent behind that Seminole County greatly needs a public junior college program. It adds that the economic and social progress of the county is dependent upon a public junior college.

The population growth was cited as increasing 90.5 per cent from 1950 to 1960 and an estimated 221 per cent from 1960 through 1980. It further indicated the projected growth over the next five years will be 63.3 per cent.

"Many of our students in the upper 25 per cent of the graduating classes," the brief stated, "are not attending a college. This, we feel, is a great loss to our community and to our society."

The program made available would be a four-year comprehensive and inclusive university parallel and complementary program, a variety of terminal programs, and an adult education program.

Noel Dennis Atkins, 77, of Rockingham County, killed himself with a single bullet from his 45-caliber pistol, the same one used to hold up a branch bank earlier for \$11,000.

Sir Winston Sets History In Medicine

LONDON (UPI) — The last heart of Sir Winston Churchill fought on against death today.

Arrangements already are being made for his funeral in accordance with plans he drew up 20 years ago. British know the great hero will fall some time ago.

The last 10 years of his life have been a struggle against a stroke which left him paralyzed and unable to speak.

He died at 10:30 a. m. on Friday at his home in London.

His death was announced by the British government.

Cold Weather Over Midwest

United Press International

Over the eastern third of the nation gave way to warmer temperatures today and Florida warmed up from a frost that whittled its mercury.

The last of a series of arctic outbreaks pushed into the Midwest accompanied by cloudiness and scattered snow flurries.

The shifting effect of the cold front pushed into the Midwest today and the 20th of the year.

Temperatures in the Midwest were in the 20s and 30s.

Another storm and the snow flurries fell around the Great Lakes.

Schools were expected to open at Indianapolis, Ind., where for two days in a row they were closed.

Mittens and overcoats were the uniform of the day today for those attending President Johnson's inauguration at Washington, D. C.

The weather bureau predicted no more freezing temperatures and partial overcast for several days.

Snow was not expected but no one was taking any chances.

Bassett Hearing Slated Monday

Hearing has been set for 2:30 p. m. Monday before Circuit Court Judge Volle A. Williams Jr. in an amended complaint filed by E. F. Bassett, unsuccessful Florida candidate for the office of Seminole county commissioner for District 5.

The hearing was requested by Attorney S. J. Davis, representing Lawrence Swafford, winner of the election, whose suit to the suit is being challenged.

Bassett has charged election "irregularities" and asked for certification from the county canvassing board naming his commissioner.

The canvassing board and Supervisor of Registration Tamara Bruce are represented by County Attorney Harold Johnson.

St. Johns Study Set Feb. 16-18

JACKSONVILLE (UPI) — The Army Corps of Engineers has scheduled three public hearings next month to discuss ways of making canal and rivers more navigable.

The Engineers said the improvements would mostly be located on coastal canals and in the headwaters of the St. Johns and Kissimmee Rivers.

The hearings were scheduled Feb. 16 in Cocoa, Feb. 17 in Kissimmee and Feb. 18 in Fort Lauderdale.

Firemen Halt Oil Truck Fire

City firemen snipped a potential "bad one" Tuesday morning at Seminole Boulevard and Myrtle Avenue when they quickly halted a fire on a fuel oil truck.

The fire was on a truck owned by Hughes & Williams, 409 E. 10th St. Tuesday afternoon when a defective fuel vent smoke and fumes into the house. Damage was confined to the house. The house is occupied by Irma Gibson, fireman said.

Humphrey Tops Long Career

WASHINGTON (UPI) — An exuberant Hubert H. Humphrey reached the pinnacle of his long career in public life today when he took the oath of office as the nation's first vice president.

Thousands gathered on the Capitol grounds and millions more on television saw Speaker John W. McCormack (D-Mass.) swear the president's son from Houston, S. D., into office as the United States accompanying official.

Humphrey is the first vice president the nation has had since Nov. 22, 1963.

Johnson's inaugural ceremony was the first since the assassination of President John F. Kennedy.

All-American Parade Held

WASHINGTON (UPI) — An All-American procession of cowboys, Indians, high school bands, pretty girls, paratroopers and politicians escorted Lyndon B. Johnson down the glory road from the Capitol to the White House today after he took his oath as President.

There were 52 bands and 15,000 marchers — a short parade, but still long enough to keep three hours to pass down historic Pennsylvania Avenue.

Military hardware was conspicuous by its absence. Instead of missiles, tanks and guns, the parade featured floats depicting the peaceful accomplishments and ideals of "The Great Society." An estimated 200 million others, on both sides of the Atlantic, saw it on television.

Security Force Most Elaborate

WASHINGTON (UPI) — Security forces, "haunted" by John F. Kennedy's assassination, marshalled the most elaborate set of precautions in history for President Johnson's inauguration.

Every possible step was taken to protect the Chief Executive.

These included: a wall of bullet proof glass around the inaugural stand at the Capitol; similar glass and bomb-resistant steel plate at Johnson's reviewing stand in front of the White House; and an army of 2,000 police and troops along the parade route.

Bank Robber Ends His Life

GREENSBORO, N. C. (UPI) — A young man robber put a fatal bullet into his head here Tuesday when police closed in on him.

DeBary Fire Chief Points Out Need Of Tank Truck

By Mrs. John Leone
The necessity for the DeBary Volunteer Fire Department to be equipped with a tanker truck capable of hauling 3,500 to 5,000 gallons of water was stressed by Fire Chief Jack Lambertson at the January meeting of the organization.

Lambertson pointed out that lack of such equipment was pinpointed recently during the aftermath of a Navy Vigilante crash in the community when it was impossible to get large quantities of water to the scene as quickly as needed.

Month-Long Calendar Set By Heart Unit

The Seminole DeBary Heart Association has many activities planned during Heart Month, February. Tula Perez, president of the organization, said today, "Kicking off the calendar of events will be the Paul Hahn show, featuring the famous trick-shot golfer at 3 p. m. Jan. 31 at Mayfair golf course. Dr. Robert Rosemond is chairman of this event," Dr. Perez related.

Other activities include Coffee and Milk Day for Heart when all proceeds of coffee and milk sold in local participating restaurants will go to the Heart Fund. A local dairy is supplying the milk free.

A ceramic show at the Civic Center, featuring the work of local ceramic artists. Annual Queen of Hearts skate show at Melodee skating rink which will this year feature a Cinderella theme in keeping with the nationally televised musical, "Cinderella" being presented by the CBS network on Feb. 22 for the American Heart Association.

Mary Sheppard Expires Tuesday

Mrs. Mary (Lou) Sheppard, 84, wife of the late Thomas Sheppard, died at 11:05 p.m. Tuesday at Seminole Memorial Hospital after a lengthy illness.

Born in Jacksonville she lived there until recently when she moved to Oviedo to make her home with a daughter. She was a member of the Baptist Church in Jacksonville.

Survivors are two daughters, Mrs. Irvin Moxton, of Oviedo, and Mrs. Kenneth Storey, of Jacksonville; four sons, Leslie T. and Cecil S., of Sanford, Hardy, of Jacksonville, and M. L. Sheppard, of Whitewater, Mass.; two sisters, Mrs. W. J. David, of Sanford, and Mrs. James Ferguson, of Jacksonville; five grandchildren and three great-grandchildren.

Funeral Notice

Funeral services for Mrs. Mary (Lou) Sheppard, 84, wife of the late Thomas Sheppard, who died Tuesday, will be held at 11 a. m. Friday at Hixson Funeral Home with Rev. Edgar W. White officiating. Burial will be in Margaret Cemetery. Hixson Funeral Home in charge.

for expenses in 1964 with the greatest single amount going for insurance on men and equipment. Other monies went for repairs with the balance of annual totals collected from residents for fire protection going into a special fund used only for fire fighting.

Frank Laymel, chairman of collections, advised that \$2,971 had been collected to date in the annual drive which is almost complete. He also reported that letters have been sent to property owners not living in DeBary in regards to their contributions or subscriptions.

Activities report for the past year showed that the firemen answered calls to 13 brush fires, one school fire, one plane crash, three car fires, two investigations and one false alarm.

The fire hall was equipped and opened as a hurricane shelter twice during the year and during Cleo, in August, a family of seven children and their mother were housed and fed for several days.

President Ellsworth Ogden, on behalf of the officers, the firemen and members of the association, expressed appreciation to residents of the area for their donations towards fire protection which, in turn, support the department.

In other business Ogden appointed committees to be sponsored by the entertainment committee will be held Jan. 22, 10 p.m., at the fire hall and that dinner will be held Feb. 6 and March 13, 8 p.m. to 11:30 p.m. each date, with music by the DeBary Combo.

Three new members, Thomas Smith, Fred Duke and Ernest Smith, were accepted.

WASHINGTON (UPI) — Tennessee Gov. Frank Clement has pledged unequivocal support to bringing the depressed Appalachian area into the "Great Society."

5 Presidential Fetes Tonight Attract 28,000

WASHINGTON (UPI) — Five inaugural balls will be held tonight for a President whose love of dancing is matched by only one predecessor — George Washington.

President and Mrs. Johnson and their daughters, Lynda, 20 and Luci, 17 are planning to drop in on all five of the balls where thousands will be gathered to see them.

The inaugural committee reported a sellout with some 28,000 tickets purchased for the affairs at the Armory, and the Mayflower, Shorham Sheraton, Park Plaza and Hilton hotels.

Johnson was expected to make his first appearance at the Armory where about 11,000 persons will be gathered. Inaugural officials lined up 14 bands and combos to perform at the balls. They set a theme of "America The Beautiful" for the lavish decorations.

The big name entertainers on hand include Louis Armstrong, the Brothers Four, Emil Coleman, Russ David, Lester Lamm, Peter Duchin, Henry King, Meyer Davis and Guy Lombardo.

Washington bands also playing are Howard Devron, Gene Donati, Bobby Fisher, Fred Perry and Sidney.

The military bands will render "Hail To The Chief" when the President enters the ball room. The Johnsons are expected to make the rounds with Vice President and Mrs. Hubert H. Humphrey.

The balls are expected to put the inauguration financially in the black. Tickets for the black tie events sold at \$5 per person and \$750 a box. Champagne and soft drinks were to be served and hard drinks were to be sold.

"The Appalachian region often through no fault of its own," Clement said. "Tennessee gives unequivocal support to the program that is being considered."

He signed out Kingsport, Johnson City, Bristol and the Morristown-Greenville, Knoxville-Alcoa - Maryville - Oak Ridge and the Chattanooga areas as Tennessee portions of Appalachia containing heavy and prosperous industrial developments.

of Appalachia containing heavy and prosperous industrial developments. "But in the outlying areas, in some of the smaller communities, in the mountainous areas and in some rural areas, we find severe problems of economic decline," he said.

"These have been brought about largely through changes in agriculture and in production of coal." Clement said Appalachian development is aimed at providing an economic base for private enterprise to prosper.

HAL OF FAME BOWLING TIPS

By Joe Norris
Written for NEA
The fierce, competitive drive of Johnny Crimmins often was misleading to his teammates and opponents, including myself. Before we learned better, we felt Johnny must not be concentrating on his game while he bunched around the lanes keeping up the chatter.

cess. And nobody could quarrel with his success. From victory in the first National All-Star tournament in 1941, he went on to a string of major titles and election to the Hall of Fame in 1962. He knew it and you should, too, that top-score bowling requires the successful combination of many body movements. A quick mental review of those movements summed up in the word concentration is the best way to plan each delivery.

Strikes... Spares

By John A. Spolaki
Here's something that'll jar you. Did you girls know that your chances for submitting an entry in the fifth annual Sanford Women's Bowling Association tournament is less than three weeks away?

May we take this opportunity of thanking those of you who came out on Sunday from 1:30 to 3 p. m. For your information, it was the largest Sunday crowd that Jet Lanes has had since our opening over five years ago.

Association president Eleanor Anderson and her staff have been doing everything in their power to assure you of having another successful and enjoyable tournament. One way that all of you can materially assist is by getting your entry in early and offering your services when requested by your state of officers.

capped league. We're going to repeat the performance again with additional surprises in store for you. The only way you'll find out about what's going on is to be on hand on Sunday at the times mentioned.

Here's another new league in the process of organizing. On Wednesday evenings at 9, Bill Averill says that he has at least 12 men who'd like to organize into a league but would welcome any other league who'd be interested in participating. Bill's group is of the U. S. Geological Survey team in the area and would like this opportunity of bowling and making new friends from this area.

And talking about this happy group of bowlers, here's one for the record books. Back on Aug. 24 the NAS Maintenance "A" team, composed of K. R. Martin, H. D. Farris, G. T. King, C. W. Huey, J. E. Schmitt, D. L. Benty and H. E. Rogers, went out and bought personalized name cards listing all of the team members.

Georgia Tech, Florida State Tangle Tonight

ATLANTA (UPI)—There's a long, rocky trail from conference membership to independent success.

That's a harsh fact of life with which Georgia Tech basketball coach Whack Hyder is having to live this winter. When Georgia Tech walked out of the Southeastern Conference it caused barely a ripple in the Yellow Jackets' football program since gridiron schedules are made up many years in advance.

But basketball schedules are largely on a year-to-year basis and Hyder has found that independence can be a burden—especially at first.

"To make a go of it as an independent, you have to have a good team and a good schedule," Hyder said. "If the fans will be patient for a couple of years, we hope to provide both."

At the time Georgia Tech made its bid for independence last January, most teams had their 1964-65 basketball schedules pretty well set.

Georgia Tech doesn't have a basketball team and although its record is only 3-7 going into tonight's visit to Florida State, the Yellow Jackets still have hopes of getting an at-large berth in the NAA playoffs or perhaps a bid to the NIT tournament.

Hyder is optimistic about next year's schedule. He already has 22 of a planned 26 games lined up and promises it will be a full-scale major league slate.

"We'll have a good little team next year, but without a big man we may be in trouble," Hyder said. "Our recruiting dropped off for several years and we've got to rebuild."

Lyman Tops Kowboys

By Jim Bacchus
Herald Sports Writer

The Lyman Greyhounds evened their overall record at five wins and five losses and boosted their Orange Belt Conference record to five wins and one loss with a runaway 56-40 triumph over Kissimmee's highly touted Kowboys at Lyman Tuesday night.

The Kowboys, conquerors of DeLand Bulldogs who handed the 'Hounds their first OBC defeat last week, were completely overpowered by an alert and aggressive Lyman team.

Line score:
Kissimmee 8 9 8 15-40
Lyman 14 16 16 12-56

The 'Hounds took an early lead and increased it steadily throughout the course of the game. Kissimmee never came close after the first few minutes of play.

The superb play of Joe Asher, Eddie Long and Mike Sterling was influential in the Lyman win.

Lyman scored 10 of 16 free throws for 67 per cent. Kissimmee made 12 of 15 for 75 per cent.

Asher's 17 points boosted his season total to 174, an average of 17.4 points per game. Asher is well on his way to a 300-point season.

Lyman's OBC record is 5-1 and they still maintain their slim lead over DeLand.

The Greyhounds' next two contests are against non-conference foes, Oviedo and Bishop Moore. Both of those schools defeated Lyman earlier in the season and a much improved kennel will be out for revenge.

The next conference tilt is against last place Lakeview next Tuesday night. Lyman defeated Lakeview 56-47 in their initial meeting.

Scorers for Lyman were Asher, 17; Long, 10 points; Sterling, 10; Gene Winkleton, 8; Richard Moore, 6; Dave Matls, 6; Kenny Amont, 2.

Scorers for Kissimmee were Allen Sterling, 12; Tom Freisner, 10; Dick Blevins, 7.

The Seminoles League played a total of 25 teams in 1964, including Senior League, Little League and Farm Teams. Cooper said today that League officials anticipate at least 30 teams to participate this season.

The Army called the Department of Conservation and the department called MacArthur who called a veterinarian. The veterinarian pronounced the sea cow healthy and MacArthur dumped her in the PGA's many cans.

Three big events highlight the Gulfstream Park racing season: The \$100,000 added Gulfstream handicap, Mar. 20; the \$50,000 Don Handicap, Mar. 27; and the Florida Derby of April 3.

Purpose of the meeting will be to plan activities for the 1965 season, select team managers and prepare for the upcoming annual barbecue.

Waterways Laws Explained For Fishing Club

By Mrs. John Leone
Laws relating to boating and fishing were explained for members of the DeBary Fishing Club by Volusia County Sheriff Rodney Thurby at the January meeting held in the Fire Hall with Norvin Roach in charge.

Thurby pointed out that laws should be changed to include all power boats and that all outboard motors should be titled. In his talk he included water safety hints for the fisherman and the boater and presented the Florida Motorboat Laws booklet to those present.

Assisting the sheriff were Deputy Don Bayler and Dan Hendrickson of Daytona Beach who participated in the question and answer discussion.

Three new members joined the club at this meeting and it was announced that a fishing pole had been donated by Mrs. Harry B. Price to be given as a prize in the summer fishathons held during the annual recreation program for children of the community.

Members who are interested in organizing a deep sea fishing trip were asked to contact Roach.

Refreshments were served following the meeting.

Boating Editor Will Address Jaycee Meeting

Jim Jeannell, boating editor of the Ft. Lauderdale News, will be the speaker at the Jaycees annual DSA banquet Saturday, President Clyde Long announced today.

The speaker, who is a Jaycee, is scheduled to talk about the effect of the marina and the boating industry on the Ft. Lauderdale economy.

The banquet is open to the public but those who would wish to arrive in time to hear the speaker are advised to come about 8:30 p. m. The banquet begins at 7:30 p. m. at the Police Benevolent Building on Seminole Boulevard and reservations may be made by calling the Jaycee office.

Main activity of the banquet will be the presentation of this year's Distinguished Service Award, which is kept secret until the time of the ceremony.

Other singular awards will include the Good Government Award, the Young Sailor of the Year, the Young Farmer of the Year and the Young Teacher of the Year.

Fire Auxiliary Plans Projects

By Mrs. John Leone
A bakeless bake sale for this month and a dessert card party for February were planned as fund raising projects by the Auxiliary to the DeBary Volunteer Firemen's Association at the regular meeting of the group last week.

Two new members were presented and a program for the year was outlined at the meeting conducted by Mrs. Thomas Howard and opened with invocation by Mrs. Eugene B. Beinert.

A thank you letter for a \$22.35 donation sent to veterans at Christmas was read from W. A. Baldwin, administrator of the Lake City Hospital.

It was announced that rehearsals for the annual variety show scheduled for April will begin Jan. 23, 1 p. m., at the Fire Hall.

Mrs. Ivan Walker was named historian for the auxiliary.

Refreshments were served during the social and game period following the meeting.

Welsh Justice
CARDIFF, Wales (UPI) — Thomas John of Newport, Wales, 34, a truck driver, was sentenced to jail for four years and his driving license was suspended for 50 years after he pleaded guilty to charges of drunk and dangerous driving.

You are in for a pleasant surprise when making out your income tax return if during 1964 your total income was considerably more than it had averaged during the four previous years.

This windfall income for 1964 could have come from a big promotion with a substantial salary increase, perhaps a sizable incentive bonus, steady work with much overtime after several lean years or even a clean-up made on a quiz show.

It's all due to a new feature in the Revenue Act of 1964 called "income averaging."

The big purpose of income averaging is to give a tax break to those persons with wide fluctuations in income, usually athletes, prize fighters, authors, actors and actresses. But the principle is not limited to these groups and the tax-saving feature may be used profitably by any taxpayer to whom certain basic rules, which we will explain, apply.

You are now permitted to average all types of income except capital gains, gambling profits, income from gifts and bequests and premature distribution received by owner-employees under a pension

plan. With the tax rate increasing several points with each ascending bracket, the savings resulting from holding income down into a low bracket are readily apparent.

The rule is effective whenever taxable income for 1964 is at least \$3,000 more than 4/3 of the average taxable income for the four previous years. This excess is termed "averagable income." The tax on it is the tax on 1/5 of the averagable income multiplied by five.

To illustrate the workings of the new rule let's take a hypothetical case:

Tom Jones, a married man whose wife had no income of her own in 1964, has had an average taxable income of \$9,000 for the four previous years. Last year, because of a new job on a commission basis, he had a taxable income of \$32,000.

As we go through his income averaging procedure you will see how this one rule change has saved him \$2,080. Here is how he determined his tax under the new formula:

Taxable income for
1964 \$32,000
4/3 Base Period Income
(\$9,000) \$12,000
Averagable income .. \$20,000
The tax on 1/5 of the

averagable income (\$4,000) is found this way:

Tax on \$16,000 (4/3 of \$9,000 plus 1/5 of \$20,000) \$3,500
Less tax on \$12,000 (4/3 of \$9,000) 2,420

Tax on 1/5 Averagable Income \$1,080
To find the total tax:
Tax on \$12,000 (4/3 of \$9,000) \$2,420
Tax on averagable income (5 X \$1,080) .. 5,400

Total tax \$7,820

A year ago with higher tax rates and no income averaging procedure the same taxpayer would have paid \$10,400 on his \$32,000 taxable income.

Note that reference has been made throughout this discussion to taxable income and not to gross income for the year. Taxable income is that amount remaining from total income after all deduc-

tions, credits for dependents and personal exemptions have been claimed.

The importance of having available your taxable income figures for the four previous years is readily apparent. If you do not have copies of the returns for those years you may obtain photostatic copies from the revenue director in the district in which you filed. He will charge you 50 cents for each page copied.

Because the taxable income figure changed from Page 1 to Page 2 of the returns during some of those years, to be on the safe side order copies of both pages for each of the four years. Should you need these copies, don't wait until the last moment. Your revenue director and his staff will be busy at that time handling the rush of newly filed returns.

BILL ROGERS JR., of Sunland Estates, stands in cockpit of his "airplane" play house, a gift from his parents on his eighth birthday. Designed from a World War II training plane by his father (right) all controls were left in and it was outfitted with shelf bed and an assortment of play weapons.

Airplane Play House Pride Of Youngster

By Donna Estes
Many youngsters have play houses but few children can boast that they have their own "airplane" play house as can Master Bill Rogers Jr. of Sunland Estates since his eighth birthday last Friday.

The fuselage of the AT-10 twin engine Beechcraft, which had been used for multi-en-

gine training during World War II, was acquired from Bob Lee's airport in Deland by young Bill's parents, Mr. and Mrs. William H. Rogers, and placed in their backyard at Waits Drive.

The fuselage, weighing approximately 800 pounds, has all the controls still in it and is outfitted with a shelf bed and assorted play weapons and toys.

The only problem developing over the new equipment, other than an excess of playmates, is the desire of young Bill to paint it silver and that of his father to paint it red, both of which have been given the veto by his mother.

At any rate, regardless of color, the Rogers backyard is sure to be the center of attraction for neighborhood children for many months to come.

Moose Women Enroll Four New Members

Sanford Chapter 1404, Women of the Moose, conducted enrollment for four new members at the January Chapter Night Program Meeting held at the Moose Home.

Received in the chapter were Eliza Cherington and Mary L. Beaur and in Chapter O were Grace Keck and Helen Merritt.

The program was in charge of Shirley Washburn who presented a fashion show of children's spring outfits for Easter. She was assisted by committee member Lillie Spain and Carol King was the narrator. Models were Joyce Washburn, daughter of Mr. and Mrs. Stan Washburn and Linda and George Blatz, children of Mr. and Mrs. Chuck Po-teat.

Plans for upcoming events were discussed by Senior Regent Eloise Small who outlined, in particular, details of the Mid-Winter Conference to be held at the Moose Home, Sunday, Dec. 31, beginning at 1:30 p.m. At this time the Sanford chapter will be hostess to four WOM chapters of the area.

The group's monthly business meeting will be held at the Home next Monday at 8 p.m. All co-workers are urged to attend in order to assist in final planning for the conference.

Inaugural Cost Is \$2.1 Million

WASHINGTON (UPI) — President Johnson's inauguration today is expected to cost about \$2.1 million, almost \$500,000 more than the 1961 installation of the late John F. Kennedy.

This is a 30 per cent increase in the cost of installing a president in the four years from the New Frontier to the Great Society.

Inaugural chairman Dale Miller attributed the increase to the higher cost of parade reviewing stands and "many other things." All except \$500,000 of the inaugural costs were to be paid out of private funds. Congress authorized this sum to build the temporary stands on the Capitol steps for the actual swearing in ceremonies.

The remaining \$1.6 million has been underwritten by local business firms and large national corporations which are permitted by law to make inaugural contributions, although forbidden to donate "political" gifts.

The private contributors will be repaid out of the inaugural committee's receipts from parade and ball tickets, souvenirs and other fees.

Monroe PTO To Meet

The Lake Monroe Elementary PTO will meet at 7:30 p.m. next Tuesday in the school auditorium to hear a program on juvenile delinquency with C. Vernon Mize as guest speaker.

Refreshments will be served in the cafeteria following the program and meeting. Mrs. Wilbur Peat, publicity chairman, said today.

Lady Bird Is 'Walking On Air'

By Helen Thomas
WASHINGTON (UPI) — For Lady Bird Johnson the inauguration of her husband today is the triumphant culmination of a dream they have shared for 30 years.

The First Lady, whose unflinching confidence and belief in him have sustained her husband through victory and defeat, appears to her friends to be walking on air these days. They say she has never appeared more radiant than she has during the past few days of inaugural festivities.

But through it all she has never held herself aloof from those who helped fashion her husband's Nov. 3 history.

Mrs. Johnson feels the President's commitment to the "Great Society" also involves her. She hopes to work on Johnson memorabilia for his boyhood home and library.

She has become more fashion conscious in the past few months. Her clothes have a special flare and her new "romantic" hairdos, done by stylist Jean Louis, give her a regal look.

She drew admiring smiles from the crowds Tuesday night when she swept into Constitutional Hall for the inaugural concert clad in a red gown with a slight train.

She also attended a supper dance given by Mrs. Albert Lasker, widow of the New York philanthropist, and Washington attorney Abe Fortas.

Mrs. Johnson kept smiling throughout the concert. Part of the reason seemed to be that the President was having a wonderful time, too.

They heard pianist Van Cliburn, violinist Isaac Stern, and excerpts from "Porgy and Bess" sung by Therese Coleman and Todd Duncan.

Mrs. Johnson said she "loved the entire evening."

She beamed happiness at the supper dance when she was greeted with a hug and kiss by old friends like Ambassador Adlai E. Stevenson.

Education Held U. S. Problem

MIAMI BEACH (UPI) — The federal government has an obligation to support improvements in school systems because "the entire nation suffers when any of our citizens are denied the best possible education," according to Sen. J. William Fulbright.

Fulbright, chairman of the Senate foreign relations committee, spoke before the national convention of secondary school principals.

"Education is a national problem which requires national solutions," he said. "I can think of no area of public greater returns for our money."

Quads Born

VANNES, France (UPI) — The 37-year-old wife of office worker Georges Onno gave birth to quadruplets here today. A hospital spokesman said Mrs. Therese Onno's four boys were all "apparently in good health."

THE BIG PARADE OF COMEDY

THE CAMERA caught Vice President Humphrey and President Johnson in an informal shot at the LBJ Ranch when they undoubtedly discussed plans for today's inauguration at Washington. (NEA Telephoto)

Washington Scene Texas-On-Potomac

WASHINGTON (UPI) — almost as numerous as the "souvenir" invitations to the inaugural.

Flags and bunting festooned buildings along the parade route. Carpenters were still working on the spectator bleachers and the White House reviewing stand in the early hours of the morning.

Television directors and their crews were making last-minute preparations almost up to the time of the parade. The hurried staff members of the Inaugural Ball Ticket Committee acted as go-betweens in a lively swapping operation as ball-goers attempted to link up with friends or just to get somewhere else then where they were scheduled to go.

Blase Washingtonians, accustomed to the yearly summer onslaught of tourists, took most of the inaugural festivities in their stride and joined in the fun.

Every event was crowded to overflowing, no major street was free of monster traffic jams, and parking tickets were

Highlights

The Inauguration—the big show of the day and night is television's saturation coverage of the inauguration of President Johnson which will include the events and color preceding, during and immediately following the actual ceremony which is scheduled for noon. Coverage of the inauguration parade will follow. CBS and NBC are scheduled to begin their official coverage at 10:00 a. m., EST. ABC at 10:30, though all may start earlier. NBC's Today Show will provide preliminary coverage beginning at 7 a. m.

Evening coverage, in addition to news broadcasts, will include CBS and NBC pickups from the four inaugural balls from 11:15 p. m.-midnight. NBC's "Inauguration '58" with Frank McGee (7:30-8:00 p. m., EST), ABC's "The Ball To The Chief" with Ron Cochran (10:30-11:00 p. m., EST).

8:11 p. m. (NBC). Wednesday Night At The Movies. "The Brothers Karamazov." (Color). Long pictures seem to be in TV style this season. This three-hour film stars Yul Brynner, Maria Schell

and Claire Bloom in Dostoyevsky's novel on the effect a father's greed and sensuality has on his three sons. The emotional conflicts of the father's (Lee J. Cobb) offspring lead to murder. The sons are played by Brynner, Richard Basehart and William Shatner. Miss Schell plays the voluptuous Grushenka and Miss Bloom is the aristocratic Katya.

8:30-9:30 p. m. (ABC). Shindig. No Boris, Lon and Vincent, this isn't TV's chamber of horrors, it's the expanded version of what used to be a half-hour show. It's no different, it's just twice as long and feels interminable. The stars, calculated to send ecstatic shudders up and down the collective backs of teenage America, include the Dave Clark Five, Gerry and the Pacemakers, the Hollering Stones, Bobby Sigman, Donna Loren, The Kinks, The Blossoms, The Willingtons and a couple of others who should have known better. Unlike its NBC competition, it doesn't pretend to be something it isn't. And "yakyetyak" to you too.

TV Time Previews

9-9:30 p. m. (CBS). Dick Van Dyke. "Stacey Petrie" (Part I). It's neapolitan time as Dick's brother Jerry returns as Rob's brother Stacey. Stacey is a shy type who's been corresponding with a girl he intends marrying, if he ever gets around to meeting her. But, since he'll have to work up to this step gradually, he wants to start out slowly by trying a date with Sally. But, Sally has a friend of her own who doesn't go for this idea at all. Fairly entertaining, but not one of the series' best.

9:30-10:30 p. m. Burke's Law. "Who Killed the Toy

Soldier?" A toy manufacturer is blown to his final reward as it shouldn't be too surprising that much of this dialogue is just too cute and adorable for words. In fact, pantomime would have been an improvement. Particularly since luscious Abbe Lane is a major suspect and Martha Hyer is another, proudly displaying her new, sexy image. Other suspects include Chill Willis as the toycon's military advisor, Louis Nye as a toy spy, and Joan Caulfield as a toy psychologist. All that's missing is for the murderer to be a toy pistol.

10-11 p. m. (CBS). The Danny Kay Show. Imogene Coca and Danny get together again tonight and there is no end to the comedy routines these two can pull off. Either as a husband and wife team or in doing a parody on love scenes from the movies they get great. Singer Nancy Wilson guests with "The Best Is Yet To Come" and "Love Has Many Faces." She also joins Danny in "Simple Melody."

Electricians Top Pinecrest

In the first game of the Junior Boys League, Sanford Electric tripped Pinecrest 3-0. 31-26. Strickland Morrison ran over WTRR in the second contest, 63-37.

In a hard fought game Standard Oil came out on top of Day & Night Grill, 43-33.

In the final game, First Federal coasted to an easy victory over Atlantic Bank, 58-38.

At Grooms and Ricky Smith combined for 31 points and Mike Richards hit for 11 for the losers and the Electricians shocked the Hexallians.

Bill Schmidt scored 25 points and took all scoring honors while Randy Ivey and Doug Malgowski combined for 27 markers for WTRR.

Randy Brown's 30, points was top for First Federal who beat Atlantic Bank, 58-38. Harley Sykes led the losers with 15 and Calvin Griffin hit for 12.

Standard Oil was led by Billy Hope with 24 and Jimmy Dutham had 13 in the victory over Day & Night Grill. Tommy Grady scored 21 for the Grillers.

Stock Market Averages Hit Record Level

By Jesse Hagros
UPI Financial Editor
NEW YORK (UPI) — The popular averages widely used to indicate the level of the stock market have broken through to record levels since Jan. 1.

Both the Dow-Jones average of 30 industrial stocks and the Standard & Poor's index of 500 stocks moved into high ground early this week, as many analysts had forecast that they might. Some feel that the Dow average certainly will "break" the 800 level.

Some bankers, members of the traditionally conservative portion of the financial community, believe it will venture higher in the first half of 1965.

Others are looking for it to be in a lower range by mid-year.

This wide variance of opinion was disclosed in a survey taken by Banker's Monthly, a national banking magazine, among 83 bankers in major money centers.

They were asked for their opinion on developments in various phases of the business world.

As for the stock market, the magazine reported, "the bulls and the bears are about evenly split."

Exhibiting customary caution in fields not strictly their own, 24 of the bankers did not make a specific forecast on the averages.

At one extreme, two of those replying estimated the Dow-Jones average, which stood at 874.13 at the close of 1964, would be in the 750-799 area by midyear.

At the other, 22 bankers believed it would be in the 900-950 range by that time.

Eighteen estimated that it would be moving in a slightly lower range than at present, around the 800-849 area, and 19 chose the 850-899 range.

The bankers replying to the poll, went along with the belief of others in the financial world that consumer lending would increase.

However, the magazine cautioned, this did not mean that outstanding loan totals would rise greatly, because the repayment of installment loans have been going up steadily also.

Consolidation Period Looms

Wall Street Chatter
NEW YORK (UPI) — Edward A. Viner & Co. Inc. says a temporary decline or a period of consolidation may appear at this point.

The firm says a continuation of the present show of strength will lead to an overbought position just at the point when resistance to any further rise will be encountered.

Beche & Co. says it looks for further upward progress in the weeks ahead but would buy only those issues which are attractively priced relative to the overall market.

The International Statistical Bureau says that although the market will reach new highs in the popular averages it will become more sensitive to outside developments.

State Revenues Up 14 Per Cent

TALLAHASSEE (UPI) — Revenue Director Ben Morris said revenue from the state's taxes on alcoholic beverages and cigarettes took a sharp rise in December.

Morris said the total tax collection for the month amounted to \$11.6 million, a 14 per cent hike over the same period during the previous year.

Cigarettes contributed \$5.8 million to the total and the rest was supplied by liquor, beer and wine and miscellaneous sources.

The octopus, as viewed at Marinaland of Florida, while little resembling the sea snails and clams, is nevertheless a member of the mollusk group.

Bridal Coffee Fetes Miss Bradley

The Hibiscus Court home of Mrs. Martha Bishop Ashby was the setting for a charming bridal coffee last Saturday complimenting Miss Barbara Bradley, bride-elect of Frank Bowden. Assisting her mother as co-hostess was Mrs. Alex McKibbin (Niki Ashby).

Mrs. W. A. Kratzert and Mrs. Roy Hoffer greeted the guests at the door with the hostesses, the bride-elect, her mother, Mrs. Gordon Bradley, her grandmother, Mrs. J. F. Riser, and Mrs. L. E. Leeper, mother of her fiancé, forming the receiving line, all wearing the lovely Camellia corsages which the hostesses presented them.

The popular bride-elect, who received the guests in a melon wool skimmer, was presented a gift of silver from the gracious hostesses. The serving table, covered in white imported cutwork linen, was centered with two branched silver candelabra containing pink carnations, and Camellias and tall white tapered uniquely arranged to form a picturesque centerpiece.

Coffee was poured from either end of the table from antique silver service with Mrs. Leroy Soper, Mrs. Randall Chase, Miss Ethel Riser and

Mrs. L. W. Bedenbaugh, an aunt from Newberry, S. C., pouring.

Mrs. Don Bishop Jr. and Mrs. Donald Jones assisted the hostesses with Miss Linda

Perkins, Miss Susan Perkins and Miss Donna Ashby serving as floating hostesses.

MISS BARBARA BRADLEY, seated left, bride elect of Frank Bowden, was recently honored with a bridal coffee at the Hibiscus Court home of Mrs. Martha Bishop Ashby. Seated with the honoree is her mother, Mrs. Gordon Bradley. Standing from the left are Mrs. Ashby and her daughter, Mrs. Alex McKibbin, co-hostesses, and Mrs. L. E. Leeper, mother of the future bridegroom.

Magnolia Circle Has Anniversary

The Magnolia Circle of the Sanford Garden Club recently met in the Fellowship Hall of the Pinecrest Baptist Church for the January meeting.

Mrs. S. L. Wiggins, president, conducted the routine business with various chairmen giving reports followed by a lengthy discussion of the March Flower Show.

It was announced that on February 23 a card party sponsored by the Sanford Garden Club will be held at the Woman's Club.

This was a special meeting for the Magnolia Circle with the group observing the 20th anniversary. Special guests were charter members, Mrs. Frank Lieske, Mrs. A. C. Lyons and Mrs. H. C. Hetzel attending.

Mrs. Hetzel brought a Magnolia blossom to the first meeting 20 years ago, which was instrumental in the Circle's brand new name. Highlight of the anniversary meeting was a delightful demonstration of corsage designing by Mona Bridges and her capable designer, Buddy Copeland, who created many lovely corsages.

Mr. Copeland designed a corsage, the Chatalina, his own creation which can be worn draped across the neck, line or over the shoulder with the design adapted for almost any purpose.

The Chatalina is actually two corsages and Mr. Copeland used pink tea roses, nylon puffs and satin leaves with plaited pink ribbon connecting the corsages to create a lovely Chatalina.

He made each of the charter members a beautiful corsage and presented it to them. Mrs. Lieske received a corsage of red carnations, puffs and red leaves. Tea roses combined with blue net and were presented to Mrs. Hetzel with Mrs. Lyons receiving a corsage of red roses, white puffs and lace. Mrs. Wiggins was presented a corsage featuring a single orchid, Chantilly lace and satin leaves.

Hostesses for the Anniversary meeting were Mrs. W. L. Grankow Sr. and Mrs. Otto Boradorf.

The serving table, covered in yellow linen, was centered with the beautiful anniversary cake accented with tea sandwiches and a variety of relishes.

Others attending were the Meses. H. B. Odham, V. M.

Smith, T. J. Taylor, F. J. Harris, R. W. Herron, P. L. Elmons, G. H. Sykes, E. D. Kirchhoff, Lucille Stone, Lucille Abrams and a new member, Mrs. Mary Thompson.

MAGNOLIA CIRCLE of the Sanford Garden Club recently observed the 20th anniversary with three charter members attending the memorable event. Mrs. S. L. Wiggins, left, president of the circle, is seated with Mrs. H. B. Odham, a 19 year member. Standing from the left are Mrs. A. C. Lyons, Mrs. H. C. Hetzel and Mrs. Frank Lieske, all charter members.

CHERRY PARFAIT

Three ingredients and about as many minutes make cherry pudding parfait.

Prepare 1 (3 1/2-ounce) package of instant vanilla pudding mix as label directs. Stir in 1/2 cup of miniature marshmallows. Drain 1 (1-pound) can of pitted dark sweet cherries, reserving syrup for later use in fruit punch. Divide cherries among 4 parfait glasses, reserving 4 cherries for garnish. Add pudding and reserved cherries. Chill. Makes 4 servings.

Sanford Pilots Announce Driver Safety Awards

The Pilot Club of Sanford, Inc. recently held the regular monthly meeting in the Caucus Room of the First Federal Savings and Loan building.

Mrs. Stacey King, Librarian of the Sanford Public Library, will be initiated as the newest member of the club at the January 26 meeting.

The Safety Committee, under the chairmanship of Eloise Collins, announced that the safe driver awards for the month of November and December were presented to Ronnie Hall and Ken Hopkins respectively.

The Pilots presented to the Seminole High School Driver Education Program a magnetic traffic board and stand. A letter of appreciation for the gift from Mrs. Ken Campbell, driver education instructor, and Andrew J. Bracken, principal, was read to the members.

The club, under its Community Service Program, has adopted a mental patient at the Sunland Training Center in Gainesville. A letter of thanks was received from her for the watch the Pilots sent for Christmas.

Also a letter of appreciation was read from the Administrator of Pierce Wood Memorial Hospital at Arcadia for the Christmas cards and monetary gifts each of the club members sent.

Pamela Higgins Honored Guest On 11th Birthday

By Jane Casselberry
Pamela Higgins, daughter of Mr. and Mrs. John Higgins of 241 S. May E. Casselberry, celebrated her 11th birthday at her home followed by a skating party at Skate City.

The honoree and her guests enjoyed cake, coke, candy and snacks before adjourning to the skating rink for an afternoon of fun.

Guests included Mary Hoover, Debbie Lambin, Debbie Gordon, Lorraine Roberge, Debbie Skisak, Barbara Swearington, Jeff Howe, Ricky Webber, Gred Howe, David Shy, Jana Higgins and Cynthia Juback.

Woman's Club Has Pastry Decorations Slated Thursday

The American Home Department of the Sanford Woman's Club will meet at the home of Mrs. C. P. Harkey, 212 West 16th St., Thursday, January 16 at 7:30 p.m. for a brief business meeting preceding the program.

Mrs. J. M. Moye will speak and demonstrate party pastry decorations, which promises to be a fascinating evening.

Hostesses are Mrs. Roy Boyd, Mrs. W. A. Thomas and Mrs. J. P. Wilson.

Personal

Recent house guests of Mr. and Mrs. C. W. Yarbrough, 1805 Adams Avenue, were Mr. and Mrs. John Shipman of Kermit, Texas and Mrs. Harvey Conklin of East Orange, N. J., who enjoyed a family reunion during their visit.

Miss Nyleene Albers To Wed

Mr. and Mrs. C. W. Yarbrough of Sanford, announce the engagement and approaching marriage of their daughter, Miss Nyleene Gayle Albers, to Bill R. Newby, son of Mr. and Mrs. J. I. Newby of Coeur d'Alene, Idaho.

The bride-elect was born in Reno, Nevada and attended Seminole County schools, having graduated from Seminole High School with the class of 1963. In high school she was active with the Majorettes and Glee Club as a member of the Triple Trio. She is presently employed at the Sanford Atlantic National Bank in the Installment Loan Department.

Her fiancé was born in Susanville, Calif., and attended schools in Coeur d'Alene, where he was graduated from high school in 1960.

The wedding will be solemnized on March 6 at 8 p.m. at the First Methodist Church of Sanford. All friends of the couple are cordially invited to attend the wedding and reception immediately following.

Luncheon is available at the beautiful Havarsin Garden Restaurant and reservations are desired by Wednesday, February 10. Please contact Mrs. E. Shoptaugh of Shell Rd. DeBary, chairman.

Sanford Flowers Go To Washington

Only two growers in the United States could com-

ply with an urgent request from the White House in Wash-

ington, D. C. for Gypsophila, a perennial commonly known as Baby's Breath, to be used in floral arrangements for the inaugural festivities.

Arthur Andres, Celery Avenue grower, air expressed 60 bunches of the scarce Baby's Breath Monday to the Nation's capital.

Mr. Andres came to this country in 1923 as a German immigrant, having worked in Pennsylvania coal mines until 1930, when he was able to purchase a greenhouse, which led to his present status. Today he ships three tons of Baby's Breath annually consigned to 40 houses throughout the United States to meet the demands of the daily all around use of the perennial.

Baby's Breath is a delicate plant, requiring a moderate climate. Mr. Andres has a cooling system devised, which stores the plants during the summer months after they are dug up and during the cold, they are preserved with heat His unique system makes the plant available for year round use.

Mr. Andres came to Sanford in 1952 for the sole purpose of experimenting with Gypsophila, with the results amazingly successful.

Last February he was married to a young German woman, who came to this country on a visitor's visa and was in his employ as a housekeeper for five years. Mrs. Andres is a stunning charming brunette, who shares her husband's enthusiasm as a grower. For years he has enjoyed world wide travel during the summer months and his bride is looking forward to the annual trip.

Mr. Andres' biography is fascinating. A keen sense of humor combined with intellect, philosophy and affable manners distinguish the Sanford grower as a most delightful personality.

Make candles by preparing a wick from heavy cotton cord and rolling a sheet of beeswax around it. Give different shapes and sizes by rolling lengthwise, crosswise or diagonally.

MR. AND MRS. ARTHUR ANDRES, Sanford growers, air expressed Baby's Breath to Washington, D. C. for the Presidential Inauguration festivities. Mr. Andres and one other grower were the only ones in this country with the precious plant available.

Dear Abby:

DEAR ABBY: My problem is jealousy. I am 24 and my husband is 26. We've been married two years and have a beautiful baby daughter, and we're still very much in love. I know there is absolutely no basis for my jealousy, but I can't help it. Here's an example: At a party recently, the center of attention was a blonde with a good figure, which she showed off by wearing skin-tight red stretch pants and a red sweater. Every man there danced with her, but when my husband did, something inside me exploded. I walked out and went home alone. I was hurt, humiliated and mad. My husband came home right after me and was shocked at my behavior. I know there was

nothing to it, but this happened over a month ago and every time I get a mental picture of my husband dancing with that blonde I get all worked up inside again. Is something wrong with me? How can I control this terrible jealousy?

JALOUSY: Since we are not all equally endowed (looks, brains, health, money, opportunity), it is only natural for those who lack what others appear to have in abundance to be "jealous." You can control your jealousy by counting your blessings. When that mental picture creeps into your mind, go pick up your baby. Or look at your husband's picture, and thank heavens for what you HAVE.

By Abigail Van Buren

DEAR ABBY: Our landlady is the noisiest woman in the world. The other tenants in our building have warned us against her. They say they've caught her going through their drawers, closets and even reading their mail when they've come home unexpectedly. My husband and I both work during the day, and I don't want her snooping around my place while we're gone. She tells the tenants that she has to have keys to all the apartments because in case it rains and nobody is home she wants to be able to get in to close the windows. My husband says we should give her a key. I say no. What do you say?

LIKES PRIVACY: If you prefer privacy to a snoopy landlady, you had better move. Because, like it or not, the landlady has the last key.

Jacoby On Bridge

Trials to determine the American team for the 1965 world's championship were held in Dallas, Tex. last November. Eighteen of the best pairs on this continent qualified and each one played 340 hands under International Match Point scoring in 17 20-board matches. Thus, each hand was played at nine different tables and, showing the idiosyncrasies of duplicate, practically no-hand produced nine identical results.

I will devote this column to discussion of a hand, with declarer in this case moved to the South seat and without a name.

Hand one of match one was an easy four-spade contract. The most common bidding is shown in the box, although there were several variations including a couple of instances of North choosing to open with a weak two bid rather than a normal one bid.

North East South West		Pass Pass Pass Pass	
Pass Pass		Pass Pass	
Opening lead—4♠			

One pair that opened with a weak two bid stopped below game and lost six international match points by this omission.

In the play at four spades, West usually opened a club. Thus, the defense would start with two club tricks. Six declarers proceeded to lay down the ace and king of trumps, whereupon they had to concede a trick to the spade queen.

Two declarers decided to try the slightly inferior play of a second round spade finesse and were rewarded unjustly by a gain of one IMP. I use the word unjustly because in the absence of adverse bidding or special information, the correct play with nine trumps is to try the drop.

We The Women:

By Ruth Millett

becoming resentful because her husband behaves like most men.

Men and women have to accept each other as they are. And one thing most women have to accept is that if they are to enjoy the companionship of their husbands they will have to learn to like what their husbands like—instead of trying to get their husbands to share their interests.

And they shouldn't ruin the companionship by taking the attitude, "If I share his interests, he ought to share mine."

Companionship is difficult.

Beauty after Forty
EDYTH THORNTON McLEOD

"How can I get rid of about five extra pounds and not go on a rigid diet? I am forty-five and short.—Mary H."

The answer is you can't get rid of excess weight without dieting. If you lose quickly, fine; then you can just cut out the things you know put weight on you. But, if you want your "too, too solid flesh to melt," it won't. You must go on a diet and do it consistently. Really, there is no easy way. But when you slim down, you feel so much better and look so much more youthful it is a very well worth the effort. If you are serious, send for a copy of my "Figure Perfection Diet." It will bring you back to your proper dress size. Send me a long self-addressed, stamped envelope and enclose one dime. I will also send you a copy of "Diet Breaks" as a gift. What can you lose? Just excess weight, that's all.

"What should I do about a face and especially a neck that look eighty and a figure that looks forty? I am in between.—M. L."

Start a home care program. Use cleansing cream (no soap no water). Freshen after cleansing by using good quality witch hazel, then apply cosmetic oil. This is simple, but it is effective. Send me a long, self-addressed, stamped envelope and a dime. I will send you a copy of my popular neck leaflet and tell you the name of the cosmetic oil I use.

Be sure you are using a proper shade of face powder and the right lipstick. Also try new ways to do your hair. And how about your necklines—are your dress necklines as flattering as they should be?

"Should I take very good dresses when I fly to Europe in March? I am going to live at hotels and have friends who will entertain me at their homes.—Geraldine"

Certainly, take the best you have — make an impression! Why do women tourists want to look like crushed tubes of toothpaste when they travel abroad? You dress well at home, so why not when you travel?

Uncluttered

It has long been claimed, especially by people who sell things to us, that the average American has the mental capacity of a 12-year-old. A recent survey by the University of Michigan indicates that this libel is 12-year-olds.

A study of public knowledge of and opinion on Asia was carried out by the university's Survey Research Center. It revealed:

— One-fourth of the 1,501 people questioned did not know that mainland China was ruled by the Communists.

— About the same number didn't know there was fighting going on in South Viet Nam.

— More than a third had never heard of the Nationalist Chinese government on Taiwan.

The people surveyed seem to represent a typical cross section of American society. There were 647 men and 854 women. Their educations ranged from grade school only through college degrees. Occupations included day laborers, farmers, housewives and professional people.

The majority of those saying, "I don't know" were among the less educated and a greater percentage of them were women.

But how so many people with eyes,

ears and daily newspapers could possibly escape knowing about Red China and Viet Nam is a question many people will ask.

Another likely reaction is to question why these people should be allowed to vote. If they've never even heard of Red China, how can they take any intelligent part in deciding our national policy toward that country?

It's a natural reaction, but where do we make the cutoff point between informed people and ignorant people? Who is to decide who is intellectually qualified?

A minimum number of years of schooling? But some of the "don't know" in this survey were high school graduates. It's also a good way to disfranchise minority groups.

It should be recalled that during World War II, because of wartime necessity, only an extremely small circle of highly informed, trained, intelligent people participated in some of the most important decisions of the time.

They made some terrific blunders. We still suffer from them.

No, it's still as Winston Churchill said: Democracy is the worst government there is—except for all the other kinds that have ever been tried.

Atom Also Helps

Thanks to the atom, the vital medical tool of the X ray is being brought to primitive areas of South America and Africa which have no electricity.

Radiographs, important for the diagnosis of tuberculosis and other ailments, are being made in the middle of the jungle with a system using the nuclear energy from a radioactive isotope. Since it weighs only 200 pounds and needs no electricity, the unit can be flown by light plane to remote areas.

The system was developed by Viso Corp., with field use in Bolivia sponsored by the U.S. Agency of International Development.

The Smithsonian Institution in Washington considers the method so significant an advance in the peaceful use of atomic energy that it is currently devoting an exhibit to it.

Thought For Today

What has a man from all the toil and strain with which he toils beneath the sun?—Ecc. 2:22.

The man who has done his best has done everything. The man who has done less than his best has done nothing.—The late steel magnate Charles M. Schwab.

Phil Newsom Says

No Solutions In Sight

By K. C. Thaler
LONDON (UPI) — Efforts toward African unity are far from encouraging in the new year.

Emotional pressures, weak regimes, economic troubles and racial strife all have contributed to weakening the

frail structure of the Organization for African Unity.

The Congo troubles have added to the tensions in the African continent, with no immediate solutions in sight.

The Congo rebellion was preceded by one in Zanzibar last year. In both cases Com-

munist stirrings have played their part, but Africa's own divisions are an integral part of everything happening there today.

Rivalries which the Organization for African Unity was intended to remove have not only reappeared, some have been deepened.

Some of the French speaking states have shifted from the moderates to the militants. They include the Republics of the Congo, Brazzaville, Burundi and Dahomey, according to expert assessments. Even compromise — seeking Ethiopia has moved toward a harder line.

The moderates include Ivory Coast and Malagasy.

Troubles in Zanzibar and more recently in the Sudan have deepened other controversial aspects, such as differences between Arab and non-Arab Africa.

It is against this background that rivaling Sino-Soviet interests are seeking to win a foothold or widen already existing footholds in the continent.

Having failed so far to push the Communist creed to any important degree in Africa, both Moscow and Peking are seeking to push their political interests by exploiting African national movements.

Of the two Communist giants, Red China has been making bigger inroads into the African scene.

One of the objectives of Pan-African unity has been to form a group strong enough to keep Africa out of the cold

"Who Said Vaudeville Is Dead?"

Bruce Blossat -- Ray Cromley Political Notebook

WASHINGTON (NEA) — Any president is believable when he stresses, as President Johnson did in his State of the Union message, the great burdens of his office.

The hundreds of lawmakers listening to him stopped fidgeting and fell extraordinarily quiet when he said:

"A president's hardest task is not to do what is right, but to know what is right."

"Yet the presidency brings no special gift of prophecy or foresight. You take an oath — step into an office — and must then help guide a great democracy."

The late John F. Kennedy and his chief aides worked in acute awareness of this aspect of the burden. Like Johnson, they believed that only those hearing it can know its full weight.

Johnson's brief, limited allusion to this matter does not begin to tell the story. What is eloquent of his burden is the whole scope and sweep of his 1965 message.

It is a catalogue listing an immense, incredibly diverse array of major problems which thread through the vast fabric of this nation's life. No president before Dwight Eisenhower, even in the strain of wartime, ever looked upon anything half as complex.

Johnson talks of saving or remaking large stretches of the American landscape, of bringing order and efficiency into our frenetic, bewildering cities, of schooling a staggering total of new young mil-

lions. There are in fact already more than 10 million young people in the United States, and the number is growing.

At home we live with rising prosperity, facing nevertheless that massive unemployment spurred by the decade "automation" they one day smothered.

As we look abroad, testing a leadership that was thrust upon us barely two decades ago, we emphasize our hopes for peace while fighting small wars and tugging with the confusions which are either real or the Communists' stage-managed accomplishments in dozens of new republics.

Republicans and Dem-

ocrats, stirring an already soaring economy to new heights to pay for all this and provide a constantly enlarged work force with much other useful labor.

He would heighten the beginning effort to wipe out great swatches of poverty which he across both the city and some rural regions left languishing by a changing world. He would mount harder assaults on disease, on crime, on racial discrimination.

Any two or three of these tasks would seem enough to occupy the full energies of a nation for half a generation. But Lyndon B. Johnson is proposing to strike deep now from such of these problems.

That is not the end of it. Inevitably, he must run up our world responsibilities to the steadily chaotic battle zones of South Viet Nam, a troubled Atlantic Alliance, and to often baffling, disconcerting peoples we try to help in Asia, Africa, Latin America.

At home we live with rising prosperity, facing nevertheless that massive unemployment spurred by the decade "automation" they one day smothered.

As we look abroad, testing a leadership that was thrust upon us barely two decades ago, we emphasize our hopes for peace while fighting small wars and tugging with the confusions which are either real or the Communists' stage-managed accomplishments in dozens of new republics.

Republicans and Dem-

ocrats, stirring an already soaring economy to new heights to pay for all this and provide a constantly enlarged work force with much other useful labor.

He would heighten the beginning effort to wipe out great swatches of poverty which he across both the city and some rural regions left languishing by a changing world. He would mount harder assaults on disease, on crime, on racial discrimination.

Dr. Crane's

Worry Clinic

Lois is in a dilemma, for her English teacher is much like the critics who indicted Jesus for letting his disciples sample the wheat in the fields. Scraphook this case, for it offers late data on print psychology as determined by the tachistoscope. And send for the booklet below.

CASE U-487: Lois, 17, is a high school journalism student.

"Dr. Crane," she began, "I am editor of our school newspaper."

"So I doubly enjoyed your recent columns about the psychology of writing."

"For example, you told us to chop our sentences into shorter units."

"And you even urged us to use fragments of complete sentences, setting them up as

if they were complete in themselves.

"But our English composition teachers would grade us off!"

"For they demand that we always have a subject and a predicate which makes a complete thought before we end with a period."

"So what should we do?"

"Give your teachers what they demand!"

"But reserve your own judgment as to the purpose of speech."

"It is to transfer ideas, thoughts and emotions from one person to another."

"Speech (spoken or written) is thus a tool but not an absolute monarch over human beings."

"It is a means to an end and not a law unto itself."

"Jesus was once severely criticized because his followers on the Sabbath broke off some heads of ripe wheat stalks."

"Then they rubbed them between their palms to extract the kernels of wheat, after which they chewed the wheat."

"Aha," exclaimed Christ's fifth columnist critics, "you have violated the Sabbath! For it is unlawful to do any work on the sabbath!"

"This was the major pillar underlying the Jewish religion at that time."

"TAMPA (UPI) — Florida Republican Chairman Tom Fairfield Brown will attend the GOP state chairman's conference in Chicago Thursday and two other Florida officials will attend a national committee meeting Friday and Saturday in the windy city."

Mrs. Helene M. Morris of Sarasota, Florida GOP national committeewoman, and Rep. William C. Cramer, national committeeman, will attend the weekend meetings.

The meetings are expected to have a strong bearing on the future course of the national party.

Do you recall what Christ said in reply? Memorize it:

"The Sabbath was made for man; not man, for the Sabbath!"

Tartly, Jesus reproved them for being slaves to what was intended simply as a helpful rule of conduct.

Many religionists, as well as school teachers, are thus enslaved by the mere "letter of the law."

They miss its basic purpose or intent.

But if your grades depend on meticulous attention to a spinster's interpretation of grammatical laws, then give her what she demands.

But when you are writing for profit, whether scenarios, short stories, prize contest letters—or even love letters to your sweetheart, then use the modern print psychology, such as:

(1) Dialogue your opening paragraph (as shown each day in these Case Records).

Horoscope Forecast

Thursday, January 21, 1948
GENERAL TENDENCIES:
 You are all too apt to be all steamed up to do the things you wish to do, but which are not necessarily very good for you. You are too inclined to risk what is wise and discreet for some repayment of what you regard as a wrong. Instead, focus upon getting your affairs in perfect working order. Relax.

ARIES (March 21 to April 19) Get right down to all the duties that are before you, whether at home, office or in the bustling world of business. Inaugurate new and efficient systems. Get all behind you quickly.

TAURUS (April 20 to May 20) Get busy putting talents to work instead of sitting around getting others to do your bidding, especially since you are apt to be very changeable. Have fun as well. Get into interesting things. GROW.

GEMINI (May 21 to June 21) Getting matters improved at home is best way to spend this day, as well as by showing loyalty and affection. Get all running smoothly. Then focus attention on increasing abundance.

MOON CHILDREN (June 22 to July 21) Use that brilliant mind intelligently on bettering your position in life instead of talking out of turn with wrong people. Study more. This gives you an "in" quickly at right places.

LEO (July 22 to August 21) Put those ideas to work that mean an increase in your income, and learn to be more economical as well. Get bills paid quickly so you can forget them. Then on to bigger things.

VIRGO (August 22 to September 22) You are feeling ostentatious, dynamic and want to force others to do what you like, but they are in no such mood. Study, improve your health, appearance. Go out socially but act circumspectly.

LIBRA (September 23 to October 22) Think before you make the radical changes you are contemplating and then do so quietly and with wisdom. Show generosity with those who deserve it. Increase practice you now enjoy.

SCORPIO (October 23 to November 21) Getting into some joint project with others is fine, provided you do not try to take over completely. Release time for sociability. Be at your charming best.

SAGITTARIUS (November 22 to December 21) It's all right to handle civic matters today, provided you do not get excited and want to run the whole show. Others would resent this. Stay in your rightful position, be charming.

CAPRICORN (December 22 to January 20) Interesting new channels of expression are open to you now, so be sure you pick the right one. Look into written material, etc. carefully. Read your paper conscientiously to get right results.

AQUARIUS (January 21 to February 19) Make out those reports with the aid of experts and follow advice given. Many situations before you need fine attention. Don't waver from your original intent.

PISCES (February 20 to March 20) Talk things over with partners in a quiet and objective manner instead of getting involved in histrionics. Forget prejudices. Come to a real understanding that helps everyone.

IF YOUR CHILD IS BORN TODAY, he or she will be a stalker for perfection, so be sure to slant the education along such lines as the law, medicine, research, etc., since the ability to coordinate mind and physical endeavor is remarkable. Show that criticism must be constructive if it is to do any good, otherwise it is injuring to both parties concerned. Fine promise here. — "The Stars Impel, they do not compel." What you make of your life is largely up to YOU!

X-Ray Unit Here On 'Do It Day'

Thursday has been designated "Do It Day" for Sanford by the Seminole County Unit of the Central Florida TB and RD Association, Mrs. Lorraine Graham, program administrator, announced today.

The mobile chest X-ray unit will be located in front of Garrett's department store, 200 East First Street from 9:30 a.m. to 1 p.m. and from 2 to 4 p.m.

Local citizens are urged to get their free chest X-ray and also to mail their gift to Christmas Seals if they have not already done so, Mrs. Graham said.

The yearly fund drive campaign pays for the TB and RD Association's year-round program of education and for research in these fields, she noted.

All persons over 18 are eligible for the free chest X-ray Thursday.

County Approves Two New Plats

County Commissioners, in a special meeting this morning, approved two plats for a housing development in the southwestern section of the county.

The plats were filed by representatives of Spring Valley Gardens and Spring Valley Farms. The former consists of four lots and the latter 21 lots, commissioners said.

The Commission met in special session so that work on the development could be expedited. The plats were previously approved by the Zoning Board and the county engineer, William Bush.

The two developments are located southwest of the Interstate 4 and Highway 436 interchange.

Six Prisoners Flee Road Camp

Six prisoners from the State Road Camp in Deland fled early today and a widening search is on for them.

Local police said the six, all white, fled at 1:45 a.m. They were identified as Roland J. Faircloth, 26, six-foot tall, weighing 150 pounds, blond hair and blue eyes; Raymond Goodman, 17, six-foot, two inches, 180 pounds; brown hair and blue eyes.

Roger O'Neal, 16, blond brown eyes and ruddy complexion; Billy Joe Kelly, 20, five-foot, six-inches, blond hair and blue eyes; fair complexion; Ed Davis, no description, he was being held for the State of Illinois; John W. White, 18, five-foot, nine-inches, 145 pounds.

Shortly after the escape, police in Orange City reported a pickup truck had stopped there for gas and left without paying the bill. They say the two incidents could be tied together.

Citrus Industry Seeks Pickers

LAKELAND (UPI) — The Florida citrus industry asked the federal government to allow more offshore labor into the Sunshine State to harvest the crop under emergency conditions.

Florida's citrus crop had been maturing faster than normal because of the extended warm weather which the state had been experiencing so far this winter.

And a frigid cold spell the past couple of days has worsened the situation since it is expected to speed up fruit droppage even more.

5 Persons Held In Assassination

BUJUMBURA, Burundi (UPI) — Five persons were arrested during the weekend in connection with the assassination of Burundi Premier Pierre Ngendandumwe.

But the actual assassin was apparently still at large. Ngendandumwe, 35, was cut down by at least eight bullets Friday night as he left a hospital where his wife was receiving post-maternity treatment.

Seminole Junior College Leaps First Major Hurdle

By Harry I. Johnson
What was described as "one of the most productive days in Seminole County history" developed Wednesday when the State Junior College Board approved location of a junior college in this county.

Comments heard at yesterday's University of Florida hearing hinted that the state board will sanction the proposal.

Rep. S. J. (Joe) Davis said "I repeat the request of this delegation. We are living in one of the fastest growing counties in the state and in the nation. By 1990 we anticipate a population of 150,000. I fully support the need for a junior college and I have committed my support for it in the Legislature. It will get my topmost attention."

has the full endorsement and co-operation" of his board on such matters as zoning and other conditions which may arise.

Other members in the delegation were County Commissioner Lawrence Swofford, Stewart Gatchel, director of instruction and personnel in the school system and who represented the hospitalized R. T. Milwee, county school superintendent; School Board member James Birkenmeyer and John Krider, executive manager of the Seminole Chamber of Commerce.

\$11 Million Request For University Ready

Altamonte OKs \$4,000 For Audit

By Donna Estes
Altamonte Springs Mayor W. Lawrence Swofford cast a tie-breaking vote at Wednesday night's council meeting to authorize the town's attorney, Joe Davis, to defend the town in a law suit filed against it by Mrs. Anita Weltmer.

Frank Helato, son of Mr. and Mrs. N. Helato, Princeton, N.J., a sophomore at FSU, has been promoted to platoon drill sergeant in the cadet brigade.

Mrs. W. W. Tyne has been nominated to serve for a year as the Seminole County representative on the board of directors of the Florida IB and RIF Association.

Madame Im has invited the Madamame Im College Club to present a musical program in the hotel lobby for the public at 9:30 p.m. Friday. The concert is free.

Chairman Jim Talmadge has called a meeting of the Sanford Historical Society to elect officers and discuss the charter at 8 p.m. Thursday at 120 North Park Avenue.

Dr. M. A. Smith II will discuss "Emphysema" and show a film to the board of directors of the Seminole County IB and RIF and at 7:30 p.m. Monday at the county health department.

Another cooperative effort is in the works between Seminole County communities as Longwood and Sanford join in solving a problem. Seems Longwood has no jail; Sanford has Longwood's former Mayor A. B. Linnaman and Police Chief Roy G. Williams have agreed that should Longwood need to detain a person on police charges, the person will be lodged in the local bastille.

The Seminole County Extension Service had a busy month in December. A report given the commission yesterday shows 119 office calls, 569 phone calls, aides prepared or participated in eight news articles and 46 radio programs, distributed 1,057 bulletins, met with 184 persons in 111 adult meetings and nine 111 meetings. And to top it all off they made 99 farm-home visits.

Public installation for officers of Seminole Robekah Lodge 43 scheduled for Friday has been postponed. New date will be announced in the near future.

Casselberry's Town Council Monday night authorized Mayor Owen Anstey to appoint a three-man committee to represent the municipality on the Seminole County Beautification Committee, headed by county commission chairman John Alexander. Anstey said he probably would name one member for the Casselberry Garden Club, another from the Casselberry Lions Club, and another from the Casselberry Woman's Club.

'60s 'Ready For Takeoff,' Harper Says

Directors and officers of First Federal Savings and Loan Association were re-elected at a meeting Wednesday at the association office.

To serve for three-year periods: A. Edwin Shubolter, George Touhy and Jack I. Greene were re-elected as directors. The officers who have been serving the thrift firm were re-elected for the present year.

President E. C. Harper Sr. in his report, commented on the 1964 operation and said that the outstanding loans that were predicted by economists at the turn of the decade have not set any altitude records, and in this respect, have been disappointing to many.

Harper pointed out that while the lending side of the business was less buoyant nationally than had been expected, First Federal had increased over 1963 both the number of loans made and the dollar volume.

Officers in addition to Harper are Touhy, executive vice president; J. H. Van Hyl, first vice president; S. F. Doudney, second vice president; Rosamund Chapman, secretary; Maxine Ekern, assistant secretary; treasurer and Barbara Flynt, head teller.

Shubolter is director-at-law and the other directors are Greene, Robert E. Karns, Harper, Doudney, Van Hyl and Touhy.

GOLDEN anniversary of the Sanford Kiwanis Club was marked Wednesday when Rupert Stockland (left), chairman, presented a cake with 50 candles to Sanford Doudney, oldest continuing member. (Herald Photo)

Bank Prexy Views '65 As Good Year

Two promotions were announced Wednesday afternoon at a stockholders' meeting in the lounge of the Florida State Bank.

M. Raymond Daniel was named vice president and cashier and Wayne E. Albert was elevated to Daniel's former position of assistant cashier.

T. E. Tucker, chairman of the board and bank president, reviewed the conditions of the bank during 1964 and discussed the operating ratios of the Miami Sully Group of Banks. He said 1964 was the best year the group ever had.

Deposits of the banks display a gratifying growth and net operating earnings kept pace with this development. Stockholders were told.

Tucker indicated 1965 would be another good year. He pointed out that as community banks become more sensitive to the national and international economies.

Operating ratios for the year were described as "excellent" with the bank having a net operating earning of \$2.26 a

A six-man jury found Hickman guilty of trying to bribe a license examiner to obtain a driver's license.

'No Change' Report On Churchill
LONDON (UPI) — Sir Winston Churchill clung desperately to life today, but his vitality ebbed by the hour.

The midday medical bulletin from his physician, Lord Moran, read: "There is no change in Sir Winston's condition. There will be a further bulletin this evening."

In this case "no change" was bad news.

'68 School Term Eyed

A request for \$11.1 million for construction of the new university in Orange County three miles south of Oviedo will be presented to the State Cabinet next week by the State Board of Regents.

Director J. Broward Culpepper said last night in Tallahassee the money will be needed this year if the university is to be ready for enrollments three years hence.

He said the 1965 session of the Legislature will be asked for a \$18.4 million to finance operations of the university for the coming two years. The request is a 60 per cent increase over the previous two years.

Organizational activities for the new Orange County institution are progressing rapidly and approval by the State Legislature of the proposed funds will enable physical work to begin.

In his address, Culpepper said schools will need \$118 million in construction funds, of which \$65.3 million were promised by the state as to most of the obligations to the south of Florida.

Included in the construction cost, in addition to that for Orange County, will be \$25 million for the new University of West Florida at Pensacola.

Culpepper said enrollment in the university totaled 25,000 last fall. He predicted it will climb to 80,000 in 1970 and 150,000 in 1975.

Pressures of enrollment are so great, said Culpepper, that even if all the expansion now sought was provided, "there is a good chance that by 1970 there would not be room for an estimated 17,000 to 20,000 young people."

County Schools
TALLAHASSEE (UPI) — The state auditor issued a bad report today for the Seminole County School Board's operations for fiscal years ending June 30, 1962-64.

Auditor Ernest Elison said legal requirements were not met, good business practices followed and records were well kept.

LBJ In '68, HHH Tells Partygoers
WASHINGTON (UPI) — President Johnson's thoughts were on the "Great Society" Wednesday night even as he danced his way through five inaugural balls.

Vice President Hubert H. Humphrey virtually threw Johnson's Texas hat into the ring for the Democratic nomination in 1968 during the nation's oriented festivities.

In three hours, the First Family and the Humphreys danced to all five inaugural balls at widely scattered locations in the nation's capital.

Between fox trots, Johnson rounded the overflow crowds of the late-reaching legislative proposals he has made even before his four-year term began at noon EST Wednesday.

"In the morning we're going to have to start out early and work on our program," Johnson told merry-makers at the Shruborn Hotel.

"So I hope you don't stay up too late. We're going to need help from all the Democrats we can get."

"We're on our way to the Great Society."

Humphrey, who once was mistakenly introduced by the President as a senator during the last-governed appearance, said he joined in best wishes for the Johnson administration's next four years.

And then we'll continue for four more years," he added to the cheering of those at the Shruborn Park Hotel ballroom.

The President smiled at this reference to a 1968 candidacy, but did not speak.

Marina 'Idea' Seen As Possible County Project

By Dottie Austin
Possibility of the proposed Sanford Riverport Marina expanding to a Seminole County Riverport Marina 100 m.e.d. Wednesday evening at a meeting of the Lake Mary Chamber of Commerce.

Sanford City Manager W. E. Knowles, at the close of an address to Chamber members, was asked: "Why cannot we — the entire county — join in on this project? Knowles' reply was: "Why not?"

Knowles, in this question-and-answer period, said the proposal had started as a Sanford municipal project but that it very well could be incorporated into the overall picture of the proposed county-wide Port Authority.

"This is the question of where we are going to get the money, and it's a dead serious question," he said.

enough to pay the yearly operating expenses.

"There are ways and means of going ahead with the waterfront development — there is no doubt that it has tremendous, unbelievable potential, but we may well have to start small, much smaller, than we had hoped. It's going to be up to you to decide," Knowles told the group.

"Another serious problem is the question of where to find the suitable fill. Preliminary tests have indicated six to nine feet of muck and silt
