WOMAN'S CLUB CALENDAR SHOWS MUCH ACTIVITY AND A BUSY SEASON

Social Department Not the Only Part That Is Working

FOR CHRISTMAS WEEK

WELFARE DEPARTMENT HAS IMPORTANT WORK MAPPED OUT NEXT YEAR

Club Calendar.
Owing to the busy rush preceding Christmas and the gayeties attendant upon the holiday season, the only department of the Woman's Club which will have another program in December is the Social Department, whose annual ball will be given December 29 with Mrs. E. F. Housholder, hostess. Members who are inviting guests for this occasion, must present their names to the committees assigned for this purpose before December 20, as no invitations will be issued after that date. The names of the committee were published in a recent issue of the Herald.

Social Department
Tuesday afternoon a very delightful game of bridge was enjoyed at the Woman's Club with Mrs. David Caldwell, the gracious hostess. Masses of gorgeous poinsettias attractively adorned the assembly and reception halls.

Among the guests were Mrs. Hazzard of Atlanta, Ga., who is visiting her mother, Mrs. T. L. Dumas, and Miss Lenoir, of Charleston, the afternoon guest of Mrs. Raymond Key. The "shower" for the Children's Home Society was a splendid success, contributions in clothing and toys being equivalent to thirty dollars (\$30) and cash donations amounting to \$40.

Welfare Department.
The regular meeting of the Welfare department was held on Wednesday afternoon, Mrs. B. W. Herndon, chairman, presiding.

Routine business was transacted, at which time reports were made by various committees.

The report of the Civic and City Beautiful committees show these committees actively engaged upon plans for the beautifying of the town, planting of palms and hibiscus will be a feature, one hundred of these to be placed upon Park avenue alone. Mr. Westerdick will have charge of the planting.

It was announced from the chair that two-thirds of the white way equipment had arrived and that the next two months will see the completion of this work.

Among the amusement and money-making plans of the department will be a "pageant" to be given in the spring instead of the spring carnival which has been held for several years. It was unanimously voted that this would be a pleasing innovation. Children and young people from other sections of the county will be included in the invitations to take part.

Upon the report made by the cemetery investigating committee, the Welfare department decided to include the cemetery in the civic work of the department through special committees. Mrs. W. M. McKinnon was appointed cemetery finance chairman whose duties will be to call upon the lot owners to secure their cooperation and collect the funds with which to employ a keeper whose time will be given entirely to the care of the cemetery. Mrs. Roy Bower will be chairman of the cemetery improvement committee. The collections will be made quarterly, semi-annually or annually in advance as agreed upon between the lot owners and the cemetery finance chairman.

At the close of the business period, a paper was presented by Mrs. R. A. Terheun on "better films" which promoted a general discussion and resulted in the appointment of Mrs. T. M. Puleston as chairman of a motion picture committee for better films. Mrs. Terheun's strongest contention was "that the solution of the better films problem was a parents' problem, especially the mothers," backed by state and national legislation and the never ceasing efforts of right-thinking, clean-minded men and women, as organizations and individuals.

HEARING ON THE COMPENSATION BILL

(By The Associated Press.)
WASHINGTON, Dec. 17.—Hearings on the house bill proposing an adjusted compensation for former service men was completed by the senate finance committee today and the chairman announced the committee will meet tomorrow to determine what action should be taken on the measure with one exception the witnesses declared it is for cash bonus plan.

NAVAL BALLOON HEARD FROM.

(By The Associated Press.)
NEW YORK, Dec. 16.—No information has been received from the naval balloon leaving Rockaway Point Monday with three officers on an endurance test.

MARY CALDWELL IS TAKEN AWAY BY FOUR MEN

SOUTHERN GIRL ABDUCTED IN DETROIT—SEARCH BEING MADE FOR HER.

(By The Associated Press.)
DETROIT, Dec. 17.—The police are searching deserted summer cottages on the islands in the Detroit river for Miss Mary E. Caldwell, whose glove with a note saying she was being taken away by four men in a boat was found today near the river. The is aged 18 and came here from the South.

JACKSONVILLE DOCTOR IN SERIOUS TROUBLE

JACKSONVILLE, Dec. 17.—Dr. P. C. Perry, prominent physician and surgeon, upon whom a capias charging manslaughter, was served yesterday afternoon, was released today on a \$10,000 bond. The serving of papers on Dr. Perry follows an operation he is said to have performed on a "Mrs. LaRoux" of Titusville, who subsequently died.

GAVE HIMSELF UP.

LYERLY, Ga., Dec. 17.—Chester E. Logan, of Sutherland, Fla., who surrendered himself here yesterday to Constable Bullard, declaring that he was the murderer of Carl Doerler at Tarpon Springs, Fla., and guilty also of robbing the express office and post office at Ozone, a small town near Sutherland, is in jail here awaiting arrival of an officer from Florida to take him back there for trial.

OCOEE RIOT NOW ORDERED PROBED

FEDERAL DISTRICT ATTORNEY FOR FLORIDA ORDERED TO INVESTIGATE

(By The Associated Press.)
WASHINGTON, Dec. 17.—The federal district attorney for Florida was instructed today by the Department of Justice to investigate the election riots between negroes and whites at Ocoee last month to determine if the federal status had been violated.

CHIEF BENDER MAY PITCH FOR TAMPA

TAMPA, Dec. 17.—With the start of the winter league season but three days off, Gus Felix, manager of the Tampa Smokers, is frantically angling for services of real baseball players at salaries within the means of the local pocketbook. Gus is going, hammer and tongs after Chief Bender, the Indian pitcher, and thinks he can get him to don a Tampa uniform for the winter season. The big chief would be a powerful asset to the local hurling corps in addition to the aid he would render in coaching the younger pitchers. What the old fox doesn't know about the middle of the diamond is not written in baseball annals.

Deliberate long before doing what it is impossible to do.

RIO JANEIRO, Dec. 17.—Secretary Colby and his party are expected to arrive here Monday, according to a wireless message today.

AVIATORS WILL FLY AT FIELD

GEORGE WRIGHT WILL DO MANY STUNTS AND ALSO CARRY PASSENGERS NEXT SUNDAY

George Wright, the daring young aviator who is here for a few weeks will pull off his "air circus" next Sunday afternoon at the aviation field. He will do all sorts of stunts and will be assisted by Albert Dorner and his "trained Ford" and the exhibition will be well worth witnessing. Lieut. Wright is one of the best in the profession and has many death defying stunts in his repertoire.

Aside from the stunt flying Lieut. Wright will carry passengers and anyone wishing to be taken aloft will have the opportunity. The flying of this daring aviator is described in the Orlando Morning Sentinel of Wednesday as follows:

There was a large and appreciative audience gathered at the fair grounds yesterday afternoon to witness Lieut. Geo. T. Wright, "king of all dare-devils," who performed his death defying exhibition without mishap. As a preliminary to his "special stunts," two ships took the air ding barrel rolls, tail spins, loops and other death defying exhibits.

The special feature was the acrobatic stunts of Lieut. Wright, who gave a thrilling exhibition of walking on the wings of the aeroplane, hanging by his ankles by the wing skid, standing upright on the top wing while the plane looped the loop and last but not least changing from one plane to the other, which was undoubtedly the most daring and required the most skill of his entire performance. An attempt was made while Lieut. Wright was riding in the rear seat of an automobile on the race track to change from the car into the aeroplane, but for some unknown reason this stunt was abandoned after several tries, presumably owing to the lack of room on the track.

At the conclusion of the exhibition passengers were carried over the city of Orlando for a twenty-five mile ride. The day was ideal for flying and undoubtedly brought a large crowd from Orlando and neighboring country.

COUNTY TRAFFIC COP GOES AFTER FAST ONES DOING GOOD WORK HERE

JESS WILLARD WANTS COME BACK WITH JACK DEMPSEY

(By The Associated Press.)
KANSAS CITY, Dec. 17.—Jess Willard expects to train for three months in preparation for a bout with Jack Dempsey in New York, March 17th. His manager says Willard wants to prove to the public that he was not himself at Toledo.

NEGRO POPULATION INCREASES IN BIRMINGHAM

(By The Associated Press.)
WASHINGTON, Dec. 17.—The negro population of Birmingham today was placed at 72,217, an increase of 17,912. Montgomery was placed at 19,826, an increase of 504; Chattanooga, 18,866, an increase of 924.

REPUBLICANS HOLD CAUCUS REAPPORTIONMENT

WILL CONSIDER MEMBERSHIP IN HOUSE ACCORDING TO LATE CENSUS.

(By The Associated Press.)
WASHINGTON, Dec. 17.—The Republicans will hold a caucus tonight to consider the reapportionment of the membership of the house of representatives according to the population of the last census.

STRAWBERRIES BRING BIG PRICE AT PLANT CITY

PLANT CITY, Dec. 17.—Six refrigerator boxes of strawberries were sold in Plant City Monday, the largest amount shipped any day so far this season. Prices ranged high. Competition ran them up from 75 cents a quart to \$1.25, the latter price holding throughout most of the day.

Fifty-five cars of citrus fruit were shipped from here within three days ending Monday. Prices were low, running from \$1.00 to \$1.25 for oranges and tangerines. Twenty cars of oranges were shipped Saturday.

The Irish potato crop is the largest vegetable crop now. Thirty-eight hamper of potatoes were shipped in the last three days. A sprinkling of English peas is appearing on the local market.

Prices quoted by Plant City buyers: Cabbage, \$3.25; cukes, \$4.50; egg plants, \$2.00; lettuce, \$2.00; okra, \$4.00; Irish potatoes, \$2.00; English peas, \$3.50; pepper, \$2.50; squash, \$2.00; turnips with tops, \$1.25.

There has not been any okra in a week or two. There were five hamper of cucumbers sold Saturday.

LETTUCE SHIPMENTS HAVE HIGH RECORD

SEVENTY-THREE CARS OF LETTUCE SHIPPED FROM HERE LAST NIGHT

The record in lettuce shipments was probably broken last night when 73 cars of lettuce were shipped from this city, all of them being in refrigerator cars. This is said to be the greatest number of cars of lettuce that have ever gone out in one day in this section although more cars of celery and mixed shipments have gone from Sanford in other seasons.

This probably accounts for the low price on lettuce at present as there is entirely too much of it being shipped to certain markets with all that California can ship and is shipping and has been shipping this season.

It is unfortunate that the lettuce market is so low as the stuff at this particular time was never better and some of the finest lettuce that has ever been grown in Florida is being shipped now on a declining market. 62 cars were from Sanford proper, four from Oviedo and seven from the Winter Garden section and all of it was prime stuff.

Seminole Gets Into Line By Curbing Speeders

AUTO COP ON THE JOB

JURISDICTION EXTENDED THROUGHOUT COUNTY—NEW DEPUTY SHERIFF TO HANDLE THE TRAFFIC.

Some days ago an arrangement was made with the City Manager and the Police Department by the County Commissioners whereby Police Officer Depper, Sanford's efficient motor cop, should be sworn in as a deputy sheriff under Sheriff Brady and have his jurisdiction extended throughout the county so that some check may be had on the increasing number of speeders. Mr. Depper has been out on duty for some time and has had signs placed at the entrance of the county calling attention to the speed limit over the county highways and also warning the motorists to look out for the speed cop. Several personal warnings have been made and last Sunday afternoon Officer Depper decided that action ought to be taken as no attention was paid to his warnings so he proceeded to "pull" several prominent citizens and summoned them to appear before his Honor Judge Housholder where trial was had yesterday—all entering a plea of guilty and asking mercy of the court. These being the first of the traffic officer's cases, Prosecutor Maines suggested to the court that a nominal fine be assessed, whereupon Judge Housholder suspended sentence on the condition that costs be paid and discharged the offenders.

In passing the judgment Judge Housholder stated that he was considering the fact that there were the first of the kind of cases to be brought before him, and that the action taken in these cases was by no means to be taken as a precedent as he intended to place fines on all future offenders.

The action of the County Commissioners, Sheriff Brady and the City Officials in co-operating this way so as to allow the traffic officer to work both in the city and in the county should be commended by all law abiding citizens. The numerous accidents had on our county highways during the past sixty days does not speak any too well for the county as it is generally conceded that ninety per cent of all automobile accidents is due either to reckless driving or speeding. The speed of twenty-five miles per hour is usually taken to be the state speed law and any one driving faster than this, especially on turns, corners or where the view of the road is obstructed or passing another vehicle, is liable to be taken up by the traffic cop.

PHOSPHATE EXPLOSION! KILLS FIVE MEN

BREWSTER, Dec. 17.—Five human bodies, some of them horribly mangled, and other practically blown to bits, are being held in Brewster pending hope of absolute identification, as the result of an accidental explosion which occurred at 2:55 o'clock Wednesday afternoon on open ground which was being broken for a new phosphate mine near the plant of the American Cyanamid Company's holdings near this town. Three of the dead are white men, two are negroes. The coroner's jury, empaneled by Judge J. E. White, of Mulberry, shortly after the explosion, brought in a verdict of "Death from an accidental explosion. Cause unknown." Although the men, according to mine officials, were not known to be working with dynamite at the time of the accident, the explosion, it is thought, must have been caused by the accidental dumping of some of the explosive in their territory, or that one of the men was handling some of the explosive without authority.

The dead are:
Whites—Aristine Fabian, age 19; Luis Abreu, 25; Martin Hernandez, 12.
Negroes—Perry Bush, Jeremiah Watson.

MAKE FRIENDS WHEN YOU CAN

Reason Why One Man Has Always Sought to Add to His Acquaintances Every Day.

My hobby is enlarging my acquaintance. For years I have found pleasure and profit in trying to know as many people as I can. I am never so let the sun set without knowing at least one more person than I did when I started out in the morning, writes Fred C. Kelly in Leslie's. Why? My answer is: Why not? Life is made up of human relations. As I look at it the more human contact I achieve the fuller my life should be. By human contact I don't mean just being in crowds, or places where people are. I mean meeting people, getting their points of view. Lots of city folk who have plenty of daily opportunity to meet and know people don't get acquainted with as many as a man I know who lives on a farm and never comes to town. Meeting people is one thing, making friends or getting acquainted with them is another. Inasmuch as human beings are admittedly the most interesting things on earth, why not know as many of them as possible? If there are men who derive pleasure from collecting stamps, rare coins, canes, love letters, dogs, why shouldn't I give a little serious thought to collecting a long list of friends? And if I am a more successful business man in consequence of having many friends all the better for me.

Everybody you know is potentially a help to you. There is no way of telling when the humblest person among your acquaintances may not have momentary importance in something you are trying to do. I once was able to get information that meant a successful contract through the fact that I chanced to be acquainted with the fireman in one of the hotels in San Francisco.

Now there are two ways of getting acquainted with people—by introduction and by getting into casual conversation without introduction. I try to make the most of both these avenues, but I regard the former as the more important of the two.

Mabel and Myrtle, the anti-suffrage leader, said at a luncheon: "Woman's place is the home. When she starts out to imitate man she is absurd."

"Mabel was a new woman. She said to Myrtle one afternoon: 'We'll make a night of it. Come to the Ritz with me and we'll have a fellowship dinner.' 'A fellowship dinner? What's that?' said Myrtle. 'Why,' said Mabel, 'you pay for mine, and I pay for yours.'"

WOULD REMAIN IN BUSINESS

Old Doctor Jones Evidently Was Satisfied That He Could Read His Own Writing.

Old Doctor Jones, who once practiced medicine in a New Jersey town, was known everywhere as a notoriously bad speller. He slipped up on the simplest words, and people wondered how he managed to write prescriptions, especially in medical Latin, so that they could be read and understood. Though the "Doc," as he was called, could not spell, he was, nevertheless, accounted a good physician and his patients swore by him. He sent his prescriptions regularly to a certain druggist in the town because this man was the only druggist who could read them. How the druggist succeeded in doing it was a mystery to every one.

Everything went well for a long time, then one day the druggist was taken ill and died. His funeral was largely attended and Doctor Jones was one of the principal mourners. What will become of "Doc" now? Who will be get to read his prescriptions? were questions on every one's lips. It was pretty generally agreed that the future looked black for the physician, but this man who spelled rheumatism "rumatis" was not to be discouraged. The day after the obituary announcement, printed in long-hand, appeared in the window of the pharmacy: "Dr. Jones has bought this drug store. He will continue the business and fill prescriptions himself."

Suggestion Does Much. When you come down to breakfast in the morning, to be greeted, perhaps, with the suggestion that you look ill and tired, you may, if you are very susceptible, actually feel ill and tired for the rest of the day, unless you have the sense to counter that unwise suggestion by the opposite one that you are looking well and feel refreshed. On the other hand, supposing that you are feeling somewhat out of sorts and think you look faded, a friendly remark that you are looking very well and fit will "buck you up" immensely, and you will, actually, in the course of the day, suggest yourself into a corresponding state of well being.

Marion: Many farmers are butchering their hogs, rather than accept the low prices being offered. It is believed the cured meat will bring more than the live animals. Poultry products are bringing good returns and mean much to the farmer who has them now.

MULE BALKED AT EXECUTION

Obstinate to the Last, Animal Compelled Buffalo Bill to Completely Empty His Revolver.

It was while serving as a scout under General Sheridan in his campaign against the Indians in western Kansas that Buffalo Bill, carrying dispatches, had to ride a government mule owing to the scarcity of horses. The mule broke away, and Cody had to walk 85 miles during the night with the animal just in front of him, but always out of reach.

"Will, when he got really and truly angry," says his widow, "didn't have the sweetest temper in the world. And by the time the sun rose he was just about ten degrees higher than fever-heat in his attitude toward the mule. Suddenly, the mule in Fort Larned heard the sound of a shot about half a mile away. Then another and another. When they reached the place where the shooting had occurred they found Will standing over a dead mule, cursing energetically. 'Boys,' he said, 'there's the toughest, meanest mule I ever saw in my life. He made me walk all night and I decided that he wouldn't ever do that to another fellow. So I executed him, and I'll be d--d if it didn't take six shots to make him stop kicking!'"

Modern Treasure Islands. Situated in the Pacific ocean, nearly midway between America and Asia, is Nauru, a barren bit of rock only twelve miles in circumference. Thirty or forty years ago almost anybody could have had it for the asking. Today it is worth untold millions, owing to the belated discovery that the whole island is neither more nor less than a mass of phosphate rock, soil fertilizer well known to agriculturists. In Conception bay, Newfoundland, is Bell Island, sold by its original owner many years ago for \$100. It changed hands again for \$2,000,000. This enormous rise in value was due to the discovery that the island is composed almost entirely of iron ore. For years previously shipbuilders had been in the habit of taking the heavy, easily handled rock for ballast, dumping it overboard with the utmost unconcern when they loaded up with cargo. Then one day a captain more curious than the others had the strange-looking "rock" assayed and his fortune was made.

Not of the Usual Sort. A woman who had lived in a certain country town to an age at which her friends had scarcely assumed that she was likely to forsake her spinsterhood, suddenly surprised them by announcing her engagement to a local bachelor who was considered rather eccentric. A friend of hers took it upon herself to express some little surprise at the engagement, and when the fiancée replied: "But what is it in him you don't like?" answered: "Oh, I don't dislike him at all; it's only that everybody thinks him—well, not exactly eccentric, but, at any rate, rather singular in many of his ways." "That may be," replied the prospective bride, "but then, as he is so very unlike other men, he is surely more likely to make a good husband."—Windsor Magazine, London.

Piccadilly's Origin. "Tipperary," the marching song which had such a vogue in 1914, refers to Piccadilly, London, England. One story is that the place was named after the Piccadilly hall, where a certain kind of lace much in vogue during the reign of Queen Elizabeth was made. The lace was called piccadilly because of its spear points, a diminutive of pike, a pike or spear. Piccadilly was once famous for its gambling houses. In one of these, run by Walter, the prince regent's cook, Beau Brummel won \$75,000 in ten minutes and insisted upon giving one-half to Sheridan.

Repentance is often confounded with determination not to get caught again.

LOOT STORES OF FIELD MICE

North Dakota Indians Raid Caches of Delicacy, but Always Leave Corn in Its Place.

In the northern part of North Dakota there grows a bean which is related to the peanut and of which the Indians of that section are very fond. As each plant bears but a single bean, the labor of gathering them would be very great, but the field mice of that section gather the beans and hide them for winter consumption in underground storehouses.

The Indians know how to locate the caches and in the autumn they go forth and rob them, but the supplies are invariably replaced with corn or some other grain which the Indians have in plenty, so that the little harvesters are not starved out.

The beans have a delicious flavor and are highly prized. In the course of a few days' hunt one Indian may gather two bushels, a few quarts being secured from each of the underground storehouses.

The Indians say that this method of gathering food from mouse hoards dates back to prehistoric times, but the traditions of the tribes protect the mice in that it is taught that dire punishment falls upon those who take the beans without replacing them with corn.—Chicago Journal.

Portable Radiotelephone.

The pocket telephone has been brought a step nearer by the assembling of the necessary radiophone apparatus into a compact unit having a weight of about 60 pounds. As a potential of only six volts to each is required to operate the rectifier and oscillator bulbs the low-capacity "B-type" batteries are dispensed with, according to an illustrated article in the December Popular Mechanics Magazine. The low voltage required is available almost anywhere, as two six-volt batteries are easily procurable from any automobile battery service station. The new unit is especially designed for the use of motorists, yachtsmen, campers and isolated farms. Under ordinary conditions it is said that the new instrument may be depended upon to operate satisfactorily over distances of from five to fifteen miles.

Sells Gas by the Therm.

Under an act placed on the London statute book gas will in future be sold at so much a "therm" instead of so much a thousand feet. A therm is the name given to 100,000 British thermal units, one of the latter being the amount of heat absorbed in raising one pound of water one degree Fahrenheit. The first distributor of gas to announce its charges by the therm is the South Metropolitan Gas company, which from the date of reading meters for the Michaelmas quarter will charge 21 cents a therm. The gas is declared to contain 550 British thermal units in each cubic foot.

Her Gift.

A young woman was interested in charity work and in one family where she visited there was a little girl whose hair was the same shade as her own. Wanting to show her appreciation for the visitor's kindness, the child called at her house one day and gave her a package, saying it was a little present for her, then ran away. On opening it out fell the child's lovely braid—the only thing she had in abundance.

WITHOUT CHRIST

There is NO FUTURE for AMERICA

Material empires whose greatness seemed to stretch to the four corners of the earth have tottered and fallen. The grandeur that was Rome and the glory that was Greece were scattered to the winds almost overnight. Nineveh and Tyre are but relics of the ancients.

Christ Must Be the Cornerstone

Will you do your part to perpetuate America by helping the Churches develop CHARACTER by which alone a nation can live.

BILLY HOFFMAN STAYED WITH CHAMPION
Could Not Throw Local Boy Twice In One Hour

The wrestling tournament at the Princess last night was well attended and was a clean exhibition of the manly art. The program as first composed was to include boxing also but the boxers failed to show up and there were three bouts of wrestling that were greatly enjoyed. The two preliminary bouts were between John

child himself and is not any amateur in the strictest sense of the world as he wrestled some in Cincinnati and other cities before coming to Florida and had many bouts while he was in the aviation service. He is a fine specimen of manhood and his opponent gave him full credit after the match saying that Hoffman was

BILLY HOFFMAN

Lee and Collie Biggers and Ed. Moyer and Delvin Hurley and they were heartily cheered as they finished up some real good amateur wrestling. All of them were home boys and handled each other carefully. The main bout of the evening between James Pierson, the light heavy weight champion of America and Billy Hoffman of this city. Of course Billy was not supposed to have any chance with the "champ" and it was simply a match to see if Pierson could place Billy's shoulders to the mat twice in 60 minutes. He evidently had a good opinion of himself to try such a difficult feat but he went at it manfully and while it looked at times as though he would get the William of William he could not put it over, only getting one fall in the allotted time. Hoffman is some

mighty good and was also a clean wrestler. Pierson made many friends by his good, clean work while on the mat and by giving the people a run for their money and the match was well worth the money. Billy Hoffman expects to put on several good attractions in the wrestling line at various places in the state and may take on Pierson again some time in the future. Several challenges were issued to Hoffman and Pierson at the close of the match and it looked like big city stuff for a while. If the local sports here want regular attractions in that line Billy Hoffman and some more of the boys here will arrange a regular series of wrestling and boxing matches during the winter.

RAINING GRAFTERS

DeLand is full of people who prey upon the public. They have every conceivable kind of grift, from preaching the gospel to peddling pins. They all pull against the home merchant, the home minister, the home agent who is with us the year round, who pays taxes here and helps every public benefaction. They should be given the deaf ear.—DeLand News.

MODERN DOLL WORK OF ART

Children of the Long Ago Were Satisfied With Very Ordinary Counterparts of Nature.

It is interesting to contrast the plump, really truly looking American doll of today with the crude, legless, long-armed wooden dollies with which the little Egyptian girls used to play. These Egyptian dolls had wooden hair and funny long arms that reached almost to the knees and they never had any feet at all, says the Boston Post. For clothes all there ever was for them to wear was just a strip of cotton cloth wound round and round their bodies like a bandage. Worse than that, the poor little Mohammedan children had to play with headless dolls because the queer rulings of their religion would not allow of any imitation of the human figure. Biblical children, Esther and Ruth, probably played with wooden dolls very much like the Egyptian dolls, never a bit more beautiful. Queen Elizabeth had a doll made of tree bark. It was said to be 250 years old before it came into her possession and since she died it has never been located. Dolls began to get better about that period and Mary Queen of Scots owned a collection of dolls that would move their arms and legs, they being operated with springs. As early as 1413 came dolls with voices that would squeak. Wigs came in 1820 and walking dolls in 1825, but they were all queer and unlovable compared to the delightful "mamma," "papa" talking, walking, winky-eyed, real curly-haired dolls that the little American girl can have for her very own children.

Christmas weather now.

Easy to imagine the sleigh bells.

Especially with all the cow bells ringing.

The old town will be some lively town next week and the week after.

Of course there are some who are afraid of a loud noise and would never have any business but their own boosted.

But in boosting the whole town you boost your own little business and boost your neighbor's as well which is showing the proper Christmas spirit and the proper Christmas spirit.

Met an "old Scrooge" the other day who said "out on the Christmas" and he really meant it for he never did a kind thing in all his life and he does not intend to start in now. And he will die and go to—well across Lake Monroe anyhow, some day and then it will be Merry Christmas again with all of us.

On the Lake county side of the Wekiwa bridge is a big sign calling attention to the many attractions of Lake county. When you get across to the Seminole side the sign just reads "Look out for the motor cop" and just whether this appeals to the northern visitor or not is a question that it would be well worth asking some of them. The warning sign is all right for the speedsters but for the prospective citizens something in the way of information would be more to the point. This of course is not the business of the county commissioners but of the Chamber of Commerce and they intend to get busy at once and put out some good signs at all of the approaches to the county.

The DeLand News called attention to the fact that the counties of Seminole and Volusia were sleeping over the rights when they allowed a private corporation to collect fifty cents for every car that crosses the bridge and there are hundreds of them crossing now. Well, the Herald called the attention of the counties to this fact when these people asked for a franchise and we wanted the counties to put in the bridge then but they could not see it. Anything that is good for the individual or the corporation is good for the county or city and some day the people will discover this truth. A free bridge across the river at Hardman's ferry and at Osteen ferry would be the biggest asset the counties of Seminole and Volusia could have and if they had built them years ago and charged toll the bridges would be paid for now. The Herald said so then and it says so now and it will say so ten years from now when the county commissioners of Volusia finally see the light. The Seminole commissioners stand ready to build their part any day.

Orange: Conway community council had a good meeting last week. The meeting was of the business-panic kind. Many new members were enrolled. Much work was outlined and started.

Beauty Contest in Africa. The Africa and Orient Review, a South African newspaper, has started a beauty contest for dusky belles and already 300 entries have been received for the competition. The editor, Mr. Mohamed Ali, thus describes the negro face: "The eyes," he said, "should have the African expression, a soft, appealing look—an intangible dreaminess, never seen in European eyes. The nose should be semi-aquiline, slightly squat at the bridge, and the lips somewhat thicker than those of the average European, a characteristic which I think gives solidity to the expression. The hair should, of course, be curly." Photographs of the competitors will be reproduced each month, and the readers of the journal will be asked to vote for the photograph they consider the most beautiful, the lady receiving the greatest number of votes to be given \$500. The second prize is \$250 and the third a watch bracelet.

THE WEATHER

For Florida: Fair and continued cool tonight and Saturday probably light frost tonight on mainland.

Dr. Lew Colson, a prominent dentist of Pensacola, was in the city yesterday as the guest of Judge and Mrs. Maines.

Posters are being sent into neighboring cities advertising the Million Dollar Band that will be here the week following Christmas.

State High School Inspector Cawthon was here yesterday inspecting our high school. Mr. Cawthon reports that the High school here is one of the first in the state.

George Hodges, of Ft. Christmas, is in the city the guest of his cousin, Dan Hodges. George is a student at Florida University, and is taking a course in civil engineering and is making good in his studies as well as in athletics.

The Daily Herald is being sent into new territory every day and the service is getting better all the time. If you want your paper on time and do not get it on time let this office know about it at once. We want every reader in the city to get the Daily Herald by 6 p. m.

T. J. Miller & Son will have an auction sale at the Imperial Theatre building, corner Magnolia and Second street tomorrow lasting three days and will sell all the house furnishings that are stored here to the highest bidder. Good chance to get what you want in the way of furniture.

Our old friend, W. A. Rayner, of Celery avenue, remembered us today with a peck of new Irish potatoes and some nice lettuce. Mr. Rayner has been a real friend of the editor for many years and always remembers us about Christmas time with the gift substantial.

The world deals good naturedly with the good natured person.

ADVERTISING COPY MUST BE IN BY TEN O'CLOCK

Advertising copy for the Herald must be in the office by ten o'clock on the day intended for publication. It is necessary to put this rule into effect in order that the make-up of the paper may be planned and carried out without change. Most of our advertisers get their copy in in sufficient time, but some delay until a late hour in the morning with the result that we must either change our make-up for the day or disappoint them in not being able to give them the amount of space wanted.

If it is impossible to get the copy in by ten o'clock, phone us and let us know the amount of space wanted and a representative of the Herald will call and assist in writing the copy, but it is necessary to know the space wanted by ten o'clock each morning.

The Herald will appreciate this co-operation on the part of its patrons and it will certainly assure them better service and save possible disappointment in not being able to give them all the space wanted.

Co-operate! Let us have your advertising copy not later than ten o'clock.

Condor's Fighting Qualities.

Like many other greedy creatures, the condor after his dinner becomes incapable of flight, and it is only then that he can be approached with safety; but even now the hunter must be cautious and strong. A Chilean miner, who was celebrated for his great physical strength, once thought that without weapons he could capture a condor which seemed unusually stupid after its heavy meal.

The man put forth all his powers, and the engagement was long and desperate, till at last the poor miner was glad to escape with his life. Exhausted, torn and bleeding, he managed to carry off a few feathers as trophies of the hardest battle he had ever fought. He thought that he had left the bird mortally hurt. The other miners went in search of the body, but instead found the bird alive and erect, flapping its wings for flight.

Repentance is often confounded with determination not to get caught again.

RIOT IN THE PHILIPPINES

(By The Associated Press.)

MANILA, P. I., Dec. 17.—The entire constabulary soldiers charged with participating in a riot Wednesday causing the deaths of four Americans and seven Filipinos.

Let's Get Down to Brass Tacks

\$ 2 5

Will be paid to any
Adult who gets the

'FLU'

After 12 Treatments
at the

"Energizer"

Office

This bona-fide statement is made—and it will be carried out to the letter—because we desire to do MORE good rather than LESS while "ENERGIZER" service is here. There is a mathematical ratio between Human Illness and Human CIRCULATION and all the money and brains in the world cannot afford the protection that BETTER STRENGTH and CIRCULATION will give you.

Everything is a matter of "percent" and "degree" in this world, and each "ENERGIZER" treatment gets ANY adult a "per-cent" better in physical strength and CIRCULATION.

It is NOT a matter of money to YOU—it is a straight matter of GETTING it—while the getting is good. The INCONSISTENCY of getting the "carbon" out of your auto and NOT giving your BODY similar care is, truly CRIMINAL after due thought!

And "if thinking hurts—then 'DO-IT-NOW' because it FEELS GOOD." You cannot lose ANYWAY YOU LOOK AT IT.

And if you get the "FLU" before, say MAY 1st, 1921, you get \$25. If you don't get it, you should worry. But you WILL get the FINEST HUMAN house-cleaning available—a sound investment, a sensible, LOGICAL move.

Sanford can easily be IN FACT the most HEALTHY CITY in the WORLD.—Scientifically made so.
