

## JAPS IGNORE U. S. STAND ON THEIR POLICY

### Hull Told World Last Night That America Stands Firmly On Its Treaty Rights

TOKYO, May 1.—(AP)—The communication of Cordell Hull, United States Secretary of State on the Japanese policy in the Far East was pointedly ignored in a written communique given by the foreign office to the press tonight.

Although the Hull statement was published complete in local afternoon newspapers and was the principal topic of discussion in diplomatic and official circles, the communique does not mention it except to reiterate its contention that the head of the American State Department indicated United States unwillingness to accept the Japanese "Hanks off Asia" stand.

Reverent at America's firm stand was voiced in the Japanese press today, however.

## Preston Is Out For State Democratic Executive Board

J. E. Preston, Atlantic Coast Line railroad employe and resident of Sanford for the past several years, announced himself today as a candidate for the State Democratic Executive Committee now occupied by W. E. Mallem, Sanford attorney.

Mr. Preston qualified before the Seminole County Democratic Executive Committee and the Clerk of the Court yesterday afternoon.

The city's newest candidate for political office has never before sought to serve his home or adopted city as a public officer. His close association with the state's political situation and his knowledge of the duties of the office he seeks, leads him to believe that he would make an able committee-man, and he seeks the support of the voters to that end.

A native of Knoxville, Tenn., Mr. Preston came to Sanford in 1910 to remain about two years. He returned to Knoxville and employment with the Southern Railroad, but he returned to Sanford about 12 years ago with his family, and has since resided here.

Mr. Preston was one of the most active members of the Shofa-for-Governor Club of this County. He is a member of Sanford Elks Lodge, and of the Seminole County Chamber of Commerce. He is also a member of the Board of Stewards of the First Methodist Church, and he resides at 901 Magnolia Avenue.

## Sanford Grocers Will Close Every Thursday Afternoon In Summer

A majority of Sanford's grocery stores will begin Thursday afternoon closing periods during the summer months next Thursday afternoon, starting at 12:30 o'clock, it was announced today.

The announcement came through the local Grocers' Trade Council which was organized last week with Russell Brown, H. E. Washby, and Forrest Gatchel as members, representing the national chain groups, the voluntary chain groups, and the independent grocery groups, the voluntary chain groups, and the independent grocery groups respectively.

The following stores have agreed to close their doors to customers at 12:30 next Thursday, and to continue this practice each Thursday through Sept. 27:

Pixley-Wiggy Stores; A & P Stores; Lodge and Sons; Triple S Groceries; Forrest Gatchel's Grocery; L. C. Kinkaid; W. D. Kinkaid; H. E. Washby; Tidewater Grocery; Lodge's Groceries; Lodge's as San Avenue; Roberts Grocery; Seminole Grocery; Strickley Flour Mills Store; Joe Mount; James A. Williams; and Surinnee Store.

## Chicago Physician Gets Death Threat

CHICAGO, May 1.—(AP)—A letter demanding \$50,000 under a threat of kidnaping and death was turned over to police by Frank L. Nathanson, reputedly wealthy West Side physician who in 1931 was ordered by the federal government to pay nearly \$200,000 in income tax penalties and interest for the years 1921 to 1929 inclusive.

The letter, typewritten and mailed from the West side postoffice station read, "Doctor, you are on the list for \$50,000 or kidnaping. Your time is up now. Have \$50,000 ready or we will kill you. \$50,000 or death." Nathanson said he didn't have \$50,000 much less \$50,000.

As the firing broke out, what had been a fairly orderly May Day procession became bedlam as marchers scattered for shelter and police fired their tear gas guns.

Communists accused adherents of the AUC secret political society of the shooting, but the police version was that communists themselves had fired from the roofs at the police for the purpose of provoking disorders.

Observers were unable to identify the persons who fired, and they counted only six persons among the casualties. Police asserted, however, that one marcher had been killed.

The shooting occurred as communists were marching through "Bloody Reina Street," scene of the disorders last September in which several communists were killed.

Stringent police precautions signaled the world wide celebrations of May Day.

While radical workers' organizations had called for unprejudiced demonstrations in flaming manifestos the situation at noon indicated that no tremendous disturbances are likely.

The sole danger point at that time appeared to be in Havana where several persons were reported shot down in the midst of a communist demonstration in midtown.

In other lands, however, demonstrations assumed the characteristics of a parade staged in Tokyo where 7,000 demonstrators marched under the direction of 3,000 police.

Demonstrations in this country also were peaceful at the start.

In Moscow, the Red Army corps led a parade of citizens who cheered the sight of 600 tanks and more than 500 airplanes.

## Well-Known St. Pete Song Leader Lies Ill

ST. PETERSBURG, May 1.—(AP)—Harvey Thomas, 46, the tall, raw-boned Welshman who taught St. Petersburg how to sing, lies critically ill at Mound Park Hospital here with little hope for recovery, following a major operation performed yesterday.

Known to thousands of tourists, Thomas for several years directed members of various winter waltz societies, recreation clubs and civic organizations in weekly song-fests. He conducted massed singing concerts at the Pier Casino, attended by never less than 200 voices each Sunday afternoon.

Mr. Preston qualified before the Seminole County Democratic Executive Committee and the Clerk of the Court yesterday afternoon.

The city's newest candidate for political office has never before sought to serve his home or adopted city as a public officer. His close association with the state's political situation and his knowledge of the duties of the office he seeks, leads him to believe that he would make an able committee-man, and he seeks the support of the voters to that end.

## BARKING GUNS END HAVANA'S MAY DAY FETE

### 1 Killed, 6 Wounded As Shots Are Fired Into Communist Parade; All Quiet Elsewhere

HAVANA, May 1.—(AP)—Bullets fired from roofs into the ranks of 10,000 marching communists, today killed one man and wounded six others. Four of the wounded were marchers, one was a policeman, and one a soldier.

As the firing broke out, what had been a fairly orderly May Day procession became bedlam as marchers scattered for shelter and police fired their tear gas guns.

Communists accused adherents of the AUC secret political society of the shooting, but the police version was that communists themselves had fired from the roofs at the police for the purpose of provoking disorders.

Observers were unable to identify the persons who fired, and they counted only six persons among the casualties. Police asserted, however, that one marcher had been killed.

The shooting occurred as communists were marching through "Bloody Reina Street," scene of the disorders last September in which several communists were killed.

## NRA Has Been Detrimental To Some Business Men Says U. S. Trade Body In Report

WASHINGTON, May 1.—(AP)—The board of directors of the Chamber of Commerce of the United States will tell its convention opening today that a majority of business men responding to a questionnaire said NRA had been detrimental to them along some lines.

This disclosure was made last night in a summary of information from organization members in more than 100 cities, which was tabulated as the result of two surveys in January and March.

The summary also reported that in centers with much industrial development there had been a marked reduction in unemployment since Jan. 1, 1933, "running up to 40 and 50 percent in a number of cities and even higher in a few."

"To the question of whether or not there were any special detriments traceable to NRA there was a general response," the summary said.

"A minority of the responses were to the effect that there were no special detriments observed. A large majority reported detriments, however."

"There was a large group of complaints about unequal consideration for employers and employees, with so much favor to the employer."

## LATE PROFITS OF EXCHANGE FIRMS BARED

### Mart Member's Made Nearly \$2,000,000 Apiece During Past 6 Years, Says Pecora

WASHINGTON, May 1.—(AP)—Evidence that New York Stock Exchange member firms have made nearly a billion dollars in the past six years despite the depression was presented to the Senate Committee today.

Ferdinand Pecora, counsel for the Senate Stock Market Committee, placed before its assembled members data showing that exchange firms averaged almost \$2,000,000 a piece in net profits during the two boom years of the four years of the depression.

Gathered from member firms themselves, the statistics showed that they have had a total gross income of more than \$2,000,000,000 during the six year period.

During the high time years of 1928 and 1929 their gross annual revenue averaged far more than a \$1,000,000 a piece.

These, and a mass of other hitherto undisclosed statistics relating to market operations were presented to the Committee as stock exchange control legislation approached a test in both houses of Congress.

The assertion that a "campaign of misrepresentation" against the Stock Exchange Control bill included solicitation of letters and telegrams and intimidation of employees was made in the House yesterday as it began consideration of the measure.

Chairman Rayburn of the Commerce Committee, which had the measure in charge, said he had documentary evidence that this (Continued on Page Four)

## Senate Approves Modified Municipal Bankruptcy Bill

### Only 51 Percent Of City's Debtors Need Agree On Refunding Under New Act

WASHINGTON, May 1.—(AP)—The Senate today passed and returned to the House a modified municipal bankruptcy relief bill authorizing over 2,000 debt-ridden cities and taxing units to petition the courts for approval of refinancing plans. The vote was 45 to 28.

Stricter than the bill passed by the House in special session, the measure approved was a substitute offered by Senator McCarran, Democrat of Nevada, embodying changes having the endorsement of the Administration.

It would permit cities to petition courts for scaling down of their debts if holders of 51 percent of their obligations agree on the plan.

Before the plan could become operative two thirds of the amounts in each class of obligation and three fourths of the aggregate claims would have to consent to it.

The House bill was introduced by Representative Mark Wilcox, Fourth Florida District.

TUESDAY, MAY 1, 1934

WHY WILL YE DIE?

As I live, with the Lord God, I have no pleasure in the death of the wicked. Turn ye, turn ye from your evil ways: for why will ye die, O house of Israel?

Well, the clergy part has at last been signed, now that there isn't anything left to pact.

Orlando Club Robbed of \$6000 by Bandit Trio—headline. Now how in the world did that Dillinger gang get all the way down here from New Hampshire?

Japan is beginning to modify her recent "Monroe Doctrine" policy in the Far East. It seems that some of the nations were beginning to take her seriously.

See where Mrs. Lula Usher (one time wife of "Dick") is going to run against Mark Wilcox for Congress. And will she show him a thing or three about Tammany?

We haven't been impressed so much with the ability of "Popery, the Sinner" to take it. Wait until he has to nurse a two year old boy from three o'clock one Sunday afternoon until seven that evening!

According to the Literary Digest, the curve is now on the approximately level that it was about the middle of last June. That is some improvement since March of '33. It is some decline since last August.

Prosperity is picking up! Bank deposits have increased four billion dollars. That's just exactly the amount which the government has borrowed and paid out in "new money" on crop loans, home loans, railroad loans, public works loans, and on CCC, CWA, FECA and so forth. Now if this be inflation, make the most of it!

Col. Frank B. Shuttis, according to Arthur Brisbane, will give a building lot somewhere in the state to anyone who can show him how the discovery of mastodon bones can be of help to Florida real estate. Frank mastodon pretty well to be able to give chunks of land away like that—Miami Post. We venture the opinion he'd give it to anyone who'd pay the taxes on it.

The head of a textile factory up in Rhode Island was tried in federal court the other day and fined \$1,500. His crime was that he operated his factory during a certain month 282 hours instead of 240 hours as prescribed by the NRA code. It's a good thing for John Dillinger they haven't worked out a code for bank holidays yet. Uncle Sam would just as likely as not slap him right into jail for working over time.

Almost every bill you read about these days in Congress has something to do with "control." There's the "Cotton Control Bill" and the "Securities Control Bill" and the "Exchange Control Bill" and the "Labor Control Bill" and the "Birth Control Bill" and so far we haven't seen anything about the "Radio Control Bill." Now there's something which would be really worth while. It would cover any and all laws which would be enacted to control the stock market.

Very kind of Tampa, has only one thing to be proud of—its beautiful climate. He says that the only thing a tourist will be able to do in Tampa is to get a suntan. He says that the only thing a tourist will be able to do in Tampa is to get a suntan.

Q.C. Workers Jailed

ST. LOUIS, Mo., May 1.—(AP)—Postmaster General James A. Farley, here today, dedicated a new \$1,500,000 federal building, projected an annual savings of nearly \$10,000,000 in future government official contracts.

The Taxpayer

Washington Merry-Go-Round one of the interesting gossip columns now appearing in many newspapers throughout the country, contained a statement yesterday which seemed to us to be of particular significance. Most of the reports and figures which emanate from Washington indicate that business is picking up, hundreds of thousands of men are going back to work, factory wheels are turning again, and dividends are being resumed.

And yet Merry-Go-Round reports that there have been more people on the federal relief rolls during the month of April than ever before in the history of this country. There are more unemployed receiving aid from the federal government than during the banking moratorium last year. There are, in fact, 4,700,000 families now being supported by the federal government as relief cases. This means 19,000,000 persons and does not include the relief cases of cities, counties and states.

From these two conflicting reports—namely, that business is picking up and destitution is increasing—there is only one logical deduction: the recovery program, the slowing up of wheat and cotton, and curtailment of production, the raising of prices, the reduction of consumption, is creating a permanent class of unemployed. These unemployed are now being taken care of by the government, and must of course continue to be provided for as long as they are unable to provide for themselves.

It thus devolves upon those farmers who are getting the benefits of crop reduction, those workmen who are being paid higher wages for working shorter hours, those business men who are relieved of cutthroat competition and are getting higher prices, to provide for those unfortunate people who must constitute this class of permanently unemployed. Those who have jobs are being taxed, and will continue to be taxed, in order to take care of those who do not have jobs.

The evils of this system lie in the magnitude of the undertaking. Think of 19,000,000 people, nearly one sixth of our total population, being dependent upon government support for their existence. This does not include the vast army of public officials directly employed by the various branches of city, county, state and national government. We believe it is safe to say that fully one-third of our total population is dependent upon taxation for a livelihood.

This obviously is a minority group which can wield a powerful political influence. Relief cases now are restricted to the bare necessities of life; yet the cost is enormous. The unemployed group have among them sufficient votes so that they can control almost any election they desire. A candidate running for office on a pledge to pay higher relief wages to the unemployed would be almost certain to be elected.

We have no idea what the Republican party contemplates for its future platform, but suppose it, or some other party, should draft a program which included larger benefits for the 19,000,000 relief cases, a bonus for the 5,000,000 veterans, a 25 percent increase in pay for the vast army of public officials, and minimum wages for the workman of 50 cents an hour instead of 40 cents an hour, it would be practically assured of victory at the polls.

The only way the Democratic party could compete would be to raise the ante. It would have to promise even larger benefits for the unemployed, a double bonus for veterans, a 50 percent increase in office-holders pay, and a minimum wage of 60 cents an hour. Then it would stand some chance of election. . . . if no one pushed the bid any higher.

And down underneath it all is the taxpayer, the "Forgotten Man" of this Administration. His brow is wet with honest sweat and his back is all but broken. How long can he hold out? How long before one last straw will cause his collapse, and he will crumble beneath the load, just a little greasy spot on a long dusty road? On his tombstone should be engraved these words: "He was a good horse while he lasted, but we rode him to death."

The Panama Canal

The recent maneuver in Central America which saw 110 ships of the United States Navy safely transferred from the Pacific to the Atlantic through the Panama Canal in less than forty-eight hours serves again to emphasize the importance of this Canal to the United States in the event of war. When the U. S. S. Oregon made its record trip from San Francisco to Florida around Cape Horn, a distance of 14,700 miles, 68 days were required.

Work on the Canal was begun in the administration of the first President Roosevelt in 1904 and was completed in 1914, though the official opening was delayed until 1920 on account of the frequency of slides which made travel in the Canal both dangerous and difficult. This obstacle, was finally overcome and the Canal has served a very useful commercial purpose ever since.

The Canal itself is 44.04 nautical miles, or 50.72 statute miles in length. It contains three pairs of locks at Gatun, one pair at Pedro Miguel and two pairs at Miraflores. The lock chambers, with a length of 1,000 feet are capable of handling any vessel in existence. The distance cut off by the Canal in going from one coast to the other is nearly eight thousand miles.

It is interesting to note that a ship can leave London, England, and travel to New York, thence South, through the Canal and across the Pacific to the Philippines, without making any greater distance than from New York to San Francisco around the Cape.

Mrs. Croker Is Out For Wilcox's Seat

WEST PALM BEACH, May 1.—(AP)—Mrs. Lula Usher, wife of the late Tammany Hall candidate, Richard Croker, yesterday announced her candidacy for the Fourth Florida Congressional District seat.

U. S. BUILDING DEDICATED

ST. LOUIS, Mo., May 1.—(AP)—Postmaster General James A. Farley, here today, dedicated a new \$1,500,000 federal building, projected an annual savings of nearly \$10,000,000 in future government official contracts.

COIN 117 YEARS OLD

DANBURY, Conn., May 1.—(AP)—A coin, dated 1717, was found in a hole in the wall of a building in Danbury, Conn., today.

NRA Detrimental To Some Business Men Survey Shows

(By Edna May Pennington) latter as to cause disturbances, the effect of which upon recovery locally was feared.

There was almost an equally large number of complaints based on an increase in costs without ability to get a corresponding increase in prices.

There were several degrees of apprehension expressed by reason of this condition.

There were several expressions to the effect that there was local detriment because of the uncertainty with respect to future national action relating to labor, as well as other matters under codes.

To the question whether there was sales resistance because of increased prices, the summary stated that "many cities reported no sales resistance on account of increased prices." Rather more reported varying degrees of sales resistance.

As to unemployment, it said that although large reductions had been made in some cases, the more usual percentage was from 10 to 15 percent while about 20 percent of the responses reported "little or no re-employment."

On the general matter of benefits over trade and industry, about 40 percent of the replies were that "there have been very material benefits."

Scientific Birth Of Twins Brings Tests To Light

Continued From Page One) least 2000 years old," Dr. Goldston said. "In practice it has been used for at least 150 years."

Dr. Seymour, a woman obstetrician, said: "Usually parents do not want publicity about this kind of thing. I suppose they were so happy about getting twins that they just couldn't contain themselves."

A process of artificial insemination has resulted in eight births and five other deliveries are expected at an early date, Dr. Seymour and her associate disclosed.

Dr. Seymour stated none of the women could have borne children except through the intervention of science and disclosed also that two unmarried women, given babies with the assistance of anonymous fathers, were included in the series of experiments.

The two mothers are both prominent business women," Dr. Seymour said. "They wanted babies but were unmarried. They felt they had a right to children. One now has a baby nine months old; the other will give birth soon."

Dr. Seymour placed particular emphasis on differences between two types of laboratory impregnations. In the first, as in the case of the lauricollas, the baby is truly of their own flesh and blood.

In the other, an anonymous male, known only to the physician, becomes the father of the eugenic baby.

Fisher Body Workers Vote To End Strike

CLEVELAND, Ohio, May 1.—(AP)—The one-week strike at the Fisher Body plant here, which employs 8400, ended yesterday.

By a vote of 1387 to 190 the strikers decided to go back to their jobs pending the outcome of negotiations in Detroit yesterday between union officials and Fisher Body executives.

The Cleveland strike has been regarded by conciliators as the key to difficulties in other Fisher Body plants throughout the country. It is believed the union's vote here yesterday will be used as a basis for settlements in a St. Louis and Tarrytown, N. Y., where similar strikes are in progress.

Winter Haven Handed Lower Light Rates

WINTER HAVEN, May 1.—Effective today, the Tampa Electric Company has announced reduced electric light and water rates for Winter Haven, which will permit the city government to operate 100 of its white way lights in the business section at reduced costs and also gives property owners substantial reductions in water charges.

Luke Lea, Son Fall In Extradition Fight

WASHINGTON, May 1.—(AP)—Col. Luke Lea, former United States senator from Tennessee, and his son, Luke Lea, Jr., yesterday lost in the supreme court their fight to prevent their extradition to North Carolina to serve prison sentences. They are now at liberty in Tennessee under bond.

The high court declined in proceedings brought to prevent extradition to pass on the validity of their trial and conviction on charges arising out of the failure of the Central Bank & Trust Company, a \$17,000,000 concern in Asheville, N. C.

Priest Shot Dead As He Steps Into Hall

JERSEY CITY, N. J., May 1.—(AP)—The Rev. Julius Moscardi, pastor of Our Lay of Mt. Carmel Roman Catholic Church was shot and killed yesterday in the hall of the church rectory when he stepped between his sister-in-law and the gun of a Newark carpenter, whom police charge with the killing.

The carpenter, Dominica Marra, told detectives after the slaying, they said, that he had no grievance against the pastor and was sorry he killed him. He added, however, that he had come to the rectory to kill Mrs. Christina Moscardi, the pastor's sister-in-law and her daughter, Louise, because of an unpaid debt.

Boy Found Hanged

UNIONTOWN, Pa., May 1.—(AP)—Shortly after his mother scolded 12-year-old Sam Coffman Sunday for not going to Sunday school, she found him dead in the basement of their home, hanged by a leather belt suspended from a rafter. Coffman's body was believed the boy placed the noose about his neck to frighten his parents, and that an expense tag on which he was standing gazed from beneath him.

# SILVER INFLATION CALLED MENACE BY ECONOMISTS

## National Money Policy Group Sees Congress Views As Ruinous

NEW YORK, May 1.—All silver measures before Congress are opposed as courting calamity by the Economists' National Committee on Monetary Policy, in a resolution signed by seventeen members of the organization's executive committee, representing fifteen colleges and universities, and made public here recently.

"Congress under this Administration," the resolution reads, "has already placed on our statute books a series of unsound and potentially dangerous monetary laws, and to add to their potential dangers, or to convert these potential dangers into actual mandatory law, is to invite monetary, economic, social and perhaps political disasters."

Expressing opposition to all pending proposals, whether pertaining to bi-metalism or symmetricalism, the purchase of silver for increasing the nation's silver reserves or the circulation of silver in silver certificates, the committee sets forth the following convictions:

"No additional silver should be purchased at any price. The purchase of silver bullion at artificial prices will not promote sound money, but, on the contrary, will add to the liabilities of the government and reduce confidence in the nation's currency.

"The restoration of bi-metalism at the market ratio would cause national injury and retard recovery. The restoration of bi-metalism at a ratio of 16 to 1 would be a national calamity.

"A rise in the price of silver benefits materially neither domestic industry nor the foreign trade of the United States."

The committee denies that silver legislation would aid China as silver supporters contend, and calls attention to the conclusions of Professor Edwin W. Kammerer, of Princeton University, honorary chairman of the Economists' National Committee on Monetary Policy, who declared renonetization of silver would bring deflation to China.

Charging that the various silver measures proposed flaunt the lessons of monetary history, the resolution continues: "There are now before Congress various silver bills. One is for the sale of \$400,000,000 worth of American products for foreign silver at a valuation of 25 percent above the actual value of the metal, the bullion to be coined into dollars. The second is for the purchase of one and a half billion ounces of silver. The third is for the restoration of bi-metalism at a ratio of 16 to 1.

"The first of these measures calls for a subsidy to silver producers and additions to the heavy Treasury liability for debased coinage. The second calls for the purchase of an amount of silver sufficient to destroy what little there is left of our American gold standard. The bi-metallic proposal, if adopted, would be devastating in its financial effects."

Signers of the resolution are: Dr. Arthur B. Adams, dean of Business Administration, University of Oklahoma.

Dr. James V. Angell, professor of economics, Columbia University.

Dr. James W. Bell, professor of money and banking, Northwestern University.

Dr. Nell Carothers, director, College of Business Administration, Lehigh University.

Dr. George W. Dowrie, professor of finance, Stanford University.

Dr. Franklin Ebersole, professor of finance, Harvard University.

Dr. John T. Holdsworth, dean, School of Business Administration, University of Miami.

Dr. Edwin W. Kammerer, professor of international finance, Princeton University.

Dr. David Kinley, president and professor of economics, emer-

**Thousands of Women Benefited By Cardui**  
The benefits many women obtain from Cardui give them great confidence in it. I have been obliged to take Mrs. J. L. Harvey, of Boston, Ga. "I have the birth of my children, I was with her and she had a lot of trouble with my back. I took Cardui and she found it so helpful. I have been very happy to hear that she is now well and that she has had a very easy delivery."

### LAKE MARY

Mr. and Mrs. James Edmundson returned Monday from a two-weeks' vacation with Mr. Edmundson's parents in Bellewood, Ala. Friends and acquaintances of Mr. Varney were shocked to hear of his sudden death last week. Mr. Varney had just recently left his winter home here for his summer home in Massachusetts. The Ladies' Aid Society of the

Community Church met last Tuesday afternoon at the home of Mrs. J. D. Cochran. Eighteen members and six visitors were present. The meeting was presided over by the president, Mrs. J. M. Thompson, who gave and outlined of the work planned for the coming year. Devotionals were led by Mrs. Varn. The Scripture was read from the 16th chapter of John. After the business meeting a social was enjoyed. Delicious refreshments were served by the hostess, assisted by Mrs. Horace Cochran and Mrs. Roberts.

The next meeting will be held May 22, with Mrs. Frank Evans. Mrs. J. N. Houghton presented members of her Lake Mary, Paola and Longwood piano and vocal pupils, also the singing classes of Paola school in a recital last Friday night at the Wilson school in Paola. Those attending from Lake Mary were: Mrs. P. D. Anderson, Mr. and Mrs. R. E. True, Mrs. Wm True, Mr. and Mrs. S. E. Wester

and family, and Mrs. Robinson. Those taking part from Lake Mary were: Ruth and Donald Anderson, Frances and Jimmy Thompson, Natalie True, Charlotte True and Birger Wester. Several members were unable to be present on account of illness. Lake Mary friends of Mr. and Mrs. Paige, of Winter Park, will be interested to know that their little son, Charles, who left last Friday for Hollywood, Cal., arrived safely, has already had a "try-out" in the movie studios and

was successful. A detailed report of the convention at Daytona was given by Mrs. Dann. The annual exhibit of handwork of the school children another year beginning June 18, was a feature of the evening.

apparently suffered a cramp and sank before they could reach him. He came here with his parents six years ago from Atlanta, Ga.

## FRENCH POLICE UNCOVER HUGE RING OF SPIES

### Agent Of Germany Is Arrested As Result Of Probe Into Case Of Officer In Army

PARIS, May 2.—(A.P.)—Police announced today that a huge German spy organization had been uncovered with the arrest of an agent in Paris, and that warrants had been issued for the other members of the group.

Secret service agents were said to be searching for spies, but even the name of the agent arrested was not made public.

## "Freckles" Amazes Audience But Cuts Out Monkey Shines

"Freckles," that amazingly mystifying link which evolutionists say connects all of us with our more remote Simian ancestors, astounded grown-ups and delighted youngsters at the Milano theater yesterday with his skillful imitations of all the characteristics and mannerisms of the species homo.

Dressed in the guise of a policeman, he walked about, got in touch with long distances over the telephone, bowed her out, giving him the wrong number, and then made a date with her after the show. As a matter of fact "Freckles" who has passed examinations given by some of the most learned professors, and is said to have an intelligence quotient of an 18-year-old boy, did everything but monkey with his trainer, E. C. Rowe, who gives the orders.

In an interview with Mr. "Freckles" this morning, the Herald reporter learned that he is 8 years old, weighs 65 pounds and is 37 1/2 inches tall. He was purchased by his present owner, Mr. Rowe, from Frank (Bring 'Em Back Alive) Buck, fresh from the Congo, some five years ago. At that time he was only 8 months old, 18 inches tall, and weighed only 12 pounds.

## Retirement Of Bishop Cannon Now Is Urged

JACKSON, Miss., May 2.—(A.P.)—The Committee on Episcopacy of the general conference of the Methodist Episcopal Church, South, will recommend the superannuation of Bishop James Cannon, Jr., Richmond, Va. It was authoritatively learned here yesterday.

The committee voted 43 to 20 for the superannuation motion.

## Railroad Receiver Predicts Chaos In Every Industry If Nation Takes Over Railroads

SAVANNAH, Ga., May 2.—(A.P.)—Stating that government operation of railroads is being discussed, H. D. Pollard, receiver for the Central of Georgia railway, predicted in a statement here that if this should happen other industries would follow and "a condition of socialism will prevail."

He said "government ownership, or government operation of railroads is being widely discussed at present as the result of expressions from important sources at Washington, and that the possibility, if not the probability, deserves the attention of the public."

"If the railroads pass into the hands of the government, other private enterprises will inevitably meet the same fate," Mr. Pollard said.

"Until recent months the railroads were the only large industry in the United States subjected to rigid regulation of management, operation, labor relations and financing. Now comprehensive and detailed governmental regulation has been extended to cover all fields of industry, commerce and finance. The railways were only the first to be regulated. They may be the first to be operated by the government. If so, there is little doubt others will follow and a condition of Socialism will prevail."

"Traffic on the railroads has improved. Their business generally is well ahead of last year and slightly above the 1932 level. If railway net earnings are allowed to increase, the roads will be able to catch up with deferred maintenance, to buy equipment, and to make capital expenditures. All of these things will increase employment in their own ranks and will afford employment for those in allied industries. Restored credit to the railroads will benefit the capital or 'durable' good industries which have lagged in recovery."

"But if additional operating expenses are imposed upon the railroads, their net earnings will be reduced or entirely wiped out. Lacking net earnings they will not be in position to increase employment or purchases. Already the railroads are paying higher prices for fuel, material and supplies. They are not in position to meet increases in their wages and tax accounts."

## Prolific Easter Lily Is At Trade Body

The public is invited to visit the Seminole County Chamber of Commerce office to view a potted Easter lily which has 59 individual blooms.

This plant was raised by Mrs. S. C. Dickerson of South Sanford Avenue. She said she gave it no unusual care, and that since it first began blooming, it has borne 71 individual blooms.

## Atlanta Lawyer Dies

ATLANTA, May 2.—(A.P.)—Daniel Madison Byrd, 50, general counsel for the Retail Credit Company and a member of the staff of Governor Eugene Talmadge, died Monday night at his residence of a heart attack.

## HOUSE REFUSES EXTRA INCOME TAX PROPOSAL

### New Revenue Bill Sent One Step Nearer To White House Action

WASHINGTON, May 2.—(A.P.)—The House yesterday voted down the 10 percent extra income tax proposed by the Senate and accepted the other changes a conference committee had worked out. By its two rapid-fire votes it sent the \$417,000,000 new revenue bill to within one step of the White House. Only Senate approval remains.

## Heflin Running 3rd In Alabama In His Comeback Attempt

BIRMINGHAM, May 2.—(A.P.)—Former Senator Thomas Heflin had only a mathematical probability today of another shot at his political comeback in the run-off Democratic primary in the Fifth Congressional District as mounting returns pushed Major Joe Starnes of Guntersville into second place behind Congressman Miles Allgood.

Heflin trailed Starnes by 1070 votes when little more than half the votes had been tabulated, and Allgood was that far ahead of Starnes.

A nip and tuck race was being run last night between former Governor Bibb Graves, of Montgomery and Frank Dixon, Birmingham attorney making his first major campaign, in yesterday's Democratic primary, with Judge Leon McCord holding close enough to push both leaders.

The count from 204 out of 2140 ballots boxes in the state gave Graves 7589, Dixon 5102 and McCord 4604.

## New Code Eagles Are Ready For Merchants

Announcement was made this morning through the local Retail Code Authority that the new code eagle is now ready for distribution and that the eagle may be secured applying to the State Director of Retail Code Authority at Jacksonville.

It also was pointed out that all firms operating under the terms of the General Retail Code, are required to pay regular assessments for the privilege.

Continued non-payment after 30 days of the receipt of notice of the amount of assessment, is a violation of the retail code, it was stated.

It also was stated that each business man has the right to file a protest, within 15 days after receiving assessment notice in which he attempts to show that the basis of assessment is unjust.

## USUAL RIOTS MARK MAY DAY CELEBRATIONS

### Bloodshed Follows On Heels Of Disorders Despite Careful Police Precautions

(By The Associated Press.)—World-wide celebrations of May day brought disorders, bloodshed, riots, and milder demonstrations despite careful police precautions. Shootings occurred in the United States, Cuba, and Austria that claimed casualties. A short-lived riot broke out after a communist mass meeting near Paris, when 1500 reds sought to march on the capital.

At Lake Charles, La., one man was seriously hurt when 15 shots were fired into a meeting discussing a strike of longshoremen. Communists were held responsible for the burning of the famous Singer hall in Augsburg, Germany, scene of Adolf Hitler's early attempts to raise a following.

In Havana bullets fired from house-tops into a parade of 5000 communists killed one man and wounded 10 others, and created a bedlam while authorities used tear-gas guns and the marchers scurried for shelter.

Communists accused ABC of continuing (On Page Four).

## Roosevelt Said Not Inclined To Slash New Liquor Taxes

WASHINGTON, May 2.—(A.P.)—President Roosevelt is not inclined to reduce the new liquor tax at this session of Congress, preferring other methods of tackling bootleggers.

The President is hopeful that the removal of quota restrictions on liquor imports will be of benefit in curtailing bootleg activities. There was no immediate contemplation of lowering the tariff rate on liquor, but should the reciprocal tariff bill be passed by Congress there is every expectation that the President will use this power to reduce the liquor tariff.

Meantime, the President is working on his announced policy for a bimetallic money standard, but the White House maintained the strictest silence today on the next moves in this direction.

The President is prepared soon to ask Congress for power to initiate a home building and remodeling campaign. Government aid would be involved.

The Treasury was shown today that over \$5,000,000,000 so far, a little more than half the estimated requirements for the fiscal year ending July 1, had been spent with only two months to go before the end of the fiscal year.

Lester Wells of West Florida, candidate for Railroad Commissioner in the June Primaries, was a visitor in Sanford Tuesday and Wednesday, meeting various political leaders, and discussing his candidacy with many local persons.

## U.S. FOREIGN TRADE FUTURE HELD IN DOUBT

### Immediate Change In Bargaining Agree- ments Is Advocated By Secretary Roper

WASHINGTON, May 2.—(A.P.)—America's foreign trade future was described last night by Secretary Roper as virtually "hanging in the balance."

Addressing the American Section of the International Chamber of Commerce, a part of the Chamber of Commerce of the United States convention, Roper said the "natural channel of international trade is clogged and closed through man-made barriers and restrictions."

"This," he said, "results from improper mental attitudes, uncontrolled greed, and the revival of prejudices that have come down through the ages."

Discussing the necessity of working out trade agreements quickly and with a view to creating exchanges of goods, the Secretary of Commerce said:

"Realism must be the basis of our foreign trade philosophy. We must recognize that foreigners must not alone be able to buy our products, but they must also be able to pay for them."

"We have seen the mistake and futility of continuous financing with American capital the purchase of American goods. We can afford to prime the business pump, but not to continually pension out trade-be consumers."

"Our foreign trade has reached that status where it must be considered not primarily from the angle of group interest but from the broad comprehensive viewpoint of national and international welfare."

## Rotarians Hear Ruble Talk On Ills Of Dogs

Veterinarian Jerry Ruble of Orlando, in a vocational talk which he made before Sanford Rotarians at the Valdez Hotel yesterday noon, declaimed what is considered by many as an accepted fact that a dog with rabies has fits.

In his discussion of dogs, their diseases, and methods of treatment, Dr. Ruble used pictures and the pickled heart of a dog afflicted with worms. He used the latter object in discussing heart worms which, he said, are suffered by fully 60 percent of the dogs in the South.

## Morgenthau Pictures Nation As Billion Dollar Loser If Bank Pay-Off Bill Is Passed

### LOCAL POLITICAL CAMPAIGN OPENS AT LAKE MARY

#### Small Audience Hears Candidates For Leg- islature Give Views

The 1934 political campaign in Seminole County was opened before a small audience which gathered in the Lake Mary Community Building last night to hear six speakers, candidates for the state legislature, sound their policies and outline the type of campaign each expects to make during the next few weeks.

Acting Postmaster R. J. Holly, Sr., as chairman of the Seminole County Democratic Executive Committee, presided over the meeting which was addressed by Gordon Barnett of Fern Park, E. E. Brady, J. F. Jackson, L. P. Harlow, O. P. Henderson and G. W. Spencer.

Other speakers, who made (Continued on Page Two)

## Wirt Probers Hold To Divergent Views Of Entire Affair

WASHINGTON, May 2.—(A.P.)—Widely divergent Democratic and Republican views were submitted to the House today to wind up its investigation of Dr. William Wirt's allegations that Administration "Brain Trusters" were seeking to overthrow the existing social order.

The majority report, signed by three Democrats on a special House committee, concluded that there is no foundation for the Indiana schoolmaster's assertions.

The two Republican committee members, in separate opinions, held that a thorough investigation had not been made.

It is not necessary for the House to act on any of the reports.

## Late Hillsborough Clerk Of Court Is Held Liable For \$88,157 Of County Fund

TALLAHASSEE, May 2.—(A.P.)—State Auditor Bryan Willis reported to Governor Sholtz yesterday that the late W. A. Dickinson, former clerk of the circuit court in Hillsborough county, is liable for and chargeable with \$88,157.

"I haven't had a chance to look over the audit," Governor Sholtz said.

WASHINGTON, May 2.—(A.P.)—Secretary Morgenthau estimated yesterday the federal government would lose a billion dollars if it were called upon to carry out the Mellon bank deposit pay-off bill. The Secretary estimated the initial cost of putting the measure under way would be \$1,807,299,942 and the eventual loss \$1,032,211,746.

Morgenthau made it clear in a communication to Representative Brown (D. Mich.) that his figures were only rough estimates since it would be necessary to have an analysis of the condition of each bank up to \$2,500 of its claim. The secretary's estimate of the initial cost would carry out only that provision in the Mellon measure which provides for a payment to each depositor in a closed bank up to \$2,500 of his claim. Past payments would be included in that figure.

Of the total cost, Secretary Morgenthau wrote Brown he could see only \$224,008,196 in recoveries. He said the estimates did not include any interest costs pending final liquidation of the closed institutions.

Morgenthau did not offer a guess on the expenditure necessary to carry out the other provisions of the bill. The most important of these is an authorization for the Reconstruction Finance Corporation to purchase up to 85 percent of the remaining assets from the banks and advance loans on them.

A broad hint that if any relief legislation were enacted at the present session the blanket initial pay-off should be reduced below \$1,500 was contained in the close of Morgenthau's letter.

He said "You will note that an estimate of the cost on the basis of a \$1,000 payoff can be obtained from this detail. It was not practical, however, to break down the figures to show the cost of a \$1,500 payoff."

The Mellon forces continued efforts yesterday to obtain the necessary 145 signatures to a petition to force a record vote on the bill May 14, but still needed more than 5 names.

James Moughton, superintendent of the Zoo, stated this morning that few people know that the famous bear is a regular feature in the Sanford Zoo. "Silver," always has attracted attention. Mr. Moughton stated, but his past history has been known to only a few persons.

The amount realized would be \$88,157 less than the amount required to discharge the unpaid liabilities of the office at the close of his administration.

Gross liabilities shown by audit totaled \$181,476, but payments of \$11,493 were made to state comptroller or to Dickinson's successor. On June 24, 1933, auditors reported, Dickinson tendered the county commission an additional check for \$1720, together with debit balances and frozen balances "as full settlement of all official liabilities." Upon advice of H. C. Tillman, attorney for board, commission declined acceptance of check.

## KIDNAPERS OF ROBLES GIRL STILL SILENT

### \$15,000 Ransom Money Remains Uncalled For With Parents Frantic With Fear

TUSCON, Ariz., May 2.—(A.P.)—\$15,000 ransom to free six-year-old June Robles awaited the call of her kidnapers again today.

There was no public indication that the kidnapers or their representatives had come forward to meet the Robles family's offer, first made Monday night when they announced that official investigations of the case would be withdrawn pending negotiations.

Meanwhile, the family, to make sure they will be dealing with the real kidnapers and not fakery who seek a reward without the return of the child, have proffered a series of questions to ask the kidnapers and send them the answers, known only to the child and immediate members of the family.

June's frantic mother was under the care of relatives today as she and her husband steeled themselves for the long wait until the kidnapers make contact. In a public appeal to the abductors to make arrangements for negotiations, the father proffered the questions in the hope that the kidnapers would show them to 8-year old June and relay the answers as proof that she still lived. They were:

"What do you do with your bunnies in the morning?"  
"What do you call corny?"  
"What is the name of Helina's maid?"  
"Where is your little box with the key in it?"

The father also requested that the abductors send him a piece of little June's dress. In view of the Robles' appeal assuring the abductors all federal, state, city and county officers had been ordered to step aside, Robles expressed the hope that the kidnapers would become convinced of the sincerity of the capitulation. It was indicated the parents finally had become inclined to doubt that the girl was being held in Mexico.

## Aged Man Kills Youth Who Dared Him To Fire

BARTOW, May 2.—(A.P.)—Henry Huss, 78, caretaker for Becker properties in Lakeland Highlands, was held here yesterday on a charge of murder following the shooting at Huss' home Monday night of William Young, 30, of Highlands City.

Officers who were summoned by Huss, quoted him as saying he shot when Young cursed him and dared him to shoot. Huss lived alone. They said there was evidence of drinking and an argument preceding the killing.
