Tuck's plan to keep President Truman's name, if he is renominated, off the presiden-tial ballot in Virginia. The bill was amended in two major particulars before being approved by the house privileges and elections committee.

One change would permit minor parties not on the Virginla ballot four years ago to get on the ballot if they qualify in ten other states, thus making it possible for the party of Henry A. Wallace to appear. A second amendment provides that only the state convention of a party may instruct its electors how to cast the vote of the state for President. Originally, the bill would have permitted this power to be delegated by the convention to the state committee.

Doctor Shortage Alarm Is Needless Say Medical Papers

CHICAGO Feb. 27 (P)—Alarm about any shortage of physicians in the United States by 1960 is "unwarranted and unjustified," the journal of the American Medical Association said today. The journal called on the U. S.

Public Health Service, which forecast a shortage, to its figures and estimates." A recommendation by Thomas Parran, outgoing surge-

un-general of the service, for a put of physicians would result in a "tremendous lowering of the standards of medical education," the journal added. "Conceivably the statistics and

estimates regarding the number of physicians needed are being abused for political purposes," the journal editorial stated. It

#### Sanlando Springs Is Tropic Mecca For Picnickers

Hundreds of visitors pass through Longwood every day to see the tropical beauty of San-lando Springs which pours out 600,000 gallons of water each hour into a stream which winds its way through a fairyland of troolcal verdure.
Thousands of azalea plants, now

in bloom, provide a beautiful blaze of color in the large shady park. The charm of natural suroundings has been enhanced by the studied plantings to add color and fragrance. A white sand beach has been constructed in front of the outdoor pool.

During the past year the park and springs were taken over by E. L. Ferran of Eustis, R. Q. Mills is the present manager. One of the new improvements in the club house and restaurant, A "joy coaster" is one of the new recre ation devices.

Surrounding the springs are acres of well kept inwn, shaded by massive oaks under which have been built tables, shelters and open air grills for picnickers. The lawn is maintained right down to the concrete encasement which forms a semi-circle about the springs which boll up from visible rocks 30 feet below, On one side of this semi-circle is a diving board.

The water is shallow along the beach, making it an ideal place, for children to romp in and a safe place in which to swim, For those who prefer indoor bathing there is a large pool on a hill nearby which is filled daily from the waters of the springs. It is surrounded by locker rooms, and is equipped with regulation low

and high diving boards. Flower bordered paths follow the winding atreams and over rustic bridges made of logs, and criss cross 40 acres of nature's unspoiled vistas. ## CORRECTION!

All humans, children and adults, revel in a happier, sunnier way of life that comes when the handicap of cross eyes is removed. Things that seemed unobtainable when they walked in the dark shadow of their affection, become theirs for the taking. Aid leved ones, or friends, becard a hather future. Seed their names — we will sund them the story of how the Reconstruction Method corrects cross eyes usually in one day. Over 7,000 persons, of all ages, all conditions, can testify to the starting and conditions, can testify to the starting and conditions, can testify to this method.

President Gravely Declines To Comment On Czech, Finnish Or Palestine Issues

WASHINGTON, Mar. 1 (49)-President Truman today asked Congress to extend the reciprocal trade agreements act for three years, until June 12, 1951, Mr. Truman said in a message that the trade agreements act has been in effect for 14 years and has become "an essential element of United States foreign policy." The act gives the President powers to work out tariff-cutting agreements with other nations.
