

The Sanford Herald

Published every afternoon except Sunday at Sanford, Florida. Entered as Second Class Matter, October 11, 1913, at the Postoffice at Sanford, Florida, under Act of March 3, 1879.

MONDAY, JULY 28, 1924

BIBLE THOUGHT FOR TODAY THE LORD IS GOOD:—O taste and see that the Lord is good: blessed is the man that trusteth in Him.—Psalm 34:8.

TRULY GREAT

My walls outside must have some flowers. My walls within must have some books; A house that's small; a garden large. And in leafy nooks.

Generosity

There are several traits for which one may be admired. One of these is generosity. A man that is generous in spirit, in heart, and in soul, will usually have a host of friends.

AS WE SEE IT

People who object to Brisbane's articles should stop and think it over. Brisbane may not be a Democrat, but neither is he a Republican.

The Other Side

That excellent paper, the Tampa Times, with apparent fatherly interest in the welfare of The Herald and with undeniable concern for the political discrimination of its readers...

We do believe, however, that the Times has resorted, perhaps unintentionally, to a rather too intensive use of hyperbole in the earnestness of its endeavor to reveal the evils of the Brisbane articles.

But Brisbane is not a Republican, neither is he a Democrat; he is a free thinker, bound to no political party and dissociated with all capitalistic intrigues of the moneyed interests...

As a matter of fact we can't recall anything in recent Brisbane columns which should be so offensive to the Times. Brisbane did make some allusion to thousand-to-one shots being placed on Coolidge, but in presidential elections as in horse races one man's bet is as good as another's.

But if this were not so, if Brisbane were actually using position in the columns of thousands of publications throughout the country, in the Pensacola Journal, in the Jacksonville Journal, in the Tampa Tribune and in The Sanford Herald...

AS BRISBANE SEES IT

LaFollette's "Millions To Rule Our Waves, Wheat In Politics, Criminals Sleep Well." BY ARTHUR BRISBANE (Copyright 1924)

AS WE SEE IT

People who object to Brisbane's articles should stop and think it over. Brisbane may not be a Democrat, but neither is he a Republican.

As Brisbane Sees It

LaFollette's "Millions To Rule Our Waves, Wheat In Politics, Criminals Sleep Well." BY ARTHUR BRISBANE (Copyright 1924)

"LaFOLLETTE'S race will cost \$3,000,000," says The New York Times. Another New York editor says LaFollette will spend ten millions.

"THIS IS THE political stage of 'rosy reports.' They pour in on LaFollette, Davis and Coolidge. Coolidge is told that Ohio, Iowa, and Kansas are already his. Davis is told that with the South and New York, Massachusetts, etc., he is ELECTED NOW.

THE GOVERNMENT has ordered a group of flying machines that can travel through the air, on the water and on land. One of the steps remaining—the amphibious and submersible flying machine—pulling in its wings and becoming a submarine. That will come also.

THE BRITISH intend Britannia shall rule the air waves as she used to rule the ocean waves. In Britain flying machine development is not left to doubtful and more or less inefficient private effort. The British will establish in 1925 a regular flying-machine service between England and India.

WHEAT CONTINUES to be the greatest politician of them all. Topeka reports that wheat replaces oil in Kansas as an exciting source of wealth. If the boom in grain continues, as there is every reason to believe it will, carrying prices higher, political opinions and political betting will change.

ONE REPORTER "covering" Chicago's murder trial says of the young murderers, "They sleep as soundly as honest men in their jail cells last night." There is nothing in the theory that honest men sleep more soundly than "others." They don't. Honest men have worries, responsibilities, self-reproaches that do not afflict the criminal, who accepts no responsibility whatever. Insomnia is not a criminal's disease.

THE SCIENTIFIC world notes the discovery in France of a new anesthetic called "gommital." With a few drops of this anesthetic makes possible the longest operations. It is injected into the blood, causes the patient to remain half-conscious for thirty hours, which is excellent for major operations.

IT IS HARD to believe, as you read of scientific methods for avoiding pain, that when anesthetics were first used they were savagely denounced as works of the devil. Earnest preachers declared that God WANTED us to suffer and it was a sin to thwart His divine will.

JOSEPH GREENBERG of New York will return to his home with new knowledge of this country and greater respect for the size of Texas. He left Brooklyn in a motorboat to bring his son home from "somewhere in Texas" and told his wife he would be gone about three days. He will be surprised to find it will take him about as long to cross Texas as to cross the rest of the American continent.

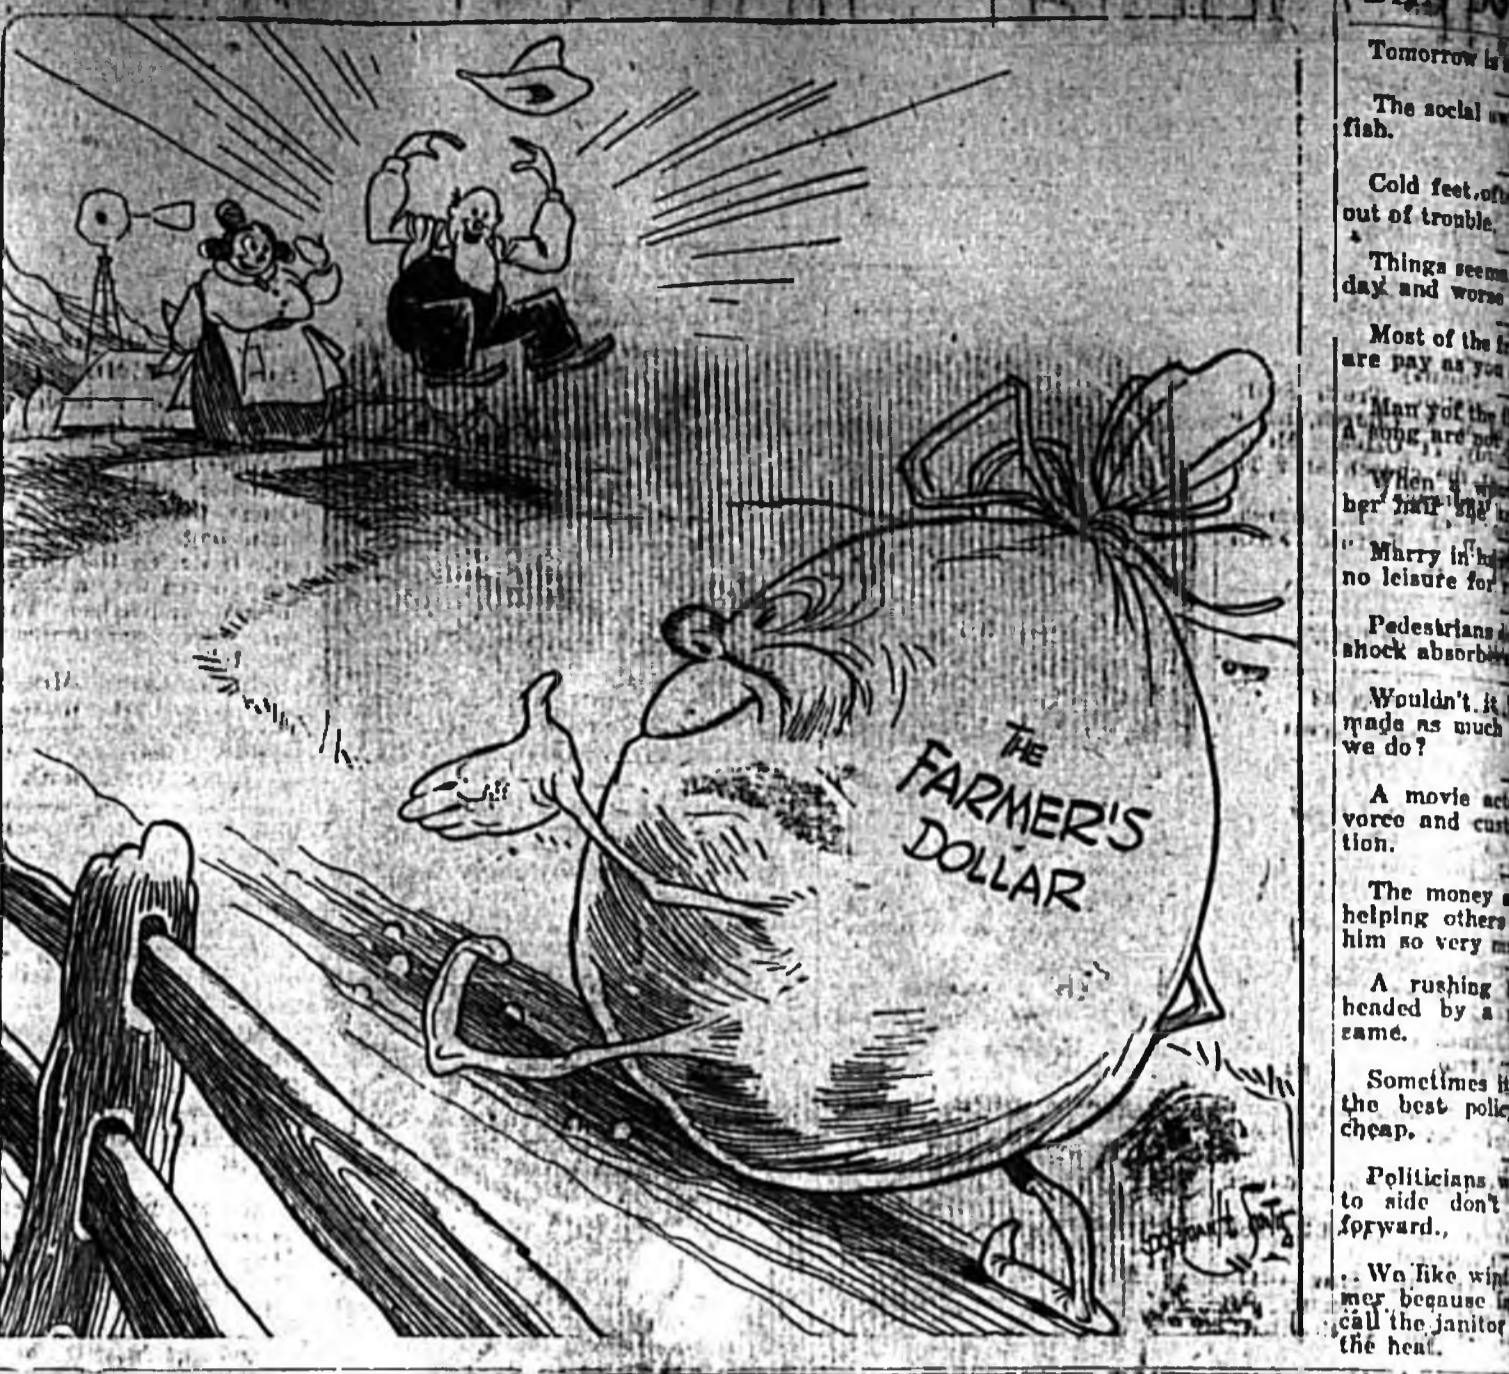

LIFE IS EXPENSIVE here for the nation, individuals, states and cities. A preliminary budget indicates that it will cost \$400,000,000 to run New York in the coming year—and that in spite of Mayor Hylan's fight for economy.

Before the war the United States, all told, owed about one thousand million dollars. In Tom Reed's day the people were horrified at the thought of the nation's spending half a billion in two years. Now New York City alone will soon spend \$500,000,000 a year and more later.

BANKERS in Syracuse have formed a committee to protect their depositors against "sky" gentlemen selling worthless securities. It is a good idea that should be imitated by bankers everywhere. If money stolen from the country by get-rich-quick schemers could be sent through banks into legitimate business the country would be better off, and poor-houses not so crowded.

"WHAT CHEMIST, physicist or common uneducated person will give to the world a powerful electric battery light in weight? It is a chance to save hundreds of millions and solve the greatest power problem."

THE FRODIGAL'S RETURN

CARPENTIER LOSES AND WINS

If there is any American sport-crowd which is habitually unsportsmanlike in its attitude toward foreign competitors it is to be found in the arena about the prize-fight ring. A shameful record in this lack of sportsmanship was hung up at that regrettable last battle of little Criqui in the United States.

And much the same bad spirit was in evidence at the opening of the light-heavyweight championship bout between Gene Tunney and Georges Carpentier, which was held Thursday evening. The crowd appeared almost evenly divided in sympathy, yet many who favored the American seasoner cheered with invidious remarks based on Carpentier's origin.

But the tenth round, the round in which Carpentier was actually though not finally defeated, gave the most unmanly a chance to redeem themselves, and let it be recorded that they did so. Carpentier's long right had reached Tunney from time to time without great effect. The Frenchman was

COMING HOME TO ROOST

The bankers and M. Herriot reached last night what looks like an almost complete deadlock on the Dawes plan. The question at issue, as most persons now know, is the proposed loan of \$200,000,000 to Germany, the greater part of which come from American investors.

MAKING A SPEECH

Oratory is on the decline in America. There is nothing to weep over in that. After falling from the heights to the point where oratory stood for nothing but political clap-trap and high-sounding personalities, it was time for a change.

DAN DO

Tomorrow is the social... Cold feet, often out of trouble. Things seem to day and worse...
