

### McAdoo Is Placed In Nomination By California Man

(Continued from page 1.)  
The vast machinery of the government rumbles discordantly along the road; the parts do not fit; the crew recalcitrant and rebellious and the chosen chief engineer has been succeeded by the accident of an accident.

"Where should the people in all prudence turn? Continue the experience and inept, or take a trained and tried chief who can at once step into the cab and give command? We want a man who knows where he is going, and who is going where the people want him to go—capable, progressive, confident of his power and alert and eager to serve."

Asserting that Mr. McAdoo understands the farmer's problems "far better than any aspirant for the presidency—either Democrat or Republican," Mr. Phelan added: "From every side today come urgent demands for adequate solution of agricultural problems. What man is better equipped to solve them than this man, who was raised on a farm, who during his long administrative career in the treasury department, of the farm loan bureau and of the railroads came into daily contact with farming problems of every description, and who had then and has now the vision to see the remedy and the courage to effect it?"

As for Mr. McAdoo's administration of the railroad Mr. Phelan had this to say:

The workers knew his sentiments toward labor. He gave them the eight hour rule and overtime and otherwise ameliorated their condition. Assuming complete control, he brought order out of chaos, relieved congestion, opened ports and loyally supported by his men, successfully moved to tide-water—a vital operation—the tie-up groups and supply trains.

While doing justice to railroad labor he remembered always the interest of the public. It is a striking fact that the total increase in the wages of railroad employees made in 1918 by McAdoo were approximately \$608,000,000, while his successor further increased these wages \$394,000,000, making the total of all increases under federal control \$1,002,000,000.

"When on March 1, 1920, the railroads were restored to private control under the Esch-Cummins act, which established the United States Labor Board at Chicago and gave it jurisdiction over wages and working conditions, hearings were held and the labor board granted a further increase of \$620,000,000 in addition to the total increases made during federal control. McAdoo dealt fairly with railroad labor. McAdoo gave railroad labor a square deal, nothing more.

"He is deeply grounded in American principles, the constitution and the law. He opposes any discrimination on account of religious belief. It is repugnant to his sterling Americanism.

"America was the protest of the free men of the world against the religious bigotry and persecutions of the past; and it is a matter of constitutional principle and respect to respect and protect the freedom of thought and speech—of religion.

"McAdoo stands for the supremacy of the law and for the enforcement of the law—the solemn duty of the executive. The treaty-making power and the congress under the constitution and bill of rights, prescribe the law and that is the only law the president knows. It is the guide for his action and the ready weapon of the republic for its defense against the assaults of the ignorant of the intolerant."

### Committee Turns Down Majority Rule At Session

(Continued from page 1.)  
will begin. First will come candidates for president. These over a report will be heard from the committee on platform and resolutions. If it is ready, but in the event it is not, then the voting will begin. Leaders of the convention prefer to have the platform out of the way before the contest of ballots begins, but sometimes the delay in agreement on planks changes the plans.

After a candidate for president is named, then the convention will nominate his running mate which, as a rule, does not take long.

The credentials committee of the Democratic convention is composed of 40 women and 42 men and its chairman is Mrs. Leroy Spitzer of South Carolina. This committee had a few minor contests. Miss Yarden Moore, assistant attorney general of Arkansas, was elected secretary.

**Oregon Contest**  
A misunderstanding between a delegate-at-large and his wife, and an apparent conflict of politics in the home, was responsible for an Oregon contest, brought to the attention of the committee. The contest was over an effort to seat Judge Thomas C. Burke as alternate-at-large of Oregon, as against the claims of Miss Clara Pierce, daughter of Governor Pierce of Oregon. Burke won out. It was declared the seating of Burke was a McAdoo victory.

The testimony brought out that while Mr. Myers was ill early in June his wife wrote Miss Pearce that her husband was anxious to have his name be alternate to Mr. Myers. Later Mr. Myers sent a telegram to Burke which read: "I hereby appoint you my proxy for the Democratic National Convention. Stand by McAdoo."  
Mr. Myers said his wife misunderstood his instructions but friends of Miss Pearce contended she was entitled to the honor because of the communication sent to her by Mr. Myers. The committee took the view of Mr. Burke.

of its permanent chairman, Senator Thomas J. Walsh of Montana. That will clear the calendar of all the preliminaries, and will leave the way open for the expected floor fight over the platform and finally for balloting for the party nominee.

Both William G. McAdoo and Al Smith, who will lead for the presidency on the first roll call, remained away from Tuesday's session of the convention in conference with their political advisers. Both reiterated their confidence of victory but the threat of prolonged deadlock led to a quickening of efforts by the managers for other candidates.

**Davis Is Spectacular**  
John W. Davis, whose friends are urging him as the logical compromise candidate, was a spectator at the day's proceedings in Madison Square Garden but continued his refusal to have anything to do with the campaign headquarters opened in his behalf in an uptown hotel. Senator Underwood of Alabama pursued the opposite course, remaining away from the convention but working with those who are promoting his candidacy.

A fully-equipped headquarters was opened for Senator Glass of Virginia and the boom for Governor Siler of New Jersey was launched formally upon the convention breezes in a statement by his friends predicting his nomination. Thomas Taggart continued his quiet campaign for Senator Ralston of Indiana, and the workers for a dozen others went ahead with every outward show of confidence. There were indications that a move would be made today to get before the delegates the name of Major General Henry Allen, former American co-captain in the World War, appeared from Michigan. Headquarters previously had been opened for Alvin Owsley of Texas, former commander of the American Legion; George Berry, head of the Pressmen's Union, and Representative So Insistent and numerous have been the solicitors of support for the great field of candidates that the delegates apparently welcomed Tuesday's great field of candidates that the delegates apparently welcomed yesterday's convention session as affording a respite and a diversion. Despite seating arrangements of the Garden, they appeared to enjoy the performance from start to finish, and to be wholly good-natured and undismayed at the tasks ahead of them.

Chairman Cordell Hull of the national committee, worn by strenuous days and nights of work in preparation for the convention and weakened by an attack of heat prostration suffered two days ago called the big quadrennial convocation to order and presented Senator Harrison as temporary chairman. Mr. Hull showed plainly the effects of his illness and with apparent difficulty got through with his speech of a single sentence. After the session he took to his bed to get some rest, but it was said last night that he would be on hand for the session today.

Senator Harrison's keynote speech struck at once into the senatorial investigations, and he got his audience cheering before he had completed a half dozen sentences. It was when he declared the country needed a president with the fighting qualities of Woodrow Wilson that the delegates ripped their state standards from the floor fastenings and threw the convention into bedlam.

It was for respect of Mr. Wilson's memory, too, that the convention adjourned by formal resolution until today.

cast side during the next season, Mr. Walsh declared that contrary to reports that have been prevalent for some time, that it will be operated during the entire season.

Plans are being made to enlarge the corporation's activities next year, according to Mr. Walsh, who declared further that the demand for "Golden Egg" products is becoming more and more insistent. The popularity of the products marketed by this organization, it is said, has increased beyond the expectations of the officers of the organization and they are well pleased with the outlook for next season.

The Florida Vegetable Corporation at present has approximately 100 growers in this section as members. This number is expected to be increased by the beginning of next season, which is expected to eclipse the past-season in every respect.

Within a few days Mr. Walsh announced the organization will publish a complete report of the year's work, showing the extent of the activities and what was accomplished toward better marketing conditions and securing better prices for the products of the local growers.

**NEW YORK, June 25.**—Forty thousand men and children's clothing workers will strike today for closed shop and better working conditions, according to an announcement tonight by the Amalgamated Clothing Workers of America.

### WATER OF THIRD WELL DRILLED IS OF FINE QUALITY

(Continued from page 1.)  
Lake Ada water is as soft as rain water and will be used by the new plant along with water from the wells.

The work of the city in drilling these wells was entirely prospective but with a profound belief that a suitable water would be found, Mr. Williams pointed out. The venture has turned out to be very successful, however, and has saved Sanford a great deal of expense, as the city officials turned down a proposition guaranteeing the city a supply of soft water for a sum of more than \$20,000 ever what has been spent in drilling the wells. The water obtained is much better than the guarantee called for, he said.

### Recommend Tourist Camp.

When interviewed on the subject of the new waterworks plant being built by Sanford, Mr. Williams further stated that he intended to suggest to the city commission in the near future that a tourist camp be established in this city. He recommends that this action be taken up during the summer months so that Sanford will have a clean, healthy camp to which she may invite automobile tourists during the ensuing season.

Sanford should have such a camp for several substantial reasons, said the city official. Many of the better class of tourists are now traveling in automobiles and would rather camp out than stay at hotels. If it were not for these camps the hotels would never be able to take care of the people wishing reservations in them. "I believe a tourist camp is an asset to any town or city," he said.

Mr. Williams pointed out that either the Cates property on West First Street or the unused land belonging to the city on Elm Avenue would make very suitable locations for the camp. The city owns four blocks on Elm Avenue, he said, and might be utilized for a tourist camp until Sanford has need of the property for other purposes.

### Florida Delegate at Convention Is Still Leader of His Party

note speech said, "Would that we might once more see in that exalted position one with the courage of a Jackson, the militant honesty of Cleveland, the matchless statesmanship and far-flung vision and the fine fighting qualities of a Woodrow Wilson."

The roof of Madison Square Garden was raised several feet by the roar of delegates. It was easy to see that Wilsonian Democracy lives as Jeffersonian Democracy lives.

### UNDERWOOD IS FEELING GOOD OVER OUTLOOK

(Continued from page 1.)  
Marbury, Tammany Hall woman. Not for four years have women been associate committee women, and so Mrs. Emily Newell Blair, vice chairman of the convention, sent the badges back. They were corrected to read "National Committee Woman."

Florida's committee woman, Mrs. Lois K. Mayes, has just come in from breakfast given for Mrs. Hylan. There were 2,000 present and Mrs. Smith was given a great ovation.

The indignation dirge over lost convention tickets can still be heard. J. T. G. Crawford, Florida committee man who is charged with gobbling up all but four of 24 tickets given to car state, finds himself about as popular with the Florida delegation as a fighting Republican I saw the other day in McAdoo headquarters. To add insult to injury, the delegation declares that Crawford did not give them a chance to elect an honorary chairman and secretary to sit on the platform, but appointed them himself. He appointed Arthur Williams of Jacksonville. The delegation met yesterday and elected Carter of the second district, and what the outcome will be, goodness only knows. The Connecticut delegation had a free for all fight over tickets and four men have black eyes. Missouri and Pennsylvania delegations staged spectacular controversies.

The Democratic National Convention this year has the smallest seating capacity it has had in 25 years. Governor-elect Martin was going around with a "they've done me wrong" expression on his handsome face last night. He hadn't seen the convention open, and that meant that he hadn't heard Pat Harrison in the speech (which put Harrison in the limelight as a potential vice president). Governor-elect Martin will not miss the convention, however, for he has an almost complete ticket.

Last night I overheard Senator Fletcher tell somebody in lobby of the Madison Square Hotel where all Florida folks are located, that New Yorkers are so provincial and so obsessed with the idea that New York is the whole earth, that when they wake up two or three morning from 250 and find they have only 200 or 250 votes they won't know what to make of it.

They say in the lobbies that Al Smith has never been out of New York City but twice in his life. That he is very provincial, but that he sure does know New York City. One hears, too, that Coolidge had never been west of the Mississippi river until after he was made vice president.

Underwood says he is going to bring the Klan issue up on the floor. New York City is the Catholic stronghold. Cardinal Hayes, at the St. Patrick's cathedral, is backing Smith, of course, as is his brother-catholic, Mayor Hylan, and so when the Klan issue is brought up—who knows what will happen? Stables for dark horses are being opened up at every turn and delegates are getting uneasy.

### UPROAR CREATED WHEN MENTION IS MADE OF WILSON

(Continued from page 1.)  
nominating strategy was at the back of their heads; but the result was the same. Sometime before National Chairman Hull was ready to start things going officially there arose suddenly from beneath the Georgia-standard sounds which indicated that they were singing several feet shrilly shrilly about McAdoo. The words didn't come through to the platform very clearly, but the tone was certainly glory, glory, Hallelujah.

It was much appreciated by galleries and floor alike, regardless of favorite son sympathies. Presently the band found out what was going on and picked up the air to set the whole place to singing whatever version each singer preferred of the grand old fighting hymn.

Then the corn belt delegates decided it was time to rise and remark that they were present, Iowa chimed in with a verse or two about all corn growing out that way. The lyrics illustrated with gestures that indicated 12-foot corn stalks and nobody had the heart to challenge their declarations.

Welcomes Celebrities  
Meanwhile party celebrities were getting rousing if somewhat localized welcomes as they appeared on the floor. William J. Bryan, former Nebraska, decked out with a huge Florida pennant, came in for a friendly greeting. Newton D. Baker of Ohio also was identified and given a hand; Carter Glass of Virginia was extended a genial salute, and a half dozen others were picked out by the home folk groups and duly cheered.

So the convention got going in a cheerful mood, even if it was too hot for very wild preliminary demonstrations. That was the mood in which it welcomed Pat Harrison to his job of dealing with the Republicans and all their works and ways.

### Hollender In Favor Beer and Light Wine

**CLEVELAND, June 25.**—It would be far better to restore light wines and beer than to "permit the present orgy of health wrecking dissipation among young men and women," Dr. Abraham R. Hollender of Chicago told the eighteenth Convention of the American Institute of Homeopathy today. Widespread intemperance and poisonous beverages is undermining the health of the younger generation and causing an alarming increase in hay fever, he said.

### DRY OFFICERS IN SHOOTING AFFRAY WITH 2 TOURISTS

Participants Held In \$1,000 Bonds at Greenville—Resistance Made At Car Being Searched.

**GREENVILLE, S. C., June 24.**—Participants in the shooting affray on the Greenville-Hendersonville highway Monday morning in which two Atlanta business men were wounded in an encounter with prohibition officers, were held in \$1,000 bonds Monday, pending a hearing into the circumstances. Cross-warrants were sworn out by members of the touring party, which included the wounded men, and the officers, all of the warrants charging assault and battery with intent to kill.

Wounds May Not Be Serious  
E. M. Ivey, head of an automobile company, and Herndon Thomas, a salesman, the two men who were shot, are in a local hospital, and, according to physicians, their wounds are not serious unless complications set in. Ivey was shot three times, his most severe injury being a shattered knee. Thomas was shot in both arms. They were named in warrants sworn out by the officers, A. W. Martin and J. A. Foley, of the Atlanta Constitution and the Atlanta Journal, respectively, were companions of Ivey and Thomas, but they were uninjured in the encounter.

Federal Prohibition Agent Reuben Gonnell, State Constable John McCauley and the latter's son, Albert, comprised the party of officers who, according to Gonnell's statement, met resistance and were fired upon by Ivey when they attempted to search the automobile in which the Atlantans were sitting beside the road, about 15 miles from here. They are named in the warrants sworn out by the tourists. Gonnell's statement admitted that no whiskey was found in the search of the automobile.

The shooting Monday occurred about nine miles from the spot where in April of last year a group of prohibition enforcement officers fired upon an automobile occupied by Miss Mary Bowen and Miss Rosalie Gwyn of Asheville, asserting they thought it was a rum-running machine. Four officers and a citizen were indicted in connection with that incident and were acquitted.

## UNDERWOOD IS NOMINATED BY ALABAMA MAN

Fellow Alabamian of Senator Points Out Menace of Ku Klux Klan And Says Underwood Is Ideal Man

NEW YORK, June 26.—The demand of Senator Oscar W. Underwood, of Alabama, at the Democratic national convention to condemn the political activities of the Ku Klux Klan was voiced to the convention today by Forney Johnston of Alabama, as the keynote of his speech placing Mr. Underwood's name before the convention for the presidential nomination.

"No bare reference to the constitution or the bill of rights actually mentioned in the Klan oath, is adequate in this connection," Mr. Johnston declared. "The bill of rights are limitations only upon the state and federal governments and not upon private conspiracy. That is why the candidate of my people has insisted upon plain words.

"The question before this party is whether secret organizations shall be given powers immune from the bill of rights and superior to those delegated to the elected representatives of the people.

"Above all does the candidate we represent condemn the massed action of secret political orders in furtherance of any objective which is plainly contrary to the spirit of the constitution.

"In order to express squarely my opinion on this grave question, I have at his request, introduced a resolution reciting the established position of our party on that precise issue referring to the resolution of 1856 and concluding with this resolving clause:

"Resolved: That we do reaffirm the principles set forth in the said resolution of the Democratic platform of 1856 and condemn as un-American and un-democratic political action by secret or quasi secret organizations in furtherance of any political objective whatsoever and in particular do we condemn such action for the purpose of prescribing the political rights and privileges of citizens of the United States, as is now proposed, practiced, and publicly acknowledged by the organizations known as the Ku Klux Klan, and as may now or hereafter be proposed or practiced by any organization whatsoever."

Senator Underwood, Mr. Johnston said, had no word to say against those who joined any order, secret or otherwise, organized for the purpose of to advocate openly any principle within the scope of legitimate public discussion.

"What he does condemn is the participation in politics by any secret organization whatsoever," the speaker continued. "He believes that such action intimidates public officials and encourages political or on-bound pledges contrary to public policy."

The speaker described Senator Underwood as one whose "only employer for more than a quarter of a century last past has been the people of the United States."

"The one indispensable requisite of your choice is that it fall on a man of such exalted character that neither Wall Street nor Main Street, Boulevard or Alley, neither the meanest nor the wisest assassin dare impeach his character without earning immediate derision; and such a man is this Democrat whom we place in nomination."

Taking up his opening remarks the speaker said the Democratic convention nominate a man in "this crisis in public morals to restore to the people the confidence in their public concerns," Mr. Johnston continued.

"The Republican party organization misunderstood its victory in 1920, which was nothing more than the inactive reaction of the people against the administration immediately responsible for war taxes and for the unavoidable exercise of abnormal federal powers incident to war.

"Its officials came into power in 1921, exultant, over-confident and in a state of suspended morals as a result of that victory, and their party organization promptly lost its conscience and its capacity to recognize men and motives or to reconcile in the public interests its internal conflicts over the use of the powers of government. As a result of the condition at Cleveland the nation has discovered the complete break down of Republican morals and the loss of its courage.

"The Republican machine must stand aside for the people of this country will not allow their government to be betrayed with impunity. And remember, that the scandals of the present regime are but even yet plumbed or charted in depth and extent and are neither punished nor repented."

Notice is hereby given that C. Schultz, purchaser of Tax Certificate No. 110, dated the 5th day of June, A. D. 1922, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Block 11, Lots 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

BIBLICAL THOUGHT FOR TODAY: GOD IS GRACIOUS. There are a God ready to pardon, gracious and merciful, slow to anger, and of great kindness.—Nahum 9:17.

BOYHOOD

Ah! When how sweetly those crowded days. The minutes passing one by one like raindrops on a summer eve. But oh! what charm, or magic numbers Can give me back the gentle slumbers Those weary, happy days did leave?

The Junior Chamber of Commerce has started out with a bang!

This is another one of those days when some people have a half holiday—and some do not.

Have you ever seen a man who admits that there are two sides to every question—his side and the wrong side?

"Do it the electrical way," says an advertisement. But why try it in Sanford when it is such a gamble?

Albert W. Gilchrist trying to take issue with William J. Bryan in New York reminds one of a puppy leaping for a bark.

A mediocre man is one who can look at a cloudy sky and predict that if it doesn't rain, it will be a long dry spell.

The man who has no enemies is the man who has never done anything. A man of action must have enemies.

There is one good thing about alimony which holds good in most cases. You can pay it in monthly installments.

John W. Martin may receive three votes for the vice-presidential nomination. Now don't let him pull the Lowden "stunt."

That New York band playing "Over There" and "Tipperary" isn't any further behind the times than the fellow who goes to dance and waits to have a "Paul Jones."

Things to worry about: Handkerchiefs are not to be used any longer, as articles of utility, but in the future will be used merely for adornment.

Dawes will invent some new "cuss-words" before the campaign is a month old.—Tampa Tribune. Also a few after the November election.

About the only people who were glad to see the current on off yesterday afternoon must have been the occupants of dentists' chairs who had been receiving the benefits of a drill.

Philadelphia surgeons recently performed an operation on a young woman when they placed her heart in its right position. But they'll never be able to mend a broken heart.

Plant City Courier wants to know "Why do women pant?" Now isn't that easy to answer? Ask the ladies.—Times-Union. If you did, you would probably get woman's customary answer "just because."

A man recently arrested in California because he chose to walk the streets clad only in the climate, gave as his reason that it helped his heart disease. As a matter of fact the hot weather could also be offered as a reasonable excuse for such conduct.

They Herald makes it a rule to throw anonymous letters in the waste basket. The person who lacks the courage of signing his name to a communication need not waste his time writing letters for publication. Reliable newspapers these days do not publish anonymous communications.

Florida citizens should not forget that Albert W. Gilchrist and T. J. Appleyard at a meeting of the state delegation at the convention held Monday, voted to leave the dry plank out of the Democratic platform. Fortunately there were ten other members who upheld the lower of the state.

An Organization For Work

Sanford has a Junior Chamber of Commerce. Completely organized at an enthusiastic meeting Wednesday night, the new civic body has begun operations which are bound to have effect on the future growth and prosperity of the community.

In perfecting an organization for the younger men of the city, it was the thought that much better results could be secured if there could be two civic bodies, one for the older business men and another for the younger men.

With two busy chambers, seeking to further the interests of the city, to bring more tourists, to beautify surroundings, to do everything and anything to assist in bringing greater prosperity to the section, Sanford can hardly keep from making a stupendous growth in the months to come.

The annual report published by the Chamber of Commerce in The Sanford Herald a short time ago told of the great work which had been done by that organization during the past year. It also told of some of the plans for the coming twelve months activity. Backed by business men vitally interested in the future of the city, the senior Chamber of Commerce has made an enviable record, but one which will be overshadowed by what that body will accomplish the coming year.

The new junior organization has a fine start. Composed of over fifty, alive, wide-awake, and progressive young business men, the new civic body cannot but make a great record. Nothing is impossible to the young man. Full of "pep" and "action" and a desire to see things done, the coming days will in all probability see worth while movements begun and rapidly carried to completion.

Headed by G. W. Spencer, Jr., as President, R. S. Holly and R. G. Fox as Vice-Presidents and L. C. Babout as Secretary and Treasurer, the Junior Chamber of Commerce is officered by young business men of known ability. They will finish what they start. It is doubtful if more efficient leaders could have been found to guide the destinies of the new organization.

It is the plan of the two Chambers of Commerce to work together in all movements affecting the welfare of the community. By co-operating and working together it is thought that there will be no duplication of efforts. With but one object in view, that of building the community, both organizations have plenty to do and will bend all energies to doing it, with absolute harmony prevailing.

In the organization of a Junior Chamber of Commerce Sanford once again steps to the forefront of the cities of the state. The fourth junior body of Florida, the Sanford organization follows closely in the footsteps of Tampa, Jacksonville and Pensacola, the other Florida cities, all much larger than Sanford, having organizations of this kind.

The Herald hopes both Chambers of Commerce will receive the support they deserve. There is a place in either body for every man, desirous of working. There is lots to be done. More workers are needed. The man wishing to see the community grow as it should, can do nothing better than join forces with the Chambers of Commerce of Sanford. No man can excuse himself from taking an active part in civic work.

It would be a fine thing if every man in Sanford and Seminole county would become identified with either the Senior or the Junior Chamber of Commerce.

They Find "The Mooch" in Florida

Well, are you? Or have you ever been a—"Mooch"? Perhaps you never heard a gullible boob called by that name. It is the title applied to victims of high-pressure salesmen dealing in phony stock of one kind and another.

Norman E. Beck, Chief of the Division of Securities of the state of Ohio, has been giving out some startling information regarding the sale of worthless securities. He has gone after the swindlers rough-shod, and fayed twenty-seven hundred licenses to sell securities in Ohio, in 1923. Previous to Mr. Beck's regime, the largest number of revoked licenses for any one year in Ohio was two hundred and seventy-three. Hence the work of this "blue sky policeman" has not only created terror among the sharpers, but has sent them scuttling to other states where they can operate undisturbed by vigilant officials.

In an intensely interesting article in the June 14 issue of the Bearborn Independent Mr. Beck's work is described; and numbers of the firms whose licenses were revoked and mentioned by name with a description given of their various methods of robbing simpletons and greedy easy-money hunters.

The Herald regrets that it cannot give space to a full review of the article. There is little doubt but that many of the swindlers who have been driven out of Ohio have come to Florida to look for victims. The Independent article says that "California with its reputation for tolerant treatment of newcomers, its optimism, and the known presence there of thousands of retired mid-westerners with money seems to have attracted more of the gentry Beck has forced out of Ohio than any other state." But Florida goes into this same sort of category in which California fits. And right here in this state today are numbers of tricksters selling the same blue sky.

The easy victim of the high pressure salesman, the article explains, is termed a "mooch." Canvassing new prospects on a new deal is called a "turkey drive." And "bird dogs" are given a split of commissions for informing these salesmen of good prospects.

Here in Florida worthless stock is peddled and sold to men and women who think they are skillful business people. The easy-money hunters eager to get something for nothing can be induced to put their money into schemes that would never bear close scrutiny. But don't YOU be a "Mooch"—Play Safe.

GROW ALWAYS, GIVE of your store and to the best of your ability; fill the need nearest you—and one morning you will awaken to find the Blue-Bird nestling near your chamber window.

THE WOMEN OF THE CONVENTION

The national conventions of this year will be memorable for the fact that in them for the first time women found equal opportunity with men. It is an equal status for this newspaper, a pioneer advocate of suffrage, to greet the women of the Democratic convention and congratulate them on their new honors and position.

The head of the New York delegation is a woman. It is proposed to name women to the chairmanship of two committees. These are gestures of courtesy rather than substantial grants of power. But they recognize eloquently the change that has come. There is no longer hanging back by the post-adopter politician. Women have arrived. They are powerful forces in parties and in politics. The politicians of both parties are now aware of their full equality and are making their full use of it.

As Brisbane Sees It

Sabbath politics. McAdoo still strongest. McAdoo and interest. \$240,000,000 a year.

IT WAS A BUSY New York Sabbath for the politicians and the statesmen.

Statesmen, you know, are candidates for the presidency. And politicians are the practical men that handle the candidates, as the owner of game cocks handles his birds in the fight. They (the politicians) decide on the man whom the important people are to elect.

THE DARK HORSES were the cheerful ones yesterday. It seemed clear that the two leading candidates, Al Smith and McAdoo, must kill each other off. That is, it seemed clear to all dark horses.

McAdoo and his crowd were as confident as ever. Rightly or wrongly, they were convinced that Al Smith's nomination is absolutely impossible, entirely apart from McAdoo. They believe that Smith's BACKERS KNOW IT, although Smith does not. And they believe that when the Smith men get ready to deal they will come to McAdoo.

WITHOUT QUESTION, McAdoo is the candidate with the following now, among delegates and among the voters. His big strength with labor, not merely union men but all workers, is admitted by every politician.

When men break away from their own man they go to the one with most strength, not wanting a loser for their second choice.

That is what makes the McAdoo crowd hopeful.

ON THE OTHER HAND, Al Smith is among the ablest politicians in the country. He has learned politics from the cradle, as a Scotch golf professional learns golf. He knows every politician in the country. He has done a thousand favors for every big boss. He can make any promise he chooses, in the name of Wall Street, and the promise will be kept. You know it is not easy to beat experience and money combined.

IF IT WERE NOT for the power of William Jennings Bryan in any convention, Smith might accomplish what a majority of the delegates, including 99 per cent of Southern delegates, believed impossible. Bryan will fight Smith to the death, politically speaking. So much for politicians. Nothing real will be known for several days.

A BERLIN SCIENTIST has isolated the germ that causes foot and mouth disease. That news will be worth many millions to the country, directly, and billions perhaps, indirectly.

It is reported, although fortuitously NOT proved, that agitators in the West have purposely spread foot-and-mouth disease by means of dogs and otherwise. California is a bad state in which to play a game of that kind. The perpetrators would find it more dangerous than horse-stealing in Texas in the old days.

THE TOTAL DEBT of the United States, of which YOU are a part, is twenty-one thousand million dollars, plus a few hundred million. One year ago it was one thousand and nine million dollars more.

The difference is due to McAdoo, the secretary of the treasury. At the rate he is going, our debt will entirely disappear in fifteen years. That's BUSINESS.

INCIDENTALLY, THOSE interested in Democratic candidates may remember that part of the economy was made possible by W. G. McAdoo. When he was secretary of the treasury he employed many big financiers by stabilizing the interest rate of government bonds at 4 1/2 per cent. They demanded 5 1/2, but he said "NO!"

That one per cent saved by him on a debt of twenty-four billions amounted to two hundred and forty million dollars a year. William McAdoo is elected president or not, one thing is sure, he has earned his salary several times over.

Some big men would love McAdoo more if he had let the government pay 5 1/2, thus raising interest rates everywhere.

A CHICAGO PROFESSOR, remarking what he calls thinking part of the brain of 200 pigeons, finds that "bbling and cooing" go on as before. Some foolishly conclude that "love has nothing to do with brains and intelligence."

In the eye of Mother Nature, affection which insures alone production and continuation, is more important than any "thinking." It is the most important "brain work." Without affection and marriage, from the top to the bottom of the animal kingdom, there wouldn't be any NEXT generation, therefore no thinking done.

As for thinking, every cell in the body does its share of thinking and feeling.

BERLIN ANNOUNCES the sending of pictures, automatically done by wireless. That makes you believe in scientific miracles. It's more wonderful than the old legend story of the virtuous woman who saw her husband's face in a mirror.

How rapidly they are making their presence felt and how effectively they can count in the councils of politics—the preliminary sessions of the Democratic convention have already made clear. It is through lack of experience and lack of numbers, they cannot yet exercise an equal influence in the conventions with the men, the moral for the future cannot be mistaken. The women of America are now and will be a more powerful and effective voice in American politics.

THE GREAT INTERNATIONAL PASTIME

AVENUES OF APPROACH

WAYCROSS JOURNAL-HERALD

In seeking a location for his business house the owner always has regard for its accessibility. Frequently big corporations will station a man on the sidewalk and have him count the number of people passing in a day.

But there are other avenues of approach to a business than the street and the sidewalks. One important avenue is the personality of the owner and of the sales force.

The man who has gained access to the personality of the merchant or of his employee is always a prospective customer. This is why the progressive business man keeps wide open the avenues of approach to himself or to his sales force.

We approach unto man by possessing a common interest with him. That interest may be fishing, golf, Masonry, Kiwanis, Luncheon Clubs, Lions Club Luncheons, Chamber of Commerce meetings, hunting, children. What ever the common interest may be it is something that brings two people closer together. For each it is an avenue of approach to the other.

Progressive business men have long since learned this. They buy golf club memberships, civic club memberships, and present them to their sales force. They see to it that the store or office is capably represented in every line of activity or amusement the people in the city have. All of this means multiplied avenues of approach to the store.

The merchant who never joins any group, who never encourages his sales force to become members of organized units, has practically narrowed down the avenues of approach to his store to a very small number.

The man who sits at a Chamber of Commerce meeting with a merchant or one of his sales force is apt to buy that pair of shoes he needs from him; the man who knows a merchant favorably by having worked with him on a Kiwanian committee is not going to forget that impression when he buys hardware; the man who has hauled a twenty foot yuk and halved the fifteenth hole with a salesman is not going to forget him when he is buying his summer suit.

The business man who refuses to join, and is unwilling to let his sales force have the time or money needed for memberships, is effectively closing up avenues by which prospective customers approach his store or office.

HAIR

BALTIMORE SUN

A certain man who has had much to do with race horses is quoted in the public prints as saying that he judges the fighting quality of a horse or a man by the presence or absence of coarse hair near the eyes. This may or may not be a good system, but as to the relationship between hair and a fighting spirit, any man may judge for himself by observing his acquaintances.

Consider the man whose head is covered with a heavy thatch of black bristles and whose face remains blue after the barber has done his best. Here is a scrapper. He may not be quarrelsome and prudence may send him on his way when the odds are too heavy; but anybody who desires a few minutes of concentrated trouble may obtain it by kicking this individual on the shins.

The well-haired chap whose thatch is yellow or tinged with red is a first-class fighting man, also, and dearly loves to mix it; but he fights coolly and cheerfully and without rage. True, he may have a temper that is set on a hair trigger, but temper is a flash in the pan while rage is a consuming fire.

Now observe the gentleman whose soft locks of whatsoever hue have fallen by the wayside. He may fight well if fight he must, but he is a lover of peace and no crusader. He employs a soft answer more frequently than his fists.

Here, then, is the making of a pretty theory. When man ran wild and wore few garments he had need of considerable hair to protect him from the weather. Nature provided the hair. As civilization exerted its softening influence and more garments made their appearance, man was denuded of his foliage.

The bald and those possessed of soft locks are not more civilized than their brethren; but they have been more affected by civilization and retain less of the ferocity that was essential to longevity in an earlier day.

If this is a good theory, we need not expect the hairing of everybody's head—and that, as every hair tonic addict will agree, is a great price to pay for peace.

THE UNATTAINABLE

NEW YORK HERALD-TRIBUNE

Some one once asked George Leigh-Mallory why he wanted to reach the summit of Mount Everest. "Because," he said, "it is there." That might seem an absurd reason for a man to lay down his life; but it is a pale imagination which cannot feel that it is worth while to meet death on "the highest point in heaven." Just because it was the last and most exalted spot on earth, Mallory and Irvine wanted to stand upon it if they met the magnificent challenge of these eternal snows with a magnificent assault, and if they failed they failed grandly.

Dan Dobb

Sweat the flies now or they will sweat you later. Don't make the mistake of being for the silver lining of a life. It is very easy to rise in one's own estimation.

It is a wise drinking man who moves to a house near a bar. No man is boss in his own house until the family takes a vacation.

In some way you always get what you get, even if you don't always get what you pay for.

The mosquito, our most useful bathing suit censor, is worth again.

The man who says he will do anything once may try it once often.

While trying to impress on them, be careful that you don't do them.

A boy usually grows up to be a man while a man usually grows up to be a boy.

People are smoking so much that it is hard to tell when to call a wagon.

## Summer Hints For Young Mothers

"Second Summer" Teething

There is a common old saying among mothers that if the baby survives its second summer, it will be over the most dangerous period.

This is based on the fact that hot weather is hard on a teething child. One of the most famous children's specialists says that a healthy child in teething may be fretful and sleep poorly for a few nights, may show loss of appetite, and slight fever, and may drool, but such spells should only last three or four days—and most of the symptoms commonly attributed to teething come from indigestion due to wrong food.

For children's indigestion, there's nothing more effective than Livo-lax, and they like to take it. You can get a good-sized bottle at the drug store for 30c.

**THE SIGN OF A GOOD INVESTMENT**

If there is any one thing which the march of events has established beyond question of doubt, it is that you can make money today by buying real estate in Miami. But if you want to not only make money on real estate but to insure for your investment the highest degree of safety and security—and remove practically all elements of speculation—you should buy real estate of the most approved development where rapid growth is a guarantee of rapid profits.

Coral Gables stands first and foremost among high grade properties of Miami for one very simple but potent reason. The reason is that more money has been spent in Coral Gables development than has been invested in the beautification of all other Miami neighborhood properties combined. The unlimited resources, immense financial backing and the highest quality of construction which Coral Gables have done more than merely create beauty. They have insured solidity and safety for investors. They have made for constant rapid growth, for ever increasing utility, for constantly increasing desirability. First and last the tremendous resources which have been invested in the building of Coral Gables has piled up large profits for Coral Gables buyers.

The extraordinary features which are Coral Gables' great pride are at one and the same time the chief source of profit to Coral Gables investors. The experienced of the past two years is the best proof of how large these profits may be. To those who invest now there will be a still larger return and more convincing proof in rapid growth and steady increase in values during the next two years.

Come to Coral Gables today and see the magnificent strides which are being made at Coral Gables. The tremendous development which has been invested in the beautification of all other Miami neighborhood properties combined. The unlimited resources, immense financial backing and the highest quality of construction which Coral Gables have done more than merely create beauty. They have insured solidity and safety for investors. They have made for constant rapid growth, for ever increasing utility, for constantly increasing desirability. First and last the tremendous resources which have been invested in the building of Coral Gables has piled up large profits for Coral Gables buyers.

## Five Americans Are In British Tourney

**HOY LAKE, England, June 26.**—Fine weather, tempered by winds from the sea, is in prospect for the start of the British open golf championship Thursday morning in which 80 professionals and six amateurs, including five Americans, are entered.

Two rounds will be played today and two on Friday.

Most of the expert observers go no further than cautiously to predict that eight men—four Britons and four Americans—are most likely to be fighting for the trophy when the final round begins.

## DAYTONA WINS 5 TO 3 CONTEST FROM GROWERS

**Single in Ninth Wins for St. Petersburg Over Tampa—Lakeland Wins Third in Row From Orlando**

**Daytona 5; Bradentown 3**  
BRADENTOWN, June 26.—Daytona played good ball to take the final game from Bradentown Wednesday, 5 to 3. The game was 3-3 from the fourth on and a ninth inning batting bee bursted up the old ball game. Welch featured with two extra base drives and a couple of circus catches in left.

## Institute Proceedings Against Oil Companies

**WASHINGTON, June 25.**—Fifty or more principal oil companies of the United States were attacked in anti-trust proceedings instituted by the government today in the Federal Court at Chicago. Attorney General Stone asked an injunction to restrain companies from further violations of the Sherman act which he charged against them. The complaint charged a "combination and conspiracy in restraint of trade and commerce among the several states and with foreign nations in gasoline, kerosene and other hydrocarbon products."

The method of selecting vice-presidents usually indicates a profound faith in the longevity of presidents.—Akron Beacon-Journal.

### THE ART OF BEAUTY

BY B. M. DOUGLAS

The thoughtful beauty

Winifred Lenihan, Bernard Shaw's "Raint Joan"

olive, her hair dark, she chooses Annes of Rosa. If she is fair, Mandarin. Her clear complexion will respond to the warmth of Peaches all powers. But this type, above all others, must experiment, for the slightest garbance will ruin the dainty which is an essential of her charm.

The thoughtful type of beauty has an pitiful into which she must not fall. Because she does not attract at first sight like her showier, more vivacious sisters, she may force an unnatural gaiety, wear more dazzling dresses, and in other ways, defeat her own natural charm. To her I would say, be yourself, and you will like yourself better eventually attract to yourself those types which are congenial to your true nature. Whereas if you assume a feignous personality, it will neither impress the frivolous, nor gain the attention of the real friends which your own thoughtful charm would make.

### Hunt's Washington Letter

BY HARRY R. HUNT

NEA Service Writer.

NEW YORK, June 26.—The Democratic committee, in preparing for the New York convention, foresaw a long drawn-out process of admission to the party, and has decided to hold a caucus for 15 days. This provides for a longer session than that attending the record deadlock in Baltimore in 1912 when Champ Clark, with a majority vote in his favor, was unable to open the convention.

Next to Rutland, the second-line candidate developing early strength that makes him appear as a possible factor in the final showdown is John W. Davis, of West Virginia.

Davis, although presented as West Virginia's favorite son, is a New York attorney, with Morgan & Lewis, New York, for his law firm. His action he will inherit a large block of the Smith ballots whenever the strength of the New York governor begins to disintegrate.

For while the following of other candidates can be measured by the usual political considerations, that of Al Smith in his home state delegation outbursts of an emotional fervor that defies analysis.

To them he is the one heroic figure in the convention. They refuse to lift their eyes beyond him even to consider second choice possibilities. They admit of no second choice.

There is a crushing, almost religious spirit in their championship that amounts to worshipship. Just as the old story of the under New Yorker's geographical horizon ending with the Hudson river was correct, everything west of that being wilderness, so the political vision of New Yorkers at the convention limited to Al Smith. It is the only thing they will consider even for a moment.

But also, just as there is a vast and unpopulated territory west of the Hudson that is America, there is a large and unpopulated territory of delegates from outside New York who cannot be smothered through the New Yorker's eyes. They see Al Adon, listening Davis, Gibbs, and a half dozen others, as equally desirable and equally likely to drag down the covered nomination.
