Here is the fifth of a series of Bible Verse Pages to appear in The Sanford Herald the first Monday of every month for one year. This is a series of challenges to test your knowledge of the Bible, and to make you more familiar with its text.

"OF WAILING WINDS . . ."—Eighteen-year-old Judy Adams, Sanford College student, had thoughts akin to those of the poet who wrote, "The melancholy days have come, the saddest of the year. Of wailing winds and naked woods and meadows brown and grey," as she went into the woods near Raleigh, N. C. to say good-bye to Autumn as Winter came blowing in. (UP Telegram)

E. Glasser Has Yen For Unusual

By VIVIAN SANDE

United Press Staff Correspondent
NEW YORK (U.P.)—Got a yen for the unusual? Say an ivory toothbrush with its bristles tailored to your choppers?

A young New Yorker in a hurry has combed the markets of Europe and Asia to make available the brush, plus other items "never before seen in this country."

Seven months ago Elliott Glasser, a busy man of 35 with red-dish blonde hair, set himself up in a company he calls "Panther International," to do a wholesale and mail order business in new or unusual products from abroad.

Backpackers To Radio
A whirlwind 60-day trip to Europe and the Far East resulted in a collection of everything from backpackers with springs to a Japanese transistor radio with pillow attachment.

Glasser, who got the name "Panther" from a restless character in Ernest Hemingway's "Snows of Kilimanjaro," sells his "discoveries" through 30 to 80 stores across the country. To get the toothbrush, a Chinese product, all you have to do is shell out \$6, plus a copy of your business on a piece of paper.

He also distributes a telephone attachment that plays music to the person waiting at the other end of the line; another that tape records conversations; a mad money charm made of 15-cent subway tokens framed in solid gold, with the token mounted so it can be removed in case of emergency; black star sapphires; cultured pearls; playing cards made like mahjong sets; shell place mats set in lead squares, and all manner of toys and underwater fishing equipment.

Can't Bypass Unusual
"I just can't pass up anything unusual," said Glasser. But he did turn down offers to import cement mixing machines and shrunken heads.

Glasser, born in New York and reared in Wichita, Kan., studied finance at Columbia University. He got his early business experience buying and selling precious and semi-precious stones for his father, and merchandising cosmetics and jewelry for a couple of New York retail stores.

In his office, a big loft-like place, Glasser also black-dyes about 100 thousand pearls a month—claiming "we're the only people who can." He manufactures fishing flies and can produce some 3,000 to 4,000 pieces of jewelry per day, including baby charms and novelty items for adults.

Glasser said he hopes his business will be of service to small firms, who don't want to and can't afford the time and money of shopping abroad.

Civilian Employees Receive Checks

During ceremonies held aboard the Naval Air Station recently, Captain Lionel A. Arthur, Commanding Officer, NAS Sanford presented checks to three civilian employees for above average performance of duties and beneficial suggestions, saving the Government approximately \$2,170.

A \$100 dollar award was presented to Miss Helen Surasky of the Security Department in recognition of her above average performance of assigned duties under an especially heavy workload period from January to June 1957. Captain Arthur commended Miss Surasky and thanked her for her conscientious efforts and unselfish interest in her job.

A \$15 dollar award was presented to Mr. Frank E. Holmes of the Public Works Department for the beneficial suggestion that he submitted which recommended that pre-primed lumber be stocked for use by the Public Works Maintenance Division. Captain Arthur commended Mr. Holmes for his idea which saves the Government 800 man-hours each year and results in approximately \$1,851.00 monetary savings annually.

A \$15 dollar award was presented to Mrs. Shirley A. Horn of the Security Department for her beneficial suggestion which recommended elimination of a log book that was a duplication of efforts and records. Captain Arthur commended Mrs. Horn on her idea which saved man-hours and material resulting in approximately \$228.00 monetary savings annually.

MISCUE
HUNTINGTON, W. Va. (U.P.)—Gaylord C. Martin, 18, Chesapeake, Ohio, was a marked man when he dropped across the Ohio River here for a game of pool while on leave from the Navy. Alert police spotted his hopped up car as the one that eluded them on a 100 m.p.h. chase through downtown Huntington last July and put him in jail on a charge of reckless driving.

RENEW OLD RIVALRY
ATHENS, Ga. (U.P.)—When Georgia meets Alabama here on Saturday it will continue one of Dixie's oldest football rivalries. It will mark the 43rd meeting between the two schools in a series which dates back to 1895.

Local United Fund Drive Continues

Contributions to the United Fund in amounts of \$25 or more as reported by campaign headquarters today are:

- Standard Oil Co., \$25; Miriam Smith Morrison, \$25; Touchton Drug Co., \$100; Sam C. Lawson, \$25; Mr. and Mrs. Lewis Hughey, \$25; Sidney E. Ives, \$50; All Souls Catholic Church, \$100; K. A. Juthe, \$15; R. B. Hixson, \$25; Rand II Electric Co., \$25; Hunts Tuxedo Feed Store, \$50; Downtown Cleaners, \$70; J. M. Garrett, \$35; Mr. and Mrs. Harry M. Weir, \$25; Henderson Produce Co., \$25; Norman E. Godfrey, \$25 and Ball Bros. Trucking Co., \$50.

PENNSY-CENTRAL MERGER?—Presidents James M. Symes (top) of the Pennsylvania Railroad and Alfred E. Perlman (bottom) of the New York Central Railroad announced in New York that they are studying plans for a merger of the two into one giant system. The two railroads have combined assets of about \$5,650,000,000.

Drafting Legislative Bill Topic Of Talk Made By Stenstrom

"The drafting of a legislative bill is much the same as the planning of a building," said Senator Douglas Stenstrom today as he spoke to the YMCA meeting Friday in Orlando. Continuing with his subject on "How to Draft A Legislative Bill," he said, "It all begins with an idea." The legislator, like the architect, follows a certain technical procedure and draws detailed plans which can easily be studied and followed by the builder.

President, Cabinet To Discuss Budget, Legislative Plan

WASHINGTON (UP)—President Eisenhower will meet with his cabinet twice this week to discuss the budget and legislative program he will submit to Congress when it reconvenes in January. The first meeting was scheduled for Friday; the second will be held on Monday.

Acting White House press secretary Anne Whitton said, "These two meetings are part of a plan to consider legislative programs and budget programs prior to legislative meetings in early December."

The December meetings to which she referred included a bipartisan conference of Senate and House leaders shortly before the President leaves in mid-December for the 15-nation NATO Council meeting in Paris.

Mrs. Whitton said the two cabinet meetings did not stem from Russia's launching of a second earth satellite. She said they were arranged before the news of Sputnik II was released to the world.

Russia's satellite and missile advances were almost certain to figure in the budget discussions, however. The President is under strong pressure from some congressional Democrats to step up U.S. defense spending in view of the Soviet's achievements.

Eisenhower will hold a news conference Wednesday which, barring unexpected developments prior to then, will be his first opportunity to discuss the latest Russian feat for the American public.

Appointments for consultation with this representative may be made in advance by contacting the County Service Office at Brumley-Puleston Bldg., where personal interviews will be available on Nov. 7, from 2 p. m. to 4:30 p. m.

REACHES HIGH COURT—The case of seven Negroes, each fined \$25 and court costs for trespassing at a racially-segregated ice cream parlor in Durham, N.C., has reached the state Supreme Court.

The Negroes, one a Methodist minister, were arrested June 23 when they refused to leave a section of the Royal Ice Cream Co. reserved for whites.

the pattern for the people of the state to follow.

The Senator related that "Our government grows, exists and changes through planning and building ideas into law. These laws largely determine the progress, growth and development of our state."

Reiterating that poorly drafted bills create confusion and lead to litigation, he said that many times not only the purpose of the bill is defeated but in fact many unforeseen and undesirable results are the consequence.

Senator Stenstrom said that in drafting a bill there are three major considerations: first, what is the object of the bill? Secondly, is the bill in conflict with either the state or U. S. constitutions? Thirdly, how will the bill affect existing statutes if any with respect to the subject matter?

"Just as it takes the architect considerable time and study to draw the plans of a fine building, it takes the legislator considerable time and study to draw a good bill results from legislation drawn in haste," the Senator revealed.

"I would strongly urge all who plan to present proposed legislation to his or her legislators," he concluded, "to submit the idea for the bill sufficiently in advance of the legislative sessions so that the legislator can see that the idea is properly translated into a good bill."

The sewerage system meets all FHA and VA specifications and will serve 25 homes in a new area being developed in the Queen's Mirror South Addition.

The system will be extended as development and building continues, with the construction of a disposal plant on a location East of Seminole Blvd., Casselberry said. Also, that property owners in the sewerage district may request connection.

For Information On CIRCULATION PH. FA 2-2611 or after 6:30 p.m. PH. FA 2-0973

NEW BORN VOLCANO—Horta, Faial Island, Azores (UP)—A new islet was rising from the surface of the sea today amidst volcanic explosions—less than a week after another disappeared. The Faial underwater volcano has gone into renewed activity and has hurled ash and molten rock high into the air. In nearly a month of earlier activity, the volcano built a new islet which last week sank into the sea and disappeared.

Collins Appeals For Constitution

TALLAHASSEE (UP)—Gov. LeRoy Collins made his first direct appeal to the people Monday night on behalf of the proposed new Florida constitution, which he said would be a big step forward in building a better state government.

The governor, in his monthly report to the people, said in effect he is convinced that if adopted at the polls in the November 1958 general election, the Constitution would provide the first real chance to crack the stubborn political bloc which has consistently stymied any reappointment of seats which would give the more populous counties a greater voice in the Legislature.

The proposed constitution embodies the provision for a 45-member state Senate and a 114-member House. Collins said he feels "there is every good reason to believe something much better will be forthcoming from the Legislature as it will be constituted under the new plan."

He said he "resorted to every influence I could honorably use and still live with my conscience" to bring the best reappointment formula possible from the Legislature, "and it was not easy to get approved."

Collins departed from the constitution only once during his 15-minute address. He said that efforts of the Committee of Southern Governors of which he is a member to get President Eisenhower to remove federal troops from Little Rock was not a "total failure." I believe the over-all results of our discussion with the President will prove meaningful and helpful.

Rocket Could Reach Moon In Ten Hours

MOSCOW (UP)—Soviet Scientist T. Khachaturov said today a super-fuel already developed in the Soviet Union could send a rocket to the moon in ten hours, speeding at nearly 26,000 miles per hour.

Khachaturov said the new fuel was developed to launch Sputnik II into space with its dog passenger at eight kilometers per second—17,885 miles an hour.

His remarks were contained in a special article on "The Threshold of Interplanetary Transport" published today in "Gizodot", the organ of the Soviet transport ministry.

Khachaturov, who is a corresponding member of the Soviet Academy of Sciences, said in order to give the rocket propelling Sputnik II its "enormous speed of eight kilometers per second, new types of fuel were necessary."

As the crews took off for the final mission Armstrong's group led by only one point for individual bombing honors. Each also had a good shot at the overall bombing-navigation title with Armstrong's crew in fourth place and Howard's in fifth.

The keenly-fought SAC competition involved two crews each from 43 U. S. Air Force bomb wings, most of the B47 outfits, and two from the British Royal Air Force. The RAF Vallants and Vulcans, however, suffered equipment trouble and were far down the list in the tourney.

Members and friends of the Sanford Boat and Ski Club have scheduled their monthly moonlight cruise this Thursday.

Boats will put in at their own convenience and Mr. and Mrs. Harry Robson will host the affair at their camp on the river.

Skiing and swimming will be enjoyed in the afternoon followed by cookout in the evening.

After an evening of dancing and singing the boats will leave about 10 p. m. and cruise back by moonlight.

Commodore Woodall stated this morning that if the weather is ideal, the activities will be held inside.

CYPRIOIS WARN BRITISH NICOSIA, Cyprus (UP)—The Greek Cypriot underground EOKA organization circulated a leaflet today pledging its determination to continue its "struggle for freedom" against the British colonial government. The leaflet, signed by Greek Cypriot leader Digenis, warned Sir Hugh Foot, the new governor, that "Cypriois have taken the irrevocable decision to acquire their freedom by all means."

EOKA last March declared a truce in its anti-British campaign which resulted in much violence.

Mason also served for 18 years as secretary-treasurer of the Massachusetts Conservation Council, and his participation in this and other conservation activities brought him the 1951 medal of the Trustees of Public Reservations for "outstanding service to conservation."

He is the author of Picture Primer of Attracting Birds, published by Houghton Mifflin Company, as well as many magazine articles.

Mr. and Mrs. Mason have purchased a home at Altamonte Springs where they may indulge their interest in plant and bird life, while he devotes full time to the building of a strong program in conservation for the Florida Audubon Society. "We are delighted to be back in the Sunshine State," Mason commented. "To enjoy a part of the beauty of the countryside and the warmth of the people. Already the names of plants forgotten over the past eighteen years are returning to us. We look forward to greeting many old friends, to making the acquaintance of new people who share our interests, and to the challenge that an Audubon program of 'Conservation in Action' offers."

THURSDAY, A GOOD TIME—CHAPEL HILL, N.C. (UP)—The manager of the University of North Carolina Planetarium said Monday a lunar eclipse scheduled for Nov. 7, the 40th anniversary of the Bolshevik revolution, would offer ideal conditions for viewing any explosion set off by a Russian rocket reaching the moon.

A. F. Jentzen commented on a statement by Dr. Fred Whipple, of the Smithsonian Observatory in Cambridge, Mass., that it was possible the Russians launched a moon-bound rocket last Saturday.

WORKING WIVES INCREASE—WASHINGTON (UP)—The Census Bureau said Monday the proportion of married women working or seeking jobs has jumped from 20 to 30 per cent. The number of working wives increased from 7,500,000 in 1947 to 12,700,000 last March.

It into space with its dog passenger at eight kilometers per second—17,885 miles an hour.

His remarks were contained in a special article on "The Threshold of Interplanetary Transport" published today in "Gizodot", the organ of the Soviet transport ministry.

Commodore Woodall stated this morning that if the weather is ideal, the activities will be held inside.

CYPRIOIS WARN BRITISH NICOSIA, Cyprus (UP)—The Greek Cypriot underground EOKA organization circulated a leaflet today pledging its determination to continue its "struggle for freedom" against the British colonial government. The leaflet, signed by Greek Cypriot leader Digenis, warned Sir Hugh Foot, the new governor, that "Cypriois have taken the irrevocable decision to acquire their freedom by all means."

EOKA last March declared a truce in its anti-British campaign which resulted in much violence.

Mason also served for 18 years as secretary-treasurer of the Massachusetts Conservation Council, and his participation in this and other conservation activities brought him the 1951 medal of the Trustees of Public Reservations for "outstanding service to conservation."

He is the author of Picture Primer of Attracting Birds, published by Houghton Mifflin Company, as well as many magazine articles.

Mr. and Mrs. Mason have purchased a home at Altamonte Springs where they may indulge their interest in plant and bird life, while he devotes full time to the building of a strong program in conservation for the Florida Audubon Society. "We are delighted to be back in the Sunshine State," Mason commented. "To enjoy a part of the beauty of the countryside and the warmth of the people. Already the names of plants forgotten over the past eighteen years are returning to us. We look forward to greeting many old friends, to making the acquaintance of new people who share our interests, and to the challenge that an Audubon program of 'Conservation in Action' offers."

THURSDAY, A GOOD TIME—CHAPEL HILL, N.C. (UP)—The manager of the University of North Carolina Planetarium said Monday a lunar eclipse scheduled for Nov. 7, the 40th anniversary of the Bolshevik revolution, would offer ideal conditions for viewing any explosion set off by a Russian rocket reaching the moon.

A. F. Jentzen commented on a statement by Dr. Fred Whipple, of the Smithsonian Observatory in Cambridge, Mass., that it was possible the Russians launched a moon-bound rocket last Saturday.

WORKING WIVES INCREASE—WASHINGTON (UP)—The Census Bureau said Monday the proportion of married women working or seeking jobs has jumped from 20 to 30 per cent. The number of working wives increased from 7,500,000 in 1947 to 12,700,000 last March.

Space Travel Obvious—"Interplanetary travel becomes obvious," he said, "since with a speed of 11 kilometers per second 24,502 miles per hour a rocket has already overcome the gravitational pull of the earth and can go into interplanetary space."

"A trip to the moon would require approximately 10 hours—the dreams of humanity will be materialized. We are passing the threshold of a new type of Soviet transport-interplanetary."

Another Soviet scientist said Russia is capable of sending a rocket to the moon and bringing it back. But there was no confirmation here of reports Russia would send one to the moon on Thursday's 40th anniversary of the Bolshevik revolution.

The new statement came as one of Russia's leading rocket and missile scientists indicated that Laika, the little husky dog aboard Sputnik II, is not expected to live more than a few days. There were rumors earlier that Laika—Russian for "little Barker"—might be returned alive.

Modest Amount of Fuel—Yuri Khlebnikov, author of a much-discussed recent project for a flight to the Moon, Mars and Venus, said today over Moscow radio the speed of the second Sputnik II is sufficient to send a rocket to the moon and return.

He said the amount of fuel needed would be relatively modest—just enough to get a space ship out of the earth's gravitational pull. Moscow radio hinted Monday the necessary super fuel had been developed.

Registration Books Open 'Til Nov. 23—CASSELBERRY—The town's registration books were opened Saturday and will remain open through Nov. 23, according to Mrs. Francis Allen, town clerk.

Mrs. Allen will have the books at the municipal building on each Tuesday and Thursday morning during registration period. The remainder of the period the books will be at her home on Queen's Mirror Circle, for the convenience of unregistered eligible voters.

Election day is Dec. 2. Offices to be filled are mayor, clerk and marshal, each officer to serve for one year and two aldermen, elected for a term of two years.

Absentee ballots may be obtained from the clerk. All U.S. citizens over 21 years of age who have resided in the State of Florida for one year and for six months in the town of Casselberry are eligible to vote if registered.

No candidates have filed for any offices to date.

Office Space Is Found For Firm—CASSELBERRY—Office space for the personnel of Casselberry Industries, Inc., has been provided in the ferries building, just north of their former location, the old Casselberry Industries Bldg. The old quarters were vacated in favor of an electronics company which recently purchased the building from Casselberry Gardens, Inc. Effected by the move are the advertising and billing departments of Casselberry Ferries, the water company and Casselberry Gardens, Inc., a real estate and development company headed by Hibbard Casselberry.

SWEDES BUILD MISSILE—STOCKHOLM, Sweden (UP)—Sweden has built a guided missile which is being tested by two destroyers, it was announced today. The missile is fired by a rocket and powered by a jet engine, and can hit a target in any kind of weather, the announcement said.

NOW THERE ARE TWO NEW MOONS TO WATCH—This official Soviet photograph, released in Canada, shows Alexander Sharov, head of the satellite observation station at the Shternberg Institute in Moscow, giving instructions to a group of Moscow University students. The students have two "spatniks" to watch now, with the announcement that Russia had succeeded in launching a second satellite, this one bearing a live dog as part of its cargo. (UP Telephoto)

Plan Completed For Lions Benefit Variety Show

CASSELBERRY—All arrangements for the Casselberry Lions Clubs' Second Annual Benefit Variety Show at Lyman School auditorium at 8 p. m., Nov. 7, have been completed, producer Joe Welmer said yesterday.

Proceeds from the show will be used by the Lions to promote this sight conservation program, provide eye-examinations and surgery when necessary and other projects of general welfare work.

This year's show includes professional and high class amateur performers, many of whom have become well-known in Central Florida as radio and TV personalities. Welmer, producer of last year's successful show, promoted in conjunction with Sanford Lions at the Seminole High School auditorium, said yesterday that the variety of entertainment billed for Thursday night not only offers a superb cast but will present to the public many rising young stars, some of whom are certain to hit the top in the entertainment field.

The cast includes a professional magician, accordion specialists, tap-dance artists, outstanding amateur vocalists and pianist, a baton expert, pantomimist and a popular dance band.

Harrington, the magician of USO fame and a star in the movie "This Is The Army" will open the show, followed by such well known area entertainers as Ruth Smith, Barbara Albright and Diana Tauscher, Cupparware Wish Fairy, all of Orlando. Pianist Carol Skinner, of Winter Park; The Jones Boys Dance Band, of Orlando; accordionist Frank Loeser and baton twirler Dana Alexander, of Altamonte Springs all share star billing.

First time performers for the Lions Club will be the popular young dancer, Susan French, who needs no introduction as an entertainer and Little Jan Pope of Casselberry, whose full-size accordion dwarfs the tiny performer.

Suzanne Jones, lyric soprano of Sanford who has performed in other local Lions affairs rounds out a program which Welmer believes will be certain to please any audience.

It isn't, considering when this is being written! Also, there will be a meeting of all wives of members of the Fleet Reserve Association who are interested in forming a local branch of the FRA. (Ladies Auxiliary of the Fleet Reserve Association.) This is important, as there absolutely MUST be fifteen or more women present in order to have the necessary quorum to start a branch. And this will be an important meeting in other ways too. It will be necessary to elect some officers at this first one so that there will be someone to keep the "ball rolling". They can be temporary if you so desire, but you must elect some. So if you are eligible, (and you are if your husband is a member of the FRA.) be sure and attend this first and most important meeting.

Seems as if a good time was had by all last Saturday night, when the Chief's Club had their Halloween Dance. With Sidney Vihlen's band supplying the music. First Prize for the best costume couple went to Mr. and Mrs. N. H. Phillips who came in their own version of what a couple of well-dressed clowns should wear. Second prize went to Betty Turner who came in the latest thing in space-apparel! Jane Sinko won the prize of a bottle of the well-known beverage!! As an added note of interest, three happy couples celebrated their wedding anniversary on Saturday evening. Was only able to obtain the names of two of the couples though, and they were Mr. and Mrs. William Cotter, and Mr. and Mrs. Raymond Freitas. Congratulations to them... all three couples that is!

Well, now with the carnivals and Halloween out of the way, all the spare time available will probably be going into preparations for the "High Fever Follies". Talent Night for this will take place on January 27th, with the "Follies" themselves taking place on February 14th, and 15th. So much work to be done on this, and everyone can help. Why not call Polly (Mrs. Donald) Brubaker, the General Chairman, and see if there isn't something that you too can do to help. You do not have to be a member of the Hospital Auxiliary in order to participate. The hope is that everything that can be done ahead of time will be finished up before Christmas and the holidays "set in", when everyone wants to be free of commitments to enjoy themselves. To that end I'm "up to my ears" in posters for the affair! But it's fun, and the best

"RASCAL" OPERATIONAL NOW, SAYS AIR FORCE—The Air Force announced its long-awaited air-to-ground missile "Rascal" has passed all tests and is going into regular operational use immediately. The disclosure and the first public showing of the Rascal was made at Pinecastle Air Force Base, Fla., where this picture of a Rascal missile mounted on a B-47 Stratofortress was made. (UP Telephone)

ARABS REJECT PROPOSAL CAIRO (UP)—The Arab League Political Committee Sunday rejected U.N. Secretary Dag Ham-

markjold's proposal that Arab countries help pay for maintaining the United Nations emergency force in the Gaza Strip. The committee approved a resolution forming a united Arab economic front to "combat European economic unity in its aggressive intentions in relation to the Arab economy."

way I have found to relax.

Now that it is finally November, I'm not too early in reminding you that the Fleet Reserve Association will be having a terrific dance on November 22nd, at the Armory on First Street. Sidney Vihlen's orchestra will be around for this one too, and tickets are now available from any member of the FRA. They are \$1.00 per person, but this entitles you to free refreshments, free b-r, etc., and there will be a drawing for door-prizes all during the evening. Many lovely gifts will be raffled off during the evening, and several Turkeyes will be among them in keeping with the Thanksgiving season. The dance will take place the Friday before Thanksgiving, and if you're lucky enough to win one of them, you'll be all set for the holiday! Be sure and buy your tickets early. They will also be available at several downtown stores for your convenience. This is for EVERYONE, not just members of the FRA. Military, civilians, and anyone else who might like to come!

With heavy thoughts of the two Russian satellites that are now spinning around our earth, I guess I'll dig a deep hole and crawl into it! See you tomorrow... if I don't dig too deep!!

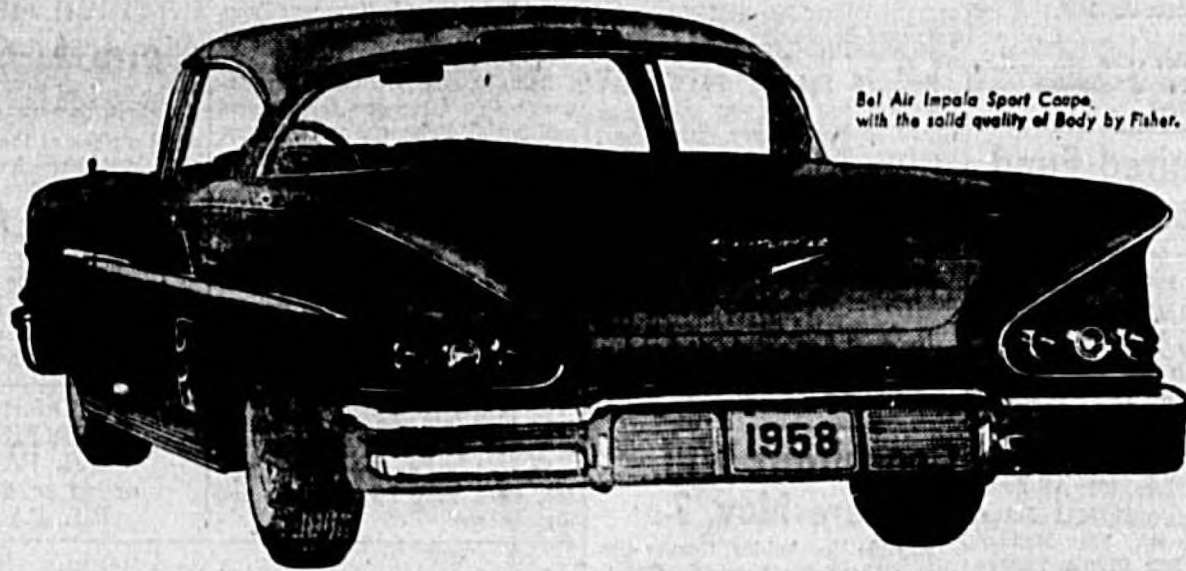

Consult

Bob Karns

about this question: "One often reads of an auto accident in which the driver has no auto insurance, and couldn't pay a judgment if a court awarded one. The victim then has to pay his own medical expenses — Does your agency have this "Uninsured Motorist" endorsement, costing only \$6.00 that pays the legal liability of an uninsured or hit-run driver for injury to any member of the family?"

DR. AND MRS. H. WAYDE RUCKER Jr., who were married Friday evening in Leesburg, Fla. Dr. Rucker is the son of Dr. and Mrs. Henry Wayde Rucker of Sanford.

Miss Morrison Of Leesburg Wed To Dr. Wayde Rucker Jr. Friday

In a candlelight ceremony Friday afternoon at 5:30 p. m., Miss Margaret Mary Morrison and Dr. H. Wayde Rucker Jr., of Sanford, were united in marriage. The bride is the daughter of Mrs. H. K. Morrison and the late Dr. Morrison of Leesburg. Dr. Rucker is the son of Dr. and Mrs. Henry Wayde Rucker of this city.

The Rev. M. H. Wyatt performed the service in the chapel of the Morrison Memorial Methodist Church of Leesburg. Baskets of pink Fuji chrysanthemums and Robellini palms provided a background for the wedding.

A program of nuptial music was presented by Mrs. Norman Riles. Included were "Bells Through the Trees," "Clair de Lune" by Debussy and the traditional wedding marches.

The bride was escorted to the altar by her brother, Henry Randolph Morrison. She was wearing a dress of Dior blue silk taffeta, fashioned with a basque waist, square neckline and cap sleeves. The bouffant skirt was caught near the hemline in front with a large bow of self material. Her long white gloves were trimmed with small crystal beads. Her hat was Dior blue sequins with a nose veil. She carried a small white prayer book, a family treasure, topped with orchids.

Miss Marion Alsbrook of Leesburg was the only attendant. She wore a gown of soft cocoa taffeta with a bouffant skirt and deep net yoke trimmed in brilliants. Her hat was of matching feathers. She carried a crescent bouquet of Fuji pink chrysanthemums and pink satin streamers.

C. Robert Jones of Orlando, the groom's brother-in-law, was the best man. Ushers were Robert W. Adams and Henry Randolph Morrison.

For her daughter's wedding, Mrs. H. K. Morrison chose a gown of periwinkle silk chiffon and lace. She wore a small white feathered hat and a corsage of tiny pink orchids.

Mrs. H. W. Rucker Sr., of Sanford, was the mother of the bride. She was wearing a gown of mauve chiffon and lace over taffeta, with a full skirt, lace yoke and three quarter length sleeves. Her small hat matched her gown and her corsage was of pale lavender cydium orchids.

After the ceremony a reception was held for relatives and intimate friends in the home of the bride's mother, Mrs. Morrison. The pale pink and white cake centered the bridal table, which was covered with a white lace cloth. The lavishly decorated cake was surrounded by fern. Throughout the house arrangements of orchids, pink chrysanthemums and gladioli were appropriately placed. The knife which was used to cut the cake was one given as a wedding present to the groom's parents, and had been used at the wedding of their daughter, Mrs. Robert Jones.

Assisting at the reception were Miss Dorothy Morrison and Miss Jessie Morrison of Orlando, cousins of the bride, and Mrs. Gifford Garrett, Mrs. L. E. Holloway, Mrs. Urie McIlvina, and L. A. Shattuck. Mrs. Theodore Erick kept the bride's book.

For a wedding trip to South Florida, the bride chose a beige wool suit with matching accessories. She wore the bridal orchid

from her bouquet. Upon their return, the couple will live at the Lake Shore Apartments on Dixie Ave., Leesburg.

Out-of-town guests included Dr. and Mrs. Rucker of Sanford, Mr. and Mrs. Robert Jones of Orlando, Mr. and Mrs. George Quinn of Sanford, Dr. and Mrs. Mark Jacoby of Apopka, Mr. and Mrs. Grady Potter and Mr. and Mrs. Wilbur of Bunnell, Mrs. Allen Davis of Groveland and Mr. and Mrs. Laurier Beard of Eustis.

The bride was graduated from the Leesburg High School and attended FSU. She is employed as an accounting clerk in the City Hall of Leesburg.

Dr. Rucker is a graduate of Seminole High School. He attended Stetson University and Emory University, where he was a member of Alpha Tau Omega. He is a graduate of the University of Maryland Dental College. At Maryland, he was a member of Psi Omega, dental fraternity.

He served two years in the Navy, and in March of 1935 opened his dental practice in Leesburg.

Enterprise P-TA Says Halloween Carnival Success

ENTERPRISE—The Enterprise P-TA sponsored a Halloween Carnival on the school grounds last Thursday evening. Approximately \$235 was cleared for the P-TA treasury, announced Mrs. Darwin Bruce, chairman.

In addition to the booths with pie, coffee, hot dogs, candy and cookies, there was the balloon board, pony rides.

Darwin Bruce portrayed a lion and could be "dunked" with a piched ball. A fish pond, spook house, white elephant sale and cake walk were also on hand.

Teachers and home room mothers worked together to put on the carnival. Many children came in costume to enter the parade and the judges, Mrs. J. B. Oviatt, Mrs. Charles Murrell and Carroll Peterson reported a "difficult time" choosing winners.

They are pre-school division: funniest costume, Bobbi Murr, Michael Nettles; most original, Sandra Farron, Jimmy Randall; prettiest, Jean Orr and Vince Stowell. Grades 1-4: funniest, Evelyn Carlton, Tommy Hatchett; most original, Linda Long, Darwin Bruce; prettiest, Jane Vaught and Mike Orr.

Grades 4-8: funniest, Kenneth LeRoy, Vicki Watkins; most original, Wellesley Corbett, Richard Lane; prettiest, Jack Boone and Marie Stepp.

Herman Lederhouse donated the PA system for the evening.

Happy Birthday

Mrs. J. A. Sands, Anna K. Corley, Riley Jeffcoat Sr., Ollie Mae Harrison

Former Sanford Residents Honored In Hypoluxo

The Rev. and Mrs. John Miller of Hypoluxo were honored recently on their twenty-fifth wedding anniversary. Rev. Miller is the pastor of the Hypoluxo Baptist Chapel. A reception was held for them in the chapel. Receiving with the Millers were their sons, Jackie and David, daughter and son-in-law, Mr. and Mrs. Don Baron and granddaughter, Jean Ellen Baron.

Potted palms, white chrysanthemums and gladioli were used to decorate the chapel. Readings and musical selections were played. The Rev. Miller toasted his wife with the singing of "Alo-ways."

The Millers were married in Sanford. Mrs. Miller is the daughter of Mr. and Mrs. W. L. Toudemire of 505 Elm Ave. Rev. Miller is the former Minister of Education at the First Baptist Church in Sanford. His mother, Mrs. Lula Miller, resides in Orlando. Mrs. Miller is the twin sister of Mrs. Christine Woodruff of this city.

Industrial Revolution Possible With Docks, Terminals Project

Sound, logical, progressive thinking is needed now in the wake of the feasibility report submitted to the Board of Sanford City Commissioners recently by Col. E. C. Gee of the engineering firm of Gee and Jensen of West Palm Beach.

Sanford cannot afford to wait through another long period of meandering through a preponderance of illogical, unnecessary and voluminous reports which only could cloud the issue of whether the docks and terminals project is needed.

Braxton E. Carr, president of the American Waterways Operators, Inc. said only a few days ago "Pioneering waterways operations have helped bring the country a new industrial revolution which is in part responsible for today's economic prosperity."

This statement, coupled with a statement by W. W. Young of the General Extension Division of Florida, makes it doubly necessary for Sanford to act quickly so that Central Florida might reap some of the tremendous industrial development now underway. Mr. Young said in a recent release that "Ten thousand new major industrial plants are expected to move south within the next year."

In order to be ready for its share of these industrial developments and in order that attractions necessary to bring the industries here are ready, Sanford must act quickly to provide the impetus in creating the most spectacular growth ever experienced in the State of Florida.

To build a docks and terminals project is not spending money on a short-sighted investment. Whatever funds are used in the construction of "the key to Sanford's economic development" are merely invested in a facility that will remain the city of Sanford.

Wages, Prices, Profits!

Today's inflationary push is due to rising labor costs caused by the power of monopolistic unions to exact wage gains unrelated to productivity, and to the continuing heavy tax burden.

Since 1948, payment for each hour of labor has increased twice as fast as the amount produced by each hour of work. The impact of rising corporate taxes was added on top of this wage squeeze.

An 85 per cent increase in the amount of taxes levied on profits was far greater percentage-wise than the increase in the profits on which they were imposed.

Backstairs At Whitehouse

By MERRIAM SMITH

WASHINGTON (U)—Backstairs at the White House.

The President's wife, a gracious and talented party guest, has walked, with her sparkling shoes and matching hose, into one of the gummy arguments of our time.

The recent flare-up in the government over the propriety of accepting gifts seemed to be quieting when Mrs. Eisenhower accepted, with benefit of news cameras and in apparent delight, an \$1,800 beaver coat from an association of Maine trappers.

True, Mrs. Eisenhower paid \$385 to have the coat made, but the trappers gave her the pelts from which the garment was put together, and they said the finished production was worth \$1800.

The President's wife did not have to refer the matter to the State Department legal division. She has plenty of fur coats and stoles as it is, and she certainly did not need the beaver coat, but accepted it to help along the Maine fur industry.

However altruistic her action may have been, it came on the heels of the now famous Oldsmobile which King Saud of Arabia presented to the family of Victor Purse of the State Department, an event which led to his removal as deputy chief of protocol.

Because this town just now is so glibly gift conscious, Mamie's acceptance of the coat set tongues wagging in some Washington circles. One story going the rounds was that a famous dress designer

and the individuals within it many thousands of times the dollar.

In a recent editorial The Sanford Herald pointed out specifically how the docks and terminals project could be constructed without cost to the City of Sanford and we stand by that editorial. As a matter of fact, the method of paying for the docks and terminals project was covered in the feasibility report when Gee and Jensen specifically stated that the city-owned property opposite the site of the docks and terminals would enhance in value and could be used for industrial development and the placing of bonded warehouses by private industry.

Untold millions of dollars are being washed away from Sanford each day as the waters of the St. Johns River roll on toward Jacksonville unused for inexpensive, economical water transportation for freight into Sanford.

Industry, industrial development, commercial expansion, and Sanford's economic future all are waiting now on action necessary to put the docks and terminals project into reality.

What we can't understand is why all of the "hemming and hawing" about the most important facility ever to be considered. Sanford can't afford to be squeezed anymore — there's got to be some squeezing done here that will benefit the merchants and business people of our own city.

Certainly we realize that the docks and terminals project Central Florida—but to reap the benefits of the docks terminals will benefit ALL of Central Florida will come to Sanford.

Sanford is now waiting for attention to be focused here with "Action!"

Not a single group in American industry showed any improvement in its after-tax profit margin on sales between 1948 and 1956. Every major industry group had a profit margin decline.

Remedy lies in strict government economy so that the tax load may be put on a fair and square basis, and a restoration of equality at the collective bargaining table so that individual producers can make wage settlements which are economically sound, instead of being forced to accept increasingly higher unit labor costs in conformity with an industrywide "pattern" set by union bosses without regard to the public welfare.

Seems as if Howard Duff has come up with a statement that might bear looking into. He said "When TV across the ocean is perfected, we'll be able to see just where our money is going."

In every square mile of land lives as many inhabitants of the insect world as there are men on the earth — over two billion.

A government nutrition specialist's report that children are growing taller and faster indicates one reason why Dad's grocery and clothing bills are going in the same direction.

U. S. NAVY scientists are having satellites in outer space, thinking of a television station too. Apparently they want both in outer space. All programs would be out of this world.

The aim of a television station in outer space would be to learn about the secrets of the universe. Maybe such a new some things get on TV.

Other scientific ideas include a TV station which would scan the earth. The earth has been scanned closely from down here, and it's plain another viewpoint is in order.

The Russians are planning on TV stations which would scan the earth. The earth has been scanned closely from down here, and it's plain another viewpoint is in order.

Imagine the shock, watching earth on a TV program from outer space, and suddenly seeing the message, "Due to difficulties beyond our control, the picture is out of order. The sound will continue."

TODAY'S THOUGHT

"He that holds no rule over his own spirit is like a city that is broken down, and without walls."

Act Now To Trim Income Tax Bill

This is the first in a series of four articles on federal income taxes. The articles are based on information provided by the American Institute of Certified Public Accountants and the Florida Institute of Certified Public Accountants.

You still have time—but not much time to do a little year-end tax planning and assure yourself of the best possible break when you file your tax return next April.

Millions of high, low and middle income taxpayers, realizing that careful planning of their financial affairs between now and the first of the year can pay off handsomely when the tax collector calls next spring, have already begun to establish those extra deductions and special exemptions that will reduce their tax bills.

You can do this too, but you must act no later than Dec. 31.

To alert you to the tax-saving steps you may be able to take before the end of the year, this newspaper is printing a series of articles prepared with the help of the national and state organizations of certified public accountants. These articles—if you keep them and follow their advice—may save you money. And remember that a tax penny saved is more than a regular penny earned, because you don't have to pay a tax on it.

Evaluate Income Prospects Many taxpayers have good and bad income years, depending on the success or failure of personal investments and business conditions in general. While this cannot always be avoided, the effect should be anticipated. Sound year-end tax planning requires that you know fairly well what your income prospects will be for 1957 and 1958.

If you are like most individual taxpayers, your goal at this time should be to level out income for this year and next year. Needless or careless bunching of income in either year can be costly. The sharp bite of today's progressive tax rates—which you can assume will be as high or possibly only slightly less in 1958—makes it much better to have an income of \$6,000 in each of two years, rather than \$8,000 in one and \$4,000 in the other.

Taxpayers who are in danger of being whiplashed from one tax bracket to another because of wide fluctuations in their 1957 and 1958 income should act before Dec. 31 to try to average out their taxable earnings. This can be done by careful shifting of income and deductions from one year to the next.

There are special situations in which it can be advantageous to bunch income in a single tax year. For example, a husband and wife can file a joint return to gain the benefits of income-splitting. Should one of them die, the survivor may file a joint return for the year in which the spouse died and also for two succeeding years under certain conditions. Thus, a widow or widower may profit by throwing more income into this year and less into next if his or her spouse died in 1953, since the privilege of filing a joint return will be lost after January 1.

Special Income Situations There are special situations in which it can be advantageous to bunch income in a single tax year. For example, a husband and wife can file a joint return to gain the benefits of income-splitting. For example, a husband and wife can file a joint return to gain the benefits of income-splitting. Should one of them die, the survivor may file a joint return for the year in which the spouse died and also for two succeeding years under certain conditions. Thus, a widow or widower may profit by throwing more income into this year and less into next if his or her spouse died in 1953, since the privilege of filing a joint return will be lost after January 1.

Special Income Situations There are special situations in which it can be advantageous to bunch income in a single tax year. For example, a husband and wife can file a joint return to gain the benefits of income-splitting. Should one of them die, the survivor may file a joint return for the year in which the spouse died and also for two succeeding years under certain conditions. Thus, a widow or widower may profit by throwing more income into this year and less into next if his or her spouse died in 1953, since the privilege of filing a joint return will be lost after January 1.

The world news headlines that will make the headlines.

ASSURANCE
President Eisenhower has a message to the world.

objective in his plan to attempt the North Atlantic Treaty Organization meeting in Paris next month. He wants to make the increasing suspicion of some allied countries that the United States, in this unclear age, might not go to their defense if Russia attacked them.

blockaded naval passages might be the result. How don't misunderstand! I'm not saying nose drops should never be used by children. They are useful in opening up a nose congested by swollen membranes. But they actually are a medicine. As such it's up to your doctor to decide whether they should be used by your children.

Correct Manner
If he does recommend their use, make sure you give them to the child in the correct manner. Place the youngster on a bed or chair with his head hanging over the side. Let him remain in this position for a couple of minutes after you instill the drops.

Answer: Excessive yawning is probably due more to the formation of a habit than to anything else. I do not believe there is any great harm in such a habit, although it is likely to be a little troublesome. Air swallowing, such as occurs in nervous individuals, no doubt is a contributory factor.

SPILT TICKET
Philippine political experts are laying odds of three to two that President Carlos Garcia's vice presidential running mate, Jose B. Laurel Jr., will be defeated in the Nov. 12 national election. Under Philippine election laws, the president and vice president are elected independently, as they were in the early days of the United States. Garcia, heading the Nationalist ticket, is believed to be in the bag. But the Liberal Party's Diosdado M. Macapagal is the strong favorite in the vice presidential race.

SPORTS OUTLOOK
The National Football League, long noted for frequent coaching changes, faces the likelihood of one of its biggest shakeups before the 1958 season. Six of the 12 present head coaches are on the hot seat. They are Lisle Blackbourn of the Green Bay Packers, Hugh Devore of the Philadelphia Eagles, Sid Gillman of the Los Angeles Rams, Paddy Driscoll of the Chicago Bears, George Wilson of the Detroit Lions and Webb Ewbank of the Baltimore Colts.

Lake Mary Party Honors Lee Kirkner

Lake Mary—Wednesday afternoon Mr. and Mrs. Donald Kirkner honored their son Lee with a party for his sixth birthday. The guests gathered at the Kirkner home on Crystal Lake Ave. and played dart games, ring toss and a water gun game. Mrs. Kirkner served cake topped with a Jack O'Lantern, cup cakes with funny faces on top, cool aid and ice cream to the little folks. Before leaving for home each one was presented with a trick or treat bag.

Enjoying the afternoon with Lee were Kathy Rougenstein, Roy Dell Chester, Keith and Craig Keogh, Karen Gill, David Benson, Donna and Nancy Kirkner.

Belt Children Celebrate Rosemary and Lynette, daughters of Mrs. Richard Belt, celebrated their fourth and third birthdays Friday afternoon at their home on Wilber Ave. The guests played games and late in the afternoon were served cake and punch. Each child was given a unique balloon as a favor.

ATOM POWER BY 1960
CHICAGO (UP)—British atomic power expert R. A. Skinner predicted Sunday night his country will use the atom for production of cheap electrical power by 1960. Skinner, chief metallurgist for the reactor division of Britain's Associated Electrical Industries, said the power would cost less to produce than power produced from fuels such as coal.

POCKETS BELOW AND ABOVE the waistline of this shaped, slim coat of purple and mauve Linton tweed, are the unusual features of this Davidson model.

Calendar

Tue. Nov. 3
The Baptist Association Music School for Sanford and DeLand will be held at the First Baptist Church at 7:30 P. M.

Garden Circles

The Camellia Garden Circle will meet Thursday night at 8:00 P. M. at the home of Mrs. Donald Knight, 2346 Palmetto. Mrs. Louise Mart of the Florida Landscapes and Nursery of Leesburg, will be the guest speaker.

A RING OF EGG NOODLES SETS OFF ANY FILLING

Sometimes the things that look the hardest to do are the easiest. A case in point is this Egg Noodle Ring which would seem to require a lot of skill but actually is a snap to prepare and turn out.

The beauty of an egg noodle ring is that the center may hold all sorts of tempting fillings. You might have chicken a la King as we have here or creamed turkey after Thanksgiving when the holiday bird has had his day. Other excellent "centers" are meat balls in tomato sauce, lamb curry, buttered carrots and small white onions, beef stew, or lobster Newburg.

This ring makes an especially handsome appearance on a buffet table, but don't wait until you have company. Pamper your family, too. It's so easy. Why not have an egg noodle ring for dinner during National Macaroni Week, October 17-26, when macaroni, egg noodles and spaghetti are being feted?

Egg Noodle Ring
(Makes 1 8-inch ring)
1 tablespoon salt
3 quarts boiling water
8 ounces medium egg noodles (about 4 cups)
3 eggs, beaten
1 teaspoon salt
1/2 teaspoon pepper

Add 1 tablespoon salt to rapidly boiling water. Gradually add noodles so that water continues to boil. Cook uncovered, stirring occasionally, until tender. Drain in colander.

Combine noodles and remaining ingredients; mix well. Press into well-greased 8-inch ring mold. Bake in moderate oven (350°) 45 minutes, or until firm. Unmold. Fill as desired.

TO COMBINE CHECKS
WASHINGTON (UP)—Starting in January, elderly couples will receive their monthly social security payments in a single check instead of separately. The Social Security Administration said Sunday the consolidation will save one million dollars a year.

A SHORTER BOX JACKET distinguishes this red, black and white John Barry mixture tweed suit from the Davdoff fall collection. A red silk crpe blouse bow-ties at the neckline of the low-collared jacket.

Legal Notice

STATE ROAD DEPARTMENT OF FLORIDA TALLAHASSEE
NOTICE OF INTENTION TO IMPROVE AND RECONSTRUCT LIMITED ACCESS HIGHWAY
NOTICE IS HEREBY GIVEN TO ALL WHOM IT MAY CONCERN: That in order to provide for the heavy traffic, the preservation of public safety, the promotion of the general welfare and the improvement and development of transportation facilities upon and along that portion of Section 7716 of State Road 490 in Seminole County extending from:
A point in Section 25, Township 15 South, Range 40 East, North-easterly to Volusia County Line as the same appears on map of survey and location thereof approved and adopted by this Department, the State Road Department of Florida has by resolution at its meeting of September 5, 1957 designated and established said portion of said state road as a limited access facility as defined and provided by law.
WILLIAM E. JONES
CHAIRMAN

Pegging Away

Peggy Folders
The Metropolitan Opera had a brilliant opening, why is it always called brilliant? To us, one of the most interesting sidelights was seeing Cornelius Vanderbilt (Sonny) Whitney's wife, Eleanor, in the company of Sonny's daughter. While Mrs. Vanderbilt and her stepdaughter looked very chummy, Sonny was busy sending out letters to all whom it may concern that he was divorcing Eleanor and would no longer be responsible for her debts. He is planning to marry his new movie find, Mrs. Mary Lou Heford.

The newest Broadway hit is "Compulsion," the dramatic tale of the Leopold-Loeb murder case. Not a pleasant topic, it makes for fascinating theatre. Buddy McDowell and Deen Stockwell playing the roles of the youths who thought themselves supermen, are cheered at every performance. The show lasts over three hours, but we would hate to see any scene eliminated. When Frank Conroy, playing the defense attorney, had a heart attack and could not go on the opening night, Michael Constantine substituted. He was slightly terrific.

Victor Mascal, the young industrialist who started the "work-at-home-instead-of-the-office" movement corresponds with other executives who have decided that it saves wear and tear on the system to eliminate the downtown office. The most common problem of these wise gentlemen is how to make the little woman realize that the office in the home is a place that can not be invaded at any time. How about getting a padlock?

Richard Maney's book "Fanfare," the Confessions of a Press Agent, is getting rave reviews. With 374 pages at \$4.95, it's a little more than a cent a page. That's more fun for your money than you've ever had. We went to a cocktail party recently at the John Chapmans in honor of Louella Parsons, vacationing in New York. Louella, we might say, never looked better, being slim, trim and vivacious. The main topic of discussion was the 35th anniversary of the New York Newspaper Women's Club, of which Louella is a charter member. (We missed that by six months.) The event will be celebrated at the Front Page dinner-dance at the Sheraton-Astor Hotel on December 6th. Incidentally, Louella's escort was long writer Jimmy McHugh, who is the toast.

And the new plays continue: This week's entries include the prize winning drama of Robert Guy Barrows "Bivouac at Lucan," well acted at the off-Broadway Royal Playhouse. Also, "The Square Root of Wonderful," the new Carson McCannery play (she wrote "Member of the Wedding"), which brings to Broadway one of our favorites, the lovely Anne Baxter. Jean Dixon, another great gal is also in this handsome offering, at the National Theatre.

REDS SHELL QUEMOY
TAIPEI (UP)—Communist artillery on Amoy Island lobbed 30 rounds on Little Quemo in a brief harassing operation Sunday night. The defense ministry in Taipei said the Nationalist Chinese garrison on the small island suffered no casualties and the fire was not returned.

ATTEND! AUCTION ATTEND!

WEDNESDAY, NOV. 6—1:30 P. M.
ON THE OCEAN—ARUBA APTS.
EXCELLENT INCOME PROPERTY
3633 S. Atlantic Ave.—DAYTONA BEACH
There are 2 concrete block buildings—one a 2-story with owner's apartment and 2 efficiencies on 1st floor—and a large ocean view apt. on second floor with private porch affording delightful ocean and Halifax River view. Second story has regular sidgng. Roof in composition and in excellent condition. Owner's apt. adjoins office and linen room. Two downstairs efficiencies have 2 rooms and bath respectively. Both units connect and can easily be converted into one larger apartment. Second building is one story concrete block with built-up gravel roof. Has 2 efficiency apts. It's adjacent to the "world's most famous and finest beach." Occupants just step from their apts. right on to this beautiful beach and into the surf.
Location is excellent—just 2 blocks south of Port Orange Bridge. The "Aruba Apts." have been given an excellent rating by the Hotel Commission. There's plenty of room for holding additional hotel-type or individual income units.

SPORTS

Today's Sports Parade

By O'CAR FRALY

HOME (UP)—This was a few hours out of Rome as the big "Burr Seven" roared over a jagged Greek mountain and the clipper again pointed downward to where the sun bathed a towering peak in various shades of gold.

"That," he said, "is Mount Olympus. From there they bring the symbolic flame which starts the Olympic Games."

A few hours later you crossed the yellow waters of the Tiber River and stood, amazed at all the marble in the stadium-spotted river valley where in 1936 Rome will play host to the Olympic Games.

Two things can be said of this approaching international muscle festival. Rome is going to be ready for the games and those will be the most undressed Olympics of all times.

Many Statues
This is, by heredity, a city which dates on fountains and statues. Statues get the edge because while all the fountains have statues, not all the statues have fountains. And at the Olympic venue, the Romans have really knocked themselves out.

As an example, the marble-clad stadium which will be used as a training track is surrounded by 60 statues. These aren't the kind you could put on a Roman mantlepiece, either, for each is 14 feet high — and everyone is natural.

There is one of an ancient gladiator. He wears the cestus on his balled fist. That's all. Another represents an archer. Even the Mohawks were more on the warpath. And you just simply couldn't believe how little clothes the Romans can put on, or off, a hockey player when they go to work with chisel and hammer.

Thus it goes, right through the full cycle of sports, and the live athletes in their skivvies are going to feel highly over-dressed.

Yet, while there are mammoth marble musclemen staring stonily down from every unoccupied corner and archer, don't get the idea that there isn't plenty of competitive space for the competitors with competitors. There is a main stadium which seats 100,000 people and, when you consider that they jam it in the rain for a soccer match, you can appreciate that Olympic duets are going to be difficult to come by.

Games to be Scattered
As is customary, however, the games are going to be as scattered as the friendly feeling among the various nations. In this bestated area, track and field as well as the football finals, will be held in the main stadium. They also are building a huge outdoor swimming pool because the plushy indoor pool doesn't have sufficient seating area, and the weight-lifting and gymnastics will be staged in a nearby building — surrounded by, you guessed it, marble statues.

But such events as cycling, boxing, wrestling and basketball will be held about 10 miles from town. Their site was designed by the late boss of this area, a fellow named Mussolini, for a World Exposition in 1942 with none of the buildings smaller than Madison Square Garden. The fair never came off. Something about a war and Benito falling off his balcony.

BAKER BATTLES BRITON
LONDON (UP)—Bob Baker of Pittsburgh and rick-heavyweight Dick Richardson have been matched for a 10-round bout at Harrington Arena, Dec. 10. It was announced today by promoter Jack Slomons. Richardson suffered a lopsided drubbing by Willie Pastano last month.

KEEPS TOING MARK
CLEVELAND (UP)—Lou (Golden Toe) Groza, 240-pound place-kicking tackle of the Cleveland Browns is playing his 12th year of professional football this season and figures he's got two or three years left before he calls it a career.

STATE FARM INSURANCE

Grammar School Intermural Program

With half of the football and volleyball games played, the intermural program is picking up enthusiasm. The football standings at half way mark: (Boys)

1. Mrs. May's Cobras	5 0
2. Mr. Jones' War Eagles	3 2
3. Mrs. Grant's Yellow Jinks	3 2
4. Mrs. Richards' Little Dnms.	2 3
5. Miss Blumner's Seminoles	2 3
6. Mrs. Bout's Bulldogs	1 4

Mr. May's COBRAS have shown their heels to all clubs in this league. Buddy Carter, a fleet footed youngster, can run, pass, kick, and in general is a little general on the field. With help from Barry Barbs, and ends Larry Miller and Robin Starnes, it looks like it could

be an undefeated season for the COBRAS. (Incidentally, Buddy runs the fifty yard dash in 6.4 seconds) If Buddy can keep his speed, it looks like Seminole High may get the speedster that Mr. Pigot.

Mr. Jones' WAR EAGLES lost only two games, one to the COBRAS and the other to the YELLOW JACKETS (by a touchback).

With Big Lloyd Freeman kicking and passing, the WAR EAGLES are always a threat to up-end those mighty COBRAS.

Volleyball standings at half way mark: (GIRLS)

1. COBRAS	5 0
2. YELLOW JACKETS	4 1
3. WAR EAGLES	3 2
4. LITTLE DEMONS	2 3
5. BULLDOGS	1 4
6. SEMINOLES	0 5

With the boys undefeated in football, the girls of the COBRAS room were not to be denied. The competition is strong from all rooms though, and the second half of the season could show some changes. One team, for example, was ahead 22-21 at the end of the third quarter of play; the final score—they lost—50 to 23. All the girls are trying harder now, and it looks like a rosy future for any team that can settle down and get to work.

"HEAVY" HITTING REDS
CINCINNATI (UP)—The Cincinnati Redlegs will feature three of the biggest first-basemen ever to be on one roster next year—344-pound Ted Kluszewski, 235-pound Steve Bille and 215-pound George Crowe.

POLES IN PLAYOFF
WARSAW (UP)—Poland will meet Russia in a playoff game at Belgrade, Vienna or Stockholm to determine which will enter the World Soccer Cup finals in Sweden. Poland tied Russia in the standings by beating Finland, 4-0, Sunday before 100,000.

Eastern New Mexico and Pittsburg (Kan.) topped the perfect record list for this season with 6-0 records. Nine teams, including Hillsdale and Texas A&M, are all victorious in seven games, while Oklahoma, Auburn and Arizona (Tempe) State headed those teams with 6-0 records.

BROWNS' BROWN — By Alan Mavor

JIMMY BROWN, CLEVELAND BROWNS FULLBACK, MADE A FLYING START IN THE RACE FOR ROOKIE HONORS—PICKED UP 89 OF THE 122 YARDS TEAM MADE ON GROUND IN OFFENSE.

HIS RUSHING SET UP FIELD GOAL THAT STARTED BROWNS OFF WITH WIN.

THIS 220-POUNDER IS A POWER RUNNER WITH SPEED, THE ALL-AMERICA FROM SYRACUSE RACKED UP 986 YARDS VIA THE INFRANTRY ROUTE LAST YEAR. NOW UP HIS COLLEGE CAREER WITH 64 POINTS IN HIS FINAL TWO GAMES.

Crooms Announces Float Winners

The highly successful parade held during the homecoming festivities by Crooms Academy produced three float winners who received first, second and third place trophies donated by three prominent merchants of Sanford.

The judges who viewed the parade were almost unanimous in their decision and acclaims. The first prize trophy was donated by Tobson Sporting Goods Company and the winner was Miss Junior High Float. Lois Sanders and her attendants graced the beautiful float against a green and white background of decoration.

Runner-up was Miss T and I float which was enhanced with the beauty of Alabama Moore and her attendants. This float bore a shield design with the colors of pink and white. The donor for the second place winner was Kader Jeweler Company.

Winner of the third place trophy was Miss Homecoming Float which carried a color combination of gold and white. Velma Hayes and her attendants reigned and the prize for this float was given by E. L. Perkins and Son Company.

These trophies will be presented at a special assembly program. According to the judges who have evaluated the parade for the past five years, the parade was the best ever staged. The entire school family expresses their thanks to all who contributed to the success of the parade and especially to the merchants who donated the trophies.

WINNERS REVEALED FOR BEST 9 HOLES HALF HANDICAP

Winners of the best nine holes half handicap played last week at the Mayfair Country Club were announced today.

They are Class A, Augusta Russell, Virginia Sullivan, a tie; Class B, Myrtle Adams; Class C, Glimy Shedd; Class D, Celeste Overstreet, Claire Fite and Barbara Morrison; low putt, Mrs. John Crawford.

WHITEHEAD RESIGNS
NEW YORK (UP)—Don Whitehead resigned as head of the New York Herald Tribune's Washington Bureau Tuesday because of illness and was succeeded by Robert J. Donovan. Herald Tribune President and Editor Ogden R. Reid said Whitehead, author of "The FBI Story," had been ill for several months and asked to be relieved of his duties. Donovan joined the paper in 1937 and had been in the Washington Bureau 10 years. He is author of "Eisenhower: The Inside Story."

EUREKA
PITTSBURGH (UP)—In a "treasure hunt" type episode thieves broke into a safe at Sauer Inc., and found the combination for a second safe which yielded a \$17,000 payroll.

EXTEND OLD RIVALRY
EXETER, N.H. (UP)—Phillips Exeter and Phillips Andover, a school rivalry that began in 1878, will meet for the 77th time next Saturday. Andover leads in the classic series, 30 victories to 31 for Exeter.

UNABLE TO ATTEND
DU QUOIN, Ill. (UP)—Du Quoin High School officials have cancelled plans for a mass polo vaccination of pupils today. Too many students are home sick with the flu.

RETIRE FOR YEAR
CAMDEN, N. J. (UP)—Chance it Tony, who finished fourth in last Saturday's Garden State Stakes, the world's richest horse race, will be retired for the remainder of the year. The colt will be shipped to a farm in Burlington, N. J., to await next spring's Maryland racing season.

The Yardstick

By JERRY COVINGTON

After being successful in their first five starts this season, the Sanford Seminoles have amassed a total of 1145 running yards while holding their opponents to a grand total of 274. They have scored a total of 71 points to the opponents' 13. This is one of the best records in prep football in the state and could very well continue to be. Both TD's that have been scored against the Seminoles have been other than rushing plays from scrimmage. The first was a pass play by Winter Park and the second was a fumble that was taken by a New Smyrna lineman who went all the way for the score.

In the individual scoring honors, half back Eddie Barbour has personally taken charge. He has run up a total 36 points and has scored in every contest. The one to be most remembered was the pass that he saved for a TD against Apopka—the only score of the game.

Johnny Yaschke continues to lead in the yardage department with a total of 361 for 80 carries. Johnny had a bad night against New Smyrna but was still able to maintain a respectable 14.7 yard per carry average. Al Collins continues to sport a 4.5 average to lead in this department.

In the passing department, Cecil Dandridge hit one of four against New Smyrna but still maintains a .458 average. His passing has improved considerably to this point and he has aided the local cause greatly with his efforts. Cecil also

Ike To Give Appraisal Of U.S. Missile Strength In TV Talk

WASHINGTON (AP)—President Eisenhower appeared ready today to give the nation as frank an appraisal of U.S. missile strength as security will permit in his televised address Thursday night.

Officials disclosed that Eisenhower's performance compared with that of the Russians celebrating the 40th anniversary of the Bolshevik revolution.

That is the occasion on which the Soviets are expected to announce any new technological achievements as a follow-up to their two space satellites. It also is the time that they put on a massive display of their military might.

Planned Speech Later
Eisenhower originally had planned to deliver his speech, to be entitled "Science and Security," at Oklahoma City Nov. 13. The White House said the address would be "of major importance."

Why the President changed the timing of his speech. But he apparently wanted to be ready to quickly counter any announcement of new Soviet scientific and military gains with reassurances to the American people of U.S. strength.

It also was possible—but there was no indication that it was probable—that the President would

disclose some striking new U.S. technological achievement or plans.

Eisenhower's change of plans reflected increasing top-level administration concern over the psychological gains Russia has scored with its rockets and two Sputniks.

Road Lead In Phase
Secretary of State John Foster Dulles conceded at a news conference Tuesday that Russia apparently is leading this country in some phases of missile development. But he said he felt sure the United States would overtake the Soviets.

And Deputy Defense Secretary Donald A. Quarles said in a Baltimore speech Tuesday night that recent Russian weapons strides leave the United States no choice except to "do whatever must be done to step out ahead."

Democratic leaders of the Senate meanwhile, put new pressure on the President to speed up the nation's satellite missile programs. Democratic Leader Lyndon B. Johnson announced that the Senate Preparedness Subcommittee would soon begin a "searching inquiry" into these fields.

Eisenhower called off his news conference originally planned for today, Mrs. Anne Whiston, acting White House press secretary, said Thursday night's speech would cover much the same ground as a news conference and that the President wanted to "reach a larger audience" than would have been possible at question-and-answer session with reporters.

Eisenhower called off his news conference originally planned for today, Mrs. Anne Whiston, acting White House press secretary, said Thursday night's speech would cover much the same ground as a news conference and that the President wanted to "reach a larger audience" than would have been possible at question-and-answer session with reporters.

Voters Favor Brown In Commission Race

"I am very pleased of course", answered newly elected City Commissioner Robert S. Brown when asked about yesterday's election this morning. "My thanks to the voters who elected me; I appreciate it and hope that their confidence is deserved." Brown further stated that "I intend to work for the city's future just as I have in the past as chairman of the planning commission. I know the members of the present city commission. They are men I can work with, and I feel we can get a lot done in Sanford that needs doing."

Brown was elected to the post Tuesday in the only contest. He defeated Mrs. Alice W. Willink. The commission seat is one now held by F. D. Scott, who declined to run.

Out of 3,500 eligible voters, only 812 cast their ballots. 333 votes were cast for Brown, 172 for Mrs. Willink, and 447 for Commissioner A. L. Wilson, who is an incumbent and unopposed.

Three county school trustees were elected in the county yesterday. They were James Birkenmeyer, Casselberry, Roy Mann and R. F. Cooper, incumbents.

The millage requested by the school board, which has been the same since 1953, was once more passed. Eight mills will go to district 1 for maintenance. Two mills are allotted for the building and bus reserve.

There will be a canvass of the ballots on Nov. 14. Nov. 19 is the date for the county-wide election on the school bond issue.

First Cub-A-Ree Held Saturday At Farmers Auction

The first Cub-A-Ree for the St. Johns District was held at the Farmers Auction yesterday with many participants and was reported to be a success.

It started with a parade of all the units followed by games of competition. Judges were on hand to score for the sack relay race which consisted of one bobcat or wolf, one bear, one lion or webeles, three legged race made up of two bobcats or wolf; two bears, two lions or webeles; crab race, one bobcat, wolf, bear, lion or webeles; and walking the plank consisting of one bobcat or wolf.

After the games while the judges totaled the points, refreshments of hot dogs and soft drinks were served. Taking care of the food were Bud Leikis, Jack Hippis, Jim Hay and Ted Michaels.

The final tally showed that Pack 204 from All Souls Catholic Church took top honors and the blue ribbon with a total of 23 points. Second was Pack 34 with a total of 22 points.

UF Drive Reports 43 Pct. Of Goal Has Been Reached

With the addition of several contributions to the United Fund received yesterday, campaign headquarters announced this morning that slightly over 43 per cent of the goal of \$35,000 had been reached.

The following amounts of \$25 or more, are acknowledged: Strickland-Morrison, Inc. \$25; Thomas J. Vaughan, \$25; Dr. and Mrs. Charles L. Post Jr., \$25; Sanford Lodge No. 27 I.O.O.F., \$50; H. E. Tooke Jr., \$100; and Sherman Concrete Pipe Co. \$100.

Campaign chairman Harold H. Kastner continues optimistic in his hope that the volunteer solicitors will re-kindle their efforts to complete the job they undertook and make a success of this United Fund appeal.

County Mayors Set Dinner Friday

Mayor David Gatehel announced this morning that the mayors of all the communities of Seminole County will meet Friday evening for dinner.

The dinner will be held at Jim Spencer's and will get underway 7 p. m.

ROBERT S. BROWN, newly elected City Commissioner, is shown at work at Gray Shadow Nurseries. (Hergstrom Photo By Goetz)

Stenstrom Speaks At Eau Gallie Rally

State Senator Douglas Stenstrom said Monday night in Eau Gallie that "the proposed new state constitution will provide Florida a modern, up to date vehicle in which to travel as the state continues its unprecedented growth."

Speaking at a "Know Your Government" city election rally, Stenstrom said "the new constitution falls short in many respects of what I would personally have liked it to have been. I am sorry that many of the proposals sponsored by the 37 member constitutional commission fell by the wayside."

"The new constitution does, however, make over sixty substantive changes in our basic constitutional law and consolidates the present 20 numbered articles and one unnumbered article into 14 articles."

Senator Stenstrom said "I consider the provision for a Lieutenant Governor and the provision making possible home rule for counties, however limited it may be, the most important changes. The person who succeeds to the Governorship should be one elected by the people of Florida and not by 20 members of the Florida Senate. Local governments should have the authority to govern themselves and not have to look to and depend upon their legislative delegation to give them the tools to move forward."

"The new reapportionment formula providing 45 Senators instead of 38 and 114 members of the House instead of 93, will not affect the present balance of power in the legislature. It will, however, give the growing counties a better chance to bring about a more equitable distribution of Senatorial districts in the future," the Senator continued.

"The revised constitution," he said, "eliminates the conflicts and obsolete provisions of the present constitution, clarifies and corrects existing ambiguities, reduces the excessive length, corrects the existing errors in grammar, of which there are more than two hundred and presents the subject matter consistently and in a consistent style. All provisions in a given subject are placed together rather than scattered throughout the instrument and every phase of a major subject is placed in the article to which it relates and in which it belongs. For example, proposed section 8 of Article 2 on public officials comprises provisions presently appearing in 14 separate sections located in five different articles."

"The whole constitution, of course, just as all constitutions, is a product of the minds of many persons, and constitutes, in my judgment, an honorable compromise. I am convinced that it is a better constitution than our present document," he concluded.

MOBILE OFFICE
YOUR REPRESENTATIVE
Syd Herlong

Russia Said Working On Photonic Rockets

LONDON (AP)—Soviet scientist Cyril Stanyukovich said today the Russians are working on photonic rockets which theoretically, approach the speed of light—186,000 miles a second.

Stanyukovich also reported in an article in the newspaper Trud, that Russia used a liquid super-fuel and not nuclear energy to launch its second earth satellite. Russian work on atomic energy "opens great possibilities in the building of atom jet engines which would facilitate flights to other planets," he said.

Stanyukovich gave no details of the research into the photonic rockets except to say Soviet scientists were working on such rockets "which would develop super-atomic speeds approximating the speed of light."

Energy from Light
British rocket expert Kenneth Gatland said "photonic" rockets would draw energy from light and theoretically at least would be capable of continuous acceleration approximately the speed of light. Dr. Vitaly Romadin, identified by Moscow radio as a "Soviet

scientist," said Russian scientists already have created conditions similar to those that would be encountered on a flight to Mars.

The new series of Soviet statements came as the Western world became edgy over reports of mysterious unidentified flying objects and speculation that Russia would unveil new secret weapons Thursday on the 40th anniversary of the Bolshevik revolution.

Scientists in the United States and abroad picked up new and unexplained radio signals from space and Japanese scientists reported a second object in the sky with Sputnik II although Russia has indicated the satellite consisted of only one unit.

There were reports Tuesday of unidentified flying objects near Alamogordo, N. M., near the scene of the first atomic explosion, and over the Pacific Ocean.

Tuesday night South African air force searchlights picked up a "cylindrical object" flying over Johannesburg.

Speculation continued that Russia might try to send a rocket to the moon for Thursday's mammoth celebration, but there was no comment from Moscow.

GUEST SPEAKER at a joint civic club luncheon here yesterday was Congressman Syd Herlong, who spoke on Russia and its attempt to tear U. S. apart from within. (Photo By Hergstrom)

Russia's 'Tear Apart' Drive Herlong's Topic

"Our problem is Russia and its attempt to tear this country apart from within, yet not themselves expending one bullet," said U. S. Representative Syd Herlong at an informal luncheon tendered him by the Seminole County Jaycees in the Parish House of All Saints Episcopal Church here Tuesday.

In developing this statement Congressman Herlong declared that the best way to combat this fighting with and among ourselves, which Russia has been trying to foment throughout the Nation, is to establish and maintain a "sound national economy." Living under a sound economy will discourage any urge for internal strife, he said.

Herlong cited several ways that Russia has pursued their campaign to "tear apart from within".

Among these attempts has been the infiltration of the NAACP with Communist card holders and sympathizers.

"The whole effort of the NAACP since 1953 has been forced on by members of its Board of Directors who at some time were members of the Communist party," said Herlong.

In touching on Russia's sudden rise to world leadership in the missile race, the Congressman first said there is no cause for alarm or panic. Russia is completely encircled by NATO's air bases, and there would be swift retaliation on any Soviet attempt to bomb this or any other country by inter-continental missiles.

Natl Scientific Academy Proposed Congressman Herlong told the (Continued on Page Seven)

State Is Urged To Decide On Cross State Canal Soon

TALLAHASSEE (UP)—Gov. LeRoy Collins has urged the state to make up its mind "within the next few months" whether it wants to go ahead with plans for construction of the oft-discussed \$161,000,000 cross-state barge canal.

But the governor himself withheld endorsement of the big project until he can get more information on it. He said he wants to be "absolutely certain" there are no practical dangers such as the intrusion of salt water into the lush agricultural lands of central Florida.

Speaking Tuesday at a luncheon meeting of waterway interests, he said the canal "deserves very serious consideration." And he promised to seek all the information he can get on the project so he can make an early decision whether or not to support it.

Attending the luncheon was the powerful Mississippi Valley Assn., the world's biggest waterway group, representing 23 states.

"Florida is tremendously interested in waterways development," said Collins, "and we are aware of its industrial potential. But the canal is still in the exploratory stage and we are just seeking information about its prospects."

MVA president W. W. Hollowell of Greenville, Miss., said the cross-state canal would be valuable to Florida because it would bring about cheap transportation rates, water stabilization and industrial development.

Additional Local News On Page 7

NAS Civilians Save Government \$16,141

Since January 1954, Beneficial Suggestions submitted by NAS civilian employees have saved the government \$16,141.

Naval Air Station civilians are encouraged by the Incentive Awards Committee to think of better ways to perform their tasks, so as to bring about a savings to the government and a monetary award for themselves.

The Incentive Awards Committee is an Act approved by Congress and encouraged by the President that aids not only the Civil Service Employees as an individual, giving him incentive to perform more efficiently in his job, but also aids the government and the taxpayer in monetary savings that otherwise may never have been realized.

Although the basic ideas of the Incentive Awards Program have been in effect nationally for several years, the local program was established at NAS Sanford in January 1954, and is composed of eight members, both civilian and military. Commander Marion H. Hawkins, Assistant Operations Officer, heads the committee. Chairman, and is assisted by civilians Wesley E. Giles, vice chairman; John C. Brown, advisor; and Mrs. Winifred Scott, recorder.

The purpose of the Committee is to encourage and provide the incentive for both civilian and military at NAS to submit beneficial suggestions that prove to be a savings to the government. This committee, which meets once a month, carefully studies all suggestions submitted to insure that each suggestion they recommend to the Commanding Officer for approval is a positive savings to the government. The Initiator of

the approved suggestion is presented a monetary award suitable to the savings he has provided the government. Awards presented to NAS civilians since January 1954 total \$16,141, representing a total savings to the government of \$16,141. Funds for the awards are set aside by the Navy Department's "Navy Management Fund". Each fiscal year various bureaus contribute to this fund according to the

extent of their participation in the program. Initiators of rejected suggestions receive letters of appreciation from the Committee with explanations of why their ideas are not feasible.

In addition to the Beneficial Suggestion, the committee also handles Superior Accomplishment evaluations which are, in brief, outstanding inventions or improvements, or acts of superior achievement above

and beyond one's job; and Sustained Superior Performance, which is the performance of one's duties in a superior manner for not less than a six month's period.

Since the Incentive Awards Program commenced at NAS Sanford, three Superior Accomplishment Awards have been presented by the Commanding Officer, totaling \$500, bringing about an intangible savings to the government.

THE NAS INCENTIVE AWARDS COMMITTEE meets for the last time under the leadership of outgoing Chairman, Commander Marion H. Hawkins (fifth from right) who has presided in this capacity for the past year. Lieutenant Commander Lauri V. Leary (seated to the right of Commander Hawkins) was appointed the new Chairman of the Committee. Left to right are committee members: A. P. Bower, W. E. Giles, Sr., John C. Brown, advisor, James J. Drum, Herb Gilliland, Mrs. Winifred Scott, recorder, Commander Hawkins, Lieutenant Commander Leary, E. E. Terry, vice chairman, John K. Hess, and Mrs. Lina F. Harrison. (Official USN Photo)
