In Slaying Of Brother

A six-year-old boy whom prosecutors say saw his father kill his infant brother with a shotgun blast was released from 10 days protective custody Monday into his parents custody after the state failed to show that the child would be in danger. Circuit Court Judge Robert B. McGregor allowed Brian

Clicquennoi Jr., to return to the trailer home on Pineway Drive south of Sanford after talking with the quiet, shy-like and apparently traumatized child for nearly 25 minutes. He had been held as a material witness, but Judge McGregor aid he has "great doubts about his competency as a witness."

The court indicated there could be later hearings to determine if the boy is to testify at his father's trial. Brian Raymond Clicquennoi Sr., 34-year-old fuel oil truck driver, is free on \$10,500 bond pending trial on Sept. 19 on charges

the Aug. 13 death of his six-month-old son, Vincent, at the family's Mrs. Margaret Clicquennoi, who told Judge McGregor her children "have been treated like cattle" during a two-week custody battle, said she loves the children and her husband and has no fear for the children's safety in her home.

Asked if the state has any reason to believe Brian Jr. is in jeopardy in his parents' custody, Assistant State Atty. Don Davis replied, "Simply that these are very serious charges. We have no way of knowing, but the victim was a child in this family. If the charges are true, then certainly there is a danger. . . but the defendant is presumed innocent until proven guilty." Clicquennoi has pleaded innocent to the murder and illegal

Herring was successful in getting the girl released Monday morning by juvenile court judge Tom Waddell Jr. and called th pickup of the child "a snafu by HRS."

Herring said HRS workers "thought Judge Hosemann wanted the child picked up again if her father bonded out of jail." But a telephone conference between Judge Waddell in Sanford and Judge Hosemann in Titusville revealed that Hosemann "never ordered the girl picked up again," according to Herring.

Davis and Herring told Judge McGregor that the boy repeated his earlier story that he was inside the trailer and saw his father take the gun from behind a green chair and shoot Vincent, who was about 10 feet away in his walker.'

## **Ex-Convict On Rampage** Kills Wife, Son, Himself

EAST HARTFORD, Conn. (AP) - An exconvict, driven by bitterness, killed his wife and son, then shot himself to death today after holding nearly 100 police at bay for 16 hours from a barricaded apartment.

"God hates me, life is terrible, it stinks," said the gunman, Frank DeCorleto, 34, shortly before he took his own life.

"It's all over," a state police spokesman said as the siege came to an end.

Police Chief Clarence Drumm, one of the authorities who pleaded by telephone with DeCorleto to give himself up, said that at one point the gunman "alluded to the fact that society had treated him badly because he was an ex-con." He had served time for killing a woman in 1963 in Georgia.

At different points during the negotiations DeCorleto blamed God, life and society

Drumm had said during the night that DeCorleto would rather kill himself than return to prison. "He's intent on taking his own life. He feels he doesn't want to go back to jail," Drumm said.

Earlier, DeCorleto, telephoned the Hartford Courant and told a reporter he had shot his 22-year-old wife, Shioehon, then his 4year-old son, Frank III, when the boy came running toward him.

He said he had his son's blood on his hands and sobbed, "All I had in the whole world was

State Police Commissioner Edward P. Leonard said that on several occasions DeCorleto talked about his dead son and said he couldn't understand how he could have done such a thing.

He said he shot his wife because "she gave me a hard time," and the boy because "it's a rotten, stinking world."

## FLORIDA **IN BRIEF**

Teacher Shortage Seen Within Three Years

JACKSONVILLE (AP) - What may seem like a surplus of school teachers in Florida this fall will become a shortage in three years, predicts an education researcher at the University of North Florida.

Amanda Asgill, director of student teaching, calls the current situation a financial squeeze, which has required school districts to cut back some programs while establishing new priorities.

## **Bail Decision Appealed**

TALLAHASSEE (AP) - The state will ask a federal appeals court to reverse its decision striking down Florida's bail system as unconstitutional discrimination against the poor, an aide to Atty. Gen. Robert Shevin

Jim Barrett, Shevin's press secretary, said Monday that Shevin would ask the full U.S. 5th Circuit Court of Appeals in New Orleans to grant a rehearing on a decision handed down last week by a smaller panel.

"In analyzing the order, we don't see that there is much difference in what we are presently doing and what they say we should be doing," Barrett said.

## Mobile Home Law Fought

TALLAHASSEE (AP) - Florida's new mobile home landlord-tenant law is being challenged in Leon County circuit court by a trade association that says lawmakers went too far when they passed the measure.

The National Manufactured Housing Federation Inc., represented by former Senate President Mallory Horne, asked the court Monday to prohibit Gov. Reubin Askew from naming the seven members of the mobile home commission.

## Liberia Mayor Sees Garbage

HOMESTEAD (AP) - The mayor of Liberia, Costa Rica, came for a visit and Homestead officials rolled out the garbage trucks in welcome.

For his first official visit to Liberia's sister city, Mayor Manuel Francisco Rojas was rushed off Monday to the Homested sewage treatment plant, sanitation yard and a trash

"It's what he wanted to see," explained Homestead Mayor Nick Sincore. He said Mrs. Rojas visited a beauty shop instead.

## Shevin Aide Bankrupt

TALLAHASSEE (AP) - A key political aide to Atty. Gen. Robert Shevin says the fact that he was forced to file for bankruptcy shouldn't affect his state job. Louie Wainwright Jr., who last year listed a net worth of \$283,000, said Monday that the filing was forced by a reversal in the fortunes of a Tallahassee sign company he owns.

## **Askew Addresses Panel**

FORT MYERS (AP) - The state Constitution brevision Commission begins a busy week of hearings today with a session in Fort Myers.

But the meeting and an all-day session planned Tuesday in Tampa are taking a backseat to an Orlando meeting Thursday featuring Gov. Reubin Askew.

That address is billed as Askew's major blueprint for change in the Constitution, although aides were tight-lipped about what the governor will discuss, saying only that his recommendations will be significant.

# The New Directory Assistance Plan Begins September 20, 1977.

On September 20, 1977 the new plan regarding calls for Directory Assistance goes into effect. The plan provides an allowance of six calls a month from each customer line without charge. For each call in excess of the allowance, a charge of 15¢ will apply. Two numbers may be requested on each call, so in effect 12 numbers may be

requested without charge. Savings passed on to customers. The cost savings from the lower volume of calls which are anticipated are being passed on to customers. As a result of these savings, plus the revenues from those who will use the service the most, the new monthly rates for basic local service are 60¢ less per line than would

Most customers not charged. The six-call allowance will apply on all calls to Directory Assistance. This allowance is designed to provide for occasions when numbers are not listed in the directory, when numbers in the directory may be difficult to find, and when numbers cannot be located for other reasons. Studies show that the majority of Florida customers make

otherwise be required.

customers are not billed as a result of extra calls to Directory Assistance. With this Plan, the customers who choose to call Directory Assistance frequently will pay their share of the expense of providing

two or fewer calls to local Directory Assistance each month, so the

six-call allowance means that most customers will not be affected. In

other areas where similar plans are in effect, an average of 95% of the

No charge on some calls. No charge will apply on calls to Directory Assistance from handicapped customers who are unable to use the directory. Certificates required for this exemption may be obtained from any Southern Bell Business Office. No charge will apply to calls from coin phones and from hotel motel, or hospital rooms. Also, no charge will apply on calls to Long Distance Directory Assistance (555-1212) outside your own Area Code

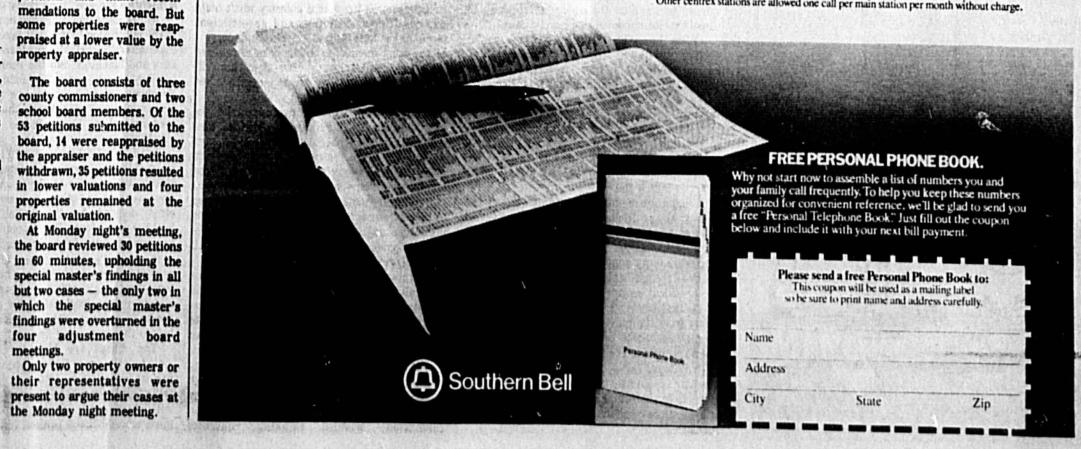

## HERE'S HOW IT WORKS.

Beginning Sept. 20, 1977 when you call for Directory Assistance, your number will be recorded for billing purposes - whether an operator asks for your number or not - and you will be billed 15c for each call in excess of the six-call allowance. Two numbers may be requested on each call, so in effect 12 numbers may be requested without charge.

Look in the book and save.

Most numbers are listed in the telephone directory (about 8 of 10 numbers requested from Directory Assistance are listed in the directory). Just call your Southern Bell Business Office if you need a directory; and when you need information, please look in the phone book before you call Directory Assistance. And chances are, you won't be affected by this charge.

\*The allowance for PBX trunks and centrex dormitory stations is six calls per month. Other centrex stations are allowed one call per main station per month without charge.

## Police & Sanford: A Backward Step

Just when it looked like the atmosphere inside Sanford's Law Enforcement Center on French Avenue was beginning to clear up, stabilize, and calm down, it hasn't.

The future seemed bright for the city's policemen, vis-a-vis the city government, following the police decision earlier this month to forego unionization efforts. That decision was followed quickly by the Sanford City Commission's granting of the 6.4 per cent across the-board, cost-of-living wage increase that had been held up for the police during the unionization activity period.

The overall relationship between the city and the police department was beginning to brighten. Consider, for example, the innovative suggestion by Mayor Lee P. Moore that policemen should place their grievances before the commission in a public session.

We consider that a positive, forward-looking idea which eventually could eliminate the backroom, behind-the-scenes, clandestine grumblings and maneuverings by all sides in the continuing controversy.

But now there's a hitch. City Manager Warren E. Knowles has warned city commissioners not to even think about discussing police grievances — or salaries - in public or private, because the unionization move in the department apparently is not yet a dead issue.

It seems that the Orange County Police Benevolent Association — which has been seeking recognition as the police bargaining agent - has not withdrawn its petition to the state's Public Employes Relations Commission (PERC) for recognition, a hearing and an election.

Observes Knowles: "It appears the union is planning to give the city a workout and force the issue all the way, regardless of what the men expressed in their vote." (He is referring to the overwhelming 26 to 9 vote against unionizing).

We hope he is wrong. Further, we urge the police and city fathers to esolve the lingering grievances once and for all as they had anticipated doing only several days ago when the policemen decided that the division being caused by the union talk was not worth it.

They had opted, instead, to begin dealing on any future grievances directly with the city, faceto-face. Mayor Moore's idea of public hearings on such matters was just another step in this positive attitude by both sides.

But now both the police and the mayor's proposals seem indefinitely delayed.

We agreed at the time - and reiterate now that the plan for such face-to-face, direct, candid discussions was the most rational, reasonable one. And we are disappointed that this latest backward step seemed necessary.

## Koreagate

Koreagate is not a congressional counterpart of the Watergate conspiracy. President Nixon and his henchmen attempted to subvert the Constitution of the United States and used every tool at their command to do so.

They mobilized huge power centers within the executive branch against the American people. Had it not been for the fatal tapes, they might have succeeded, or at least escaped

Koreagate, on the other hand, appears so far to be an epidemic of simple greed, venality and stupidity — humdrum corruption that is familiar to observers of all levels of political

## Sen. Baker Is On The Canal Spot

WASHINGTON - Sen. Howard Baker of Tennessee is the Republican leader in the United States Senate. A Senate foreign policy expert is quoted in the Chicago Tribune as saying of the role Mr. Baker could play as regards the Carter administration's new Panama Canal treaty: "It takes only 34 votes (one-third of the Senate) to kill the treaty. There are 38 Republican senators. If Baker makes it a party issue, he would carry all but a handful of Republicans with him. Combined with Democratic defectors, they would trounce the treaty.'

So, which way will Sen. Baker lead his GOP colleagues? Will he go along with the Administration's plan to surrender the canal on the installment plan? Or will he come up with a so-called "constructive Republican alternative," which will, in effect, be no more than a pale carbon copy of the Administration's sell-out proposal? Or, will the senator flatly oppose any

Over the past decade, Sen. Baker has blown

There are several things which would appear to make it extremely difficult, if not impossible, for Sen. Baker to go along with the Administration's plans to surrender the canal. His latest triumph was a 6-2, 6-0 rout over Ilie Nastase in an eight-man tennis week tournament Monday night at Westchester. ## Sanford Group, County Win Grant\$ \$3.4 Million Okayed \$20,000 For For Five Points Jail

Downtown Development

Greater Sanford Development Corp. (GSDC) has received a \$20,000 grant from the U.S. Economic Development Administration (EDA) for general administration and planning of the revitalization of downtown Sanford

The federal grant must be matched by \$6,668 from GSDC, said consultant Sara Jacobson. "We applied for the grant in March," said Miss Jacobson, "but there was a lot of red tape involved. We're glad it finally came through."

Under the terms of the grant, GSCD must submit to EDA a plan for spending the money. "We've completed a traffic and parking study, a study for landscaping park areas on Lake Monroe and we have 10 downtown buildings ready for facelifting. We've also

submitted the plans to the Sanford City Commission,"

Development Administration has approved a \$3.4 million grant for construction of a new 220-bed Seminole County Jail at Five Points on Sanford's south side.

Construction must start within 90 days and be completed within two years, Polk said. The sheriff said he expects groundbreaking on the project by December, noting that architects still must complete construction drawings and the project must go to bid.

Polk also said he may ask county commissioners to junk a stalled 54-bed modular addition for the present county jail adjacent to the downtown courthouse. The modular addition stalled after contractors were ruled in default. Bonding company officials are trying to arrange completion of the project and a decision by

county commissioners is expected within the next week. Polk said he may ask commissioners to "completely wash out the addition" and recover \$162,000 spent on the project so far. Polk said, if this is done, he hopes the commissioners would put the recovered funds into the new jail complex project at Five Points.

sheriff's department administrative offices. Estimated cost of the entire project is \$4.6 million, Polk said. The sheriff said he is still working on getting additional

fund; that would mean the complete complex could be "We hope to go to bid on the entire project. The first alternate would be the jail and only the 'hulled in' administrative complex. Second alternate would be con-

struction of the jail only." Polk said the bids on the project may come in low enough to allow construction of the exterior of the administrative offices within the \$3.4 million of federal

Polk said county commissioners have already approved issuance of a "proceed order" on the Five Points jail project by architects and official paperwork on the federal grant are expected to be received within a few

## Roumillat's Closing In 56th Year

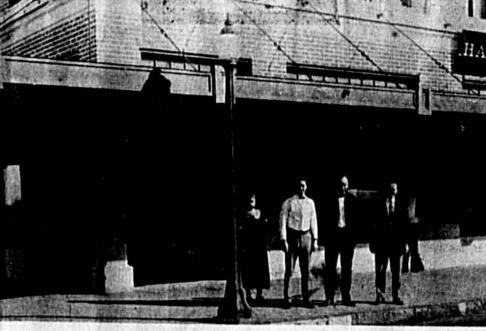

By DONNA ESTES Herald Staff Writer

After 55 years in business at 100 E. First Street is Sanford, Roumillat's Drug Store, an institution unto itself in the county seat, will close its doors to business Satur-

And on Sept. 12, Francis Roumillat Jr., who worked in the store when it was operated by his father, Francis Roumillat II, from his youth until he took over completely after his father's retirement in 1970, will be a pharmacist at Seminole Memorial Hospital.

"I live only a block from the hospital and can walk there." Roumillat said. "After being a pharmacist and working in the drugstore for the past 30 years, I'm tired of the long hours and will enjoy a regular eight-hour day," he said. "I hope to see my many friends at the hospital, not as patients but as visitors." Meanwhile, the county commission Tuesday approved a

month to month lease arrangement with owners of the Roumillat Building - Dr. W. Vincent Roberts, A.K. Shoemaker Jr., Douglas Stenstrom and Joe Davis - for the second floor of the facility, according to Robert Ellis, director of county administrative services. Negotiations are continuing, Ellis said, to lease
