

THE BECK HAMMOCK

Once A Wilderness, Now Home Of The Grower

WONDERFUL TRANSFORMATION

Unequaled In Soil and Irrigation, Beauty of Scenery And Also Good Shipping Facilities

Not quite one year ago Edgar E. Brown, a retired merchant of Richmond, Indiana, came to Sanford in search of health. His keen business judgment early demonstrated the fact that not only was there health in Sanford but wealth also and after a careful inspection of different lands that gave great promise of future yield Mr. Brown decided to purchase a tract of 260 acres on Lake Jessup, known as Beck Hammock.

None but the stout-hearted would tackle the stupendous problem of this amount of land, covered with a tangled growth of palmetto, oak, pine, and cypress trees so thick that one could hardly pass through and expect to clear and prepare it for cultivation. But Mr. Brown comes from a race of pioneers and he was quick to note that the rich soil of Beck Hammock would amply repay him for the amount expended in clearing and putting a large force of men at the work went fearlessly ahead.

Today a trip through Beck Hammock shows the hand of the wizard for his magical wand has touched the forest primeval and made it blossom like the rose.

The immense amount of labor expended upon this project can only be realized by contrasting the well tilled fields with the wild land that is left. Broad avenues have been cut through the tract and down the center north and south is a broad thoroughfare known as Richmond avenue, the natural beauty of which has been supplemented by beautiful palm trees, making a fine boulevard. The other streets have also been laid out on broad lines, fountains of pure artesian water will gush from the intersection of these streets and the appearance of this tract when finished will be most pleasing to the eye of the observer.

Many homeseekers have been attracted to Beck Hammock this season by the wonderful fertility of the soil, the natural beauty of the location and the great advantages of river and railroad shipping facilities.

The tract is about 3 1/2 miles from Sanford near the shores of Lake Jessup and will be greatly benefited by having the principal leading station on the Sanford & Everglades Railway located near the corner where a general store and lumber yard will be opened in the next two weeks. Among those who have purchased land from Mr. Brown in the past six months are:

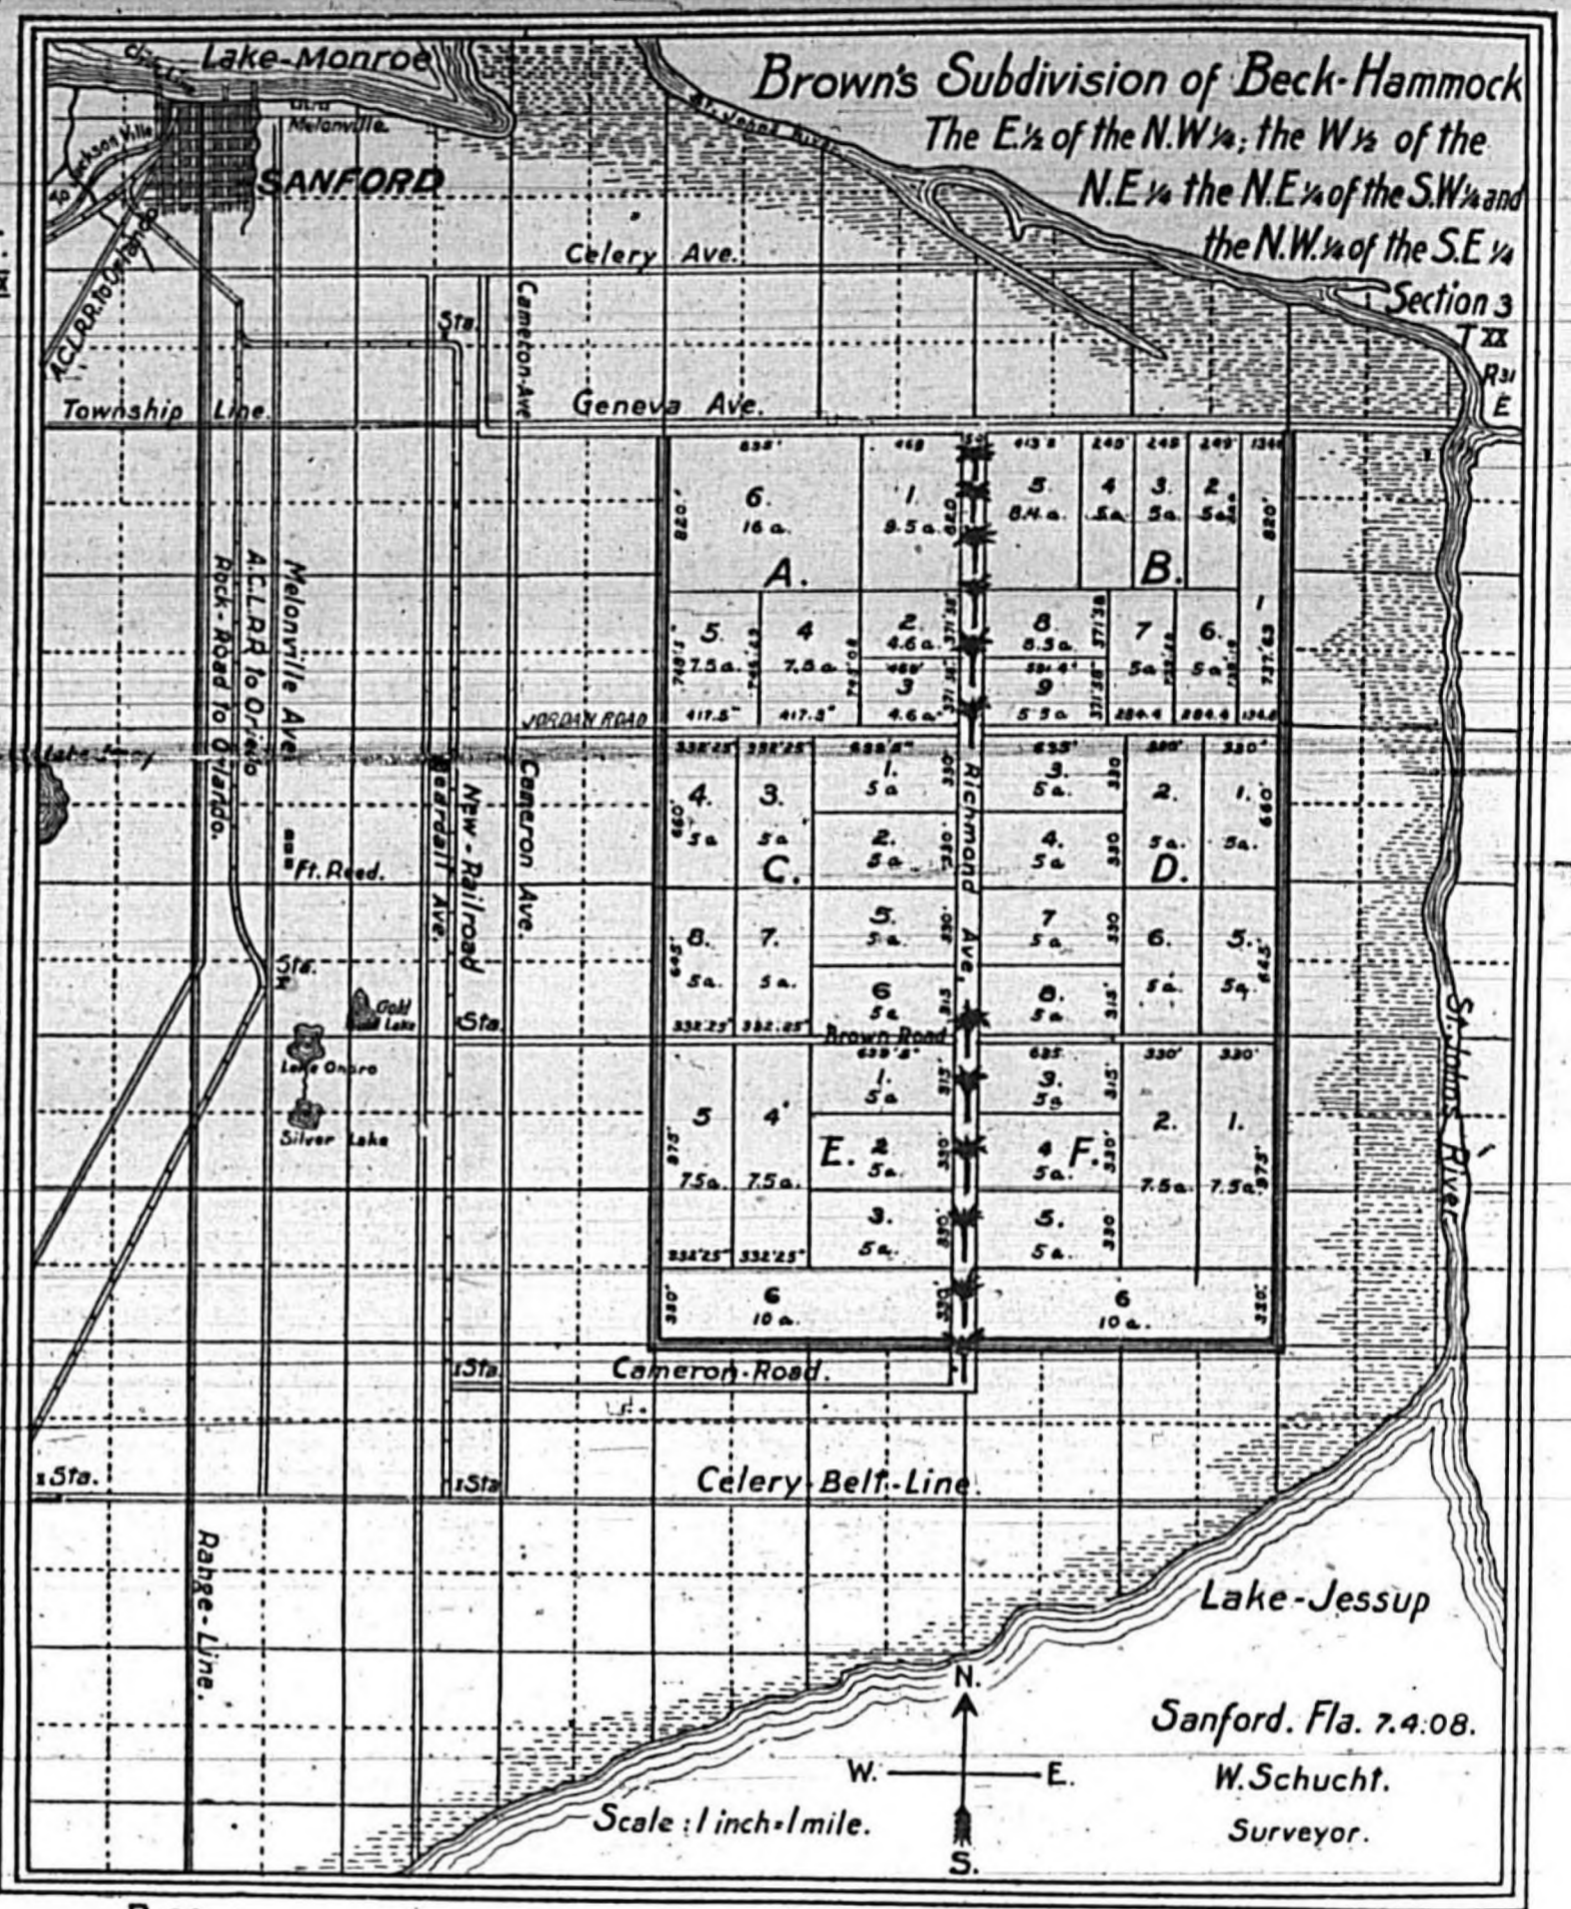

F. M. Lough, John H. Mitchell, Mary R. Hurst and S. E. Jordan of Richmond, Ind., E. E. Swingle of Hickson, Tenn., Mrs. L. H. Knapp, Iowa Falls, Iowa, H. C. Hargrove, Des Moines, Iowa, R. H. Marks and D. W. Walker, A. T. Rosseter and A. B. Cameron, also have choice lots out of this valuable tract, and three others now have options which will doubtless mean a purchase in the near future.

Many new dwellings are being erected and Mr. Brown is now clearing a fine ten acre tract at the intersection of Geneva and Richmond avenues for himself and will erect a magnificent bungalow modern in every respect for the home of himself and family.

The following appeared in the Chronicle last May at the time of Mr. Brown's purchase of Gulf Hammock:

"On account of the rich productiveness of its soil this land requires less fertilizer, and its strong flowing wells at an easy depth have given 'Beck Hammock' the

Map Showing Beck Hammock and Surrounding Country

reputation of being the best 240-acre tract of land in Orange county. For years this land has been out of reach of most prospective purchasers in this section for the reason that the owners refused to sell only as a whole. Mr. Brown is from Richmond, Ind., having recently retired from the mercantile business of that city, and came to Sanford for the purpose of locating a winter home. Upon being shown our celery fields he was piloted to "Beck Hammock" and at once his keen business eye caught the wealth of that beautiful tract of celery land and a deal was soon closed.

"It was not known just how Mr. Brown intended handling "Beck Hammock" until this week, when the writer saw his plans for cleaning roads and preparations made for an elegant bungalow on a site selected by Mrs. Brown among the immensely large oaks, magnolias, and stately palmettoes of the hammock. Considerable money will be spent along decorative lines and an effort will be made to produce every variety of fruit and ornamental trees that can be grown in this climate."

One of the principal features of Beck Hammock is the fine system of irrigation

ditches constructed this year and with a ten-foot fall and ample width these canals will amply drain the entire tract and easily carry off all the surplus water even should a deluge occur. In every way, Mr. Brown has provided for the comfort of those who seek Beck Hammock for their homes and ere many months this great tract of land, formerly a wilderness will be filled with new residents and the tangled growth once the haunts of wild animals will be well tilled vegetable land and fine residences—land that is rich in all that Nature gives to produce plant life in its richest growth. The dream of Mr. Brown to establish a modern Utopia near the banks of Jessup will soon be fulfilled and the fruits of his toil will be garnered. The harvest will be the contented growers reaping a rich crop of vegetables each season and in this modern Paradise the seeker of health and wealth can find the Elysium.

Any one wishing detailed information regarding these fine vegetable lands can get same by addressing Edgar E. Brown, Sanford, Fla.

An Epitome of the Week's Most Important Happenings in the State's Domain.

The Norwegian bark Celer, which went ashore near Pensacola during the recent storm, has broken up and is a total wreck. Her crew were saved.

The Charlotte Harbor Northern railroad is to be extended to Plant City, work to begin immediately.

On April 1 the Park hotel, Jacksonville, will change management, Olyer F. Dolbins taking the place of A. J. Irvin.

After ten years before the United States courts, the case of Commander Dennis W. Mullan, tried on the charge of drunkenness while on duty, has been decided against him. Dismissal from the service is the penalty, but President Roosevelt has modified it by reducing his standing to the bottom of the list of commanders. Mullan was formerly commandant at Pensacola navy yard.

The truck and vegetable growers in the vicinity of Boynton, Dade county, have organized an association for mutual protection and profit. The object of the association is to market their own crops in cars, securing a uniform pack, and direct and satisfactory service to the buyer. Tomatoes and pineapples will be the principal shipments, and will begin to go forward about the first of April.

In the appropriations for rivers and harbors Pensacola gets \$110,000.

The annual convention of Florida postmasters will be held in Jacksonville, April 13, 14 and 15.

A silk producing farm is to be established near Macclenny, Baker county, under the management of Dr. V. K. Osgian, an Armenian, who is an expert in the industry. Application has been made for a charter. Capitalization is to be \$50,000.

To make the map of Hillsborough county on exhibition at the recent fair at Tampa 10,479 oranges were used.

The town of Winter Haven has been incorporated, and the following officers elected for the ensuing year: Mayor, Willis Smith; Councilmen, W. C. Bentley, Richard Klein, E. Stanford, W. W. Mann, D. Leach; Clerk, J. D. Cameron; Marshal, Mr. Sapp.

Congressman Sparkman has been made a member of the National waterways commission, which is considered to mean a benefit to Florida.

Manual Sanchez, well known in cigar manufacturing circle, dropped dead last week while conversing with his family at his home in Tampa.

The state convicts have been leased to the Florida Pine Co. of Jacksonville at \$281.60 per capita per year for a period of four years.

The supreme court has just rendered a decision that road taxes collected within the corporate limits of a town shall be paid to the town from which it is collected.

The row of bath houses, pavilion and pier at DeSoto Park near Tampa were destroyed by fire last week.

Miss Marala Jemenz, a Cuban girl, 18 years old, committed suicide one day last week by saturating her clothing with kerosene and then setting fire to it. She was horribly burned and died in a few hours. She was at her home in West Tampa when she made the living torch of herself. A love affair was the cause.

S. K. Collins, aged about 70 years, one of the highly respected citizens living near Jennings, was killed by a falling tree last week while fighting fire that threatened the destruction of his property.

W. A. Jones, a former resident of Jacksonville, has been chosen president of the South Atlantic base ball league.

The editor of a paper in a state further North recently stated that a certain girl's breast was filled with rage. The printer got it "rags," and since then the editor is camping out on a ridge northwest of town, where he can get a good view of the land-

scape from four different directions.—Macclenny Standard.

The city stables of Jacksonville were destroyed by fire Tuesday night. Loss is about \$8,000.

Eight buildings were destroyed by fire in Orange City last Tuesday. The fire originated from a kerosene oil stove in the kitchen of the Hill residence adjoining the drug store, which, together with the Sperry House and new building next door, were burned. Loss about \$20,000; insured for half that amount. Part of the DeLand fire department went to the rescue and aided materially in checking the flames.

IN MUSICAL CIRCLES

Jacksonville Spring Festival Society Event

With the New York Symphony Orchestra, or Damrosch orchestra, four soloists of international fame will make their first appearance in Jacksonville. These singers, Corinne Rider Kelsey, soprano; Nevada Van de Veer, contralto; Reed Miller, tenor, and Gustaf Holmquist, bass, are appearing with Walter Damrosch in all performances of the famous orchestra this season. Music critics far and wide have recorded the artistic accomplishments and brilliant career of these singers. The phrase, "tremendous success" is used by the Cleveland (Ohio) Plain-Dealer in describing the vocal talents of Mr. Reed Miller. His technique facility seems almost superhuman. He tosses off whole pages of sixteenth and thirty-second notes with remarkable ease and breadth of voice. And what is rarer, he sang with such fervor that his innumerable recitatives had the pathos of melody. How many world tenors can do that?

This should be a splendid indication of the talent engaged by the Jacksonville Choral Society and should serve to make all readers of The Herald appreciate that the festival will be the greatest musical event ever contemplated in the State's metropolis.

The demand for tickets has assumed large proportions, and society all over the State evinces great interest in the event.

The railroads have consented to grant reduced railroad rates to Jacksonville and will do all in their power to assist our local people spend an enjoyable two days in Jacksonville. All applications for tickets should be accompanied by funds—\$5 for the series, addressed to the secretary, T. T. Elmore, Jacksonville.

They have raised our taxes this year but they don't seem to raise any good roads through our section.

Much rain this week as we predicted. Fair and dry weather may come in the near future.

Abraham Lincoln Culpepper, of the Mudsock colored Hardshell church, will exchange pulpits with Ernest Wilberforce Johnson, of Bunglow Corners next Sunday.

Rev. Confucius McCorkins will hold forth in Rev. Lige McSwatt's pulpit next Sunday. Lige and his wife are both suffering from rheumatic twinges and bunions.

Gill Plummer may be hauled up for libelous scandal for stating that Rev. Lige McSwatt was a blooming old ignoramus and hypocrite. Such language about our beloved pastor has excited great indignation. Gill may have to prove it.

Old Bill Cheezum has his seventy-second birthday last Monday and much hilarity prevailed in the Cheezum household.

Scotty Perhamus and his cousin, El-kamer are in town visiting the Plunkart family. I learn they are blood relations.

Leander Corpeter spent last Sunday afternoon and evening at the Bixler residence. The Bixler girls were at home. Ha, ha.

Silas Stuckey and Steve Gullion fell out over a horse trade and don't speak as they pass by. Guess Silc can stand it as they say he skinned Steve to the queen's taste.

A new two-room cottage is going up on the corner of Snodgrass boulevard and Plunkett avenue and Clem Spicer is reshingling his house with tarred paper. Evidently our town hasn't been much hurt by the panic.

Several loads of slab stove wood were sold to our citizens this week.

Three wagon loads of saw logs passed through town for the Cameron City mill yesterday.

Lib Mustard is studying Eyetalian. Her teacher works in Sam Billingsley's livery stable and says he was a count in Italy. 'Guess he's all right as he don't eat anything but macaroni and tripe.

Two of Aleck Spooner's hogs have been seized with hog cholera and one is said to be at death's door.

Belindy Sutgood had a painful corn removed from one of her small toes yesterday. They are certainly great afflictions.

Lycurgus Dollarhide, Macaroni City, sang falsetto in the Mudsock Newlight choir last Sunday, and some of the congregation thought he was a female in disguise.

Several Delerites attended Geo. Adams' minstrel show in Sanford last Tuesday night and they say Geo. is getting more like a nigger minstrel every day.

POISONED BY MEAT

Whole Family Suffer Severely From Effects Of Ptomaine

R. J. Holly and family had a narrow escape from death this week having eaten some Western mutton that contained ptomaine poison in some form. Happily Mrs. Holly had not tasted the meat being indisposed and was the only one who escaped. Several of the physicians who were out of town at the time or busy with patients and Dr. Bruce who was sick in bed, knowing the urgency of the call, arrived at the house in time to administer medical aid and undoubtedly saved the lives of the sufferers. Dr. Puleston arrived later and aided in getting the patients out of danger. This is a good case for the state inspector to investigate as the local dealers cannot be held responsible for the manner in which the meat is refrigerated and it is difficult to detect the presence of this taint in the meat.

Several other cases have been reported in different parts of the state and the food inspectors should get busy on the subject. The physicians state that had not medical aid been at hand the Holly family would have undoubtedly died from the poison. As it is the children will be a long time recovering from the effects and may be affected in later years as a result.

AFTER THE EAST COAST RAILWAY

Must Restore Connections With The A. C. L. at Sanford

Several months ago the Florida East Coast railway with the high and mighty air that characterizes all their movements regarding the interior cities, broke their schedule that formerly allowed connections with the A. C. L. at Sanford and Orange City Junction. This virtually stopped all the traffic from the interior to points on the East Coast, all such traffic being obliged to make connections at Titusville. However the railroad commission are on the job, as the following from the Reporter-Star indicates:

"Hon. Louis C. Massey, as counsel for the railroad commissioners, began a mandamus proceeding in the supreme court last week to compel the Florida East Coast Railway Co. to restore its connections with the Atlantic Coast Line railway at Orange City Junction and Sanford. It will be remembered that the railroad commission held a meeting at Orlando in 1906 on the subject of these connections which were then ordered and have been maintained until lately, when the East Coast railroad broke them. These connections are of importance to the people of this locality, as many travel to and from the East Coast at all seasons of the year."

This will be of great convenience during the summer to our people who wish to sojourn at the sea coast. The connections at Orange City Junction at the best were very poor and the railroad commission should compel the East Coast Railway to come down from the pedestal and recognize the rights of the people.

To Ailing Women

A Little Sound Advice Will Help Many A Sufferer in Sanford

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.
When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Sanford woman tell you about Doan's Kidney Pills.
Mrs. William Goss, Laurel Ave., Sanford, Fla., says: "Kidney trouble in my case was made evident by an almost constant backache. It was hard for me to stoop, lift or rest well on account of the pain. My kidneys were also disordered and the secretions very unnatural. When I learned of Doan's Kidney Pills, I obtained a box and am pleased to say that they soon stopped the backache. They also restored my kidneys to their normal condition and benefited me generally."

Making affidavit sales. Report \$2.25 absolutely bonafide. Had order four cars this price, last week's shipment. Could not fill. Could have sold 25 cars, \$2.00 to \$2.25, F. O. B., easily, fancy stock desirable sizes. Also sold car Manatee stock \$2.25 F. O. B., with higher freight rate. Our sales and circulars have upheld values. Have demonstrated our work organization, which has enabled us to exceed competitors by 10 cents per crate. We have support of best trade.

(Signed)

CRUTCHFIELD & WOOLFOLK

This affidavit will be on file at our office, 16 Pico Block, for the inspection of all concerned. It will serve to silence, once, and for all, insinuations as to the bonafide character of our sales

The following ideas are offered for your thoughtful and earnest consideration and ACTION:

"IN UNION THERE IS STRENGTH"

The history of production, everywhere, whether in pig-iron or cabbages—or celery—points surely to the *Co-Operative Association of the Producers* if the producers themselves are to reap the benefits of production. The orange and vegetable growers of California, and the apple growers of the Pacific Northwest, offer shining examples of the great benefits accruing to the grower under methods which provide for *Associated Control*.

THE SANFORD CELERY UNION is only in its second year, but has grown steadily and surely, because it is *founded on right principles*, and because

It is an *Independent Association of the growers*

Its purposes are co-operative and protective

It stands for *the best interests of the industry*

There are *no secrets, no graft, nothing to conceal*—either on the part of the *Union*, or its selling agents, Crutchfield & Woolfolk

POOLING: This practice is generally conducive to carelessness on the part of the packer, who, feeling that as a superior product no longer affords a corresponding premium, the incentive for extra care is gone. Undeniably, the pooling plan as commonly followed works an injustice to the producers of the best stock. *The Sanford Celery Union does NOT pool its members' shipments*, but, on the other hand, the different marks are sold on individual merit, and the *reward of merit*, in superior returns, is a constant incentive to more strenuous efforts in the improvement of the output.

Any or all details, in connection with *Any or All* sales, are *freely available at any time*. Our Sales Agents never lose sight of the fact that they are acting as expert *Salesmen* for the *Union*, and are prepared to report in detail whenever called on by the *Union* or any individual member.

We believe that our sales agents—**CRUTCHFIELD & WOOLFOLK**—have the most perfect organization in existence for the marketing of both vegetables and fruits from all districts. *Their results show for themselves!*

"The proof of the pudding is in the eating." How do *your* results compare, to date, with those made by our membership?

We would gladly welcome a fair comparison: We stand on Merit alone.

Remember, *The Sanford Celery Union is not a private enterprise*, it is an *independent association of the growers, for the growers, by the growers*; it is a *nucleus*, stands for a *Principle*; is patterned closely after a famous model in California—*The Orange County (California) Celery Growers' Association*, which has rescued the California industry, taken the control *away from individuals* and put it in the hands of the *Producers*, where it properly belongs.

Will you not give the whole matter earnest thought, and lend your support to a movement which is certain eventually to place our industry on a sound, progressive, conservative and successful business basis? Then, join the *Sanford Celery Union*.

CABBAGE GOES HIGHER

York State Farmer Now Getting \$50 at Landing Station.

What few holders of cabbage there are in New York State are reaping a rich harvest, for this week telegraphic dispatches stated that shippers were paying the farmers \$50 a ton for the cabbage at landing stations.

Quite a volume of Florida cabbage came this week and there was a sprinkling of South Carolina stock on the market but most of the new cabbage supplies came from Florida.

At the end of the week the market eased off in the country and prices were about \$10 lower. Shippers were offering to lay the cabbage down here at \$40 a ton on Friday—N. Y. Packer.

INSTITUTED LODGE OF EAGLES

One Hundred and Fifty Enrolled as Charter Members

Celery City Aerle Fraternal Order of Eagles is the youngest lodge in the state, and yet bids fair to be one of the largest and the very beginning.

The lodge was organized last Tuesday, and the city was inaugurated to celebrate the event. The trains were met by the band and the large number of candidates and visiting members from Jacksonville, Ocala, Gainesville, Palatka and other cities swelled the procession.

The headquarters was in the hall of the city building, and here the work of initiating and installing the officers took place. This work occupied the greater part of the afternoon and night from 3 p. m. until 7.

When the installation was finished, the members adjourned to the Sanford House, where Brother H. P. Driver had spread an elaborate banquet in honor of the visiting brethren. The dining room had been especially decorated for the occasion, and presented a beautiful sight.

The following officers were elected for the ensuing year: J. M. Hunt, P. W. P. W. H. Underwood, W. P. W. D. Holden, W. V. P. J. H. Overman, W. Chapman. S. Runge, Secretary. G. R. Callahan, Treasurer.

THE STREET RAILWAY

RAILS WILL BE PLACED AT ONCE

Sanford is Now The Only City in The Interior of Florida With a Street Railway

The illusions of the doubting Thomases who have predicted that Sanford's street railway would never materialize, have been dispelled this week.

The Sanford Chronicle is at rest in "the happy hunting grounds" and it is with deep regret that we chronicle the fact. The Chronicle was one of Sanford's oldest business enterprises and has perhaps done more for the upbuilding of "The Celery City" than any other one influence.

After life's fitful fever, the Sanford Chronicle sleeps well—and permanently. It died last week after sixteen years of bumping along the corduroy roads of country journalism, and the physical remains were merged in a job office.

The Sanford Chronicle is the latest example of the inevitable result of attempting to publish two papers in a job office town, and it has gone the way of all flesh.

Sanford now enjoys the distinction of being the only interior city of Florida possessing a street railway. Already plans are being perfected for a good amusement park, containing a high diamond, driving park, golf links, tennis courts and other attractions, and this summer the people of Sanford can enjoy a most delightful trolley ride to the park and an evening of enjoyment.

The new line will also be a great factor in the future development of Sanford and the celery delta, and the prospects for a Greater Sanford were never brighter.

ANNOUNCEMENT TO THE PUBLIC Sanford & Everglades Now Using A. C. L. Terminals

The following announcement of the Sanford & Everglades Railway is a very important item to the growers on the east side:

"The Sanford & Everglades Railroad Company's trains will be operated into Atlantic Coast Line's Terminals at Sanford, and Mr. C. Barnes will act as freight agent for them."

Shipments will be received at and delivered from the Atlantic Coast Line's warehouse.

The growers can now ship by package freight instead of waiting for the capitol cars, and the new departure will prove a great benefit to the shippers.

The Sanford & Everglades Railway is handling a large amount of this year's crop and Mr. Connelly is putting forth great efforts to aid and assist the growers in every way.

A Splendid Show "The Missouri Girl" held the boards at the opera house Wednesday night, and was greeted by a large crowd.

Will Whoop 'Em Up On July The Fourth Sanford is never behind in the procession and on July the Fourth the city will exceed a welcome to the entire state.

There will be a grand parade of floats and merchants' displays and the entire crowd will then be taken to the picnic grounds where a barbecue and fair fry will be served.
