

### Eclipse Drawing Thousands To Bar Harbor

**BAR HARBOR, Maine (UPI)** — Thousands were pouring into this fashionable seaside resort this week for front row seats Saturday to nature's most spectacular sky show, the total eclipse of the sun.

The visitors, ranging from scientists to schoolboys and tourists to tradesmen, were lining up coveted sites to watch the awesome phenomenon of the moon passing between the sun and the earth.

The nearly plateau-like summit of 1,532-foot Cadillac Mountain, highest Atlantic Coast elevation between here and Argentina, offered a perfect vantage point of the spectacle that will turn day into night.

The total eclipse will be seen along a 60-mile-wide swath from Japan, across the North Pacific to Alaska, Canada and Maine before ending in the Atlantic at sunset.

The celestial event will be observed as a partial eclipse elsewhere in the Northern Hemisphere and as far south as Venezuela.

At 5:47 p.m., EDT, the moon will block out the sun entirely over this area. The air temperature may drop; stars will be visible, and the sudden darkness will trick nocturnal insects and animals into stirring prematurely.

Astronaut M. Scott Carpenter plans to fly over Maine at 42,000 feet in a specially equipped plane. A scientist accompanying him on the flight will point out to him scientific aspects of the eclipse which astronauts may encounter in future space journeys.

**WINNERS OF the doll-hobby show** sponsored by City recreation at the Civic Center were (left to right) Andrea Bowes, Melinda Lee Warnke, Kim Johnson, Claudette Romgardner and Happy Deas. Miss Sue Torres was in charge, assisted by Miss Linda Williams and Mrs. Ann Samuel. Judges were Mrs. Helen Kelly and Mrs. Dorothy Lee. (Herald Photo)

### Russia Proposes UN Summit

**UNITED NATIONS, N. Y. (UPI)** — The Soviet Union has proposed that all heads of state and government attend the 20th anniversary session of the UN General Assembly in 1965, according to UN sources.

Tass, the Soviet news agency, confirmed the report today. The suggestion raised the possibility of a summit meeting between the major East and West powers in conjunction with the UN session.

The Soviet recommendation was contained in a letter from Soviet Foreign Minister Andrei Gromyko handed to UN Secretary General Thant Monday by Nikolai Fedorenko, chief of the Soviet mission, the UN sources said.

Gromyko's letter was a reply to a message from Thant asking for the views of all member governments on an "international cooperation year" for 1965 voted last year by the General Assembly.

According to Tass, Gromyko also advocated nuclear-free zones separating nations of the North Atlantic Treaty Organization (NATO) from Warsaw Pact countries, normalization of trade between all countries and an end to colonialism by 1965.

The General Assembly has voted to set up a 12-member committee to make plans for the 20th anniversary of the founding of the United Nations in 1945. Thant polled the 111 UN members on their views on the resolution.

The Soviet suggestion came at a time when East-West cordiality at the nuclear test ban talks in Moscow led to hope for a relaxation of tensions and the possibility of a top-level meeting among leaders of the major world powers.

Accordingly, Manager Rene Giordano assigned them to room 555 — to commemorate Clay's fifth round win over Henry Cooper here last month — and rolled out the red carpet for their arrival Monday.

Giordano said today he was stunned when a white couple walked up to the desk and identified themselves as Mr. and Mrs. Clay of Kentucky.

"Perhaps," Giordano said, "they adopted him."

"No," said Clay. "No kin at all."

"It's that abolitionist ancestor of mine," he explained. "He freed all his slaves way back. Most of them took his name. Half Kentucky seems to be called Casius Marcellus Clay and four or five of them are prize fighters."

"I sure gets confusing, air," Clay comforted Giordano, "but don't let it worry you none."

### IRS Millionaires Club Growing At Fastest Clip Since The 20s

**WASHINGTON (UPI)** — The nation is producing millionaires at the fastest clip since the get-rich-quick era of the late 1920s.

The Internal Revenue Service—IRS—in its latest tabulation on the subject—reported today that 399 persons filed returns showing \$1 million or more income in 1961.

This was the largest number since 1929 when the stock market was at the peak of its stratospheric binge, and the total of \$1 million taxpayers hit a record 513.

Ninety-two new faces were added to this select group in 1961, the biggest increase since 1928 when the number spurted by 221.

The IRS statistics show only those who reported earning \$1 million or more during the 1961 tax year. Authorities on the distribution of U. S. wealth estimate there are a lot more Americans who are worth \$1 million today.

Some have placed the number as high as 100,000.

Government tax reports, of course, mention no names. But from these studies, it is possible to get a statistical profile of the average \$1 million taxpayer in 1961. It would look something like this:

The average top-bracket taxpayer had an adjusted gross income of about \$2 million. He paid about \$800,000 in income taxes.

Most likely he was on a payroll, although his income from salaries was a drop in the bucket—to him, anyway. The biggest chunk of his earnings came from profits on the sale of such items as stocks and property.

The IRS Millionaires Club accounted for about 8 per cent of all taxes paid in 1961. By contrast, those in the \$6,000 to \$7,000 bracket paid 8.4 per cent of all taxes collected that year.

Thirty per cent of the women from the poorest levels of society were overweight. Only four per cent of the women in the top brackets were classified as obese.

### Man Has Novel 'Time Machine'

**SEATTLE, Wash. (UPI)** — Take a section of a 16-inch gun barrel from the scrapped battleship USS Colorado, mix in some household kerosene, a box of borax and 325 pounds of quicksilver, insert a couple of tubes and what do you have?

Well, if you're William Schell you have a "time machine."

It's not a contraption like the one H. G. Wells, imagined to transport man physically back into the past or forward to the future, but one to determine the age of things through a system known as the Carbon-14 process.

Schell, a graduate research assistant in chemistry at the University of Washington, has set up his apparatus in the basement of Bagley Hall on the campus. Of course there is more to the process than a gun barrel full of ingredients. Schell's laboratory is an array of beakers, glass tubes, wiring, burners and other equipment.

It appears to be quite complicated, but the process is based on the simple theory that any material containing radio-active carbon-14 can be dated by merely counting the radioactivity it emits.

And scientists are convinced that plants, animals — even sea water — have been absorbing Carbon-14 on this earth for millions of years.

C-14 is formed in the upper atmosphere by the collision of cosmic particles with nitrogen. After a series of chemical changes as it falls to earth it winds up in plants, for instance, during photosynthesis, which is the process that produces carbohydrates and makes green plants green.

Because they know the nature of C-14, scientists can count its rate of radioactivity by comparing the C-14 in old material with that in new and, using a precalculated scale, can determine the age of the old material.

The problem is constructing an accurate counter. And that's where the Colorado's cannon comes in.

A pure steel housing was needed to protect Schell's counter from ever-present outside radioactivity. But modern steel is made in a process involving radioactive Cobalt-60. However, the gun barrels of the Colorado were forged before the new method was used and this is just what Schell needed.

The paraffin, borax and mercury inside the barrel eliminated even more of the background radioactivity and Schell's "time machine" is one of the most sensitive and accurate instruments in use today.

**Progress**  
**MONTREAL (UPI)** — It used to take 100 hours to train a mechanic in the electronics system of the twin-engine DC3. The four-engine Constellation required 200 hours. Today, mechanics spend 1,500 hours in school before they are qualified to work on jet aircraft, according to the International Air Transport Association.

Shorter travel time is the prime object of three-fourths of the new flyers, according to A. J. Boverett, market research manager for United.

"To illustrate, a family living in Ohio or New York can easily spend 12 or 14 vacation days at a West Coast vacation spot if they fly there and back," he said.

Half the first-time flyers will be vacation-bound, the survey indicated. Women appear to be the most adventurous in the survey results, as 60 per cent of those experimenting with air travel will be female.

Breaking down the different types taking first plane trips this year, the survey shows that 24 per cent will be housewives, another 23 per cent will be professional and business people; 20 per cent will be students, 10 per cent will be retired people.

The remainder will come from other walks of life, particularly farming, Boverett said.

First-time flyers will find they must cut down on luggage to 40 pounds, but they can bring their pets in special airplane kennels.

Of these people embarking on air travel, 97 per cent found their first trip satisfactory or most pleasant and 3 per cent indicated disappointment, according to the United survey.

### Orlando Link Of Sunshine Parkway Opened

ORLANDO (UPI) — Mrs. Farris Bryant cut a red ribbon today officially opening the 61-mile Orlando to Yee-haw Junction section of the Sunshine State Parkway.  
The ribbon parted at 10:27 a.m. clearing the way for a free day of motoring on the section. Starting Thursday, it will cost motorists 85 cents to drive the section.  
The section, which is part of the Fort Pierce to Wildwood extension of the turnpike, runs from eight miles south of here where it crosses Highway 17, 92 and 441, down to State Road 60 about 20 miles west of Vero Beach.  
Governor Bryant spoke at the opening of the section and said that in two or three months, the section from Yee-haw Junction to Fort Pierce will be open, allowing motorists to drive on turnpike from here to Miami.  
Among the dignitaries on hand for the opening were Secretary of State Tom Adams, State Road Board members William T. Mayo and A. Max Brewer, State Beverage Director Richard Keating and Director of Public Safety Col. H. N. Kirkman.

OLYMPIC SWIMMER and former AAU Champ Robert Zubrod, left, now a field service representative for the Water Safety Services of the Red Cross, gives final instruction to a new class of Water Safety Instructors here, Tuesday. This group has completed 20 hours of classroom instruction and study of the teaching manual and will now go on to finish actual practice in the water. Sitting on the floor is Mark Jenkins. Front row, left to right are Norman Hicks, Mike Caolo, Ricky Gleason and Don McMurray. Standing are Eleanor Mathers, Betty Field, Eleanor Zukowski, Millie Thompson, Carol Cavill and Sallie Smith. Not seen in the photo is Marion Lewis. Assisting with instruction were Mrs. Martha Kilpatrick, Miss Sally Seider, Mrs. Elmer Avenel and Mrs. Jackie Caolo. (Herald Photo)

### news... BRIEFS

**Big March Seen**  
WASHINGTON (UPI) — Negro leader Martin Luther King Jr. believes as many as 200,000 integrationists will take part in a scheduled Aug. 28 march on Washington.

**Job Plea**  
WASHINGTON (UPI) — AFL-CIO President George Meany asked Congress today to help the Negro find the same job opportunities on the assembly line that he now enjoys on the baseball field.

**Killed In Storm**  
SARASOTA (UPI) — A bolt of lightning killed one man and injured another here yesterday while they were resting under a tree. John Blanton, 26, was badly burned.

**GOP's Invited**  
NEW YORK (UPI) — Gov. Nelson A. Rockefeller and Sen. Barry Goldwater, R-Ariz., have been invited by the Columbia Broadcasting System (CBS) to exchange their views in a television debate.

**Ban Upheld**  
TALLAHASSEE (UPI) — The Florida Supreme Court upheld today a district court of appeals ruling that prohibited distribution of Gideon Bibles in the public schools of Orange County.

**Killed In Rain**  
PONTE VEDRA, Fla. (UPI) — John W. Layzell, 48, of Atlantic Beach was killed here yesterday when he pulled from a side road into the path of an oncoming car during a heavy rainstorm.

**Fears Ouster**  
SANTO DOMINGO (UPI) — President Juan Bosch indicated last night he fears conservative army officers may kick him out of office unless he cracks down on communism in the Dominican Republic.

**Escapee Held**  
FORT LAUDERDALE (UPI) — Police arrested Guy L. Norris, 29, a prison escapee from Colorado in suburban Plantation Tuesday and began a search for his wife and four children who reportedly fled with him.

### Gentlemen May Prefer Blonds, But Judges Don't

### 15 Vie For Miss U.S.A. In Semi-Finals

MIAMI BEACH (UPI) — and three red-haired beauties from across the nation made the semi-finals after strolling before judges in bathing suits and evening gowns.  
A space suit worn by Miss Florida, brown-haired Linda England of Miami, caught the judges' fancy and she won the prize for the best costume.  
The semifinalists were: Alabama, Dinah Irene Armstrong, Montgomery; Arizona, Diane McGarity of Phoenix; Colorado, Miss Betsy Looney, Tennyson; District of Columbia, Michele Metrom; Illinois, Marite Ozers of Chicago, Massachusetts, Su S. Smith, Upper Falls; Michigan, Pamela Lee Sand's, Ludington; Missouri, Sandra Lee Martin, Springfield; Nevada, Kathie Francis, Las Vegas; New Mexico, Sandra Fillingim, from Albuquerque; New York, Jean Quinn, East Meadow; Oklahoma, Robert Mosier, Tulsa; South Carolina, Cecilia McBride Yoder, Lancaster, Tennessee, and Bobby Lynn Morrow of Savannah.

### One Of 2 Killers Wins Reprieve

TALLAHASSEE (UPI) — A 29-year-old cross-country killer has won a 30-day reprieve from his date with death.  
The state supreme court granted a stay of execution Tuesday to Dennis M. Whitney, red-haired Californian who admitted killing seven people in a trip from California to Florida when he was 17 years old.  
He had been scheduled to die Thursday in Railroad's electric chair.  
Another killer, Charles H. Lee, who was convicted in Levy County in 1960, still will go to his death at 8:30 a. m. Thursday, according to Railroad Prison Director Dewitt Sinclair.  
Gov. Farris Bryant signed death warrants for both men earlier this week.  
The supreme court ordered Whitney's stay in effect for 30 days, or until a petition to the U. S. Supreme Court is disposed of.  
The stay, said the court, is subject to cancellation at any time if Whitney fails to seek speedy action by the high court.

### Body Of Cuban Visitor Returns

KEY WEST (UPI) — The body of an American artist who drowned on an illegal junket to Cuba was to be picked up from the U. S. Naval station here today by a funeral director for shipment to Brooklyn, N. Y.  
A Cuban B-74 airliner brought the remains of Hector Warren Hill, 29, of Brooklyn, here Tuesday from Havana.  
Newsmen were not allowed at the naval station to see the plane land, but Key West funeral director F. A. Johnson Jr. said federal authorities told him the plane had landed and Hill's body taken to the morgue.  
He said he would pick up the body today.  
Hill was one of 59 Americans who denied a State Department ban on travel to Cuba and visited Cuba as guests of the Castro government. He drowned Sunday in a Santiago, Cuba motel swimming pool.

### Space Test

SEATTLE, Wash. (UPI) — Five scientists entered a space chamber here Tuesday for a test of an integrated life-support system such as would be needed on a space station or on a moon base.

### Moscow Boy Struck Walking On Highway 13

MOSCOW (UPI) — The United States, Britain and Russia stepped up the pace of nuclear negotiations today, with early optimism tempered by fears that Soviet calls for an East-West non-aggression pact might hinder progress toward a nuclear test ban.  
Soviet Foreign Minister Andrei Gromyko, U. S. Undersecretary of State W. Averell Harriman and Britain's Lord Hailsham met this afternoon in the third straight day of negotiations amid reports they were moving in the direction of at least a partial nuclear test ban.  
Gromyko was giving a dinner for the chief American and British negotiators tonight following the regular afternoon session in the Srednaya Palace. It was the first announced evening gathering of the three-power delegates.  
Although the initial meetings have been surrounded by a cordiality unprecedented in recent cold war history, Western sources cautioned against "undue optimism" that the talks would achieve a breakthrough in the two possible stumbling blocks:  
—The danger that the Soviets might try to link a nuclear test agreement with their repeated call for a non-aggression pact between NATO and the Communist Warsaw Pact nations.  
—The possibility that the Russians might insist on an unpolished moratorium on underground testing.

### U. S. Mediator Called In On Phone Strike

TAMPA (UPI) — Both sides of the violence-tinged General Telephone Co. strike were to sit down with a federal mediator today after a day of violence and arrests.  
New violence erupted at St. Petersburg Tuesday night, where two Pinellas County deputies were attacked at a General warehouse where a fire had been falsely reported.  
Albert Leroy McDonald, 29, of St. Petersburg, was arrested and charged with inciting a riot, assault and battery and resisting arrest with violence in connection with the St. Petersburg incident.  
Det. Capt. Earl Newberry and Det. George Kearns were slightly injured, the sheriff's office said, when "six or seven men" broke from a crowd of 45 or to and jumped on their unmarked police car at the warehouse.  
At first, about 35 men lay down in the path of the car when it tried to leave the warehouse after finding no fire.  
Newberry hit the stern and they moved away slowly, officers said. As the car moved through the crowd, six or seven men attacked the officers.  
The FBI arrested two persons Tuesday hours after the company and the electrical workers union agreed to talk with a federal mediator John L. Kenney.  
Local authorities here arrested several other persons on charges of assault or attempting to obstruct telephone workers.

### Reds Renew Moscow Talks

MOSCOW (UPI) — Communist Chinese and Soviet negotiators today resumed their ideological talks despite a steady worsening of relations between the two Communist powers.  
The biological teams met after a 24-hour recess, during which Chinese negotiators were believed to have received fresh instructions from Peking.  
It was believed they were told to reply to the Soviet attack on Chinese policy published in Sunday's Pravda since Moscow made the attack and distributed it throughout the Communist world, there has been no full-scale Peking rebuttal.  
Diplomats said that further meetings are unlikely to accomplish anything. Some said the Chinese may go home without even the formality of a final meeting.

### Reds Wound 14 U. S. Soldiers

SAIGON, South Viet Nam (UPI) — Fourteen American soldiers were wounded Tuesday night, three of them seriously, in an attack by Communist guerrillas, it was reported today.  
The Americans, members of a U. S. special forces unit, were not identified pending notification of their relatives. Two South Vietnamese soldiers also were wounded.  
The Communists struck just before midnight near Can Tho airfield south of Saigon, firing 16 to 20 rounds from a mortar into a camp where the U. S. and Vietnamese troops were staying.

### Rugged Test Set For X15

EDWARDS AFB, Calif. (UPI) — The natural stability of the X15 rocket ship was scheduled today to undergo a major test today when Air Force Maj. Bob Rushworth shuts off all its automatic controls at 3,000 miles an hour.  
Rushworth today was to attempt to find out how much yawing or side to side motion resulted without the control systems.

### Whom Are We Racing To The Moon? Not Russia, Scientist Thinks

MANCHESTER, England (UPI) — The Russians may drop out of the race to the moon, according to a leading British space scientist just back from Moscow.  
"I would say the Americans are racing themselves," Sir Bernard Lovell, head of the Jodrell Bank Radio Telescope, said Tuesday.  
The Kremlin may let America win the manned moon race by default, Lovell said, because some Soviet scientists feel they could get more information at less human risk by sending instruments instead.  
Lovell, who spent three weeks in the Soviet Union, said the Russians may call off their attempt to land a man on the moon for two reasons:  
—They see no solution to some problems, such as protecting cosmonauts from solar radiation or figuring out how to get them back.  
—They are not convinced it is even a good idea.  
"The key to the whole issue in Russia," he said, "is that there is no conviction at all that it is scientifically or otherwise desirable to have a man on the moon."  
"The sort of debate which has been raging in the West is also raging at a highly scientific and non-political level in the Soviet Union," he said.  
"The Soviets have some space spectaculars in mind— including the construction of a manned space platform — but would rather carry out the most ambitious programs through international cooperation, Lovell said.

### Youths Freed

ST. AUGUSTINE (UPI) — County Judge Charles C. Ma released seven youths yesterday, four whites and three Negroes, after warning them to stay out of racial incidents.

## Oil Search In Florida Gets A Strong Boost

TALLAHASSEE (UPI) — The long-time search for new pools of oil underneath Florida got a strong push as the Cabinet leased 24,230 acres of state-owned land in Dade County for oil drilling.

The lease went to consulting engineer Wendell L. Roberts and others for 10 years at a cost of 25 cents an acre. Roberts said four wells would be drilled during the period to keep the lease active, the first drill going down within the next 18 months.

The wells were scheduled to go to a depth of 11,000 feet. Two 11,000-foot producing wells were drilled in 1968 in the same general area—near 40-mile Road west of Miami—but were abandoned after producing 23,000 barrels of oil. The area under lease is about 10 miles southeast of the only producing field in Florida at Sunland.

## Violent Quake Off Greenland

PRATO, Italy (UPI) — A violent earthquake centered somewhere in the Atlantic Ocean off the coast of Greenland erupted at 2:32 p.m. EDT Tuesday, according to the Seismological Observatory here.

A spokesman said instruments recorded a shock of seven or eight degrees on the Mercalli scale. The center apparently was located 1,000 miles northwest of here, he said.

## Holmes Elected Post Commander

Frank Holmes, first vice commander, has been elected as commander of Campbell Legion Post, American Legion, succeeding Dan Rizala, resigned.

Tom Best was elevated from second to first vice commander and Lt. James Thimadge was elected second vice commander.

A fish fry and picnic will be held from 5 to 8 p. m. Saturday for the benefit of the Legion's baseball team.

Paper money is a Chinese invention.

Roberts said it would cost \$1 million to drill the four wells.

The first successful wells to be drilled in Florida were in the Sunland field in 1943. Oil exploration has been going on in the state since 1900.

The lease will not be final until Atty. Gen. Richard Ervin, who was not at the Cabinet session, places his stamp of approval on the proposal.

In other actions, the Cabinet granted salary increases for top employees in several state departments and set in motion plans for obtaining \$3 million in federal funds to help construct a Dade County branch of the Sunland Training Center for the Mentally Retarded.

The Cabinet also released \$75,000 to finance the state's part of the costs of the National Governor's Conference at Miami Beach next week, and \$280,000 to help finance the Florida New York World's Fair exhibit.

Sunland Training Center director William Mapoles was given a go-ahead to seek \$3 million in federal funds to help finance construction of the new branch institution in Dade County. The 1968 Legislature appropriated \$4 million for planning and constructing the institution, which Mapoles said would ultimately cost \$6 million.

Apparently the additional \$3 million from the U. S. government would just about pay for the center.

Mapoles told the Cabinet that the money could be obtained through the Hill-Burton hospital construction program and the area redevelopment program. Mapoles was directed to meet with the development commission, which administers the federal money, and make application for the funds.

The Cabinet authorized construction of a \$15,000 canteen building at the Sunland Center in Fort Myers.

Sitting as the executive board of the Department of Public Safety, the Cabinet promoted State Trooper E. R. Lowman to corporal and transferred him from Bradenton to Fort Myers. The promotion and transfer will become effective Aug. 1.

## State, Military Plan Gulf Lease Discussion

TALLAHASSEE (UPI) — State officials will meet here July 29-30 with U. S. military authorities to discuss a policy on leasing of offshore areas of the Gulf of Mexico in northwest Florida.

The area involved runs between the Apalachicola River and the Alabama line, much of it in front of military reservations.

The Cabinet, which sits as trustees of state lands, took bids in June on a proposed oil lease in the area, worth thousands of dollars to the state in rental charges. Protests were received from Tyndall Air Force Base near Panama City, Eglin Air Force Base at Fort Walton Beach and Pensacola Naval Air Station and final action granting the lease was held up.

Director Van Ferguson, of the trustees of the Internal Improvement Fund, said the Department of Defense, Navy and Air Force did not make it clear whether they felt Florida should grant no offshore leases in this area. He said the military authorities requested the meeting to discuss the matter.

In other business, the trustees ordered a study of possible bad effects on Indian Creek of widening of Collins Avenue in Miami Beach between 55th and 60th Streets. The trustees also:

Dedicated a small area in the Indian River in the vicinity of Pelican Island as a permanent wildlife refuge. The dedication covered seven islands, including Turtle Pen Slough and Treachers Island but was not as large as the 4,700 acres requested by Indian River County, much of it open water which the trustees said should be left for public use. Pelican Island, the nation's oldest bird refuge, was dedicated in 1903 by President Theodore Roosevelt.

Conveyed to the City of Tarpon Springs for public recreational use 106.4 acres of submerged land in St. Joseph Sound, subject to advertisement for local objections.

The payments gap—the difference between dollars spent by U. S. citizens aboard and those that foreigners spend here — has been serious enough in recent years to cause a sizable erosion of U. S. gold stocks.

A good chunk of the deficit results from U. S. capital being enticed out of the country by foreign bankers offering higher interest rates.

Pushed development of a family recreational project of a 205-acre area on Deep Creek in St. Johns County, under lease to James Appell. Appell said he couldn't sub-lease areas for cottage sites because of a fear the main lease might be canceled for some reason before 1967, present expiration date.

## U. S. Acts To Cut Balance Of Pay Deficit

WASHINGTON (UPI) — The government today opened an intensified campaign to reduce the balance of payments deficit by luring dollars away from more attractive investment markets outside U. S. borders.

It set off a chain reaction of economic forces expected to push up U. S. short-term interest rates slightly to make them more competitive with those of foreign banks.

The White House announced on Tuesday that President Kennedy would give Congress Thursday a progress report on the U. S. balance of payments problem.

Kennedy is expected to recommend adhering to the present policy, only with renewed efforts.

The United States ended 1962 with a \$2.2 billion balance of payments deficit. This shot up to an estimated annual rate of \$1.3 billion during the first three months of this year.

The payments gap—the difference between dollars spent by U. S. citizens aboard and those that foreigners spend here — has been serious enough in recent years to cause a sizable erosion of U. S. gold stocks.

A good chunk of the deficit results from U. S. capital being enticed out of the country by foreign bankers offering higher interest rates.

# Tension Eases Slightly On Race Fronts

By United Press International  
There appears to be a slight if temporary easing of tension on the racial demonstration front despite flareups at Charleston, S. C. and Savannah, Ga.

There was no cause for optimism yet but these developments were encouraging:  
—A 24-hour truce was called in Cambridge, Md., after days of demonstration that had put the area under limited martial law.

—Despite widespread continuing acts of vandalism from a fringe group, major demonstrations appeared to have eased off at Savannah, Ga., one of the Dixie tinderboxes.

—A local leader of the National Association for the Advancement of Colored People (NAACP) called for a 90-day moratorium on racial demonstrations in Columbus, Ga.

—Negroes apparently were playing a wait-and-see game in Jackson, Miss.

—Negroes postponed for one week a scheduled demonstration for better job opportunities and equal housing of persons arrested in East St. Louis, Ill.

The respite coincided with formation of a group in New York which hopes to raise \$1.5 million this summer to finance the campaigns of six leading civil rights groups. The thinking of the group was that financial security might slow down the aggressiveness of the integration groups.

What does it all mean? A prominent Negro leader put it this way: "Don't read too much into what has happened. It is largely coincidence that there was an easing off in several places at one time. But it is true that Negro groups are in a period now of re-assessing the situation."

# Castro Prisoner Offer Reported

MIAMI (UPI) — A Miami attorney reported last night the Castro government has expressed a willingness to release all the political prisoners being held on the Communist island.

The prisoner release, however, hinges on the United States agreeing to admit 325,000 other anti-Castro Cubans who have obtained visa waivers to leave Cuba, according to attorney Jack Nagley.

Nagley represents Harold Derber, president of the Empire Lines Lt., which has been trying to establish a commercial shuttle of Cuban refugees to Florida.

"I have been advised by Mr. Derber that the Cuban government will release all of its political prisoners on the condition that those Cubans who now have visa waivers are permitted to go to the United States," Nagley said in a phone call to UPI from Kingston, Jamaica.

Government officials in Washington said recently that visa waivers — permission to enter the U. S. — have been given to at least 325,000 Cubans who have not been able to get transportation to this country.

Exile sources here estimate the Castro government has about 85,000 political prisoners holed up in various jails and dungeons.

WING COMMANDER AWARD will be the trophy presented each year to the winning squadron in the annual Bombing Derby at Sanford Naval Air Station. The derby, normally held in November or December, was not held in 1962 because of conflicts in connection with the Cuban crisis. The trophy was presented by George R. Gehrkins (left), executive vice president of the Columbus division, North American Aviation, and it was accepted by Capt. Joseph M. Tully Jr. (center) and Capt. James O. Mayo.

# Government's Penny Pincher Campbell Probes Boondoggles

WASHINGTON—(NEA) — When Defense Secretary McNamara gets a letter from Joseph Campbell, he reads it carefully. He assigns a man to investigate every item in the Campbell letter. He personally studies the reply. He usually issues quick orders in line with Campbell's suggestions.

In a quiet, persistent way Campbell is trying to save you and me 38 billion or so a year, mainly in the Department of Defense. He is U. S. Comptroller General. McNamara, in announcing his 1963 fiscal year savings of \$1.1 billion, gave strong credit to Campbell and his general accounting office for triggering some of his most important reforms.

Campbell's investigators have found and called to McNamara's attention these problems:

—Preparedness of combat troop units in the United States and overseas areas and of individual Navy combat and service ships of the Atlantic and Pacific fleets was being seriously affected by their inability to obtain repair parts and other material required for combat readiness.

—"Many instances" when the services "did not know what they had and even where the records showed that needed material was on hand, it could not be located." "We have found," says Campbell, "many examples where millions of dollars of assets were 'lost' for all intents and purposes."

—"In some cases the premature replacement of usable equipment, resulting in a great deal of waste. In other cases the continued use of equipment so broken down that repairs were considerably more costly than the buying of new equipment."

—"Widespread excess procurement. One ridiculous example was a 10 years' supply of coffee."

—"Needless and costly warehousing, and distribution of easily obtainable supplies. Example: Campbell's men found the military departments centrally managing over 1,000 supply items of electric clamps that are readily obtainable at comparable prices to the military at local commercial outlets.

—A tendency to start quantity production of items without adequate development. Campbell's men report \$800 million spent for aircraft and equipment incapable of performing its military mission.

JOSEPH CAMPBELL

—A duplication of effort by the three military departments in developing similar items.

—"Glaring inefficiencies in the military foreign aid program. These included delivery of equipment to countries which lacked the capability to maintain and utilize that equipment."

In one country almost one fifth of the tanks delivered under the military aid program were found unserviceable or deadlined. One third of the 1,100 vehicles in two divisions were considered to be unserviceable. About 38 per cent of the radio communications equipment in another country had an effective range of only one third to two thirds of that for which it was designed.

In a third country more than 2,000 of 8,900 combat and combat support vehicles were inoperable and about half the jet aircraft in a fighter wing were out of commission for lack of parts.

In a fourth country, \$2.2 million worth of ammunition had been on hand for 18 months although the gun for which it was intended had

been cancelled from the program.

Campbell concluded that "more effective military assistance could, through improved economy and efficiency, be obtained for considerably less money than is now required."

"Our review of repair parts support disclosed that lack of repair parts in the Army supply system contributed to the reduction of the combat readiness of certain of the Army's combat and combat-support vehicles."

Campbell described one specific goof: "Unnecessary costs estimated at about \$105,000 were incurred to modify M 131 utility trucks with certain fixtures to facilitate air delivery of the vehicles. This was because the Army failed to assure that the desired fixtures would be included on the vehicles at the time of production."

"This failure occurred despite the fact that during the 10-year period that the M 131 vehicle had been under development, the principal military characteristic required with respect to transportability was that it could be air dropped by parachute and externally transported by helicopter."

Campbell recently said, "The number and types of situations that we have identified involving excessive costs to the Government indicate that these and similar deficiencies are widespread. Noting that McNamara has taken some excellent and determined steps to correct the deficiencies, Campbell nevertheless warns, "Directives and policy statements alone cannot be relied upon to assure that necessary steps are taken."

In reference, however, to some major specific McNamara action, Campbell said, "The various actions taken by the Department of Defense in response to our recommendations, if properly implemented and vigorously pursued, will be a major stride."

# Sino-Soviet Rupture Splits Western Reds

LONDON (UPI) — The Sino-Soviet split has brought parallel cracks in the ranks of Western Europe's Communist parties, once solidly united on policy.

Most Communist leaders remained loyal to Premier Nikita S. Khrushchev's peaceful coexistence line, and in fact have been practicing it as the only means of gaining ground among prosperous European workers.

But since the increasingly bitter exchanges of attacks between Moscow and Peking has brought their antagonism out into the open, tiny anti-Khrushchev factions have begun to appear among European Communists.

In some nations, these splits are barely noticeable to those outside the party. In no case do they appear deep, a United Press International survey shows.

But in Italy, where pro-

Peking Communists have painted "Viva Mao" and "Viva Stalin" on walls of industrial Milan, the leadership of the largest Communist party in Western Europe has had to take public notice of the problem.

Informed sources said the small but belligerent anti-Khrushchev group in the Italian party may have as many as 30,000 members. They said the Peking faction may be planning a congress of its own in the fall.

In Brussels, a dispute broke out Tuesday night over which group of Communists could speak for the Belgium's Reds. One group issued a statement criticizing the Russian stand. Later in the day, another group, calling itself the "majority federation of Brussels" issued a communique disavowing the earlier statement as the work of dissidents.

In France, the Communist party seems to have almost as many factions as the non-Communist political world.

One organ this month published the Chinese Communist anti-Russian letter of June 14 despite the Soviet Union's efforts, later abandoned, to suppress it.

Another dissident French Communist party group this week took out an advertisement in the respected newspaper Le Monde for "The Communist Way," a new publication with such articles as "USSR - China: The Evidence of the Rupture."

# Third Play-Off Game Saturday

Sanford "just fell apart" and was clobbered 8-0 by Orlando in the second game of the district play-off in the American Legion Baseball League Tuesday evening at Oak Ridge Field.

Sanford won the first game 3-2 Monday evening. Final game of the series will be played at 7:30 p. m. Saturday at Municipal Stadium here with Jimmy Courler on the mound for the home team.

Manager F. R. Thomas said this morning "it was just one of those nights last night—the boys just fell apart and committed too many errors. But it will be better Saturday night with Courler pitching."

Bobby Johnson pitched seven innings for Sanford Tuesday evening with Eddie Fitzgerald relieving him in the eighth. Shaney was the winning pitcher for Orlando.

Winner of Saturday night's game and two of the three-game series will go to Tampa for the state championship.

**Home Help Training Planned**

In answer to the expressed need for some kind of vocational training of domestic and homemaker personnel, an organizational and study meeting was held to determine what kind of training program could be set up in the county.

Participating in the discussion were Lyle M. Peddicord, vocational rehabilitation counselor for Seminole County, who acted as temporary chairman; Dr. Frank Leone, Seminole County Health officer; E. S. Douglas, director of adult education; Mrs. Abby Boyd, county welfare director; Joe Foy, manager of the Florida State Employment Office; Mrs. Mary Carmen, FSES service interviewer for domestic help; Mrs. Carmeta Ray, State Welfare supervisor; Mrs. Janet Colle, state welfare area supervisor, and Cecil Tucker, county agriculture agent.

**Pilot's Wife Wins Powder Puff Derby**

ATLANTIC CITY, N. J. (UPI) — Mrs. Virginia Britt, Fort Lauderdale, the wife of an amateur pilot, was named the winner Tuesday night of the 17th annual Powder Puff Derby, an all-women transcontinental airplane race.

Mrs. Britt flew the 3,000-mile course from Bakersfield, Calif., to this resort city on the Atlantic Ocean with Mrs. Lee Winfield, Miami Springs, as her co-pilot.

Their victory was considered by a Derby spokesman as "quite remarkable" because their Piper Cherokee PA-28 has only a 180-horsepower engine while the majority of the 42 planes that finished the race were equipped with 250-horsepower engines.

In addition, Mrs. Britt, mother of one son, only had 445 hours of flying time and Mrs. Winfield, who has four children, only 260 hours.

The Derby spokesman said many contestants have up to 17,000 flying hours to their credit.

The Britt-Winfield team arrived here at 11:09 a.m. EDT yesterday, coming in as the 25th plane.

The official winner is determined by the difference between her average flying speed and a handicap speed determined by the capacity of her plane.

The Derby spokesman said Mrs. Britt and Mrs. Winfield won because their "navigation was very good and they caught good winds. They waited for good winds."

**State Withdraws Offer On Base**

TALLAHASSEE (UPI) — Secretary of State Tom Adams announced yesterday the state had withdrawn its offer to buy the deactivated Green Cove Springs naval base.

The state had bid \$620,000 for the base as an industrial site.

Adams said the state became interested in the facility at the insistence of a group of state, county and city officials, and agreed to buy the base at its appraised value of \$620,000.

But he said shortly after the state's offer, the Owlson interests, and later the city, offered to purchase the facility for \$750,000.

The secretary said the state later offered to buy the base for \$620,000, sell it to the city for \$750,000, and convert the \$130,000 difference into industrial development of the site for the benefit of the community.

"This offer was never honestly conveyed to the public by the persons receiving it," Adams charged. "Rather the story was told that the state intended to reap the fat profit of \$130,000 at the expense of the citizens," he added.

Employment service officials noted that it is often difficult to obtain domestic help that is able to assume responsibility with a minimum of supervision for such routine work as the proper use of appliances such as stoves, washers, dryers, sweepers and so forth; how to clean, dust and scrub, etc.; how to prepare food in an acceptable manner; and child supervision.

Douglas indicated that certification of a qualified instructor and coordinator would be important and the writing of a course curriculum would be initially necessary.

It is anticipated that the course can be offered through the sponsorship of adult education offices. Each person successfully completing the course would be issued a diploma to substantiate their qualifications to prospective employers.

Foy noted that it is often difficult to fill job orders due to what is expected of domestic workers for the wages that employers are willing to pay.

It was agreed that most people would be willing to pay a more acceptable wage if they were able to procure a trained and qualified employee.

It is hoped that the public and prospective employers will offer suggestions and express a degree of interest so that the committee will be able to evaluate the degree of interest for the training of qualified help.

It is also hoped that persons interested in such training will call the Florida State Employment Service, and indicate their desire for such a course.

If the initial course is offered and is successful, the plan is to broaden the scope of training to include such training as day nursery workers, nursing aides and possibly practical nursing.

Foy was made permanent chairman of the advisory committee. Meetings will be called as the need arises. Persons who would be interested in joining future meetings are urged to contact the Florida State Employment Service offices.

### Spares

By John A. Spinks

Sure, we'll hear about the high scores turned in by the legions in the Sunday Sweeper. And we'll hear praise on our "gal friends," the legions in the various morning and afternoon leagues. We're especially proud for the junior bowlers participating here at Jet Lane.

But the dream of ours, which started some three years ago when we first opened, finally came true on Monday night!

We're pleased as punch 'cause now we have the parent-younger league functioning and it just has to be the most popular league in Sanford.

As was expected, the "kids" gave us a lesson or two on how to really bowl. And more importantly, how to enjoy yourself while you're bowling, too!

I only have one question to ask at this point. Why must they always get extraordinarily hot when they come up against us?

If you see young Jim Brewer walking around with a cast on his foot, you'll know that I finally got around to tripping him (that's the only way I could hope to beat their team last night). Do you know what this little "show-off" (only kidding, Jim) did on Monday? He just averaged about a 198, that's all.

Jim shot games of 213, 171, 197/581 scratch series. (If you don't mind, today, I'd rather just report other people's scores and not mention mine!)

Don Nicklaus, another member of this league, had good night, too.

Don had a 550 series with games of 186, 181, 163/530.

See what I mean about the "kids" showing us "old" folks how to bowl?

All in all, I think that everyone is extremely happy to be a part of the league and it should prove over a more popular comes the fall season.

If you'd like to join at this late date, be at the lanes on Monday at 8:30 p.m.

And before it slips our mind

# Sanford All-Stars In District Tourney Monday

## Palmer Man To Beat Despite PGA Jinx

DALLAS (UPI) — Favored Arnold Palmer laughed off the suggestions of his fellow pros today that if he doesn't win the PGA golf championship this week he may develop a defeatist complex which will keep him from ever capturing it.

"Maybe it's wishful thinking on their part," Palmer smiled. "At least, I haven't stayed awake nights worrying about it and I'm not likely to start. Of course, if I don't win it pretty soon I'm liable to start wondering if I ever will."

"But right now, I'm not worried. I'm worried more about my head cold and my driving."

The PGA, which starts Thursday over the 7,046-yard, 18-hole Dac Country Club course, is the only major title Palmer hasn't won. He has taken the Masters three times, the British Open twice and the U. S. Open once.

Despite his poor showing in the British Open last week, Palmer is regarded as the man to beat in this 48th annual tournament for the nation's golf professionals.

"You never want to sell Palmer short," said his George Beyer, who thinks his chances on rolling course "are as good as anybody's."

The starting field for Thursday was reduced to 167 with the withdrawal of Bill Casper, Cary Middlecoff, Toby Lyons, Sunday Horner and home pro Graham Ross. Casper and Middlecoff withdrew because of injuries — Casper with a bad hand which has kept him off the tour since May and Middlecoff because of a bad back.

The field will be cut to the low 75 and ties after Friday's second round for the final two rounds of play on Saturday and Sunday.

## Little Stu Miller Saves Orioles Again

By United Press International

What are the odds that Dick Radatz, the Boston monster who terrifies American League hitters, would be challenged by a pitcher who was once blown off the mound by a gust of wind?

You name 'em and you've got the odds against Stu Miller, a 160-pound chap whose hobby is contract chaps, being in the big leagues in the first place. Yet the ex-San Francisco Giant right-hander is doing a brilliant job of relief pitching in his own right and is the key reason the Baltimore Orioles are still within shouting distance of the American League lead.

Miller, whose equipment is described by hitters as "slow, slower and let's not get ridiculous," has been the closest-out pitcher in the Orioles' last seven victories dating back to July 5. He's been the official winner in only one of those games and his season record is a mere 3-4 but that only proves that records don't always tell the real story.

Miller — he was "blown" off the mound by a sudden gust of wind during the 1961 All-Star game in San Francisco — turned in a typical clutch relief job Tuesday night to preserve the Orioles' 5-2 win over the Detroit Tigers. The win moved the Orioles to within 6½ games of the first-place New York Yankees, who were rained out in Minnesota.

The Los Angeles Angels shaded the Cleveland Indians 2-1, the Washington Senators downed the Chicago White Sox, 2-1, and the Kansas City Athletics routed the Boston Red Sox, 11-0, in other AL action.

## McCovey Racks Up 27th, 28th Circuit Clouts

By United Press International

While McCovey is closing in on a National League home run record and there'll be no asterisk alongside his name if he makes it.

The free-swinging San Francisco Giant outfielder hit his 27th and 28th homers of the season Tuesday night when the Giants split a pair of 3-2 decisions with the Pittsburgh Pirates.

The two blows gave him a total of 10 for the month — only six fewer than the NL mark set in 1949 by Ralph Kiner of the Pirates.

Kiner's mark doesn't lose the prestige of Babe Ruth's 60 in 1927 so there won't be any national uproar to disturb Willie's comic-book reading.

Baseball's poobahs put an asterisk alongside Roger Maris' name when he hit 61 homers in 1961 on the grounds the season was longer than when Ruth set his record in 1927. But as far as anyone knows nobody in baseball has suggested that the month of July is longer now than it used to be.

McCovey has hammered away at a .323 clip since June 30 and has lifted his season average to .281.

McCovey's 27th homer came in the ninth inning of Tuesday night's opener and gave the Giants their victory. Willie also homered in the first inning of the nightcap and had a second hit during the game but the Pirates earned the split on the strength of a nine-hit attack that included two triples by Dick Schofield, one by Bill Virdon and doubles by Roberto Clemente and Bill Mazeroski.

The Los Angeles Dodgers beat the Philadelphia Phillies, 5-2, before suffering a 10-2 loss, the St. Louis Cardinals nipped the Cincinnati Reds, 5-4, in 10 innings, the Chicago Cubs defeated the Milwaukee Braves, 1-0, and the New York Mets topped the Houston Colts, 4-3, in other NL games.

## Cooper Given Trippi's Post

ATHENS, Ga. (UPI) — Ken Cooper, former bulldog end who served as freshman end coach here last season, today was named offensive end coach for the University of Georgia by succeeded Charley Trippi.

Trippi, one of Georgia's all-time playing greats, recently resigned to become offensive backfield coach of the professional St. Louis Cardinals.

Acting Athletic Director H. T. Hollis, who took over last winter when Wally Butts resigned, announced that the 28-year-old Cooper, a native of Tifton, Ga., was moving up to the varsity coaching staff.

Trippi, All-America back in college and an all-pro back, had been switched from backfield coach to end coach during the winter. The move coincided with Trippi being the only member of the University of Georgia staff to support Butts when a controversy arose over a magazine report that the former athletic director gave the Georgia football secrets to arch-rival Alabama. Butts denied the report.

Boston News-Letter, published by John Campbell, Boston postmaster, on April 24, 1964, was first printed newspaper to appear in the American colonies.

## Badcock Beats Chase 14 To 4

Badcock Furniture scored 14 runs on 14 hits Tuesday in the Metro Soft Ball League to beat Chase which put across 4 runs on 5 hits.

Otto Thomas wielded the Furniture stick for a home run off Dick Frank's offerings. Earl Evans was the winning pitcher.

Badcock Furniture 3 0 3 4 3 1 2 14 14  
Chase 1 0 0 1 0 2 4 8

## Southeastern Conference Split Seen Due To Kentucky Policy

NEW YORK—(NEA)— Look for the Southeastern Conference to split into two circuits because of Kentucky's integration policy on athletics . . . Coaches in the area are convinced it'll happen in a couple of years . . .

Golden Dome January feels there ought to be two PGA tournaments—one for medal and one for match play . . . since 90 per cent of the gold in the world is match play.

Jack Nicklaus exudes more personality losing than he does winning . . . He was charming and disarming after he failed to make the cut for the United States Open, disdained excuses . . . "The aim hit is hard to get," said Jack (who won the first leg with his Masters triumph). "Maybe I buy myself up so much I don't play well!"

If you consider chewing tobacco is messy in a baseball park, Steve Hamilton of the New York Yankees tells us there are quite a few chawers on the basketball courts in Kentucky . . . and without spittoons . . .

There's no chance at all the New York Mets, or even the Jets, will be playing in the new Flushing Meadows stadium this year . . . among other things, the Mets want the honor of opening it officially next spring since they can't get it this summer.

With all the fine games, he has pitched, Jim Bouton of the Yankees still feels he showed his best stuff in a four-inning relief stint in Minnesota . . .

Floyd Patterson has a slow mad-on against Sonny Liston for the way the heavyweight champion has disparaged the abilities of the man who gave him the shot at the title . . . the last time Floyd had any feelings about an opponent was before the second bout with Ingemar Johansson after the Swedish clouter had pooh-poohed Patterson . . .

Patterson's new kick, flying planes, extends only to those in which he can handle the stick himself . . . the instructor convinced him if the motor conks, the plane still will come down okay . . . "Jets," says Floyd, "don't glide." . . .

Why in the world would the St. Louis football Cardinals trade Hugh McInnis a tight end with considerable experience, for Buddy Humphrey of Dallas, a reserve quarterback who has flubbed two trials? If they had waited till August and the first cut-down date, they could have had Humphrey for nothing— he didn't have a chance of making the Cowboys with Eddie LeBaron, Don Mer-

JACK NICKLAUS

## Rozelle Ends Current Phase Of Grid Probe

NEW YORK (UPI) — Pete Rozelle, commissioner of the National Football League, apparently has concluded the current phase of his investigation of gambling on NFL games.

Rozelle admitted Tuesday "no other pressing matters" are being probed after he cleared Carroll Rosenbloom, millionaire owner of the Baltimore Colts, of all charges that he bet on pro football games.

The commissioner added, however, that "this matter of surveillance and checking is a constant procedure."

Rosenbloom had been accused by three individuals of betting on pro football games during a period eight to 10 years ago.

"All three of the accusers making the original charges against Mr. Rosenbloom . . . subsequently repudiated or withdrew their earlier charges in new affidavits given to the commissioner," Rozelle said in a prepared statement.

Rozelle's probe into NFL gambling reports was launched last year. Last April he suspended indefinitely Paul Hornung of the Green Bay Packers and Alex Karras of the Detroit Lions for betting on games and leaved fines against five other players and the Detroit club.

## Builders Beat Wilson-Maier

The Kingswood Builders beat the Wilson-Maier Tuesday in the Men's Soft Ball League by a score of 9 to 5, making the most of 11 hits off the offerings of Don Masala.

Bud Moncrief gave up 10 hits.

Wilson-Maier 0 2 0 1 0 2 5 10  
Kingswood Builders 3 0 4 0 1 1 x 9 11

## Sun Sox Sink St. Pete By 19-3 Score

Sarasota showed off its Florida State League leading batting power last night by defeating St. Petersburg 19-3.

The Sun Sox, paced by pitcher Tom Hoagland's three-run double, slammed out 19 hits off three helpless Saints pitchers.

In other action last night Miami defeated Fort Lauderdale 2-0, Orlando edged Daytona Beach 2-1 and Lakeland at Tampa was rained out.

Miami won its fifth straight game by scoring two runs in the first inning, then using three pitchers to hold the Yankees scoreless.

First baseman Al Menke's fourth hit of the night, a bouncing single over third base, scored the Twins' winning run against Daytona Beach after 13 innings.

Tonight, Miami plays at Fort Lauderdale, Orlando travels to Daytona Beach, Tampa plays at Lakeland and Sarasota goes to St. Petersburg.

H. L. DOUGLAS

Colored Community News

Principal Devotes Life To Students

By Robert B. Thomas Jr.  
(FA 2-5736)

H. L. Douglas, who is principal of Crooms High School, has dedicated most of his life working with boys and girls in the Seminole County school system.

In 1929, he was appointed to the faculty of Crooms Academy. Since that time his influence has pierced the lives of many boys and girls. For many years he was a giant in the class-room; and his humor therein would brighten most any student's darkest day.

Douglas was a successful coach, also. So far he is the only coach ever to have an undefeated team at Crooms. His influence on the players was tremendous; and he could inspire one with a burning desire that would eventually yield excellence. Moral and spiritual values were constant tunes which he played into his players' ears. He stressed fair play and insisted that his team behave in a dignified manner at all times.

In August of 1966 he was appointed principal of Crooms High School. His primary concern has been the wholesome development of youth; ever emphasizing democratic relationships and outstanding leadership; the need for self-control, alert minds, moral obligations to self and to one's fellowman. He advocates "perseverance for a complete and satisfactory job. We in this community are fortunate that this dedicated man decided to teach rather than become a dentist.

All parents who have children who will enter first grade this term, please register them Aug. 1-10 at the following schools: Goldsboro Elementary, Jackson Heights, Hopper Elementary and Midway Elementary. The child must have attained age six by Dec. 31. Registration requirement: Birth certificate! All students who will attend school in this county for the first time are asked to register at this time, also.

Lawrence Jenkins has returned home after spending a tour of duty in the armed services. Jenkins is a graduate of Crooms High School where he was a consistent performer with the Panther football team. He resides at 1603 West Seventh Street with his aunt, Mrs. Zera McGee.

Mrs. E. M. Burney & grandson of Atlanta, Ga., are guests of Miss Katie Robinson and family.

Mr. and Mrs. Royce Williams and Mrs. Aletha Peterson motored to Tuskegee, Ala., to visit Mrs. Peterson's son, Ernest, who is in

the VA hospital. Beverly McClendon and her brother, Michel, are visiting relatives in West Palm Beach.

Mrs. James Foster left Monday night motoring through the country to Madison, Wis. Her first stop was Palatka, where she was joined by Mrs. Cleo McCray Higgins, dean and instructor at the Junior College located in Palatka. Mrs. Foster matriculated at the University of Wisconsin recently in the area of library science. She plans to visit Milwaukee and Bloomington, Indiana, where she hopes to see Miss Shirley Wynn, who is studying at the University of Indiana. The last place she intends to visit is St. Paul, Minn.

Mrs. Susie H. Blackshear attended the National Education Association convention. It was held at Cobo Hall, Detroit, Mich. While there, Mrs. Blackshear visited many relatives whom she had never met. A family picnic was given in the honor of Mr. and Mrs. Louis Harrington, Mr. and Mrs. Frank Belamy and family, Jacquelyn Harrington, Mrs. Blackshear and her son, Edward Blackshear Jr., where over 100 relatives attended. Mrs. Blackshear said, 1. The mountain driving was excellent and exciting. 2. They toured some 200 miles in Canada. 3. Visited Niagara Falls and went on sight-seeing tours in Detroit, which included salt mines under the city and car factories. 4. Visited places of interest in more than 12 states.

Attorney Willis George Allen, formerly of this city is working with a law firm in Miami. Allen is a graduate of Crooms High School, Florida A&M University and the University of Florida Law School. We are indeed very proud of this young man.

It's too bad that some people can be so uncouth. We have several places to dump our trash yet there are some of us who won't even take the time to find one. Just across the railroad on McGee Cracker Road someone has a tendency to throw trash on the side of the road. Believe it or not, somebody threw an old sofa out there not too long ago. This is a lack of well?

# BEEF SALE-A-RAMA

Swift's Tru-Tender Beef — Sold With A Money Back Guarantee

# Butler - McNeill Vows Said In Candlelight Ceremony

Mrs. Betty Elaine McNeill, daughter of Mr. and Mrs. James D. McNeill, became the bride of John Frank Butler Jr., son of Mr. and Mrs. John F. Butler Sr., Monday night, July 15, at 7:30 at the First Presbyterian Church. The Rev. Grover C. Sewell officiated at the double ring ceremony.

Baskets of mums, pom poms and carnations decorated the church and palms and glowing tapers in branched candelabra formed the background for the exchange of wedding vows. Pews were marked with small bouquets of white flowers tied with white satin streamers.

A program of nuptial music was given by Miss Joan Wilho, organist, and Bob Crumley sang, "The Lord's Prayer," "Oh, Perfect Love" and "I Love You."

The bride, escorted to the altar by her father, was lovely in a white satin princess style bridal gown with chapel train. The fitted bodice was fashioned with re-embroidered detail of nylon netting and seed pearls and her veil of silk illusion fell from a half cap of seed pearls. She carried a cascade of white carnations centered with a white orchid.

Matron of honor, Mrs. Robert H. Mitchell, wore a light blue silk sheath with matching overskirt and blue accessories. She carried a cascade bouquet of pink and white carnations. Bridesmaids, Miss Margaret Ann Butler and Miss Betty Sue Butler, wore identical ensembles.

Robert H. Mitchell was best man and ushers were David A. Butler and James E. Butler.

For her daughter's wedding, Mrs. McNeill chose a blue lace-trimmed street length dress with white accessories and her corsage was of white carnations.

The groom's mother wore a turquoise street-length dress with white accessories and a corsage of white carnations.

Following the ceremony, a reception was held in Fellowship Hall which was decorated in an all white motif. The lace covered table was centered with a four-tiered cake flanked by candelabra holding white tapers. Assisting with the serving were Mrs. Phillip Goodspeed, Mrs. Donald Yost and Mrs. Jim War-

ner. Mrs. Ray Johnson was in charge of the bride's book. For her wedding trip, Mrs. Butler wore a white dacton suit and planned the orchid

from the bride's bouquet at her shoulder. Upon their return, the couple will be at home on Sipes Avenue in Sanford.

MRS. JOHN FRANK BUTLER JR.

# Couple Married In June Service

The marriage of Miss Ingrid Georgine Hyman, daughter of Mr. and Mrs. Ferrell A. Hyman, of Chuluota, and Billy Horace Smithson, son of Mr. and Mrs. P. M. Smithson, of Oviedo, took place on June 23 at the Chuluota Catholic Mission. The Rev. James A. Lowe performed the double ring ceremony.

White mums, palms and lighted tapers in candelabra decorated the altar of the church. A program of nuptial music and the traditional wedding marches were played preceding the exchange of vows.

The bride, who was given in marriage by her father, wore a street length chiffon dress with a lace overjacket and a pill box matching hat. Her flowers were carnations with a heart shaped centerpiece with an orchid.

Miss Sandra Marie Peterson was maid of honor and she wore a lime colored street length dress with a corsage of tangerine mums.

Larry Tanner was best man and ushers were Richard and Roger Smithson and Norbert Hyman.

The bride's mother wore a pink lace dress with white accessories and a corsage of white carnations. The groom's mother was in an ensemble of tan with brown accessories and her corsage was of white carnations.

Following the ceremony a reception was held at the Oviedo City Hall.

The couple went on a wedding trip to Key West and are now at home in Oviedo.

# Bear Lake Rite Unites Couple

By Shirley Westworth

Miss Lillian Jane Kirk, daughter of Mr. and Mrs. John A. Kirk of Bear Lake became the bride of James Christopher White on Friday, July 5, at an 8 o'clock service in St. Andrews Presbyterian Church. The Rev. Thomas Makin performed the double ring ceremony which was the first wedding to be held in the new church.

Mr. White is the son of Mr. and Mrs. Lambert Vinson of Tavares. The church was decorated with white mums and gladiol arranged in white baskets placed at either side of the communion table. On the table were arrangements of white mums and white tapers in silver candelabra.

Organist, Mrs. Bennie Drigger accompanied soloist, Mrs. Paul Rudolph, in a number of nuptial selections.

The bride, given in marriage by her father, wore a princess style ballerina-length gown of white satin with an overlay of Chantilly lace. The bodice featured a scalloped Sabrina neckline and empire waist with an inset of satin from the front bodice ending in wide back panels. She carried a satin covered prayer book topped with a cascade of white carnations and mums tied with streamers of white satin ribbon. Her shoulder-length veil of silk illusion was held by a tiara of seed pearls and sequins with a pearl drop in center.

Maid of honor, Miss Sandra Kendall of Bear Lake, wore an aqua satin street length dress with matching accessories and she carried a cascade of white mums.

Best man was Ronnie Murphy and ushers were the bride's brothers, John and Sam Kirk. The ushers lighted the candles preceding the ceremony.

Mother of the bride wore a beige crepe dress with matching full length coat, beige accessories and a shoulder corsage of white carnations. The groom's mother chose a blue street-length dress with white accessories and she, also, wore a corsage of white carnations.

The reception was held in the home of the bride's parents immediately following the ceremony.

The lace covered buffet table held a three-tiered wedding cake topped with a miniature bride and groom. The pink and white cake carried the color scheme through to pink candles placed in the gold candelabra that was circled with flowers. A lovely punch bowl was placed at one end of the buffet.

The couple are making their home in Leesburg.

Paul Rudolph, in a number of nuptial selections.

MRS. JAMES C. WHITE

# Circle Schedules Card Party Event

The St. Anne's Circle of the Church of Nativity in Lake Mary will hold a card party Friday night at 8 o'clock in the social hall of the church.

The chairman of the event is Mrs. Terry Fay.

Plans for the benefit were made recently at the home of Mrs. Jo Stankiewicz in Sunland Estates. At this meeting new officers of the circle were in charge. They are Mrs. Rita Glaser, chairman, Mrs. Patricia Dulles and Mrs. Katherine Rogers, treasurer.

# Try Pizza-tizers For Party Crowd

For quick-and-easy hot appetizers, try this tip from Lambrecht home economists. Prepare frozen pizza according to package directions. Use either plain cheese or sausage/cheese pizza, or both.

When it's done take it from the oven and divide into pieces just big enough for one bite each. Serve the tiny pizza hors d'oeuvres steaming hot, and watch your guests make them disappear.

# Welcome Wagon Stays Busy Calling On New Arrivals

Welcome Wagon official, Virginia Petrocki, stays busy greeting newcomers to this area.

Among the latest to be welcomed are: Mr. and Mrs. John Capwell, John 10, and Joanne, 12, from Pensacola; Mr. and Mrs. L. O. Conner, Snapper, six-and-a-half, Kevin, five, and Paul, one-and-a-half, from Brunswick, Ga.; Mr. and Mrs. G. W. DeGeyer and Jimmie, two, from Dayton, Ohio; Mr. and Mrs. Raymond Gazil, Ray, two, and Mona,

five, from Orlando. Mr. and Mrs. J. M. Jenkins and Joey, three, from San Joaquin, Calif.; Mr. and Mrs. A. H. Lanyon, Della, 15, Ginny, 13, Charles, eight, and Harry, nine, from Tampa; Mr. and Mrs. J. O. Mayo and Tracee, nine, from Jacksonville; Mr. and Mrs. E. W. Smith from Louisville, Ky.; Mr. and Mrs. O. Stanley and Nickie, 10, from Logan, W. Va.

Mr. and Mrs. J. T. Allen and Theresa, five months, from Clone, Ala.; Mr. and Mrs. R. L. Greene, Timmy, four, Robert, five months, and Sis, two, from Hawaii; Mr. and Mrs. R. H. Hoogerwerf, Patricia, 12, Sherry, eight, Mike, 10, and Timmy, 18 months, from Albuquerque, N. M.; Mr. and Mrs. W. C. Kehm, Roxanne and Cindy, eight, from Norfolk, Va.

Mr. and Mrs. E. W. Marcel, Aidden, 18, Glen, four, Lynette, 10, and Tara, eight, from Maitland; Mr. and Mrs. R. W. Robinson, Nancy, 15, Barbara, 12, Jane, 10, and John, seven, from Tallahassee; Mr. and Mrs. R. N. Skelly, Lynn, 12, Marian, nine, Keith and Kimberly, 10 months, from Whidby Island, Wash.; Mr. and Mrs. S. L. Davis from Hollywood, Fla.

Mr. and Mrs. T. Sierputowski, Gayle, 16, Ralph, 15, Frances, 12, Helen, nine, Ted, eight, and John, four, from Meridian, Miss.; Mr. and Mrs. C. C. Stone, Jackie, nine, Terrie, five, and Diane, three, from Whidby Island, Wash.

# Altamonte Personals

By Julia Barton

Mrs. Hugo Wolf and daughters Susan and Patty of Grandview Ave. are spending a few weeks at Ft. Myers. Mr. and Mrs. Paul French of Tropic Rd. are back home after a 10 day vacation and business trip in Delray Beach. Mrs. French spent most of her time at the beach acquiring a nice suntan. While on vacation they celebrated their 29th wedding anniversary on July 14.

Mr. and Mrs. Charles Betts sold their home in Orienta Gardens and have moved into their new home on Faith Terrace in Maitland. Mrs. Betts is recuperating at the Florida Sanitarium and Hospital in Orlando after receiving a bad electric shock from her washing machine a week ago.

Mrs. Frank Perry of 124 Dolores Dr. is at the Florida Sanitarium and Hospital where she is receiving treatment for an eye infection. Lcdr. John Chandel from Sebastian is a houseguest of Mr. and Mrs. W. P. Medcalf on Hattaway Dr.

Lt. Col. and Mrs. C. P. Boute and daughter from Patrick Air Force Base were weekend guests of the Medcalfs. Mr. Medcalf spent 6 days at the Florida Sanitarium and Hospital and is now recuperating at home under doctor's care.

Mr. and Mrs. Thomas Householder of Spring Lake Rd. are back from 2 weeks vacation at Mingo Junction, Ohio, where they visited her parents, Mr. and Mrs. Lewis Schultz and his mother Mrs. Howard Householder.

Mr. and Mrs. Guy Nuss are spending a week in Hollywood, Fla., with her parents Mr. and Mrs. R. Diller. Mr. and Mrs. Peter Clark and children, Joanne, Ricky,

# Chili Hot Dogs Cookout Favorite

Hot dogs are always a cookout favorite whether they're made over an open fire or on a charcoal grill. To dress up sizzling-hot hot dogs, try some of the delicious sauces readily available in cans and bottles—it'll be a delightful change from routine mustard and catsup.

One of these hot dog dress-ups packed in a can is Chili Hot Dog Sauce with meat. It adds a delectable South-of-the-Border taste to hot dogs cooked outdoors or in the kitchen. This zesty blend is made with beef, tomato, chili powder and other spices and seasonings for a savory, meaty flavor.

# DOUBLE-DUTIFUL

A housewife can save many steps if she has two sets of cleaning equipment. Keep one set in the bathroom and the other in the kitchen. Includes an antiseptic cleanser, a sponge with one surface for mopping up and the other for scrubbing, and a sponge cloth.

# COLOR WISE

NEW YORK (UPI)—Greens and blues are important summer and fall drapery colors, according to a survey of the decorative fabrics markets by Home Furnishings Daily. Rust and orange are next in popularity.

# Dear Abby: By Abigail Van Buren

**DEAR ABBY:** Recently I answered my door and was confronted by a woman who insisted that I KNEW her. When I told her I didn't, she seemed offended, and kept me guessing for some time. It was most embarrassing. She turned out to be an old schoolmate I hadn't seen in FORTY-ONE years! Really now, Abby. We weren't that close in the first place and hadn't had any contact in all that time. It was good to see her again, but wasn't she presumptuous to have expected me to remember her? She had the advantage over me because she had been told where I was living. How does one tactfully handle the idiotic question, "I'll bet you don't remember me, do you?"

### EMBARRASSED

**DEAR EMBARRASSED:** With the forthright honest reply, "Perhaps I should but I'm sorry I don't. Who ARE you?"

**DEAR ABBY:** My wife and I have three children under five years old. Several times when I've come home from work, I've found them badly bruised. Even with broken bones. My wife said they fell out of the highchair, or down the cellar steps. Once the older one said, "Mommy hit us," and she was called "a filthy liar". Now I'm sure my wife has been mistreating the children because I came home early yesterday and caught her in the act. She says it's my word against hers and a man can't testify against his wife. Is this true? I operate a complicated machine, Abby, and I can't keep my mind on my work for worrying about the children. Can you help me?

### WORRIED FATHER

**DEAR WORRIED:** Ask a lawyer (or District Attorney or sheriff) how to get your children away from a possibly dangerous and ill mother. They may need something beside your word for it, but they will advise you on tactics. And don't delay.

**DEAR ABBY:** To the 52-year-old woman who is pregnant goes my congratulations. She should be world famous. There are only TWO cases on record where a woman past 46 has had a child.

### DR. K.

**DEAR DR.:** WHAT record? Many women are able to bear a child in their fifties. And have the "children" to prove it.

**DEAR ABBY:** I have just read the letter signed "ICEBERG" and it is almost a perfect on my situation, except for a few details. HER husband bathes once a week. She's lucky. MINE takes his bath in July. Her man has 4 teeth. Mine has 5, and has never been to a dentist in his life. He also refuses to see an M.D. We have been married 51 years, have 9 grown children and 22 grandchildren. I keep his clothes clean and also his bed, but I will not share it. You probably wonder why I stay with him. I love him. But not a physical love. That's out!

### ICEBERG NUMBER TWO

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

# Jacoby On Bridge By Oswald Jacoby

South felt that he was right conservative merely to bid four spades and then refrain from redoubling. It was just as well that there was no redouble because South did not make his contract. He started all right by winning the heart opening and leading out his ace of trumps, but he continued with the jack of trumps. West took his queen and later on South had to lose two more trump tricks and a club. South should have followed his ace of spades with a low one. West would still take his queen, but South could

play his jack of spades later on and eventually pick up East's nine spot with the ten. Why was South's unfortunate result due to bad play and not to luck? Because South had nothing to gain by leading the jack of spades after taking his ace. Should trump break 3-3, he was only going to lose two spade tricks on any play. Should either defender hold four to the king-queen South would have to lose three trump tricks, but if either opponent held queen-small or king-small then the low play would save that all-important contract.

# Highlights

7:30-8 p. m. CBS. Portrait of Senator Richard B. Russell, Democrat from Georgia, gets the attention tonight in this unusually effective and enlightening method of characterizing the nation's, and the world's most influential men. The method is simply itself. A simple conversation in the most uninhibiting of atmospheres. At his home in Winder, Ga., Senator Russell talks with Harry Reasoner about his youth, his experience as a public servant and his political philosophies.

7:30-9 p. m. NBC. "The Virginian." "The Money Cops." (color) (rerun) This series, noted for some quality guest performances, does not lack that ingredient tonight, although the acting is overshadowed by a fine script. Steve Forrest stars as a common setting up a bank robbery in Medicine Bow. His plans work as smoothly as the charm of his manner when two unexpected forces turn against him. There is a run on the bank and a run on him by the banker's daughter, his intended foil. Joanna Moore and Belbel Leslie are featured with stars Lee J. Cobb, James Drury, Doug McClure and Gary Clarke.

9:30-10 p. m. CBS. The Dick Van Dyke Show. (rerun). If the ending of this plot seems weak, it's only because a gagfire.

**WAYNE'S PLANS HOLLYWOOD (UPI)**  
 John Wayne completed his role in the multi-million dollar production of the Biblical movie, "The Greatest Story Ever Told."

Wayne makes his next picture in Europe. He'll have his yacht over there and plans to sail European waters when not working on the picture.

# We The Women: By Ruth Millett

Recently I received this letter: "Because of my job I moved to a new location about three months ago. I work long hours, travel frequently and haven't had a chance to meet new friends. I'm a bachelor and would like to meet some attractive women, but don't know how to go about it." This problem can be easily solved. Just let it circulate among the married men you know that you're interested in meeting some girls, and you'll have so many invitations you'll need a secretary to handle your social life. Don't you know that every young married woman wishes she knew an eligible bachelor?

She can count on him to help her out when her old school chum arrives for a week's visit; when she invites her husband's secretary to dinner, or when she wants to have a college-girl cousin for the weekend. Every married woman faces the problem of where to find an extra man when she entertains. And most young married women have at least one good friend for whom they'd like a find a husband—somebody they know is a perfectly wonderful girl who would make some man a good wife—if the right man could just be found. So no young man needs to be lonely in a strange city or wonder how to go about

meeting girls. The situation of the lone male is in no way like that of the lone young woman. An "extra woman" is a problem to the hostess. But the "extra man" is the answer to a hostess' prayers.

trump hand

The newspaper advertiser bids for business from strength. Here are some of his trump cards.

**Audience:** 90 million adults read a newspaper on an average day—about 86.4% of all U.S. households.

**Attention:** people like to read advertising in the newspaper, feel lost without it, overwhelmingly prefer a newspaper with advertising.

**Confidence:** people believe in newspaper advertising, consider it factual, accurate, and trustworthy. Advertisers agree, and last year had the confidence to invest \$3.6 billion in newspaper space.

If you're an advertiser, why not deal yourself a strong hand? Use newspapers.

### Exile Group To Set Up Central American Base

MIAMI (UPI) — A top Cuban exile organization, urged by U. S. interference with anti-Castro raids, said Tuesday it will move to Central America to launch a new campaign against the Communist island.

Manoel Artimo, the 31-year-old chief of the Revolutionary Military Movement (RMR), said he and top organization leaders would be leaving Miami "in the near future."

Artimo, who was civilian leader of the abortive 1961 Bay of Pigs invasion, said the move was prompted by the federal government's continual interference with exile raids on Cuba.

"Virtually all doors in the United States have been slammed shut on Cuban exiles who want to do something," he said.

"We cannot just sit here. We have to go somewhere else—a place from which we can fight Castro communism."

The exile leader declined to say where the organization would set up its new headquarters, but added the group had received "encouragement" from several Latin American nations.

Artimo complained that exile raiders here had to overcome resistance by "the CIA, FBI, Border Patrol and Coast Guard before attempting to fight Castro's troops."

Artimo said the RMR lacked the necessary strength to launch an immediate invasion of Cuba. He said the group's immediate goal was to support underground guerrillas already fighting in Cuba.

"We also plan to send in guerrilla groups to consolidate and extend operations against Castro forces whose morale is deteriorating due to the privileges and preference given to Russian military occupation forces," he added.

### Buddists Beaten For Protest

SAIGON, Viet Nam (UPI) — Club-wielding riot police broke up a Buddhist sit-down demonstration today, beating men, women and children and hauling about 80 persons into trucks which hauled them off to jail.

The demonstrators were protesting alleged religious discrimination by the government of President Ngo Dinh Diem, who is a Roman Catholic.

Some of the demonstrators, who included many Buddhist priests and nuns, were still kneeling in prayer when they were seized by groups of three or four policemen, beaten and tossed into the trucks.

Several pretty Vietnamese girls, one or two as young as 15, were clubbed severely and hauled off with blood streaming down their faces.

Each of the four bronze driving screws on the France, a luxury liner, weighs nearly 25 tons and is 19 feet in diameter.

# Voices To Be Heard

The governors who shortly convene in Miami Beach will face something of a dilemma. They will have to decide whether they want their conference to exert any influence on the course of national public policy.

The principal work of this conference is, of course, a mutual study of state problems. The idea is that most state leaders can learn much by trading information with their counterparts in other areas.

Beyond this, they also discuss application of uniform codes in fields where these seem desirable, as in highway safety laws. And they look for ways of interstate co-operation, to the end that they may thereby solve problems without drawing the federal government into the picture.

Yet one cannot gather 40 to 50 governors under one roof without reasonably expecting that they bring interesting views on major national issues and wish to express them.

Thus, inevitably, the governors' conference has taken to voicing itself annually in resolutions on important topics.

In 1962 at Hershey, Pa., however, this practice suddenly came into challenge. The cause was a resolution bearing on civil rights. Since this is an issue which divides northern and southern governors very sharply, the fur flew.

It now takes a two-thirds major-

ity of governors to approve a resolution. This year the conference will be asked to modify this rule to make unanimous approval mandatory.

The effect of this, obviously, would be to bar any resolutions which could not command the support of governor's from every region. Many matters beyond the critical one of civil rights thereby might be placed beyond the governors' consideration.

Practically speaking, such a new rule would really silence the conference as an organ of opinion on important national and perhaps world policy.

The work the governors do on their own problems is solid and good. But they are now looked to for more than that. From among their numbers may come the national leaders of tomorrow. They are expected to speak out on the big issues.

So what they have to decide is whether to silence themselves at the time when the nation needs every responsible organ of opinion it can get—or whether to plunge into the hard questions regardless of the divisive effects.

After all, the divisions within the ranks of governors simply reflect the divisions within the country itself. If the nation can live with this, perhaps the governors ought also to be able to endure it. We need their voice.

## Helen Fuller Says

### Automation vs Drop-Outs

WASHINGTON—How much difference does it make to day whether a young person drops out of school or graduates without any special training for a job? At least \$50,000 in his or her anticipated lifetime earnings, according to a new condition created by industrial automation, estimates several casual observers who know that openings for unskilled workers have become fewer and fewer for the last 10 years or more. And as machines take over more and more of the jobs that used to be done by the least trained among us, it stands to reason that those who do not have the skills to run the machines will find it harder and harder to get a job, or to support a family on the income such jobs will pay.

So far as the community is concerned, the young person leaving high school today without definite job training or a definite plan for higher education or a comfortable legacy is bad news. Instead of contributing his share of taxes to community support

in the future, he should be expected, experts estimate, to cost the community \$1,000 a year in one kind of "public assistance or another because of declining demand for the only kind of labor he will be able to supply.

When the subject of automation and what its spread would do to the American economy first became a topic of general concern several years ago, writers and speakers stressed the problem of mature men in the automobile, steel and other major industries who would be laid off as machines were perfected to take over their jobs. That difficulty came to pass as prophesied—and it is still only the first, small waves of this tide of the future that are rolling in. What was not foreseen was the effect mechanization is having on the lives of many American young people.

The number of students who have dropped out of school before they are properly trained to support themselves shot up while the number of jobs available to such fledg-

lings was booming down. Crowded schools and social tensions played a part. But whatever the reasons for the increase in "dropouts," they supplied much of the yeast for recent increases in crime and delinquency. Out of school, out of work, and out of cash, they went outside the law.

There are two principal and direct ways to deal with so major a concern to the country. The first is to persuade young people still in school to stay there until they are prepared to become self-supporting. Secretary of Labor Willard Wirtz says this is so urgent that there is no longer any sense in "allowing a child to leave school when he is 16." "Every child ought to be required," in Wirtz's opinion, "to remain in school until he has been trained in a skill."

The second way to better the present intolerable situation is to take unemployed, under-educated youths off the streets and give them special training and, as President Kennedy says, give them "their opportunity to break out of the cycle of little training, low wages and scarce jobs."

This, of course, means more government spending—local and national. New York City and the Federal Government will spend \$3 million to train 20,000 youths in an experimental program this summer. If only 8,000 of the 20,000 develop working skills, Secretary Wirtz claimed at the opening of the pilot project, "the community would be getting a 300-to-1 return on its \$3 million investment."

## 'Right—Right Some More'

### Dr. Crane's Worry Clinic

Lola is scaring her boy friends by pressing too hard even though she has been unaware of that fact. Girls, make boys feel that you are committed to a worthy career like nursing or being a missionary or teacher, and soon they'll try to browbeat you into changing to matrimony! For men are that perverse!

CASE P-493: Lola B., aged 19, is an attractive college coed.

"But, Dr. Crane," she protested almost tearfully, "I can't win a steady boy friend!"

"Oh, I have had many dates, but I can't hold a boy very long."

"And it isn't because I have halitosis or other common social faults, for I have checked myself very carefully on all those points."

"So I am growing panicky! At least I am an old maid. What else can I do to win boy friends?"

"Many very lovely girls lose a chance to gain a wedding ring just because they press too hard."

"They narrow their social outlook to the point where it becomes almost a life-or-death matter to win a husband."

"Then the new boy gets skittish, for he senses the sheer desperation in his girl companion and immediately drops her."

"For males are perverse creatures. If you girls act casual and play hard to get, you will be much more likely to gain a husband."

"You don't realize it but your excessive desire for a wedding band unconsciously alerts the new escort and scares him off."

"In one of my evening courses at Northwestern University on the "Psychology of Salesmanship" I once had the purchasing agent for a chain of offices."

"A young salesman called on this buyer and demonstrated a check-writing machine. He did a good job of selling so the purchasing agent decided to place an order."

"How many machines would you want," the new salesman inquired, probably thinking only one or two at most.

"Oh, I'd need 35," replied the purchasing agent.

"But the young salesman then lost the sale. Why?"

"Well, Dr. Crane," the purchasing agent told the class, "this salesman grew so nervous he could hardly write the order. So I decided he must not be accustomed to big orders."

"And that thought made me wary. So I told him I would think it over for I wasn't in

the market at that moment.

"A few days later another salesman for a rival check-writing machine put on a demonstration of his product. It looked O. K. so I decided to place my order."

"When he asked me how many units I'd want, and I told him 35, he never batted an eye or seemed surprised."

"Instead, he simply asked how soon I'd require delivery. So, I bought the machines from this calm, unflustered salesman though that younger man had really sold me on his brand a few days earlier."

"But he lost the sale because he was too eager and excitable."

"Girls, try to cultivate a "take it or leave it" outlook."

"But, Dr. Crane," Lola demanded, "how can I act casual and indifferent when marriage means everything in the world to me?"

"Well, become an actress, as Shakespeare ably recommended."

"And by all means widen your social outlook. Marriage isn't everything!"

"Select an uplifting career so you can invest your life wisely, even if you fail to win a husband! Then you are far more likely to get a wedding ring, too."

"Send for my "Tests for Husbands and Wives," enclosing a long stamped, return envelope, plus 20 cents."

"Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets."

## Letters

### To The Editor

Mr. Walter Gielow  
 Editor & Publisher  
 The Sanford Herald  
 Sanford, Florida  
 Dear Walter

I know that I shall never be able to adequately express my thanks and appreciation to the Officers and Men of Heavy Attack Wing One and the Citizens of Sanford for the work that has been done for me, for the Navy and for the Nation while I have been Commander Heavy Attack Wing One.

To insure that as wide a dissemination as possible is given to my sentiments for everyone's efforts I would appreciate it greatly if you could print this letter in an issue of your paper, as well as the enclosed copy of my farewell address given at the Change of Command Ceremony on Friday, 12 July 1963.

Thank you personally, as well as your staff for the many kindnesses and assistance that you have rendered during my tour here in Sanford.

Sincerely,  
 J. M. Tully, Jr.  
 Captain, United States Navy

Admiral O'Boine, Admiral Goldthwaite, distinguished guests, officers and men of Heavy Attack Wing One. As I stand here before you today, I find it difficult to realize that two years have really rolled by since I assumed this command in June 1961. They have been two years that no commander could forget. Two years that no other billet could overshadow. You, the officers and men of Heavy Attack Wing One, have made them memorable for me—but more important—you have made them a great service to your Navy and your Nation. Time has

an elusive flight, so it is the events, the fire drills, and the performances that mark its passing and are used as reporting stations. These last two years have

CAPT. J. M. TULLY

been full of them. My cup is running over. We began with: (1) The Fleet introduction of the A-5A weapons system, (2) A monthly bomber stream was started, (3) No one could ever forget the ninth annual bombing derby, (4) VAI-3 assumed the professional responsibility for student carrier qualification, (5) Cuba came then, and here the Wing and station played a vital role.

These highlights, I mention, and many more, showed the kind of stuff you're made of and would make any commander proud, and I am! Your bombing ability has met my most optimistic expectations. What was once a good year's effort, is barely an average work month now. You hit the target twice as well and twice as safely and it has not cost a cent more.

Yes, the Heavy Attack Wing has made great strides in the last two years, and when you are taking great strides, time flies. It grieves me to leave. I have spent almost a fourth of my Naval career in the Heavy Attack Wing. In retrospect there is no place that I'd have rather spent it. Together, we have made important contributions to the readiness posture of our Navy and our nation. Your loyalty and dedication

made these achievements possible.

And, you, my civilian friends, on the other side of the main gate, have been that battalion in reserve that every successful commander must have. Your friendships, your support, and your understanding in times of stress, have supplied strong fibers of morale and encouragement to the entire wing, as well as to me. I shall not forget you. I will treasure your trust and your friendship always.

Now, as I stand here at the end of this tour in Sanford and Heavy Attack, the shortest two years and 15 days of my life, I know the message I'd like to bring you... time has an elusive flight... you don't have long on a single squadron tour and you must use that opportunity and make the most of it.

I believe that Heavy Attack is on the brink of a new and exciting horizon. Around you today the surveyors, architects, and bricklayers are busy planning and building the tools that you will use for tomorrow's concept of operations. I am certain that each succeeding year will mark increased progress in the tempo here at Sanford.

I am especially pleased that I am turning over this wing to such a well qualified relief as Captain James O. Mayo. He is a brilliant planner, an outstanding Naval officer, aviator and gentleman. I am certain that under his capable leadership this Wing will prosper and continue to fulfill its mission and tasks by deploying trained ready squadrons aboard carriers in every ocean. It is time now that I leave. I do so with regret. I shall miss you all. Goodbye and God bless you.

## Quotes

Sparta once fought Athens and now they are parts of a common country. Siena once fought Florence and now they, too, are in a common country. And Scotland and England. So in the end there will be a world union and one world government.

— Lawyer-Journalist Ernest Cuneo

Until the people of this country and until the courts get the attitude that killing with a car is just as serious as killing with a gun, we're not going to be able to do anything about the accident toll.

—Henry A. Barnes, N. Y. traffic commissioner.

### Five-Day Week Started In Road Camps

TALLAHASSEE (UPI) — State Penal Director Louis Wainwright said the first phase of a program to put employees at the 36 road prison camps on a five-day work week started Tuesday.

Wainwright said a training program in the latest penal methods was started this week for 44 new and transferred personnel who will be added to road prisons in northwest Florida.

He said during the coming three months, 150 additional employees were scheduled for assignment to prisons in the employment and training for rest of the state.

The staff increase was authorized by the 1963 legislature to install a uniform five day work week for road prison employees.

### Summer Living Can Be Varied

As the calendar moves to the midway mark in the year, Mr. and Mrs. America and their "kids" are living it up outdoors.

In ever increasing numbers, families in search of relaxation and fun for their leisure hours, engage in activities as fast as water-skiing or as sedentary as sunbathing in the back yard.

Perhaps it's the many labor-saving devices in the home, faster transportation, shorter working hours and a wider field of fun-time activities and accessories that beckon summer's pleasure seekers.

Or, perhaps it is mounting congestion on the highways. Or possibly it is the very natural desire to spend more time actually enjoying outdoor fun and less time getting back and forth to it. At any rate, summer living and outdoor living are fast becoming synonymous.

### Girl Stowaway Was Hungry

HALIFAX (UPI) — An 18-year-old girl who stowed away aboard the United States aircraft carrier Intrepid for three days said today the worst part of her voyage was the lack of food and the cramped fan room where she hid.

Irene Maud Bickford, a native of Newfoundland employed for the past year as a packer in a Halifax tea house, was discovered aboard the carrier on the high seas three days after it left Halifax.

Irene, who lives in a Halifax rooming house with her older sister Rita, said she spent most of her time eating chocolate bars — and rarely saw her sailor boyfriend who took her aboard.

"I had nothing to eat but chocolate bars," Irene said. "I didn't see him very often."

The girl said she went aboard the Intrepid with a boyfriend from California whom she refused to identify.

### Couple Guilty In Child Neglect

JACKSONVILLE, Fla. (UPI) — A young Jacksonville couple today faced terms totaling 18 months on charges of child neglect.

Mrs. Joyce Rose Sarman, 22, was sentenced Monday to one year and her husband, Stephen Huntley Sarman, 25, to six months.

charge of contributing to the dependency of a minor.

Criminal Court Judge Hans G. Tansler said the couple's 13-month-old son was undernourished and showed signs of having been beaten.

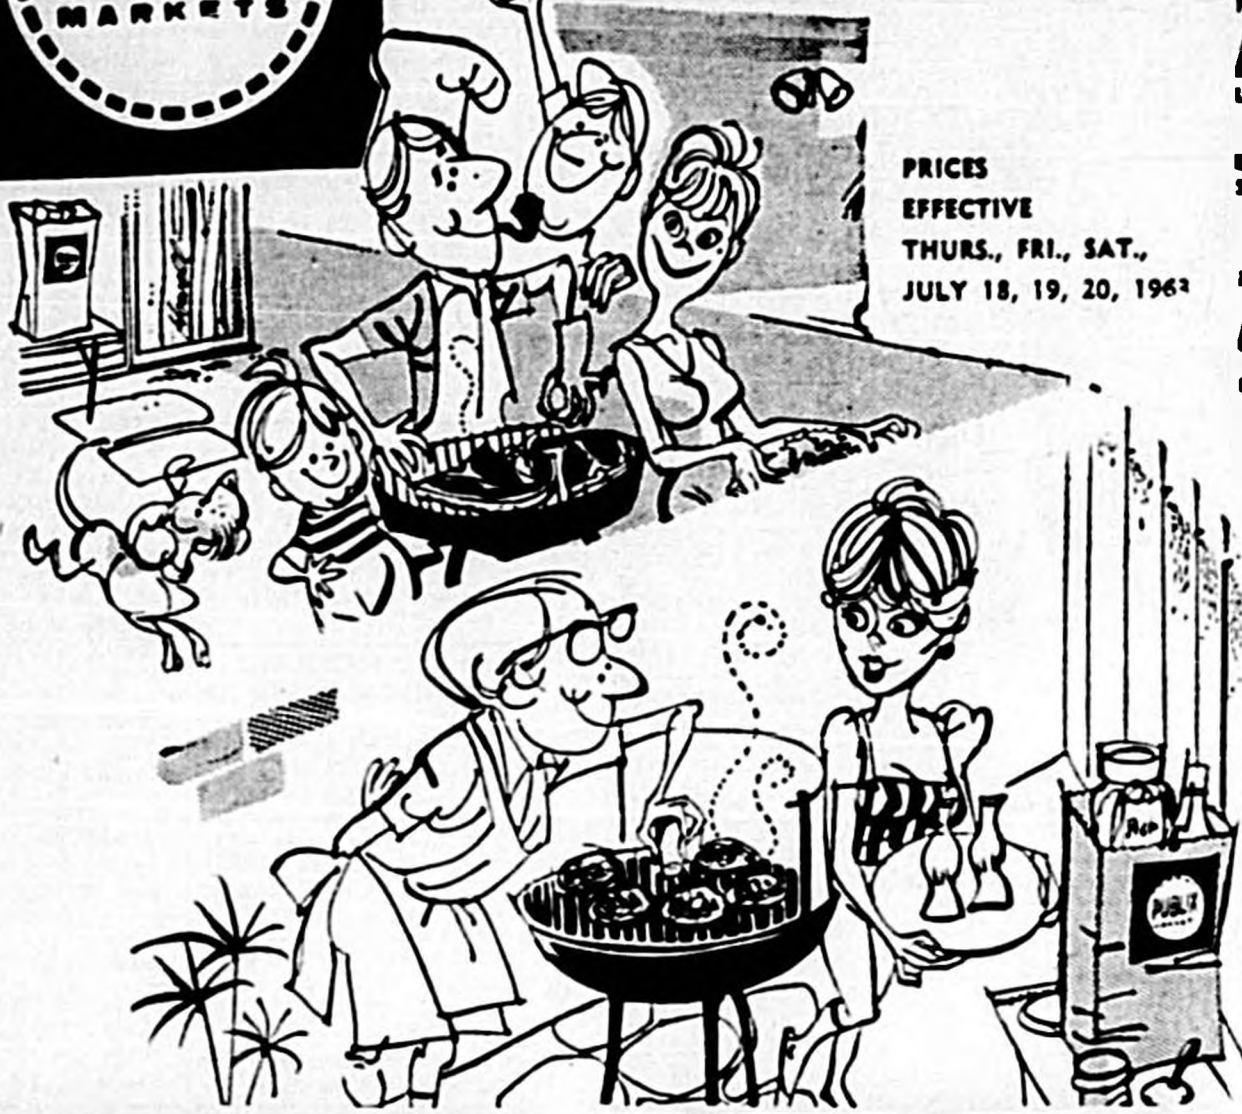

A 2-month-old son of the couple died last April in Duval Medical Center. The 13-month-old child was taken from its parents following an investigation following the death of the younger child.

### Blouses

If you plan a vacation filled with sports activities, take along several different blouses in these new fiber blends to mix and match with shorts and pedal pushers.

# Foreign Students Run Wild On White House Lawn

Jim Spencer, popular restaurateur, is recuperating at his Mellonville home after undergoing surgery at J. Hillis Miller Hospital at Gainesville. Jim is in good spirits and getting along fine, his wife, Doris, tells us.

Eight-year-old Joli Laughlin, of St. Petersburg, sent the following note to her aunt, Georgia Hall, of the Chamber of Commerce: "My turtle Sam laid eggs so I named her Lily."

It may be hot today but this item should chill you: Christmas decorations and back-to-school promotion will be discussed at a meeting of the Downtown Merchants Association at 3 p.m. Tuesday at First Federal caucus room.

R. G. (Dutch) Allen, manager for McCrory-Orasco, says they are right on schedule in their preparations to open the huge store early in August. McCrory-Orasco is located in the Seminole Shopping Plaza on Highway 17-92 at Highway 436 in Fern Park. They're hiring their staff now. (Details in ad on classified page.)

John Krider, Chamber manager, is on vacation until July 29.

Chief of staff and seven high ranking staff officers of the Royal Australian Air Force are scheduled to arrive here Tuesday at the Naval Air Station for a tour of inspection lasting through Thursday.

A. Worley Brown, chairman of the State Industrial Commission, in town today. Building political fences for next year's election, maybe?

Board of Equalization ended its hearings this morning. County Commission, which also is the Board, slated to commence budget hearings next week. Department heads will report their requests. Commission, when it approves the final budget, will forward it to the State Comptroller for his OK. All to be completed by Oct. 1, beginning of the next fiscal year.

Municipal court costs have been upped: \$2 on bonds less than \$15 and \$3 for \$15 and over.

Police collection of confiscated "dangerous" weapons was enlarged today. Police blower reports some boys shooting windows out of a condemned building. They were taken to their parents and their slingshots confiscated.

Riders, man your mounts! Horse racing and skill events will be underway again at Dusty Boots arena Sunday, beginning at 1 p.m. Tony Austin, popular emcee will be at the mike announcing the events and riders. Even if you don't ride you'll enjoy the show.

Joel Field defended the 10 American Legion ball team's defeat at the hands of an Orlando team Tuesday with the observation that the Orlando team's pitcher is a top-flight moundsman, who already has a four-year baseball scholarship to Rollins College in the bag. "But we'll fare better on our home grounds Saturday night," Field promised.

Sen. Mack Cleveland, who is scheduled to speak at Kiwanis Club next Wednesday will have as his guest, Sen. Ed Frazier, of McClenny. When the president of Kiwanis, G. Andrew Spear, announced the popular local Senator's appearance, he advised club members to be ready with questions. "You'd better not count on it," laughed Cleveland. "I might get sick." "And I'll get you well," volunteered a local doctor quickly.

Dr. John M. Morgan, contemplating attending the annual clinical congress of the American College of Surgeons in late October at San Francisco.

## Colorful Repartee

MEXICO CITY (UPI)—A cartoon in the newspaper *Diario de la Tarde* today summed up the dispute between Russia and Red China in two words. It depicted Soviet Premier Nikita Khrushchev shouting "Red!" at China's Communist boss Mao Tse-tung, who retorted, "Yellow!"
