

Officers Hit For Neglect Of Duty Let Off By Warren

TALLAHASSEE, July 10.—Governor Warren today let off the Columbia county sheriff and his assistants for neglecting their duty in enforcing gambling laws following a lengthy hearing in which numerous Columbia county officials and officials denied all charges.

The evidence does not prove that Sheriff Witt and Constables Roberts neglected their duties to enforce laws against gambling in Columbia county, Warren said. The hearing was called after the Tampa Tribune published an article that constable-operated slot machines were operating in several Columbia county establishments.

Murray said he made his check of the Federal Internal Revenue records indicated 14 permits, valued at \$100 each, had been issued for the use of slot machines in 11 establishments there before the articles were published.

Both Sheriff Witt and Constables Roberts said they had no knowledge of the operation of any slot machines in the county. They said the violation was reported to them by a citizen.

The hearing was called after the Tampa Tribune published an article that constable-operated slot machines were operating in several Columbia county establishments.

TODAY'S BIBLE VERSE

But there are many priceless treasures that we might have but which we never troubled to claim...

One good thing this war may serve to do is to take the minds of a lot of people off canvasa and make armchair generals out of them.

We are glad to see the State government making preparations to improve Florida's highway system.

The military situation must be getting critical. Senator Taft comes out in favor of nearly a billion dollars more for the Army and Navy.

The 19th Bombardment Group of the U. S. Air Force, first outfit to see action in the Korean war, was also the first U. S. unit to drop bombs in World War II.

The discovery of seven American soldiers, supposedly by Korean Reds after being taken prisoner, tied up their hands behind their backs, and all shot through the face, will not help the Communist cause.

The trouble in Korea will hurt Florida's tourist business next winter, the State Hotel Commissioner seems to believe.

South Carolina voted today on whether they want Jimmy Brynes, former Secretary of State, for governor.

We are not the only one wondering whether atomic bombs should be used to settle the Korean issue.

Trying to get away from some of the bad news about American boys being a beating in Korea, we turned to the inside pages of a big newspaper the other day, and this is what we found.

President Truman calls for \$250,000,000 in essential production of armor, tanks and speed development of the hydrogen bomb.

Why The Accident Toll?

It is time to do something about the safety of highway travel. Every holiday week-end has become a period of carnage on the highways.

If we can't know when a motorist is driving too fast—not until he has an accident which establishes the point—we can find out why?

Actually only a smattering is known about the reasons for driving too fast.

Tree Survival

In a number of forestry laboratories efforts are being made to develop a chestnut tree which can survive in American forests.

Meanwhile, the foresters face battles to save two other important trees of forest and lawn, the elm and the oak.

While this goes on the giant redwood and big tree of California hold beneath their tough bark some secret of survival.

Fish Of New York

Hamilton Fish is trying to come back. This former New York congressman had isolationist views which would make present-day isolationists seem internationally minded.

Fish should be warned that Dewey's withdrawal from this fall's race for the governorship did not mean that he had dropped out of politics.

French Premier

(Continued From Page One) majority in the National Assembly but had to resign again two days later because the Socialists refused to enter his predominantly right-wing cabinet and voted against it.

Despite his strong support, Plevin's problems—similar to those which caused the government crisis—are only beginning.

Political observers say it remains to be seen whether the bitter partisan quarrels break out again when Plevin begins handling out ministerial portfolios.

Korean Drive

(Continued From Page One) these officers have been accepted. He declined any comment when asked specifically whether Chinese Nationalist troops could go to Korea.

The State Department has maintained a cool attitude toward that offer on the theory that use of Chinese Nationalists might invite intervention in Korea by the Chinese Communists.

By TOM LAMBERT WITH AMERICAN FORCES IN SOUTH KOREA, July 11—Two American tank crewmen said today their armored vehicles had been knocked out yesterday in battles with North Korean tanks.

The bazooka feat was attributed to Sgt. J.R. Glaze of Dallas, Tex., by one of the crewmen in the same tank, Pvt. Lauren Hallgren of South Haven, Mich.

Hallgren told the story while squatting before the tank units command post in a Buddhist temple replete with a glistening red lacquer table and chair, a mural of Buddha and his followers and hundreds of prayer papers.

Our gunner said the enemy tank was right on top of us. Then I heard a heck of an explosion and a jar. The gunner said 'Let's get out of here.' Their infantry following their tanks fired on us as we left.

Retrieving his helmet on his head, young Hallgren walked away to join a group of tankers sprawled exhausted and sleeping on the ground in front of the temple.

Senate Crime

(Continued From Page One) Miami and Burnham, Ill. Sam Cohen was arrested Saturday, Charles Friedman, Jules Levinsky and Harry Russell, all of Miami Beach, and George O. Bowers and William G. O'Brien, both of Miami.

to unite in order to repulse, together, the peril?"

During Ducloux' speech, former Socialist Minister of Interior Jules Moch cried out: "You lie like a snake!"

The Baltimore oriole is Maryland's state bird.

UN Troop Aid

(Continued From Page One) He declined any comment when asked specifically whether Chinese Nationalist troops could go to Korea.

In advance of his appearance, some informed senators said they understood a 100,000-man increase in the American armed forces was planned, to cost an initial \$50,000,000.

He said the question of calling up reserve units or National Guardsmen was under study and a decision may come shortly.

Bradley was accompanied to the meeting by a group of Navy and Air Force officers who took in huge maps and charts, all carefully covered.

Summarizing what the senators had learned, Tydings stressed these points to reporters:

- 1. Other members of the United Nations have offered ground troops for the Korean fight. These offers have been accepted.
- 2. U. S. troops cannot and will not be massed in Korea immediately for an all-out attack.
- 3. Defense and other officials

Dean Named

(Continued From Page One) son M. Compton, president of Washington State College. An economist, he is a brother of atomic scientists Karl T. and Arthur H. Compton.

Here is the way the commission now lines up, with one vacancy: Pike, a Maine Republican, has been confirmed for a four-year term; Dean, a Californian, three years; Thomas E. Murray of New York, two years; and Henry Dewolf Smyth of New Jersey, one year.

The report that other UN members will send forces to Korea was welcomed in Congress. About the time Tydings was giving it, Rep. Rich (R-Pa) was making a speech in the House on that subject.

Military Aid Bill

(Continued From Page One) cific figures in connection with the foreign broadcast service, the senators said, Congress has rejected proposals for a big expansion of "Voice" broadcasts since the outbreak of shooting in Korea.

Smith said the President stressed "the need of more funds for Point Four." When asked whether this meant he wanted the Senate to override the appropriations group's action, Smith said he felt this would be unnecessary.

Others at the meeting were Senator Connally (D-Tex), chairman of the Foreign Relations Committee; Senators Hayden (D-Ariz), Bridges (R-Mich), Sankin (Republican), and Gurney (R-S.D.) of the appropriation group; and Senators George (D-Ga) and Wiley (R-Wis) of the Foreign Relations Committee.

he owns and operates a ranch. He has served in the Justice Department at various times and when nominated to the AEC a year ago was law professor at the University of Southern California. In 1945 and 1946 he was assistant to Supreme Court Justice Robert H. Jackson, while Jackson was chief counsel prosecuting the major Nazi war criminals in Europe. Dean was a naval intelligence officer during the war. He also has taught law at Duke University, Durham, N. C., and American University, Washington, D. C. The sun will be eclipsed on March 18 and Sept. 12, 1950.

Sanford Giants Take On Gainesville Squad Tonight

G-Men Defeat Locals Last Night, 2-1; Phillips Limits Giants To 3 Hits

The Gainesville G-Men cemented Sanford in fifth place last night when they wrested a 2-1 squeaker from the locals in the final frame.

The G's second baseman Jim Foster drilled a single with two away in the bottom of the ninth to drive in the winning tally. Sharing honors with Foster was the G's pitcher Bill Phillips who managed to hold the invaders to three hits over the route.

It was the fifth time this year that Phillips has tripped the Giants.

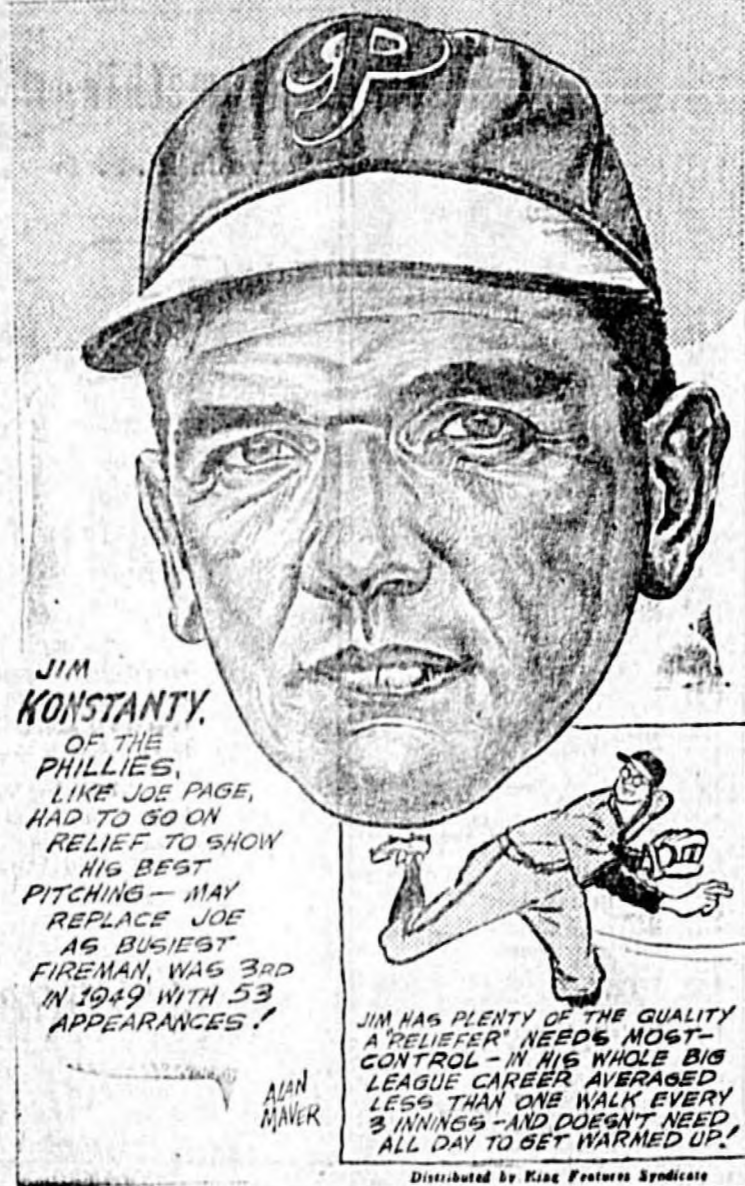

Sanford scored their lone tally in the fifth when they picked up two of their three safeties. Jackson scored from third when Tom Rose latted into a double play.

Charlie Tedesco went the route for the losers allowing 12 hits, and two walks. He fanned two.

Sanford has a chance to split the bill with the G-Men tonight when they take them at Municipal Ball Park.

Phillips, who has pitched 100 innings for the Giants, has a record of 10-10. He has pitched 100 innings for the Giants, has a record of 10-10. He has pitched 100 innings for the Giants, has a record of 10-10.

Please Note Will Highlight Racing Meeting Tonight

DAYTONA BEACH, July 11—(Special) — Randle Brothers' Please Note, striving for his fifth win, highlights an octet of ace greyhounds selected by Racing Secretary Merrill "Duke" Watts to go to the post in the feature ninth race at the Volusia County dog track tonight.

This 70-pound brindle will be making his first appearance with the celebrity pack, but the fact that he has covered the 5-16ths route twice in 31.4 seconds makes him eligible to yallion with the stars. Competing against this youngster, who will not be two-years-old until October, will be Anthony's Maxima, Arook, Montine, Jack RiboudMon's Flash and Mark Trail.

Montine, owned by the Haron Kennels, won Saturday night's feature, and she could repeat. Lee Anthony's Maxima is certain to be heavily supported, in view of the fact that he scheduled the fastest of any dog this season, covering the futurity course in 28.3 seconds. Jack Riboud, owned by E.P. Shippey, recently defeated Denied in a special two-dog match race, and that's an achievement to crow about. In addition Jack has landed in the money eight times in ten starts.

A new kennel has just been added to the 25 competing here, E. Rousseau has just arrived with some fast steppers that are expected to go places. Local dog racing fans will be especially interested in Sherry Lane, Louisa Lane, Frank Goodloe, Sally Manda, Allan and Talker, all pups of Sally Goodloe, a star performer here in '48. These young greyhounds come from four, many, many victories at Orange Park in Jacksonville.

American Leaguers Line Up Big Guns For Classic Today

At the end of the second inning in the major league All-Star game the National League lead the American league 2-0. The National's runs were made when Robinson singled and came home of Slaughter's tremendous smash off the left field wall. Sauer brought Slaughter home with a long fly ball to Hoot Evers.

CHICAGO, July 11—(AP)—Six scheduled starters for the American League in today's All-Star game at Comiskey Park are among the loop's batting heroes to date.

George Kell, Detroit third baseman, is the circuit's leading batter with .343. He is being fielded by Larry Doby of Cleveland with .352. The third starter is rookie first baseman Walt Dropo of Boston who is third in the batting ranks with .343.

Outfielder Walter (Hoot) Evers of Detroit has .341, Phil Rizzuto, New York shortstop, has notched .324, and Boston's Ted Williams .321.

All six are cast in starting roles against the National Leaguers at Comiskey Park today.

Others in the first ten American League batting leaders are Al Zarilla, Boston .319; Gene Woodling, New York .313; Bob Dillinger, Philadelphia .318, and Dom DiMaggio, Boston .316.

Williams has bagged the most runs, 75, and is tied with Dropo in runs batted in, each 83. Williams also shares the home run honors with Cleveland's Al Rosen with 25. Kell has the most hits, 112, and Dillinger the most triples, 9. Dom DiMaggio is tops

G-F All-Stars Beat Tallahassee In 9th

WAYCROSS, Ga., July 11—(AP)—The Georgia-Florida League All-Stars staged a six run uprising in the ninth frame here last night to trim the loop leading Tallahassee Pirates, 9-5, before 1,800 fans in Memorial Stadium.

The stars jumped on right-hander Rolf Mueller, who had allowed just five hits in eight innings, for five safeties in the ninth to pull the ball game out of the fire. Pirate skipper Walt Tauserer let Mueller take the lead in the ninth frame without calling for help.

The Buc hurler fanned eight and walked 10. Elmer Tassin of Moultrie, the fifth All-Star pitcher, toiled three stanzas and got credit for the victory.

Big guns in the All-Star attack were Albany's Rip Ryan and Ralph Lageman, who collected two hits each. Joe Pignatano of Valdosta clouted a double and a single. The big blow of the dream game came in the fourth when Glenn Lindermuth, Buc first sacker, clouted a 340-foot homerun over the right field fence.

The victory was the fourth for the All-Stars in the 10 year history of the classic.

Pre-game ceremonies honored Herbert Bradshaw and W. D. Iltisbark, pioneers in the movement which brought organized base ball to Waycross in 1932. The All-Star team, managed by Sheldon Bender of Albany, was selected by sports writers a round the loop.

The lowest batting average ever to win the National League hitting title was the .320 posted by Larry Doyle of the Giants in 1915.

In stolen bases with nine thefts. Heading the pitching records is Maurice McDermott, Boston southpaw, with five wins against one loss for an .833 percentage. Detroit's Ted Gray, another all-star choice, has notched 10 victories and three defeats for .769. New York's Allie Reynolds leads in strikeouts with 86.

LIKE FATHER, LIKE DAUGHTER
SUNBURY, O. —(AP)—Carol Southworth is very active for a girl in her first year of high school. She has won cheer leader letters for football, baseball and basketball at Sunbury High. She also plays shortstop on the school's girls team. Her father is Billy Southworth, manager of the Boston Braves.

Radio And TV Seen As Major Threats To Minor Squads

CHICAGO, July 11—(AP)—In this year—with television and widespread broadcasts of major league play—that may decide the fate of minor league baseball?

That question was raised even as the American and National Leagues played before a slumped patronage of 45,000 in the 17th All-Star game at Comiskey Park.

The two major loops yesterday waded through some new business, including a relaxation of the Major League deadline for the start of spring training.

But the alarming note of the joint meeting was this report by President George M. Trautman of the National Association of Professional Baseball Leagues (minor leagues):

The first month of play by 44 minor league clubs resulted in a loss of one million fans. That was caused mainly by broadcast and television of major league games in minor league territory, Trautman told the major leagues.

The Justice Department in Washington already has indicated that any attempt to curb major league radio or television might be interpreted as a monopoly.

So the minor leagues have stood patiently while their turnstiles have rusted. How long they can take a box-office beating is questionable.

The survey of minor league attendance will continue throughout the season. Then Trautman will present the plight of his organization to the Justice Department for what it is worth. "As things are going," said Trautman, "the death of the minors seems inevitable."

In the top three minor leagues, American Association attendance was reported 27 per cent below last year. The International League had dropped 19 per cent, and the Pacific Coast League 12 1/2 per cent.

One spokesman predicted that a "handful" of minor league clubs would fold within a few weeks and that more would follow.

The majors, however, did nothing at yesterday's joint session on the television-radio subject, except to name a study committee. Their main accomplishment it was virtually to eliminate the July 1 deadline for reporting to spring training camps. Now players can report anytime before then as an individual club prefers—except that players cannot be compelled to come before that date.

Willie Pep Beats Scheduled Fight Via Romance Lane

WASHINGTON, July 11—(AP)—Featherweight champion Willie Pep didn't fight here last night. He was honeymooning.

Boxing promoter Goldie Ahearn was happy at the romance and looking forward to a big big office later when Willie does fight. The National Boxing Association was annoyed. Because Pep didn't show up for a scheduled 10-round bout with Bobby Bell of Youngstown, Ohio, the Association suspended him.

Pep, 27, was married yesterday morning in Elkton, Md., to 22-year-old Dolores Von Freyckell. Both are from Hartford, Conn.

The Rev. R. J. Sturgill, Baptist minister who tied the knot, said he assumed the newlyweds were "going back to Rehoboth Beach (Md.) where they've been since Saturday."

That was when Pep wired his St. Louis fiancée yesterday (No games scheduled).

10-RACES-10 NIGHTLY EXCEPT SUNDAY

Where the Greyhound Champions Run!

Next Best Thing to a New Road!

YOU must understand, of course, that nothing in the world can take the place of a beautiful ribbon of improved highway—

—stretching so enticingly out into the open country, and all but beseeching you to come for a ride!

But under the happiest auspices, you will have to do much of your driving, for years to come, down roads and highways that leave something to be desired—

—and how lucky you'll be if you ride them out in a 1950 Cadillac!

In recent years, Cadillac has carried out a tremendous program of research and improvement to achieve a finer "rough-road" ride. The development work has covered steering, springs, shock absorbers, frame, wheels, tires, chassis—and all the engineering problems involved.

In the 1950 Cadillacs, this great program has come to full fruition—and the results are simply a revelation.

First, you get wonderful balance. The car "stays put"—and you have a reassuring feeling of stability, even when the going's uncommonly rough.

And your ride is amazingly level. You "float" over the bumps and the depressions, ever so gently. Only a road so bad that it deserves condemning can make itself obvious to either the driver or passengers.

And, of course, the remarkable quietness, of both body and chassis, shows up most dramatically on the roughest roads. For quality tells its finest story when the pressure is greatest.

Why not come in and get acquainted with this wonderful car? We'd be happy to see you any time.

18 Americans

(Continued From Page One)
responsible for the bloody slayings will be punished. He has ordered United Nations soldiers to observe the rules of civilized warfare. South Korean commanders have so instructed their troops.
Meanwhile, two American correspondents were also killed on the Korean warfront. A regimental adjutant reported their deaths to field headquarters.
Presumably they were Ray Richards, correspondent for the Hearst newspapers, and Cpl. Ernie Peeler of the Tokyo Stars and Stripes.

International News Service here was informed that the report came from a regimental adjutant identified as a Capt. Downey.
He reported the bodies were not recovered because fighting still raged around the outpost where the newsmen were killed.
Richards and Peeler had been reported missing since Sunday night, when they went forward to observe results of the first American around the clock bombings. Peeler was a newspaperman in San Bernardino, Calif., before entering Army service.

WASHINGTON, July 11.—(AP)—The first broadcast of a statement attributed to an American war prisoner of the North Korean Communists was reported today by U.S. government monitors.

The prisoner was identified in a broadcast by the North Korean-controlled Seoul radio as Capt. Ambrose H. Nugent of the 52nd Artillery Battalion, 24th U.S. Army Division.

A voice identified by a Korean announcer as that of Nugent read a statement of nearly 1,000 words in English on Sunday. This denounced U.S. intervention in the Korean fighting as a "barbarous, aggressive action" and urged Americans to desert to the Communists.

The official monitor's report said the voice "sounded like an American or possibly a Russian or Korean who had resided so long in the U.S. as to have lost virtually all trace of foreign accent."

"The message itself seems to have been translated from Korean," the report said. "The speaker read it slowly, phrase by phrase, in a tired, halting, toneless voice."
The Seoul radio said Nugent

was among 72 Americans taken as prisoner from the 21st Infantry Regiment and 32nd Field Artillery of the 24th Division. They were said to be held in the fifth prisoner of war camp in North Korea.

City Commission

(Continued From Page One)
commission that the Legion expanded the exhibit section of the fair last year and has plans of even greater expansion of the exhibit section this year.
Decided not to set up a separate Sanford defense council but to cooperate with the Seminole County defense council. A. B. Peterson was approved as head of the county council.

Instructed City Manager Clifford McKibbin and Police Chief Roy Williams to investigate southwest road traffic conditions with a view to modifying them, if necessary.

Passed an ordinance re-zoning the area north of Geneva Avenue from a residential into a commercial section.

Passed an ordinance making Palmetto and Magnolia Avenues through streets from First Avenue to Ninth Avenue, and from Ninth Avenue to Thirteenth Avenue.

Ordered new cemetery lots to be sold for \$200 per lot. Each lot will contain eight burial spaces. Authorized advertising for new billing machine for the Water Department. The machine will save office time by printing both the bills and the cashiers stubs.

Rejected an offer of \$23,000 from St. Petersburg for the new Seagraves fire truck.

Deferred action on bids for drilling a six-inch well in the cemetery. The lowest bid received by the Commission was turned in by an Orlando company.

Defense Council

(Continued From Page One)
The Defense Council at this time is not concerned with "rationing" and as far as he knows rationing is not contemplated at present, and from information at hand is not necessary unless individual buying and hoarding demands some curtailing action.
Mr. Peterson recalled the splendid cooperation the people of Seminole County with the Defense Council during the past war. He asked for this same cooperation at this time with the hope that only precautionary pro-

Excise Tax Cut

(Continued From Page One)
ately give to the governmental officials of the Treasury the authority to tell the universities and colleges what activities they may enter, through the device of passing upon these activities as "related" or "unrelated" activities.

"This will in effect be an immediate governmental censorship which will be very serious to the academic and scientific freedom of the educational institutions."

Stassen agreed that businesses or industries, such as macaroni and sparkling factories owned by educational institutions but operated as a separate corporation entities, should bear the regular corporation taxes.

But, where the university operates the business itself, the tax should not apply, he said. He emphasized, however, the Association of American Colleges has taken the position that these institutions should not engage directly in commercial and industrial enterprises.

A code of moral and ethical conduct among the institutions will solve the problem, he said, without the federal government stepping in.

Colleges now get tax exemptions similar to those accorded charitable and religious institutions.

Stassen put particular stress on research carried on by universities, as an example of what might be taxed. "Research for government is exempted," he said, "but all other research is subject to governmental review under this bill."

"The objective in the Treasury is to bring American colleges and universities under control of the federal government," Stassen said.

cedure would be required in the present conflict.
Unless further steps are needed, he will maintain Defense Headquarters in his office at 116 North Park Avenue.

Senate Kills FEPC Bill By 55 To 33 Vote

House Passes Limited Point Four Bill; Excise Tax Slashing Is Set Aside

WASHINGTON, July 12 (AP)—The Senate today killed off all chances for action this session on the Administration's controversial Fair Employment Practices Commission (FEPC) bill.

The vote on a petition for cloture—debate limitation—on the motion of Senate Democratic Leader Lucas of Illinois to bring the bill before Senate was 55 to 33. This was nine less than the 64 required to enforce a limit on debate.

Under a rule adopted by the Senate last year the vote of 64 senators two-thirds of the full membership, are required to choke off debate.

The action was taken after less than one hour of floor discussion on a petition signed by 40 senators, both Democrats and Republicans, and filed by Lucas Monday, and marked his second unsuccessful effort to bring FEPC before the Senate this year.

Meanwhile the House passed a bill providing limited guarantees of American investments abroad under President Truman's "Point Four" program.

Heading a plea for approval from President Truman, the House after defeating by a 32-vote margin, a Republican-sponsored move to shelve it. However, the bill is considerably more restricted than proposed originally by Mr. Truman.

The \$250,000,000 guarantee measure is a companion proposal to another section of the "Point Four" program giving technical aid to underdeveloped countries. That already has been approved by Congress.

By encouraging the flow of private American capital abroad, the guarantee bill is intended to supplement the \$4 billion in aid to underdeveloped countries.

Saucers Flying In The Night Are Seen At Jacksonville

JACKSONVILLE, July 12 (AP)—Flying saucers or aircraft that look like them—have been maneuvering over Jacksonville the last two nights.

A number of citizens have reported the disk-like objects.

One was Mrs. Toni Veverka, Jacksonville Journal reporter. She said a friend telephoned her early yesterday and that she got up and saw "eight or three of the same ones come back twice."

Early today Mrs. Larnar Ingram, housewife, her husband and son heard aerial noises and got up about 4:15. They reported the same kind of aircraft.

So did Joe Nell, radio station employee. He got up at 4:00 A. M. to see what the noises were. Nell said he saw "three saucers" which seemed to be flying in concentric circles over the Jacksonville-St. Augustine area. They appeared to be about 1,500 feet up and the sound indicated they were powered by jet propulsion.

Enlistment Period In Guard Extended

Col. Maxwell Snyder 124th regimental commander, has granted the local National Guard company an extension until July 17 for enlistments. Capt. David Gatchel announced today. Those from 19 to 35 years of age who are interested are urged to enlist soon in order to attend the summer encampment from July 22 to Aug. 6.

They should contact Capt. Gatchel at 400 West Thirteenth Street or Sgt. Ralph Moran at the Army. The local company will be made up of 61 men and three officers.

SAFETY COUNCIL

The newly formed Seminole County Safety Council will meet tomorrow night at 8:00 o'clock for the purpose of electing officers. E. J. Houghton, Jr. announced today.

CITRUS COMMISSION

TALLAHASSEE, July 12 (AP)—Arthur Davis of Frostproof was appointed by Governor Warren today as a member of the Citrus Commission, succeeding Tom Turney of Winter Haven, who resigned.

Davis, a grower-member of the Commission, was high man in a recent election held among Polk county growers to nominate a successor to Turney.

Census Shows Dozen More Cities In 100,000 Class Than In 1940

WASHINGTON, July 12 (AP)—Provisional census returns show that 104 American cities now have a population above 100,000. That's a dozen more than made the 100,000-up class in 1940, with a few more still to be heard from.

Census Bureau officials said today only one city in the group for 1940 had shrunk below it in 1950—Lowell, Mass. Lowell had a population of 101,389 in 1940 to 80,427 this year.

On the other side of the picture, Baton Rouge, La., scored a spectacular population climb, from 33,719 in 1940 to 123,364 this year, a jump of 257 per cent.

The major cities for which figures still are unavailable are Philadelphia, Houston, San Antonio, Albany, N. Y., and Wichita, Kas.

If Philadelphia maintains its place as the nation's third largest city—something census analysts expect—the nation's top ten cities will line up as:

1. New York 7,841,510; 2. Chicago 3,481,000; 3. Philadelphia 1,834,314 in 1940; 4. Los Angeles 1,954,036; 5. Detroit 1,837,613; 6. Baltimore 979,865; 7. Cleveland 909,549; 8. St. Louis 852,253; 9. Washington, D. C., 792,243; 10. Boston 788,562.
- This year, Los Angeles passed Detroit, Baltimore passed Cleveland, and Washington jumped to 9th place from 11th in 1940, pushing Boston back to 10th place from 9th.
- Pittsburgh, with 673,756 residents, was pushed out of the top ten to 12th place. San Antonio, formerly 12th, moved up to 11th place.

Local Firm Wins Dispute Over US Wage, Hour Law

Printing Co. Is Not Engaged In Interstate Commerce

An application for an injunction by the federal government against the Celery Printing Company was denied by the United States Federal District Court in Orlando on Monday. W. H. Baker was the presiding judge.

The government contended that the Celery City Printing Company was not complying with the Federal Wage and Hour Law relative to the hours of work and the method of pay to employees.

The government further charged that the Sanford firm was engaged in interstate commerce inasmuch as certain printed materials which were sold to local consumers found their way across state lines.

The court, upon consideration of the testimony, held that the government had failed to prove that the materials printed and sold by the defendant represented interstate commerce.

At \$428 it was nine cents above last week and 10.9 per cent higher than the year-ago index of 36.88.

Food Prices Reach Two Year Record

NEW YORK, July 12 (AP)—The U. S. Department of Agriculture today announced that the wholesale cost of 31 foods in general use, which index rose 10.9 per cent last week and 10.9 per cent higher than the year-ago index of 36.88.

However, the current figure is 14.7 per cent below the record peak of 57.30 established exactly two years ago.

The index represents the total cost at wholesale of a pound each of 31 foods in general use.

Higher in wholesale cost this week were wheat, corn, rye, barley, beef, mutton, bellies, lard, cheese, sugar, coffee, cottonseed oil, cocoa, eggs, raisins, steers and hogs.

Lower were oats and lamb.

Florida Power And Light Company Steps Up Construction Activity

The Florida Power and Light Co. has stepped up its construction activity in the last few months, according to figures and information released today by H. H. Coleman, division manager for Florida Power and Light Company.

Mr. Coleman said that a four-mile extension of power wire from Geneva to Lake Harney Shores and Rest Haven, located on the shores of Lake Harney, has recently been completed. The service was extended to 20 houses. This move, said Mr. Coleman, is expected to stimulate further building in that area.

The division manager also said that lines will soon be extended to Titusville Beach from Williston and have recently been completed to Wekiva River fishing camp north of State Road 60.

Mr. Coleman said that his company has "connected 9,700 new electric services during this year, an increase of 10.4 percent over the 8,744 services connected in June last year."

The manager pointed out that a reliable index to the number of new buildings completed is the number of new electric services connected.

"Every month of this year has shown more new electric services connections made than in the corresponding month of last year. In the first six months of this year, 9,700 new electric services were connected, compared to 14,500 for the same period last year."

"This year's gain over last year's gain is 15.8 percent, indicating the upswing in construction. Florida is better than the nation as a whole."

Senator Says State Files Were Rifled

McCarthy Renews His Attack On Acheson, Says He Betrayed Truman And U. S.

WASHINGTON, July 12 (AP)—Senator McCarthy today said that State Department personnel files were deliberately stripped of derogatory data in 1940.

McCarthy, Wisconsin Republican, told a news conference the statements were signed by one present employee of the State Department and three former employees. One of the former employees, McCarthy added, now is an FBI agent.

McCarthy produced photographic copies of the statements which he sent to the White House.

The Wisconsin lawmaker also produced a copy of a letter from FBI Chief J. Edgar Hoover. McCarthy said this letter proves Senator Tydings (D-Md) did not tell the truth when he said June 21 that an FBI study of 81 State Department loyalty files disclosed nothing to sustain charges by McCarthy that his records had been tampered with and denied.

Tydings, a chairman of a Senate Foreign Relations Subcommittee, which has been investigating McCarthy's contentions that the State Department harbors Communists and Red sympathizers.

Tydings said last month that the information about an FBI examination of the loyalty files came to him from Peyton Ford, an assistant to the Attorney General.

Hoover's letter to McCarthy dated July 10, said in part: "The Federal Bureau of Investigation has made such an examination and therefore is not in a position to make any statement concerning the completeness or incompleteness of the State Department files."

"For your information, the Federal Bureau of Investigation dated July 10, said in part: "The Federal Bureau of Investigation has made such an examination and therefore is not in a position to make any statement concerning the completeness or incompleteness of the State Department files."

"For your information, the Federal Bureau of Investigation dated July 10, said in part: "The Federal Bureau of Investigation has made such an examination and therefore is not in a position to make any statement concerning the completeness or incompleteness of the State Department files."

County Court Has Handled 241 Cases Since Spring Term

Over 241 cases have been handled by the County Court since the April session, said court officials yesterday. Of this number 161 cases were heard by Judge Douglas Stenstrom in the opening term of summer court yesterday.

Stiffed fines were handed out for operating a motor vehicle while under the influence of intoxicating beverages. They ranged from \$100 to \$150.

Other charges were petty larceny, intoxication, assault and battery, aggravated assault, reckless driving, speeding, and numerous traffic violations.

Broken down over a four month period the 241 cases showed that 101 persons entered pleas of guilty, eight were found not guilty, two were dismissed for lack of evidence, and 15 suits were continued to the October term.

One hundred and fifteen persons were fined for violating the highest fines, persons who were found guilty of driving while drunk had their drivers license suspended for one year.

Two Seminole High School boys, Clarence Clause and John Fite, sponsored by the Lion's and Rotary Clubs to the American Legion Boys' State meeting held in Tallahassee, were guests of the Lion's club at their luncheon yesterday. The boys gave a resumé of their activities while attending the meeting.

Clause told of the trip and organization as well as the legislative action. Fite gave the schedule of the day and touched on the various officers elected for the State organization.

It was announced that the Board of Directors had set aside every third Friday night for a directors meeting with induction of new members on the following Tuesday.

President Harry Robson presided over the meeting.

CARRIER SAILS PEARL HARBOR, July 12

(AP)—The carrier Philippine Sea left yesterday.

Navy public information officers declined to give the ship's destination, but indicated she was on a training exercise.

They said the escort carrier Sicily, which arrived Monday with warplanes for the Korea fighting front, was still in port.

U.S. Planes Cut Red Supply Lines But Army Falls Back; Plans For Draftees Revealed

Birth Date Is Said Determining When Selected Is Called

ST. AUGUSTINE, July 12 (AP)—Florida draft quotas have been set at 252,000. Gen. General Avian Collins, state director of Selective Service, announced today. The number will be drawn from a total of 1,000,000 men, who will be called to take pre-induction examinations soon. County quotas are expected to be set early next week. No action has been taken yet in calling men for the pre-induction examinations. General Collins added.

WASHINGTON, July 12 (AP)—Secretary of State Acheson said today that other nations may give in the Korean fighting. He said a news conference the State Department is conferring with the United Nations and with the Defense Department on suggestions of help.

WASHINGTON, July 12 (AP)—Senator Lyndon Johnson (D-Tex) today urged calling all National Guard units and organized military reserves to active duty immediately. He estimated this would provide 83,025 additional men for the Army, Navy, Air Corps and Marines. The Armed Services Committee member told the Senate that never before has the United States "been in such grave peril as it is at this moment."

WASHINGTON, July 12 (AP)—The Army said today that draft calls will be given 14 weeks of training and then will be assigned first to posts within the United States.

Later, some will go overseas but (Continued on Page Six)

ICC Told FEC Can Be Operated On An Independent Basis

WASHINGTON, July 12 (AP)—Witnesses testified today at an ICC hearing that the Florida East Coast Railroad could operate successfully on an independent basis.

The road has been in the throes of reorganization for about a year. Efforts to solve its financial difficulties have met with repeated failure, either before the commission or in the courts.

J. C. McWilliams, a transportation statistician for the St. Joe (Fla.) Paper Co., one of the chief creditors of the railroad told the ICC examiner that the road is in a "better position" to operate successfully on an independent basis than three other railroads serving Florida.

The St. Joe Co., owned by the Alfred I. Du Pont estate is battling with the Atlantic Coast Line Railroad for control of FEC.

The paper company has admitted a reorganization proposal for FEC that would involve an exchange of \$25,000,000 in East Coast bonds for \$25 million in equal amount of common stock in a reorganized company.

The plan also would call for issuance of a maximum of \$20,000,000 first mortgage, four per cent bonds—thus giving the proposed reorganized company a capitalization of \$45,000,000. St. Joe officials have testified that the road has a value in excess of that amount.

McWilliams, arguing that FEC is in a better position to operate independently than three other railroads serving Florida, said its operating revenue for each mile of road was "greatly in excess of the other three."

He said FEC's operating revenue, from 1946 to 1949, averaged \$45,213 for each mile of road. He gave these operating revenue figures for the other roads:

Atlantic Coast Line, \$24,087; Seaboard Air Line, \$23,328; and the Southern Railway, \$24,053.

Operating expenses for each mile of road were listed by McWilliams as: FEC, \$37,703; ACL, \$30,168; Seaboard, \$23,641; and Southern, \$23,991.

He also testified that FEC has "great potentialities" for reduction of expenses.

SOCIAL SECURITY

The Social Security Administration field office located in Orlando announced today that its representative will be in Sanford at the Court House on the second floor on Friday, July 21, between the hours of 9:30 A. M. and 12:00 noon.

U. S. Communications 'Up Front'

BEHIND A CAMOUFLAGE of stacks of forward communications gear of American soldiers rests motionless in the forest in North Korea. They are covered by an anti-aircraft net. (AP Photo)

J. H. Lee Renamed Hotel Watchman As Chairman Of Demo Committee

Study Is Undertaken Of Voting Machine Plan For Seminole

J. H. Lee, of Oviedo, was elected chairman of the County Democratic Executive Committee last night during a meeting of that group at the Seminole Court House. Mr. Lee has held the chairman's office for 10 years.

Also re-elected to office were president Mr. Ralph Goodspeed and Secretary-treasurer Mayor Andrew Cartaway.

Chairman Lee called on the voting-machine committee for a report on efforts to secure machines for the county's 15 precincts. Committeeman C. A. Wales of Fern Park said the report is not yet completed.

Mr. Lee suggested that there should be voting machines installed in all of the larger precincts first to keep the outlay on money within reach of the committee.

County Clerk O. P. Hendon said that precincts one and three, located in Sanford, would utilize eight machines.

Chairman Lee appointed a committee to study the plan. (Continued on Page Six)

Power To Allocate Scarce Goods May Be Granted To President

NEW YORK, July 12 (AP)—Many businessmen are gun-shy of the words "controls" and "rationing". All of them are keeping an anxious ear cocked toward Washington, as the probabilities of increased uncertainties, its threats of shortages, its probabilities of increased military demands on industry.

Steelmen are discussing today the likelihood of allocations. Some say a new voluntary allocation plan is being prepared. Others are about to ask for a standby law giving him mandatory power to allocate iron and steel, and probably other scarce materials, such as copper, zinc, lumber, and benzene.

Top labor leaders, worried about the direction wartime manpower controls might take, are conferring with the National Security Resources Board. They demand a voice in planning the controls and want an active, not an advisory, part in their execution.

Foreign traders have the jittery every time they think of the chance of export controls and production quotas being slapped on again, just as their business was beginning to perk up a little after two years of declining volume.

The oil industry is all set. Better than most industries, it knows just what is expected of it. Standby orders telling refineries what will be expected of them, including how much high-octane fuel for planes, are at hand in case of an emergency. Munitions board officials, however, say the orders will not be put into effect unless the Korean situation is dire.

Fliers Cut Commies Supply Arteries; Ground Action Is Seen As Intense

ADVANCE AMERICAN BASE, Korea, Thursday, July 13 (AP)—American forces with a view to the Korean River south of Chosin late Wednesday while a rear guard detachment cut up a doozed stalling fight. Such a withdrawal at night is the toughest kind of military operation, a headquarters spokesman said.

The retreat to a new defense line was made during two days in the face of overwhelming North Korean forces. The small American unit did a gallant job of trying to stop the Red hordes, he said.

TOKYO, July 12 (AP)—North Korean Communists pushed south with tank-led battalions against Americans in South Korea today but advance American headquarters claimed the Reds had been cut off from their own supply bases by air strikes.

An advancing headquarters spokesman in Korea said the Air Force had isolated the Reds from their own reinforcement bases. However it appeared that the Reds had already built up a formidable amount of power, men and tanks, at the front before the air pounding wrecked their supply routes.

The spokesman described ground action as particularly intense and growing stronger, even against the South Korean forces to the east. The Red drive in the sector held by South Korean units has not been as heavy as against the Americans but there have been some indications it was growing up in power.

The North Korean radio claimed 200 Americans had been killed and 200 captured south of Chosin during the Red breakthrough. The report was taken with reservation here. The Red radio also claimed 15 U. S. tanks and five armor cars were destroyed, more than 1,000 automatic rifles, several anti-tank guns and five tanks were captured. The radio did not give (Continued on Page Two)

Local Kiwanis Club Has Luncheon Meet

The Kiwanis Club at a luncheon meeting held today voted to support the St. Petersburg Kiwanians in their drive to maintain the State slogan "The Sunshine State". Other state organizations, said Leon Cornell, are trying to get the slogan changed to "Keep Florida Green".

President Ralph Smith announced that there will be a meeting of the board of directors at his home Tuesday at 7:30 P. M.

Howard Monteith told members that the Mt. Dora club will send a delegation of members to the board organization next Wednesday. The visiting chairman will be in charge of the program.

Joe Field, chairman of the Marianna Plan Committee, was in charge of today's program. He introduced Clarence Clause, John Fite, and William Tison who spoke briefly on the Boys' State held recently in Tallahassee.

Guests of the club were Harold Motheraway, Neil O'Brien, and John Strickland.

NEW TB CHIEF

One of the nation's outstanding specialists in tuberculosis control, Dr. Henry C. Sweeney of Chicago, has been appointed chief medical director for all Florida State Tuberculosis Sanatoria.
